# Four Indicted By Grand Jury

W. L. "Bill" Broadhurst was a welcome visitor at The Tribune offices the past week. He is chief hydrologist of the High Plains Water District, at Lubbock.

Having Bill call, gave us a first-hand opportunity to discuss some things with him that we have had on our mind for a good while now.

One of the most persistent stories about the unknowns of our underground water reservoirs is the one about there being plenty of water under the triassic or "red-bed" formation—which generally is considered the "bottom" of our water-bearing sand stratas.

This story keeps popping up now and then, here and there, and recently it was given a big boost by an article appearing in the Hereford Brand.

The news story dealt with a 107-foot-deep test 15 miles northwest of that city, and the results of the test were certainly encouraging, to say the least.

"Good, fresh water, rose to within 315 feet of the surface in the well," read the story. It did not actually state whether a pump was placed in the well, so no definite information on the strength of the water was available.

Boardhurst, who is intensely interested in water conservation, dimmed our hopes, however, when he said, "The chances of that well being a good irrigation producer are a thousand to one."

He went on to say that in the first place, the "redbeds" are several thousand feet deep, and it is not possible that the test would have penetrated them. He theorizes that the test may have hit a sand pocket in which water was stored, but he discouraged hopes of ever getting much production from it.

Occasionally we hear a story from some of our acquaintances about logs coming from wildcats in the area, in which there turns up the mention of water-bearing sand stratas at deeper depths than the Ogalalla.

If our memory is correct, there was a wildcat north of this community not very many years ago, and we have heard people say that the drillers experienced great difficulty in sealing off the water "below the redbeds" in this well.

However, information is only fragmentary at best, and we hardly know what to accept as factual. We only wish that some of these stories could be authentic. Perhaps we would then breathe a little easier.

And wasn't there a deep irrigation test up around Ranchvale a couple of years ago? It proved a failure, didn't it? We hear both good and bad reports on this subject.

Because it is his business, Bill is loaded with facts and figures about our underground water storage. We were most happy to hear him say that as best as can be determined, there is more stored water in the southeastern part of Parmer County than any other place in the 13-county district.

In fact, all of Parmer County can be classed as having an abundant supply, compared with some of the eastern areas. He said our sands usually run somewhere around 200 feet in thickness. This compares with as little as 20 feet in some of the older developed areas to the east.

Knowing that we have much water from which to draw should make us all grateful, but it certainly should not encourage wastefulness. Perhaps that is exactly what it is doing, though.

One of our pet peeves is seeing irrigation water in the bar ditches, and perhaps even across roads in places. It makes us plain mad to have to detour a big mud puddle—not because we resent the inconvenience—but because we are disgusted with seeing farmers waste our wealth.

We have never lived on a farm, and have never set an irrigation tube in our life. And we realize that elimination of all waste when irrigating is nearly an impossibility, but we will stand our ground and say that as much as one-half or even more is sheer thoughtlessness.

High winds, tumbleweeds, short ditches, gophers, and a dozen other obstacles all make it tough to keep the water in the field, but we'll bet our Sunday briches that if the farmers were told they were using the last of their water this year, a drop wouldn't go into the bar pits!

For the first time in history (so far as we know), the home staff of The Tribune is closing up the place and going to a press convention.

We hope that being gone this weekend will not inconvenience any of our readers. Also, we hope that hurrying up a bit doesn't hurt this week's paper too much, or cut down on next week's.

There's a feeler or two out for another well-rounded youth recreation program here this summer. We certainly endorse the movement.

Members of the Parmer County grand jury Monday returned indictments against four individuals to open the new April term of district court.

The indictments: Marshall E. Searl, 42, of Pampa, charged with theft, pled guilty and waived a jury and the three-day period of notice, and was immediately tried in Judge Bills' court.

He received a two-year probated sentence for stealing a pickup from G. K. Goulding of Muleshoe, Dec. 10. Searl was recently picked up in Pampa.

The reason the case turned up in Parmer County was because the offense occurred in Pampa.

Roy Ferguson, Littlefield, was indicted for defrauding a worthless check which he is alleged to have passed to Joe Helton, Ferguson, who is out on bond, has not had his case set as yet.

The criminal jury is scheduled to begin in June.

Howard Hart, 49, a resident of California, was indicted for burglarizing the farm homes of William Hascliff, E. E. Miles, and C. W. Dixon.

The offenses, which are purported to have occurred during a two-week period in November of 1954, may be on the books for some time, as Hart is now doing time in a California penitentiary.

Likewise in a California pen is Lester Edward Brown, 33, of Modesto, Calif., who is indicted on a charge of forgery. He is charged with having given a check to Fred White of Friona, in the amount of \$96, on Dec. 22, 1954.

## Six Cases Fluke In District Court

Six civil cases, for which a jury panel of 60 persons had been assembled, "fluked out" before they could get into the courtroom Monday, and Judge E. A. Bills dismissed jurors until further notice.

Five settlements were made out of court, and one case wound up non-suit when the plaintiff dropped the complaint.

Jurors, witnesses, attorneys, and spectators seemed to be in a jovial mood about how swiftly things had moved along, and some laughingly said, "Everybody took one look at those women."

## THE JURY BOX BRIGHTENS UP

Here are nine of the first ten women ever summoned to serve as jurors in Parmer County. The ladies making history Monday in Judge E. A. Bills' district court were (back row) Mesdames Claude Rose, Dan Ethridge, Joe Jesko, T. W. Fuller; (front row) J. P. Macon, Woodrow Lovelace, G. Cranfill, Roy Clements, and Willie Steinbock. They attracted quite a bit of attention in the courtroom.

## Sesame Promoter To Be in Bovina Tomorrow Night

Farmers in and around Parmer County will have a chance to hear Robert S. Parker of the Texas Sesame Seed Growers, Friday night at the Legion Hall in Bovina.

The program, which will feature a film on methods of producing sesame, will start at 8:30, and all interested are invited to attend.

Sesame, an oil-seed crop, is gaining popularity in Plains counties primarily as a result of acreage controls and lower prices on other crops. It has been produced in Texas on a commercial scale or only three years.

Six reasons are listed by Sesame boosters for this crop:

## Three Car Wrecks During Past Week

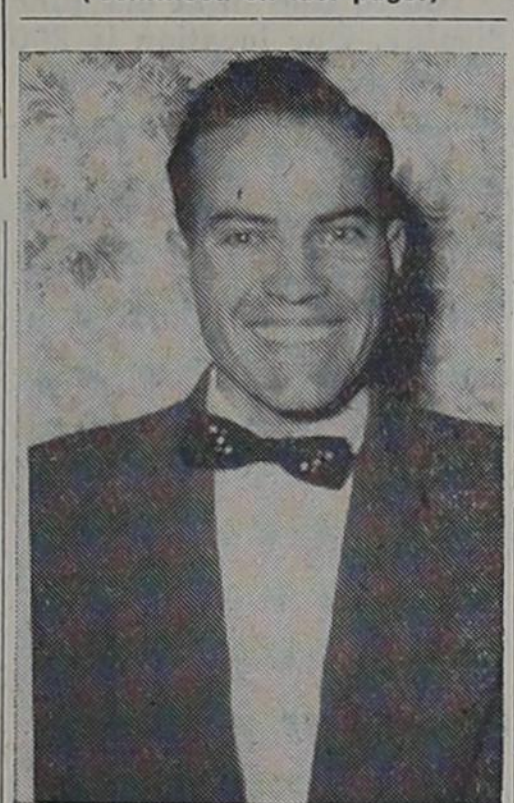

Three automobile mishaps during the past week were reported today by Sheriff Chas. Lovelace.

Early Tuesday morning, Alton Ryan, 17, Lubbock, and a 14-year-old girl whose name was not learned, were injured when the car in which they were riding overturned a mile northwest of Lariat.

Ryan, who was driving, reported that he fell asleep and lost control of his 1952 sedan. The car turned over several times in a distance of 70 feet, reported Lovelace.

Investigation indicated that the couple were "going to Clovis to get married," when the accident occurred. Ryan had "borrowed" the car from a Lubbock man, but the car owner knew nothing of it. Both were taken to the Muleshoe hospital, with the girl apparently being the worst hurt. A passerby spotted the wreck and gave assistance shortly after it happened.

Tuesday night, C. P. Cummings escaped without injury when he lost control of his car on wet pavement.

## "TWINS" DELIVERED BY CAESAREAN

W. M. Roberts, principal of Farwell Schools, thinks he knows what it's like to be the father of twins by special arrangement with the surgeon, after his experience Tuesday night.

He didn't feel well Monday, and visited the doctors at Parmer County Community Hospital the next day for a checkup. They said it looked like his appendix was acting up, and recommended an operation.

But it was really double trouble when they got down to business on the operating table with W. M., and discovered he sure enough did have a bad appendix—two of them.

Both came out.

## Farwell Not Crowded To Win District 10-B Track Tournament

The Farwell Steers captured the District 10-B track crown in Friona last Saturday by taking seven of 14 events and rolling up a total of 62½ points, far

ahead of second place Vega who had 30. Friona had 24, Bovina 18, and Lazbuddie 4½.

The individuals placing first, second, and third in each event will be eligible for participation in the regional meet at Lubbock, April 23, according to Calvin Murray, coach and director of athletics at Farwell.

Three records were broken and one tied as Neil Smith, Bovina, soared to 11 feet to break his own record of 10 feet, 5 3/4 inches in pole vault; Phil Price, Vega, ran the 880-yard run in 2:04, beating the old record of 2:11.5; Wallace Roberson, Farwell, heaved the shot put 40 feet, 9 inches, to break the old one of 40 feet, 1 inch; Don Pool, Farwell, stepped the 220-yard dash in 23.3 in tying the old one.

The Farwell relay team—Don Geries, Don Pool, Truitt Hardage and Robbie Foster—won both the mile and 440-yard relays, stepping off the mile in 3:48.3 and the 440 in 48.2 seconds.

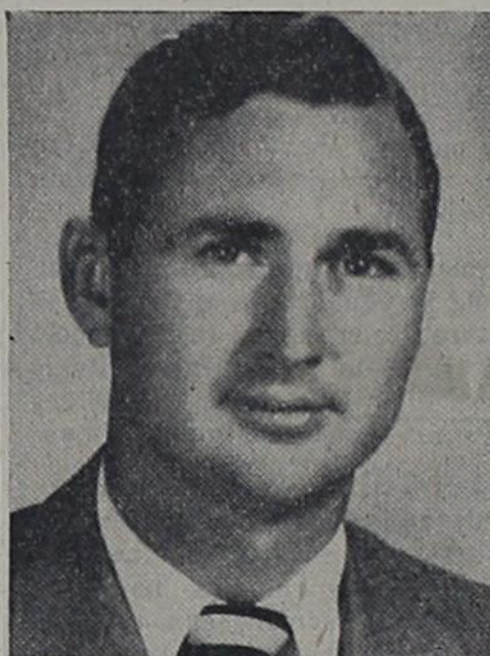

Other Farwell thinclads winning first place medals were Gerald Hardage, 120-yard high hurdles; Don Pool, 100-yard dash; Wallace Roberson, shot put; Don Geries, broad jump; and T. Hardage, 100-yard dash.

In the other events Bovina and Vega each had two firsts and tied for one while Friona won two. For Vega Phil Price won the 880-yard run, Hammons the mile run, and Caubal tied with Neil Smith of Bovina in the high jump. Other Mustang winners were Don Owens,

180-yard low hurdles, and Smith, pole vault.

In the high school junior division, Friona topped the field with 36½ points, followed by Farwell with 30 3/4, Lazbuddie 9, and Adrian 5. In winning the meet Friona won the 50-yard dash, 100-yard dash, 75-

## Tribune Wins First With News-Feature

A news-feature story written by W. H. Graham Jr., The Tribune's publisher, won a first place prize last week in Theta Sigma Phi's annual contest among weekly and daily newspapers of the South Plains.

The blue ribbon came as a result of an article he wrote describing typical Latin American laborers who come into Texas at harvest time.

Alpha Upsilon Chapter at Texas Tech announced the award at the matrix table dinner Tuesday evening.

Other area winners included the Seminole Sentinel, news story; and The Tulia Herald, which won both the editorial and columnist award. H. M. Baggaly is author of the latter two writings.

# It's "Back to Normal" For Plains Weather

Everything is "back to normal" with the weather, as far as old timers in this part of the High Plains are concerned.

During the past week they have seen beautiful weather, several sandstorms, some snow and sleet and a dash of rain. It's all quite natural for this area in the spring, they say.

For a while things were looking pretty bleak, and almost every afternoon the wind would whip up a good sandstorm. Dusters were making news all over the Southwest, and predictions that we were headed for another "Grapes of Wrath" era could be heard from some quarters.

While it is true that conditions have been unusually dry and the wind unusually vicious, it is not

true that the country is "blowing away," say officials of the Parmer County SCS.

Melvin Swartz reported last week that, "Generally speaking, our farms are holding together remarkably well in spite of the bad days."

He said that there are only a few exceptions, and those are isolated. Bad blowing has been spotted southeast of Farwell, and in a spot or two east of the Hub community on land newly broken up, but these conditions are fortunately not general, he says.

"We have covered the county pretty well in a survey," said Swartz (who was acting unit conservationist until Monday of this week), "and we do not see too much to be alarmed about."

In the Rhea community, which has been a trouble spot for some years because of large acreages of wheat, very little problem fields have been noted. This is an encouraging sign, says Swartz.

Irrigation has helped the blowing a great deal, he says, and emergency tillage such as deep plowing and listing has assisted in controlling the blowing, too.

Swartz said a lot of people were getting mistaken notions about blowing conditions by driving out into the country during a windy afternoon. Most of the blowing takes place around the roadbeds where loose sand accumulates, he says, and there isn't nearly the erosion taking place in fields like there is within the road itself.

## Okla. Lane Baptists Now in Revival

Rev. Leonard A. Hartley, pastor of First Baptist Church of Loraine, Texas, is visiting evangelist for a revival now in progress at the Oklahoma Lane Baptist Church.

Joe Dunn, music director of the Parkview Baptist Church of Littlefield, is directing the music for the meeting, according to Rev. Vance Zinn, pastor of the church. Services are being conducted twice daily, beginning at 10 a. m. and 8 p. m. throughout the week.

## Mail "Hits the Road" Starting Next Week

The Post Office will discontinue making use of trains in transporting mail between Roswell and Amarillo commencing Sunday, April 24, according to an announcement made here last week by C. A. Hodges, assistant superintendent of the Postal Transportation Service, Ft. Worth.

Hodges stopped at Texico-Farwell Wednesday to briefly explain the change which is being made from rail car to highway car, and said the main reason for the switch is the matter of train schedules.

Train schedules are arranged for the convenience of passengers rather than mail, he said, and for that reason, the Postal Service is soon to begin highway transportation methods which will better fit into a mail schedule.

Of interest to persons along the route—including those in Texico-Farwell—will be stops in each of these communities for exhibition purposes on Saturday, April 23.

The mail cars are quite similar to ones seen on rails in that they are arranged for sorting the mail while in transit, said Hodges. Mail clerks which have been used in rail cars will merely be transferred to the highway cars.

The exhibition bus will have a dedication ceremony lasting about 10 minutes in Texico-Farwell near the bank corner, with several top-level Post Office officials on hand. The time is expected to be shortly after noon.

Souvenir mail can be sent during this exhibition run, Hodges said.

Still raging is the argument over whether price supports on farm products are good—or bad—for agriculture and the nation. There are so many things that need to be known before anyone ventures an opinion that it is difficult for the man on the street to thoughtfully express himself, and it seems to us that there is more general ignorance surrounding the farm problem than anything else we have ever heard of.

In fact, a great many farmers are speaking out for what they want without really knowing how it can be attained. We might say that this is true of both sides of the question.

Our own opinion is that more regulation is the last thing that anybody in America ought to invite, and especially the farmer—who long has been accustomed to living "next to Nature" where freedom of choice and action is virtually boundless.

We say "is virtually boundless," perhaps we should say "was virtually boundless" instead, because in recent years we have seen the shackles of government regulation harness the farmer until he can do little more than hobble meekly about.

No one is to be blamed for this condition except the farmers themselves, however, for in every case of additional controls, they overwhelmingly accepted them.

Back to price supports: We all would like to see permanent prosperity on the farm. Even big business wants to see the farmer making money, because it is the rank and file of the farm population which consumes so great a share of the nation's industrial output.

Yet, everyone wonders: which way leads to permanent prosperity—firm price supports with firm controls, or no price supports and a free wheeling farm economy?

Our answer is BOTH, but NEITHER. Let us first look at the proposition of no support prices, and no controls. How can we expect the farmer to sell on an open market and buy on a closed one?

Manufactured goods in this country are protected from international competition by tariffs. If you buy a British-made car or a German-made piece of equipment, you pay part of your money to Uncle Sam—to protect his own manufacturers, strange as this may seem.

This country is not flowing with Venezuelan oil because of the duty imposed on that product when imported. Venezuela would like to sell us every drop of the oil this country needs—and they could do it, except for import restrictions. Consequently, we pay more money for our domestic product.

These are not isolated examples. The same is true in every phase of manufacturing and processing. The American producers are protected, and they will squeal like starving pigs to keep the high tariff wall up.

No, if the processor and the manufacturer are protected by indirect subsidies, then it is not fair to ask the farmer to buy from these people and then market his product without like protec-

tion. Now, take a look at high, fixed, supports and tight control. We ought to be able by now to see that this alone won't work. Beginning with World War II, and continuing until the present, we have attempted to make this philosophy practical.

The results looked attractive at first. This type program always goes over well when demand for products is almost unlimited. But since things have "tightened up," or "returned to normal," of you prefer, markets have diminished and competition has entered the picture. That is where our high supports have failed—miserably.

Our warehouses are full of wheat, corn, cotton, butter, and other farm products. The government is forced to virtually give away the surplus in order to get rid of it. In fact, even giving it away sometimes gets us into trouble, because "we upset normal world marketing."

High support prices have stimulated production without stimulating markets, and this has resulted in hardship for farmers—especially in an area such as ours.

It is a fact that our average farm income is declining. What the reason is we do not exactly know, but it is not lower support prices that are at fault, for they have not been tried recently.

For the reasons outlined above, we support the theory of slackened support prices, with certain qualifications, however.

When, for example, any farm program is being administered, it should be equal in its application to all phases of agriculture. Reducing the price support on grain sorghum from 85 to 70 percent parity is not in conformity with action taken on other commodities which are in considerably more abundant supply.

We feel that this action is discriminatory even though sorghums are grown with no acreage restrictions. After all, there remains no other major crop to which area farmers can turn, in view of the fact that their wheat and cotton allotments already are taken up.

For a busy young mother, we have the ideal dessert recipe this week, from Joyce McGuire of Oklahoma Lane. Joyce tells us that with three children, she has little time to prepare any kind of dessert ahead of time.

"I find that fruit cobbler is a wonderful dish to fix and a very short time is required to prepare it." She says her family likes apple "the best" although almost any fruit can be used.

**FRUIT COBBLER**  
Melt half stick of butter in baking dish. Add sugar to fruit and bring it to a boil. While butter is melting and fruit is heating, mix:  
1 cup flour  
1 cup sugar  
1 teaspoon baking powder  
pinch salt  
½ cup milk

Pour batter into melted butter, then add fruit. The batter will rise to the top. Sprinkle with sugar. Bake in oven until crust is brown and slightly crisp. Top with ice cream, if preferred.

Doesn't that sound good? We especially appreciate this recipe since we have never been too successful with cobbler, although the head of the house likes them very much. We will be trying this one right away.

We have decided that we picked a very poor time to decide to stay home and "keep house." We do dig out the sand, just seconds before it hits again, then we begin all over again.

Since housewives have had that problem for centuries, it isn't unique to us—but at times, the problems of an office seem simple. Even so, we like it—staying home, we mean.

Mae Porter was disturbed from a sound sleep about two o'clock in the morning over the weekend, by a clear bell-like noise. She began rubbing the sleep from her eyes, vowing that she wouldn't answer the door for anyone who came calling in the middle of the night.

Then she realized it must be the telephone—not the doorbell and she staggered sleepily to the instrument, picked it up and heard a cheery voice remark—"are you wide awake?" It was the operator who informed her that she had a call from Japan.

Mae was awake in a flash, as

## FARWELL BAPTIST NEWS

Rev. E. J. Keith, Pastor

The revival which began Friday, April 8, at the church is getting along in a fine way and the visiting evangelist, Rev. V. P. Walters, is doing some very good preaching, according to pastor of the local church, Rev. E. J. Keith. He says that there is a fine revival spirit among the people and that attendance has been good.

One hundred and seventy one persons registered at Sunday school Easter Sunday with approximately 225 in the morning worship service. Training union attendance was 121 with approximately 165 in the evening worship service. The goal for attendance on Sunday, April 16, has been set for 200 in Sunday school, and Rev. Keith hopes the number will exceed the goal. This will be the closing day of the revival.

Monday, April 17, Rev. Keith will go to Russell, Kansas, to hold a two weeks revival meeting in the First Baptist Church there.

The young people of the local church will be in charge of both the morning and evening services on Sunday, April 24.

Sunday, May 1, Dr. T. F. Boushy of Wayland College will preach at both services in the absence of Rev. Keith.

The WMU did not meet this week because of the revival which is in progress at the church.

Mr. and Mrs. John Armstrong and family visited the Jason O. Gordons in Plainview on Easter Sunday. The Gordons are former local residents.

# NEWS FROM THE FARM BUREAU

By RAYMOND EULER

We hope all you parents have signed requests for vaccination of your children with the Salk Vaccine against polio. If this is a successful preventative, polio will go down like smallpox and other former dread diseases that have been practically eliminated through vaccination. It will also be another indication that the American people have not lost the spirit of "self help" in meeting personal and public problems, because you have paid the bill by contributing liberally to the March of Dimes each

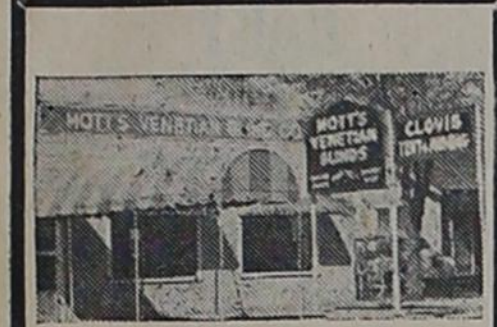

year. Everyone is looking forward to a year of plenty of rain in our area again. For beauty and enjoyment, there is really no better weather than we have been having. It is noticeably true that everyone seems thankful for the underground water we have for irrigation, businessmen as well as farmers. They all know that this has spelled the difference in prosperity and depression here. We will be happy when more evidence of conservation of this valuable resource shows up in some cases. Preparing the land before irrigation is just as important as having land prepared to receive a rain, so that it will not run off excessively. It is conservation in either case.

John Gregg, of Lubbock, an official of the National Cotton Council, has requested an opportunity to speak with retail drygoods merchants, bankers, mayors, ginners and others interested in the future of cotton. Farm Bureau has arranged for such a meeting and has invited a number of people to attend at Bovina Legion Hall, Friday afternoon at 1:30. The public is welcome, too.

Marshall Formby, who has just returned from Russia, brings back a pretty poor word picture of agriculture operated under complete government domination. Free enterprise takes the cake, always, in the interest of the producer and the consumer.

Sesame seed is an interesting topic of conversation among most farmers now. News of success of the crop, in varying degrees, from high plains farms, seems to indicate that there may be several hundred acres planted in this county. Cummings Farm Store, as we understand it, will be the exclusive distributor of the seed this year. Talk to Doyle or Ennis about it.

Consider this: Turn not to the right hand nor to the left; remove thy foot from evil. Proverbs 4:27.

## Corn Meal Flavors Beef-Vegetable Pie

Plentiful beef and savory vegetables combine well in a Beef-Vegetable pie that will win complete approval when it is topped with a delicious corn bread crust.

Corn meal combines well with any meat, and is especially good in this combination of beef and vegetables. If self-rising corn meal is used, all-important calcium is added to the menu, for two cups of self-rising corn meal contains as much of this needed calcium as three glasses of milk. This Beef-Vegetable pie is a par-

## Letters To The EDITOR

Clovis, N. M. April 9, 1955

Dear Mr. Graham:

I noticed by the papers a few days ago that you were honored in connection with some newspaper enterprise. I cut the notice out of the paper. . . and now it has disappeared, hence I can't mention it specifically, as I intended to do.

Your Dad was one of my best friends altho' he and I unfortunately seldom came in contact with each other. I'm glad to see you are following his footsteps in newspaper work and I wish you every success, and I congratulate you that your work is bringing recognition.

Give my best regards to your mother and Abie.

No serious injuries resulted after a car-truck collision last week on the Oklahoma Lane-Farwell farm-to-market road involving several young people from Farwell.

Gerald, Lavon and Bobbye Metcalf were not badly hurt, however. Driver of the truck was Dwayne Martin.

## Wheat Coming Back After Big Losses

Wheatland—both dry and irrigated—has really taken a beating during the past few weeks, according to County Agent Joe Jones. He listed four factors which have been working on the young crop:

High and dry winds, the greenbugs, the spider mites, and late-season freezes. These forces have teamed up to set the wheat back considerably, he says.

However, in the past few days things are looking up, and wheat seems to be gaining on its enemies. This is true at least of irrigated fields where plenty of water is available for plant growth. Dryland wheat is being plowed up in sizeable acreages.

Employees of the Furniture Mart reported that they thought a train was coming through their place of business about 4 o'clock Tuesday afternoon, during the severe wind-

The big chunks of glass damaged some furniture on display, said Jim Bob Smart, but it would have been much more severe if the event had happened at night when it could not have been quickly repaired.

Sand and rain came through the opening for several minutes until a temporary covering could be nailed into place.

## News of Polio Vaccine Thrills Everyone (Except the Kids)

Mothers and fathers from Texico-Farwell and all of Parmer County joined with hundreds of thousands of others in the United States this week in rejoicing over the news that the Salk anti-polio vaccine is effective and approved for use.

The immediate effect of this history-making announcement will be that nearly all children in the first and second grades of Texico, Farwell, Lazbuddie, Friona and Bovina will receive at least two—and possibly three—"shots" which will protect them from the dreaded child crippler.

Tests run last summer on the vaccine proved its effectiveness ranges from 80 to 90 percent, and developers report that the 1955 version of the serum is even more potent.

Of foremost importance to all parents is the urgent message

that they see to it that releases are signed giving permission to have their children inoculated. There is no cost, but it is necessary for the parents to give their consent before the vaccine is administered.

Dr. Paul Spring, Parmer county health officer, said today that he will continue to accept applications "up until we begin giving shots," and indicated that he expected many parents to come in at this late hour with their authorizations.

He said that children "ready to go," included 160 in Friona, 61 at Lazbuddie, 80 at Farwell, and there is no complete report from Bovina. In Texico, Supt. Agrie Jones reported that 70 out of 77 children in the two grades were okayed by their parents.

Dr. Spring said he expected to get started with the program

"in just the matter of a few days," although he is "in the dark" about some details of the new program.

For instance, he said that as yet the vaccine is not even in Texas, and it probably will be flown in from producers in Indiana.

From Austin it will be distributed through the State Health Department to counties all over the state. "I feel sure that we will have enough vaccine to inoculate all first and second grade children when it arrives," he said.

Vaccination itself is expected to take about two days, and the county health officer is ready to go into action the minute supplies arrive.

On the matter of whether two or three shots will be given children, there seems to be some confusion. The state health di-

rector has suggested that only two be given during the first program in order to spread the vaccine supply, and make it available to more persons.

However, Dr. Spring said he has had word to give a series of three shots, and "Until I hear differently, that is what I plan to do."

Later this summer, the supply is expected to overtake the demand, and plenty of vaccine should be available for all those who need it. No official report is out on the cost of "shots," but suggestions of from \$4 to \$5 per injection (in addition to the doctor's fee for services) has been heard from several quarters.

This cost, of course, is of interest only to those who have children not in the first and second grades, and who plan to re-

LOOKS ROUGH TO HIM

Parents are thrilled to know that their children can now be protected against polio by a vaccine. But the prospects for the kids aren't quite so bright. Just look at that expression on the face of Larry Flowers, a Farwell first grade student, who is eyeing a needle much like the one he will be feeling in a few days. Larry is six years old, and the son of Mr. and Mrs. Bill Flowers of West Camp.

quest the vaccine through their family physician.

The new vaccine was developed primarily through financing made possible by the National

Foundation for Infantile Paralysis. Texico-Farwell and Parmer County residents have supported the program well in years past.

### Honored at Shower

A pink and blue shower honoring Mrs. Everett McBroom was held on April 7, in the home of Mrs. C. C. Graef.

### Has Fish Fry

The Brotherhood of the First Baptist Church of Lazbuddie met at the church on Friday night, April 8, for a fish fry. The fish were furnished by the pastor, Rev. C. K. Roberts, who recently went to Corpus Christi where he caught the fish. Sam Brownlee served in the position of the "fish frier" and he did an excellent job.

Guest speaker for the occasion was Rev. Wayne Perry, pastor of the First Baptist Church in Sudan. He was accompanied by Bro. Wayne Brown, also of Sudan.

Approximately thirty men were present for the good program and supper.

### WMU MEETS

WMU of the Lazbuddie Baptist Church met in the church last Monday for a regular business session. The lower grades of the Lazbuddie Schools were given Easter parties by the various room mothers in each grade.

The boys and girls all had a wonderful time finding the Easter eggs which were hidden for them.

Mr. and Mrs. W. D. Revel, former teachers in Lazbuddie Schools, visited various friends in the community over the weekend. The Revels are, at present, located in Abernathy.

Mrs. Laura Treider and daughter and family, Mr. and Mrs. David Brown and Connie, are visiting in Corpus Christi.

Several students from Lazbuddie Schools spent Easter day in the McKinzie State Park in Lubbock. There was also a group of Lazbuddie students who spent the day in the city park at Clovis. Both groups reported that they all had a wonderful time.

Small bunnies on Easter eggs sitting in grass were the plate favors, and on the head table the centerpiece was a potted Easter lily with nests of Easter eggs around on the table. On the piano was a nest of Easter eggs with a miniature Easter bunny on it.

WMU met Tuesday for a program of Bible Study.

Officers and teachers of the Sunday School met Wednesday night for discussion of the Sunday School lessons.

that has kept the taxes on property paid up for that length of time should be entitled to it, he adds.

By the way, we have a telephone now and if anyone has some news that they would like to have reported we would love to hear from you. Our number is 2901. Please call us with your news. Mrs. Oscar Baxter's number is 3801 and if you would rather call her that is fine. We both would appreciate you letting us know what is happening in this little, but growing, town of ours.

We were in the drugstore the other day when "Pug" Collier's wife came in. She walked up to the salesgirl and said, "I feel like dyeing, does anyone object?" We stood open-mouthed for a couple of seconds and then it dawned on us. You have probably guessed it by now but we will give you the clue anyway. Of course! What material she was planning on dyeing we wouldn't know.

Although we are not sure how to say it we would like to try anyway. Seems that so many of us condemn truck drivers. We don't mean these men that drive the grain trucks, etc. We are talking about the truck drivers for van lines, chain stores, meat companies and bread companies and oh! so many more. How many times do you hear of a truck driver being in an accident and when he is, nine times out of ten, it isn't his fault. What is this all about? Well, we aren't too sure on that score but we would like to take this opportunity to express our appreciation to truck drivers, mostly for their courtesy. Not all of them but a lot of them do let the car in back of them know when it is safe to pass and this alone, we believe, helps keep the accidents involving trucks down to a minimum.

**"On the Ocean Floor"  
Theme Jr.-Sr. Banquet**

The junior-senior banquet was held last Saturday at the school cafeteria with approximately 93 students and room parents attending. They were served a chicken dinner prepared by the ladies at the cafeteria.

The theme of the banquet was "On The Ocean Floor" and the cafeteria was decorated in a deep sea scene. As the students entered the door there was a cave opening made of brown paper mache over which were the words, "King Neptune's Kingdom." The tables were arranged to form an anchor and down the middle of these was laid a narrow strip of cheesecloth dyed the color of the ocean with different seashells painted on it.

Close to the entrance was a make believe boat with only a porthole visible. When one looked through it a skeleton could be seen.

On one side of the room was a

miniature sunken boat with a treasure chest containing gold coins and on the opposite side of the room was a manikin dressed to look like a mermaid.

There were seaweed, fish and seashells placed at different spots throughout the room and sawdust on the floor to represent the bottom of the sea.

The ceiling was covered with blue cheesecloth arranged in waves to represent the surface of the water.

The light for the banquet was furnished by wine bottles holding candles.

Favors for the affair consisted of seashells, supposedly real ones.

Charles Kirk was the master of ceremonies for the program and Jimmy Scarborough gave the invocation. The welcome was given by Donald Petty and the response by Gordon Wright. Don Lewis kept the theme in mind when he gave the vocal selection, "Ebb Tide". The will left to the junior class was read by Deann Buske and the prophecy was given by Sally Osborn.

The special speaker for the evening was D. W. Brachear of Dimmitt who is a retired Methodist minister. He gave a talk on "The Sea of Life."

The benediction, given by Dudley Bainum, closed the program.

Following the banquet, the junior and senior room parents showed films of other such banquets held in past years. The junior room parents are Mr. and Mrs. E. L. Fairchild, Mr. and Mrs. Carl Fairchild, and Mr. and Mrs. A. S. Grubbs. The senior room parents are Mr. and Mrs. H. T. Magness, Mr. and Mrs. Henry Lewis and Mr. and Mrs. J. L. Ray.

**"I just don't know how I ever got along without my ELECTRIC CLOTHES DRYER!"**

... says Mrs. Orval Wallace  
1206 13th STREET  
ABERNATHY, TEXAS

"The feature that I like best about the clothes dryer is that it eliminates tiresome trips to the clothesline forever. Why we have a croquet court in our backyard now in the place where the clothesline used to be."

Mrs. Wallace has a completely all-electric laundry, with washer, dryer, ironer and electric water heater.

"The 'problems' of washday are ended with an all-electric laundry. I used to run short of diapers for the baby when the weather was too bad for line drying. Now, I can wash and dry clothes for the children in less than an hour. Also, many of the garments need little or no ironing when they come out of the dryer."

Make your washing, drying, ironing — water heating, too — modern, make them electric.

## One Man's Opinion

By Bobbie Richardson

Only four more weeks! My, how time does fly. It seems only yesterday that we began the 1954-55 school term.

As this school year draws to a close, some will be taking the final step. They will find themselves stepping from sheltered high school days to take up their responsibilities in a turbulent world overshadowed by war and the greed of men.

Still, there are others who have a few short years in which to prepare for this step.

With those who find graduation just around the corner and also those who will be treading the halls of the Alma Mater again next year, we would like to leave this thought from a poem by James J. Metcalf:

"There is no game of any kind that you can play with God. But as you serve him well, you will receive his gracious nod. And as you worship in his house and honor him today, he will reward you for your love and for your friendly way."

## Junior High Girls Beat Rosedale

The Rosedale Junior high and high school girls' volleyball teams traveled to Texico last Tuesday to play the Texico team.

The Texico junior high won their game by a score of 26 to 10. The Texico High School team was not as lucky as they lost their game, 21-16.

The next games played by the teams will be Friday night in a tournament at Ranchvale.

## Texico Track Team Makes Good Showing At Melrose Meet

The Texico track team went to Melrose Tuesday afternoon to participate against the Melrose track team.

Allen Kelly was high point for Texico running up a sum of 21½ points, by taking first in shot, second in 100-yard-dash, second in 220-yard dash, second in discus, fourth in broad jump, and tied for third in high jump. Kelley also ran on the 880-yard dash, tied for third in high jump, fourth in discus, fifth in javelin, and fifth in broad jump. Moss ran on two relay teams, both winning second.

Leon McDaniel placed fourth in the 100-yard-dash, 220-yard-dash and javelin. Allen Lockhart won second in the quarter and was a member of the second place relay team.

Kennith Reid placed second in the mile run and was a member of the mile relay team. Joe Glaze finished third in the high hurdles and was a runner on the 880 relay team.

J. C. Kelley came in fourth in the mile run while Alex Brown won fifth in the discus throw.

## HOLIDAY ENJOYED BY FOURTH GRADE

Fourth grade boys and girls enjoyed having a holiday during teacher's meeting. Dorris Wilson from Dallas, is a new student in the fourth grade.

The children are glad to welcome back to school those who have been absent because of illness.

Tommy Wakefield went to Tulia on a visit last weekend.

Jean Clayton celebrated her tenth birthday a few days ago. Her grandmother and Grandfather Clayton were guests in her home.

## Texico Honor Students Named

Patricia Watson and Bobbie Richardson have been named as valedictorian and salutatorian, respectively, of this year's graduating class at Texico High School.

Patricia's scholastic record topped Bobbie's only a fraction of a point. Following close behind these students in point average were Kennith Reid and Allen Lockhart.

Serving as editor of the school paper, "The Wolverine's Tale," and annual, "The Wolverine," were positions filled this year by Patricia and she was also selected as the Betty Crocker Homemaker of Tomorrow.

In her junior year, Pat was elected by the student body as the most popular girl in high school. She was chosen DAR alternate and Girl's State alternate. She was picked as having the best personality in both her junior and senior years. This year, she was the faculty's choice as best all-around girl.

Patricia was listed in the Who's Who division of the annual because she was outstanding in journalism and secretarial science.

Being "secretary" seems to be another of Pat's duties. She is secretary of the senior class, chorus, business education club, student council and is a member of the press club. She is head cheerleader in the Pep Club and was a Wolverine Beauty candidate both this year and last.

Bobbie has attended Texico school for 12 years. Last summer she represented Texico at Girls' State. She was also chosen DAR Pilgrim by the teachers.

Another honor achieved by Bobbie was being named in Who's Who for being an outstanding school citizen.

Being selected by her classmates last year as junior class favorite and this year as senior class favorite is another honor bestowed upon Bobbie.

Bobbie served as president of the student body, student council, and chorus, vice-president of the Pep Club and senior class treasurer. She is a Press Club and Business Education Club member.

Patricia and Bobbie will deliver addresses at the commencement exercises of the 1955 senior class in May.

## Juniors Present Plays Tuesday

Fifty-eight dollars was made by the junior class when they presented two one-act plays entitled "Feudin Mountain Boys" and "Wilbur Faces Facts," Tuesday, April 5.

"Wilbur Faces Facts" presented a hilarious situation when Wilbur decided to get his sisters married so he could have everything he wanted.

Effie thought "feudin" was romantic; and in order to gain his fair lady's hand, Freddie, her boyfriend, started a feud in "Feudin Mountain Boys." "All's well that ends well" as this rip-roarin' hill-billy story did, when Freddie becomes a hero by ending the feud, which Effie decided wasn't so romantic after all.

Good performances were given by all the actors, but Anita Tharp was especially outstanding as Cory Mae in "Feudin Mountain Boys."

Ice cream and cake were served. She received some very nice gifts including a squaw dress and moccasins.

Barbara Tucker was in Lubbock last weekend.

## Texico Boys Make Hazardous Trip

Not to be outdone by being left at home last week end when other Texico high students were off to Las Vegas or Las Cruces, five modern "Daniel Boones" organized a hurried camping trip to the sandhills of Texas and New Mexico. Battling a typical New Mexico, sand-filled road, this group made the seventy-five mile trip with "a prayer and a song" being forced to use low gear practically all the time in Jimmie Reed's 1933 Chevrolet Coupe.

The old coupe was a sight to be seen, loaded to the "gills" with bed-rolls, camping equipment, and groceries plus the following boys—Jimmie Reed, Doyle Winegart, Matt Pendergrass, Jimmie Moore and Leroy Powers.

It was a hazardous trip, according to a spokesman for the boys—what with a pinched gas line, which was later to be stopped up and still later to be broken; hitting high centers, and running out of gas.

The boys must have had delicate appetites for they ate two dozen eggs, three loaves of bread, more than a pound of bacon, plus potatoes, pork and beans, jam, cookies and soft drinks. They whipped the food situation up in good style by stopping off on the way back at the Pendergrass home and having a bountiful dinner.

The trip from there on home was considered the most perilous by the group for they had battery trouble, ran out of gas, and finally had to be towed back into Texico.

The boys are planning a trip to Roswell soon, so if anyone sees a '33 "Chevy" stranded by the wayside, it might be a good idea to give the boys a hand.

## Embarrassing, Eh?

The following features resulted from a recent assignment in journalism workbooks in which each student was asked to relate his most embarrassing experience. Excerpts from two work books follow:

### MY MOST EMBARRASSING MOMENT

By Bobbie Richardson

It was one of those busy Saturday afternoons when the streets are always crowded. Daddy and I were stopped on the corner waiting for the light to change so we could walk across the street.

The light changed, I started across the street beside my Dad. "I wonder why he's walking so fast," I thought.

I grabbed his coat sleeve only to look up into a grizzly face that seemed to say, "What do you mean hanging on to me; I don't know you."

Daddy was still standing on the curb.

### MY MOST EMBARRASSING MOMENT

By Carolyn Curd

One Sunday while attending a church dinner, my friend, Wilma, and I were having a very good time. We went from table to table eating one food after another. When it came time for us to select a dessert, I chose a piece of lemon pie and Wilma took some angel food cake.

After Wilma finished eating her cake she said that she was going back and get a piece of pie. I told her not to get any of the lemon pie because it tasted terrible.

Imagine my embarrassment when I found out Wilma's mother had made the lemon pies.

## Judging Teams Enter Contest

Texico FFA judging teams who entered state judging contests last week in Las Cruces, placed 25th in overall competition of the 5th teams entered.

The crops judging team, composed of Jimmy Moss, Lester and Leon McDaniel, won fifth in competition with 47 teams.

The livestock judging team placed 14. Team members included Kennith Reid, Weldon Bell and Howard Leavell.

Farm mechanics judging team placed 29th with Allen Lockhart, Jerry Johnson and Kennith Reid making up the team.

Placing 30th in the contest was the meats judging team composed of Jimmy Moss, Dick Lockhart and J. C. Kelley.

The poultry judging team ranked 35th with Howard Leavell, Lester McDaniel and Alex Brown composing the team.

The dairy team tied for 39th place in judging competition with J. C. Kelly, Dick Lockhart and Alex Brown composing the team.

Although the teams did not win any trophies, Hudson was pleased with the ranking of the teams because of the fact that the Texico boys had had little time for studying for the judging contests.

## THIRD GRADERS HAVE EASTER PARTY

The third graders had a most enjoyable Easter Party last Thursday. A train ride was the big event of the day. Many children rode the train for their first time. Each child bought his or her own ticket and was responsible for it until it was given to the conductor. The one wish of each child was that Clovis might have been twenty miles away instead of ten. But there were other treats in store for them. They left the train to ride in the school bus to the park where they hunted Easter eggs, had lunch, visited the zoo and played games.

The mothers helping with the party were Mesdames: Grayson Roberts, Orris Eshleman, C. C. Morgan, Clarence Smith, E. G. Brehm, Claude Curry, D. F. Walton, R. N. Reed, Morgan Billington, Paul Skaggs. Other visitors were Pamela Roberts, Jill Billington, Judy Walton, Larry Terry, Randal Brehm and Randy Skaggs.

The children and their teacher wish to thank the room mothers for a most enjoyable Easter party and N. W. Peyton for furnishing them transportation.

The school nurse, Mrs. Dixon, was in school last Tuesday to check the children's eyes. She reports that several of the third grade children need to have glasses. It is hoped that the parents of these children will cooperate with the nurse and will have each child properly fitted.

Millie Autrey has been out of school with the measles. Pat Hutson has the mumps. Wayne Crawley has been on the sick list.

Last Wednesday was declared clean-up day by the third graders. They decided it was time to do their spring cleaning, so the children brought clean cloths and the teacher furnished wax to wax their new desks. Everyone was very busy for an hour or so and was quite pleased with the results.

## EIGHTH GRADE PRESENTS EASTER PAGEANT

With the theme, "Were You There When They Crucified My Lord," the eighth grade presented an Easter Pageant for their parents, Wednesday, April 6.

Students who portrayed lives of men which were last touched by Jesus as he was sent to the cross were David Lockhart, Kenneth Doshier, Jerry Reid, Monte Singletery, Jerry Bowers, Raymond Hadley and Zack Moore.

A tall silver cross was placed in the immediate background as phrases of "Were You There" were sung by Anita Moss and Jo Martin between speakers who were dressed in costumes symbolic of that day.

"Love Labors" featured D'Rene Danforth as the girl afraid of a mouse, her girl friend, Gale Hadley, was also afraid, and Wesley Engram, another friend who was frightened speechless. Don Johnson was the hero who came on the scene, but Richard Pichardo, a jealous boyfriend, entered. An unexpected climax and ending took place in this skit as the wooden bench collapsed when several of the students leaped on it as the mouse appeared again.

"Stars of the Gay Nineties" were played by the following characters: Travis Taylor, Wesley Engram, Charles Stockton, Crayton Weisler, Don Johnson, Glendon Harvey, Bobby Gooch, Connie Tharp, Harlo Wall, Mary McDaniel, Christina Bowers, Jean Runnels, Betty Walton and Elvis Cross.

Girls dressed in white robes and pantomining as they sang "Near the Cross" were Phyllis Kelley, Joan Tadlock, Lena Steele, Dona Crawley, Priscilla Pichardo, Velma Martin, La Donna Stewart, Joanne Brown, Barbara Chappell, and Cornelia Lucera.

It took cooperation of both teachers and students to plan such a full hour of entertainment which was very appropriate for this particular occasion.

## SECOND GRADE HAS EGG HUNT AT CLOVIS

Since "Easter" is the word repeated most in the classes this week, the children have been very agreeable and playful because of the egg hunt which is a big highlight in their school year. These industrious second graders gaily decorated their room with Easter bunnies and Easter Eggs as well as making beautiful Easter Cards for their mothers.

The children brought a sack lunch for the Easter party, Thursday. Drinks were served by room mothers, Mrs. Louis Caillouet, Mrs. John Hadley, Mrs. J. J. Tip-ton and Mrs. J. M. White.

After an egg hunt, the children played games and visited the zoo in Clovis. They seemed to enjoy this factor in their activities very much.

You have heard "One man's loss is another's gain." This has be-

come a reality in the second grade. They lost Homer Shaw who recently moved to Alaska, while Jimmy Wakefield came to the class from Hart, Texas.

With most of the students back in school this last six weeks, they are working very hard for the best they may accomplish. The students regret that Jim Landon has been missing some of the activities because of sickness.

## PATter

From Pat

Say, didn't those juniors present good plays the other night! Just can't decide which one we liked the best, they were both wonderful. Congratulations, kids!

Several of the girls have been creating table settings, etc., the past few days for the Lenox China Contest. Some have really come up with original ideas. Would surely like to see someone from our school come up with honors.

Ever heard of anyone being "thrilled spiltless"? If not, just ask Mrs. Allman exactly what it means—she came up with that one the other day.

Seems our sponsors were a little worried at Las Vegas the other day. Kind of afraid they wouldn't bring everyone back—but we're glad to report everyone got back safe and sound (including Mr. Jones!).

Quite a few students took the state-wide math test the other day. Oh brother! Was it something! Ask Mr. Frederick, he can tell you how difficult it was!

Need a good map of New Mexico? If so, just ask American history students (or maybe they'll borrow one from you). Anyway, they're working on them now, and it seems to be quite a task!

Just a short while until student council presidential election, so let's get those petitions in.

Must rush, there is so much to do these last few weeks of school. See ya, and remember! No one can help you as well as you can help yourself!

## FIFTH GRADE HAS EASTER PARTY

The fifth grade hunted Easter eggs at school Thursday and then went to the home of Mrs. Buddy Johnson where they were served refreshments of pop and gaily decorated Easter eggs.

Room mothers present for the party included Mrs. Barney Kelley, Mrs. Wayne Martin, Mrs. Buck Raulie, Mrs. Elmore Hendricks, Mrs. Clyde McDaniel and Mrs. Buddy Johnson.

Mrs. W. L. Harris of Wellington was a guest at the party. Mrs. Harris is Mrs. Kelley's mother.

In England, waffles are called "crossword pancakes."

## CLASSMATES CHOOSE EASTER KING, QUEEN

An Easter King and Queen were carefully chosen by the seventh graders this past week. The couple taking the honors were Charles Stockton and Gale Hadley.

Another highlight in the Easter festivities was the judging of the elegantly decorated eggs for the contest. Placing first in the contest was D'Rene Danforth whose entry was pink, topped with a tiny yellow chicken and pink miniature flowers and pink ribbon. Jean Runnels and Velma Martin took second with a unique man and woman combination.

Hitting the jackpot for third was D'Rene Danforth, who received first place honors, too. The egg was blue with a silver rick-rac band and dark blue stars. Taking fourth place with an oddly colored egg of avocado green was Connie Tharp. (This color scheme seems to be in style in more ways than one.) Things are fishy somewhere, fifth place was taken by Joanne Brown with her interpretation of a fish.

An egg hunt was enjoyed by the group the last hour on Thursday. "Refreshments were served by Mrs. C. B. Stockton and they were delicious," say some of the enthusiastic students.

## FIRST GRADERS HAVE "LAWN" EASTER PARTY

The first graders enjoyed an Easter Egg Hunt on Mrs. Faville's lawn last Thursday. Mrs. Faville, the teacher, reports there were 40 first graders present for this "big" event.

After the hunt, the entire group played games. Winning prizes were Catarina Morales Jr., who won the sack race. The prize was a toy airplane. Judy Elliott took the prize in the jump rope race and her gift was a box of clay. In the egg race, Larry Don Fought was given a sack of marbles.

Pops were then served to the children by their room mothers, Mrs. J. M. Goolsby, Mrs. Joe Blair, Mrs. Carrie Owen, Mrs. Don Fought and Mrs. Claude Coffey.

Guests attending the occasion were Pamela Owen, Janie Goolsby, Diane Fought, Sharon Key Peyton, Roy Lee McDaniel, Don Landon and Johnnie Burford. The children extended their hearty greetings to these children.

## SIXTH GRADE TAKES TRIP TO CLOVIS

Sixth grade class members enjoyed an Easter party in Hillcrest Park last Thursday.

The class visited the train depot and the Dr. Pepper Bottling plant while in Clovis.

A Navy hunter-killer unit consists of aircrafts and destroyers—planes to seek out enemy submarines, and destroyers to sink them.

Tennis was purely an amateur sport until 1926.

## SENIOR REVIEW

Did you know—that one of the young ladies featured in our senior review this week has the ambition to be a missionary after finishing her college work? That she is enrolled in typing II, bookkeeping, athletics, journalism and driver's training, along with dramatics and business education club? While in the first grade Miss Davis spanked her for making 5's backwards, and punished her further by requiring her to write a blackboard full of 5's, correctly of course! She has attended school for eleven years at Texico. Greatest weakness was "not being able to stick with something" after starting it, and pet peeve is people who get the "big head" easily.

If you haven't figured out who she is yet, maybe this clue will help you—as evidence of her outstanding athletic ability, she was one of four best athletes chosen this year.

Who? Why none other than Miss Nadine Thornton! It seems she has no favorite subjects for in answer to this question she replied, "I don't have any favorites; I figure I'm getting good out of all of them." When asked how she felt about graduating, she stated, "I regret it in a way, but in a way I'm glad." It seems that her advice to younger students would be to put all possible time on school work, don't wait until your last year to really start working.

Nadine is the daughter of Mrs. Eva Thornton of Texico.

Another "Miss" will round out our review this week, known to everyone at Texico School is Shirley Stover. She has been a student here for five years, having come from Farwell. Subjects she is enrolled in are typing II, bookkeeping, athletics, shorthand, and American history; she has a membership in Business Education and Dramatics Club.

Shirley plans to get a job immediately after school closes, and some time later in the summer she will change her name to Stone, and leave to make her home in Maine. Future ambition is to be a housewife, naturally!

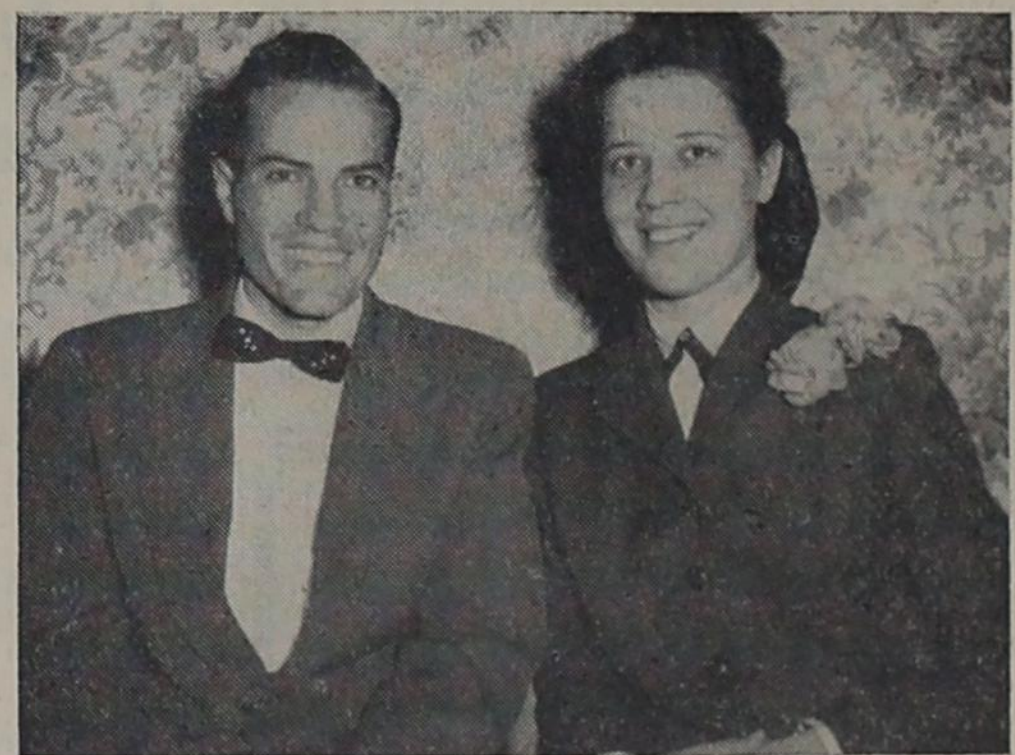

Her biggest thrill in school came in the first big play she was in, a patriotic play, in which she was given the leading role of "Miss America." Answering the question of how she felt about graduating, "Well, it's a thrill knowing I've completed, but it's sad knowing I won't be with my friends at Texico any more," Shirley followed the pattern of most seniors.

Pet peeve is people who think they are better than others. Her advice to younger students concerning high school is to study hard and get as much from school as you can.

Also an outstanding athlete, Shirley was hindered on the ball court this year by an appendectomy at the beginning of basketball season. Nevertheless, she presented good performances after her recovery.

### Spend Two Days

Mr. and Mrs. Griff Thompson of Marshall, Okla., visited two days last week in the home of their daughter and family, the Harold Collins. The Collins returned to Oklahoma with the Thompsons on Friday to spend the Easter weekend.

The Glasscocks lived in Floyd until 1951, at which time they moved to Parmer County and resided in the Hub Community.

Their three sons attended school in Friona before the family moved to their present home in Bovina, in January of this year.

A. L. devotes most of his time to the real estate business now and only oversees his farms that are taken care of by hired hands. He owns two farms at the present time, one of which he has just recently purchased. One of them is located in the Hub community and contains 160 acres and the other is 10 miles west of Bovina in the Pleasant Hill community. He raises cotton and grain, although he is not certain about the cotton as he has not received his cotton allotment from the government as yet.

The Glasscocks have irrigated since moving to the Plains in 1951 and have two wells on Butane on the farm west of Bovina and one well on natural gas at the Hub.

Although they live in the city at the present time, Doris says that she hopes they will be able to build a home on one of their farms in the near future. She says that they haven't decided on which place to build it but she does hope that it is at the Hub. "I think that a farm is the only place for children and not nearly as dangerous as living in town," she adds.

A. L. is a member of the Bovina Lions Club, the Farm Bureau and also is active in the Brotherhood at the Bovina Baptist Church. Both Doris and A. L. teach Sunday School and A. L. is a layman speaker for the church.

Besides the farm west of Bovina, the Hub Real Estate is also heated by Butane. When asked how Bovina Butane's service has been, Doris replied, "They have always been very nice and have given us very good service."

Doris met A. L. while on a double date. The next time she saw him was when he came to her home and visited her and asked her for a date at that time. She accepted and their courtship went on for a year and a half prior to their marriage. They repeated nuptial vows on February 28, 1941, at Floyd.

Doris and A. L. were to be married on a Saturday night but it

occurred on Friday evening instead. Doris told this reporter that it was a very sudden decision and she had not even had her wedding dress altered but she wore it anyway and none seemed to know the difference.

Mr. and Mrs. A. L. Glasscock and their three sons, Gary Kent, Danny Mac, and Ronnie Len are the neighbors for this week. The Glasscocks live in Bovina and A. L. is in the real estate business at the Hub with O. D. Bingham.

Mrs. Glasscock (nee Doris Jones) was born in Farmerville, Texas. She was graduated from high school there and spent a short time in college at North Texas State prior to being married. Both of Doris' parents are deceased.

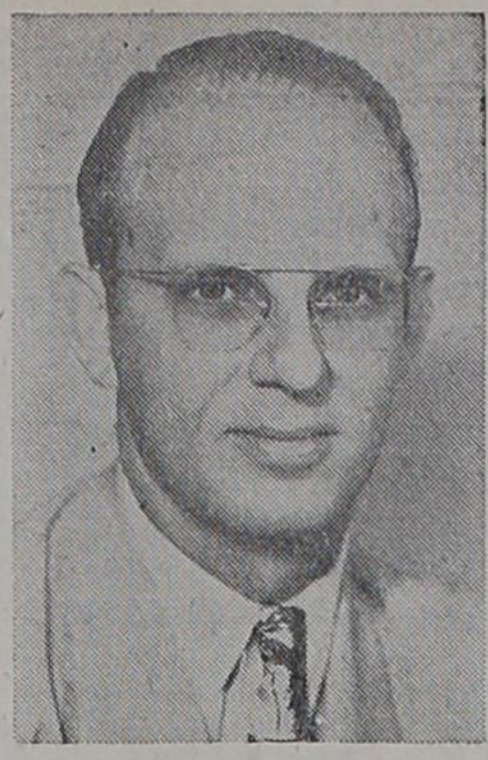

Doris has two brothers, Alvis Jones of Paris, Texas and Weldon Jones, Ft. Worth; and one sister, Mrs. James Welborne of Dallas.

Although Doris has lived in the country most of her life, her father, P. H. Jones, was an interior decorator until his death, last May.

Doris is a member of the WMU and is a GA advisor at the Bovina Baptist Church.

A. L. was born in Floyd where he attended school, and his mother, Mrs. R. L. Glasscock, still resides there. His father is deceased.

A. L. has five sisters and one brother with one of his brothers deceased. His brother and two sisters reside in Greenville, they the Mrs. Guy Ray, Mrs. Lee Arey and Auva Glasscock; another sister, Mrs. Chris Guy lives in Port Arthur, and his other sisters, Mrs. Charles Terry and Mrs. Harold Longbatham, reside in Baytown.

## Revival Underway At Baptist Church

Everyone is invited to the services which are being held at 7:30 a. m. and 8 p. m. each day, says Rev. Goodwin. The revival will conclude on April 24.

## BOVINA BUTANE SERVICE PRESENTS KNOW YOUR NEIGHBORS

Mr. and Mrs. A. L. Glasscock and their three sons, Gary Kent, Danny Mac, and Ronnie Len are the neighbors for this week. The Glasscocks live in Bovina and A. L. is in the real estate business at the Hub with O. D. Bingham.

Unlike his wife's family, the Glasscock family has always farmed and A. L. has kept up the work in this line. He stopped attending high school with only a month left before being graduated in order to help his mother harvest the crops. His mother was a widow at the time.

Doris met A. L. while on a double date. The next time she saw him was when he came to her home and visited her and asked her for a date at that time. She accepted and their courtship went on for a year and a half prior to their marriage. They repeated nuptial vows on February 28, 1941, at Floyd.

Mrs. Glasscock (nee Doris Jones) was born in Farmerville, Texas. She was graduated from high school there and spent a short time in college at North Texas State prior to being married. Both of Doris' parents are deceased.

Doris has two brothers, Alvis Jones of Paris, Texas and Weldon Jones, Ft. Worth; and one sister, Mrs. James Welborne of Dallas.

Although Doris has lived in the country most of her life, her father, P. H. Jones, was an interior decorator until his death, last May.

Doris is a member of the WMU and is a GA advisor at the Bovina Baptist Church.

A. L. was born in Floyd where he attended school, and his mother, Mrs. R. L. Glasscock, still resides there. His father is deceased.

A. L. has five sisters and one brother with one of his brothers deceased. His brother and two sisters reside in Greenville, they the Mrs. Guy Ray, Mrs. Lee Arey and Auva Glasscock; another sister, Mrs. Chris Guy lives in Port Arthur, and his other sisters, Mrs. Charles Terry and Mrs. Harold Longbatham, reside in Baytown.

Unlike his wife's family, the Glasscock family has always farmed and A. L. has kept up the work in this line. He stopped attending high school with only a month left before being graduated in order to help his mother harvest the crops. His mother was a widow at the time.

Doris met A. L. while on a double date. The next time she saw him was when he came to her home and visited her and asked her for a date at that time. She accepted and their courtship went on for a year and a half prior to their marriage. They repeated nuptial vows on February 28, 1941, at Floyd.

Doris and A. L. were to be married on a Saturday night but it

## Bovina People Relate Experiences

(Editor's Note: Sam and Janie Sides and their daughter, Virginia, Ruth Lykes of Laredo, and Mr. and Mrs. Scotty Barry of Bovina, have recently returned from an extensive vacation trip, and the residents are sharing their trip with the Tribune readers, by relating the happenings in letter form. We are recording the trip as Mrs. Barry tells it to us.)

We all left here Saturday morning, March 19, and spent the first night away from home in Kansas City, with Mrs. Joan McCook's family and the Coy Bates family. Leaving there Sunday about 2 o'clock, we went by way of St. Louis, Mo., on to Washington, D. C., going through the states of Oklahoma, Kansas, Missouri, Indiana, Ohio, Virginia, West Virginia, Pennsylvania and Maryland.

We spent a few days with David W. Sides and family. They then went with us to New York, with the group spending the night in New Jersey at New Burgh. We drove down by the Hudson River the next day. The wind was blowing 60 miles an hour and I never saw it so cold.

The other states we had passed through were also cold and windy, and it was snowing or raining all the way.

In New York, first we went down Broadway and Fifth Ave. I couldn't understand why that street was called "Broadway," unless the ones who named it looked up at the sky. The buildings are so tall and close together, it looks rather dark to Texas folks. We saw the Statue of Liberty from a distance, but because the wind was so high and cold, there was no ferry going over that we could find.

We then visited the Empire State building. Tickets were \$1.35 per person. Their slogan was "Where the whole world meets." The building covers one square block. Two of the 102 stories are underground. It is 1472 feet high, the tallest man-made structure on earth.

There are 67 elevators, which travel at the rate of 1000 feet a minute. You first stop on the 86th floor, 1050 feet above the street. From there, you go on the elevator to the 102nd floor, at a 1250 feet level. They say that even on a still day, it has a sway of three feet. The day we went up, you could surely feel it, enough to give you a "scared" feeling. Anyway, it was a relief to get my clodhoppers back on the ground.

The United Nations building reminds me of a slim honeycomb. I never saw so many windows. The Empire State building has 6500 windows. Perched on top of the Empire State building is a 222-foot high television tower, truly a TV capitol of the world. The tower was completed in May of 1951. Seven TV stations send forth their programs to a four state sector in which 15 million people live.

The guide pointed out Radio City, La Guardia Airport, George Washington bridge, the trans-atlantic liners dock, Manhattan, Waldorf Astoria Hotel and many other buildings.

After we left there, we went through the Holland Tunnel under the Hudson River. It was beautiful. We traveled the New Jersey turnpike, around 102 miles. It is well worth the price. You are not worried with traffic from side roads, there are only 18 places to enter.

We were in Washington during the cherry blossom time, but to me, a flower that it resembles is the magnolia blossom.

First person I saw as we started up the Capitol steps was Mrs. Lyndon Johnson, who was nice and friendly.

By the way, on coming into Washington, we noticed signs on the highway reading "This highway will be closed in case of an enemy

attack, for defense only."

Among other places we visited were government buildings, the Shriner's Temple, Arlington Cemetery, and Mount Vernon. We also saw "the change of the guards."

We went to Concord, North Carolina, and visited my father's folks. He has two sisters and one brother living back there, and we have cousins by the dozens. While there, we toured textile mills—it's just wonderful to see the wisdom God gives man to invent machinery to do such things.

We visited the R. J. Reynolds Tobacco Co. in Salem, N. C. First, we were given cards and stamps to write notes to friends, and the company mailed them. Difference in tobacco leaves were explained, then a guide showed us the plant. The machines made much noise.

Machines make 1200 cigarettes per minute, 70 cartons a minute. They pack 69 cans of smoking tobacco in one minute.

They had 6000 visitors last year and each one over 18 was given a can of smoking tobacco and a package of cigarettes. Gift tobaccos alone would run into a considerable sum of money. They showed us how all packages are wrapped and sealed.

While in Mount Pleasant, N. C., we went to Bear Creek Church where father used to go—not the same building, however.

We attended a family reunion Sunday, April 3, in Albemarle. We left there Sunday enroute to Laredo, Texas, going via Florida. But a couple of ladies got homesick. We stopped in New Orleans and took a bus tour.

We complain so much about the dust storms here, but we have much to be thankful for. All through the Carolinas, Georgia, Alabama and Mississippi, fruit and nut crops are frozen.

We spent a couple of days in Laredo. I never saw so many pretty flowers. Then we came by San Antonio and saw David and family, who had just arrived from Washington.

Mother mailed us the State Line Tribune while we were in North Carolina and of course, we read every word of it.

It is good to be back home again, and I am so thankful we have a home to come to, where I feel like I have good fresh air to breathe even if it does have a little grit in it. We covered 18 or 19 states and traveled over 5000 miles. We go home on April 9.

**Visit the Elliotts**  
Mrs. J. A. Pogue and Lawrence Elliott of Odessa are visiting the Elliotts in Bovina this week. Mrs. Inell Lowe and daughter of Littlefield have also been visiting the Elliotts.

## Children Win Prizes At Egg Hunt

Room mothers of the fourth grade class, Mrs. Amos Steelman, Mrs. E. C. Berry, Mrs. Earl Stevenson and Mrs. Gene Harmon, took the class to the Amos Steelman farm Friday afternoon for an Easter egg hunt.
