DENIM MANUFACTURING OPERATIONS TO BEGIN IN SPRING OF '76

The cotton, of which about 60,000 bales will be used each year, will be obtained from the participating gins and its earning will be distributed

to growers who have agreed to market their cotton through a cooperative textile program.

"It is expected that

earnings from the proposed mill will increase and stabilize the income of growers who patronize the new system. Denim has continued in good demand

during recent months even though the prices for cotton are reflecting substantial reductions below prices on last year's crop.

As in the case of many other agricultural products, prices of cotton fabrics tend to be more stable than prices of cotton," stated officials of the Cooperatives.

Funds for the project will be provided by the participating gins and by Plains Cooperative Oil Mill, Farmers Cooperative Compress and Plains Cotton Cooperative Association, all of Lubbock, and other participating cotton gins with formal release that the plant would locate in Littlefield, Texas!"

Cotton marketed through the cooperative textile program in excess of the cotton requirements of the mill will be marketed by Plains Cotton Cooperative Association. Cotton producers who join the program through one of the participating gins, will receive their pro-rata share of the earnings from both fabric and cotton sales.

L. C. Unfred, president of Plains Cotton Cooperative Association, reports that the new plant is expected to begin manufacturing operations in the spring of 1976.

Final plans for the mill are now being developed by a committee of growers comprised of the PCCA directors from the gins which will participate in the new venture.

This committee is expected to present its recommendations to the Board of Directors of PCCA in March, and construction of the facility is expected to begin soon after.

locate in Littlefield. The plant, when completed, will employ 380 people and will use approximately 60,000 bales of cotton each year in the manufacturing of denim. (Staff Photo)

Wade Warren Littlefield and Lamb County grabbed "the ring the merry-go-round" for the location of the \$30,000,000 spinning mill being backed by Plains Cooperative Oil Mill, Farmers Cooperative Compress and Plains Cotton Cooperative Association, all of Lubbock, and other participating cotton gins with formal release that the plant would locate in Littlefield, Texas!"

The much-hoped-for announcement was officially made at the Littlefield Chamber of Commerce and Agriculture Banquet Saturday night by officials of the Cooperatives.

The announcement delighted many, many hours of work by a large number of Littlefield leaders, Chamber of Commerce officials and members, city and county officials and citizens of Littlefield and Lamb County.

The textile manufacturing plant, which is expected to employ 380 people when completed, will be built on a 100-acre tract northeast of Littlefield on the Spade Highway near the present location of the Littlefield Sewer Treatment Plant. An aerial photo on page 2 shows the spinning mill will cover seven acres and will be one-fourth mile long. Raw cotton entering the end of the building and being shipped from the other end.

Councilmen Discuss Mobile Home Ordinance

The Littlefield city councilmen met Thursday night for their regular meeting, when six items of business were discussed. Most of the time for the meeting was a discussion on the new mobile home and mobile home ordinance. Councilmen discussed portions of the ordinance, and recommendations for changes or amendments, then suggested that minimum dimensions be decided for mobile homes in the ordinance. A 13-page document deals mainly with regulations for mobile home parks, one section, which is composed of several paragraphs, dealing with the use of mobile homes outside of mobile home parks. Councilmen will again discuss the ordinance at a future meeting before it is passed.

In new business matters, Johnny Reber, an engineer with Southwestern Public Service Co., was appointed to the Board of Electrical Examiners. The action was an up-date to an ordinance the city passed in the early '50s.

Councilmen approved an update of the Oil Well Drilling Block Map, with several blocks around the perimeter of Littlefield added to the map.

After discussing the free camp site, councilmen decided to eliminate abuse of the park, and limit the area for vacation travelers only—not for persons to use for business purposes—and to limit the stay for seven days. Councilmen recommended that the notice be posted at the site, and inform those parking there of the rules. The city also reserved eviction and tow-away rights to abusers.

Councilmen passed a resolution authorizing Mayor Chisholm to sign a contract with the Griffin Estate for use of sewage effluent from the city effluent lake, for a period ending June 11, 1982, with the city reserving the right to allocate such effluent to its own and to industrial needs and uses as it deems necessary.

On the last item of new business, councilmen authorized City Manager

Jim Blagg to file a pre-application in behalf of the city for a \$158,750 grant directed to the Department of Housing and Urban Development (HUD), to be used by the city in continuing and improving its delapidated housing program and extending its existing water and sewer to accommodate industrial needs and development.

If the pre-application is approved by March 20, the full application for the grant would be filed by May 18.

Show Champs Named

Six Lamb County 4-H'ers walked away with the top trophies Friday during the annual Littlefield Area Junior Livestock Show and Sale for 4-H'ers and FFA

members from Amherst, Spade, Sudan and Littlefield.

Judging was precise, and anxious youngsters exhibited their animals in the best of fashion for this year's show judge, Jim McManigal of the animal science department of West Texas State University.

This year's show began Thursday morning with the livestock entries and that afternoon with the weigh-in.

Friday's program began with the grand opening of the show after noon, followed shortly with the judging of the sheep. Swine and steers were judged after that.

The auction sale for the animals was to have begun Saturday afternoon, and results of the sale were not available. See STOCK SHOW, Page 4. See Other Photos Inside.

Cattlemen To Organize At Olton

A meeting of the Independent Cattlemen's Association will be conducted in Olton Tuesday night at 8, Feb. 25, in the Community Center.

Marvin Sartin, agricultural economist with the Texas Agricultural Extension Service of Lubbock, will be the featured speaker.

James Blackwell, president of the Lamb County chapter, will preside for the business meeting when directors from the Olton area will be elected.

Blackwell emphasized, "Women are welcome, as the CowBelles will be meeting in conjunction with this meeting."

Reports will be presented from news letters from the Independent Cattlemen's Association.

A carpool is being formed for attending the meeting, and anyone interested is asked to contact Blackwell, 385-3073.

Doc Miller Given State Recognition

W. E. "Doc" Miller of the Springlake-Olton area was honored with the "Distinguished Service Award" at the 23rd joint annual meeting of the Texas Federation of Cooperatives, Houston Bank for Cooperatives and the Texas Cooperative Ginners Association in Dallas last week.

Miller has been farming and ranching near Olton since 1930, and grows cotton, soybeans, grain sorghum, wheat and Hereford cattle.

He has been president and vice president of the Plains Cooperative Oil Mill (PCOM) and is a director and member of the mill's executive committee.

A member of the Lamb County Agricultural Stabilization and Conservation Service Committee since 1960, Miller recently was reelected to a three-year ASCS term.

He is a trustee of the Plains Research Foundation at Halfway, has been a member and director of the Farmers Cooperative of the Farmers Cooperative Association of Springlake since 1952, and is a member of the Olton Grain Cooperative and Dimmitt Agri-Industries.

Miller is an alternate board member of the National Cotton Council and is on the board of Cotton, Inc. He is active in the Olton Chamber of Commerce, a director of the Texas Federation of Cooperatives, and helped to organize the Plains Cotton Cooperative Association and Growers Seed Association.

He is a deacon of the First Baptist Church of Olton and is a Sunday school teacher for a class of 10-year-old boys.

James Bolen, John Despre Join School Board Race

Two more residents in the Littlefield school district have placed their names on the ballot for school board trustee in the April 5 election.

James Bolen filed in the school tax assessor's office about noon Thursday.

Bolene was born and grew up in the Bula community and moved to Littlefield two and one-half years ago.

He is employed by Littlefield Butanc.

Bolene and his wife Sandra have two school-aged children, Jimmy is 14 and an eighth grader, and Tommy is 13 and a seventh grader.

Thursday afternoon John L. Despre Sr. signed for placement on the ballot. Despre is 36 and a city policeman with the city of Littlefield for one year.

He and his wife Kay have three children, John Jr. 14 and a seventh grader, Scott, 12 and a seventh grader, and Colleen, 11 and in the sixth. They have a foster child, Bruce Carkin, who is a student at Littlefield High School.

Despre is a graduate of Woodstock Academy in Massachusetts and attended Mount Wachusett Community College. In his law enforcement work he completed 240 hours in basic law enforcement school and a fraud seminar and penal code school.

Thus far, Bolen and Despre make seven persons running for three expiring terms.

Trustees whose terms are expiring this year are Mickey Ratliff, David Hampton and Werner Birkelbach.

Birkelbach who has been a school board member for nine years said he does not intend to run for re-election since he no longer has children in school.

David Hampton and Micky Ratliff said they will announce their plans at a later date.

Earlier this week Jay Bridwell announced his candidacy.

Bridwell, Bolen and Despre are opposed by two black opponents who were the first to announce their candidacy. Mrs. Carolyn Hodge and Rev. Cass Tisdale signed up last week.

To be eligible to apply for a candidate for school trustee a person must be a qualified voter and a resident for six months.

According to Article 1.05 a candidate for any public office which is less than statewide shall have been a resident for six months next preceding such date in the political subdivision for which the office is to be filled.

The last day for candidates to sign for election as a trustee is March 5 at 5 p.m.

Daylight Time Back Again!

Well, it's back to daylight saving time again!

Today, residents wake up to a new time (or should we say OLD time?)

The nation returned to Daylight Saving Time at 2 this morning—two months earlier than usual because of the 1973 emergency around DST act.

So, if you didn't move your clocks forward an hour last night when you retired, then you're already an hour late.

Eye Screening Workshop Amherst Monday

Floyd Prentice, president of the Plains Area P-TA Council, announced that interested persons are invited to attend a two-day training workshop in Amherst Monday and Tuesday.

The workshop will train persons for the eye screening team to diagnose amblyopia or "lazy eye" in children before they are six years old.

Mrs. Travis Smith of Abilene will be the instructor.

Three persons are needed for the team, and a minimum of three teams is being sought.

In connection with the Texas Auxiliary for the Prevention of Blindness, Inc., this project is sponsored by the South Plains P-TA Council, which includes Lamb, Bailey and a portion of Hockley Counties.

The teams are required to have eight hours' instruction and give a screening test without charge.

The South Plains P-TA Council requests that some organization in Littlefield become a permanent sponsor of this program.

For further information contact Mrs. Floyd Prentice at Olton, 285-2984.

Girl Scout Cookie Sale Now Underway

GIRL SCOUTS in Troop 37 take inventory of their five kinds of cookies and one cracker they'll be selling this year. They join Girl Scouts of the Caprock Council who began their annual cookie sale Friday afternoon. The little sales ladies will be wearing their Girl Scout uniforms or pins. (Staff Photo)

Girl Scouts and Brownies began their annual cookie sale Friday afternoon and will continue selling until March 8th.

There are six different varieties this year, with the addition of a sesame crisp.

The cookies are provided for Girl Scouts by the Bury Division of the Quaker Oats Company.

Due to the increase in the cost of sugar and other ingredients, the cookies have increased in price from \$1 a box to \$1.25 a box. The individual troops get to keep 15 cents of this and the remainder goes to the upkeep of the Camp at Rio Blanco and other girl scout facilities.

Girls selling 24 boxes receive a certificate, those selling 72 boxes get a cookie patch, and those selling 180 boxes receive a campership to camp Rio Blanco.

"The enormous success of the sale last year is a good indication of the quality of the cookies and the eagerness of the girls to participate in the Girl Scout program," said Mrs. Herbert Sawyer, cookie chairman. "The leaders and girls participating in the program would like to encourage people to again buy and enjoy the cookies while your money works for a worthwhile program," she concluded.

To The EDITOR

Dear Sir:

I am a member of the Sudan Baptist Youth.

We are planning a couple of trips this summer and were doing some things to raise money. One is recycling paper, and such as newspaper.

We were wondering if you would let us have any leftover newspaper or anything like that. We would pick it up as often as you like.

Sincerely Yours,

(EDITOR'S NOTE: We have promised papers to a group of youth at Parkview Baptist Church of Littlefield.)

An Open Letter to Representative Clayton,

Objectively studying over both sides of the Equal Rights Amendment, we have come to the belief that E.R.A. will wipe out all distinctions between the sexes.

E.R.A., if passed by the thirty-eight states, will come into full effect after two years. Therefore, if we see any changes in state laws now being made to conform to federal E.R.A., it is only the tip of the iceberg. Another point is that it will take away much freedom of choice for women in general.

Now please study over the concept of women (18 years of age) subject to the draft and combat duty. The position of both the Justice Department and the Defense Department is that women will be subject to the draft under E.R.A. (The Congressional Record, March 22, 1972). Representative F.E. Herbert, Chairman of the U.S. House Armed Services predicts that the draft will be

reinstated within three years. Yale Law Journal (April, 1971) also admits under E.R.A. males and females will be subject to the draft and combat duty. W.A.C.'s at Ft. McClellan, Alabama are now being trained for combat.

Please study over abortion on demand by E.R.A. supporters. States at present are allowed to regulate or prohibit abortions. Under E.R.A. every state's anti-abortion law would be illegal (former Dean Clarence Manion, Notre Dame Law School). Also note Professor Joseph Witherspoon, along with thirty constitutional law scholars, "It is the hope of the abortionists that E.R.A. will put into the Constitution what they now have only by a split Supreme Ct. decision."

Representative Clayton, please be open to careful evidences, documentations, and research from U.S. (not Texas) Constitutional law scholars on the effects of E.R.A. two years from now.

We appreciate the White House, but Mrs. Ford has no business calling long distance to state legislators in North Dakota to promote E.R.A. (passed only by three votes— source, U.P.I. and A.P.I.). Taxpayers, more than likely, pick up these long distance calls from Mrs. Ford. The Texas state legislators need to listen 101 percent to us in Texas, and kindly not to the White House because of a few very vocal persons.

As God is my witness, more and more folks do not want E.R.A. at all when they take the opportunity to hear and examine first hand, objectively both sides. Vote to repeal E.R.A., Rep. Clayton. We thank you kindly.

4-H's Fed Co-operatively In Early-Day Cattle Projects

By BILL ADAMS
Chamber of Commerce

County 4-H Club members may have been the first in Lamb County to do commission cattle feeding similar to what is now done at most of the large cattle feed yards. Except then, it was called "feeding co-operatively," and the date was 1933.

Just as the hyphen has now been dropped in contemporary usage of the word, "cooperative," cattle feeding operations have also changed.

The first large scale feed yard on the South Plains was built at Sudan in 1951. With the pains of the Depression about them, could those youngsters have imagined seeing a feed yard with over 100,000 head!

Their efforts and the countless other efforts and sacrifices are part of the heritage represented in the "Littlefield Commemorative Medals." The medals depict George W. Littlefield on one side and the Halsell Ranch on the other. Just as a photo of the Alamo cannot tell the whole story of Texas Independence, neither can two sides of a medal. People provide the stories, and this is one of the 1933 stories.

A clipping from the Jan. 15, 1933 "Farm and Ranch" magazine sent by Mrs. Homer J. Ellis of Tyler to the Littlefield Chamber of Commerce and Agriculture tells the story, and this is a reprint.

4-H Club Members
Feed Co-operatively

Thirty-nine 4-H club boys and girls of Lamb County are feeding 94 calves co-operatively. These calves were selected from the Mashed "O" herd by L.D. Gaither, foreman of the ranch, and G. W. Barnes, beef cattle specialist of the

A&M College; and D. A. Adam, county agent.

They weighed an average of 456 1/2 pounds when weighed out to the clubbers on Sept. 8, and will be fed until March 25.

Feeding club calves on a co-operative basis was made possible by Ewing Halsell, manager of the Halsell Cattle Company. A liberal agreement was entered into between the 4-H club feeders and the owner of the calves. This agreement provides in part that the owner of the cattle upon the consideration of \$1 from each 4-H club member who does the feeding, will deliver feeder calves to the feeder at the loading chute at Spring Lake headquarters. He will pay all freight and handling charges from feeders shipping point to final market on the original weight of the cattle and reserve the right to designate the final marketing point, sales agency and time for marketing the calves. The owner also agrees to pay the feeder for the number of pounds of net gain at whatever price per pound the calves sell for at terminal market, the cattle to remain in the original owner's name.

The feeder agrees to furnish water, suitable feed yards, and all feeding facilities, and agrees to pay the freight on the net gain which is to be determined by the difference between the original weights at feeder station and final weights at the terminal market. The feeder also agrees to furnish suitable feeds, labor and all veterinary expense during the period of the agreement, and to assume all losses by faulty feeding and improper feeding.

The following clubs of Lamb county have boys and girls feeding: Olton, Littlefield, Hart Camp, Spade, Amherst, Sudan and Spring Lake.

THE ECONOMY IS on the upturn. I have that information from two different sources. First being the US News and World Report, second being Turn Row, himself.

That is the kind of reading I like to do.— Makes me feel better, all over, more than anywhere else. When we begin to think positive, we're on the road to recovery.

I only lack one little detail having the whole situation worked out. Gettin' my take-home to keep pace with my paid-outs!

KEEP WONDERING if we'd have a more balanced sports program, for our school kids, had we never won a state championship in football.

We DID have a basketball team this year, but they finished so far down in the cellar that Gas-lamps were issued as part of their equipment.— In spite of this, they never seemed to give up. They kept trying and hustling. You have to admire them for that!

THERE WAS SOME pretty good talent that didn't try out for the team, simply because of the lack of interest. Had they had the support and encouragement of our community, the story may have been different.

Since I had a young'un on the team (his first year to try, even though he is a senior) we tried to make most of the games.

IT WAS A LITTLE embarrassing, on the out-of-town games, to try to find our other two supporters in order to gain

moral courage. (We walked out to keep our stick out of sight.)

IT'S EASY to cheer and encourage a winning team, and it's great to be a hero on losing teams too. The heroes have the guts to keep trying even though they have so little support, and the keeps coming out wrong.

HATS OFF, FELLAS, YOU GUYS ADMIRATION!

AWRIGHT ARREDDY, responsible for tinkering with the this time of year?— Got a feeling head's already made up. I don't like it! Suppose we oughta work and sleep nights!

BACK IN THE Inner Sanctum of a suburban journal was a story about FCC askin' Congress for laws given what can and cannot be shown on TV. For sure, that's a step in the direction, and we should encourage them in their endeavors. I betcha just addressed a missive to the Communications Commission in Washington, D.C. they'd get it. Worth a try.

AND WHILE YOU'RE at it, write your congressmen and ask them to give the Commission a favorable hearing. At the best, tho, this is gonna be a pretty slow process.— Sooo...

In the meantime, we can try to get the networks into a voluntary compliance with good taste in programming by our continued ding. Let em' know what you Huh!

Turn Row COMMENTS

By EMIL MACRAE

THERE ARE GOING to be some pretty important elections coming up here in Littlefield, as well as in other communities in the great state. From all indications, the school board elections will be some of the most warmly contested elections through the state.

Of course, city elections are being more contested this year than ever before, and of course there is the statewide election to be held April 22.

Voters will decide in a statewide constitutional amendments election whether they want to increase retirement benefits for school teachers and state employees. Meanwhile, the House of Representatives also approved for the April 22 ballot a proposed constitutional change to raise legislators' pay from \$400 to \$600 a month and expense allowances from \$12 to \$30 a day for the length of a lawmaking session.

It is our obligation as citizens of the United States to vote for these issues. I'm not trying to influence anyone as how to vote, but I'm urging you to take a minute and go by the court house and register so you can vote the way you see fit.

If you are not registered to vote and want to vote, you have to register 30 days prior to the election. Exercise your right as an American citizen by registering and then voting in all elections. In doing so, you then have the right to gripe in case something is not suiting you.

AND NOW from the gripe department... I'm not for sure who is responsible, whether it is HEW or some other department, but someone has really pulled a "boner". I've been told that our various state and private in-

stitutions now must abide by the minimum wage law and pay all patients residents for what labor they do according to the state and local scale.

For example, suppose you have a son or daughter in a state or private hospital for the handicapped, whether a mental or physical, I understand these people will have to be paid what services they render, to many part of their training program and others they must have something in order to make their stay in institutions more worthwhile.

It has been reported that fight between the patients have increased since they have been taken off of various chores as well as quite a dissatisfaction.

These people must have chores as part of their training program as a way to consume time. The institutions cannot pay them because their limit budgets and more work to be put on the various salaried employees. Most patients want to have a feeling of respectability, and the looks of things, the government perhaps meddled in something that cause unrest between the patients because of all of their leisure time might undo what some of these institutions have tried to accomplish in the past several years.

I understand that some of the residents were often given an chore for discipline, now they make the individual to correct his or her behavior. Nuff said.

SOONER OR LATER every good person has to decide whether to let their few spoonfuls go to waste or walk

NOW AVAILABLE FOR THE SALARIED WAGE EARNER

IF YOU DRAW A SALARY...WORK FULL TIME OR PART TIME AND DON'T HAVE A RETIREMENT PROGRAM...YOU WILL BENEFIT FROM AN

INCOME TAX DEDUCTIBLE INDIVIDUAL RETIREMENT PLAN

If you are not presently participating in a retirement program, other than Social Security, it is to your advantage to start your own retirement plan. Individual retirement accounts allow you to save up to 15 percent of your annual income not to exceed \$1500.00. Both husband and wife can qualify and the maximum allowed by law would apply to each separate income. Your contribution can be deducted (up to the maximum allowed by law) even though you do not itemize deductions. Taxes on the entire amount (including interest) will be deferred until your retirement. This deferral should have you paying far less taxes on your money, as your tax bracket will probably be lower at that time.

We also have tax-sheltered retirement programs for the Self employed person.

Self employed or working for a salary, with no retirement program, stop in and let one of our officers discuss this opportunity with you. Opening an individual retirement account is as easy as opening a savings account.

Woman's Study Club Hears Attorney Speak

"A Vital Aspect-Unity: topic for stimulating speech to Americanism", was Horace Littlefield Woman's Study Club luncheon, Feb. 19, in the Flame

Room of Pioneer Natural Gas Company.

The meeting, presided over by Mrs. Kenneth Houk, included a letter read by Mrs. Anna Lee Neale of appreciation from Mrs. N. W. Cooper of Girlstown Shoe Project and another letter from the Satellite School.

Mrs. Jack Wicker led discussion concerning Multiple Sclerosis Society and its project. Since the organization does not get government help, the community must finance and back this worthy undertaking if it is to carry on.

Mrs. Pat Donnelly reported the activity of vases and flowers for the Hospitality House.

Mrs. Ora Martin was given charge of the project which included every member's bringing purses, nylon hose, old Christmas cards, and Kleenex for Wichita Falls State Hospital.

Delegates elected to go to Caprock Convention at Hilton Hotel in Lubbock are Lorene Hulse, Iona Donnelly, Thelma Duvall, Beulah Dunlap and Dell Phelps.

At the luncheon, table decorations and good food were enjoyed by 35 members and three guests: Mr. and Mrs. Mitchell and Mrs. Ella Mae Singer.

The hostesses were Meses. Fred Dodd, chairman; W. P. Elliott, Hal Ferguson, W. Z. Florence, Mimmie Mathews and Winnie Frederickson.

Mitchell, former Littlefield business man, urged the women not to take the advantages of being United States of America citizenship lightly.

"Being lulled into civic security has led to inflation, loss of jobs, fortune, even ambitions and to corruption of business and government," he said.

Today's patriotism in America seem to be to buy only needs, turn the thermostat to a permanent 68 degrees, and drive no more than 55 miles per hour, but people still need the past history, "loyalty to a great cause feeling, "idealism", "Christian brotherhood", and even the "Yankee Doodle Spirit" for survival.

America must still face the world with strength and live for the world. "Selflessness instead of selfishness" is the energy for survival of America.

Then with a word of encouragement, "With dedicated people like you the Woman's Club, America is okay," Mitchell concluded his talk.

KELLY SINCLAIR

Kelly Sinclair Named Family Leader

BULA—Future Homemaker, Kelly Sinclair of Bula, has been named Bula High School 1974-75 Betty Crocker Family Leader of Tomorrow.

Kelly is the daughter of Mr. and Mrs. James Sinclair of Bula.

She is a senior at Bula High School where she plays forward on the basketball team. She has been active in FHA work, has held an office in the chapter for two years. Her plans are to enter SPJC, this fall and work toward a degree in library science. Among some of Kelly's hobbies

are playing the guitar and singing, reading, and she especially likes poetry.

Kelly won her honor by competing with other seniors in the written attitude examination, given in December. She is now eligible for state and national honors and awards from General Mills Inc., sponsors of the annual educational program.

In the spring, she and her family will be the guests of General Mills on an expense-paid tour which will include Washington, D. C., Williamsburg, Va., and a scholarship winner's fourth place winner. Kelly's advisor is Mrs. Alice...

Young Homemakers Buying Dinnerware

The Young Homemakers of Texas in Littlefield have started a project of buying dinnerware for the Junior High Home Economics Dept. in Littlefield.

They hope to purchase the dinnerware with Gold Bond Stamps.

The Gold Bond Stamp Stores have a program that allows individuals to use their stamps to purchase the items they wish and at the same time donate points to a club by asking for a "donation certificate". This certificate costs nothing.

The Young Homemakers receive 10 points for each book of Gold Bond redeemed, but you must have the donation certificate. It takes 750 points for a book of stamps, so you are asked to help to reach every time stamps are redeemed.

Donation certificates given to any member Young Homemakers will be a box in the Redemption Center to leave the certificates.

A REMINDER To The People Of This Area

We are pleased to announce a service which we believe is tailored to the needs of the people we serve. Our prescription record system of your original Prescriptions and Prescription refills makes it possible for you to have an itemized record of these items upon request.

Under this system your individual record of prescriptions and convalescent rentals will be maintained on an itemized basis. This will qualify for Income Tax deduction, Medicare, Insurance Requirements or any other purpose for which you may need or desire a permanent record.

For instance, if you were to lose or misplace your Prescription and had no record of its original number with which to obtain a refill—it would be available to you instantly under your individual record at Brittain Pharmacy. This service is available whether you charge, pay by check, or cash.

Your doctor may wish to review the medication you have had over a previous period of time. This, too, will be available to him from your personal file at Brittain Pharmacy.

You may call for a copy of your complete record at any time, and your record for each succeeding year will become a permanent part of your personal file.

Bula FFA In Program

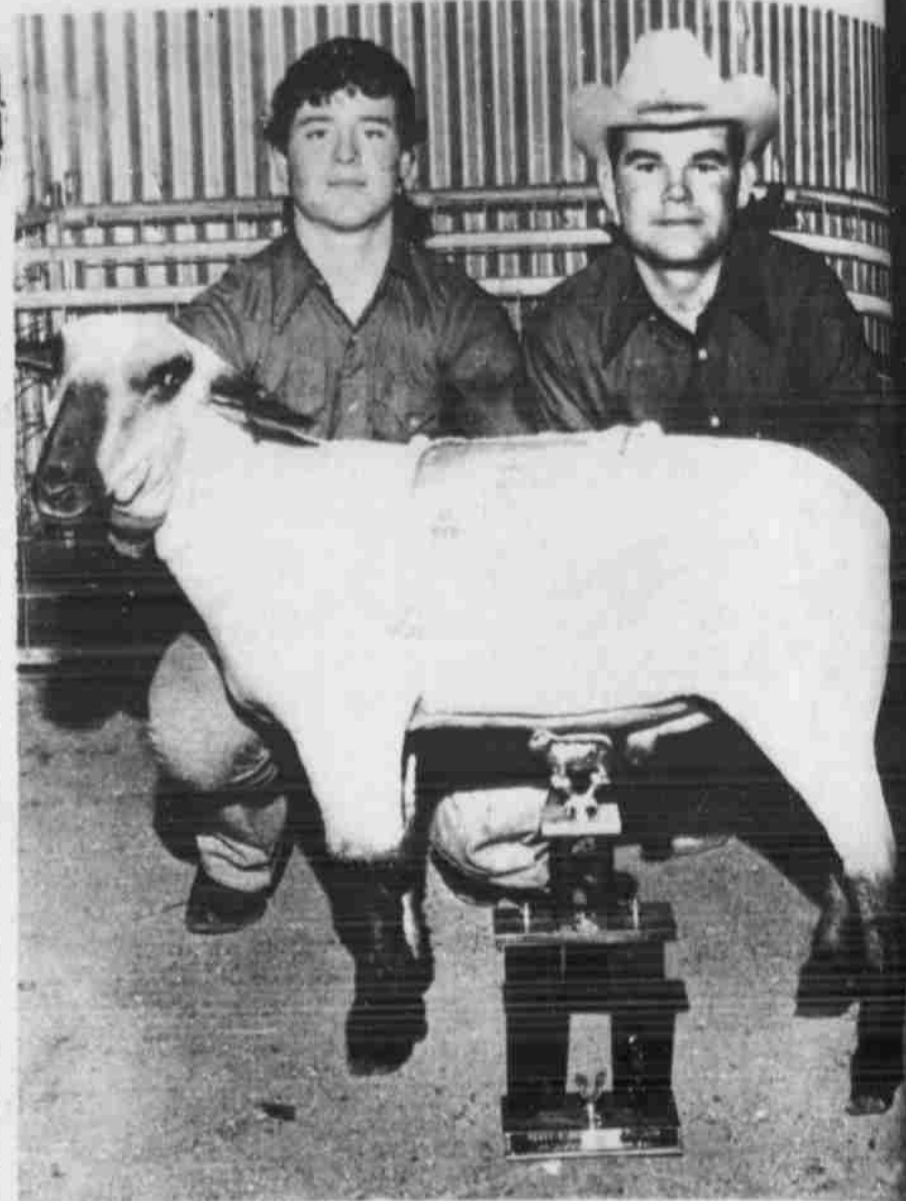

BULA— This past week being National FFA Week, Feb. 16-22, the Bula FFA Chapter calls attention to their organization.

Many young men learn by doing in the FFA Chapters of the nation. Each boy learns to say the creed and become proficient in parliamentary procedure. He is taught to express himself to others, thrift, citizenship and cooperation.

Boys also learn about the soil, animals, mechanic, skills and many other trainings, along with patriotism. Many successful men have begun as members of the Future Farmers of America, in our high schools. Lester Bounds is the advisor. The Bula organization has three girls as members.

Thursday morning the chapter gave a program to the local Lions breakfast meeting. They are also giving out trash bags for cars as compliments of their organization. They showed animals in the lamb and pig show at Muleshoe this weekend.

Increases, however, are pending the passage of a Constitutional Amendment be submitted to the a statewide election

September 1, 1973, or if a member retired on disability with less than 10 years of service, or for beneficiaries receiving survivor benefits only.

An increase in the minimum service retirement benefit for auxiliary employees, active and retired, to \$5 per month for each year of service, but no less than \$60 per month, was also provided.

Coast Guard Offers Film

The U.S. Coast Guard, Office of Boating Safety announces that a new film entitled "The Score Off Shore", is available for use by any interested recreational boating group or organization.

The 21-minute, 16 mm color film follows a young couple who have just purchased their first boat. They're familiar with bits and pieces of some of the Federal regulations required in boating, but they do not know "the full score". They begin to understand all the regulations, with the help of a friendly fatherly "voice". As the couple demonstrates their knowledge, with guidance from the fatherly voice, the audience learns too.

CHISHOLM FLORAL

620 E. 5th 385-4461

By J. L. MARCUM
 Outgoing President

When I took office last year, I aspired for a "Let's all pull together in 1974" Chamber year.

And we did. There was more "pull together" spirit than I ever imagined, but we're not there yet. Littlefield is right on the brink of changing from a relatively static community to a growing, dynamic city. But it takes a lot of hard work by all of us.

Sure, we'll be discouraged from time to time, but we must not lose sight or hope for our overall

Chamber Year

goals. We've all done a lot, but there's a lot more to be done. 1975 is not going to be an easy year.

It's going to take efforts from every sector of the community, and I'm confident a united effort will be rewarding. And, these rewards can be shared by everyone in the community from the cradle through retirement. It can be especially gratifying if we can offer encouragement for our young people to stay and make

Littlefield an even better place to live and work.

In tune with this year's theme, we've truly got "The Wheels Turning," but this won't continue by accident. It has and will take a continuing effort. Capable men and women like you and throughout the community have been the source of each new accomplishment, and will continue to be. "Let's keep the wheels turning." Let the good times roll with Rad in 1975!

Progress... For A Better Tomorrow!

It's your future ... and ours, too.
 Let's get together now and work towards making it the best ever!
 It doesn't take much ... just people like us, who CARE!

Industrial V-P Lists Goals

By PAUL BENNETT
 Industrial Vice President

Some of my goals for the coming year toward achieving industrial growth are:

- Continue to promote a local environment that is receptive to industrial development in as many ways as possible.
- Maintain a trained team to meet with industrial prospects.
- Maintain liaison with other industrial development agencies.
- Develop a comprehensive and continuing plan of prospecting.
- When any industrial concern has located here, provide assistance to intergrate the industry and community to the benefit of both.
- Continuously up-

The Wheels Of Progress Are Turning In 1975 through the efforts of the Chamber of Commerce and Individual involvement

We firmly believe in our community and its future. To our friends and customers, we reaffirm our objective: To help in every way possible to promote local progress and prosperity.

Under the leadership of J. L. Marcum, the Chamber of Commerce during 1974 made some great progress toward Littlefield's becoming a leading community in this area of West Texas. Our goal for 1975 is to follow through on this momentum to make Littlefield a "total living center." This means that we cannot let down and rest on our previous

WHAT IS IT?

A Chamber of Commerce is an action agency designed to meet community needs. It is a voluntary organization of individuals and businesses who band together to advance the commercial, financial, industrial and civic interests of a community. It is a civic clearinghouse, a public relations counselor, a legislative representative at the local, state and national levels of government.

merits. We shall be making every effort to draw all factors of our city together to gain strength for a bright future. We are on the threshold of a good industrial movement in Littlefield but we must each do our part to keep these people interested in our city

and show them what a total commitment can accomplish. During 1975 we shall be asking for the support of all our members, directors, officers, and citizens to help us maintain the interest and drive which our past president has handed to us.

We're Making Progress!

THE WHEELS ARE TURNING IN '75

It takes hard work, drive and perseverance to push forward. We can do it... the proof of it is in our yearly review. Capable men and women like yourselves have been the source of each new accomplishment... promising an even better year ahead.

support the Chamber in any way possible.

We hope to make 1975 one of the biggest and best years "We, The Women" has had. It is our desire to contribute even more to Littlefield in the coming year. We want to make our town even more Likeable and Liveable than it is now.

We have many plans on the slate for the coming year. We will have the annual Fashion Show, as we have in the past. In addition to this, we hope to stage the Babes in Toyland Pageant again this year. The organization has also adopted, as a project for the coming year, to sell the Littlefield Commemora-

tive Coins to the public. These are only a few of the many projects we will plan to execute in 1975.

To be a truly active and working organization and to be beneficial to the community, we need support—we need your support—after all it is the people involved that make an organization such

as "We, The Women" truly productive.

If you are interested or know of anyone who might be interested in "We, The Women" and our Chamber of Commerce, won't you spread the word about us and tell them to contact one of our members and come to a meeting to find out more about "We, The Women."

By **CAROL BLACK** Activities Vice President

As Activities Vice-President for 1975 I would like to see all Chamber members involved in their Chamber and strive for better com-

munication between the board of directors and members in order to better serve the community. We are planning joint meetings whereby we can find out what ways we can be more effective.

Progress

*It Keeps the Wheels
Of Time Turning
For a Better Tomorrow*

Scientific technology and advancement take time. But, when each individual is working for the same goal . . . progress is possible. We see it today in our own community. Our own achievements work for us.

There are many opportunities in many fields of labor. They all boost our economy, make each day a little bit brighter . . . a little bit better. With continued dedication, this year can be prosperous for one and all.

There's an unseen drive in our community that everyone feels — Progress. Churning. Turning. Building. Keeping our town in step with the times. Worked at by many for the benefit of all, it's what makes this a fine place to call home. Through our hope and strength Progress will push forward for continued growth this challenging year to come.
