All-Stars Seek District Title After 7-6 Win Over Morton 9

Fresh from a 7-6 victory over Morton in the Area 4 Little League play-offs at Levelland, the Littlefield All-Star Little League team will enter the District Tournament at Hereford Friday.

Littlefield joins Hereford, Pampa and Dumas in the tournament of area winners, colliding with Hereford at 8 p.m. Friday. Pampa Eastern and Dumas will meet at 5 p.m. on the same day, and the winners square off in the finals at 8 p.m. Saturday. The winning team will journey to Brownfield for the Bi-District play-off August 3-4.

While Littlefield went all out to squeak by Morton in the area finals, Hereford, behind the five-hit pitching of ace S. D. Baise, crushed Muleshoe in the Area 3 finals, 20-1. Baise also cracked two home runs in the rout.

Defending champion, and back to try to repeat, is Dumas, which downed Borger to pave the way to District. Dumas defeated Littlefield, 15-7, in the District finals at Canyon last year.

Coaches Max Windwehen and Leldon Williams, who are staging daily workouts for the All-Stars at Little League Park, are not sure who will pitch against Hereford. The only sure thing is neither Jerry Cox or Bobby Ross can pitch in the first game. The rule which holds in Little League Tournament play states that no pitcher can hurl in two straight games regardless of rest.

The Littlefield margin of victory

over Morton was very slender. In fact Littlefield trailed, 6-4, at the end of the fourth inning.

It was the team hitting of the All-Stars combined with clutch defensive play, and timely pitching from relief hurler Cox that saved the day making the District Tournament a reality.

Ross started on the mound for Littlefield, and he yielded two walks and a home run to Morton's big center fielder, Terry Terrel. (Continued on Page Four)

Women of the community served homemade ice cream and cake to area farmers and Littlefield businessmen who attended the social.

Next farm dinner on the schedule is one at the Whitharral school Aug. 14, a Friday night.

The event at Rocky Ford gave Littlefield businessmen a chance to talk with the community's farmers. Crop prospects, politics, and the ice cream and cake dominated the conversations.

Santa Fe Trails Offers Revised Freight Service

The Santa Fe Trail Transportation Company, effective Wednesday, revised its freight schedules to provide overnight service from Dallas and Fort Worth to Levelland, Littlefield, Muleshoe, and Morton.

This expedited service replaces second morning service previously in effect. It is brought about by revision of schedules to provide for a morning departure out of Lubbock, making connection with the freight schedules arriving from Dallas and Fort Worth.

One schedule operates from Lubbock to Muleshoe via Littlefield and another schedule operates from Lubbock to Levelland to provide overnight service at these points.

The Lubbock to Muleshoe schedule will return to Lubbock via Morton, which will also provide for first-day service from Dallas and Fort Worth into Morton.

The Santa Fe trucking operation will continue overnight service to these points from Amarillo and Lubbock as it has in the past. Also, second day arrival moving via Santa Fe Trails all the way from Houston has been in effect in the past.

City Will Mow Weeds, Fight Insect Problem

Shell Plugs 'Hard Luck' Oil Project

Shell Oil has given up on its "hard luck" hole, the No. 1, C. R. Anderson wildcat venture which was spudded back in March.

The company has plugged and abandoned the project, located 5 miles south of Littlefield and 3 1/2 miles southeast of the Illusion Lake field.

The hole was plugged at 8,836 feet after drillers had no luck with a month-long fishing job.

The project represented an investment of one to two hundred thousand dollars if everything went smoothly, but with the hard luck it encountered, the cost may have been higher.

The project was scheduled to be drilled to 10,000 feet. It started out normally enough until it had dug down to 6,895 feet in mid-April.

At that depth, it twisted off the drillstem, and a section of the pipe broke off in the hole.

After three weeks of fishing for the pipe, Shell backed up the hole to 4,600 feet and set a whipstock, a device to drill at angle, to get around the hardened steel pipe.

The whipstock appeared successful and the wildcat bored into formations below 8,000 feet. However on June 24, it lost more tools, or "junk" at 8,836 feet.

NEW CITY MANAGER J. W. HARRISON

New Manager Starts Saturday

Littlefield's new city manager, James W. Harrison, will start to work Saturday morning, but his first day's work should be a "breeze".

He'll take the afternoon off along with the rest of the city's employees.

But Harrison, employed in June after voters approved the new city charter in February, will get into the full swing of things Monday morning.

Harrison, his wife and daughter moved into a home at 612 E. 17th last week and have been gone on vacation this week.

Harrison, 35, will share an office with Mayor Ellis Foust, at least for the present.

"I'm going to help him all I can" while he's getting started, Mayor Foust said Tuesday.

The new Littlefield city manager has been assistant city manager of Borger, a city of 25,000, almost three years.

He is a veteran of more than 10 years service in city administration and other work in which he has had close contact with municipalities.

Shredders Purchased By City

Littlefield's City Council, declaring all-out war on mosquitoes, launched an attack on the pests' breeding grounds Tuesday.

City employees went to work with tractors and shredders on the mosquitoes' home base - vacant lots where weeds harbor the insects.

The move came after councilmen met in a called session Monday night and voted to purchase two new shredders at a cost of \$650.

Councilmen themselves provided some of the weapons in the insect war.

The city already had one tractor and shredder before it purchased the two new shredders. A fourth shredder and another tractor were loaned by Western Cottonoil, where Councilman Rip Elms is manager.

Councilman J. E. Chisholm chipped in with another tractor, and a fourth tractor was borrowed for the city by Elmo Jones, a member of the Jaycees.

The Jaycees originally had planned to do the mowing, but they were unable to borrow the necessary equipment. Farmers themselves are busy with their equipment, lighting weeds at their own places.

"The city is going to mow lots for free just this one time," said Mayor Foust.

The mayor said the council has authorized City Attorney B. H. Street to begin work on an ordinance whereby the city would mow vacant lots in the future and charge for it.

The mayor said he felt it is "out of line" for the city to mow vacant lots at no charge, but "we're going to do it this time."

City workers were busy at the project all day Tuesday and planned to continue their work until the entire city has been covered.

"We'll mow 'em as we can get to 'em," said Mayor Foust. In the meantime, he said, it would help if as many property owners as possible would mow their own lots.

He also asked property owners to help remove rocks and trash from the lots to make the work go faster.

"We're stopping everything else to get to these weeds," said Mayor Foust. "If we don't do any- (Continued on Page Four)

3 Minor Mishaps Investigated Here By Police

Police investigated three auto accidents in the city Friday and Saturday. No injuries were reported in any of the mishaps.

The first occurred Friday morning on Hall Avenue. Involved were a city garbage truck driven by Mitchell Herrrell and an auto driven by Alvin W. Holmes.

Officers said Herrrell made a right turn, starting into an alley from the left lane. The truck and car collided in the right lane. Damages were estimated at \$90 to the Holmes auto and nothing to the city truck.

An accident Saturday morning at the intersection of Brownlee and Highway 54 involved vehicles driven by Leonard King and R. C. Haynes.

King was traveling south on Brownlee and Haynes was going east on Highway 54 when the vehicles collided at the intersection. Damages were \$75 to the King pickup and \$150 to the Haynes auto.

The third mishap occurred Saturday about 12:50 p.m. and involved autos driven by Sandra Carmickle and Raymond Ortiz.

Miss Carmickle was traveling west on U.S. 84 and Ortiz was driving north on Duggan, and the two cars met at the intersection. Damages were \$310 to the Carmickle auto and \$400 to the Ortiz car.

The Soldiers' Bonus Bill for veterans of World War I was passed over President Calvin Coolidge's veto in 1924.

The Irish Easter rebellion in 1916 began when a German submarine landed Sir Roger Casement, the Irish leader, on the Irish coast.

FOUR PERSONS WERE HURT when this auto overturned about 9 a.m. Sunday on a dirt road four miles north and three east of Oilton. Seriously hurt was Jesus Arana, 27, who reportedly still was unconscious Tuesday at Methodist Hospital, Lubbock. He was pinned under the car after the mishap. The other three, Jose Hernandez, 24; Pedro Hernandez, 21; and Reyes Quintana, about 29, were treated and released from the hospital. All four are Mexican Nationals here for the harvest season. Officers resorted that the car, driven by Arana, appeared to have been weaving from side to side. The auto left the road on the right side, and as the driver attempted to turn the car back onto the roadway, it overturned.

Total score was the Flubbers 1317 and the Dubbers 1212.

The Dubbers include Captain Nina Talburt, Ann Barnett, Frances Chamberlain, Dorothy Brown, Evelyn Foust, Jean Gilliam and Maurine Giles. They will be hostesses at a dinner in the future honoring the Flubbers, Captain Jean Brock, Carol Hickson, Ellen Stokes, Jean McCarty, Virgie Hault, Lucy Dalton and Janey Webb.

Ringer tournament started Tuesday and will end Sept. 30. Lady golfers are still eligible to enter the tournament.

Low net of the field Tuesday was Eileen Stokes and low putting honors went to Frances Chamberlain.

Dairy Queen To Oppose W-K In Play-Off Contest

JOHN GREGG, field representative of the Lubbock office of the National Cotton Council, spoke to area farmers and ginners at a breakfast in downtown Littlefield Wednesday morning. He explained the steps being taken for greater cotton marketing and research with the use of slide projector illustrations. In favor of both domestic and cotton sales abroad he explained that the cost of producing synthetic fiber materials had increased and that the general public was not satisfied with much of the synthetic products. Bridwell Leads Legion Into Meet Semi-Finals

Jerry Bridwell limited Plainview to two runs and controlled a last ditch rally in the last inning, and he and his Littlefield teammates scored single runs in three different innings as Littlefield downed Plainview, 3-2, in the quarter finals of the Lorenzo Baseball Tournament Tuesday night.

In the opening frame, Pete Estrada, the first batter for Littlefield, reached base on an error by the first baseman and went to second when De Pierce walked. Bridwell, who rapped off three hits during the game, singled to load the bases, and Ronnie Rice walked to force Estrada across with the first run.

In the home half of the fourth inning, Littlefield again scored one run. P. C. Contreras walked and scored on Bridwell's single. Narrowed to three hits and no runs for the first six innings, Plainview got busy in the last inning. The first batter singled, and stole second, Bridwell fanned the second hitter and forced the next to fly to center field.

The victory enabled Littlefield to move into the semifinals against Abernathy. The game will be played on the Lorenzo diamond tonight at 6:30.

The rally ended there, however, as Plainview pitcher Plank settled down to retire the side.

But wildness struck Bridwell, and he walked three batters in a row forcing a run across the plate. One more scored on Shortstop Estrada's error, but Bridwell fanned the last batter to end the threat.

Littlefield Legion Grabs Opening Win At Tourney

Larry Pollard and Jerry Bridwell combined to hurl seven-hit baseball while their teammates scored five runs in the top of the third inning as the Littlefield Legion team rolled over Slaton, 7-5, in the opening round of the Lorenzo Tournament Monday night.

with a single. Pete Estrada singled, and De Pierce and Bridwell walked to force Ball across. Rice then doubled to clean the bases, and he later scored on Pollard's single.

The victory enable Littlefield to advance to the quarterfinals against Plainview.

Seven different players scored the Littlefield runs, but the big blow was a bases-loaded double by Ronnie Rice which drove home three runs in the big third inning.

Slaton jumped ahead, 2-0, when right fielder Gregg slammed a two-run home run in the bottom of the second.

Pollard added an insurance run in the fifth inning for Littlefield. Bridwell, who relieved Pollard in the fourth inning, got in hot water in the last half of the seventh as he walked two men, however, Gregg flied to first baseman Pierce for the final out.

Earth Victory Forces Play-off For Second Half

PONY League Park will be the scene of tonight's sudden death play-off game between Ware-Keeling and Dairy Queen for the championship of the second-half of PONY League play.

The two teams tied for the leadership when Dairy Queen dropped a make-up game to Earth, 7-6, and when Ware-Keeling defeated Olton in a tie-breaking game Monday night.

Since Ware-Keeling won the first half of PONY League play, they would become the League champions with a victory tonight. In that case, Charlie Duval, League president, has authorized Dairy Queen managers, Ray McKinney and R. L. Harrel, to select an All-Star team from the rest of the PONY League squads to oppose Ware-Keeling in a best of five series, starting Monday night.

Should Dairy Queen defeat Ware-Keeling in the sudden death game, they would be declared second half champs and would earn the right to meet Ware-Keeling in a best-of-five game series which would begin Monday night.

Dairy Queen blew a 6-4 lead in the bottom of the seventh inning to allow Earth to give them their first setback during the second half.

Also in PONY League play, Roden Drug defeated Olton in a make-up game Monday night.

Moore Paces Ware Team Past Olton

Ware-Keeling's Lefty Moore sent his team into a sudden death play-off for the second half of PONY League play when he cracked a home run off Olton pitcher Priest in the bottom half of the first inning of a tie-breaking game at PONY League Park Monday night.

Moore's blast actually made the score 7-6 and the game completed a game which was originally started June 25 in Littlefield. The game had gone nine innings, but since the teams were tied at 6-6 long after the time limit had been reached, the game was postponed until Monday.

Don Stevenson retired Olton in order in the top of the first tie-breaking inning, and that set the stage for Moore's home run.

Ware-Keeling will meet Dairy Queen in the sudden-death play-off game to decide the second half winner. If Ware-Keeling should win, an All-Star team from throughout the league will be chosen to oppose them in a best of five series.

'Baldy' George, Gordo To Tangle At Sports Arena

Gorgeo George and his blonde curly locks make a return to the Littlefield Sports Arena Saturday night, after an absence spent in various parts of the world.

He'll take on Gordo Chihuahua, the big Mexican heavyweight in the main event.

George still has all his beautiful robes, sweet smelling essence and his valet, along with what appears to be his curly hair.

However, the long and somewhat troublesome locks have been shaved off, with a blonde wig replacing them.

The wig is realistic, but wrestling fans are in for a shock when it comes time for action, for George removes the wig and his bald, shining dome appears.

That may spell trouble for Gordo, because he won't have a thing to grab except George. The two wrestlers are matched closely in size, ability and experience.

The first main event brings together Bob Geigel and a wrestler new to this area, Adman Kachy, from Turkey, has wrestled all over the world and comes here from Japan, where the world's best wrestlers have been competing in a tournament.

Matches start at 9 p.m. Saturday.

New Manager

1955, Harrison moved quickly up the ladder in Borger city government. He was chief sanitarian for the Borger Health Department for 10 months. During that period, he started a food establishment permit system in the city and operated a bacteriological laboratory. He then served three months as Borger's director of parks, recreation and health departments. In October, 1956, he was elevated to his present job as assistant city manager. In this post, he has acted as director of finance, personnel director, budget officers, purchasing agent and city clerk. This placed him over the accounting, utility billing and tax departments and 125 employees, compared with Littlefield's 35. As budget officer, he has been in charge of a \$1,075,000 budget, as compared with Littlefield's annual budget of about \$400,000. While working in his Borger post, Harrison continued his "education." He completed accounting and finance courses and holds a sewage operators license. He is presently enrolled in a municipal administration correspondence course. At Borger, he was active in the Junior Chamber of Commerce. In addition, he is a member of the Texas Public Health Association, Municipal Finance Officers' Association, International City Managers' Association and the National Institute of Municipal Clerks.

Court Meeting Slated Friday

County commissioners will meet in regular session Friday. They'll open bids on a new motor grader for precinct 3, Littlefield, and take up discussion of signs on all county vehicles except those used by the sheriff's department, according to County Judge Pat Boone Jr. A new legislative ruling in Texas requires that all city and county vehicles (except sheriff's and police cars) have signs with letters two inches high showing the county and the department in which the vehicle is operated. These signs must be on the vehicles by Aug. 11.

thing else for a week, we'll take care of the weeds." The city sprayed the entire town for mosquitoes a few days ago, but it did little good with high weeds still providing a home for the insects, said Mayor Foust. The city apparently was concerned over reports of encephalitis (sleeping sickness), caused by one type of mosquito, at Lockney. "We want to get these mosquitoes before they bring something like that here," said Mayor Foust. Closest case to Littlefield was one reported last week at Hart, north of Olton. The city purchased its new shredders locally from M&M Equipment, at a cost of \$325 each.

Little League Safety Council To Check Into Fire Equipment

(Continued From Page One)
to make the score Morton 3, Littlefield 0, before Cox was called upon to take over the mound duties in the first inning. In the top of the third, Littlefield drew its first blood when James Black reached base on an error. Jimmy Parmer singled, and Jimmy Langford doubled. Black scored on Langford's double, but Parmer was tagged out at home trying to score from first. Morton loaded the bases in the bottom of the third, but Cox retired Morton first baseman Turney on strikes to end the inning. Both clubs tallied three times in the fourth. Cox, Sammy Pair, and Doug Yarbrough singled back to back to score one run. Black grounded to the pitcher who took tagged Black out at first base while Pair scored from third. Parmer grounded to the first baseman, but he dropped the ball, allowing Yarbrough to score from third and Parmer to reach first safely. The inning ended when Langford flied long to center field. Now trailing 3-4, Morton struck back quickly. Charlie Hill, Morton third sacker, walked and stole the rest of the bases. Shortstop Risinger singled, and Terrel again drove the ball over the fence to put Morton ahead 6-4. Junior Hodge started the first of the last two Littlefield bats with a single. Steve Lowe followed by popping up to the third baseman, and Cox struck out. Then Ronald Siton stepped into Decker's first pitched ball and sent it screaming over the fence. Hodge and Siton scored, and the game was knotted at 6-6. In the top of the sixth and last inning, Pat Abeyta led off and struck out for Littlefield. Black reached first on an error, but he was forced at second when Parmer hit a ground ball to the infield. Parmer was safe on first. Langford hit a grounder to the first baseman, but he bobbled the

ball and all hands were safe again. This brought up Hodge for Littlefield. On a 2-2 pitch Hodge rode the ball over the heads of the infield, and when the dust cleared he was safe on second with a double. Parmer scored what proved to be the winning run. Cox was faced with the task of retiring the big guns in Morton's line-up in the bottom half of the sixth, and that was just what he did. Risinger flied to Langford in center, and Terrel popped to Siton at third. Decker singled, but Cox forced Catcher Lamar Poland to sky the ball to center field where Langford grabbed it for the final out. Although it was a tough game to lose for Morton, it was a great game to win for Cox, who is undefeated in more than 10 starts as a Little League pitcher, and for the Littlefield All-Stars. Soviet Russia declared war on Japan two days after the United States dropped an atom bomb on Hiroshima in 1945.

TOWN AND COUNTRY BY WENDELL TOOLEY

The FBI has over 150,000,000 sets of fingerprints. The average woman isn't impressed; she's washed more than that off the refrigerator.

Here's a good way to check our age: If you can remember the following things of the past, you're probably past 40.

When a small town could support two blacksmith shops.

Air conditioning in the bathroom was two small half moons in the little house at the end of the path.

It took six flat irons to do the family washing.

Dad brought milk to the house in an open bucket.

When "shorts" was something you fed a hog and not a covering for your posterior.

When you had to wind the Victrola after each record was played.

The name of the piano player that used to beat the "ivories" at the Hoot Gibson shows.

When Mamma stood bent over the washing board from 6 a.m. till noon each Monday.

When you were given a half-teaspoon of kerosene with sugar to knock a cold.

When you ran two miles to watch an airplane make a landing in a farmer's corn field.

When President Hoover started the first government giveaway by giving flour and commodities to the needy.

When the gals wore spit curls and black bloomers.

When the grocer gave you kids a big sack of candy every time dad paid the bill.

When the baby diaper was always a three-cornered affair.

When Happy Hooligan was your favorite comic strip.

When an old nag meant the farm plough horse.

When you had to crank the Model T and hold the cl-ck at the same time—and when changing tires meant that — not just changing wheels.

When the school principle could and did "whop" the behinds on misbehaved kids—and still keep his job.

When the Saturday night bath was taken in a wash tub in the kitchen floor.

When a farmer could grow any crop of his choosing (and got whatever he could for it).

Remember? Those were the good ol' days!

Orville Bassett and Tommy Adkins want me to remind everyone that they've moved the Littlefield Tire Company to a new location, just east of the Dairy Queen. This tire recapping plant is one of Littlefield's 1958 new industries and they are putting out a good product that is fast being accepted by area motorists. They have a big announcement coming up soon about a new tire they will introduce this area ... so watch for it.

Looking at today's advertisements we hope you'll notice the Mellorine bargain at Staggs Drug, the big giveaway at Kirk and Spencer Furniture, the bargains at Littlefield Discount, GE summer clearance at Bill Smith Electric, Penney's end of month clearance, and E. C. Rodgers has some good carpet and furniture buys.

You're in for a real treat out at the sports arena Saturday night. Gorgeous George will be there in all his glory... perfumed, his hair waved to the extreme etc. It's a good wrestling card and it starts at 9 p.m.

While we're on the subject of sports, our best wishes go with our Little League all stars who go into district playoffs in Hereford Friday night. Back them with your presence and enthusiasm... they're a good bunch of fellows, they made a good showing at Levelland last week.

Price, Olton West Pointer, Gets Training

Cadet David S. Price, 20, of Olton, a member of the class of 1961 at the U.S. Military Academy at West Point, N.Y., is undergoing a period of summer training with paratroopers of the 101st Airborne Division at Fort Campbell, Ky. The training is scheduled to end July 31.

This training by the 101st, van guard of the Strategic Army Corps (STRAC), is one of the high points of his tour with the academy.

Price, son of Mr. and Mrs. Duward S. Price, is a 1957 graduate of Olton High School.

There's the story about the farmer who stopped plowing long enough to get a drink from his beer bag. He hung the bag on a weed limb, expecting to come back for another drink a few rounds. He says about four hours later he came back for a drink and found that his water had moved up out of reach by the growing careless weed. He had to climb up on top of the tractor to rescue the water bag.

There was the tycoon who bought a new small sports car. When it was air conditioned, he said, "No, but I always keep a couple of cold ones in the refrigerator."

BACK FROM MINNEAPOLIS—This Littlefield group of Woodmen of the World members returned by chartered bus last weekend from Minneapolis, Minn., where they attended the national convention of the WOW. While there, the local camp's championship drill team performed and seated delegates from 44 states. The group attended the "Aqua Folles," saw an "Aquatennial" parade that lasted 2 1/2 hours, and visited Lake Minnetonka. On the trip to Minneapolis, they stopped at Wichita, Kans., and

Fairbault, Minn. Returning, they visited WOW Life Insurance Society's home office at Omaha, Neb., where the above photo was taken. Four other Littlefield families attended the convention and journeyed by car. J. D. Hodges of Lubbock, member of the local camp, drove the bus for the local group. Mrs. Waymon Barker was initiated into the Women's Court by the National Officers while at the convention.

Discouraging The Doctor

A few months ago Harper's magazine published an article on Britain's socialized medicine system. The author had much praise for it, and cited the fact that when he suffered a chipped elbow he was given free care.

This brought a letter from an American doctor which Harper's publishes in its July issue. This doctor found that statements in the preceding article "sound like the ecstasies of a confirmed freeloader who has discovered a saloon which still offers the old-time free lunch." Then he went on: "There is a widening gap between the quality of medicine as it is practiced in the United States and in Great Britain. According to Dr. Alistair Luton, an English physician now in the United States under a Ford Foundation grant, this is a typical English doctor's day:

- "50 patients before lunch
- "50 patients after lunch
- "20 or 30 house calls daily.

"Should we wonder that the English doctor is discouraged and unable to keep up with the march of medicine?"

Deterioration of standards and services is always a result of socialism—socialized medicine included. It could happen here, just as it has happened in England. And anyone who thinks that the socialized medicine issue is dead so far as the U. S. is concerned had better think again. A current proposal, for instance, would provide government-paid medical and hospital care to people drawing Social Security payments. Once that precedent was established, it would be just a matter of time before other groups demanded and received similar treatment. As the old Chinese proverb has it, the longest journey begins with a single step.

WALTHAM, MASS., THE NEWS-TRIBUNE: "Americans sort of like to think of efficiency as their own invention. We like to scoff at Europeans with their road tape, their delays, and their talk, talk, talk.

"But we'd better watch out. In a good many lines of endeavor, delays and red tape are getting pretty common in this country . . .

GRANDVILLE, MICH., STAR: "We don't miswater till the well runs dry," is a saying familiar to everyone and it certainly has a lot of truth in it, whether taken literally or figuratively . . .

"With our water supply, we have to worry before the well goes dry and make sure we have enough of it and the pumps to supply it for our daily needs . . . Likewise, with industry, we should appreciate its presence and make sure we don't lose it. When the well runs dry, it is too late. After an industry leaves a community it is too late to do anything about it . . .

NANTY-GLO, PA., JOURNAL: "It is appropriate now that the people, government officials, union leaders and workers themselves honestly consider the potentialities that another wage-price spiral may create in our country. Russia's boast for half a century that America would spend itself into bankruptcy may be possible if our dollars keep falling in value to a point of inflation equal to that of the German marks following the end of World War I . . .

STATE CAPITAL Highlights AND Sidelights by Vern Sanford

By VERN SANFORD, Texas Press Association

AUSTIN, Tex. — Tired of reading about the Texas legislature? Well — my friend — you're not alone. Seems like most everybody feels that way — including many members of the House and Senate.

Okay, then, for a little diversion let's look north and see what has been going on in our neighboring states.

Oklahoma's legislators also face a financial crisis. How did they get into it? First they cut some need-state. Their efforts have been stylish expenses, eliminated waste.

During the past six months printed for 18 months instead of there has been talk of a unicameral legislature, like Nebraska's. Also there has been talk of a referendum in liquor and they now side on taxes — especially sales tax. Some officials feel that the public, if it had its say today, would vote for a sales tax — and a state income tax and thus take the monkey off the backs of the legislators. But so far no sales tax — two things Texas does not have.

Putting the state in a better light, collection-wise, Oklahoma legislators swiped Uncle Sam's be acceptable to the people — that deal and added a state without the people fully realize the dilemma. This to assure more collection — that they at least would go along with a reasonable sales tax.

Six months of continuous session although they might be firmly opposed to it. Maybe a special election on the subject of a sales tax is the answer. At least the public would have a say in the matter and senators and representatives would not have to face the criticism continuously since January they now fear.

They may even have to go into a fourth special session. But if that earlier, don't you? An election they will earn the wrath that could have been held on the

soundings by the press indicate that a sales tax might very well be acceptable to the people — that deal and added a state without the people fully realize the dilemma. This to assure more collection — that they at least would go along with a reasonable sales tax.

subject at much less expense than that incurred in financing three additional special sessions, all of which actually centered around that very topic.

NEW BUILDINGS — While the Senate and House are busy trying to find a way to finance the state's future operations, governmental buildings still are being erected around the Capitol. In fact, they are beginning to dwarf the major edifice.

Occupancy of the first of these buildings to be completed has just been made by the Texas Employment Commission. Its six hundred employees are now housed in the \$2,400,000 structure.

A total of 11,000 pieces of office equipment were moved out of eleven downtown Austin locations into the new six-story building.

TEC began some 24 years ago with a staff of 25 employees in the state headquarters and 30 local offices. Now employed are 2,300 persons, with 93 local offices throughout the state.

GOVERNOR SIGNS BILLS — A bill by state Senator Bill Fly extending the time for removal of the offices of the State Board of Insurance from the International Life Building in Austin has been signed by Gov. Price Daniel.

The Commission rents some ten floors of the building. However, the rent is paid by the various insurance companies in Texas.

Earlier Senator Fly secured passage of a bill calling for the removal of the Insurance Commission from that building and the construction of its own office headquarters. Work has not yet been begun on the new building.

Other bills signed by Governor Daniel include one by Sen. Hubert Hudson, authorizing certain water districts to waive immunity from liability for negligence of its agents; a bill by Sen. Charles Herring relating to monies appropriated to the State Board of Barber Examiners; and two bills dealing with hunting and fishing. One, by Rep. Sam Parsons, would authorize the Game and Fish Commission to allow fishing and hunting of migratory waterfowl on lakes and rivers located upon a common boundary with other states. The other, by Rep. Zeke Zbrank, relate to the catching of catfish from the Trinity River.

LONG INVITE POCKETED — A second attempt to get legislative approval of an invitation to Gov. Earl Long of Louisiana to address the Texas legislature has failed. The latest effort, by Rep. Bill Jones of Dallas, drew little support.

Jones said that his invitation was a matter of "common courtesy" to the governor, who had expressed a willingness to address the Texas legislature when he came through the state recently.

TRINITY PROJECT PRESENTED — An application from the Trinity River Authority to "appropriate" 840,700 acre feet of water per year from the Trinity River and to store 1,579,000 acre feet, or nearly a two-year supply, has been received by the State Board of Water Engineers.

Hearing has been set for Monday, August 31.

The Trinity River Authority proposes to build a dam six miles southwest of Livingston in Polk County.

Its request calls for 95,200 acre feet of storage devoted to municipal use; 672,600 acre feet for industrial use; and 72,900 acre feet for irrigation purposes.

Babe Ruth earned \$80,000 in 1930, at the time the highest salary ever paid to a baseball player.

Highest point in Louisiana is in Caliborne Parish with an elevation of 469 feet.

Sandhills Philosopher

If He Weren't So Lazy He'd Be Mad About It

Editor's note: — The Sandhills Philosopher on his Johnson grass farm discusses a topic he no doubt is an authority on, laziness.

Dear editor:

One of the troubles with the world today is that it has to have an explanation for everything.

You take laziness. You'd think the word lazy means what it says, just lazy. But psychologists have to go into a long rigamarole explaining the deep psychological causes of it.

For example, I read in a newspaper yesterday afternoon while I was resting under a shade tree out here on my Johnson grass farm — well, technically I wasn't resting, at least I hadn't done anything to make me tired, what I was doing was just sitting there because I wanted to — where a prominent British surgeon has been analyzing laziness. According to him, "laziness implies a lot of intelligence. It is the normal, healthy attitude of a man with nothing to do. We should study its techniques."

This is what I'm talking about. Thunder, laziness doesn't imply a lot of intelligence, you can be lazy whether you've got any sense or not. You can be dumb and be lazy, and you can be intelligent

One-key control: only Chevy in its field has done away with fumbling for two or three keys. The same key unlocks the door, starts the engine, opens the glove box and trunk.

WHY DO WITHOUT THIS CONVENIENT LITTLE TOUCH... LET ALONE

THESE BIG CHEVY VIRTUES!

BIGGER BRAKES

Not only bigger, but built with bonded linings for up to 66% longer life. Just to prove what's what, Chevy out-stopped both of the "other two" in a NASCAR*-conducted test of repeated stops from highway speeds.

*National Association for Stock Car Advancement and Research.

GREATER ROOMINESS

Official dimensions reported to the Automobile Manufacturers Association make this point abundantly clear. For example, Chevy's front seat room is up to 5.9 inches wider than in comparable cars. And Chevy even offers more front seat head room than all but one of the high-priced cars!

MOST ADVANCED ENGINES

We'll let SPORTS CARS ILLUSTRATED talk about Chevy's standard passenger car and Corvette V8's: "Indeed, this device is surely the most wonderfully responsive engine available today at any price." And every motor magazine concurs! There are eight V8's to pick from—the widest choice in Chevy's field.

FRESH STYLING

POPULAR SCIENCE magazine's experts took one look and said, "In its price class, Chevy establishes a new high in daring styling."

HIGHER TRADE-IN

N.A.D.A.* Guide Books carry the proof of Chevy's extra trade-in value. They show that Chevrolet used car prices last year averaged up to a solid \$128 higher than comparable models of the other two cars in Chevy's field.

*National Automobile Dealers Association.

"I hate parties ...when they're over!"

Parties are fun — while they last... but they're not fun when it comes to clean-up time. No one likes to hand wash stacks and stacks of dirty dishes. But the fun goes on when your electric dishwasher cleans up after a party. It's so much nicer to get the dirty dishes out of sight — then you can push the button anytime later.

SEE YOUR REDDY KILOWATT ELECTRIC APPLIANCE DEALER

SOUTHWESTERN PUBLIC SERVICE COMPANY

Party dishes are usually your best dish. When you wash them electrically—automatically... you eliminate dish chipping and dish breaking—an important money-saving benefit of sanitary electric dishwashing.

ATTENTION, HUSBANDS! Don't be a dishwasher... buy one. Best of all, electric dishwashing costs only a penny and a half per day.

FULL COIL RIDE

You've almost got to find a really rocky road to show off Chevy's easygoing ride to full advantage. MOTOR TREND magazine gives you an idea, though: "... the smoothest, most quiet, softest riding car in its price class."

BIGGER SAVINGS

Two Chevrolets packing out pennypinching 6 with Power glide delivered a whopping 22.38 mpg in this year's Mobilgas Economy Run, winning the first two places in their class and walking away with top honors among all full-size cars. How can you argue with a figure like that?

No wonder more people are buying Chevrolets in '59 than any other car.

Women Fire Spotters Are 'Very Reliable'

ALBANY, N.Y. (AP) - "When there is a bad fire, it seems to creep in," the middle-aged widow says. As she stands in her lofty perch atop Sugar Hill in Schuyler County, north-west of Elmira, N.Y., Mrs. Lorna Dewitt watches for forest fires as do three other women in other parts of New York State. The four, among New York's 108 fire-spotters, have been keeping vigil for a total of 35 years. The veteran is Mrs. Helen Ellett, 45, who has watched near Troy for 12 years. Mrs. Sophia Anderson, 60, has been on duty southeast of Syracuse for 10 years; Mrs. Leona Borst, 53, has watched west of Albany for nine years, and Mrs. Dewitt for four years. "They are real experts at scanning the horizons for fire," says Solon J. Hyde, head of the New York State Conservation Department's Bureau of Forest Fire Control. "They are very reliable."

David H. Sager Takes Part In Navy Exercise

David H. Sager, radarman second class, USN, son of Mr. and Mrs. Henry Sager of Route 1, Littlefield, serving aboard the destroyer USS Cushing, took part in a full-scale naval review and visit to San Francisco, Calif., July 17-20, after completing a major exercise held off the California coast. The 15,000 men and 26 ships of the U.S. First Fleet were reviewed by Admiral Herbert G. Hopwood, USN, the Commander-in-Chief of the U.S. Pacific Fleet, as they passed under the Golden Gate bridge. The exercise which preceded the San Francisco visit involved fast-moving aggressive attack carrier teams which struck at simulated mainland targets as naval air patrol squadrons and submarines held the defensive roll. Exercises of this type are designed to give advance training to personnel preparing to make cruises with the U.S. Seventh Fleet in the Western Pacific.

New Hampshire was the first independent state in this country, announcing its independence of Great Britain three weeks before the 12 other colonies declared their independence on July 4, 1776.

WORK WITH, NOT AGAINST

A woman doesn't lose her femininity if she chooses a typewriter instead of an apron. That is, if she keeps her perspective. "Being a woman is a state of mind, with little relation to title or paycheck," says psychologist Peter E. Siegle, who has just completed a study of 250 women in business. The balance of difference, Siegle says, is how the woman rates her non-office areas of life to her office duties. "Some tend to get their roles mixed up and treat their husbands like the office messenger boy. Naturally this leads to trouble."

 Did you ever stop to think that we don't stop to think nearly enough?
 President Eisenhower brought that thought up at a recent press conference, and he thought some more about it later on in a speech. It is something worth thinking about.

IT'S THE LAW in Texas
 In planning your will, your lawyer will want to know your true wishes; and then, to help you realize them, he will want to know a few vital facts.
 Are you married? Any children or grandchildren? Previously married? Widowed? Your age and those of your beneficiaries: Legal residence? Health?
 Why these questions? You'll have to work out your plan in view of the laws governing death taxes, property laws, and, if you are married, separate and community property.
 Age? If you wish to set up trusts in the will, your age and those of your beneficiaries may help you to decide whether, for example, to use capital of the trust fund as well as its income for the beneficiaries.
 Your residence: Most important, since state laws govern many items of personal property.
 Do you plan to move to another state? If so, consult its laws. Many people who come to Texas from other states should be aware of their
