## Valuation Gets OK

Lamb County school board, seeking an additional \$45,000 in local revenue, Monday night ordered a 20 per cent increase in taxes for 1960.

Board members were unanimous in saying they believed the general public was ready to go along with the 20 per cent valuation increase, rather than hold an election to raise the tax rate.

But the board is banking on a normal yearly increase in valuations to send the figure on up to near \$45,000.

At present, actual values are assessed at 40 per cent, meaning that a person pays taxes on \$40 of the actual value of \$100.

Under the order passed by the board Monday night, a person will pay taxes on \$480 if the actual value is \$1,200.

A taxpayer can also figure it another way. If his school tax bill was \$50 last year, it will be \$75 in 1960 — 20 per cent more.

That will hold true with almost all taxpayers. However, as the rolls are changed to the 48 per cent basis, tax valuations will be checked closely.

School Secretary Sid Hopping told the board he would attempt to bring any property he discovered over or under-taxed closer in line.

"I'LL TAKE 'EM ALL"—Pretty Jo Ann Grissom, nine-year-old daughter of Mr. and Mrs. Landon Grissom, looked over the dress she will model at the style show Friday night.

## 'Spring Breezes' Will Blow Friday

No matter what the weather—snow, dust or rain—it will be Spring Friday night at the Littlefield Country Club. A Spring garden setting, accented with Spring pastel colors, will be featured in the "Spring Breezes" Style show at 7:30 p.m. Local models will present the newest in fashions and accessories for this year.

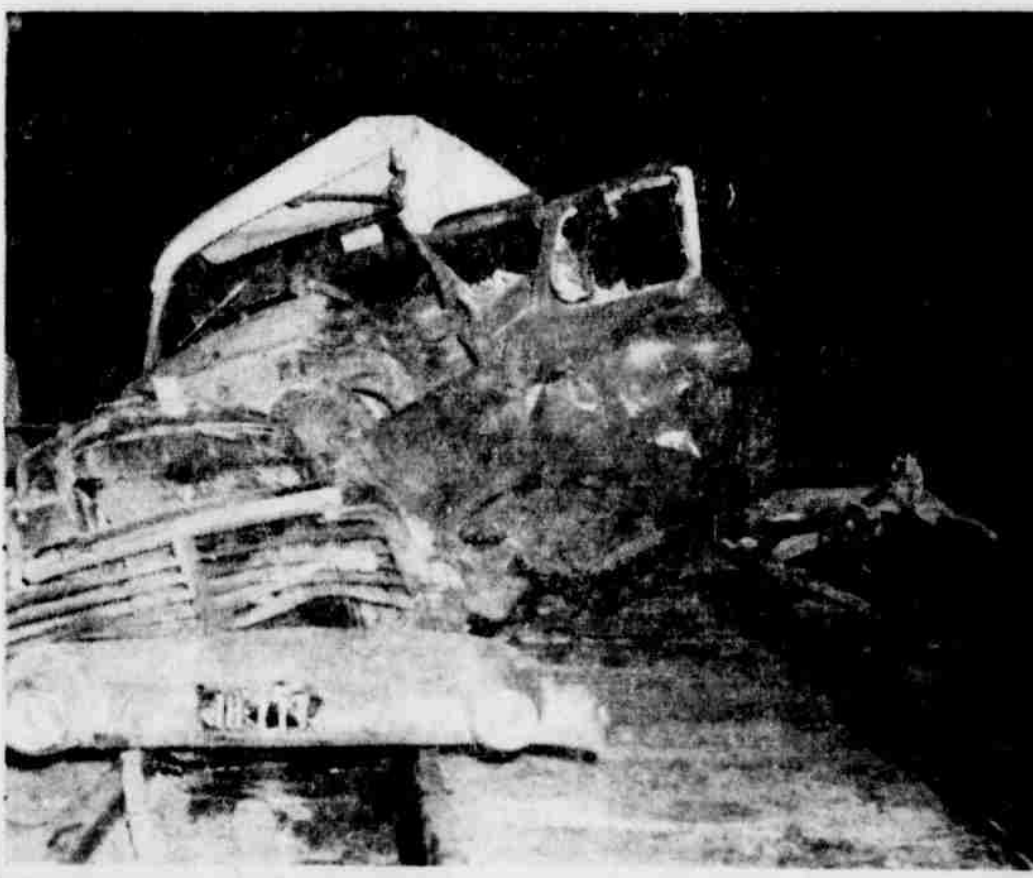

## Two LHS Choirs Win Regional Sweepstakes

Littlefield High School's A Cappella Choir captured sweepstakes honors in Region 1 Interscholastic League competition for the fourth year in a row Saturday at Lubbock.

## Rail Crash Kills Littlefield Pair

### J.C. Bales, Wife Die In Mishap

A Littlefield brick contractor and his wife, returning home the same way they had for years, were killed here Tuesday night when a 52-car freight train smashed into their pickup at the Westside Street crossing, only a half-block from the Bales residence.

CRUMPLED BY TRAIN—This is the pickup in which Mr. and Mrs. J. C. Bales were killed here Tuesday night after it was struck by a 52-car Santa Fe freight train.

John C. Bales Sr., 52, and his wife, Mary Allene, 51, died instantly in the crash, which occurred at 8:55 p.m.

Funeral services for the couple will be conducted at 2 p.m. today at the Missionary Baptist Church, with the Rev. James Cox, former pastor, officiating.

Burial will be in Littlefield Memorial Park under direction of Hammors Funeral Home.

The couple is survived by three daughters, Mrs. Dorothy McDonald of Lubbock and Mrs. Patsy West and Mrs. Betty Giles of Littlefield; four sons, J. C. Jr., James, Billy and Jim, all of Littlefield; and seven grandchildren.

He is also survived by his parents, Mr. and Mrs. A. D. Bales, four brothers and three sisters. Mrs. Bales is also survived by three brothers and a sister.

The couple had lived here 16 years. The home is on Teason Road, about a half-block east of the Westside Street crossing. Both were natives of Honey Grove, Texas.

Bales was driving as the couple drove north on Westside in a 1958 model pickup. The Santa Fe freight was headed southeast on a Clovis, N.M.—Slaton run.

Bodies of both victims were hurled hundreds of feet after the shattering collision. Bales' body was found 60 yards from the impact point and the body of Mrs. Bales was 115 yards further east.

Both bodies landed on the north side of the track.

The impact sliced the pickup in two, with the train dragging the crumpled sections of the vehicle nearly to the Littlefield depot, nearly a mile east of the Westside crossing.

Train fireman W. L. McDonald of Slaton said he first spotted the wreck.

## For Precinct Barn

### Old VFW Hut Goes To County

County commissioners voted Monday to pay the John Henry Chapman Post of the Veterans of Foreign Wars a settlement of \$2,400 for relinquishment of the old VFW building to the county.

The funds will be paid in equal portions from the general fund and bonded funds, upon surrender of the building in satisfactory condition.

County Judge Pat Boone Jr. said the building will be used as a barn for precinct 3 equipment.

County commissioners canvassed returns of the March 5 Weed Control District election, appointed a new county health officer and passed an order calling for an audit of county funds for 1959.

Final count on the weed election was 1,020 against and 121 for.

Dr. D. J. Stafford was named county health officer for a two-year term, succeeding Dr. Ralph Maurer. Salary for the post is \$50 per month.

The court will take up the business of employing an auditor at its next meeting, Judge Boone said.

Liquor Law Trials Continue; 1 Man Acquitted

Trial in cases of liquor law violation will continue today and Friday in Lamb County Court, where a jury returned a verdict of not guilty in a liquor case late Tuesday.

Edward O'Mary of Littlefield won acquittal on a charge of possession of whiskey for purpose of sale. A jury headed by Ardis Barton of Earth was out about 35 minutes before returning the verdict.

The jury ruled, in effect, that the whiskey O'Mary had on the night of Jan. 9, 1960, when he was arrested, was for the defendant's own use.

Scheduled to be tried next are liquor law cases against Joe Pat Anders of Anton and C. J. Hutson of Littlefield. Anders probably will be tried today, according to County Attorney Curtis Williams.

Now He Knows The Reason Why Farmer Should Profit

Editor's note: The Sandhills Philosopher on his Johnson grass farm may be putting an odd twist on a set of figures, but his letter this week indicates, we never attempt to correct him.

Dear editor: When I run out of something to do out here on this Johnson grass farm, I can do it any time I don't feel like working. I like to amuse myself by reviewing the latest situations on the farm problem.

Last night I got an entirely new slant on the farm problem and its importance. According

# IT'S THE LAW in Texas

**UNANIMOUS**  
Jury duty is an experience everybody ought to have. In a criminal case twelve jurors have a duty to do justice as each one sees it, and yet be unanimous. In most trials both sides have much to say, and the evidence is conflicting. The twelve jurors vary in their ability, temperament, character, education, and their experience in the world, and in the question at stake.

Yet a jury made up of both sexes, with wide age and educational differences, jobs and origins must all come up with the same verdict. Upon their verdict much depends — the life or liberty of others, and the public good. So it may take them days of talking among themselves, day after day.

Jury duty calls for insight, common sense, courage, tact, fairness, patience, especially toward the jurors who disagree with you, good humor, tolerance, balance, willingness to hear others out and change one's mind, readiness to go over and over the facts to find something to bring agreement. In short, jury duty demands a "decent respect to the opinions" of others.

More and more women share civic duties, especially as jurors. Time was in Texas when women could not serve on juries. They still cannot in four states.

A jury finds facts. It hears and weighs evidence and then comes to a verdict. It does not make the law — the legislature does; and the judge "charges" or instructs the jury concerning the law applicable to the particular case it is considering.

The judge will tell you not to find the accused guilty until he is proved so under strict rules of evidence. If you have any "reasonable doubt," not imaginary or far-fetched—acquit the accused.

Civil cases do not demand a moral certainty, merely the "preponderance" of what you regard as reliable and believable evidence.

(This column, prepared by the State Bar of Texas, is written to inform—not to advise. No person should ever apply or interpret any law without the aid of an attorney who is fully advised concerning the facts involved, because a slight variance in facts may change the application of the law.)

# Season Of Tornadoes Is Here Again For Area

It's that time of year again when a funnel appears to be approaching a town. Tornado formation, according to the Weather Bureau, requires presence of layers of contrasting temperature, moisture, density and windflow. Cool, dry air from the west or northwest moves over warm moist surface area. When this is accompanied by a narrow band of strong winds at intermediate levels, a whirl occurs. This whirl is the tornado.

Three years ago, this area was struck by two vicious funnels about the time of Easter. There was no loss of life, but property damage was extremely high.

The worst tornado in Texas' history was one at Waco May 11, 1953, when 114 persons were killed.

No real protection against tornadoes has been devised except going underground, either in a storm cellar or a well-supported basement.

But some protective measures can be taken. Tornadoes usually travel along the ground at a rate less than 20 m.p.h. although winds within them may be 500 m.p.h. So an automobile easily can outrun them.

Tornadoes travel in a general southwest to northeast direction, although they may change directions often while moving in a generally northeasterly direction.

Persons caught in the open should lie flat in the nearest low place.

Weathermen say the safest place in a building is the southwest corner. This is because debris from a tornado running true to form would be blown away from a person in the southwest corner if the house is demolished.

Persons in a tornado's path should not try to seal their home or office building. The tornado acts like a tremendous vacuum pump and a house can be literally exploded outward by the inside pressure when the tornado reduces the outside pressure.

# Little Elected

Bill Little was elected to head the Littlefield Jaycees this year at a meeting of the club Tuesday night.

Other officers elected were Bob Pell, first vice president; Earl Pierce, second vice president; Elbert Dillon, secretary; Arthur Summers, treasurer; and Larry Messer, state director.

Members elected to the board of directors were Charles Franz, John Ed Hutchins, Waymen Messer and Tom Stanley.

# City Council

City councilmen will meet in regular session tonight at 7:30 in the city hall.

On the agenda are these items: opening of bids on a half-ton panel truck for the fire department; opening of bids on water and sewer pipe for the Sunset Addition; selection of hospitalization insurance plan for city employees; final approval of Sunset addition plat; and discussion of improvements to the park in Crescent Park.

Trouble is, \$3 times 52 weeks times 20 years is \$3,120.

# Roper Tractor Company Sets Grand Opening Here

With the Grand Opening Friday of Roper Tractor Company, Littlefield counts its third new business in a week.

Roper Tractor Company, located at 610 West Delano (Clovis Road), will handle a complete line of J. I. Case tractors and implements, according to Bill Roper, owner.

Roper has lived here for the past 22 years, confining his business activities to farming and trucking. He obtained the Case franchise from the company several weeks ago.

Don Crow, manager of the new business, has been with Case Industrial Equipment in Lubbock for a number of years, Roper stated.

Roper continued that during their opening day there would be free coffee and donuts, entertainment and door prizes for all who visited the establishment.

Roy Ferguson, Case dealer here for the past 20 years, expressed his best wishes to the new Case dealer and thanks to the many area farmers who patronized him while he was the dealer. He will remain at his former location, clearing out miscellaneous items.

1. Agreed to send a letter to the City Council requesting school crossings for youngsters who have to cross Highway 81 on their way to school. Jerry Kirby appeared before the board and stressed the need for a school crossing plan.

2. Approved for A. C. Chesher an offwell location on the junior high campus. Specific location on the property will be determined later, but Chesher was given the go-ahead to drill. Drilling will not begin until after school is out.

3. Approved textbook selections for 1960-61, including books for spelling, science, drawing, high school art, trigonometry and journalism.

The \$45,000 which the board had said is needed for the schools to operate was broken down this way:

1. \$15,000 for the new junior high boiler and repairs to the heating system at the junior high and primary.

2. \$14,000 for four additional teachers to reduce the teacher-pupil ratio.

3. \$8,000 for funds to provide teachers with a pay raise of \$12 per year.

4. \$5,000 for the state participation fund assignment.

5. \$3,000 to supplement the athletic fund.

**British Educational System Favors 'Cream Of Crop'**

If we accept the views of some critics at face value, American schools are in bad shape. Standards are woefully low. Other countries, such as Britain, are so far ahead of us as to be practically out of sight.

This kind of criticism, and the very serious questions that arise from it, caused U. S. News & World Report to look into the British educational system and to compare it with ours. The results of the study, under a London dateline, appear in the magazine's March 7 issue. And the picture, from the American point of view, is a good deal brighter--despite some cloudy patches--than the more extreme detractors of U. S. education would have us believe.

The article starts out with the big question--do British children get a better education than their American counterparts? And that, it finds, can't be answered with a simple, unqualified "Yes" or "No". The answer instead, is divided: "It is true for a minority -- the brightest children in Britain. It is not true, on the whole, for the majority of youngsters."

It is important to understand that there are fundamental differences between the British school system and ours. As the magazine puts it, "In Britain, the bright pupil gets practically all the breaks." If it is decided, when he is 11, that he is among the top 25 per cent of pupils in his district he is eligible for a special school, and is destined to get much more education than the mill-run of children.

These latter, the article goes on, must be content with the second best. Attending college is virtually out of the question. They usually enter the ranks of labor at 16.

Britain's famous "public schools" -- which are in reality private schools, with tuitions running to \$1,500 a year -- are widely and deservedly praised, as are her great universities. But only about 7 per cent of British children go to those schools. Moreover, Britain is near the bottom of the list of nations -- 25th -- in the proportion of population attending universities. The U. S. is first, in this regard, and Russia is second.

U. S. News observes: "Many educators say the big difference between British and American schooling is this: Americans believe that all children should have the opportunity of equal education. The British believe in educating an intellectual elite by limiting the opportunity of higher education to a tiny minority."

Britain does seem to be ahead of us in certain areas. Educators are high in their praise of what is known as "streaming". This is a system by which children are assigned to classes on the basis of intelligence, so the bright child will not be held back by the dull. And British schools seem to be much more advanced in maintaining discipline than is generally true on our side of the ocean.

But American education has its virtues, too. As a matter of fact, Britain is borrowing ideas from U. S. education, and is particularly interested in providing greater educational opportunity for more children. Here's the conclusion U. S. News reaches after its close study: "The conclusion reached after a close look at the educational system in this country is this: The theory that British schools are better than American schools doesn't hold as a general proposition. The brightest pupils go to schools that, on the whole, are appreciably better than most American schools. But the vast majority attends schools that are inferior to those in America. And, for most, school days end at a very early age, by U. S. standards."

**Grassroots Opinion**

MORRISON, ILL., SENTINEL: "At twenty, a young man thinks the competition in getting ahead is fierce, and so it is. At thirty he finds it worse because more is expected of him."

"Skipping the other decennials brings us to seventy, at which age it would seem that competition would subside, but no. Those who survive seven decades find themselves members of a hardy, tough, seemingly indestructible group."

--oOo--

PHILLIPS, WISC., BEE: "Instead of individuals in the states contributing extra money to the federal government in order that the federal may dole out educational handouts, wouldn't it be far better if the states themselves would collect that same money and hand it back to the individual districts in the state?"

--oOo--

DULUTH, MINN., PUBLICITY: "The U. S. income tax was 47 years old Feb. 25. Does anyone want to sing 'Happy Birthday' to celebrate the joyous occasion?"

"When it was born in 1913, few people foresaw how the tax would grow. It started with a nibble of one to six per cent. Now it gobbles 20 to 91 per cent."

"The result has been to eat up savings and capital and stunt the growth of the national economy."

--oOo--

HARTFORD, KY., NEWS: "Roman tax collectors, we learn from Newsweek magazine nicked Vice Chairman Giovanni Agnelli of Italy's big Fiat works a mere \$92,000 in income tax on his 1958 salary of \$638,000. If Fiat and Signor Agnelli were in Detroit, the magazine points out, his take-home pay would have been \$462,000 less--or about 13 cents per earned dollar."

We make just enough Gladiola Flour for our near neighbors—in Texas and a little bit beyond. These ladies are the best home bakers in the U.S.A.—and the sharpest judges of flour quality.

That works out fine for us. We know precisely what our customers want, and precisely how to make it. That's why snow-white Gladiola Flour outsells every other brand, every day, every year.

The women-folk in Kissimmee, Fla., just can't bake biscuits, cakes and pies like yours. They don't have Gladiola Flour. Only you and your neighbors can buy it. And, for the average family, it costs only about 1/2¢ a day more than the cheapest flour made.

Don McBea, a former Army postal worker, died in Rifle, Colo.

Another big Mobilgas Economy run is rapidly getting organized, and every motorist will be carefully watching the results, so he'll know what the best "miles per gallon" car is.

Heretofore, it's been sorta misleading... the prospective auto buyer sees all the amazing reports on what each car got per gallon on the economy run, and he supposed he'd get the same thing if he bought one. What he didn't know was the many chances and professional techniques that went into each car to make it produce the unheard-of gas mileage.

For instance radios, heaters, most of the electrical equipment is stripped from the cars... they do all they can to make the car lighter and to relieve the generator pull... they drive with windows up to cut down air resistance... they make a trial drive of the route to be covered, makes notes of hill locations... they drive with their shoes off to get a better sense of pressure on the accelerator, and of course they're driving at a pretty slow rate of speed.

Well, it's good to know that this year's economy run will be more practical and believable.

One of the regulations which help to assure the legitimacy of the contest is, although the entrants designate the makes and models they want to represent them, USAC officials pick the cars from showroom floors, warehouses or assembly lines.

A record field of more than 55 American-made cars is lined up for the 2,000-mile drive from Los Angeles to Minneapolis April 24.

When USAC officials have ascertained a car is a stock model, 50 seals are placed so that unauthorized parts changes can't be made.

During the run, a USAC observer rides in each car to report any violation of the rules of traffic laws. Cars must make each driver's leg within the allotted time or be penalized.

Further to maintain accuracy, all fueling is done by USAC technicians and the gasoline is measured to the hundredth of a gallon.

And when the race is over, watch the reports carefully, most every auto manufacturer will claim his car won. The accurate test is "miles per gallon mileage" which takes into consideration the size of car that was moved per mile per gallon.

One of the most interesting articles I've read in a long time is "How Can the Government Operate Without the Personal Income Tax?"... \$8,000,000,000.00 Down the Rat Hole."

You will be asked by many people — "How can the Government operate without the Personal Income Tax?" The answer is simple.

Not one penny of your personal income tax is used by the Federal Government to finance any part of the government authorized by the Constitution of United States of America. It does not pay a soldier, a sailor or a marine. It does not buy a tank, a ship or a plane or bullets or clothing or food. It does not pay the President, the Vice President, Senators, Congressmen or any other person on a job authorized by the Constitution.

Now here is how it is used. It is used to pay farmers to grow more wheat, corn, cotton, tobacco, etc. than the public can consume and they are also paid for not farming. In excess of \$5 billion per year is used as so-called Federal Aid to states, which has been one of the tools used by the Federal Government to destroy the sovereignty of the states. Approximately \$4 billion per year is being used to construct in foreign countries highways, airports, shipping canals, and to build plants in foreign countries which are competing with American private enterprise and with no investment in their plants. It is used to finance the TVA program and the TVA fertilizer program which competes with private enterprise.

It is used to finance 700 large Government owned corporations that are split into 3,000 companies and each competes with every

known phase of American private enterprise, and this is done TAX FREE, RENT FREE, OVER-HEAD FREE and with no possibility of loss, they just RAISE THE TAX. The value of these government-owned corporations is estimated from 50 to 100 billion dollars, and if these were sold to private enterprise, this amount of money could be deducted from the national debt, and these same corporations would go on American tax rolls, paying corporation tax, city tax, county tax and school tax; thereby, helping to finance all local issues, and since it would eliminate the annual loss of 28 billion dollars, which is the exact amount of personal income tax paid, the personal income tax and should be abolished.

It is estimated these corporations would pay corporate income taxes to the Federal Government in the amount of 8 1/2 billion dollars per year, and this could be used to reduce the debt annually, and through the repeal of the 16th Amendment, The United States of America could and should be debt free within a period of 25 years.

## Military Rites Set Tomorrow For Billings

Military funeral services will be conducted Friday at 2:30 p.m. in the First Methodist Church for Tech Sgt. Kenneth Dwight Billings, 23, Littlefield airman who died last Thursday in a traffic accident near Plattsburgh, N.Y.

Rev. Alby Colwell will officiate at the services, assisted by the Littlefield Missionary Baptist Church pastor, Rev. Cagle.

Interment will be in the Littlefield Cemetery under direction of Hammons Funeral Home.

Billings, son of Mrs. Fannie Billings, Littlefield, was killed when his automobile struck a utility pole after the left front tire blew out.

He graduated from Littlefield High School in 1949 and joined the Air Force in October. He was stationed with the Strategic Air Command at Plattsburgh AFB. He had served overseas in England, Okinawa, North Africa, Arabia and Greenland.

He was born Sept. 30, 1930 at Spade.

Survivors include the wife Jo Nell, formerly of Littlefield; his mother; one sister, Mrs. Hugo Dyer, Dimmitt; and a half brother, Gaston Billings, California.

Representatives of the state of Colorado department of employment are recruiting in West Texas in cooperation with Texas Employment Commission for workers who would like to go to Colorado and work in the Sugar Beet harvest.

## Lamb County Water

TOP in water levels in observation wells in Lamb County between January 1959 and January 1960 is shown on this map.

## Water Level Measures County Show Drop

Water wells in Lamb County 1960 measurements, of 8.94 feet during 1958, measured and average declines. Figures were obtained from the Texas State Board of Water Engineers and the United States Geological Survey in Plainview.

It was widely different behavior from that reported a year ago. Then an equal number of wells showed a decline of less than a foot, in the order of .64 of a foot. Twelve of that number were measured for a gain of from .06 of a foot in 1958 to as high as 8.54 gain. Whereas, during 1959, only one well showed a gain, and it was only .66 of a foot.

A well which in January 1959 measurement had gained 4 of a foot, this January has declined 9.64 feet.

Another which showed a gain

## Wagoner Carr Visits Here, Lays Campaign Plans

Wagoner Carr of Lubbock Monday brought his campaign for attorney general to Littlefield and other towns in this area.

The House speaker visited with friends here to discuss his candidacy for the attorney general's post and to lay campaign plans.

Carr, a former Lubbock county attorney and district attorney, called his candidacy a move for West Texas representation in a major state government post.

## Koller On All-District Basketball Second Team

Littlefield's Jerry Koller has been named to the All-District AAAA basketball second team, it was announced this week by Fred Cunningham of Hereford, district chairman.

Koller was the only Wildcat listed on the squad.

Named to the first team were Royce Heller of Phillips, Doug Cannon and Roy Sage of Levelland, John Mooneyham and Quinton Eppinette of Dumas and Carl Miller and Thomas Coffman of Hereford.

Heller, Cannon and Mooneyham were unanimous choices. In the balloting for both first and second team, there was a three-way tie for fifth place, so each team includes seven names.

Making the second team with Koller were Lundy and Cariker of Dumas, Caddell and Moore of Phillips, and Thomas and Eutkin of Hereford.

## Anton Track Team Finishes Second In Floydada Meet

Anton High's track team finished second and Bula's ninth in the 440 Class A division of the Whirlwind Relays at Floydada Saturday. Olton tracksters were eleventh in the Class AA division.

Tornie Biffle raced to first in the 180-yard low hurdles and 120-yard high hurdles to pace the Anton team. His times were 19.5 and 14.5 seconds, respectively.

Both times were new records for the Floydada meet.

Oren McGrew and Jan Crews gave another pair of firsts in the shot put and pole vault, respectively. McGrew threw the shot put 45-64 and Crews vaulted 9-2.

McGrew's toss was a record.

Norvel Roberts led Bula with a first in the 40-yard dash and seconds in the 100 and 200-yard dashes.

Roberts was timed in 55 seconds, a new record, in the 40. He also finished second in the 100 high hurdles, behind Biffle.

Contributing to Anton's team effort were a fourth in the shot put by Hugh Barnett, a third in the broad jump by McGrew, a fourth in the discus by McGrew, a fourth in the low hurdles by McGrew, and a fourth in the 800-yard run by Gohren.

Scoring points for Olton were Randeve Buchenau, fifth in the 100-yard dash, and the 40-yard relay team, which finished third.

## Damages Total \$8,600 In February Accidents

The Highway Patrol Service of the Texas Department of Public Safety investigated six rural traffic accidents in Lamb County during the month of February according to Sergeant D. S. Lawrence.

The Motor Vehicle Inspection Program, since its inception in 1951, has reduced the state's traffic accidents by almost 10 per cent, the sergeant explained. Before the inspection program was started, mechanical defects in vehicles was a causative factor in 13 per cent of the state's accidents. However, only four per cent of the traffic accidents are caused by mechanical defects now.

In making the announcement the sergeant reported two properties damaged, four injury and no fatal accidents. These wrecks caused a total property damage of \$8,600 with six persons injured and none killed.

The Highway Patrol supervisor advised motorists that Texas law requires all registered motor vehicles to have valid inspection stickers displayed by midnight April 15. "In addition, all trailers registered in Texas which exceed 4,000 pounds gross weight must be inspected," the sergeant said.

# STATE CAPITAL Highlights AND Sidelights

by Vern Sanford  
TEXAS PRESS ASSOCIATION

**By VERN SANFORD**  
Texas Press Association  
AUSTIN, Tex. — Texas legislators have been finding it hard to make hay with the sun shining. A number of statewide candidates are stumping the state, and legislative contenders are getting invitations to speak at rallies and before special groups.

But bad weather and the unaccustomed swiftness of the 1966 election schedule have made it harder for most to get campaigns rolling.

Legislative candidates report they are most often quizzed on whether they favor (1) a teacher pay raise and (2) a general sales tax. "Yes" in the first and "no" in the second are generally regarded as safest answers. But many old hands have misgivings, feeling that the two commitments together may put them in a hard situation come the next session.

**AMENDMENT LINE-UP** — In the Joseph A. presidential campaign year, amendments in the Texas constitution probably will get only secondary attention, though they are of vital importance to all Texans.

Four are to be voted on by the people at the general election Nov. 8. Their order on the ballot, as determined by a drawing conducted by Secretary of State Zedillo Stankley, will be:

1. An amendment authorizing the Legislature to create a hospital district in Lamar and Hidalgo Counties and part of Comanche County.
2. An amendment authorizing the Veterans Land Board to issue bonds at 3 1/2 per cent interest instead of the present 3 per cent maximum.
3. An amendment giving members of the Legislature annual salaries of \$1800 a year and \$12 per day allowances for a 120-day session. Sessions could go no longer than 140 days.
4. An amendment authorizing the Legislature to revise and regulate lenders and fix maximum rates of interest.

**SCHOOL COSTS JUMP** — A baby boom in the fifties means soaring school bills in the sixties, as indicated by the State Board of Education's 1966 estimate.

Board reported that cost of Texas public school program for next year will be \$35,000,000. This is an increase of some \$15,000,000 over the previous year.

Reason for the rise is more children — requiring more teachers, more books, more desks, etc. Total enrollment for next year is expected to be 2,251,571, an increase of more than a half million since the 1964-65 year.

Counties will have to pay \$75,000,000, or 20 per cent of the \$375,000,000 total cost.

**"SLEEPY VILLAGES" GO BIG TIME** — Twenty-one small Texas towns mushroomed 1500 cities during the fifties.

Texas Municipal League reported on towns that had grown 15 per cent or more — some as much as 1,817 per cent.

Twelve of the 21 big growers are towns near to one of Texas' three largest cities — Dallas, Houston and Fort Worth. Topping the list with rising expansion were three Dallas County towns — Irving, up 1,817 per cent; Mesquite, up 1,225 per cent; and Farmers Branch, up 1,211 per cent.

Industrialization was the key to the spectacular growth of most of the 21. In a number of cases, the coming of a single large plant started the boom rolling.

**TEACHER FUND GROWS** — Texas teachers' retirement fund has increased more than 25 per cent in the past decade, according to State Auditor C. H. Coates.

Coates reported that at the end of the last fiscal year the fund stood at \$389,341,289. This is \$140,000,000 more than 10 years ago.

Teachers pay 6 per cent of their earnings up to \$8,400 into the fund. State matches their pay.

Fund provides for a minimum of \$100 per month retirement pay for teachers and \$75 a month for their school employees. To make the fund grow, it is invested in municipal, state and federal bonds and certain corporate securities under supervision of a board of trustees.

**ATOMIC DISPOSAL BIT** — Water pollution from atomic waste materials could pose a real threat to public health, fish and wildlife in Texas, said Gov. Price Daniel.

Daniel praised the Sportsmen's Clubs of Texas for their concern over a proposal made at one time to dump concrete containers of low-grade radioactive waste materials in the Gulf of Mexico.

State Health Department, said the governor, keeps a continuous check on the state's surface waters for atomic pollution from fallout.

**NEED FOR ECONOMY CITED** — Need for the next Legislature to raise between \$150,000,000 and \$200,000,000 in new tax revenue has been predicted by the director of the Texas Research League.

Alvin A. Burger, head of the private organization which studies state government, said state spending will require \$1,000,000,000 a year in the 1964-65 biennium.

Burger urged careful analysis of the highway, education and welfare programs which take 85 per cent of the state budget.

As a money saver, he recommended taking the cost of maintaining farm-to-market roads out of the farm road funds. At present, this money can be used only for new construction, and farm road repair has to be paid out of other highway funds.

He suggested school consolidation as another avenue for economy. County governments, he said, need reorganization to eliminate duplication and problems in the efficient handling of money.

**CAR INSPECTIONS DUE** — Drivers without a green Texas-shaped sticker on their car windshields are advised to stop by an inspection station the first pretty day.

Department of Public Safety estimates that only about half of 1,200,000 vehicles in Texas had their 1966 inspection. Deadline is April 15. Col. Homer Garrison Jr., DPS director, suggests that the trip be made soon, before the lines get long.

**SAUSAGE PANCAKE BAKE**  
1 cup buttermilk pancake mix  
1/2 cup PET Instant (in dry form)  
1/2 cup water

### Seminar Scheduled For Secretaries

A seminar for secretaries entitled "Learn a Better Living," sponsored by the Caprock Chapter of the National Secretaries Association, International, will be held Saturday from 8:30 a.m. to 4 p.m. in the administration building of Lubbock Christian College, 5601 W. 19th St., Lubbock.

The program includes speakers from Lubbock Christian College, Texas Technological College, and Mrs. Della Bates Inman of Dallas.

### Social Security Can Benefit Disabled Farmer

Farmers may now qualify for disability protection under the social security program, John G. Hutton, manager of the Lubbock Social Security Office stated this week.

If he is at least 50 years of age and has a severe, long term disability which prevents any substantial activity, a farmer may qualify for monthly payments for himself and his dependents in the same manner as the city worker providing he has at least 5 years of social security coverage out of the 10 years before he became disabled. If he is under age 50, he may have his social security record "frozen" to protect his own and his family's future benefit rights.

"April 1960, will be the first month for which most disabled farmers can be paid," Hutton said. "Most farmers had no social security credits before 1955, and October 1 is the earliest date on which they can meet the work requirement. The disability must last at least six months after this date before payments can be made."

Hutton emphasized that all disabled workers including farmers who have questions regarding possible disability protection should consult the local social security office promptly. The office in Lubbock is at 2878 - 34th St. and is open Monday through Friday (except holidays) from 8:30 a.m. to 5:00 p.m.

A representative of the Lubbock Social Security office will be in Littlefield on each Thursday at 9:30 a.m. in the county courtroom to assist in all matters pertaining to social security.

### SLIP IN SPELLING

ATLANTA (AP) — As with many public institutions, mail for Emory University often comes with various misspellings.

But the school, sometimes called "The Ivy League College of the South," continues to receive certain mail which is particularly unfitting for a reputation for education.

Letters come to Emory spelling it "Emery." And they come from alumni.

B of the 4th Armored Division's 37th Armor in Craibshiem, Brown, entered the Army in 1950 and arrived overseas on this tour of duty in January 1958.

The sergeant, whose wife, Veresta, is with him in Germany is a graduate of Refugio High School.

**RECIPE**  
**NEW EASY CALIFORNIA TUNA BAKE**  
1 1/2 cups soft bread crumbs  
2 cups milk, scalded  
3 eggs, slightly beaten  
1/2 teaspoon powdered oregano  
1/2 teaspoon powdered marjoram  
1/2 cup finely chopped onion  
1 1/2 tablespoons grated lemon peel  
1 tablespoon fresh lemon juice  
1 teaspoon dry mustard  
1/2 teaspoon salt  
Dash freshly ground black pepper  
2 (6 1/2-ounce) cans STAR-KIST TUNA, chunk style  
Pastry for 9-inch pie shell, unbaked  
1 SUNKIST lemon, unpeeled, sliced  
Pick bread into soft crumbs. Pour scalded milk over crumbs in bowl. Stir well and blend in remaining ingredients except tuna. Flake tuna into large pieces; fold lightly into mixture. Pour into greased 1 1/2-quart baking dish. Cut pastry to size of dish, making a circle in center. Brush with milk and place on top of tuna mixture. Place in hot oven (450) 10 minutes, reduce heat to (300) and bake 20 to 25 minutes. Remove from oven. Decorate with halved lemon slices and a few sprigs of parsley. Cut into serving-sized pieces and serve piping hot. Simply delicious. Makes 6 servings.

**RECIPE**  
**CREAMY TUNA**  
two 6 1/2-oz. cans STAR-KIST Tuna  
two 10 1/2-oz. cans condensed cream of mushroom soup  
1/2 cup milk  
1 cup peas  
1 tsp. grated onion  
2 tbsp. chopped pimiento (if desired)  
Heat all ingredients together. Pour over piping-hot Bisquick Cheese Drop Biscuits. Serves 4 to 6.  
P.S. Other biscuit variations... add 1/4 cup chopped parsley or chives to dough, instead of cheese.  
Or drop each biscuit into a bowl of crushed potato chips before baking, for new crisp texture and flavor!

**RECIPE**  
**CREAMED TUNA NOODLE CASSEROLE**  
(Makes 4-6 servings)  
1/2 teaspoon pepper  
1/4 cup chopped chives or green onion tops  
2 cups (2 7-ounce cans) tuna, drained  
1/2 cup sliced pimiento-stuffed green olives  
Paprika  
1 tablespoon salt  
3 quarts boiling water  
8 ounces medium egg noodles (about 4 cups)  
1 1/2 cups (large can) undrained CARNATION Evaporated Milk  
2 cups grated process American cheese (about 1/2 pound)  
Add 1/2 teaspoon salt to rapidly boiling water. Gradually add noodles so that water continues to boil. Cook uncovered, stirring occasionally, until tender. Drain in colander. Combine Carnation, cheese, pepper and chives. Cook over low heat, stirring frequently until cheese melts. Arrange noodles, tuna and olives in buttered 1 1/2-quart shallow baking dish. Top with cheese sauce and sprinkle with paprika. Bake in moderate oven (350° F.) 30 minutes.
