Letter Explains Key Rate Situation in Farwell

By DICK HAPKE

A key fire insurance rate for Farwell has recently been a problem for the local city commission. Some steps have been taken to improve the rate, but more are needed, according to a letter received by Mayor Sam Aldridge, from George C. Hawley, chief engineer for the state insurance board.

According to the letter, there are several requirements which

the city will have to comply with to enjoy a lower key rate, and if some of them are not met, Farwell will be classified as an unprotected city and have the highest possible key rate.

As all persons who have ever sought fire insurance for any type building know, the key rate is the corner stone on which all insurance is figured. It differs from town to town because natural fire hazards vary from one place to another.

Some of the major considerations in regard to the key rate are the fire protection facilities, the water system, and the percentage of combustible type buildings.

In any town the type of business or structure an individual might be seeking insurance for determines to a large extent the fire insurance rate and it will vary from building to building and business to business. The fact that the type structure

has considerable bearing was pointed out recently by the city commission.

The example the commission listed concerned a local businessman who paid more for \$20,000 insurance on an old frame-type structure than he does for \$60,000 insurance on a new semi-fire proof building.

Nevertheless, the "key rate" determines to a large extent what the insurance rates for a town's citizens will be. This

rate is the only thing a town has control over, as far as improving the individual rates.

Recently, the Farwell City Commission adopted three ordinances that will have a slight effect on the rate, which in the past has been 80 cents. The ordinances included more rigid specifications for construction in the fire zone, the appointment of a fire marshal, and the offering of an arson reward.

Based on a recent inspection of fire protection facilities in Farwell, a new key rate analysis is to be given the town, according to the letter from Hawley.

Otis Huggins, who has been working to improve the fire protection facilities, reported at a Chamber of Commerce meeting Tuesday night that the key rate is still 80 cents. He cited where the city had been given some credit, but some was also deducted. In the past, Farwell has been given credit for some of the fire fighting equipment in Texico, but in the last survey all credit from the Texico department was sliced off, making it necessary for Farwell to acquire additional fire fighting (Continued on Last Page)

NEW LOOK FOR BAND — The new uniforms for Farwell High School's marching band finally arrived last week. Here, Mrs. Erma Jobs makes an adjustment on one of the new suits being donned by Joe Hughes. The purchase of the new uniforms was a project of the Band Mothers, who helped defray the expenses with various fund raising campaigns during the past year. The band wore the uniforms for the first time last week at the Tri-State fair and will again be wearing them when they present the half-time show at the Farwell-Ft. Sumner football game next week.

Harding Named County Attorney

Hurshel Harding, 28-year-old Farwell lawyer, was appointed Monday by the Parmer County commissioners court as county attorney. He fills the vacancy created by the resignation of Bill Sheehan of Friona, who is now district attorney.

The county attorney salary is \$3,000 yearly.

Harding, a graduate of the Baylor Law School, is associated with the firm of Aldridge & Aldridge in Farwell, and said this week that he will continue his practice there with them.

The Farwell man is a graduate of Farwell High School, 1947, and is the son of Mr. and Mrs. N. R. Harding, who live

south of town. After high school, he attended Texas Tech three years, and then Baylor and was graduated in 1954.

He was admitted to the bar in 1954, and spent two years doing legal work while in the Air Force. After his discharge, he established private practice in Muleshoe in June of last year, and began his association with the Farwell firm in January of this year.

Harding is married and he and his wife have a daughter, Deborah, 2.

BOY BEST BISCUIT BAKER

Biscuit baking may be reserved for the "gals" sometimes, but this is one place where Dwayne Winkles, Texico senior, can top them, and he has a blue ribbon to prove that he can.

Dwayne, at the suggestion of Mrs. Dewey Pierce, Pleasant Hill 4-H club leader, baked a batch of biscuits for competition in the Baking I division of the Curry County fair. His entry was judged the winner.

Cooking isn't unusual for the versatile boy, son of Mr. and Mrs. O. L. Winkles. He likes to bake cakes and other confections too, "but cooking isn't what I like to do best" he adds. He likes to raise hogs and horses.

Dwayne had made biscuits at home once, and when the family was seated for the meal, they noticed that the bread had an odd blue color. The blue-ribbon cook had used a little cake coloring in the biscuits, to see what would happen. He's a cook

McCaughey Furniture Open for Business

McCaughey Furniture, Texico-Farwell's newest business, opened its doors to the public this week. The store, being operated by John W. McCaughey, is in the building formerly occupied by the Furniture Mart.

C-C Requests Road Route Designation

Members of the Farwell Chamber of Commerce voted Tuesday night to ask the Farwell City Commission and the Parmer County Commissioners Court to jointly request the state highway commission to designate a route for the proposed four-lane expansion program on Highway 70-84.

In so doing, the Chamber also passed a resolution that the local group attempt to get the road to Farwell as far as Ninth Street, or as close to that point as possible.

The motion that the Chamber take this step was passed by unanimous consent of the more than 40 members present.

The Tuesday meeting was the culmination of various other sessions of the Chamber concerning a route for the new highway, which is planned for this area whenever the county can furnish the right-of-way.

It has been pointed out at past meetings that the new highway has already been approved in the state construction program and can be built at any time the cities and counties along the route from Lubbock to Farwell can furnish the right-of-way easements.

The road has been partially built this side of Lubbock, but further construction has bogged down due to right-of-way money

trouble at various other points along the line. Just when it will be completed depends on the outcomes of the various struggles to obtain the easements.

J. H. "Johnny" McDonald, Parmer County Commissioner of Precinct Three, was present at the meeting, and explained to the Chamber the situation facing this county at the present time.

He said that the farm-to-market roads acquired in the

county during the past few years has been a considerable cost and at the present time the commissioners court is not in position to accept any four-lane highways.

However, he added that the situation may be different in the next two years, depending on whether or not Parmer County continues to receive the number of farm roads as has been the case during the past two years.

McDonald told the group that at present the county was in debt for past roads, and that the recent tax rate increase, approved in a county-wide election, was earmarked for paying off the indebtedness of the fund and for obtaining easements for any new farm roads.

The action by the Chamber was for a two-fold purpose, it was said, even though the road will not be built in the immediate future. It was the consensus of all those present that the road would be of more benefit to Farwell the closer it was to town.

Action now is the only way that the city has any chance of getting it near to the city limits, it was said. There is no assurance that the attempt by the local group to get the route close to town will have any bearing on the route, but leaders of the group were of the (Continued on Last Page)

Dr. Glenn Speaks To Lions Club

Dr. T. J. Glenn of the Farwell Clinic was guest speaker at the regular meeting of the Texico-Farwell Lions Club Monday night. Dr. Glenn spoke to the group on various types of viruses, such as the common cold, Asiatic flu, and encephalitis.

He traced the origin of Asiatic flu and told how it had been carried to America by politicians and armed service personnel.

Due to the absence of Lion President Prof. Morton, Otis Huggins presided. Morton and Secretary Paul Wurster were in Clovis attending a Lions zone meeting.

Huggins gave a report on the success of the past broom sale, sponsored by the club, which netted the Lions almost \$200.

Texico Wins Honors At Fair

Texico was high on the list of winners when ribbons were distributed at Curry County fair last week.

The Texico community booth was judged as first place winner. The exhibit was planned by members of the Texico Farm Bureau, with J. R. Hadley in charge. The judging was on points.

A number of students enrolled in Texico School had entries in the fair, according to a brief survey this week.

According to Tom Hudson, agriculture instructor at the school, 52 animals were entered by members of the FFA, and 50 ribbons were received. Boys and places received were:

Wesley Engram—Champion Hampshire gilt; two other first place gilts, second place boar, and third place barrow.

Frederick Mier—Poland sows, second and third.

Texico Boys To Go to State Fair

Tom Hudson, agriculture instructor at Texico Schools, and nine FFA boys will leave tomorrow (Friday) for the state fair in Albuquerque where the boys will show animals. They plan to be there all week while the animals are on exhibit.

To make the trip are Hudson and Wesley Engram, Frederick Mier, Dwayne Winkles, Kenneth Doshier, Teddy Roth, Raymond Hadley, and Allen, J. C. and Leon Kelley.

Dwayne Winkles—Champion Poland gilt and Champion Poland boar, three other firsts and two seconds. The boar had been purchased earlier in the year from Oscar Anderson, outstanding breeder of this country. The animal arrived in time for the Clovis show.

Kenneth Doshier—Champion Chester White gilt, second barrow, two seconds on gilts and a fourth place on a boar.

Teddy Roth—Chester Whites also, first on a gilt, two seconds on gilts, second on a boar and third on a barrow.

Raymond Hadley—First on a Hampshire barrow, and third on a barrow.

Allen, J. C. and Leon Kelley—Entered 22 animals, mainly hogs, received ribbons on 21 with several firsts on hogs and a first and a third on calves.

The FHA girls of the school won second on their booth, with the theme of "What the Ideal Home Should Provide for its Youth."

Among those from the school who received ribbons for other entries at the fair were:

D' Rene Danforth—Second on a cotton school dress, 4-H.

Carmelita Doshier—Fourth on biscuits in Home Living II.

Dwayne Winkles—First on biscuits.

Phyllis Kelley—Third on skirt, third on sewing box, second on hand-hemmed towel, first on head scarf, Junior 4-H.

Judy Lovett—Third in the

Clothing IV division.

Gwenette Lovett—Fourth on a hand towel.

Lynell Lovett—Second on a dress and duster in Clothing VI.

Dianne Baldrige—First in food preparation, fourth in biscuits and second in muffins, 4-H.

Jackie Hughes—A ribbon on a dust mitt.

Linda Campbell—A ribbon on an apron.

Donna Osborn—Third on a cotton school dress, and fifth on a laundry bag, Junior 4-H.

Tom Hudson and Mrs. Jimmie Allman, sponsors of FFA and FHA, express appreciation to all the mothers who donated cakes and pies for the FFA-FHA concession booth at the fair. Hudson says the groups took in \$111.

All entries and places by Texico residents were not available.

Missionary To Speak At Farwell Sunday

Miss Ray Buster, missionary to Brazil who is home on leave from that field, will be guest speaker during the Sunday School hour at First Baptist Church, Farwell, this Sunday morning.

Miss Buster, who is currently visiting with her sister and family in Clovis, will speak to members of two of the adult women's Sunday School classes, the Rebecca and Gleaners classes. All class members are urged to be present for this talk which will start at approximately 10:15.

PO ADDITION TAKING SHAPE. — The new addition to Farwell's post office was taking shape this week and should be completed in the not too distant future. Hanging the back door on the 21'x24' tile block addition is Morgan Billington. The addition is the first part of a remodeling project at the post office which is to provide better local postal facilities.

Steers Return To Action Friday

After a one-week layoff, the Farwell Steers return to action this Friday when they go to New Home for a clash with the Leopards. Coaches J. D. Atwell and Shelby Jobs will take a 29-man squad to New Home and they will be seeking their third straight win.

While the Farwell team has been rolling to two easy wins in their first two games of the season, New Home has not fared too well in its initial games. The Leopards have lost three games by wide margins, the most recent a 52-6 loss to the Lazbuddie Longhorns last Friday.

Following the New Home game, the Steers will return home for two games before entering conference play. Furnishing the opposition when the Steers come home will be Ft. Sumner and Lazbuddie. The two home games will likely be the stiffest tests of the season, thus far, for the Farwell team, as both foes are still unbeaten after three games.

Ft. Sumner holds an easy win over Bovina, 20-0, and two close

Longhorns Hook Leopards, 52-6

Turning three New Home fumbles into touchdowns early in the ball game, Lazbuddie's Longhorns jumped to a quick lead and then buried the Leopards in an avalanche of touchdowns, 52-6, at the Lazbuddie field Friday night.

It was the third straight victory for Coach George Washing-

ones over New Mexico units, New Mexico Military Institute, 18-14, and Jal, 30-20. Lazbuddie has three easy wins, defeating Muleshoe B team, 40-0; Vega 20-7; and New Home, 52-6.

Last week was supposedly an open date for the Steers, but the coaches divided the team into two units and had an intra-squad game during the Friday afternoon practice session.

Injury-wise it was the roughest game of the year for the Steers as many of the players were bruised up. However, all are expected to be in good shape for the game Friday night.

ton's charges, who compiled over 300 offensive yards, while keeping the New Home gain to 72 yards.

In all, the Longhorns turned five New Home miscues into touchdowns.

After recovering the first fumble on the midfield stripe, it took the Longhorns just six plays to score, as Joe Beaver, sophomore halfback, went through the middle of the line and scored from the 20.

New Home took the kickoff and ran only three plays before fumbling again, this time Lazbuddie gaining possession on the 31. On the third play, Roy Vanlandingham, 190-pound senior fullback, shot through left tackle for a score from the 24-yard line. Neither of the extra point attempts were good and the first quarter score ended 12-0.

Just before the first period came to close, though, Lazbuddie pounced on the third Leopard (Continued on Last Page)

District 3-A Happenings—

Morton Looking Strong

With about half of the inter-sectional games complete for members of District 3-A, a glance at the records of the five members thus far reveals that only two teams are having much success with the opposition outside the conference.

With every team having played at least two games, Morton and Farwell are the only two teams having better than .500 averages. Both teams are unbeaten, with 2-0 marks, while the other three members have fared like this: Sudan 1-2, Friona 0-1-2; and Springlake 0-2.

It is too early to tell which

teams will be rolling smoothly by the time district games come around, but at this point in the game, Morton and Farwell appear to be the best of the crop. The two clash head on in the district opener on October 18, at Morton.

Farwell, tabbed as the favorite by district coaches, has two easy victories behind them, but have not yet been tested. Contrary to that of the Steers, Morton has played two top-notch foes in their initial two games and have recorded upsets in each game, the most recent being a 20-14 win over highly-respected Muleshoe of

Class 1-AA.

Their opening win was a one-point decision over Seagraves, considered a good Class A squad.

While Morton and Farwell have got the jump on the other members in the win column, this is not to say that the district championship will be decided in the first game. Sudan came through with an impressive win over Anton, 39-6, last week after bowing to Denver City 33-6, and Muleshoe, 52-6, in its first two games. Both Denver City and the Mules are AA units.

Friona, while not yet hitting

the win column, is expected to be tough by the time district competition rolls around. They reportedly have a strong line and the potential for a top-notch club. Their two losses have been by narrow margins, 13-7 to Sunray and 13-12 to Happy. The tie was with Amherst, 12-12.

The weakest team in the district at this point appears to be Springlake, but both of their losses have been to first-class teams. Dimmitt rolled over the Wolverines 44-0 and Idalou handled them 34-0.

Mary Ann Walls, who last year graduated from Farwell High, is assisting our regular society editor, June Magness, in gathering local news. We are pleased to have Miss Walls with us.

Whenever she calls for news tips, we'll appreciate your helping her out, because she has had no formal training of this kind, and is pretty "green." We bet she'll appreciate your help, too.

Hanover, Germany, will be the scene of the first International Casting Federation Tournament during September. — Sports Afield

THE TRIBUNE'S EDITORIAL COMMENT

Growing Pains

The recent ultimatum thrown at Farwell by the state board of insurance provides several obstacles which will have to be overcome if the City of Farwell is to have adequate fire protection facilities and have a lower key rate on fire insurance.

The requirements made to the city are no more than that which other towns in Texas have had to face, but if Farwell is to take the necessary steps to get the facilities and have the key rate lowered to where it should be it is going to be a long, and probably expensive struggle.

The reason that the situation is just now arising in Farwell is due to the many long years that the town has been without fire protection facilities, and receiving the benefit of Texico's fire department across the state line.

In past years not only has Farwell been fortunate in having the Texico system to fight its fires for them, but the state was even giving the town some credit for the fire station on the key rate. Since a recent survey, though, this cannot be done any more and only the equipment on the Texas side of the line will be counted.

Presently, the new fire department is nearing completion and a well-equipped truck has been purchased and is ready to go. The new truck and fire station was approved some time ago in a bond election and it is a step in the right direction.

Nevertheless, there is going to have to be additional equipment and other requirements if the local department is to meet with state approval.

Many of the stipulations handed down by the state can be met by just a little volunteer work on the part of interested individuals, such as forming a fire department having adequate membership and attendance, and making regular monthly reports.

After the initial steps, though, the town has a long way to go if it is to have adequate fire protection and a key rate in line with other towns across the Panhandle.

Farwell Juniors Open Season With Win Over Sudan

Sporting a strong line and some fine running backs, Farwell's junior high football team got its season underway Monday night in fine fashion, romping to a 32-0 win over Sudan at the Sudan field.

Quarterback Jerry Lovelace was the big offensive gun for the Farwell team, racing to four of the team's touchdowns, and passing for another. Defensively, the Farwell line failed to budge and Sudan couldn't rack up a first down.

Soon after Farwell kicked off to open the game, Sudan was forced to punt and Lovelace wasted no time in scoring his first touchdown. He took the punt on Sudan's 20 for a touchdown. The extra point attempt failed and Farwell led 6-0.

Later in the quarter, the Farwell quarterback scored his second TD, this time a 32-yard run. Before the half ended, Lovelace hit David Lindop with a pass for a touchdown from the 15-yard line. Jimmie Cain ran the extra point to give Farwell a 19-0 lead at halftime.

The second half followed the same pattern as the first and Lovelace got off his longest run of the night in the third period. Operating from deep in Farwell territory, Lovelace broke loose for 93 yards and another score. The final tally came in the fourth period when Lovelace set up the touchdown with a pass interception. He later ran the

ball across and Cain again ran the extra point to make the score 32-0.

The next game for Coach Shelby Jobs' gridders will be next Monday night when they go to Springlake.

Junior Teams Win Two Games Tuesday

In a double-header played with Grady at Texico Tuesday afternoon, the junior softball teams both entered the win column, with the girls racking up an easy victory and the boys making the run that gave them the lead in the sixth inning.

Pauline Servatius was pitcher for the junior girls, and the final score read 29-4.

The game for the boys was a close one, with Kenneth Murrick hitting a homer with one on, to give Texico a win in the sixth inning, with a close count of 4-3. Billy Hukill was on the mound.

FROM HOSPITAL

Mrs. Buddy Jones was reported to be "doing fine" the middle of this week after being confined to the Clovis hospital two days during the weekend for medical treatment.

Ernest Justice Gets August NCO Award

Mr. and Mrs. S. J. Justice recently received word that their son, T. Sgt. Ernest D. Justice, of the United States Air Force, received the outstanding NCO award for the month of August at Barksdale Air Force Base, La., where he is stationed.

Sgt. Justice has been assigned to the 376th Bombardment Wing

In addition to equipment, other than what has already been purchased, an improved water system will be necessary. If the present privately-owned water system is brought up to the standard specified by the state, it will be quite an undertaking. Maybe the only solution will be for the city to purchase the waterworks and make the necessary improvements. If this is done, the initial cost to the taxpayers will be a sizeable one. However, once they begin operating, most water systems operate at a profit.

The city can get by without it right now, but if the system is not improved, all the other expense and work will have little effect on the key rate, one of the chief reasons for needing the department. Then, too, the city does need adequate water pressure at many locations in case any major fire should sometime occur.

At any rate it looks like now is the time to start whittling away at the obstacles, and the first step will be forming the fire department. That will be the first of the "growing pains" and a long program must ensue if the town is to progress in this respect as much as it should.

Texico Band Places Second at Lubbock

Texico School Band placed second in the class B division of the Parade of Bands held Monday in Lubbock at the opening of the Panhandle South Plains Fair. Director of the Texico group is Fred Danforth.

Thirty-nine bands participated in the parade and there were seven bands in the same class with Texico. First place winner in this division was the band from Whiteface. The Texico Band was presented a check for \$50 for winning second place honors.

Parents furnishing transportation to Lubbock for the group were Grayson Roberts, Mrs. Ray Tharp and J. T. Turner. The band also participated in the parade at the Tri-State Fair on Monday of last week.

Danforth said that he was very proud of the group and that they did quite well in their performance.

Band members now total 50 with the addition of 16 new members this year. Danforth said that he thinks that by the end of the school year Texico will have one of the best playing bands the school has had in a long time.

Band students at Texico usually spend two years in beginners and intermediates bands before going into the high school band. Extra help for the band this year is being furnished by Mrs. Curtis Miller, third grade teacher, who is helping in the music department for two periods each week.

Mrs. Miller is helping teach the students the techniques of their particular instruments.

Besides teaching a beginners and an intermediate band with eight in each class, Danforth is also having time this year to offer weekly private lessons and extra help when needed.

High school regular band periods are on Mondays, Wednesdays and Fridays when they meet for one hour sessions. The beginners and intermediates also have an hour's practice three times weekly.

Five new uniforms were acquired last spring for some of the larger boys, and the majorities also have new uniforms this year.

New students purchasing instruments and taking band this year include Donna Kay Osborn, Dianna Baldrige, Lattia Harris, Sharon Thompson, and Michael Trower, clarinets;

Dwight Turner, E flat alto sax; Donald Chandler, cornet; Linda Campbell, cornet; Jackie Hughes, cornet; Kit Doran, trumpet; Allen Hale, baritone; and Peggy Teel, drums.

Starting in the beginners band this year are Jim Stallings, Lannell Engram, Jimmy Goolsby, Larry Burns, Leon Smith and Emmet Autrey.

Included in the intermediate group are Jim Landon, Kathy Cohee, Ellen Caillouet, Micky Lofton, Kathy White, Gwennett Lovett, James Roberts and Linda Hadley.

"Interest in band work from both students and parents is excellent this year," the director says.

Muleshoe Girl Wins FB Queen Contest

A girl from Muleshoe was named first place winner of the District I Farm Bureau queen contest which was held last Thursday in Lubbock. Representing Parmer County in the contest was Wilma Norton of Farwell, daughter of Mr. and Mrs. L. L. Norton and a junior at Farwell High School.

The 11 contestants were honored at a get-acquainted tea, along with their matron escorts, at the Lubbock Hotel, prior to the rehearsal. The contest proper was held at the O. L. Slaton School auditorium at 8 p. m.

Each contestant had to give a brief talk on why she is proud her family is a Farm Bureau family. Accompanying Wilma to Lubbock were her mother, and Mrs. Herman Geries. Also attending the contest from Farwell were Leon Jamison, and Gilbert Kaltwasser, Parmer County FB president, who attended a Farm Bureau resolutions meeting during the day.

HAS MAJOR SURGERY

Mrs. J. H. Leavell, Texico, was released from the hospital in Clovis on Tuesday, September 24, after undergoing major surgery.

Mrs. Leavell was confined to the hospital for eight days, and reports are this week that she is "feeling fine."

Principal celery-growing states are Michigan, California, Florida and New York.

Amos Tatum In Hospital

Amos Tatum, principal of Farwell High School, is still confined to the hospital in Clovis, but family members say he hopes to be released this Sunday.

Tatum, who has been confined to the hospital for over a week, was reported to be feeling "lots better" on Wednesday afternoon. It is hoped that he can return to his duties at the school in about a week after he returns home.

FARWELL BAPTIST NEWS

Rev. E. J. Keith, Pastor

Attendance for both worship services was good with about 200 present for the morning worship hour. Sunday School and training union attendance were 166 and 81, respectively.

Rev. Keith reminds members of the Sunday School and training union departments that this coming Sunday (September 29) is promotion day, and urges that everyone be in his place at the church for participation in the promotion program.

Leroy McDonald and Rev. Keith were in Oklahoma City on Wednesday, Thursday and Friday of last week to attend the annual Southern Baptist Brotherhood convention. This was the 50th anniversary of the Southern Baptist Brotherhood, and Rev. Keith reports that the three-day program was very interesting.

In Tulia on Tuesday of last week to attend the annual associational meeting of the Tierra Blanca Association were Rev. and Mrs. Keith, Mrs. Bruce Blair, Mrs. Dora Johnson and Mrs. J. T. Hulsey.

The annual associational meeting of the WMU is being held today (Thursday) in the First Baptist Church of Dimmitt. About nine women from the local organization planned to attend.

This coming Sunday is fifth Sunday, and members are reminded that all offerings will go to the building fund of the church.

New officers for the church were elected at a recent conference conducted at the church. Heading the Sunday school department is Joe Reed. Church clerk is Mrs. Will Hardage, Mrs. Cecil Rundell is Sunday School secretary, Mrs. Jack McManigal is church pianist, and Clarence Johnson is song leader. Sunday School teachers elected

include beginner department, Mesdames W. O. Chadwick, Calvin Blain and Vaughan Keeth. Mrs. Bill Dollar is superintendent of the beginner and primary departments. Teacher of the primary girls is Mrs. Bill Craft, and Leroy McDonald and Bill Craft teach the primary boys.

Mrs. Bert Williams is superintendent of the junior and intermediate groups, but a complete list of teachers for these groups was not available.

Other class teachers, who are elected by class members, include adult men's class, Jack McManigal; young men's class, Tom Atkins; T. E. L. class, Mrs. E. G. Williams; Rebecca class, Mrs. Clyde Magness; Esther class, Mrs. Joe McWilliams; and Gleaners class, Mrs. Jack McManigal. Carl Davis is superintendent of the adult department of the Sunday School.

News from PLEASANT HILL

BY MRS. BUCK TAYLOR

Mr. and Mrs. Mills from Friona were Sunday guests in the home of Mr. and Mrs. Juan Eskew.

BAPTIST CHURCH NOTES

Attendance for Sunday School and church was down some the past week because of considerable illness in the community.

Presenting the program in the absence of the pastor were members of the junior department. Participating on the program were Johnny Pierce, Judy Lovett, June Webb, Joyce Webb, Gale Joplin, Gwenette Lovett, Shirley Joplin and Linda Crocker.

Mrs. Geraldine Burford has been on the sick list the past week, but reports are that she is improving at this time. Regular meeting of the Plea-

sant Hill Home Demonstration Club was postponed because of the Curry County Fair in which club members were participating.

Mr. and Mrs. Charley Palmtree have recently moved from the community to Mesa, Ariz.

Mrs. Dorothy Tate and Mrs. Thelma Eskew visited in Springfield, Colo., last week and attended the wedding of their niece. They returned home Friday.

In Taylor Home

Those visiting in the home of Mr. and Mrs. Buck Taylor last Saturday and Sunday were Mr. Janie Anderson of Anton, Clarence Anderson of Littlefield, Mr. and Mrs. Howard Taylor and son of Muleshoe and Mr. and Mrs. Bob Hand of Friona.

Mrs. Weldon Dane, Margie, Johnny, Mary and Jack attended the fair in Clovis Friday.

Mrs. Tom Barnett was a Clovis visitor last Friday.

Mrs. Corda Taylor visited on Wednesday in Friona with her daughter and family, Mr. and Mrs. Cecil Osborne and daughters.

Larry Loflin of Bovina visited last week with his cousin, Gary Eskew, son of Mr. and Mrs. Juan Eskew.

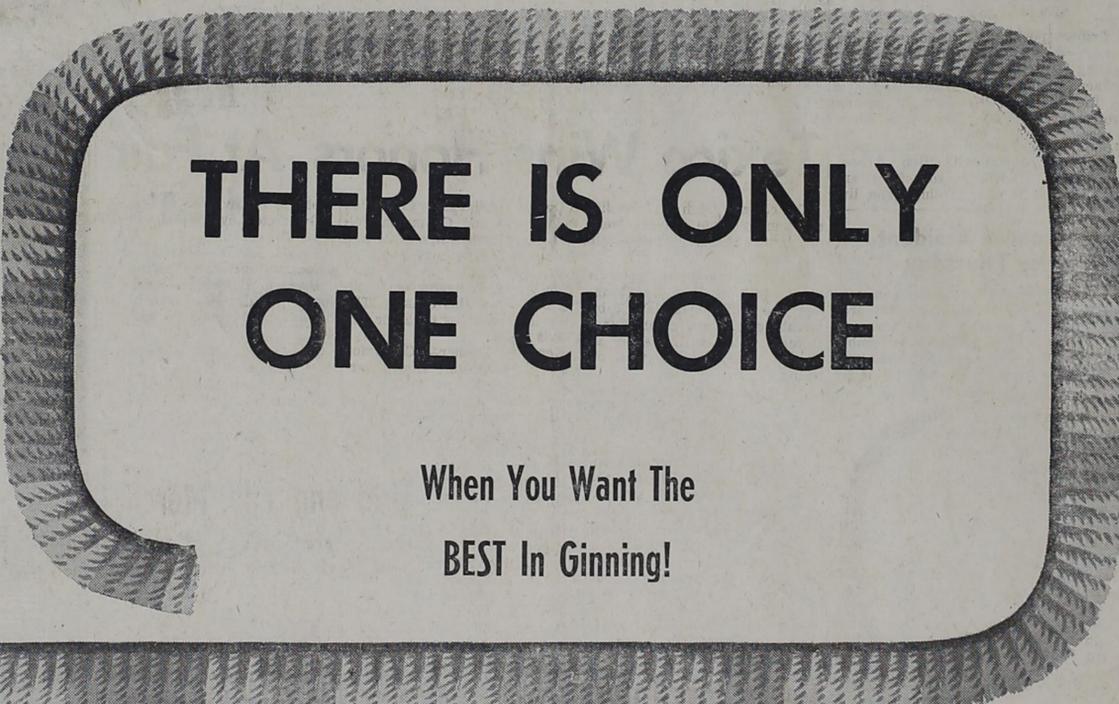

Others attending the fair in Clovis Friday were Pauline and Eugene Servatius.

IS RECUPERATING

Mrs. Effie Johnson is recuperating at her home this week and is reported to be "feeling better" after having been ill last week. She returned home Friday afternoon from Clovis where she had been convalescing at the home of her son and family, Dr. and Mrs. V. Scott Johnson.

First modern cash register was patented by Jacob Ritty of Dayton, Ohio, in 1879.

Catgut is obtained from numerous animals, particularly sheep, but never from cats.

THERE IS ONLY ONE CHOICE

When You Want The BEST In Ginning!

Farmers of the entire area have come to know and depend on the name "Nickels" when it comes time to gin their cotton. And why not? Nickels not only has had the experience, but through the years has pioneered in providing every new and worthwhile mechanical improvement to give their customers better ginning, better return from every trailer load of cotton. Once again, harvest time approaches, and as always, Nickels Gin of Farwell is ready and anxious to be of service to the cotton producer. We solicit your patronage on the same dependable basis that has characterized our business through the years. Thank you for your consideration.

NEWS FROM LAZBUDDIE

By MRS. CLYDE MONK

T. D. Reed Services Conducted Thursday

Funeral services for Thomas Dudley Reed were held Thursday afternoon at 3 o'clock at the Lazbuddie Baptist Church. Bill Curry, pastor of the church, conducted the services and was assisted by C. K. Roberts and Aaron Mitchell. Interment was in the Bailey County Memorial Park with Claborn Funeral Home in charge.

T. D. Reed was born in Marlin, February 25, 1884, and died September 18, 1957 at the age of 73, after a long illness.

Mr. Reed and Miss Luetta Jones were married January 27, 1910, at Stacy, Tex., and to this union three children were born. They were Mrs. Nola Ivy, Lazbuddie, L. A. Reed, Lazbuddie, and Mrs. Iris Clements, Littlefield, who all survive him. Other survivors are one brother, L. A. Reed, Marlin; and five half brothers, L. B. Baty and Roy Baty of Gilliland, Hollie and Turner Baty of Weinert and Clyde Baty of Haskell; five grandchildren and two great grandchildren.

Mr. Reed and his family moved to this community in January of 1926 from Truscott, Tex. He was engaged in farming here until his health failed.

Out-of-town relatives here for the funeral were Mr. and Mrs. Albert Jones, Mr. and Mrs. A. L. Jones and Mr. I. H. Jones, all of Houston; Mr. and Mrs. Jiles Jones and Mr. and Mrs. Jack Jones of San Antonio; Mrs. Hettie Russell of Brady; Mr. and Mrs. L. B. Baty and Roy Baty of Gilliland; Hollie Baty of Weinert; Clyde and Edward Baty of Haskell; Walter Waters, Lee Thomas and Mr. and Mrs. Earl Newman all of Silverton; Mr. and Mrs. Dick Mathis of Spur; Mr. and Mrs. Joe Farris, Mr. and Mrs. C. W. Weeks, Mr. and Mrs. J. W. Roberts and Madge Clements, all of Muleshoe.

Enjoy Wiener Roast

On Thursday night of last week a wiener roast was enjoyed in the Gene Smith home honoring Mr. and Mrs. Chuck Smith. Others present were Mr. and Mrs. Kenneth Keith and boys, Mr. and Mrs. Barney Floyd, Jerry and Kay Ann Smith, Mr. and Mrs. Max Steinbock, Mr. and Mrs. Jack Smith and family, and Betty Floyd.

Mr. and Mrs. A. E. Wilterding and family from Amarillo spent the weekend in the home of Mr. and Mrs. Reafor Wenner.

Visiting Here

Sgt. and Mrs. Bob Smith and daughter, Debra Lee, who have been stationed at Savannah, Ga., are now visiting with her parents, Mr. and Mrs. Purl Tippie. Bob will be sent to North Africa in approximately 30 days and Mrs. Smith will join him there later. They are also visiting his mother, Mrs. Foster Stevens, in Clovis.

Mr. and Mrs. T. R. Small-

wood and girls visited Sunday in the home of his sister and family, Mr. and Mrs. O. H. Pierce at Bula. Others visiting there were Mrs. J. J. Hanley from Lamesa; Mr. and Mrs. Johnny Smallwood and family of Muleshoe; Mr. and Mrs. I. V. Pierce of Muleshoe, and Mr. and Mrs. Leroy Pierce and son.

Mrs. Mary Scruggs from Shamrock spent the weekend with her daughter and family, Mr. and Mrs. John Bond.

W. G. Harlan, Bob Jones and Mrs. William Edd Jones from Muleshoe attended the Tech-West Texas ball game in Lubbock Saturday night.

Mrs. J. O. Webb from Waco has been visiting in the home of her daughters and families, Mr. and Mrs. George Crain and Mr. and Mrs. James Robinson.

Return Home

Larry Sisk recently returned to his home in Reseda, Calif., after visiting with his grandmother, Mrs. Lora Brown. Before he left he was honored with a wiener roast in the home of his grandmother. Those enjoying the occasion with Larry were Jimmie and Gary Mac Brown, Coretta Watkins, Judy, Sandy and Jody Brown, Billy Hardage, Mrs. Jackie Brown and Mrs. Dee Brown.

Mr. and Mrs. Luther Hall visited the latter part of the week in Ft. Worth in the home of their son and family, Mr. and Mrs. James Hall.

Sunday guests in the S. J. Black home were his parents, Mr. and Mrs. S. M. Black from Clovis, and his sister and family, Mr. and Mrs. Bob Clark from Santa Rosa, N. M.

Mr. and Mrs. C. C. Graef, Mr. and Mrs. A. T. Beavers, Mr. and Mrs. E. L. Mitchell and boys, Mr. and Mrs. Gene Phillips and family, and Mr. and Mrs. James Welch and girls were dinner guests Sunday in the Efton Graham home in Littlefield. They were met there by Mr. and Mrs. James Beavers and son from Kress.

Mr. and Mrs. V. W. Rannals visited in Amarillo Friday night with Mr. and Mrs. Bryan Linville and family, and attended the fair.

Guests in the J. W. Maddox home Sunday were her parents, Mr. and Mrs. W. E. Reese from Morton, her grandmother, Mrs. T. G. Reese of Trenton, and her brother and family, Mr. and Mrs. A. C. Reese from Meadow. Mrs. Maddox says her grandmother is 97 years of age but is still very active.

Mr. and Mrs. Clyde Henry and Shirley from Muleshoe were dinner guests in the home of her sister and family, Mr. and Mrs. Raymond Houston.

Mr. and Mrs. T. L. Gleason, Linda and Bobby, accompanied by her father, Y. B. Mayfield, visited her mother, Mrs. Mayfield, Sunday in the Methodist Hospital at Lubbock. Mrs. Gleason reports that her mother is some improved.

Mrs. Parrish Is Shower Honoree

Mrs. Keith Parrish from Earth was honored Tuesday of last week with a pink and blue shower in the basement of the Baptist church with the WMU members as hostesses.

The gifts were piled on a table covered with pink and blue and centered with a huge stork. The serving table was decorated with an arrangement of fresh flowers surrounded by toy animals. White cake iced with blue and topped with miniature storks, mints and punch were served.

Present were Mesdames Raymond Houston, Lillie Hargrove, Carrie Withrow, George Washington, W. R. Broadhurst, Jim Parrish, Glen Kenneremer, Bobbitt Marshall, Clyde Parrish, H. W. Kendrick, C. W. Mick, Dnd Winders and Miss Pat McLeod.

Sending gifts but unable to attend were Mesdames Ed Blair, Thomas Carrell, Bill McLeod, W. S. Menefee, R. L. Porter, Dixie Barnes, Jimmy Ivy, Jack Black, Wesley Barnes, Sarah Clark, J. E. Williams, Weldon Slayton, Claude Heath, Bill Curry and Miss Maudine Barnes.

WSCS Hears Guest Speaker

WSCS of the Methodist Church met Friday afternoon at the church building. Mrs. Mel Smith brought the devotional and A. B. Cockrell was the speaker. He is the pastor of the First Methodist church in Levelland and just completed a series of meetings.

The speaker told of a conference he had attended concerning human relations, at Houston-Tillston College at Austin. A round table discussion was held on the subject of "Race Problems." Others present were Mr. and Mrs. Aaron Mitchell, and Mesdames John L. Seaton, C. D. Gustin, V. H. Bewley, Virgil Teague, Frank Hinkson, Henry Ivy, Finis Jennings and E. T. Ford.

CARD OF THANKS

We want to express our deep appreciation to all of our friends and neighbors for all the kindness and thoughtfulness shown us in the illness and death of our husband, father and grandfather, T. D. Reed. May God's blessings be upon each and everyone of you.

Mrs. T. D. Reed
Mr. and Mrs. L. A. Reed and Doyle
Mr. and Mrs. Olen Ivy and Gail
Mr. and Mrs. Fred Clements and Tommie
Mr. and Mrs. Junior Matthews and Gary and Derrell
Mr. and Mrs. Chunky Ivy 51-1tc

Evelyn Darling was bitten by a pet dog last week. The dog was not rabid, but the bites were painful and bruising.

Mr. and Mrs. Rufus Carter visited Sunday in Dimmitt with Mr. and Mrs. E. E. Huggins. Recent visitors in the home of Mrs. Lora Brown were Mr. and Mrs. Raymond Martin, Jimmy, Sherlene, Peggy and Dicky Lynn from Farwell.

Sunday guests in the J. B. Thomas home were Mr. and Mrs. Vaughan Keeth and family of Farwell; Mr. and Mrs. James Miller and family of Muleshoe; and Mr. and Mrs. Lloyd Echols of Portales.

Virgil Teague was a patient in the Muleshoe hospital the first part of the week.

Pauline Cammack circle of the WMU met Monday afternoon with Mrs. Carrie Withrow. Mrs. L. B. Hambright was in charge of the Bible study. Refreshments of sandwiches, angel food cake with strawberries, and punch were served to the following: Mesdames Wesley Barnes, Earl Peterson, W. R. Broadhurst, E. E. Mason, Bert Gordon, Eugene Redwine, L. B. Hambright and the hostess.

V. H. Bewley is confined to his home this week with the flu. Others on the sick list are Billy Hardage and Brenda and Jan Mason.

Mr. and Mrs. Delter Wenner, Lonnie Merriott and Jack Darrow from Muleshoe attended a fellowship meeting in Amarillo on Tuesday of last week.

Mr. and Mrs. John McGehee and Kenneth and Mr. and Mrs. Raymond McGehee and Jeanne visited Sunday in Denver City with a brother and family, Mr. and Mrs. Leroy McGehee and family.

Mr. and Mrs. David Robertson and children, Leon, Donald, Carl and Geneva, from Amarillo and Mr. and Mrs. Leroy Wilson visited Sunday in the home of their parents, Mr. and Mrs. A. H. Wilson. In the afternoon Walter McMahan and daughter, Ramona, joined the group and the children enjoyed horseback riding.

Mr. and Mrs. Bob Kimbrough and children, Brenda, Mike and Cindy, visited Sunday in Tulia with the Reece Wilterding family. Mr. and Mrs. Bill Gaede also spent Sunday with the Wilterdings.

Mrs. C. M. Woodward from Ralls spent last week in the home of her daughter and family, Mr. and Mrs. Jeeter Garner and children.

Mr. and Mrs. Judd Clark returned home Friday night from a two week trip through Missouri, Iowa, Minnesota, and North Dakota, where they visited with friends and relatives.

To Amarillo

Mr. and Mrs. O. M. Jennings and Mr. and Mrs. James Jennings were in Hereford Saturday where they left Mrs. O. M. Jennings with the Cecil Malones. The rest of the party, accompanied by Agatha Malone, went to Amarillo where they visited the fair and enjoyed the air show and "Holiday on Ice."

A wiener roast was enjoyed Saturday evening in the home of Mr. and Mrs. J. B. Jennings honoring Mr. and Mrs. W. A. Privett and daughter, Nancy. They were visiting here from Enid, Okla. Others present were Mr. and Mrs. C. D. Gustin and Ronnie, Mr. and Mrs. Alton Page and family, Mr. and Mrs. Eldon Page, Mr. and Mrs. Leiland Gustin, and Mrs. A. W. Bailey from Jacksboro.

Bob Tippie, a student in the college at Clarendon, spent the weekend at home with his parents, Mr. and Mrs. Purl Tippie.

Mr. and Mrs. Paul Robinson from Jacksonville spent the weekend in the Bill Lancaster home. On Sunday, other guests were Mr. and Mrs. J. E. Donaldson and family from Carlbad and Mr. and Mrs. R. L. Donaldson from Muleshoe.

Mr. and Mrs. Bill Melton and daughter, Janita, from Fields, N. M., were Sunday guests in the Gordon Duncan home.

Thursday guests last week in the David Johnson home were his parents, Mr. and Mrs. C. L. Johnson from Littlefield, his brother and family, Mr. and Mrs. Tom E. Johnson from Levelland, and a nephew, Tommy Setliff, from Friona. Mr. and Mrs. C. L. Johnson remained for the rest of the week.

Mr. and Mrs. Andy Brown and Sonya visited Sunday in Tulia with his brother and family, Mr. and Mrs. Ronald Wayne Brown.

Mr. and Mrs. Cecil Wiley from Lubbock visited Sunday in the Jess Pendergrass home.

Ralph Cox and son James were recent weekend visitors in Logan, N. M., with his brother and family, Mr. and Mrs. James Cox.

Mr. and Mrs. Charles Neely from Tulsa, Okla., who have been visiting their daughter and family, Mr. and Mrs. Raymond Treider, the past few weeks, returned to their home. They were accompanied to Enid, Okla., by Mrs. Annie Vaughan who went on to St. Louis, Mo., where she will visit with a sister.

Visiting Parents

Mrs. James Kyle and children, Jimmy and Shelia, are here visiting with her parents, Mr. and Mrs. Rhiney Steinbock, and her sister and family, Mr. and Mrs. Demp Foster and boys. The Kyles have been in Newfoundland for the past two and one half years where he has been stationed. James has been sent to Wisconsin and Mrs. Kyle and the children will remain here until he is reassigned.

Mr. and Mrs. Gene Briggs, Vicki and Ricky, are visiting this week in Lubbock with her sister and family, Mr. and Mrs. Bill Hollers.

Mr. and Mrs. Dee Chitwood and Mr. and Mrs. Joe Buchanan from the Hub spent Sunday at Conchas Lake.

Sunday guests in the Ralph Cox home were Darrell Jennings, Marie Houston, Clyde Redwine and Mr. and Mrs. Virgil Merriott from Lubbock.

Mrs. A. W. Bailey from Jacksboro is visiting in the home of her sisters and brother and families, Mr. and Mrs. C. D. Gustin, Mr. and Mrs. J. B. Jennings and Mr. and Mrs. Eldon Page, this week.

To Coleman

Mrs. Jimmy Ivy accompanied her mother, Mrs. Eaves, to Coleman last week where Mrs. Eaves will spend the winter with relatives. From there they went to Austin where Jimmy Duane stayed and will attend the University. Mrs. Ivy returned by San Angelo to visit a sister and brother; visited friends in Slaton; and also visited her daughter, Mitzi Ann, in Littlefield.

Sunday guests in the Owen Broyles home were Mrs. Iva Petty, Mrs. J. D. Carpenter Sr. and Mrs. John Bloomfield, all of Clovis; and Mr. and Mrs. Parky Mann and Mr. and Mrs. Sam Rule and daughter Patsy, all from the Hub community.

Johnny Gammon, Jim Roy Daniels and J. C. Gilmore were all home over the weekend visiting with their parents. They attend school at Oklahoma A & M at Stillwater.

Mr. and Mrs. Joe Reagan and children, Gary and Dal, from Dalhart visited Sunday in the home of his sister, Mrs. N. M. McCurdy. They were accompanied by Joan and Susie Williams, also of Dalhart.

Social Events of Interest

Eight Guests Feted At ESA Monday Night

Eight guests were entertained by members of Theta Rho chapter of ESA, when the group was feted with a social in the home of Mrs. Bert Williams Monday evening.

After a welcome given by the president, Mrs. Don Williams, a short business meeting was held, in which members voted to send a donation to an injured boy, who is being aided financially by ESA chapters.

Also the state council meeting was announced for October 12-13 at Los Alamos. Mrs.

Peytons Entertain Texico Teachers

Mr. and Mrs. N. W. Peyton were host and hostess for a backyard picnic at their home in Texico Thursday night.

Chili tacos, coffee or pop, and watermelon were served on the patio of the Peyton home.

After the meal, guests saw slides of parts of Mexico and Mexico City. The slides were taken by Mr. and Mrs. Agrie Jones, while there on vacation during the summer.

There for the picnic were Mr. and Mrs. Leroy Faville, Mrs. Viola Mitchell, Mr. and Mrs. C. B. Stockton, Mr. and Mrs. Curtis Miller, Mrs. Avis Patterson, Mrs. B. A. Rogers, Mr. and Mrs. Bill Wilson and children of Portales.

Also, Mr. and Mrs. Ken Hanks, Mr. and Mrs. Buck Doran, Mr. and Mrs. Paul Crooks, Mr. and Mrs. Agrie Jones, Paul Frederick, Nathan Tharp, and Miss Fern Smith.

The children of the teachers were also guests.

Junior Class Has Hayride Saturday

Members of the junior class of Farwell High School and their sponsors enjoyed a hayride and watermelon feed at the sandhills last Saturday evening.

Class members attending the hayride included Jo Anne Schell, Doris Rolland, Carolyn Rounton, Gwenda Lee Parker, Jeanette Lindop, Mary Widener, Freddy Magness, Owen Huffaker, Dickie Williams, Cyrus Dale, Neil Anderson, Donald Barnes, Jackie Goldsmith, Bobby Lesly, Gerald Christian, Morris Reed and Buster Harriman.

Sponsors accompanying the group were Mr. and Mrs. Earl Rounton, Mr. and Mrs. Virgil Schell and Johnny, and J. D. Atwell and Jeff.

Debbie Hargrove Celebrates Birthday

Celebrating her birthday Tuesday, September 24, was little Debbie Hargrove, daughter of Mr. and Mrs. Elmer Hargrove of Oklahoma Lane. The party was at the home of her grandparents, Mr. and Mrs. Willie Williams. Debbie was eight years old.

Birthday cake, ice cream and pops were served to Connie Phillips, Leslie Cooper, Carolyn Langford, Becky Terrell, and Sharon Busbice. Debbie's three smaller brothers, Greg, Brett, and Kevin, were also present to help her celebrate.

Favors were identification bracelets.

Return Home

Mr. and Mrs. W. I. Rundell returned to their home in Walnut Springs the first of this week after visiting here all last week with their children and families in the Farwell-Oklahoma Lane area. The Rundells are former residents of Oklahoma Lane.

Williams told members that a call meeting will be held at 5 o'clock in the afternoon Thursday, to discuss the meeting.

Rummage sales were postponed until Saturday, October 19, and members are to gather as much rummage as possible during that time.

Games were played during the evening and refreshments of brownies and coffee were served. Guests included Misses Phyllis Magness and Norma Hurta, and Mesdames Kenneth Hanks, John McCauley, Ted Magness, T. J. Glenn, J. D. Kirkland, and Hurshel Harding.

Members included Mesdames Claud Dyer, W. H. Graham Jr., Joe Helton, Joe Jones, Wilfred Quickel, M. C. Roberts, Gilbert Watkins, Don Williams, Mark Liethen, Wilma Liner and the hosts.

Next meeting will be October 14 and will be a business session.

Mrs. Teel Hostess To WSCS Meeting

Mrs. Elmer Teel was hostess to a regular meeting of the Woman's Society of Christian Service of Hamlin Memorial Methodist Church at her home on Wednesday afternoon of this week.

Mrs. W. H. Hardwick was in charge of the program titled "Missions Cinerama" and was assisted in presenting the program by Mrs. J. R. Thornton and Mrs. N. L. Tharp.

Following the program, Mrs. Teel served a sandwich plate, punch and cookies to Mesdames Charles Lovelace, James A. Cox, W. N. Foster, Grace Sanders, J. R. Thornton, Anne Overstreet, N. L. Tharp, G. W. Atchley, Albert Thomas, Ruby Dixon, Curtis Jones, Lena Yoder, W. H. Graham Sr., and W. H. Hardwick.

Bill Medleys Are Parents of Son

David Wayne is the new son of Mr. and Mrs. Bill Medley of Clovis. He was born at the hospital in Clovis on Saturday, September 14, and weighed seven pounds and seven ounces.

Paternal grandparents are Mr. and Mrs. G. L. Medley of Farwell, and maternal grandparents are Mr. and Mrs. T. T. Bagley of Clinton, Okla.

Dean Smiths Are Parents Of Girl

Mr. and Mrs. Dean Smith, 1620 Avenue A, Douglas, Ariz., formerly of Farwell, became the proud parents of a daughter, Charlotte Eve, who was born September 17. The baby weighed eight pounds and was born in the Douglas hospital.

Paternal grandparents are Mr. and Mrs. Odum Smith of Farwell, and maternal grandparents are Mr. and Mrs. Edward Weisler of Douglas, formerly of Texico.

On Vacation

Leaving Saturday, September 14, for a vacation trip to Oakland, Calif., were Mr. and Mrs. Billy Woodson and Mrs. Bill Glenn.

While there they planned to visit with Mr. and Mrs. Dave Okelberry and son. The Okelberrys are former residents of Farwell.

Mrs. Neva Myers returned to her home in Wheeler on Friday of last week after spending the week here in the home of her niece and family, Mr. and Mrs. Mem Sprows and children.

Class Elects New Officers

Ruth Sunday School class of the Texico Baptist Church met at the home of Mrs. Helen Bowers for a business meeting and devotional on Tuesday evening, September 24.

New officers were elected to serve the next six months. Helen Bowers was elected president; Thelma Doshier, vice-president; Sophia McDaniel, secretary; Willie Morgan, corresponding secretary; Alvenia Cox, class minister; Nora Day, assistant teacher; Lela Douglas and Susie Schlueter, group captains; and Ida Whitener, associate group captain.

Susie Schlueter was in charge of the business session in the absence of Sophia McDaniel. Thelma Doshier gave a devotional on "Victory Over Worry." Pie and coffee were served by the hostess following the business session.

Present for the meeting were Mesdames Nora Day, Lucy Brown, Susie Schlueter, Willie Morgan, Thelma Doshier, and Alvenia Cox, and three visitors, Darlene Day, Wanda Morgan, and Christina Bowers.

Salad Supper Feature of Meet

A salad supper at the Woman's Club building officially opened the new club year for the Texico Woman's Club recently.

Mrs. Curtis Miller, new president of the organization, was guest of honor at the supper.

Other officers of the club for the coming year include first vice-president, Mrs. Milton Henson; second vice-president, Mrs. C. B. Stockton; secretary, Mrs. John Adams; treasurer, Mrs. Ival Hesser; parliamentarian, Mrs. N. W. Peyton; reporter, Mrs. Fred Danforth; and musician, Mrs. Mark Fairman.

The T-shaped banquet table was centered with an arrangement of orchid dahlias, courtesy of Mrs. Henson, and other floral arrangements in the building were furnished by Mrs. Grace Sanders.

Mrs. Mark Fairman presented special music for the program and was also featured in a vocal duet with Mrs. Miller.

A special guest at the meeting was Mrs. Scotty Barris, school nurse, who spoke briefly to the group about encephalitis and Asiatic influenza.

Mrs. Miller presented a short message to the group prior to the business meeting and expressed thanks to everyone who had participated in the "city park project" of the club.

Yearbooks for the year were presented by Mrs. Danforth who expressed appreciation to Mrs. Agrie Jones and her typing class at Texico School who made the books.

Six new members were elected to membership in the club. New members include Mesdames Loyd Tharp, Elmer Teel, Dixie Smith, Buck Doran, Frank Pritchett and Ken Hanks. Mrs. Miller said the club was looking forward to meeting with these new members at the meeting in October, and the new members were given duties for the club ice cream social for September 28.

Among the club projects for the year which were discussed are the presenting of a music band scholarship, sponsoring the Boy Scouts, building a roadside park, and continuing the Teen Center.

Operation of the club library has been dispensed for the duration of the school term.

Present for the supper besides the officers already mentioned were Mesdames Russell Johnson, Grace Sanders, Jim Moss, Irene Baker, Monty Parsons, J. E. Stone, Avis Patterson, B. A. Rogers, Frank Dasher and Ellen Daniel.

Class Meet To Be October 3

Thursday evening, October 3, will be the date of the next regular meeting of the Companion Sunday School class of the Texico Baptist Church, according to the reporter for the class.

Mrs. Inez Stone will be hostess for the monthly business and social meeting and Mrs. Yselta Kittrell will be guest of honor at a pink and blue shower during the session. Class officers who were elected last month will also be installed.

Meeting time is 8:30 and all members are urged to attend.

Visit Here Sunday

Visiting Sunday in the home of Mr. and Mrs. Jerry E. Stallings in Texico were her parents, Mr. and Mrs. W. W. Jones of Hereford; his parents, Mr. and Mrs. O. T. Shearer of Plainview; and his grandparents, Mr. and Mrs. A. P. Davies of Tulla.

Pledges Sorority

Miss Susan Levins, daughter of Mr. and Mrs. Ira S. Levins of Texico, and a freshman at the University of New Mexico, last week pledged Kappa Alpha Theta. Susan was graduated from Texico High School in 1957.

Susie Barnett, Clovis, daughter of Mr. and Mrs. J. O. Barnett Jr., also pledged the sorority at the University. The Barnetts are former residents of Farwell.

Initiation of the new pledges will not be until the second semester.

To Amarillo

Miss Billie Fay Heckman visited Friday night and Saturday in Amarillo with Mr. and Mrs. Darrell Sorter. Miss Heckman and Mrs. Sorter are both former residents of Silverton and attended school there together. While in Amarillo, Miss Heckman also accompanied the Sorters to the air show and Tri-State Fair.

Visiting here last week with Mr. and Mrs. W. N. Foster were their daughter and family, the Harold Trimbles, of Alamogordo, N. M.

Series of Parties Honor Visitors

Mr. and Mrs. H. P. Liethen of Appleton, Wisconsin, who have been house guests of their son and his wife, the Mark Liethens, left here Monday morning to return to their home. While visiting in Farwell, they were entertained by various residents, with a round of parties and luncheons.

A backyard picnic feted the couple Tuesday night of last week, in the home of Mr. and Mrs. Johnie Williams. Charcoal steaks with potato salad, relishes, baked corn, dessert and coffee were on the menu. Guests included Mr. and Mrs. Bert Williams and children, Mrs. Penny Anderson and David of Bovina, Mrs. J. H. Stone, and the honor guests and their hosts, and the Williamses.

Monday evening, a group visited in the Bert Williams home, and films were shown. Mrs. Williams served popovers and coffee.

Mrs. Liethen was honored with a bridge party in the Johnie Williams home Thursday afternoon. Attending were Mesdames Glenn Phillips, Elmer Hargrove, Bert Williams, Mark Liethen, Mitz Walling, Don Williams, Sam Aldridge, Roy Suddarth of Bovina, M. F. Green, Hazel Gast, Sam Rundell, M. C. Roberts, Gene Lovelace, John Aldridge and Jack Williams. Also calling during the afternoon were Mrs. M. A. Snider,

Wilma Liner, Mrs. Willie Williams, Mrs. L. R. Vincent, and Mrs. M. A. Snider Jr.

That evening, the Liethens and their son and his wife were guests in the home of the Penny Andersons in Bovina.

Saturday night, the Mark Liethens entertained his parents with a social in their home. Attending were Major and Mrs. Woford Sullivan of Clovis, the Andersons, the Elmer Hargroves, and the host and hostess and honor guests.

The Liethens were guests in the Sam Rundell home Sunday afternoon, and their son took them to Cannon Air Force Base in Clovis that evening.

Rev. Keith Teaches WMU Bible Study

Rev. E. J. Keith, pastor of the church, taught the Bible Study lesson at the regular meeting of the Farwell Baptist WMU on Monday morning of this week.

Following the lesson, WMU members practiced the stewardship plan, "Aunt Tillie Learns to Tithes," which they presented at the regular prayer service at the church Wednesday night.

Present for the meeting were Mesdames Dora Johnson, E. G. Williams, E. J. Keith, Sterlyn Billington, Elmer Scott, Bruce Blair, Raymond Martin, Joe McWilliams, Billy Dollar, Horace Battenfield, and Jim Terrell, and Rev. Keith.

Texico Woman's Club Plans Saturday Social

An ice cream social has been planned by the Texico Woman's Club for Saturday evening, September 28, at the Woman's Club building.

The social is being patterned after one held by the club last year and will begin at 8 p.m. Homemade ice cream, cake and pie will be available at 25 cents per serving during the evening. Coffee will also be served.

Proceeds from the event are to be used to purchase chairs for the club building and to aid in other club projects.

Mesdames Frank Doshier, Mark Fairman, N. W. Peyton, B. A. Rogers, Ival Hesser, Fred Danforth, J. E. Stone, C. B. Stockton and Milton Henson are to bring homemade ice cream. Other members are asked to bring a cake or pie. New members of the club who have freezers are also being asked to bring ice cream.

All members are urged to be on hand for the event and everyone is invited to participate.

Are Guests Sunday In Norton Home

Mr. and Mrs. L. L. Norton were host and hostess to a family dinner and get-together honoring his brother and sister-in-law, Mr. and Mrs. C. A. Norton, of Port Lavaca, on Sunday.

Attending the dinner and calling during the day were Mr. and Mrs. Roy Hawkins and Mrs. Willie Bonds of Bovina; Mrs. Dell Foster and children of Clovis; C. B. Norton, Billy and Kay of Jal, N. M.;

Also, Mr. and Mrs. Buster Cochran and Bonnie, Mr. and Mrs. Darrell Norton and children, Mr. and Mrs. Herman Geries, Mr. and Mrs. James Norton, the honorees and the host and hostess and family.

The C. A. Nortons returned to Port Lavaca on Monday after visiting with relatives in this area for a week.

Bill Quickel Host To Party Friday

Bill Quickel, 11-year-old son of Mr. and Mrs. Wilfred Quickel, was host to a group of friends for a "stag" party at the home of his parents on Friday night of last week.

Present to enjoy the hot dog supper and an evening of playing games were Allen Busbice, Carl Glenn Davis, Ronny Henson, Murrell Smith, Robert Keith, Darrell Crook, Billy Fields, Jimmy Terrell and the host.

To Oklahoma

Mr. and Mrs. Everett Christian visited during the weekend in Lone Wolf, Okla., with her mother, Mrs. Cora Gaines, and with Mrs. Christian's sister who was also visiting there. The Christians returned to Farwell on Monday afternoon.

To Meet Tuesday

Oklahoma Lane Variety Club will meet at the home of Mrs. Scott Berry in Bovina for a regular session on Tuesday afternoon, October 1.

All members are urged to be present for this meeting.

Spending the weekend with relatives in Amarillo were Mr. and Mrs. Guy Cox.

Mr. and Mrs. Elmer Teel and children of Texico visited during the weekend in Durango, Colo.

Weekend guests in the home of Mr. and Mrs. J. R. Thornton were their daughter and son-in-law, Mr. and Mrs. Rondal Price of Amarillo. The Prices also visited her sister and family, Mr. and Mrs. Wilfred Quickel and children.

Guests last Friday in the home of Mrs. Jess Newton were her daughter and son-in-law, Mr. and Mrs. Orville London of Amarillo.

We have a cubby-hole where we place all the letters we must answer, and a note to ourselves on things we must get done when we have time. Then about every six months, we clean out the mess, and find that there are many things that we don't have to do, after all. It's too late. But it's just like cleaning out the attic, it stirs memories, and there are always a few things we can't stand to throw away.

We just finished clearing away our latest collection and it's amazing what we have accumulated. We found some very clever reminders that various subscriptions to all kinds of magazines were due. Then there were all the wonderful birthday cards that we received last October. We re-read everyone and appreciated our friends once again, just remembering their thoughtfulness.

We re-read all the letters and cards that "Gramma" had written while she was in Hawaii; enjoyed our August trip to Colorado again, as we noted the literature we accumulated during that five days; and finally threw away the notes we had made while we were secretary of ESA last year.

We found several contest entry blanks that we had torn out of publications, thinking we'd probably win this time (our weakness), but never did get around to writing slogans.

There was an advertisement on "relief from bunions" which we saved before we learned our trouble was "flat feet," and house plans galore for the home that exists only in our dreams.

Money order receipts, programs to press conventions, ESA state news letters, shower invitations for 1956 and 1957, finally went to file 13. We can now start anew!

Our suspicions were correct. We made a quick trip out to the G. P. Meissner home Monday, and had an opportunity to see the wedding dress which Agnes wore not so long ago.

We have never seen a prettier one. Realizing that most of those attending the wedding would see the back of the dress, Agnes selected a design that emphasized this. The full, full skirt was just tier upon tier of lace. You would just have to see it to describe it.

One of the most difficult jobs we've had in the past few months is over... we made a speech! Brief as it was, it worried us for two weeks. We were on the program for homecom-

ing at Silverton High, where we were graduated 11 years ago. Most of the people who were in the audience had seen us grow up—we had lived in Silverton until we went away to college. We've decided it's more difficult to talk to people who know you so well. But we didn't trip on the microphone cord, make too many errors in pronunciation, or anything much that we can remember.

The only talks we've made in 11 years, have been recently—and they go something like this: "Ronny, shut that door," "Hal, get off the cabinet," and if those people at Silverton forget what we said as soon as Ronny, and Hal do, we won't have to worry about our words making much difference anyhow.

We did have a good time at Homecoming, and always look forward to seeing our lifelong friends again. We were the junior member of the program panel. They had an ex for each decade to tell about the school in the past. After hearing some of those old-timers, tell about school in the 1900's and even before, we realize that the students from 1940 to 1950 were quite well behaved.

At Andrews, the football coaches have the same problem we have in Farwell. Their team was given the number one rating in their conference. So the Quarterback Club there, presented the coach a large crying towel to use every time he thinks of the number one rating. The coach's reaction: "It may not be big enough."

Mikala Faville, freshman at West Texas State, Canyon, visited her parents, Mr. and Mrs. Leroy Faville, over the weekend.

TEXICO BAPTIST NEWS. Rev. C. C. Morgan, Pastor.

One hundred fifty-two were present for Sunday School on Sunday, September 22, and 73 were present for training union.

Mrs. D. J. Brown taught the Bible Study lesson at the WMU meeting at the church last Wednesday afternoon. The lesson, "Heaven," was the final one in a series of lessons on Baptist beliefs and doctrines.

Present for the meeting besides Mrs. Brown were Mesdames S. G. Billington, J. O. Ford, M. H. Potet and C. C. Morgan.

The WMU met Wednesday afternoon of this week in the home of Mrs. Morgan for a business and social meeting.

Girls Auxiliary members met again last week and new officers were elected. A list of these will be announced later.

Canuck is a term sometimes used in the U. S. to denote a Canadian.

know Grandpa Silly?

HE THINKS FRESH AIR IS NOT EVEN FOR THE BIRDS!

Fresh air is important to the proper functioning of open flame heaters. Without it, carbon monoxide may be created. Poisonous carbon monoxide is given off by any fuel which doesn't get enough fresh air. For efficient and safe operation, your heating equipment MUST have:

- A continuing source of fresh air.
- Approved metal connectors—not the old-fashioned rubber ones.
- A well-adjusted, bright blue flame.

Where heating equipment requires venting, make certain that vent pipes are properly installed, unobstructed and unbroken. Gas is your safest fuel. Use it wisely. If your heating equipment needs checking, call a licensed plumber, heating contractor, or your gas company.

Your home is as safe as you make it!

News From LAZBUDDIE
By MRS. CLYDE MONK
(Continued from Page 3)

Guests last Tuesday in the Ralph Cox home were her cousins, Alvis Roberts from Ft. Worth and Lee Roberts from El Cajon, Calif. Her mother, Mrs. J. P. Wilson from Friona, was also a guest, and on Wednesday Mrs. Wilson accompanied the Roberts men to Sulphur, Okla., where she attended a family reunion on Sunday.

Mrs. Jack Smith, Katherine, Beverly and Jack Finley, accompanied by Johnnie Nowell, attended the fair and ice show in Amarillo on Saturday. Others attending the fair on Saturday were Mr. and Mrs. Owen Broyles.

Chunk Smith Leaves For Germany
Chunk Smith left Wednesday for New Jersey where he was to receive orders for duty in Germany.

His wife, the former Jeanell Floyd, will remain here with her parents until such time she can join her husband in Germany.

Last Wednesday night an ice cream supper was enjoyed in the Smith-Floyd home. Those present were Mr. and Mrs. Duane Darling and family, Mr. and Mrs. Max Steinbock, Mr. and Mrs. Gene Smith and Timmy, Mr. and Mrs. Kenneth Keith, Tommy and Kenny, Mr. and Mrs. LaVerne Smith and family, Mr. and Mrs. Barney Floyd, Madalyn Schuman, Andy Fuqua, Jerry and Kay Ann Smith, Betty Floyd of Plainview and Mr. and Mrs. Donald Runyon of Amarillo.

Mr. and Mrs. Delter Wenner returned recently from a trip that carried them through New Mexico, Colorado, Nebraska, Wyoming and Kansas. They also stopped in Dalhart and visited with Mr. and Mrs. Ernest L. Merriott.

Weekend guests in the Doug Horsley home were her sister and family, Mr. and Mrs. H. E. Coke and children, Sue and Van, from Midland.

Guests over the weekend in the home of Mr. and Mrs. J. T.

Herb Ramages Parents of Son
Mr. and Mrs. Earl Routon announce the arrival of their first grandchild who was born Friday, September 20, to their daughter and son-in-law, Mr. and Mrs. Herb Ramage of Muleshoe. The new grandson was born in the Muleshoe hospital and has been named Johnny Duane. He weighed seven pounds and 10 ounces. He is the first child of Mr. and Mrs. Ramage. Mrs. Ramage is the former Betty Routon.

METHODIST CHURCH NEWS
Rev. J. R. Wood, Pastor
Members of the Methodist Men's organization met at the church Monday evening, September 23, for a business session. Following the meeting, refreshments were served to Rev. Wood, Troy Christian, Claude Primrose, Donald Christian, Melborn Jones, Ernest Tare, Merrill Rundell, C. C. Christian and John West.

Monday night, September 19, the Ruth Circle of the WSCS met at the church for a regular monthly meeting. Mrs. Merrill Rundell and Mrs. Wayne Foster directed the study on "Christ, The Church, and The Race." Mrs. Donald Christian presented the meditation using Psalms 95 as her guide. Her topic was "We Are Hid People." The meeting was closed with prayer by Mrs. Melborn Jones.

Mrs. Lawrence Cooper and Mrs. Jones served refreshments of doughnuts and coffee to those above and Mrs. Troy Christian, Mrs. James Roach, Trummie Christian, and Gay Lynn Rundell.

BAPTIST CHURCH NEWS
Rev. Irving Looney, Pastor
Sunday school attendance on September 22 was 103 with 61 attending training union.

Rev. Looney and Walter Verner represented the local Brotherhood in Oklahoma City last week at the meeting of the Southern Baptist Convention. Rev. Looney reports that about 6,000 laymen and preachers were at the convention.

Lydia Circle of the W.M.U. met in the home of Mrs. Lacy Hardage Monday for Bible Study. Mrs. Hardage presented the devotional, "Being More Faithful," and used St. Matthew as

Eubanks was his sister, Mrs. J. H. Lewis from Snyder, a nephew and family, Mr. and Mrs. Marvin Lewis from Denton. Jackie and Dee Brown and Claude Watkins spent the first part of the week at Stamford doing some fishing.

Mrs. Opal Bewley is visiting in McLeod, Okla., with her mother, Mrs. Tandy Moore. Mr. Moore passed away some two weeks ago in an Oklahoma City hospital. Mrs. Bewley went back for the funeral and stayed longer for a visit with her mother.

Mr. and Mrs. J. C. Beavers from Idaho Falls, Idaho, spent the weekend in the home of their daughter and family, Mr. and Mrs. Don McGuire and new son. After the Beavers left, the McGuires went to Shallowater to spend this week with his parents, the Martin McGuires.

Mr. and Mrs. Billy Watts from Farwell visited Sunday in the home of her parents, Mr. and Mrs. Finis Jennings. Sunday afternoon Mrs. Jennings, Mrs. Watts and Mrs. Al Jennings attended a shower for Mrs. Dwayne Farr, the former Connie Powers. Mrs. Finis Jennings was a hostess.

her text.
Mrs. Claude Watkins led the group in a study of the book of St. John. Mrs. Hardage then served cookies and pop to Mesdames Charles Hukill, Wayne Hardage, Lora Brown and Claude Watkins.

Benny Gulleys Have Son Born Friday
Mr. and Mrs. Benny Gulley are the proud parents of a son born Friday, September 20, in the hospital in Friona. The boy weighed eight pounds and has been named Eddie James.

The Gulleys also have three other children, Wayne, Gary, and Sandra.

HD Club Meets With Mrs. Symcox
Oklahoma Lane HD Club met Thursday afternoon, September 12, in the home of Mrs. Vernon Symcox.

Mrs. Winbourn Hardage gave a demonstration on making dolls from milk filters, and each member made a doll during the meeting.

Present for the meeting were Mesdames Neil Bradshaw, Clarence Johnson, Walter Kaltwasser, John Range, Joe White, and one new member, Mrs. Bill Dollar.

Twin Daughters For Murrill Browns
Twin daughters were born to Mr. and Mrs. Murrill Brown of Muleshoe, formerly of Oklahoma Lane, Friday, September 20. The new daughters have been named Carol Ann and Sheryl Lynn, and weighed five pounds and one ounce, and three pounds and 14 ounces, respectively. The Browns have another daughter, Kay, who is 15.

Mr. and Mrs. Gilbert Kaltwasser were in Lubbock Thursday of last week attending a Farm Bureau meeting and the district FB quack contest.

Mrs. J. W. Hukill of Fieldton, mother of Charles Hukill, is visiting her son and family this week.

Mr. and Mrs. Gene Rea and daughters of Bovina visited on Sunday afternoon in the home of Mr. and Mrs. Donald Watkins.

Mr. and Mrs. V. O. Busby and Sharon of Earth were dinner guests in the home of Mr. and Mrs. Delbert Garner Sunday.

Mrs. Maggie Foster Observes Birthday
Mrs. Maggie Foster celebrated her 84th birthday Sunday, at a dinner in her honor at the home of Mr. and Mrs. Wendol Christian. Mrs. Foster enjoyed observing the occasion by visiting with her children, grandchildren and great-grandchildren.

The traditional birthday cake and a floral arrangement centered the serving table. Mrs. Foster received many gifts from relatives and friends.

Present to help her celebrate were C. E. Foster of Clovis, Mr. and Mrs. James Roach, Judy and Jerry, Mr. and Mrs. L. M. Grissom and Lola Jean, Mr. and Mrs. Leon Grissom, Mike and Pamela.

Also, Mr. and Mrs. Kenneth Grissom and family of Lubbock, Mr. and Mrs. C. W. Grissom and family of Taiban, N. M., Mr. and Mrs. W. N. Foster, Mr. and Mrs. Nelson Foster and family, Mr. and Mrs. Murrill Foster and sons, Mr. and Mrs. C. C. Christian and Phyllis.

And, Mr. and Mrs. Donald Christian and Trummie, Mr. and Mrs. Troy Christian, Mr. and Mrs. Benny Darnell of Amarillo, Mr. and Mrs. A. V. Warren and Kitty, Mr. and Mrs. Norman Sulser and family of Earth, Mrs. Emma Ayres of Guymon, Okla., and honoree and the host and hostess and

Shelia Garner Has Birthday
Shelia Garner, daughter of Mr. and Mrs. Delbert Garner, was honored on her sixth birthday with a party in the home of her parents.

Refreshments of birthday cake, ice cream and punch were served to Curtis, Drew and Jerry Ford, Ricky and Randy Stewart, Mike and Gary Doshier, and Derrick and Dexter Garner.

Special guest for the occasion was Shelia's grandmother, Mrs. Howard Garner. Others present were Mrs. Frank Doshier Jr., Mrs. Burl Ford, Mrs. J. T. Ford, and Mrs. Neil Stewart.

Misses Jan and Brenda Mason, daughters of Mr. and Mrs. Lee Mason, are sick with the flu this week, but reports are that they are feeling better.

Mrs. A. L. Tandy is still confined to the hospital and her condition remains the same, according to reports.
Jim Walker, son-in-law of Mr. and Mrs. Buster Cochran, visited recently in the Cochran home.

Are Sunday Guests In Symcox Home
Dinner guests Sunday in the home of Mr. and Mrs. Vernon Symcox and family were Mr. and Mrs. W. I. Rundell of Walnut Springs; Mr. and Mrs. D. W. Carpenter and Mr. and Mrs. Walter Verner.

Calling at the Symcox home during the afternoon were Mr. and Mrs. Myron Hillock and Ruby, Robert Rundell, Mrs. Dick Doshier and sons, and Mrs.

Margaret London and son of Alamogordo.
Roland Hillock, freshman at ENMU, was at home visiting his parents during the weekend.

Mr. and Mrs. Artie Dennis of Lubbock visited Saturday night in the home of Mr. and Mrs. Harold Carpenter.

The present site of Washington, D. C., was selected for the national capital in 1789.

IT'S INSURANCE ... PURE AND SIMPLE

CHEVROLET PICKUP CLIMBS PIKES PEAK THE HARD WAY ... OFF THE ROAD!
An off-the-road run up Pikes Peak was called impossible by people who know the mountain well. But a production Chevrolet pickup actually did it ... to prove its pulling power and ruggedness!

All the way to the top without using the road! Here the truck scales high boulder pile near the 14,110-foot summit.

Steep grade near timberline—a rugged test of power. The power and torque of Chevrolet's famous Thriftmaster 6 proved more than a match for the most difficult grades.

Miles of loose boulders and thinning air offer extreme challenge. Yet the big Chevy engine never faltered; it performed flawlessly mile after mile, all the way up the mountain!

Final effort achieves summit! Pickup conquers Pikes Peak ... shows why Chevrolet trucks are famous for staying and saving on tough jobs! Talk trucks with your Chevrolet dealer.

Dixon of Whiteflat, Mr. and Mrs. Bill Dunning of Matador, Mr. and Mrs. Joe Head of Rosedale, Mrs. Hubert Ellison of Bovina, Mrs. Melvin Terry and Malcom of Gary, Ind., Mr. and Mrs. Clyde Sparks, Roger and Lynn and Mr. and Mrs. Lawrence Riggins, all of Clovis;

Also, Mrs. J. J. Terry, Mrs. Bobby Collins, Diane and Terry of Dora, N. M., Mr. and Mrs. Artie Dennis of Lubbock, H. A. Stephens of Plainview, Mr. and Mrs. Joe McWilliams, Mr. and Mrs. Charlie Hromas and Darlene, Mr. and Mrs. Sterling Donaldson and family and Mr. and Mrs. Harold Carpenter and Donnie.

HAMLIN MEMORIAL METHODIST CHURCH
W. H. Hardwick, Minister

Undergird Your Life with Faith Service Schedule
Sunday School—9:45 a.m.
Morning Worship—11 a.m.
MYF—6 p.m.
Evening Worship—7 p.m.

The steering committee will meet tonight (Thursday) at 7:30 in the basement to consider preliminary drawings for the new church plant. All members are urged to be present at 7:30, as we will dismiss at 8:30.

Choir meets for practice each Wednesday night at 7:30. Mr. Danforth is doing an excellent job in leadership and the training of this group. We have received our first issues of "The Volunteer Choir" which we will use for our special numbers. We will receive 15 copies of this publication each month for one year.

The Wesley Foundation in Portales is in need of some good calves to feed out or some calf feed to raise their present calves. The proceeds will be used to send our representatives to the Methodist Student Conference in Kansas during December. We will be happy to pick up bundles, bags, or what have you, if you will just call the pastor.

Our services were well attended this past week with 103 in Sunday School and 116 in the morning worship. Please remember that no matter how wet, cold, or disagreeable the weather outside, your Sunday School and church will always be warm and cheery.

Our evening services begin at 7 each Sunday and we invite you to participate in this different type of service. We will be having some special music by various members of the congregation in the form of duets, trios, etc.

Notice to all MYF'ers: Watch the newspaper, your mail boxes, and the church bulletin concerning some very important announcements about our future programs.

World-wide communion will be Sunday, October 6, this year, and will be observed at both the 11 a. m. and 7:30 p. m. services. You are urged to be present for these services.

Card playing is known to date back at least to the 12th century.

Southern Union Offering \$1000 Scholarship

A four-year scholarship worth \$1,000 at Texas A & M College for the 1957-58 academic year will be awarded by Southern Union Gas Company to assist some outstanding Texas high school graduate in continuing his education.

According to Elmer Teel, the company's local manager, students interested in inquiring about the grant should contact E. E. McQuillen, executive director of the Development Foundation at Texas A & M College, College Station, Texas.

The scholarship may be used toward undergraduate work in mechanical engineering, business administration or accounting, and is available to any qualified student lacking financial resources and resides in any Texas county served by the company.

Southern Union provides a total of four undergraduate scholarships at Texas A & M, awarding one new grant annually. Enrolled at the College in the Company's educational program this past year from the Port Arthur District, was Bobby George of Groves.

Women Advised On Social Security

Many women will have an important decision to make when they attain age 62. Under the 1956 amendments to the Social Security Act women are now able to obtain social security monthly payments three years earlier than under the old law, according to John R. Sanderson, manager of the Amarillo Social Security Office.

The amount of the monthly benefit, however, will be reduced for women workers and for wives of retired workers. The amount of the reduction depends on the number of months between the time payments start and the time the applicant reaches age 65. For example, a working woman retiring at age 62 would receive about 80 percent of the monthly benefit she would receive if she waited until age 65. Wives filing at age 62 receive about 75 percent of the amount they may be entitled to at age 65. The percentage goes up every month they wait after reaching age 62. This reduction is permanent even after age 65 is attained. Widows of deceased workers may receive unreduced benefits at age 62. Before making a decision to start getting benefit payments before age 65, a working woman or wife of a retired worker will naturally want to know how long she will be ahead in total benefits paid.

Sanderson said a working woman will be ahead for the first 15 years if she files at age 62, while a wife of a retired worker filing at age 62 would be ahead for the first 12 years. Sanderson pointed out that the decision must be made by the woman. The Social Security Administration will furnish her with all the necessary information, but the actual decision must be made by the individual.

A memorial statue of Izaak Walton will be erected by the citizens of Fort Pierce, Florida, to impress visitors with the excellent year-round fishing found in that locale.—Sports Afield

Two new publications, both dealing with subjects relating to irrigation, are now available from the offices of local county agents or the Agricultural Information Office, College Station, Texas. They are L-355, "How to Estimate Soil Moisture by Feel" and L-358, "Irrigation Siphon Tubes."

There are some 30 active volcanoes on the Pacific side of Central America.

Wolverines Win Third Straight; Whirlwinds Lose

The Texico Wolverines notched their third win of the season as they downed the House Cowboys 12-4 in softball play Friday. The Whirlwinds' win streak ended at two straight as the Cowgirls defeated them 4-3.

The girls game was loosely played as a total of seven errors were committed.

House drew first blood as they produced one run in the first inning on a walk and two throwing errors by the Whirlwinds. The Cowgirls added three more runs in the second inning on three more Whirlwind errors.

The Texico gals then settled down and didn't allow another House runner to score. The losers staged a rally in the third inning on two doubles and a House error for two runs. They added one more run in the fourth on two hits and one error.

Winning pitcher, Janel Hudson, gave up six hits and no walks as her teammates made two errors. Wilma Dotson, tagged with her first loss of the season, allowed only four hits, but gave up four walks as her teammates erred five times. Both hurlers pitched the complete game.

The Wolverines struck early in their game, scoring four runs on five hits and one hit batsman. Jimmy Moore homered with one man on for Texico.

House came back in their half of the first inning to score one run on a walk and a single.

The Wolverines produced another rally in the second, scoring three more times on a home run with one on. The other run came on a single, a walk, and a sacrifice fly.

Texico added three runs to the lopsided score in the top of the third on two walks, an error, and a double.

House gained another run in the bottom of the third. The

What Speed Does To Your Gas Gauge

Although city driving uses up gas like a sponge, highway driving is costly too, if you go too fast. At a steady 40 mph your gas mileage will drop 10% from what you would get at 30 mph. At 60, it will drop approximately 30%; at 80, 50%. Naturally, you can't loaf along a super highway at 30 mph. But consider this: You can save one gallon of gas out of every four by driving at 50 mph instead of at 70. And you will be safer besides.

—CHANGING TIMES.

More than nine million people attended the World's Fair in Philadelphia in 1876 commemorating the 100th anniversary of U. S. independence.

Cherokees formed the largest and most important Indian tribe east of the Alleghanies.

Master chess players have engaged successfully in as many as 14 games simultaneously.

The Great Chicago Fire occurred in 1871, leaving homeless all but about 7,000 of a population of 77,000.

Despite their name, chicken snakes live principally on rats and mice.

During the Middle Ages chairs were symbols of honor and power.

King Charles I of France was known as Charles the Bald.

Chemical industries account for more than 18 per cent of U. S. manufacturing.

Cowboys had two men out before the rally caught fire. The Cowboys scored another run in the fifth as the Wolverines began substituting freely.

For insurance, the Wolverines scored two runs in the seventh on three walks, one hit, and an error. In a last inning chance, the Cowboys produced the last run on a walk and a single.

Jerry Trower went the distance to gain the win as he gave up five hits and three walks. The Cowboys used three pitchers in trying to hold down the score. Thurman James was tagged with the loss. The combined pitching for House allowed nine hits, six walks, and three hit batters.

The Wolverines have an open date Friday, as the Whirlwinds meet the Melrose girls in the Clovis park.

THE STATE OF TEXAS

To any Sheriff or any Constable within the State of Texas—GREETING:

You are hereby commanded to cause to be published once each week for four consecutive weeks, the first publication to be at least twenty-eight days before the return day thereof, in a newspaper printed in Parmer County, Texas, the accompanying citation, of which the herein below following is a true copy.

CITATION BY PUBLICATION THE STATE OF TEXAS

TO: Orion Paul Stout, Defendant, Greeting:

YOU ARE HEREBY COMMANDED to appear before the Honorable District Court of Parmer County at the Courthouse thereof, in Farwell, Texas, by filing a written answer at or before 10 o'clock A. M. of the first Monday next after the expiration of forty-two days from the date of the issuance of this citation, same being the 14th day of October A. D. 1957, to Plaintiff's Petition filed in said court, on the 28th day of August, A. D. 1957, in this cause, numbered 1942 on the docket of said court and styled VELMA RUTH STOUT, Plaintiff, vs. ORION PAUL STOUT, Defendant.

A brief statement of the nature of this suit is as follows, to-wit: Suit for divorce, for custody of the two minor children, Paula Ruth Stout and Brenda Sue Stout, Plaintiff, alleging that she was married to Defendant on June 13, 1947; that said two children issued from said marriage; that Plaintiff and said children have resided in the State of Texas for 32 months and in Parmer County for six months, prior to filing said petition; and that Defendant has been guilty of such excesses as to render their further living together insupportable; and that there are no property rights to be determined; and that Plaintiff is a proper person to have the care and custody of said minor children, as is more fully shown by Plaintiff's Petition on file in this suit.

If this citation is not served within ninety days after the date of its issuance, it shall be returned unserved.

The officer executing this writ shall promptly serve the same according to requirements of law, and the mandates hereof, and make due return as the law directs.

Issued and given under my hand and the seal of said court at Farwell, Texas, this 28th day of August, A. D. 1957. (SEAL) Attest:

A SPECIAL MESSAGE TO GRAIN SORGHUM PRODUCERS

You are being offered a chance to join the Grain Sorghum Producers Association in a combined effort to better your own position in the grain market and obtain a more favorable price for your grain sorghum.

The Grain Sorghum Producers Association has employed a full-time secretary for the organization and has initiated an all-out program of extensive promotion to find new uses and new markets for grain sorghum. Also, the GSPA has two representatives in Washington who meet with the newly formed commodity groups organization that includes wheat, corn, cotton, and other commodity representatives. Our purpose is to secure legislation which will assure equal treatment for grain sorghum as compared to other grains. For example, we think grain sorghum should be treated in direct relation to its feed value as compared with corn in commercial corn producing areas. We are willing to limit our acreage if this is necessary to secure a decent price for what we produce.

In order for us to carry out this program, we have asked all elevators to cooperate by withholding two pounds of each thousand pounds of grain a producer delivers to them. This grain will then be transferred to the Grain Sorghum Producers Association. This will automatically make you a member of Grain Sorghum Producers Association.

Naturally, this program is voluntary. Any producer is not by any means compelled to make this contribution, but we encourage every producer to join this effort for the betterment of the grain sorghum producer.

Two pounds of every one thousand pounds amounts to one-fifth of one percent of the total production. Although this is a small amount, we believe this will make available sufficient funds to carry out the fight for grain sorghum, if every producer will cooperate with this small contribution. This is important to us, the producers, as well as all merchants, bankers, and businessmen in this area.

The Grain Sorghum Producers Association is composed of farmers like yourself who feel that the story of grain sorghum must be told, and that research can uncover new uses for our product. If we all cooperate, we believe that every producer will be benefited by a more favorable price and an extended market.

Sorghum Growers Offer Betterment Plan for Farmers

Parmer County Grain Sorghum Producers Association is again this year offering farmers who depend on grain sorghum for a livelihood a method to cooperate in a fight for more favorable price, according to the group's president, Arlin Hartzog.

Hartzog describes the program as a way to influence legislation and obtain fair treatment for grain sorghum in comparison to other grains. He says the difference in the USDA-sponsored support price of corn and milo is not justified.

Milo has almost the same feeding value of corn—and in some cases exactly the same. It should be supported at a price derived from this comparison, says Hartzog.

The program calls for cooperation of all grain sorghum producers in obtaining funds to carry out proposed action.

The Parmer County Grain Sorghum Producers Association this year has contacted elevators, seeking their cooperation in handling the program of raising funds.

As a producer brings his 1957 grain sorghum to the elevator, the management of all elevators contacted will designate two pounds of the grain out of every 1,000 pounds as a contribution to the GSPA. This will not be done, though, if a farmer objects, because the program is on a completely voluntary basis, Hartzog says.

This two pounds out of every 1,000 is almost insignificant to each producer, Hartzog says. But if every farmer who grows grain sorghum will cooperate with the program, "We believe there will be sufficient funds to carry out a fight to save grain sorghum," adds the president.

Surrounding county farmers are reported favoring the method.

"It looks as though we have

waited long enough before taking steps to better the position of grain sorghum," Hartzog says. "Grain Sorghum Producers were responsible for winning a better price last year, over the protest of Secretary of Agriculture Benson. But another drop in the price support is impending," he says.

Several factors contribute to the unfavorable position in which grain sorghum is at present, according to Hartzog.

Among the main ones are the spreading of grain sorghum production to the corn belt, in a volume never before attained, and the influence which hybrid plants have on the potential production.

Needing prompt attention, grain sorghum research should be carried out to discover new and better uses, and new markets should be developed, Hartzog points out.

The GSPA recently has employed a full-time marketing expert to work toward getting other markets, Hartzog says.

"Farmers are enthusiastic about the plan of contributing this small portion of their grain to the association," Hartzog says. "Every farmer should welcome this opportunity to get someone to go to bat for us."

This year's program differs from last year's in that farmers were asked to donate one-fourth of a cent out of each grain sorghum dollar. In 1955, dues of \$5 were collected from those who wished to join.

This year's program is arranged in a way to encourage farmers to participate. All grain sorghum producers are eligible to become members. Yet, this is strictly a voluntary movement of farmers, who recognize the plight they are in, Hartzog says.

"This gives us a chance to do something for our own commodity. We do not, however, attempt to supplant or replace

any other farm organization," he says. "It is just an effort to secure for grain sorghum a price which will let us produce it."

At the present price, Hartzog stresses it is impossible for a farmer to produce grain sorghum and get any return for his investment in land, labor, water, and supplies.

"This year will bring the unhealthy situation which the GSPA warded off last year. The price support of the 1958 crop will be dropped to an extent that no farmer in this area could possibly make a profit," Hartzog says.

A young organization, the GSPA was formed in a meeting at Amarillo two years ago, with representatives of nearly all the High Plains counties present, as well as those from other states.

In 1955, GSPA included about 55 Parmer County farmers in its membership, and in 1956 the method of solicitation made it hard to estimate the number of members. It is estimated that the membership almost doubled.

Besides Hartzog, officers include W. L. Edelman, Wes Long, and John Renner of Friona; R. E. "Bob" Wilson of Bovina; and Pete Braxton of the Black community.

In Parmer County, the group sponsors a sorghum production contest for FFA and 4-H Club members, awarding a prize to the winners.

Funds from the two pounds per thousand will go to the national organization, Hartzog says. But in case funds are needed locally, the county can have funds returned for its use.

Andrew Carnegie, industrial tycoon and philanthropist, came to this country from Scotland at the age of 10.

Some carpets in Persian palaces have been in continuous use since the 16th century.

Wright Williams, lower left, supervised these braceros in the pulling of the county's first bale of cotton. The workers happily joined in watching the ginning after their work.

Noyle Wood watches as the gin processes the first bale of 1957. As the cotton came from his farm, he naturally has a personal interest in it.

Noyle Wood Gets 1st Bale

Growing Parmer County's first bale of cotton this year was Noyle Wood, Friona farmer, who had the cotton pulled and ginned last Thursday afternoon.

Wood stopped at Chester & Fleming Gin Thursday afternoon and said to Wright Williams, supervisor of braceros, that he thought he had almost a bale of cotton open, and was considering starting to pull it.

Williams replied that Wood could just say the word and he would round up enough hands to pull it. About one hour and a half later, enough cotton was in the trailer for a bale.

Wood farms about four miles southeast of Friona on the old B. L. London place.

Field weight of the bale was 1,930, and it ginned out 557 pounds of lint and 890 pounds of seed. Immediately after the bale was off the press, it was loaded into a pickup and displayed near the corner of the bank.

Chester & Fleming purchased

the cotton at 50 cents a pound, and ginned the bale free. The cotton was planted May 5.

High production, long period of lay, low death loss and good feed efficiency are the "bread and butter" of the present-day egg producer. The modern hen is bred to lay at a high rate, but skillful management must be practiced if maximum profits are to be gained, say extension poultry husbandmen.

THE HAPPY HOMEMAKER

BY JUNE FLOYD

One of the most important attributes to a relaxed atmosphere in a home is a mother who is relaxed. It isn't always easy for a mother to keep things running on an even keel and her emotions under control, but it is certainly a goal worth striving for.

This atmosphere is especially important in a home where there are pre-school age children. A small child's behavior is greatly affected by his mother's disposition. A mother who is nervous and over-anxious about conditions beyond her control, creates an atmosphere that is not conducive to the best behavior in her children.

If you find yourself getting involved in too many tense situations, make a plan for the day's activities and include some time for studying ways of keeping yourself unaffected by all the trouble in the world. Your time will be well spent.

Do you have an old-fashioned fish mold in the house? If so, why not use it for making a Salmon Loaf? This loaf is delicious cooked in any kind of loaf pan and makes a good main dish for a company meal or just a regular meal.

Ingredients:

- 2/3 cup uncooked white rice
- 1 teaspoon salt
- 1 1/3 cups water
- 1 pound can salmon
- Evaporated milk
- 2 tablespoons grated onion
- 2 tablespoons chopped pimiento
- 3 tablespoons lemon juice
- 1 egg, beaten
- 1/8 teaspoon black pepper
- 3/4 cup chopped green pepper
- 1/2 cup water
- 1 ten and one-half ounce can condensed cream of celery soup.

Put the rice, salt and 1 1/3 cups water in a 2 quart sauce pan. Bring to a vigorous boil over a high heat. Turn the heat down low. Cover with a lid. Simmer over this low heat 14 minutes. Remove the sauce pan from the heat but leave the lid on ten minutes.

Drain the juice from the salmon into a measuring cup. Add evaporated milk to make 1 1/3 cups liquid. Flake the salmon. Add the milk mixture, onion, pimiento, lemon juice, egg,

black pepper, and cooked rice. Mix well. Put in a well greased baking dish and place in a pre-heated 350 degree oven.

Bake about 55 minutes or until a knife inserted in the center comes out almost clean. This is a moist loaf and will pull away from the sides of the baking dish when browned around the edges.

While the loaf is baking, make the sauce. Cook the green pepper in the 1/2 cup water about seven minutes or until tender. Stir in the celery soup. Season with salt and pepper if desired. Heat until very hot. Add a small amount of water until the sauce is the desired consistency.

Allow loaf to stand about five minutes after removing from the oven. Run a knife around the sides, place a large platter over the pan and invert to remove the loaf. Garnish with pimiento strips, lemon wedges, hard boiled eggs or parsley.

If a fish mold has been used, decorate with an olive slice for the eye and green pepper or pimiento strips for the fins. Serve with the hot celery-green pepper sauce.

There is a new liquid detergent on the market that has been developed especially for washing lingerie with elastic sections. According to the report we read, it is also wonderful for keeping these articles white.

Read somewhere that education is one thing everyone gets on the installment plan. Every homemaker should include in her daily schedule some worthwhile reading for relaxation and education.

Something we never knew until today. A pimiento is the fruit of a certain mild bright-red pepper of Spain, used as a vegetable and for stuffing olives. Then when pimientos are added to cheese, you have pimiento cheese. Wonder why in the mixture you drop the second "i"?

Go to church Sunday.

Range Management — Nature's Method And Man's Method

Old Mother Nature is a good range manager. The evidence that this is true can be seen in the picture of early range conditions (before white men came on the scene) that has been drawn from old records and eye witness accounts by the old timers. In general, our ranges are not as productive as they were under virgin conditions, sometimes extremely so.

This is mute evidence that man's early method of range management has been found lacking. No event, large or small, just happens; it is caused by some preceding condition. At times the cause for some particular condition may be hard to find, but usually close observation with unprejudiced evaluation will show the cause.

If nature's method of range management is sound and man's early methods have been found lacking, let's examine the two together and see where they differ. If we see where they differ we will automatically have the remedy.

In the early days, forage for grazing here in the Panhandle was plentiful. Accounts given by the early explorers show that grazing pressure was also fairly heavy. Millions of buffalo roamed the prairies. Antelope and deer were plentiful. To prevent these grazing animals from increasing to the point where the ranges would be overstocked, nature controlled everything with an iron hand. This rigid and sometimes ruthless method of control is now known as nature's balance.

Everything in nature, whether plant or animal, is dependent upon several other things. For instance, plants are dependent on soil, rainfall, temperature, length of growing season, and the opportunity to grow unmolested for a long period to achieve their life cycle. Animals are dependent on plants or other animals for food. They are also dependent on water, temperature and other factors. All of these things combined make up what is known as a habitat.

Eliminate any part of a given plant's or animal's habitat and you will eliminate that plant or animal. Decrease any part of a given habitat and the plant or animals dependent on that part will be decreased in the same proportion.

Let us now look at nature's balance as it existed in the Texas Panhandle when the Indians were in possession. We know that animals were plentiful that used the grass for food. What was the thing in the grazing animal's habitat that was limited and therefore limited the number of animals? In those days as now, drought periods were frequent and during these droughts many water holes dried up and the dependent animals had to move on to other areas or die. Nature would not compromise.

When the animals moved, the grass, although limited in the amount of water to grow on, was left untouched until the drought was over and water holes filled up again. These periods of

natural deferment enabled the grass to hold its own and maintain a vigorous condition.

When the rains came again it was able to respond quickly. The animals would then move back in as the water holes filled and they always found plenty of grass for food.

So here we see nature limiting the number of grazing animals by limiting the amount of drinking water. Of course, there were other controls as prairie fires caused by lightning or set by Indians, meat-eating animals, disease epidemics, or severe weather following droughts. All of these were tools used by nature to keep the balance.

From this study of nature's method of range management two things are obvious: Nature forces grazing animals to vacate certain areas by limiting the amount of drinking water or by killing off the animals, thus forcing a period of deferment. This forced deferment kept the grass in the healthy vigorous condition that our forefathers found when they began to move westward.

Let us look at man's method of range management. Our forefathers came on the scene and found nature's balance in control. Any area they went into, whether desert or otherwise, was supporting all of the plants and animals that would keep the balance under existing conditions. In the case of the Texas Panhandle they found grass in abundance with plenty of wild game.

In order to make room for their livestock, the buffalo and other wild game had to go. In due course the buffalo were all exterminated and with them the Indians also. Other game was either exterminated in local areas or reduced to whatever number could adapt themselves to man's influence. The principle of nature's balance was still at work.

The next obstacle man ran into was drought. Many times the early cattlemen drove their herds away, leaving abundant grasses because there was not enough water, thus the grass was deferred again and nature's balance remained in control. But the cattleman was given the ability to reason and to make decisions to the conclusion that here was something for him. Therefore he came to the country where there was plenty of feed for his livestock with drinking water limiting the use of the feed.

In due course wells were drilled, ponds were built, deep

SOIL CONVERSION

"Poor Old Fellow, He Outlived His Farm"

Soil Conservation Society of America

springs were developed into water holes. This served to extend the grazing use of areas where there had been previously periods of natural deferment. Thus forage became the limiting factor where once it had been water and nature's balance was no longer in complete control of the situation.

Nature still had another control that was to be overcome by man. This was the fact that some grasses are not eaten by livestock when they become dormant in dry periods or in winter. This condition caused the cattle to refuse to eat much of the dormant grass, thereby leaving enough litter on the ground to protect the soil and the young grass seedlings and shoots.

To overcome this obstacle, the cattlemen began to feed protein supplements to his cattle, thereby inducing them to eat dry forage which had previously been left as soil and grass insurance. In addition the practice of burning range land in the winter so cattle could get to the early spring growth quicker became common. Soil lost its cover and began to erode and the grass plants themselves began to weaken. Thus nature's balance had shifted again and the grass and soil had suffered a severe blow.

Let us now assume a range in virgin condition and apply the principles of nature's and man's methods of range management. First, in both cases there is plenty of grass. Second, in both cases, we have grazing animals, wild animals in one instance and domestic animals in the other, to graze that grass. Third, in both cases, we have drought periods occurring. Fourth, we have natural periods of deferment occurring under nature's method and increased grazing pressure and continuous close grazing under man's early method.

With the two methods being parallel in three instances and widely different in the fourth, the reason that our range condition has declined is obvious. We have simply failed to consider the grass which is the foundation of the livestock industry, as an exhaustible resource. When grass becomes the limiting factor our improved breeds of livestock and our water development lose their importance. Nature again will not compromise. If we upset nature's balance we must suffer the consequences.

When God gave man the ability to reason for himself, he also gave him the responsibility of using that ability. Through necessity we have learned a lot about grass and range management; more remains to be learned.

THE PARMER FARMER

BY W. H. GRAHAM JR.

If we were president of a large farm organization, one of our "pet projects" would be to encourage every farmer to at least have his name neatly lettered on his mailbox, and if possible to have it displayed prominently someplace else on his farm so that people would know at whose place they are looking.

Both the Farm Bureau and the Farmers Union have encouraged farmers to tack up emblems that fall into the category we speak of, but the signs they hand out advertise the farm organizations much more than the individuals.

What we like to see is a neat farm with a sign, "The John Browns Live Here" staked out in the front yard or in some other prominent place. We also think it's a good idea for the farmer to paint (do it neatly or not at all) on his irrigation well houses and on concrete tile vents, his name.

This is not vanity. It is, in fact, information that everybody except maybe the next door neighbors—wants and needs to know. What a sign with a man's name means is not "I'm John Brown and I'm Hot Stuff," but rather, "You're Looking at John Brown's Farm and He's Proud of It."

Farmers as a group are becoming more conscious of the need for promoting the products they market. They should also recognize the need for self-promotion. Seldom have we been more impressed with a farm than when we saw one in the Texas Rio Grande Valley where the owner kept everything neat and trim, did his farming well,

and hung up a sign near his front door to tell the world that it was he who was doing such a grand job of living a full rural life.

The directories along highways of several area communities that have appeared in recent years are a good start, but they're just a step in the right direction.

We'd like to see every farm owner in the Parmer County area so proud of his place he wants to tell the whole world that it's his.

Business booms come and go, but the one that seems to have gone kerflooey lately is cloud-seeding. Farmers have been vitally interested in the intriguing subject ever since it was popularized about 10 years ago, because they were affected directly and indirectly in so many ways.

But we'll bet it's been six months at least since we've so much as seen an article on cloud-seeding. And we read lots of newspapers and farm magazines.

All Chopin's works were written for or with pianoforte.

Before chicle came into use tree resin was used for chewing gum.

Carrots Doing Good

The 1957 carrot season is about one-third finished, according to John O'Haugherty, sales manager of Friona Growers and Shippers, Inc. But a lot depends on the date when frost comes to the area, he adds.

O'Haugherty reports three carrot growers have harvested all or part of their crop, with the average yield being good, because they were affected directly and indirectly in so many ways.

Considering this, O'Haugherty says with assurance that the carrot crop is netting farmers considerably more money than did potatoes.

Growers who have had carrots processed at the Friona shed as of early this week are Bob Jones, Kenneth Neill, and Earl Lance. Friona Growers has also packed other carrots from non-members.

"I would estimate the average yield at eight tons per acre," O'Haugherty says. "The range is between six and eleven. But the plots that produced only six tons were of above average quality, offsetting the low production," he says.

Make a Better Cotton Crop And You Make More Money!

1. Defoliate With Shed-A-Leaf.	2. Wait. Kill Plant If No Freeze.	3. Harvest All-Stripper For More \$\$.
--------------------------------------	--	---

Modern developments in the field of agricultural chemicals have finally found the answer to the problems of the High Plains cotton grower: How to take best advantage of a short harvest season.

First, get rid of the leaves with defoliant, which lets the sun shine on the bolls, producing more and better cotton. It's practically trash-free. Then, if a normal freeze does not occur, kill the plants with pentachlorophenol. You are then assured of ideal harvesting conditions. ELIMINATE HAND PULLING. USE MECHANICAL STRIPPERS. INCREASE PROFITS. This is a sound practice and was tried successfully by several area farmers last year. We'll gladly give you their names. They are repeat customers this year! Call on us for more details.

NEWS FROM THE FARM BUREAU

By **RAYMOND EULER**

We hope you will keep Monday night, October 7, in mind as the night for Parmer County annual Farm Bureau convention. Cotton John will be there to speak to you, and there will be items of great interest discussed and decided upon. Five directors will be elected, as well as a president.

Remember that these are the men charged with carrying out policies decided by you, throughout the year, and be there to cast your ballot for the ones you believe best qualified for the office. Vice-President Jack Patterson and the nominating committee met Monday night to prepare ballots with proposed nominees for these offices. Nominations will be welcomed from the floor before any voting takes place.

Harry Hamilton and President Kaltwasser, along with the resolution committee, are also meeting this week to prepare resolutions for your discussion and vote on matters of vital interest to agriculture within the next year.

One of them concerns proposals by the Texas Research League to discontinue expansion of the Farm to Market Road program. There is evidence that moves may be made in the called legislative session this fall to get this legislation passed.

If you are a Farm Bureau member, be on hand to give your organization strong opposition to any such legislation if you think we need more paved rural roads. If you are not a member, join right now, so you will have a vote. Another subject of real importance concerns the future of Rural Electric Cooperatives in Texas.

For just ten dollars a year, and a little time, farmers can, through Farm Bureau, defeat the efforts of some private interests to deprive farmers of their rural electric services. Remember that this portion of the program would affect your rural telephone system finally, too.

If you do not favor extension of the minimum wage law to

A yearly harvest scene is being enacted again this month, as custom combine operators move their machines in from all over the country to help cut a mammoth grain sorghum crop. Combines are chained to trucks for quick transportation.

cover your farm operations (at least \$1.00 per hour for eight hours, time-and-one-half for time) you'll have opportunity to say so with real strength through Farm Bureau, the organization that has spoken against this extension successfully up to this date. More organized voices make better insurance of your freedom to hire, and if necessary, fire farm employees.

Consider this: "Open rebuke is better than secret love." Proverbs 27:5.

In the ancient world China was known as Cathay.

2,000 Visit Station

Close to 2,000 visitors attended the first field day at the High Plains Station of the Texas Research Foundation at Halfway last week. Tours of the station started at 1 and continued until 5.

Seven stops were made on the tour where members of the staff of the High Plains Station, the Texas Research Foundation, and the U. S. Geological Survey explained the research in progress. County agents and Soil Conservation personnel served as guides for the tours.

Thirty-one Lubbock County firms presented checks totaling \$9,329, adding to the Lubbock support of the station for 1957. After the tours, the visitors viewed the latest in farm equipment displayed by implement dealers in the High Plains area.

Dr. T. C. Longnecker, head of the station said, "The regional council representatives of the 19 counties active in the organization of the station and the High Plains staff join to express appreciation for the interest shown by the large number of visitors coming to the first field day."

Many of the visitors commented upon the extent for research under way at the station, saying they did not expect so much to be started since the station had only been in operation since Jan. 13, 1957.

American explorer Kit Carson was in charge of an expedition that drove 6,500 sheep from New Mexico to California in 1853.

Field Day Slated

The annual field day of the experiment station at Lubbock will be held October 8. Farmers and businessmen are invited to attend. The program will begin at 9 a. m. when tours will be made in tractor-drawn trailers under the guidance of county agents to view the experimental plots and exhibits of latest developments in agricultural research.

In the afternoon, following a lunch furnished by a catering service at \$1 per person, the highlights and new developments at the Lubbock station and from outlying tests conducted at 13 locations on the Southern High Plains will be discussed by personnel of the station.

The visitors will have opportunity to view the influence of water management, different levels of irrigation, and fertilization on the yield and quality of cotton and sorghum hybrids, and special crops such as soybeans, sesame, and castor beans.

Some of the latest developments that will also likely interest farmers include the "W" planter with press wheel attachment, production of native grass seed, control of nematodes, insects and plant disease.

In addition, information will be available on the influence of fertilizers, cotton burrs, crop residues, and cropping systems including legumes on the yield of cotton and grain sorghums under irrigation and also under dryland conditions.

Studies on simulated hail damage, dates of planting and performance of leading cottons and sorghum varieties also may be observed.

Go to church Sunday.

Parmer Countians At Lubbock Meet

Attending the District II Farm Bureau policy development meeting in Lubbock last Thursday from Parmer County were Mr. and Mrs. Gilbert Kaltwasser, M. T. Glasscock, Harry Hamilton, Jack Patterson, Donald Christian, John Henderson, Mr. and Mrs. L. F. Bruns, and Mr. and Mrs. Raymond Euler. Mrs. L. L. Norton and Mrs. Herman Gerles arrived with PCFB's Queen, Miss Wilma Norton, in the afternoon.

Approximately 100 Farm Bureau leaders participated in discussions of legislative and other factors affecting the future of farmers. Gene Leach, TFB legislative director, gave a brief report on FB activities in Texas and national legislatures this year.

Bills of importance to agricultural folks were those regarding surface water development projects, farm-to-market roads, brucellosis control proposals, egg grading law, truck load limits, school fund handling, rural electrification, minimum wage law extension proposals, and others. Hub King, TFB director of District II, acted as chairman of the meeting.

A banquet was held in the evening, devoted primarily to membership work in Farm Bureau. Millard Shivers, TFB organization director, conducted a "kick-off" drama, in which county membership chairmen participated. Speaker of the evening was H. W. Robertson, organization director of Arkansas Farm Bureau.

At eight o'clock, in the O. L. Slaton Junior High School auditorium, the district queen contest was held, Miss Wilma Norton representing Parmer County in competition with ten others. Winner of the contest was Miss Copley of Muleshoe.

Following the Lubbock meeting, directors and officers met in the home of President and Mrs. Gilbert Kaltwasser to discuss means of getting increased membership and support for improving farm legislative activity in Austin and Washington. They expressed particular concern over recent threats to the farm-to-market road program and REA in Texas.

Jack Patterson, vice-president and membership chairman, outlined plans for urging renewals and enrollment of new Farm Bureau members in Parmer County.

Chamber music refers to that particularly designed for performance in a room or small hall with only a few musicians.

Cotton Defoliation Interest Picking Up

Cotton is late on the Plains this year, and Parmer County area farmers, anxious about approaching freezes, are casting about for practical ways of speeding up the maturity of their crop.

One of the avenues being looked into this fall is the use of defoliant and desiccants—a fairly recent chemical development in agricultural technology.

The idea in this new practice is to use a "semi-fatal" dose of chemicals to knock the leaves off the plants and let sunshine in to ripen the already-developed bolls. These chemicals, which are called defoliants, don't kill the entire plant, but merely make the leaves drop off.

Later, it sometimes is desirable for farmers to return to their fields with an application of an out-and-out plant poison, called a desiccant. This spray kills the plant entirely and all growth is immediately stopped. Machine harvesting can then be started. More often, desiccants are used when frost dates are later than normal. Frosts have the same effect as desiccants.

Defoliants should be applied at least 35 days after the period of maximum flower load to permit the best staple length development. Applications usually come two to three weeks before intended picking dates on the High Plains. When 50 percent or more of the bolls are open, it is safe for most defoliants to be applied.

When it is practical to use desiccants, farmers can benefit from an earlier harvest and have less weathering of the fiber. They also can sell their crop on an earlier market. Desiccants can be applied any time after 90 percent of the bolls are open.

In addition to speeding up the harvest, farmers are looking into defoliants as ways of reducing or eliminating hand labor costs. It is customary to now hand-pull early cotton once or twice for area crops. Laborers select the cotton that is ready earlier, generally called the "bottom crop."

This early cotton is nearly always better in grade and bene-

fits from an early market, but the cost of hand-pulling must be subtracted. Farmers are now hoping that by knocking the leaves from the plants they can smooth out maturity dates of the bottom, middle, and top crops and then harvest the entire field with stripping machines—something the topography of the Plains lends itself well to. Ridding the plants of the leaves also gets rid of much of the trash usually accumulated under machine harvest conditions.

Change Wheat Laws

The Feed Wheat Law which was signed by the president August 28, provides that farms on which there is no wheat allotment, may, under certain conditions, have as much as 30 acres of wheat planted for harvest in 1958 without a marketing quota penalty, according to Prentice Mills, ASC office manager.

If a farm operator desires to plant 30 acres of feed-wheat on a farm, he must sign an agreement prior to October 15, 1957.

The law further provides that if an operator enters into such an agreement, that no more than 30 acres of wheat may be raised on the farm and that the wheat produced must be used for feed, seed, or human food on the farm, where produced. None of the wheat crop on such a farm may be sold, or exchanged and none of such wheat will be eligible for price support.

If the agreement is violated, regular marketing quota penalty provisions will apply. Agreement forms and further information are available at your ASC Office.

Wheat growers should note that a 20 cent per bushel discount from the applicable support price shall be made for the varieties of wheat which have been named as undesirable and which are tendered for price support under the 1958-crop wheat price support program. It has also been determined that there will be no protein premium offered for any of the undesirable varieties.

Undesirable varieties of hard red winter wheat are as follows: Blue Jacket, Chiefkan, Cimarron, Early Blackhull, Kankang, New Chief, Pawnee Sel. 33 Purkof, Red Chief, Red Hull, Red Jacket, and Stafford.

Tours Booked

Special county-wide tours of farms where 4-H Club boys are participating in the annual cotton and grain sorghum growing contests are now underway. The first of the tours was held Tuesday, and the contestants in the Bovina area were visited.

Thursday of this week, boys and boosters will be calling at farms in the Farwell area. Clubbers who will be up for inspection include Alan Busbice, Jerard Gober, Barry, Jerry and Johnny McCuan, and Scotty Turner. The Farwell tour begins as school dismisses.

The final laps of the tours will be held Saturday, starting at 8:30 a. m. in the Lazbuddie community; and next Saturday (October 5) at Friona, beginning

Edelmon Cotton Grower Delegate

W. L. Edelmon, representing the Plains Cotton Growers, left for Washington, D. C., Tuesday morning to attend a national commodity group meeting to help formulate an over-all farm program to be presented to congress in January at the opening of the 1958 session.

The meeting is aimed at getting ideas from all commodity groups in order to get a unified effort from all agriculture for a farm program that will provide for all phases of agriculture.

Others from this area who are attending the meeting include R. G. Peeler of Hereford, president of the Grain Producers Association, and Frank Moore of Plainview, secretary.

Edelmon will also represent the American Cotton Producers

Associates whose headquarters are in Memphis, Tenn. He is a member of the national board of directors as well as a member of the executive committee of that organization.

The American Cotton Producers Associates presented a bill to congress which would provide for a dual allotment plan with all cotton selling on the world market and provide for an equalization payment on the domestic allotment bringing that portion of the producer's production to 92 percent of parity.

The national organizations of cotton mills, shippers, warehousemen, ginners, crushers, and cotton exchanges are supporting the American Cotton Producers Associates bill, which has been placed on the congressional calendar for January 15,

1958. "The success of the export sales program for cotton has made it necessary to provide for expanded production of cotton in 1958 to supply the world demand for American cotton. The world price of 27 cents has halted the expansion of world synthetic production and is putting cotton back into business. A stabilized program for cotton is needed to make the demand for cotton to continue to grow in proportion to world population trends," Edelmon said as he left for the Washington meeting.

He plans to return to Friona Friday.

In the East Indies a candy is a measure of weight equal to 493.7 pounds.

Canada and the U. S. are separated by the longest international boundary in the world without fortification.

It is generally believed there has never been a time, including the present, when the world was entirely free of cannibalism.

Bringing smiles to faces of cotton farmers is the slow, almost timid appearance of open cotton in area fields this week. A warm fall sun has hastened maturity of this year's late crop, and growers are crossing their fingers for continued good weather which will be essential if the crop turns out well.

Cotton Does Well Under Fall Sun

Continued sunshine and low humidity readings have contributed favorably to development of the Parmer County area cotton crop during the past 10 days, a check showed this week.

Farmers were breathing some easier, although they know they are living on "borrowed time" with the latest crop in several years. Provided the weather holds favorable, a good harvest is forecast, because plants are excellently loaded. However, wet weather and a sudden cold snap could seriously reduce the yield and quality.

Grain sorghum is coming in by dribbles, as most farmers cut samples from their fields and find them too high in moisture content. Harvesting of early maturing varieties should pick up considerably in the near future, however, even though no frost has occurred.

Fall planting of wheat is

moving ahead on schedule as the weather continues ideal for outdoor work. Irrigated wheat growers are giving more attention to this crop than ever before, and are expected to set a record in the use of commercial fertilizer.

Sudan is being cut and shocked, but very little movement to market is noticeable.

Chippendale furniture bears the name of its creator, an 18th century English cabinetmaker and woodcarver.

Mortality rate of persons contracting cholera is 30 to 80 per cent.

The Hensons

Farwell, Texas

Chamber Makes Decision on New Highway Route

(Continued from Page 1)

opinion that it could. When four Chamber representatives talked with a district highway official several months ago, it was evident that the engineer's plans were to bypass Farwell several miles east of town and tie the road in with Highway 60, via a traffic exchange, before entering into New Mexico.

Rather than be bypassed altogether, the action by the Chamber is an effort to avoid such a situation. It was pointed out at previous meetings that having the route continue on its present course was unfeasible for several reasons, all which have been explained before.

The second reason for wanting the route designated now is to settle the question which has been hindering various types of retail development in the area. It was said that if the route is designated, people wishing to construct tourist courts, service stations, or other businesses could begin making plans.

Too, it would stop farm development, such as new buildings and irrigation wells on the property which the route will take.

Following the road discussion the Chamber voted to sponsor

Christmas lights on Main Street for the coming holiday season.

Also, a discussion was heard on fire insurance rates and the need for a Farwell volunteer fire department, and a sufficient number of members belonging to the organization.

Otis Huggins headed this discussion and read a letter that was recently received by the city on the key fire insurance rate. Huggins asked the Chamber members what steps they would suggest in regard to a local fire department.

The letter stipulated that Farwell would have to have from 12 to 15 members, residing within the city limits of Farwell and on hand 24 hours a day. (Other requirements listed by the state insurance board are carried in another story elsewhere in The Tribune.)

Presently in the Texico-Farwell Fire department, Farwell has about nine members.

The Chamber passed a resolution that the Farwell City Commission appoint a fire chief for Farwell and that a volunteer department be organized separate from Texico. It was not a request that the department be separated from Texico, but only a suggestion that Farwell form its own organization to meet with the approval of the state insurance board. Just how the Texico-Farwell group will function, and whether or not they will meet separately will be worked out by the two groups after the

Farwell department is organized.

Huggins said that the members of the Twin City organization preferred to stay together and function as one unit.

At the close of the meeting several Chamber members volunteered to join the fire department, and also to assist in getting more members.

Letter Explains Key Rate Situation In Farwell

(Continued from Page 1)

equipment and comply with several other conditions before a lower key rate can be acquired.

In his letter to the mayor, Hawley listed the following steps which will have to be taken to lower the key rate:

There will have to be at least 12 to 15 members of the volunteer fire department who live and work in the city and will be in the city limits 24 hours a day.

The local department will be required to have a minimum of not less than 20 men in the organization, with a minimum of 17 men present at each drill. Drills must be conducted at least twice each month. Also, monthly reports are to be made to the state office on each drill and all other department activities.

Too, it is recommended that the fire marshal and two firemen attend the Firemen's Training School at College Station each summer.

It was pointed out in the letter that if all the above conditions are not met, the city will be placed in the unprotected class with a key rate of approximately \$1.00.

The engineer further stated that if Farwell was to have any considerable reductions, it would be necessary to improve the protection available to citizens. Among those listed were as follows:

An additional fire truck (a 500 GPM service unit operating at a head of 150 feet), and an extra 800 feet of 2 1/2 inch hose.

The big item listed concerns improvement on the present water system. An excerpt from the letter read:

"As you know, the present wooden elevated tank cannot be recognized from the fire prevention standpoint and we recommend that it be replaced by a standard steel elevated tank of not less than 100,000 gallon capacity, on a tower of at least 100 feet from

the bottom of the tank to ground level to be fed by not less than an eight inch main from the pump station and into the center of the business district."

The engineer enclosed a map with the letter, noting changes which could be made in the distribution system and eventually cause a 29 cent reduction in the key rate.

Steps are already being taken to meet the stipulations of the first part of the letter, but as for the truck and improvements to the water system, there are no present plans for improving these at the present time.

The mayor said that a new truck would hardly seem a worthwhile investment since plans are for the Texico and Farwell groups to work together. At any major fire, trucks from both towns would be on hand.

The water system is privately owned and nothing has been said about the situation regarding it.

In comparison to Farwell's present key rate of 80 cents, Bovina's is 75 and Friona's is 41. Elsewhere in the Panhandle there are towns considerably below Friona's which indicates there are many improvements which can be made on the key rate.

Langford Baby Has Many Grandparents

Jacquelyn Lynell Langford, born last week to Mr. and Mrs. Leon Langford of Pleasant Hill, just about sets a record with regard to grandparents. She has ten living grandparents.

Maternal grandparents are Mr. and Mrs. H. H. Kelso of Bovina and paternal grandparents are Mr. and Mrs. Elmer Langford of Pleasant Hill. Great-grandparents are Mr. and Mrs. Fred Barker Sr., Friona, Mr. and Mrs. J. M. Langford, Hereford, Mrs. Maude Kelso of Canyon, and Mrs. Beula Gollhugh of Amarillo.

She is the first grandchild for both the H. H. Kelsos and the Elmer Langfords and also the first great-grandchild for Mr. and Mrs. Barker.

With her birth, a cycle of 110 years also is celebrated. Her great-great-grandfather, B. F. Barker, was born 110 years to the day before Jacquelyn was.

On the Island of Jersey off the coast of France, Jersey cattle have been bred pure for more than a century.

ZERO LOCKERS

Longhorns Hook Leopards, 52-6

(Continued from Page 1)

fumble on the New Home 26. Early in the second quarter, Vanlandingham plunged over from the two for his second score of the night. Jerry Koelzer ran the extra point to give the Longhorns a 19-0 lead.

Later in the period, Bobby Blackburn, a junior back, got off the longest run of the night from scrimmage, scampering 48 yards for a TD. Ronny Ivy ran the extra point.

Vanlandingham scored again before the quarter was over, plunging over from the two yard line. This touchdown also came after recovering a New Home fumble on the 23. Ronny Briggs ran the point after, making the halftime score 33-0.

As the second half got underway, the Longhorns lost no time in taking advantage of another Leopard bobble, this time end Dean Watkins intercepting a pass on his own 35 and dashing 65 yards for a TD.

New Home Scores
Taking the kickoff on about the 10-yard line, Joe Milligan returned the ball over 80 yards for New Home to the Lazbuddie eight. Two plays later Barney Castro ran over from the four for the Leopards only score of the night.

Later in the game Castro intercepted a Lazbuddie pass and returned it 80 yards for a score, but a penalty rubbed out the play and the Longhorns regained possession of the ball from the point of the pass, the 20-yard line.

Just before the third period ended, Lazbuddie scored its seventh touchdown of the night, Barney Carter going over from

100,000 Payments Made To Disabled

More than 100,000 disabled workers have been notified that they received their first checks during August, John R. Sanderson, manager of the Social Security office in Amarillo has announced. Most of the checks were delivered August 3.

Social Security benefit checks for any month are ordinarily delivered on the third of the following month. Because of the large number of disability applications, Sanderson said, it was impossible to get checks out on August 3 to all those entitled to disability benefits for the

month of July. Disabled workers whose applications can be approved in the near future will receive their first checks in coming months.

The tempo of the harvest season is picking up and that means farmers and their families will be exposed to more accident hazards. Farm accident rates will climb warns the Texas Farm and Ranch Safety Council unless safety rules are observed, especially those dealing with traffic.

At one time Sir Winston Churchill held a union card as a qualified bricklayer.

Fertilization, according to E. M. Trew, extension agronomist, is the main practice to emphasize in the fall care of lawns. The fertilizer application should be made at least a month before the first expected frost and a complete fertilizer with a 2-1-1 or 1-1-1 ratio should be used.

Carol originally meant a song accompanied by dancing.

U. S. census has been taken every ten years since 1790. Some \$500,000 worth of chrysanthemums are sold annually in the U. S.
