

FROM THE HOPPER

By HOP

Residents along the Third Street paving have created a situation that may soon destroy the pavement entirely.

How many people in Texico-Farwell have thought of launching a program to get some additional paving in the Twin Cities?

Right now while we have a road-building crew on the grounds would be an ideal time to launch such a program.

Such a project was launched and carried to a successful conclusion two years ago when Third Street in Farwell was paved—and nobody was hurt financially.

How do you property owners along Second Street feel about such a deal? Inasmuch as we live on that street, we would be willing to do our part providing the cost is not prohibitive.

Neither Texico nor Farwell are financially able to undertake such a program on a municipal basis, but individuals could do it with the willingness.

Woody McDermitt, the generous old soul has promised to give me a new suit of clothes for fall and winter wear.

He has offered me the new suit if the response to his advertisements will bring him in 100 customers for new suits.

Farmers of this area have certainly been caught between two extremes this year. The first half of the year was so dry they couldn't stick a plow in the ground.

Speaking of plowing, we heard a story of a turning plow being put to a new use the other day. Penny Anderson up at Sherley Grain elevator in Bovina, employed a turning plow to break up the crust of wheat that had caked in the bottom of the bins.

Naturally, when we heard the story, we wondered how they got a horse in the bins to furnish the power. Penny satisfied our curiosity by informing us that a tractor, attached to a cable on the outside, yanked the plow through the crusted wheat.

Poor old Dobbin seems to be left out of everything in these gasoline days.

Just out of Amarillo last Friday, we saw a fellow plowing a nursery plot with a horse attached to a plow. Came very near stopping and watching the feat for a few minutes.

Although it really is too early in the season to make a survey, the Twin Cities and Farmer County appear exceptionally fortunate in having no reported cases of polio so far.

Dog days soon will be here and so will be the time for the dreaded disease to cripple children all over the United States.

Housewife Maims Cat; Consolation No Avail

It isn't that she doesn't believe in being kind to dumb animals, but Mrs. W. H. Graham of Farwell is now the scourge of the household cat after a kitchen escapade last week.

As usual, "Boots" was loitering under the busy housewife's feet in the kitchen in hope of being tossed a tasty tidbit. Eyes cast mournfully upward, the unobserving feline happened to stroll too close to the refrigerator which Mrs. Graham had opened.

Mrs. Graham gave the refrigerator door a lusty heave ho as she started out with an arm load of milk and butter, but she didn't get far. In response to what she called "the most terrifying sound I ever heard," she turned to see Boots clawing at the linoleum floor in a vain effort to leave the kitchen.

After Mrs. Graham relieved the cat of his immediate distress, she took him into her lap and tried to comfort him. Consolation was of no avail, however, as Boots' tail was permanently endowed with a painful right angle.

Boots does his begging elsewhere nowadays, Mrs. Graham commented.

Desperate Fight On Rank Weed Growth

Taking advantage of the first real break in the weather since June 29, the farmers of this area operated on 'round-the-clock schedule over the past weekend, extending into Sunday.

Farmers were fighting desperately with every piece of machinery available to rid their crops of the rank weed growth that had invaded their fields during the four-week period of record-setting rainfall.

In some locations, they were driven from their fields again the first of the week by additional widely scattered showers. But many of them were missed by the rain of early this week and continued their weed-killing operations.

Faced with a two-fold task of ridding their growing crops of weeds and killing out rank weed and grass growth on wheat land, they have been a busy lot. Considerable acreage in the county, which is ordinarily planted to feed crops remained "too wet to plow" until after a safe planting time.

The moisture has put the soil in excellent condition for wheat seeding, which is scheduled to get under way in earnest before the end of the present month.

Okl. Lane Methodists Report Good Revival

Officials of the Oklahoma Lane Methodist Church reported the first of this week that the revival meeting which has been in progress for the past week was being successful.

Rev. Frank Beechum, pastor of the First Methodist Church in Littlefield, Texas, is rendering the congregation some of the most spiritual messages ever heard, while Earl Roberts is in charge of the music and singing.

Two services daily are being held, one in the morning, and then the regular evangelistic service at 8:30 o'clock in the evening.

The Pastor, Rev. A. D. Moore, extends a very cordial invitation to the public to attend the services this week, as the revival will close on Sunday night, August 6th.

Bumper Row Crop Being Predicted

Highway Construction Makes Progress

Actual work on Texico's newest farm-to-market road, being built by the New Mexico State Highway Department, is moving off satisfactorily, with much of the dirt work being accomplished the past week.

Floyd Davis, who has the subcontract under Skouens-Hise Contracting Company of Albuquerque, has moved a greater part of the machinery on the job, and additional equipment is expected to arrive during the week.

Offices and repair shops have been opened in the garage building in the Texico Hotel building, recently vacated by Pace Brothers.

The new road will extend 7.2 miles south of Texico and will follow the Texas-New Mexico state line, intersecting the Bailey County farm-to-market road, which now comes to a dead end at the state line.

It will be an all-weather road with caliche base and black topping seal coating.

Davis said early this week that 30 working days has been allotted for the job, and he expected to have the work completed by that time. Only two drainage structures are to be installed along the route, with a dip north of the cemetery and a culvert one mile south of the W. J. Matthews farm home.

Caliche base material will be hauled from an open pit in Roosevelt County, some eight miles from the south end of the road, located on New Mexico school land, Davis said. The caliche crusher is being brought here from Tatum and is expected to be on location and ready for operation the latter part of this week, it was stated.

Season Ticket Sales To Begin August 15 For Football Stadium

The coming football season for the Farwell Steers is the one local boosters have been awaiting for a long time. The Farwell team, now thoroughly acquainted with district competition, will begin its first season on a well-equipped field Sept. 29 when they play Dimmitt.

They will be playing on a field that is equipped with a modern steel stadium capable of seating in excess of 1200 persons. This was made possible by commitments of 25 businessmen and firms in Farwell who volunteered to accept season tickets for re-sale that would finance the stadium building.

These businessmen will begin sale of these tickets Aug 15, it was announced this week, and athletic patrons of Farwell Schools are urged to buy these tickets. Persons purchasing these tickets will not only be helping the stadium project, it was pointed out, but will save themselves considerable money.

The tickets, priced at \$10 each, will admit the buyer to all home athletic contests (except tournaments and playoffs), including at least seven football games, 11 basketball games, and two track meets.

Businessmen and firms cooperating in this project to equip the Farwell field with a stadium may be contacted by persons interested in buying a season ducat. They include: C. M. Henderson, Security State Bank, W. H. Graham, W. D. Hardage, Claude Rose, Kemp Lumber Company, Sikes Motor Company, C. G. Davis, Felix Monroe, H. Y. Overstreet, John Aldridge.

Sam Aldridge, M. A. Snider, City Cleaners, Woodrow Lovelace, Karl's Auto Clinic, John Getz, Martin Produce, Mary Sudderth, W. W. Hall, Paul Wurster, Helton Oil Company, and Mitz Walling.

LEWIS TO SELL STOCK

J. D. Lewis of the Home Grocery and Market in Texico, announced today that he was making plans to close out his entire stock with a big close-out sale, beginning Monday, Aug. 7.

In announcing the sale, Lewis said that this move became necessary in order that he might devote all his time to farming interests west of town.

All merchandise in his store, bought before the recent price advances, will be reduced a straight 10 percent to dispose of the stock in short order.

Seagraves Farmer Is Still In Jail Here

J. C. Bowers, about 40 years old, is still being held in the Farmer County jail in lieu of \$3000 bond late Tuesday afternoon.

Bowers, who was living on a farm near Seagraves when taken into custody by Texas Ranger Razz Renfrow recently, is being held on a charge of cattle theft.

He is alleged to have taken a cow from the Fred Kopley farm, in the Oklahoma Lane community east of this city, later disposing of the animal through an auction ring at Elkhart early this year.

Acting on a tip, Sheriff Charley Lovelace located the Kopley cow in a dairy herd near Texline. Kopley identified the animal and returned it to his farm last week.

Complete Tax Rolls For City Of Farwell

Ronald (Pete) Booth, who has been engaged in making up a complete tax roll for the newly incorporated City of Farwell for the past few weeks, completed his task the latter part of the week and turned the rolls over to city officials.

Officials said today that the valuations within the incorporated limits, based on approximately fifty percent of the actual values, would be in excess of \$700,000, and would yield approximately \$3,600 per year in taxes.

Additional revenue, officials explained, would come from the public utility concerns serving the city when new franchise contracts are drawn up at a later date.

City officials have virtually agreed to set the city tax rate at 60 cents on the hundred dollar valuation, it was learned.

"Many details of the newly formed corporation remain to be worked out," one member of the city commission said here today, going on to add that the most pressing need was for a city clerk and a tax collector.

"We are hoping to get the machinery set up so that we may begin the collection of taxes by October," a spokesman said.

Lions Talk Project For Twin Cities

Following the regular luncheon hour at the Legion Hall Tuesday night, President Jack Williams called a meeting of the board of directors to discuss business matters pertaining to the club.

He pointed out that unless the club undertook some worthwhile project for the Twin Cities, membership in the club would continue to dwindle. Already some 20 charter members have been tentatively dropped from the rolls of the organization.

During the luncheon hour entertainment was furnished by the Rogers twins, Misses Peggy and Jean, and Miss Rosamond Booth, who rendered readings and musical numbers, which were well received by the 41 Lions present.

The Legion Auxiliary served a very wholesome meal.

This July Coolest In Many Years; Unusual Rains Best Explanation

"Funny, I've been able to stand heat this summer better than any I can remember," many people are saying in the Texico-Farwell area. And it isn't all their imagination, either. Temperature averaged a high of 85 degrees this month, compared with a sweltering 91 of the same month in 1949.

A large number of July afternoons this year were downright cool. On the 12th, maximum temperature recorded at the Santa Fe ticket office in Texico (at 5 p. m.) was only 70 degrees. Hottest days this month were the 1st, 2nd, and 9th, with readings of 98 degrees each.

On the other hand, July of last year ran into the three-digit numbers twice, with a flat 100 on the 17th, and 104 on the following day. Surprisingly, one-fourth inch of rain fell the 17th, seemingly not affecting the mercury to any great extent.

Seventy-six was the lowest mark 1949 could boast in July, according to the records.

BOB WEAR

Church Of Christ In Revival Series

Revival services are now in progress at the Farwell Church of Christ, announces Minister Sol Morgan. He said that Minister Bob Wear of Hereford is conducting the special evangelistic services for the 10-day meeting.

Services are conducted each evening at 8:15, and will extend until Wednesday night, Aug. 9. Preston Martin is the song leader.

Sale of Sewer Bonds Delayed by Officials

Pointing out that the sewer installation program in Farwell faces at least a three-month delay on account of inability to get materials, city officials have made no attempt to sell the \$40,000 in bonds recently voted here.

"There is no use to begin paying interest on money until we actually need it," R. W. Anderson, member of the City Commission, said today. Then he went on to add that it may be a matter of three or four months possibly longer, before the city will be required to pay any money on the sewer system.

The contract for the sewer system has been let to the Stockton Construction Company at Amarillo for \$36,406.45, and S. G. Stockton, representative of the firm, announced at the time of being awarded the contract that it would likely be "ninety days or longer" before material to be used on the job would be available.

Allowing for the 3-month delay in getting the materials and another two months to complete the job once it is started, speculation is current here that the sewer system will not be in actual operation before the first of the year.

CAFE CLOSSES FOR MONTH

Jim's Cafe in Texico is following a practice established some years ago by closing shop during the entire month of August. "This is the only way we can get a vacation," Jim Moore, operator, said. Furthermore he added, "it will give us time to redecorate and clean up the place."

Table with columns: TEMPERATURE, Max., Min. and rows for July 25-31.

Twin City residents don't have to be reminded that there was plenty of rain for July. Some people were glad to see it; others were not. It all depended on the individual.

Within three weeks Texico-Farwell was changed from a practically weedless state to one of discouraging proportions. Mosquitoes and hay fever had to be accepted right along with the cool weather.

Rainfall for July amounted to 7.72 inches, according to records kept in the Capitol Freehold office here. This was far out front of the meager 1.82 which fell last year. In 1948 2.55 (See Weather on Last Page)

Making a typical West Texas comeback after an admitted wash-out as far as wheat is concerned, Farmer farmers may be headed one of the largest grain crops in history.

County Agent Joe Jones in company with Alex Bateman, a former Farmer agent himself, toured the county last Thursday, noting extensive acreage of green row crop.

Although hesitant to make a definite prediction this early in the season, Agent Jones says, "This can be a bumper crop. What the farmers need most now is a week of dry weather in order that they can clear out weeds. The weeds are pretty bad."

He said that a large part of the county crop was planted late, but much of this late crop is hegarisuitable for bundles. Farmers who have late crops either postponed planting in hope of late rain, or were forced to re-plant after early wash-outs.

Agent Jones contacted C. M. Henderson, Farwell grain dealer, Monday, and the two made what they termed a "conservative" estimate of grain crop acreage at 175,000. "That is a conservative guess. It may go as high as 200,000," he said.

Asked how far along the young crops were with their growth, Agent Jones said no over-all statement can be made that will apply to the entire county.

"With irrigation, some farmers planted early. Dry landers are considerably farther behind. This means that the crop ranges all the way from just coming up to the boot stage. There are even headed fields in some areas."

What about county storage? Aside from the harvesting of a bumper crop, the primary concern of farmers is what to do with the grain once they get it out of the fields.

Several things depend on storage facilities. Not the least is the strained international conditions which may bring another serious shortage of railroad cars in which the crop may be moved.

However, Farmer is much better off as far as elevator space is concerned, having a negligible amount of wheat in the elevators. Naturally, yield will be a factor to be reckoned with for storage facilities.

Some Farmer elevators are still tied up with government-stored wheat, and are beginning to get anxious over its removal for the incoming grain crop.

A factor in favor of the storage situation will be the lack of uniformity for maturing. Since maturing date for the county grain crop is spread over several weeks, harvest operations will be "staggered." This may possibly avoid a rush on elevators.

Jones estimated that harvest on even the earliest crops will not begin until "well in September. Most fields will be harvested after frost," he predicted.

No Information On Wheat Allotments

"We have had no information yet as to wheat allotments for the county," Joe Camp, PMA secretary, stated here today, adding that unless there was some change in the present program, wheat acreage would be allotted in the county for the coming year.

Camp characterized as "newspaper talk" the report that has been current for the past several weeks to the effect that wheat acreage would not be allotted for the 1951 crop.

He said that the allotments for this county should have been received "two weeks ago." But as yet, nothing had been forthcoming from the Washington offices.

Camp said that the allotment for Farmer County for 1950 was 204,000 acres.

Mayor Francis Warns Against Stray Dogs

Mayor Orval Francis of Texico today warned that action will be forthcoming unless some of the stray dogs now enjoying free lease over the city be claimed and impounded by citizens.

"We've had about half a dozen complaints," he said, "and unless something is done, we'll be forced to order the marshal to dispose of the animals."

He cited several instances where the strays had damaged clothes that were left on the line.

Licenses for dogs may be obtained from W. L. Freeman, city clerk, he said.

Tribune job printing is best.

Chickens on Their Way Out?

'Dream Fowl' Is Developed; Everyone Has White Meat Now

How often has all the white meat been removed from the family platter by time it reaches you? A lot of people don't know very much about it, but there is now a fowl in production that is able to do away with this minor crisis at the family table.

This fowl is called the Northwester by its developers, but for practical purposes we'll still call it a "chicken" just now, as it resembles a great many barnyard birds that have been a common sight on farms for years.

But it really isn't a chicken at all. It is a pure hybrid that is the end product of 18 years of genetical research crossing several strains of chicken and pheasant.

John Getz, manager of the Farmers Supply in Texico, now has about 490 of these peculiar birds that may usher in a new era in the low-cost production of high-grade meat.

Getz has stocked the Northwester for about two months now, and is enthusiastic over the possibilities for its development. He is one of a few dealers in this area that have been selected to introduce the strain, and he vouches for claims made by the Northwester developers.

What are Northwesters' Assets?

Here are the reasons why the Northwester developers are confident of the success of their new cross: (1) Virtually an all-white-meat animal; (2) Brings premium prices on the market; (3) An exceptionally hardy breed; (4) Produces same weight-gain as a chicken on 20 percent less feed; (5) Dresses out for more edible meat; (6) Meat is better flavored.

Included in the flock at Farmers Supply are three different age groups. The smallest ones, hatched April 18, are still "chicks," and are indeed difficult to distinguish from an ordinary barnyard brood.

However, closer inspection will make some of the wild animal instincts of the chicks more evident. They are very active in the early stages of life contrasting themselves with ordinary chicks, which, for the most part, are content to keep warm and eat.

Also, a large number of them have a tendency to keep bunched together. They do not scatter themselves throughout the yard as do chickens. Both of these behavior patterns probably are manifestations of

NORTHWESTERS BEING GROWN AT FARMERS SUPPLY—They don't look much different from a lot of ordinary chickens people are accustomed to seeing on farms, but these young Northwesters will develop into something decidedly apart from an ordinary barnyard fowl. Manager John Getz is shown here (left) tending a number of the chicks, and exhibits (right) a distinguishing characteristic of the Northwester: its barrel breast.

pheasant blood.

Developed in Washington

Getz, in explaining the origin of the new meat bird, said it was developed by Dr. James Knowles, a geneticist of Centralia, Wash. It took Dr. Knowles 18 years of careful crossing to produce the strain now stocked at Farmers Supply.

Getz explained that as a result of the final cross, pure hybrids are produced, rendering both male and female incapable of reproduction. Thus, developers of the breed can easily control production merely by retaining parent stock on company farms.

The only birds now available for farm production, naturally, are members of the final cross—the sterile Northwesters.

Birds are Inoculated

In telling of the hardiness of the

new bird, Getz remembered that he had lost "not one by natural causes." He explained that this was due, in large part, to the inoculation program carried out on all chicks. They are made immune to practically all common fowl diseases that account for large flock losses.

"We are trying to set up a broiler-raising area," Getz said. "We are aiming at two markets: small turkeys, and frying-size chickens."

He went on to add that it was possible that many small families will turn to the Northwesters as an answer to their need for meat on such occasions as Thanksgiving and Christmas.

Mrs. Getz, who also helps tend the birds, called attention to the fact that a number of fashionable metropolitan restaurants are serving squab Northwester as a delicacy.

"They are taking the place of guinea hen and other fancy meats," she said.

Hatchery in Kansas

At present, a "regional" hatchery is maintained in Kansas, having jurisdiction for the Northwester over a five-state area. Texas is included in the Kansas area, and Hatch-Isaacs Co. of Plainview is the sole distributor of chicks in the Lone Star state.

Thus it is easy to see that control of the Northwester market can be, and is, a "cinch" for the producers. They sell a non-reproductive meat animal only through channels they choose, thereby producing a market limited to the scope of the producer's desires.

Chicks are Expensive

At first it would seem to the farmer who is anticipating buying and

raising the Northwester that chicks come pretty high by comparison with conventional chickens. They sell for 30 cents each when one day old, said Getz.

However, he went on to point out that a large part of this expense is defrayed as the chicks mature. They bring a premium price on the market, and can be raised to market size on less feed. Last week they sold for 72 cents per pound, dressed, said Getz.

Also listed as a cause of the 30-cent tag are conditions that make it necessary for the chicks to be flown to Plainview from Kansas. Inoculation must be considered, too.

"Barrel-Breasted" Breed

One of the most distinguishing characteristics of the Northwester, said Getz, is its peculiar anatomy. The chief feature (and the most desirable, of course) is the "barrel-breasted" condition.

The breast is abnormally wide, even in the early stages, and causes the chicken to assume a peculiar feet-apart stance when standing still. Probably the first thing a person notices about the Northwester's physical appearance is his ungainly, clumsy feet. Aside from the feet, the leg appears to be normal, with the drumsticks comparable to ordinary chickens.

Flavor Final Test

Naturally, the end result of all meat animals is the public reaction—whether it is receptive or rejective. In short, do people like this new meat?

They do, says Getz. "The pheasant blood makes them a 'gamey-flavored' meat." A number of people around Texico have purchased, grown, and eaten the bird, and report a juicier, more palatable meat.

Lately, the new breed has received considerable national publicity, and an article in Southwestern Crop and Stock magazine claimed, "Many customers say the Northwester has spoiled their taste for standard chicken or other fowl, and they therefore are willing to pay a premium price for the new kind of meat."

The magazine is published in Lubbock.

Only "In Infancy" Now

Getz was quick to point out that the distribution of the Northwester breed is only "in its infancy" now. He said long-range plans have been

drawn up that will bring the production of the new bird up to meet demand.

"Beginning Jan. 1 the program will really begin," he said. A national publicity campaign is being planned that will familiarize the public with the new breed name. "Instead of calling them a chicken, they will be called a 'Northwester,'" he said.

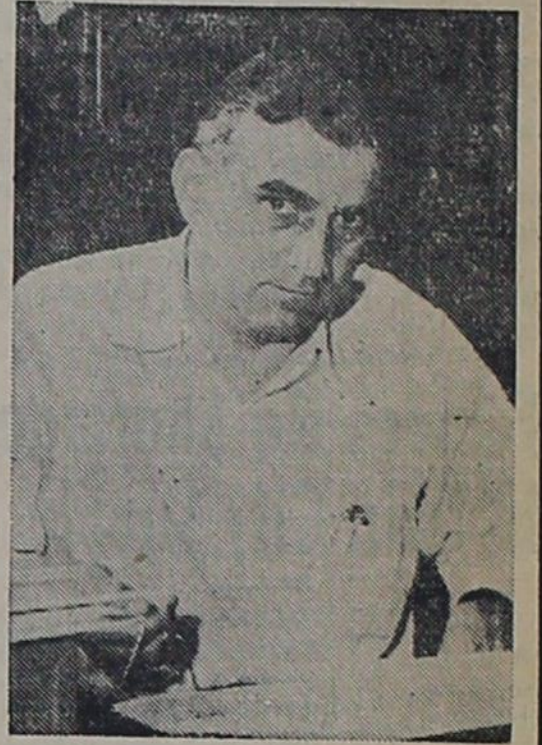

Before too long, many American families may wake up to discover that they no longer have to employ a deft boarding-house reach if they are fond of chicken white meat. The Northwester may be the answer.

PROGRESS

Kind Lady (to London huckster): And have you always been selling coconuts?

Hucker (proudly): Oh, no, lidy, I worked my way up from 'azels.

RAMSEY THANKS TEXAS VOTERS

BEN RAMSEY, run-off candidate for Lieutenant Governor, thanked Texas voters this week for the vote they gave him in the July 22 primary election. Ramsey, shown here in his San Augustine law office, said his heart was "filled with humble gratitude," and asked his supporters to continue the fight and elect him Lieutenant Governor in the August 26 second primary. Ramsey is the only experienced candidate in the race.

Bovina Mustangs Start Six-Man Practice Soon

Coach Clovis Ratliff, hoping for another district crown in six-man football this year, has set pre-season practice at Aug. 15 for prospective members of the 1950 Mustang team.

According to Supt. W. H. Willoughby, the coach will be able to muster around 30 boys for the team, and will have the advantage of practicing on a field that has been completely renovated.

Willoughby said the field was seeded to Bermuda grass last spring, and with the advent of heavy rainfall recently, was looking good. He said boys had helped work the field last week, and many of the grass-burns had been eliminated.

Local sports fans will remember the 1949 Mustang team as the one that failed in a late rally to overcome the Gruver Greyhounds in a bi-district contest in Bovina last December.

However, they carried away the district contest easily, and hope to have a repeating team this year.

Included in their regular district are Bula, Three-Way, Lazbuddie, and Petit.

Forsees No Shortage In Twin City Supply

V. C. Venable, water superintendent of the Farwell Water Company, this week expressed hope that the Twin Cities could get through another hot, dry summer without any acute water shortage.

Until rains of the past ten days, the municipal system had been taxed to meet increasing demands of thirsty yards in Texico and Farwell. However, with the advent of something over two inches of rain, consumption has fallen off considerably, he said.

The only precautionary measure Twin City waterers are asked to observe, he added, is that patrons turn off the water when they hear the fire siren.

"We hate to ask people to comply with regulations when they're paying for their water, and if possible, we won't do it," he said.

Asked what the company would do if as many new lawns were planted next summer as this, Venable said it would mean the installation of another well or a larger tank—or both.

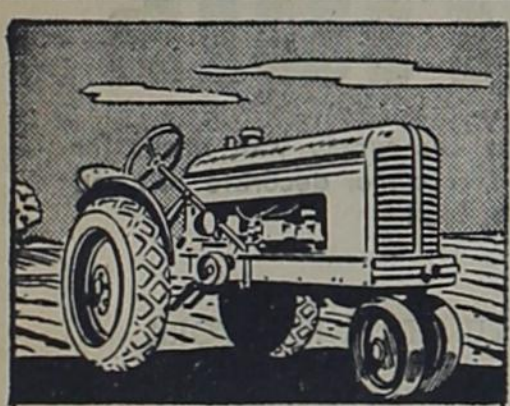

"However, nothing definitely can be said now," he commented.

County Agent Warns Against Using 2-4-D Spray On Gardens

"If you are using 2-4-D in your sprayers for weed control, you are reminded that if the same sprayer is used for spraying gardens and flowers, chances are that you will get in trouble," says County Agent Joe Jones.

There will be enough 2-4-D residue in the sprayer to kill garden plants, states Jones, unless proper precautions are taken. Even a small amount of 2-4-D is potent enough to damage sensitive plants.

2-4-D can usually be cleaned from sprayers with a solution of house-

Low Brothers Truck and Tractor PAINT COSTS LESS than new equipment!

You won't need to buy a new tractor, truck, or other pieces of equipment anywhere near as soon if you keep them painted with LOWE BROTHERS TRUCK AND TRACTOR PAINT. For this preserving paint simply won't let metal rust or wood decay.

hold ammonia or a suspension of activated charcoal (carbon). It is practically impossible to remove it from wooden tanks.

Neither method is always completely effective, however, explains Jones. To check the sprayer, fill it with water and spray seedlings of a sensitive plant. If the plant is not affected within one or two days, the equipment is safe for further use.

Early Work Started For Farwell Stadium

Foundation construction was approaching its final stages at the Farwell football field this week as large concrete beams to support the new 1100-seat stadium were run by school employees.

Work already had been completed on the east side of the field, and the construction crew is now busy readying forms for a similar foundation network on the opposing side. The west side, which is to be the "hometown" bleachers, will require more work, since they are somewhat larger than the eastern ones.

Other improvements to the system, said Supt. Jack Williams, include the sanding and re-finishing of floors in most of the rooms of the main building.

He expected this interior work to begin in the near future.

2 Mustang Members To Play With Stars

Two members of the 1949 Bovina Mustang six-man football team, bi-district runners-up, will play with the West Texas all-stars at San Marcus Aug. 7, announces W. H. Willoughby, superintendent of schools.

They are J. R. Ellison and Gene Brito, who will accompany Coach Clovis Ratliff to San Marcus. While there, Ratliff plans to attend a six-man coaching school Aug. 6, 7, and 8.

The two were nominated by coaches of schools included in Bovina's district for last season, said Willoughby.

PORTALES—An all-steel stadium has been purchased for the Eastern New Mexico University football field, announces President Floyd D. Golden. Western Iron Works Company, Waco, Texas, is doing the work, according to Golden.

The stadium, to be on the west side of the present football field, will be 27 seats high and 220 feet long, with a seating capacity of 4250, reports Golden.

The stadium may be enclosed on the back and sides to provide dressing rooms, classrooms, and dormitory space. All the framework is to be welded steel and President Golden predicts that the stadium will be ready for use by Oct. 1.

Bleachers now used in the gymnasium are being permanently located on the east side of the football field. These bleachers have a seating capacity of 2250 and are being set on concrete stringers. These additions to the football field will give a seating capacity of 6500.

Other work in connection with the athletic department, says Golden, is the purchase of telescope bleachers seating 3000. They are to be installed in the gymnasium by Sept. 1. When not in use, the bleachers may be pushed against the wall and will permit use of the entire floor space.

Work also is being completed on the gym itself. The entire building is being bricked and additional space is being added in the front to provide space for a lobby, ticket booths, concession stand, classrooms, offices, dressing rooms, and public restrooms.

Polio In Texas On Increase This Year

Over the state as a whole, polio cases have shown an increase of approximately 50 percent, Wilmer Sims, representative of the National Foundation, reported on his visit here the latter part of the week.

Sims said that polio cases in the northwest district of the state, served by the Abilene office of which he is a representative, had not increased to such an extent. "The Dallas and the Fort Worth area are the hot spots this year," he added.

While here he delivered a check

POLIO PRECAUTIONS

RECOMMENDED BY THE NATIONAL FOUNDATION FOR INFANTILE PARALYSIS

WHEN POLIO IS AROUND, the National Foundation for Infantile Paralysis recommends these simple precautions: Keep children with their own friends and away from people they have not been with right along. Don't become exhausted through work or hard play. Don't stay too long in cold water or sit around in wet clothes. And always wash hands before eating. Watch for feverishness, sore throat, headache, upset stomach or sore muscles. They may—or may not—mean polio. Call your doctor and then, if help is needed, contact the National Foundation Chapter in your area.

to County Chairman Loyde Brewer to apply on bills incurred by this county in caring for polio cases the past year. This money, he explained, was sent here from the National Foundation, and was in addition to the one-half retained by the county from the last March of Dimes campaign in the county.

Fuel consumption in jet planes cut airline use.

Cure For Webworm And 'Hoppers Given

Although not so large a number of webworms have appeared on elm and poplar trees this year as did at this time last year, a few cases have been reported.

To destroy these worms, a solution of 5 percent or 10 percent DDT can be sprayed into the webbs, County Agent Joe Jones says. If these worms are left unchecked, they will destroy all the foliage on a tree.

"If you are having grasshopper trouble, use chlordane or toxaphene," says Jones.

The county agent should be contacted before using either of these sprays on vegetable gardens, states Jones, because they are harmful to some plants. Edges of gardens can be sprayed for 'hoppers, however.

New Remedy Given For Flies On Screens

Would you like to try a cheap, simple way of keeping flies away from your screen doors. Well, all you have to do is pin three or four little clumps of cotton to your screen—and flies won't come calling on you any more. For the flies are apparently afraid to come near the pieces of cotton on the screen.

This novel idea of getting rid of flies originated in Richmond, Va. last summer and has been sweeping the country since. One explanation offered to explain the aversion of flies to cotton is that the flies think the pieces of cotton are spider webs.

Anyway, if you don't believe this system of fly control will work, just try it and see for yourself.

Business seldom expands by magic—it usually grows because somebody with brains is working.

Mr. Link Robinson, 519 Lindsey, is the most content and satisfied man in Newport, Ky. In fact, he says there isn't a thing in the world that can irritate or upset him now that he is on the HADACOL band wagon. If there ever was a man who thought HADACOL is the most wonderful thing in the world, it is Link Robinson, since he learned that his system lacked Vitamins B₁, B₂, Iron, and Niacin.

Here is what Mr. Robinson has to say about HADACOL, which is now supplying liberal quantities of these essential elements: "I have been a steel worker for over twenty years. When you are a steel worker, you have to do plenty of good, hard work, and you need lots of good, substantial food. But when a stomach is in as bad a shape as mine was . . . I couldn't eat, I had gas pains, stomach bloating and nervousness; well, I just couldn't eat the proper foods I needed. My boss told me about HADACOL and I started taking it immediately. After the second bottle I could tell a definite improvement. Now I can eat the foods I need to eat to really be on the job. In fact, I can eat anything I want to. I am not nervous anymore, either. Best of all, I haven't got those terrific gas pains and no more stomach bloating. HADACOL is the best ever. I recommend HADACOL to everyone."

HADACOL is Different

Countless thousands are benefiting from HADACOL . . . even hundreds of doctors are recommending HADACOL to their patients whose systems lack Vitamins B₁, B₂, Iron, and Niacin. HADACOL is so wonderful because HADACOL helps build up the hemoglobin content of your blood (when Iron is needed) to carry these precious Vitamins and Minerals to every organ, and every part of your body—to the heart, liver, kidneys and lungs, even to the eyes, hair and nails.

Give remarkable HADACOL a chance and if you don't feel better with the first few bottles you take—you get your money back. Only \$1.25 for Trial Size; Large Family or Hospital Size, \$3.50.

© 1950, The LeBlanc Corporation

TIME Has Praise For Dudley J. LeBlanc

TIME Magazine in a recent issue told the fabulous story of Dudley J. LeBlanc, the Medicine King, and described the benefits of HADACOL. The following are excerpts from the TIME story.

"In easygoing Lafayette, La. (pop. 19,210) 425 factory workers bustled each working day last week turning out more than 100,000 bottles of a murky brown liquid that tastes something like bilge water, and smells worse. The patent medicine called HADACOL has been such a resounding success in 14 Southern states that its backers expect this year to sell \$20,000,000 worth (in 8-oz. bottles at \$1.25, or in the 24-oz. family 'jug' at \$3.50).

Very Sassy. The man responsible for the murky brown medicine is Louisiana's plump State Senator Dudley J. LeBlanc, 56, who had to rustle up a new business after he made the mistake of running for governor in 1932 against a Huey Long candidate. Recovering from a bout of rheumatism when his doctors gave him Vitamin B-complex, LeBlanc saw that there was money as well as health in vitamins. He boned up on the subject by reading at home, decided that vitamins would be better if mixed with minerals.

Neither an M.D. nor a pharmacist, LeBlanc is plainly a go-getting businessman. He pushed HADACOL with a down-to-earth selling policy that included HADACOL radio programs, . . . a fervent appeal to folks' fondness for patent medicines. Testimonials have poured in, extolling the work of HADACOL . . . Samples:

From an 80-year-old Mississippian: "I was disable to get over a fence, disable to get up out of chair without help, but after I took eight bottles of HADACOL I can . . . tie up my own shoes and feel like I can jump over a six-foot fence and getting very sassy."

From a 68-year-old "bachelor" in Georgia: "HADACOL has done so

much for me and I am looking so much better, think I will put a fence around my house to keep the ladies out."

Pep & Strength. Last fall LeBlanc was selling only 150,000 bottles of HADACOL a month when the advertising began to take. Then there was a sudden shortage. After that the medicine enjoyed such a boom that last month around 2,000,000 bottles were sold.

Taking care not to arouse the Food & Drug Administration or the Federal Trade Commission, which have their own views about cure-all nostrums, LeBlanc merely describes HADACOL on the box as a "Dietary Supplement . . . formulated as an Aid to Nature in rebuilding the Pep, Strength and Energy of Buoyant Health when the System is deficient in the Vitamins and Minerals found in this Tonic . . ." In short: if it's what you need, it's what you need.

TEXICO, NEW MEXICO

Transport Terminal for New West-Bound Automobiles Located at Texico

Most New Autos We've Ever Seen . . .

Texico's newest and possibly largest business—an auto transportation terminal—is under construction east of the Port of Entry at Texico.

The cars are transported from factories to the terminal, then to Los Angeles where they are distributed to about 75 dealers in California.

The terminal isn't a temporary establishment, it is in Texico to stay, says C. L. "Clarence" Griffin, check boss, who checks the cars in and out of the terminal. Though only Hudsons have been delivered to the business so far, the company will haul all brands.

Approximately 260 cars are on hand now, says Griffin, but the number of incoming and outgoing cars will vary.

The estimated cost of the terminal under construction is \$10,000. The complete area will be paved, says Griffin. Flood lights will be installed and the company will build its own service station complete with diesel and gas for its transport trucks. The company will also have its own repair shop.

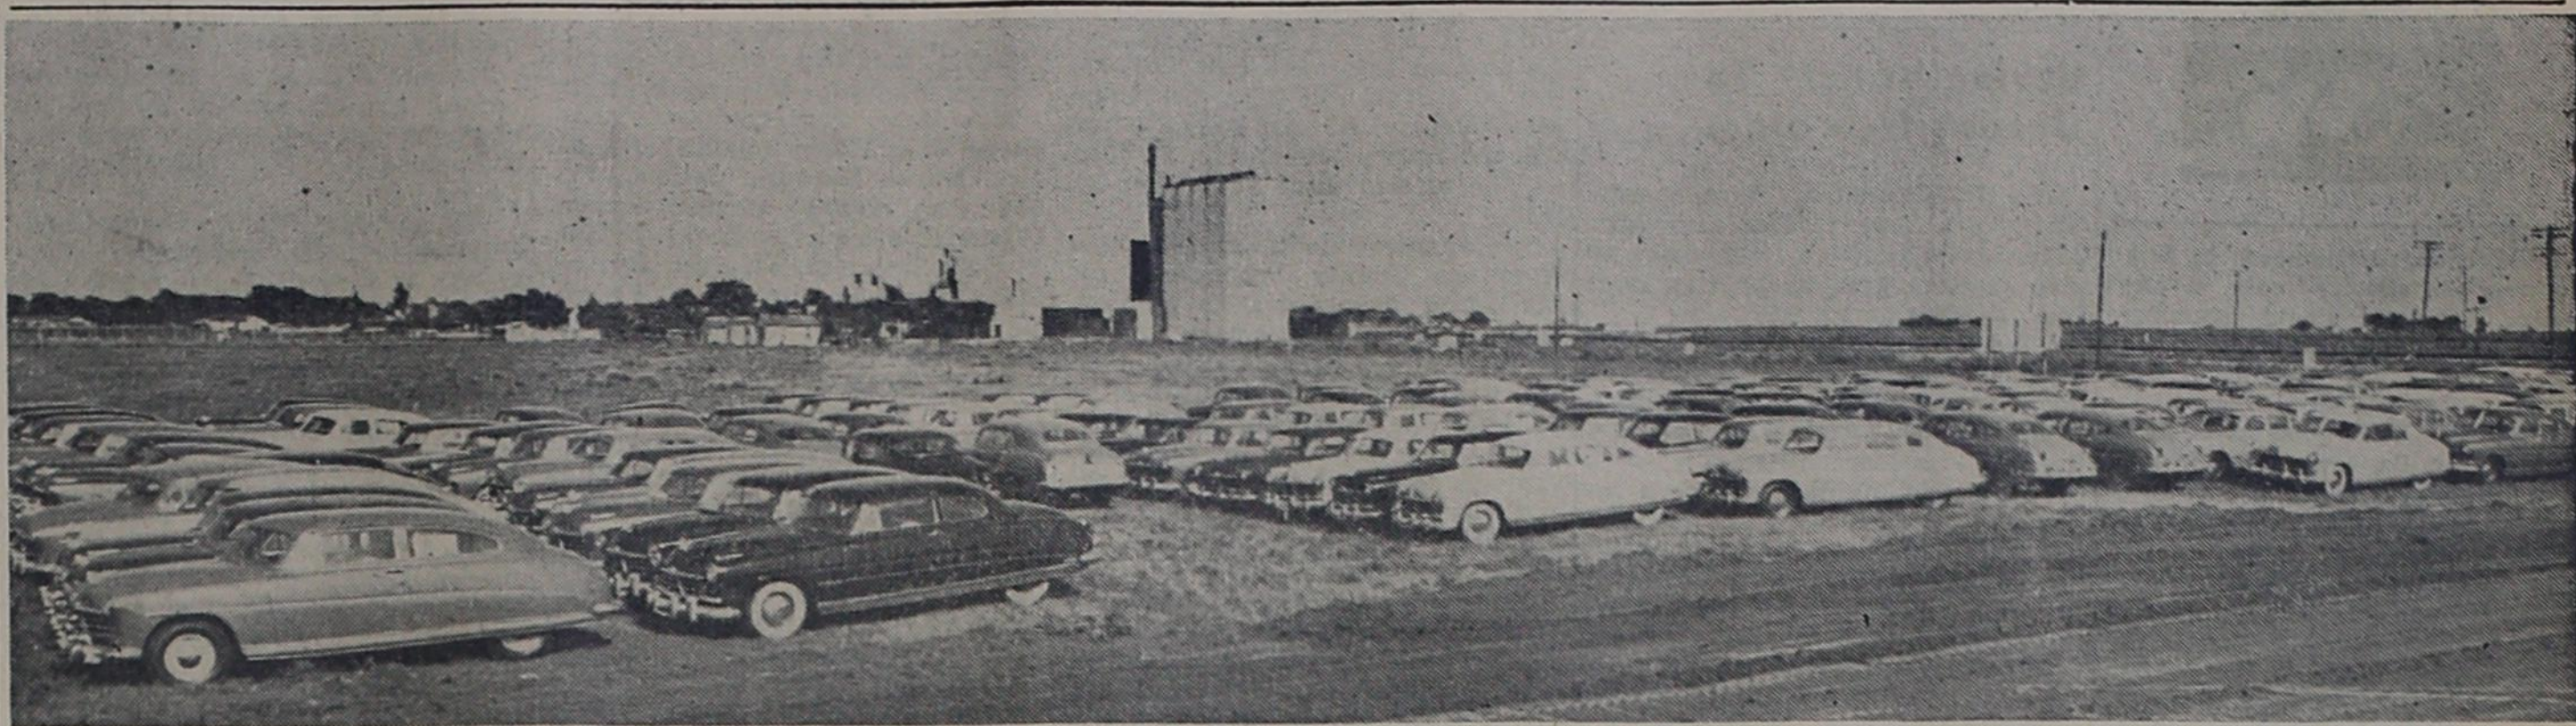

A drive-in cafe will be installed, which will be open to the general public. Also to be included in the plan will be an office building.

Griffin owns the land on which the terminal is located; he will work for the company and operate the drive-in cafe.

The terminal is a branch of the Landy Engineering and Trucking company. Fred Landy is terminal manager.

The terminal has been in operation since July 21. The first load of cars was delivered that day.

Asked why the company selected Texico as location for the new establishment, Griffin explained that the state of Texas will only allow trucks to haul four cars on one truck while New Mexico allows a load of six cars on a big Diesel truck. Because of the load limits, the terminal saves time. Two trucks from New

NEW CAR TERMINAL SPRINGS UP OVERNIGHT—Residents of Texico were more than a little surprised a week ago to see a "mid-continent" new car transportation terminal spring up in their own backyard. Most of more than 200 new Hudsons can be seen in this picture,

and operators of the terminal claim many more will be brought in from time to time. None of the above cars are for sale, they said, and all are headed for the West Coast, where they will be distributed by dealers.

Mexico into Los Angeles can take the place of three trucks across Texas.

The company is discontinuing a terminal in Jal. N. M. such as the one which is now located in Texico. By changing the location of the business, Griffin says, approximately 100 miles will be saved enroute from the factory to Los Angeles.

Griffin states that people in this area have been quite curious about the new terminal. He explains that every hour in the day, someone stops and questions the workers about the new business.

Quite a few of the passers-by have the mistaken impression that the Port of Entry is causing the truckers to unload the cars, he says.

Workers are now leveling and grading the storage lot. Griffin made no estimate on when the terminal would be completed, however.

In relation to livestock prices, the prices for milk and its products in 1948 were the lowest on record.

Doctors And Dentists Under Fire On Plains

Newspaper publishers on the South Plains are having a wide discussion of the proposal made several weeks ago by Ernest Joiner of the Ralls Banner. Joiner has decreed that no longer will the name "doctor" appear in his paper. This was brought about by the fact that the Lubbock Clinic has cancelled publication of its professional card in all weekly newspapers on the ground that it is "unethical."

While newspapers resent the training and teaching of professional men generally that advertising is "unethical," there seems to be little or nothing that the public can do about it.

So-called ethics is born and bred in the minds of professional men, not only among doctors and lawyers, but likewise other professions. It is hard to understand why these professions take such a stand against advertising when you could not sell one of them an unadvertised article or an unknown and untried medicine.

They simply demand standard goods, and advertising has made standard goods in every respect. There is no way to get around this.

The trouble of this ethical business is that when many of these professions get together and set high prices for their work, they are entirely unethical.

The Canyon News has pointed out many times that the doctors and dentists are bringing socialized medicine to America, faster than any measure can be enacted into law, because of their high hatted attitude toward other professions and high prices.

Of course we do not believe in the government regulating the medical profession, or the law profession or the newspaper profession or the farmers, but it looks like Washington is hell bent on regulation of all of them excepting the newspapers.

Probably the fates will some of these days include newspapers.

While we rather believe that the South Plains newspapers are right in ignoring the professions to the same extent that the professional group ignores the press, the word "Doctor" is so extensively used by so many folks here in Canyon and

other college towns, that we cannot go along and abolish the name entirely. Maybe we will—just before it is too late.—The CANYON NEWS.

Bovina Variety To Occupy New Store

The Bovina Variety Store, operated by Mrs. Troy Fuller and Mrs. Alice Moore, sisters, will move to new quarters on or about Aug. 15, it was reported here today.

The business has outgrown its present location, and will be moved one door east to a building owned by J. P. Macon, and formerly occupied by the Williams Mercantile Co.

The Macon building has been redecorated inside, new shelving added, and additional show windows put in, making it a very attractive business building.

WHITE MAKES BOND

Robert V. White, 22, of Floydada has been released from the Parmer County jail after furnishing bond in the amount of \$1500, officials stated today.

White is charged with theft of over \$50 from the Bill Smith service station at Friona. He is alleged to have "tapped the cash register" at the station where he was formerly employed.

LEAVES HOSPITAL

Claude Rose, owner and operator of the Fox Drug Store in this city, was permitted to leave a Clovis hospital and return to his home Monday after undergoing surgery on Wednesday of last week. Rose was taken to the hospital Wednesday afternoon and underwent an operation for an intestinal disorder. His many friends will be glad to know that he is improving satisfactorily.

COUNTY BOARD TO MEET

Announcement of a meeting for the Parmer County Board of Education was made by County Judge A. D. Smith this week. He said the meeting is scheduled for Monday, Aug 7 at the Courthouse in Farwell. Judge Smith said principal business probably will be the discussion of school transfers.

CLOSE OFFICES FRIDAY

Farwell offices of Southwestern Public Service will be closed Friday afternoon, announces Otis Huggins, manager. Mr. and Mrs. Huggins and family and Letha Bridges, secretary, will go to Plainview for an annual employee picnic. Huggins said there probably will be "around 500" present.

JONES ATTENDS MEETING

Agrie Jones, superintendent of Texico schools, returned Wednesday from Santa Fe, N. M., where he attended a workshop of administrators called by the State Department of Education.

"The speakers were more concerned about the war than anything else," Jones says.

HAS FIRST ANNIVERSARY

Frank Truitt, owner and operator of the Bovina Drug Store, will observe his first anniversary in the new business on Aug. 19, he stated today. "My business has been far better than I had hoped for," Truitt told a Tribune reporter. Truitt went to Bovina from Friona.

FFA MEETING SLATED

The monthly meeting of the Farwell FFA chapter will be Monday night at 8:30 in the vocational agriculture building, announces Robert L. Morton, adviser.

He urged all chapter members to be on hand, as important decisions and plans regarding the summer encampment to Daingerfield state park will be made at that time.

PMA Extends Loans For Parmer Cotton

Parmer County cotton producers are advised this week that Commodity Credit Corporation price-support loans on 1949-crop cotton, which bear a maturity date of July 31, 1950, will be carried until September 30, 1950.

The announcement, which comes from the County Production and Marketing Administration committee, explains that all cotton covered by outstanding loans on Oct. 1, 1950, will then be pooled on that date by CCC for the producers' accounts.

Joe Camp, secretary of the PMA, explains that with extension of the maturity date on CCC cotton loans, producers will now have until the end of September to either sell their "equity" in their 1949-crop loan cotton or to redeem the cotton from the loan and sell it on the open market. "We believe that growers should give serious consideration to marketing the loan cotton before it is placed in pools," says Camp. "At present market prices, they should be able to dispose of this cotton at prices which will give them substantial profits above the loan and charges against the cotton."

He points out that 1949-crop loan which is not redeemed prior to Oct. 1, 1950 and is placed in pools, as provided in the loan agreement, will be sold in an orderly manner by CCC.

"On final liquidation of all cotton in the pools the net proceeds, if any, after deduction of all advances, interest and accrued costs—including storage, insurance and handling charges—will be distributed among the producers whose cotton was placed in the pools, in proportion to the amount of the loans on the cotton placed in such pools," the chairman explains.

No payment will be made to producers at the time their cotton is placed in the pools, he says, and after Sept. 30 1950, producers will not be entitled to order the sale of the cotton.

Farwell Seniors Buy New Stencil Machine

Seniors of the 1949-1950 class at Farwell High have purchased a new rotary stencil printing machine for the school. It is called a Speed-O-Print, and will be used for printing the high school paper next year.

The machine was ordered from a Clovis concern at a cost of \$173, and arrived at the school last week.

In addition to printing the semi-weekly school paper, the rotary stencil machine will be used for the preparation of tests and other school paper work.

Work On School Ground Continues At Texico

Work on buildings and grounds is continuing at Texico Schools, Agrie Jones, superintendent, said this week.

Workmen are now installing pipe from the school building to the agriculture buildings. This work probably will be completed this week, Jones estimated.

New sashes have been placed on all the windows and new hail screens have been built. The windows will be painted this week.

All teachers have been hired with one exception, Jones explains. An elementary instructor is intended to be hired within the next few weeks.

CAFE IS REOPENED

The Texico Hotel Cafe, has reopened again under the management of Frank Cornelius. Mrs. Lee Doshier has been employed as cook, and her daughter, Patsy, is serving as waitress on the day shift, with Mrs. Webb Caldwell and Mrs. O. S. Allred taking over the night shift.

Oklahoma Lane Society Notes Hospital Notes

By MRS. TURNER PAINE

Those admitted to the Parmer County hospital this week were:

Mrs. Bruce Parr, medical, Friona; Treva Jean Rolen, medical, Friona; Mrs. Mattie Stowers, medical, Friona; Carl Hadley, medical, Friona; Olivia Comacho, medical, Friona; Everett Sizemore, accident, Bovina; Mrs. John Allen, Jr., O. B., Friona; H. W. Bradshaw, medical, Farwell; and Mrs. Vernon Cozart, O. B., Friona.

Dismissed

Mrs. David Moseley, Friona; Mrs. Clyde Stephens, Friona; Mrs. Ralph Smith and baby girl, Friona; Mrs. John C. Guinn and baby boy, Friona; Mrs. Jack Waltman, Bovina; Treva Jean Rolen, Friona; Everett Sizemore, Bovina; Mrs. Bruce Parr, Friona; H. W. Bradshaw, Farwell and Carl Hadley, Friona.

Methodist Revival Closes Sunday

The ten-day revival meeting at the Methodist Church came to a close Sunday night with five additions to the church and a number of reclamations. Rev. Murphy Duncan, pastor, states.

Four of the additions to the church were by conversion and one by transfer, he said.

The evangelistic services were conducted by Rev. Hershel L. Thurston, pastor of the First Methodist Church of Canyon, and son of Rev. L. L. Thurston, pastor of the local church many years ago.

CARD OF THANKS

We, the family of Claudell Parton, sincerely wish to thank all persons who gave blood transfusions and those who offered their services in any way and for the beautiful flowers. May God's richest blessings be on each one is our prayer.

Mr. and Mrs. M. F. Parton, T. W. and Delbert, and Mrs. Roberts.

SANTA FE CARLOADINGS

Santa Fe System carloadings for week ending July 29, 1950, were 23,316 compared with 23,047 for same week in 1949. Cars received from connections totaled 12,065 compared with 9,907 for same week in 1949. Total cars moved were 35,881 compared with 32,954 for same week in 1949.

Santa Fe handled a total of 35,284 cars in preceding week of this year.

Mrs. B. N. Graham was ill Thursday through Saturday with a virus infection.

Mrs. Maggie L. Robertson and her daughter from Amarillo are in Colorado this week.

The John Aldridge family left Wednesday for Red River, N. M. They returned to Farwell Sunday.

Mr. and Mrs. Jack Storrs of Amarillo visited in the O. F. Storrs home over the weekend.

Dinner guests in the Bob Anderson home Thursday night were Raymond Tapp and George Atkinson of Lubbock.

Mrs. Ida Nelson from Waco left Monday after visiting in the M. F. Parton home for the past week. Mrs. Nelson is Mrs. Parton's sister.

Lawrence Overstreet of Oklahoma City came in Sunday for a two-weeks visit with his mother, Mrs. Anne Overstreet.

WINS BED SPREAD

Mrs. Joe Reed was awarded the chenille bedspread given away by Martin Produce Company last Saturday afternoon.

Here From Tatum

Mrs. James Hobbs and son, Wally, were here the latter part of last week from Lovington, N. M., visiting her sister, Mrs. Ethel Thomas. Mrs. Hobbs is the former Miss Beulah Kistler of this city.

Visits Daughter

Mr. and Mrs. C. L. Woods of Clinton, Okla. stopped by to see their daughter and her family, the Jack Williams, Monday night. They were enroute to California.

Mr. and Mrs. Paul B. Brown and children of Mountainair, N. M., were weekend guests in the home of Mr. and Mrs. Johnny Lewis in Texico.

Mr. and Mrs. W. R. Crook of Clovis visited briefly in the home of her sister and brother-in-law, Mr. and Mrs. Les Means Sunday.

Visiting in the B. N. Graham home Friday afternoon was their daughter, Mrs. Raymond Ross, of Morton.

Glenna Ruth Davis is spending the week in Muleshoe with her grandparents, the Ebb Randols.

T. J. Randol is spending the week with Frank Curry in the Fairfield Community.

Mrs. W. E. Thornton of Bovina visited her parents, the B. N. Grahams, Thursday afternoon and Saturday morning.

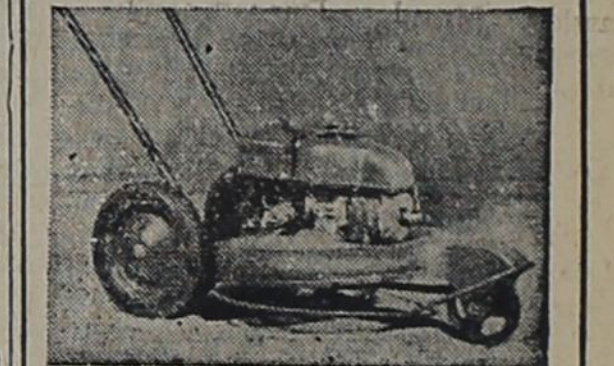

Rev. and Mrs. Henry Ayres and son, Lonnie, of Clovis, visited with friends in Texico-Farwell Friday night.

Les Means, Jerry Johnson, and Harold Ford attended the roping which was held the past Saturday night in Portales.

Mr. and Mrs. C. L. Vestal of Friona spent Sunday with the Loyde Brewers. The Vestals are Mrs. Brewer's parents.

Bovina Happenings

BY MARIE VENABLE

Mr. and Mrs. A. G. White have as guests in their home this week, a brother, Judge and Mrs. C. R. Duncan and Bucky, and a little granddaughter, Nancy McDonald, from Sealing, Okla., and Mr. and Mrs. Raymond Duncan, from Springfield, Mo.

Mr. and Mrs. Lawrence Rhodes and little Randy, are spending several days in their parents homes, in the A. H. White, and A. T. Moor-man homes.

Mrs. Norma Cawood and son, Larry of Perry, Okla., are visiting in the John and Frank Wilson homes.

Mr. and Mrs. Cecil Bunch and baby spent several days visiting her sister, who is in a hospital in Oklahoma City the past week.

Miss Carrie Smith is staying in Clovis this week where she is to receive medical attention.

Mr. and Mrs. N. C. Rhodes made a business trip to Clovis Friday afternoon.

Mrs. A. G. White is employed at William's store this week while Mrs. Denney is vacationing.

Mrs. J. B. Macon made a business trip to Muleshoe, Thursday.

Weekend guests in the J. R. Caldwell home were her sister and family, Mr. and Mrs. J. A. Siddness, and son, Tom, from Seymour, Texas.

Visiting in the home of Grandma Elliott is her daughter and granddaughter from Odessa, Texas.

Mr. and Mrs. Harry Jefferson from Jal, N. M., are here visiting Mr. and Mrs. Charles Jefferson.

Mrs. Jack Waltman returned from the hospital at Clovis recently.

Byron Turner and Nolan Rhodes

made a business trip to New Mexico the past weekend.

Mrs. George Trimble is in Northwest Texas Hospital in Amarillo. She is to undergo surgery for a back ailment Monday morning.

Mr. and Mrs. Nolan Rhodes are here visiting relatives. Noland is awaiting orders for Army duty.

Mr. and Mrs. Herman Estes and daughter, Sue, visited in Amarillo Sunday.

Mrs. Jim Manion, Bill Gromowsky, and Charles England were visiting in Farwell Saturday.

Bill Berggren, formerly of Bovina, has passed away, according to word received here today. He had been ill for some time.

J. W. Bell of Bovina underwent a surgical operation this week at Plains Clinic in Lubbock. He was doing well at the last report.

Weekend guests in the E. H. Moody home were his brother, Mr. and Mrs. Howard Moody of Norman, Okla., and his mother and father, Mr. and Mrs. J. W. Moody of Dallas, Texas.

Mrs. Aubrey Rhodes and Tim spent the week visiting her sister and family, Mr. and Mrs. Duke Cooper and Carol in Meade, Kan.

Mr. and Mrs. Floyd Englant left for San Diego, Calif., after spending two weeks in the home of his parents, Mr. and Mrs. Ezra Englant. They left the two children to visit here for the summer.

Mrs. Cecil Berry spent a few days with her sister-in-law in Spur, Texas.

Mr. and Mrs. Winston Roundtree from Littlefield are here visiting in the home of his brother, Don Roundtree, this week. He is helping out with the farm work.

Mr. and Mrs. R. A. Kelly have been visiting in Oklahoma.

Rev. E. J. Speegle and family, Earl Garrett and family, spent the first two days of this week visiting the Carlsbad Caverns.

with a surprise pink and blue shower Thursday afternoon in the educational section of the Bovina Baptist Church.

The theme was emphasized by a rainbow on the wall; a covered umbrella on a table with gifts placed under and around it. The serving table was decorated with a white linen tablecloth and a lovely bouquet of flowers.

Punch was served from the bowl to Mesdames Bob Johnston, Harold Hawkins, Joe Hromas, Frank Pesch, Frank Truitt, R. I. Green, J. D. Stevens, N. C. White Jr., R. L. Edwards, E. J. Speegle, Travis Lloyd, Ames Steelman, Jack Jarrell, E. H. Moody, Floyd Montgomery, H. L. Tidenberg, Roy Hawkins and Janie, Royene Charles Hawkins.

Henry Minter, Tyson Eubanks, Don Roundtree, Clarence Shanks, Jack Kessler, Howard Looney.

Those sending gifts were Mes-

dames Homer Kelly, Joe Wilson, Otis White, Emmitt Tabor, Charles Laugh, Jessie McSpadden, W. J. Wade, Jess Walling, Willie Smith, Tom Hudson, H. D. Bradshaw, Charlie Gray, George Trimble, Scott Levins, Bill Thornton, Bass Elliott, J. C. Combs, Frank Ayres, Charles Jefferson, A. M. Wilson, Troy Fuller, Bill Moore, Pat Kunselman, Bill Alverson, Otie Ellison, J. C. Denney.

J. H. Steelman, Bill Denny, Lewis Hillock, Henry Reynolds, O. H. Hardy, Tom Hasting, Durward Bell, Morris Means, J. F. Barnett, Dollie Williams, Pearl Hammonds, John Wilson, Sam Sides, J. W. Gooch, J. E. Owens, Aubrey Brock, Pearl Boatman, Steve Calhoun, Pete Davies, Troy Armstrong, J. Sam Gaines, Lester Rhinehart, Ward Thompson, Elton Venable, N. E. Bonds, Roberta Boatman, Osborn Loflin, Frank Wilson and girls, Harvey Alverson, Nancy Williams, A. B. Wilkinson,

and Nat Reat.

Hostesses for the affair were Bobbie Eubanks, Betty Roundtree, Margaret Minter, Jenne Kerby, Dorothy Looney, Beth Shanks, Amy Hromas, Barbara Kessler, Mary Leatrice Looney.

RECIPE OF THE WEEK
IS BLACKEYED PEAS
Two Pounds or Two Quarts
For Six Servings
Shell, wash, and boil in salty water about 30 minutes or until tender. Use one teaspoon salt per quart of water. Season with bacon, bacon drippings, or butter. If dry salt bacon is used—no salt will be needed for seasoning.

Complete Menu
Fried Chicken
Blackeyed Peas—Scalloped Potatoes
Plate of Sliced Tomatoes
Onion Rings, Pickles and Peppers

Cornsticks, Watermelon
Iced Tea—milk

Use vegetables as soon after gathering as possible. Begin with a product of good quality. If vegetables are kept for a day or so, store in a cool place.

No. 3 In a Series

Another in a Series of Articles Presenting Four Beautiful New Residences

Pictured above, in sequence from left-to-right, are four new Farwell homes, typifying the building trends of the Twin Cities. All of these new houses have large porches and all four have picture windows featured in the living rooms. Landscaping plans for each home are extensive. Pictured first is the home of Mrs. J. C. Robertson. It is frame-and stucco design and features decorative trellises on either side

of the porch. Mrs. Robertson is proud of the octogen-shaped hallway located in the center of the house. Second is the home of Mr. and Mrs. Charlie Hromas, who did much of the work on their new home themselves. The light brick ranch-style house has a composition roof and a built-on garage. Black iron posts extend across the set-in porch. Third is the home of the J. E. Hardages. The banister around the front

yard encloses a rose garden, and a patio extends along the back of the house. The home is Californian styled. Pictured last is the home of Mr. and Mrs. Glenn Phillips. The couple bought their home ready-built and had it moved to Farwell. The outside of the house is white weather board with a green shingle roof. A tile board fence was recently built to enclose the backyard.

J. C. Robertson Home

Mrs. J. C. Robertson and son, Junior, moved into their new home one block north of the courthouse around Dec. 1, in 1949.

R. M. Petty Construction Company of Clovis began building the house in September. The house contains five rooms consisting of living room, two bedrooms, dining room, and bathroom.

Hardwood floors with narrow strip composition and natural varnished woodwork predominate in the home. Solid slab doors in a natural color appear throughout the residence. All walls and ceilings are textone.

A large picture window is featured on the south wall of the living room. The room is furnished in mahogany trimmed furniture with a beige and burgandy color scheme. The soft beige living room suite and the burgandy drapes with white nylon panels carry out the decorative scheme. With a leather platform rocker, end table, chairs and floor radio, the furniture is complete. Throw rugs and pictures are also used. Pale green walls appear in this room.

Mrs. Robertson, who was post-mistress at Lariat for 23 years, says her new house is a copy of one that the construction company built in Roswell. When she decided to build a home, she spent quite some time traveling around to look at houses until she found what she wanted.

The new house is heated by floor furnace. Venetian blinds are used on all windows except the bathroom, which has a frosted glass window.

Mrs. Robertson's bedroom carries out a subdued color scheme, with pale blue walls and a rose garden bedspread of yellow, blue, and rose. Low modern furniture with a veneer finish, and brown carpeting complete the arrangement of the bedroom. Mrs. Robertson plans to hang yellow curtains in her room to match the yellow in the bedspread.

The large closet which opens off the bedroom has built-in shelves and lights installed.

Junior's room is finished in grey. Modern furniture is also found in this room, with a round-mirrored dresser and a tall chest of drawers. At present, a blue bedspread is used, but Mrs. Robertson plans to hang grey curtains with a green and red leaf foreground and to make a bedspread to match.

The octogen-shaped hallway is situated in the center of the house. Floor-to-ceiling linen closets with built-in shelves and drawers are the principal features. The closets are finished in natural wood.

Bottom part of the walls in the bathroom are white with grey top and ceiling. A mingled-design inlaid linoleum covers the floor, fluorescent lights are installed on either side of the mirror. A unique feature of this room, however, is the combination electric fan and heater.

The kitchen is finished in yellow and white with the bottom part of the walls painted white and the top part of the walls and the ceiling are in yellow. Instead of curtains, Mrs. Robertson plans to put ruffles around the windows. The mingled-colored inlaid linoleum covers the cabinet top and the floor. The white dinette suite matches the white floor-to-ceiling cabinet. A hot water heater closet opens into the kitchen.

Mrs. Robertson has planted African Bermuda grass in the front yard. "There isn't much of this type grass in town," she says, "but it is really fine grass." Small evergreens are planted on each side of the sidewalk and a flower garden is planted all around the house. Mrs. Robertson set out the grass and other plants herself.

Junior plans to construct sidewalks all around the house to the back yard. In the fall, the back yard will be fenced with a woven wire fence. Mrs. Robertson will partition off a place for a garden, and Bermuda grass will be planted.

She also plans to set out poplar trees, and a few fruit trees. "We

want to put a playground in the back also," says Mrs. Robertson. Flood lights will be installed so that games can be played at night.

The concrete porch to the house extends practically across the front with small decorative trellises on either side of the main entrance. The home faces the south with the back door situated on the east.

The neat white stucco home has blue window frames and blue trim, and a composition roof.

"It's just what I wanted," says Mrs. Robertson. "The only change I might wish to make after living in the house would be in size. I'd like the living room to be two feet larger."

Mrs. Robertson feels that one should know what he wants before beginning to build a house.

One of the features of the home of which the owner is particularly proud is the steel windows. During rainy weather, this type window does not "swell," she says.

A 10x12 foot storage house is constructed at the back of the residence on the corner of the lot. In the future, Mrs. Robertson says, a garage will probably be built.

"I couldn't get anyone to help me plan my house," says Mrs. Robertson, "so I had to do it all myself."

C. G. Hromas Home

Mr. and Mrs. Charlie Hromas, who live two blocks west of the Farwell Schools, did a majority of the work on their new home themselves. Hromas is a building contractor.

The new home was begun in July of 1949. By working during their spare time, the Hromases finished the house in June of 1950. They moved into the home in November.

The ranch-style residence features a central heating unit, oak hardwood floors, and natural woodwork throughout except in the kitchen and bathroom.

The light-colored brick home has a composition roof and a garage built onto the house. The large cement set-in porch has black iron posts across it.

The dining room-living room has a large picture window with windows on either side for ventilation. Walls have a floral designed paper on the north and south and a striped companion paper on the east and west.

Furnished in burgandy-colored furniture, the theme of the room is carried out by an ornamental lamp with rose faille shade which matches the rose faille drapes with nylon panels. The lamp is placed on a round mahogany table before the picture window. The Hromases have not yet planned the dining room furniture.

All ceilings in the home are textone and molds appear between walls and ceilings. Venetian blinds are used throughout the house.

The master bedroom, which has a blue floral wall paper, maintains a yellow and white color scheme. Yellow nylon curtains and yellow throw rugs emphasize the chosen colors.

Low modern walnut furniture with wide mirrored dresser and a low matching bedside stand complete the room arrangement. The double walk-in cedar-lined closets have shelves that are built in.

The bathroom, with pale blue tile and yellow papered walls, has a darker blue rubber tile on the floor. A built-in sink surrounded by tile and featuring a large mirror with fluorescent lights on either side is included. Built-in linen closets with clothes hamper, shelves, and drawers and a built-in dressing table cover the east wall. Mrs. Hromas plans to put a mirrored top on the dressing table.

Linen closets with shelves and drawers open into the hall. Darlene, who is six years old, has a combined bedroom and play room. She has a clothes closet and another toy closet which is complete with shelves from ceiling to floor on one wall. The color scheme is carried out by light floral wallpaper and a blue chenille bedspread on the bed. The

room also contains a small leather-covered platform rocker and tiny tables and chairs.

The modern 9x24 kitchen has white cabinet extending along the west and part of the north wall. Gray rubber tile on the floor emphasizes the gray-topped cabinet.

Small rounded shelves are built at the termination of the cabinet. Mrs. Hromas has an electric stove and refrigerator and a double sink. Tile board is used around the bottom part of the wall with a green ivy wallpaper on the top part.

A pantry with built-in shelves and a water heater closet open from the kitchen. A white porcelain dinette set with black trim and leather-cushioned chairs complete the room. Ruffles border the window.

Knotty pine walls with an olive green textone ceiling is used in the den. The storage closets on either side of a long window seat on the east wall, was an idea of Mrs. Hromas. The room is furnished in light furniture. Grey and maroon curtains are used on the windows.

Mr. and Mrs. Hromas planned the home themselves. They have built two other homes in Hereford, but they like this one better than the others. Of course, there are some changes one would always make, Mrs. Hromas adds.

The second bathroom is not yet completed, but the Hromases plan to build a shower and tile the walls. A storage closet has already been built. The entrance hall leading to the back door of the house is finished in yellow tile and has a storage closet with built-in shelves.

The garage is used mostly for storage now—later will be changed. The back part will be made into an office, a workshop, and a place to store tools.

Mrs. Hromas says they haven't completed all plans for the yards yet. They want to wait until all the sidewalks are finished. They do, however, plan to build a brick fence and plant Bermuda grass, and a fireplace probably will be included. "We want a backyard that's really livable," Mrs. Hromas says.

Sidewalks will be built completely around the house, then the front lawn will also be planned.

The Hromases lived in Bovina before moving into their new home in Farwell. "We were reared here and liked Farwell," Mrs. Hromas says, "so we decided to make it our home."

J. E. Hardage Home

A unique L-shaped entrance hall leads into the new J. E. (Edd) Hardage home. The hall, which has knotty pine wall, features a palm leaf plant, and contains a wall mirror, vase, and chair.

Henry Teeter of Clovis, contractor, began building the home on March 19, 1949. The house was completed around June 1, but because the Hardages were out of town on harvest for part of the summer, they did not move in until the latter part of July.

The Californian style residence has a combination living room and dining room, two bedrooms, a bathroom, den, and kitchen.

Asked how they picked their house plan, Mrs. Hardage states that they looked in magazines and everywhere else. Finally a friend showed them the Californian style house and said, "Build this one because I can't afford it and I want to see how it looks."

Actually, Mr. and Mrs. Hardage couldn't find a plan they liked better, so they used it.

The master bedroom has rose and aqua stripe wallpaper with a companion floral design on the ceiling. An orchid and white color scheme is used with white dotted Swiss ruffled cutrains, white chenille bedspread with orchid trim and an orchid throw rug.

Mrs. Hardage plans later to have a satin bedspread with matching window cornice and panels of white nylon. The bedroom has "his" and "her" closets with built-in shelves. Walnut bedroom furniture with a large poster bed is used.

White pine slab doors are featured throughout the home and oak hardwood floors appear everywhere except in the kitchen and bathrooms and venetian blinds are used on all the windows.

The hall is finished in pale green wallpaper with one knotty pine wall. A linen closet with built-in shelves is the principal feature.

The bathroom shows expert blending of rich colors, featuring burgandy and lavender walls of tile board, and the same color in a floral-designed wallpaper with a black background, on the top part of the room. Matching plastic curtains are on the window.

A large linen closet and clothes hamper appear in the southwest corner of the room. A built-in dressing table with a plate glass top is situated under a decorative mirror edged in blue on either side. Green asphalt tile covers the floor. Fluorescent lighting is used in this room.

Gene's room has a western theme and contains palomino furniture with miniature horse shoes for drawer handles. A large bed, bedside table with a gourd lamp, and twin chests with a large plate glass mirror complete the room furniture.

Brown striped wallpaper on three walls with companion western paper on the fourth wall and striped curtains carry out the arrangement. The brown chenille bedspread shows a typical ranch scene with horse and rider and cactus. Mrs. Hardage plans to put western throw rugs on the floors in the future.

Gene has his model airplanes hanging from the ceiling of the room. The large closet has shelves from top to bottom on one side.

The combination living room and dining room has all mahogany furniture—including a glass-topped coffee table, tier tables, radio-phonograph, and bookcase.

Mrs. Hardage plans to install period furniture later. The large paned three-section picture window on the south wall has nylon window curtains in white.

Three-way companion wallpaper is used in this room with cocoa brown floral stripe on three walls, a solid ceiling, and the floral design on the north wall. China lamps and throw rugs complete the living room arrangement.

The dining room features a 54x42 inch mirror over the low buffet. The Duncan 5-dining room suite has a glass-doored china closet and cushioned chairs.

Pictures are used extensively in the decorative scheme of the home. "If we built the house over, there aren't too many things we would change," says the Hardages.

The kitchen is done in yellow and blue with all-yellow woodwork and cabinet which is topped with blue asbestos linoleum. The floor is covered with shaded blue asbestos tile.

Referring to her kitchen, Mrs. Hardage states she did not want a white kitchen. "I like color," she says. White tile board and grey striped paper cover the walls. Ruffles in grey and yellow are placed above the double windows over the double sink.

Gas stove and electric refrigerator are used, and the Hardages also own a deep-freeze unit. A pantry with built-in shelves opens onto the kitchen.

The den has wallpaper with a coral pink background with a green leaf foreground. One wall is knotty pine. Leather ranch-style furniture is used and heavy green drapes cover the windows.

"Our house faces the south and west, but we really like it because it gives us an east back, and we use the back entrance practically all the time," says Mrs. Hardage.

The front lawn is Bermuda, the back has recently been planted in perennial rye grass. A flower garden extends by the house and the back yard fence. The back yard features a concrete patio with an outdoor fireplace. Lawn furniture is planned for the future.

The bannister around the front of the house encloses a rose garden. The home and fences are finished in an eggshell-colored stucco. The roof is asphalt shingle and a knotty pine gable is on the south side of the

home. Concrete walks are built all around the home and a concrete driveway leads into the double garage.

The back part of the garage is a solid workbench complete with shelves for storage.

The home is heated by floor furnace and "Old Mother Nature, who really heats it in the summer time," according to Mrs. Hardage. Air conditioning has not been installed as yet.

As for watching the work well-done while the home was under construction, Mrs. Hardage said she was unable to do this. She explains that she merely bought her wallpaper, wrote a note telling what room each paper was to be hung in, and left for wheat harvest.

When she came back, the home was finished just exactly as she would have wanted it done if she had been around to supervise the construction. The Hardages are very well pleased with the house.

In the future, besides changing the living room furniture, the family plans to change the furniture in the master bedroom. They have not decided definitely on color and style.

The Hardage residence is located three blocks west of the school house.

Glenn Phillips Home

When Mr. and Mrs. Glenn Phillips decided on a new home, they went shopping. After looking at ready-built houses at various places in Clovis, they found one they liked. So it was moved to their home in Farwell. The Phillips moved into the new house in February of this year.

The new home, which contains two bedrooms, living room, kitchen and bathroom, has all natural varnished woodwork. Panel doors appear throughout the house except the front door, which is a large slab door with two small oblong panels of glass, one underneath the other.

All walls and ceilings in the home are of textone. Venetian blinds are used on all the windows with the exception of the picture window in the living room. An air conditioner has been installed and the couple plan to use gas heating.

The living room, which has a grey, chartreuse, and Chinese red color scheme, features draw drapes of striped cloth over the picture window, which appears on the south wall. Both walls and ceiling are grey.

Modern limed oak furniture, including low large chairs, radio-record player and tables furnish the room. A table lamp, floor lamp, and pictures complete the arrangement.

A unique floor-to-ceiling cabinet in knotty pine covers the north wall of the modern kitchen. The green rubber tile that tops the cabinet matches the dinette set, which is green plastic.

The table is trop leaf and chairs are cushioned with matching colors. An electric stove and refrigerator are used. The floor is done in grey asbestos tile. Walls are enameled white knotty pine wall boards. White organdy curtains with red cherry design and red ruffles complete the kitchen.

All floors in the home are stained oak hardwood. Seafoam green walls and ceiling are used in the bedroom. Limed oak bedroom furniture of low modern design with a wide plate glass mirror on the dresser furnishes the room.

A yellow color scheme is used with a ruffled organdy bedspread and ruffled curtains to match. Pictures on the wall finish the theme of the room.

The walk-in closet, which extends to the other bedroom, has wide built-in shelves.

The hall, which is located in the center of the home, features a utility closet which has shelves from floor to ceiling for storage. Mrs. Phillips calls it the "catch-all" closet of the house.

"The guest bedroom is the one we've worked on so much," says Mrs. Phillips. The couple bought used furniture, sanded it, then finished it in mahogany. The room

contains a daybed, lamp table, "grandfather" rocking chair, and a massive table.

The dressing table was at one time a library table, so the Phillips merely chopped off the legs to make it low enough before re-finishing it.

An antique Chinese lamp adds to the theme of the room. Mrs. Phillips bought the lamp in an antique shop, brought it home and cleaned and shined it, to make it one of the most striking features of the room. Chinese figurines also are used.

Mrs. Phillips plans to cover the bed in a chinz spread which has a quilted solid top with floral designed ruffles. She plans floral curtains with a solid-colored cornice board to match the spread.

The cushion in the rocker will also be covered with the chinz material. Walls are a coral pink color.

The bathroom has orchid pink conga walls with tile board covering. A large linen closet with built-in shelves and a clothes hamper stands in the southeast corner of the room. Green inlaid linoleum on the floors match the green bathroom curtains.

Flourescent lights are used in the kitchen and the living room, Mrs. Phillips says.

George Maddox of Clovis built the cottage-style home. The outside of the house is done in white weather board with a green shingle roof. "We looked at several ready-built houses," Mrs. Phillips says, "but this one was what we wanted. We like the room arrangement particularly."

Sidewalks are built in front of the house and extend up to the wide concrete porch. The walks curve around to the back of the house.

Mr. and Mrs. Phillips recently built a tile block fence around the backyard. They plan to wait until fall to plant lawns in both front and backyards.

Cedars have been planted on either side of the walk in front. Mrs. Phillips also has planted zennias, dahlias, marigolds, asters, and other flowers along the front walk.

Bluegrass will be planted in the front yard of the home and Bermuda will be used in the backyard. The couple also plan to build an outdoor grille and barbecue pit at the back of the house. Poplar trees will be planted for shade. They also plan to plant peach and cherry trees.

Besides the large front porch, the home also has a concrete side porch and a concrete driveway. A garage is also planned for the future.

The Phillips' home is located one block north of the courthouse; it is the second house west of the Church of Christ.

Mr. and Mrs. Phillips lived in an apartment in Clovis before moving to their new home in Farwell.

School Improvement Work Nears Finish

Repair and improvement work on the Friona grade school building is nearing completion this week, with the contractors planning to turn the building over to workers who will paint and finish the floors within the next ten days, it was reported today by Supt. Dalton Caffey.

With a contract let for a new gymnasium and auditorium the old auditorium in the grade school building has been converted into four additional classrooms, Caffey said. Other large-scale improvements have been made throughout the building, also. Ground was broken last week for the new building, which will be located on the campus between the current grade and high school edifices, and with good weather and prompt delivery of material, it is hoped that the new gym and auditorium will be ready for use during the latter part of the 1950-51 year.

The contract calls for the work to be completed within 320 days from the time it was let, June 1, officials added. However, it was pointed out that the war situation may tie up vital material, in which case the construction company might not be able to conclude the work by the specified time.

In the meantime, Supt. Caffey is continuing to line up his faculty, and this week reported that he had only two vacancies, which he hoped to fill by the end of the present week.

He asked that any person having rooms, apartments, or houses available for incoming teachers contact him in the near future, pointing out that "teachers must have some place to live if they are to come here to our school."

Caffey also emphasized one important point for children who will enter school for the first time this year, that is, smallpox vaccinations. Inoculations are compulsory before a child can be enrolled, he said, adding that new pupils must also present birth certificates.

Date of the opening of school will not be announced for a few weeks, pending completion of grade school construction work, he added.

August Meetings Are Cancelled

No meetings will be held during the month of August by the Women's Society of Christian Service of the Friona Methodist Church, it was decided by members of the Society the past Tuesday, when a regular meeting was held at the church.

The Tuesday session was in charge of Mrs. J. L. Shaffer, with a program on foreign missions being given.

Mrs. J. H. Boyle was named as delegate of the Friona WSCS to the special conference school of missions, which is being held this week in Lubbock. At the school, representatives from the various organizations will be given outlines of the general program of work to be followed by the WSCS groups during the current conference year.

Local People Report On Chicago Meeting

Mr. and Mrs. J. T. Gee served as delegates of the Friona Lions chapter to the recent meeting of Lions International in Chicago recently, and gave an interesting and complete report of their trip last Thursday night at the regular chapter meeting.

The Gees outlined highlights of the International assembly, and other sidelights of their trip to Chicago. While there, Mrs. Gee appeared on the NBC program, "Welcome Travelers."

Legion Officers To Be Elected Monday

Monday night, Aug. 7, is election night for 1950-51 officers of the Friona Legion Post, Commander O. J. Beene said today, in urging that all legionnaires be on hand at the Hall at that time.

Beene added that mass installation services for all Legion Post officers in Zone 1, which includes Farwell, Eovina, Friona, Hereford, and Dimmitt, are scheduled to be held in Dimmitt Tuesday night, Aug. 8. The Friona group plans to be represented at the special installation services.

Home On Saturday

Mr. and Mrs. Vance Crume and daughter, Judy, returned home Saturday night from a week vacation. The local people spent several days at Red River, N. M., continuing their trip to a number of points of interest in Colorado, including the Royal Gorge, the old mining town of Cripple Creek, and the Garden of the Gods, near Colorado Springs.

E. R. Day Jr., who is employed in Skellytown, visited his parents the past weekend, returning to his work Monday.

In Revival Meeting

Rev. T. B. Allen, local Baptist minister, left the past week for Lelia Lake, Texas, where he is assisting in a revival effort at the Baptist church from July 28 through Aug. 6.

In the absence of the pastor, a program by laymen of the church was presented at the regular worship services Sunday morning.

Returns Home

Miss Tila Rue Day, who has been serving as nurse's aide in the Deaf Smith County Hospital in Hereford since the closing of school in the spring, returned home here the past weekend. She will remain with her parents, Mr. and Mrs. E. R. Day, until Aug. 19, when she is slated to enter training for her RN degree at Northwest Texas Hospital in Amarillo.

In Roswell

Mrs. Ross Terry is in Roswell this week with her sister, Miss Erma Roberts of Clovis, who is receiving medical attention. She plans to return to her home the latter part of the week. Miss Roberts recently underwent major surgery in a Clovis hospital.

Home From Mountains

Mr. and Mrs. Elroy Wilson and

daughter returned home Saturday night from northern New Mexico, where they had spent a week vacationing. Elroy reported that the group camped in the mountains near Taos, and concluded their tour of New Mexico with a visit to Red River.

In Armstrong Home

Mrs. Effie Thompson of Texas City is here for a visit in the home of her brother and wife, Mr. and Mrs. T. D. Armstrong.

Mr. and Mrs. John Day of Whitney, Texas, have been here several

days visiting with relatives and friends.

When possible, grain and feed crops should be marketed through livestock because the price outlook for livestock and livestock products is relatively favorable.

Leave For Vacation

Mr. and Mrs. Mack Bainum and family will leave shortly for a two-week vacation outing, going first to scenic points in Colorado, and then continuing their tour via Yellowstone to Los Angeles and San Diego.

To Attend Market

Mr. and Mrs. Wesley Foster, operators of Foster's Dry Goods in Friona, plan to spend next week in Dallas, attending the annual August market for store owners of this area.

I help build
Sub Stations?

THAT'S RIGHT... many a housewife has a lot to say about building your Public Service Company.

How? Through her investments, of course. Whether it be a sub station or a service car, our company is truly "owned" by the stockholders—ministers, doctors, lawyers, teachers—yes, even you or your neighbor... and no one of them owns more than 2% of the total stock.

Perhaps you have a savings account—or a life insurance policy—it's pretty certain that some of those funds have been re-invested in your Public Service Company.

And so, you see, we really belong to the people. It's a working example of free enterprise... the system that has made America great and strong.

**SOUTHWESTERN
PUBLIC SERVICE
COMPANY**

33 YEARS OF GOOD CITIZENSHIP AND PUBLIC SERVICE

Licenses Required To Sell Wild Game

AUSTIN—More than 500 Texans have taken out game breeders licenses this year, the Game, Fish and Oyster Commission reported today. The 531 figure for 1950 is almost double the 284 total for 1949.

The licenses cost \$2 and are required for all persons dealing in wild game. The same fee is necessary for persons obtaining a permit to keep wild game. The permits have to be renewed by August 31 of this year.

The Chief Clerk estimated that about 90 per cent of the residents obtaining the game breeding licenses raise pheasants. This is the only species which may be sold as food.

A few Texans raise migratory waterfowl which come under Federal regulations. Game breeders who raise them are required to have a permit from the United States Department of the Interior, Fish and

Wildlife Service, Washington, D. C., as well as the regular \$2 state license.

The law stipulates: "Such a license does NOT entitle the holder to capture any of the wild game birds or wild animals of this state. He must procure his primary stock either from a game breeder in this state or from a game breeder in some other state or from the Republic of Mexico or from some other country."

Enclosures for "wild squirrels, wild prairie chickens, quail, wild chachalacas or wild pheasants shall not contain more than forty acres. For deer, antelope, turkey or any wild migratory bird, the enclosure shall not exceed three hundred and twenty acres."

Questions And Answers For Veterans

Q—I had several years of peacetime service in the Army. A short time after I was honorably discharged, I became ill and disabled and I feel that my disability is due to the

service. What action should I take to get VA hospital care?

A—You may file claim for disability compensation and thus get a decision from VA. Generally, as a peacetime veteran, if your disability is not service incurred or service aggravated, you are not eligible to VA hospital benefits.

Q—I am entitled to four years of education and training under the GI Bill. Is it possible for me to take one year of high school and three years of college, if I start my high school course before July 25, 1951, the deadline date?

A—Yes, but you should apply to VA for a change of course before you graduate from high school.

Q—I was given an honorable discharge from the Army in 1945. I reenlisted in 1947 and was recently given a dishonorable discharge. Am I eligible for treatment in VA hospitals?

The fact that you were dishonorably discharged in 1947 does not deprive you of any rights to hospitalization you may have by virtue of your honorable service which terminated in 1945.

Q—Will VA furnish transportation when I am transferred from one hospital to another?

A—VA will furnish or pay for transportation when the transfer is approved and arranged by VA for medical reasons. Such transportation will not be furnished by VA when the transfer is for the convenience of the patient.

Q—Would an American serviceman, paralyzed from the waist down because of action in Korea, be entitled to the special VA benefits of an automobile and a grant for buying or building a home designed for "wheelchair living"?

A—He could not get the car, for the law limits motor vehicles at Government expense to World War II only. But he might be eligible for the housing grant, if he meets the other requirements of the law authorizing special housing.

Q—I want to take a GI Bill course in automobile mechanics. Where can I get a list of nearby schools approved to give this training?

A—The VA regional office nearest your home maintains up-to-

COVER GIRL

NEW YORK—Nineteen-year-old Joan Johnson, curvaceous New York cover girl, will preside over Fruit of the Loom's Nylon Hosiery Week in her newly-won role as "Miss Hosiery—1950." She will model the latest styles and introduce new fashion shades for Fall created exclusively for Fruit of the Loom by Alice of Paris, well-known French designer.

Chosen by an outstanding panel of New York fashion experts, blue-eyed blonde Miss Johnson garnered the coveted award over hundreds of professional models on the basis of personality as well as pulchritude.

date lists of all schools, located within the jurisdictional area, approved by state approving agencies to offer GI Bill training.

Q—If I apply for GI Bill training

M. F. PARTON

GENERAL PLUMBING WORK

Go Anywhere in Texas
Contact me at Kemp Lumber Yard in Farwell

before the July 25, 1951, cut-off date will I be able to start my course sometime after that date?

A—No. Under the law, you actually must be in training on that date. The exceptions are interruptions of training beyond your control, such as summer vacation, illness, and the like.

Q—Some years ago I served on active training duty in the national guard for 15 days. During that period I suffered a disease that resulted in a disability. Am I eligible for disability compensation?

A—No. Public Law 108 states that you must served for periods "in excess of 30 days" in order to be eligible for compensation for disability resulting from disease. On the other hand, there is no minimum time limit in the case of disability resulting from injury while on active or training duty with the national guard.

Q—Is compensation ever paid by Veterans Administration for disability due to misconduct?

A—Compensation may be paid under such circumstances if the disability was not due to the veteran's own willful misconduct. Pension for nonservice-connected disabilities will not be paid if it

is determined they are due to the veteran's willful misconduct or vicious habits.

Q—My sister was in the Women's Army Auxiliary Corps when it was first organized. Is she eligible to VA benefits?

A—Yes.
Q—Three men in the shop where I am taking on-the-job training under the GI Bill have been injured in the past month. In case of an accident to me, will VA pay my hospital expenses at a local hospital?

A—No. Any disability incurred while in training under the GI Bill does not entitle you to hospitalization, but you may establish eligibility to VA hospitalization because of your war service.

SANTA FE CARLOADINGS

Santa Fe System carloadings for week ending July 22, 1950, were 23,561 compared with 24,804 for same week in 1949. Cars received from connections totaled 11,723 compared with 9,305 for same week in 1949. Total cars moved were 35,284 compared with 34,109 for same week in 1949. Santa Fe handled a total of 36,635 cars in the preceding week of this year.

Bluesox Tripped Again by Arnolds; League Playoffs Drawing Nearer

Snarled again in their bid to enter the post-season playoffs in the West Texas-New Mexico Amateur Baseball League, the Texico-Farwell Bluesox lost to Arnold's of Portales 10-4. The game was played Sunday on the home field.

The Sox' only scores were made in the 8th inning, but Arnold's scored in five of the nine cantos. The first three rounds went runless, but the Portales nine took the lead with one in the 4th. They added four in the 5th and two in the 7th to boast a 7-run lead before the Bluesox ever scored.

Final tallies for the victors came in the 8th when they took two runs, and in the 9th when they settled for a single counter.

Bluesox Manager Wilfred Quickel said that although the locals lost to Arnold's this week, they still have a good chance for a playoff berth. These playoffs will be among the top four teams in the league, he explained.

Scheduled to play the league-leading Muleshoe team here next Sunday, things don't look any brighter in the immediate future. Muleshoe is unbeaten for the entire season, but of course, local fans would like to see an upset by the underdogs.

Texico-Farwell's principal hope for playoffs rest with the coming contests with Dimmitt. The Sox have an unfinished game to play that was rained out here several weeks ago, besides a complete 9-inning fray. Outcome of these contests will determine the Sox' fate.

In Sunday's game with Arnold's, Manager Quickel used every pitcher on the roster in an attempt to quell Portales scoring. They were, in order, Booth, Smith, Ford, and G. Woods. Portales used two twirlers: E. Arnold and B. Arnold.

Don Ford, one of the Sox' afternoon pitchers, reportedly carried away honors for individual players. He scooped up two running catches on line drives from his position in center field.

Tentative Schedule Released For Steers

A football schedule for the coming year was released by Farwell Schools last week, but cannot be considered the final listing, since several contests are tentative pending answers from some schools.

However, seven games definitely can be listed now, said Coach Tommy Hestand, new mentor for the Steers. They are as follows:

Sept. 15—Melrose there
Sept. 22—Sundown there
Sept. 29—Dimmitt here
Oct. 6—Sudan there
Oct. 20—Eunice (NM) here
Oct. 27—Frona there
Nov. 10—Springlake here

Dates of uncertainty are listed as Nov. 3 and Nov. 17. School officials are attempting to secure a home game for Nov. 3, and Clovis "B" is tentatively listed here for Nov. 17, but no official confirmation can be made at the present.

Coach Hestand will not begin practice for his 1950 crop of Steers until Sept. 1, and consequently will have only 14 days, including non-school, to get his team into shape for the opening Melrose game.

Sherley Grain To Offer New Service

The Sherley Grain Company of Bovina, is soon to offer a new service to the producers of that region with the installation of a complete recleaning and seed treating machine.

G. D. Anderson, Jr., manager of the firm, said today that most of the machinery had arrived and was now being installed. He said he hoped to be ready to offer this service by next week.

He said the new machine was put out by Howe-Eureka Company, and was the biggest model they build. With the installation of this new machine, a complete re-cleaning and seed treating service will be offered to the farmers of the Bovina area. Anderson added that it would be the only plant in Parmer County equipped to do seed treating.

JOHN HOLLAND STRICKEN

John Holland, popular and energetic farmer, living southwest of this city is in a Clovis hospital receiving treatment after suffering a sudden heart attack Sunday night. Holland was stricken while attending church services, and was taken to his home, later in the night to be removed to the hospital, where his condition was quite critical for several hours. He is reported to be showing satisfactory improvement now, however.

Foundation Ready For Farwell Stadium

All concrete foundation work is now completed for Farwell School's new 1200-seat permanent stadium, it was announced the first of this week. Forms were removed from the last concrete beam Friday of last week on the west side of the field. Supt. Jack Williams estimated that work took about 10 days for the foundations.

Structural steel from Central Iron Works of Waco, contractors, is scheduled to be here next Tuesday, he said, adding that the stadium construction will begin immediately.

The newly-planted field grass is shaping up well, and should be ready for the first game, scheduled for Sept. 15.

School employees have kept the field well fertilized with ammonium nitrate the past few weeks, and another treatment is scheduled before games are to begin.

Another improvement scheduled for the field is the removal of the scoreboard to the north end, where it will be lighted. It is now located on the south end without artificial illumination.

Leathercraft School Set For August 7-11

To all the ladies who may be interested, a leathercraft school will be held on the nights of August 7th, 9th and 11th at the Farwell Home Economics building, at 8 o'clock.

The school will be conducted by Mrs. Martha Carney of Muleshoe, assisted by her daughter, and her sister, Mrs. Gray, of Farwell.

The school is free to those who have never attended a leathercraft school before, and to those who wish to attend, and have previously attended one of Mrs. Carney's schools, a small fee will be charged.

Those desiring more information pertaining to the school may contact Mrs. Mae Porter at the State Line Grocery, or phone 2906.

Mrs. Carney specializes in leathercraft handwork, and will teach students to make billfolds, and various sizes of purses, and belts at these classes.

ENMU Graduation Set For Thursday Night

Graduation ceremonies for the 1950 summer session at Eastern New Mexico University in Portales have been set for tomorrow night (Thursday). Three local people will receive degrees.

They are Mrs. Earl Booth and Jack Williams of Farwell who will receive master's degrees; and Miss Beryl Brown of Texico who will receive her bachelor of arts degree.

Sixty-three persons are scheduled to receive degrees Miss Ruth Wheeler, ENMU registrar, announces.

UNDERGOES SURGERY

James D. (Jimmie) Overstreet of this city, underwent surgery at a Veteran's hospital on Wednesday of last week. He has been a patient at the hospital the past nine months. H. Y. Overstreet, brother of the patient, went to Houston to witness the operation and reported on his return that he was progressing satisfactorily.

Asked to describe her boss, the secretary replied, "He's a self-made man—and one of the worst examples of unskilled labor."

Baptist Church Plans Enlargement Effort

Beginning next week, the Sunday School of the Baptist church will have an enlargement campaign, says Rev. O. O. Holladay.

Rev. R. L. Patillo, Jr. of Heights Baptist church of Albuquerque will direct the campaign. He will be in Texico-Farwell Sunday night to speak at the evening services.

The campaign, in the form of a clinic, will continue from Monday through Friday. The members will not only study methods, but will actually do the enlarging, says Rev. Holladay.

4H Boys Leave Aug. 7 For Dist. Two Camp

Thirteen boys of this area will leave at 8 o'clock Monday morning, August 7, to attend the District Two 4-H club boys camp held in Lubbock, August 7-9. The boys will meet at the Parmer County courthouse on the morning they are supposed to leave, County Agent Joe Jones says.

Attending the camp from Lazbuddie will be Jim Roy Daniel, Jerry Gleason, Robert Ivy, Jimmie Ivy and Weldon Crim. Larry Ezell, Bobby Gene Calaway, Donald Barron and Don Owens, all of Bovina, and Eddie B. Smith, Arlin L. Smith, Billy Johnson and Donnie Carpenter, all of Farwell will also attend the camp.

Approximately 200 boys are expected to be present at the annual encampment which will be held at the Lubbock Fair Grounds, Jones explains.

A diversified recreational program is planned for the boys including baseball, swimming and rifle marksmanship contests. Members of the group will also see a movie on African wild life. An instructor will teach a short course on leathercraft to boys who are interested in learning the work, Jones says.

One of the principal features of the camp is a supper at which people who support 4-H club work are guests of the 4-H club boys.

County Agent Jones will accompany the boys to the encampment.

Pipe Extension Pending Developments of Suit

Extensions of water mains to the Texico school house that were proposed some time ago by the city are now pending further developments of a suit against the city, said Mayor Orval Francis.

He said that a number of decisions must be left up to the state tax commission, which will determine how revenue to pay expense of the suit will be raised.

Until this is settled, he said, no other city expenditures will be considered.

Quarterly Conference Held at Lazbuddie

The regular quarterly conference which is held on the last Sunday in each quarter, was held at the Lazbuddie Methodist Church Sunday afternoon at 3 o'clock.

Dr. Earl G. Hamlin, district superintendent of the West Texas district, of Amarillo, presided over the business session.

During the evening a regular session of the Lazbuddie community singing convened. The singing which is held every Sunday, begins at 2:30; and the public is invited to attend these gospel singings.

Have the water boiling when vegetables are put on to cook and quickly return to the boiling point. Then lower flame and avoid violent boiling. Use steam as much as possible.

Tax Commission Passes Texico Budget

The New Mexico State Tax Commission has accepted, with some revision, the budget for the forthcoming fiscal year, announces Clerk W. L. Freeman.

The proposed ledger was submitted to the commission at Clovis last Tuesday, and Clerk Freeman said they accepted a city budget that was considerably in excess of the one approved last year.

Principal increases in appropriations, he noted, were in the municipal fire department.

A brief budget summary appeared in last week's Tribune, but some revision was made by the commission.

Morton To Attend State Convention

To attend a state convention of vocational instructors at San Antonio next week is Robert L. Morton, adviser of the Farwell FFA chapter.

He is scheduled to leave Tuesday in company with O. S. Seale of Dimmitt and Herbert Williams of Hart, both of whom are also FFA advisers in their schools. They will be gone for three days, Morton said.

New commercial airliner will have a turbo-prop engine.

HOPPERS—
