

By Hop Jr.

Our front office gals report that at least one-half dozen people called up last week to find out what Indian Crim had to say about 1957 weather.

They started calling as early as Wednesday (the 20th) and didn't stop until the Clovis paper came out Friday evening. Charlie Stanfield over there "scooped" The Tribune on the story this year, but there wasn't much we could do about it, since we're weekly.

Mention of the weather prompts another comment: Short on something to say last week, we almost included the comment that spring weather on the Plains has certainly been tame this year, and that the strong winds and throat-gagging dusts had happily left us alone. After the blow of Saturday and Sunday, it's a mighty good thing we didn't say that.

From the looks of all the bent and broken TV antennas in town, we'd say it was a pretty expensive storm. The cost of picture tubes, antennas, and other TV repairs is bringing folks to realize that television entertainment is hardly free, as its promoters claim.

If there's any advertising slogan that ought to be shot full of holes by now it's "...free." Somebody always pays. Most usually, it's you.

This occurred to us the other day... but doubtless you've seen something on the same order expressed before. If you're an average person, Unk Sam's cut of your paycheck is 20 percent. If you work 40 hours a week one full day is spent working for the federal government.

Of that time, about five hours of your sweat are going to support the huge military effort of this "peaceful" country. Makes things sound cockeyed, doesn't it?

Farmers of the Plains have long been accustomed to the freaks that Mother Nature springs on them in the way of weather. However, the early spring blizzard through which we have just come did more than provoke just a yawn and a "So what?" look from the old timers who can remember "the really tough ones."

The Texas-New Mexico state line had just as well had a fence on it a mile high, so far as Parmer County was concerned. The snow started just about there and progressed rapidly in intensity to the east, as everybody knows by now.

Those unfortunate enough to be stranded for a day or two in the eastern part of the county were amazed to get back home in Farwell, Bovina, and elsewhere and find it practically bone dry.

Along about Friona, the snow began to get pretty heavy, and by time Hereford was reached, it had increased to blizzard proportions. Unfortunately, there wasn't too much moisture in the wind-driven flakes. Their benefit to the young wheat is dubious. Most of the snow blew clear of the fields.

It is good, though, that we did have some rainfall a short time before the terrific wind out of the north was aroused. Wouldn't we have had a terrible duster if most of our top soil hadn't been wetted down a couple of days before the big blow.

The storm caught most farmers in the middle of their pre-irrigating. The middle of this week, many were returning to the practice, figuring that Mother Nature had not done a job that would be sufficient for planting and early growth moisture.

Storing water in the soil in the colder part of the year is a practice that certainly has zoomed in popularity the last two years.

GOC Meeting Tonight, 7:30

Regular meeting of the Texico-Farwell Ground Observers Corps is set for tonight at 7:30 in the old Legion Hall. All members are urged to be on hand.

Also planned by the local GOC is an alert this Sunday from 3-6 p. m. The various team captains will be responsible for contacting their members and having them out for the alert. The captains will be notified should the alert be called off.

New Sewer Lines Being Installed

Installation of 700 feet of sewer line got underway in Farwell Wednesday when workmen started putting in lines to serve the Sharp Industrial addition along Highway 60.

The new lines will tie in with the Texico system to avoid having to cross under the railroad tracks, according to Wilfred Quickel, city secretary.

Work on the project, made possible by a bond election last summer, is scheduled to be completed this weekend.

Red Cross Drive Set for Farwell

A drive to raise \$250 for the Red Cross is scheduled to get underway in Farwell on Monday of next week, according to Mrs. John Aldridge, who is in charge of the drive.

Several workers are needed to assist with the drive and Mrs. Aldridge says that anyone's assistance with the house to house canvass will be appreciated. Anyone wishing to help should contact Mrs. Aldridge.

All people who want to donate are asked to have their contributions ready when the workers call. The drive will begin Monday morning.

FLYING FENCE — A section of a picket fence at the Judge Stone home in Texico wound up in this tree after being blown up by the strong wind Sunday afternoon. The foreground where another section of the fence lies, shows where it was uprooted from. Other damage at the Stone home was a blown down TV antenna which landed on a car and an uprooted tree in the back yard.

Two Elections Set Tuesday

Five in City Race

In what appears to be a quiet city election, three new commissioners will be elected for the City of Farwell next Tuesday, April 2. Five new candidates have their names in the pot and not one of the present commissioners are running for re-election.

A last-minute petition filed last Thursday afternoon boosted the field of candidates to five. The two names on the late petition were D. W. Bagley and Karl J. (Smokey) Gast. The other candidates who filed previously are Sam Aldridge, C. C. Christian, and L. E. McKillip.

To be elected will be a mayor and two councilmen. The candidate receiving the largest number of votes will serve as mayor and the two runnersup will be councilmen, unless the three elected officials decide otherwise.

Should he so desire, the one receiving the large number of votes can resign and the three can appoint one to serve as mayor, according to Wilfred Quickel, city clerk. The newly-elected officials will take over their duties at the first meeting in April and will serve two year terms.

Retiring city officials are Johnie Williams, mayor; and Walter Hardage and Clarence Meeks, commissioners.

Polling place Tuesday will be in the county courtroom and the polls will be open from 8 a. m. to 7 p. m.

Lenau Purchases Hillcrest Property

Sale of the Hillcrest Addition of Farwell by Jack Stagner, Clovis contractor, to Charles Lenau Lumber Company of Muleshoe was revealed this week. The transaction was affected last weekend.

This is the most recent in a long series of developments that began two years ago when Stagner purchased land south of the city, developed it with paving, curb and gutter, and announced plans for a housing project.

After many delays, some of the property was sold to Letay Construction Company of Dallas, and after a time, they built the first two of what were to be a number of FFA and GI-financed homes.

Their work bogged down too, however, and eventually, all representatives of the company were withdrawn from the community and things left at a standstill.

Lenau, contacted by The Tribune Monday, was hesitant to make any definite announcements on the future of the development. He pointed out that new home mortgage money is "very tight" and that lack of financing is a real limitation at the present time.

However, he added, "I will say that I didn't buy the land to just let it sit there," which was an indication that he does have plans of some sort for the future.

Lenau also said, "I'm not what you'd call a project builder. We'll try to build what people want. We won't just have three or four floor plans and that will be it. We'll build individually and we'll help arrange loans for our houses."

Lenau has been in business in Muleshoe since 1938.

District Track Meet To Be Here Saturday

Farwell will be host to District 16-B schools this Saturday in a track and field meet, which is scheduled to get underway at 9:15 in the morning. Schools represented will be Friona, Springlake, Morton, Sudan, and Farwell.

A full day of events is planned as there will be three divisions, the senior high, the junior, and the grade school. In the races, preliminary events are scheduled in the morning with the finals getting underway at 1:30 p. m.

In the senior division, Coach R. B. Tucker did not know what to expect from the opposing teams as it is the first year in this district for Farwell and the Steers have not been entered in any competition with the district teams in previous meets.

The Steers have only one meet behind them, that being the practice session with Texico and Bovina last week. They were scheduled to take part in the Longhorn Relays at Lockney Saturday but bad weather forced the Steers to return home after leaving for the meet.

Boys who will be participating this Saturday for Farwell are

David Willard, Derrell Garner, Glyn Hardage, Doug Tucker, Johnny Lovelace, Larry Cooper, Larry Pike, Tommy Lovelace, Roland Hillock, Doug Hillock, Mitchell Walls, Johnny Gulley, Johnny Armstrong, Sam Pool, Wayne Jesko, Morris Reed, Jerry Henson, and Glyn McDorman.

The following boys are entered in the high school junior division, which includes boys who were not fifteen before last September: 50-yard dash—Barthel Ford, Jimmy Hardage, Loyd Cain.

FRONT CAVED IN — Ed Blain of Blain and Son Blacksmith in Farwell surveys the damage done to the front of his business by the strong wind over the weekend. The two steel poles signify how much the wall is caved in. The clock on the inside of the wall stopped at 8 o'clock, indicating that the damage was done at 8 p.m. Saturday or 8 a.m. Sunday. Damage was reported to be \$1,900.

Strong Winds Cause Damage

Texico-Farwell was right on the edge of the blizzard which swept across the Plains Saturday and Sunday and missed the hardest part of the storm. However, light snow fell most of the day Saturday and strong winds both Saturday and Sunday caused some property damage.

Receiving the hardest jolt from the wind was Blain and Son Blacksmith in east Farwell. The gale-like winds blew in the front side of the concrete-tile shop and damage was estimated at \$1,900. It happened either Saturday night or Sunday morning.

The Judge Stone home in Texico was the scene of considerable damage, which might possibly have been caused by a small twister. Two sections of a picket fence were rooted up, one landing in a nearby tree, and a huge tree in the back yard was lifted out of the ground.

The TV antenna of the Stones came tumbling down on top of the house, bouncing off on the front

of a Ford in the driveway. Damage included a caved-in hood and smashed head lights. All the damage to the Stone home was done at 12:30 p. m. Sunday.

Mr. and Mrs. Stone had just gone back into the house from checking the TV antenna when it struck the top of the house. The fact that it

such a course. Enrollment would not be confined to businessmen and farmers. Anyone could enroll, according to Quickel.

Other business at the Chamber meeting Tuesday was in regard to the Chamber-sponsored swimming pool project. Jess Landrum, member of the swimming pool committee, showed the group a set of plans and perspective drawing. Discussion included ways and means of raising money for the project.

Chamber Plans Spanish Course

All persons interested in taking a short course in conversational Spanish in Farwell are asked to contact Wilfred Quickel, Chamber of Commerce secretary.

The Chamber is planning such a course if enough people are interested. It would be for the benefit of local businessmen and farmers, to aid them in their dealings with Spanish-American people.

The possibility of starting such a course, meeting two nights a week for three months, was discussed by the Farwell Chamber Tuesday night. The secretary was instructed to check into the possibilities of obtaining an instructor and if 15 or 20 people indicate they want to take the course, it will be offered in the near future. A tuition would be charged to help defray expenses.

With the increased Spanish-American population in the area, several queries have been received by the Chamber concerning

all happened at the same time and the tree was uprooted, makes it appear that it was more than just strong wind.

Mrs. Jim Young of Jim's 66 Service Station in Texico luckily escaped injury Sunday morning. She had just walked into the station when the Phillips 66 sign came tumbling down just where she previously had been standing.

Other than television antennas which gave way to the wind all over town no other extensive damage was reported. The wind did not create much of a sand storm as Saturday's wind was accompanied by a light, wet snow, and the snow plus the more than an inch of rain which had fallen only a few days before, prevented a major sand storm on Sunday.

Moisture content from the snow was light.

Contributors Given On Swimming Pool

With the drive to raise \$15,000 for a swimming pool in Texico-Farwell just getting underway, about 60 organizations, businesses, and individuals have donated or pledged money to run the total to \$4,350.

Individual contacts have been postponed, during the past two weeks, awaiting plans, specifications, and the exact cost of the materials needed, so as to give a definite cost before the fund-raising is continued. Bids have been received on several filter systems, along with the complete cost of diving boards, pipes, fittings, reinforcing steel, and other

needed materials.

More quotations are expected this week and by the next week, a definite figure will be announced. The organizations which have donated money and pledged support to the swimming pool are the Farwell Woman's Club, Okla. Lane Home Demonstration Club, Farwell FHA, Farwell FFA, and ESA sorority. Also, two organizations which have disbanded have donated to the fund. They are the American Legion Auxiliary and Town and Country Home Demonstration Club.

22 Vie for Senator

Parmer County voters will join voters from all over Texas Tuesday, April 2, when they go to the polls to elect a United States senator. The special election was called to fill the position left vacant by Price Daniel, who resigned after being elected governor.

Twenty-two names will appear on the ballot and the candidate receiving a plurality of the votes will serve as senator until the term expires after 1958. An attempt was made in the state legislature to create a runoff among the top vote-getters, but it failed, thus the one receiving the largest number of votes will be the senator.

A light turnout is expected for the election due to a lukewarm campaign turned in by the candidates thus far. However, a last-minute surge in the campaign could create more interest. Also, city elections on the same day in Bovina and Farwell could help the vote turnout in those county towns.

Leading candidates in the race are Ralph Yarborough, three time loser in the governor's race; Martin Dies, present congressman-at-large; Searcy Bracewell, of Houston; and Thad Hutcheson, a Republican, also from Houston. Yarborough, Dies, and Bracewell appear to be getting good support in Parmer County.

Texas is traditionally a Democratic state, but due to the large number of Democrats in the race, the vote will be split, and Hutcheson, the principal Republican, is figured to be a definite contender.

The other candidates in the race are Elmer Adams, H. J. Antoine Sr., Rev. M. T. Banks, Jacob Bergolofsky, John C. Burns Sr., Frank G. Cortez, J. Cal Courtney, R. W. (Waire) Curran, C. O. Foerster Jr., Curtis Ford, Ralph W. Hammonds, James P. Hart, Charles W. (Jack) Hill, Walter Scott McNutt, Clyde R. Orms, John C. White, J. Perrin Willis, and Huzh Wilson.

The polls in Parmer County will be open from 8 a. m. to 7 p. m. and the polling places are: Black, community building; Friona, Legion Hall; Farwell, county courtroom; Rhea, community building; Oklahoma, Methodist Church; Lakeview, Otho Whitefield place; and Bovina, Legion Hall. Lazouddie's polling place was not known at press time.

Robert Morton Injured Thursday

Robert "Prof" Morton, ag instructor at Farwell Schools, injured his left leg in an accident at the ag barn last Thursday afternoon.

Thirty stitches were taken in his leg and Morton has been confined to crutches. A sharp edge of a falling table caused the injury.

He is reported to be doing all right this week.

THE TRIBUNE'S EDITORIAL COMMENT

Let's Keep Dies

A special election which will decide who will fill the senate seat left vacant by now-governor Price Daniel will be held, as most readers surely realize, next Tuesday. But the date of the election is about the only thing easy to keep in mind—the voting itself can be complicated.

In the field are 22 candidates who seek the position. There'll be 23 names on the ballot, but Frank Connally has withdrawn. That is sure to result in some head-scratching for the average voter, who'd like to do what's right, but who will have a tough time making an accurate evaluation of the qualifications of the entries in this big field.

Since this has been an exceptionally tame campaign, and voters have not been aroused as they were in the elections of only a few months ago, it is only natural that many names on the ballot will register only question marks in the minds of the voters. Then too, checks of public sentiment seem to indicate a light turnout, so all things considered, this election could certainly have some surprising overtones.

For instance, the mere familiarity of a name is going to be worth hundreds of votes in such an election, and we'll say that Ralph Yarborough, after three throws (all misses) at the governorship, has at least made his name a household word in Texas. This fact alone could give Yarborough his needed plurality in the race—there'll be no runoffs.

However, we choose Martin Dies, congressman-at-large, whose office is about to be done away with. Dies himself is no stranger to politics, naturally, but he's not the free-wheeling politician that some of his opponents are. In fact, Martin Dies just about committed political suicide years ago when in Washington he was one of the first congressmen to turn the spotlight of public opinion on communistic infiltration of our government.

That was at a time when being "broad-minded" or chummy with socialistic planners was downright popular. It was the vogue of the moment.

When Dies exposed the pinkos in government for what they really are, he took a terrible beating at the hands of the Washington character assassins, who hailed him as a mud-thrower, meddler, trouble-

maker, and back-stabber.

Today, Dies' opponents say he's a witch-hunter. They say he's a publicity seeker like Joe McCarthy. This is not true. McCarthy has made hunting communists popular. Dies never resorted to such extreme measures, and when he did his exposes, it was anything but the popular thing to do.

Dies has a record of good service in the legislature. He is conservative, and interested in good government but a government reasonable in size and power. His voting record shows this.

By now, every qualified voter must surely know that Ralph Yarborough stands for more and bigger government, with more and bigger give-away programs that are ill-conceived and executed. His philosophy of government is far to the left.

Searcy Bracewell would make a good senator, but he doesn't have a chance in this big field. The men to watch will be Yarborough, Dies, and Thad Hutcheson, the Republican nominee, who because of the split Democratic vote, must be reckoned with.

You'll only get one vote. There'll be no runoff. Don't waste it. Vote for Martin Dies. Keep him at work for good, conservative government in Washington. His kind is badly needed.

Clovis Area Dial System to Change

The present system of numbers for the telephones in the Clovis area will be changed sometime this summer, C. H. Forester, manager of the Clovis exchange for Mountain States Tel. & Tel. Co., has announced. The change will come about to coincide with the nationwide dialing system soon to be in effect. The exact date for the Clovis change will be announced in the near future by the telephone company.

All numbers in the Clovis area will have seven digits instead of the present four or five. Two of the digits will be devoted to a prefix, the remaining five to numerals. The Clovis exchange area will be divided into eight prefixes.

As an example, Porter 2 or 3 has been assigned to the main office while West Clovis will be reached through SUNset-4; South Clovis, MURdock-3; Pleasant Hill, HUDson-9; Ranchvale, YUKon-5; Texico, HUDson-2; and Farwell, IVanhoe-6.

Forester said that the new numbers were necessary in preparation for Clovis and area to join the nationwide network of cities wherein telephones in practically any part of the United States can be dialed direct. This operation is tentatively scheduled for 1960. New Mexico will have a prefix of 505.

Here is how it will work: Suppose you have someone in Los Angeles who wishes to reach you by telephone. In his residence or place of business in California the caller merely dials "505," that places his call in New Mexico. If the person being called lives in the main office exchange area, the caller will then dial Porter 2 (or 3) and the number as Porter 2-0000. The caller will have your telephone connection just as quickly and as simply as if he was right in Clovis.

The company also announced that the long distance prefix for Arizona would be "602"; Colorado, "303"; Utah, "801." Densely populated states like Texas or California will be divided into several LD prefixes. West Texas will be reached by dialing "915". Forester stressed, however, that until an announcement is made to the inter-city dialing effect, calls will be handled throughout by operators.

M.S.T. & T. also released the following local prefixes for other

towns in this area: Bellview, GLOBE-6; Grady, ELliot-7; Oklahoma Lane, VALley-5; Ragland, GLEndale-8, and Weber City, FRANKlin-2. The Oklahoma Lane office will continue to be serviced through the Texico exchange.

The same type of numbering system will go into effect in the Portales area when the telephones are converted to dial operation on September 15.

Many cities and towns in New Mexico already have the new telephone number system, Forester says. The first to go into effect was Farmington in March, 1954, where the prefix is DAVIS-5. In relation to the change, Forester says that the company plans a series of customer education programs.

An excellent series of articles on "mental health," appearing in one of our daily papers, gives more thought to this subject than we've noticed elsewhere.

It isn't a story of complexes, compulsions, or adjustment. In simple language, it merely gives pointers on how to keep our mental health.

Four ingredients listed were: character and integrity; intelligence; ability to set a goal, keep it in sight, work toward it persistently and efficiently; and good judgment in appraising reality, likability and self-knowledge.

Reading here and there, we always find quotes that are thought-provoking.

"Look what we have done in spite of the drought" not "Look what the drought has done to us" caught our attention in an editorial in the Wellington paper.

And a Seguin editorialist had a lengthy editorial on his thoughts about the Cox-Harmon bribe charges in Austin, indicating that he thinks people don't fight for what they feel is right as they did in the early history of our country. He says "If a legislator wants to be a hero, he'll be a lot more of a hero to us if he meets a briber at the front door and tosses him out on his ca-rear!"

cigarette especially dangerous?

To find the answers to these questions, the office of the California State Fire Marshal conducted a series of tests. (NFPA Quarterly, January, 1956.)

Lighted cigarettes were dropped into wastebaskets and boxes filled with various types of rubbish and dried vegetation, and fanned to make conditions most favorable for burning. They were puffed near flammable liquids and gases, and pinched so their glowing coals fell through flammable vapors. They were laid on samples of natural and plastic materials commonly used for clothing, decoration and upholstery, and on samples of bedding and cushioning and left to burn until they went out.

The results of the tests were valuable in giving further data on this common cause of fire. One of the observations, certain to be of importance in finding the answer to the question "Why are cigarettes one of the top causes of fires?" is: sheer numbers!

In 1955, more than 400 billion cigarettes were smoked—about

800,000 a minute. At that rate, it would take only one cigarette in 2,000,000 to cause 200,000 fires a year!

If you are a cigarette smoker, the best course to follow is to regard every cigarette you light as that one in two million that may cause a fire—and take the precautions recommended by the National Board of Fire Underwriters:

1. Keep plenty of ashtrays handy—large noncombustible ones that won't tip over—and use them!
2. Never toss a lighted match or butt carelessly away. If you are at home or out in a car, use an ashtray. If you are in the woods, make sure your smoking materials are cool to the touch before you dispose of them. Do the same when emptying an ashtray into a trash can.
3. Before you go out or go to bed—especially after entertaining—make a brief inspection to be sure no cigarette has dropped into a chair, or behind a sofa cushion, or onto a carpet, or anywhere else where it could start a fire.
4. Never smoke in bed!

Mr. Businessman, consistent advertising can carry a lot of weight without being heavy. Contact your hometown newspaper for full details.

Consignments Still Needed for Auction

Consignments to the Farwell FFA community auction, scheduled for next Saturday, April 6, are still needed, says Robert "Prof" Morton, FFA sponsor. The deadline for having consignments included on the sale bill has been moved up until tomorrow (Friday) and anybody with anything to sell is asked to contact Morton or any FFA member.

The auction will work on the same principle as any farm sale, with the seller paying only a five percent commission. Half of the proceeds will go to the FFA and

half will go to the swimming pool project. Also, any donated items for the sale will be accepted.

Consignments will be accepted up through the day of the sale. The exact time and location of the auction will be announced next week. It will probably be at a downtown location, according to Morton.

Other events are being planned in conjunction with the sale. A concession stand will be set up by the Farwell home ec club, and an "Around the Clock Parade of Values" at various businesses is planned. Also, rides for the kiddies may be set up.

The complete plans will be announced next week.

Track Rules

This is the last in a series of articles on track and field rules, submitted by Shelby Jobs, Farwell coach. The week's rules deal with questions and answers on various phases of the sport.

Q—If the starter fires the pistol and then recalls the runners, can he penalize for a false start?
A—No.

Q—May the contestant in a race be recalled after the starter's gun has been fired?
A—Yes.

Q—In relay races, will a whole team be disqualified if the first runner of a team makes two false starts?
A—Yes. Coaches should be careful to place a steady man in the leadoff position.

Q—May a runner win a race without breaking the finish tape?
A—Yes.

Q—What is boxing and is it permissible?
A—Boxing is a term that describes an attempt of one or more to obstruct a competitor. Natural boxes are often formed but unavoidable.

Q—Will the distance obtained in the shot, discus, and broad jump trials in preliminaries be counted in the finals?
A—Yes. Each competitor shall be credited with the best of all his trials.

Q—If a contestant steps or falls out of his lane, does this disqualify him?
A—Not if he does not interfere with an opponent.

Q—May a high jumper or pole vaulter pass up his right to jump at any height?
A—Yes, but he forfeits his right to jump at the declined height.

Q—The discus thrower steps into the circle and during the preliminary swing, drops the discus outside the circle. Is this considered as one of his trials?
A—Yes.

Q—Should the short relays, such as the 40 and 880 be run in lanes?
A—The 440 should be run in lanes the entire distance, and it is best that the 880 be run in lanes.

Q—May a competitor who has drawn a lane far from the pole be allowed to start in back of those near the pole?
A—This is, of course, sometimes necessary for longer runs. Contestant must get consent of referee.

Q—After runners have drawn a lane, may they exchange with teammates?
A—No. It is usually wise to draw in the various events by schools and then alternate competitors in the lanes. If drawings are made by individuals they must start in the lanes which they draw, unless shifted to vacant lanes by order of the referee.

YARBOROUGH FOR SENATOR

I am for restoration of crop supports at 90% of parity. Parity does not mean profit for farmers. Parity means only a fair price for raw crops from the farm arrived at in relation to the prices farmers must pay for manufactured goods. A farmer can lose his crop and his farm even with 100% parity. Surely price supports at 90% of parity—90% of what is fair—is not unfair to anybody. Prosperity for all the people is based on prosperity on the farm. Declining farm prosperity means trouble for all of us. That is why I will continue to be, as I have always been, for restoration of crop supports at 90% of parity. (February 1957)

Five Plead Guilty

Five persons were tried in district court last Friday morning by District Judge E. A. Bills, all entering pleas of guilty to various criminal offenses. Three were placed on probation by the judge and two were sentenced to serve time in the penitentiary.

However, no commitments have been issued by the judge yet, according to Sheriff Chas. Lovelace. The judge is studying some of the cases and he is considering probation on one, Lovelace says.

Those tried by Judge Bills included Lynn Horn, charged with two counts of forgery at Friona. He was placed on probation for two years and instructed to pay off the forged checks and was assessed court costs.

Louis H. Herrod was tried for theft in Farwell and was given two years in the penitentiary, but probation is being considered. Cecil Hudson was charged with passing a worthless check in Bovina and placed on probation for three years. He was instructed to pay off all checks and court costs.

James Dennison was given two years in the penitentiary on a forgery count. He was charged with passing a forged check in Bovina. Charlie Gilmore was tried for forgery at Friona and was placed on probation for three years on certain conditions.

Trials of four other individuals were postponed until a later date. They included William Zambo and Tom Blackburn, charged with burglary in Farwell. Both are presently in custody at the county jail.

Also, cases involving Cleo Helker and A. J. Redden, both charged with theft, were postponed. They both are presently out on bonds and their cases are pending.

Judge Bills will be back in Farwell in the next few days to try the remainder of the criminal cases, according to the sheriff. He was in Farwell Friday for only a few hours.

Moonlight and Roses Senior Banquet Theme

"Moonlight and Roses" was the theme of the annual banquet held Thursday evening, March 21, at the Farwell Baptist Church honoring the Farwell High School seniors. Members of the WMU of the church were hostesses for the occasion.

Dr. John Freeman of Wayland College was guest speaker for the banquet and used as his topic, "Psychological Aspects of Love, Courtship and Marriage." Dr. Freeman expressed his belief that the best average age for marriage is 25 years. He talked of questions concerning courtship and marriage which had been asked him by his students, then explained how he had answered them.

Dr. Freeman explained that similar backgrounds of the couple involved, the same religious affiliation and a happy, Christian home life contributed much to a successful marriage.

Master of ceremonies for the evening was Jim Terrell. Mrs. Jim Terrell, president of the WMU, gave the welcome and the response was given by Donnie Carpenter. Jerry Henson gave the invocation and David Willard gave the benediction.

A trio, composed of Jeanette Hughes, Doris Pond and Betty Smart, accompanied at the piano by Mrs. Erma Jobs, sang "Moonlight and Roses" and "Melody of Love."

Other musical entertainment was furnished by Miss Guyda Baten, vocalist, and Miss Susan Logan, pianist, from Wayland College. Miss Baten sang "The Owl and the Pussy Cat" and "If I Loved You." Miss Logan also presented a piano solo.

Place cards were miniature picket fence replicas, and the pro-

grams were tiny cardboard garden gates which opened up to show the menu and other banquet data.

The tables were decorated with rows of green crepe paper interspersed with roses of all colors.

The guests entered a door decorated as a rose covered archway and a small rose-covered trellis marked the speakers place at the banquet tables.

Twenty-seven seniors were present along with Mr. and Mrs. Herman Milford, senior sponsors, Mr. and Mrs. Shelby Jobs, Mr. and Mrs. Jack Williams, Mrs. E. J. Keith, Mr. and Mrs. Jim Terrell and the guests from Wayland.

Mrs. E. J. Keith, Mrs. Sterlyn Billington and Mrs. Joe McWilliams were in charge of the program. Members of the decorating committee were Mrs. James Patrick and Mrs. Billy Dollar.

Mesdames Bruce Blair, Raymond Martin, Cecil Rundell, Clyde Magness, Clay Henson and Joe Reed served on the food committee.

Revival Banquet Is Well Attended

The kick-off banquet for the coming revival at the Texico Baptist Church was well attended and a spokesman for the group says that those attending enjoyed good fellowship and a good service following the banquet meal. Approximately 40 persons were on hand for the evening program.

Held in the basement of the church on Tuesday evening, the banquet was for officers and teachers of the Sunday School and training union departments.

Plans were made for the coming revival and goals were set for the services. Teachers and officers were asked to encourage others to attend the revival.

Following a supper of fried chicken, green beans, assorted salads, pie, coffee and cake, Rev. Carl Scott spoke to the group. Rev. Scott, pastor of the Central Baptist Church of Clovis, will be the guest evangelist for the revival which begins tomorrow (Friday) night.

Ted Boya, educational director of the Clovis church, presented special music at the program Tuesday evening and led the group in congregational singing. He will be song leader for the revival.

Mary Rolland Harding Designs Own Ensemble

Mrs. Mary Rolland Harding, daughter of Mr. and Mrs. D. O. Rolland of Farwell and wife of Nathan Harding, is one of 40 TSCW students who have recently completed designing and constructing their own fashion designs for spring in a home economics course at the Denton school.

Dr. Bethel Caster is director of the clothing division of TSCW college of household arts and sciences which cooperates with manufacturers in designing original garments from fabrics being used at the same time by professional high-fashion designers.

The 1956-57 students have appeared on many television programs and presented local shows and more than 75 fashion shows at the State Fair of Texas.

The ensemble designed by the former local girl is a sheath dress of faille, lined with light-weight figured cotton, and a lined faille coat with a fish-tail type skirt and kimono sleeves made to give an empire effect.

Return Home To Nebraska

Mr. and Mrs. Charles Snider of Grand Island, Nebr., left Wednesday afternoon to return to their home after visiting in Texico with her brother and family, Mr. and Mrs. Alfred Hapke and children.

Miss Darlene Hromas was hostess to a meeting of the Queen Esthers Sunday school class of First Baptist Church, Farwell, on Monday evening at the home of her parents, Mr. and Mrs. Charlie Hromas.

During a business session the group voted to meet once each month in the homes of the members. Names were drawn for secret pals and the group worked on a poster for their Sunday school room and played games.

The hostess and her mother served refreshments of lemon fluff and frozen punch to Misses Jean Reed, D'Ann Garrett, Emalee Tucker, Kathy Martin and Karen Schell, and Mrs. John Range, who is the class teacher.

Texico Woman's Club Hosts Dinner Tonight

Hosting an appreciation dinner tonight at their club building will be the Texico Woman's Club. Husbands and special guests are invited.

"We hope to show our appreciation to our husbands and the many fine people outside our club who have done so much in helping make our club building possible," says Mrs. Fred Danforth, president.

Committee members planning the meal are Mrs. M. H. Poteet, Mrs. John Adams, and Mrs. Les Means. Each member has been assigned a covered dish to bring for the dinner. An evening of visiting and games will follow.

In called meeting Monday the club set up more definite policies on the Teen Center which they sponsor. Mimeographed rules are posted in the building and have been distributed to the youth. Membership cards are being sold at 25 cents each to the local area youth. However, due to the limited space in the building, it is believed that only a certain number can be issued.

A special big party is being planned for Saturday night from 8 to 11 p. m. An ENMU senior student, Dale Shedd, will direct a series of planned games, contests, relays and folk games, but no dancing, as the club agreed not to sponsor dances as an organization.

Committees in charge of the party are Mrs. Agrie Jones, Mrs. Russell Johnson, Mrs. Frank Doshier, and Mrs. Avis Patterson. Refreshments of cookies will be served and cold drinks are available to those who wish to purchase them.

Texico Woman's Club Encourages Safety

Texico Woman's Club is sponsoring a safety program at the Texico School this week. The committee in charge of the safety program are all club members who are school teachers.

Helping to impress safety measures this week have been class discussions, art work, including posters, the ordering of a stop sign for the school ground, safety demonstrations and the showing of safety films.

A large, moveable stop sign was to have been delivered to the school sometime this week. The sign is through the courtesy of Coca-Cola Bottling Co. of Clovis.

The primary children are now using a playground across the street from the school building and are learning how to cross the street safely. The stop sign will be placed at the point where the students cross.

Patrol officers selected from the grades stop all traffic when children are crossing, but teachers say that the sign will be a big help there.

Films shown to the first eight grades of the school dealt with artificial respiration, bicycle safety, fire drills, fire prevention, safe living at home, school and community, and safety going to and from school.

Patrol leaders for one of the first grades this week are Zedene Burris and Shirley Booshee. This group reports that they have talked about safety with tools at school and have learned to stay seated when using sharp scissors and to walk carefully with a sharpened pencil.

Patrol leader for Mrs. C. B. Stockton's second grade is Gerald Weatherford. The class observed safety in the home and made posters showing the different methods of how things could be made safer in their homes.

Patricia Richardson and Donnie Morris served as patrol leaders for Mrs. Curtis Miller's second grade on Monday. Tuesday the leaders were Joe Alleris and Garry Burris and Wednesday through Friday, Roy McDaniel and Manuel Trujillo served in these positions.

This group made a list of rules for safety and are now putting into practice the rules they made. They

are practicing crossing the street correctly and learning to walk on the correct side of the street. They are also studying what colors on stop lights mean and to read all types of traffic signs.

With Ronnie Spence and Darlene Bell as patrol leaders this week, Mrs. Frank Seale's third graders are planning a demonstration to learn to walk on the correct side of the street and to cross only at corners and watch for cars.

Jody Doshier and Linda Hadley are patrol leaders in the fourth grade under Mrs. Avis Patterson. One student in this room brought his tool box to school and the group discussed and demonstrated the proper way to handle tools. The class has a special program planned on safety for Friday and they are also making safety posters.

The seventh graders have seen a safety film and are making a record of all the accidents which occur in their homes this week. They are also writing safety limericks.

Dr. Mary McNeff Speaks at Meet

Dr. Mary Leone McNeff was guest speaker at the regular meeting of the Woman's Society of Christian Service which was held Wednesday afternoon in the home of Mrs. J. R. Thornton.

The topic of Dr. McNeff's talk was "Mental Hygiene," and the speaker emphasized what the church could do for the mentally ill.

Mrs. B. N. Graham presided during a business session and appointed Mrs. A. D. Smith, Mrs. James A. Cox and Mrs. Albert Thomas as members of a nominating committee to select names of officers to be voted on at the organization's meeting next month.

Mrs. Curtis Jones was appointed secretary of student work to fill an unexpired term.

Three guests, Mrs. J. O. Landon, Mrs. Eddie Smith, and Laura Temple, all joined the society at Wednesday's meeting. Mrs. Curtis Jones also joined the group.

Following the business meeting the hostess served refreshments of sandwiches, coffee, tea and trifle, topped with whipped cream.

Attending were Mesdames Landon, Smith, Jones, B. N. Graham, Cox, Thomas, A. D. Smith, Grace Sanders, E. G. Blair, G. W. Atchley, Lena Yoder, E. E. Booth, W. H. Graham Sr., Ralph Humble, Ruby Dixon, Anne Overstreet, R. C. Cantrell, the hostess, Dr. McNeff and Miss Laura Temple.

The football schedule for the Farwell Steers for the 1957 season has been released. Since the schedule was set up last year for two years in advance, it will be the same this coming season except for one change, according to Calvin Murray, athletic director.

Vega, the team scheduled to play the Steers here on September 20, asked that the game be cancelled. Vega will lose almost its entire team through graduation this year and they did not feel they would be a match for the Steers next year.

Replacing Vega on the schedule will be the Ft. Sumner Foxes, a New Mexico squad. Farwell signed a three year contract with the Foxes and will meet them here in the first game of the series on October 4.

The complete schedule:

- September 6—Melrose, here
- September 13—Bovina, there
- September 20—Open
- September 27—New Home, there
- October 4—Ft. Sumner, here
- October 11—Lazbuddie, here
- October 18—Morton, there
- October 25—Friona, there
- November 1—Eunice, N. M., there
- November 8—Sudan, here

Joe Lopez of Friona, entered the third grade last month. Sammy didn't stay but two weeks, but the children and the teacher surely enjoyed having him with them that long.

The twins, Darlene and Marlene Bell, are wearing new glasses this week. They look very nice, too.

The third grade children and their teacher, Mrs. Frank Seale, wish to thank Mrs. Anson Bowers for four nice puzzles she gave them. They surely enjoy using them during the bad weather.

In geography, the children have made free hand drawings about Levi Reid's farm which they visited recently. Some pictured the corn growing, others drew the farm house, silo and barn with the windmill, the strong white horses that pulled the bundle wagon, the chickens which Mrs. Reid raised, the cattle and pigs. Their pictures are quite interesting.

It has been fun watching for signs of spring. The children have observed some fruit trees in bloom, the grass getting green, and most interesting of all—many are reporting new baby animals on the farm.

Boys and girls in Mrs. Avis Patterson's fourth grade have just completed a study in science on prehistoric animals. They enjoyed "creating" their own animals as an art project.

Dorothy Pruitt and Peggy Taylor have been absent because of illness.

Fourth graders of Mrs. Gorman Byrd's room want to report that Ronny Richardson is recovering nicely from his fall. He has missed a few days of school; however, they expect him back next week.

Also, they have just completed a large map of the United States. They placed on the map pictures of the products for which each state is most famous.

New Equipment For Eighth Grade

Members of the eighth grade are really proud of the new equipment which they have just received for their class. Some of the equipment which they have received includes new records and two new games which are used in geography to make the classes more interesting. One, which is a "United States Bingo" game, is especially attractive and educational for the students.

They also received a "Story Viewer" with films included on studies in geography.

Texico Girls Begin Volleyball Season

Texico junior and senior girls began their volleyball games, Thursday, March 7, and at present have a 3-2 record. Thursday night the girls traveled to Rosedale, to face them for their first season games.

Rosedale senior girls gained a 10-point lead on Texico and the locals were unable to gain them back, losing 26-15. In the junior game, Texico had an easy win as they led all the way, and ended 35-18.

Tuesday, March 12, Texico faced Ranchvale at Texico in three games. In the first game, the "B" game, Texico played a close one, but was unable to achieve the win, losing 26-23.

Texico junior high won their second game taking the victory from Ranchvale 36-20. The high school team won its game by a good margin, the score being 27-10.

The Texico teams will play two more games in the season before their tournament, which will be played in the Texico gym this year.

Texico's next games will be on April 2, against Ranchvale at Ranchvale.

But, if you've been upset over the chore because you don't use the safe, modern checking system, why not open up an account at Security State right away? Then, next year you'll be so glad!

Fair Crop Year Seen

By J. W. 'Indian' Crim

LIGHTS FIRE—J. W. "Indian" Crim, who farms near Lazbuddie, prepares to light the fire in preparation for his crop prediction last Friday morning. The direction the smoke was blowing at sunrise signified a fair crop year for farmers in this area.

With the wind blowing from a west-northwesterly direction as the sun peeked over the eastern horizon last Thursday morning, J. W. Crim of Lazbuddie, predicted a "fair" crop year for area farmers.

"Conditions look better than they have in the past five or six years," Crim remarked after making his initial statement. Not since 1949 has the once-a-year weatherman picked a good year and each year since then it has been bone dry. Last year the wind was blowing out of the south-southwest, which indicates a poor year.

Following an old Indian custom, which he picked up from his father, Crim gathers wood every March 21 to have ready for the fire at sunrise the following morning. According to the legend, the direction the wind blows the smoke at exactly unup will determine the crop yields for the year ahead.

Wind blowing out of the northeast signifies a good year and if it is blowing out of the southeast, it is to be a bad year. This year's wind was blowing out of the middle of the compass circle, pointing a little toward the better half.

Just before sunup, Fred Curtis, Crim's son-in-law from Farwell, said that he didn't believe the wind could blow from the north or northeast on March 22. He has been taking in the event only in recent years when the wind has been blowing from the same direction almost each time.

The wood which had been gathered for the fire this year was a little damp from a rain which had fallen only two days before and for a while it looked as though Crim might not have the fire burning brightly by sunrise. But, with the aid of a gallon jug of gasoline, the fire and smoke was ample by 6:45 when the sun first made its appearance.

Crim's farm had been soaked with two inches of moisture during the rain which had just fallen, but he said that it had no bearing on his prediction. Even though things look better, and "dryland farmers will raise some maize this year," according to Crim, his irrigation wells are all set to go, and will probably be pumping quite regularly during the year.

Adding to his forecast, "Indian" Crim said that there would be more local rains this year than in the past, but some will get them and some will not. The rains will be spotted and the winds this year will not be as severe as in the

past. This last statement came, just prior to the most severe wind storm in quite some time. However, friends and neighbors have come to rely much on the forecast. Some are always on hand for the annual event and many came by soon after to check on the outlook for the coming year.

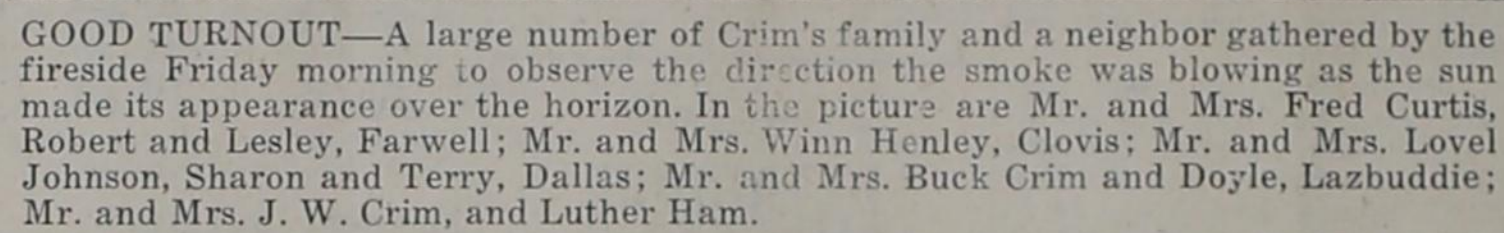

March 22 has become the date for a family reunion for the Crims, and this year all but two of their children were on hand. Two boys, Max and Weldon, are in the service. Max is stationed in Fort Benning, Georgia, and Weldon is in Germany.

Present for the get-together this year were Mr. and Mrs. Lovel Johnson and their two daughters from Dallas, S-Sgt. and Mrs. Winn Henley of Clovis Air Force Base, Mr. and Mrs. Buck Crim of Lazbuddie, and Mr. and Mrs. Fred Curtis and children of Farwell.

In the picture are Mr. and Mrs. Fred Curtis, Robert and Lesley, Farwell; Mr. and Mrs. Winn Henley, Clovis; Mr. and Mrs. Lovel Johnson, Sharon and Terry, Dallas; Mr. and Mrs. Buck Crim and Doyle, Lazbuddie; Mr. and Mrs. J. NEWS FROM THE FARM BUREAU

By RAYMOND EULER

The General Appropriations Bill, (HB 133) with Farm Bureau's amendments (with the exception of the one increasing funds appropriated for State Experiment Stations), was approved by the house last week.

Through Farm Bureau, people were glad to see the McIlhenny amendment, granting increases to State Extension Service, and the Huffman amendment, granting increases to the Forestry Service, approved, they are still exerting every effort to gain support in the senate of the Kennedy amendment, granting increased funds to support State Experiment Stations.

Representative Jesse Osborn, who usually votes pretty well in

line with Farm Bureau recommendations, voted against the latter amendment. We are convinced that he must have had good reasons for his stand, but believe that if he had had a little more correspondence from his constituents favoring the amendment, he may have favored it in his vote. The vote was 67 for and 69 against.

Farm Bureau's reason for strongly advocating the fund increase in State Experiment Stations are for product research and marketing purposes. It is believed such projects would pay their way with good dividends to boot. HB 27 by Talasek and SB 26, its companion bill by Secret, will be heard on March 26. Some who have argued

against this (flexible insurance rates) have said that flexible does not necessarily mean rates would go down—they might go up. We can assure you that the principal supporter of the bill, Texas Farm Bureau, expects rates to go down immediately upon approval of the bill. If you favor it, write Senator Andy Rogers and Representative Jesse Osborn in Austin and say so. They have indicated their probable support, but your letters would strengthen their supporting thoughts.

Eight or ten Parmer County Farm Bureau leaders will be in Austin Tuesday night and Wednesday of this week, checking on legislative activities. A report of their experiences will be in your newspaper next week.

Consider this: Whoso findeth a wife findeth a good thing, and obtaineth favor to the Lord. A man that hath friends must show himself friendly; and there is a friend that sticketh closer than a brother. Proverbs 18:22 and 24.

"The Place Where Most People Trade" Friona, Texas—Wednesday, March 27, 1957

A Bostonian was being shown around by a Texan when they came upon a statue of Sam Houston. "Who's that?" queried the visitor.

"That's Sam Houston," replied the Texan. "The man who whipped the whole Mexican Army at the Battle of San Jacinto with just a handful of Texans."

The Bostonian reminded the Texan that there was a statue in his home town of a very famous hero of the Revolutionary war, by the name of Paul Revere. "Oh yes," commented the Texan. "I've heard about him. He's the guy who had to run for help. He wasn't no Texan. But I heard tell that his horse was."

Sweet young girl at perfume counter: "I'm trying to land a Texas millionaire. Do you have some that smells like oil?"

In Eastland, Texas, a horned toad lived for 30 years sealed in a cornerstone, and that, believe it or not is the truth. They say that these famous frogs stand on a stream bank, cast their shadow

over the water, and when the fish think it is night and settle down to sleep, the frogs jump in and gore them to death. And that, believe it or not, is a lie.

Texas once had forty-five million acres of public domain, much of which was granted to early settlers. Some of it was granted right back to the state, and sometimes with a note of explanation. One German settler wrote, "De rain, it is all vind and de vind, it is all sand." Another more eloquently wrote the land office, "Forty miles to water, twelve miles to wood, six inches to H-ll. Gone to live with my wife's folks."

The A. P. quoted this report from a Texas minister at a South Carolina Baptist Convention: "Before the recent drought ended in Texas," he declared, "Baptists were sprinkling, Methodists were using a damp wash cloth, and Presbyterians were giving rain checks."

COLORED LIGHT BULBS ADD TO HOME FURNISHINGS

The new colored bulbs recently introduced to the American public can be used to good advantage in complementing home furnishings and color effects, according to extension home furnishings specialists.

Earlier colored bulbs were heavily coated and created a pronounced color effect in a room that was not always pleasing. The amount of color from the new bulbs is very slight and simply heightens or enhances the related colors in a room. For example, the green-blue

or aqua bulb gives a soft light which emphasizes furnishings that are predominantly blue or green; pink bulbs flatter pink and red hues.

Colored bulbs produce about one-third less light than white ones of the same wattage. For this reason, specialists suggest that home-makers buy 150-watt colored bulbs to replace 100-watt white bulbs. Fixtures in which 60-watt white bulbs are adequate will need 75-watt colored bulbs.

Specialists recommend using colored bulbs in ceiling and wall fixtures and in lamps that are used for decorative purposes rather than for reading, sewing or other demanding visual tasks. Never neglect the principles of good lighting simply to create decorative color effects.

WAX PROTECTS MANY HOME ITEMS

Leather, plastic or wood purses and belts keep their new look longer if polished with waxes suitable for them. Extension clothing specialists also suggest a protective wax coating on metal accessories.

Wax protects luggage from hard travel wear. Briefcases and cases for radios, typewriters or cameras last longer with a coating of the right kind of wax. Soiled leather articles can be cleaned with saddle soap before waxing.

Between seasons, apply wax to costly sports gear to keep it clean and in good condition. Riding boots, tennis rackets and fishing equipment, along with the top of the ping-pong table, need to be kept

smooth and glossy. Leather basketballs and footballs will dry out less and become less brittle if given a protective coating of wax.

Garden rakes and hoes, as well as household tools, can be prevented from rusting by liberally applying a coat of paste wax. It will preserve the wood handles too, and make them more comfortable to use.

Here is a good cookie recipe you might like to try:

Southern Pecan Bars
Makes about 2½ dozen.
Sift together—1 1/3 cups sifted flour and ½ teaspoon double-acting baking powder.

Cream—1/3 cup butter. Gradually add ½ cup firmly packed brown sugar, creaming well.

Add—The dry ingredients; mix with an electric mixer or spoon until particles are fine.

Stir in—¼ cup pecans, chopped fine; mix well, pat firmly into bottom of well-greased 12x8x2 or 13x9x2-inch pan.

Bake—in moderate oven (350 degrees F.) for 10 minutes only.

Pecan Topping

Beat—2 eggs until foamy
Add—¾ cup dark corn syrup, ¾ cup firmly packed brown sugar, 3 tablespoons flour, ½ teaspoon salt and 1 teaspoon vanilla. Mix thoroughly. Pour over partially baked crust.

Sprinkle with—¾ cup pecans, coarsely chopped. (If desired, fold the chopped pecans into filling before pouring over crust and arrange 30 pecan halves evenly over top, one for each bar.)

Bake—in moderate oven (350 degrees F.) 25 to 30 minutes. Let cool in pan; cut into bars. Store in tightly covered container.

First Texas 4-H Club Organized In 1907

4-H club work is the junior phase of the Agricultural Extension Service's work with rural residents. Forerunners of the present day 4-H clubs were the corn clubs for boys and tomato clubs for girls. The first such club organized in Texas by a county agent was in Jack County in 1907. The late Tom Marks was the county agent. Today 4-H members conduct demonstrations covering most phases of farming, ranching and home-making.

The National Democratic platform of 1956 provided for proposals to raise income tax exemptions from \$600 to \$800 a year. That's what the Democratic tax plan was. That's the tax plan I'm for. That's the tax plan I hope all Democrats will support. (December 1956)

I am in favor of a tax cut now for the little man. Let human beings that breathe and have souls get some of those tax cuts. (January 1957)

\$15 for fourth place.

It is planned to select judges for the contest outside the district. If you are interested in the contest rules, each school has a copy of the contest rules.

Well, we received a very fine shower over most of the district last week. Although we are still a long way from having the drought broken, these showers will aid greatly in keeping cover crops growing and in turn keep a lot of land from blowing that might otherwise.

If you have adequate cover or crop residues to plant your grass seed, now would be an excellent time to get this operation underway. It would be advisable to have the grass up and growing prior to

hot dry days. If you wait until then you had just as well not plant at all and save the cost of the seed, because your chances of getting a stand of grass are extremely poor.

About 30 Attend Sesame Meeting

As a further indication of the increased interest area farmers are taking in sesame seed production this year, about 30 men attended a meeting sponsored by Cummings

Farm Store of Friona at the Legion Hall there Friday night.

Robert Parker, executive vice-president of the Texas Sesame Seed Growers Association, was on hand, as was Clyde Black, a field man for the organization. Films were shown on methods used dur-

ing the past two years.

Parker indicated optimism about better marketing facilities this year, and said he hoped to find a place for about five times as much sesame this year. He estimates that a price of 8½ cents per pound will be the minimum average price for sesame in Parmer County this year.

In addition to area farmers, some men from Tucumcari attended the meeting.

THE HAPPY HOMEMAKER

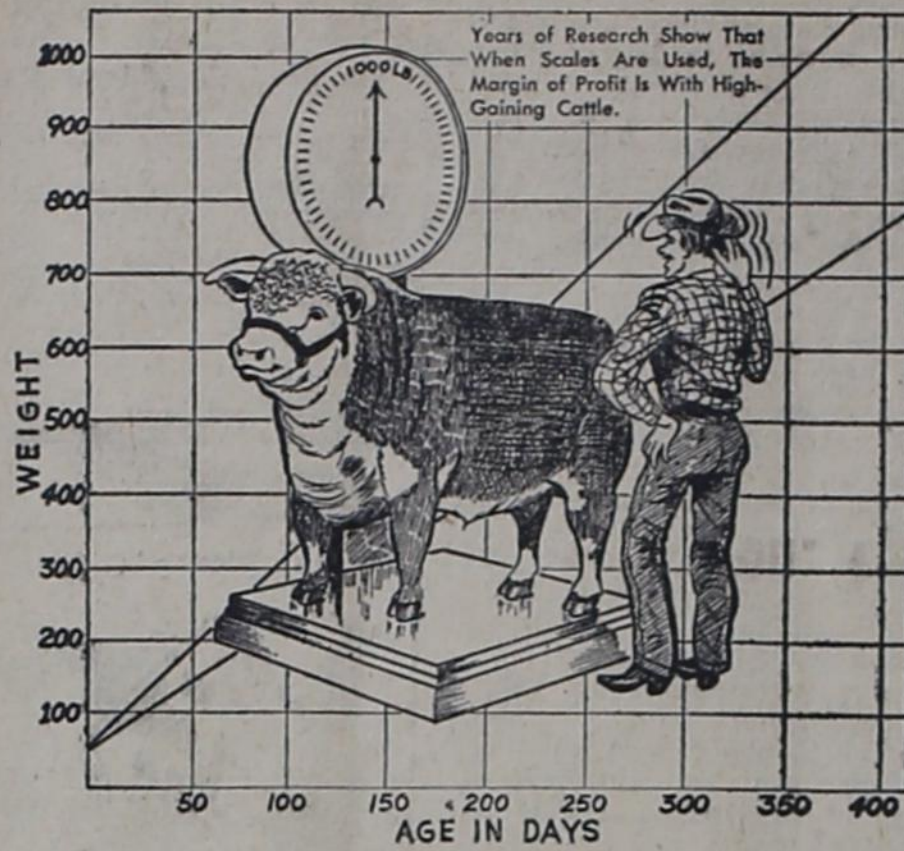

Several times during the past nine years it has been our pleasure to stop in Bovina and visit with Lady Armstrong at Gaines Hardware. On our most recent visit she consented to share some of her favorite recipes with us. No one who lives in Bovina needs to be told that she is a wonderful cook.

In the mail today we received a note and two recipes from her. Our thanks go to her for sending these recipes and we will be looking forward to receiving some more. The first one is for "Old Fashioned Pound Cake," and about it, Lady Armstrong writes: "My mother assures me that this recipe is an old, old one as it was a favorite in her family when she was young."

1 cup butter
1 3/4 cups sugar
5 eggs
2 cups sifted flour
1 teaspoon lemon extract
1/2 teaspoon almond extract

The art of this cake is the blending and creaming. Cream butter and sugar just a little at a time blending well each time. Add eggs one at a time and beat at least five minutes after each addition. Add all flour at one time and mix well until well blended. Add extracts and pour into nine inch angel food cake pan that has been greased and floured. Bake 45 minutes at 350 degrees.

Turn out on wax paper as soon as cake is baked. You may use either cake flour or regular flour. Cake flour gives you a finer and more tender texture where regular flour gives you more of the old fashioned chewy taste.

TESTED BULL SALE THURSDAY AT PAN-TECH

Because of recent interest evidenced by Parmer County farmer-stockmen in performance testing, County Agent Joe Jones this week reminds that the annual Pan-Tech tested bull sale will be Thursday, April 4, at Pan-Tech farms northeast of Amarillo.

Expected to be offered in the sale will be around 100 Hereford bulls, and about 10 Angus bulls that are progeny tested. They have "ability to gain" characteristics that will be passed on to their offspring, says the agent.

Many breeders from the Plains area will be on hand. Jones says that he hopes some cowmen from Parmer County will attend the sale. It starts at 1:30 p.m.

The second recipe which Lady Armstrong sent is for refrigerator rolls and about it she says: "Refrigerator rolls are a must on the menu when our family gets together."

Beat one egg in large mixing bowl. Add 1/4 cup shortening (Crisco or butter), 1/2 cup sugar, and two teaspoons salt and beat well. Pour in two cups of lukewarm water, then add yeast and let stand for at least five minutes or until you have sifted at least six cups of flour.

Add flour about one cup at a time, beating well after each addition, until all six cups have been

added. Save the last cup of flour to pour out on bread board. Knead as little as possible. (I usually work in about half or less than half of the last cup.) Make your dough just thick enough to handle easily. Place dough in greased bowl and grease the top. Place in refrigerator and use as wanted. Allow rolls an hour or two—depending upon temperature—for rising before being baked. These rolls will be just as good a week after they are made as they are on the first day.

Ralph W. Yarborough

TEXAS
PUBLIC SERVANT

WHAT HE HAS
DONE FOR TEXAS:

As Assistant Attorney General: Schools—Attorney General James V. Allred called Yarborough to Austin in 1931 as Assistant Attorney General to represent the Permanent School Fund of Texas and the Permanent Fund of the University. He was instrumental in obtaining the approval of the loan, paid for out of grazing-lease rentals, for the erection of the Main Building of the University. As Assistant Attorney General he recovered for Texans vast sums in money and land values—in the Mid-Kansas case alone, \$1,073,500 for the Permanent School Fund, the second largest money judgment ever recovered by Texas.

Water — in 1931 Yarborough wrote the first Texas law protecting our underground water resources.

Tidelands — In 1934 Yarborough wrote the first opinion resulting in the issuing of oil and gas leases to the submerged Tidelands in the Gulf of Mexico as a part of Texas. From 1950 to 1952 he was a member of the Executive Committee of the Texas Property Defense Association. In 1953 he went to Washington, at his own expense, to testify for the Texas Tidelands claim before the Senate Committee that reported the bill favorably for Texas.

Strappage — In 1934, Yarborough initiated, prepared, and presented to the Railroad Commission of Texas the State's case for the abolition of an arbitrary 1% pipeline "strappage" deduction from the volume of oil produced and sold in Texas. This action has resulted in saving to Texas and Texans tens of millions of dollars per year for the past twenty years.

As Director of the LCRA: Water and Power — As a member of the original Board of Directors of the Lower Colorado River Authority, Yarborough helped bring Texas the series of dams across the Colorado above Austin which has created the Central Texas lakes, conserved Texas water and established rural electrical cooperatives.

WHAT HE STANDS FOR:

Public Roads: Yarborough champions the continuation of Texas' farm-to-market road program and the increased support and acceleration of other public road construction.

Soil and Water Conservation: An authority on water rights law and a pioneer in the conservation of Texas soil and water, with practical experience in LCRA, Yarborough stands for strengthening the soil conservation program and setting up a comprehensive program of water conservation.

Schools: A former teacher, lifelong supporter of the schools, and from 1946 to 1952 attorney for the Texas State Teachers Association, Yarborough champions increased support for better public education.

Public Health: Yarborough advocates improvement in Texas' facilities for treatment of the mentally ill and strengthening of the entire state public health program.

Old Age Assistance: Yarborough has advocated, and now advocates, increased pensions for the aged.

Good Government: Yarborough champions the principles of free, honest, responsible, democratic government. He is not the tool of any man, corporation, lobby, or faction. He believes government should serve not the few but the many—indeed ALL—of the people. A middle-of-the-road candidate, he invites the support of all Texans who believe with him in these time-honored Texas principles and in the great future of Texas.

Gas for Irrigation: Yarborough believes that farmers should be permitted to buy gas for irrigation purposes and as your senator will work tirelessly to obtain this gas for the farmer.
