Join the government

We got a note in the mail from Cong. Larry Combest that last year it took 125 days for the average worker to earn an amount equal to his tax bill. This year, taxpayers must work 3 more days than last year to pay their federal, state and local taxes.

It's so sad to see our nation head toward a disastrous end. With half the people in the U.S. now working for the government, we have become a two-class society: government and non-government.

As I've written, I urge all youngsters to seek government jobs. The alternative is horrifying.

And what I find ironic is that when Yugoslavian Djilas wrote "The New Class" in the late 1940s, showing that Communism had created a government bureaucracy that was lord and master, little did he realize that he was actually foreseeing the shape of the American republic.

You may think I'm exaggerating. Well, take a look at the lead from the article Combest sent us last week:

"The three-ring circus has come to town. Last week's federal budget debate is like a travelling sideshow that spreads its tent in communities around the county. Every year, the taxpayers pay the price to see the dizzying high wire act of deficits, the fast-spinning wheel of spending, and a national debt that soars as if it was shot out of a cannon. In this circus, too, only the performers have the benefit of a safety net. The taxpayers are stuck in the bleachers..."

And if you don't believe Combest, here's a recent story about Texas Gov. Ann Richards.

"The sad fact is that people don't trust state government," she was quoted as saying. "They don't believe that we have their interests at heart, and I think they may be right."

Right on, Ann. She said her office and that of her ombudsman had been fielding complaints about government service at the rate of 200 calls a day and 5,000 letters a week.

"They are telling us that they are paying more taxes and they are getting less service," she said.

So it appears I'm not in the minority on this one. The fact is that the U.S. is evolving into a two-tier society - government and non-government. The former will be the more preferable, I can guarantee that.

A little bragging note here: Erin Mitchell, of Hatch, N.M., my god-daughter, has made the All-South basketball team for the 1990-91 year and has received a full ride athletic scholarship at Western New Mexico University.

She's a 5'4 point guard. Her dad, Dennis, is the fella who set up Farwell United Drugs and brought in Steve Breckenridge as the pharmacist here 6 years ago.

Charlie Phillips, the popular band leader, will have his band perform as a fund-raiser for the Farwell Convalescent Center July 26, the night before Border Town Days, at the Clovis Holiday Inn.

More on this later...

It sure is good to have Dr. Frank Kretsinger as the new physician for the Twin Cities. I've had to call on him a couple of times already and am very impressed by his professionalism.

The Twin Cities are lucky

Christian elected Farwell mayor

Wendol Christian was elected mayor of Farwell in Saturday's city election.

Elected to the Farwell City Council were Royce Bethel and John Carlson.

Since no one had signed up by deadline time for the election, all votes received were write-ins. Thus, the candidates have to accept their new posts in addition to being elected.

The three incumbents - Mayor Chris Gikas and councilmen Ysleta Kittrell and Prentice Mills - had announced they were not seeking election.

Five Farwell residents received votes in the mayoral election. They were: Christian, 73; Chase Chisman, 19; Don Williams, 2; Margaret Aycock, and Kendall Coates, 1 each.

Bethel received 58 votes and Carlson received 43 to win the council positions.

Others getting votes for the city council were:

Robert Boone, 19; Ysleta Kittrell, 11; Chase Chisman, 7; Mike Camp, 4; James Chadwick, Patsy Berry, Rick Stewart, Jimmy Mace, and Ralph Franse, 2 each; R. T. Langston, Martin Kube, Dutch Quickel, Joel White, Joe Jones, Don Williams, Ed Corn, Jack Kirkland, Bruce Billingsley and Robert Mitzelfelt, 1 each.

Lazbuddle School Board

Six candidates sought the three posts on the Lazbuddle School Board.

Winning election as the top three vote-getters were Randy Thomas, 98 votes; Gail Morris, 87, and Bobby Redwine, 84.

The other candidates were: John Jones, 75; Tommy St. Clair, 64; Dave Engelking, 43.

Farwell School Board

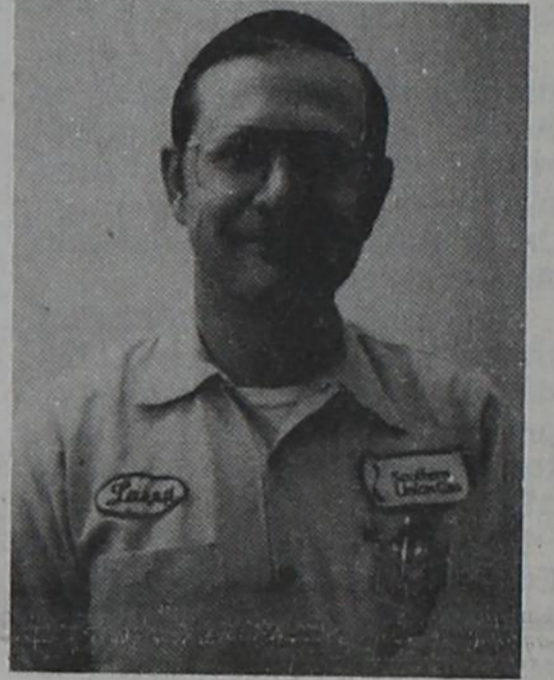

The three incumbents faced no opposition and were re-elected: Steve Kaltwasser, 93 votes; Doyle Johnson, 92, and Katherine White, 92.

Farwell Hospital District

All five incumbents were re-elected easily to the Far-

well Hospital District Board: Martha Curtis, 96; Jack Allen Kirkland, 92; Rick Sullivan, 92; Jimmie Mace, 92, and Jerry Monk, 91.

Others receiving votes were: Rick Stewart and Mike Camp, 2 each; John Carlson, Jim Berry, James Craig, Royce Bethel and Dutch Quickel, 1 each.

Larry Cochran

BTD honors Cochran

The Border Town Days Committee Monday picked Larry Cochran to be this year's Honorary Parade Marshal.

Cochran, of Texico, is the Southern Union Gas representative in Farwell.

He serves as vice president of the Farwell Chamber of Commerce, is in charge of the Camp Ryla program for the Texico - Farwell Rotary Club and is active in the United Pentecostal Church of Texico.

He and his wife have two children who attend Texico Schools.

In other business, reports were made.

Lynne Mahaney, arts and crafts chairman, has sent out letters to groups in last year's fair inviting them back.

The first meeting of the queen's contest committee will be May 8.

BTD Vice President Shandra McIntosh took on the task of calling several groups that were in last year's BTD, such

as the Bell Train, petting zoo, Cannon AFB color guard, etc.

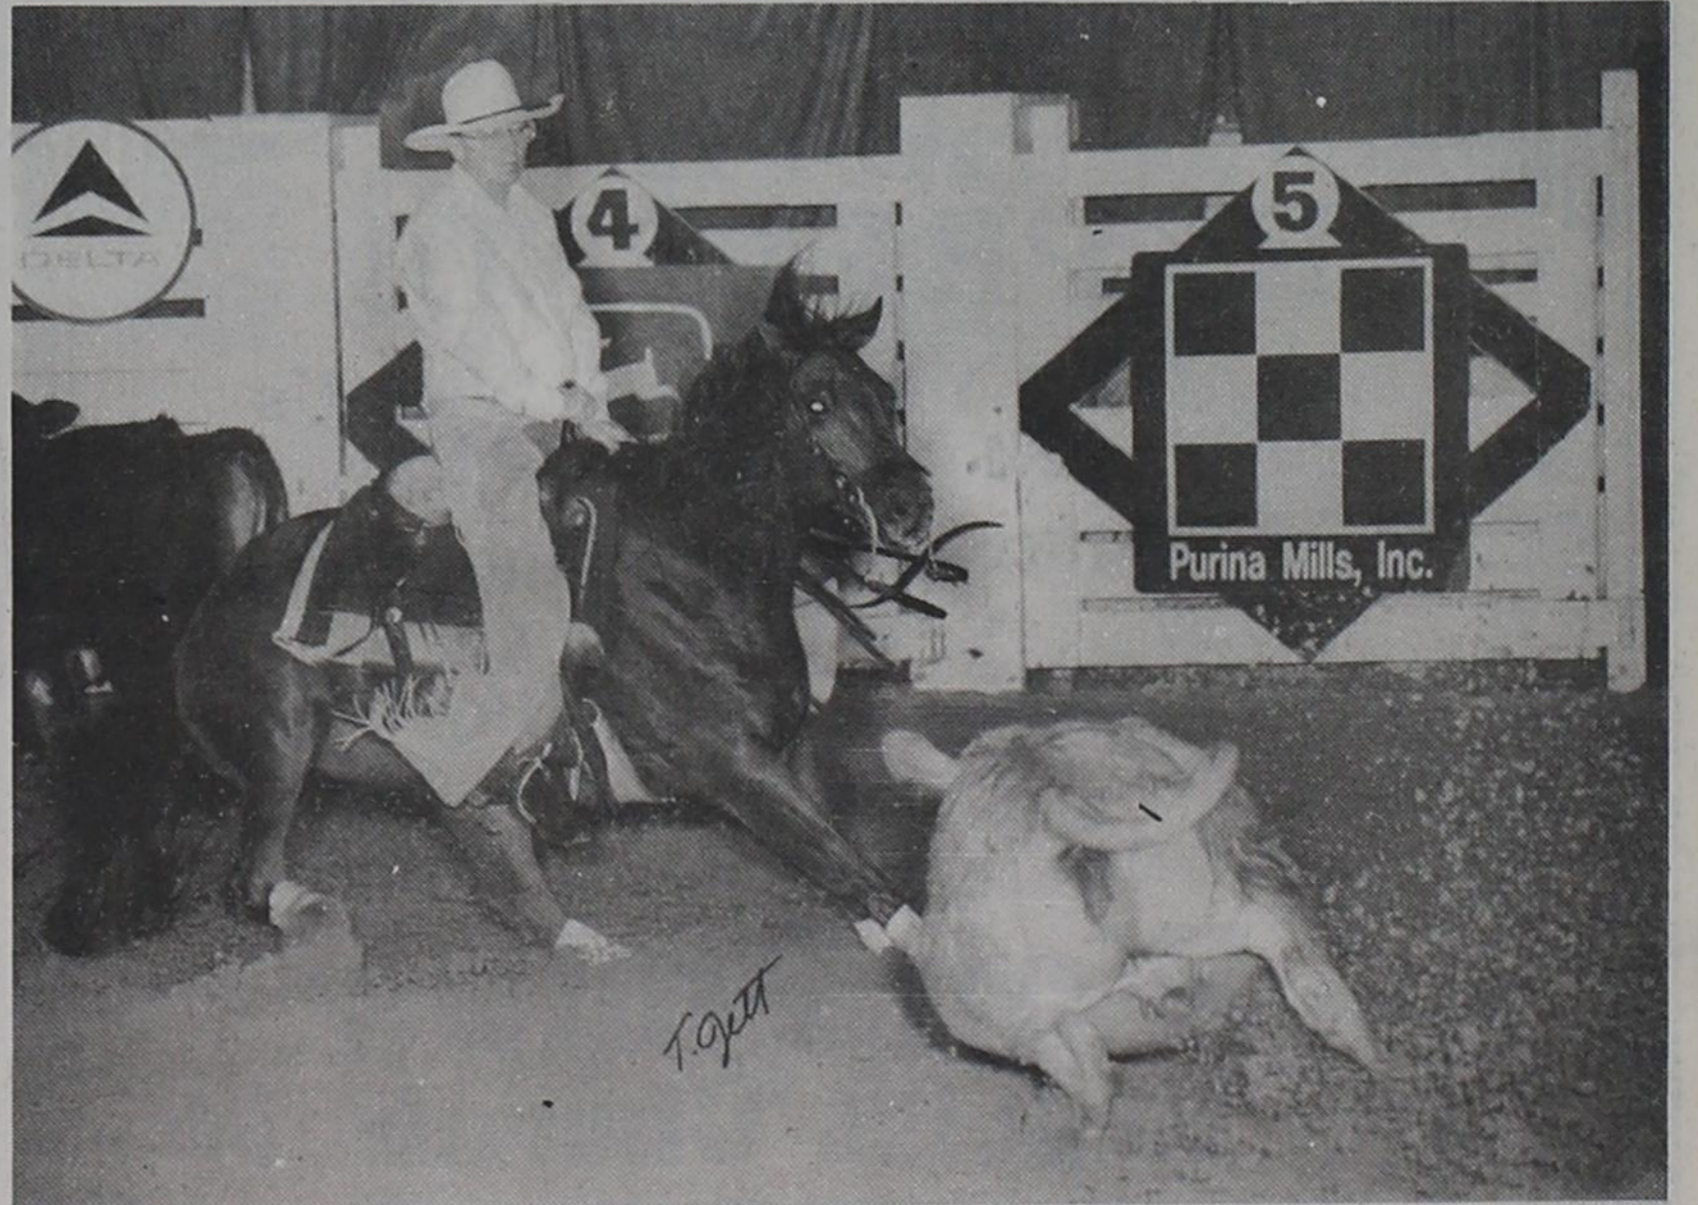

The next committee meeting will be June 3 at 8 p.m. at the Farwell Convalescent Center.

Booster Club to host All-Sports Banquet

Farwell Booster Club will host the Farwell High School All Sports Banquet May 14 at K Bob's in Clovis.

Tickets are available at the high school office or at the door for \$7.50.

"We would like to see a large attendance to honor these athletes for the fine year that we have had in athletics," said Athletic Director Rex Cumpston.

Horsing around

Dr. Frank Kretsinger, Texico-Farwell's new family physician, enjoys cutting horse competition as his hobby. He is pictured at his first big amateur event at Ft. Worth recently. He has six horses, and the one shown is kept at Sweetwater, Texas.

Some interesting statistics from the U.S. Department of Energy crossed my desk this week.

Here are the representative average unit costs for 1991:  
- Natural gas, cost of \$6.23/Mcf = \$6.05 per million Btu.

- Propane, cost of 89¢ per gallon = \$9.74 per million Btu.

- Electricity, cost of .0824¢/kWh = \$24.15 per million Btu.

From spouse Judy:  
Politicians are people who earn their livings by protecting the things we own. Successful politicians give nothing of value away. The U.S.A. has had some really successful politicians in recent years.

Fans of the Wizard of Oz remember the way Dorothy and her pals searched for great answers from the mighty OZ, whom they believed had all the right answers. After they solved their own problems, they came away with a piece of paper, a piece of brass, and a heart shaped clock instead. People can't eat paper or brass. They, like Dorothy and her pals have to solve problems for themselves.

We live on a globe, 75% of which is covered by water, yet politicians would have us believe that much of this land is worthless. Due to lack of water, large tracts of our earth dry up and blow away in the wind each year; what a waste of our precious resources. Still, we refuse to use the technology we

already have to drill wells or desalinate the ocean water. When will we ever learn?

Politicians the world over would have city dwellers believe that there is a great shortage of land. Look at a globe. There are vast plains and deserts in all over the globe. Visitors here always comment on the vast size of our nation. Reportedly, there are also huge underpopulated regions in Australia, Canada, the USSR, China, Argentina, and Africa and several other nations.

Wouldn't it be nice if our returning veterans and the veterans of our allies the world over had something to look forward to upon their return such as a tract of land to call their own? Nations have millions of acres of land in trust for us. With proper planning we could make sure that our children have something to dream about.

Yes, this would cost a lot of money to build desalination plants, roads, bridges, and other projects necessary to make this feasible. But, it could also generate a lot of spending in the economy of the nations that dared to try it. Financially strapped nations might think about using barter instead of sorely needed cash to get the

projects done.

Citizens might be offered a chance to trade goods or services in exchange for taxes. Returning veterans might be able to return labor for a sizeable tract of land.

From spouse Judy:  
I was surprised by a telephone call from the Gallup Poll the other night.

I always wondered if anyone actually did those polls or if they just made up the answers. Now I know that they make phone calls. How they record and analyze the results is still a mystery to me.

One thing became clear during the interview: the person asking the questions was not an unbiased observer. She kept saying things like "good, good," and "I know what you mean," as I answered.

The poll taker's own prejudices were showing at some points. Everyone has prejudices. But pollsters should try to appear unbiased when they are trying to conduct a mathematically correct poll.

One question concerned

(Continued from Page 1)  
my feelings about President Bush, and whether I would vote for him if given the opportunity. Another asked me to classify myself as a Democrat or a Republican. The poll taker asked several questions about the economy.

Some questions concerned education. One question concerned national testing for students. I responded that students were already tested to death, and I believe that. That was one response which elicited "good, good," from the poll taker.

Some questions concerned the quality of American made goods and technology. I answered positively about the quality of American - made goods, but actually it is very hard to tell American - made goods from the rip-offs on the market today.

Just because a product has a name that I recognize does not mean that it was actually manufactured in a factory this side of the border. Nor does it necessarily have exactly the same standards of quality that it had a year or two ago.

**Wetland regulations in bill changed**

Wetland regulations of the 1990 Farm Bill have changed, said Thomas Reed of the Soil and Water Conservation District office in Friona.

One of the most important changes involves the time frame when a person is in violation of Swampbuster. As of Nov. 28, 1990, when a person converts a wetland for the purpose or to have the effect of making the production of an agricultural commodity possible he or she will be subject to a fine plus loss of eligible for USDA benefits until the wetland has been restored, stated Reed.

Persons who plan to convert a wetland for other than agricultural production, this includes things such as roads or building construction, may be able to get prior approval so they will be exempt from eligibility and benefit losses. Reed stated that this prior approval involves a person completing a AD-1026 Form at the ASCS Office. He will need to state his intentions on the AD 1026. At this time the SCS will approve or disapprove the proposal depending on whether or not the proposal fits into a non-agricultural use and all needed permits have been obtained.

Reed stated if a person is planning any new construction in a wetland he should contact the local ASCS or SCS office prior to starting construction.

UNIROVAL DEAN

Don Reid Jim Reid

"Love one another warmly as Christian brothers and sisters, and be eager to show respect for one another."

Romans 12:10

Since 1949, nursing homes throughout our country have observed National Nursing Home Week as a means of honoring those who live and work in nursing homes - the residents as well as the staff members, volunteers, advisory board members, and families who assist in providing care.

This year an estimated 19,000 nursing homes with over 1.5 million residents will join the celebration. The theme of this year's observance, "Respect: The Heart of Caring," underscores the importance of revering these special persons.

Your local Good Samaritan center invites you to join this special celebration - by offering your prayers and words of encouragement, by taking time to visit our facility and talk with residents and staff members, and by sharing in the special activities that will take place throughout the week.

By sharing an hour or an afternoon, a smile, a prayer or a warm word, you'll help brighten the day for our residents and help us make real our motto "In Christ's Love, Everyone Is Someone."

Of course, visitors are welcome and encouraged year around at our facility, but during Nursing Home Week, May 13-19, your visit will be of special importance. We invite you to join with us as we show love and respect for members of our nursing home "family."

## Rural residents advised on calls

In Texico-Farwell, you can get emergency assistance by dialing 911. Some neighboring communities are not as lucky.

Hubert Kidd, manager of Five Area Telephone Cooperative in Muleshoe, sent a copy of his company's phone directory, and wrote to explain the way the 911 emergency number works in his area.

His letter said in part that if you live in 5 Area's Lariat exchange - 925 - and dial 911 your call will route to Muleshoe, although your location could be closer to Farwell or Oklahoma Lane.

If you live in 5 Area's Lazbuddie exchange - 965 -

and dial 911 you will route to Muleshoe, although you could live closer to Oklahoma Lane, Lazbuddie, Dimmitt or Sudan.

"Keep in mind, if you dial 911 after all the area towns have connected you will get help regardless of where you live. Five Area Telephone has had 911 since 1987," said Kidd. "We know it sounds confusing. In the rural areas of America you will find it the same. Our Lazbuddie exchange - 965 - serves people in four counties."

Below is a list of the way to report an emergency from various points within the Five Area Telephone Cooperative's service areas.

There's a reason the Texas Wheat Producers Association sponsors AIA Health Insurance. It's because this major medical plan was designed by ranchers and farmers like yourself.

An AIA agent representing the Texas Wheat Producers Association will be in Parmer County calling on you during May. To take advantage of special rates during the TWPA enrollment period, speak to an agent and ask to view our video presentation.

# Texico 'Odyssey' team qualifies for nationals

By NANCY BARNES

Four Texico School teams entered the New Mexico competition in the "Odyssey of the Mind" program - with one winning the chance to go to the nationals.

The Texico teams competed in different divisions and problems. Teams competed in problem solving, which involved a certain problem that was to be solved using guidelines for construction, budgeting their construction, using artifacts in their scripts, precision in mechanics, portraying historical episodes, and other competitive guidelines.

Each problem was different and was portrayed by personalities in unique ways. Each team was coached but was independent of suggestions and was to construct and decide scripts on their own. Scores varied with each team as some were ahead winning the long term problem while others were hoping for better scores in the "brainstorming" part of the competition.

During "brainstorming," each team was given a short-term problem to solve and a time limit to gather as many points as possible. This score, added to the long-term problem solving competition, determined the winner in each category. During "brainstorming" sessions, all teams were sworn to secrecy of the problems they had solved so that they did not jeopardize the competition.

Texico's results were:  
 - "Give and Go" team, 1st, Jerod Servatius, Lonnie Cross, Steven Cloud, Mike Litzelman, Brandon Schauf, coached by

Texico's "Give and Go" Odyssey team coached by Nadine Maben qualified first in the New Mexico State competition and will go to the national competition. Pictured are, (front) Lonnie Cross, Jerod Servatius, (back) Mike Litzelman, Steven Cloud, and Brandon Schauf. (Photo provided by Nancy Barnes)

Chad Barnes and Charles Williams of Texico were the third place "Buggy Lite" team at the New Mexico State Odyssey of the Mind Competition. They won the "Spider" award for excellence in construction of a buggy. The team is coached by Joel Pate. (Photo provided by Nancy Barnes)

Nadine Maben.

- "Transformations" team 2nd, Joni Pate, Donann Reed, Adam Burford, Brandon Rodarte, Jeremy Faircloth, coached by Diane Cooper.

- "Pompeii" team 2nd, Dwayne Hamilton, Warren Martin, Lorissa Pate, Chesna Campbell, Peggy Kelley, Leslie Servatius, coached by Paula Leighton.

- "Buggy-Lite" team, 3rd, Chad Barnes and Charles Williams, coached by Joel Pate. This team also won the "Spider" award for unusual construction of their "buggy" or car and unique trailer connection to the buggy. The buggy

weighed 14 lbs., was driven by electric window motors and rechargeable small drill batteries.

The Texico teams spent long hours planning their strategies, writing scripts, practicing and building props and mechanical devices such as would hurl or transport tennis balls into a target. The "Give and Go" team did just that to win the opportunity to represent New Mexico in the national competition in Knoxville, Tenn. This team lost the first long-term problem solving competition only to come back victorious in the "brainstorming" problem winning first and the chance to go to nationals.

This is National Nurses Week. We celebrate it by showing our appreciation to all the nurses for their hard work and dedication to their profession.

It takes a very special person to be a nurse. They must have patience, wisdom and understanding that is tested daily. It is hard in daily living but a nurse must contend with sick, depressed and often times unwilling to cooperate individuals. Children need a lot of tender loving care when they are in a hospital. Fear is shared by all.

Our nurses have chosen to work in geriatrics. They have a love for the elderly that can be expressed by working daily with those who have a need for geriatric nurses.

To honor our staff of nurses this week, we wish to show our pride in their abilities with everyone. To Marian Greenway, RN, Mary Kay Hays, LVN, Elaine Morrow LVN, Debbie Palmer LVN, Martha Myers, LVN, Sherrie Lunsford LVN, and Wilma Miller LVN, we extend our congratulations in this National Nurses Week.

Thank you, ladies, for being you!
