

FROM THE HOPPER

BY HOP JR.

From time to time I feel the stirrings of a rebel spirit and the urge to revolt. One of the things which I have decided to turn against in my passion is the practice of tipping.

The news that the writer of this column has come out against tipping will scarcely cause the bellhops and maîtres d's any palpitations of the heart, because for one thing I am not much of a man about the world, and for another my name is not legend for gratuities whenever I do go somewhere.

Surprisingly, my current revolt against convention and the tradition of the times enjoys the support of the wife, who is usually a died-in-the-wool "do it because you're supposed to" type in regard to matters such as these.

She, too, thinks it is preposterous to stand back and twiddle your thumbs while a hotel hired hand performs some personal service which in truth you'd rather be doing yourself, and then you are expected to pay him for it.

We discovered we had this curious accord in point of view while in Fort Worth over the weekend for the Texas Press meet. Our temporary residence was in the Hotel Texas which is not, I am sure, the epitome of cosmopolitan living, but nevertheless a hostelry where the nominal personal services were offered—for an expected fee.

As we were staying only one night, I could easily handle the baggage, but of course did what was proper by hailing a hop and then trying to look occupied or suave or whatever you're supposed to look like when walking into the hotel with my hands empty.

I am a poor hand to make the most of awkward moments and the one that always stones me is the few seconds after first entering a hotel room.

The stage for these uneasy moments is set when you follow the loaded and staggering bellhop down the hall to your room after stepping out of the elevator.

He fumbles with the key while trying to balance his freight, and finally swings the door wide, ushering you in. The first thing that is on your mind is to throw yourself on the bed or pull off your shoes or head for the bathroom or get a drink of water, but this all has to wait while the boy hangs up clothes, turns on the lights, draws the blinds, and puts your baggage in a dumb-waiter.

While this is happening there is absolutely nothing you can do but stand there and watch him. When this is completed the moment of truth comes and you must casually place a coin or a bill in his hand as he glides by on his way out. I have noticed a cue that is particularly helpful as to when this moment has come: "Will there be anything else sir?"

If you are gracious and about halfway lucky, you will get the tip out of your pocket with a minimum of fumbling, and manage to slip it to the boy without dropping it on the floor.

Tipping without a little bit of advance planning can be hazardous, and you need to have some fifty-cent pieces or dollar bills or whatever it is you're going to be tipping with ready. Otherwise, you will find yourself feeling pinch-penny as you gather up a handful of dimes, nickels and coppers, which usually get tangled up with the car keys, nail clippers and receipts, and there you stand picking out a suitable tip from among the debris while everyone pretends they're not waiting for you to get on with the show.

Also, not having any change at all is perfectly suicidal, and I can't imagine what would happen if I ever met up with THAT situation, but it probably will happen to me some time. I do know that if I had to choose whether the boy would get, say, a twenty dollar bill or no tip, what the solution to that would be, I've had too much practice being caught with no change in church when the collection plate came around.

Anyway, my position, and it is happily supported by my spouse, is that personal servants at hotels and other businesses should be employed by the firms in which they work on a salary basis. I personally feel that one of the reasons why hotels have been losing out so heavily to motels in recent years is that the personal gratuity is going

Don't Forget . . .

WATERMELON FEED JULY 4

Jim Bob Smart New Postmaster

Installation for Farwell's new acting postmaster, Jim Bob Smart, will be today (Friday). Smart, a furniture dealer in the Twin Cities, is a "home town boy" and was picked from a field of nine for the postmastership.

He will be installed today by A. W. Pfanmiller, postal inspector from Amarillo.

Smart will replace Albert "Blackie" Smith, who has been acting postmaster for about two years. The new PM will officially take over his office at the close of business today.

Smart said this week he was notified in March that he had been appointed to the office by the president, through the office of U. S. Rep. Walter Rogers.

Examinations for the office were taken in August of last year, and Smart was notified that he was at the top of the list last fall. Smart is now acting postmaster and his appointment will not become permanent until it has been confirmed by the senate.

The Post Office's official position is that postmasters are named on a merit system and under Civil Service procedure, but it is common knowledge that as a practical matter the appointments are often made with political considerations.

However, once the appointment has been confirmed by the senate, the office of postmaster has the same immunity from politics, under Civil Service standards, as other government jobs and postmasters cannot be moved without cause.

Local observers feel that Smart will get a permanent appointment.

Smart was graduated from Farwell High School in 1939. He and his wife, Wanda, have two children, both girls, and are members of the United Pentecostal Church. They reside at 605 3rd, Farwell.

Smart, who is owner-manager of S&G Furniture, Inc., Texico, said that he will devote full-time to his post office job, but that he will continue to have an interest in the furniture store. B. L. Barnes will manage it, he said.

Farwell has been without a permanent postmaster appointment for about five years. John Zahn succeeded Mrs. E. F. Lokay, who had the last permanent appointment. His appointment was made under the Eisenhower Republican administration, but his senate confirmation was not effected.

After Democrats returned to power following the 1960 elections, Jesse Landrum had the position for a short time and then Smith.

Residents of Texico-Farwell and surrounding area are reminded that the Farwell Chamber of Commerce is footing the bill for a watermelon feed on the afternoon of July 4.

To be held at the municipal park, the feast will be the first community function to be scheduled on the grounds, and will provide residents an opportunity to see the park and encourage them to make use of its facilities.

The park was conceived and developed by the Chamber, starting two years ago. After grass and picnicking facilities had been added, the Chamber turned the maintenance over to the city.

Ice-cold watermelons will be served on the grounds beginning at 5 o'clock.

The park is located three blocks south of main on Third Street, immediately south of the courthouse.

Texico Post Office Zip Code Number Announced

The five-digit number for the Texico post office, announced by Postmaster Lucy O. Brown, is 88135. Everyone in Texico will use this Zip code on all their correspondence to speed mail delivery and reduce the chance of mis-sent mail, Postmaster Brown says.

Zip code, the post office department's new system of improved mail dispatch and delivery, will go into effect, July 1.

Mrs. Brown stressed the importance of all citizens of the town learning the new code number and using it in all their correspondence. In answering mail, she says, Zip codes taken from return addresses on incoming mail should be used. The Zip code is literally the last word in mail addressing, she adds. It should follow the city and state in the address.

She cited this example of the proper use of the Zip Code: Lucy O. Brown, Postmaster Texico, New Mexico, 88135. The new Zip code plan, for the first time will permit the post office department to short-cut repeated reading of ad-

resses. At the present time addresses on some mail must be read as many as seven or eight times by postal employees, to get it to the proper destination. Each handling slows the process of mail dispatch and adds to the possibility of human error. With the new code a clerk need only glance at the code to know immediately to what national area, state and post office the letter is destined, and to speed it on its way, cutting up to 24 hours off the time between deposit and delivery.

Farwell School Equalization Board To Meet

The board of equalization meeting for the Farwell Independent Consolidated School District will meet in the office of Superintendent W. M. Roberts, July 8, 9 a.m. until 5 p.m. All persons having business to discuss with the board are asked to be present at this time.

Girls State Reports

EDITORS NOTE: Following are reports of activities at New Mexico and Texas sessions of girls' state as written by Jackie

Hughes, Texico representative and Melody Coffman, Farwell representative.

BY JACKIE HUGHES

Attending New Mexico girls' state was the greatest honor I have ever received and it has truly been an experience that I will never forget. I went with girls from Clovis, Melrose, Dora, Elida, Floyd, Grady, Portales, Ft. Sumner, Yeso and Moriarty. We left Clovis at 6:30 a.m. Sunday morning June 16 and arrived on the campus at New Mexico University Albuquerque at noon. After we had registered and been assigned to our rooms we ate lunch and returned to our rooms to unpack and meet our roommates and also to study the literature which had been presented to us on arrival.

My roommate was Joy Enox from Cloudcroft. We were both assigned to Cedar City, Lincoln

County and the Nationalist Party. There were six cities, two counties and two parties.

At 2:30 p.m. we had a "get acquainted" assembly at which time we were briefed on the purposes of girls' state. After group activity we had dinner. A thirty minute vesper service was held each day. At 7 p.m. on Sunday we assembled in the ballroom of the student union building for a general assembly. At this time we were welcomed by Miss Helen Whiteside, dean of women at the university. We also heard reports from the 1962 Girls' Nation delegates and all girls attending took the Girls' State pledge.

Each night at 9:55 p.m. all girls stood in the halls and sang "The Lord's Prayer." The presentation of colors started each day. Monday morning we had a speaker on city

(Continued on Page 2)

Swim Lessons To Begin July 8

A series of private swimming lessons will begin at the local swimming pool, July 8. Classes for beginning swimmers will get underway at 10 a.m. and classes for advanced swimmers are scheduled for 10:45 a.m.

The series of lessons will last for ten days and will meet daily Monday through Friday for two weeks. Price of admission for the lessons is \$12.50 and persons six years of age and over will be permitted to enroll in the classes.

Farmer will be assisted by his brother, David, who is also a licensed lifeguard, in instructing the classes.

Texico Council Issues Four Building Permits

Four building permits were issued by Texico town council when they met in regular session Friday. Permits were issued to A. D. McDonald in the amount of \$13,000 and Johnny Green in the amount of \$10,000 for the erection of residences. Permits were also issued to John Hightower and Johnny Chappell for additions to their homes.

Gary Farer, swimming pool manager, met with the board and reported that a few minor repairs are needed at the pool. He also reported that several

juveniles are still making a practice of climbing the fence at the pool and taking a midnight swim.

He expressed concern that a child or teenager could drown in the pool under such circumstances as no life guard or other qualified person would be present in case of a stomach cramp or other accident.

The town council discussed ways and means of controlling juveniles who roam the street at all hours of the night and into the morning. One councilman told of the incidence of a local businessman almost shooting a couple of boys who were prowling through his business in the wee hours last week.

The boys had evidently gained entry through the roof of the building and the businessman thought they were burglars. He was horrified upon learning they were children of 12 or 13 years of age. After some discussion the councilmen decided to take the matter up with the district attorney and the juvenile officer in Curry County to see what can be done.

Many of the children who make such practices are from

(Continued on Page 2)

Billy Graham Film To Be Shown At First Baptist Church, Farwell

"Jerusalem," a Billy Graham film, will be shown at the Farwell First Baptist Church,

Monday, July 1, 8 p.m. All area residents are invited to see this film, which shows the Holy City from the time of Moses until the resurrection -- from the partitioned land of the present to its future destiny at the return of Christ.

Billy Graham takes you beneath the city's rocky foundation into Solomon's quarters -- explores the newly excavated site of the Jebusite stronghold that David conquered.

No admission will be charged and the general public is invited to see this film, says Rev. J. L. Bass, church pastor.

Annual 4th Of July Celebration At Okla. Lane

The annual 4th of July celebration will be held at the Oklahoma Lane Community Center July 4, with festivities scheduled to get underway at 3 p.m.

A little league baseball game followed by a softball game for the men will begin activities. A short business meeting will be held preceding the picnic supper. At this time the date for the annual Christmas Tree will be decided and other business will be transacted.

A fireworks display will be held following supper. Each family is to bring a basket lunch. Ice cream and lemonade will be furnished.

FARWELL, TEXAS

THE STATE LINE

TRIBUNE

"OFFICIAL PUBLICATION OF PARMER COUNTY"

16 PAGES

FIFTY-SECOND YEAR

10 CENTS

"A thing of beauty is a joy forever." Shown is a view of the southwest section of the front yard at the home of Mrs. Hattie Thomas on 3rd St. in Farwell. Mrs. Thomas, who does most of her own gardening, has a gorgeous display of flowers, shrubs and trees for town residents to enjoy.

Mother Of Local Man Dies

Funeral services were conducted at Steed Funeral Home Sunday afternoon for Mrs. Hilda O. Hendrix 72, mother of Elmore Hendrix, Texico. Burial was in Lawn Haven Cemetery under direction of Steed's Funeral Home.

Mrs. Hendrix, who suffered a heart attack a year ago, had been ill for the past six weeks. She passed away at the family home Friday morning. She was a lifelong member of the Center Better Homes Club.

Survivors include her husband, Bliss, one son, Elmore Texico, one daughter, Mrs. Thomas Miller, Denver, one brother, Lee Bennett, Fleming, Colo., one sister, Celes Bennett, Haxton, Colo., seven grandchildren and several great grandchildren.

Doctor Warns Of Mosquito Danger

Dr. Paul Spring, county health officer, recommended this week that the public take special precautions because of the number of mosquitoes present in the area.

He especially urged parents to protect their children against mosquito bites, which might prevent their getting a virus. It has been proven, Dr. Spring said, that mosquitoes bite chickens and birds which have a virus, and then later may bite a human being, passing on the virus.

There are two types of mosquitoes prevalent in Parmer County, the health officer said. These are the St. Louis type, which thrives around barns and houses, and the Western Equine,

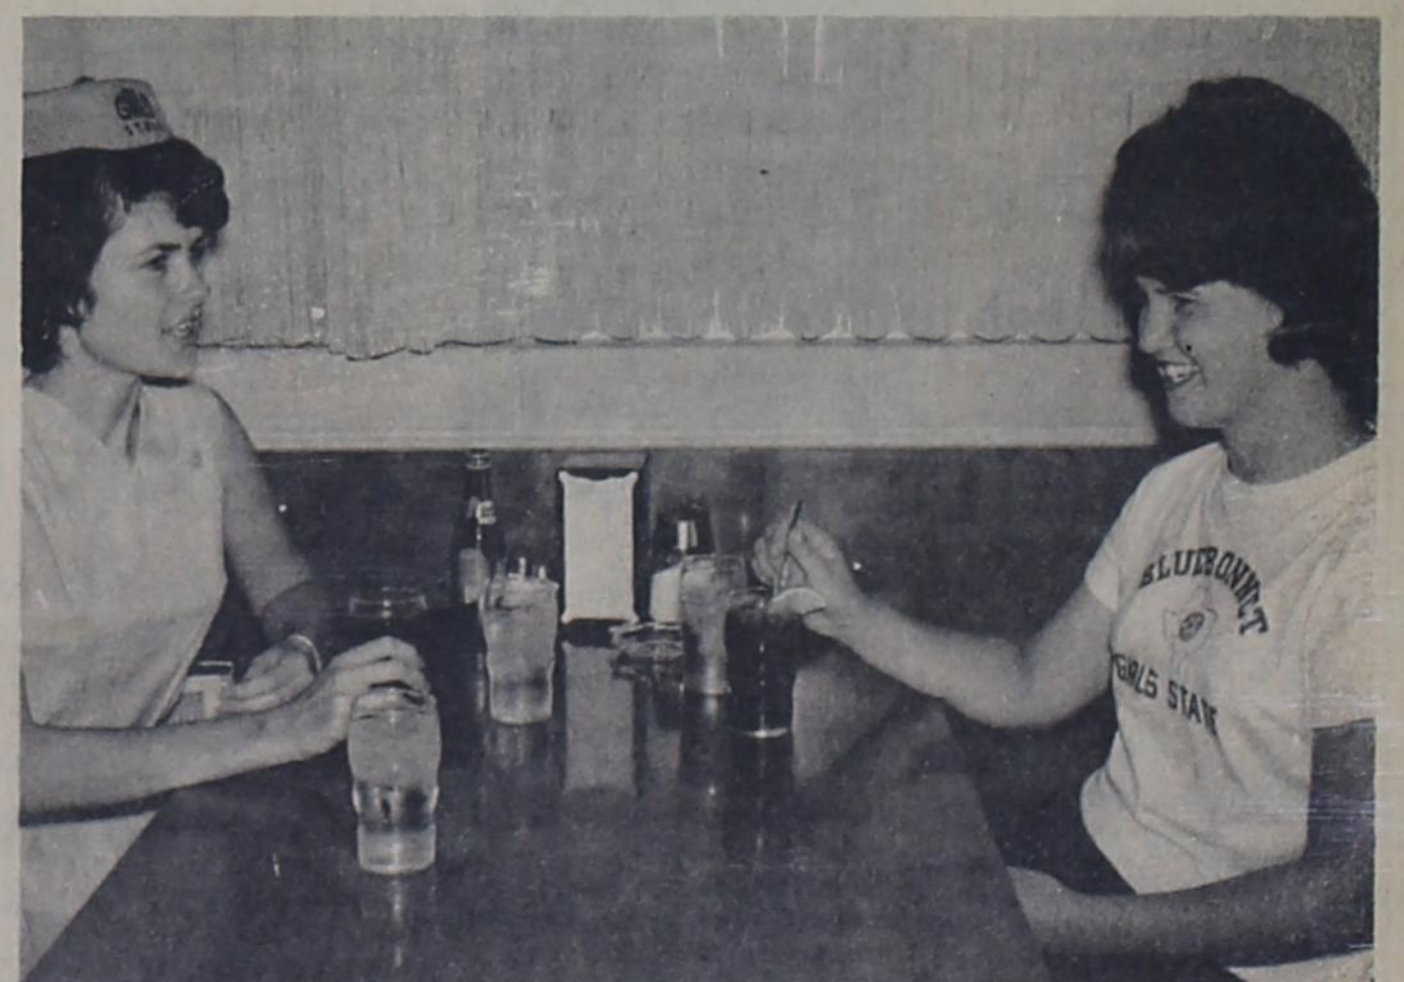

which is common throughout Panhandle in fields.

"Since these mosquitoes are prevalent in the county, the councilmen decided to take the best bet is to try to keep mosquitoes from biting," Dr. Spring said.

He recommended that the public spray around their homes, and get rid of stagnant water, as well as taking precautions so that young children won't receive bites.

WINNERS ALL: Crowned "Miss Baby Doll" in the recent contest held in conjunction with the Miss Clovis contest was Tammy Frazier, center, daughter of Rev. and Mrs. Hugh Frazier. Pleasant Hill. In the picture with Tammy are Jana Crooks, left, and Sharon Boatwright first and second runners-up in the contest. Jana is the daughter of Mr. and Mrs. Paul Crooks, Texico and Sharon is the daughter of Mr. and Mrs. Gene Boatwright, Pleasant Hill. Forty children were entered in the contest.

Jackie Hughes, left, Texico Girls' State representative and Melody Coffman, Farwell representative, discuss highlights of their weeks activities over Cokes, following their return from girls' state sessions late last week.

Entered as second class matter at Farwell, Texas, under the act of March 3rd, 1879. Published every Thursday.

SUBSCRIPTION RATES -- Parmer and adjoining counties, \$3.00 per year; elsewhere, \$4.00 per year. Payable in advance. The Tribune is a member of: NATIONAL EDITORIAL ASSOCIATION TEXAS PRESS ASSOCIATION WEST TEXAS PRESS ASSOCIATION PANHANDLE PRESS ASSOCIATION

Girls State Reports

(Continued from Page 1) government. He explained how the different types of city government operate. We selected our candidates for city offices at this time. Dr. C. L. Kay of L. C. C. spoke to us on a "Generation Without Cause," a speech which warned that moral decay threatens the U. S. Dr. Kay also made some inspiring quotations such as "A Country will never be any better or greater than the people" and "The only security you will ever have comes from within." He also said that men will never have peace if they reserve their finest qualities until a war. Calvin Horn spoke to us on the organization and functions of political parties. He told us that the aim of political parties is to get and maintain power, and the functions are to form a program, develop organization and leadership. That same night, Vance Mauney briefed us on county government and the next morning we learned about the state government. Wednesday Dr. Kay spoke to us again, this time on "The Structure of the American Way of Life." He said that one of our greatest problems is communication. We are living in an age of confusion, suspicion, distrust and "gimme." He said Men will either work for the hope of reward or for the fear of punishment. He reviewed in his Thursday morning address the material we had studied at the other two lectures, such as the comparison of the two worlds, the threat of Communism, the study of Cuba, and the effects of Communism. He showed us some statistics of hours one has to work to buy common things in Russia, and they were quite high. After seeing the comparison of the U. S. and the Russians he asked, "Are the Russians ahead?" and came back with the answer, "You can't get ahead without freedom." Examples of socialist governments were given and the comparisons between the countries and the U. S. showed the poor conditions in these countries. In socialism, complete equality is sought. But with complete equality comes the lack of desire to work. Dr. Kay showed how small the U. S. is compared to the rest of the world. He then asked, "Can we feed, clothe, and provide for the rest of the world?" We are only 80 million people out of the billions. We cannot buy friends, but we must help them to help themselves. Thursday morning the county officials were sworn into office by Albert Ussery. He also told

Accident Victims Are "Improved"

The two men injured in a head-on collision just outside the Bovina city limits June 15 have been taken off the serious list at Parmer County Community Hospital in Friona, and the woman, Mrs. John V. Felps, continues to improve. Mrs. Felps, who sustained several broken bones, lacerations and contusions in the crash, has been taken from the

critical list and is now termed "serious" by physicians at the hospital. She has improved considerably, and is able to take food, although she still has not been able to talk, doctors say. The men, Antonio (Tony) Cruz, 35, of Bovina, and Benny Arizmendez, 30, of Lake Worth, Florida, were travelling west on U. S. Highway 60 when their automobile crashed head-on with the one being driven east on the highway by Mrs. Felps, 16. Cruz received eight broken

ribs, a broken leg and multiple severe lacerations. Arizmendez, who had just arrived in Bovina to visit relatives, suffered a broken leg, multiple contusions and lacerations. They are out of danger, a hospital spokesman said. Mrs. Felps had broken bones in both arms and legs as well as head and chest injuries. She had been visiting her parents in Portales, N.M., and was enroute to Colorado to rejoin her husband, who was attending summer camp in the National Guard.

Hopper --

(Continued from Page 1) out of style as an American custom, and that many traveling people don't need--and don't want--a lot of the help that comes running to them with up-turned palms. To go a step further, this business of placing money in other people's hands on the pseudo-sly is a close kin of the "buy your way in" philosophy that is so disgusting in many other countries (of which our neighbor, Mexico, is one). The theme is that you can get just about anything you want if you will pay a price for it. I know that in the marketplace economy such as we revere here in America, this may seem to be the case, but when you begin bidding for favors rather than goods and services you are headed for corruption. It is a short step from the "bought" down-front table at a sold-out floor show to a "bought" justice of the peace who looks the other way with a wink whenever a friend who knows a friend snags up with the law.

State spoke to us on the legislative process, Friday the functioning of the house and senate got underway. Following the House and Senate meetings we had a "Flag Day" ceremony which to me was the most impressive and memorable event of the session. Saturday filing for county and state offices ended and primary elections were held that night. Mr. Shackelford spoke to us on "Civil Defense Protection." Immediately following his talk election results were announced. Sunday morning we attended church services and senate meetings. That evening we heard campaign speeches by delegates for county and state offices. General elections were held that evening and one hour later we had the election results.

On Monday we visited the state capitol, where the inauguration of Bluebonnet Girls' State officials was held in the capitol Rotunda, Governor John Connelly was guest speaker on this occasion. Monday night guest speaker was Jack Cox, his topic was "Count Down." He was the most outstanding speaker of all at the sessions, in my opinion. Government officials began to function at 9 a.m. on Tuesday morning and Tuesday night we had a review period with Miss Goff speaking to us. Miss Lulu Ames spoke to us on the "Status of Women in Business" on Wednesday and in the afternoon we continued our official business with officers performing their duties after which we had a recreation period. Our first and last joint session of the House and Senate was held Thursday morning. That afternoon we journeyed to Barton Springs for swimming and sight seeing. We concluded the day's activities with each city performing a stunt. My city (City D) won last.

Friday morning we held our final assembly and two girls were selected to attend girls' nation and seven outstanding citizens were also selected at this time. This was a big decision as a total of 400 delegates were in attendance at the sessions with 52 adult leaders. In conclusion I would like to express my gratitude to my school officials, my fellow citizens, the Legion and its Auxiliary for granting me the privilege to represent Farwell school as a delegate to Bluebonnet Girls' State 1963.

City officials were elected Thursday, consisting of a mayor, three councilmen and attorney. The city organization got underway immediately after election. Miss Goff, director of Girls'

New Use For Baby Oil Shotgun shells sometimes stick in the gun barrel or magazine at the most inopportune time. You can prevent this, and also add more waterproofing to your shells, if you put a thin coat of baby oil on each shell before leaving home.

Non-slip Scope Sight Ring Dust a little resin under the mounting rings of your scope sight to prevent that annoying slip so often encountered when a heavy scope is used on a high-powered rifle.

Duck Blind Camouflage Pale faces turned toward the sky frighten incoming ducks like a blast of shotgun fire. But if each hunter will slip over his head a wide-meshed bag, such as the ones in which potatoes or onions are packed, face glare will be avoided.

Egg Sucking Cure To cure your hound or bird dog of egg sucking, coat eggs with a solution of flour paste and red pepper. Leave eggs in nest for dog to find. He'll steer clear of eggs after that.

Protect Shotgun Barrel Goose hunters shooting from pits on sand bars, or dirt pits in fields, constantly must check shotgun barrels for sand or dirt. Avoid this nuisance by covering muzzle with a single sheet of toilet tissue, held in place by a rubber band behind the sight.

Burns on Clothes Keep an old hacksaw blade handy in camp to remove

cockleburrs from your hunting clothes when you come in from the field. It does a good job fast.

Hunting Without Dogs It is possible to cover a field effectively without dogs when quail hunting. Tie one end of a nylon clothesline to your waist, the other end to your partner. Criss-cross field with line stretched between you, waist high. Birds hiding in between you will flush as the line passes over them.

Wait 'Til Rabbit Slows Down Hunting rabbits in hilly country with rifle or pistol can be exciting sport. But the ratio of hits to misses usually is discouragingly low. You will score more hits if you will hold your fire until dogs maneuver rabbits downhill. Rabbits running downhill slow to almost half-speed because of their short forelegs. This is also good advice for the not-so-expert shotguns.

Teach Dogs to Hunt By Nose A young dog often refuses to use his nose when in training. Take such a pup out at night and carry along a pocketful of his favorite tid-bits. Let him sniff a piece of it, then throw the piece away from you. In the dark he can't see where you tossed the tid-bit and will be compelled to use his nose to find it.

Lure In Predators Calling predators has become a popular sport. But you need not wait until darkness--or use a caller--to get results. Put several baby chicks in a wire box and place the box in sparse cover. Then conceal yourself well. The loud chirp of the chicks will attract any predators in the neighborhood.

Sighting-In Your Rifle A good bench rest is almost a must for sighting in rifles

for pre-season hunting. But benches seldom are available except at commercial ranges. Fix your own rifle rest for use anywhere by using an ordinary folding ironing board. The board is easily adjusted to the most convenient shooting height.

Help Your Retriever Often your dog doesn't see where ducks fall. Help him locate these birds by carrying a pocketful of small stones. When a duck falls that the dog doesn't see, throw a stone in the general direction of the dead duck.

Removing Feathers Picking game birds is a chore we all dislike. Make the job easier by immersing birds in a dishpan of cold water. Let them soak a few minutes, then pick off the feathers and fuzz under water.

Deer Love Apples When still-hunting deer, attract them by carrying one or two very ripe apples in your pocket. The sweet odor of the fruit will carry to nearby deer and bring them to you, while at the same time covering up your human scent.

MISUNDERSTOOD VEGETABLE

Kohlrabi is delicious when golf ball size knobs are pulled and cooked as described below. Some people claim it's a "beet with the bump on top of the soil". Others are certain it's a turnip because the flavor, though milder, slightly resembles that of the turnip. Actually it's a member of the cabbage family to which the turnip also belongs and its name tells the connection: kohlrabi (Kohl is German for Cabbage). Essentially a cool-weather crop, kohlrabi grows equally well when seeds are sown in early spring or when planted in late summer for a fall crop. The varieties commonly on the market, Early Purple Vienna and Early White Vienna, are quick-maturing so that short rows, planted every two or three weeks are the best way for the gardener to handle this vegetable. Sow seeds in a shallow drill, 1/2 to 2-inch-high seedlings so that those left are 6 to 8 inches apart in the row, and pull the plants for use when the knobs are golf-ball size--and tender. Since many people misunderstand and think that size is synonymous with "getting the most for your money", they think kohlrabi is a hard, woody vegetable. Actually they've tasted it only when overgrown and fit only for the compost pile. *The general cost of living has increased over 100 per cent in the last 20 years. Doctor's fees have risen 90 per cent, while food is up 151 per cent, and clothing is up 106 per cent.

Permits

(Continued from Page 1) the adjoining town and the cooperation of parents and officials is asked to control the problem. Final resolution to control the budget for the 1962-63 fiscal year was passed. Only minor changes were necessary, by the exchange of line item expenses. Also the budget was approved for the year by Lewis Fernandez, chief of the local government division of the state finance department. He commended the town on its budget. The council also decided to add medical insurance to the insurance now in force on the police car with Leroy Faville to make the necessary changes. Advertising for bids on seal coat for paving projects one and two will begin immediately and bids will be opened at the next regular meeting of the board, July 5. The work will begin immediately after the successful bidder has been announced. The horses which are being kept in the town in opposition to the ordinance governing the practice are still giving town fathers many headaches, as many persons are registering complaints against the practice. Also the vacant lots and the weeds in the town came in for discussion with town fathers deciding to draw up an ordinance to control this situation. A re-survey will be made of the town by Civil Defense to see if any building in Texico is suitable for a fall-out shelter. Leins of release on paving projects one and two will be drawn up and ready for the signature of the mayor before the next town meeting. The meeting closed with all bills ordered paid for the month and next session set for July 5.

CHRISTIANITY Is The Bulwark of Our Way of Life

RESPONSIBLE BEINGS By Carroll Jackson Minister, Church of Christ Lariat, Texas

Perhaps in no age have men looked more for a personal scapegoat than in ours. The vast majority are looking for someone to assume their responsibility and their failures. The government becomes the end for many. Let it assume their responsibility. Let it endeavor to deliver them from failure and when failure happens let the government become responsible. The philosophy of our age is to find some means of not having to bear your individual, God given, responsibilities.

Perhaps we have over magnified this tendency of many but if we have it has been for a purpose. There are many today who assume that God is responsible for their tragic, sinful lives. In our age of seeking scapegoats many have tried to make God theirs, no doubt influenced in part by their environmental philosophy. One of the grandest principles set forth in all the scriptures is that each man is the master of his own fate. That is each man is responsible for himself. What a tragedy if I were responsible for you or you me. If I fall then obviously you would fall too. Instead of one soul being lost two would be lost. Let God be thanked that each person is responsible for himself. God created each man with a free-will to choose for himself what he would desire to be or become. Thus when the first man Adam was created God made him with the ability to choose for himself what he would do. God said, "... of every tree of the garden you may freely eat but the tree of the knowledge of good and evil you shall not eat. . ." (Genesis 2:15-17) If man was not responsible for himself why did God give him this opportunity of choice? Adam had a free-will and so has every man in every age since. Truly each man is responsible for himself!

My friends if you are lost eternally who will bear the responsibility? Who bore Adam's responsibility? The great mercies of God are revealed every day that a man lives yet if in spite of this he chooses to neglect and reject God who can be responsible but the man involved. Every person ought to commit this scripture to heart, "Or do you presume upon the riches of his kindness and forbearance and patience? Do you not know that God's kindness is meant to lead you to repentance? But by your hard and impenitent heart you are storing up wrath for yourself on the day of wrath when God's righteous judgement will be revealed. For he will render to every man according to his works; to those who by patience in well-doing seek for glory and honor and immortality he will give eternal life; but for those who are factious and do not obey the truth, but obey wickedness, there will be wrath and fury." (Romans 2:4-8, RSV) Who will be responsible for you?

D' Rene Danforth-Larry Lethgo Married In Ceremony June 9

Wedding vows were read at 4 p.m. June 9, for D' Rene Danforth, daughter of Mr. and Mrs. Fred Danforth, Texico, and Larry Wayne Lethgo, son of Mr. and Mrs. Glenn Lethgo, Clovis, at Our Chapel of Memories, Clovis. Rev. Elmer McCuffin officiated at the double ring ceremony.

Two pedestal bouquets of white gladioli and shasta daisies and greenery interspersed the two seven branched candelabras holding white tapers which flanked the arch under which the couple exchanged vows.

Centering the archway, which was covered with greenery and white flowers, was a pedestal basket of gladioli and daisies. The white satin covered kneeling bench was entwined with greenery and white daisies. Marking the bridal aisle were large bows at the entrance to the family pews.

Organist, Jane Phillips of Clovis, played pre-nuptial music and as the mothers of the bride and groom were being seated played "One Alone" as a special request of the bride, as one of the favorites of her father.

Mrs. Jim Boering, Zeta Tau Alpha sorority sister of the bride, sang "Because" and a duet composed of Mrs. Boering and Andy Cottle presented "One Hand, One Heart." Mrs. Boering sang "The Lord's Prayer" at the conclusion of the ceremony. Miss Phillips and Mrs. Boering wore corsages of coral carnations tied with white ribbon, using the chosen colors of the bride.

Marlys Gragg, Clovis, cousin of the bride, and Howard Danforth, brother of the bride, lighted the candles. Miss Gragg wore a coral colored street length sheath dress with matching shoes and a white flowered halo hat. Her corsage was of white carnations.

Serving her cousin as maid of honor was Roxell Gragg, Clovis. She chose a coral cotton satin sheath dress with a gathered skirt of chiffon of matching hue and shoes of the same shade. She carried a colonial bouquet of coral carnations.

Bridesmaids were Carolyn Todd, Las Cruces, sorority sister of the bride, and Helen Hopewell, roommate of the bride. They wore identical sheath dresses of coral colored cotton satin featuring chiffon cummerbunds with large bows in the back. Streamers fell from the bows to the hemline. The

MR. AND MRS. LARRY LETHGO (Myrtle's Studio)

dresses were designed and made by Mrs. H. O. Rogers, grandmother of the bride. Each girl carried a colonial bouquet of coral carnations encircled with white carnations.

All of the bridal attendants wore tiny circlet hats of matching coral colored chiffon centered with a circlet of white flowers.

Best man was Harvey Lethgo, brother of the groom. Groomsmen were Jim Boering, Clovis, Pi Kappa Alpha fraternity brother of the groom, and Bill Avery, Albuquerque. Ushers were Howard Danforth and Bill O'Neil.

Given in marriage by her father, the bride wore a floor-length gown of white Chantilly lace and tulle, fashioned with a fitted bodice featuring a sabrina neckline and long tapered sleeves with minute covered buttons. The circular skirt was styled with a demi-peplon and a sunburst accordion pleated front panel.

Her tiered veil of imported illusion edged in lace cascaded from a rhinestone tiara and she wore a single strand of pearls, gift of the groom. She carried a bouquet of coral colored carnations surrounded by stephanotis and streamers on her white Bible.

The traditional something old and borrowed was her wedding gown, worn by her cousin, Mrs. Bob Price, Hobbs. New were her pearls and she wore a blue garter fashioned and made by her maternal grandmother, Mrs. H. O. Rogers, Morton. In her shoe was a penny minted in the year of her birth, given to her by Mrs. Hassie French.

For her daughter's wedding, Mrs. Danforth chose a turquoise sheath dress of silk with which she wore a white hat and gloves and multi-colored shoes.

Mrs. Lethgo, mother of the groom, chose a dress of beige silk linen with which she wore brown accessories. Both mothers wore corsages of gardenias.

In the receiving line at the reception, held immediately following the wedding in the parlor of Kingswood Methodist Church, were the newlyweds, their parents, Mr. and Mrs. Fred Danforth and Mr. and Mrs. Glenn Lethgo and Miss Ruxell Gragg. Mrs. W. T. Gragg aunt of the bride, presided at the guest register. The receiving room was decorated with pedestal bouquets of white gladioli and daisies.

The bride's table was covered with coral net over taffeta and centered with an arrangement of white gladioli and daisies flanked by white tapers in three branched silver candelabras. Silver appointments were used and white napkins were embossed with the names "D' Rene and Larry."

The three tiered wedding cake was iced in white and topped with the traditional bride and groom standing under a white lace arch.

The couple cut the first piece of cake with a silver cake knife inscribed "D' Rene and Larry 6-9-63" and toasted each other with crystal hollow stem glasses on which "D' Rene and Larry" was etched. These were gifts from the bride's brother,

Molly Rodolph, sorority sister of the bride, served the cake and Patricia Patterson, long-time friend of the bride served mock champagne from the crystal punch service.

Marlys Gragg presented guests with the groom's cake in small white boxes bearing the names "D' Rene and Larry" and miniature coral colored net bags tied with tiny white bows, filled with rice.

When the couple left for a wedding trip to Ruidoso the bride wore a suit of beige silk with a pure silk striped blouse, which she had designed and made. Her accessories were a nude patent bag and shoes with beige gloves and hat. She wore a coral colored carnation corsage.

The couple is at home in Apartment 49, Verville, ENMU, Portales. Mrs. Lethgo is attending summer school and he is employed at Curry County Grain Company, Clovis. The couple will be seniors at ENMU in the fall. She is majoring in home economics and he is majoring in physical education.

The bride is a member of Zeta Tau Alpha sorority, which she served as president the fall semester this year, is also a member of the press club and the home economics club. She was selected Aquatic Queen during her freshman year.

The groom is a member of Pi Kappa Alpha fraternity and interfraternity representative.

Out of town guests for the wedding included five grandparents, Mr. and Mrs. H. O. Rogers, Morton, Mr. and Mrs. T. F. Danforth, Portales, Mrs. Lula Folis, Clovis; Messrs. and Mmes. Glenn Thompson, Gene Benham, Leslie Silvers and Don Hoffman, Morton; J. T. Montgomery and Sharon, Roswell, Bill Hager, Linita and Ronda, Arkansas, Ivan Neville, E. O. Danforth, Zorita and Dallas, Dr. Maria S. Frieson and Mrs. Paul Murphey.

Also Messrs. and Mmes. Vic Worley, Andy Cottle, Charles Smith III, Doug Lang, all of Portales and Mr. and Mrs. Ollie Burton, Santa Fe.

Zeta Tau Alpha fraternity sisters attending were Peggy Teel, Texico, Mary Tipps, Portales, Sandy Langford, Karen Baker, Molly Rodolph, Carolyn Todd, Karen Weaver and Mrs. Worley, Portales.

Fraternity brothers in attendance were Worley, Lang, Mack O'Neil, Fichard Valentin, Harry Jasper, Mike Huston, Tony McAdams and Deryll Avlett.

*In 1960, Texas physicians provided free medical care worth \$31,289,000.

June 15 Ceremony Unites Mary Gay Judd-Phillip Billingsley

Mary Gay Judd, daughter of Mr. and Mrs. Arthur Judd, Stratford, and Phillip Billingsley, son of Mr. and Mrs. Clark Billingsley, Farwell, were united in marriage in First Christian Church, Stratford, June 15.

Rev. John Reaves of Del Rio, a close friend of the bride, officiated at the double ring ceremony.

Vows were exchanged at the church altar which was centered with an arch decorated with white asters and English ivy. A bank of Emerald and huckleberry formed the background. Flanking the arch were candelabras and baskets of white stock and pom pom mums.

Mrs. Roland Herring, cousin of the bride from Amarillo played pre-nuptial music on the piano. She was accompanied by Mrs. Frank Sutton at the organ. Their selections included "Whither Thou Goest" and "The Lord's Prayer."

Candlelighters were Nina Carol and Roland Herring, cousins of the bride from Amarillo.

Maid of honor was Sandra McCullough of Albuquerque. She was attired in an emerald green taffeta gown fashioned with a bell skirt. She carried a cascade bouquet of white daisy mums with a center of white gardenias. Other attendants were Sherry Billingsley, sister of the groom, Farwell and Ann Burgess, Stratford. They wore dresses of mint green styled similar to that of the maid of honor.

Flower girl was Belina Herring and Tommy Herring were ringbearer. They are cousins of the bride and live in Amarillo.

The bride given in marriage by her father, chose a floor length dress of white silk organza with insets of lace in front and back. The lace insets were accented by tiny seed pearls. The softly flaring skirt extended to a chapel train. Her shoulder length veil of white silk illusion fell from a crown of seed pearls and rhinestones. She carried a cascade bouquet of daisy mums centered with a large cattleya orchid.

Following tradition she wore for something old, the wedding ring of her grandmother, Mrs. J. A. Judd and cameo earrings belonging to her aunt, Mrs. Bessie Mitchell, borrowed from the veil from the sister of the groom, Mrs. Bo. Betty, new was a pearl necklace, gift of the groom, and blue was the traditional garter.

Larry Smith, Farwell served as best man and groomsmen were Sonny Judd, brother of the bride, and Van Crume, Farwell, close friend of the groom. Ushers were Sammy Gideon, Pampa and Bud Thomas, Hereford.

Mother of the bride chose for her daughter's wedding a beige chiffon dress with matching accessories and a pink sweetheart rose corsage.

Mother of the groom, wore a printed dress of tangerine with which she wore beige and tangerine accessories. Her corsage was of white carnations. Guests were registered by

Mrs. Phillip Billingsley

Mrs. Martin Shields, cousin of the bride and Mrs. Bo Betty, sister of the groom.

A reception was held in the church fellowship hall immediately following the ceremony. Serving table was laid with a white silk lace organza cloth. Centering the table were the bride's bouquet and those of the bridal attendants flanked by candelabras holding tall tapers. A crystal punch service and silver completed table appointments. Presiding at the serving table were Mrs. Martin Shields and Mrs. Dean LeFavor, El Paso.

When the newlyweds left for a trip to Carlsbad and Ruidoso, Mrs. Billingsley was wearing a green suit with beige accessories and the orchid lifted from her bridal bouquet.

Mrs. Billingsley is a graduate of Stratford High School and has been attending West Texas State University, Canyon.

The groom is a graduate of Farwell High School and is also a student at WTSU. They will make their home in Farwell for the summer, where the groom is employed; however they will return to Canyon in the fall and continue their studies.

Persons from this area attending the wedding were Mrs. E. U. Billingsley, grandmother of the groom, Mr. and Mrs. Clark Billingsley and Sherry, Mr. and Mrs. Scott Billingsley, Brad and Sandra, Mr. and Mrs. Mitz Walling, Edith Ann and Milton Lee, Mike Billington, Van Crume, Phyllis Christian and Mr. and Mrs. Robert Betty.

Lullaby Shower Honors Mrs. Truman McKillip

Mrs. Truman McKillip was honored for a lullaby shower at the Farwell Home Economics Cottage, Tuesday night. Hostesses were Mmes. Don Tarbet, N. H. Goldsmith, Joe Crume, V. C. Venable, W. E. Martin, O. C. Pullam, C. J. Huffaker and K. D. Stone.

Iris Goldsmith and Mrs. Tarbet presided at the serving table which was covered with white lace over pink. Centering the table was a stork holding streamers of blue and pink ribbon which were attached to a basket filled with sweetpeas surrounding a baby doll. Crystal and silver appointments were

used. Individual cakes iced in white were served with pink punch.

The honoree and her mother, Mrs. Joe Barker were presented with corsages made from miniature baby needs tied with dainty ribbon bows. Mrs. Barker assisted the honoree with opening gifts.

Attending and sending gifts were Mmes. Ethel Howard, Joe Barker, F. S. Shuman, Donald Clark, Maurice Clark, Duane Herington, Phillip Crume, Floyd Embry and Estelle, C. A. White, Glen Lesly and Hazel, C. L. Mahaney, W. W. Hall, W. T. Meeks and Lee Meeks.

Also Mmes. Bill Roberts, Ted Sheets, Preston Martin, L. E. McKillip, Leroy Williams, Paul Skaggs, James Tuggle, Louise Bush, Bobby Crume, Joe Camp and Ed Combs.

Also Miss Iris Goldsmith and Mmes. C. G. Davis, G. L. Medley, Lewis Tharp, O. C. Harrison, Lee Thompson, Cora Lunsford, J. H. Stone, Grady Herington, L. C. Paul, Harry Sheets, Sam Hukill, Leon Meeks, Beulah Hobbs and C. M. Meeks.

Four Years Old

The fourth birthday of Judy Hardage, daughter of Mr. and Mrs. Truitt Hardage, was marked with a party at the home of her parents Saturday.

Indoor games were directed by Mrs. Hardage assisted by her sister, Sharon Harris, Wellington.

After Judy had opened and displayed gifts to the guests birthday cake was served with lemonade. The cake was iced in white and decorated with pink roses and the words "Happy Birthday Judy" in green lettering. Centering the cake was an angel and four pink candles.

As the guests were leaving Judy presented each of them with a toy wrist watch and colorful balloons.

Attending were Sherry and Debbie Dew, Sheryl Woods, Natlie Dollar, Carla Huguely, Teresa Dollar, Cindy Fisher, Gary Hardage, small brother of the honoree, Sharon Harris, Mrs. Bill Dollar and Mrs. Truitt Hardage.

Attend Wedding In Silverton

Mr. and Mrs. W. H. Graham and boys were in Silverton Sunday to attend the wedding of James Roy Brown, cousin of Mrs. Graham, to Becky Mallow.

They also visited with Mrs. Graham's parents, Mr. and Mrs. O. M. Dudley and with Captain and Mrs. Carol Davis, who had just arrived from Columbus, Missouri. The Davises are enroute to a new assignment at Lawton, Okla.

Fireman's Auxiliary Honors Mrs. Johnson With Party

Members of Texico Fireman's Auxiliary met at the fire station Monday night for a short business session after which they went to the Spur Restaurant to celebrate the birthday of their president, Mrs. Russell Johnson.

At the business meeting reports were heard from the ladies who attended the state convention in Alamogordo recently. They report that their scrapbook took the first place prize for the second consecutive year. Plans were completed to serve a meal to the family of C. H. Webb, when the family returns home from the funeral of her father, who passed away Saturday.

Next meeting will be in the home of Mrs. Rip Snodgrass at which time a flower arranging demonstration will be held.

Attending the Monday night meet were Mmes. Russell Johnson, Perry Winkles, Fred Danforth, John Adams and one new member, Mrs. Roy Harvey Snodgrass.

TURNER-TARBET: Announcement is made by Mr. and Mrs. L. C. Turner of the engagement and approaching marriage of their daughter, Rita to Lynn Tarbet, son of Mr. and Mrs. P. K. Tarbet of Ackerley. Vows will be exchanged in the home of Mrs. Ethel Howard, grandmother of Miss Turner. August 2 with Don Tarbet Church of Christ minister, officiating. Only close friends and relatives will attend the ceremony. A reception will follow the wedding in the home of Mrs. Howard with friends and relatives invited to attend.

Hanna Family Has Reunion

The family of the late Mr. and Mrs. Joe Hanna held a reunion over the weekend at the homes of the Milton Hensons and Paul Crooks in Texico.

Dinner was served on Sunday at the Paul Crooks home with family members from Seymour, Wichita Falls, Clovis, Lubbock, Oklahoma Lane, Texico, and El Paso in attendance.

Attending the affair were Mr. and Mrs. Aubrey Neil, Paula and Barry, W. C. Hanna and Mrs. Roy Parker and Brett, Lubbock, Mrs. Opal Hanna and Maurine Hanna, Wichita Falls, Mr. and Mrs. Bobby Hanna and Keith, Seymour, Mr. and Mrs. Neil Miner, El Paso, Mr. and Mrs. Leon Billingsley, Janis and Bruce, Mr. and Mrs. E. W. McGuire, Oklahoma Lane, Messrs. and Mmes. Jerry Reid, Jerry Jensen and Jarlyn, Terry Summers and Laurie, Larry Summers, Donna, Susanna and Kelvin, Bruce Deavours, Sue, Bob and Mark, Dean Summers and Jane Hammond, Clovis.

Special guests were Major and Mrs. M. W. (Pete) Hanna Jean and Judy who are enroute to a new assignment to Yolota AFB, Tokyo, Japan.

Afternoon and evening guests were Mrs. Rilda Henson, Mr. and Mrs. Harold Carpenter and son, and Mr. and Mrs. Donald Jones, Bovina.

LUTHERAN NEWS

St. John's congregation enjoyed a dinner at the Rhea Lutheran Church last Sunday. Members of the Walthar League presented a playlet "Ginger Girl" following the meal and Gaye Ramm and Cheryl Kaltwasser presented piano selections during intermission. Mrs. Ernest Ramm sang a solo entitled "One Alone" accompanied by Rev. Sander.

Cast in the role of the Ginger Girl was Margaret Haseloff. Supporting cast were Lawrence Kreigel, Mr. and Mrs. W. Kalbas, Edwin, Melvin and Delbert Lingnau, Mr. and Mrs. Tom Beal, Richard Haseloff, Calvin Meissner, and Vicki Kaltwasser.

The young people of the church plan a hayride to the sandhills Sunday, June 30. Members of the losing team are feasting the winning team with this party.

LWML will meet July 9 instead of the regular meeting which falls on July 4.

Visit Parents

Mrs. Orville D. Jones, Tammy and Dean, Ft. Worth, are visiting in the home of Mrs. Jones's parents, Mr. and Mrs. H. R. Crook this week. The three arrived Tuesday and will return home Wednesday.

On the 4th, when you put up the flag, ask yourself...

- Am I displaying the flag correctly?
- Will my children give it the respect it's due?
- Do they know what the flag represents?
- Do I?
- Could I explain our system of government to a foreigner as well as he could explain his system to me?
- Did I vote the last time I was entitled to?
- When did I last attend a political meeting?
- Who is my Precinct Chairman? Who heads my P.T.A.? My School Board?
- Which way does my newspaper lean, politically?
- Am I asking questions and taking sides often enough?
- Am I making full use of the freedoms the flag represents?

MR. AND MRS. JERRY REED (Myrtle's Studio)

Jeree Summers-Jerry Reid Wed In Impressive Ceremony

In an impressive ceremony read by Rev. Harvey Hudnall at Texico First Baptist Church at 2:30 p.m., June 16 Jeree D' Lois Summers, daughter of G. F. Summers, Clovis, and the late Mrs. Summers and Jerry O'Neal Reid, son of Mrs. Ruth Reid, Texico, and the late Levi Reid exchanged wedding vows. The double ring ceremony was read at the church altar which was set with baskets of yellow daisies and gladioli flanked by four seven branched candelabras holding yellow tapers. Backing the altar setting were fan shaped arrangements of greenery. Centering the setting was a white wrought iron kneeling bench entwined with florets of white gladioli and greenery.

Family pews were marked with nosegays of yellow daisies. Organist, Carol White, played pre-nuptial music and the traditional wedding marches. She also accompanied Mrs. Margaretta Spradlin, soloist as she sang, "Twelfth of Never" and "Whither Thou Goest" preceding the ceremony and "Wedding Prayer" at the close of the ceremony as the couple knelt at the altar.

Candlelighters, Terry Summers and Dean Summers, brothers of the bride, also acted as ushers. Serving as best man was Joe Horton, St. Vrain, close friend of the groom, Don and Bill Reid, brothers of the groom served as groomsmen.

Matron of honor was Mrs. Terry Summers, sister-in-law of the bride. Serving as bridesmaids were Carolyn Lindop and Mikala Austin, Farwell, friends of the bride. All bridal attendants wore identical dresses of yellow pima cotton styled with fitted sleeveless bodices, V necklines, and full skirts. Their headpieces were short yellow net veils attached to yellow ribbon bows. They carried stylized cascade arrangements of yellow daisies.

The bride, who was given in marriage by her father, wore an original floor length gown of white Chantilly lace over taf-

feta, designed and made by Mrs. Margaretta Spradlin, a close friend. The dress featured a round neckline accented with scallops of lace, and long sleeves tapering to petal points over the hands. The softly flaring skirt was fashioned with a drape which came to a point in center back, outlining the V were white satin roses. The skirt extended to a short train. Her shoulder length veil of white illusion was held in place by a queen's crown of pearls and rhinestones. She carried a cascade bouquet white daisies and yellow roses.

Carrying out bridal tradition she wore for something old an heirloom bracelet, belonging to the groom's mother. New was a pearl necklace, gift of the groom and her wedding dress, borrowed was an Indian Head Penny which all of the Reid children had used at their weddings, and blue was the traditional garter, borrowed from her sister-in-law. For luck she wore in her shoes pennies minted in the year of her birth and that of the groom.

Mother of the groom chose for her son's wedding a dress of brown cotton satin with which she wore beige accessories. Her corsage was of yellow carnations. Mrs. Bruce Deavours, cousin of the bride, wore a two piece suit of beige linen with matching accessories. Her corsage was also of yellow carnations.

Guests were registered by Mrs. Arlye Crooks, sister of the groom.

Immediately following the wedding a reception was held in the church fellowship hall. Centerpiece for the serving table, which was covered with brown net over yellow, was a crystal bowl featuring cherubs holding an arrangement of white daisies and yellow gladioli.

Flanking the floral arrangement were crystal candleholders holding tall yellow tapers. At one end of the table was placed the three tiered wedding cake, decorated with yellow roses, white wedding bells and topped by a miniature bride and groom figurine. At the other end of the table was the crystal punch service from which yellow punch was served. Yellow napkins inscribed with the names "Jerry and Jeree" in brown completed table arrangements.

Presiding at the serving table were Karen Porterfield and Sandi Hayes, close friends of the bride, from Clovis.

When the couple left for a short wedding trip to points in New Mexico the bride was wearing a yellow cotton sate dress with bone accessories and the roses from her bridal bouquet.

Mrs. Reid attended school

Nuptial Vows Exchanged By Brenda Dale-Vernon Conner

Nuptial vows were exchanged by Brenda Dale, daughter of Mr. and Mrs. R. D. Dale and Vernon Conner, son of Mr. and Mrs. Leon Conner, Spearman, June 8, 4:30 p.m. at Oklahoma Lane Methodist Church.

Rev. George Davis, pastor of the Needmore Assembly of God Church and an uncle of the bride, officiated at the double ring service.

The couple spoke their vows at the church altar, which was decorated with bouquets of apricot colored gladioli and daisies in fluted pottery vases. Centering the altar arrangement was a gold candelabra holding white tapers.

Mrs. Gene Davis, aunt of the bride, played soft background music preceding the ceremony and the traditional wedding marches. She also accompanied Sharon Bass, cousin of the bride from Hart, as she sang "Whither Thou Goest" and "The Wedding March."

Attending the bride and groom were Melody Jayne Coffman, Farwell, close friend of the bride, and Vernon Paschal, Ralls, close friend of the groom. Miss Coffman, wore an apricot colored dress of cotton satin styled with a square neckline, cap sleeves, fitted waist and a full skirt. The fitted waist was accented by a large bow at center front. She carried a bouquet of white carnations tied with apricot ribbon.

The bride, escorted to the altar and given in marriage by her father, chose a street length dress of white embroidered dacron polyester combed cotton. The dress was fashioned with a round neckline, fitted waist, full skirt and short jacket. Her shoulder length veil of white illusion was attached to a white halo hat. The hat and veil were accented by tiny bows of white satin ribbon. She carried

Party Marks Sixth Birthday

The sixth birthday of William Rundell, son of Mr. and Mrs. Pete Rundell, was marked with a party at the home of his parents recently.

Games of red rover, pin the tail on a donkey and ring around the roses was directed by the honoree's sister, Gwendolyn. Favors were assorted colors of balloons.

After the "birthday boy" had opened his gifts and they had been admired by the other children, refreshments of cup cakes and ice cream were served.

Attending were the honoree's grandmother, Mrs. Ray Mears, Mark and Craig Zahn, David Dannheim, Kent Gast, Terry and Chip Craft, Robert and Leslie Curtis, Natalie and Polly Dollar, Lynn and Lisa Kittrell and Mrs. Pete Rundell, mother of the honoree.

Moved

Fred Kirsten to 6th and Avenue D, Farwell.

H. E. Landrum to 2nd St., George Magness rent house.

Troy Lee Fowler to 200-7th St.

Hugh McEvoy to 502 - 1st St., Mrs. Cain's apartment.

in Clovis and is a 1963 graduate of Farwell High School.

The groom is a 1959 graduate of Texico High School and is employed by Duncan Homes, Clovis. The couple are making their home at 600 East 6th St., Clovis.

Out of town guests attending the wedding were Messrs. and Mmes. Doyle Webster, Littlefield, W. O. Reid, Amarillo, A. F. Dunsworth, Portales and Bill Hanna, Lubbock.

MR. AND MRS VERNON CONNER

ried atop her white satin covered Bible a cascade arrangement of white carnations and daisies surrounding a white gladioli.

Carrying out tradition the bride wore for something old a lapel watch, borrowed from her close friend, Janie Malow, Muleshoe. New was her dress and veil, borrowed was the Bible from her sister, Mrs. Bill Mar-

tin, and blue was the traditional garter. She also carried for luck, in her shoes, pennies minted in the year of her birth and that of the groom.

Mrs. Dale, mother of the bride wore a two piece dress of beige satin gaberdine with white accessories. Her corsage was of white carnations.

Mother of the groom, Mrs. Conner chose a dress of blue

and white jersey with white accessories. She also wore a white carnation corsage.

A reception was held in the home of the bride's parents immediately following the wedding ceremony. The home was decorated with apricot and white floral arrangements.

Serving table was laid with a white lace cloth over apricot and centered by an arrangement of apricot mums in a crystal footed wedding bowl. Flanking the floral arrangement was the three tiered wedding cake iced in white topped by a miniature bride and groom figurine and a crystal punch service.

After the bridal pair had cut the first slice of cake it was served with punch, mints and nuts by Donna Dale, cousin of the bride and Judy White, a close friend.

When the newlyweds left for a short wedding trip to Kerville the bride was wearing a dress of apricot pima cotton with white accessories and a corsage lifted from her bridal bouquet.

Mrs. Conner is a senior in the Farwell High School and plans to finish her school work by correspondence. The groom is a 1962 graduate of Ralls High School and is presently employed by Farmers Union Co-op at Lazbuddie, where the couple are making their home.

TRUE-TEEL: Mr. and Mrs. C. P. True, Clovis are announcing the engagement and approaching marriage of their daughter, Betty, to Allen Teel, son of Mr. and Mrs. Elmer Teel, Texico. Miss True and her fiancé have attended Eastern New Mexico University where she is a senior and he is a 1963 graduate. Friends and relatives are invited to attend the August 24, 7:30 p.m. wedding in the Advent Christian Church, Clovis.

Keep Your Dollars In Your Own Alley

A GOOD BOWLER doesn't bowl wide into the alleys on either side of him ... you just can't run up a good score that way. And the ball comes back to somebody else.

As a Wise Buyer, you don't scatter your shots either. You put your dollars down the Home alley, and your "score" is a livelier, more prosperous community in which to live... and make a living. And your dollars circulate normally, back through your own hands, time and again.

Democratic Women Sponsor Art Contest

Announcement has been made of an art contest for high school students beginning this month. Sponsor of this project is Democratic Women of Texas.

Winner of the state contest will receive a \$500 scholarship award at a banquet at the JAL Ranch at Alvarado, Texas. The presentation will be made by Governor John Connally.

All residents of the 30th Senatorial District will compete in the district contest, which will be concluded early in August.

All district entries will be judged at Tulsa August 16 and winners will be eligible for state competition.

All high school students, who will be classified as freshmen, sophomores, juniors or seniors this fall are eligible. For additional information interested parties should contact Mrs. Leon Smith, Route 1, Friona, Texas.

Monday Night Guest In Pool Home

Guests in the Lenton Pool home Monday evening for a buffet meal and an evening of visiting were Mr. and Mrs. Jerry Pool and children, Chattanooga, Mr. and Mrs. J. A. Mullinax and Teresa, Mr. and Mrs. Dub Hodges, Tonya and Duayne, Mr. and Mrs. Jimmy Mullinax, Tonya and Gayla and Mrs. W. L. Miller, all of Morton.

HOSPITAL NOTES

Mrs. W. T. Meeks who underwent surgery in a Clovis hospital Tuesday is reported to be resting well by family members.

Mrs. George Lindop, who is a surgical patient in a Clovis hospital is resting well and will return home in a few days, report family members.

Visits Sons

Mrs. Mamie Magness and her granddaughters, Patsy Dean and Ruthie Magness, Edinburg, accompanied Mrs. Ted Magness and children who have been visiting in Walnut Springs with the L.B. Hensleys and in Waco with other relatives, to Farwell Friday for a visit in the home of Joe Magness and W.T. Magness.

Joe and W.T. Magness are sons of Mrs. Mamie Magness.

Visits Here

Mrs. Hugo Schubert of Jefferson City, Missouri is visiting here and transacting business in this area. She reports a fine wheat crop on her property north of Texico.

Mrs. Schubert says that the wheat is making some 60 to 70 bushels to the acre after having received hail damage.

17-M OWNERS

As of mid-1962, more than 17-million men, women, and children owned shares in various corporations, an increase of 4.5 million in 3 years, the New York Stock Exchange reports. Fifty-five per cent of these stockowners are women; the median age of the newcomers to stock ownership is 39, against age 48 for all shareowners.

One of the most interesting notes disclosed by the Stock Exchange is that 12.5% of the new shareowners were in the two wage groups—under \$3,000 a year, or between \$3,000 and \$5,000 per year.

Visit In Illinois

Mr. and Mrs. John Getz and son, Mike returned Wednesday from Peoria, Ill. where they have been visiting friends and relatives for the past week.

While in the Illinois city they attended the silver anniversary celebration of the high school graduating class of John Getz.

Barbara Jean and Mary Lou Jarrell from Seattle, Wash. are visiting in the home of their grandparents, Mr. and Mrs. A. J. Jarrell for the summer. The girls arrived last week.

Playing hide and seek behind the Magnolia bush at their home are the children of Mr. and Mrs. Bob Anderson. Note the beautiful waxy white blossom on the plant. This is the first of its kind to be seen in the Twin Cities as the Magnolia is a native of the deep south.

PLEASANT HILL

Guests this week in the home of Mr. and Mrs. Von Hukill are Mr. and Mrs. Erwin Monington, Linda and Phil, Peggie McDonald and Brent Warren from Overton, Neb.

Wednesday and Thursday Mrs. G. G. Parker from San Angelo visited in the home of her nephew, Roy Richardson. The group went to Melrose where they visited with Mrs. Lillie Richardson, mother of Roy.

Carla and Vicki Richardson attended a birthday party Saturday, honoring Debra Baldrige in Clovis.

Sunday dinner guest in the home of Mr. and Mrs. Jim McCullough were his sister and family, Mr. and Mrs. W.G. Schmatjan and grandchildren, Barbara and Joe Rannels, Houston, also Karen Burns from Seminole.

Recent guests in the home of Mr. and Mrs. Von Hukill have been Mrs. Hukill's mother, Mrs. Millard Dodge and her sister, Mrs. Vernon Wellner, Lexington, Neb.

Visiting in the home of the Robert Servatius family recently were Mr. and Mrs. Claud Thomas, Lubbock.

Linda and Karen Osborne, Plainview are visiting in the home of their grandparents, Mr. and Mrs. Buck Taylor.

Mrs. Janie Anderson and her daughter, Mrs. Lucille Hargrove, Anton and Mr. and Mrs. Royce Hargrove and son, Gary, Oklahoma City visited Thursday in the Robert Servatius and

(Continued on page 6)

My Impressions of Boys State

BY BILL QUICKEL

Everyone who was not elected to an office was appointed to one. Thursday evening we met and began carrying out the duties of our offices. In the legislature, bills were introduced and voted on. All bills were pertaining to the laws of boys state or were recommendations for the actual legislature.

Friday morning we went to the capitol building and were allowed to conduct business in the offices to which we were elected. On Friday night we had the Governor's Ball and Saturday morning we checked out and started home.

This is one of the most worthwhile things that I have ever done. I learned a great deal and had a lot of fun. I wish to thank everyone who made it possible for me to get to go.

JOTTIN'S

By Jeanne

I tried a new cake recipe for Father's Day, and liked it very much. I think however, that it would be even more ideal for a Christmas cake.

Mrs. Francis Whitesides of Borger, sister-in-law of the Bill Whitesides, won a cooking contest with it. Some of you might like to try it.

CANDY ORANGE SLICE SURPRISE CAKE

2 cups cake flour, (sift before measuring)
Resift three times with: 2 tsp. baking powder, 1 cup sugar.
Blend in 4 tablespoons shortening or butter.
Whip until stiff, then fold in: 2 egg whites, 1/4 tsp. salt.
Combine 3/4 cup milk, 1/4 tsp. almond extract, 1/2 tsp. vanilla.
Add the liquids to the other ingredients. Stir until the flour is dampened, then beat vigorously for 1 minute.
Add: 1 cup coarsely chopped pecans.

Pour cake into 13x9x4 greased and floured pan. Sprinkle on top, 12 candy orange slices, cut small and floured. Bake in moderate oven (375) for 35 to 45 minutes. Take out of oven and make about 12 small holes with a fork. Spread 1 small can crushed pineapple with juice over top of hot cake. Cool. Ice with a seven minute icing or you might try a marshmallow topping.

Then we read that dieting is what comes from exceeding the feed limit.

You'd better hurry if you completed all those projects you planned for June.

America, the Beautiful

KATHERINE LEE BATES

SAMUEL A. WARD

1. O beau-ti-ful for spacious skies, For amber waves of grain, For purple mountain maj-es-ties A-bove the fruit-ed plain, A-mer-i-ca! A-mer-i-ca! God shed His grace on thee, And crown thy good with brotherhood From sea to shining sea.

On July 4th 1776 America Declared Her Independence. We Thank God For The Blessings Of Freedom And Abundance That Has Been Ours. We Wish To Thank Our Neighbors Who Have Brought Us Their Grain And Pledge To Them The Continuance Of Those Good American Virtues Of Courtesy, Honesty And Fair Dealing.

Land Acquisition Bill Is Attacked As Federal Grab

WASHINGTON—The present excessive ownership of land by the federal government removes any justification for further governmental land acquisition, the National Association of Manufacturers declared in opposing legislation to establish a Land and Water Conservation Fund.

The NAM, in testimony before the National Parks Subcommittee of the Interior and Insular Affairs Committee of the House pointed out, also, that the bill under consideration would force the Congress to surrender a great deal of its power over federal expenditures.

The program would cost the taxpayers at least \$480 million in the first 10 years of its operation. Daniel W. Cannon, conservation specialist of the NAM staff, testified.

We Are Always Happy to be of Service to You
RALPH HUMBLE
Farwell, Texas

July 4, 1832—The song "America" was sung publicly for the first time by the children of Boston at a Fourth of July celebration in the Park Street Church. The words, said to have been written in a half hour by Dr. Samuel Francis Smith, a clergyman, were set to the music of "God Save the King."

July 6, 1952—The superliner *United States*, en route to England from New York, established a new speed record across the Atlantic, crossing it in 3 days, 10 hours and 40 minutes.

July 16, 1945—At five-thirty o'clock this morning the first experimental test of an atomic bomb took place. The site was Alamogordo Air Base, New Mexico.

July 28, 1945—The Charter of the United Nations—by a vote of 89-2—was ratified by the United States Senate.

July 31, 1732—The cornerstone of the Mint, first building of the United States government was laid today.

*Thomas Jefferson suffered throughout his life with migraine or tension headaches.

Uncle Ray's "Hot Air"

The other day a friend of mine named Harry walked into a cigar store and said to the salesgirl, "I'd like to buy a carton of cigarettes."

The salesgirl smiled, said, "There are so many brands. Which one would you like?"

My friend, Harry, thought for a moment, then mentioned a particular brand, whereupon the following conversation took place.

Salesgirl: Do you want the soft pack or the crush-proof box?

Harry: Soft-pack.

Salesgirl: King-size or regular?

Harry: King-size.

Salesgirl: Filter-tip or plain?

Harry: Filter-tip.

Girl: Menthol or mint?

Harry: Menthol.

Girl: Cash or carry?

Harry: Forget it... I've broken the habit.

Don't break the habit of shopping Uncle Ray's low prices.

Work Begun On Southwestern Public Service Co. New Home

Construction work on the new home of Southwestern Public Service Co. was begun early this week. The building will be located at 314 - 3rd. St.

The company will occupy the south half of the 50 x 50 foot building which is being constructed by Jerry Paul of Paul Real Estate in Clovis. The

structure will feature masonry walls, concrete floors and the latest in modern design. The building will be completely cooled and heated by electricity using a heat pump. The latest in light fixtures will be installed and the company will incorporate different types of diffusers in order to

show customers the type recommended for their business. Different levels of illumination will be used for different tasks carried on in the offices.

Front of the building will be aluminum and glass and will offer a fine display area for appliances. "It will be as modern as we know how to make it" says Otis Huggins, local manager.

The company has signed a ten-year lease on the building. General construction foreman is Bill Dunn and Ray Campbell is electrical contractor. Completion is expected on the building within two months.

At this time nothing is known of what business will occupy the other half of the building.

Former Local Boy Chosen For Students Abroad Program

Charles Michael Booth, son of Mr. and Mrs. Earl Booth, Clovis, formerly a resident of Farwell, and grandson of Mr. and Mrs. E. E. Booth, has been selected by the International Association for the Exchange of Students for Technical Experience to participate in Students Abroad program for engineers. He is a sophomore, attending Yale on a scholarship.

CHARLES BOOTH

Mike will go to Stuttgart, Germany in June and work in various levels of industry for the Robert Bosch Co. For the summer job he will receive a modest stipend, plus a room and one meal daily.

An engineering major, he was on the dean's honor list last semester and also a member of Branford Council, chosen by the residents of Branford Hall. Last year he was chosen by NBC in conjunction with Yale University, as a representative college freshman for a television show.

In high school Mike was a representative to Boys State, a candidate for Boys Nation, president of the Clovis National Honor society, winner of the WOW gold medal for American History and also a commencement speaker.

Mr. and Mrs. Hershel Pierce are visiting in the home of Mr. and Mrs. Ralph Humble. Pierce is the son of Mrs. Humble.

Tomato acreage in this country increased only 4 per cent in 1962, but favorable weather and improved growing practices boosted production 25 per cent. As a result, look for specials on tomato sauce and puree, chili sauce and catsup.

The secret of honest-to-goodness beef stew lies in the seasoning, and we were happy to find it already prepared in McCormick's old-fashioned beef stew seasoning—a tasty, just-add-water product. It adds a full-bodied new flavor to meat loaf, swiss steak and other meat dishes, as well.

Dark green and deep yellow vegetables give good value in minerals and vitamins. Learn to use the leafy tops of young beets and turnips. These, like spinach, are inexpensive sources of Vitamin A.

Unlimited Facilities For Fun

Tourist information on Burnet, one of Central Texas' finest vacation cities, lists many fine features.

Fact of the matter is, there are so many fine features in this wonderland of lakes and hills that it's hard to relate all of them.

Perhaps Burnet's best and most accurate claim is that it has "unlimited facilities for fun". To list a few features: Burnet is located among five lakes with a total of 76,000 surface acres of water; nearby Buchanan Dam is the largest multiple arch dam in the world; Inks State Park, located on the shores of Inks Lake, covers 2,000 acres; nearby Longhorn Caverns is the third largest in the world and is dramatically lighted throughout its two-mile expanse.

There are other recreational facilities such as parks and a golf course, but there also are historical sights to see. In addition to a fine museum, nearby Packsaddle Mountain was the site of the last Indian battle in Texas.

Kit Carson's Last Fight
"Kit" Carson, famous frontier fighter, had his last encounter with hostile Indians at the Battle of Adobe Walls.

Site of this battle is marked just 30 miles northeast of Stinnett, Texas, in the northern Panhandle area. Under the protective cover of the adobe walls in Hutchinson County, Colonel Christopher "Kit" Carson, commanding a few companies of U. S. Troops, bravely battled a band of Kiowa and Comanche Indians, killing over 60 braves.

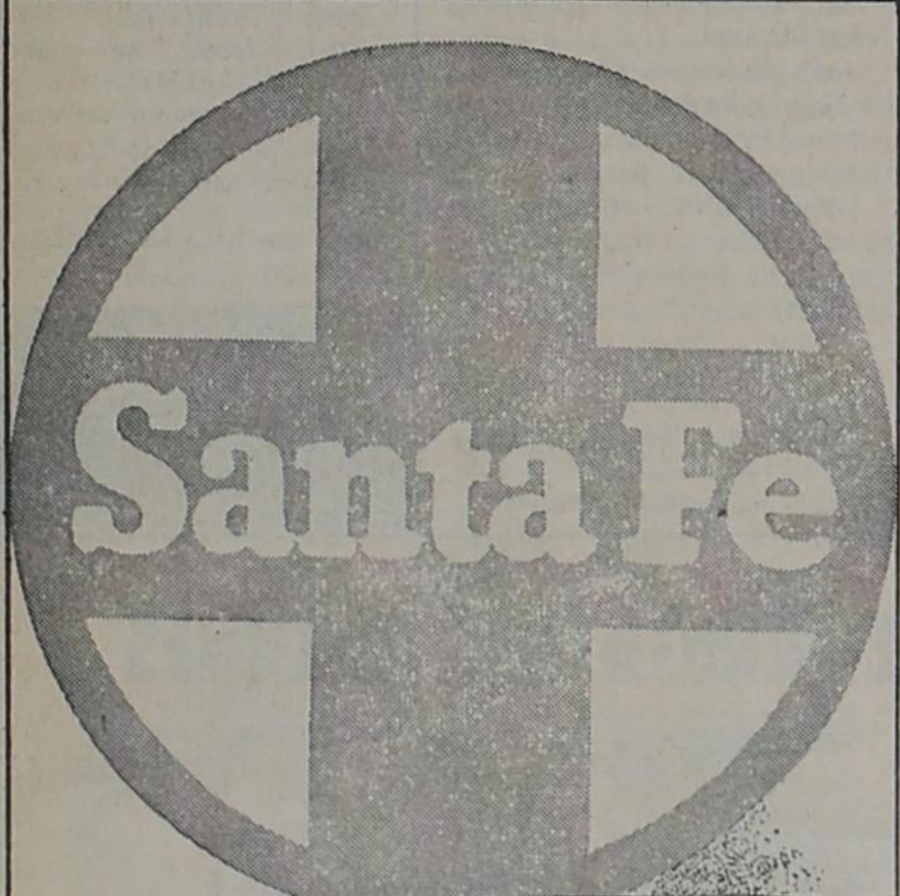

Though only a highway marker remains at the site, such battles and bravery have left a greater mark in the minds of all Americans.

Texas Has The Original
An American treasure is preserved by means of a picture held in the Library of Congress.

You too can have such a picture. In fact you can take it yourself, because Texas has the original subject. It is the San Ygnacio Ranch, on the Rio Grande between Laredo and Zapata, Texas.

This little river settlement was founded in 1790 and the Spanish language is still the most prevalent.

On the ranch is a long series of buildings. All are one

story structures but one. It is two stories tall with an overhanging balcony.

Ceiling beams in this stone building have the builder's name and the date of construction inscribed thereon.

You also will find nearby the old Fort San Ygnacio that was built in 1835.

Too Shifty To Trust

Many a sailor and ship place their trust in a lighthouse. But when the Aransas Pass Lighthouse was built in 1865, you can bet no one counted on the Pass moving. However, shifting sands now have moved the Pass a mile south of the old lighthouse.

Though this old beacon has been closed since 1952, others still are in use on our Texas Gulf Coast. Some of our Texas lighthouses have been designated as museums or parks and now are used only by sightseers.

Keep Up With The Browns

They really do it up brown — at Lake Brownwood — in Brown County — near Brownwood, Texas.

And you'll get a nice brown suntan while you go boating, fishing or swimming at this fine lake in the northwest part of Central Texas.

There's a wonderful 538-acre public park right on the lake too. It has cabins, picnic areas, a dining room, lunch counter, grocery store, dance terrace and loads of playground equipment.

Don't miss it next time you're out that way. Or better still, make your friends "brown" with envy by making your next pleasure trip a Brownwood vacation.

Beauty Not Skin Deep

It took three Dallas spelunkers to prove that Texas' beauty wasn't just skin deep.

These cave explorers dared to cross a dangerous chasm in a well-known spelunker hole and thus opened up a beautiful new world beneath West Texas soil. They were the real discoverers of the Caverns of Sonora.

These caverns are located 14 miles west of Sonora, Texas, in Sutton County. Already world-renowned, they were opened officially for sightseers only in the summer of 1960.

Tourist traffic steadily has increased as more and more leave to tell of the three miles of fantasy explored to date.

Experts have praised the Caverns of Sonora as possessing more variety of formations and color than any other known cave. Though thousands of years old, this cavern is a "live" cave and still is growing.

Buried At The Battleground

No silent grave for him — a battleground is where he is laid to rest.

They called him Reveille. He saw many a battle where his remains now lay. And great battles still are waged on this battleground.

The site is Kyle Field at College Station, Texas. It is the stadium for A&M College, in Central Texas' Brazos County.

A "T" emblem in granite forms the marker for Reveille, who is buried beneath in a child's casket.

Reveille was the canine mascot of the Aggies. He died in 1944.

Blanco Is A B-I-G Park!

Yep, there are 110 acres on each side of the river where you can camp, fish, swim or picnic at Blanco Park. It's located where the Blanco River crosses U. S. Highway 281 north of Lubbock.

Fish are reported to be plentiful . . . and especially tasty when cooked right there in the open.

If you don't like to fish, it's a perfect place to just rest while the kids keep busy on the playground.

FIX-UP TIPS

Cover Cracked Plaster!

MANY FAMILIES have constant budget problems. As a result, they may neglect the appearance of their homes. With modern building materials, they can improve the looks and stay within their budgets.

For example, while it may be expensive to replaster a lower

wall in a room in order to eliminate unsightly cracks or holes, an economical remedy is available.

Simply install a wainscot, about three feet high, around the room, using panels of Masonite 1/2" Tempered Presdwood. These may be fastened with wallboard adhesive or brads driven into wall studs. Bevel the edges for an attractive V-joint and top the installation with a cap molding.

The low cost will amaze you; also the excellent wearing quality of the all-wood Masonite hardboard. To decorate the wainscot at minimum cost, get some color in oil and thin it with turpentine. Apply the thin coating with a rag or brush.

Tim Lovett, son of Mr. and Mrs. Roy Lovett spent two weeks in Dallas as a guest in the home of his sister, Mrs. Irby Don Fange.

Lynell Lovett who is attending summer school in Plainview spent the weekend with her parents, Mr. and Mrs. Troy Lovett.

Ardella Mickaboine, daughter of Mr. and Mrs. Joe Nickaboine is in Fort McClellan, Ala. where she is receiving basic training in the Women's Army Corps for the next eight weeks.

Mr. and Mrs. Roy Chisman, parents of Case Chisman, and uncle and aunt of Mrs. M. T. Glasscock accompanied by Mr. and Mrs. Paul Chisman and family visited in the Chase Chisman and M. T. Glasscock homes over the weekend.

Rev. and Mrs. Jimmie McGuire and children have been visiting in the home of his parents, Mr. and Mrs. Ed McGuire.

THE WHEAT FARMERS AND THE FOURTH

One hundred and eighty-seven years ago a majority of the colonial farmers dropped their plows, shouldered muskets and marched off to join the fight for liberation from dominance by the British.

On May 21, last, a majority of the wheat farmers of America climbed down from their tractors and marched to the polls to repel an attempt by the federal government to dominate their agricultural affairs.

Even though the present-day farmer would not presume to place himself in the exalted company of the 1776 patriot, their separate actions have—in a sense—made them brothers in the never-ending fight for liberty.

It took great courage to engage the hordes of well-trained and fully equipped Red Coats. It also took a measure of courage to reject the tempting financial bait (\$2 a bushel for their wheat) offered by the swarm of well-heeled (with taxpayers' money) bureaucrats for a vote favorable to the Administration in the wheat referendum.

The blow for freedom struck by the latter-day revolutionaries is in the Fourth-of-July spirit. Let us hope that it will spark a reversal of the deplorable trend toward welfare-statism and lead our nation back on the road to the attainment of the truest and highest principles of free enterprise.

If it does then perhaps May 21 will also become a day for commemoration by our children and our children's children.

FB Offers Assistance To Fire Departments

The Farmer County Farm Bureau is participating in a program to assist local volunteer fire departments in fire prevention and protection in rural areas, according to Harry Hamilton of Friona, president.

Social Security News

Social security beneficiaries who are still working should report any increase in their earnings that would change their estimated incomes for 1963, cautioned Hal Geldon, District Manager, Amarillo Social Security Office.

Beneficiaries who work and earn over \$1200 a year make an annual report of their estimated earnings for the coming year, Geldon explained. The amount of benefits withheld by the Social Security Administration is based on this estimate.

To avoid overpayment in social security benefits, any increase in earnings above the estimate should be reported to social security promptly. If a beneficiary receives more in benefits than he should have, his checks may be suspended to make up for the overpayment, Geldon pointed out.

Revisions in the estimates may be made on post card forms furnished beneficiaries or at any social security office. To delay may cause hardship later, Geldon warned.

The local FB leader said the Farm Bureau will help defray the expenses for sending a limited number of volunteer firemen to a Fireman's Training School to be held July 21-26 at Texas A&M College. The Farm Bureau will pay \$45 of the \$50 registration fee for local volunteer fire departments to attend the school which furnishes up-to-date information on fire protection and fire prevention as well as fire fighting techniques. The \$50 registration fee also covers lodging and meals, he explained.

The Farm Bureau will also pay any local organized fire department for answering calls outside of the city limits to fight fires involving the property of Farm Bureau members carrying fire insurance with the Farm Bureau insurance company, he said. The amount of payment will be \$75 per call.

The county president said local fire departments are being urged to cooperate in the plan to reduce fire losses in rural areas of the county. Any volunteer fire department that will agree to serve rural areas will be eligible to submit an applicant for the fire training school. But the total number of persons that can attend is limited, and only one applicant for each fire department can be accepted, he said.

Beth Ellen Peyton, 18-year-old daughter of Mr. and Mrs. N. W. Peyton and a sophomore student at ENMU, was sponsored by Texico-Farwell Rotarians in the recent "Miss Clovis" contest. Although she did not win the event she received high praise from the judges on her poise and modeling ability. She extends thanks to the Rotary Club for its sponsorship.

Column Places Second In State

From The Hopper, weekly column penned by W. H. Graham of The Tribune, placed second in the state in annual contests sponsored by Texas Press Association. The award was made at the annual convention in Ft. Worth over the weekend.

First place column appears in the Canadian Record, and Friona Star received the third

Bonds Lagging In The County

Bond sales in Parmer County totaled only \$225 during May according to Frank Spring, chairman of the county's Savings Bonds Committee.

Savings Bonds sales in Texas during the month of May were \$11,844,620. This represents an increase of 3 per cent over May 1962.

"I was happy to note the sales increase in Texas during May and feel confident that this is a direct result of the outstanding support given to the Freedom Bond Drive by bond volunteers, newspapers, radio and TV stations, organizations, and others. The Texas Bond Committee salutes these groups for their patriotic support of the Bond Program," Chairman Spring said.

Buys Milking Shorthorn

F. E. Kepley has purchased a five year old bull, Prairie Vue Victor P271964, a registered Milking Shorthorn from W. H. Flippin Jr., Friona.

Weekend visitors in the Fred Barker home were Mr. and Mrs. E. L. Sparks, Pampa, Mrs. Sparks is a sister of Barker. They also visited in the homes of several nieces and in the Fred Barker Jr., home in Friona.

Mr. and Mrs. McLauri who have been visiting in the W. W. Raulle home returned to Oklahoma City Monday morning.

News From LAZBUDDIE

BY MRS. C. A. WATSON

Linda and Bobby Gleason accompanied the Paul Gleason family to Granite Sholes on a fishing trip last week.

Mr. and Mrs. H. A. Harvey, Plainview visited with their son James Harvey, Sunday.

Visiting in the home of Mr. and Mrs. J. B. Wright this week is their daughter, Mrs. Roy Lovejoy and son Barry, Lovington.

Members of Lazbuddie Church of Christ honored the J. G. Ward family with a farewell party, Sunday night. The Wards are moving to Kamay where he will be superintendent of the school next year.

Mrs. Maurine Ford is in Ardmore, Okla. with her mother, Mrs. Dunn who is under the care of a specialist for a rheumatic condition.

Weekend visitors in the Joe Jesko home were Mr. and Mrs. C. W. James and son, Hereford, Mr. and Mrs. A. H. Miller and daughter, Fresno, Calif., Mr. and Mrs. Weisenhant and son, Eugene, Oregon, Mr. and Mrs. J. A. Ochner, Lodi, Calif., and Mr. and Mrs. George Jesko and Betty Bailey, Amarillo.

Jill Mimms was honored with a party, marking her 13th birthday, in the home of her parents Mr. and Mrs. Pete Mimms last week. Hot dogs, birthday cake and ice cream were served and the girls made a trip to the local elevator and made a trip to the top of the elevator.

An autograph party was held at the Lazbuddie school last week with yearbooks presented and cake and ice cream served.

Birthday greetings to Jill Mimms, Larry Vaughn, Howard Watson and Mary Ellen Bustamante.

Lazbuddie FHA Chapter presented a skit entitled "What Happens at the Movie Theater Besides the Movie" at the officers training camp held recently at Lubbock. Attending the camp were Katie Blackstone, Marianna Gammon, Gayla Seaton, Bobby Jo Jones, Charlotte Seaton, Linda Monk, Marsella Mayfield and the chapter advisor, Mrs. Charlie Walton.

David Brantley Dallas spent last week with his grandmother, Mrs. A. M. Brantley.

Youth from the Lazbuddie Methodist church returned Wednesday from a mystery ramble. Only the sponsors knew where the group were going. First stop was at Lubbock where they visited the Methodist Hospital and Nursing home. They went from Lubbock to Abilene where they were guests of the youth department. They also visited the orphan's home there. They also visited McMurray College and toured the campus of SMU in Dallas. Last visit was made to Blanton Home, a home for elderly people in Dallas. The group making the trip made a stop at Six Flags before returning home. Making the trip were Mike and Frankie Hinkson, Tamra Jennings, Hoppy Jennings, Charlotte Seaton, Jacque Seaton, Mrs. J. S. Jennings and Rev. and Mrs. Don Davidson.

Rev. Don Davidson pastor of the local Methodist Church was speaker at the Muleshoe youth assembly Sunday night, Lazbuddie young people were guests of the Muleshoe group.

Midway HD Club met Tuesday in the home of Mildred Redwine with Louella White in charge of the program. Dorothy Brown reported on "Family Life" and Louella White gave a report on "Health and Safety." Alzada Gully spoke on 4-H club work. Refreshments of chocolate cake, sandwiches and coffee were served to Mmes. Henrietta Duncan, Dorothy Brown, Nell Reynolds, Louella White, Alzada Gully, Lora Brown and Dorothy Mason. Next meeting will be Tuesday, July 2 in the home of Nina Redwine. The program will be on skin care and makeup.

Rickie, Ruth Ann, Robert and Randy Duckworth spent the day in the Gully home last week. They were celebrating Rickie's 6th birthday.

Visitors last week in the George Haskins home were Mr. and Mrs. W. G. Timms, Lockney, Mr. and Mrs. J. B. Haskins, Levelland, Mr. and Mrs. Lee Castle, and Mr. and Mrs. Alford Jackson, Johnnie, and Jimmie, Dimmitt.

(Crowded out last week.)

Albert Fuller of Blanket has been hired to fill the superintendent's job at Lazbuddie. He has had six years experience and has a Bachelor of Science degree and a Master Degree from Howard Payne College.

He and his wife are making plans to move their family here in the near future. He is the father of three children.

County's First Rural Fatality Came In May

The Highway Patrol investigated seven rural accidents in Parmer County during the month of May, according to Sergeant W. E. Wells, Patrol Supervisor of this area.

These wrecks accounted for one death, the county's first of the year, six persons injured, and property damage in the amount of \$4,175.

The rural accident summary of Parmer County from January through May of 1963 shows a total of 48 crashes resulting in one person killed, 12 persons injured and an estimated property damage of \$20,714.

It might well be said that many of our so called good citizens in their thinking do not associate good citizenship in a democracy with safety, the Patrol Supervisor reminds. These two are so closely related that they cannot be separated. The word safety, as we understand it, implies everything that is good for the citizen. And citizenship also stands for everything that is good. If a person lays claim to being a good citizen, yet is careless in traffic, or disregards simple traffic rules and regulations, then he cannot be considered a "good citizen," Wells said.

Jackie Turner Promoted To Airman 2nd Class

Jackie D. Turner, son of Mr. and Mrs. F. O. Turner, Bovina and a graduate of Bovina High School, has been promoted to airman second class in the United States Air Force.

Airman Turner is a student at the technical training school at Kessler AFB, Miss.

Singings Discontinued

The monthly singings at the United Pentecostal Church at Bovina, which regularly meet the first Sunday in each month have been discontinued for the months of July and August, says J. W. Murdick, Texico who directed the song fest.

Announcement will be made as to the next singing date sometime in August.

brought, Glen Hardage, Charlie Garza, Christine Espenosa, Tracey Mimms, Kathy Coker and Ruby Harris.

The TEL Sunday School class met in the home of Mrs. Percy Barnes last week. Attending the meet were: Mmes. W. S. Menefee, T. D. Reed, J. E. Williams, Della Morris, Nina Moseley and the hostess. The program consisted of scripture reading.

Mrs. Percy Barnes accompanied by her sister, Mrs. R. L. Edwards, Bovina has been in San Antonio, Corpus Christi and Huntsville to visit with friends and relatives.

'63 Sugar Supply Will Top 1962

"Sugar already on hand or committed to the United States for 1963 totals 500,000 tons more than last year's entire national consumption," reported Under Secretary of Agriculture Charles S. Murphy in comments made recently regarding the upswing in domestic sugar prices.

"These new commitments have been made within the past few days," he added, "and the speculative bubble in sugar is bound to burst in the face of this plentiful supply."

"Speculators may be able to keep the bubble going for a while, but not for very long," he declared.

At the same time, he warned that people who load up high priced sugar may sustain losses when the price goes down.

"Current Congressional hearing on the sugar situation," he said, "will show plentiful supplies and this will help restore stability in the sugar market."

He noted that a relatively tight situation in world sugar supplies early this year created uncertainty in the market, and gave speculators a chance to bid up prices.

WITH THE COUNTY AGENT

DERYL COKER

Probably a lot of us will remember 1963 as the year that everything went wrong. We are about to complete harvest on the sorriest wheat crop in years, and as it looks now, we will have a very poor cotton crop. A large per cent of the farmers don't have any cotton that remains a stand.

We can still make an outstanding grain sorghum crop, if the weather will give us a few breaks. One of our biggest problems with grain sorghum is weeds, and on double row feed it is nearly impossible to get rid of them, without using a herbicide.

Lets talk a little about using Herbicides. Usually when we think of Herbicides we think of 2,4-D. Now using 2,4-D in grain sorghum is fine, as long as we know what we are doing, but if it is misused, it could get you in more hot water than you thought existed.

In areas where cotton or other sensitive crops are grown, 2,4-D and other hormone-type herbicides must be used carefully. Use only a fine mist formulation, or flable acid formulations to reduce the hazard of volatility. Drift can be minimized by using a large volume of carrier per acre (10 to 20 gallons) and a low spray pressure. High pressure produces small spray droplets which are carried easily by wind. Drift can be minimized by keeping the spray boom as low as possible. Sprays should be applied when the wind is less than 10 miles per hour and blowing away from sensitive crops.

Mr. Roscoe Parr said he always lit a cigar and watched the smoke to determine which

way the wind was blowing.

Tom Lewellen of Friona has devised a very good way of keeping track of the wind situation. He ties a balloon filled with air at the top of his spray rig. This is on the brace that the booms raise up against. As long as the balloon hangs limp, he figures it is all right to spray, if everything else is in order. Tom constantly watches the balloon to make sure the wind hasn't changed directions, or get up.

If you plan to use a herbicide be sure to read instructions and take every possible precaution, get a permit and have everything in order.

TOTAL PERFORMANCE:

FORD GALAXIE 500/XL SPORTS HARDTOP

IF YOU KNEW WHAT THIS "CAR KILLER" KNOWS...YOU'D BE DRIVING A SOLID, SILENT SUPER TORQUE FORD

This steel-edged pothole is probably the world's toughest test of a car's suspension. We drive into this car killer at 30 mph, locking our brakes as we go so the wheels can't roll through the hole as they normally would. The car slams against the far edge of the hole with such impact that it literally bounds out.

If you added up the cumulative effect of all the jars and jolts your car's suspension system experiences in years of normal driving, it wouldn't match the impact of one trip through the hole. Yet—a Ford must run this test three times to prove its strength.

How can a Ford take it? Because Ford's front suspension has extra beef in spindles, springs, suspension arms—in fact, it's about 20 pounds heavier than the front suspension of our principal competitor's car.

We don't expect you to abuse your car the way we do our test cars. But, however you drive, you'll welcome the extra strength of a total performance Ford. Ford strength is tested in a thousand ways in Ford's laboratories and proving grounds—and in open competition in the world's toughest rallies and stock car events.

Look at Ford's astounding record in open competition this year in the grueling Daytona, Riverside, and Atlanta 500's, the World 600 at Charlotte, N.C., and in the demanding Pure Oil Performance Trials. Only a car with total performance—the best combination of strength, balance, precision control and road-clinging suspension—could roll up so many wins.

Before you buy any new car, test-drive the solid, silent Super Torque Ford. If you haven't driven one lately, you can't really know what a new Ford is like. Make this important discovery: if it's built by Ford, it's built for performance...total performance.

Deadline Nears For New Service

Last call for applications for the U.S. Department of Agriculture's new micronaire cotton reading service was sounded today by W. K. Palmer, officer-in-charge of the Lubbock Cotton

Classing office of the Agricultural Marketing Service.

July 1 is the deadline for filing applications.

Farmers who want this

"mike" testing service, should be sure their ginners have filed an application for it, says Mr. Palmer.

Only ginners can file for the service. It is not available to individual farmers.

All farmers in Smith-Doxey

SIDE-DRESS

WITH THE FULL MIGHT OF NITROGEN

It's now or never for this year's cotton and grain crops. The nitrogen needed for an abundant, high-quality harvest should be applied before the 12th week of growth or before the plant begins to boot or bloom. Anhydrous ammonia supplies this nitrogen in the largest quantity by volume and in the most usable form. We recommend and sell Shamrock Nitromite because we know it to be a fine brand of anhydrous ammonia, 82.2% nitrogen.

PARMER COUNTY FARM SUPPLY BOVINA

The HAPPY HOMEMAKER

BY JUNE FLOYD

The following recipes demonstrate the two different methods and also use whole milk, powdered milk, canned milk and sweet cream, so you might like to experiment some before deciding on your personal preference.

ICE CREAM

- 4 eggs, separated
- 2 cups sugar
- 1 tall can milk
- 1 tablespoon gelatine
- 1/4 cup cold water
- 1/2 pint cream
- 4 large bananas
- 3 teaspoons lemon juice
- 1 tablespoon vanilla

Beat the egg whites, and 1 cup sugar and beat. Beat the egg yolks, add 1 cup sugar, canned milk and gelatine that has been soaked in cold water and dissolved over hot water.

Add whipped cream, mashed bananas, lemon juice, vanilla and enough milk to fill one gallon freezer can. Strawberries, peaches or other fruit may be used instead of bananas, if desired.

- ### FRESH PEACH ICE CREAM
- 2 cups powdered milk
 - 2 1/4 cups water
 - 1 large can milk
 - 3 tablespoons Karo
 - 13/4 cups sugar
 - 1 tablespoon vanilla
 - 2 lbs. fresh peaches, sweetened
 - 2 pints coffee cream

Mix above ingredients in freezer can and finish filling can with milk. Makes one gallon. This recipe can be used for other flavors or vanilla.

ICE CREAM

- 1 quart milk
- 2 1/4 cups sugar
- 1 tall can evaporated milk
- 4 rounded tablespoons flour
- 4 eggs
- 2 tablespoons vanilla

Scald milk in heavy sauce pan. Cream sugar, flour and eggs until fluffy. Gradually add 3 cups hot milk; mix thoroughly; then pour egg mixture into sauce pan with rest of milk. Heat until thick and creamy. Just before removing from heat, add canned milk. Return mixture to large bowl of electric mixer; beat to remove any lumps that may have appeared during cooking; cool; add vanilla and pour into 1 gallon freezer can and fill to within 2" of top with whole milk. When using fresh fruit add 1/4 to 1/2 cup sugar to suit taste.

Sterile screw worm flies are now being fed prior to their release under the screw worm eradication program. Entomologists have found that flies fed from a small paper cup containing corn syrup have a better chance to survive and perform their important job.

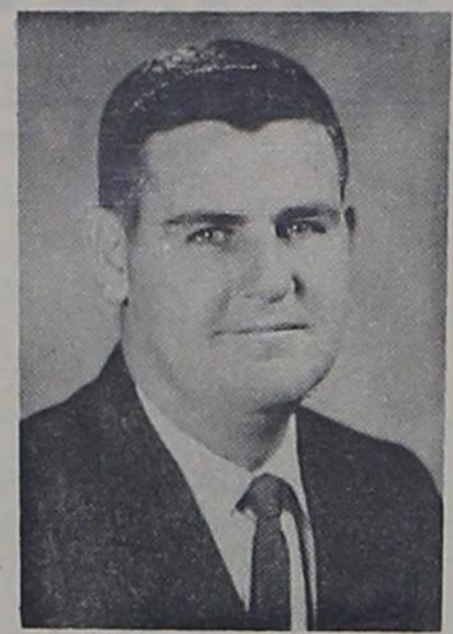

Studies at the University of Minnesota show that certain wood boring insects generate their own antifreeze during cold weather. The work disclosed that carpenter ants, by weight, contain about 10 percent glycerol during the winter but none when the weather is warm.

Many people who pick their flowers to use in the house like the softness of baby's breath for use as a filler between sturdier blooms. Nothing could be easier to grow than annual baby's breath, but be sure to make several plantings two weeks apart so you'll have plenty of the delicate sprays to pick.

If this spring finds you without rhubarb for spring pies, why not plant seeds during late May so that next spring you'll have plants ready to set in a permanent row? After the following year you'll have plenty to use for pie fillings.

Valliant Makes Presentation To California Conference

James Valliant, Associate Water Engineer, at the High Plains Research Foundation has been invited to deliver a scientific presentation at the Biennial Conference on Ground Water

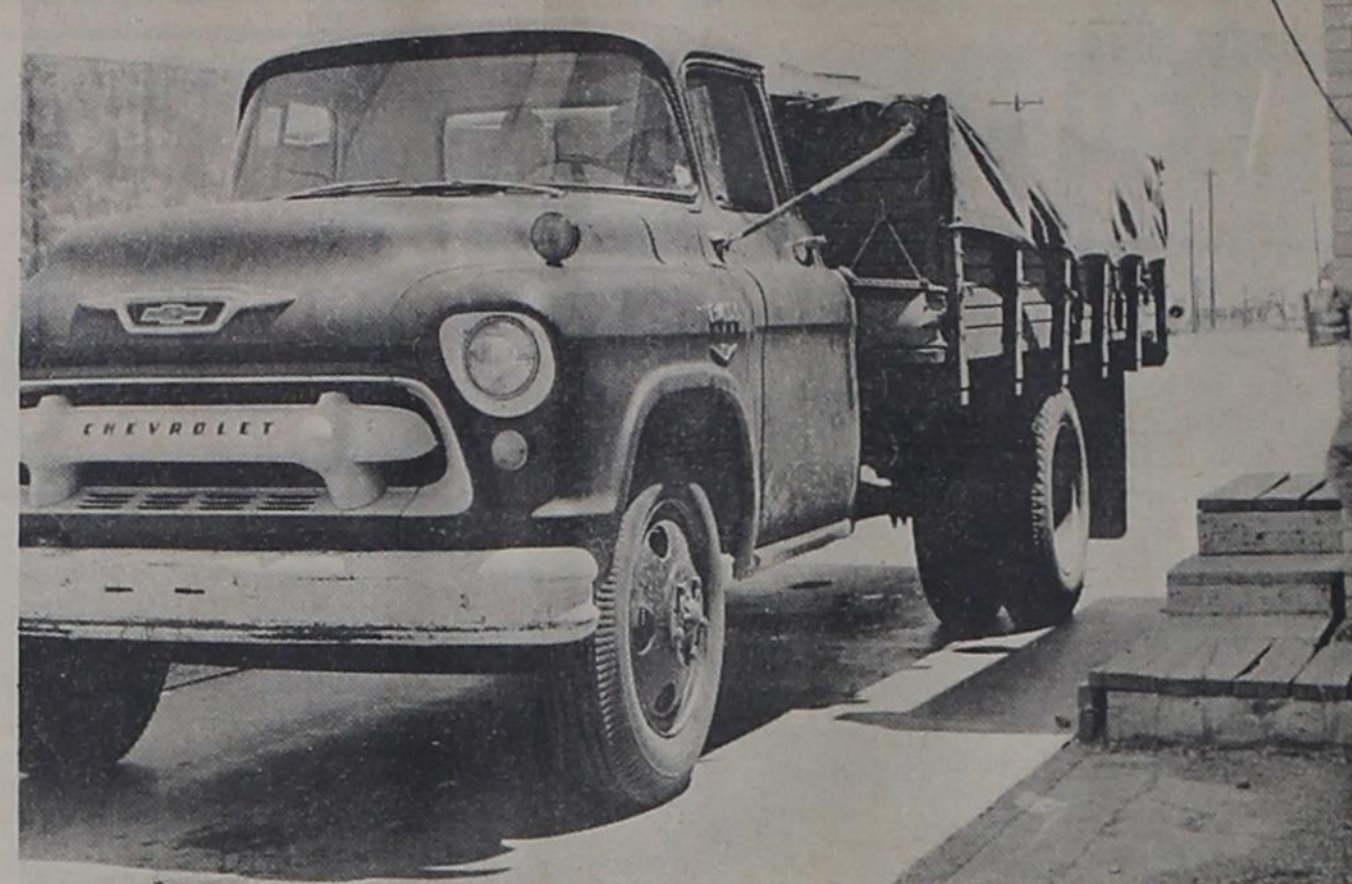

Recharge and Ground Water Basic Management at the University of California, Berkeley, California, on June 27.

The subject of Valliant's talk will be "Artificial Recharge of Surface Water to the Ogallala Formation in the High Plains of Texas." The conference is under the auspices of the University of California and the Agricultural Research Service of the U. S. Department of Agriculture.

Enroute to the conference, Valliant will confer with authorities on recharge of water in Arizona. There will be three of these conferences on the trip. At Safford, Arizona, he will view the work on "The effect of grass filtration on sediment removal from flood water" being conducted by Dr. Fred Turner, Jr.

Valliant has a similar research project underway at Halfway with 14 grasses. The next stop will be at the University of Arizona at Tucson. He will confer with Professor Sol Resnick and George E. Maddox on recharge research underway there. At Beardsley, Arizona, Valliant will examine the project on evaluating recharge by the pit method through wells by gravity. He will compare methods with those he has underway at the Foundation. From Beardsley, he will proceed to Berkeley.

This trip for the benefit of water conservation in the High Plains is being sponsored in part by the Pioneer Natural Gas Co. through Mr. C. I. Wall, President.

A WHEAT TRUCK is emptied at a county elevator. Elevators are keeping wheat samples to get the sedimentation test as well as a protein reading this year.

Kepley Buys Flippin Bull

F. E. Kepley, Farwell, has purchased Prairie Vue Victor P271964, a five-year-old bull, from W. H. Flippin, Jr., Friona.

The new animal is a registered Milking Shorthorn and the record of the transfer of ownership has been made by the American Milking Shorthorn Society at Springfield, Missouri.

Fertilization Can Stretch Moisture, Booklet Says

Proper fertilization can help stretch moisture for crop production, according to official agricultural scientists reporting in a new handbook just issued by the American Potash Institute.

Entitled "Moisture and Fertility," the new booklet features the latest findings from different parts of the country, showing that "fertilizers for the adequate nutrition of all crops play a major role in the efficient use and conservation of water resources."

The findings are reported by nationally known University scientists, including Stanley Barber of Purdue, Robert Pearson of Auburn, A. L. Lang, L. B. Miller, and P. E. Johnson of Illinois, E. B. Norum of North Dakota, and D. W. Henderson, R. M. Hagan, and D. S. Mikkelsen of California.

Introduced by Cecil Wadleigh, Director of the Soil and Water

Conservation Research Division of ARS at Beltsville, Maryland, the handbook shows how plant nutrients may increase root exploration of the soil so that soil water is used to higher tensions and to greater depths.

It shows how fertilization can increase yields per inch of water used, whether rainfall or irrigation, and how improved fertility on claypan soils pays off in spite of critical periods of drought or floods.

It shows how irrigation greatly increases the nitrogen demands of annual forage crops, since they are seeded during unfavorable moisture periods, must make growth in a short time, and have relatively shallow root systems.

It shows how impossible it is to get efficient crop use of fertilizer either with or without irrigation on soils that need liming.

It shows how plant roots feeding in subsoil usually have access to half the potassium found in the surface soil and how potassium increases the water-holding capacity of plant tissues.

A single copy of this handbook can be secured by writing Dept. N, 1102 16th, N. W., Washington 6, D. C.

BLACK BUYS BULL

M. A. Black, Friona, recently purchased an Aberdeen-Angus bull from Cook Brothers Ranch, Normangee, Texas.

The annual field meeting of the Texas Great Plains Conservation Program Committee will be held in the Pecos area on June 26 and 27. A business meeting will be held on Wednesday afternoon followed by a tour of the Texas Experiment Station near Pecos. Then on Thursday farms and ranches under GPCP contract will be visited.

June 21 is the longest day of the year and it is especially important to poultrymen. It is the day they should use as a guide for determining the length of time hens need to do their work. Experts recommend that layers should not have fewer hours of light than they will on this date.

The original vapor droplet for a raindrop or snowflake may, by joining others, multiply 8,000,000 times before it reaches the ground.

Treated Posts Resist Grass, Brush Fires

Did you ever see a wooden fence post burning? The answer is probably yes, but did you check to see if the post had been treated with a preservative?

Tests conducted in Texas and throughout the country during the past 40 years prove that treated posts are resistant to grass and brush fires, points out Extension Forester Bill Smith.

On the other hand, untreated wood posts are quite susceptible to such blazes. Decay, near the ground line, usually begins shortly after such posts have been set and the resultant punky wood makes an excellent point for the kindling action of a fire to get started, he adds.

One railroad concern ran a two-year test on over two million posts in a four-state area, including Texas. Most of the

posts were subjected to repeated "burning off" fires during this and prior periods. At the end of two years, one out of every 280 untreated wood posts was destroyed by fire while only one out of every 5,000 treated ones had to be replaced because of fire damage.

Untreated posts were destroyed by fire at a rate 18 times greater than the treated ones, Smith stated.

He explains that after wood posts have been treated with a preservative, the surface tends to harden during the seasoning period and the sapwood or outer portion of the post remains sound and strong for many years. For this reason, the surface provides little or no opportunity for kindling actions during a series of passing fires.

Lawn Mowers May Become Lethal Weapon At Times

A common sound these days is the one made by operating power lawn mowers. They are a necessary tool for keeping the lawn mowed and in good shape, but, warns the Texas Farm and Ranch Safety Council, they can become a lethal weapon when improperly used.

The rotary type mower can become a real accident hazard

not only to the operator but to persons who may be nearby when used to mow lawns or weeds where rocks, bones, pieces of wire, nails or other debris are present. The Council reports that about this time of the year the number of accidents involving lawn mowers begins to increase and that chances are good some one in your neighborhood has been a victim.

The cutting blade can be broken by striking a hard object and hurled through the air. Wire can be cut in short pieces and hurled at bullet speed. Be sure, warns the Council, that the area being mowed is free of such objects and that the mower is constructed so as to prevent objects being hurled

toward the operator. The Council suggests safety measures which, if followed, could prevent many accidents involving lawn mowers and other power tools. Never, they say, try to make adjustments to a mower while the engine is running. It could cost you a finger or hand. It's good business to remove the wire from the sparkplug before attempting to repair or adjust the cutting blade or remove accumulations of grass or weeds from under the mower.

Children should never be allowed to operate a mower nor should a person who is barefooted or wearing open-toed shoes. The engine should be cool before refueling and if an electric mower is used be sure the extension cord is in perfect condition.

The folks who make lawn and trimming equipment are concerned about the user's safety and have made recommendations to insure a long and useful life for the machine and operator. They put this information in an operator's manual. The Council strongly recommends that all power tool operators become familiar with their manual.

The mishandling of game after the kill often makes impossible a tasty preparation job in the kitchen, explains Ed Cooper, extension wildlife specialist. He recommends field dressing immediately after the kill, especially if the weather is relatively warm. Keep the game clean and cold storage aging is recommended. He suggests to hunters that they pick up a copy of B-987, "Game Care and Cooking" form the local county extension office.

NEWS FROM THE FARM BUREAU

BY RAYMOND EULER

We were pleased to receive a letter from Bill Clayton, State Representative of this district last week. He told us that the reason the bill that would have required retail store labeling of communist goods was tabled was because of amendments that changed the original intent of the bill.

He also told us that he and a majority of the representatives voted to override the governor's veto of the bill that would have required a man to be actively seeking employment in order to qualify for unemployment benefits.

We were glad to know that Clayton and the majority voted to put the bill into effect, because we hadn't seen the voting record on it. A two-thirds majority is, of course, required, and was not obtained.

There is a Revenue Act of 1956 that imposes an annual tax of \$3 for each 1000 pounds gross hauled on a motor vehicle. In other words, the annual tax on a truck with a gross weight of 2940 pounds would be \$90.

It is reported that farmers in some other states have been required to pay this tax retroactive to 1956 with a 25 percent penalty.

Clark W. Thompson and Bruce Alger are on the House Ways and Means Committee in Washington, where you should write insisting on exemption of certain farm vehicles through enactment of HR 3216.

Farm Bureau Directors will meet Monday night, July 1. You are welcome to attend and make any suggestions you may care to. Full consideration will be accorded any guests of the directors.

"Lighting" Hens Is Year-Round Problem

Hens should never be allowed to finish their work early, says William Cawley, associate poultry husband man with the

Texas Agricultural Extension Service. There is some disagreement on how long hens should have

light by which to do their job of egg production, but most authorities agree that the hours of light should never be allowed

to decrease below a certain number, explains Cawley. Why, then, the present concern about the length of a hen's working day? Well, on the longest day of the year, June 21, poultrymen are urged to calculate the total hours of light their birds receive on this date.

During this time of the year it is hard for producers to think about the problem of day length with which they will soon have to contend, says Cawley. But this is the very time when the problem begins. Since all other days of the year are shorter than June 21, the lighting problem is present the year round.

The local weather bureau, daily newspaper and radio or TV station can tell you the time of sunrise and sunset on the important day, June 21, says Cawley. From this you can calculate the length of natural light and add any artificial light that you are giving the hens. This is the number of hours that you want to hold constant throughout the year, he advises. Then set your timing clock so that you are using morning and evening lights in order to maintain a constant day length.

Naman Talks Against Repealing Grain Bill, Issues Challenge

Jay Naman, Texas Farmers Union state president, told members and guests of the Haskell County Farmers Union at a meeting in Haskell last week:

"All of the farm income gains and reduced costs to government accomplished during 1961 and 1962 could be lost if the Congress accepts the proposals of state and national Farm Bureau leadership to repeal the feed grain program recently passed. The effort to do this is cleverly hidden in the small print of other legislation, which Farm Bureau is supporting as a substitute for the certificate wheat plan defeated in referendum.

"Besides seriously crippling chances for desperately needed cotton legislation by contributing to the defeat of the wheat program, the Texas Farm Bureau joins its national leadership in opposing all proposed cotton legislation except that part of one bill that reduces price supports and increases acreage. It turns its back on the Cooley Bill presently being backed by all segments of the cotton industry, and which is considered the legislation upon which there is sufficient grower and processor agreement that it might pass the Congress.

"Farmers Union has testified in behalf of both the Cooley Bill in the House of Representatives and the Talmadge Bill in the Senate. These bills will remove the inequity in price that has prevented domestic mills from competing effectively with foreign cotton, allowing more cot-

ton to be consumed domestically. This will in turn enable us to maintain the present acreage, and keep the price supports at current levels. The Farm Bureau proposals will reduce grower income, move cotton from the traditional growing areas, and eventually result in a reduction of acres in these areas.

"Embracing again the discredited programs of the Benson Administration, Farm Bureau is seeking lower prices in the form of a sliding scale, along with the soil bank scourge that previously ravaged small towns and rural communities. So as to protect its friends in the grain storage business, Farm Bureau sees to it in its proposals that all grain will be carefully insulated in storage facilities and kept there at the taxpayers' expense and the storage man's profit.

"I CHALLENGE MR. DEVANEY, THE PRESIDENT OF THE TEXAS FARM BUREAU, TO MEET ME IN A SERIES OF DEBATES IN AMARILLO, LUBBOCK, ABILENE, WACO, CORPUS CHRISTI AND THE RIO GRANDE VALLEY TO DISCUSS THE PRESSING VITAL ISSUES OF COTTON, WHEAT AND FEED GRAINS LEGISLATION. MR. DEVANEY OWES THE MEMBERSHIP OF THE TEXAS FARM BUREAU THE DUTY TO EXPLAIN HIS SHOCKING POSITION ON FARM PROGRAMS. I BELIEVE THAT THIS POSITION IS COMPLETELY FOREIGN TO THE

Area Lake Water Boosted By Rains

A spokesman for the High Plains Underground Water Conservation District when contacted recently had the following comments on using lake water. He said, "The heavy rains that we've experienced during the past couple of weeks have left large quantities of water available in the thousands of lakes and depressions throughout the Southern High Plains."

W. L. "Bill" Broadhurst, Chief Hydrologist for the Water District, continued by saying, "It's true that most of the cropland does not at this time need additional moisture; however, there are areas where the rain fell so fast that most of the water ran off. Also, there is layout land or improved pastures that can nearly always use a little more moisture."

"At any rate, if an individual has a lake on his farm and does not presently have a way to pump water from it back to his cropland, now would be an excellent time for him to think seriously about installing a pump and pipeline. There

are many reasons why we think that this is good business.

"First, runoff water that collects in the lakes is generally the least expensive water that can be developed.

"Second, water that remains in the lakes is largely wasted because probably 90 per cent will evaporate and do no one any good.

"Third, a mosquito-breeding haven is alleviated when the lake water is used.

"Fourth, if the lake bottom is utilized as a pasture or some other income-producing endeavor, the lake water needs to be pumped from the lake as quickly as possible to prevent additional damage.

"Fifth, lake water is probably more compatible than ground water to growing plants because of its warmer temperature.

Broadhurst continued, "There is one other important reason for using lake water when it is available. Using it, rather than pumping ground water from storage, results in substantial savings of underground water.

"We could go on and on

Dairy Farmer's Summer Problem: Controlling Flies

A constant summer problem of every dairy farmer is the control of flies. This problem can best be solved by eliminating the places where flies breed, says Shannon Carpenter, area dairy specialist with the Texas Agricultural Extension Service.

For example, barnyard manure should be spread every three or four days to prevent flies from breeding in it. Manure can be stored in compost piles if it is treated chemically with equal parts of calcium cyanamid and superphosphate at the rate of one pound per bushel of manure, Carpenter

If flies do become a problem, chemicals can be used to kill them. Dairy barns can be sprayed with five percent methoxychlor or two and one-half percent solutions of malathion as often as needed, the specialist says. Care must be taken that these materials are not used in the milk room and that they do not contaminate feed and water. When used as recommended by the manufacturer, fly baits containing malathion or dieldrin are safe to use in the barn, he adds.

Cows in milk may be treated

by dusting them with methoxychlor or malathion. One tablespoon of 50 percent methoxychlor or two ounces of five percent malathion sprinkled along the neck and back of each animal will protect it for about three weeks. However, Carpenter warns that these materials should be applied at least five hours before milking and animals should not be dusted in the milking barn. He also emphasizes that these chemicals should not be sprayed on the cows.

For more information on the control of flies see your local county agricultural agent, advises Carpenter.

Farm-Market Roads Called 4-H Dairy Projects State's "Most Dangerous" Hit Peak In June

Texas' Farm-to-Market roads are the most dangerous roads in the state, the Texas Safety Association said today in a special bulletin released to all newspapers, radio and television stations in the state.

"Since the first of this year, traffic fatalities on FM roads in Texas have increased about 32 per cent over last year," J. O. Musick, General Manager of TSA, said. "Traffic accidents on FM roads also are up about 33 per cent."

Current accident statistics show that FM roads have the highest increase in traffic fatalities and accidents of any roads in the state. The overall traffic fatality increase is 12 per cent. Traffic accidents on all roads are up approximately 10 percent.

Musick cited several reasons for the increase in fatalities and accidents on FM roads. "Speed--too fast for existing conditions--is the major cause of trouble. Many drivers tend to drive as fast on FM roads as they do on four-lane divided highways," he said.

"But, it doesn't take a student of modern math to figure out these roads are not designed for high speeds. It's just simple arithmetic and common sense." "The standard FM road in Texas is 22 feet in width. This gives the driver one lane 11 feet

wide for driving. The average automobile takes up eight feet of the 11-foot lane.

"This means the driver has about 18 inches on each side of his car for clearance - and that is just not enough space for fast driving on roads which have many sharp curves and other hazards."

The safety director explained that there are many 60 degree angle curves on FM roads -- "drivers will find few super curves on FM roads."

Among other hazards peculiar to FM roads, Musick listed slow-moving farm equipment and animals.

"Drivers often must check their speed when approaching tractors and other farm equipment on the road. Or, they may have to stop quickly to avoid hitting an animal crossing the roadway," he noted.

Musick also pointed out there is more traffic now on FM roads.

"The Farm-to-Market road, as the name implies, originally was designed for use of the rural community to get goods to the markets, but now these roads are being used as 'short-cuts' for cross-country traveling, by campers and sportsmen pulling boats and trailers to the nearest water hole."

"And, here's where the trouble is," he continued. "Ur-

ban drivers are often unfamiliar with such roads and the hazards they present. They fail to adjust their driving habits for rural driving."

Musick concluded that although the FM roads currently are in the position of being the most hazardous in the state, they can still be traveled safely if drivers will "slow down" and "expect the unexpected."

The HAPPY HOMEMAKER

BY JUNE FLOYD

Last week this column carried a number of cookie recipes and the following will conclude the collection:

Peanut Butter Cookies
3/4 cup Crisco or butter
1 cup peanut butter
1 cup white sugar
1 cup brown sugar
2 teaspoons soda
2 cups sifted flour
1 teaspoon vanilla
2 eggs

Cream butter and peanut butter. Add white sugar, brown sugar and eggs. Mix well. Sift soda and flour together and add to creamed mixture. Add vanilla. Roll into balls the size of a walnut and mash flat with fork. Bake in 350 degree oven for 10-15 minutes.

Oatmeal Cookies
1/2 cup butter
1/2 cup Crisco
1 cup white sugar
1 cup brown sugar (firmly packed)
2 unbeat eggs
2 cups flour
1 teaspoon soda
1 teaspoon salt
Cream butter, Crisco, white sugar and brown sugar. Add unbeat eggs and mix well. Then add sifted flour, soda and salt. Mix thoroughly.

Stir in 2 cups oatmeal, 1 cup nuts and 1 cup chocolate chips. If you have time, chill dough for easier handling. Roll in balls using a round teaspoon of dough for each cookie.

Place on ungreased cookie sheet and bake ten minutes or until golden brown at 375 degrees.

Butterscotch Coconut Drops
2 cups flour
1/2 teaspoon soda
1/2 teaspoon salt
1/2 cup butter
1/2 cup brown sugar (firmly packed)
1/2 cup sugar
2 unbeat eggs
1 teaspoon vanilla
1/2 cup pecans
1 1/2 cups coconut (angel flake)

Cream white sugar, brown sugar and butter. Sift flour, soda and salt together and add to creamed mixture. Blend in

Some of the nation's most successful dairy farmers winding up June--Dairy month observance were 4-H Club members.

John W. Tindall of Princeton Junction, N.J., John Volk of Battle Creek, Neb., and William Hitz of Polk City, Iowa, are but three from across the nation, the National 4-H Service Committee relates.

They got their start in 4-H,

as have thousands of young farmers since. Right now 4-H dairy projects are reaching their peak, and members are taking a long look at the results of a year's efforts.

Younger club members usually start their dairy program with the perennial "4-H calf." After 6 to 10 straight years in the program set up by the Cooperative Extension Service, many members build established herds. And those who do not expand that far, have gained invaluable experience in managing, marketing, breeding, animal nutrition and health.

Some of the states' outstanding dairy club members previously have claimed awards provided by the Oliver Corporation of Chicago, 4-H dairy program sponsor.

Again this year, top ranking members from every state will share six college scholarships, trips to the National 4-H Club Congress and around 7,000 medals awarded in the counties. Scholarships for 1963 were increased from \$400 to \$500, announced the National 4-H Service Committee.

Crunch Drops
2 cups sifted flour
1 teaspoon baking powder
1/2 teaspoon salt
1 cup shortening
1 cup brown sugar (firmly packed)
1 cup white sugar
2 eggs
1 teaspoon vanilla
1 cup shredded coconut
2 cups quick oats
2 cups rice cereal

Sift flour, baking powder and salt together. Cream shortening until fluffy. Add both kinds of sugar gradually, working the mixture until smooth after each addition. Add eggs, one at a time and beat well.

Stir in vanilla and flour mixture gradually then add both kinds of cereal and coconut. Batter is stiff at this point, so use clean hands to mix thoroughly. Drop by teaspoonfuls onto greased baking sheet. (Cookies spread during baking, so allow for spread.)

Bake 12 to 15 minutes at 350 degrees. Yield about 5 dozen cookies.

CAMP FIRE STEW
1 lb. ground beef
1 medium sized onion
3 tablespoons butter
2 cans vegetable soup
Brown minced onion in butter over low heat. Add ground beef and brown. Add vegetable soup then simmer ten or fifteen minutes. Serve over hamburger buns or with crackers.

If there's anything more refreshing in hot weather than a freezer of freshly frozen ice cream, it must be something special. Making ice cream is really quite simple when recipe instructions are followed carefully. Some homemakers prefer to cook the mixture and others prefer to leave it uncooked.

Homemakers who do their own sewing and have children who will be going to school this fall will have a large number of beautiful fabrics to choose from whether they plan to make school clothes for beginners or seniors in college.

Most fashions for fall will be keynoted by simplicity. A lot of junior high, high school and college girls will be making their own clothing and there's a real treat in store for them.

The following two recipes are very good and are based on ground beef.

CHILI-GHETTI
2 tablespoons butter
1 clove garlic, minced

Cotton's Water Needs Are Described In Publication

Cotton's need for moisture is greatest during the square, bloom, and young boll states, says Wayne Keese, extension agricultural engineer with the Texas Agricultural Extension Service.

The rate of water use by cotton plants varies through the growing season and intelligent irrigation is based on the periods of greatest need, says the engineer. The plants use very little water for the first few weeks after emergence but beginning with the appearance of

the first square the rate of water use increases steadily. When the first blooms appear, the water requirement again increases rapidly and the maximum rate of water use occurs at the peak bloom stage which is usually three to three and one-half months after planting, says Keese.

Shedding of fruit by cotton has been found to be associated with low soil moisture during the early bloom and fruiting stage and therefore an adequate supply is needed for high yields, Keese explains. Excessively high moisture levels should also be avoided especially after the first bolls appear. This moisture can cause late vegetative growth which probably will not increase lint yields and can be undesirable if machine picking is planned.

Keese warns not to wait until all the available moisture has been used before irrigating the crop. Normally, irrigation should be started when 50 to 60 per cent of the available moisture in the rootzone is depleted.

He recommends regular examinations of the soil in the root zone to determine the amount of soil moisture remaining. A soil auger or a sharpshooter can be used to obtain the soil sample and the rooting depth of the crop can also be checked as the season progresses.

Don't overlook the importance of soil fertility in successful cotton irrigation as optimum yields are produced when soil fertility and soil moisture are balanced, says Keese. See your local county agricultural agent for more information on cotton irrigation and while there get a copy of B-896, "Texas Guide for Growing Irrigated Cotton."

*Americans lost an average of 16 days per person through illness and injury in the past year, which included six days of confinement in bed.

Years Of Research Helped Produce Our Dairy Foods

On a hot summer day there's nothing like a frosty ice cream dessert to top off a meal, or a cold milk drink for a quick refresher. Ice cream and milk are favorites of young 4-H cooks because they are inexpensive and easy to get. But it has taken billions of dollars and years of research, plus American business and scientific ingenuity to produce that scoop of ice cream or that malted milk.

And it takes 4-H Club members to tell their friends and neighbors of the nutritional value of dairy foods and how to make appetizing meals and snacks.

The national 4-H dairy foods program, which was primarily a demonstration project, now includes more exploration into "why" dairy foods are essential to growth and health, and "how" the rich content of vitamin A, protein, calcium and other elements can best be utilized.

Its sponsor, the Carnation Company, encourages young people to make the project outstanding by offering incentive

awards.

Said a Carnation spokesman: "In the rapid pace of today's eat-and-run living, we must not lose sight of the vital importance of dairy foods in our daily meals."

He went on to say that the current 4-H program has been broadened to highlight more of the scientific developments in the preparation and safe handling of well-known and new dairy products.

The demonstration of making a dairy dish or drink is still high on the list of things to do. The planning, practicing and presentation develops in the youngster self-confidence, poise and ability to think and talk before an audience, say 4-H Club leaders and extension agents who work with the girls and boys.

For members who qualify, there are four different awards: medals for county winners; a handsome engraved wrist watch for the state winner, six \$500 college scholarships (an increase of \$100) for national champions. Educational literature for both local leaders and members is provided free.

This year six sectional awards have been added, making a total of 18 expense-paid trips to the National 4-H Club Congress. All will be guests of Carnation at the annual 4-H dairy foods banquet held during the congress, Dec. 1-5, at Chicago, Illinois.
