

COME TO THE FAIR... At a White House ceremony, President Truman received a scroll invitation to the Chicago railroad fair from C.A. Miller, "conductor" of the Chicago and North Western railway's replica of the famed Pioneer locomotive, and Miss Norma Sykes, typical passenger of those by-gone days. The original Pioneer, first train to run west from Chicago 100 years ago, will star in the Railroad Fair scheduled for Chicago's lake front starting July 20.

Consolidation Wins In Special Vote

Farwell Fire Insurance Rates Lowered

Topping Of Main St. Started On Tuesday

Due to the recognition of the excellent record of the Texico-Farwell Fire Department, the insurance rates in Farwell have been reduced "approximately \$1.00 on the one-thousand dollar coverage," it was revealed today by local insurance agents, who received their new rate books from the Texas Insurance Department.

The greatest reduction in rates, it was revealed, will be on residence property, while the rates on some business buildings will actually be increased slightly, one agent here said.

The new rates are effective as of April 1st, and all policies written under the old rate since that date are entitled to refunds. Complicated figures and explanations are set forth in the new fire rates, which local agents will explain to any of their policy holders.

Generally speaking, the old rate was \$.95 on an unprotected town; now Farwell, as a protected town, will have a rate of \$.77. The use of undersize pipes as water mains has been responsible for the heaviest charges on policies. This item alone has cost the policy holders \$.45, it was pointed out.

By a vote of 215 to 67, the voters of the Farwell Independent School District and the Oklahoma Independent School District consolidated the two districts in a special election held last Saturday in the two territories.

The voters of the Oklahoma district gave their approval to the merger by a vote of 98 for and 65 against, and there was only one discounting vote in the Farwell box, the vote being 127 for and one against.

Previously, the voters of Oklahoma Lane had turned down a proposal to merge that district with Bovina by a vote of 123 to 60, which reveals a total of 20 less ballots were cast in last Saturday's election than appeared on the tally sheets in the Bovina-Oklahoma balloting. Favorable planting weather was primarily blamed for the absenteeism from the polls.

The Oklahoma Lane school had not been meeting the State scholastic requirements of 150 students for some years, but had been permitted to retain its four-year high school rating. Recently, however, officials of the school had been advised that such rating would not be given the school for the ensuing school year. The consolidation move seemed to be the only solution.

Superintendent Jack Williams of the Farwell Schools said here today that many details are yet to be worked out for the coming year's work. A special joint meeting of the Farwell, West Camp and Oklahoma Lane school trustees has been called for Monday night in Farwell, with the aim of working out these matters.

Arrest of Muleshoe Youth Clears Up Four Burglaries

Officials here today announced that at least four burglaries at Muleshoe and Lariat had been cleared up by the arrest of Elbert Pollan, 26, son of E. F. Pollen of Muleshoe. Young Pollan was arraigned before Justice of the Peace Jess Newton, in Farwell Monday morning, where Justice Newton said he entered a plea of guilty to charge of burglary, and his bond was set at \$2,500. He had not finished bond when this was being written.

Pollan began his series of burglaries on May 1st, testimony at the preliminary hearing showed, when he allegedly entered the Copley Gin at Muleshoe and made away with \$53.00 in money. His next job, officers charge, was at the Lariat Elevator on the night of May 18, where he took a radio and a typewriter.

Returning to Muleshoe on May 24, his alleged raid on the King Elevator netted no loot. Then he came back to Lariat, it is charged, and entered the office of the Lariat Gin, where he got away with an inter-communication system, on the night of May 30.

Besides his burglary forays, he is alleged to have forged a check at the Electric Shoe Shop in Texico, drawing \$22.00 in cash after making a small purchase.

FORMER RESIDENT DIES

Miss Mary Hawkins, daughter of R. A. Hawkins, who formerly lived in this city, died at a state institution in Austin Sunday and was buried there the following day. The girls' mother died some years ago, after the family had moved away from Farwell, and following her mother's death she was placed in an institution.

Her brother, Earl and son, Dean, who live in Clovis, went to Austin to attend the funeral.

TO FORD MEETING

Mr. and Mrs. O. C. Sikes and Geo. Magness, of the Sikes Motor Co. went to Albuquerque early this week, where they are attending a meeting of Ford dealers. Magness will attend a special school to study transportation problems as concerns the farmers.

ATTENDS SCHOOL

Joe White of the Hardage Hudson Co., was in Amarillo Monday and Tuesday of this week, attending a special course of instruction being given to Hudson mechanics of this area.

MOTHER ILL AT MULESHOE

Mrs. Howard Lindsey is in Muleshoe this week at the bedside of her mother, Mrs. B. E. Cheney, who is confined to a hospital there with an attack of pneumonia. Mr. and Mrs. Lindsey, who formerly lived in Farwell, are now residents of Dallas, where he operates a service station.

OFF THE COB... This photograph of a sublimely hungry and happy G.I., snapped by M/Sgt. Leo H. Gillie of Wetumka, Okla., took second prize in a recent photo contest conducted by the army.

Lad Injured When He Falls From Plow

Little Jimmie Don Moss, 10-year-old son of Mr. and Mrs. Jim Moss of this city, miraculously escaped with only minor injuries last Saturday morning when he fell from a tandem disc and both section of the machine passed over his body.

The accident happened at the Fred Barker farm, southeast of Friona, where he had gone to spend the summer with his grandfather. The extent of his injuries consisted of lacerations about the left hand, head and body, none of which were serious, and one broken rib. His left ear was almost severed, and cuts about the left hand required several stitches.

The lad said he was riding the disc behind a tractor, being driven by his grandfather, when he fell off in front of the moving machine.

Asks Assistance In Texico Street Work

Mayor O. W. Francis of Texico has asked the co-operation of Texico citizens in carrying out some badly needed street work in the city.

Francis revealed today that the county commissioners of Curry County had agreed to send some county road machinery here to grade the streets in Texico, and the machines are scheduled to be in Texico today (Wednesday) or Thursday. Many of the streets are cluttered up with "everything from tin cans to combines," Francis said, and he has asked the citizens to clear the narrow pits of these obstacles so the grading machinery can operate without unnecessary delays.

The grading machines will be manned by men sent along with them, Francis said, and added "we want to show the county commissioners we appreciate this by lending our co-operation in every way possible."

Texico School Bonds Get Official O. K.

The 41,000 bond issue voted by the property owners of the Texico school district on May 12th, have been approved by the Attorney General of New Mexico, it was announced here today by Supt. B. A. Rogers of the Texico school system.

The law requires that the bonds be sold before July 1st, and Rogers expressed the belief that they would be sold at an early date.

TAKES INTERNSHIP

Jack Dunn, Jr., son of Mr. and Mrs. Jack Dunn, is here with his parents for a few weeks. Young Dunn finished his course in medicine at the Texas Medical School in Galveston in February, and has made plans to enter the Geisinger College at Danville, Pa., to begin his internship on July 1st.

After repeated delays, due to weather conditions, Avenue A in Farwell, generally referred to as main street, began receiving the final black-topping Tuesday morning with indications that the work would be completed in a short time.

Under the supervision of Special Foreman J. B. Sparks, a crew of the men with a fleet of road machinery, has been getting the seven blocks along main street in readiness for the surfacing, which will give the street a curb-to-curb finished job when completed.

Preliminary work was also begun this week on Third Street, which, when completed, will give this thoroughfare an 18-ft. slab of paving for a distance of six blocks, connecting at main street and running south.

The Texas Highway Department is bearing the expense of the main street job, after curbing and gutter-Third Street is to be borne by property owners. All of the work on Third Street is to be borne by property owners along the route and other interested citizens.

Bovina Float Winner In Pioneer Parade

By taking third place in the general group, and second place in the out-of-town group, the Bovina float, entered by the Bovina Chamber of Commerce, collected a total of \$80.00 in prize money in the parade, held last Friday in connection with the Pioneer Day celebration at Clovis.

Another Farmer County float to place in the out-of-town group was that of the Farmer County Rainbow Girls, which took fourth place for a premium of \$10.00.

The prize-winning float form Bovina was arranged by Morris Means and Freddy Hartsfield, and carried a large Texas longhorn steer, cut out lifesize from plywood, and well colored to match the pale red color of the original Texas longhorn. Naturally, the steer bore the XIT brand on the right hip.

Over the lifesize figure was the caption, "The Original Bull Town."

Aged Lady Suffers Broken Hip In Fall

Word was received here Tuesday of an unfortunate accident that had befallen Mrs. Minnie Leftwich, one of the pioneer residents of Farwell, who sustained a broken hip in a fall at the home of her son, Jimmie Leftwich, in Las Vegas, N. M.

Mrs. Leftwich, who was in her 83rd year, had been making her home with her son the past several years, where she had been provided with a small apartment. Family members said that she was alone at the time of the fall, and they expressed the belief that the accident occurred shortly after she had arisen from bed last Sunday morning.

Information here is that her condition is quite serious and little hope is held for her recovery.

With her husband, Mrs. Leftwich came to Farwell early in 1905 and she remained a resident of this city until a few years ago, when she moved to Las Vegas to make her home with her son. Mr. Leftwich passed away here about 25 years ago, and since that time she has been a widow.

Small in stature, yet big in soul, her radiant and determined spirit has been an inspiration to local residents through her long period of activity in this community.

INSTALLS BOOSTER PUMP

O. C. Pullam, owner of the local Gulf service station, recently installed a new pressure pump, which boosts water pressure for removing mud from car fenders to well over 200 pounds.

Pullam said that the new installation enabled him to do a much better and faster job for wash customers.

READ THE WANT ADS.

June 15 Deadline On Summer Fallow Aid

All producers who intend to summer-fallow cropland for payment under the Agricultural Conservation program must secure their prior approvals by June 15, Joe Camp, Farmer County ACA secretary warned here today.

Camp went on to explain that the first tillage operation must be carried out not later than June 15, and producers are required to leave a major portion of the vegetation at or near the surface. The acreage must be worked with implements that will maintain a trashy surface, and must be worked often enough to conserve available moisture and weed growth, Camp detailed.

Camp emphasized the importance of securing prior approval from the County ACA office by June 15 in order to qualify for payment.

OUT OF HOSPITAL

Hayden Cason, formerly of this city, who has been a traveling representative for a Lubbock firm the past few months, arrived here Saturday to recuperate from injuries received in an auto mishap some several days ago.

Cason, while enroute to Farwell, received scalp injuries and body bruises. He was out on his car, resulting in the machine turning over two and a half times. His scalp wounds required 34 stitches to close them up.

June 19 Deadline For Candidates To File

Democratic Chairman, G. D. Anderson today called attention to the approaching deadline for candidates for county and precinct offices to file their names with him if they are to appear on the ballot in the July election on July 24.

Anderson said that some of the men who have already announced their candidacy for public office in this county have not as yet met the requirements of the Texas Election Laws in filing their names with the county chairman. He recalled that in recent years to candidates for office have failed to meet this requirement and as a result their names could not be legally entered on the ballots.

"We hope that does not happen this year," the County Chairman added.

It is being rumored that there may be other candidates seeking nomination at the forthcoming primary election, and they, too, will be required to file with the county chairman on or before the above date.

Levy Announces For County Commissioner

T. E. Levy, present incumbent, today authorized his announcement for re-election, to the office of the County Commissioner of Precinct 3, subject to the action of the Democratic primary election on July 24th.

Mr. Levy said he was making the race for re-election on the record he had made as a public servant. Re-counting the shortages in machinery occasioned by war, and the dry weather of the past two years, Levy said that the job of a county commissioner had been an extremely difficult one in keeping the roads in good condition. He cited one instance where a road machine was tied up for 13 months waiting for repairs.

"This is just one of the many problems we have to deal with," he added.

Mr. Levy's announcement will appear in the political announcement column next week. "I have done the best I could under existing conditions and will appreciate the consideration of the voters at the polls," he stated.

Help keep Texico-Farwell clean.

Special Horse Sale Listed for June 18th

Red Foster, owner and operator of Foster's Quarterhorse Sales Barn, located a mile west of Texico on the Texico-Clovis highway, has announced a special quarterhorse sale for Friday, June 18, starting at 10 a. m.

Foster said today that A. W. Howard of Memphis, Texas, has consigned 100 head "from America's most famous blood lines," for this special sale, which is expected to attract buyers from all over the Southwest.

Art Beal of Bartlesville, Okla., will be here to act as sales manager, and Col. M. R. Meals of Memphis, Tenn., will serve as auctioneer.

The local man has recently purchased the interest of his brother of Portales in the sales barn, and hereafter the business will be operated as Foster's Quarterhorse Sales, instead of Foster Brothers.

FROM THE HOPPER

By HOP

Observing that 1948 was Bovina's 50th anniversary year, O. W. Rhinehart, former mayor of that city, says he can't figure out how a town can run down so much in that period of time.

Bill Foster, for 28 years a resident of the Oklahoma Lane community, voiced his sentiments of the consolidation election in this manner: "It's hard to take. For 28 years we have put our best efforts in building the school and community. But now that the people have decided, I am for Farwell from here on out."

City life hasn't changed Dr. V. Scott Johnson in at least one respect. A reporter observed him on the streets of Clovis on Monday, with his stethoscope hanging around his neck, exchanging jokes with a fellow citizen.

Health Notes
 By Texas Department of Health

AUSTIN—Dr. Geo. W. Cox, State Health Officer, has issued a warning to parents that this is the season for an increase in dysentery, diarrhea and "summer complaint".

"The chief cause of these intestinal diseases are contaminated milk; water or food; allowing the child to get overheated or exhausted; excessive sugar in the babies formula; and improper amount of food," Dr. Cox said. "All foods should be fresh and clean, and left-overs should be properly refrigerated to prevent spoilage."

Dr. Cox urged extreme care in the preparation of a feeding formula for infants. He said it should be prescribed by a physician, and that cleanliness and refrigeration were absolute essentials. Babies should be fed at regular intervals and on a definite schedule, since their stomach and bowels can be easily upset if fed irregularly or whenever they are fretful or restless.

The State Health Officer declared that dysentery is transmitted by flies and said every home should be well-screened and free of flies.

"If dysentery or diarrhea develop, consult your physician at once," Dr. Cox advised. "This so-called 'summer complaint' can be a very serious menace to your baby's health, if not an actual threat to his life."

SANTA FE CARLOADINGS

Santa Fe System carloadings for week ending May 29, 1948 were 28,895 compared with 26,259 for same week in 1947.

Cars received from connections totaled 10,170 compared with 10,455 for same week in 1947.

Total cars moved were 39,065 compared with 36,714 for same week in 1947.

Santa Fe handled a total of 38,524 cars in preceding week of this year.

Load the dust gun with a generous supply of sabadilla and get the squashbugs that will get the late planted squash if you don't. Hit them every five to seven days.

New springs

Ford's new "Para-Flex" Rear Springs, parallel to the frame, are extra-long, extra-strong. New "Hydra-Coil" Front Springs have shock absorbers built in.

FEMALE OF THE SPECIES AND ALL THAT... There is no doubt about it. When a woman takes it into her head to fight for her home and front sidewalk, her opponent is going to have a rough grind. Here, in Altadena, Calif., in a hole excavated by a telephone company, stands Mrs. Rose Grock, stern and unyielding. She didn't want anybody planting telephone poles in front of her house. Other Altadena housewives joined the protest and claimed that the poles would depreciate property values by at least \$1,000 a home.

Families that live by a plan will be more likely to maintain a smooth family living than those which do things in a hit-or-miss fashion.

Accidents around farm homes are often caused by leaving farm tools or implements where people stumble and fall over them.

"Where Your Business Is Appreciated"

The revolutionary new Ford four-door sedan for 1949 is lower, wider, roomier and provides nearly 25 per cent more visibility.

1949 Ford Goes On Display At Sikes Motor Co. June 18

The new 1949 Ford automobile will be on display at the Sikes Motor Co. in Farwell June 18, according to information received at the Tribune office Monday.

The 1949 Ford, which reveals a radical departure from traditional Ford styling and engineering, was made public today by the Ford Motor Company.

To develop and produce the 1949 Ford passenger cars, Ford Motor Company has expended more than \$37,400,000 in tools, dies, jigs, and fixtures.

The modern design has been molded along functional lines, resulting in a long, low sweeping silhouette. The grille is distinctive, the hood massive but shorter and the body so wide the rear fenders have been eliminated. There are clean, unbroken lines from front to rear.

Comfort has been one of the primary objectives in the new Ford. There is more room in the "lounge car" interiors than in many other cars with much larger over-all dimensions. Front seat widths have been increased six inches and the rear seat nearly eight inches. The body has been moved five inches forward with the seats cradled between the axles for a much smoother

ride. A new type of suspension system—"hydra-coil"—replaces the traditional transverse springs and the front axle. This system is centered around airplane type shock absorbers mounted within low frequency coil springs. In the rear, extra long longitudinal springs are complemented by airplane type shock absorbers.

The drive shaft tunnel has been decreased by adoption of the Hotchkiss drive and the hypoid rear axle. These engineering changes also minimized the transmission of road noises into the car.

Engine vibration has been reduced by literally floating the power plant on rubber mounts.

A new heating system available in the new Fords brings year around comfort to driver and passengers. Fresh air is scooped into the car through large intakes just behind the grille.

The system, which has an automatic temperature control, can be used as a fresh air ventilator, a fresh air heater or as a recirculating heater. Fresh air plus the pressure effect obtained by the car's forward motion reduces fogging and drafts.

Economy of operation has been increased up to 10 per cent improvement in gasoline mileage for the new

six-cylinder engine and the extensively redesigned V-8. Both are offered as power plants in all Ford models. Other engineering features result in better performance and longer engine life.

A new intake manifold has better fuel distribution. It is attached to the engine so that it is horizontal to the ground, reducing the tendency of raw gasoline to flow toward the rear cylinders and smoothing engine operation.

The new "equa-flow" cooling system contributes to good performance under extreme conditions by improving general operating efficiency. Water flows in volume the full length of the block. Temperatures in "hot spots" in the six and eight cylinder engines have been decreased by as much as 12 degrees. There are larger water pumps in the V-8.

Improvements in the ignition system also have contributed to increased economy and efficiency.

As much as 25 per cent improvement in mileage may be achieved by taking advantage of the overdrive

which is available as factory-installed optional equipment.

New standards of safety have been set in rugged construction of the chassis and body. The box-type frame is of all-welded construction. Although the frame is lighter, there is 59 per cent more rigidity when combined with the body.

Lowering the over-all height by four inches and placing the seats between the axles results in a lower center of gravity, an aid in safe driving.

The windshield has been increased in height and width and the rear window now provides "picture window" visibility for driver and passengers. The rear window is larger than the ordinary windshield. There is as much as 20 square feet of windows in the new cars.

All doors hinge at the front. Inside handles push up instead of down to open the door. Both features combine to preclude accidental opening of the doors.

Increased performance values are one of the highlights of the new cars.

Steering has been greatly improved. The new Ford may be guided by a minimum of effort even under severe wind conditions. Road shocks have been minimized. This is the result of a newly designed linkage in which the pivot point of the tie rods is on the same center line as the wheels.

Engineering changes in the engines, some of them already mentioned, contribute to smoothness of operation. These include the new cooling system, intake manifold, redesigned combustion chambers and improved crankcase ventilation system as well as other features.

The 114-inch wheelbase, convenient for parking and moving through heavy traffic, has been retained.

The new six develops 95-horsepower, providing better acceleration in passing and heavy traffic. The V-8 develops 100-horsepower.

VETERAN'S QUESTION BOX

Q—Have I any recourse to civil courts if I do not like VA's decision on my claim for disability compensation?

A—No. The law specifically pro-

vides that the decision of the Administrator of Veterans Affairs in such matters is final and conclusive.

Q—I am an ex-G-I of World War II and receive disability compensation. If I take a three hour a day job, will my compensation be discontinued?

A—So long as your disability remains compensable, it will be continued. The fact that you are employed does not bar payment of compensation if you are disabled as result of a service-connected condition.

Q—I lost the use of my legs in line of duty during World War I, and would like to know if I can get a car

from the Government? A.—Under existing law, the authority to furnish automobiles is limited to World War II veterans.

Q.—What kind of insurance is National Service Life Insurance?

A.—NSLI is mutual insurance. All premium payments go into a trust fund maintained by the Treasury Department. This money is invested in Government, interest-bearing securities. The interest accrues to the fund. The fund is known as the National Service Life Insurance Fund.

The most attractive filling station we know of is the dining room.

Bovina Happenings

Opal E. Bowen

Well, that long-awaited rain has come to Bovina, and it couldn't have fallen nicer. People are anxious to get started planting.

Mr. and Mrs. Emmet Tabor and son Don, are visiting relatives in Dallas, Texas, this week.

Mr. Byron Turner of Bovina was given treatment at the Parmer County Hospital Saturday.

Mary Leatrice Cherry of Bovina was married to D. C. Looney also of Bovina Friday evening at 7:00 o'clock in the First Baptist Church with Rev. Bruch Giles officiating at the ceremony.

Mrs. Ronald Berggren is ill at this writing.

Rev. Bruce Giles and family were Clovis shoppers Friday afternoon.

Mrs. A. G. White has returned home after being called to the bedside of her little grandson who was seriously ill but is reported some better at this time.

Mrs. H. R. Crook honored her daughter with a birthday party on June 1. Many friends attended and an enjoyable time was reported by all.

Mrs. J. H. Steelman was taken to the Parmer County Hospital Friday morning for several days treatment.

Rev. George D. York left Thursday for Panhandle, Texas, to serve as pastor there after having served one year as pastor in Bovina at the Methodist Church.

Mr. E. P. Langford spent last weekend with his niece, Mrs. J. H. Steelman and family.

Clinton Tidenberg was rushed to the Parmer County Hospital Friday afternoon after being injured by the

saw of a posthole digger, operated by a tractor. It is reported his right hand and fifth finger was badly mangled. He will probably be in the hospital several days. Clinton is the oldest son of Mr. and Mrs. Hilary Tidenberg of this city.

Dorothy Rhodes, daughter of Mr. and Mrs. T. E. Rhodes is spending the summer with her parents. She plans to return to Canyon in September where she will resume her studies at the college there.

Mrs. Aubrey Rhodes was honored with a Pink and Blue shower Friday afternoon in the American Legion Hall. A host of friends attended and gifts were received by Mrs. Rhodes after which refreshments were served to the ladies.

Mr. and Mrs. R. C. Martin and family of Mobeette, Texas have moved to Bovina. Mr. Martin has been appointed Manager of the Cicero Smith Lumber Company, the former manager, Mr. Aubrey Brock is being transferred to Littlefield.

Bovina regrets losing the Brock family, but gladly welcomes the Martin family.

William Bruce Giles, infant son of Rev. and Mrs. Bruce Giles has been on the sick list this week.

Mr. and Mrs. Amos Steelman and family and Mr. and Mrs. Von Bowen were guests in the W. A. Moore home Tuesday night. Forty-two was played and refreshments of ice cream and cake was served.

Friends of Mr. and Mrs. Jim Charles surprised them with a house warming Friday night.

Little Jimmy Don Moss of Farwell was seriously injured Saturday morning when he fell from a tractor where he was riding with his grandfather, Fred Barker, Sr.

The disc plow ran over the small eleven year old lad and his condition is reported to be good.

Dana Marlene and Betty Darlene Turner went to Roswell Saturday afternoon where they will spend the week with Mr. and Mrs. Lawrence Rhodes.

Mrs. Lawrence Rhodes spent this week with her parents, Mr. and Mrs. A. J. Moorman.

MEMBERS OF THE CHURCH OF CHRIST ENJOY PICNIC JUNE 4

On Friday evening at eight o'clock the members of the Church of Christ of Bovina met at the city park for an evening of visiting and a picnic supper, they roasted weiners, and had all the good eats that go with that kind of supper, with plenty of ice cream and cake and cookies at the finish.

During the evening, Minister Shelby Sanders, was presented with a pair of very fancy cowboy boots, by the male members. The ladies presented Mrs. Sanders with a nice dress at an earlier date. The Sanders family is moving to Gainville, Texas soon. They will be greatly missed by all their many friends at Bovina.

Those attending are as follows: Messers and Mesdames Sam Shelton, Levi Johnson, Will Parker, Bill Venable, Bryon Turner and children, Buck Ellison and Howard, A. G. White, Cecil Bunch, Condly Billingsley, and Verlin Isham and children.

Misses Betty Rose Johnson, Lula and Carrie Smith, Lonetta, Lorn and Elmer Thompson, Mrs. Lillian Mahon and Rocky, Billy Johnson, Mr. and Mrs. Arthur Moorman and children, Mr. and Mrs. Mel Gunn and the honorees, Minister and Mrs. Shelby Sanders.

Mr. Everett and a group of Boy Scouts left Bovina Saturday morning for a weeks vacation in the mountains near Albuquerque.

Mr. and Mrs. Cecil Floyd and children have moved to Friona. He will work for Bruce Parr, with his

farm irrigation plant.

Mr. and Mrs. Cecil Bunch have moved to Bovina. He is employed at Consumers Station.

The Dorcus Circle of the Methodist Church met Wednesday, June 2, with Mable Newberry after a covered dish luncheon the ladies embroidered on tea towels. The business

meeting was conducted by the president, Mrs. T. J. Hopingardner.

A Bible lesson on Queen Esther was given by Mable Newberry. Adjourned to meet the next regular meeting in July 7th with Mrs. Lewis Pesch.

CO-OP TRACTOR TIRES

CONTROLLED: QUALITY — PRICE — CONSTRUCTION

The unusual lug design of this big husky tire is what gives your tractors more pull, less waste motion. Firmly buttressed to the heavy undertread, these deep rectangular lugs are powerfully braced to give extra years of service. They bite in, they forge ahead, regardless of soil conditions.

Each lug meets the soil squarely, assuring a full bite of the tread from shoulder to shoulder.

Scientific spacing and curvature of the lugs forces mud and clay out as the wheel turns. Mud pockets don't form. You get positive traction in any type of soil.

Strong plies of powerful cord fabric give this tire the inner strength to support the massive lugs, take punishing treatment without weakening of the tire.

BOVINA NEWS
(Too Late For Last Week)

Joe Lawrence Langer of Amarillo who is working for the Amarillo Times visited his parents, Mr. and Mrs. Joe Langer the past weekend.

Mr. and Mrs. Clyde Blalocks of San Antonio are expected to arrive the first of the week for a 21 day furlough. He is still in the Army and is a nurse in the Fort Sam Houston General Hospital.

Miss Deloris Wilson is visiting this weekend in Plainview with the Morgans.

Mrs. A. G. White is visiting her son and family, Mr. and Mrs. Luvis Rhodes in Fort Sill, Oklahoma, this week. Her grandson had an operfully recovered as yet.

Several couples of the Four Square Club went to Farwell Friday evening to help the Farwell Club get started and help them see their mistakes.

Miss Sarah Marie Venable began work Monday at the Venable Grocery and Market.

Mrs. Walter Neal Westmoreland and son of Midland returned to their home Sunday after spending a week visiting her parents, Mr. and Mrs. Bill Venable.

The American Legion Aux. No. 518 Poppy sale Saturday turned out with the amount of \$56.65 with only four selling Poppies. The salesladies included Mrs. Lester Rinehart, Mrs. Elton Venable, Mrs. Earnest Woeiful and Mrs. Mabel Newberry.

BIRTHDAY SUPPER HELD MONDAY, MAY 31

A birthday supper was given for Mrs. Oscar Venable, Mrs. Chester Venable and Mrs. U. B. Wheeler, who all celebrated their birthdays on the 31st of May, and also Mrs. Elmer Venable who celebrated her birthday on June 1st. Those attending the affair in the Oscar Venable home were Mr. and Mrs. Elmer Venable and children, Mr. and Mrs. Chester Venable and family, Mr. and Mrs. Lester Venable and sons, of Farwell and Mr. and Mrs. Elton Venable and son, Mr. and Mrs. U. B. Wheeler, Mr. and Mrs. Oscar Venable and daughter, and Mrs. Homer Martin.

The lovely table was covered with freid chicken, pies, cakes, ice cream, watermelon and many other foods.

SHOWER IN TRIMBLE HOME HONORS MISS ELLIOTT

One of the nicest showers given in Bovina for sometime was held at the lovely home of Mr. and Mrs. Geo Trimble on May 20th, honoring Miss Inell Elliott who is to become the bride of Herschell Lowe of Canyon.

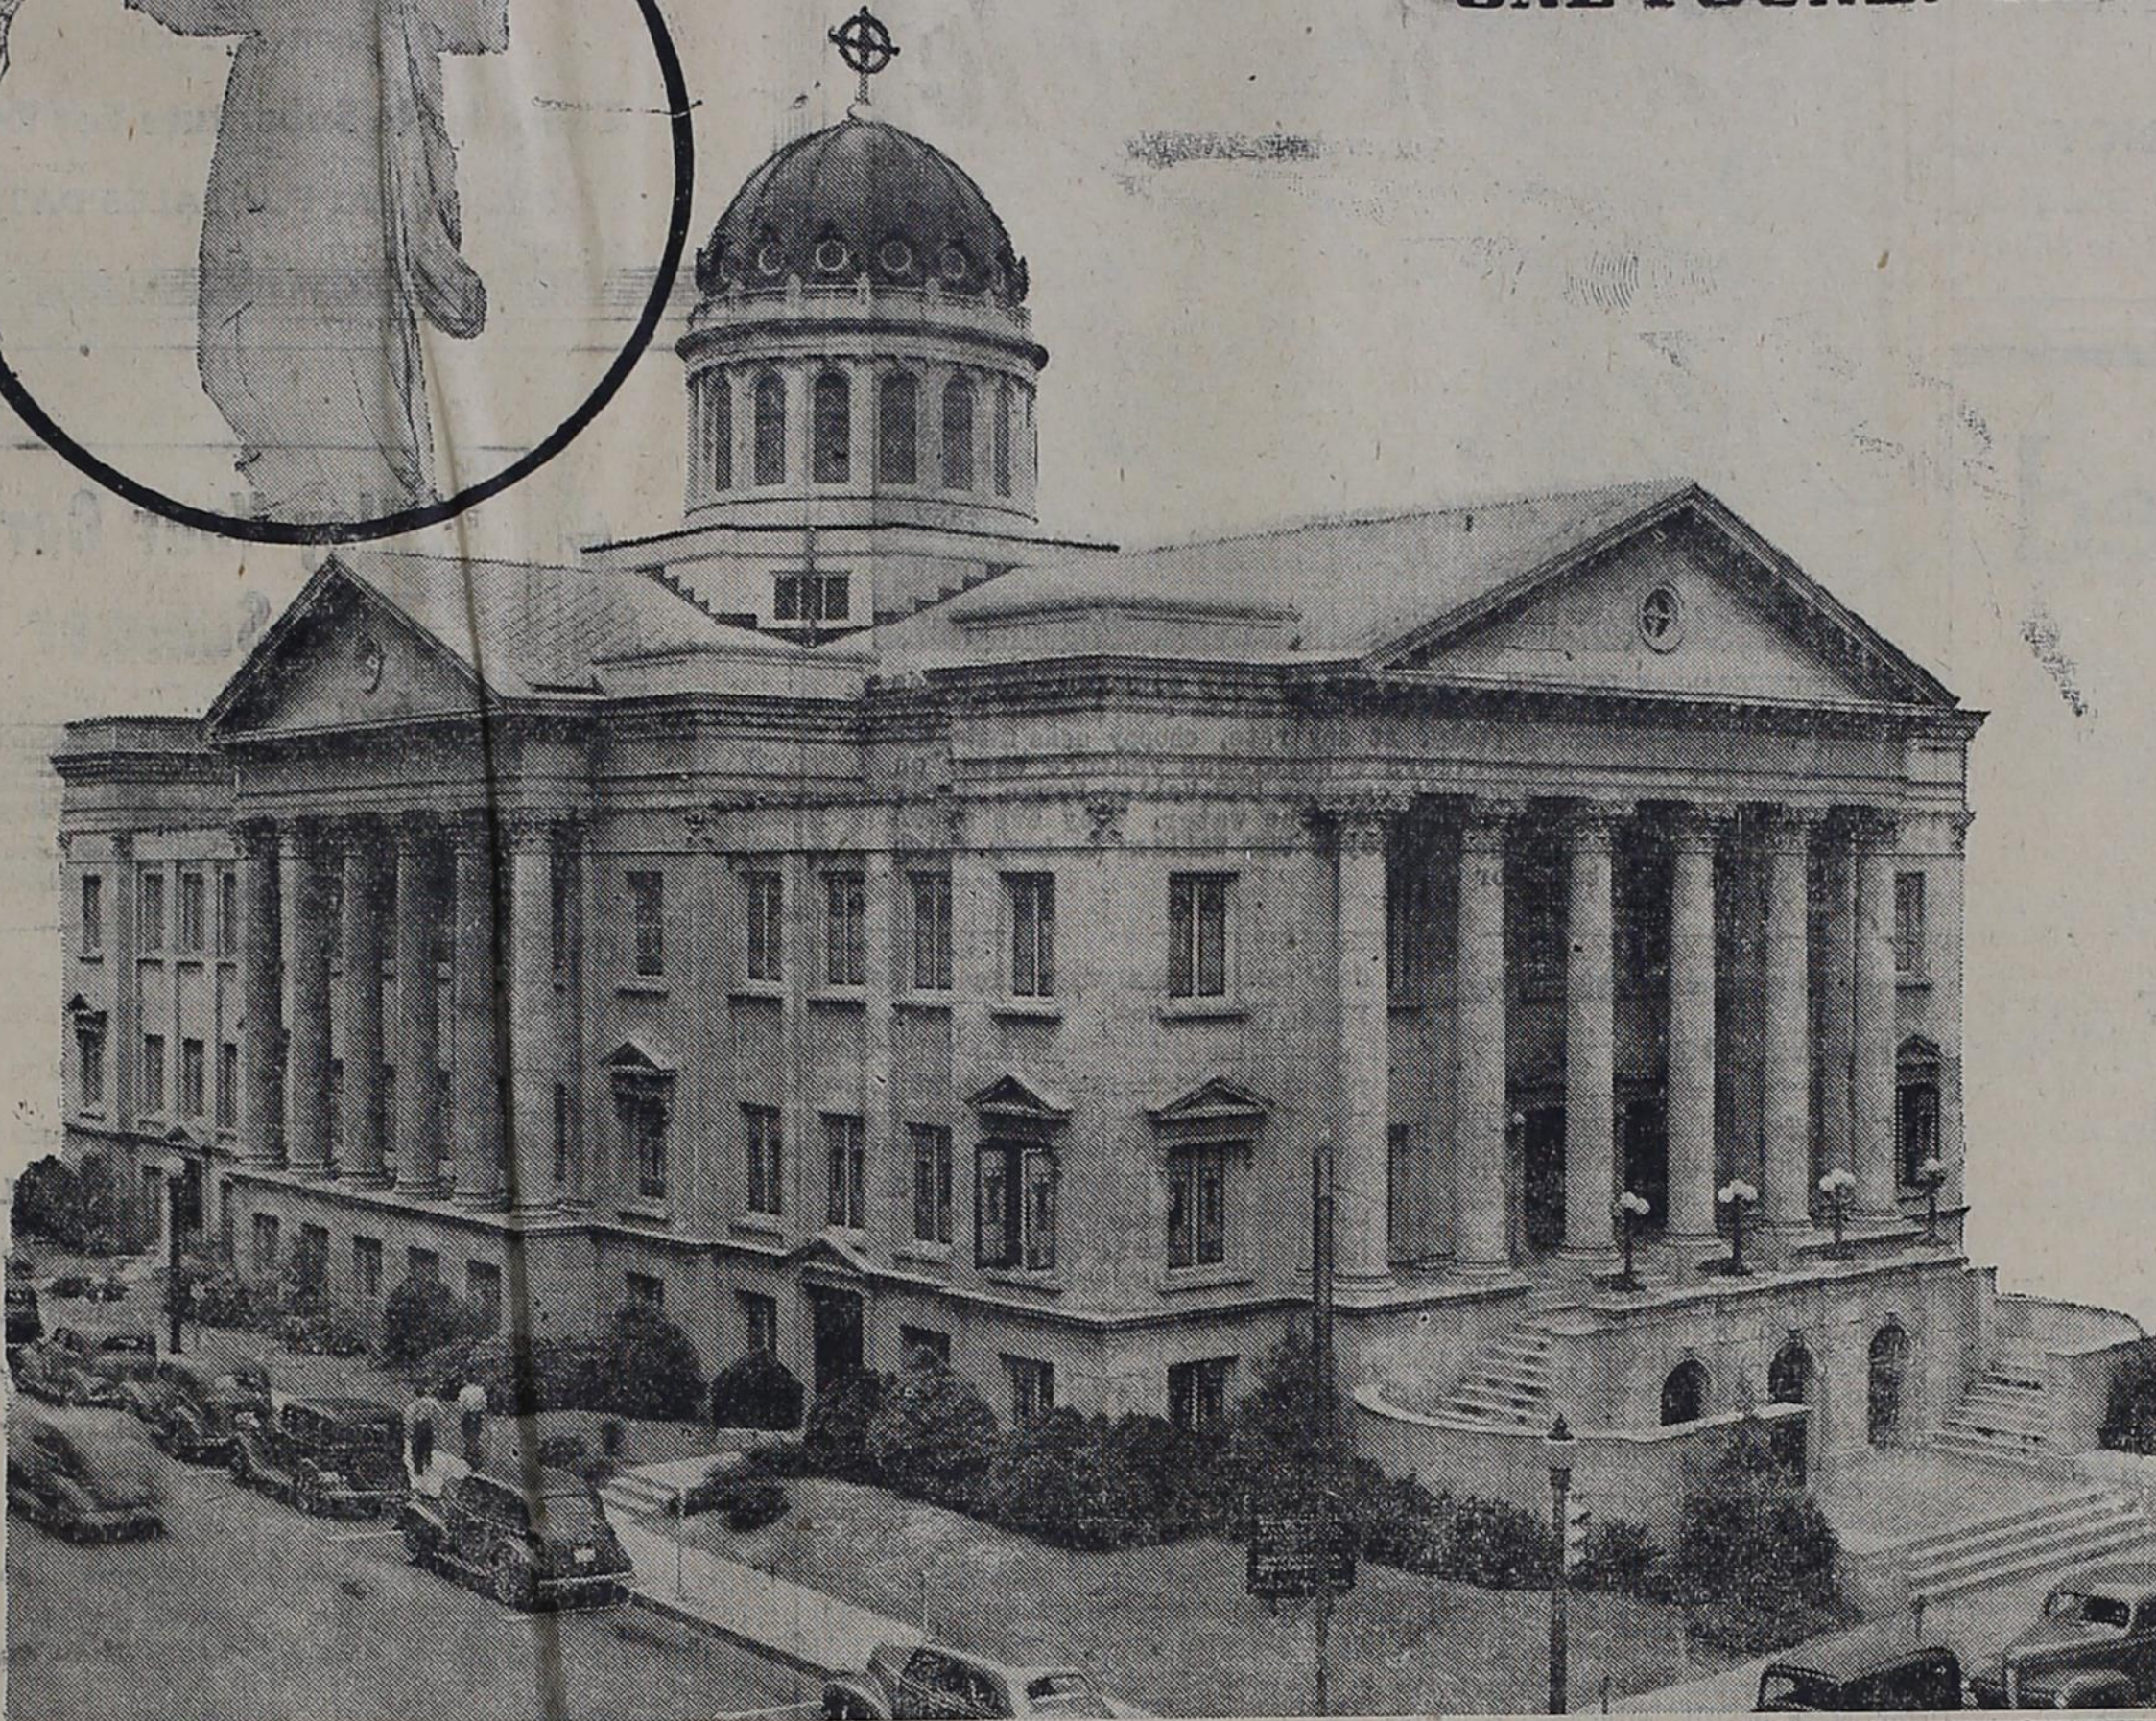

The hostess honoring Miss Elliott were Miss Loyce Trimble, Mrs. Geo Trimble, Mrs. O. W. Rinehart, Mrs. Alma Vassey and Mrs. Jack Williams of Clovis. Many nice and useful gifts were received by the honoree.

ROTC STAFF ON DUTY THROUGHOUT SUMMER

LUBBOCK.—A number of the regular staff members of the ROTC unit at Texas Technological college will remain on duty throughout the summer although the unit will not have a full-scale program, Lt. Col. L. C. Adams announces.

Colonel Adams said that the campus staff members will be available all summer for interviews with students relative to ROTC training beginning in the fall. He said students anticipating 1948-49 enrollment in Texas Tech should investigate ROTC work early since the "uncertain domestic situation" has emphasized among students the advantage of ROTC training.

THE CHURCH'S ONE FOUNDATION

Whether judged from the beauty of her steeple or the far reaching influence she exerts upon society, the church is accepted as the most influential institution on earth save maybe the home.

The church's one foundation is Jesus. She has in the past and is still serving the nations of the earth to the maximum. In her pews gather congregations of many tongues and tribes seeking an outlet for religious expression. She is a mighty bulwark in defense of all that is good.

It makes no difference whether her architectural lines be simple and her pews cheap, she is still a place where people may go and worship in a free and unrestrained manner.

Be sure to serve your church with both your time and means. Attend regularly. Your minister expects you.

**YOU IN THE CHURCH
THE CHURCH IN YOU**

Character is a by-product of the church. It is here that young and old alike are showered with benedictions that fortify and influence for a better citizenship and a stronger democracy. In the church the ministerial are molding religious character. Statesmen today declare that the church alone can furnish leadership to handle the affairs of state in these perilous times. Then we with our children should go to the church of our choice on Sunday. "You in the Church and the Church in you"—form a combination for good.

MEDITERRANEAN DUNKING. Dateline on this picture just reads 'Somewhere in the Mediterranean,' which could mean in the vicinity of Greece or Italy. At any rate, choppy seas made the rescue of three navy fliers a hazardous venture when, on maneuvers from the aircraft carrier USS Valley Forge, their torpedo-bomber crash-landed in the water. They are shown attempting to board the destroyer USS William C. Lawe which put out a small boat for them.

**Avoid Closet Disaster
This Spring**

COLLEGE STATION.—Clothes moths feed upon animal hair, fur, feathers and articles made from these materials, according to Mary Routh, extension clothing specialist of Texas A. and M. College. Woolen lint and hair, which has accumulated in floor cracks, under the quarter-round and baseboards, and other hard-to-reach places are often fertile breeding grounds. The batch of dog and cat hairs may yield a supply of moths.

After cleaning the clothes closets this spring, apply a DDT spray to the walls, woodwork, baseboards and shelves as a protection against clothes moths for the warm weather season, Miss Routh advises. Approximately one-half pint DDT spray is necessary for an average size closet. An oil spray is preferred because it

does not leave a white deposit as a water spray does.

The best DDT spray for this purpose is a residual spray, rather than one of the "aerosol bomb" or space spray type, if it is to be effective over a period of months in killing insects which come into contact with the closet surfaces. The aerosol spray is fine for killing flying insects, or those which happen to be exposed at the time, but it does not have the lasting effect because it doesn't leave a residue.

DDT solution may also be sprayed lightly on wool clothes without injuring the fabric. Too much of the solution, however, may show up in whitish traces on dark clothes, but these can be removed by brushing or dry cleaning.

DDT spraying is useful for protecting clothes hanging in closets, while the more familiar moth flakes of crystals are advised for clothes stored in tight bags, trunks or other con-

tainers where a fumigating effect is desired. Added protection may be given stored clothes by spraying them and their container with DDT.

All woolen clothing, of course, should be treated before storing in either treated closets or tight containers, says Miss Routh.

Naval Air Reservists joined forces with a veteran's association to aid starving Navajo and Hopi tribes in Arizona recently when supplies, collected by the association, were flown to the recipients by Reserve pilots attached to Naval Air Station, Los Alamitos, Calif.

**BE A CAREFUL
Pilot!**

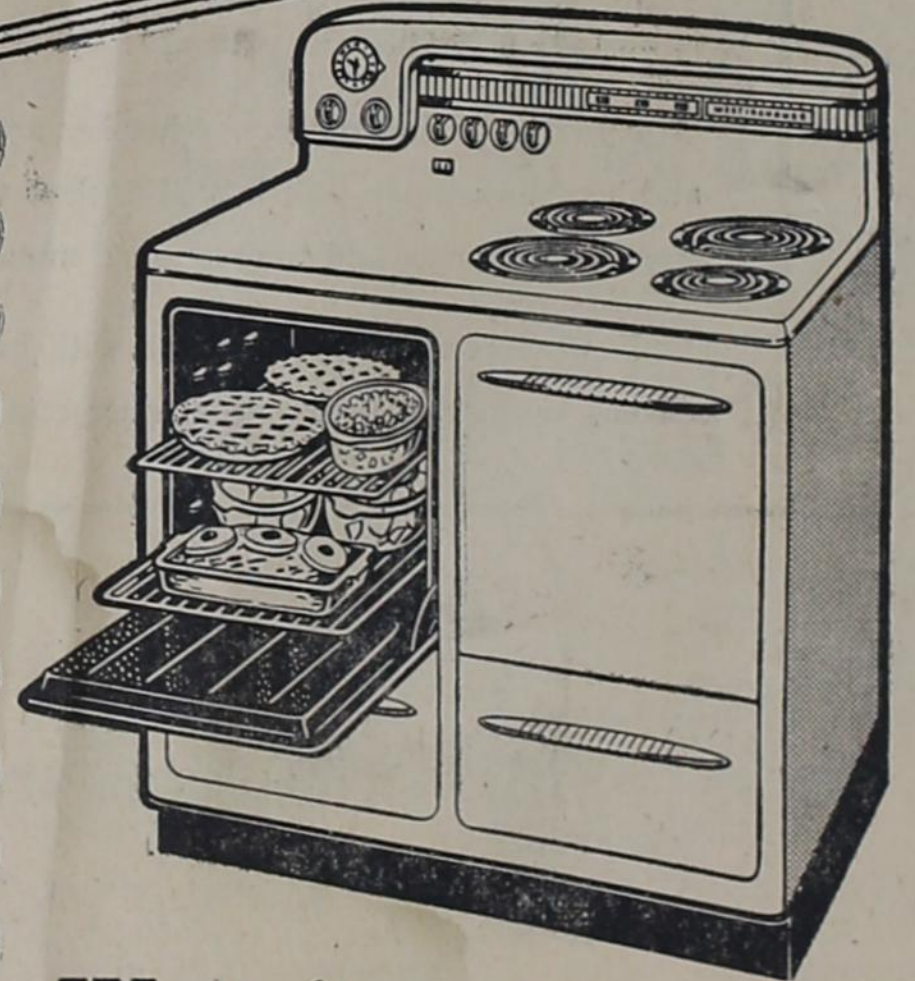

Yes, fellows (dads, too), it's fun to fly your model planes on control wires. Most of the time your wires are short enough to go under power lines. But if they don't—well, once is enough for a bad accident! The best way is never to fly ANYTHING near any kind of lines. Then you'll be sure you won't tangle with them.

By the way: If you go in for "free flight," your plane may get hung up in the lines or atop a pole some time. Don't try to rescue it yourself. Call your Public Service office for a lineman or serviceman to handle the job. When you're flying model planes, be a careful pilot—always!

WAA NEWS

A long-standing priority, that of the Reconstruction Finance Corporation, has been removed from future disposals of surplus property. Heretofore, the RFC had preference right in the purchase for resale to small business just under World War II veterans in all personal property sales and below government agencies in disposal of real property. In recent months this priority group has been active in securing camp buildings and other real property from War Assets Administration for resale. But congress' new RFC act, passed May 25, 1948, repeals this agency's authority to function in the surplus property activities. However, War Assets Administration will continue to encourage the development of small business and will maintain the present priority accorded to dealers and businessmen who are World War II veterans.

South Texas will be the scene of considerable disposal activity during the latter part of June. Two sites at Orange, Texas, will be cleared of about \$75,000 worth of surplus June 21 to June 23. Mattresses, laundry equipment, hose tubing, motors and pipe located at the Orange Naval Air Station and the Orange FPMA project will go under the high bid hammer. Veterans, dealers and the public are invited to attend the informal bidding at the naval station beginning at 10 a. m. June 23. Another disposal on the heels of this will occur at Hitchcock, Texas, June 24 and 25. Two sites, also housing \$75,000 worth of surplus, galley equipment, hospital supplies, warehouse equipment and miscellany, are the Hitchcock Naval Air Station and Camp Wallace. Bids will be taken at the navy station June 25 at 1 p. m.

Two industrial plants were moved into the ranks of private industry by disposal action this week. The Sunray Carbon Black plant, which has been operated under lease since 1944 by the Continental Carbon Company of Amarillo, was sold to that company for \$1,100,000. The government-owned toluene plant of Ponca City went to the Continental Oil Company of that Oklahoma City for \$175,000. This company plans to convert the facility to oil refining.

First two months of the WAA's new donation program witnessed a total of \$137,669.98 worth of government surplus turned over to Texan and other state educational institutions without cost. Most unique donation was 52 South American flags given to the City of New Orleans. Other items included obsolete aircraft and radio parts, telephone switchboards and about 13,000 volumes of textbooks, fiction and non-fiction books, many of which went to veteran hospitals and schools. The program is being administered by the priority claimant division of the Grand Prairie regional office.

The latter part of June, during which the WAA southwestern reg-

ion will lose more than a fourth of its present working force, will also be marked by a number of small sales of war surplus to veterans and other buyers. Because of WAA's rush to finish these disposals before it loses some of its sales people, customary advance notice to the public may not always be given. Local

newspapers, however, will be advised of the sales several days in advance. Additional information will also be furnished by contacting the WAA Customer Service Center, Grand Prairie, Texas.

Strout To Go To U. of Michigan

LUBBOCK—Dr. Alan Lang Strout, professor of English at Texas Technological College, will go to the University of Michigan, Ann Arbor, the second term of summer school to

work on the Crocker-Lockhart Letters in the University's Williams L. Clements library.

Dr. Strout is teaching the first term of summer school at Texas Tech.

Fifty six men signed the Declaration of Independence.

Prize Announced For Top Quarterhorse

A handsome saddle will go to the grand champion quarter horse in the new performance class at the meeting of the American Quarter Horse Association in connection with the Texas Cowboy Reunion here July 2, 3, and 5, Roy Arledge, chairman, said this week. Other new prizes will also be offered.

The saddle will be presented by the American Quarter Horse Association. Two performances classes are being added to the quarter horse show this year for a first time when those entered in those classes will perform under saddle. Only the finals, with four animals competing, will be shown in the arena when grand champion and reserve champion will

be named. This will probably be held on July 5, Mr. Arledge said. The same judges who judge the cutting horse contest will decide upon the winners in this new contest.

Two new halter classes have been added to the American Quarter Horse show this year, making ten in all.

These plans and others were discussed here Tuesday by Mr. Arledge and two American Quarter Horse Association officials, Raymond Hollingsworth of Amarillo, secretary, and Bob Hooper of Plainview, vice president. The Association is furnishing trophies for the grand champion stallion mare, Mr. Arledge said.

Native New Mexican Now Superintendent Of Plains Division

Stuppi has been Trainmaster at pointed Superintendent of the Santa Fe's Plains Division with headquarters at Amarillo, effective June 1, it was announced today by G. C. Jeffers, General Manager.

Stuppi has been Trainmaster at San Bernardino, California, since February, 1946.

John N. Landerth, who Stuppi succeeds at Amarillo, has been transferred to Winslow, Arizona, as superintendent of the Albuquerque Division.

Stuppi was born in Magdalena, New Mexico, and began his Santa Fe service there as a station helper June 1, 1923. He since has worked as secretary to several division superintendents, secretary to the general manager at Los Angeles, transportation inspector and has been a trainmaster since November 15, 1941.

Neubauer To Assume Duties July 10th

LUBBOCK—Capt. William C. Neubauer of Fort Monmouth, N. J., has been assigned to the Texas Technological college ROTC unit as assistant professor of military science and tactics, and will assume duties here July 10, Lt. Col. L. C. Adams has announced.

Captain Neubauer will replace Maj. John M. Goodman, assistant professor of military science and tactics and sponsor of the student Signal Corps club, who has been granted leave for graduate work toward a master's degree at Harvard University in the field of management and research.

California Man Goes To Amarillo Post

John G. Roberts, 41, of San Francisco, has been appointed Assistant General Freight Agent for the Panhandle & Santa Fe Railway at Amarillo, effective June 1, according to announcement today by H. C. Vincent, Traffic Manager.

The appointment means an addition to the freight traffic staff at Amarillo of another assistant general freight agent with especial jurisdiction over rate matters.

Roberts brings to the new position experience in transcontinental freight rates. He has been in Santa Fe employ since 1929, and has held various positions in the operating and freight traffic departments at Needles and San Francisco, California.

Roberts was born in Lamine, Mo., and educated in the schools of Booneville and Chillicothe, Mo. He is married and has one child David Roberts, 19 months old.

Now is the time to check canning equipment to see that it is ready for the canning season ahead. That little pressure gauge is a pretty important item, and should be in perfect working order.

Water makes up to 60 percent of meat, 87 percent milk, 55 percent of poultry flesh, and 65 percent of eggs.

Is Written In The Soil!

Productivity is our greatest natural resource. Because it lies within the top few inches of the surface, it is easily 'mined' . . . strip mined. Yes, we have been stripping the soil of its fertility and overlooking the fact that all industry and all life is dependent upon the very thin skin of the earth's surface.

Our unique system of free enterprise allows us untold privileges . . . and just as surely imposes obligations, the first of which is to retain and improve that system that has made America great! To achieve this aim we must give more serious attention to the welfare of our public schools, work cooperatively together to avoid the necessity for restriction, cherish more dearly our personal liberty. We must recognize sound soil conservation measures as the production boosters they are! A just but unrelenting Nature has conquered other nations that have ignored this fact. You must do your share in conserving the land on your farm for yourself—your children and your

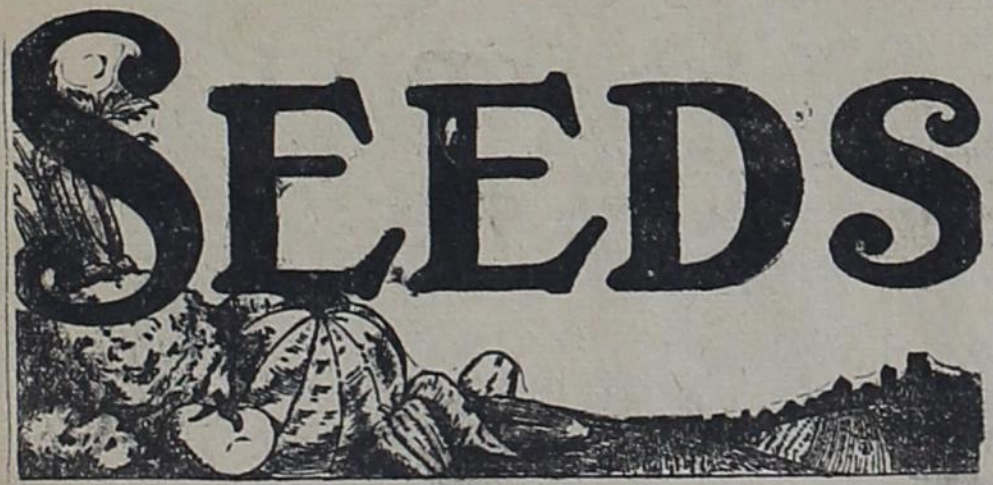

children's children.

Men who plan beyond tomorrow know that modern methods of agriculture will assure posterity of fertile, productive soil. That's why more and more progressive farmers demand MM MODERN MACHINES, TRACTORS, and POWER UNITS to put conservation plans into operation. They know that the MM trademark is the recognized symbol for quality. Modern Machines of proved dependability and economy . . . machines built to do the work with comfort and convenience . . . machines that will indelibly underwrite our economic security in the soil of the good earth. Remember that you can use your regular MM farm machinery for all soil conservation methods. We suggest that you discuss your needs with your friendly MM dealer and local soil conservation authorities.
