to plan the workshop. "It was great - really creative," said Mrs. Dunsworth.

Gladys Kaltwasser got a birthday greeting from her sister in England that included an article about her sister's son, Jeff Windsor.

Although Gladys has not seen her nephew in 17 years, she was proud of his success because she brought a copy of the Graphics World story to

us. Windsor had worked in sales and marketing for large advertising agencies when he and a partner persuaded a bank to support their project to set up their own advertising design agency in 1987. The firm of Windsor Jennings started during bad economic times in England, and they lost several major clients. A number of small projects helped them to fill the gap.

Janis Hernandez, Heath Brown and Blake Mimms. **Lazbuddie trio honored**

Three students from Lazbuddie Junior High School have qualified and participated in this year's Talent Search for mathematically and verbally advanced students sponsored by Duke University's Talent Identification Program (TIP).

Heath Brown, son of Mr. and Mrs. Scott Brown; Janis Hernandez, daughter of Mr. and Mrs. Johnny Hernandez; and Blake Mimms, son of Mr. and Mrs. Clay Mimms participated in the talent search. The program identifies highly able 7th graders from a 16 state area.

To be eligible, students must have scored at the 97th percentile or better on an in-school achievement or ability measure. They took the Scholastic Aptitude Test (SAT), normally taken only by college-bound juniors and seniors, on Jan. 25. Many of these students score as well or better than the average for college-bound juniors and seniors on these measures. All participants receive Certificates of Merit and some become eligible for state-wide recognition ceremonies or a variety of educational programs.

Parmer agrees to be sponsor

Then they began to attract several blue chip companies as clients because they were able to offer experience without high overhead. The business continued to improve.

Now their agency will soon be joined by two complementary businesses—a typesetter with both conventional typesetting equipment and an Apple Macintosh computer, and also a photographer.

The author closed with, "In a time of dire depression their outspoken optimism reaches you like a tonic. And their plans for a European future seem boundless."

No wonder Gladys is proud of her nephew's successes.

The Parmer County Commissioners voted Monday to be a sponsor of a new program being developed regionally called "Resource Conservation & Development."

About 15 counties in the Northern Panhandle are trying to get organized into an RCD district and then be in a position to seek state and federal funds for projects.

Thomas Reed, of the Soil and Water Conservation District here, noted that projects could include ideas such as rural fire protection, solid

waste management, street, school and park improvements, ag product marketing, rural health services, tourism, etc.

Reed also attended Tuesday's Farwell Chamber of Commerce meeting to solicit that group's support as a sponsor. A decision will be made at the next meeting.

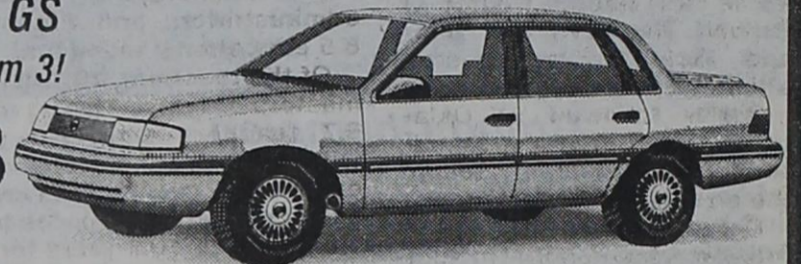

In other business, the commissioners discussed renovating the second floor of the county courthouse and various insurance coverages.

The Best Fifteen Minutes of My Live

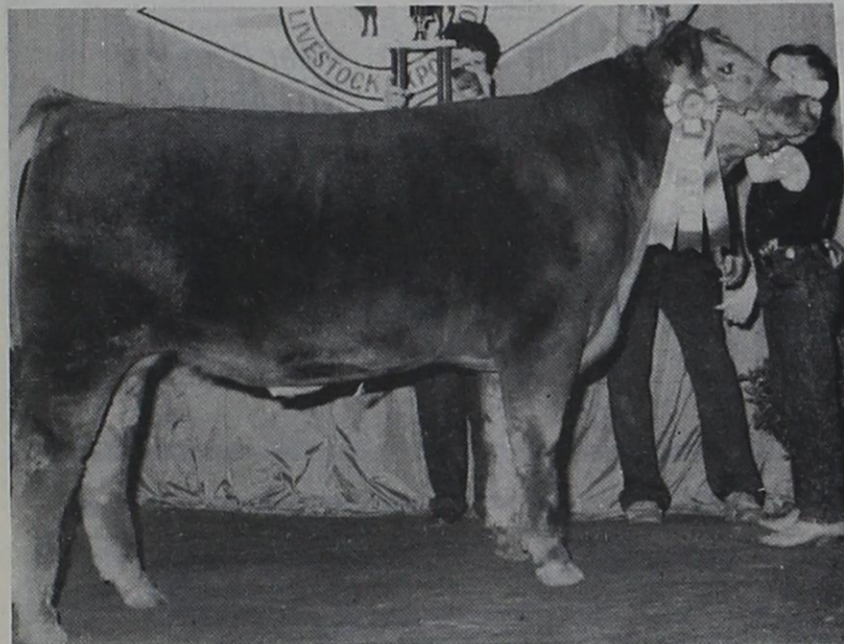

by Rachel Embry

"And the prize is, young lady, 15 minutes in any store of your choice, as much merchandise as you like, and we will pay the expenses," the announcer told the audience and me. I had a hard time deciding between a doll house miniature shop or a bookstore. I had a dollhouse I spent a lot of time in, but on the other hand, I spent a lot of time with books, too. I chose the bookstore. I went to my favorite bookstore, explained what I was doing to the cashier, and told her to time me for 15 minutes. I was never so happy in my life as I was when I was in that bookstore. I got all the books I'd ever wanted, plus other books and bookmarks, running up and down the aisles, grabbing every book in my reach.

When my time was up, I gave the address to the cashier, whom to bill, and left with seven boxes of books. I stopped at the cabinet shop, and bought three bookshelves to put my books on. I worked the rest of the afternoon and part of the night putting my new books away. It was the next day before I settled down in my "cozy chair" (as I called it) with a glass of lemonade and a new book. Just then the telephone rang, it was the contest sponsors. "I'm sorry, but we made a mistake, you are not the winner. If you have already taken advantage of your prize, you will have to return it or buy the books yourself. I'm sorry. Good-bye." I was disappointed. I knew I couldn't afford all those books. I started packing. I kept one book out of all of them so that I could remember the best 15 minutes of my life.

Workshop scheduled on conservation tillage

A free workshop on conservation tillage is scheduled at the Farwell Community Center March 5 from 8 a.m. until 3:30 p.m.

A free lunch will be provided. Registration starts at 8 a.m. Topics include ridge till farming systems, no-till cotton management systems, water conservation, fertility placement, weed and soil management and the economics of conservation tillage.

Conservation tillage involves keeping 30 percent or more of the crop residue on the surface, rather than plowing all the residue under. It reduces soil erosion and can conserve water.

Workshop sponsors are the Cooperative Extension Service and Agricultural Experiment Station of New Mexico State University and Texas A & M University and several Soil and Water Conservation Districts in west Texas and eastern New Mexico.

For more information, call Neal Christensen, of NMSU's agricultural science center in Clovis, at 985-2292.

Marshal's Report

Here is the weekly report from Texico Marshal Fry Urioste:

Saturday, a 16 year old Clovis boy was arrested on a charge of reckless driving. Urioste said he was clocked

at 97 miles per hour while driving between Clovis and Texico.

Also Saturday, a 6 year old Texico boy was bitten by a dog. The dog was chained to a porch, Urioste said, but it was the third person the dog has bitten. The dog's owner will be cited.

Urioste noted that the parents of the 6 year old rushed him to the hospital in their own vehicle. He noted that by calling 911 the Texico ambulance can help - at no charge.

Fire Calls

The Texico Fire Department responded to three grass fire calls, along with other area departments, in the past week:

- On Feb. 22, on Wilhite, 1 1/2 miles east of Prince St., Clovis, at 11:42 a.m. mst.
- On Feb. 23, on a 7 acre plot across the road from 2001 Hidalgo south of Clovis at 2:51 p.m. mst.
- On Feb. 25, at 21st St. and Sugar Beet Road at 11:18 a.m. mst.

Something to think about:

Blaming your faults on your nature doesn't change the nature of your faults.

Buying a center pivot vs. buying a Valley and a good dealer.

One thing is for sure, a good dealership doesn't cost a penny more, yet a poor one can cost you a bundle. That's something to think about, because if hardware is all you measure, you're missing the vital link - us, your Valley dealer.

That link is why the cheapest produce is not necessary the best buy. Through thick and thin, good and bad economic times, the biggest bargain in irrigation is a good dealership. One with staying power, factory-trained service, and parts. It means service, and parts you can depend on for many, many years.

So don't just compare equipment when you buy your next system. Compare dealers. We're ready to talk when you are.

Rest easy. It's a Valley.
