**Government Freeze
Takes Canned Food
Off Grocery Market**

**Point Rationing Starts
March 1; 48 Points For
Each Person For Month**

A government freeze took canned goods off the grocery market for the week last Saturday night, in preparation for the start of point rationing March 1.

The Saturday midnight sales ban is affecting all canned and frozen fruits and vegetables, dried fruits, canned baby foods and canned soups. This week people are expected to live on their accumulated stocks of these foods plus the rationed foods which remain on shelves, including fresh fruits and vegetables, cereals, bread, milk, and meat. Meat is to be rationed later, but for the present may be sold without restriction.

The government announced Sunday night how much processed food the new ration books will buy, a drastic scale of point values limiting consumption to less than half of normal.

The 48 ration points allotted to each man, woman and child for March will command two cans of sliced pineapple, or three cans of peas, or 48 cans of baby food.

The 48 points may be spent, of course, on a variety of different foods. Here is what some of them will "cost" in the most popular sizes:

Peas 16 points, corn 14, tomatoes 16, green beans 14, pears 21, peaches 21, grapefruit juice 23, tomato juice 32, soup 6, baby food 1. Prunes and raisins "cost" 20 points a pound; frozen foods mostly 18 points a pound.

The Office of Price Administration issued a detailed tabulation of nearly 900 different point values (Continued on Back Page)

**Registration For

Opens This Morning**

**Applicants Urged To
Take With Them All
Ration Books Of Family**

Registration for Ration Book 2 under the point rationing system will open at the High School Building Thursday morning at 9:30 o'clock when members of the Littlefield School Faculty will perform the task of registering the citizens of this city and area. Registering will take place from 9:30 a. m. until 5 p. m. Thursday and Friday, and Saturday from 9:30 a. m. until 7:30 p. m., as announced by Supt. F. A. Hemphill Wednesday.

Local school authorities urge all persons who plan to register for the new books to be sure to take with them war ration books No. 1 for all members of the family, and to have OPA form No. R-1301 carefully and properly filled out when they go to register.

OPA form No. R-1301 was published in the Lamb County Leader last week, and appears on Page 1 of the second section of this paper (Continued on Back Page)

COMMANDER OF ALLIED FORCES IN NORTH AFRICA—Gen. Dwight D. Eisenhower, promoted to the highest U. S. military rank on February 11, directs the operations of the combined American, British and French armies in ousting the Axis from Africa. He was born in Tyler, Texas, in 1890, graduated from the U. S. Military Academy at West Point in 1915, and during the World War was awarded the Distinguished Service Medal for "his unusual zeal, foresight and marked administrative ability" while commanding officer of the Tank Corps Training Center at Camp Colt, Gettysburg, Pa. He has filled many important posts in the War Department and while serving as Assistant Chief of Staff in charge of the operations division, Office of the Chief of Staff, Washington, D. C., in June, 1942, he was designated as commanding general of the European theater with headquarters in London. He organized and commanded the American forces in landing in North Africa November 8, 1942.

**Readers Are Urged
To Clip Declaration
Form From Newspaper**

Due to mechanical and transportation problems connected with the printing and distributing of 130,000,000 declaration forms, there will not be available here or elsewhere over the United States sufficient copies of those forms for use during the period when Americans must register for food rationing which goes into effect on March 1.

Therefore, the Government, through the Office of Price Administration, is relying upon the newspapers of the country to publish declaration forms prior to February 25. The Leader has already published the declaration last week, but at the request of E. C. Cundiff, Clerk of the local Rationing Board, the declaration will again appear in this week's issue of the Leader, and will be found on the front page of the second section.

Readers who have not heretofore clipped out copies of the

declaration form, which they must fill in before they may register and secure Ration Book 2 in the point system of rationing, are asked to do so from this week's Leader.

The number of printed forms allotted Lamb County falls considerably short of the amount needed. The same situation holds in other counties of the South Plains, so residents of nearby counties are also urged by OPA to clip declaration forms for their use from newspapers they receive.

Lamb county and most nearby counties will do their registering today (Thursday), Friday and Saturday.

Forms are to be filled out at home, except for the applicant's signature, prior to the registrant's appearance at the various places of registration.

Littlefield residents will register at the local school building.

James stated that he wanted to help buy a gun he hoped he would get to use after the Japs!

**Total Of \$626,085 In Bonds

Pat Boone, County Chairman, announced Wednesday that the quota for Lamb County for 1942, \$625,400 had been more than reached. A total of \$626,085 in bonds and stamps were sold last year, or \$685 more than the quota.

Great credit for this wonderful response from the people of Lamb County goes to Pat Boone, who has worked consistently in the promotion of this patriotic cause, as well as L. C. Hewitt, City chairman, and Supt. F. A. Hemphill, and others, including Mrs. J. D. Armistead, who is greatly responsible for the splendid programs presented at the Victory concerts staged.

**County Chairman Issues
Special Appeal To All
Residents To Help**

Plans and organizations were this week completed for the War Fund Campaign to raise \$6,400 as Lamb County's quota, requested by the American Red Cross for the coming year. Every town and community center in the county has been given a definite quota, and all citizens should make their contributions to the persons in charge of the drive in their community. Red Cross officials and other volunteer workers strongly urge the citizens of the county to go to their respective community workers, whenever and wherever possible, to make the contribution. Such voluntary responses will release volunteer workers of much unnecessary waste of time.

The campaign, which will extend through the entire month of March, is under the direction of H. C. Arnold, of Littlefield, and a staff of community heads and workers who have recently been appointed.

Listed below are the names of persons in charge of raising the respective quotas in the various communities:

- Amherst, C. A. Duffy—\$704.
- Earth-Spring Lake, Marshall Kelly, W. C. Stout, N. F. Cleavinger—\$640.
- Sudan, W. H. Lyle—\$960.

A total of \$5,400 in war bonds and stamps were sold at the Victory Concert staged at Sudan Thursday evening, when a splendid program is reported.

Pat Boone, County Chairman of War Stamps and Bonds, was principal speaker, and reported on the bond sales in this county.

The program was in charge of Band Director W. F. Finley, with the members of the Band and Choral Clubs cooperating.

Mr. Boone reported an especially entertaining feature of the program rendered by Mr. Finley, accompanied by four girls dressed as Scotch Highlanders, who played several numbers on the bagpipes in true Scottish manner.

Mr. Finley is one of Henry Susa's pupils, and has played in Susa's Band.

A \$25 War Bond was awarded by the Sudan Rotary Club to an out-of-town guest, whose name was not available. She, however, is a daughter of Mr. and Mrs. J. O. Covington and lives at Lubbock.

... ston was always good at writing poetry, and to keep up his reputation, has composed numbers of poems for the Slipstream, the Cadets'

newspaper at Muskogee, two of which were sent the Leader by Gene Yeager last week, as follows:

TRENNERS LAMENT

All my hopes and aspirations
Reach new heights with each new sun,
My imagination stretches
Till in dreams my wings I've won—

As I gaze into the sunrise
I can see myself afar,
Wearing all that fancy finery
On my shoulders those small bars—

Shoulders back and chest uplifted
Marching with a martial air,
Trim and neat from polished foot gear
To my trimmed and shining hair.

Confidence just oozes from me
As the sun climbs in the sky,
Until at long last I clamber
To my seat to soar on high.

Then the pin pricks begin falling
On my egotistic pride,
As I struggle with the rudder
Insults hit me on both sides—

"Pull the nose up! Use the rudder!
This is not a ten-ton truck!
Foot and hand together, dimwit!"
Till my mind just runs amuck!

In my few short hours of flying
I have not done one thing right,
All my confidence goes "blooey!"
When the airplane first takes flight.

If I have no chance of flying—
If my brains are of small scope—
Why did this Air Force accept me,
Building up my feeble hope?

There is something wrong—I know it—
For I'm rotten to the core,
And I wonder how in blazes
I got thru that "Sixty-four"!

JOSEPHUS GREMLIN

There's a funny little fellow,
That just follows me around,
Waiting quietly for the moment,
When I proudly leave the ground.

He is called Josephus Gremlin.
And he does such things to me,
As would make an angel angry,
Yet the sprite I never see.

When I start the plane to spinning,
He is there at my left hand,
So when I make my recovery,
He can speed us toward the land.

When I stall the plane he slyly
Moves the point that I've picked out,
So I miss the right direction,
My instructor starts to shout.

When I'm flying straight and level,
Then the hateful little clown,
Swiftly grabs the blue horizon
And he moves it up and down.

One wing he keeps pulling downward,
And when I a turn would make,
He kicks the rudder and upsets me,
Tho my very life's at stake.

He sits up with my instructor,
And puts words into his mouth,
That will scorch my popping eardrums,
Till I'm feeling like a louse.

And my belt he oft unfastens,
After we are in the air,
Everything he does is hateful,
Till I'm tearing out my hair.

I could stand his pranks and joking,
Tho he never lets me be,
If he'd just admit he does them,
And not blame these breaks on me!

To Amherst Patrons

Do not believe rumors about school nor country. When rumors are spread, we are less united. "Divided we fall."

Amherst school has had troubles and trials in the school months just passed, all will agree. However, when I talk to superintendents of other counties it makes me feel pretty good about our local system.

We have been very fortunate in replacing teachers who went elsewhere for work, into the armed services or to be with their husbands.

We have not begun to call upon our local, qualified teachers, to help. So, I feel if anybody in the state of Texas is able to have school in 1943, Amherst can.

I believe with the help of you good people of Amherst we will have a better school next year than we are in, and the entire State will continue to be proud of her schools.

Let me urge each of you to write to some educator at Austin and Washington in order to get teachers' salaries raised. By doing so, they can have a living wage and will not have to turn away from one of the grandest callings the world has ever known, into something less desirable.

Amherst has much that causes teachers to want to live and work here, I for one do not wish to hinder that desirability.

Please help us and yourself by not talking loose talk.

Sincerely,
LESTER ROGERS,
Superintendent.

"The Greatest Mother in the World,"
The American Red Cross
With A War Task Ahead--

Comes to the American People to Appeal For Funds - March 1 to 31 - Funds to Finance the Most Extensive Humanitarian Program Ever Conceived. Goal of the 1943 War Fund Campaign of the American Red Cross is **\$125,000,000**

----- **THEY NEED YOUR HELP** -----

Disaster Relief

Disaster relief continues. The last Red Cross annual report shows that a total of 26,666 homes were destroyed by fire, wind and water, leaving 72,434 Americans without food, clothing or shelter. Made homeless by 149 disasters, sufferers were fed, clothed, sheltered and administered to at a cost of \$1,250,000.

Aid War Sufferers

The national report this year shows since World War II began, \$66,000,000 expended on foreign relief which brought aid to many millions of evacuees, refugees and other war sufferers, and \$5,000,000 expended on relief for prisoners of war of the United Nations: since Pearl Harbor, 5,500,000 first aid certificates awarded; a million and a quarter blood donors; 68,000 nurses aides trained and in training; 520,000,000 surgical dressings and millions of knitted and other garments made; more than a million trained in nutrition and home nursing courses and more than 1,500,000 members of the armed forces given aid in unravelling personal and home problems.

Need More Plasma

So extensive is the use of blood plasma, the Army and Navy have asked the Red Cross to step-up its blood donor service and supply them with 4,000,000 pints in 1943, an increase of 3,000,000 pints over the 1942 requirements. Services to the armed forces include field directors, recreation directors, program directors and club directors. Every camp at home and abroad has a field director. The Red Cross is the liaison between the soldier and his family. Soldier to field director to chapter and to the family through a corp of Home Service staff workers is the method used to help the soldier solve problems left behind.

Funds For The Armed Forces

It is reported that 65 per cent of the funds required by the national organization had been budgeted for Red Cross services to the armed forces. As the armed forces increase, the Red Cross must keep pace both at home and abroad. The 1943 program of the Red Cross presents a picture of great expansion in every phases of its work. Blood plasma is one of the most important contributions to the medical branches of the military. It has proved itself by saving the lives of thousands of boys wounded in battle.

Plans Completed— (Continued From Page 1)

F. A. Hemphill, chairman of the Lamb County Chapter, is issuing a special appeal to all Lamb County to assist in raising this quota. Said Mr. Hemphill, "If Lamb County is to have the American Red Cross service, which has become so essential to Lamb County in recent months, the quotas must be raised, and it is no individual citizen's responsibility but an obligation of all citizens to make the greatest contribution possible."

In making the appeal for unanimous response, Red Cross officials pointed out the following items which contributors should know about Red Cross:

1. The American Red Cross must continue to expand its activities to meet not only local but national and international needs. The 1943 Red Cross War Fund will raise the money needed to finance the local, national, and international work of the organization for one year.

2. The American Red Cross does not receive financial support from the United States government. The national organization and its chapters are financed solely by contributions from the people of the country.

3. Regular audits by the War Department are made of all receipts and expenditures of the American Red Cross, and a report, copies of which are available to the public, is submitted annually to Congress.

4. The President of the United States is ex-officio President of the American National Red Cross.

5. The American Red Cross operates nationally and internationally under a charter granted by Congress, and in accordance with the spirit and conditions of the conference of Geneva.

6. Under its congressional charter the Red Cross is the official American agency responsible for disaster relief.

7. Red Cross assistance is given on an average of approximately 150 disasters each year.

8. Under its congressional charter the American Red Cross is the official medium of communication between the people of the United

The Boy Scouts of Littlefield appreciate the cooperation and assistance rendered by the above mentioned business men of Littlefield, and the ladies of the Methodist Church, and also wish to thank those who contributed so generously to this drive. The point values for dried beans, peas and lentils which were brought under the rationing only Saturday night will be announced later.

The values announced Sunday are expected to remain in effect throughout March, although they could be raised or lowered at any time. At the end of the month the OPA will announce the values for April, which may be the same or different.

The first 48 points provided by the new ration books to be distributed this week are designed to cover purchases for the entire month of March. During the last week of March, however, some of the April ration coupons may be used if necessary.

Grandson Of Mrs. Neal A. Douglass Believed Safe

When the news reached Mrs. Neal A. Douglass of the sinking of the U. S. S. Chicago, one of the American vessels lost in the sea-air actions spread over a 10-day period in the Solomons area, she felt great concern over the well being of her

grandson, Dennis Ray Bean, first class gunners' mate on that ship. But due to the fact the parents, Mr. and Mrs. W. F. Bean, of San Angelo have had no word from the Navy department, it is believed by them that their son is safe.

Aerial torpedoes from Jap planes first damaged the Chicago and next day, while she was being towed to port another torpedo plane attack sank her. The skipper, Capt. Ralph Otis Davis, 52, of Baltimore, Mr., and most of the crew survived.

Due to his serious condition, a son, Pvt. Roy Pace, of Fort Hancock, New Jersey, has been asked to come home.

While the deceased had been ill for several months his death came Wednesday quite suddenly.

He is survived by his widow and six children besides Mrs. Davis, and Mr. Rogers, all of whom were present for the funeral except one son, who resides in California.

Farmers Encouraged To Meet War Goals

Texas farmers were asked this week to plant as much of their cotton allotments as they could but not at the expense of other crops vital to the war program.

In encouraging farmers to meet war production goals first and then planting cotton, George Slaughter, chairman, state AAA committee, said that land and labor should be used for feed and food crops which produce more oil and meal per acre than cotton.

"Nearly all farmers are working short-handed and must make their labor count for maximum production of the things we need," he said in comparing oil and meal value of cotton, soybeans and peanuts.

Planting Victory Gardens

Offer of a free book on Planting Victory Gardens and keeping a backyard flock of poultry is made by Wm. Cameron & Co. in the advertising columns of this paper.

Its purpose is to promote the planting of Victory Gardens and it briefly outlines the best things to plant, and when and how to plant them. A section of the book is devoted to poultry raising and care.

Distribution of this book fits into the program of the United States De-

partment of Agriculture and the Office of War Information in their drive to have 18 million Victory gardens planted in the United States this Spring. Two-thirds of that number are expected to be in the back yards and vacant lots in the cities and towns of America and one-third on the farms.

To assure yourself and family of being well-fed this year, and as a patriotic duty, start your Victory Garden now.

The helpful, authoritative book, illustrated in colors, is available free of charge by calling for it at the local Wm. Cameron & Company store.

Town And Farm In Wartime

HOW AND WHEN OF WAR RATION BOOK TWO

War Ration Book Two, to be used for rationing canned and processed foods, will be issued in the following manner, says OPA:

1. Anyone who has War Ration Book One and has filled out the "consumer declaration" (one for a family is sufficient), may get Book Two.
2. Application must be made between February 22 and February 27, 1943.
3. Local war price and rationing boards will announce places for registration. One adult may apply for all books in the family. All Books One must be presented when getting Book Two.
4. After February 28, applications may be prohibited until March 15, 1943.
5. If war price and rationing board permits, applications may be made after March 1, 1943. Local Board rules in this case.
6. Person without Book One may make special application for Book

Two.

7. "Consumer declaration" means stating number of cans of food on hand as of February 21. Limit is five cans per person. All over that number are to be accounted for by the board "tailoring" ration Book Two to fit the situation.

8. Coffee stamps will be removed from Book One for persons under 14 years of age; also one stamp for each pound of coffee in excess of one held by an adult on November 28, 1942.

DANGEROUS TO TRANSFER FOOD

Transferring food from commercial cans into glass jars is dangerous and may result in fatal food poisoning. Housewives were warned by the U. S. Department of Agriculture against the practice which is a report of some persons to escape reporting excess canned goods when War Ration Book Two is obtained. The subterfuge destroys food values and obviously does not aid in the war effort, U. S. Department of Ag-

riculture nutrition experts have emphasized.

MANY JOBS ARE WAR JOBS

Such essential civilian activities as agriculture, food processing, mining, textiles, transportation, communications, heating, power, and educational services are "war jobs," says the War Manpower Commission. People must be housed and fed and clothed in wartime as well as in peace, and essential civilian workers are on an equal plane with workers in basic war industries.

NO FRILLS ON SHOES

Unessential frills on shoes have been eliminated by order of WPB which also limited the height of heels on women's shoes, and restricted colors to four: Black, white, army russet, and town brown. Some shoes will be discontinued. They include men's patent leather, men's sandals, men's and women's metal spiked golf shoes, and women's formal evening slippers. Heavy leather may be used only for making work shoes, cowboy utility boots, and lined police shoes.

WAR BOARDS ON FARM MACHINERY

U. S. Department of Agriculture War Boards now have the authority by amendment to Food Production Order 3, to approve changes in distribution quotas for rationed farm machinery and equipment.

INSURE RETAILERS CANNED GOODS

Wholesale grocers have been advised by OPA that they should—in their own as well as the public's interest—unstakingly fill orders from retail stores for processed foods during the retail stocking-up period, February 21 to 28, inclusive. During that period retailers will suspend sales of canned foods to consumers. The purpose is to ensure retailers of ample stock of rationed canned foods to meet consumer buying demands when canned goods rationing starts.

LOAN ON SEEDS

Price-supporting loans on 20 kinds of hay and pasture seeds have been announced by the U. S. Department of Agriculture. The program is designed to encourage 1943 production of seeds to meet domestic, lend-lease, and military requirements. Kinds of seeds are: Northern

and central alfalfa, red clover, biennial white sweet clover, biennial yellow sweet clover, biennial mixed sweet clover, alsike clover, timothy, smooth bromegrass, orchard grass, crested wheatgrass, blue grama, side oats grama, buffalo grass, bermuda grass, dallis grass, bahia grass, meadow fescue, slender wheatgrass, western wheatgrass, and ladino clover.

RURAL ROLL CALL

All rural women will be visited between March 1 to 20 and asked to pledge to produce as much of their home food supply as possible. Goal of the Victory Home food supply program and roll call is to get every rural family to produce about a ton a year of the right kinds of foods for every member of the family. The roll call will be launched under leadership of state and county home demonstration agents of the Extension Service of U. S. Department of Agriculture.

PIPELINE OIL COMING

The oil stream moving through the Texas-Illinois leg of the 24-inch war emergency pipeline for tank car trans-shipment to the East was just south of Norris City, Illinois, the middle of February. Initial deliveries of crude and light heating oils through the "big inch" will approximate 50,000 barrels a day.

NURSES SHOULD REGISTER

Every graduate nurse in the country is urged to register with the Nursing, Health and Medical committee, Office of Defense Health and Welfare Services of the Federal Security Agency. Fifty per cent have already returned their cards, according to the War Manpower Commission, but the need is urgent because nursing units will be form-

This man was taught not to drink water

WATER . . . just plain drinking water . . . is a mighty scarce item to American soldiers now in the North African deserts. And what little water they can find, often isn't fit to drink.

So before our soldiers were landed in Africa, they were put through a stiff course of training to wean them away from drinking water! They were taught to dip water from streams in cups, and add a dash of iodine before drinking. This served the double purpose of disinfecting the water, and of making it taste pretty terrible.

Each time, a heavier dash of iodine was added (but never enough to be dangerous), until finally the soldiers lost all desire for drinking water except in prepared drinks.

An American soldier's favorite drink

The favorite prepared drink of the American soldier is good, old-fashioned lemon-

ade! But how were our boys to carry lemonade around with them?

The Desert Warfare Board found the answer to that one . . . in what they call Field Ration K. This provides three meals for one man, each in a separate box, with a total weight of 33 ounces, and a total value of 3700 calories.

Field Ration K provides meat three times a day . . . veal luncheon meat for breakfast, pork luncheon meat for dinner at noon, and cervelat sausage at supper time. It provides coffee for breakfast, bouillon for dinner, and a package of lemon juice powder to make lemonade for supper. Ration K also includes malted milk tablets, biscuits, a bar of chocolate, and three sticks of chewing gum.

Sounds like "good eatin'" for those American boys in Africa, doesn't it? Makes you feel mighty good to know

they're so well cared for! We'll all agree that the best of everything is none too good for *our* boys!

The things our fighting men need and deserve, cost money. They cost so much money that if we are to provide them, it will mean that each of us will have to invest at least 10% of his or her income in War Bonds and Stamps.

Perhaps you are already putting 10% of your pay in War Bonds every payday. But can't you boost that 10% . . . just a little? You can if you'll try . . . and you'll try all right, if you'll just stop and think how badly that money is needed!

Think, too, about what a swell investment War Bonds are. Safest investment in the world . . . and, for every \$3 you invest in War Bonds today, you get back \$4 ten years from now!

Mr. and Mrs. Joe T. Aven received two letters last week from their son, Joe T., Jr., from somewhere in the Solomons, saying that "things were sure popping down there." He said he was "anchored off a little island, that the climate was very hot, he went without a shirt, was as brown as he could be, and healthy as a baby." He also reported plenty to eat.

Pvt. Eugene Grisham, Jr., wrote his father, E. E. Grisham of two miles southwest of Littlefield, that he is now on maneuvers with the U. S. Army somewhere in Louisiana. He has been in the army about a year.

His brother, Pvt. Roy Lee Grisham, who has been in the Army Air Force the past three months, is stationed at the air base at Pampa, as a mechanic.

MAJORS FIELD, Texas, Feb. 22.—(Special)—Aviation Cadet Elmer L. Kimball, formerly of Littlefield, has graduated from Texas' newest basic flying school here to the Blackland Army Flying School, Waco, Texas, where he will enter advanced training by the end of the

week. The son of Mrs. Lina W. Joseph, Littlefield, Cadet Kimball was employed as a stenographer and clerk at Amherst, Texas, before receiving his appointment last summer as an aviation cadet. He received primary training at Wilson-Bonfils Flying School, Chickasha, Okla.

Cadet Kimball's wife and small son, Elmer, Jr., are making their home with his mother while he is in the service.

Lieut. Ralph Gray, who has been attending school at Columbus, Ohio, has been assigned to a camp in New Orleans, La., and he and Mrs. Gray were to move to New Orleans last week end, friends here were advised last week.

Pfc. Henry H. White, son of Mr. and Mrs. R. W. White of five miles south of Littlefield, baker in the Air Corps, stationed at Yuma, Ariz., arrived home Saturday on a 15-day furlough.

Pfc. White has been in the Armed Forces six months.

plements, cattle, furniture, etc., today (Thursday.)

Pvt. William L. Savage, son of Mr. and Mrs. Lee Savage of Spade, has been transferred from the Lubbock Air Base to the San Marcus Air Base. He entered the service in October.

Wayne Madden, who has been a member of the Naval Air Corps Reserve, received his orders to report in Dallas Friday for assignment. He is now stationed at an Air Base at Fort Worth.

He is the son of Mr. and Mrs. W. H. Madden, and the first of this month completed his work at Texas Tech for his degree. The degree will be conferred in the regular commencement exercises at the college in June.

W. B. Glass, Jr., 19-year-old son of Mr. and Mrs. W. B. Glass, left recently for Amarillo where he enlisted in the U. S. Navy.

Mr. and Mrs. J. E. Norman received a letter Tuesday, February 16, from their son, Cpl. Jack Norman, who is in the U. S. Marines, and took part in the invasion of Guadalcanal last summer.

The letter was written January 16, and was censored by the U. S. Navy on January 29. Jack wrote that he had been ill, but was all right now, and was able to write. He stated that the Marines were in a nice place, and was certainly a change from where they had been. He said so many things had happened since he had had a chance to write, that he hoped to be able to tell them all about it real soon.

Mrs. Norman reported that she could only hope that the statement, "Tell us about it," meant that he was coming home for a few days, but of course she didn't know.

This was the first letter they had received from Jack since one that was written sometime in November. They received a Christmas card, which was mailed December 3.

Austin Bradley, son of Mrs. H. W. Bradley, who has served seven years in the Army, has recently been stationed at San Diego. However, Mrs. Bradley says she hasn't heard from him for two months, and thinks it possible he is in foreign service.

Austin was in Littlefield on a 30 days' leave when war broke out with the Japs, and soon returned to duty.

During the seven years' service, Austin spent two years in Panama.

H. W. Bradley, another son of Mrs. H. W. Bradley, will soon be four years in the service of his country. He enlisted at Fort Bliss, and was sent to Marsh Field, Roswell, where he is an aviation mechanic.

Gene Yeager, who enlisted in the Air Corps and was called October last, for cadet training, and was stationed for sometime at San Antonio, has since been transferred to Muskogee, Okla.

Mrs. Yeager and children have been living in Muskogee, and Gene has been able to be with his family.

Recently Gene was recommended for officers training, and was granted a furlough. He returned to Muskogee Saturday night after spending a few days here. Mrs. Yeager and children, who arrived here a day before her husband, will remain here until Gene is assigned to Officers Training School.

O. D. "Bugs" Yeager, Jr., brother of Gene, also in the Air Corps, taking cadet training, was in San Antonio for sometime, but was transferred from there to Pine Bluff, Ark., for his primary training.

Mrs. Yeager is leaving Saturday for Pine Bluff, Ark., to visit her husband. Mrs. T. R. Collins is going to Norfolk, Va., to spend some time with her husband, and Mrs. Yeager will accompany here as far as Pine Bluff.

Pvt. G. T. Rogers, son of Mr. and Mrs. C. L. Rogers of the Rockyford community, who is stationed at Camp Howze, Greenville, arrived home Friday on a five day leave to visit his parents. He has only been with the armed forces since February 8 but due to the death of his grandfather, G. E. Rogers of Plainview, he was given leave to visit his homefolks.

**Uncle Sam
Issues A New Order
Governing the Retail
---SALE of---
Petroleum Products**

**Littlefield Service Stations
--Will Appreciate--
Your Friendly Co-operation**

Petroleum Directive No. 62, issued by the Petroleum Administrator for War, prohibits the retail sale of gasoline and other petroleum products on credit.

The order, which is now in effect, forbids retail marketers to "grant or accept or participate in the granting or accepting, directly or indirectly, of credit in connection with the sale of any petroleum product."

This means that your service stations cannot sell unless payment is made at the time of the sale by cash, check, or by coupons taken from coupon books which are issued by some companies. Coupon books cannot be sold on credit.

Exceptions to the no-credit rule include commercial vehicles displaying "T" ration stickers, and federal, state, and local governmental operations.

WHOLESALE SALE OF PETROLEUM PRODUCTS IS NOT AFFECTED BY THE NEW ORDER. For example, farmers can continue to purchase at wholesale on a credit basis, under the same plans which have been in effect.

Under another government order, which became effective recently, Littlefield service stations are open only 72 hours weekly. They are being operated 12 hours daily . . . 8 a. m. to 8 p. m. . . and are closed on Sunday.

In announcing the new government regulations, your Littlefield service stations ask and will deeply appreciate your friendly co-operation. We would have been glad to continue credit courtesies and remain open longer hours for your convenience, but our Uncle Sam has decreed otherwise at this time . . . and we all feel that he is acting in the best interests of all . . . our entire nation.
