Tatum Coyotes Spoil Texico's Homecoming

by Rusty Rucker
 The Tatum Coyotes spoiled Texico's 1974 Homecoming Friday night, Oct. 25, as they defeated the Wolverines 30-8.
 The Wolverines received the opening kick-off from the Coyotes and returned the ball to the 40-yard line. Wolverine Spencer Turner gained five yards but after a few more plays Roger Pace was forced to punt and Tatum returned the punt to the 45-yard line. After a first down and a 15-yard penalty on each team, the Coyotes forced their way across the line for the first touchdown of the game. Extra point attempt failed and Tatum led 6-0.

Following Tatum's touchdown, Wolverine James Steward returned the kick to the 38-yard line but the Wolverines couldn't get enough yardage and the ball went to the Coyotes. After two first downs Tatum fumbled and Texico recovered on the 48 and the first quarter buzzer sounded.
 In the second quarter neither team could control the ball until about the last two minutes of the half when Tatum scored their second six points of the game.
 Texico's Steve Harrington returned the kick to the 33-yard line and the Wolverines advanced to the 40-yard line on the following play. Kevin Stanley took a pass from Harrington and gained 30 yards, setting up the Wolverine TD pass to Steward. Sammy West

ran for Texico's PAT but fumbled before he crossed the goal line. Robbie Bradley recovered the fumble, crossed the line and Texico's point after was good. The half ended with Tatum leading 12-8.
 After halftime Homecoming activities, the Coyotes controlled the ball the majority of the half. In third quarter action, the Coyotes scored two touchdowns by working the ball down the field and scoring on short runs. Henry Romaine scored the Coyotes' final TD in the fourth quarter making the final score of the game, 30-8.

The coach related that only one injury was sustained by Texico during the game. Wolverine Sammy West re-injured an ankle which has slowed him down to about three-quarter speed but he will be suited out for action Friday (tonight) against Eunice.
 Manly reported that Tatum Coyotes are led by a "passing quarterback" who only attempted two passes against the Wolverines. "He connected on only two passes. One was for a substantial gain and the other was a short gain but the Coyotes had a good running attack going against us."
 In further comments the coach said that Texico was faster than their opponents. "We were definitely faster but we couldn't utilize our speed. Tatum had us boxed in and we couldn't get our speed out in the open."
 The Wolverines will be traveling to Eunice tonight to take on the Cardinals. Game time has been set for 7:30 p.m. for the district tilt.

At Eunice - - Wolverines Looking To Upset Cardinals' Nest

The Wolverines of Texico will be traveling to Eunice tonight (Friday) in hopes of upsetting the nesting grounds of the Cardinals during their hosts' Homecoming festivities.
 The Wolverines suffered a Homecoming loss to the Tatum Coyotes last Friday and are seeking revenge for the 30-8 slam. Likewise, the Cardinals will be looking for retaliation for a loss to Dexter last week.
 "Eunice is beatable. It should be a good game," said Texico Head Coach Ray Manly in reference to the upcoming clash. "Eunice is big, fairly quick and smart. They have rebuilt this season. The teams runs on the outside and this is what we'll have to watch."
 The Eunice defense is led by two All-District men, tackle Arthur Collins and linebacker Kenny Jones. Other standouts assisting are Willie Dean at

linebacker and Danny Jeter at defensive end. The lone returning Cardinal veteran who will be facing the Wolverines is junior strong tackle Wayne Chapman.
 The Wolverines will be leaving at approximately 1:30 p.m. MST today to journey to Eunice. This will be the Wolverines third district clash of the season and they have yet to put a winning notch on the district ladder.
 "Support is needed by our boys. Eunice may be a little down because of their last week's loss and our boys have looked real good in work-outs with their spirit high. We can beat them. But, for a win we also need high spirits by our school and supporters," stated Manly.
 Game time has been set for 7:30 p.m. MST in Cardinal Stadium.

Wolverines Of The Week

JOEY WEST

ERNEST WOODS

Two Texico Wolverines were tagged outstanding defensive men by Wolverine Head Coach Ray Manly this week to be awarded the honor of "Wolverine of the Week." Selected by Manly were Joey West and Ernest Woods. "West did a real good job on defense. Woods displayed precision in his offensive blocking and did an outstanding job defensively." According to Manly both Wolverines had to be commended on the "good hard tackles" made during action against the Tatum Coyotes last Friday.

Although the nucleus is a very small part of an atom, it accounts for most of its mass and weight.

Curry Lends Exotic Indian Flavor

Curry powder is a blend of many ground spices and seeds. In India, cooks grind and blend a special curry powder for each dish. There the curries can vary from relatively hot to mild, depending on how much chill is added. Most ready blended curry powder available to American cooks is on the mild side which makes it especially good for such dishes as Chicken Curry. This recipe calls for cubed, cooked chicken so it is a good way to use leftover chicken. Serve it with fluffy rice and chutney.

- Chicken Curry
- 2 1/2 tablespoons corn oil
 - 1/2 cup finely chopped onion
 - 1 clove garlic
 - 5 tablespoons corn starch
 - 2 teaspoons curry powder
 - 1 teaspoon salt
 - 2 1/2 cups chicken broth
 - 2 cups diced, cooked chicken

Heat corn oil in large saucepan; add onion and garlic; cook until onion is tender, stirring frequently. Remove garlic. With a spoon, blend in corn starch, curry powder and salt. Remove from heat. Gradually stir in chicken broth, mixing until smooth. Cook over medium heat, stirring constantly, until mixture thickens and comes to a boil. Add chicken; heat 2 minutes. Serve with fluffy rice. Makes 6 servings.

Contest Show Rehearsal Slated By Farwell Band

Monday, Nov. 4, is the date set by Farwell Band Director Lynn Burton for the formal rehearsal of the band show to be presented by the Farwell High School band at ULL competition Tuesday, Nov. 5, at Jones Stadium in Lubbock.

According to Burton, "The band will not be in uniform but every member of the marching band will be on the field for this rehearsal. Included will be our varsity football boys and cheerleaders who do not get to participate in our football halftime shows. Twice the sound will be heard during

the rehearsal. It will be an entirely different show from our halftime programs, and we invite everyone to attend."

Trustees To Meet With Clovis City Commission

The Texico Board of Trustees will meet with Clovis City Commissioners at 7 p.m. Tuesday, Nov. 5, at City Hall in Clovis to discuss extra-territorial zoning along the highway, U.S. 60-70-84, between Texico and Clovis.

The meeting was arranged by Texico City Attorney Harry Patton who will also attend the meeting. Texico's extra-territorial zoning plan will be presented to the Clovis City Commission.

Attorney Patton explained

that New Mexico Statutes permit municipalities to zone outside the city limits. Clovis' extra-territorial zoning authority extends five miles from the city limits of Clovis, or to Texico's city limits. Texico has a three mile extra zoning authority; however, the larger city's zoning power prevails.

The Texico Board of Trustees will ask the City of Clovis to relinquish its extra-territorial zoning power adjacent to Texico so that Texico will be able to exercise its zoning power.

Farwell C of C Supports Election Recommendation

Members of the Farwell Chamber of Commerce gathered Tuesday, Oct. 29, at Clara's for a regular session during which several items of business were discussed.

Members heard a report by a representative of the Industrial Commission concerning the proposed nursing home for Farwell. It was moved, seconded and approved that the Chamber make recommendation to the Farwell City Commission that a bond election be called to finance the construction of the nursing home.

Following an income and expenditure report by the Chamber Border Town Days Committee representative, it was agreed by members to pay for the banners used during the

annual celebration. Also on the agenda was a discussion of a defibrillator machine for the local clinic. According to a spokesman for the Chamber, the matter was tabled until the November meeting when additional information will be available. It was also reported to the Chamber that the plans for the hospital district are proceeding according to schedule.

GOLDEN TOUCH OF HOSPITALITY

from Best Foods Kitchens

Beef Loaf Boats Savory Topping

New ways with ground beef are always most welcome. Here is still another meat loaf—a well seasoned one inspired by the cooking of our South American neighbors. The baked loaf is covered with a fluffy topping and returned to the oven to brown.

Crown Beef Loaf

- 3 eggs
- 1 1/2 pounds ground beef
- 1 cup soft bread crumbs
- 1/2 cup corn starch
- 1/2 cup catchup
- 3 tablespoons chopped green pepper
- 2 tablespoons finely chopped onion
- 2 tablespoons mustard with horseradish
- 1/2 teaspoon salt
- 1/2 teaspoon cream of tartar
- 1/2 cup real mayonnaise

Separate 2 eggs, reserving whites. Slightly beat the 2 yolks and 1 whole egg. Mix together yolk mixture, beef, bread crumbs, corn starch, catchup, green pepper, onion, mustard with horseradish and salt. Place in 1 1/2 x 7 1/2 x 1 1/2-inch baking dish; shape into loaf. Bake in a 350°F. oven 30 minutes. Beat egg whites with cream of tartar until soft peaks form when beater is raised. Fold in mayonnaise. Cover the baked meat loaf with topping. Return to oven for 20 minutes or until lightly browned. Makes 6 servings.

FIRST-YEAR PINS -- Twelve members of the Texico-Farwell Brownie Troop received first-year pins in Brownie investiture ceremonies at Hamlin Memorial United Methodist Church Monday. Pictured left to right, standing, are Lezlie Castleberry, Suzahn Inman, Norma Moser, Sheila Smith, Elaine Horner, Earlene Rudd and Tonya Meeks; seated, left to right: Clarissa Hobbs, Valda Cavallero, Denise Ford, Shelly Ford and Tracy Lovelace.

A piece of cotton on the dress not only indicates that a letter is on its way, but also shows the initial of the one sending it. (If you're that superstitious, also note the zip code!)

Sliding glass door alarms make entry difficult for burglars. When the dead bolt is in place, pressure from any side activates a siren. Hacksawing also produces noisy results, says Patricia Bradshaw, housing and home furnishings specialist, Texas Agricultural Extension Service.

On The Farm In Farmer County

By R. MACK HEALD
County Agent

Inflation has both beneficial and harmful effects on agriculture. One of the beneficial effects is that of rising land values. The value of Texas farm and ranch land doubled from 1966 to 1973, which is an increase of over 10 per cent compounded annually.

On the other hand, one of the harmful effects of inflation is the fact that production costs continue to increase. The estimates are that all production costs for agriculture have increased 25 per cent during the past year. This includes an 80 per cent increase in fertilizer prices, 50 per cent increase in fuel and baling wire costs, and a 30 per cent increase in herbicide and insecticide costs.

Inflation also affects the demand for agricultural products. We can expect an increased demand for lower cost food products and those requiring less processing and a lowered demand for higher cost, highly processed products, as inflation continues to affect the purchasing power of consumers.

Yet, inflation will not affect agriculture to the same extent and in the same time period that it affects other industries. On a year-to-year basis, prices

SWCD News
by Herb Evans

Last week we talked to farmers about signs of erosion. This week we want to mention some of the same principles for some home gardens.

If you can see signs of erosion on cultivated land, you are probably losing soil at the rate of more than 14 tons per acre per year.

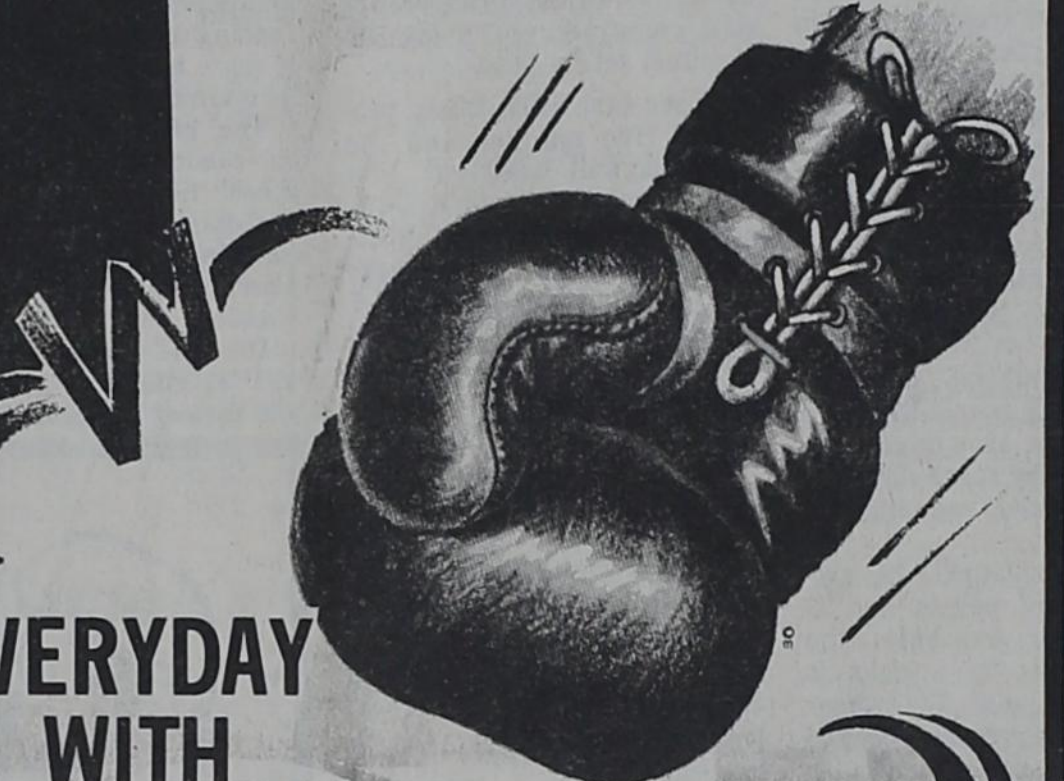

You can prove this to yourself by observing bare soil in a small flower box or enclosure. Beating raindrops will actually erode the surface of the soil by splash action with no runoff at all. On the other hand, if you cover the box with soil clippings, or plant it thickly in grass, no measurable splash erosion will occur. What this tells us is that a cover on the cultivated land 'either vegetation or mulch' is the best soil protection.

For the gardener, a compost heap is a good investment in erosion control. Just build a big box of old boards or wire fence in a shady place in your backyard and put all your leaves, grass clippings, and organic waste in it. Over time, nature will transform this material into excellent organic fertilizer. Mixed into the garden, compost will make the soil more spongy. It will absorb and hold more water. Used as a surface mulch, it will prevent water erosion.

Home gardeners can also use farm tested practices. Contouring rows and using terraces in a home garden shortens the slope and reduces erosion. The contoured rows capture the soil particles that the raindrops knock loose from the surface. Rotations, moving plants around in the garden, can serve as a conservation practice and will also reduce disease. And there are edible plants such as turnip greens that can be used as a protective winter cover crop.

Conservation assistance is available to the home gardener. For more information contact the Soil Conservation Service at Friona.

APPLIANCE PRICES

Everything seems to be going up and up in price, and U.S. Department of Commerce figures show how steep the rise has been. The national Consumer Price Index in one recent month was 46.8 per cent above the 1957-59 base.

This means that it now takes \$146.80 to buy what you could get for \$100 in 1957-59.

But there's also good news. For although everything seems to have gone up in price, some things have gone up much less than others, and appliance prices have actually gone down. During the past 15 years, according to the Whirlpool Corporation, the appliance component of the Consumer Price Index has actually declined by 11%. Today you need only \$89 to buy an equivalent appliance that cost \$100 in the 1957-59 period.

Appliance values now are even greater than the figures show, for modern appliances have more convenience features (such as no-frost refrigerators, for instance). Service incidents are down drastically, and warranties have increased coverages.

It's still true that you get what you pay for, yet these days, with appliances, you get more and pay less.

Wagtail's Highland Mist - -

Championship Tradition Set By Scottish Terrier

FARWELL CHAMPION -- Wagtail's Highland Mist displays her best champion showmanship as she poses with her owner, Albert Johnson of Farwell, as they prepare to accept a winning ribbon from a judge during a dog show. Misty has retired following a championship career during which she has won ribbons and/or trophies in every show that she has been entered except one.

by Kay Williamson

A Farwell champion has retired after an illustrious career as a champion Scottish Terrier. Seven-year-old Ch. Wagtail's Highland Mist owned by Mr. and Mrs. Albert Johnson of Farwell, is affectionately called "Misty" by her masters. Misty has won numerous awards at dog shows throughout a large area and has brought much pride and satisfaction to her owners. However, her show career did not begin that way.

When she was born, Misty "was beautifully formed, but very small," commented Johnson. "We did not intend to keep her, and we did not intend to show her," stated Johnson. "She developed so well that we changed our minds and decided to keep her after all."

Misty was one year old when Johnson began showing her. He turned her over to a professional puppy handler for training. She won her class at a puppy show in Plainview.

However, her career was inaugurated and subsequently she has "won ribbons and/or trophies in every show that she has been entered except one," explained Johnson with pride. Misty has been shown at shows in Kansas, Oklahoma, New Mexico, Texas and Louisiana.

Misty took "Best of Breed" at shows in both Shreveport, La., and Longview, Tex. She has won four trophies - all in San Antonio, Tex. She captured two trophies on Oct. 19, 1969 and two more on March 8, 1970 at dog shows in San Antonio. Johnson calculates that Misty has won approximately 33 ribbons during her career.

In requirements set out by the American Kennel Club, a dog must garner 15 points to be declared champion. The competitor must win in at least two major shows in competition with nine in the same class and must win under two different judges.

Johnson explained the system whereby points are awarded. For example, the winner of two in a class is awarded one point; the winner of four dogs or five bitches gets two points; and the

winner with nine in competition garners three points (and this is classified as a major show). Misty has won two major show awards.

Misty is registered with the American Kennel Club, which sanctions all shows, according to Johnson.

Following a Sept. 28 show in Amarillo, Johnson decided to retire Misty. "She just wouldn't show," said Johnson. "She was very independent with a mind of her own, and she couldn't have cared less," he commented.

It's a task of pleasure and love," Johnson said regarding his dog showing career. "It's very uplifting and gratifying when you win and frustrating when you lose," he said.

Johnson attended his first dog show in 1926 and at Madison Square Garden in New York City in 1936. This sparked his interest in raising pups and he began with a litter in 1935.

Although Misty has been retired from her career, Johnson still expects to raise some puppies from her. "We hope to have some puppies around the first of the year or a little after," he said.

Commenting on Misty's retirement, Johnson said, "Bitches get tired as they grow older and they just naturally won't show." However, Misty's heirs will certainly carry on the tradition set by her.

In her first litter, Misty produced five puppies and the Johnsons still have two - a dog, Wagtail's Dugan's Dew, and a bitch, Wagtail's Highland Piper. The dog pup (Wagtail's Dugan's Dew) was judged Best Dog of All Breeds at a Breed show; judged Best of Breed at Lubbock, and won his class (9 to 12 months) at Oklahoma City.

Finding a reliable means of early detection of breast cancer is the goal of a new two-year \$6.1 million study sponsored by the American Cancer Society and the American College of Radiologists at 27 U.S. medical centers.

Other honors taken by Wagtail's Dugan's Dew include second in Albuquerque and Santa Fe, Best Terrier at Lubbock and Best Scottish Terrier at Beaumont and Galveston shows. He also captured Best Scottish Terrier in Show Award except for champion at El Paso and Las Cruces, N.M.

Misty was sired by Ch. Barry Knowe Frostbite and her dam was James' Jigger O' Scotch. Misty has established a championship line for her pups to follow, and no doubt Wagtail's Dugan's Dew and other offspring from Misty will follow in her pawprints.

TEXAS PRESS ASSOCIATION

AUSTIN—Previews of debate expected before the legislature next year on the key objective of revamping public school finance formulas already are being offered in Austin.

A legislative sub-committee last week was told state philosophies of education and funding methods must change if there is to be real equality in learning opportunities.

The same House interim sub-committee on public school finance heard differing opinions on whether the so-called "weighted pupil plan" will help correct inequities.

Dr. Jose Cardenas of Texas for Education Excellence and former superintendent of

Edgewood School District, San Antonio, said the present Minimum Foundation Program must be scrapped and the "weighted pupil" plan substituted.

Dr. Lawrence Haskew, University of Texas at Austin education professor, conceded the "weighted pupil" approach may be a small step forward, but he said he could not see it as correcting all inequities.

The plan would place state school aid on the basis of need for various-level programs rather than on average daily attendance. Apparently, it figures in Gov. Dolph Briscoe's proposals for education assistance.

A Texas Advisory Com-

mission on Intergovernmental Relations public finance committee, meanwhile, suggested levying school taxes on a countywide basis as a means of equalizing resources.

Draft of a 35-district survey of school property tax values for the Legislative Property Tax Committee is expected to be available next month for legislative guidance.

GASOLINE USE CUT — Texans used a little less gasoline last summer than they did in 1973 but increased natural gas consumption slightly.

A governor's energy office report indicated gasoline sales were down 1.3 per cent in July, but natural gas use was up 2.9 per cent. The re-

port concluded the gas consumption rise was due to hotter weather in June-July 1974.

State agencies managed to decrease their use of both gas and gasoline substantially. Wharton County Junior College cut energy consumption by 29.7 per cent from December through July.

PAROLEES AIDED — A group of Houston lawyers are aiding parolees from state prison in their adjustment to life outside penitentiary walls.

They will help find jobs, meet parole requirements and generally assist them in finding their place in society.

The project is financed by Texas Criminal Justice Council.
