Foundation was set for the new post office building in Texico late last week and workmen were busy unloading brick to begin erecting the walls. The building will have an interior space of 1,700 square feet when completed and will be air-conditioned throughout. Paul Real Estate is general contractor for the building which is located on Hereford St. just west of Spur Restaurant. Completion of the building is expected by September 1, 1964. The building will be leased to the post office department for five years with one five year renewal option. Facilities at the new building should expedite mail service for postal patrons.

## O.L. Methodists Schedule Services

The Oklahoma Lane Methodist Church, Rt. 1, Farwell has completed plans for an evangelistic meeting to be held July 26 through Friday, July 31 with services to be held twice daily.

Speaker for the services will be Rev. Lyman Wood, pastor of the Wesley Methodist Church in Borger. In a letter to the church, Rev. Wood said, "The aim of every service will be to begin for someone, and to deepen for us all, the personal communion of the soul with God in Christ, which to me is the heart of the Christian religion."

The Rev. Lyndol Fletcher will be song leader for the week and will also work with youth. He is the son of Mr. and Mrs. Lynn Fletcher, Farwell and answered God's call to the ministry through the First Methodist Church in Muleshoe.

He graduated from McMurray College last spring, and will enter SMU's Perkins School of Theology this coming September.

Both of these men have participated in several meetings each year. Meeting hours will be 10:30 a.m. and 8 p.m. week days, preceded by group meetings for all age groups at 7:30 p.m. Services will be held at the regular hours on Sunday, with Sunday School at 10:00 a.m. and preaching at 11 a.m. Evening group meetings will begin at 6:15 p.m. and will be followed by worship at 7 p.m.

Methodist men will have their regular breakfast meeting at

REV. LYMAN WOOD

6 a.m., Monday July 27, with Rev. Wood as speaker. All men are urged and invited to attend

and share in the fellowship and the general public is invited and urged to attend the evangelistic services.

The meeting has been planned for the church by the Commission on Membership and Evangelism whose members are: Mrs. Grace Jones, chairman, Mrs. T. L. Kent, Mrs. Melborn Jones, Mrs. Cecil Winegeart, Rev. and Mrs. E. G. Snodgrass, Wendol Christian and the pastor and his family, Rev. and Mrs. Douglas Gossett and Warren.

## One Killed, Four Injured In Saturday Crash

In a grinding two car crash Saturday night one mile south of Willey Switch on a country road intersection at 7:30 p. m. Harvey Harold Young 34, Canyon

driver's car door. Impact of the collision carried the car off the road, hitting a telephone pole, severing it just above the ground and knocking over

a gas meter before coming to rest still headed south. The pick-up made a half turn and came to rest against the rear door of the car.

Absence of skid marks led investigating officers to believe that neither driver saw the other vehicle approaching the intersection.

Mr. Young was a brother of Mrs. Lee Capps, Farwell and an older child of the Young's was visiting in the Capps home at time of the accident. Late reports indicate that all of the injured persons are in satisfactory condition.

One person, Harvey Young, 34, Canyon was killed and four injured, one critically, in a car-pickup crash, involving these vehicles, Saturday night. The crash occurred five miles east and one south of Farwell.

## TO SCHOOLS--

# Commissioners Approve Distribution Of County Available Funds

Parmer County Commissioners approved the distribution of county available funds to Parmer County Schools at their Monday meeting with the distribution based on 2823 scholastics at \$4.57 per scholastic. The amount is determined by the Texas Education Agency.

Funds for each of the county schools were as follows: Bovina \$2604.90 based on 570 students; Farwell - \$2522.64 on 552 students; Friona - \$5858.74 on 1282 students; Lazbuddie - \$1713.75 on 375 students. Also Hereford Rural School dis-

tributed - \$137.10 on 30 students; Muleshoe - \$50.27 on 11 students and Dimmitt - \$13.71 on three students. Total amount of the distribution was \$12,901.11.

Sources of revenue for the county available fund is interest on the permanent school fund, cash and investments which is in the neighborhood of one half million dollars, most of which is invested in government bonds and county machinery warrants.

Commissioners also accepted the bid of West Texas Equipment Co. for the purchase of a catapillar motor grader for the Lazbuddie Precinct in the amount of \$12,000 plus the used motor grader which was valued at \$9,635. Total cost of the motor grader was \$21,635.

## Dinner And Game Night

Keystone Chapter 27 Order of Eastern Star is having a dinner and game night, Saturday, July 18 from 6 p.m. until 10 p.m. at the Masonic Hall in Clovis, to which the public is cordially invited.

Games offered for entertainment include bridge, canasta, forty-two and many others. Food will be cooked by Eastern Star members and is guaranteed to be good.

Tickets are selling for \$2 each and may be bought from any Eastern Star member or at the door.

## Arrested

Adan Gomez 30, of Raymondsville has been arrested by Parmer County Sheriff's officials and charged with forgery. Gomez has been given a preliminary hearing and had his bond set at \$1,000. He is still in custody awaiting action of the grand jury.

Gomez is alleged to have passed a check at the local Piggly Wiggly Store.

## Gene Dews Accept Seminole Assignment

Mr. and Mrs. Gene Dew who have been teaching in the Farwell school system for a number of years tendered their resignations last week and will

be moving to Seminole later this summer where they have accepted positions with the school.

Dew has been high school science teacher since coming to Farwell some six years ago following his graduation from Southwestern State College, Weatherford, Okla. He completed work on his master's degree last summer at Eastern New Mexico University. He will be working in the science department at Seminole.

Mrs. Dew who holds a B. A. degree has taught in the elementary school and at the present time is completing work on her master's degree. She will teach in the elementary school at Seminole.

In making the move the Dews issued the following statement, "We think the opportunities for advancement are much greater at Seminole since it is a larger school and for that reason alone we are making the move. It is with much regret that we leave our friends and associates in the Farwell School," adding, "we have enjoyed working with Mr. Roberts and all of the board members."

## Graveside Rites Held For Crume Infant

Graveside rites were conducted at Sunset Terrace Memorial Park Tuesday afternoon for Barbara Michelle, infant daughter of Mr. and Mrs. Bobby Joe Crume, who passed away Sunday shortly after birth at Clovis Memorial Hospital.

Don Tarbet, minister at the local Church of Christ officiated.

Survivors in addition to the parents are two sisters, Kathy Jo and Karen Lynn, maternal grandparents Mr. and Mrs. George Wubben, Pekin, Ill., paternal grandparents Mr. and Mrs. Joe Crume, Farwell and great grandparents Charley Crume, Farwell and Mrs. Barbara Blackburn, Pekin, Ill. also several aunts and uncles.

## H. H. Stone Is Speaker For Gospel Meeting

H. H. Stone of Woodlake, Calif., son of Mrs. Maggie Stone of Farwell will be speaker for the series of gospel meetings to begin at the local Church of Christ Sunday, July 19. Services will be conducted each Sunday at 10 a.m. and 6 p.m. and each week day at 7 a.m. and 8 p.m. through July 26.

Clifton R. Otts, song leader and educational director at the local church will direct singing during the week.

"You will enjoy the congregational singing and the plain scriptural preaching," says Don Tarbet local minister.

An area wide congregational singing will be conducted July 26, 2:30 p.m., to which the general public is invited. Several young peoples groups are expected to be present.

H. H. STONE

Also accepted was the bid of Joe Boeckman of Friona for the construction of a metal warehouse building at Oklahoma Lane for a total cost of \$5483, which was the lowest bid.

Commissioners reached a right of way agreement with C. M. Mears on Farm to Market road 2013 in the Rhea Community. He will be paid \$400, per acre for 6.9 acres plus \$1,000 damage to a channel. County Attorney Hershel Harding was authorized to proceed with a condemnation suit

against Robert Leach for his second lien interest in the Richard Vaughn property on proposed Farm to Market road 2013 in the Rhea Community.

Approved by the commissioners court was the delinquent tax report of county tax assessor-collector, Hugh Moseley and the report of the county treasurer Mabel Reynolds.

All other business was routine with bills for the past month approved for payment and minutes of the last meeting approved as read.

## Opening Dates Set For Farwell School

Opening date for the Farwell school has been set for August 31 and closing date will be May 21, 1965 announces Supt. W. M. Roberts.

Roberts also announces that Mrs. Joe Springer a 1964 graduate of ENMU has been hired to fill one of the vacancies in the elementary faculty.

Mrs. Hal Haynie has been hired to fill the vacancy created by the resignation of Mrs. Ollie Quisenberry, as lunchroom director for the school year. Mrs. Haynie and Mrs. Mildred Erwin will attend the lunchroom workshop on the campus at Texas Tech July 20-24.

Date for the budget hearing for the school has been set for the next regular meeting night of the board, August 10 and persons having questions on the budget should plan to be present at that time.

Resignations were accepted this week from Mr. and Mrs. Gene Dew who are moving to Seminole. Dew taught in the science department and Mrs. Dew taught in the elementary grades.

## Lions Take Win

Little League Lions, coached by Eddie West took a one point victory from Bovina Wheat Growers Monday night.

Going into the sixth frame the game was tied; however Lions were able to get a run across home plate and add another win to their season record.

Winning pitcher was Greg Hargrove. John Autrey attended to ditching chores for the Lions.

On Friday night Lions lost to Three-Way by a lopsided score 17-3. They will collide with Bank-Lawlis Friday (tonight) at 8 p.m. on the local diamond.

Farwell Fire Department made a run to the lot near the Methodist Church at noon on Wednesday where a grass fire was burning. Firemen let the fire burn itself out as the wind was low and the lot needed to be cleared.

On Tuesday firemen made a run to the Farwell post office where a fire had been reported. However, the only fire was trash burning in a barrel.

Attorney General Waggoner Carr, delivered the keynote address. He brought the youth group up to date on two pressing problems - school dropouts and juvenile delinquency -- and said that adult leaders need help from the other generation.

Other speakers included Bernard M. Suttler, FBI, Dr. Paul M. Stevens, director of the Southern Baptist Radio and Television Commission; Homer Garrison Jr., Department of Public Safety; Byron Tunnell, House Speaker and Judge Wright Armstrong Jr., a Fort Worth Judge.

The conference was held in Austin July 10-14.

Members of the commission are: Jack Williams, chairman, Bill Dollar, Prentice Mills, Smokey Gast, Harold Travis and Clay Henson.

Dean Stovall hit a homer in the third frame with two men on base. He was also the winning pitcher. Greg Meeks relieved Stovall during the last two innings.

Runs for the Red Tops came in the following manner: one in the first, three in the third, two in the fourth and two in the fifth frame.

Losing pitcher was Carol Foster.

Red Tops will meet Bank-Lawlis tonight (Thursday) on the local diamond at 8 p.m.

All ball fans are invited out for an evening's good entertainment, say local Little League coaches.

Art Snyder, (right) Tucumcari, Deputy District Governor of Lions International congratulates James Ussery, local Lions prexy for 1964, following installation ceremonies Monday night. Johnny Green, Texico outgoing president listens intently to the words of congratulation and offers a few words of sincere advice and congratulations. Other officers installed by Snyder were vice-president, Paul Frederick, secretary, R. S. Shuman, tall twister, Wilfred Quicquel, Lion tamer, Joe Helton, two year directors, Jerry Bradshaw and Ed Farmer, one year directors, Elmer Teel and W. M. Roberts.

## New Pastor At Methodist Church

W. C. Strickland began work as pastor of Hamlin Memorial Methodist Church this week. He arrived in town on Wednesday and will fill the pulpit at the church for the first time Sunday morning.

Rev. Strickland, who was born at Burkett, Coleman County, Texas is 30 years of age. He is married to Jean (Bunny) Hargis of Las Vegas, New Mexico and they are parents of two children, a son, Thomas Keith, three and one half, and a daughter, Diana Sue, four and one half months.

Rev. Strickland is a 1951 graduate of Burkett High School, received his B. A. degree from McMurray College in 1955 and a B. D. from SMU, Perkins School of Theology in 1958.

From September 1957-June 1, 1958 (his last year in Seminole) he was pastor of the Wesley Methodist Church in Hugo, Okla.; 1958-1961 he pastored the Valley View Methodist church in Las Cruces and he has been pastor at Lordsburg since that time.

Rev. Strickland has served two years on the staff of First Methodist church, Dallas as one of the youth ministers (1955-1957); served three years as Conference Director of Youth Work, New Mexico Annual Conference 1961-64; served three years on the Christian Board of Education, N. M. Conference 1961-64; was elected to Board of Missions, N. M. Conference at the last session in Albuquerque, 1964.

In addition Rev. Strickland has worked in 20 youth camps at Sacramento and Arrowhead Assemblies; served four years on the staff "crew" of Sacramento, 1953-57.

He will replace Rev. Robert O. Tomlinson, who has pastored the local church for the past four years. Rev. Tomlinson will move to Lordsburg where he will be pastor of the Methodist church.

REV. W. C. STRICKLAND

He also attended National Convocation of Methodist Youth as Adult Leader, 1959; attended Jurisdiction Recreation Workshop, 1959; attended Jurisdictional MYF Regional, 1962; and served two years on El Paso, District Committee on Ministerial Qualifications, 1962-64.

Rev. Strickland said in a letter received early this week, "We are looking forward to arriving in Texico-Farwell to serve the church."

He will replace Rev. Robert O. Tomlinson, who has pastored the local church for the past four years. Rev. Tomlinson will move to Lordsburg where he will be pastor of the Methodist church.

## Revival Will Begin Sunday

Revival services at the Farwell Baptist Church will get underway July 19 and will continue twice daily through July 26. Services will be held at 10 a.m. and 7:30 p.m.

Speaker for the services will be Rev. Eual Lawson, Alamogordo, N.M. who was born and reared in Oklahoma. He spent his early years in business and later attended theological seminary at Fort Worth. He has held various pastorates including, Wilson, Duncan and Marietta in Oklahoma and Alamogordo in New Mexico. He has also served on various commissions in the Southern Baptist Convention and has also assisted with Christian crusades in several foreign countries.

Song director will be Odus Walser of Plains. He is principal of the high school there and has done work at the Baptist Seminary in Ft. Worth.

The general public is invited to attend this series of services says, J. L. Bass, pastor of the local church.

## Conner Infant Rites Held

Graveside rites were conducted at Bailey County Memorial Park Cemetery Tuesday afternoon for Dina Loraine Conner, infant daughter of Mr. and Mrs. Vernon Conner, Oklahoma Lane.

The little girl was born at West Plains Hospital in Muleshoe Tuesday and lived only a short time.

Survivors are the parents, grandparents, Mr. and Mrs. R. D. Dale, Oklahoma Lane and Mr. and Mrs. Leon Conner, Spearman, great-grandparents, Mrs. Conner, Oklahoma and Mr. and Mrs. G. L. Dale, Muleshoe, a great-great grandmother, Mrs. C. R. Dale, Vernon and also numerous uncles and aunts.

## 1,800 Attend Conference

Among the 1,800 teenagers from 230 counties in Texas attending the attorney general's second Youth Conference was Johnny Actkinson, son of Mr. and Mrs. Theo Actkinson and a senior at Farwell High School.

The youngsters are sponsored to the conference by civic, church and school groups and are the outstanding teenagers in their schools and communities. Actkinson was sponsored by the local Chamber of Commerce.

Attorney General Waggoner Carr, delivered the keynote address. He brought the youth group up to date on two pressing problems - school dropouts and juvenile delinquency -- and said that adult leaders need help from the other generation.

Other speakers included Bernard M. Suttler, FBI, Dr. Paul M. Stevens, director of the Southern Baptist Radio and Television Commission; Homer Garrison Jr., Department of Public Safety; Byron Tunnell, House Speaker and Judge Wright Armstrong Jr., a Fort Worth Judge.

The conference was held in Austin July 10-14.

## Attend Funeral

Mr. and Mrs. Craig Wubben and children, Teresa, Deanna and Craig Lee; George Wubben and George Wubben Jr. all of Pekin, Ill. were in Farwell for the funeral of their niece and granddaughter, Barbara Michelle Crume, who was buried Tuesday.

## Fireworks Sale A Success

Final report from the Farwell Youth Commission indicates that the fireworks sale over the 4th of July holiday was a great success with some \$2302.76 realized as profit by the Youth group.

Money derived from the sale of the fireworks will be used to further the youth program, says Bill Dollar, reporter for the group.

## Attend Funeral

The Youth Commission wishes to thank all who bought fireworks and all of the local persons who helped assist with the operation of the stand.

Entered as second class matter at Farwell, Texas, under the act of March 3rd, 1879, Published every Thursday.

SUBSCRIPTION RATES -- Farmer and adjoining counties, \$3.00 per year; elsewhere, \$4.00 per year. Payable in advance.

**LEGAL NOTICE**  
NOTICE

Notice is hereby given to all persons concerned that the Commissioners Court of Parmer County, Texas will conduct a public auction in the regular meeting room of the Commissioners Court in the County Courthouse of Parmer County, located at Farwell, Texas, beginning at the hour of 10:00 o'clock A. M. on the 10th day of August, 1964. At such auction, it will receive and consider bids for an oil, gas and mineral lease covering the county's undivided 3/4 mineral interest in the following described property located in Gaines County, Texas, to wit:

All of Labors (or Blocks) Nos. 1, 2, 9 and 10 of League No. 317, Parmer County School Land, containing a total of 708.48 acres, more or less.

Such lease shall be for a primary term of five years, shall provide for a 1/8 royalty on oil, gas, and other minerals, shall provide for delay rentals (for the privilege of deferring the commencement of drilling operations) of a net amount of \$531.36, and shall be on a printed lease form designated and commonly known as "Texas Standard Form Pro-

ducers 88 Revised 8-61-- (With Pooling Provision)". At the conclusion of said auction, a public hearing will be held by the said Commissioners Court. Any bid or bids made and received at said public auction will be considered by the said Commissioners Court and the highest and best bid accepted; provided, however, that the said Commissioners Court reserves the right, in its judgment the bids submitted do not represent the fair value of such lease, to reject same and again give notice to call for additional bids.

Loyde A. Brewer, County Judge of Parmer County, Texas.

Published in The State Line Tribune July 17, 24 and 31, 1964.

**That tired sluggish feeling**

If your car's battery seems unwilling or unable to get your car off to a fast start on cold mornings, it may need a re-charge . . . or need replacing.

In either case your Phillips 66 Dealer is prepared to help you. He'll help you get the most out of your present battery by servicing it carefully. But if you need a new one he can supply a powerful new Phillips 66 Trop-Artic\* Battery.

In a battery it's performance that counts! You can depend on the performance of a Phillips 66 Trop-Artic Battery.

Visit Riley Bosses

Recent visitors in the home of Mr. and Mrs. Riley Boss have been Mr. and Mrs. Edgar Warren, El Paso and W. A. Bryant, Colorado Springs, a former Texico-Farwell resident. Bryant is also visiting in the home of a granddaughter Mrs. Freddie Chandler.

Edgar Warren lived here as a child and his father was manager of the Panhandle Lumber Co. in Texico for a long period of time.

Barbecue Supper Honors Three

The home of Mr. and Mrs. Melborn Jones was scene for a barbecue supper on July 11, honoring three persons, Lynn Blankenship, nine, Harold Jones, 10 and Mrs. Conda (Granny) Jones, 90, on their respective birthdays.

The evening was spent in singing favorite songs of those present. The meal consisted of barbecue, beans, salad, birthday cake and home made ice cream.

Attending were Mr. and Mrs. R. E. Blankenship, Lynn and Ruth Ann, Mr. and Mrs. Sam Billingsley, Mrs. Zula Rundell, Mr. and Mrs. Wayne Foster, Bobbie, Buddy, Jack and Ken, Gala Foster, Mrs. Johnnie Rundell, Gaye, Sherri and Tina, Mr. and Mrs. Alvin Mace and Jimmy, Mr. and Mrs. Buddy Jones, Ileta Bryant, Grace Jones, Mr. and Mrs. LaVon Jones and Kellye, Mr. and Mrs. C. C. Christian.

Also Mr. and Mrs. Wendell Christian, Lanell, Loy and Tammy, Mr. and Mrs. Harold Carpenter and Richard, Mr. and Mrs. Ray Wood, Mr. and Mrs. Troy Christian, Vick and Sharmy, Mr. and Mrs. Weldon Rundell, Gwen and William, Mr. and Mrs. Walter Kaltwasser, Pat, Vicki and Kevin, Mrs. Bertha Kaltwasser, Charles and Trummie Christian, Mr. and Mrs. Melborn Jones, Larry, Harold and Conda.

Irene Bowery, left and Cheryl Boling members of the Farwell Busy Bee 4-H Club assisted by their leader, Mrs. W. T. Magness complete work on their record books and exhibit their gathered skirts which will be modeled in the Farmer County Dress Revue to be held at Oklahoma Lane Community Center, Saturday night, July 18, 8 p.m.

Roberts Family In Colorado

Mr. and Mrs. W. M. Roberts and Charles returned Monday night from a vacation trip to Gunnison, Colo. where they joined Mr. and Mrs. Amos Tatum and Patti, and Mr. and Mrs. Bob Kidd of Bovina on a fishing trip.

The group was joined on the weekend by Mr. and Mrs. Jim Terrell, Becky and Jimmy of Garden City, Kansas, former residents of Farwell.

"The Greening Branch" On Sale

The Greening Branch, a book of poetry written by Winifred Bradley Cobb, a former English teacher in the Farwell School has recently been released by the Naylor company and placed on sale.

Mrs. Cobb who holds a B. A. and an M. A., is a native Texan now living in Clovis. Her verses have been published in a number of newspapers and have been included in two anthologies.

L. R. Vincents Have Visitors

Visitors in the home of Mr. and Mrs. L. R. Vincent last week were Mr. and Mrs. E. V. Vincent and Mr. and Mrs. Everett Davis and sons, Dalton and Vince all of Dallas.

Also Mr. and Mrs. Johnie Landis and daughters, Joanie and Sheila of Crane.

E. R. Vincent is a brother of L. R. and Mrs. Davis is a niece. Mrs. Landis is a niece of Mrs. Vincent.

Knights Of Columbus

Elect Officers For 1964-65

Officers of the Bovina-Friona Knights of Columbus Council #5624 were elected at a recent meeting of the group for the fraternal year 1964-65.

Officers serving during the year will be: Grand Knight - Don Koelzer; Deputy Grand Knight - Joe Schilling; Chancellor - George Cervantez; Recorder - Leroy Klitten; treasurer - John Baca; advocate - Ben Rejno Jr.; warden - Leon Schilling; inside guard - Angel Alemon; trustee - Leo Ruzicka.

The following were appointed: chaplain - Fr. Claver Giblin S.A., financial secretary - Mario Trevino, lecturer - Wayne Jesko, general program chairman, George Cervantez.

Six-point program chairmen are: Catholic activities - Ben Rejno Jr., council activities - Sonny Brito, fraternal activi-

ties - Pilo Castillo, membership insurance - Jesse Maufo, public relations Joe Schilling and youth - Andres Gorza.

Where is everyone? -- asks Elizabeth Taylor upon checking the swimming pool and finding no one else around -- however friend and swimming companion Diane Van Zandt appears to be content to wait and see what develops.

Visit Johnson Home

Visitors in the home of Mr. and Mrs. Russell Johnson last week were Mr. and Mrs. Bill Johnson, Teresa and Gary, Alva, Okla.

They also visited in Clovis in the home of Mr. and Mrs. F. R. Gregory, parents of Mrs. Johnson.

The Oklahomans returned to their home Saturday.

Brown Family Has Reunion

All of the children of the late Mr. and Mrs. Travis Brown along with several other relatives were in Farwell over the weekend for a family reunion. A picnic supper was held on Friday evening at the Farwell City Park for family members and guests. Informal visiting and picture taking were enjoyed by the group preceding the meal.

Family members began arriving in Farwell Thursday and last of the relatives left on Monday.

Attending were Mr. and Mrs. A. P. Lofton and Lynna and Carol Mouser all of Sacramento, Calif., Mr. and Mrs. Fuzzy Brown and Robbie, Portales, Mr. and Mrs. Joe Brown and family, Ft. Worth, Mr. and Mrs. Jess Pipkin and family, Amarillo, Mr. and Mrs. Jimmy Welch and family, Plainview,

Mr. and Mrs. Rex Carpenter and Mr. and Mrs. Max Ford and family, all of Clovis, Mr. and Mrs. Don Williams, Deana and Clay, Mr. and Mrs. Ray Ford and Butch, Mr. and Mrs. T. J. Kittrell and family all of Farwell, children and grandchildren of the Browns and Mr. and Mrs. Herman Ferguson, Burleson, Tex. Mrs. Ferguson is a sister of the late Mrs. Brown.

Marriage Licenses Issued

Three marriage licenses have been issued from the office of the Parmer County Clerk in recent days. First of the license was issued June 26 to Aljos Ramos Jr., and Sarah Castillo both of Friona.

On June 29 a license was issued to Jose Acosta Camarillo and Isabella Teresa Rodriguez also of Friona and on July 8 a license was issued to: Roberto Servantez Orozco and Delores Flores Castorina both of Muleshoe.

Mr. and Mrs. Ray Ford and Butch left Monday morning for a vacation trip to points of interest in Minnesota.

# An Ideal Vacation

Following is an account of the IDEAL VACATION on which Mr. and Mrs. John Tadlock, Farwell and Mr. and Mrs. Ellis Rogers, Clovis went as told by the Tadlocks to a reporter. Traveling by car, ferry boat and train we covered some 11,300 miles in a 30 day period

visiting points of interest in several states, Canada and into the fascinating land of Alaska, latest addition to our Union. We were most impressed with the vastness of the land through which we traveled and the beautiful scenery along the way. However, of greatest interest to

us was the devastation caused by the earthquake and the subsequent tidal wave which struck Alaska on March 27 (Good Friday). Valdez was one of the hardest hit towns we visited with the quake creating much havoc and ruin, destroying most of the

homes and much of the business district. However, the tidal wave which followed was cause of the greatest damage in this and many another Alaskan town. As one resident in Valdez put it "One minute the pier with 28 stevedores and onlookers was there, and the next it had vanished forever." A large ship tied up at the pier was broken loose by the first wave which hit and with the skill of her captain and crew, and her luck holding made it to the open sea and safety.

The residents of Valdez were reluctant to talk of the disaster—so after a short stay there we returned to Anchorage where cleaning up after the quake was much in evidence. One of the most tragic sights were apartment houses with parts broken away or hanging many feet below the level of other buildings in which people were living—since there were no other places to live.

Schools—which luckily were out for the day at time of the quake, were torn apart and the earth was cracked and had dropped away in many places for many feet. Almost unbelievable were places in which the earth had dropped some 15 or 20 feet below ground level with flowers, trees and grass still growing.

After visiting with the residents of the stricken area we could see why they are a wonderful addition to our Union.

Leaving the devastated areas we journeyed on to Fairbanks and stopped briefly at the North Pole and Santa Land—where much to our disappointment we found Santa out (it being Sunday) therefore we had to be content to send postcards to the grandchildren from this fascinating spot.

One of the quietest and most impressive spots visited was a tiny Presbyterian Church tucked away in the wilds of Alaska—near a lake surrounded by snow covered mountains. The pastor, a young man, assured us that he was sure his congregation were more impressed and humbled by the scenery which could be seen from the window directly behind the pulpit than by anything he could say. "We wondered where his congregation came from in the first place as no houses were in evidence."

Oh! how humble and small we felt before the grandeur of Mt. McKinley, second highest mountain in the world and we along with many other visitors spent hours trying to get a perfect picture of the magnificent view. However, we finally had to give up and buy a picture as the clouds were too low.

We visited many glaciers—one of which was the Mendenhall glacier which has been chipped away by the lake water through the years but which will never

melt. We also saw much wildlife including bear, moose, dall sheep, silver fox and in one place we saw the Huskie dogs being worked out.

On the return trip we stopped at Whitehorse (where all northern travelers stop to place signs bearing the names of their towns) and placed a sign bearing the inscription, CLOVIS-CATTLE CAPITAL OF THE SOUTHWEST and the names Mr. and Mrs. John Tadlock and Mr. and Mrs. Ellis Rogers.

We also visited spots of interest in Canada and made a stop at Yellowstone National Park where we saw "Old Faithful" erupt. Traveling through Idaho, which is covered with sagebrush, we saw a sign which amused us greatly bearing the words "This is not sagebrush but Idaho Clover." Farther on we noted another sign which said, "We can stamp out any bug in the world but the litterbug."

Cost for the trip was relatively small with each couple spending no more than \$700, which included gas, oil, car repairs, boat and train transportation, food, lodging and other incidental expenses. Only once in a lifetime does a family have the opportunity to make such a trip and we are glad that this was the year we were able to go to Alaska, concluded Mrs. Tadlock.

Small fry in the Twin Cities area began swimming classes at the Texico Swimming pool this week under direction of Joe Davis, pool manager. Several children, who had begun classes earlier, are completing their work this week and a new class is scheduled to begin in the near future. Pausing in their activities long enough for a picture are left to right, Diane Van Zandt, Gerald Hardage, Jimmy Norton and Elizabeth Taylor, who are members of the advanced class.

# CROPS IN GOOD SHAPE AT MID-SEASON

Parmer County's two big moneymakers, grain sorghum and cotton, are in good to excellent condition this week -- although everything isn't perfectly ideal.

This is the mid-season point for the growing season and the time when farmers begin to take inventory of their prospects for harvest.

At the mid-season mark stands are well established (it being too late for any re-planting), the insect picture is well in focus, and most of the rumble-tumble weather has blown by.

Currently, conditions are extremely dry, a three-week spell of weather even hotter and drier than most High Plains summers having just been broken by a cool front.

The hot, dry weather has had its therapeutic value for the

young cotton crop, which suffered a setback during the wet spell of late spring. Cotton has "perked up" and resumed its rapid growth pattern -- something absolutely essential on the High Plains where squeezing a good crop in between freeze dates is always a race against the clock.

As usual, one crop's meat is another crop's poison, and the grain sorghum acreage -- mostly because of its hugeness -- is hurting for water in some spots. Irrigation wells are running around the clock to make up for the deficiency, but as is always the case in time of extreme heat and dryness, farmers just haven't been able to get 100% coverage.

On the whole, moisture at this point would be welcomed by farmers, even though just a month ago they were anxious for

the clouds to "turn it off" so their cotton could come out of it and the wheat could finish out.

\*\*\*\*

County Agent Joe Van Zandt, after a tour of most county areas, says the grain sorghum crop "looks pretty good," although some aphids are showing up in scattered infestations. He points out that moisture is the critical factor at this point, and that maize that has had plenty of water isn't suffering.

Cotton is coming along "as good as could be expected," he believes, although quite a bit of the crop is late and growing off rather slowly.

"Seedling diseases have hurt a lot of our older cotton," Van Zandt says. "We have a lot of poor stands."

The county agent warns that

the High Plains have had three good years in succession with accommodating fall weather conditions, and that an early freeze, which might be mathematically "due" this year, would be very damaging to a crop slow in its growth.

"We've been getting by on our late crops, but one of these years we're going to catch up. We are battling the odds this year," he feels.

Parmer County's new glamor cash crop, sugar beets, are still doing well. Van Zandt says most farmers feel confident they can shoot for yields in the 20-25 ton range which will be profitable.

"Farmers I have talked with seem to be pretty well satisfied with sugar beets so far," the agent says.

## THE HIGH PLAINS FARM AND HOME

THURSDAY, JULY 16, 1964

F&H--1

### Beef Problems Studied At A&M Short Course

Hybrid Bermudas for beef production will be a major discussion area during the 14th annual Beef Cattle Short Course July 27-28 at Texas A&M University.

Dr. O. D. Butler, head of the A&M Animal Husbandry Department, said topics to be covered in the Bermudagrass session are establishment and production, grass composition, production in the southeastern U. S., and grazing steers and wintering weaned bulls and heifers on Coastal Bermuda.

A panel discussion of producer experiences with hybrid Bermudas will climax the talks. C. G. Scruggs of Dallas, editor of The Progressive Farmer magazine, will preside.

Bermuda speakers are E. C. Holt and H. W. Franke of Texas A&M; K. S. Eng, Gulf Coast Pasture-Beef Cattle Research Station, Angleton; W. C. McCormick, Gulf Plains Experiment Station, Georgia; and A. A. Melton, Trans-Pecos Experiment Station-Livestock Unit, Balmorhea.

Butler said another high interest subject to be explored at the conference is "Beef Importation and the American Cattleman." The speaker is Cushman S. Radebaugh of Orlando, Fla., past president of the American National Cattleman's Association.

Other subjects and speakers are "Ammoniated Rice Hulls as a Ruminant Feed" by Eng; "Rice Hulls versus Cottonseed Hulls in Fattening Rations," B. E. Conrad, Beeville Station; "Dehydrated Aquatic Plant Material for Cattle Feeding," E. K. Crouch, East Texas Pastures Investigations Station, Lufkin; and "Types and Costs of Fence Construction" by W. J. Waldrip of the Texas Experimental Ranch at Throckmorton.

Also, "Costs and Returns from Irrigated Improved Pastures," Ralph E. Peterson, area Extension farm management specialist, Weslaco; "Influences of Climate on Cattle," J. C. Bomsmo, University of Pretoria, South Africa; "Relative Importance of Carcass Characteristics upon Carcass Value," R. J. Cooper, A&M Animal Husbandry Department; and "Performance of Cattle Fed the Sam Ration at Six Locations in Texas," J. L. Kuykendall, A&M Animal Hus-

bandry Department.

Others are "Emphasis on Individuality, Pedigree, Progeny and Family in Cattle Breeding Programs," T. C. Cartwright, A&M Animal Husbandry Department; "Production Relationships and Cow Size," L. A. Maddox, Extension Service animal husbandman; and "Cattle Judging from the Functional Standpoint," Bomsmo.

Also, "Are Your Bulls Fertile?" J. T. Morrow; "Are Your Cows Bred?" A. M. Sorensen; "A Program to Increase Per Cent Calf Crop," Dale Burnett; and "Sorghum Head Silage for Fattening Calves," J. K. Riggs, all of the A&M Animal Husbandry Department.

### Beef Still A Good Buy

Beef remains a good buy, although prices have shown a slightly upward trend, says Mrs. Gwen Clyatt, Extension Service consumer marketing specialist.

Since beef prices have been abnormally low, the slight increase is not expected to make much change. Cuts from the chuck will bring consumers especially good values this week. There has been no price change in boneless or ground beef.

A slight increase also is evident in frying chicken prices, although fryers remain an excellent value. Turkey is a good buy, as are large eggs.

Plum varieties are increasing in supply, along with the quality. Prices are starting a downward trend. Semi-clingstone and clingstone peaches are available for eating purposes, as are nectarines and apricots. Watermelons and cantaloupes of good quality are available at attractive prices. Bananas, limes and lemons are good fruit choices.

Squash, green beans, okra, eggplant and corn--coming in locally--are showing improved quality at reasonable prices. Good values also are found in cucumbers, green peppers, tomatoes, cabbage and carrots. The potato market continues firm, with red potatoes running as high, if not higher, than white potatoes.

### AMMO NOTES

By Bill Bennett, Agronomist

Weeds and Plant Nutrients Everyone knows that weeds are detrimental to crop yields. They use both water and plant nutrients which could be used by the growing crops.

Some interesting figures obtained by Dr. Alan Wiese of the Bushland Experiment Station show the quantity of plant nutrients that are contained in tops of mature weeds. The figures given below are on the basis of pounds of nutrients per acre and are based on 2 plants per square foot of space.

Kochia weeds would contain 205# N, 19# P2O5 and 426# K2O. Other weeds with the quantities of nitrogen, phosphorus and potassium are as follows: crabgrass - 63-10-313; Russian thistle - 194-21-576; puncture vine - 54-6-86; buffalo bur - 100-15-119; and pigweed - 123-18-209. Compare these

quantities to a normal crop of 6000# grain sorghum which would contain about 210# N, 27# P2O5 and 80# K2O.

Seed produced by weed plants is also of interest. Dr. Wiese figured 28,500 seeds for kochia, 94,500 for crabgrass, 9,000 for Russian thistle, 1,000 for puncture vine, 8,000 for buffalo bur and 37,000 for pigweed. This points up the importance of controlling weeds before they go to seed.

THE STATE OF TEXAS	
COUNTY OF PARMER)	
Before me, the undersigned authority, on this day personally appeared Mabel Reynolds, County Treasurer of Parmer County, who being by me duly sworn, upon oath, says that the within and foregoing report is true and correct.	
Mabel Reynolds, County Treasurer.	
Sworn to and subscribed before me, this 8 day of July 1964.	
Bonnie Warren Clerk, County Court Parmer County, Texas. (SEAL) By Jane Stovall Deputy.	

Texas expects to build the second building of the Agricultural Hall of Fame and National Center, adding to First Hall which will be completed early this fall, at the Bonner Springs exit of the Kansas Turnpike near Highways US 69, US 71, US 73, and US 75. Harold H. Hogue, Dalhart farmer and Chairman of the Texas drive for the Agricultural Center, says, "The Ag Center will include a living museum and a historical library that will be an acknowledgement of yesterday, a recognition of today's progress, and a preview of tomorrow in agriculture and agribusiness."

## Controlled Atmosphere Apples Are Available

The latest puzzler for the food shopper is "C-A" apples, a product currently being advertised and promoted by the nation's food stores.

The C-A apples look and taste like any other fresh apples, and consumers may wonder about the sudden interest in this particular variety. The letters stand for "Controlled Atmosphere," and are the trademark of a commercial process, the first of several being tested, says Mrs. Gwen Clyatt, Extension Service consumer marketing specialist.

Scientists are attempting to create suspended animation by putting fruits and vegetables in

a "modified atmosphere"—the scientists' term for it—so that they will stay fresh for longer periods of time.

The theory behind the process lies in the fact that fruits and vegetables, like living things, continue to age through a normal breathing process. But changing the make-up of the air around them—mainly by reducing the amount of oxygen—can slow this aging.

Retarding of the aging process is nothing new, says Mrs. Clyatt. Homemakers and food handlers have been doing it for years by lowering the temperature with ice or commercial refrigeration.

Nor are modified atmospheres new. Experimental work dates back to 1917, but so far only apples have been stored commercially using these methods. Last year, nearly 20 per cent of the fresh apple crop was C-A stored, with some fruit held for a full year.

The process sounds simple, but the technicians have found all sorts of complications in applying them because, appearance to the contrary, an apple is not just an apple. Under modified atmosphere, varieties of the same fruit and vegetables respond differently. The same is true for those grown in different seasons, in different locations, and even with different methods of fertilizations and irrigation.

The variations have led one company to a widely diversified program, seeking a "total environmental control." This is a lengthy and expensive study, since each commodity must be tested on the basis of variety, region of production and length

of time needed to retain good shelf life.

Another commercial method is the use of liquid nitrogen to lower the oxygen content in the air. To date, there have been short term tests of this method with a variety of vegetables, but little in the way of conclusive and economical results.

With all these experiments going on, the scientists agree that the time tested method—lower temperature—is still best for most leafy vegetables. However, breakthroughs have come about in the use of liquid nitrogen in the frozen food field. Slices of tomatoes frozen in liquid nitrogen in polyethylene bags have been placed on the market by a leading frozen food processor.

Reports indicate that the tomato slices remain crisp, firm and fresh as if just picked. Consideration is being given to freezing strawberries with this flash freeze method. The use of nitrogen freezes the product in a few seconds and keeps the ice crystals small within the cell wall.

Potter's wheels used today in Iraq and western India are exactly like those used by prehistoric potters 4,000 years ago.

Lightning kills more people in the U. S. than any other natural disaster, an average of 400 dead per year.

## On The Farm In Pomer County

BY JOE VAN ZANDT  
County Agent

Don't start irrigating cotton too soon! Cotton that received a good pre-plant irrigation or has benefitted from recent rains should have enough moisture in the ground to last until the first white blooms appear. Cotton at this stage of growth should be about 60 days of age.

Watering cotton prior to this time can lead to troubles.

1. If watered too early (before white blooms appear) cotton tends to keep growing in a vegetative manner and doesn't start fruiting early.
2. Early irrigation can lower soil temperatures in the root zone of cotton plants. This encourages blights, wilts and seedling diseases. Above all, irrigation shouldn't be practiced when fields of young cotton are disease-ridden, as this tends to compound the problem.
3. Watering too early can also keep roots from penetrating deep in the soil. Especially in the tighter soils area, this can create hazards. If roots haven't penetrated deep in the soil, normally hot, dry weather of August will cause plants to become moisture-stressed. An inadequate root system means farmers won't be able to irrigate their cotton fields of ten enough at this time to keep plants adequately supplied with water.

If irrigation water is short, it might be necessary to start watering before the first white blooms appear. However, that irrigation should be timed as closely as possible to appearance of the first white blooms. Highest water requirement of cotton plants occurs at peak bloom stage. At this stage, cotton will use one-fourth to four-tenths inches per day. This compares to less than one-tenth inch per day for cotton plants from emergence to squaring stages. From white bloom to peak blooming stage, cotton plants will utilize one-tenth to one-fourth acre-inches water daily.

Several years research at South Plains Research and Extension Center, Lubbock, has shown a six-inch preplant irrigation plus two four-inch postplants gives maximum yields with top net returns in normal growing seasons. A good rain at the proper time can eliminate one of the post-plant irrigations.

**SORGHUM INSECTS**  
Aphids or plantlice have been building up in some grain sorghum fields the past couple of weeks. They certainly should be watched closely. Their damage will be noticed as a yellowish mottling on the leaves. They appear to be causing more damage on grain that is short of water as the leaf tips are burned.

Maize that has had plenty of water does not appear to have been affected by the aphids like the maize that has been short of water.

The aphid young and adult suck the plant juices. The insect is commonly found deep in the whorl of the middle leaf. If the infestation becomes heavy and is apparently holding the plant growth back you would probably want to spray for the aphids. The insecticides recommended for aphid control are as follows: A, Phosdrin at rate of 3/4 to 1 pint spray concentrate per acre with 2 pounds of toxicant per gallon; B, Endrin

The hill of Monte Testaccio near Rome consists of the fragments of an estimated 40,000,000 wine and olive oil jars.

at rate of 1 to 1/4 pint spray concentrate per acre with 1.6 pounds of toxicant per gallon; C, Parathion at rate of 1 to 1/4 pint spray concentrate per acre with 2 pounds of toxicant per gallon.

Restrictions on the use of these materials are to apply Endrin only once during the season and 35 days from harvest. Parathion is 12 days from harvest and Phosdrin is 3 days from harvest.

Guides for controlling all insects on grain and forage crops are available at the County Agents office.

### FALSE CHINCH BUGS

I believe we should be on the look out for an infestation of false chinch bugs this summer. In some wheat fields at harvest time there was a heavy infestation of these insects. They often migrate into a wide variety of crops such as grain sorghums, corn, cotton and beets.

These insects damage plants by the piercing sucking mouth

Food and Drug Administration officials last week announced plans to crack down on fats and oils labeling that suggests to the lay public that fats and oils are helping in medical treatments. The FDA "cannot tolerate promotional material which encourages the public to engage in do-it-yourself medical treatment of potentially fatal ailments," officials said.

For personal interview in your area, write: NORTH AMERICAN CLAIMS TRAINING DIVISION 666 Sherman Street, Denver, Colo., 80203

parts. So far I have not noticed any chinch bugs on the grain sorghum; however, they sometimes become a pest on maize. There has been a general infestation of these insects over most of the state this year. We definitely should keep on the look out for a build-up.

The controls for false chinch bugs on grain sorghum are: A, Phosdrin at rate of 1 to 1 1/2 pints per acre with 2 pounds of toxicant per gallon; B, Toxaphene at rate of 2 quarts per acre with 6 pounds of toxicant per gallon; C, Parathion at rate of 1 to 1 1/4 pints per acre with 2 pounds of toxicant per gallon.

Restrictions on the use of these materials on grain sorghum are for toxaphene at 2 quarts per acre do not apply within 40 days of harvest. Apply only once after heads start to form. Do not graze dairy animals or animals being fin-

ished for slaughter on treated fields; do not ensile treated forage. Parathion cannot be applied within 12 days of harvest and Phosdrin within 3 days of harvest.

The fire-drill to kindle fires was the most widely distributed fire-making device before the invention of the friction match.

The Cardiff Giant was a 12-foot stone statue of a man dug up in 1869 near Cardiff, N.Y., and widely exhibited.

# '64 4-H Talent Club Winners Named

Winners in the 1964 4-H Talent Club and Tour Award program were announced here today by Floyd Lynch, state 4-H Club leader.

Winners and their home towns are: Craig Lawrence, Perryton; Jeannette Felz, Perryton; Carl Hudson, Groom; Becky Martin, Panhandle; Phil Fletcher, Amarillo; Cindy Gruner, Canyon; Ronnie Vineyard, Kress, and Jorja Duke, Tulla. Larry Karrh, Hale Center; Sharon Baumgardner, Plainview; Smitty Smith, Stanton; Mary Alice Anderson, Eden; Jerry Gersbach, Holland; Patricia Kay Wayde, Chillum; I. E. Valenta, Hallettsville and Barbara Marie Wolle, New Braunfels.

August for one boy and one girl from each of the eight Producers Grain Corporation districts in the state.

Winners will meet in Amarillo for a send-off breakfast before departing for a one-week tour to points of interest in the state. Among places the 4-H members will visit are the Producers Grain Corporation laboratory, feed mill and main office, Amarillo and their terminal grain elevator in Lubbock; missions and Breckenridge Park in San Antonio; Corpus Christi for a chartered boat ride in the Gulf of Mexico; downtown Houston and the Houston Ship Channel District; Six Flags Over Texas and then return to Amarillo.

**FARM AND HOME BETTY AGRICULTURAL BRIEFS**

Texas farmers and ranchers received \$137.6 million during April from the sale of all crops, livestock and livestock products, reports the Texas Crop and Livestock Reporting Service. Cash receipts from all marketings were up 3 per cent from April 1963. Of the April 1964 cash receipts, \$107.0 million were from livestock and livestock products and \$30.6 million came from crops.

Isn't it strange that so many smart people work for such ignorant bosses?

## Flame Cultivation Economical, Practical

Flame cultivation, as an economical means of weed control, is one of the last steps to fully mechanize our agricultural process of raising food and fiber. The necessity of mechanical cultivation of weeds by the use of heat has been brought about by two major factors: (1) weeds, and (2) scarcity and expense of labor.

Farmers have fought weeds in one form or another since they first planted crops. One of the best ways of eliminating the weed problem is to pull it by hand. In this day and time, this type of labor is neither economical nor practical. The use of heat in agriculture has proven to be both economical and practical.

Jack H. Parks, agricultural engineer for the High Plains Research Foundation in charge of flame cultivation, reports that conditions are good at this time, following an irrigation or rain, to control weeds by using heat. Parks states that the size of the crop that is to be flamed is one of the most important items to consider. Grain sorghum should be from 8 to 10

flame cultivation can be found by using herbicides at an early stage in the growth of crops to control the weeds before the crop gets to flaming size.

Flame cultivation may not be the total answer, but at this time, it is apparent that by following recommended practices and procedures, it can be an effective and economical means of weed control.

## Dress Revues Attract 4-H Girls Who Sew

Lots of things in 4-H are fun. Girls participating in the dress revue program, for example, seem to enjoy every minute of it. They think it's fun to sew and exciting to get up before an audience and show off what they have made.

However, even games have rules, so the young fashion models must abide by rules relating to their taking part in a dress revue.

They learn to make the right choice of pattern, fabric and accessories. The garment also must be made according to the 4-H clothing construction methods and the club leader's guidance. Equally important is the manner in which the clothes are worn.

Judges of dress revues are often other 4-H Club girls who have been coached for the task. They are quick to evaluate the wearer's general appearance and her ability to model with grace and poise. The experience also helps them to improve their own wardrobes.

Last year 387,000 girls from 50 states participated in dress revues, reports the Cooperative Extension Service.

Extension clothing specialists, county home demonstration agents, club leaders and commercial stylists pool their knowledge and efforts to help the girls reach their objective: to be an attractive young woman wearing well-made clothes.

### Give Lawns Proper Management

Unnoticed weeds can invade and ruin a beautiful lawn when proper management is neglected, says Albert C. Novosad, Extension pasture specialist, Texas A&M University. A vigorous turf is the best control for weeds and weedy grasses, but when they do infest a lawn, elimination and control with chemicals or by hand becomes an important management practice.

Some chemicals available for controlling lawn weeds include disodium methylarsenate, amine methylarsenate, maphtha, endothal, silvex, and 2,4-D, reports the specialist.

Crabgrass, Dallisgrass, goosegrass, sandbur, and other summer-growing weedy grasses in Bermudagrass turf may be controlled with disodium methylarsenate or amine methylarsenate. Novosad says these materials are most effective if applied to weedy grasses in the seedling or young stages when growth is active.

Temporary browning or yellowing may occur when these materials are applied to Bermuda, but this will disappear in seven to 14 days, Novosad points out. St. Augustine is severely burned or even killed by these chemicals, but small bare spots should be covered by new growth in four to six weeks.

Weedy grasses should be mowed three to four days before treatment, adds the specialist. However, treated areas should not be mowed or watered within 48 hours after application. Retreatment or spot treatment is often necessary for good control.

### Our savers have green thumbs

When it comes to making dollars grow, our savers are real gardeners. Dollars saved with us thrive nicely on generous earnings. Put part of your pay regularly into "seed money" and watch it bloom into an impressive reserve. Why not start your bumper crop of "growth dollars" with us this week?

#### FOOD PRESERVATION

Home Demonstration club meetings this month are having demonstrations on freezing foods and anyone interested in the correct method for freezing foods are invited to attend.

A home freezer is a wonderful convenience but improper packaging of food, and use of the freezing can bring about a lower quality product, and add to the cost of owning a freezer. In spite of all the research on freezing foods and available authoritative sources of information, many people are not using methods to give the highest quality product in flavor, nutritive value, color and pleasing texture.

Packaging food to save time in meal preparation can add to the many convenient uses of the freezer also.

Length of storage is important since frozen foods undergo slow changes in storage, and will not retain its high quality indefinitely. The length of time that frozen products may keep without loss of quality depends on: 1. Proper handling before freezing. 2. Packaging material

used. 3. Storage temperature and kind of food stored (if poor product is stored it will not be improved with freezing.)

A very excellent source book, from the best authoritative source is available in my office on the second floor of the courthouse in Farwell. These are free and if anyone is interested in improving the quality of their frozen food come by and get a copy or write for a copy and the material may be mailed without charge.

#### BUYING BEEF

A three ounce serving of cooked beef chuck (bone out) provides one-third of the Protein, more than one-fourth of the iron, and nearly a fifth of niacin recommended by National Research Council as the daily allowance for a normally active 25 year old adult man.

When buying beef for the family, the U. S. Dept. of Agriculture says figure 1/4 pound per serving if there is no bone. If the cut has a little bone (say its a rump roast) you'll have to buy a pound if there is a medium amount of bone such as a blade chuck roast.

### An Adequate Breakfast Is Important

Skipping breakfast is not a good idea at any age, and is particularly harmful for youngsters and teenagers, Extension Service food and nutrition specialists say.

The human body needs re-fueling regularly, and breakfast is the meal that follows the longest-stretch of non-eating.

Research has shown that, without an adequate breakfast,

fatigue sets in earlier, irritability is increased, work output is reduced, and virtually all reaction time slows down. School children do not learn as easily, for they lack energy and sometimes become behavior problems.

Lack of time is the most frequent reason given for skipping on or skipping breakfast, says Mrs. Gwen Clyatt, Extension consumer marketing

specialist, and Extension nutritionists. This shortage of time is mostly a habit and can be corrected by revising one's schedule and getting up a few minutes earlier.

Breakfast should be a family affair. Then everyone has the advantage of a good breakfast and the young people form a habit that will stand them in good stead the remainder of their lives.

### 4-H Beef Program Brings Members More Than Cash

More than 8,600 Texas 4-H Club members completing a beef animal project are analyzing records, evaluating the year's work and making plans to show their prize livestock at county fairs.

There is a saying in 4-H that "blue ribbon animals make blue ribbon boys and girls." This is especially true in the beef program. Besides cash, the participants derive lasting benefits.

The National 4-H Service Committee in its current bulletin on the beef awards program prepared in conjunction with the Cooperative Extension Service, states:

"Through judging, demonstrations and showmanship events you will sharpen your skills, learn to justify your decisions, develop leadership and attitudes helpful in adult life."

While these are broad objectives of the national beef awards program sponsored by E. I. du Pont de Nemours & Company, there are other distinct realms of learning open to 4-H youth.

Ten major areas of animal science are pursued in the course of completing a beef project. They include anatomy, biology, economics, genetics, mathematics and nutrition.

The young Lone Star stagers are assisted in their work by county agricultural extension agents and local 4-H Club leaders. Frequently local veterinarians, feeders and breeders offer guidance and useful information.

Awards await members whose projects are outstanding. Du Pont provides a trip to the National 4-H Club Congress for the 1964 state winner, and medals for county winners.

The 1964 Texas state winner will be judged along with 47 other state winners for one of six \$500 beef scholarships to be presented during the congress held in Chicago the week following Thanksgiving.

To be eligible for state or national awards, 4-H members must be over 14 years of age and have completed at least

three years of club work. The Extension Service supervises the program and names the winners.

Boys and girls thinking about starting a beef project in 1965 should see the county agricultural agent or a local club leader.

Marketing research was transferred from the U. S. Department of Agriculture's Agricultural Marketing Service to its Agricultural Research Service. Better overall research organization is expected as a result of the transfer.
