

FROM THE HOPPER By HOP

Just in case you might be looking for The Tribune office, it is located just south of the snazzy Aldridge & Aldridge office on Third Street in Farwell.

In appearance it used to compare favorably with the other buildings in the block, but since the Aldridge boys have dolled up their quarters it now resembles a livery stable or a mule barn.

George Hill was just in and wanted to know when I was going to remodel this joint. And I had the pleasure of informing him that I was the first, one in town to start this remodeling rage in the fall of 1950. My money ran out and had to quit before I got the place to looking like Gabe's bank, Claude's drug store and my neighbors' abstract and law office.

Dick Keys, traveling representative of the Western Newspaper Union of Wichita, Kansas, was here Tuesday. Dick travels all over the Texas panhandle, over into Oklahoma and on into Kansas, then back down along the eastern side of New Mexico.

He said Tuesday was the first day in the past thirteen that he not been caught in heavy rains somewhere in his territory.

Say, you guys who have political aspirations! Did you know that you have only until May 5 in which to file for application on the ballot for the Democratic primary election on July 28?

Yes, sir, the date for filing has been advanced this year, and if you are figuring on getting your hat in the ring, you'd better drop around and see Gabe Anderson and get your name on the ticket.

It has been the unhappy experience of some office-seekers in Parmer County in past elections to fail to file with the county Democratic chairman before the deadline with the result that his name could not appear on the official ballot.

Sterling Donaldson, who used to run in the 200-yard dash when he was a high school lad, drove all the way to Odessa last Saturday to witness the regional track meet. Naturally, he was interested in the 220.

After standing in the rain for three hours waiting for this event to come off, Sterling's attention was called to an automobile wreck near the field.

The 220 was unfolded while he was inspecting the wreck!

Reminds me of many of my fishing experiences. Take the element of anticipation out of fishing and you don't usually have much left.

The fish always bite best the day before or the day after I unwind my tackle.

If you don't believe every dog has his day, you haven't driven a car down the residential sections of Farwell recently.

The Tribune comes to you in sixteen pages this week. Pardon us for bragging, but Canyon and Hereford are the only towns in this entire region that issue weekly newspapers of comparable size.

And here's an appreciated note from Mrs. Jim Nunley, nee Dora Dean Perkins, daughter of Mr. and Mrs. Clyde Perkins. She writes, "Even though Jim isn't from Farwell, he won't let me touch The Tribune until he had read your column." Poor Jim!

Rather than quarrel with my wife for going through my pockets, I rather admire her optimism.

Aldridge Law Offices Being Completed

The abstract and law offices of John and Sam Aldridge, which have been in the process of being remodeled for the past several days, are being completed this week.

The new quarters present one of the most complete and modern suite of offices to be found anywhere. Private council rooms have been provided, a large library has been arranged, adequate reception space is set out in front of the offices. All floors and walls have been attractively decorated, and a new lighting system has been installed. All quarters will be heated and cooled with a central system.

The new plumbing system includes rest rooms, hot and cold water and an electrically cooled drinking fountain.

A new front has been added, giving the building a most attractive appearance.

County Candidates Must File By May 5

Under the new law now in effect, candidates for county and precinct offices must file their applications for places on the ballot not later than the first Monday in May, which will be 5, this year.

Presently, only one incumbent in Parmer County is being opposed in his bid for return to office for another term.

In Precinct No. 1, Forrest Osborne is contesting E. R. Day for the office of county commissioner.

There have been no rumors lately that would indicate any of the other present office holders in this county will be opposed in their races for re-election, and indications are that they will be presented the nominations on silver platters.

They include, A. D. Smith, county judge; Loyde Brewer, county and district clerk; Chas. Lovelace, sheriff, assessor, collector; Mrs. Mafile Reynolds, county treasurer; Sam Aldridge, county attorney; E. F. Billingsley, county commissioner, precinct 3; C. H. Jefferson, county commissioner, precinct 2; H. L. Ivy, county commissioner, precinct 4.

The county executive committee will meet on June 16 to set the cost of running for public office and to determine by lot the places on the ballots.

Republicans Set Date For Precinct Meeting

The Republican party, which has been rather inactive in Parmer County in recent years, has been reorganized under the leadership of Leo McLellan of Friona as county chairman, with a complete set of precinct committeemen in the eight voting boxes of the county with the exception of Oklahoma Lane.

McLellan said today he had been unable to obtain a committeeman in that voting precinct.

The Republican precinct conventions will be held Saturday afternoon, May 3, at 2 o'clock p.m. for the purpose of naming delegates to the county convention to be held at the courthouse in Farwell on Tuesday, May 6, at 3 p.m.

McLellan listed the following committeemen, who have been named in the county:

Black, Roy Euler; Friona, Geo. McLean; Bovina, Bass P. Elliott; Farwell, John Getz; Lazbuddy, L. F. Brune; Rhea, Carl Schlenker; Lakeview, Mrs. Grace Whitefield.

MRS. ROBERTS BETTER

Mrs. M. C. Roberts, who has been confined to her bed the past several weeks with a blood clot in one of her legs, is showing improvement. She has been home the past two weeks, but was scheduled to return to Dallas this week for further observation and treatment.

PMA Office Report Indicates New Interest In Castor Bean Possibilities in Parmer

Several hundred acres of Parmer County irrigated land will be planted to castor beans if farmers present plans materialize. Joe Camp, PMA administrator for this county, released this information today.

A planting demonstration will be held on the Bill St. Clair farm about one mile east of Muleshoe on the Earth highway, just north of airport. Anyone interested is invited to attend. Camp says, at two o'clock in the afternoon, April 30.

A critical shortage in castor oil for use in the defense program has prompted the government to make an attractive proposition to farmers in castor bean production. The War Munitions board has called on the Department of Agriculture to help overcome this shortage. Prior to 1951, practically all the castor beans processed in the United States were imported from India, Manchuria, Africa and Brazil. Such imports are now practically cut off.

Last year, there were approximately 81,000 acres of land in the United States seeded to castor beans. The goal for 1952 is 200,000 acres. It is hoped that by 1955, half a million acres will be planted to this vital defense crop. That much acreage is estimated to be enough to supply this country's needs.

The castor bean program handled by PMA is on an irrigated basis with only an irrigated variety of seed available. Indications are that farmers in Hale, Lubbock, Crosby, Parmer, Bailey, Cochran, Yoakum and Gaines will participate.

County PMA offices have been charged with the responsibility of administering the program. Growers will enter into a contract with the county PMA office under the terms of which they will obtain seed and necessary planting equipment. The government will also furnish all hulling and harvesting equipment and will purchase all beans at the (Cont. on last page, this section)

Bewley Farm Sale Comes Monday, 28th

T. W. (Tot) Bewley, who has leased out his farm and is going to have a general farm clean-up sale, stated today that the sale would be held at his place on Monday, April 28, located four miles west and 2 1/2 north of Lazbuddy.

Fifty-three head of cattle, some good farming implements, planting seed and miscellaneous items make up the goods to be offered at public auction. The sale will get underway at 10 a. m. and the Baptist ladies of Lazbuddy will serve lunch at noon.

Col. Dick Doshier, Farwell auctioneer, will be in charge of the sale, with Orval Francis and Hugh Freeman acting as clerks.

County-Wide Cotton Meeting In Friona

A county-wide cotton meeting is planned Friday night, May 2 in the high school auditorium at Friona, beginning at 8:30 in the evening. County Agent Joe Jones announces.

Allen C. Gunter, state entomologist with the Extension service, will discuss the 1952 insect control program. Gunter will also talk on beneficial insects on the cotton plant.

Fred Elliott, cotton works specialist, also from College Station, will be featured on the program. His subject includes: seed treatment, mechanical and chemical grass and weed control, variety recommendations for machine harvesting, defoliation and ginning of mechanically harvested cotton. Both Gunter and Elliott will show colored slides on their respective subjects.

"This same group was at the county-wide meeting held in April at Oklahoma Lane last year and gave us some good information," Jones states.

Bovina Child Killed By Monoxide Fumes

Funeral services for Dorothy Louise Walder, 3-year-old daughter of Mr. and Mrs. Robert J. Walder, who live on the Melvin Sudderth farm northeast of here, were held at the Church of God in Christ at Clovis, Tuesday afternoon with Rev. Fisher Alexander officiating.

The little girl died in the family automobile in Clovis Sunday night of carbon monoxide poisoning while being taken to a Clovis hospital. Jimmy, 5-year-old son, was overcome by the fumes, but was able to leave the hospital Monday morning. The other children were affected but escaped illness.

The family had been in Clovis and had stopped at a drive-in before starting back to their home. They left the motor of their car running while they ate. Shortly after they had started home, four of the youngsters fell to the floor and started crying.

Walker stopped a police car and asked the cop to assist him in getting the children to a hospital. Dorothy Louise was dead upon arrival at the hospital.

Survivors include the father and mother, a sister, Brenda Joyce, and four brothers, Jimmy, Robert, Ray and Freddie.

Mrs. Jess Newton returned Wednesday of last week from Amarillo where she had been visiting in the home of her daughter and family, Mr. and Mrs. Orville London.

Final Rites Conducted For Lacy L. Gant

Funeral services for Lacy L. Gant, 19-year-old son of Mr. and Mrs. John Gant, were held at the Baptist church here Sunday afternoon, with Rev. C. M. Fields, pastor officiating, assisted by Rev. A. W. Harris of the Assembly of God church.

Under the direction of the Memorial Chapel, burial took place in the Texico cemetery. Active pallbearers were: Kennard Harris, Jerial Doolittle, Billy Murdick, Arlye Crooks, Paul Crooks and W. O. Reid, all former school mates of the deceased.

Gant lost his life in a motorcycle accident near Astoria, Oreg., where he was stationed in the Navy, on April 13, and his body was returned here for burial. Gant, a former student of the Texico school, enlisted in the Navy in March of last year.

Mrs. Morgan Passes In Lubbock Hospital

Mrs. Herschel W. Morgan, 39, passed away in the Lubbock Memorial hospital at 4:30 Sunday morning, where she had been under treatment for two weeks. She had been in ill health for many months.

Funeral services were conducted at the Baptist Church here Tuesday afternoon at 4 o'clock, conducted by Rev. Willie Fox of the Primitive Baptist church in Amarillo, assisted by Rev. A. W. Harris of the Assembly of God Church in Texico. Burial was made in the Texico cemetery, under the direction of Steed's in Clovis.

The Morgan family came to Texico in 1942 from Portales, where they were married, and have been residents of this city since that time.

Members of the immediate family who survive, are her husband, one daughter, Mrs. Leroy Wilkinson, Clovis; two sons, Cpl. Raymond Troy, Presqueisle, Main; and Alton Lee, Clovis; one granddaughter, Sherian Gail Wilkinson, 3, Clovis.

She is also survived by her father and mother, Mr. and Mrs. G. D. Fox, Portales; six sisters, Mrs. Mattie Deadoff, Levelland; Miss Ethel Jones, Portales; Mrs. Dollie Kelley, Lockney; Mrs. Ella Lewis, Las Vegas, N. M.; Mrs. Nella Graham, Portales; Mrs. Pauline Carter, Portales; and two brothers, Johnnie Jones, Compton, Calif.; and Opal Fix, Portales.

Pallbearers were, Frank and Silas Jones, J. E. Stone, Russell Johnson, Les Means and J. H. Winegeart.

MARTIN IMPROVING

V. L. Martin, who has been a patient in the Veterans' Hospital at Amarillo the past several weeks, is reported by family members to be showing some improvement lately. He writes his family that he is able to be up and about the hospital for short intervals now, but doesn't know when he will be permitted to come home.

Generous outpourings of badly needed rains have fallen over this entire region during the past week bringing jubilant smiles to everybody.

A check of the rainfall reports over the entire plains region indicate that the Texico-Farwell area came in for the most generous wettings yet to be reported.

The average over the Plains region appears to range from two to three inches, while the local area boasts of rainfall in excess of four inches, with even heavier downpours being recorded near here.

The actual measurements locally show that a total of 4.22 fell here, with deluges up to five inches and more being reported in some widely scattered sections.

Five-inch downpours are reported in the Oklahoma Lane sector, where the water flooded highways and filled lakes. Similar reports come from the area near the Texico cemetery and northeast of town along Highway 60, where highway crews were called out to scrape a covering of muck from the pavement.

Old-timers are calling the wet spell the most generous to ever be recorded here this early in the year. The rains extended over a six-day period, which is something else unusual. Beginning on Wednesday night of last week, rain fell in varying amounts every day until Monday, with these readings being recorded:

Wednesday night, .75; Thursday night, .85; Friday, .62; Saturday night and Sunday morning, .78; Monday noon, .22.

With the exception of the heavy downpour Thursday night, all the rains fell slowly and gently with the result that very little of the water ran off. Thursday night's 1.85 inches flooded streets and gushed down the bar ditches, creating water in surface lakes. Neither of the draws that criss-cross the county were brought to running stages, although Running Water Draw accumulated enough water to fill the main channels.

Reports from all directions indicate that the rainfall was generous with an estimated three inches falling in most localities.

With few exceptions, all the farmers had their lands listed up and ready for the rains. Some washing of farmlands has been reported, but none of the damage has been on a widespread scale.

Remaining fields of wheat, which had been waging a losing fight against drouth, high winds and hot weather, will be greatly benefitted, and prospects for a good yield on the remaining acres have been heightened considerably.

The rains will mean early planting operations and elevator men report a heavy demand for planting seed. Most farmers contacted this week say that they plan to begin getting their seed in the ground early next week.

Range lands that have afforded little or no grazing in the past several months, will put on new growths of grass to the everlasting delight of the stockmen, who have been forced to feed their stock on high-priced feed for many months.

**Dr. Hamlett Speaks At Oklahoma Lane**

Dr. Earl G. Hamlett will preach at the Oklahoma Lane Methodist church Sunday night, April 27, and will conduct the meeting of the Fourth Quarterly Conference immediately following the preaching service. The pastor wishes to urge every member to attend as the officials for the new church year will be elected at this meeting. A warm welcome also is extended to those who may not be a member of the church to attend any, or all of the services. Rev. Vernon Willard, pastor, says.

The pastor feels that the work of the church has been going forward in a very fine way through the year. The average Sunday School attendance has been about 110 and the morning preaching attendance has been about 120, with an average attendance of about 75 on Sunday nights. There have been 25 received into the church during the past eleven months.

The school building that was purchased a few months ago, is being converted into a beautiful church and educational building and members are hoping to have the building ready for use in less than two months. About \$15,000.00 is being spent on the building and improvements. "But the people are not forgetting others as they seek to carry on the local work of the church. Some \$2300.00 has been given for Mission Work and other causes outside of the local congregation," Rev. Willard states.

The pastor would like to express his deepest appreciation for the fine way in which the people have worked together and for the good work that has been done for better homes, a better church, and a better community.

**Electric Cooperative Meeting for April 30**

T. E. Seigler Jr. President of Board of Directors of the Deaf Smith County Electric Cooperative said today that plans are complete for the 14th annual meeting and barbeque to be held by members of the Cooperative at Hereford on April 30.

The business meeting which is scheduled to begin at 1:30 p.m. in the Bull Barn will be preceded by an old fashioned barbeque which will be served in the Norton Building across the street from the Bull Barn.

Seven directors are to be elected at this meeting. Two to serve for a one year term, two for a two year term and three for a three year term.

In order to assure democratic representation the By-Laws were changed to provide that not more than three nor less than two directors shall be elected from any one county.

One feature to be tried at this meeting will be a question and answer session. As each member registers he or she will be given a blank sheet of paper on which to write any questions they may want answered. These questions will be collected and answered from the speakers stand.

The Hereford High School Glee Club, under direction of Don Moore, will furnish entertainment.

A good many door prizes have been donated by Electrical Dealers and Local Merchants to be drawn for at the close of the meeting.

**Judge Bills Addresses Texico-Farwell Lions**

Judge E. A. Bills discussed "Life Estate" at Lions club meeting Tuesday of last week, bringing out pointers on life tenants and the future generation.

Judge Bills linked his remarks with property when willed to descendants as defined in court, as a basis for urging the group to "take care of our heritage." He also brought in the communistic element, which is trying to destroy the heritage. The speaker listed four basic buildings in the estate: the home, church, school and courthouse.

A nominating committee was appointed to present officer nominees at the next Lions club meeting, in May, Otis Huggins, Boss Lion, states.

**QUESTIONS AND ANSWERS FOR VETERANS**

Q—I plan to get a GI home loan, and I'd like to find out what would happen in case I fail to make my loan payments. I don't expect to default, of course, but I do want to learn all the aspects.

A—Failure to make your loan payments may lead to foreclosure and loss of your home. Also, if the Government is required to pay a claim because of your failure to meet payments, you will become indebted to the Government for the amount of any such claim.

Q—I'm a married veteran, training under the GI Bill, and I've just been rated as 60 percent disabled by VA. Will VA pay me both the extra amount of disability compensation that goes to those with dependents, plus the higher rate of GI subsistence for veterans with families?

A—No. Instead, VA will pay you either one of the extra amounts for veterans with dependents—but not both. You have the right to choose whichever extra payment you wish to receive.

Q—If the next-of-kin of a deceased veteran qualified for both VA compensation and pension, may

that person receive both awards?

A—No. Such a person may elect to receive which ever benefit is most advantageous. The benefit not chosen is placed in suspense, and the suspense may be lifted at any time by the person making another selection.

Q—I expect to enter a VA hospital in the near future. Will I have a choice as to which hospital I will go?

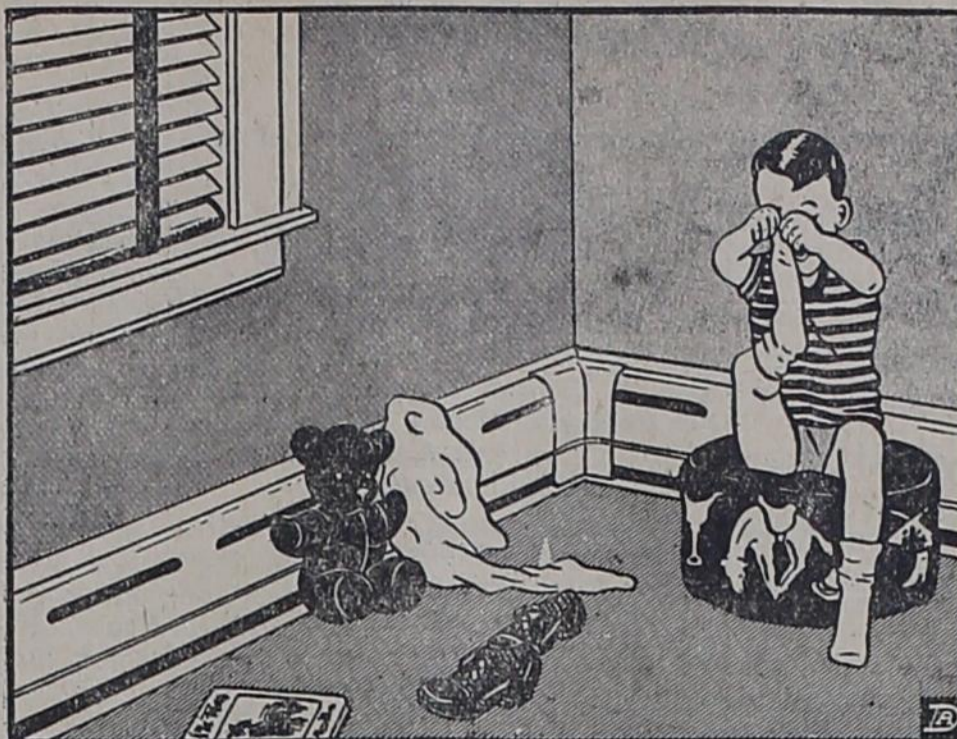

A—Generally, a veteran is assigned to a hospital nearest his home. But crowded conditions in certain hospitals, or the type of disability suffered by the veteran might result in his being assigned to a special hospital in another section of the country.

**Baseboards Banish Chilly Floors**

Children can play comfortably on the floor of a room heated by a baseboard without fear of chills or catching cold. No chills—for these inconspicuous units distribute heat at ankle-level, warming the floors where cold air settles. No colds—for baseboard heat is circulated evenly throughout the room, with no cold-causing drafts.

There are no hot or cold spots, either. Whether you are on the floor next to the baseboard or at the opposite wall, the temperature will vary little. Baseboard heating is clean, too.

Baseboards fit snugly against the wall, taking no more room than the conventional wooden baseboard they replace and leaving the floor free for furniture arrangement. When installed under the popular picture window, they counteract the cold glass area with a blanket of warmth. Baseboards can easily be installed in both new and existing homes.

Available in two types—radiant and radiant-convection—baseboards constitute a neat, continuous panel which can be painted to blend in with any style of room decoration. With baseboards, you'll be as comfortable as Junior—and you'll have to look twice to find the heating unit.

We Furnish The Auctioneer and Clerk; Take Care Of Printing Of Bills And Radio Advertising

To bring more telephone service to the people of New Mexico, we're building new facilities at the rate of more than \$1/2 million a month!

The program includes new buildings . . . new switchboards and dial equipment . . . more cable, poles, wire and all the other things necessary to provide telephone service.

Money to finance such a huge program must come from people who are willing to invest their savings in the business.

Vital materials are difficult to obtain in the quantities we need, but we are doing all we can to secure maximum allotments.

Every effort will be made to complete the program as planned so we may meet the growing demands of the armed forces and vital defense industries, as well as the requirements of home telephone users.

The bride's only attendant was Miss Bertha Owens, whose dress was of orchid taffeta with white accessories. Her flowers were white carnations. J. D. Kelley attended his brother as best man.

After the ceremony, a reception was held in the home of Mrs. Bowen. The refreshment table was laid with a hand made lace cloth with crystal appointments. The flowers in the reception room were white stock and pink carnations.

**SPEAKER IS NAMED**

William A. James, pastor of the Presbyterian church in Clovis, has accepted an invitation to speak to the Farwell seniors on commencement night, May 23.

**Sixth Grade Has Train Unit**

"Texico sixth graders are having a unit concerning the study of the train," states Mrs. N. W. Peyton, teacher, today.

Spelling words on railroad terms and themes on particular phases of railroading were given to the students.

While welcoming the Amarillo Booster, the class paid special attention to the train and depot. An art project was to draw three trains. Jerry Henson, engineer, drew the engine for Tom Thumb, the earliest train; Dicky Adams, conductor, drew the coal car; Daymand Green, the express car; Dwayne Winkles, Lynell Lovett, and Jimmy Moore, the passenger cars.

Modern stream liner featuring a diesel-electric engine drawn by Mat Pendergrass, engineer; Gwenette Powell, conductor, drew the caboose; passenger and pullman cars were drawn by Faye Autrey, Geneva Hariman, Gloria Johnson, Karen Brehem, and Audrey Hapke.

Billy Hudson, engineer, drew the big steam locomotive for the modern freight train. The caboose was drawn by Conductor Buddy Spears; box cars by Drue Harvey, and Gerald Brown; refrigerator car by Bobby Patterson; cattle car by Ray Autrey; gondola cars by Jerry King, Nathan Tharp, and Melba Doshier; oil car by Joe Spears; flat car loaded with lumber and army equipment by Patsy Cox, Doyle Winegeart, and Johnny Mac Brown.

Billy Hudson brought a toy electric train which he operated for the class. Also he demonstrated the train for the other grades.

The following slide films on railroading were shown to the class; Tommy Takes a Train Ride, Railroads and Defense, Railroads and The Clothes We Wear, and Railroad Buyers.

"The class wishes to thank Mrs. Jones for the use of 56 enlarged pictures of Railway activities," Mrs. Peyton says.

**Peanut Butter Loaf**

Here's a really new bread for your table—a yeast loaf flavored through and through with that peanut butter flavor everyone likes.

It's easy to serve thrifty meals when you plan them around good breads like Peanut Butter Loaf, or your baker's specialties. The family that likes something different will be delighted with this novel loaf, with its "built-in" peanut butter flavor. It has built-in nutrition, too, for enriched flour, peanut butter and egg supply body-building protein, essential B-vitamins and food iron.

Peanut butter replaces the shortening customarily used in yeast breads. Crunch-style peanut butter is preferred for the tempting peanut morsels it produces in the baked bread, but cream-style peanut butter also may be used.

Serve Peanut Butter Loaf simply with butter or jam at any meal or for snacks. It'll disappear so fast you'll find it a good plan to double the recipe. Half of it may be used to make Peanut Brittle Puffs. For these, batter is dropped over 1/2 teaspoon butter or margarine and 2 teaspoons peanut brittle in 2-inch muffin cups.

**PEANUT BUTTER LOAF**

- 1 package yeast, compressed or dry
- 1/4 cup water (lukewarm for compressed yeast, warm for dry)
- 1/2 cup milk
- 1/4 cup brown sugar
- 1 teaspoon salt
- 2 cups sifted enriched flour (about)
- 1/4 cup crunch style peanut butter

Soften yeast in water. Scald milk. Add brown sugar and salt and cool to lukewarm. Add 1 cup flour and peanut butter and beat until smooth. Add softened yeast and egg and mix well. Add enough more flour to make a thick batter. Beat thoroughly. Cover and let rise in warm place until bubbly (about 1 hour). When light, stir down. Spread in greased loaf pan, 8 1/2 x 4 1/2 inches. Let rise until light (about 45 minutes). Bake in moderate oven (350° F.) about 35 minutes. Makes 1 loaf.

Monday, April 28, the students will leave Texico at 11:05 to go to Clovis by train. Each student will buy his own ticket. After they reach Clovis a bus will pick them up and take them to the park where they will eat lunch. In the afternoon they will visit various business firms and KICA. This event is sponsored by the room mothers, Mrs. Ray Tharp, Mrs. Lowery Winkles, Mrs. John Adams and Mrs. Jim Moore.

**Kents to Sweetwater To Attend Funeral**

Mr. and Mrs. T. L. Kent were called to Sweetwater Saturday to attend the funeral of a sister-in-law, Mrs. Odell Kent, who was burned critically Friday night while assisting her husband in working on a weed burner. The burner exploded. Mr. Kent was seriously burned about the hands.

market price or 10 cents per pound, which ever is higher. At the completion of harvest, growers will be paid through the county PMA office by the issuance of sight-draft on CCC.

Castor beans have about the same planting date as cotton, however they should be planted at the earliest possible date since the longer the growing season, the higher the yield as the castor beans will continue to make until frost, after which harvest begins.

With adequate growing season and proper care, irrigated yields up to 1,500 lbs. would not be abnormal. As an indication of what farmers think of this program while it was in operation in 1951 in the Hereford area, approximately 700 acres was planted, the prospective acreage in that area for 1952 is 10,000 to 12,000 acres.

## Local Fishermen Begin Summer Trips

Spring has really arrived and the fishing bug is on the loose. Seems as if every fisherman has gone fishing, or is planning a trip in the near future. Some going over the weekend were: Mr. and Mrs. Pete Davies, Mr. and Mrs. Bob Johnston and Mr. and Mrs. Don Rountree. They were fishing at Conchas.

Vernon Ward, Amos Steelman and N. E. Bonds left Sunday morning for three or four days fishing at Conchas. Reports received here last week from Reagan Looney, Hubert Ellison, Frank P. Wilson and Bill Bradshaw, who are fishing at Lake Meade in Nevada, indicated they were having some good luck. No reports have been received from the other fishermen.

## LOSE BALL GAME

## Mr. Stork Flies in Three New Boys for Bovina

Three new citizens arrived in Bovina the past week, and they were all boys.

First to become parents of a boy were Mr. and Mrs. J. D. Stevens. The little lad arrived on Easter Sunday, April 3, at Clovis Memorial Hospital. He weighed 8 pounds and 12 ounces when he arrived and has been named Joe Don. This is the third child for the family with another boy and a girl.

Mr. and Mrs. G. W. Holloway became parents of a boy Wednesday, April 16. He was also born at Clovis Memorial. He has been named Richard Ira and weighed 7 pounds and 4 ounces on arrival. He is the first child for the Holloways.

Maternal grandparents are Mr. and Mrs. Ira Welborn of Bovina and this is their first grandchild. The baby's paternal grandmother is Mrs. G. W. Holloway of Wichita, Kans.

Then on Saturday, April 19, a son was born to Mr. and Mrs. Howard Ellison. He was also born at Clovis Memorial. He was a little small and weighed only 5 pounds and six ounces. He was put in an incubator, but is doing well. He has been named Dennis Craig.

Mrs. Ellison will be remembered as the girl who suffered such serious burns when their other boy, Mickey, now two years old, was two weeks old. Mrs. Ellison was seriously ill for many months and her many friends are still happy and surprised at her return to normal life.

Grandparents of the new arrival are Mr. and Mrs. Rudolph Jester of Pleasant Hill and Mr. and Mrs. Buck Ellison of Bovina.

**Spring Season Critical Period for Range Plants**

Pasture plants in most sections of the state have taken a beating from the weather during the past several months, Joe Jones, county agent says. Rain and more rain is badly needed before the hard hit range plants can even begin their comeback. A. H. Walker, range specialist for the Texas Agricultural Extension Service, says even under normal conditions the spring season is the most critical period for range plants.

He says pasture plants need a rest period to regain their vigor and to allow them to produce a seed crop. He encourages livestock producers to graze supplemental pastures, if available, to give ranges a rest for a month or six weeks. This spring rest will give vigor to native drouth stunted and over-grazed plants. He points out that the usual practice, following a drouth, is to start grazing the range just as soon as the first plants appear and this is not good for the range vegetation.

Such practice may reduce annual forage production by as much as 40 per cent, says the specialist. Such a reduction means that a ranchman could only run 60 head of cows instead of 100 head on an annual basis if he had used better management during the spring season.

Walker says he realizes that unless weather conditions change very materially in the near future, the spring growing season will just not happen on a lot of the state's rangelands. But when the drouth is finally broken, he urges ranchmen to give the range vegetation a chance to become reestablished. The drouth has sapped their vigor and stopped root development.

ally broken, he urges ranchmen to give the range vegetation a chance to become reestablished. The drouth has sapped their vigor and stopped root development.

A spring to fall deferment period may be needed in the most critical areas. Such a practice will give the plants a chance to make a seed crop that will be needed to insure a stand of the desirable species, says Walker.

A rotation plan for deferring different pastures on the ranch should be worked out and at least one pasture should be deferred each year. Walker points out that range demonstrators have proved that deferred grazing is not only an effective aid to a range recovery program but is also one of the best conservation practices that can be used on the range.

**Program Released For Annual Feeder's Day**

County Agent Joe Jones has released the program for the second annual feeder's meeting at the Santa Fe Pens, Clovis, beginning at 9 o'clock Saturday morning.

Subjects to be discussed at the meeting include: "Effect of Type of Cattle on Efficiency," "Cubes for Feeding Lambs and Yearling Wethers," "Cube Feeding," and "Cattle Feeding Results." Several inspections of experimental farms will be made including those at State Line Farm at Lariat; and Jewell Castor Feed Yards, Farwell.

**Says 1952 Grasshopper Crop Will Be Light**

Forecasts based on surveys and actual egg bed counts indicate that grasshoppers will not be a threat to crops and pastures in Texas this year, Joe Jones, county agent, says. In only a few spots were enough eggs found to rate the areas as threatening, says Allen C. Gunter, entomologist for the Texas Agricultural Extension Service.

The areas are small and are found in the upper northwest Panhandle; in the Trinity bottoms of Ellis and Kaufman counties; in Hill, Falls, Milam, Robertson and Washington counties along the Brazos River. In these areas farmers should watch for the early hatches and if the young hoppers show up in large numbers, they should be controlled before they leave the egg bed areas, says Gunter.

Other counties in these same general areas may expect light infestations and some damage is possible. Serious damage may develop in the fall if the weather is hot and dry.

Gunter advises farmers and ranchmen that control measures, if needed, should be used before the grasshoppers leave the egg beds and scatter. Wiping out this year's hatches will reduce the chances for major outbreaks next year, points out the specialist, and from this standpoint, the use of control measures is justified.

For information on the best insecticides to use, Gunter suggests that farmers contact their local county agents. They can also advise on

whether control measures should be used.

### Absentee Voting For Servicemen Detailed

AUSTIN—Rules governing absentee voting by servicemen of Texas have been sent to all county clerks by Secretary of State John Ben Shepperd.

The instructions list the various qualifications servicemen must meet to vote without a poll tax and outline the procedure to be followed.

Shepperd said he hoped the instructions would eliminate the confusion prevailing for the past few years.

The instructions point out that any member of the reserve on extended active duty, selective service draftee or member of the National Guard, on duty with Federal forces, and members of the Maritime Service and Merchant Marine is qualified to vote without a poll tax receipt or exemption certificate provided he was at least 21 years old on the day of the election, a citizen of the United States, has resided in Texas at least a year preceding the election and for 6 months within the County in which he offers to vote. Time spent in the military service after the beginning of the above periods may be counted in determining if these time limits have been met.

To qualify to vote a serviceman cannot be a member on active duty of the regular or permanent military establishment of the Army, Navy, Air Force or Marines.

The Democratic Primary in Texas will be held July 26, the run-off August 23 and the General Election November 4th.

Details of how servicemen can determine whether they are eligible to vote without a poll tax are as follows:

Armed services personnel who are qualified to vote in Texas and who are on extended active duty may vote during 1952 without paying their poll tax and without obtaining a poll tax "Exemption Certificate." Whether the poll tax is levied by the State or any political subdivision, the serviceman need not pay it to vote in any election.

Any person who, at the time of the election, or within 18 months prior to the date of the election, was on extended active duty as a member of any of the reserve components of the armed forces, a selective service draftee, a member of the National Guard, the United States Maritime Service, or the United States Merchant Marine, may vote even though he has not paid his poll tax the serviceman must be or must have been on extended active duty and not merely on active duty; for example, a reservist on active duty for a weekend or for several weeks during the summer must pay his poll tax to vote.

The Constitution waives the requirement of payment of the poll tax as a condition precedent to the right to vote for these servicemen.

Servicemen's wives and dependents and civilians serving with the armed forces must either pay their poll taxes or obtain an "exemption

Certificate," in order to vote. A poll tax receipt, "Exemption Certificate," or affidavit that the receipt of certificate has been lost or mislaid must accompany the application for absentee ballot made by these persons. Except for these differences, these persons may vote by absentee ballot in the manner here described for voting by servicemen.

Shepperd's instructions also detailed how servicemen can make applications for ballots and the procedure for voting:

Servicemen may make application for absentee ballot at any time. Application should be made to the County Clerk of the County in which the serviceman has his residence. However, the Armed Forces, Air Mail, "Application for Ballot" postcard will be accepted by the Secretary of State and will be forwarded promptly to the appropriate county clerk. The postcard application for an absentee ballot seems satisfactory except that it has no space for the serviceman to indicate whether he is a member of the regular or permanent military establishment.

As soon as the ballots are ready, the County Clerk may mail the absentee ballot to the qualified applicant who has made application. However, no absentee ballots may be mailed by the County Clerk later than three days prior to the day of the election. As members of the regular military establishment are not qualified to vote and as the armed satisfactory except that it has no space to indicate whether the applicant is a qualified serviceman or not, it seems advisable for County Clerks to take steps to obtain that information. It is suggested that the statement, "I am not a member of the regular or permanent military or naval establishment of the United States; be added to the application for absentee ballot or to the statement which the serviceman makes under oath and returns with his completed ballot.

The ballot must be marked by the voter in the presence of a notary public or other person qualified under the law to take acknowledgments, and the affidavit on the ballot envelope must be filled out, signed, and sworn to by the voter and certified by the officer.

The ballot cannot be marked sooner than 20 days nor later than 3 days prior to the day of the election, and the completed ballot must be received by the county clerk by 1 p.m. on the day of the election.

### Controlling Insects May Be Major Job

The problem of controlling insects may soon become a major job on a job of Texas farms Joe Jones, county agent, says. Never before in history have agricultural producers been asked to plant and harvest crops as large as those asked for in 1952 and Allen C. Gunter, entomologist for the Texas Agricultural Extension Service, says the final production figures for the year will reflect just how well crop destroying insects were controlled.

He says there is a lot more involved in a good insect control program than buying an insecticide and applying it to the crop. First he suggests that farmers secure copies of bulletins and circulars from their local county agents that describes the insects and list the recommended control measures. The second suggestion is of prime importance. Know what insecticide is needed and then read the label on the container to make sure that it is the one recommended, says the specialist.

The great number of organic insecticides on the market today are offered in many different formulas and strengths and poor insect control will result if the correct materials are not used, says Gunter. He especially calls attention to the need for checking spray formula labels. In the case of cotton sprays, he suggests that the recommendations listed in C-182, GUIDE FOR CONTROLLING COTTON INSECTS IN TEXAS—1952 be followed. Then to insure proper dosage, read the label and follow the manufacturer's instructions to the letter. A lot of failures have resulted, says Gunter, because the wrong formula was used or in other words, the material was not checked for strength—label was not studied—before it was applied to the cotton.

Gunter offers this word of advice regarding the mixing of spray materials. Use clean water and if necessary strain the water as well as the spray material. This precaution will prevent nozzle clogging and result in a uniform spray job. He points out that a more uniform mixture—of spray material and water—will be obtained if only enough water is put in the sprayer tank to get a good mixing job done. After the solution is mixed, add enough water to fill the sprayer tank to the

desired level and then thoroughly mix the solution before applying the spray to the crop.

Gunter says farmers should remember that all insecticides are poisons and all precautions given on the labels should be strictly followed. Special precautions should be taken when handling TEPP and Parathion to avoid prolonged contact with the skin or breathing the vapors or drift from either spray or dust.

The specialist urges farmers to get their spraying and dusting equipment in too operating shape. Preparations made early may well be a determining factor in whether the insect control program on any given farm is a success or failure. It is good management, says Gunter, to be ready and waiting for the bugs. When they once go to work, time is on their side and successful control calls for immediate action.

# Mobilgas Economy Run

Ford's the Class "A" Winner for 3rd Consecutive Year!

## New Ford Mileage Maker SIX Thriftiest in its Field!

Again this year . . . as in the past two years . . . Ford was first in gas economy over all other cars in its price class in the Mobilgas Economy Run. In this toughest test, a stock model Ford Six equipped with Overdrive (optional at extra cost) averaged 53.855 ton-miles per gallon and 25.463 actual miles per gallon.

This was a very special triumph for Ford's All-New Mileage Maker high-compression SIX. For now, with its new design providing 101-horsepower and free-turning overhead valves, Ford is definitely pound-for-pound the most economical low-priced car to run! Yes . . . Ford's thrift was clearly proved by the 1,415-mile grind from Los Angeles to Sun Valley. And a very important factor contributing to this victory is Ford's Automatic Power Pilot which squeezes the last ounce of power out of every drop of gas.

\*The AAA Contest Board determines the winner by a "ton-mile per gallon" formula to insure equal chance for all cars in each class regardless of size and weight. Ton-miles per gallon equals the car weight (including passengers) in tons, multiplied by number of miles travelled, divided by number of gallons consumed.

## Many People Attend School Band Concert To Assist Choir Robe Finance Program

A large number of persons were present in the gymnasium of Farwell Schools Friday night to hear Mrs. Shelby Jobses lead the 54-piece school band in concert.

The majority of the 17 numbers presented by the band were classical or semi-classical compositions demanding the best technical ability of the students. Howard Jenkins, lead trombonist, shared the podium with Mrs. Jobses. He directed Johnson's "Medallion."

The program was begun with the playing of the National Anthem, and moved into a march, "Salutation," by Setiz. "Festival," and overture by Darcy, followed.

A brass quintet composed of Dennis Roney, Douglas Hillock, Glenna Ruth Davis, Betty Billingsley and Dick Felts stepped forward to play Chopin's "Military Polonaise."

Dick Felts submitted "The Grenadier" as a baritone solo, and rejoined the band as they played "Medallion."

Next, a "Minuet" by Handel was heard, followed by "Bouree," also by Handel. The latter was interpreted by Jerri Allison, Gloria Sanders, and Jo Elaine Magness, playing as a clarinet trio.

Kayla Felts played "Maglagaena" as a saxophone solo, and band offered "Allan-A-Dale" by Hanson, and a coronet trio of Douglas Hillock, Gerald Hardage, and Leroy Williams submitted "Three of a Kind."

Strains from the East were heard as the band moved to "Baghdad," an overture by Buchtel, followed with a march, "Father of Victory," by Ganne.

"Improvisation and Gypsy Dance" was given as a clarinet trio by Nancy Aldridge, Lavoyda Billington, and Gloria Dial, and the band gave its last overture, "The Traveller," by Buchtel. The program was concluded with the Farwell Alma Mater.

Tickets to the concert were sold to assist in paying for choir robes. The band roster:

## Varied Program Given By Group

A varied program was presented by members of the commercial department of Farwell schools when they were featured in assembly the past Thursday. The show was under the direction of Mrs. Otis Prescott, commercial instructor, and Mrs. Erma Jobses, music director.

Bobby Joe Crume was announcer for the assembly. First number presented Bul Dollar as narrator for "Tuning In On the Past," in which he recalled old sweethearts, and they came to life in living pictures. Soft background music was played by Mrs. Jobses and Shirley Smith sang appropriate songs for each scene.

Depicting each individual sweetheart were: Elanda White, childhood; Dorothy Pulliam, high school; Jo Veta Billingsley, college; LaVerna Christian, French actress; Wilma Nell Smith, war nurse; Darlene Sprawls, the wife; and Nelda Martin, the mother.

Following the recollection number, Leon Langford, Martin Walton and Mrs. Jobses presented a mandolin, guitar and piano trio, playing "Adobe Hacienda" and "Tennessee Waltz." Charles was dressed as a girl and Shirley was attired in boy's clothing and they gave their rendition of "To Old To Cut The Mustard."

Dick Felts and Dudley Hughes played a baritone duet, "My Regards."

To climax the show "Hiram and Mirandy," a comic square dance was presented. All participants had clothes on backward, and wore masks on the back of their heads, giving onlookers the impression that they were walking backwards. Howard Jenkins and Dudley Hughes played as cast members did the Virginia reel. Charles Phillips, was cast as Hiram with Shirley Smith as Mirandy.

## June Graduates Need Social Security Card

June graduates and June brides, take special notice.

If you do not already have a social security account-number card, and if you expect to work during the summer in a job that comes under social security, you should apply for your card at once. Your application should be mailed to the Amarillo Social Security Office. You can get an application blank and instructions at the local post office. By doing this, you will have your card ready to show to any prospective employer. You won't lose time starting on your new job, nor be embarrassed.

If you have had a card, but lost it, apply for a duplicate immediately. When a girl marries, she will need to change her name on her social security wage record, retaining her original number.

All your wages will be reported by employers coming under social security, and will be duly credited by the Social Security Administration to your own individual social security wage record. That is why you want one, and only one social security account number, all your life.

There is no charge for issuing any type of social security card, original, duplicate, or one showing change of name. You will always have the same number. Be sure you have a social security account card, protect your card, and show it to your employer.

## Third Graders Have Many Varied Activities

The third grade was happy to have Gerald Gober back in school. He accompanied his parents to California where his mother is visiting. Gerald and his daddy came back by train. Gerald reports he had a wonderful time.

Sherry Kaye Gast and Carolyn Willard are ill this week. We sure hope they will be back in school Monday.

Everyone enjoyed our Easter egg hunt even though we did have to go to the gym to look for eggs. Then we went back to our room, and had our picnic lunch; which we had intended to have at the park.

Our room mothers served drinks and candy easter eggs.

Darlene found the prize egg; Benny found the most eggs. Judy and Kathy found the least number of eggs. Four prizes were given.

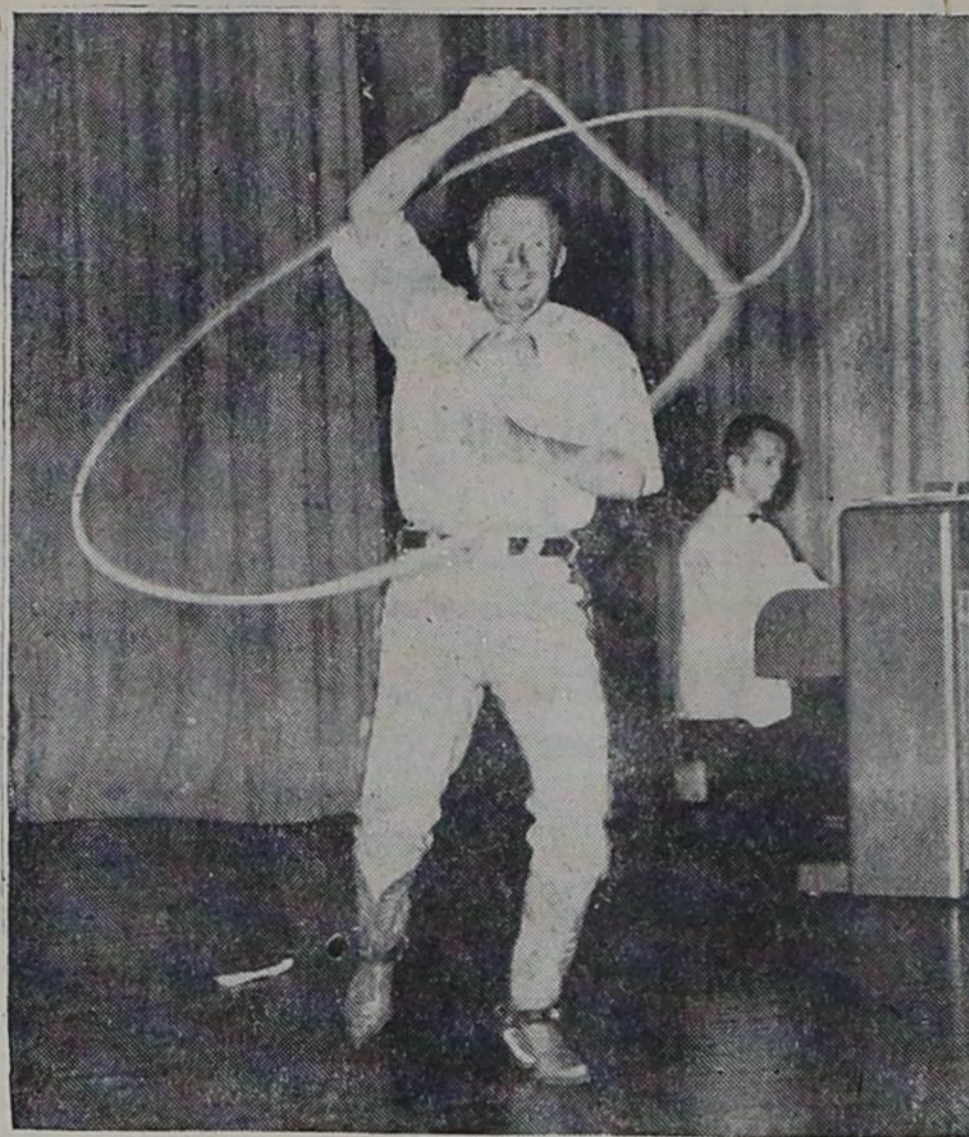

The third grade won the \$2.50 prize for largest room count last week at PTA.

## JUNIOR NEWS GIVEN

## FANCY COWBOY

JOHN REGAN

## Cowboy Will Visit Farwell Students

John Regan, Australian cowboy, will present an assembly program at Farwell schools Thursday, May 1, W. M. Roberts, school principal, says.

The publicity release says:

"From England's Windsor Castle to our South and Southwest is a long way, but Johnny Regan, world-famous cowboy, made it. His act consists of trick roping and stunts in which he uses the famous 'Texas Wagon Wheel,' an origination of the late Will Rogers. He says, 'Will taught me the stunt while we were together in London.' During the stunt Regan twirls a huge lasso sideways and jumps back and forth through the loop.

"When Regan was a youth his father, a member of the King's Royal Horse Guard at Windsor Castle, sent him to live with an uncle, who was a cattle rancher, in Queensland, Australia. At the age of 14, the famous rope and whip artist began learning how to be a cowboy. He specialized in whips and horsemanship and even participated in bronc riding events. As would be expected he made contacts with rodeo contestants and eventually toured Africa, New Zealand and South America as a bronc rider in rodeos.

"In 1929, twelve years after his departure for Australia, he returned to England to visit his parents. While there he made acquaintances with a number of college students, who were touring Europe with the famous Hardin-Simmons University Cowboy band from Abilene, Texas. One of the members of the band suddenly was stricken by an illness and was forced to return to America. The ill student was a trick rope and whip artist in one of the acts featured by the band. So Regan, who had learned to be a showman though his experience with cowboys in Aus-

tralia, was persuaded to serve as a substitute for the remainder of the tour.

"When the four was concluded Regan was talked into returning to Texas with the students. For eight years Johnny made his home in and near Abilene. He often stayed on a ranch which belonged to one of the directors of the university. When asked if he attended the university the cowboy replied: 'My education was cattle. I learned everything I could about them on the ranches near Abilene.' When at Abilene he continued to tour as a special attraction with the cowboy band. But the rodeo fever bit Johnny and he returned to the road with many of the nations best known western shows. For many years he was closely associated with Col. W. T. Johnson, who produced world championship rodeos at Madison Square Garden and Boston.

"When World War II was declared Regan was a member of the Gene Autry's troupe. After the final performance of the season at Washington D. C., Johnny put his western duds into a trunk and headed for Canada, where he enlisted in the British army. Regan laughed while recalling his service: 'I never was in one place more than six weeks. Gee, we really moved.'

"He left the Autry troupe in May 1942, sailed from New York City and trained in the British Isles for six months. Then his speedy shifts started. From South Africa and the western desert Johnny was moved to Palestine and Syria. He went into Malta, Sicily and Italy by airplanes. Later he was transferred to France, Belgium, Holland and Germany.

"He smiled when he said, 'When I finished in Berlin, I headed back to Dallas.' While in the service Regan presented special shows for service men and residents where he was stationed."

The London Gazette founded in 1665 was the first English news publication issued regularly in newspaper format.

## Easter Party Fetes Second Grade Children

The Easter party for the children in Mrs. Pool's room was quite a success, even though the children did not get to go to Butch's wheat field. As it was raining, the children hunted eggs in their own classroom. Then they ate their sack lunches and enjoyed the pop served by Mr. Ollie Williams, Mrs. F. A. Cantrell, Mrs. Chappell, Mrs. Watkins, and Mrs. Gummelt who also helped with the party.

Carolyn Watts and Iris Goldsmith found the prize eggs. Zell Billingsley found the least number of eggs. Each of these three girls received a prize of two colored baby chicks in a basket. All of the children were excited over the chicks, which did a great deal of cheering during the afternoon.

## Sixth Graders Active End Of School

Fire prevention posters, experiments with dry cell batteries and spring football training are all of great interest to the sixth graders.

Mitchell Walls, Jeffrey Hanna, and Tommy Lovelace constructed a telegraph sending and receiving set. They were very surprised when it really worked!

The sixth grade girls are enjoying a P. E. period, now that the boys are going out for football.

The class had an Easter party in the room on Friday of last week. The mothers of the group surprised the children with many delicious refreshments.

## Modern Study Club Gives Year's Report

Report of Friona Modern Study Club as given by Mrs. S. H. Osborn at the Seventh District Convention at Borger last Friday, is given below.

"Our Course of study "Building Better Communities at Home and Abroad has brought us to a better understanding of the problems in building a better community, nation and world. Our programs have been presented in varied ways—lectures, forums, reviews, symposiums, demonstrations, and panel discussions.

"A variety of roll calls touching on home, community, national and international topics has emphasized our years theme.

"Some of our worthwhile activities have stemmed from interest aroused by our programs. For example, the organization of a Cub Scout program resulted from one of the needs emphasized in our panel discussion on "Analyzing our Town and it's problems". Forty boys are now active in Cub Scout work.

"Another result of this program was our co-operating with PTA, in a well planned Hallowe'en party, given for all school children. Some 500 children and 75 adults attended this successful affair, which was divided into five parties.

"The Modern Study Club entered the "Build Freedom with Youth Contest. A panel discussion of "Analyzing our town and its problems, in which four youths and four club members took part was given front page headlines in the local papers and the Chamber of Commerce column. In this discussion possibilities for the future development for our town and community was stressed.

"Club members have sponsored dances for the teen-agers at our clubhouse. This club house belonging to the Friona Federated Clubs is available to the youth for parties, game nights, Scout and Brownie meetings as well as being a center for the adult entertainment.

"A magazine drive for the School library was sponsored by the Club. Some 2000 magazines were collected and given to the school to replace those lost in the recent fire which destroyed the high school building. Fifteen years of Readers Digest and seven years of National Geographic have been bound.

"We made a \$25 contribution to Girls Town; \$5 to March of Dimes; \$5 to Heart; \$5 to Cancer Research; \$5 to Tuberculosis Fund; \$50 to Local Welfare; \$5 to Red Cross; \$5 to local polio fund. We sponsored a Community wide "Care for Korea" Campaign and \$122 was contributed. We gave \$20 to the Hospital Paving Fund. Club members spent a total of 65 hours sewing for the local hospital. We made dresser scarves, night stand covers and did some mending. We sent old Christmas cards to the Cerebral Palsy Center in New York City.

"We co-operated with Parmer County Fair Association by sponsoring for second year the Home Arts Department.

"In cooperation with Friona Woman's Club we participated in the city paving project by paving both streets and the parkway around our Club house. We help federate our newly organized Progressive Study Club. The three federated Clubs serve the Lion's Club semi-monthly.

"Social activities for the year include the picnic given for our children; a christmas buffet supper and gift exchange honoring our husbands; a scavenger hunt for club members and husbands; and to conclude the year, a picnic with our husbands.

"Money raising projects have been: a Mexican supper, netted \$125.25; A 3 act play "Hill Billy Courtship," netted \$340; A bake sale and fishing pond at the fair; Fines from absentees and failure to give a roll call. A last project is the selling of vanilla which will give us a 384 piece set of dishes.

"Our last program, the annual buffet supper and committee reports will be climaxed with the installation of new officers. Appointment of the next year's committees will conclude a very active and successful club year.

Land sakes but our co-op is certainly a busy place. It used to be that us women folks didn't know about business. Nowadays, our co-op helps us all understand how it works.

First, the government has loaned us money to help build lines. We are repaying it all plus interest. And don't let anyone tell you that we are owned by the government.

I see in the papers that the government is loaning money to big steel companies and defense plants in much the same way. You probably are borrowing money to buy your house, and have it secured by FHA. We all buy on credit and the government has been able to help lots of us this way.

Then, our manager says that the 900 rural electric cooperatives in the United States are spending more than six billion dollars for building lines, farm wiring and electrical equipment . . . washers and ranges, you know. That is certainly lots of money spent by us rural folks.

He says that money is spread out from coast to coast and it helps pay the labor people, the manufacturer, wholesaler and your own local merchant.

We are locally-owned, and locally-controlled, too. I voted for the board of directors myself, so I know. And as long as we all work for its good, we help lots of other folks. And I think you like to see other folks happy, just like I do.

Now this is why I'm going to attend the ANNUAL MEETING of our DEAF SMITH COUNTY ELECTRIC COOPERATIVE at Hereford on APRIL 30th. I'll be there in time for the big free BARBECUE at noon. Hope to see all my friends there too!
