

## Fair Plans Completed

Plans for the annual Lamb County Fair continued to almost completion this week. The agriculture committee of the Chamber of Commerce met with the Fair Board early Tuesday to pledge their aid and support to the project.

Members of both group announced they expect the material for the premium catalog to be in the hands of the printers this week end, and mailing early next week.

Sponsors of divisions and premium money are being secured by committee members, and Fair Board officials expressed their pleasure in the cooperation given the Fair by merchants and other individuals.

The Fair will be held September 22-24, and will feature a downtown parade on the afternoon of opening day. The parade will be led by high school marching bands from over the area, and will also feature decorated floats entered by merchants and civic organizations. A special feature of the parade, of interest to the children will be a Shetland pony section, with the miniature horses in full array, pulling carts, and gaily bedecked floats.

The carnival portion of the fair will show here from September 21-24, and is under the direction of Moore's Modern Shows, of Dobb.

An outstanding array of agricultural products and equipment is expected to be displayed at the exposition.

By DOUG POE

Feel sort of sorry for Pete the Parakeet. He wanted to be free of his cage so much that he would turn himself wrong side out while hanging onto the bars. We finally started leaving the door open so he could go in and out at will.

It took him quite a while to get acclimated to the semi-freedom of the house. He always seemed glad to get back to the security of his cage.

Of course, it had to happen sooner or later. The boy opened an outside door just as Pete flew by. And that's the last we saw of his pretty blue hide.

We're worried about him, because although he longed for freedom like all live things, he'd had too much social security for too many generations. We doubt that he can adapt to taking care of himself now.

(Wonder how many generations before Americans will become as helpless as he. From the walls that go up anytime a tariff or a price prop is attacked, we must be afraid we've already reached that point.)

We like the answer our old friend Ralph Cain of the Vici (Okla.) Beacon made to a complaint about the kind of newspaper he publishes. He wrote, "Gee whiz, we ain't satisfied ourselves. We never printed a paper but what we could have done a better job if we had it to do over again." That goes for the Poes and Williams too. Incidentally, his paper is good enough to have won some national prizes.

Otto Hampton believes in doing things the hard way. He'd rather catch big fish than little ones. And he built a new gin just a piece at a time. He's replaced nearly every bit of the machinery during the last two years, then he tore down the building around it and erected a new one to house all his pretty new equipment. Having only one gin to work with these days, he has to do something pretty drastic to keep busy.

HEARD — That a couple of good six inch wells were brought in on the Gutterschloss place near Pep last week. They're only 78 feet deep too.

### Anton Boy Injured In Accident Sat.

Larry Sanford, 14-year-old son of Mr. and Mrs. Lloyd Bolin of Anton was injured Wednesday morning when the motor scooter on which he was riding was struck by a car driven by Tom Temple, Floresville, Texas.

The accident occurred near Anton on the Lubbock highway. Larry was treated at Medical Arts Clinic where his injuries were not believed to be serious. Temple was also treated at Medical Arts for shock.

### New Equipment For Laguna Park Arrives Recently

New playground equipment for Laguna Park arrived this week, and workmen began assembly of the equipment for early use by children of the community.

The equipment includes a slide, swings and a new merry go round. Old equipment will be repaired and repainted for use at an early date.

The city commission recently appropriated \$400 for the new equipment.

In Olton, work is continuing on curb and gutter projects which will ultimately add from 15 to 20 blocks of new blacktopped streets to the city. The improved streets will be near the school and out to the new residential addition to the city, and in other parts of town. Some paving and curb work is being done downtown on the street in front of the fire station also.

The new city water well is completed, and is expected to be tied into city lines sometime within the next few days. It is a big well, and city officials said they had it "choked down" to produce only about 1200 to 1300 gallons per minute.

AT EARTH, a new Spanish-American addition has been laid out and accepted by the Earth City Commission. The new addition, called Westside, will be exclusively for the Latin-American population.

Already residents of the area have begun work preparing a platform to be used for the September Mexican Fiesta, and are studying plans for building a new church in the addition in the near future.

Later this year, or early next year construction will start on new homes in the area.

Mrs. George E. Waxler, 1115 West 4th, underwent major surgery at Littlefield Hospital Tuesday.

### Quarterback Club To Meet Friday Night

An organizational meeting of the Littlefield Quarterback Club will be held at 7:30 p.m. Friday, at the High school football field. All men interested are invited to attend.

## More Than 400 Are Here At Pioneer Day

More than 400 pioneer residents of Lamb County, their children and grandchildren met Tuesday afternoon in the community center here to visit, meet old friends again and listen to speeches and watch entertainers and finally to take part in an old fashioned barbecue supper. The occasion is the Seventh Annual Reunion of Lamb County Pioneers, and members came from as far away as Key West Florida, and from as close as across the street. They listened to a program planned for them, but mostly they talked to one another, renewing old acquaintances and reliving old memories.

Pat Boone, outgoing president and as master of ceremonies, and Troy Armes, president of the Chamber of Commerce gave a welcome address. Marshall Ward made the response, and Arble Joplin read the minutes of the last meeting.

Simon D. Hay of Sudan was elected president of the group for next year. Other officers elected by acclamation included George Armer of Olton, vice president; Stanley Doss, Littlefield, secretary; Mrs. Lester LaGrange, Amherst, treasurer; Mrs. Bill Clayton, Earth, scrapbook custodian. Directors include retiring president Pat Boone, L. E. Slate, Annie Haberer, L. E. Silcott and Harry Brantley.

A memorial service was held honoring deceased members, which included a vocal solo by Mrs. Weldon Findley. Rev. Henry Pope also participated in the memorial service.

A program by the Serenaders, and the traditional square dance exhibition led by the Buck Ross dancers, brought the program up to the main speaker, D. N. Pope, 30 years superintendent of school.

Mr. Pope explained the definition of Pioneer as being soldiers, those who go ahead, and reached the pioneering spirit from the days of Moses, to Columbus, Cortez, right down to the members of the Lamb County Pioneer Club.

Pope said that pioneering has

### Local Newspapers Will Give Two Journalism Scholarships

Two of next year's high school graduates in the Littlefield area will receive \$100 scholarships to the Texas Tech Journalism School. Littlefield Press, publishers of the Lamb County Leader and County Wide News, announced Wednesday that they will inaugurate the scholarships on an annual basis starting next year.

Details of the plan are yet to be worked out, representatives of the firm say, but they want the scholarships to go to students who have shown an aptitude for news gathering and an interest in journalism as a career.

Tentative planning is to limit the number to use at Texas Tech in order to help build a strong journalism school in this area.

Schools who will be invited to submit candidates for the two

scholarships include Spade, Olton, Springlake, Amherst, Sudan, Bula, Pep, Whitharal, Anton and Littlefield.

### The Weather

Hot dry weather has continued throughout the area, broken by only occasional widely scattered thunder showers. No rain has been reported in the county, although some has fallen in the South Plains area. Continued clear to partly cloudy skies have brought some thunderheads, but no moisture. Crops are generally beginning to feel the drought, and rains are badly needed. Temperatures have been in the high 90's, with night time temperatures in the high 60's.

# Harper-Springfield Vows Exchanged In Anton Ceremony Friday Evening

ANTON (Special)—In a double ring ceremony read at 8 o'clock Friday in the First Baptist church of Anton, Miss Melba Jane Harper became the bride of Billy Douglas Springfield. Parents of the couple are Mr. and Mrs. Jo'nie Harper and the Rev. and Mrs. Evert Springfield, all of Anton.

Rev. Mr. Springfield performed the ceremony before a wrought iron screen covered with silver emerald leaves flanked by blue tapers, silver foliage and blue chrysanthemums. The bride and groom were attended by a bridesmaid, Miss Jane Ann Whitfield, played wedding music and accompanied Mrs. Dan Roark as she sang "Because," "Always" and "The Lord's Prayer."

### WEARS LACE AND SATIN

The bride, given in marriage by her father, wore an original gown of white French lace over satin designed with a high neckline framed by satin appliques dotted with seed pearls. The fitted bodice had a sheer yoke outlined with pearl-embroidered appliques and long sleeves ending in points over the hands. The circular cut skirt was styled with side panels and scalloped lace and extended into a long train.

Her veil of silk illusion was joined to a pillbox cap of matching lace embroidered with iridescent sequins and seed pearls. She carried a pearl-covered Bible topped by white orchids showered with stephanotis and pearls.

Mrs. James Minton and Mrs. L. C. Anderson, both of Lubbock, attended the sister as matrons of honor. Bridesmaids were Mrs. Harold Cotton of Lubbock, Miss Beva Jean Ray of Littlefield, cousin of the bride, Mrs. Olan Johnson and Miss Wanda Grace.

They wore identical dresses of powder blue tulle and lace over taffeta fashioned with scoop necklines, elongated waistlines and flared skirts. They carried bouquets of blue French-carnation and white cadmium leaves.

Miss Sharon Harper of Plainview, cousin of the bride, and Billie Jo Parks of Littlefield, cousin of the bridegroom, were candlelighters. Beverley and Donna Kay Anderson of Lubbock, nieces of the bride, were flower girls and Joe Michael Stephens of Greenville, cousin of the bride, was ring bearer.

Joe Bailey Springfield of Lubbock served as best man and ushers were Johnnie Harper Jr., brother of the bride, Harold Cotton of Lubbock, Frank Parker of Brownfield, Ben Robinson of Sudan and Olan Johnson.

**CHURCH RECEPTION**  
Misses Arieta Black, Sandra Broome and Judy Williams assisted with hostesses at a reception given in Fellowship Hall. The attendants' bouquets decorated the bridal table.

For a wedding trip to Ruidoso, N. M., the bride chose a black and brown imported wool tweed suit with brown reptile accessories and a white orchid corsage.

The bride is a graduate of Anton high school. The bridegroom is a graduate of Anton high school and Decatur Baptist college. He is in the Army, presently stationed at Fort Richardson, Anchorage Alaska, where the couple will make their home.

## School for Safety Inspectors At Courthouse Thurs. Evening

Changes In Rules Will Be Explained

Thursday evening from 8 to 10 Lamb county's safety inspectors will get a refresher course. The Department of Public Safety will conduct the annual refresher course in the district courtroom.

L. W. Wilhite, inspector for the department, will conduct the class which will stress the new tougher rules on brakes and the requirements for the newest type headlights. It will qualify those attending to make safety inspections next year and attach safety stickers.

They will start issuing 1956 stickers on September 16. Car owners have until next April to get the 56 stickers before becoming subject to arrest.

Wilhite, in commenting on the effectiveness of the three year old inspection program Monday, noted that since the inspection law was passed the percentage of defective automobiles involved in accidents has decreased from 15 per cent to 5 per cent.

## Spade Boy Is Dunlap Award Winner, Tech

The names of 28 Dunlap Scholarship winners at Texas Tech for the 1955-56 years have been released by James G. Allen, dean of Student Life.

One scholarship winner was selected from each of the high schools in nine South Plains counties. Allen said. Each winner was a high ranking member of his graduating class.

The scholarships, sponsored by Dunlap stores, pay recipients \$150 during their freshman year at Tech.

The 1955-56 winners include Sandra Sue Broome, daughter of Mr. and Mrs. George Broome, of Anton. She was president, FHA; cheerleader, senior class favorite; annual staff and plans to major in home economics education.

In some rural areas 75 per cent of the checks are written in pencil.

## Sudan Votes On Swim Pool September 3

An election has been called for September 3 in Sudan to allow Sudan citizens to express their preference in the use of \$15,000 recreation bond money for the construction of a municipal swimming pool or a community center building.

Mayor Joe Rone said the citizens would be given a chance to make their wishes clear, but pointed out that if the majority vote is for a swimming pool, another election will have to be called for that particular purpose.

Rone stressed that the \$15,000 recreation bond money is earmarked and was voted on for the purpose of building a community hall, and cannot be used for any other purpose. So if the residents want a swimming pool, the recreation bonds will be cancelled and a new bond issue voted on for a swimming pool.

The recreation bonds were voted on several years ago.

## Eastern Star To Entertain Families Friday Night

## Vows Exchanged By Miss Silcott, Mr. Allcorn In Olton Ceremony

OLTON (Special)—The First Baptist church was the scene Friday evening at 8 o'clock of the marriage of Miss Gayle Silcott, daughter of Mr. and Mrs. C. S. Silcott, to R. V. Allcorn, son of Mr. and Mrs. Jack Allcorn of Olton.

Rev. Dee Cates performed the double ring ceremony.

The altar was decorated with a prie-dieu and baskets of white gladioli and candelabra and mums. An archway of greenery completed the decorations. White tapers lighted the aisles.

Harold Dean Carson, organist, played traditional wedding music and accompanied Don Barber of Floydada, who sang "I Love Thee" and "The Lord's Prayer."

The bride, given in marriage by her father, was attired in an original gown of white Chantilly lace, and nylon tulle over net and taffeta, styled with a high neckline formed by a stand-up collar of tulle, with points of lace embroidered with seed pearls. The fitted bodice of lace had a sheer yoke outlined with pointed lace applique with seed pearl embroidery, tiny cap sleeves, complimented by gauntlets of lace worn over the hands. The waist came to a deep V at center front. The skirt swept into a short train at back and was worn over hoops and ermine. Her veil of silk illusion was joined to a Juliet cap embroidered with seed pearls and fell to fingertip length. She carried an orchid corsage, showered with stephanotis and white satin ribbons tied in love knots atop a white tulle.

Miss Donice Silcott, sister of the bride, was maid of honor. Bridesmaids were Mrs. J. Frank Daugherty of Austin, Miss Javern Daniel of Olton, Mrs. Warren Mathis of Plainview and Mrs. Gerald Allcorn, sister-in-law of the groom also of Olton. Terry Annand Leslie Sue Smith of Lubbock, cousins of the bride were junior bridesmaids. Carrie Lane Irby, cousin of the bride was flower girl. The attendants wore identical waltz length dresses of Crystalite, fashioned with princess lines and cap sleeves complete with gauntlets of matching material. White picture hats and white mum nose-gays completed their attire.

Gerald Allcorn served his brother as best man. Ushers were Jerry Bell and Joe Don Yates, Bobby Straw, Deryl Machen, Royce Beadren, J. P. Natzger, Lonnie McLain, cousin of the groom was ring bearer.

Mrs. Silcott, mother of the bride chose a blue linen dress with white accessories and a corsage of white gardenias. Mrs. Jack Allcorn, mother of the groom, chose a navy dress with white accessories, and a white carnation corsage.

A reception following the wedding was held in the home of the bride's parents. The table was centered with the bride's bouquet and a five branch candelabra. Miss Kay Granbery, cousin of the bride, registered the guests. Miss Myra Hard of Alpine served the tiered wedding cake, and Miss Pat Tisdale served the punch. In the house party were Mrs. V. Gunter, and Misses Avis Jefferies, Dorothy Barnett, Leatelle Sluder, Naomi Burruss, Sandra Hambo, Linda Franks, Catherine Dodd, Wynene Freeman of Las Vegas, N. M., Peggy Jones of Goldswaiter, and Sandra Brashear of Alpine.

## Fifty Members and Guests Attend Annual Reunion of Class of '44

About 50 members and guests of the Littlefield high school class of '44 attended the group's second annual reunion at the Community Center Saturday night. Visiting hours were from 6 pm to 8 pm. Dinner was served at 8 pm.

Kay Maner, accompanied by Mrs. J. H. Penn, and Clara Beth Theford, accompanied by Trudy McGee, sang vocal solos. The program was completed by two vocal numbers by the Littlefield Four quartet.

Levi Coble, president of the organization, was master of ceremony. Four of the group's former teachers were present. They were Mrs. Linton Smith, English teacher; Mrs. Gladys Houk, English and Math; Mrs. J. H. Penn, seventh grade teacher; and Mrs. Jack Rollins of Lubbock, English. Mrs. Rollins was the former Miss Renelle Chaney.

An arrangement of white gla-

diolus centered the head table. A maroon satin streamer, tied with white satin bows on which was inscribed "Class of '44" extended the length of the table. A large maroon and white flag hung at the front of the room.

### Castor Beans Will Grade Grain Sample

Grain producers and handlers are warned that any food or feed grains contaminated with castor beans or pieces of beans will be graded sample grade with a corresponding drop in value.

During the past few weeks several carloads of grain sorghum coming from areas where castor beans have been grown have been given the sample grade. Extension Agronomist Ben R. Spears has been told by W. J. Funchess, Federal grain supervisor for the USDA's Galveston District, that grain inspectors have very definite instructions on grading such contaminated lots of grain.

Their instructions are . . . "If a lot of grain contains castor beans or pieces of castor beans then the lot should be graded sample grade." Funchess stated further than an inspector or supervisor would need only to be assured of the presence of the castor beans or pieces of down-grade the lot of grain. Castor beans contain a deadly poisonous protein and a very potent allergen.

Spears says the alkaloid poison is known as ricin acid and is found not only in the beans but also in the stems and leaves of the castor bean plant. Therefore, none of the plant should be allowed to contaminate feed or food grains.

Ridding fields of volunteer plants are easily killed by cultural methods. But if plants are present in a grain sorghum field, they should be removed from the field before the crop is harvested, says the agronomist.

Furthermore, he says, all combines, storage facilities and other equipment used in handling castor beans should be thoroughly cleaned before being used in connection with grain harvesting.

Methods, he adds, have been developed for detecting the presence of castor bean plant material in ground feeds as well as the whole grain.

had been their houseguest for the past week. The Tammons son Tom, remained for a weeks' visit with relatives.

### Steel Mill Promises Priority For Delivery Of Water Pipeline To City

Some hope, although dim, was held out to the city this week, for obtaining a priority on concrete coated steel pipe for the two new water wells.

The city received a letter from The Tennessee Coal and Iron, a subsidiary of United States Steel, makers of the steel for the pipe. The letter stated that a strike had closed the steel plant, but that as soon as operations are resumed, consideration will be given the order for steel pipe, placed by Gifford Hill American, fabricators in central Texas.

The project of tying the two new wells into city lines has been held up by failure of the contractor to obtain the concrete coated pipe which is specified in the contract.

The steel mill stated that they expected to resume operation in about three weeks. But city officials say that if the pipe is not delivered until then, the water supply shortage will have been solved by cooler weather and the need will not be as great at that time as it is now.

**SAILOR HO**—One of many outstanding features of "Holiday On Ice" at this year's Panhandle South Plains Fair in Lubbock will be the antics of zany Paul Andre in the skit "Oh, For The Life of a Sailor". With a little help from Glamour "Icer" Joan Hagen, the poor sea-farer takes more spills than ever before trying to get his "ice-legs". The show will be staged in Fair Park Coliseum Sept. 25-30. Mail orders for reserved seat tickets are now being received by Fair officials.

## Stellar Entertainment Is Scheduled For 1955 Panhandle South Plains Fair

Many of the nation's top stars of the silver blades will be on hand to thrill area families when "Holiday On Ice of 1955" is presented at the Panhandle South Plains Fair in Lubbock, Sept. 25 through 30.

Advance ticket sale for the colorful spectacle began this week and will continue until Fair time, officials have announced.

In celebration of "Holiday" tenth anniversary, the ever-popular "Merry Widow" was selected to head the list of eight production numbers. The classic features graceful Jinx Clark and dashing Bobby Blake along with virtually the entire 125-member cast.

Throughout the 2 1/2 hour show, visitors will witness an entertain-

ing combination of precision skating, rollicking comedy, magnificent color and lighting music. The 28 different acts are designed to place all age groups.

One of the newcomers in this year's show is Bill Blocker who stars in a pulsating East Indian fantasy costumed in the weird colors and designs of the land of intrigue. Then there will be former Olympic star Sonya Kaye in an interpretation of "Dream Concerto". The combination of adagio thrills and the magic of black light are featured in a number by Cal Cook.

For the youngsters, there will be several dozen of the ever-popular fairland characters performing in "Storybook Village". Com-

edy abounds when Hamm and Riggs, Marvin Shaw, Paul Andre and others join talents in several skits during the show.

Adding to the fun, the opening and closing production numbers provide precision and colorful effects which have delighted audiences in all parts of the country.

All seats for the performances will be reserved. They can be obtained now by writing: Holiday On Ice, Box 561, Lubbock, Texas. Evening shows will be presented at 8 p. m., beginning Sunday, Sept. 25 and continuing through Friday, Sept. 30. Matinees at 2:30 pm will be given Monday, Sept. 26; Tuesday, Sept. 27; and Friday Sept. 30.

a housewarming. They have recently moved into their new home. Ten couples were present. They served ice cream and cake and presented Mr. and Mrs. Landers with a lovely bedspread and pillow cases.

Mrs. Janie Anderson is visiting her daughters, Mrs. Taylor and Mrs. Bob Seravites and their families at Texico this week.

Mrs. Sid Landers and Mrs. L. L. Anderson attended the District WMU meeting at the Plains Baptist encampment near Floydada Tuesday. Around 300 registered.

**WMU**  
The ladies of the WMU of the First Baptist church met Monday afternoon for a study on Stewardship. Mrs. C. D. Dooley was the

speaker for one circle. Mrs. Richard Grace led in the other group. They met at the church with 14 ladies present.

Howard Parker is driving a new Chevrolet car now.

Rev. and Mrs. Will Draper of Plainview visited Mr. and Mrs. Charlie Nelson Thursday. Mrs. Draper is a sister of Mrs. Nelson.

Guests in the home of Mr. and Mrs. H. B. Newton, the first of the week, were their daughter, Mrs. B. D. Williams and children of Amarillo, and Mrs. Newton's nephew, Mr. and Mrs. Jentry Day and children of Knox City.

Michigan has 36,350 miles of streams, about half of which are trout waters.

## Historical Items Wanted By T. Museum

The Museum at Texas Tech will feature a special South Plains historical exhibit October 23, covering the era from 1880 to 1920.

W. C. Holden, director of the Museum is anxious to display items of that period, including old photographs.

Holden is especially interested in borrowing such items as old clothing in good repair, baby or doll carriages, early irrigation pump, bell from the early 1900's

fire engine or train; old calendars program, albums, tools and early school graduation diplomas. Old letters and documents are also wanted.

Anything sent to the museum should be carefully marked with the owners name and address, as well as being identified as to place and date.

**Methodist Youth To Bull Lake On Hayride**

Methodist youth and their guests and sponsors enjoyed a tractor-drawn hayride to Bull

Lake Friday night, when they had a weiner roast.

Sponsors for the evening were Mr. and Mrs. Hartman and Rev. and Mrs. Young.

About 35 persons made the trip.

# Doyle Turner Has Lots Of Curiosity About His Crops

Farmers are content to plant cotton and grain year, using the same methods of fertilization and planting and tilling they have used for years, hoping for the best, and accepting the worst when it happens. There is at least one farmer in Lamb County who is not content to do this. This farmer has an oversized "curiosity" and he wants to know if this is the best his land can do and what can be done to make them increase.

Doyle Turner, farmer, is Doyle Turner, who farms 400 acres in the Valley community near Earth and the county seat. He has been on the place for 15 years and has been constantly experimenting with irrigation, fertilizers and varieties of cotton, corn and grain.

This year Doyle Turner has planted five different varieties of cotton. Part is planted on irrigated land. The other is separated into different irrigation plots. On different fertilizers and different applications of several plots. A list of yields will be published later.

## SALVATION FROM SIN

By TOMMY WILLIAMS, Minister

Salvation from sin includes... It includes, first, a cleansing from its guilt. "Repent and be baptized... FOR THE REMISSION OF SINS" (Acts 2:38). "The blood of Jesus Christ his Son cleanseth us from all sin" (1 John 1:7). It includes deliverance from its power and dominion. He delivers "from the power of darkness" (Colossians 1:13). "For sin shall not have dominion over you" (Romans 6:14). Finally, it means salvation from the results of sin. "The wages of sin is death" (Romans 6:23). That death involves eternal separation from God in a realm of eternal punishment. From that, Jesus came to save, for "the gift of God is eternal life through Jesus Christ our Lord" (Romans 6:23).

## Seed Laws Are For Protection Of Farmers

Read the label or tag which is attached to every sack of planting seed before making a purchase, advises Associate Extension Agronomist Lee C. Coffey. The information carried on the tag is for the protection of the buyer and must list the content of noxious weeds if any.

With the small grain planting season at hand, the specialist offers tips which may aid in keeping your farm free of weed enemies. Among the weeds often found in small grains are cheat or chess, jointed goatgrass, wild morning glory, field bindweed, curled dock, Johnson grass and wild oats.

Once a field is infested with primary noxious weeds, the job cleaning up may require years and considerable expense. Crop damage results from lower yields and perhaps dockage because of the presence of some weed or from soil made unproductive through the use of chemicals for control.

Coffey says much of the trouble can be solved by planting certified seed. They are not only pure as to variety but must be free of noxious weeds. Under Texas laws every sack of planting seed sold, whether certified or not, must be tagged or labeled. The tag carries information which should be read. The State Department of Agriculture administers the seed laws of the state and make a diligent effort to protect the buyers of seeds by testing and inspection programs.

Planting seed containing nutgrass or field bindweed cannot be sold in Texas. Neither can seed containing more than 100 dodder, curled dock, blueweed, Canada thistle or Johnson grass seeds per pound of seed. Seed containing more than 100 Johnson grass seeds per pound can be sold if marked—pasture mixture.

Read the tag before you buy, advises Coffey and especially check for noxious weeds in planting seed.

## Cotton Farmers Must Dispose Of Excess Cotton

Any farmer in Lamb county whose cotton acreage is in excess of his farm's allotment is reminded that he must dispose of the excess acreage within 20 days after the date of the County Committee's notice of such excess cotton acreage. According to Troy Armes, chairman of the County Agricultural Stabilization and Conservation Committee it is very important that cotton farmers pay close attention to this notice.

If it was not possible to dispose of the excess cotton acreage within the time limit because of circumstances beyond the farmers' control, it is suggested that he immediately get in touch with the County ASC office. The cost of rechecking any acreage disposed of must be paid by the producer.

If the planted cotton acreage is not adjusted to the farm allotment, the "excess" cotton will be subject to a penalty, which must be paid even though no cotton is marketed from the farm. The rate

of the penalty will be 50 per cent of cotton parity price as of June 15, 1955. Until the penalty is paid, the entire crop of cotton produced on the farm will be subject to a lien in favor of the United States.

Farmers who are knowingly overplanted and who do not adjust their cotton acreage like-wise are ineligible for price support on the 1955 cotton produced on the farm.

Cotton growers who believe that their cotton acreage measurement was incorrect may obtain a remeasurement by depositing with the ASC county office in the amount of \$7.00 per farm plus \$2.00 for each plot over one. The deposit will be refunded if it is found that the acreage planted to cotton is not in excess of the allotment.

It is important that if you elect to dispose of your excess cotton acreage that it be thoroughly destroyed so that there would not be any chance for any of this cotton on the excess acreage to be harvested. If the excess cotton is not completely plowed up or destroyed, the reported will not be able to approve the plow-up on the excess acreage.

# WOW Wins Little League Title

## Jerry Koller Hurls No-Hitter As Woodmen Down Vets 11-1

Behind the pitching of Jerry Koller and Max Ball, the WOW downed the VFW twice this week to take the League Championship in the Littlefield Little League. Jerry Koller pitched the Woodmen to a 11-1 victory Monday night and got credit for the first no-hitter this year. Koller finished the season with a 5-win and no-loss record and pitched two one-hitters to become the most effective pitcher in the League. Ball finished the season with a seven-won and two-loss record.

The two had combined to give the Woodmen the best back-to-back pitching in the League. They defeated the Jaycoes the same way last week to gain the finals, Koller winning the first game, and Ball taking the second.

The WOW took the first game of the finals in the Littlefield Little League Monday night by defeating the VFW 11-1 behind the no-hit pitching of Jerry Koller, and the hard hitting batsmen of the Woodmen. Koller struck out 13 men and walked only two. The Woodmen also failed to make an error. This was Koller's fifth win of the season against no losses.

Joe Huber took the loss, his fifth of the season against six victories. He gave up only five hits but the Veterans committed five big errors.

Joseph Williams led off for the VFW in the top of the first. He struck out and Billy Webb was also sent down on a called third managed to steal. The WOW then struck out clean-up man Dick Thompson to get the Veterans out. Roger Morris struck out to start the bottom of the first. De Pierce got a double and Tom Morgan struck out while Pierce was stealing third. Pierce stole home to score on a pass ball and Jerry Koller then struck out to end the first inning.

John Foley, first batter for the VFW in the top of the second was hit by a pitched ball. Steve Short and Dennis Mote went down the strike out route, but Foley managed to steal all the way around to score. Billy Thompson then struck out to retire the VFW. Keith King got a single for the WOW. Kenneth Moore got on on an error and Huber then settled down to strike out Max Ball, Craig Brestrup and George Cox to end the threat by the Woodmen. The score after two innings was 1-1.

Lefty Thompson started the third by walking. Joe Williams struck out and Billy Webb grounded out to send Thompson to third.

Joe Huber then knocked a hard hit ball between second and first that was caught by De Pierce in one of the most sensational catches of the season. The WOW came back in the bottom of the third to get four big runs off of only two hits and two errors by the Veterans. De Pierce knocked a home run and Max Ball got a double. The score after three innings was WOW 5, VFW 1.

The VFW was up and down in order in the top of the fourth. Dick Thompson grounded out and John Foley and Steve Short struck out. The WOW came right back to score three more runs in the bottom of the fifth on just two hits and three walks. Jerry Koller got a single and De Pierce a double. The score was now 8-1 with the Woodmen increasing their lead every inning.

Koller again set the Veterans down in order in the top of the fifth. Dennis Mote and Billy Thompson struck out and Dennis Thompson grounded out. The WOW got three more runs in the bottom of the fifth. They got two more hits and the VFW again committed two errors.

The VFW went down in order in the top of the sixth. Thomas Bryant, Billy Webb, and Joe Huber all going down the strike out route.

Jack Christian was the umpire behind the plate while Fritz Dierking and Sam Williams called the bases.

Final score:  
WOW ..... 11  
VFW ..... 1

Winning pitcher, Jerry Koller (5-0)  
Losing pitcher, Joe Huber (6-5)

WINNING PITCHERS RECEIVE TROPHIES: Max Ball and Jerry Koller receive the trophy for winning the regular season schedule from Allen Hodges who donated the trophy to the winning team. The two boys won two games apiece in the playoff as the WOW went undefeated in the playoffs. (Staff Photo)

## WOW Takes Title With 13-2 Victory

The WOW team beat the VFW again Tuesday night to capture the Little League Championship after they had also won first place in the regular season.

Max Ball went all the way for his seventh win of the season against two losses. He allowed only four hits and gave up only one walk and struck out seven. Dick Thompson went the full six innings for the VFW to take his second loss. He gave up eight hits, walked 11 and struck out 13.

The WOW started things off early getting four runs in the first inning. Roger Morris got a hit, De Pierce knocked a home run, Craig Brestrup walked, Jerry Koller got a hit, Keith King and George Cox walked, Max Ball and Jerry McCain struck out. Kenneth Moore got on on an error and Roger Morris struck out to retire the side. The VFW got two men on in the bottom of the first but failed to score. Joe Williams got a hit. Bill Webb struck out. Joe Huber was on by an error and Dick Thompson and Dennis Mote grounded out.

The WOW got four more runs in the top of the second. De Pierce got on on an error. Craig Brestrup struck out. Jerry Koller grounded out. Keith King got a single, Tom Morgan and Max Ball walked, Jerry McCain got a single. Kenneth Moore followed with another hit and Roger Morris struck out to end the top of the second. The VFW again got two men on but failed to score in the bottom of the second. Steve Short grounded out, John Foley was on by an error, Lefty Thompson walked, Walter Grissom struck out and Joe Williams grounded out.

De Pierce started the third with a double. Ray McKinny got a single. Jerry Koller was called out on strikes. Keith King walked and Tom Morgan and Max Ball struck out. The VFW started the bottom of the third with Billy Webb grounding out. Joe Huber got a hit. Dick Thompson grounded out and Dennis Mote struck out. The score after three innings was WOW 8, VFW 0.

Johnny Bautista struck out to start the fourth inning. Kenneth Moore grounded out. Jerry Connel walked. De Pierce got on by an error by Ray McKinny struck out to retire the Woodmen without scoring. The VFW picked up their first run in the bottom of the fourth. Steve Short grounded

chairman of this committee. It was voted to have the annual farm tour in the P. V. community this year and have visitors from Central and South America.

Visitors present were Mr. and Mrs. Dave Eaton and son of Littlefield and Mr. and Mrs. C. W. Maxey from Earth.

The meeting was adjourned. Bill Free had the program for the evening, by having a quartet made up of Bill Free, Lillie Wuerflein, Wynne Ragsdale, and C. W. Maxey. They were accompanied at the piano by Mrs. Maxey. Cold drinks and cookies were served to those attending.

The regular meeting of the "singing school" will be held at the Pleasant Valley schoolhouse on Sunday, August 28 at 2:30 pm. Everyone is invited to attend.

## Leader's European Scribe In Italy and Romantic Old Spain

South again! And it really feels wonderful. We are now in Spain after seeing and loving Italy. I had been a little dubious about travel through Italy because of other tourists had warned us that Italians didn't like Americans and would try to take all our money, that our car wouldn't be safe, and that we would never be given the right directions if they suspected we were American. Now, after going through Italy, I can't see how those stories could be true. The Italians were just as hospitable and helpful as have been the people of other countries.

Rome, with its ruins amidst the heart of the busy city, is a place that all tourists like. There all our guides insisted that we see places like the Coliseum, the Vatican City with its art museum and St. Peter's Cathedral, and their many monuments. One of the most interesting things we saw there was the opera, which is given in a huge outdoor amphitheater, among the ruins of the Caracalla Baths. Contrary to the opera in Rome. Tickets cost what is approximately 32c in American money and there you can see truck drivers and other workers sitting next to well-dressed tourists or white-collar workers. Following a common American custom in Rome, we say "Aida". And of course we couldn't leave until we had thrown coins into Treve Fountain.

Spain has been my favorite country throughout the whole trip. It is really hard to explain

meeting advertising the Gospel meeting which is to begin August 21, with Foster Ramsey of Denison doing the preaching.

The lesson, taken from I Samuel and II Samuel, was not completed and the next lesson will cover the first seven chapters of II Samuel.

The class will not meet next week because of the meeting, but will resume regular meetings thereafter.

### EASY PREY TO MINOR ILLS\*

Nutritional experts reveal vitamin losses in cooked foods plus faulty diet may be seriously undermining your energy, strength, and resistance, making you feel on edge-affecting your appetite-spoiling your sleep-because your body is vitamin and iron starved.

\*These symptoms if due to a vitamin deficiency occur only when daily intake of vitamins B1, B2, and B12 is less than minimum daily requirement over a prolonged period. In themselves, they are not directly dangerous but they may have other causes as well as to nutritional deficiencies.

Now you can stop chronic Vitamin & Iron starvation TODAY... Feel like a new person!

Supplement your diet every day with just one High-Potency Bexel Capsule. Just one of these wonderfully strengthening capsules give you the full vitamin and iron content nature provided in the groups of the following foods before cooking:

- 1 quart of pasteurized milk
- 4 oz. of fresh orange juice
- 1/2 lb. of lean bacon
- 1 lb. of lean pork
- 1/2 lb. of green string beans
- 1/2 lb. of home
- 1 lb. of beef
- 1/2 lb. of butter

Penny for penny... you get more value in high-potency

## The Name of Safety

In the past few weeks three serious  
 accidents have occurred under our traffic  
 lights, which further indicates that they  
 are not safety devices. They are control  
 devices to keep traffic from becoming snarl-  
 busy intersections.

Under the name of safety, we need to trade  
 our lights for simple, effective stop

I have never had any Presidential aspira-  
 tion or any other kinds much and have nev-  
 er worried much over who was President,  
 but the theory that the country is always big-  
 ger than its chief executive regardless of  
 who he is and plowing is as hard under  
 administration as another, but there  
 is a lot of people not turned that way,  
 and President or who's gonna be President  
 matters that keep them in a turmoil.

The reason I bring this up is that there  
 is a lot of people right now worrying them-  
 selves sick over whether President Eisen-  
 hower is going to run again, although it  
 doesn't seem to be worrying the man it  
 concerns the most, President Eisenhower  
 himself.

Understand, I'm not entering into the dis-  
 cussion from a partisan standpoint, taxes  
 are always been just as due under one ad-  
 ministration as another, but everybody re-  
 sents the Republicans would have a situ-  
 ation on their hands if Eisenhower decid-  
 ed to go to farm year after next. It  
 would be a mad scramble for the nomina-  
 tion. There are plenty of Republicans who  
 are capable of being President, but  
 the trouble is not enough other people  
 are. Consequently, the whole Republi-  
 can strategy for the election year is based on  
 Eisenhower's running again. Even I can see

and that's where my point comes in, I've  
 read that from time to time Eisenhower's  
 wishers have been sending him pres-  
 ents for his farm at Gettysburg. One group  
 sends him a new jeep, another sends him a  
 tractor, another sends him a few regist-  
 ered heifers, another some hogs, another a  
 fireplace, etc.

That these well-wishers don't seem to re-  
 alize that every time they make his farm  
 more attractive, they make the White House  
 more attractive.

The way to get Eisenhower to run again is  
 to make farm life less appealing, not more  
 so. If the Republicans keep on piling up  
 the gifts they may be out of a candidate.

In fact, I think the Democrats have already  
 got on, and just the other day a bunch  
 of them presented the President with a fine  
 cow to go on his farm. You could  
 tell from the knowing smiles on their faces  
 from the picture I saw that they knew what  
 they were doing.

The Republicans are smart, they'll put  
 the top to this right now, and start scatter-  
 ing Johnson grass around that Gettysburg  
 farm and half-burying a few plow-point-  
 ing rocks in the field and leaving a few  
 pamphlets around the living room on the in-  
 crease of crop pests and the likelihood of a  
 drought cycle.

Yours faithfully,  
 J. A.

Government Shall Not  
 Support The People"

## Through A Glass Darkly

By CARROLL POUNCEY

Old Gomer Cool, just like the banjo, was  
 back in town, this past week end. Called the  
 house about 2 a.m. the other morning to  
 tell me he and John Santa Fe had parted  
 amiably down near the grain elevator. Seems  
 Gomer and the brakeman on the night  
 freight met rather unexpectedly, and having  
 been disturbed in his slumbers in an empty  
 box car, Gomer huffily got off the train be-  
 fore it stopped. He did say the brakeman as-  
 sisted him off with the point of a heavy  
 brogan shoe.

Anyway, Gomer called the house to coun-  
 sel with me on our water problems and kind-  
 red matters. Being counselled with over  
 the telephone at 2 in the ayem is not an ideal  
 situation in which to find ones self.

But he did, and we did, and Gomer, for  
 all his carefree and somewhat unawed atti-  
 tude toward things of the law and orderly  
 classification, has got some good ideas about  
 local problems. But fortunately we can only  
 guess at what they are. You see, Gomer is  
 learning to speak Russian, and so much of  
 what he said has lost its real inner mean-  
 ing in the translation.

Gomer did pass this along in amongst his  
 other counselling and brushing cinders out  
 of his scalp. Gomer says that you can be  
 sure you are middle aged when the gleam  
 in your eye is just a reflection off your  
 glasses.

Wonder what he meant by that. Oh, that  
 Gomer is a deep one.

Gomer has recently become a patron of  
 the arts. Has one of the finest collection of  
 french postcards you ever saw.

But speaking of art, without a capital A,  
 your obedient servant has recently become  
 interested in water coloring as a relaxing  
 hobby, and as a hobby, it sure is relaxing.  
 We have this beautiful genuine hand paint-  
 ed type landscape proudly gracing our liv-  
 ing room hall, right up there over the man-  
 tel, and modestly admit we did it every bit  
 by ourself.

Well, it's not really an original, and to tell  
 the truth, it's not where I said it was. What  
 it is, it's a copy of a tomato can label, and  
 it is under the bed in the back room. That  
 is, that's where it was after we took it down  
 off the garage wall. Sandy, who sleeps in  
 the garage when he's not busy barking to  
 make sure no one oversleeps about mid-  
 night, just can't feel any affection for the  
 painting.

Anyway, art is nice, and nice things are  
 better than bad things because they're nicer.

## Down Memory Lane

The following was taken from the Lamb  
 County Leader for August 21, 1930.

A quarter page advertisement announced  
 the opening of a new Department store for  
 Littlefield on August 23, Cobb's, with H. C.  
 Smith as manager.

In an ad citing the progress of Lamb  
 County and Littlefield, Yellowhouse Land  
 Company quoted United States census fig-  
 ures for 1920 and 1930. In 1920 Lamb Coun-  
 ty's official population was 1175, with 225  
 people in Littlefield. By 1930 these figures  
 had changed to 17,449 persons residing in  
 the county and 3,218 in the County. The  
 major portion of this increase, they stated,  
 had occurred during the last six years of  
 the decade.

WHAT A CUFF!

## The Right Thing

As was to be expected, shouts of outrage  
 arose from socialist-minded groups when  
 the Federal Power Commission, by unani-  
 mous decision, approved a license to the  
 Idaho Power Company to build three pow-  
 er dams on the Snake River. This uproar  
 should not be allowed to obscure the solid  
 logic back of the FPC's action.

The controversy involved, which has gone  
 on for years, is basically simple. Snake Riv-  
 er power would be developed either by a tax-  
 financed federal high dam at Hells Canyon,  
 the cost of which has been estimated at  
 nearly \$400,000,000—or by the three small-  
 er dams which would be financed entirely by  
 regulated, taxpaying private enterprise,  
 would cost about \$160,000,000, and, togeth-  
 er, would produce almost as much power.

An FPC examiner held exhaustive hear-  
 ings. Every point of view was presented. He  
 recommended that Idaho Power be per-  
 mitted to start its proposed project.

One reason for that is intensely practi-

cal. Legislation for the federal high  
 dam has been offered in four succes-  
 sive Congresses and has been approved by  
 none. There is absolutely no evidence that  
 the situation will change—Congressmen from  
 other parts of the country see no reason  
 why their constituents should subsidize the  
 power bills of the consumers Hells Canyon  
 would serve. As the Portland Oregonian  
 said, "It was certain that a federal dam  
 could not have been completed in time to  
 relieve a power shortage which will hit the  
 region about 1960 if nothing is done to  
 prevent it."

More important still, there is great and  
 growing sentiment in Congress, as in the  
 Executive branch, against putting govern-  
 ment into commercial business when pri-  
 vate enterprise can do the job. In other  
 words, there is sentiment against more so-  
 cialism.

The FPC did the right thing. Critics will  
 make plenty of noise. But a vast majority  
 of informed citizens will approve the deci-  
 sion.

## YOU WOULDN'T

broil a steak  
 with a  
 match!

... because a match isn't adequate for steak broiling,  
 you need either an electric broiler or a bed of hot  
 coals.

You can be just as inadequate where your home  
 wiring is concerned, too, asking wiring that was  
 either installed many years ago, or wasn't large  
 enough to begin with, to try to handle today's modern  
 electric living.

Don't let poor wiring be the bottleneck that keeps  
 you from enjoying electric living. Ask your qualified  
 electrical contractor to bring your wiring up-to-date  
 — and bring your living up-to-date, too.

Step in . . . and command the most modern truck power on any job!  
**New Chevrolet Task-Force Trucks**

Seven new "high-voltage" high-compression valve-in-head engines!  
Here's hour-saving, dollar-saving power for your job . . . the biggest choice of engines in Chevrolet truck history! And they're the most modern engines in the industry!  
You've got it good under the hood with a new Chevrolet Task-Force truck! With two new V8's and five new sixes to choose from, you can pick the power that's tailor-made to do your kind of hauling.  
Shortest stroke V8's in any leading truck! Both of Chevrolet's new truck V8's have an ultra-short stroke—shortest of any V8 in any leading truck. They're of modern oversquare design, which means that the piston stroke is smaller than the bore. The result is less piston travel per mile . . . longer engine life. Also, Chevrolet's compact truck V8's deliver exceptionally high horsepower per pound of engine weight. More power is actually available for hauling your loads!  
Modern 12-volt electrical system! You get this great development in all new Chevrolet truck engines—both V8's and sixes. The 12-volt electrical system delivers twice the punch for quicker cold-weather starting (up to 30% faster cranking speed). It also provides a hotter, fatter spark for better ignition.  
Come in and command the most modern truck power for your job!  
**V8 or 6 you get the right power for your job!**

Ever wonder what "Santa Fe" means?  
Back in 1901, about 40 years after the Santa Fe Railway was founded, the ancient Indian Cross-within-a-Circle design was placed in a square and the assembly was adopted as the official trademark of the young railroad.  
The words "Santa Fe" means Holy Faith. Today, that faith and vision in America's future have built the Santa Fe Railway System into a vital network of steel, linking the West, Southwest and East with fast, efficient transportation services. These rails serve your town; help it grow and prosper.  
And, no matter what your shipping or travel problems may be, Santa Fe will solve them. Your local Santa Fe agent is right here in your town to help you.  
You can depend on him, as you can depend on the vast system he represents.

**God in History**

Lesson for August 28, 1955

What is it that makes the world move? — the world of events, the wide world of what is the most powerful in history? Some say why, some say climate (is still geography), some say men, some say ideas, some say the inventions, some say religious anarchy, some say from all these things, some say the reason why we seldom see God (even they believe in Him) is that they limit themselves to what can be seen and heard, sometimes historians concerned with thoughts, as science, what were Stalin and Churchill thinking of Yalta? But thoughts are not the kind of fact which science can deal. So let it be repeated — is not the class of things at all. He is not in a class, as in history, but not in a man works, still less force such as that of wind or volcanic eruptions. He is seen, but only with faith. He can be known, no means as simply as we know God works in not separately from events, but in men and forces. He says, God is over all, all and in all.

According to the Bible, God can and by mean of the acts who do not know him at all is a mystery here which in the Bible undertakes in, a mystery which per human mind is capable of understanding. But the fact is

by men of faith. Take for the famous king Cyrus, to history outside the Bible as inside it. He was one great conquerors and adulators of all time. At a peak career he made himself of what had been the Babylonian Empire. He knew that the temple had been plundered and destroyed by the Babylonians, and he knew that the displaced persons from conquered cities where temples had been, would be for the restoration of temples. So King Cyrus, in make himself "solid" and with this mass of subject adopted the policy of the "gods" of those people authorizing the restoration of their temple worship. It is thought that Cyrus was a shipper of the Jews' God, and that he had discovered the final edict or announcement of the gods, explaining what he was and asking that all these gods worship he was restored to pray to Marduk, whom regarded as the king over gods, on Cyrus' behalf. He says plainly that Cyrus did know the true God, — but God him, and wrought out his through him, ignorant of though he was.

Develion Bible shows also that God through the devotion and of men who do know him. Doubt whether the procession of a Cyrus would have any good if there had not men who were eager and for just such a chance to to Jerusalem and restore worship of the true God. We had in American history one many other illustrations of some point in the freeing of slaves. The emancipation procession of 1863 was not made from charitable motives. There was a strong political purpose in it; the immediate object of the proclamation was not to free the slaves there, but to win the war and restore the union. Later, when slavery was abolished by the Constitution, the freeing of the slaves have done more harm than it had not been for the men and women of faces who made it their life to educate and uplift those were like sheep without a herder. God does work in his but he needs the service of who understand his ways work with him.

## Plentiful Foods For Sept. Are Listed By U.S.D.A.

Grocery shoppers should find the USDAs plentiful foods list for September to their liking for it is a long one.

Pork, beef, broilers and fryers head the list of meats, according to Mae Belle Smith, extension specialist in consumer education. Also included are grapes, rice and fresh Italian prunes a newcomer, but expected to be bountiful since production this year has been heavy.

Potatoes, pinto beans, fresh and processed lemons and limes and canned grapefruit sections are all in heavier supply than a year ago.

Milk and other dairy products such as cheese, butter and nonfat milk solids will continue to be abundant because of the relatively high level of milk production in July.

Vegetable fats and oils and lard along with canned tuna also will remain in heavy supply, says Miss Smith.

She says the monthly list is based on a survey of supplies of foods in the major trade territories of the southwest area and is made by the area food distribution of the USDAs Agricultural Marketing Service.

# DEAD TIRED?

You may be dangerously taxing your entire system when you feel fatigue, nervousness—poor appetite and sleepless nights to drag you down BECAUSE YOUR BODY IS VITAMIN AND IRON STARVED.

When you lack strong, red blood—when your system is vitamin-starved you must feel listless—nervous—irritable. This is because weak blood is circulating through your system, taxing your heart—putting a burden on every vein—capillary and artery in your body!

**Start building rich red blood FAST with Bexel Special Formula**

Each high-potency BEXEL Special Formula capsule gives you 5 times the daily minimum requirements of iron; more than the daily minimum requirements of all the B-vitamins that doctors will tell you are essential for proper nutrition; plus Vitamin B12 and trace minerals. These wonderfully strengthening capsules are recommended for mothers-to-be, when a deficiency of iron and vitamins is vitally important to their health. Also especially important if you are over 40. Take 2 capsules daily for double potency.

## Does This Constitute Waste?

The above picture was made of a milo field with rows 9/10ths of a mile long and, with no steps taken to keep irrigation water from emptying into county road bar-ditch.

This picture of water produced for irrigation uses was made after following the water for 1 1/2 miles from point where it left the land upon which it was pumped.

## IMPORTANT NOTICE!

Waste of underground water as defined in Texas Law was amended in the 1955 session of the Legislature by adding the following section:

"(e) WILLFULLY CAUSING, SUFFERING, OR PERMITTING UNDERGROUND WATER PRODUCED FOR IRRIGATION OR AGRICULTURAL PURPOSES TO ESCAPE INTO ANY RIVER, CREEK, OR OTHER NATURAL WATER COURSE, DEPRESSION, OR LAKE, RESERVOIR, DRAIN, OR INTO ANY SEWER, STREET, HIGHWAY, ROAD, ROAD DITCH, OR UPON THE LAND OF ANY OTHER PERSON THAN THE OWNER OF SUCH WELL, OR UPON PUBLIC LAND."

**Dryland Cotton Feeling Most Marked Effect of Long Drouth**

Conditions continued favorable for growth and fruiting of cotton in most areas, while some dry land cotton deteriorated because of low moisture conditions. Heavy shedding occurred in some fields. While some of the small boll drop was due to a stressed condition of plants, most of the shed was caused by the bacterial blight disease.

Aphids decreased in numbers in many fields, but infestations increased on cotton in some fields. The heavier infestations were generally found on late cotton or on that which had been treated earlier for boll worm control. Where control is needed a recommended material for aphid control may be added to the bollworm control mixture.

Bollworm activity changed little over that of the previous week. While many fields, which had not been treated previously, developed sufficient infestations to require control, many other fields have not had sufficient worms to warrant control. A majority of the infestations have not been heavy. In checking bollworm infestations the eggs should not be confused with those of the cabbage loopers. The looper eggs are generally found on the underside of the older, tougher leaves, while eggs of the bollworm are generally found on the upper side of leaves and usually on the more

tender growth.

Cabbage loopers and yellow striped armyworms continued to cause severe ragging of cotton leaves in scattered plantings thru out the area. The armyworm damaged forms in a few fields. Disease has reduced cabbage looper infestations in some areas.

Lygus bugs were reported in spotted medium to heavy infestations on cotton in Floyd, Hale and Lubbock counties. Light spider mites infestations were found on cotton in a few fields in Lubbock county.
