

Green Light Now On Loop Paving

With settlements made for right of way by both the county and the city during the past week, the way has been cleared and the light made green for building "The Loop" road around Farwell, connecting Highways 70-84 with the farm road south of town.

The paving of Ninth Street, which borders the east Farwell city limits, has been talked for many years. Last year plans were completed for the east-west route from the foot of Ninth Street by the Hillcrest Addition in south Farwell,

where the loop would join the paved farm road leading south and toward the West Camp community.

The paving will be installed at the expense of the state, which looks on the project as a desirable part of its road system from the standpoint that well-traveled roads will be provided linkage that will avoid traffic congestion in the downtown area.

Under such a program, it is required that the county or the city--whichever the case should be--would provide the right of

way free of cost to the state in return for the paving.

Acquisition of this ROW has taken several months, but finally was completed last week. The county made arrangements on the east side of the street, and the city cleared the way on the west side and where the route cut through the city limits.

Settlements for damages to R. V. Ham and R. S. Tucker were agreed upon last week by the county and city, respectively. In both cases the amount settled on was \$500. Damages for other ROW had long before been

agreed upon, or, in most cases, the owners had given the easements without cost, where no actual damage to property occurred.

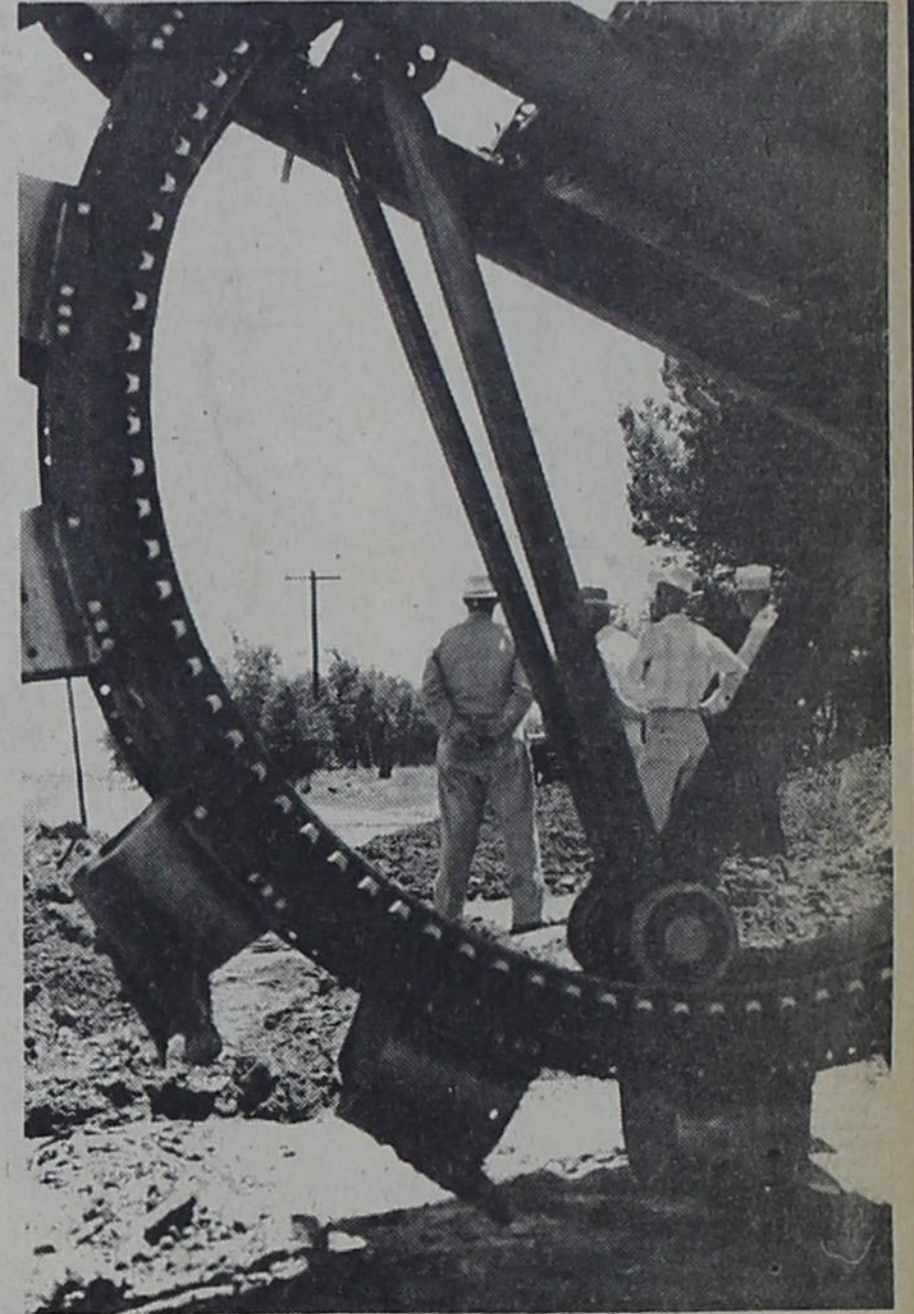

Utility lines above the ground, and gas and water lines under the ground are due for changes in location, and that has been the principal activity up until now.

However, an area east of the school has been cleared and paving material is due to be dumped there in the immediate future, pointing toward actual construction work.

J. H. McDonald, Precinct Three commissioner, says he hopes that the state maintenance crew, which will do the paving, will be able to get started "about the middle of June" on the project.

About 1.7 miles of paving

are involved in the work, and although no curb and gutter is to be installed, which is usually the case in residential paving, town boosters are seeing the project as being one of the most important improvements to the community in recent years.

PLANNING FOR PROGRESS, these men discuss the location of gas and water lines adjacent the new "Loop" paving project in east Farwell. Seen through the jaws of a ditch digging machine, the men are Commissioner J. H. McDonald, Elmer Teel of Southern Union Gas, and V. C. Venable of Farwell Waterworks.

MRS. W. H. GRAHAM

Mrs. W. H. Graham, Tribune Owner, Church Leader, Dies

A life-long career of church work, community leadership, and Christian influence in her home and her business ended in the death of Mrs. W. H. Graham at Clovis Memorial Hospital Saturday morning at 8:15.

Mrs. Graham, 67 years old, had been ill several times in recent months, and on occasion seriously so, but her death came unexpectedly to relatives and friends. She had been taken to the hospital Monday of last week, and on Tuesday doctors determined she had a mild case of pneumonia.

X-rays and other tests were being run daily and she was thought to be recovering well until early Saturday morning when severe chest pains returned. She lapsed into heart failure and died several hours later. Physicians have determined that a blood clot had passed from her heart to a lung and that her weakened condition made her unable to survive the shock. Mrs. Graham had previously had heart disease symptoms, but it was not expected that her life was endangered from this source during her most recent illness.

Funeral services were conducted Sunday afternoon at Hamlin Memorial Methodist Church, Rev. William Hardwick, pastor, officiating. He was assisted by Ebb Randol, Church of Christ minister. Steed's was in charge of arrangements and burial was in Lawn Haven Memorial Park.

Pallbearers were J. H. McDonald, John Getz, Ken Hanks, Joe Blair, Kirt Crume, and B. A. Rogers. Honorary pallbearers were members of the official board of the Methodist

Church.

Those of her immediate family who survive are her daughter, Mrs. Vance Crume, now of Hereford; and her son, W. H. (Sonny) Jr., Farwell. Five grandchildren survive.

Other survivors are: three sisters, Mrs. T. Floyd Bell of Pebble Beach, Calif., Mrs. J. G. Stephenson and Mrs. Arch Taylor of Roseburg, Ore.; two brothers, Cecil Black of Roseburg and Pete Black of California; also two sisters-in-law, Mrs. Blanche Shull of Lawton, Okla.; and Mrs. L. W. Graham of Oklahoma City. An aunt, Mrs. Minnie Barnes, lives in San Antonio.

Hop Graham, her husband, preceded her in death on May 13 of 1953. He was publisher of the Tribune for 27 years, and Mrs. Graham continued ownership after his death, although the operation of the business has been in the hands of her son.

A daughter, Sammie Lee, also preceded Mr. and Mrs. Graham in death. She died in 1951.

Araminta Black was born September 27, 1891, at DeLeon, Texas. Her parents were Mr. and Mrs. Samuel J. Black.

She and Hop first met in Andrews where he published the Andrews Times. He was a young, up-and-coming newspaperman learning the business "the hard way," and she was a winsome, blackhaired lass from Oregon, there visiting some friends. (The Black family moved from Texas to Oregon in Arrie's youth.)

The two were married on February 25, 1916, at Andrews, and there a country newspaper heritage began. Times were really tough for the hard-working couple, and they starved out after a couple of years. So, in 1918, they took their skimpy equipment, few personal belongings, and new daughter, Allie Blanche, and moved to Melrose, New Mexico, where they hoped their fortunes might improve.

Melrose did offer more opportunity than they had found in Texas (oil had not been discovered in Andrews County), and Hop and "Blackie" as he usually called her, had a modest degree of success, being able to finance the purchase of their first Linotype machine. In Melrose, Sammie was born.

They sought better fortunes again in 1926, moving to Texico where they acquired the State Line Tribune. They moved to Farwell four years later and

Breakfast Club To Honor Mrs. Jobs

Mrs. Shelby Jobs, Farwell music director, will receive a special honor Saturday.

At 10:30 a.m. Texas time, the Farwell woman will receive special recognition on KCLV Breakfast Club at the Silver Grill in Clovis. It will also be Farwell Day according to the sponsors. The presentation of a special plaque will be made to Mrs. Jobs by Pop Echols, emcee. She is to be recognized for her contribution of talent for the club and for other talent shows in the area.

Farwell school children and patrons are invited to attend the show.

their son was born.

Both Mr. and Mrs. Graham continued to be very active in the newspaper until the 1950's, and it was during those years that they left their mark on the community. Mrs. Graham's work in the Sunday school of the Methodist Church was particularly noteworthy. She was superintendent of the beginner-primary department and worked tirelessly in instructing children in Christian ways of life. Because of this many men and women, now adults, both here and elsewhere, owe the foundation for their spiritual lives to her efforts.

She was a member of the Order of Eastern Star, was a charter member of the original Texico-Farwell Woman's Club, and participated in numerous other church, school, and civic service projects.

Mrs. Graham was a very independent person and often expressed the desire that she not ever be a burden on her family or her friends even though she was in the declining years of her life and her health seemed to be failing. The family felt, then, that her desire was fulfilled when death did come, as she had felt very well until the last few hours of her life. She received the company of many friends just the day previous to her death.

Rev. Hardwick Assigned Here

Rev. William H. Hardwick, pastor of Hamlin Memorial Methodist Church, was reappointed to this church Thursday morning when New Mexico Methodist annual conference closed in Carlsbad.

Rev. and Mrs. Hardwick attended the conference and the Hardwick children were guests of Mr. and Mrs. Johnny McDonald during their absence. The local pastor was also named as district secretary of missions.

W. R. Houston remains as superintendent of the Clovis District.

REMODELING AND NEW EQUIPMENT is in store for the Texico Hotel Cafe, Fred Cornelius, owner, says he hopes to re-open the business around the first of June. Facilities inside the cafe have been re-arranged and all-new equipment is to be installed, he says.

Valuation Changes Due This Year for Farms

BY W. H. GRAHAM JR.
Valuation changes on Parmer County farmlands will be effected this year, marking the first deviation from the "distance from the county seat" system since the county was organized.

Personal and in-city property will not be affected by this change.

Early in the year, the commissioners court appointed four committees from the county precincts to study farmland and to classify or evaluate it into seven different categories. Depending on the quality of the land, it will now be valued at from \$4 to \$10 per acre for tax purposes.

This new valuation system will recognize the natural "fair market value" influence of a

property's worth. Irrigated land, for example, that lays well, is fertile, and otherwise ideally suited for farm production always commands highest market prices. Therefore it carries the "No. 1" valuation tag of \$10 an acre.

Land marked by draws, playa lake depressions, and without irrigation water, on the other hand, would draw the minimum rate of \$4 per acre.

There are five other categories in between these upper and lower classifications which are supposed to answer for most variations in the quality or worth of a piece of farm property.

This change will become effective for the 1959 tax roll. That is, beginning Oct. 1, taxes

will be payable under the new system of valuation.

Over a half century ago when the county tax framework was drawn up, the term "county seat" carried much more emphasis--not only in politics but in economics as well--than it does today. Therefore, the "zone" valuation system came to be popular and Parmer was one of the counties that adopted it.

Land in the zone closest to the county seat carried the highest valuation. Land the greatest distance from the county seat carried the lowest valuation.

Up until now, rates for the four different zones had ranged from \$4 to \$7 per acre. This (Continued on last Page)

Mrs. Alice Tucker To Speak At 8th Commencement

Mrs. Alice Jay Tucker, counselor at Farwell Schools, will be guest speaker tonight (Thursday) at the eighth grade graduation exercises.

Other speakers will include Bobby Actinon, valedictorian, and Paula Winegart, salutatorian. Class history will be read by Danny Johnson and Jimmy Berry will read the class will. Invocation will be by Rev. W. H. Hardwick, pastor of Hamlin Memorial Methodist Church, and benediction will be by Rev. Sidney Cox, pastor of First Baptist Church, Farwell.

Principal Amos Tatum will introduce the speaker and presentation of diplomas will be made by A. H. Haseloff, school board member. Special music will be furnished by girls of the class and Mrs. Shelby Jobs will play for the processional and recessional.

Honor guards are Vickie Jones, Darla Robertson, Leon Lovelace and Danny Lindop. Shelby Jobs is class sponsor.

Grand Jury Meets Friday

The Parmer County grand jury has been re-called and will convene Friday morning, May 22 at the county court-house. Only one case of any significance is on schedule.

John M. Bussell, 42, Friona, has been charged with cattle theft. He is alleged to have stolen four calves from the ranch of W. D. Cooper north of Friona. He was arrested last month in Memphis on this charge.

Members of the grand jury include G. D. Anderson Jr., Bruce Parr, Reaford Wenner, J. T. Ford, Kenneth O'Brian, James Mabry, Buck Ellison, A. L. Hartzog, Kenneth Cass, Clyde B. Monk, Dalton Caffey, and Thomas Lewellen.

They will assemble at 9 a.m.

Rev. Teters To Speak Sunday

Bro. Monroe Teters of Friendship Church will speak at the Oklahoma Lane Baptist Church Sunday morning and at the evening service also.

Members of the church also plan a basket dinner at the church on that day. All members are urged to be present for the services.

Four New Permits Issued in Farwell

Four building permits have been issued by the City of Farwell, according to Dorothy Eason, city secretary. Those include:

Willie Roberts, construction of a frame dwelling on Lot 6,

Texico Cemetery Group To Meet

Annual meeting of Texico Cemetery Association will be Saturday, May 30, at the cemetery, according to an announcement this week. The meeting begins at 10:30 (CST) a.m.

President Wesley Engram urges all members to be present. New officers will be elected.

Pioneer Passes Away In Ohio

John E. Hermes of Cincinnati, Ohio, a former resident and pioneer of Parmer County, passed away recently, according to word received here from Frank Hermes.

Better known as Ben, the pioneer came to Parmer County in 1910. He farmed west of Bovina for many years and was one of the first farmers in the Panhandle to grow sudan grass. He was 85 years old at the time of his death.

Hermes is survived by his wife, Anna, one sister, Mrs. Anna Reischer of Truth or Consequences, N. M., two daughters and three sons, all of Cincinnati. Seventeen grandchildren also survive.

Hermes had been a reader and subscriber of The Tribune since the first issue.

Texico Commencement Program Thursday

Commencement exercises for the senior class of Texico High School were last Thursday in the school auditorium. Murray White gave the invocation, followed by David Lockhart, salutatorian, with "Courage for Freedom."

Music was by the school chorus and two trios. The chorus sang "A Perfect Day," "Villa," and "America the Beautiful." Doing solo parts in the latter were LaJune Bur-

ris, Connie Tharp, D' Rene Danforth, Gale Hadley and Beth Peyton.

The Baptist church trio, Miss Tharp, Christy Bowers and Miss Hadley sang "Graduation Days," and a trio composed of Miss Danforth, Sharon Hendrix and Peggie Teel sang "Memories." Both groups were accompanied by Carol White.

The class history was presented by Anita Moss, third honor student, and the class will

by Darlene Day.

Agrie Jones, school superintendent, introduced the guest speaker, Dr. C. B. Wivel, chairman of the school of Teacher Education of ENMU. He spoke on "Social Approval." One point he brought out strongly was what you do in life depends largely on whether or not it is approved by others.

Monte Singleterry, valedictorian, spoke on "My Purpose (Continued on last Page)

Jim McGuire Speaks To Seniors

"Put on the whole armor of God" was the advice of Rev. Jimmy McGuire to the Farwell seniors as he spoke at baccalaureate services for the 32 graduating students Sunday night at the high school auditorium.

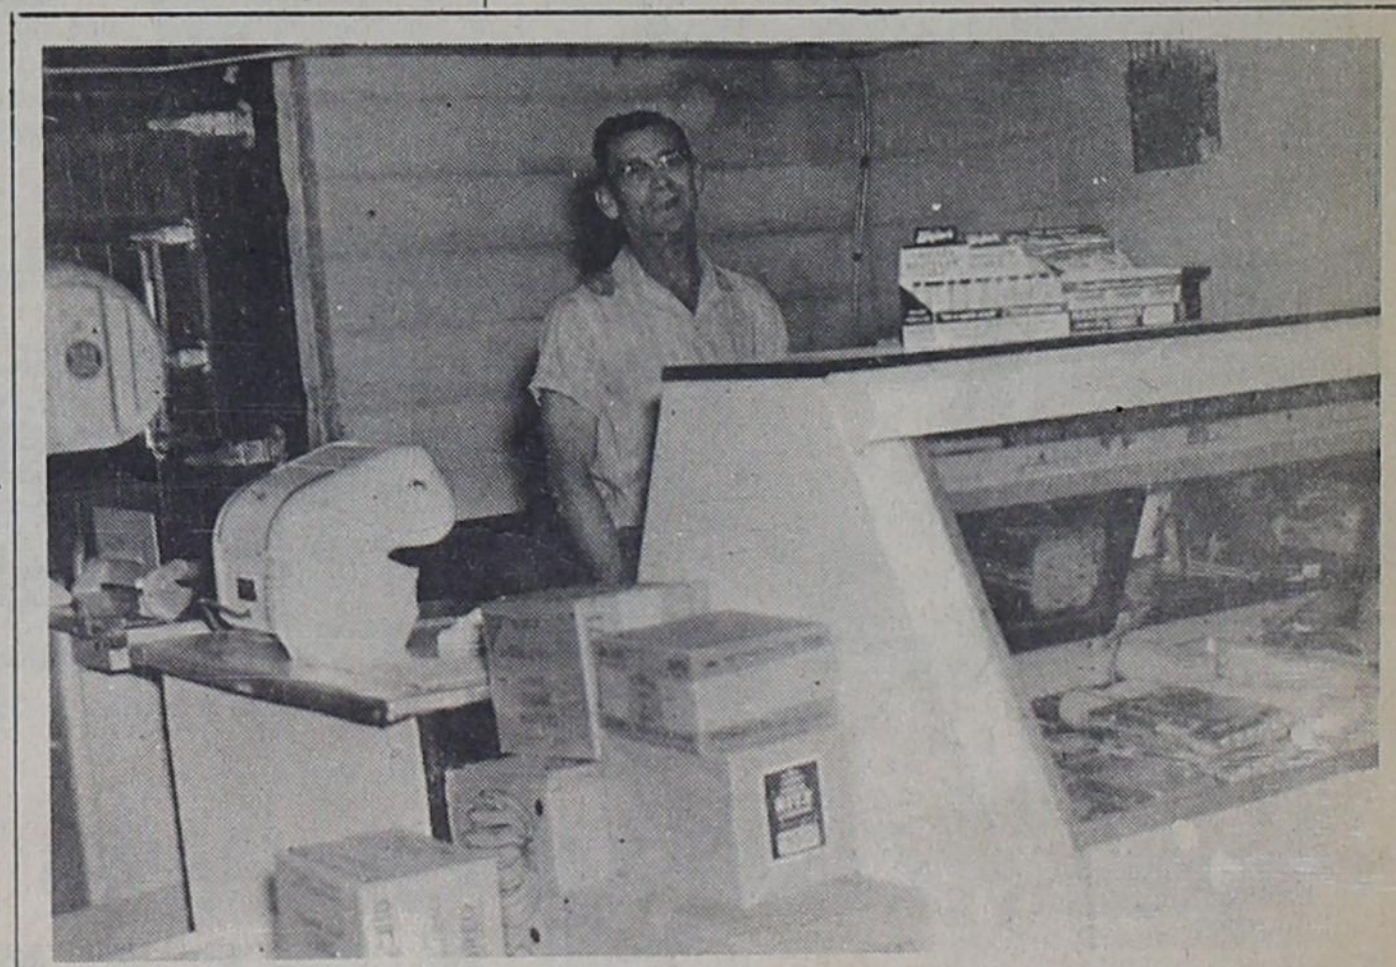

McGuire stressed the importance of wearing the armor of God to the seniors as they "step into a new life." He told them that the decisions they had had to make in the

past were minor ones compared to the ones they would start making as soon as they passed this particular crossroad of life. He urged them to seek the will of God in making decisions for their future, whether deciding upon further education or any type of vocation.

Rev. McGuire, who is pastor of the Baptist church in the Y-L Community, was introduced by Principal Amos

Tatum. Rev. W. H. Hardwick, pastor of Hamlin Memorial Methodist Church, gave the invocation.

Mrs. Erma Jobs, music instructor, directed the band ensemble for the processional and recessional. Wilma Norton, senior, sang "The Lord's Prayer," and Earl Packwood, minister of the Lariat Church of Christ, gave the benediction. June Ritchie, Mickey Run- (Continued on last Page)

ALL SMILES NOW--After a really tough job of moving, Buck Bradshaw is open in his new location in east Farwell. Buck's Superette, the business is now called, will have a formal opening soon. The business formerly occupied the Rose building.

FROM THE HOPPER

BY HOP JR.

Only at a time of sadness can a family know the true meaning of friendship. The Gramms feel especially blessed with the host of wonderful people, from this community and elsewhere, who have been with us during the loss of our Grand Lady, Mrs. W. H. Graham.

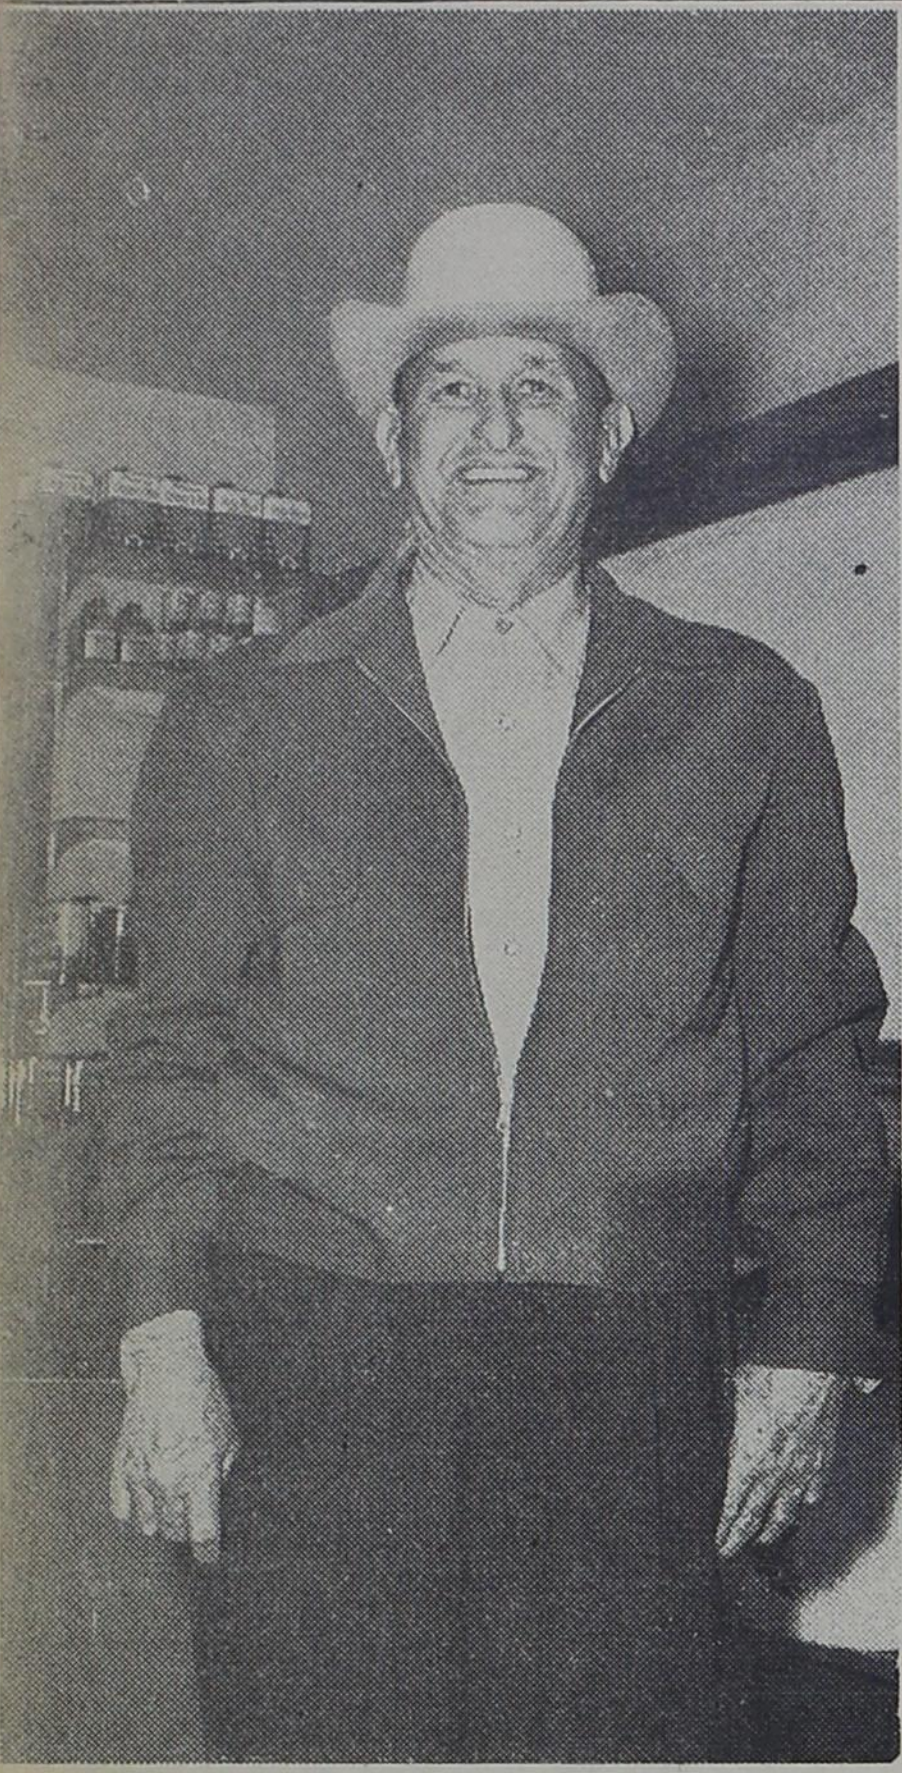

Food, flowers, visits, phone calls, telegrams, letters--all these have been showered upon us. We thank all of you for these kindnesses, but most of all, we thank you for the nice things you said about our Mother.

The only fitting tribute to the passing of a fine person is the memory that is left behind. Our friends have let us know how much Mrs. Graham has meant to them and this is more precious than anything else.

Hop Graham died in 1953, and now, six years later, his wonderful wife and our wonderful mother has too passed that way. We know that we have been left a rich heritage, and hope that in some way we will some day measure up to it. Sonny and Jeanne Graham Kater and Abie Crume The Grandchildren

Mr. and Mrs. Leonard Lewis are visiting her parents, Mr. and Mrs. Alonzo Owens in Lynch, Ky. They plan to return from their vacation about the first of next month.

Hale Center, Tex., Farmer Reports— 8100-pound Average Grain Sorghum Yield

J. C. Hurt, successful farm owner of Hale Center, reports unusually high yields of grain sorghum. He says: "Planning with J. W. Trimmer, Sr., tenant, on the proper use of Phillips 66 Ammonia and water really paid off for us."

"On one plot of 18 acres, we planted our sorghum on 20-inch rows. We side dressed it with 100 pounds of Phillips 66 Ammonia when it was five inches high. Then, following careful use of our water, we cut an average of 8100 pounds per acre from this plot. On another 300 acres, using 100 pounds of ammonia and the right amount of water, we averaged 6000 pounds."

"Without ammonia, the average yield around here is about 3000 pounds."

Other successful Southwestern farmers have discovered that they make more profit per acre, using Phillips 66 Ammonia. They get more cotton that classes higher at the gin... yields of sorghum grain or ensilage are increased... profits on wheat and small grains are increased through higher grain yields and improved forage... more marketable vegetables are harvested.

Phillips 66 Ammonia can be easily applied either by you or your distributor. See us today about Phillips 66 Agricultural Ammonia... it gives you more nitrogen per dollar than any other form of fertilizer—a full 82%.

Letters to the Editor

WE WONDER

What has happened to Democracy in this land of ours? There are many citizens of Farwell School District pondering this question as we stand by helpless and watch the ax fall on TWO MORE of our top-notch teachers in order to make one or two others happy.

We wonder how much more a teacher should be expected to do to prove himself worthy of his hire than that of Mr. and Mrs. Jobs during their eleven years of service in our school.

We wonder how Mrs. Jobs, in eleven years, has brought our music department from nothing to one of the best in its class in the state, with so little cooperation from the school.

We wonder, since the school did not have the money to pay a band assistant, why individual offers for this purpose were rejected.

We wonder why Mr. and Mrs. Jobs weren't dismissed last year, as we were told they almost were, just before the school bond election.

We wonder what prompted such drastic actions as this without any consideration at all for so many pupils, parents and taxpayers.

Yes, we realize there are many teachers in the world who are just as good as Mr. and Mrs. Jobs, but we wonder if the odds aren't very, very slim that we will ever be able to get them in Farwell.

We wonder if maybe we haven't already lost control of our school system.

These questions haven't been answered and probably never will be, but there is one thing we do know--something is wrong! We wonder what it is.

(Name withheld by request.)

"TOMORROW AND OUR YOUTH"

Hidden away among thousands of other words in our English language is a word that should be the main topic of discussion among the adults of our present time. In its meaning is the key that opens the door for our youth of today.

In this small eight-letter word there is a priceless jewel waiting to be polished and groomed. That little word, very widely used, but seldom defined, is "Tomorrow." What is tomorrow? Is it the period of time that follows the present? Is it the day that starts with another dawn?

To really think about an explanation for it, I guess it could be said it is a period that will be with us forever. We use up only one "Tomorrow" at a time. Another is always here before us and will continue to be as long as time shall go on.

As I stand on our public school playground and watch our children at play I do so with a lighthearted joy, yet with grave concern. I enjoy playing a game with myself in trying to place this boy or that girl in the future or in the "Tomorrow." We who have reached the 12 o'clock zone in our lives come more and more to realize that the good book is right when it says that life is for us but a few days on this earth, and thus we become more alarmed in realizing that our responsibility to our youth is limited to a very short period.

Thinking along this line we cannot help but be proud of the young boys and girls who are students in our Farwell School System and are prone to pat ourselves on the back and say to ourselves, "Look at that fine boy or girl. I sure did good job of raising them."

We can well be proud of

our youth. We have cause to be proud. Our judge chambers are not overflowing with young hoodlums every time a new sun rises in the eastern sky, but are we as parents of these boys and girls going to be so selfish that we would take all the credit for such a wonderful situation? We are in absolute custody of these young folks for only some 90 days out of every twelve months, and the remaining days of each child's year is spent in the custody of our public school system, teachers and administrators of such institutions.

Therefore, it is a great responsibility to us as parents to see and to know that our teachers are screened with the utmost care before being employed to guide and to administer to the educational needs of our young folks.

Some 11 years ago the "Good Lord" must have looked down on Farwell, Texas, one morning and saw its school system lacking in some of its departments. He saw need here for a music director and a man to guide the classroom work of some number of elementary boys and girls and to direct the physical training program of some 60-odd boys.

Now to "Him" who caused these two people to turn their footsteps our way we give our thanks and can say to "Him" they have never in any way been found short in your trust of them to fill our children's needs. They have worked hard in their departments, trying always to administer to each child equality, to show no favors and always stand ready to give that extra boost that some children just naturally require.

Their record here in Farwell School System will speak for itself. Their moral standards are equal to the very highest in the community. Their values as leaders of our youth are priceless. Money alone cannot buy the services these two people have, and will continue to render to our youth.

If we as citizens and parents will stand up and fight the wrong that is being done to them. When this wrong that is being done to these two grand people is defined it spells out but one thing: "Purged." Purged is a nasty word used very frequently by an enemy so dangerous to the world today that few of us only know that it is called communism. This takes us back to our original subject "Tomorrow." What do our enemies, the communists, have planned for us and our youth in that "tomorrow?" The communist brains that are at work to tear us down and destroy our great way of life, must surely smile with an ugly evil leer at a situation like we have afoot here at the present time.

The communists don't want a war waged with guns, tanks and bombs. Their plans are to destroy us from within. If a person contacts a cancerous situation on the outside of his or her body it is quickly diagnosed and treatment is relatively simple. Where, on the other hand, if a cancer attacks us from the inside we are doomed to defeat before we realize just what is wrong.

That is how the communists are attacking our lives today. Like the works of a cancer, they have no respect or regard to the wishes and wants of the majority. A majority rule has no place in the bylogs of the communist party. Can we therefore stand before our youth of "Tomorrow" and condemn the communist ways of life when they see us, supposedly their leaders and teachers, accept and uphold a similar situation?

Oh, would we but open our eyes, use the mind given us by God, exercise the liberty granted us by the dead of two world wars. "Tomorrow" and our youth will be governed by what we as adults do "Today."

Today we are pushed back to the double stripe, we are standing in the shadows of the goal posts. What are we going

JOTTIN'S By Jeanne

Those of us who have known and loved "Gram'ma" will have various reactions to her death -- and her energetic lending herself to church and community projects will be sorely missed.

There are those who will miss her as a neighbor--will remember the cakes she baked, the letters she mailed and the errands she ran.

There are those who will miss her in the WSCS, for the projects she pushed, the programs she planned and the time she gave.

There are others who will miss her in the church choir -- for the practices she attended, the specials she arranged and the lovely voice she shared.

There are those who will miss her from club work -- for her attendance at meetings, and her work as a member.

There are children who will miss her as a teacher -- for the stories she told, the illustrations she made, and the

to do about "Tomorrow?" As someone once said, it is not the size of the dog in the fight, it is the size of the fight in the dog, and as Cal Farley quotes, we still have a shirttail to hold on to.

Yes, Coach Shelby and Mrs. Irma, we are thankful you came our way. You will never know how much sunshine you have spread along our path and how much you have inspired us and our boys and girls.

Our boys and girls will surely reach a higher plane of education and moral character from just being associated with you these few years.
(Please withhold my name.)

values she represented.

But most of all, we suppose we will miss her as a grandmother -- a loving intelligent companion who scolded, entertained and spoiled with equal zeal -- depending on the occasion.

We think of a grandmother who had time to answer questions and somehow made the children understand so many things in life -- the grandmother who dialed the telephone when she made rolls or cookies and two little boys rushed over to stand beside her with their rolling pins and "helped." The kitchen was always well floured, but it was great fun.

Many of the stories she read to the boys were less interesting than those she concocted as she "made up" yarns about bunny rabbits and fanciful happenings in the animal world.

She always knew what to say to children -- whether it was her own grandchildren, the little boy down the street or one of her Sunday School children. She always told them the truth as she knew it.

Ronny and Hal will miss her more as time goes on -- when they ask again about the birth of the kitties, about Dad-Dad in heaven or why the grass is green in summer and not in winter.

We are grateful to her for her ideals -- we'll miss her as a grandmother for our children, as our second mother and as a dear friend.

Mrs. Jess Richardson of Texico, who has been hospitalized for several days, is improving and receiving visitors according to a report this week. The attending physician says she will probably be home in a few days.

Uncle Tom Randol, pioneer of this area, was ill over the weekend, but was reported to be "some better" by family members early in the week.

Indeed, I tremble for my country when I reflect that God is just. — Thomas Jefferson

These words of Thomas Jefferson, the statesman and crusader, bring to mind many of the prophets and judges of ancient Israel as related in the Bible. These men prophesied the destruction of corrupt nations, the wicked and oppressors.

We must admit that from time beginning the history of the world has been written upon the wreckage of great nations who lowered their moral standards and ideals.

Today we are the richest nation in the world and command great respect. Yet, we have become careless in our actions and standards. It is frightening to compare our country today with those fallen ones of history.

Jefferson must have been looking into the future when he said: Indeed, I tremble for my country when I reflect that God is just.

Baptists Begin Bible School

Registration and a parade will be the beginning functions of a Vacation Bible School slated at First Baptist Church in Farwell next week. Student will enroll at 9 a.m. Saturday and the parade will be scheduled from the church and continue on through town. Refreshments at the church will climax the morning, says Rev. Sidney Cox, pastor.

The school begins May 25 and ends June 3, and is planned from 8 to 11 a.m. each day. The school is designed for young

people from 3 years of age through 16. Rev. Cox, pastor of the church is superintendent of the school.

Other workers are Mrs. Bert Williams, intermediate; Mrs. Calvin Blain, nursery; Mrs. E. A. Walker, beginner; Mrs. Otis Huggins, primary and Mrs. Cox, junior.

Church Of Christ School Begins 25th

"Worshiping in God's House" illustrated by old and new testament characters, is the theme of the Vacation Bible School which begins Monday at the

Church of Christ, and continues through the 29th. The school is in session from 9 a.m. until 11 each day.

Bro. Alfred White, minister of the Church of Christ in Bovina, will teach the adult class, using as his theme "The Bible, Bible History" and related subjects. He will also show slides. All adults are invited to attend the class.

Teachers are: Mrs. Lexie Branscum, nursery; Mrs. Clarence Meeks, 5 and 6 year olds; Mrs. Lee Meeks, primary; Mrs. Ebb Randol, fourth grade; Mrs. C. L. Mahaney, fifth; Mrs. Lucille Brittain, sixth; Mrs. Neil McBride, teen-agers. Assis-

tants will help in each department. Director of the school is Ebb Randol, minister.

Mrs. Bob Hammonds, Mrs. C. J. Huffaker and Mrs. Grady Herington will be in charge of refreshments.

Pleasant Hill

The Juan Eskews were in Amarillo Sunday to visit her brother and family, the Ausburne Loftons and to see her parents, the Frank Loftons of Springfield, Colo.

Mrs. Corda Taylor and Mrs. Joyce Osborne were out of town on business and shopping Saturday.

Visiting in the home of Mr. and Mrs. James Reidhamer Sunday were her parents, the J. W. Himes of Plainview.

Sunday school and church attendance were good this past week. Registration for Vacation Bible School will be Saturday, May 30 at 8:30 at the Church. All children are invited to attend and refreshments will be served each day.

Sunday dinner guests in the J. J. Armstrong home were the Arlie Taylors and the H. M. Hoppers.

Donnie Crocker of Portales is spending a week in the home of his uncle and aunt, the Walter Crockers.

Mr. and Mrs. Marion Walker and children were Sunday dinner guests in the home of their son and daughter-in-law, the Donald Wayne Walkers of Portales. Also there were her parents, the J. V. Lemons and a sister and family of Lubbock.

The Hubert Tallys were Sunday guests of his sister and family, the Orba Coles of Friona. They visited the Joe D. Martins in Clovis Sunday night.

The L. R. Tallys were honor guests Sunday in the Orba Cole home in Friona, where 23 relatives spent the day. Dave Goodman of Denver is here for a visit with the Tallys.

Mrs. W. M. Sanders of Wheeler is visiting in the home of her daughter and family, Rev. and Mrs. Carl Lamb.

Recent dinner guests in the home of the Amos Shockleys were her parents, Rev. and Mrs. C. C. Morgan and daughter.

Life Passes in Review For Jones at Retirement

Agrie Jones, retiring superintendent of Texico Schools, was honored with a surprise tribute Saturday night, when a large crowd of well-wishers gathered for a two-hour program "This is Your Life--Agrie Jones," which was emceed by Dr. LeRoy Pennell, Eastern New Mexico University, Portales.

Skits relating various experiences of Jones' life were presented. Jones was brought to the party at the last minute, taken to the stage and informed that the program was in his honor. Christine Bowers, Texico Student Council, presented him with a white carnation boutonniere. Jones is completing 35 years of teaching, all in the state of New Mexico.

His parents of House were introduced and seated on the stage with their son. The stage was furnished similar to a typical living room. The three discussed incidents in Bowie, Texas, where Jones was born. Then a former Texas schoolmate, Granville Clark of Lawton, Okla. was introduced as a surprise for his friend.

The MC talked about elder Jones trek in two covered wagons to settle in this country--with Agrie and his brother and sister making the trip with them. The brother of Portales, was also introduced. Mrs. George Cox of Canyon, Jones' third grade teacher surprised Jones and his friends by telling what a "good boy" he had been in her classes.

Friends from his seventh grade and high school years at Floyd were present, Mr. Ore and John Russell. Russell later served on the County Board of Education while Jones was county school superintendent. Russell remembered that he drove a team of horses and buggy to school and furnished seven children with transportation.

Because Floyd was not accredited, Mrs. Hazel Harding reminded Jones that six of the students had attended school at Portales, were graduated in 1922 and Russell took five of them in his buggy to Las Vegas where they enrolled in Normal School.

On behalf of the Auld Lang Mrs. Harding gave Jones an electric grill. Members of the club who were present were Mr. and Mrs. Foy Jones, Mrs. Dolly Gordon, Mr. and Mrs. Pety Jones, Alton Harding, and Mr. and Mrs. Robert Morrison.

Jones returned to Floyd as elementary principal after completing school at Las Vegas. He married Elva Mauldin. Mrs. Jones has also been an instructor in Texico School.

The couple moved to Milnesand, where he was principal of the two-teacher school, and next went to Fairfield in Roosevelt County. Their first child, Gervadine, was born here. Dr. Harold Brasell was then introduced. The doctor has been attending physician at the births of the three Jones children, and the eight grandchildren. He mentioned that Jones was here to meet him when he came to this area in 1924.

Mrs. Marion Hughes (Gervadine), and Monte Jones, both of Alamogordo, and Mrs. Jim Starkey (Lona Mae) of Clovis were introduced. All have chosen teaching as their life work.

From Fairfield, the family went to Causey. To represent this era, Mr. and Mrs. Eldridge Mears of Portales were present. Mrs. Mears taught school with Jones at Causey. She recalled riding to school on the bus which was driven by the honor guest. Window tarps would roll up and were held by straps on warm days. On cooler days, the tarps were nailed shut to keep out the wind.

For a while, Jones was in the grocery business in Floyd, then farmed in Colorado, but finally returned to the teaching profession as Lingo principal. Mrs. Mary Barnes Thomas, former Lingo teacher, recited an original poem relating incidents he "plotted against his poor teachers." She reminded him that she taught all three of the Jones children.

Mrs. Thomas introduced Mrs. Al Mallory, who was Roosevelt County Rural School Supervisor about 1937 and she led the group song "For He's A Jolly Good Fellow." She recalled that Mr. and Mrs. Jones and several other teachers attended Saturday classes at Portales. Dr. C. B. Wivil and his wife of ENMU were introduced and he told of the days they were struggling to obtain their degrees.

The Foster family, formerly of Lingo, were then introduced. Jones had taught the seven Foster boys. Mrs. Foster, Mr. and Mrs. Durwood Foster, all of Portales, and Mr. and Mrs. Otis Foster of Clovis were present. Other Lingo faculty members who were here were Mrs. Cicero Bilberry, Mrs. Sadie Wilson.

Mrs. Mae Williams, Causey teacher with Jones, told how the principal had joked--one day she was summoned to the office. When she entered he told her to be seated on a long bench before his desk. She did, for an instant. The bench was charged with electricity.

Prior to World War II, Jones was elected to serve in the office of county school superintendent and Orville Lambert was introduced to Jones and the guests. They worked together in this office.

Next, Jones attended West Texas State in Canyon, to do graduate work. Mrs. Jones taught at ENMU and the children attended Portales Schools. Mrs. Robbins, a Canyon friend, was also present.

Jones received his MA and the family moved to Grady two years, where he was principal. Mrs. Bill Kennedy represented the community for the program.

The present faculty then sang "Our Best To You," led by Fred Danforth, band director, who is also a former student of Jones. Mrs. Avis Patterson was accompanist.

During his 10 years at Texico, all the Jones children have married and all are parents. The eight grandchildren were then introduced by their grandfather.

John Hadley, school board president who attended school at Fairfield when the family was there, made a brief talk. He and Claude Curry, also on the board, were members of the Fairfield board when it was consolidated with Texico. Jones was then county superintendent in Portales.

Letters and telegrams of tribute were read by Mrs. Buck Doran and Buck Doran presented Jones a gift from the faculty. A group from Rosedale, which was recently consolidated with Texico, made a presentation. Danforth sang "May The Good Lord Bless and Keep You" and Pinnell planned the program.

The Student Council, aided by Mrs. Doran, Mrs. N. W. Peyton and Pinnell planned the party. Other council members are David Lockhart, Wesley Ingram and Anita Moss.

Sons-in-law, Jim Starkey of Clovis and Marion Hughes of Alamogordo and a daughter-in-law, Mrs. Monte Jones, were introduced by Mrs. Jones.

The Joneses plan to reside in a mountain home near Alamogordo. He is a hunter, golfer and fisherman and plans to do some reading.

Mrs. Jessie Glenn of Alto who underwent major surgery Tuesday of last week is doing well. Mrs. Glenn is the mother of Dr. T. J. Glenn of Farwell and is hospitalized in Clovis.

Pink Roses Used For Rolland Shower Decoration Motif

Pink rosebuds were used for the decorative motif for a e-nuptial shower honoring Miss Doris Rolland in the home of Mrs. A. D. Smith, Miss Rold and Jerry Darby are to be married in June.

The serving table was covered with a lace cloth and a pink bowl placed on a large mirror. A bouquet of rosebuds, with a central arrangement flanked by double crystal holders with white tapers.

Pink lemonade was served with individual cakes of white topped with pink icing. Naps were pink and inscribed with the names "Doris and Jerry." White mints were served. Presiding at the table were Misses Carolyn Parker, Carol Ukell, Jeannette Lindop and Beverly Hubbell.

Miss Patsy Sprowls sang "Because" and "Always", with Miss Katherine Billington as accompanist. "Three States of matrimony" was the title of a reading given by Miss D'Ann Barrett. Miss Susie Blair recited "The Bride Bakes a Cake" and "When de Folks Is Gone", reading in dialect.

Mrs. Johnny McDonald resided at the guest book, and a bowl of pink roses were placed on the registration table.

Attending the shower other than those already named were: Mesdames Bill Garrett, Sharon Terry, Berda Garrett, Jim Moss, Bill Moss, Ed Rolland, Charles Lovelace, John Shum, R. S. Hines, John Zahn, W. Matthews, Ernest Kube, T. Hulsey, Loyd Routon, H. Hardwick;

Mesdames Jess Latham, Imer Langford, W. N. Foster, Ester Norton, Vernon Symcox, Ruce Blair, Virgil Schell, Annie Hill; Misses Anita Moss, Vickie Moss, Kay Kube, Carolyn Langford, Janice and Gloria Hillcock, Susan Symcox, Linda Crume, Joanne Schell, Juanita Range and Sharon Coffman, of this community.

Also Mrs. Joe Soater and Vickie, Mrs. Phillip Garrett and Mrs. Joe Don Jones, all of Muleshoe.

Sending gifts were: Mesdames Anne Overstreet, Bill Hubbell, H. R. Harding, H. R. Crook,

Prof. Morton, B. N. Graham, J. R. Thornton, Elma Tollison, Russell Johnson, Grady Herington, Albert Thomas, Bess Mansfield;

Mesdames Ruby Dixon, Derrell Garner, B. V. Bohannon, R. B. Tucker, J. H. Birchfield, E. G. Blair, A. N. Walls, Cecil Dykes, Dutch Bell, C. H. Nicholson, Lenton Pool, Glyn McDorman;

Mesdames Ralph Humble, Mem Sprowls, A. E. Tatum, Sterlyn Billington, Olan Schluter, John Adams, Judge Stone, Earl Routon, Windbourn Harney, E. R. Coffman, Joe Crume, Loyd Cain, Millard Murray, Odum Smith, John Armstrong, Dick Felts and W. H. Graham Jr.;

Also Mrs. Nathan Harding of Odessa; Mesdames E. H. Locker, Fred Ramm and Byron Guinn of Muleshoe; and Misses Dorothy Tollison, Judy Herington, Emalee Tucker, Ruby Hillcock, Carolyn Routon and Fern Smith.

Mrs. Rex Miller Shower Honoree

A pink and blue shower honoring Mrs. Rex Miller was given in the home of Mrs. Earl Routon last week. Mesdames Routon, Faye Garner, Oscar Hubbell, Elmore Hendrix, and Gerald Doshier, hostesses, presented Mrs. Miller with a high chair.

Refreshments of cake and pink lemonade were served from a beautifully laid serving table. The pink and blue cake was decorated with a stork carrying a bundle and with an umbrella.

Those attending were Mesdames Vernon Symcox, Carliss Woods, W. H. Dollar, Bull Dollar, Bob Dollar, Bobby Blair, Judy Murrey, Rita Dollar, and Eula Tipton.

Seniors Guests Of Lockharts

Mr. and Mrs. J. T. Lockhart honored the Texico graduating class with a party after commencement Thursday night. Refreshments of floating lime punch, white cake decorated with flowers and nuts and mints were served to the following seniors:

Monte Singleterry, David Lockhart, Darlene Day, Anita Moss, Bobby Stover, Jerry Bowers, Billy Hammit, Johnny Hammit, and Teddy Roth.

Other guests were Dr. and Mrs. C. B. Wivel, Mr. and Mrs. J. Buck Doran, Mr. and Mrs. Agrie Jones, Jerry Henson, Buford Watson, and Betty Ruth and Kathy Lockhart.

Pink crepe paper streamers covering the ceiling came together over the serving table which was covered in a white cloth and centered with the punch bowl. Spring flowers further decorated the room.

David Lockhart, class president, presented a gift to Mr. and Mrs. Doran on behalf of the senior class to show their appreciation for the work they have done as senior sponsors.

NEW OFFICERS OF FARWELL STUDY CLUB were installed at a dinner meeting Monday night in a Farwell restaurant. Mrs. E. G. Williams, front left, conducted the candlelight installation. Next to Mrs. Williams is Mrs. Calvin Murray, president, and on the right are Mesdames M. A. Snider Sr. and Jim Terrell who will serve as reporter and secretary respectively. On the back are Mrs. Sam Rundell, treasurer; Mrs. John Aldridge, vice president; Mrs. Mose Glasscock, auditing committee member; and Mrs. Claud Coffey, parliamentarian.

Club Installs Officers

Installation of new officers highlighted a dinner meeting of Farwell Study Club at a local restaurant Monday evening. The candlelight service followed a meal of turkey with a strawberry shortcake dessert.

Tables were decorated with arrangements of white and soft blue iris in white ceramic containers. The officer's table was laid with a white cloth and centered with a floral design of large yellow tulips and deep purple iris. On either side stood four-tiered candleholders with vari-colored tapers.

Each candle represented an officer's duty, and a gold taper centered the candle clusters. Each officer lit a taper from the center as she accepted the duties of her office, says Mrs. L. R. Vincent, reporter.

The meeting was opened by the outgoing president, Mrs. Sam Rundell and Mrs. William Hardwick gave the prayer. The members participated in the club collect.

During the evening, secret pals were revealed and gifts were exchanged. Mrs. W. N. Foster gave the treasurer's report. The club gave \$25 to send delegates to Boys State and Girls State this summer. A report on the cancer drive, which is to continue through May, was also heard.

Mrs. John Aldridge and Mrs. Jim Terrell discussed their trip to the district meeting of Federated Womens Clubs in Lubbock recently. They were delegates from the local organization.

Mrs. Calvin Murray was voted as outstanding club woman of the year and received a gift from the president, Mrs. Rundell. The outgoing president was also presented a gift of appreciation.

Installing officer was Mrs. E. G. Williams. To head the club next year is Mrs. Murray. Others to serve with her are Mrs. Aldridge, vice president; Mrs. Terrell, secretary; Mrs. Rundell, treasurer; Mrs. M. A. Snider, reporter; Mrs. Williams, historian; Mrs. Claud Coffey, parliamentarian.

Mrs. Sidney Cox gave the closing prayer. Present other than those already named were: Mesdames M. C. Roberts, Johnie Williams, Willie Williams, Bill Garrett, Mose Glasscock, Joe Crume, T. J. Glenn, and Miss Jimmie Lou Wainwright.

Concluding the session was a report of the flower committee and the auditing committee by Mrs. Glasscock. Tribute was given Mrs. W. H. Graham, member of the group, who died over the weekend.

Betty Lockhart Entertains Friends

Miss Betty Lockhart was hostess for an end-of-school party at her home last Friday evening. Decorating the house on the outside were pink crepe paper streamers which encircled the porch columns.

The inside was also decorated with pink streamers which criss-crossed the room. Guests were served floating punch and cake from a serving table centered with the punch bowl and spring flowers. Several games were enjoyed by the group.

Those attending were Alice Gooch, Donna Kay Osborn, Lattitia Harrison, Sharon Thompson, Vicki Lovett, Carol White, Judy Sharp, Dianne Baldrige, Glendon Moss, Don Reid, Dwight Turner, Richard Ridings, Vic Harrington, and Bill Reid.

Mr. and Mrs. A. C. Henne-man and Vickie of Amarillo visited over the weekend with the Frank Seales. Mrs. Henne-man is a daughter of Mrs. Seale.

Clouds Suspended Above Table For Bridal Shower

Pink clouds of angel hair were suspended above the serving table with silver raindrops of "good wishes" falling from the clouds, when Miss Wilma Norton, bride-elect of Leon Jamison, was feted Tuesday afternoon at the Farwell Baptist church. "Showers from heaven" was the decorative theme, and three hues of pink were used in the motif.

Centering the linen covered serving table was a milk glass fruit bowl with pink roses forming a foundation for a miniature bride and bridegroom figurine. Completing the design was a pink parasol. White tapers were accented by tiny pink parasols and were placed in crystal holders.

Small ices in which pink rosebuds had been frozen, floated in the pink punch, and white cake was served with nuts from crystal and silver service. Small nosegays of rosebuds were caught at the corners of the table. Traditional napkins in pastel colors were used.

The honoree was presented a corsage of pink rosebuds and Mrs. L. L. Norton and Mrs. Vernon Jamison, mothers of the young couple, were given pink carnation corsages.

"This Could Be You" was the theme of the program. Juanita Range was master of ceremonies and interviewed Mrs. D. W. Carpenter, grandmother of the honoree, and Mrs. Bruce Blair, Miss Martha Blair sang "I'm In Love With A Wonderful Guy" dedicated to Miss Norton. Mrs. Shelby Jobs was accompanist. Miss Norton was interviewed and received her gifts.

Pink rosebuds also decorated the registration table. Mrs. Bobby Johnson registered the guests and Miss Darlene Hromas and Miss Range presided at the serving table.

Other hostesses were Mesdames Earl Routon, Oscar Hubbell, John Range, Everette Christian, Jess Latham, A. N. Walls, Herbert Potts, Vernon

BAPTIST NEWS
Brotherhood members attended West Camp Church recently and presented the program for the organization there. Going were Bernard Nelson, Delbert Garner, Z. T. Byers, Jeter Garner, Neil Stewart, Harold Carpenter, Howard Garner, Jimmy McGuire and Bob Verrete.

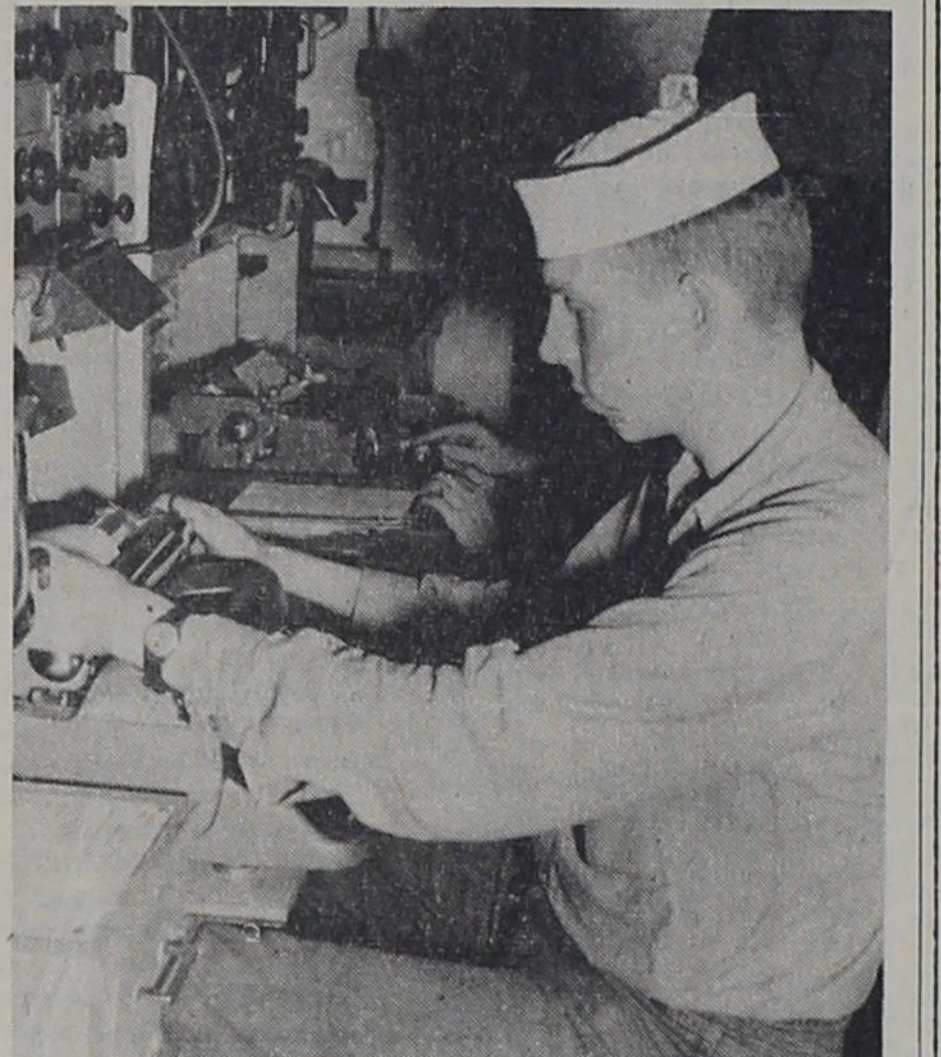

Attending the Bible School clinic in Bovina Thursday were Mesdames Dee Brown, Wayne Hardage, Z. T. Byers, Delbert Garner, Donald Watkins, Walter Verner, Frank Edwards, Harold Carpenter and Bro. and Mrs. Jimmy McGuire.

Deborah class met May 11 with Mrs. Dee Brown with Mrs. Vernon Symcox presenting the devotional. Ladies held a question and answer session on the Bible with all members participating. Pineapple upside down cake, ice cream and punch were served.

RICHARD HAPKE, former editor of the Tribune, finds his former training on interviews to be helpful in his new assignment with Uncle Sam. Hapke is now a reporter on the service paper, Stars and Stripes in Korea and Japan. He is shown here as he interviews a Korean general.

METHODIST NEWS
Executive committees of both circles of the WSCS met Wednesday afternoon in the Lee Jones home for a business meeting. Attending were Mesdames Sam Billingsley, Donald Christian, R. E. Blankenship, Troy Christian, T. L. Kent, George Douglas, Wayne Foster and Merrill Rundell.

Frank Hapke Works Aboard USS Pollux

PEARL HARBOR, Hawaii -- Texico Navyman Frank E. Hapke types a message aboard the general stores issue ship USS Pollux, while enroute from Japan to the Philippines.

The son of Mr. and Mrs. Alfred E. Hapke of Texico, Hapke, a radioman first class, is responsible for the supervision of communications in the radio central division of the Pollux. His ship, operating from Yokosuka, Japan, carries supplies to all units of the U. S. Seventh Fleet -- enabling them to remain at sea for extended periods.

A 1951 graduate of Texico High School, Hapke entered the Navy in July, 1953 and joined the Pollux in March, 1958. His previous assignments include the destroyer USS Duncan and the destroyer tender USS Frontier.

Hapke received a 16-week course of instruction at the Navy's Radioman "A" School and the Teletype Maintenance "C" School -- 20 weeks.

TEXICO--

Holds." Presentation of diplomas was made by John Hadley, president of the school board. Special awards were presented by Paul Frederick, high school principal. Singleterry received the M. C. Roberts Award of \$25, and the outstanding typist award. Anita Moss was recognized as outstanding business education student. Mrs. A. D. Smith also presented Miss Moss with the DAR Good Citizen Award. To receive a scholarship, students must apply for one. Those applying and maintaining a scholarship were Monte Singleterry, David Lockhart, Raymond Hadley and Ann Spies.

Benediction was given by Wesley Engram. Processional and recessional were played by Miss Danforth, graduate escorts were Harlo Wall and Gayle Potts.

Four Receive Scholastic Awards

Monte Singleterry, Mary McDaniel, Glendon Moss and Dwight Turner were named honor students in each of the four high school classes Friday by Paul Frederick, principal of Texico School. The award is given to the person in each class having the highest scholastic average.

These students will have their name placed on the honor plaque, which holds a place of distinction in the trophy case. The award is sponsored by the student council to promote scholarship in the school.

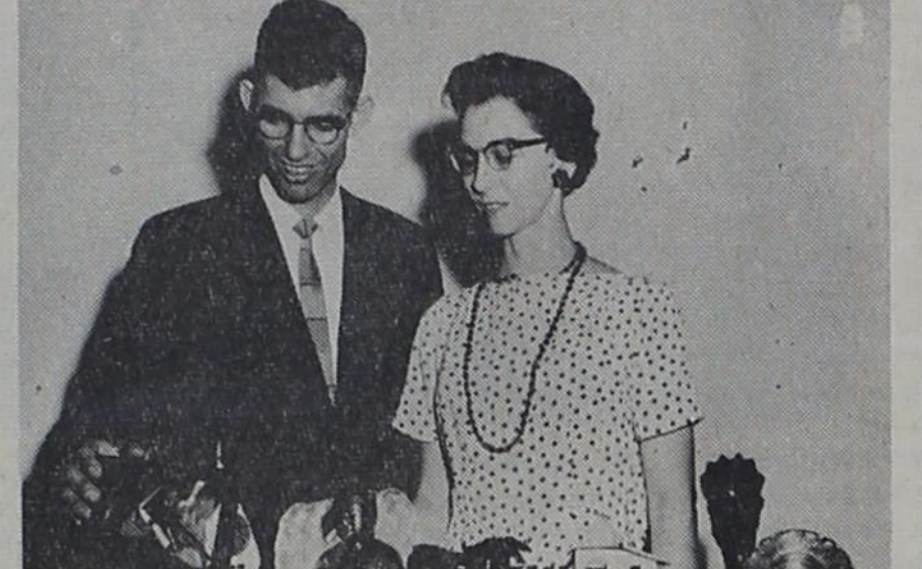

Monte, senior honor student with an 11.0 average, is the son of Mr. and Mrs. Glen Singleterry. He was chosen best all-round student in Texico high this year, was class valedictorian and was given the M. C. Roberts Award. He also received a medal for being "Outstanding Typist" by the Underwood Typewriter Company. Second is Anita Moss, daughter of Mr. and Mrs. Jim Moss, with a 10.1 average.

Mary, winner of the honor in the junior class, with a 10.2 average is the daughter of Mr. and Mrs. Clyde McDaniel. She has been active in all sports, was class favorite and is a delegate for Girls State. Second was Valeria Meier with a 10.0 average. She is the daughter of Mr. and Mrs. Frank Meier.

Glendon, son of Mr. and Mrs. Jim Moss, was highest in the sophomore class with a 10.5 average. He is a member of the band and was listed as Who's Who in English this year. He was recently elected junior representative to the Student Council. Gary Singleterry, son of Mr. and Mrs. Glen Singleterry, was second with a 10.2 average.

Although the race in the freshman class was close Dwight Turner, son of Mr. and Mrs. Taft Turner, was first with a 10.7 average. Dwight is a member of the band and student council. He is active in all sports and was listed as Who's Who in English this year. Placing second with a 10.6 average was Kit Doran, son of Mr. and Mrs. J. Buck Doran.

Rev. and Mrs. Thomas L. Watson, newly appointed missionaries to Uruguay, look at curios from a collection at the headquarters of the Southern Baptist Foreign Mission Board in Richmond, Va.

Former Texico Girl To Mission Field

Mrs. Thomas L. Watson, a native of Texico, N. M., was appointed with her husband for mission service in Uruguay recently by the Southern Baptist Foreign Mission Board.

Mrs. Watson is the former Joan Smith, daughter of Mr. and Mrs. A. Gordon Smith, of Route 1, Texico. She attended West Texas State College, Canyon, and Southwestern Baptist Theological Seminary, Fort Worth, and received the bachelor of arts degree from Eastern New Mexico University, Portales. She has been a first grade teacher in Fort Worth, and received the bachelor of arts degree from Eastern New Mexico University, Portales. She has been a first grade teacher in Fort Worth and a substitute teacher in Nocona, Tex., and House, N. M.

Watson is pastor of Valley View Baptist Church, Nocona, where he has served since May, 1957. He formerly pastored First Baptist Church, House, and Calvary Chapel of First Baptist Church, Canyon.

A native of Lorenzo, Tex., he grew up in Portales and received the bachelor of arts degree from Eastern New Mexico University. He also attended West Texas State College. He prepared for the ministry at Southwestern Seminary, where he received the bachelor of divinity degree and completed

Hughes, Hubbell Named Delegates

Joan Hubbell and Joe Hughes were chosen to represent Farwell High School at the 1959 session of Boys and Girls State.

Joan, daughter of Mr. and Mrs. Oscar Hubbell, is being sponsored by the Friona American Legion and will attend girls state on the University of Texas campus. She has been active in all school affairs this year and was a member of the basketball team and the pep squad, was junior class candidate for Halloween princess and has been recently elected business manager for the 1960 Farwell annual. She will be a representative from the senior class to the student council next year.

Joe, 17-year-old son of Mr. and Mrs. B. V. Hughes, will leave for Boys State, which will also be on the University of Texas campus, June 6 and will stay until the 13th. Some of the activities that he has participated in this past year include being a member of the football team, band and chorus. He was chorus president and sang with a quartet called The Four Spades. Joe was recently elected representative to the student council for next year and also a member of the annual staff.

Alternates are Ruby Hillock, daughter of Mr. and Mrs. Myron Hillock, and Larry McDorman, son of Mr. and Mrs. James McDorman.

Mrs. Hanks Home From Hospital

Mrs. Ken Hanks returned to her home in Texico last Thursday from Clovis Memorial Hospital where she had undergone major surgery. Family friends say that her condition is good this week.

Mrs. Hanks' mother, Mrs. James Brown, of Lake Wales, Fla., is here with her daughter, Tommy, young son of the Hankses, also returned home this weekend from Moriarty where he had been with Hanks' parents while Mrs. Hanks was hospitalized.

Joanne Brown To Summer Training Program

Miss Joanne Brown, daughter of Mr. and Mrs. D. J. Brown, Texico, received word this week that she was one of 15 high school students in New Mexico selected to attend the National Science Foundation High School Student Summer Training Program.

The training program is scheduled June 8 through August 7 at New Mexico Institute of Mining and Technology at Socorro. All expenses for the students will be paid by the National Science Foundation.

To be eligible for the training program, students must have completed three units of study in English and math and also have studied biology and physics.

Miss Brown will be a senior at Texico High School next fall.

AUNT DIES

Mrs. W. H. Graham Jr. received word Tuesday night of the death of her aunt, Mrs. Rosie Bristow. Mrs. Bristow had been ill for quite some time and passed away in a Lubbock hospital where she was under a doctor's care for a heart condition and a broken leg.

Services were Wednesday in Ackerly. Mrs. Graham was unable to attend.

JERRY JOHNSONS VISIT HERE

Mr. and Mrs. Jerry Johnson and Debbie came in Thursday night from Stillwater, Okla., where they had been visiting her parents, Mr. and Mrs. Ival Hesser. They also visited the Jack Hessers.

They were guests of his parents, Mr. and Mrs. Russell Johnson here. The family returned to their home in Carlisbad Monday. The Johnsons entertained the visitors with a family dinner Sunday.

VALUATION--

system of values did not take into consideration such factors as irrigation water, natural fertility, or even cotton allotments, which often have more to do with land's worth today than merely its location.

In effect, then, the change of the commissioner's will be a move toward a more up-to-date system of valuing land, but that is not the only purpose it will serve. The reappraisals will result, over-all, in an upward adjustment of the total land valuations.

The court has chosen this method as being the most equitable means of increasing, by a moderate amount, the income of the county. Under the new system of values, the total tax roll is calculated to increase from about \$10 million now to \$12 million for the new plan.

The county tax rate of \$1.25 per \$100 valuation would result, then, in an increase in county taxes of roughly \$25,000 per year.

This extra revenue is sorely needed to meet ever-expanding expenses in the county. Maintainers are one of the county's biggest expense items. They cost around \$12,000 each as recently at 1947. Now they sell for about \$20,000 each.

The only county debt on the books is \$4,000 for road machinery warrants.

And all across America a gigantic road building program is underway. Most of the major highway networks are being built under federal and state programs, but the effect is felt on the county level also. Farmer County has a lion's share of national highways, and will be expected to help provide expensive right-of-way for widening these highways.

For example, Highway 70-84 from southeast of Lariat to Farwell will soon be expanded to a modern four-lane highway. The cost of the right of way to the county alone will be about \$60,000.

Besides these heavy capital expenditures, the ordinary expenses of operating any business--be it privately owned or run by the government--are increasing. Salaries, fuel, lubricants, maintenance, supplies, and other items are swept along in the tide of inflation.

The reason the commissioners have managed to delay an increase in taxes this long is because of the natural pattern of growth that has continued on county farms. Improvements added to farms has made it possible for the tax roll to grow from around \$6 million in 1947 to the present \$10 million level.

This has gone a long way toward paying for increased expenses, and it's just now beginning to fall a little behind. Actually, the county is in excellent financial shape--much more so than many of the counties of the Plains. The commissioners just want to keep things that way.

Loyde Brewer, county judge and chairman of the commissioners court, says this week that many taxpayers are confused about the coming session of the court, which will be partly for the purpose of sitting as a board of equalization.

Notices were sent out to property owners last week notifying them of the change and of the court session. The law requires that taxpayers be informed of any increase in taxes, and so the cards were sent out.

The notice is not meant to be one requiring property owners to appear at the meet-

James Mabry Wins Award At Wellington

James Mabry, of the Hub Community, was awarded a check for \$100 and presented with an engraved plaque for being the Outstanding Farmer at a dinner honoring the Region One winners of the Texas Soil Conservation Districts held at Wellington Saturday night.

Miss Celia Berry, of Bovina, although not present at the dinner, was named second place winner in the region for her essay on Saving the Soil and Saving Texas at the dinner.

Area residents who made the trip to Wellington Saturday night included Mabry along with A. L. Black and Bruce Parr, both directors of the local Soil Conservation District.

Mabry was earlier named winner of the title of Outstanding Farmer in the Farmer County Soil Conservation District and went on to win regional honors as did Miss Berry with her essay.

An estimated crowd of 350 persons attended the dinner where a total of 30 regional and district winners were recognized and presented checks and plaques for their honor by Walter Humphrey, editor of the Fort Worth Press and founder of the Save the Soil and Save Texas awards.

Edd C. McLeroy, farm representative of the First State Bank of Dimmitt was named outstanding non-farmer conservationist at the banquet.

More than a million farm residents, according to the National Safety Council, are injured in accidents each year.

The National Safety Council says it is human failure—not motor vehicles, machinery or equipment—that is the basic cause of farm accidents.

REGION ONE OUTSTANDING FARMER---James Mabry, right, of the Hub Community is awarded his check and plaque for his being named the Outstanding Farmer of Region One of the Soil Conservation Districts at an Awards Banquet held in Wellington Saturday night. Walter Humphrey, left, editor of the Fort Worth Press made the awards.

SOIL CONSERVATION DISTRICT NEWS

We would like to take this opportunity to congratulate James Mabry on winning the outstanding conservation farmer award for Region 1 of the State of Texas. The award was presented to him last Saturday night at the Save Soil and Save Texas Banquet in Wellington. Also, our congratulations to Celia Berry of Bovina for placing second in the school essay contest.

Now is the time to start thinking about planting soybeans. More and more farmers are showing interest in this crop as a soil improving crop as well as a cash crop for part of their land.

Soybeans is a summer legume which adds nitrogen to the soil when inoculated. Suggested planting dates are for May 15 to July 1. Seeding rates for large seed varieties are 30 to 45 pounds in rows and 60 to 70 pounds drilled. For small seed varieties, 15 to 30 pounds in rows and 45 to 60 pounds drilled.

The Texas Section of the American Society of Range Management is holding a field day near Wheeler, on June 12. The tour will start on the Tom Britt ranch and will visit adjoining ranches. Good range management will be seen. Spectacular results in brush control will also be observed. Research station personnel, college professors, and range specialists, as well as a large group of ranchers is expected. The starting point is nine miles east of Wheeler on the farm-to-market road. Starting time is 9:30 a.m. The field trip will continue in the afternoon.

Arguments have gone back and forth for years on the matter of using sawdust for mulching plants, with much evidence both for and against the issue, according to Sadie Hatfield, extension homestead improvement specialist. One concern has to do with the fact that plants sometimes tend to become pale green or yellow after they are mulched heavily with chips, shavings, bark or sawdust. Many people think that sawdust and woody wastes are poisonous. This is not the case. Scientists with the Bureau of Plant Industry investigated and found several years ago that the yellowing is brought about by a soil, microbe, not by poisonous material in sawdust or other woody waste. These microbes like nitrogen so well that they use it up; hence, the plant does not get enough to

WASHING COTTON SHAG THROW RUGS

One advantage of small cotton shag rugs is that they can be washed. But how they look after tubbing depends a great deal on your laundering methods, according to extension home management specialists.

First decide whether your washer can take your rug. Specialists say any rug of more than five pounds dry weight probably is a bit heavy for a washer and dryer regardless of size. Better send heavy ones and those larger than three by five feet to a laundry.

If you decide you can wash your rug in your washing equipment, do so before the rug becomes very soiled. Vacuum it thoroughly first. Use hot water if the rug is quite soiled, warm water if it's not so dirty. Use the soap or syndet (synthetic detergent) you like for colored cottons.

Place one rug or two smaller ones in the washer. Be careful how you load some machines. Balance the load. With one rug you may have to add bath mats or bath towels for balance. A wash period of six to eight minutes should be enough. Rinse well to remove every bit of washing compound. Any left will increase future soiling.

A dryer fluffs shag rugs beautifully. Overdrying has a tendency to mat the pile, so check the drying time carefully. Rugs can be successfully dried on a line, too, whether they are washed in an automatic or non-automatic machine. With a wringer type machine, loosen the rollers before you pass the rug through.

A fabric softener added to a last, clear rinse water makes shag rugs more fluffy.

USING SAWDUST FOR MULCHES.

Arguments have gone back and forth for years on the matter of using sawdust for mulching plants, with much evidence both for and against the issue, according to Sadie Hatfield, extension homestead improvement specialist.

One concern has to do with the fact that plants sometimes tend to become pale green or yellow after they are mulched heavily with chips, shavings, bark or sawdust. Many people think that sawdust and woody wastes are poisonous. This is not the case. Scientists with the Bureau of Plant Industry investigated and found several years ago that the yellowing is brought about by a soil, microbe, not by poisonous material in sawdust or other woody waste. These microbes like nitrogen so well that they use it up; hence, the plant does not get enough to

make green leaves.

We now know that a heavy application of nitrogen fertilizer will put enough food into the soil for plants and the soil bacteria too. Commercial fertilizer containing nitrogen or barnyard or chicken manure applied before the sawdust or with it, helps supply this need. One bushel of manure to each 100 square feet, or to each 100 feet of row should suffice. If plant leaves show signs of yellowing, apply one or two cups per 100 square feet. Sprinkle heavily or irrigate to insure immediate use of the nitrogen. Sawdust will help "mellow" a hard soil and make it easy to cultivate. It helps soil to hold water. It is good for heavy soils and sandy soils, too.

NEWS FROM THE FARM BUREAU

BY RAYMOND EULER

Raymond Schueler, chairman, and others of the weed committee, met with C. W. Guthridge, engineering consultant of Santa Fe Rail Road offices in Amarillo last week. Mr. Guthridge called on Monday, stating that he would be in Friona Tuesday morning and that he would like to meet with representatives of the committee. All who could be reached by phone came. Mr. Guthridge stated that the railroad is planning on obtaining their own equipment for treatment of bindweed on their right of ways. He asked that farmers of Farmer County be advised that if they would plot location of bindweed on the RR right of ways adjoining their farms, they would be treated. The farmer would, of course, be expected to treat the weeds extending to his property, too. The committee will be working out methods of plotting these weeds in the near future and letting you know about it.

Two wheat informational meetings were held in the county last week. One was at Hub Community Building Tuesday night and the other at the Legion hall in Bovina Thursday night. Very few attended, but Roy V. Miller, chairman of the wheat committee hopes that the information gained by those present may be communicated to others. It is impossible to work intelligently on a solution unless the actual problem is known and understood to some extent.

Because time ran out, there will be no change in the procedure for filing on gas tax refunds on the state level this year. Farm Bureau's bill to make an annual, simplified, un-notarized procedure, like the Federal Tax Refund process, was passed by the House last week and sent to the Senate. That was as far as it got because of a lapse of time.

RATS-The majority of U. S. Supreme Court Justices agreed that a health inspector may search a home without a warrant. According to a statement of Justice Douglas, who dissented in the decision, the decision implies that the fourth amendment, which heretofore protected your home from official searchers without a warrant of authorization, was intended to protect those possibly subject to criminal prosecution. That, of course, eliminates protection for the average citizen by the fourth amendment. What do you think of this?

CONSIDER THIS: The thought of foolishness is sin; and the scorner is an abomination to men. Proverbs 24:9

Marketing agencies get about 60 cents of our food dollar now, and the farmer about 40 cents. Approximately half the food marketing dollar goes to pay for labor.

Wool Sewing Contest Opens

Of the 30 million women and young girls who are stitching their way to the biggest home sewing boom in U. S. history, about 5 million in 20 western states are eligible to enter the 1959 "Make It Yourself With Wool" Contest.

The urge to create is the clue to the new zeal for home sewing, according to the Wool Bureau, which sponsors the contest along with the nation's wool growers.

While American women can usually buy any item of apparel, they get a great feeling of pleasure and accomplishment from this ability to make their own garments.

In fact, American women today are creating better wool garments than did their grandmothers, because of new easier-to-use sewing machines such as the slant-needle automatics and the improved printed patterns with easy-to-follow instructions.

The annual "Make It Yourself With Wool" Contest is a challenge and an incentive to the creative instincts of home-sew girls in this community from ages 14 to 22. The contest pays off in all-expense-paid trips to Paris, London and Rome via Pan American jet flight, in scholarships, sewing machines, savings bonds, and assorted prizes totaling \$45,000. Top scholarship is a \$500 Coats and Clark award for the most fashionable garment in the national finals.

All a girl has to do is make a dress, suit, coat, sports outfit or ensemble of all-wool fabric and enter it. Competitions are held in two divisions: junior for girls 14 through 17 and senior for ages 18 through 22. There is also a sub-deb division for beginner sewers 13 to 16 who may enter local competitions only with either a skirt or a jumper. Every girl who enters the contest receives a free sewing booklet called "Let's Sew With Wool."

The 1959 contest, which has just got under way, runs through the end of this year. Texas State Finals will be held sometime this fall. National Finals will be held next January in San Antonio, Texas.

Light Turn-Out At Cotton Meet

The county-wide cotton meeting at the Hub Monday night was lightly attended. An excellent program on all phases of cotton production was presented, and emphasis was on "Quality Cotton."

George Pfeiffenberger, executive vice-president of Plains Cotton Growers, headlined the meeting. Specialists from the Extension Service included Fred Elliott, cotton specialist; John Box, agronomist; and Connie Garner and Duane Russell, Entomologists. Many slides, depicting various phases of production, were shown.

Pfeiffenberger says he thinks things are looking better for the cotton industry in the immediate future. Both "A" and "B" growers will probably receive good prices for their cotton this year, he feels. Consumption of cotton both at home and abroad is on the upgrade. Mills are booked for production as much as six months ahead, he says.

Cotton quality, not only from the standpoint of grade and staple, the two long-time standbys of the industry, but also from the standpoint of many other characteristics that affect

the spinability and quality of the quality of the fabric itself are becoming increasingly important, the farmers were told. Fiber fineness, its strength, and purity are being ranked by buyers right alongside grade and staple these days, it was pointed out. Pfeiffenberger told of two lots of cotton in a test that could not be made to spin. They were identical in grade and staple to other lots, but contained an oil content--probably the result of careless harvesting.

The Extension specialists went over early season insect control, fertilizers, irrigation, and harvesting. Considerable time was spent discussing spindle-type pickers, which are just coming into use on the High Plains.

Bill Nichols and James Mabry were re-elected as Farmer County members of the PCG board of directors. Mabry is a farmer at Hub, Nichols is agriculturist for Friona State Bank.

On April 15th, any kind of money is a collector's item.

HOPPERS A-PLenty are coming out of rangeland, turn-rows, and road right-of-way in the Parmer County area, and infestation is considered "threatening" in some spots. The hoppers are small and easy to kill at this stage and many farmers are undertaking control measures. Note the insects on the ditch dam in the picture. They moved out of soil bank land onto a field of barley.

SAVE WATER AND INCREASE PROFIT BY PLANTING GRAIN SORGHUM LATE

By N. W. KRAMER
Agronomist in Charge, Sorghum Investigations
Texas Agricultural Experiment Station

Most of the grain sorghum varieties grown in Texas mature 90 to 120 days from planting date. Since only part of the frost-free period in the southern High Plains is used to produce the crop, a wide range in planting dates is possible. Some parts of the growing season are much more favorable than others for the growing of the crop, so the yields produced may be affected considerably by planting dates.

Since the factor most commonly limiting sorghum yields is water, it would appear that yields would be increased if the crop could be planted at such a time that available water could be utilized more effectively by the plant. Research indicates that this is indeed true, and that yields can be affected greatly by planting dates, most probably because of the effects it has on water use.

Most of the water used in the production of sorghum or any other crop is lost by the plant into the atmosphere through a process known as "transpiration." The rate of transpiration is affected by the characteristics of the plant, the soil, and by the condition of the atmosphere around the plant. The loss of water from plants is increased by high temperatures, low humidity, wind movement and sunlight. The period of highest water use by the sorghum plant is from the pre-boot stage to about the soft dough stage; this period usually begins about 40 days after planting and continues for about 40 days in varieties of average maturity. Highest temperatures, highest solar radiation and lowest humidity usually occur on the Plains in June, July and early August. Therefore, sorghum should be planted so that as little as possible of the high water-use period of plant growth occurs during this period of high transpiration. More sorghum per unit of water is produced when this procedure is followed. Experimental data fully support this contention.

In 1958 temperatures in June and July were higher than average; consequently, water use also was higher than average. This caused 1958 data to indicate greater yield increases than usual from later planting dates. The following 1958 figures from six representative varieties on the Sandyland Experiment Field near Brownfield show this extreme effect:

Treatment	Grain Yield
Planted May 7, irrigated	1977
Planted June 19, dryland	2770
Planted June 19, irrigated	4348

A number of kafir varieties have been grown at Lubbock with planting dates as the only variable. In these tests irrigation was adequate and fertility was high. Results are shown below:

Planting date	Grain yield
May 20	4600
June 5	5643
June 20	6774

The results from date-of-planting experiments are such that it can be recommended that grain sorghum should be planted from June 15 to June 25 in most of the High Plains area for highest yields and most efficient utilization of water, regardless of whether the crop is grown under irrigation or on dryland.

Exceptions to the June 15-25 dates should be made for certain conditions. Where the soil has a low water-holding capacity, especially in the sandy areas, early planting is advisable if the soil profile is full of water early in the season and it would appear that much of the normal April-May-June rainfall might be lost by percolation if a crop were not planted early. Under such conditions April plantings are usually better than May plantings. Where wind erosion is a serious hazard or where the water supply is inadequate to water all the acreage in a relatively short period of time, these factors may be as important in determining planting dates as are prospective yields.

In the northern part of the High Plains cotton area there should be less competition from cotton for water when sorghum is planted late than when it is planted early.

The reaction of sorghum to planting dates is so marked that the time of planting is one of the most important decisions to be made in sorghum production. In many cases, planting date alone may be enough to make the difference between a profit or a loss from the crop.

The choice of a favorable planting date is absolutely essential in obtaining maximum profit from a sorghum crop.

Displaying her wedding gifts, the bride came to one from the groom's old Army buddy. "I just adore these personalized gifts," she said, "We received towels and washcloths with HIS and HERs on them, but," she blushed, "this is even more personal." And she held up an olive-drab blanket with the letters US stamped in the middle.

THE PARMER FARMER

by W. H. Graham Jr.

While we see as does the President on many farm issues (and these are largely a reflection of Secretary Benson's thinking), we cannot be persuaded that the chief executive is properly advised on his subject at all times.

Our difference with Eisenhower is more a matter of degree than principle. Like the President, we believe that the nation's farmers now have too many restrictions under which they must operate. The successful, efficient farmers of the High Plains are being penalized by a program that seeks to "level" them with small-unit, low efficiency farms all over the nation.

Averaging out any industry and holding back its progressive elements is the sure way to stagnation, as the old farm program now clearly shows. A program designed to give everyone a "fair share" by legislative means always lowers the whole instead of raising it.

At this particular time there is good reason to observe that the nation's producers of non-supported products are doing better than the ones that are supported -- but tightly controlled. Beef prices are currently the best example.

Beef prices don't always stay high, as any producer with a six-year memory will be quick to testify, but history shows that they always come back after moments of weakness in which "the men are separated from the boys," and production is reduced to conform more nearly to demand.

That is a harsh, rugged individual-type way to make a living, but the cowmen seem to like it and have made every effort to preserve their independence -- in good times and bad.

Still, we are unable to accept a return to the boom and bust philosophy for the average dirt

farmer. There are so many betweenness; farmers need the market protection that reasonable price supports can assure. But these supports, if ever allowed to substitute for real demand or to become contractual assurances of a reward from the government for farming poorly done, will in time be even more damaging than the several fluctuations of prices on an uncontrolled market.

The National Safety Council says more than 12,000 farm persons are killed in accidents each year. More than 5,000 of the fatal accidents involve motor vehicles.

Dependable Pumping Power

New 800-6A power unit develops 148 hp on LP gas and 134 hp on natural gas at 1200 rpm.

Here's another dependable MM power unit designed to furnish low-cost, trouble-free performance. Smooth, 6-cylinder high-turbulence power and counter-balanced crankshaft reduce torsional vibration for longer engine life.

Newly designed heat exchanger base plan keeps oil at proper operating temperature, greatly increases engine life and lengthens period between oil and filter cartridge changes. Pan acts as a cooler as well. Sight oil glass provided in base pan can be converted to oil-flow control valve for adding oil directly to crankcase from a barrel of oil, thereby keeping oil at a constant level. Pan attaches directly to an SAE standard flywheel housing and provides a rigid mounting of the power take-off for heavy belt drives, etc. Double-disc clutch and power take-off are of heavy-duty design.

MM heavy-duty power units are noted for their long life. Nine models to choose from. Stop in soon. Let's talk over your power needs.

Pakistanian Studies Soil In Area

Muhammad Alim Mian, a young soils technician from Pakistan, is in the Parmer County area studying American methods of soil conservation. He is the equivalent of a work unit conservationist for an erosion control and soil conservation project in his native country.

Mian's home is thousands of miles away, but he has some of the problems that we have here on the High Plains and his work here will help him understand these problems better.

Pakistan, lying at the foot of the Himalayas, is sandwiched between India and Tibet. Climate of the country runs to extremes, and Mian's area is one that has about 30 inches of rainfall per year. Its altitude is about 2,000 feet.

Farmers of his area use no irrigation, but grow wheat, grain sorghum, and mung beans. Mian has been here four months and is due to stay two more. He is living at Hereford.

STUDYING SOIL FORMATION in the Parmer County area are Herbert Bruns, right, soil scientist with the SCS and Muhammad Alim Mian, a work unit conservationist from Rawalpindi in western Pakistan. Mian is here under the U. S. International Cooperation Administration Program.

THE HAPPY HOMEMAKER

BY JUNE FLOYD

Most of us are familiar with the joke about what an Englishman once said about Americans. It goes something like this, "The American is a strange man. He heats his tea to make it hot, puts ice in it to make it cold, drinks it because it's bitter, puts sugar in it to make it sweet and lemon to make it sour."

Some of us use the same tactics when broiling meat. The primary reason we broil any kind of meat is to preserve the natural juices and vitamins. Up to a point that is good, but when we use a fork for turning each portion, we lose most of these juices and vitamins.

Any kitchen without tongs isn't a well equipped kitchen. They are not expensive and are available at any variety store, super market or hardware store.

There are a large number of uses for tongs besides turning broiling meat, too. They may be used for removing baked or boiled potatoes from the pans in which they were cooked, removing boiled eggs from the water, or any other household chore that requires moving hot objects.

Before very long most of us will be cooking corn on the cob. According to the experts the secret of preserving flavor in fresh corn is in the cooking.

Fresh corn should be cooked in just enough water to cover. Add 1 teaspoon sugar and fresh lemon juice to the water. Cover the saucepan and cook 8 to 10 minutes or until the milk is just set. The actual cooking time depends on the maturity of the corn.

It is generally agreed that freshly picked corn is more flavorful than corn that has been picked several days. The old adage "one hour from garden to containers" is still considered good advice whether

1958 Precipitation In Southern High Plains Tabulated

Precipitation data for the State of Texas have recently been released for 1958 by the U. S. Weather Bureau.

Conserving rainfall is a segment of water conservation that is most vital to the continued prosperity in the southern High Plains area. With apparent abundance of underground water this segment has all too often been neglected.

Better use of rainfall would help to prolong the supply of stored underground water which actually is limited. At the same time, erosion of valuable top soil is minimized when rainfall is stored in the soil where it falls.

To increase the water intake rate of a soil several recommended procedures are available. Among other methods is chiselling, land levelling and adding organic matter.

If no plan is made available to store the precipitation where it falls, then the next best thing would be to use the rainfall after it collects in a depression for direct use by pumping onto surrounding land or by using it for recharging the underground formations.

If every individual would make an honest effort to put the rainfall to beneficial uses our problems of mining underground water would be lessened.

What everyone should keep in mind is that precipitation is free merely for the preparing to use it.

Below is a break-down of 1958 precipitation from stations throughout the southern High Plains.

STATION	JAN.	FEB.	MAR.	APR.	MAY	JUN.	JUL.	AUG.	SEP.	OCT.	NOV.	DEC.	1958

GOLDEN ACRES

HYBRID GRAIN SORGHUM SEEDS

All Hybrid Seeds Are Pre Tested In Old Mexico and must be in top 25% of all hybrids tested, before being placed in the Golden Acres bag

WE ARE OFFERING FOR THE FIRST TIME IN THIS AREA, TWO NEW VARIETIES OF HYBRID MILOS

R. S. 608

Taylor - Evans recommends that you try this new variety for high yields, early maturity and high test weight. Our supply is limited.
A new red seeded variety which is a cross between Martinx 7078 This variety is well adapted to dry land and has proven excellent on irrigation tests.
This variety is about 10 days earlier than any of the Texas hybrids. One of the parents is Martin, therefore, test weights have been heavy.

ALSO
CERTIFIED
RS-590
TEX-601
RS-610
RS-611
TEX 620
