

Back to Horse and Buggy Days

When the nation's governors opened their annual conference at Mackinac Island, Michigan, they found only horse carriages awaiting them. Automobiles are not allowed on Mackinac and even the progressive governors had to be content with a horse and buggy. Much of session was taken up by reports on the United Nations charter and discussion of food problems.

County Gets Showers Past Weekend

Parmer Ranks High In War Bond Sales

OPA Will Investigate Zero Food Lockers

An investigation of frozen food locker plants in the Lubbock district began Monday, district OPA officials reported to the local ration board, but local members contacted today were not informed as to when the plants operating in this county—at Farwell, Bovina and Friona—would be listed for checking. Such checkups on locker boxes has been ordered by OPA following continued shortages of meat in order to determine that locker patrons were not holding more than their fair share, OPA reports.

Investigators employed by the Lubbock office will be trained for this particular job and will inspect meat in the lockers, notifying owners of what appears to be excessive supplies to the local board. In such cases, OPA says, owners must be prepared to surrender red points if they are unable to establish previous point payment, or the fact that they were entitled to the meat on a point free basis.

Under certain conditions, persons are entitled to have point-free meat in their lockers. A livestock producer may have slaughtered any animal he produced or raised without giving up points provided:

1. That he either operates a farm at which he resides more than six months of the year, or supervised the raising of the animal and was on the premises at least one-third of the life of the animal.

2. That the animal was raised by the owner from birth until slaughter, or owned and fed 60 days prior to slaughter, or long enough for the animal's weight to increase 35%.

3. That the resulting meat is for the owner's own household and the owner does not intend to sell or transfer any of the meat.

If the locker plant operator does custom slaughtering for patrons, he is required to give information to the ration board of the livestock owner, and to the district OPA office showing the weight of the live animal, dressed weight, and kind of livestock. If the locker holder was not entitled to meat point-free, he is required to have a slaughterer's license to have surrendered red points.

If the locker holder is a farm slaughterer and is entitled to meat point-free for his own consumption, he is required to grade or have graded all of the meat, but if he kills cattle for sale he must grade it or have it graded before the carcass is broken, delivered or stored. He may grade meat without applying for permission from the Federal Grading Service.

No Successor For Deaton Named

L. E. Brooks of Cordell Okla., who was associated with the late E. M. Deaton in the ownership and operation of five cotton gins, a warehouse and an ice plant, was here last week looking after the interests of the firm.

He said on his departure for home last Saturday, that no definite plans had been made to name a successor to Deaton as manager of the various interests in this section. It is understood locally that efforts are being made to secure a discharge for Deaton's oldest son, Carl, now in the Navy, to look after the interests of the firm. It was also admitted in this connection that disposal may be made of some of the businesses.

TRANSFER OF COUNTY FUNDS AUTHORIZED

The Parmer County Commissioners Court, in their regular July session, transferred \$20,000 out of the Road and Bridge Auto Fund to the Road and Bridge General Fund, and \$4,000 from the Jury Fund to the General Fund.

Other matters acted upon included the payment of current bills and approval of Sheriff Earl Booth's expense account for the months of May and June, amounting to \$570.

Dry Weather Has One Asset: No Hay Fever

If you can't say anything good for the continued dry weather, only partially broken last weekend, the hay-fever sufferers at least have a good word for it.

Total lack of rains until last week has caused a corresponding lack of weeds in this area, with the result that most hay-fever victims thus far report a "sneezeless" summer.

Wheat Shipments Reach 400 Carloads in County

An even 400 carloads of wheat has been shipped from Parmer county this season, it was revealed here this week when The Tribune completed tabulations on shipments from three of the principal wheat shipping centers of the county.

Figures compiled here include movements from Friona, Bovina and Farwell. There was no report from Black and Lariat, which will likely swell the grand total at least another 100 carloads. Adding further to this year's harvest will be the grain yet on hand in the elevators of the county, and some estimates placed this as high as 150 carloads.

Granting that the estimates made in the foregoing paragraph are approximately correct, it would mean that the Parmer County wheat crop for this year amounted to around 3,300,000 bushels—and this after most hope was gone for a wheat crop.

Bronze Star Awarded Cpl. M. Billington

Corporal Morgan Billington, a member of the 18th Infantry which saw action in Belgium and Germany before the collapse of the German army, was recently awarded the Bronze Star for "heroic achievement in connection with military operations against the enemy in the vicinity of Butgenback Belgium, January 3, 1945."

The citation continues: "Despite intense enemy small-arms fire, Cpl. Billington courageously accompanied a patrol into hostile territory and fearlessly moving about exposed terrain, skillfully assisted comrades in laying a strategically important mine field."

The medal was received last week by Mrs. Billington, who is making her home in Texico and is employed at the Farwell postoffice. Cpl. Billington entered service in 1943 and spent his entire training period at Camp Fannin, near Tyler, Texas, going overseas last fall.

Have you bought that bond?

Out of the 254 counties in Texas Parmer County ranked 102nd in the state in oversubscribing its Seventh War Loan quota, it was revealed here today by G. D. Anderson, chairman of the War Fund Committee.

Chairman Anderson received the figures from the Federal Reserve Bank of Dallas, Tuesday, showing standings of the counties over the state which listed Parmer County in the 102nd position, with an oversubscription of 16.2%. The overall state-wide oversubscription amounted to 1.5%. These figures, Anderson stressed apply to E bond sales only.

Parmer County led practically every county in the entire Panhandle-Plains in its sale of E bonds outranking by heavy odds any of the adjoining counties.

Final tabulations as prepared by the Federal Reserve Bank, showed that Parmer purchases of E bonds amounted to \$180,037.50, against a quota of \$155,000. With a quota of \$95,000 in other series, including F, G, etc., sales totaled \$290,989.

The overall quota for the county, including all series was \$250,000, and the actual sales here amounted to \$471,026.50, to top the biggest bond-selling event ever staged in this county.

"Uncle Ben" Shelby Is Adjudged Insane

A jury in Parmer county court last Wednesday afternoon adjudged "Uncle Ben" Shelby, age 80, as insane and recommended that he be placed in an institution.

Judge A. D. Smith carried out the recommendation of the jury and ordered the aged widower committed to Wichita Falls. Testimony at the hearing revealed that the old gentleman was not violent nor dangerous, but "just doesn't know what's going on about him". He was taken to the state institution the day following his hearing.

"Uncle Ben", a brother of the late Mrs. Anne Jersig, has been a resident of Parmer County for more than 20 years. He is a son of General Shelby, a general of the Confederacy in the Civil War, and was born in Mexico where his father led his troops following the surrender of General Robert E. Lee. General Shelby for many months, refused to surrender his troops.

Revival Starts Sunday At Oklahoma Lane

Rev. J. J. Terry, pastor of the Oklahoma Lane Baptist Church, today announced a series of revival services at that church, beginning next Sunday morning.

Services will be held twice daily, at 10:30 a. m. and 9:15 p. m., through the first Sunday in August, he said. Rev. R. J. Jenkins, of Bangs, Texas, will do the preaching, and the public is cordially invited.

Sears, Roebuck & Co. began as a mail order watch business.

Rains during the past week over this area, varying from a mere shower to heavy downpours, have stimulated farming activity over a large scope of country that has been dormant for many months.

Many of the farmers are taking advantage of the moisture, planting feed crops as rapidly as possible, in the hope of having feed for their livestock during the coming winter. Others, still convinced that moisture on their holdings is not sufficient to bring crops up, are waiting for additional long-delayed rains.

The heaviest falls of the past week have been reported in the Lazbuddy, Lakeview and Hub communities of this county, with good rains also reported in the Syndicate Hotel area. Some reports from the Lazbuddy section claim that not less than three inches of moisture has fallen there during the past week, most of it coming over the weekend.

Similar reports come from the Lakeview and Hub sections, located in the eastern and central part of the county. In Farwell, the rain gauge registered 1.76 over the weekend, but the moisture seems to have extended only a few miles to the east and south of here.

Good rains are reported southwest of Texico in the Fairfield community and beyond. Closer-in sections to the southwest of Texico also received good rains.

Dry at Okla. Lane, Bovina

On the other hand, most farmers in the Oklahoma Lane section, east of here, report only a quarter to a scant half inch of rainfall. The Bovina section is still waiting for sufficient moisture to plant, while several miles to the northwest of that city the moisture on last Saturday night was sufficient to put Running Water and Frio Draws on a rampage for the first time this year. Neither of these streams got out of their banks, but it served as a reminder that "it rained somewhere".

In the favored sections, planting operations are said to be in full stride. Farmers had their lands ready and were waiting for the "Go" signal from the weatherman. However most farmers, including those who are planting this week, agree that the prospects for producing a grain crop this year are exceedingly slim, and as a consequence most of them are planting feeds that can be used to a good advantage as roughage, should the grain fail to mature in the limited time between now and a killing frost.

Farmers are also anticipating a heavy growth of weeds in their fields along with the new crops. They claim that the moisture has been insufficient to cause even weed seed to sprout thus far this year.

Records kept by R. V. Ham of Farwell show that rainfall for the year to date has amounted to only 3.73 inches, which is about seven inches below normal precipitation.

SHOWS IMPROVEMENT

Leon McDaniel, son of Mr. and Mrs. Charlie McDaniel, was reported as on the road to recovery this week. He was taken to a Clovis hospital several days ago, undergoing an emergency appendectomy, and was critically ill at first.

Wheat Insurance To Be Offered Again

Federal crop insurance on winter wheat will be offered soon in this and all winter wheat producing counties, according to W. M. Sherley, chairman of the Parmer County AAA committee.

During recent weeks, Federal Crop Insurance Corporation representatives, AAA committeemen and other sales agents have held meetings in every county to set up sales and administrative organizations.

This will be the first opportunity since 1943 for Parmer farmers to obtain all-risk insurance on winter wheat. Contracts were written on the 1945 spring wheat crop, following revival of the insurance program late last December.

"We expect to contact every wheat grower, so he will have an opportunity to take advantage of this non-profit insurance which protects his crop investment," Sherley said.

Under the program, farmers have a choice of two contracts, each for three years. One offers coverage up to 75 percent of the average yield—the other up to 50 percent. The amount of coverage varies with the stage of the crop's development. Premiums are payable annually by cash or by premium notes. One warning was issued: applications covering at least 50 farms in the county must be received before crop insurance is available.

The deadline for receiving applications in Parmer County is August 31, or before the crop is seeded, whichever is earlier. Any person with an interest in a winter wheat crop may apply for insurance by appearing at the local AAA office.

Gas Company Office Closed Till 30th

The local office of the Southern Union Gas Company was closed the first of the week and will remain closed until July 30th, it was announced today by J. H. Wilson, divisional manager of Clovis.

Bob Barton, local manager, accompanied by his wife, is on vacation it was stated.

Mr. Wilson said that any emergency calls should be referred to the Clovis office during Barton's absence. "Have our customers call 57, Clovis, collect," he said, with reference to emergency calls pertaining to the gas service.

TO OUT-OF-TOWN SUBSCRIBERS

Under new policy, a charge of 10c is made for change of address. Please include this when you notify us of such change. Otherwise, The Tribune will not be forwarded to new addresses.

MRS. ALDRIDGE BETTER

Mrs. Minnie O. Aldridge, who was rushed to a Clovis hospital the last of the week for treatment, was reported as improved on Tuesday morning by her son, Judge John Aldridge.

Funeral Rites Are Held, Thursday

A crowd that filled the high school auditorium at Oklahoma Lane to overflowing gathered last Thursday afternoon to pay its respects to the memory of one of the county's leading citizens, E. M. Deaton.

Rev. W. B. Wages, Baptist minister of Levelland, former pastor at Oklahoma Lane and West Camp, conducted the services, assisted by Rev. J. J. Terry, Baptist pastor of Oklahoma Lane. The Masonic order took charge at the graveside and conducted the final services for their departed brother. Interment was in the Oklahoma Lane cemetery.

Deaton met instant death on Sunday, July 8, when his private plane crashed 3½ miles northwest of Lariat, after he encountered heavy fog shortly after taking off. He was alone at the time of the tragedy and was en route to Hobbs, N. M.

Army Chaplain To Hold Bovina Baptist Revival

Rev. R. Elmer Dunham, medically discharged Army chaplain, of Fort Worth will conduct a two-weeks revival meeting at the First Baptist Church in Bovina, beginning July 29 and concluding on August 12.

Rev. Dunham entered the armed service in 1942 while serving as pastor of the East Fourth Baptist Church, at Big Spring. He was medically discharged from the Army several months ago.

Recently elected superintendent of City and County Missions of Ft. Worth and Tarrant County, Rev. Dunham comes to Bovina highly recommended as an evangelist. He has conducted meetings in many of the larger churches in Texas, as well as in Arkansas, Louisiana and Tennessee. He has spent a great part of his ministry in the evangelistic field.

Rev. Roscoe Trostle, the pastor, announced that services would be conducted daily at 10:30 a. m. and 9:15 p. m. Gospel singing will be under the direction of a competent song leader he added.

The public is cordially invited to attend any and all of the services.

The custom of presenting the keys times, when every fortified town in Europe was surrounded by walls and people could only enter or leave by the gates.

PLENTY OF ELBERTA PEACHES at DeLeon, Texas. Come or contact DeLeon Community Club. Telephone 81, DeLeon, Texas. 36-2tp

FOR SALE—2-year-old registered Whiteface bull, Domino strain. See R. L. Green, 4 miles west of Bovina. 36-3tp

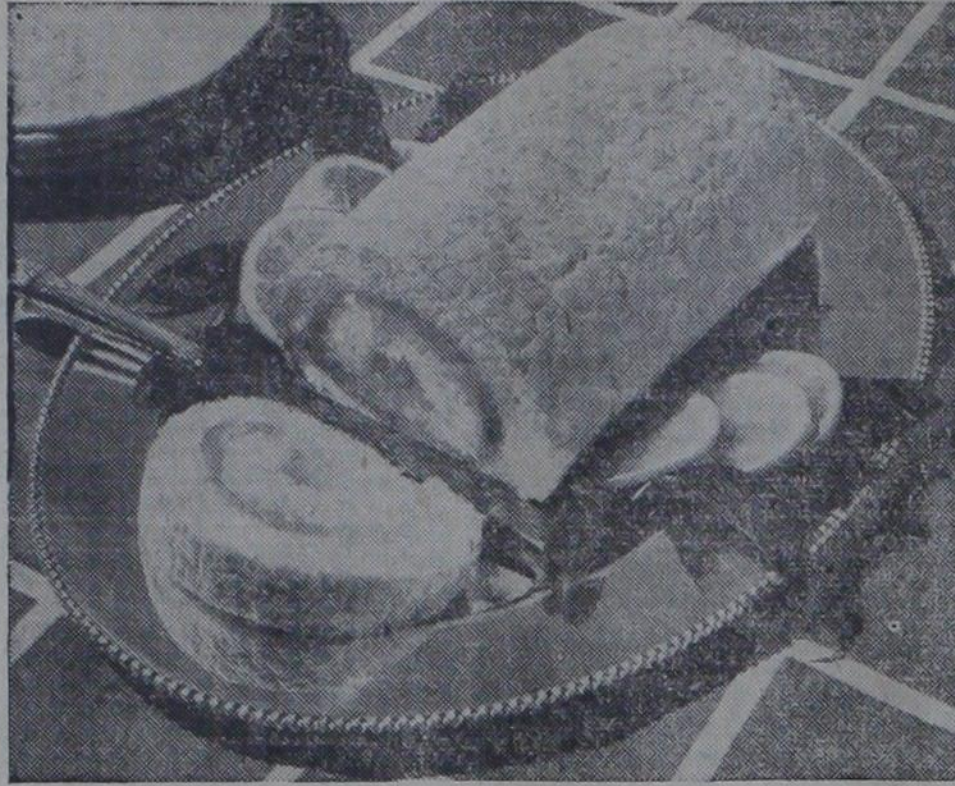

FOR SALE—3-star Jersey bull, 6 years old, not hard to handle. 53 paternal daughters tested 485 lbs. butterfat. E. H. Young, 9/2 east Farwell. 36-3tp

FOUND—Sterling silver ankle bracelet. Marcia Anne Johnson.

FOR SALE—1939 Deluxe Ford Tudor, fair tires; 1936 Chev. truck, good tires; also some weaning pigs and a heavy duty windcharger, complete with tower and batteries. T. W. Bewley, 4 miles west, 2 1/2 north Lazbuddy. Mail address, Friona. 36-2tp

LOST—Blue-grey mare, weight

Orange Roll Offers Refreshing New Dessert

The family will enjoy this orange-flavored treat.

FEATHER-LIGHT Orange Roll is a happy ending for any meal. Marjorie Griffin, rural home editor of Capper's Farmer, advises homemakers faced with the daily task of providing zesty desserts.

"Dinner guests will think you're super smart to prepare it," she writes in the magazine read by 1,250,000 farm families. "Surround it with thinnest of orange slices and green leaves on a handsome platter."

The recipe she provides will make 10 slices, or enough for some "seconds" in the average family.

Orange Roll
3 eggs 1 1/2 tsp. baking powder
1 c. sugar 1/4 tsp. salt
6 tbsp. orange juice 1/4 tsp. salt
1 c. cake flour Confectioners' sugar

Beat eggs until lemon colored; add sugar, beating until mixture is thick.

Add orange juice. Sift together flour, baking powder and salt; add to first mixture, mixing only to blend. Line a shallow pan, 10 by 15 inches, with waxed paper. Pour in batter; bake at 375° F. for 20 minutes. Sift confectioners' sugar on piece of paper. Turn cake out on this and remove waxed paper. Spread with Orange Filling; roll up like jelly roll.

Orange Filling
1 c. orange juice 3 tbsp. cornstarch
1 egg yolk 2 tsp. butter
1/4 c. corn syrup salt

Add 1/4 c. orange juice to beaten egg yolk, add syrup and cornstarch and mix thoroughly. Heat remaining orange juice in top of double boiler; add to egg mixture and return to double boiler. Cook, stirring constantly until thickened; cover and cook 5 minutes longer. Remove from heat, add butter and salt; cool.

about 1100, blemish on left foot. Notify Luther Moss, Texico. 1tp

Farm Bureau Fed. Saves Farmers Money

Farmers and ranchers of Texas have been saved millions of dollars this year through their own organization, the Texas Farm Bureau Federation, says W. M. Tilson, district 2 director, of Meadow, Texas.

Last year, the cotton and wheat committees of the American Farm Bureau Federation were instrumental in securing a ceiling price of \$1.50 per bushel for wheat and an increase of approximately \$9.60 a bale for cotton. The committees on the special and other staple commodities likewise secured price increases or kept the price they had attained.

Through the Federation, two bills introduced in the Texas legislature were killed in the committee hearings, that would have taxed tractor gasoline four cents per gallon, which is now rebated to farmers. That action alone has saved the farmers of Parmer county \$90,000 which, divided among the 900 operators, would be \$100 per operator.

Two bills favoring farmers and ranchers the Cooperative Hospital Act and the increased load limit of trucks from 38,000 to 48,000 pounds were aggressively supported by the Federation.

"Fortunately," says Tilson, "we Texas farmers have an organization through which we can fight for our rights and a better agricultural economy."

Record Peach Crop Goes To Market

The largest peach crop farmers have ever grown in early producing areas is now headed for local markets and housewives are asked to take advantage of the plentiful supply and serve them generously and more often.

E. C. Munro, acting district representative, CCC's office of supply, says 26,000,000 bushels are now being harvested in 10 southern states, principally in Georgia and the Carolinas, and peak harvesting can be expected shortly.

The national crop this year will be about 78,000,000 bushels counting harvest from later producing areas. But since late peaches do not ordinarily show up plentifully in this section the current crop should be fully used, he said.

The armed forces are getting first call on canned goods, and since their needs for fruits are high all the peaches which can be canned, frozen, dried and preserved at home now is insurance against the day when commercial foods are expected to be in short supply, Munro said.

SANTA FE CARLOADINGS

The Santa Fe System carloadings for week ending July 14, 1945 were 30,649 compared with 30,696 for same week in 1944. Cars received from connections totaled 14,135 compared with 11,749 for same week in 1944. Total cars moved were 44,748 compared with 42,445 for same week in 1944. Santa Fe handled a total of 41,579 cars in the preceding week of this year.

Peaches May Be Canned Without Using Sugar

COLLEGE STATION — Sugar helps canned fruit hold its shape, color and flavor, but it is not necessary to keep fruits from spoiling, says Mrs. Winifred J. Leverenz, specialist in food preservation of the Extension Service. With present sugar shortages, canning without sugar will help homemakers to conserve the large surplus of peaches this summer, and will add many cans of fruit to the pantry shelves and to next winter's menus.

To can without sugar, use boiling water or strained fruit juice made from the softer peaches. Wash, peeler to a boil and pour over packed. Complete the canning operation by packing the raw peaches into a clean jar or can. Bring fruit juice or water to a boil and pour over packed fruit. Leave 1/2 inch headspace. Steam before sealing: pints, 10 minutes; quarts, 15 minutes; half gallons, 20 minutes. Press down and refill if necessary. Wipe off rim of jar and seal according to type of container being used. Process in a water bath after water starts boiling; pints and quarts, 15 minutes; half gallons, 25 minutes.

Another method to can without sugar is to drop the firm fruit into the fruit juice. Bring to a boil. Pack into boiling hot clean jars. Leave 1/2 inch headspace. Seal according to type of container used. Process in a boiling water bath, 15 minutes for pints and quarts, and 25 minutes for half gallons.

If a small amount of sugar is available, the general wartime rule is to add one cup of sugar to two quarts of fruit. One cup of sugar syrup usually covers 1 quart of fruit when it is well packed. A thin syrup one cup sugar to three cups juice or water, is also desirable from a nutrition standpoint.

Corn syrup or corn sugar may be substituted for part or all of the sugar. One cup sugar and two cups corn syrup to 6 cups water makes a desirable syrup. If corn syrup is to replace all of the sugar, use 1/2 to 3-4 cup syrup and one cup water. Honey may be substituted for a small part of the sugar but it affects the flavor of the fruit more than corn syrup. It is good with canned figs and with fruit pickles. Never use saccharin, as it becomes bitter when heated.

Prior to the death of Charles VIII of France, in 1498, widows wore white as mourning. His queen, Anne, changed the custom when she clothed herself in black.

"TAKE THAT AD OUT!"

"Don't run that ad any more," ordered T. J. Massongill, explaining that he sold the oil stove he advertised two weeks ago "before I got my paper."

He said that a buyer appeared at his home only a few hours after the paper had been placed in the postoffice.

DRAFT BOARD TO MEET

Mrs. Bessie Lee Henneman, clerk of the local board, today announced a meeting of the draft board on Friday afternoon of this week. The meeting is scheduled for 2 o'clock, she said.

The custom of using seals on documents has prevailed for centuries, in the East.

Mexican Meat Stretchers

If market shortages and rationing have you stymied, look Southward. You can learn from your Latin good neighbor, the Mexican housewife, how to manage much on little.

Food has never been over-abundant in Mexican markets. Yet so long as she can get corn meal and tomatoes, the Mexican housewife provides tasty, filling meals. The recipes below give you some hints on how it's done.

You'll find both these dishes speak the native language with an accent, as American as the condensed cream of tomato soup 'round which they're built:

Stuffed Corncakes With Tomato Sauce

Combine—

- 1 green pepper, chopped
- 1 medium onion, chopped
- 1 clove garlic, chopped
- 1 tablespoons parsley, chopped
- 1/2 teaspoon salt
- 1/2 teaspoon chili powder
- 1/2 teaspoon pepper.

Sauté in—

- 2 tablespoons olive oil or other fat.

Add—

- 2 tablespoons flour
- and brown.

Add—

- 1/2 cup mushrooms
- 1 11-oz. can condensed cream of tomato soup
- 2 cups water.

Simmer for 1 hour, covered, stirring occasionally.

Combine, browning well—

- 1/2 lb. ground veal
- 1/2 lb. ground beef

- 1 teaspoon salt
- 1/2 medium onion, minced.

Remove meat from fire. Add just enough tomato sauce to make meat particles hold together. Place a spoonful of the meat mixture in the center of each corncake (recipe below) and roll. Place on platter with the seam edge on the bottom. Cover with remaining tomato sauce. Serves 6.

Corncakes

Sift together—

- 1 1/2 cups yellow corn meal
- 1 teaspoon salt
- 1/2 teaspoon baking soda.

Add, mixing lightly—

- 1 1/2 cups buttermilk or sour milk
- 2 eggs, beaten.

Drop enough of mixture on a hot oiled grill to make corncakes, 5 inches in diameter. Fry until golden brown. Fill with meat mixture. Makes 6 5-inch cakes.

Meat Ball Soup

Combine, then allow to boil gently—

- 1 11-oz. can condensed cream of tomato soup, diluted with an equal quantity of water
- 2 cups beef stock or 2 bouillon cubes dissolved in 2 cups boiling water

- 1 1/2 teaspoons chili powder
- 1 teaspoon salt.

Combine thoroughly—

- 1/2 lb. ground beef
- 1/4 lb. ground pork
- 3 tablespoons dry bread crumbs
- 1 egg
- 1/2 clove garlic, chopped
- 1/2 teaspoon mint flavoring
- 1/2 teaspoon sage
- 1/2 teaspoon pepper
- 1/2 teaspoon salt
- 1/2 medium onion, chopped.

Form into balls the size of marbles. Brown meat lightly in—

- 1 tablespoon olive oil or other fat, hot.

Drain. Add to soup mixture and boil gently for 1 hour.

or other authorized person assisting her in filling out the application form an envelope or V-mail letter from her husband, her allowance card or other official communication dated at a time when he was in one of the eligible grades. If she does not have such evidence, the State Health Department can make inquiry of the appropriate armed service.

"Clarification of this matter by Congress brings the whole undertaking in line with the spirit of the law," Dr. Cox said. "The important matter is to get care to these women and their babies, not the fine points

of when the application was made. Surely all can see the justice of taking care of these men's wives and babies."

MORE AIRLINE PILOTS

The domestic airlines of the United States expect to obtain a needed 1,000 pilots and co-pilots under the new program of the Army Air Forces allowing the release of a limited number of military pilots for airline duty. The new Pilots are needed to serve on new routes being opened and old routes being resumed to aid the military and industrial war effort against Japan.

Maritime Physical Setup Revised

Lt. (jg) A. F. Thomson, regional enrolling officer for the 10th Area of the U. S. Maritime Service, was notified today by the medical section of national headquarters that the physical standards for apprentice seaman enrollments has been modified to permit enrollment of men with a minimum weight of 120 pounds. Formerly the minimum was 130 pounds.

Lt. Thomson pointed out that this modification was made in view of the urgent need for men at this time. He hopes that this modification of physical requirements will aid materially in the efforts to meet the recruiting quota of 200 men per week which has been assigned this area.

Eligible men, 17 to 50, who can

meet the revised physical requirements should apply immediately to the United States Maritime Service enrolling office in Houston, Dallas, Galveston or Port Arthur.

50,000 MONTHLY

WASHINGTON—The Army is using 800 air transport planes to return soldiers from Europe at the rate of 50,000 a month. A goodly share of the soldiers will, after a short leave be flown across the country for redeployment against the Japs. Just how many will probably travel via the Commercial airlines is emphasized by Col. J. M. Johnson, ODT director who pointed out that unless one has a no. 2 priority, plane travel westbound is going to be almost impossible for the next few months East-bound air trips will not be so difficult.

Our entire organization of nearly a thousand men and women salute our fellow-employees who are in America's armed forces.

Although they are away—they are still part of us, and we look forward to their return, following a Victorious peace.

We at home pledge to these men and women in the U. S. Service our unstinted aid in every activity to help win the war. We sincerely dedicate all of our Company's equipment, manpower and experience to help bring about the quickest Victory possible. The electric power needs of the war production industries in the territory we serve must be met, and they are being met, quickly and completely, by our Company.

Winning the WAR comes first!

VICTORY IS OUR JOB, TOO—

Though handicapped by many restrictions, regulations, shortage of merchandise and manpower, we are doing our best to bring Victory at the earliest possible moment. Naturally, there are lots of items that you would expect to find in our stock that are "out for the duration."

But, on the other hand, we will be able to supply MOST of your urgent needs from our stocks of new Building Materials, Builders' Hardware, Pipe and Pipe Connections, Paints, Nails, Etc. Come in!

Health Notes

By State Department of Health

AUSTIN—A serviceman's wife may apply for maternity care and care for her baby, under the emergency maternity and infant care program, even after her husband has been honorably discharged, promoted, or demoted, provided she

was pregnant during the period when he was in one of the four lowest pay grades of the services, or was serving as an aviation cadet. On the same basis, she may apply if the husband and father is a prisoner of war, missing in action, or dead.

This clarification as to who is entitled to care under the government emergency maternity and infant care program was made today by Dr. Geo. W. Cox, State Health Officer. The State Department of Health administers the program in Texas.

Heretofore the application for care had to be made while the serviceman was in one of the eligible grades. Now all that is required to establish eligibility is proof that the wife was pregnant while he was in one of the eligible grades. The infant in these cases is also eligible for full care during his first year of life. Similarly, if the father of an infant whose mother did not receive care under the program was in one of those grades at any time during the infant's first year of life, the infant's eligibility for care is established.

The greatest effort of the new policy, which is retroactive to January, 1945, will be in bringing infants of discharged servicemen under the program for the full year in which the infant is entitled to care. The new regulation also clears up a matter about which some confusion has existed, that is, whether widows and their babies are eligible. Under this interpretation, they are undoubtedly eligible.

The procedure to be followed in establishing eligibility is simple. A wife has only to show to her physi-

The campaign is on to raise \$60,000 for the completion of the second unit of the Panhandle-Plains Historical Society's Museum, which is located on the campus of West Texas State College, Canyon.

Quotas of \$1,000 have been assigned to the various counties of the Panhandle by the finance committee, of which H. C. Pipkin of Amarillo is the chairman. Many counties have already raised their quotas and will continue the campaign to double the amount requested.

The above picture shows the first unit of the Museum, which was completed in 1932. This unit was made possible by an appropriation of \$25,000 by the Texas legislature, provided that the people would raise an equal amount. Because of the great interest in the Museum, the pioneers contributed \$40,000 for the first unit

and for equipment to open the Museum.

The basement for the second unit was completed in 1937 with additional funds raised by Panhandle citizens, who are interested in preserving the unique history of this region, and a federal grant through WPA. The steel and concrete frame for the second and third stories of the second unit had been erected when the war stopped construction. A large part of the materials to complete the second unit is on the ground. The large part of the \$60,000 now being raised is required for labor for the second unit and for display cases after the unit is completed.

The Museum is considered by historical authorities throughout the nation to be one of the most complete regional Museums in the

world. More than 375,000 citizens from every state in the union have registered as visitors since the opening of the Museum. School children from every part of the Panhandle come to study history of the pioneer days as revealed in the Museum.

Thousands of articles in possession of the Historical Society are not on display due to lack of space. Two of the largest collections—the J. D. Hamlin Art Collection and the O. T. Nicholson Gun Collection—are not in the Museum because of the lack of storage and display cases. The completion of the second unit will provide that needed space.

New officers of the Panhandle-Plains Historical Society are: Newton Harrell of Claude, president; Hamlin Overstreet of Farwell, 1st vice president; Harold Bugbee of Clarendon, 2nd vice president; Dr. L. F. Sheffy of Canyon, secretary; W. L. Vaughan of Canyon, treasurer. The executive committee is composed of Harrell, Overstreet, Bugbee, Dr. Sheffy and H. C. Pipkin of Amarillo, J. Evetts Haley of Spearman, Earl Vandale of Amarillo, O. H. Finch of Dalhart, S. B. Whittenburg of Amarillo.

Directors from this county are J. D. Hamlin, C. M. Henderson and H. Y. Overstreet.

Veterans Good Students, University Reports

AUSTIN—Veterans make good students, a University of Texas veterans' counselor says.

"They are purposeful and intent on doing their work," Delores Hubert B. Jones, associate counselor in the University's Advisory Service.

"They are a little older than the average student, and a little more serious about getting the most out of their educational opportunities. Consequently they make a little better grades than the average student."

Jones said this trend is borne out by reports he has had from veterans' counselors at other colleges over the nation, although no detailed analysis of grades has yet been compiled.

Enrolled in the University here this summer are 880 veterans, or 32 more than the 348 who were in school last spring.

Navy Relief Society Aids In Many Ways

NEW ORLEANS—The wife and two small children of a sailor went to New Orleans to be with him the last few days before his ship sailed to join the fleet in the Pacific. She became suddenly ill after the ship sailed, was taken to a hospital.

Her's was one of the 120 cases handled last month by the New Orleans Auxiliary of the Navy Relief Society. She didn't ask for help, but she surely needed it. A member of the visiting committee of Navy wives which visits hospitals in New Orleans each day found the despondent woman in an emergency ward. Arrangements were quickly made to take care of the children and have an operation performed.

For more than 40 years Navy men and their families in distress have looked to the Navy Relief Society for assistance. The society is the Navy's official welfare service, and is now an integral part of the Navy.

Four and a quarter million men and women—authorized strength on July 1 of the naval services—and their dependents constitute a very large group of Americans subject to all the normal risks of distress and hardship, and in addition subject to many war-born strains and the increased expectancy of death.

The Navy Relief Society has a very close working arrangement with the American Red Cross. In its effort to be of service to Navy families in distress, and to the families of Coast Guardsmen and Marines, the Society does not duplicate Red Cross work, nor does it extend relief in areas served by public funds. It extends financial assistance in the form of either loans or grants to men in the naval services and their families for emergencies involving the distress of dependents for basic living essentials such as food, shelter, fuel and utilities, for hospitalization, medical and surgical service, and for dental service where health is affected. Temporary financial assistance is extended where family allowances or death gratuities have been delayed. Funeral expenses, emergency needs arising from sudden transfer, and distress in a number of other categories are dealt with by the Society.

In the Eighth Naval District there are eight Auxiliaries or their branches—at Naval District Headquarters in New Orleans, Naval Air Station, Pensacola, Fla.; Naval Air Stations, Corpus Christi; Naval Receiving Station, Orange; Naval Training School Norman, Okla.; Naval Air Station, Clinton, Okla.; Naval Air Technical Training Center, Memphis, Tenn.; and Naval Training Center Gulfport, Miss.

The society has probably one of the lowest overhead operating costs of any relief agency in the world. Its case workers are all Navy wives; so are its visiting committees. Office space is generally made available by the Navy, and clerical help is borrowed where possible. Some civilian clerical help is employed.

While uniformed personnel is given assistance where need is shown, the society is more inclined to help where families and children are involved. Relief of widows and orphans was the primary purpose of the Society when it was organized in 1904.

University Sends Many Technicians Into War Industries

AUSTIN—Glowing with pride at having sent 16,800 trained technicians to war industries, the University of Texas has closed out its newest ESMWT program—engineering, science and management war training.

University has chalked up a record that ranks along with the top half dozen colleges in the country, according to C. Read Granberry, coordinator.

More than 30,000 trainees have started the intensive highly technical short courses which the University has conducted under the U. S. Office of Education-financed program, but many of them have been pulled off by industry before completing their training.

In addition to numerous courses here at the main University—necessitating keeping the University's Engineering Building in operation 22 out of the 24 hours a day—training centers have been set up in strategic war factory areas from Texarkana to San Antonio, from Fort Worth to the Gulf Coast, under University direction.

Shipyards, bomber plants, synthetic rubber factories, aviation gas refineries, Army and Navy communications laboratories and scores of other vital war activities have called on the University to train technicians for skilled jobs.

Several other Texas Colleges, including A. and M., A. and I., S.M.U., Rice and Texas Tech, have also conducted ESMWT courses, Granberry said.

"In fact, Texas has probably been the third most important area in the whole ESMWT program lag-

ging behind only California and Pennsylvania in number of courses given and the number of students trained," he said.

TO TEACH OVERSEAS

AUSTIN—Two University of Texas professors—Dr. O. D. Weeks, professor of government, and Dr. J. D. Umstadd, professor of education—have been called by the War Department to teach in the overseas Army University centers being set up to afford educational opportunities for G. I.'s who will remain in Europe. Weeks will teach in Shrivenham, England, while Umstadd is assigned to Fontainebleau, France.

VARIED DELIVERIES BY PLANE

WASHINGTON—In the requests filed with the Civil Aeronautics Board for permits to operate specialties of flying services there are applications to carry feed, drugs, flowers and associated commodities; general merchandise; a flyaway service to carry aircraft from producer to purchaser; fish and fish products; armored car service. The scope of these proposed operations is very wide, several embracing the United States.

There are 13 bridges across the Mississippi River.

Our Country Needs Still More Used Fats...And We're the Folks to Save them!

IN between the good news about the war these days, careful readers of the paper will see grave words about a serious national shortage that has a direct bearing on military and civilian production schedules.

Our domestic supplies of fats and oils will be approximately one and one-half billion pounds less than last year. Yet thousands of tons of fats are still needed to help make countless essentials for the battle- and home-fronts.

While country people have been doing an even better job of saving fats than the city folks, we must remember that, because of the meat situation, we are in a better position to save. That's why we can't afford to miss a trick.

So, let's save not only the big amounts from frying and roasting, but also meat trimmings, plate scraps, and scrapings. Melt them down once a week and add the liquid fat to the salvage can. Skim soups and gravies. Scrape every pan. Every drop is important.

When your salvage can is full, take it to your butcher, and get 2 red points and up to 4¢ for each pound. If you have any difficulty, call your County Agent or Home Demonstration Agent.

100,000,000 More Pounds of Used Fats Are Needed This Year!

Approved by WFA and OPA. Paid for by Industry.

Youth Caravan Work Draws Large Crowds

The Youth Caravan week at the Bovina and Oklahoma Lane Methodist Churches began with record crowds, Rev. Roscoe Trostle, minister, said today.

Miss Jackie Anderson of Georgia and Miss Mildred Bible of Tennessee, brought the devotional, taught two Sunday School classes and then had charge of the preaching hour. Miss Bible directed the service and Miss Anderson brought the message.

At Oklahoma Lane, Miss Sara Moore of Mississippi, taught the young people's Sunday School class, Miss Mary Matthews of Arkansas, taught the intermediates and Miss Lucile Rucker of Abilene, counselor of the group, directed the young adult class. Miss Moore had charge at the preaching hour, Miss Rucker gave a very clear and concise statement of Caravan work and Miss Matthews brought the message.

Mr. and Mrs. C. C. Christian entertained members of the Caravan team, local young people and Rev. and Mrs. Trostle at the noon hour.

Starting with a fellowship supper at the church, the evening was devoted to classes, a program planning period and preaching service before the quarterly conference.

Dr. Earl G. Hamlett, district superintendent, met with the Bovina building committee and then gave a fine sermon on the text, "Awake Thou That Sleepest". After the service, Dr. Hamlett directed the conference period.

Picnic Social Held On Wednesday Evening

Members of the Youth Department of the local Methodist Church enjoyed a summer social the past Wednesday evening. The group first held a swimming party, followed by a picnic supper at Hillcrest Park in Clovis, and wound up the evening by taking in the carnival.

In the party were Marcia Anne Johnson, Jean and Peggy Rogers, Treva Spurlin, Belva Park, Rosamond Both, Sonny Graham, Warlick Thomas, A. C. Henneman, Bobby Hart, Toby Booth, D. C. Haynes and Ernest Lokey. Sponsors were Mrs. Lenton Pool, Mrs. E. F. Lokey, Mrs. V. Scott Johnson and Mrs. Charles Walker.

WSCS Meeting Held By Bovina Ladies

The Dorcas and Marcie Lynn WSCS of the Bovina Methodist Church met in the home of Mrs. T. J. Hopingardner, last Wednesday, holding a covered dish luncheon.

The program in the afternoon was on "Advancing in Understanding". Those taking part were Mesdames W. E. Williams, Frank Wilson and Roscoe Trostle. Mrs. Trostle reported on the district meeting in Amarillo.

Others present were Mesdames Lloyd Battey, Louis Pesch, I. W. Quickel, E. H. Moody, Mable Newberry Wilbur Charles and Misses Mary Wjll Johnson Mildred, Ula and Gladys Hopingardner and Rev. Roscoe Trostle.

The joint meeting will be with Mrs. Newberry on the second Wednesday in August. Visitors are welcome.

Lt. and Mrs. Bill Roberts, accompanied by his mother, Mrs. M. C. Roberts left Tuesday for Dallas, where they will spend several days visiting with relatives and friends.

County Judge and Mrs. A. D. Smith were in Fort Sumner, New Mexico, Sunday, visiting and attending business matters.

Mack Nobles, son of Mr. and Mrs. B. E. Nobles, was here from Amarillo the past Wednesday afternoon, visiting his parents.

Missionary Group Has Business Meeting

The regular monthly business meeting of the Women's Society of Christian Service was held Wednesday afternoon at the local Methodist Church.

In the absence of the president, Mrs. B. N. Graham, the session was presided over by Mrs. Roy B. Ezell. Reports were heard and a short devotional period was then led by Mrs. Ezell.

Those present were Mesdames A. D. Smith, Ralph Humble, Lena Yoder A. H. Overstreet, W. H. Graham, Charles Walker and Roy Ezell.

Visit Here Monday

Mr. and Mrs. D. W. Middick of Amarillo and Mrs. Sharon Carroll and children, of Clayton, N. M., visited briefly with Mrs. Bess Henneman in Farwell, Monday afternoon. They were enroute to California, where Mrs. Carroll will join her Navy husband, and the Middicks will spend two weeks with relatives.

Superintendent Speaks

Rev. M. S. Sims, district superintendent of Methodist Churches, from Clovis, was guest minister at the Hamlin Memorial Methodist Church the past Sunday, taking the pulpit in the morning hour in the absence of the pastor, Rev. Charles Walker, who is conducting a revival at San Jon.

Miss Beverly Brown, of Albuquerque, was a guest the past weekend of Miss Ina V. Haynes, in Farwell.

Mr. and Mrs. Mike Hill, who are here from Glenrose, Texas, visiting and attending business matters, spent last Wednesday in Amarillo.

John Floyd, former local resident, arrived here last weekend to spend a few days visiting friends in Farwell. He departed on Tuesday afternoon for his home in Burbank, California.

Mrs. M. C. Roberts, Lt. and Mrs. Bill Roberts transacted business matters in Amarillo the past Thursday.

Mr. and Mrs. Charlie Bieler announce the arrival of a daughter, Barbara Sue, last Tuesday evening, July 10. Both mother and daughter are doing nicely.

W. G. Blaylock, brother of Mrs. Sleta Hall, returned to his home in Konaka Okla., the first of the week, after spending a week in the Hall home in Texico.

Mr. and Mrs. Bill Hall, Mrs. Bess Henneman and son A. C., spent Sunday in Amarillo, visiting relatives and friends.

Mrs. J. D. Thomas and daughter, Norma Jean, were visitors in Muleshoe, Monday afternoon.

Mrs. Keith Blackburn, of Friona, visited briefly and attended business matters in Farwell, Tuesday morning.

Miss Marie Barnes returned home, Friday, after spending several days visiting relatives in Fort Smith, Arkansas.

O. C. Sikes has gone to Wichita Falls to attend business matters, and will visit briefly with his mother.

NEWS FROM OUR BOYS IN UNIFORM

PETREE VISITS HERE

Lt. Wendol Petree, son of Mr. and Mrs. Hazel Petree of Farwell, visited briefly with relatives here last weekend. Recently commissioned, he is now assigned to Brooks Field at San Antonio.

PARSONS ON FURLOUGH

S-Sgt. Leonard Parsons is in the county, visiting his parents, Mr. and Mrs. D. D. Parsons in Friona, and friends in Farwell while on furlough. He was formerly employed at the Gulf Station in Farwell. Parsons is now stationed at South Plains AAF, in Lubbock.

NO WORD FROM BRUCE

Mrs. Mose Glasscock stated today that no word had been received from her brother, James Bruce, serving on a cruiser in the Pacific, for the past 10 weeks. Bruce has had several narrow escapes while at sea and relatives here were slightly concerned over the lack of mail.

SEALE GOES BACK TO SEA

Lt. (jg) Frank Seale has returned to active sea duty, it was learned here this week, when he notified The Tribune of his new address. He visited friends in Farwell a few months ago, when home on leave after a year out from the West Coast.

STILL IN PACIFIC THEATRE

Sgt. Wm. A. Watkins writes this column that he is still on active duty in the Southwest Pacific, recently winding up 19 months overseas. "Although I am not in the Philippines at the present time, I have been all through them. Life in the WPA, as you probably already know is hot, wet, muddy and plenty of jungle, mosquitoes and other insects," he writes.

ENJOYS PAPER

Cpl. David A. Berry, who is serving with the Marine Corps in the Southwest Pacific, writes home that he enjoys The Tribune, having received it overseas for the past 15 months. Berry expressed dissatisfaction with the recently Army-in-augmented point system discharge plan, in that it does not include the Marine force.

HOME FOR CHRISTMAS?

Sgt. Woodrow Lovelace, stationed with the Air Corps on Luzon, in the Philippines, writes his wife "I hope I will be able to give myself to you for a Christmas present . . ." Wood was recently in contact with several other boys from this area, in the Philippines, and practically celebrated old home week, he adds.

McDANIEL AT LUBBOCK

T-Sgt. Herbert McDaniel, recently moved to and fro, is now stationed at South Plains AAF, in Lubbock. The field is being reopened, after closing several months ago. McDaniel visited his family in Farwell over the weekend.

TRAINS FOR NEW DUTY

Robert David Williams, S1-c, of Farwell, arrived at the Naval train station in Norfolk Va., some six weeks ago, to undergo training for duties aboard a new destroyer of the Atlantic fleet.

Recently returned from 12 months' duty aboard a destroyer in the Pacific area, he wears the American Theater ribbon, the Asiatic-Pacific theater ribbon with three stars and the Philippine liberation

ribbon with two stars.

on of Mr. and Mrs. Robert Williams of Farwell, he is married to the former Bertie Jackson, also of Farwell and they have a young daughter, Bobbie June.

Before enlisting in the Navy, he was employed at the air base in Clovis.

IN OCCUPATION ARMY

Cpl. Morgan Billington writes his wife, "I expect to be home in one or two years," revealing that he has been assigned to a unit of the American Army of Occupation now stationed in Germany. Billington has been overseas since last fall.

VISITS RELATIVES

Earl Bradshaw, sailor, was here on leave the first of the week, visiting Mrs. Lee Bradshaw and young son.

LEAVES FOR HOSPITAL

Pvt. Eugene Bowers, who had spent a month here with relatives, departed the first of the week for Palm Springs, California, to enter Torney General hospital for medical attention. Bowers was wounded in Belgium last December and was hospitalized in England for some months before being returned home.

VIGIL TO SANTA FE

Pvt. Ernest Vigil departed last week for Santa Fe, after spending a furlough with relatives in Texico. No word concerning his reassignment to duty had reached here at press time. Formerly a member of the 44th Infantry, Vigil came in early, having suffered frozen feet while on the combat line in Germany.

YOUNG IN PHILIPPINES

Austin Young, son of Mr. and Mrs. E. H. Young and former basketball star for the Oklahoma Lane high school, is now a member of the famed Seabees and currently stationed in the Philippine Islands, his father has informed this column.

TO ATTEND SCHOOL

Pfc. Henry Young, formerly of the Oklahoma Lane community and now in France, writes his parents, Mr. and Mrs. E. H. Young that he

Farm Ownership Loans For Veterans By FSA

Congress has increased the loan authority of the Farm Security Administration by \$25,000,000 to permit loans to returning veterans for the purchase of family-sized farms and ranches. Geo. F. L. Bishop, head of the local FSA office, has announced.

The loans are to be made under the provisions of the Bankhead-Jones Farm Tenant Act, through which approximately 37,000 loans to tenant farmers have been successfully completed since the program was authorized by Congress in 1937. Loans of a maximum of \$12,000 which can be made under this program will bear interest at 3% and are repayable over a 40-year period.

A committee composed of experienced farmers in each county will assist in the administration of this program, Bishop said, by determining (1) eligibility of the applicant with respect to farm background, experience and likelihood of success as a farmer, (2) adequacy of the farm to provide a living for the family and to pay off the loan and (3) the soundness of the loan. The function of the committee in reviewing the applicant's qualifications and the soundness of the loan is considered extremely important by FSA officials in protecting veterans and other eligible families from entering into an unsound operation.

Bishop warns that due to sharply increased land prices in some localities, veteran applicants may find it impossible to purchase land on a sound basis. "Under this program," he states, "farms must be purchased within their earning capacity value as determined by long-time prices."

FOUND ACCEPTABLE

Eugene Samuel Morris (colored) was found acceptable for military service at Oklahoma City this week, where he passed his pre-induction physical examination. Morris is the only colored registrant in Parmer County in 1-A and will be forwarded on the next call for colored men.

You won't have a thing to worry about when you bring us your country produce. We'll take complete charge, give you honest weights and accurate tests on every transaction.

FORD PRODUCE COMPANY

Applications Must Be In By August 15

Announcement of considerable importance to farmers was made today by the local AAA office, concerning the filing of applications for payment under the program.

Under a new setup, Mrs. Eva McDaniel, acting supervisor, reported that all projects which are completed for AAA payment by August 1 must be filed for payment by August 15th. Previously, farmers who had programs drawing payments under the AAA had until the latter part of December to file application.

The change is applicable only to performances completed between January 1 and August 1, Mrs. McDaniel stressed, explaining that work which is eligible for payment but is not completed until after August 1, will be scheduled for a later application period.

She repeatedly emphasized the fact that unless such applications are in the local office by the deadline, August 15, no AAA payments would be made on such performances.

New Shoe Stamp Valid August 1

The new shoe ration stamp to become valid August 1 will be Airplane Stamp No. 4 in War Ration Book No. 3, the local ration office has been advised. Airplane stamps Nos. 1, 2 and 3 are good indefinitely, OPA added.

The last stamp was validated November 1, 1944. OPA points out that the intervals between validation of stamps depends on the available supply of shoes.

Backyard Gardens Are Improving After Local Showers

Taking on a burst of growing energy after the rains of the past weekend, local backyard garden plots were looking sprightly today, sprinkled liberally with earnest and grubby gardeners armed with implements.

Many local gardeners have been enjoying radishes and lettuce for some several weeks, while some of the early birds report first pickings of cucumbers this week, in addition to fresh green beans and new potatoes. English peas have appeared on local tables for several weeks, in fact, the season on them appears to be about over.

Stricken at the roots from some yet undetermined pest, many big tomato plants in various gardens are suddenly withering and dying, despite all efforts on the parts of their owners while the plant next to them continues to grow sturdy and promise fruit within a few weeks.

The ever-popular black-eyed peas are almost ready for their first picking, while cantaloupes are reaching a size where they can be seen without a microscope as are watermelons. Peppers, okra and corn are coming along in good shape, and will enhance the family table during the coming month.

Dealers contacted early this week reported that they were selling more garden seed now than at any time this year, with many fall gardens being planted.

With market shortages of fresh vegetables, as well as shortages of points to buy them, the backyard gardens of this year assume even more importance in the balancing of the family diet.

AAA Payments Are Sought For Killing Johnson Grass

A move to get the eradication of Johnson grass included in the conservation payments of the AAA has been launched in Parmer County, it was announced today by County Agent Lee McElroy.

Johnson grass is one of the worst pests with which farmers have to contend in this area, and those behind the move consider its eradication sufficiently important to draw payments in the field and range program.

McElroy stated that numerous farmers are also reporting a good deal of bindweed on their farms, and added that, under the current setup, little help from the Triple A can be expected in the eradication program for that weed.

Dedication of Conchas Dam is Postponed

TUCUMCARI—The formal dedication of Conchas Dam and the Arch Hurley Conservancy District, scheduled for August 9, has been postponed in deference to ODT, members of the committee have announced. They also promise a bigger event when the transportation problem has been eased.

"The speeding up of troop movements and necessary utilization of all available transportation methods the next 60 days has been expedited to such an extent the ODT asked postponement of dedication plans," U. S. Devor, chairman of the general committee, explained. "We are only too happy to cooperate and believe those who so graciously consented to aid in program events will appreciate our position" he added. It was first believed the program would not interfere with government movements, as Bureau of Reclamation officials and Corps of Army Engineers dedicated the project, which will irrigate 45,000 acres of virgin land near Tucumcari.

Livestock Feeding Topic Of Tech Short Course

The various angles on profitable livestock feeding will be discussed next Wednesday and Thursday, July 25 and 26, when Texas Tech College, in Lubbock, sponsors its annual Short Course for farmers, county agents and livestock men.

Arrangements have been made to house those attending in the college dormitory, it was announced, with board and room priced at \$2.50 per day. County Agent Lee McElroy asked today that persons in this county who plan to attend contact him shortly, in order that information may be forwarded to Lubbock.

Topics to be discussed at the two-day session include "Delayed Fattening of cattle", "Feeding and Care of Dairy Bulls", "Feeding for Milk Production", "Feeding Swine Winners", "Sears-Roebuck Swine Program", "How to Keep the Soil Productive in West Texas", "Cotton Production in West Texas" and "The Grain Sorghums".

Showers for the bride originated in Holland.

Red Tape Slows Down Subsidy Payments

Mrs. Eva McDaniel, acting supervisor of the local AAA office, reported today that lack of complete records was holding the payment of beef subsidy applications to almost a complete standstill in this county.

"Beef subsidy payments are made only to those producers who have sold livestock to slaughterers approved by OPA and holding licenses" she stressed stating further that, to date only one Parmer county application could be approved.

It is also required that men who buy stock for feeding out and resale have records showing when and from whom they made the original purchase, as well as being able to include the address of the man from whom the stock was bought.

Three More Years Until Autos Are Plentiful

In an appeal to passenger car owners to conserve their automobiles, John J. Van Pelt of Lubbock, district manager of the ODT, today warned that it will be at least three years before many millions of private car owners and prospective car owners, who want new automobiles, will be able to get them.

The ODT official said this fact has "not been generally realized in the first rosy flush of enthusiasm over the limited resumption of passenger car production." Although it is expected that 240,000 passenger cars will be built this year, that number will replace less than one per cent of the nation's automobiles.

Four hundred and fifty thousand cars are scheduled for production during the first quarter of 1946 and a ceiling of 2,146,000 cars has been set on passenger car production for the period July 1945 to June 1946, he added.

"Months will elapse before the first automobile company get into production and there is no assurance that materials needed to make new cars actually will be available," it was said.

"The new car quota for the year ahead is only a drop in the bucket compared with the pent-up needs of a nation which has been losing cars to the scrap heaps at the rate of about 4,000 a day since Pearl Harbor.

"Care of present-day cars is a 'must' as none of the cars produced in the near future will go to the average driver. They'll go, instead, to doctors, police, war workers and others, and they will be short—far short—of meeting the need in these fields," the official concluded.

Resume Manufacture Of Zip Feeds Here

The Farmers Supply Company of this city, today announced resumption of the manufacture of their own products the Zip dairy and poultry feeds, after an inactive period of several months.

"We had never intended to take our line off the market," Cliff Henderson, firm manager said today, "but we were forced to discontinue their manufacture due to the manpower situation," he added.

Zip feeds were first put on the market by S. C. Hunter and W. J. Matthews several years ago, and enjoyed a good demand on the part of local dairymen and poultry raisers.

Commercial feeds have been in strong demand here the past few months, due to the seriousness of the drought.

Plains Farmers Asking Advanced Milk Price

Taking into consideration the shortage of high protein feeds, the high price of substitutes and the fact that pasture is practically unavailable, all of which factors contribute to increased cost of milk production, farmers of the entire South Plains region are banding together to request a raise in the price they receive for whole milk.

County Agent Lee McElroy stated today that surveys in the various counties will be held, comparing cost of production to income realized from the sale of whole milk, and it was hoped that in the near future statistics proving that a hike in milk prices was justifiable could be laid before officials in Washington.

The survey will include practically all of the high plains. Dairy men who are interested in further details are invited to contact McElroy at his office in Farwell.

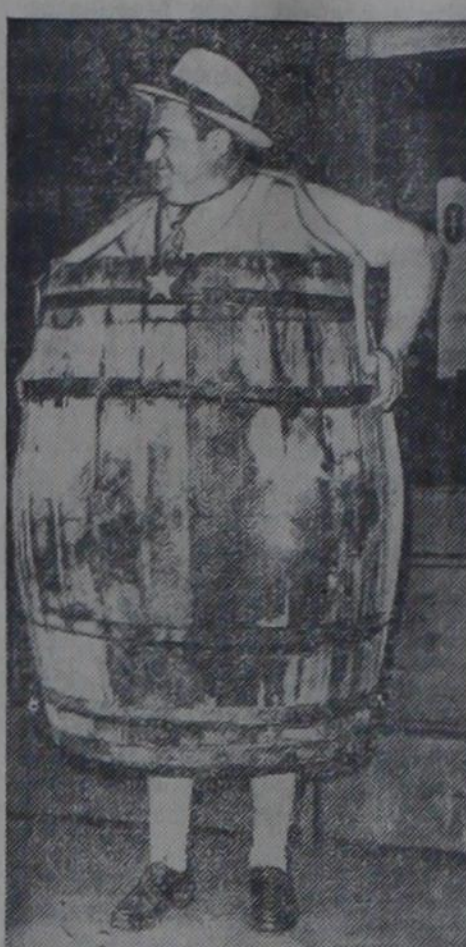

MAKING FUNERAL PLANS

J. H. Askins, cashier and vice president of the First National Bank at Melrose, New Mexico, was here Tuesday enroute to Hereford to make arrangements for the burial of his father-in-law, W. A. Noffsler, 84, who died recently in California. The funeral was scheduled to be held on Wednesday at Hereford.

Sheriff Pickets OPA

Wearing a hogshead, Sheriff Kirk S. King of Rockford, Ill., picketed the OPA office as a protest against regulations which virtually denuded him. He needs 4 1/2 yards of cloth for a suit, but OPA says that is too much cloth. OPA regulations provide that three suits must be made from 11 yards of cloth.

HUBER IN HOSPITAL

Friends in Texico reported this week that Paul Huber was rushed to a Clovis hospital, Sunday night, where he sustained an emergency operation for stomach ulcers. His condition was reported improved at the time The Tribune went to press.

Brother Home After Duty In England

Master Sergeant Glenn Fields, who served as crew chief with a ground force crew of the 8th Air Force in England for 18 months, was in Texico last week, visiting his sisters Mrs. D. J. Brown and Mrs. Travis Taylor.

Sgt. Fields, whose home is in Vici, California, was accompanied here by another sister, Mrs. C. R. Lavelle, of Jal, New Mexico.

Farm Safety Week To Begin Next Sunday

National observance of Farm Safety Week will begin next Sunday, July 22nd, County Agent Lee McElroy reminded today.

Asked if any special programs were planned in this county, McElroy answered that no arrangements had been made along that line, due to recent rains which have put the farmers to work in the fields.

"Judging from the number of accidents which came during harvest time, we certainly need to observe more safety rules on our farms," McElroy said ruefully.
