

Majorette, Gridder Are Students Of The Week

By Kathie Steed
Although most of the students interviewed for items on the paper are cooperative, there are always some who make it hard on the reporter. This week's Students of the Week are two of those people. They are Janice Burks and Tony Esch. Here is a sample of the interview:

"All right, Janice and Tony, you are going to take your pictures, I hope. I have never really taken a picture with this camera and I may take a little while to be patient."
"I've got you in focus now if you would just quit moving around Janice. That's fine, Tony, you would just look this way and looking at Janice, now, move one of your heads a

little to the left - or pardon me, Must need focusing a little more, OK, I've got it now so smile and say "We love Pirkey."
"I know that you are eager to get back to your classes but I need to ask you a few questions."
"We know that both of you are seniors in LHS. Janice, you are the head majorette, and Tony, you play football don't you? Hey, quit flexing your muscles and answer the questions will you?"
"Janice tell me, -"
"Just ask me and I'll tell you, I may have to ask someone in my group about it because they never tell me anything."
"Yes, well, what activities are you in? No coaching from the audience please."
"I'm in National Honor Society, Band, Majorette, and YWA of the First Baptist Church."
"Janice, we know you are a pretty happy - go - lucky kid and enjoy doing a lot of things, but what is your favorite past-time? Please don't laugh so much, I can't understand what you are saying."
"I like to dance on the tennis courts."
"I'm almost afraid to ask anything else, but what are your future plans?"

NEW STUDENT -- She likes LHS, because she likes to get up early on Friday and because of the floating periods and the football spirit is the comment of Barbara Huffman the new student for this week. Barbara comes from Kennewick, Washington, where she attended Riverview View School. Barbara's favorite teacher is Mrs. Betts, her favorite pastime is dancing and music. After high school, Barbara will probably attend the University of Washington and will study foreign languages. Barbara lives at 1419 West 3rd Street.

D. E. SPOTLIGHT -- Butch Howard -- He works at Pioneer Super Market. Butch is a senior at Littlefield High School. His favorite Pastime is going to Anton. Favorite color is blue, food - fried chicken, class - D. E. teacher - Mr. Lyman. Butch's employer is Mr. Tubbs. He likes the D. E. Program because it helps the student, and helps the groceryman.

Students Aid Election, Call Littlefield Voters

"Be sure to Vote!" was the plea of about 80 L.H.S. students over the week-end and Monday. The Student Council of L.H.S. sponsored this drive to remind all of Littlefield to remember to vote in the November 6th election. All participating students were given a list of Littlefield residents to call and remind.

Those who helped in the calling were: Student Council, Library Club, Future Teachers of America, National Honor Society, and volunteering students Glenn Reeves, James Pirkey, Mrs. Maurine Howard, Mrs. Teddy Jo Penn and Mrs. Evelyn Kisner also had their hand in calling.

Coach Wanted Dumas Win For Birthday

"All I want for my birthday is to beat Dumas," this was the request that Coach John Howle made to the Littlefield Wildcats Thursday afternoon. And I am sure that everyone who saw the game with Dumas last Friday would say that every boy out there did their best to grant this wish. This is just a little evidence that shows why the Head Coach was chosen teacher of the week this week.

Coach Howle was born and reared around Abilene, and it was there also that he graduated from High School. He attended college at Texas Western in El Paso. After his graduation from college, Coach Howle played professional football for the Pittsburgh Steelers for two years. After pro ball came coaching, and his first coaching job was at Canyon, Texas, in 1958, after a couple of very successful football seasons at Canyon, he moved on. Coach Howle coached a very fine group of boys at Anson High School last year. And it looks as if he is coaching just as fine a group this year.

Coach Howle and wife Carol and three children, live at 506 East 14th Street here in Littlefield. They are members of the First Baptist Church here. What little spare time he finds Howle will usually try to get to the golf course. So from that you can see what time of the year most of his spare time is. He lists as his philosophy of life "Always try your best." Coach Howle said that he really liked L.H.S. and knew that he always would.

Brownfield In 2 Wins, 1 Tie, 1 Forfeit

Brownfield managed to take two, tie one, and forfeit one to the Littlefield Clubs last Thursday night???

Brownfield defeated the 7th Grade by the score of 20 - 0; while the 8th Graders were being defeated by the score of 34-12. Scoring for the locals were Billy Henderson and Gary Conway with runs of 90 and 70 yards respectively.

The Freshman tied Brownfield 6 - 6 with Charlie Powell scoring for the Cats.

In the B team game Brownfield forfeited to Littlefield over a close call. At the time, however, Brownfield was ahead 6 - 0.

Today the 7th and 8th Graders play Hereford here . . .

Marsha, where was Randy last Tuesday night?????

G. T. do you always listen to football games and watch the Wildcats will be ready and should be a good game.

A Smile

A smile costs nothing, but gives much. It enriches those who receive, without making poorer those who give. It takes but a moment, but the memory of it sometimes lasts forever. None is so rich or mighty that he can get along without it, and none is so poor but that he can be made rich by it. A smile creates happiness in the home, fosters good will in business, and is the universal counter-sign of friendship. It brings rest to the weary, cheer to the discouraged, sunshine to the sad, and it is nature's best antidote for trouble. Yet it cannot be bought, begged, borrowed, or stolen, for it is something that is of no value to anyone until it is given away.

Some people are too tired to give you a smile. Give them one of yours, as none needs a smile so much as he who has no more to give.

BY FITZ

This week is the week many people have been waiting on all year. This is the game that everyone in Littlefield wants to win. We have not won a game from Levelland since 1957. The Wildcats will more than likely be high for the game.

We need more school spirit for this game than any. We know the school and town will have spirit. It will be up to the boys to beat the Lobos.

The game will be at 8:00 at Lobo Field in Levelland. We would like to have as many people there as possible. The Wildcats will be ready and should be a good game.

OUTSTANDING TEAM EFFORT -- Gene Garrison, right, presented a plaque to the entire Wildcat team for their "100 per cent effort against the Perryton Rangers." The plaque was given to the tri - captains, left to right, Pete Estrada, Tony Estrada and William Bankston. The plaque was given to the team instead of choosing a back and lineman of the week.

Cafeteria Women Lauded For Outstanding Work

BY Lola Rankin

Crash! Slam! Bang! Splash! Ouch! Watch out! Give it back to me! Quit! Don't!!!

What is all of this???

This is only a few of the many sounds that take place in just one day at the school cafeteria.

How fortunate we, the students of LHS, are to have a group of ladies so earnest and so sincere in their work that they are willing to spend the greater portion of each day planning and preparing a meal that is fresh, wholesome and nutritious.

There are a few people who have been known to say, "Aw, that's nothing but slop." These people should take just 10 minutes of their time, journey over to the lunchroom, and observe the earnestness and the conscientiousness that the staff puts into their work, even if they didn't like the food, they would never have the heart to say it again.

"As a whole each day goes pretty smooth," remarked Mrs. Forrest Martin, dietitian of the cafeteria, "but there are those days; we sometimes wonder if

we will make it." Taking a typical Wednesday, chicken day, here is how the day runs, providing it is not one of "those days." The twelve cooks all gather at 7:30. The first thing they do is put the rolls, 2400 of them, into the icebox to rise.

Next they take the 150 chickens which were carved the day before and prepare them for frying. Mrs. Lee Massey, kitchen manager, started that they start the Chicken frying at about 9:30 and it is constant frying until about 1:00 p.m. At about 9:30 the rolls are taken out of the refrigerator, rolled out, and prepared for baking which starts at 10:15. The potatoes are prepared the day before and are put on to cook at about 7:30. Creaming the potatoes takes place at 9. The green beans are opened at 9:00 also, and are cooked as they are needed. After all the food is prepared they begin to serve it.

This serving starts at 10:45 with the primary grades. This is the best part of the whole day to a person who is observing all that is going on. It is even better than watching "Candid Camera." What you don't see and hear at this time of the day is

not in the books. One of the best "episodes" that took place involved a cute little girl who appeared very shy and quiet. It seems she had dropped her silverware and it struck the mischievous little freckled - faced boy sitting across the table as very funny. Without a word she got up, walked over to the table where he sat, politely boxed him on the jaws and returned back to her place and began eating her lunch. The young lad was somewhat mystified!

Elementary is served at 11:30 junior high at 12:05 and high school at 12:25. This is an average of 1200 people served in two hours! After all of this takes place, the ladies work for 30 minutes or until the dining room is cleared. Then at about 1:00 they have the privilege of

GUESS WHO? -- Having car trouble? Call this 5 foot, 9 inch senior with brown hair and green eyes. She weighs 120 pounds. Her locker number is 47. She plays a clarinet in the band and is a member of the annual staff and FTA. Her hobby is sewing and riding around and lifting spark plugs?? (Last week's guess who was Mark Randall)

Prof's Hear Discussion On SRA Tests

C. G. Gray, Science Research Association reading consultant, held a question and answer session at the Elementary faculty meeting Thursday.

They discussed the methods and techniques of using the S.R.A. reading material. These materials are currently in use in Fourth and Fifth grades. The purpose of this session was to help refine our current practices and to advance the understanding of the use of these materials.

The Black Death

Medical Mirror

- Kissing Bugs
- Before-Birth Polio Protection

Q. Are "kissing bugs" poisonous?

A. The "kissing bug," variously referred to as "blood-suckers," "chincbe del monte," "wild bedbug," and "Mexican bedbug," are not poisonous. However, the insect acts as a carrier of germs (trypanosomes) which cause a serious condition called "Chaga's disease" for which there is no known specific cure. The insects live on the blood of animals. They will also infest houses when the animals live nearby and are especially pesky for the human occupants when the animals are driven away and the hungry insects are left behind. They feed at night and scurry into cracks and crevices when the light is turned on. For this reason they are difficult to kill with ordinary insect sprays and powders.

Q. Does bubonic plague ever occur in this country?

A. There have been about 500 cases since 1900 with mild outbreaks occurring in 1919 and 1924. Bubonic plague, the Black Death, honors its name with fatal sources of mankind. It sweeps Europe and Asia in alternate years and the great epidemic of the 14th century brought death to more than 25 million people. Plague is spread by fleas which infect man and may be transmitted from person to person. Flea prophylactic immunization against plague is fairly effective. Persons who contract the disease can be successfully treated with antibiotics and sulfa drugs. This is a far cry from the situation in 1348 as described by a physician of the time. "No one could approach or even see a patient without taking the disease. The father did not visit the son nor the son the father. Charity was dead and hope abandoned."

Q. Would it be possible to protect a child from polio by giving polio vaccine to the mother during pregnancy?

A. Yes. However, the protection afforded the child lasts for something less than a year, so if continued protection is desired it is necessary to give the baby polio vaccine starting at about 9 months of age.

Philosopher Admits He's Jittery About Bomb Scare, For A Peculiar Reason

Editor's note: The Sanderson philosopher on his Johnson grass farm must have been jittery about the international situation by the international situation, his letter this week indicates.

Dear editor: Despite the fact I've tried my best to keep the international leaders informed that this Johnson grass farm out here is

the most un-hombworthy spot on the face of the earth, that nobody in his right mind would waste a bomb on it, I'll admit I was a little on the jittery side when those Russian ships

were sailing toward those American ships off of Cuba two weeks ago. Well, not jittery enough to make a run for any place, I don't have any place to run to, but I was uneasy, and the reason is that the world's not ready yet for an all-out missile war. It's too inexperienced. I mean, its aim ain't good enough.

Oh, I know the experts talk about intercontinental ballistic missiles which are in place and zeroed in on this or that big population center, but judging by the number of failures, misfirings, and off-course satellite shots so far, how do I know a giant missile with an atomic warhead aimed at Lubbock might not get off two degrees and land on my chimney?

He said producers should put about 10 maggots or worms from a wound in a container of alcohol or water and send it to Box 969, Mission, Texas, or they may send the samples to him and he will forward it to Mission.

nitwit can pull the pin loosening a missile going 600 miles a second. I tell you this is a dangerous situation for a man who has spent years carefully developing a farm that's not worth dropping a cannon ball on.

Building a big city, that's one thing, everybody knows that's a bomb target, but when even this Johnson grass farm might get hit through some unlicensed gunner's bad aim, nobody's safe. Something ought to be done about it.

By the way, a lot of people are saying, "We sure proved Khrushchev was a liar when he said he didn't have any big missiles in Cuba, then agreed to remove them," but anybody who's just now finding out the Russians are liars, well, it's mighty late in the day for him.

Tell any person that she, or he, has charm and the chances are better that there will be charm.

Garland Is Elected To Dodge Group

L. J. Ouellette, director of Dodge dealer relations, announced the election of B. D. Garland, Jr., Garland Motor Co., Littlefield, to the Dallas

Region Dodge Dealer Advisory Conference. Ouellette said that Garland will represent the Lubbock sales district on the regional committee.

The National Committee is composed of 18 regional committees for selection of the national members. The Dodge Dealer Advisory Conference, which meets semi-annually, represents the more

than 2600 Dodge dealers throughout the country, and its purpose is to counsel with members of Dodge management on advertising, merchandising and promotion of Dodge cars and trucks, public relations and the administration and operation of dealerships. Garland is one of 16 elected representatives that will represent the sales districts of Texas and New Mexico.

Extension Of Screwworm Fly Release Announced

Extension of the sterile fly release area and changes in the release rates were announced by officials of the Southwestern Screwworm Eradication Program last week. The latter will be stepped up in areas and reduced in others. While definite release areas have been designated for this will tend to vary according to the number of conserved screwworm specimens to the Mission laboratory identification. Thus, says

Kimbrough, the producers themselves, will largely determine how many flies they will get each week. This, of course, affects only those counties within the fly release area, he said. The additional area is composed roughly of the territory encompassed by a line running west from the old line along the Sutton - Schleicher County line, passing just south of Ozona and Sheffield and continuing westward until it intersects with a line coming north from the U.S. - Mexico border and passing through Sanderson. This line could vary somewhat, officials have said.

This new release area will receive 600 sterile flies per square mile per week. The Edwards Plateau and surrounding territory where native flies still exist in large numbers will receive 1,000 flies each week. The areas in southern Texas where fewer screwworm cases are being detected will receive 400 flies per square mile each week. Program officials will be watching the number of specimens confirmed as screwworms which are sent in to the laboratory each week by livestock producers and livestock inspectors. This will largely determine whether the number of flies being dispersed in any area should be increased or re-

duced. So, says Kimbrough, it is up to producers to check their livestock on a regular basis and send in samples, unless they want to run the risk of having the number of sterile flies released in their area reduced.

By the way, a lot of people are saying, "We sure proved Khrushchev was a liar when he said he didn't have any big missiles in Cuba, then agreed to remove them," but anybody who's just now finding out the Russians are liars, well, it's mighty late in the day for him.

Gifford Hill Plans Open House

Gifford - Hill - Western, the company that has pioneered the manufacture and installation of irrigation pipe lines all over the southwest, is proud to announce their newest lock-seal plant now ready for production at Plainview, Texas. A formal open house, to which the public is cordially invited, will be held all day Saturday, November 10th, at 24th and Columbia in Plainview. This open house will be a real treat for everyone who attends. You will see on display the world's most modern and efficient way of handling irrigation water with aluminum pipe. Gifford - Hill - Western's new improved wheel - move sprinkler system, tow-move sprinkler system and farm engineered pump system will be displayed. Row King Gated pipe will be set up just as it is used on the farm. Of interest to everyone is the new lock - seal plant where joints of this new concrete irrigation pipe are manufactured, steam cured and made ready to use on the farm. This is one of the area's best examples of heavy industry and agriculture working together. Not only will

you see how lockseal is manufactured, but exactly how it is installed on the farm. Gifford - Hill - Western is trying to make this the most interesting and enjoyable open house that the public has ever seen. Here are some of the additional features of the open house A gift for everyone who attends . . . Refreshments and music . . . Free rides for the kids . . . Mark Wilson from CBS-TV's "Magic Land of Allakazam" A silver dollar treasure chest . . . bring your key . . . For some lucky irrigation farmer -- a \$1,000.00 lock-seal irrigation pipe line installed on his farm! These are some of the high lights of Gifford - Hill - Western's big open house in Plainview, Texas, to be held all day this Saturday, November 10th. The plant is located at 24th and Columbia (on the Amarillo Highway, north city limits). Make your plans to attend. You will learn how to better handle your irrigation water and there is fun for the whole family waiting for you.

Classing Office Has Increase In Samples

The Lubbock Cotton Classing Office reported 28,500 samples classed for the week ending November 2 and had a carry-over of 3,500 samples. The Lamesa office classed 7,000 samples with a carry-over of 1,000 samples. The Brownfield office classed 9,200 samples with a carry-over of 1,500 samples. To date 142,000 samples have been classed in the three offices. Last year on November 2, 473,000 samples had been classed and the three offices had a total carry-over of 50,000 samples.

There was a slight improvement in the quality of the grades classed this week. Forty-six percent of the samples classed

were white qualities as compared to forty-one percent last week. Middling Light Spotted accounted for 45 percent and Strict Low Middling accounted for 25 percent of the cotton classed.

The average staple length remained the same as last week - 30.4 thirty - seconds of an inch. Staple length were distributed as follows: 7/8 and shorter .5; 29/32, 9; 15/16, 57; 31/32, 27; 1 inch, 5; 1-1/32, 1; and 1-1/16 and longer .5 percent.

The micronaire reading percentages for the week were: 2.7 - 2.9; .5; 3.0 - 3.4, 5; 3.5 - 3.9, 19; 4.0-4.4, 44; 4.5-4.9, 28; and 5.0-5.4, 3 percent. Readings of 2.6 and below and 5.5 and higher each came to less than one half of one percent.

The movement of cotton on the Lubbock market continued to increase this week, with the Lubbock Cotton Exchange reporting 16,800 bales purchased for the week ending November 2. This was 5,800 bales more than the previous week and compares with 33,000 bales reported for the same week a year ago.

(Continued from the Skat) say, "I have my whole life to live. What does one second matter?" Many speeding motorists have used "I was in a hurry" as an alibi to excuse them for a ticket or maybe as an excuse for taking lives.

Is time so important that we can only hear it pass? Should we use our thought to be concerned with, "Will I be late?" or should we use it in a moment of meditation or relaxation?

Let time be a basis for organizing your activities but not ruling your every moment and thought.

remained the same this week with Middling 1 inch quoted at 32.30. Quotations for the predominant grades and staples are: Middling 15/16 31.30; Middling 31/32 31.80; Strict Low Middling 15/16 30.20; Strict Low Middling 31/32 30.90; Middling Light Spotted 15/16 30.30; Middling Light Spotted 31/32 31.00; Strict Low Middling Light Spotted 15/16 29.50; and Strict Low Middling Light Spotted 31/32 29.75.

We love our football boys!! Patsy, where did you and Linn go Saturday night???

Marilyn, are you turned against Tullia completely???

Rionda, what's the latest from Pep? Did you have fun Sunday???

Paula did you really break up Sunday???

Tony, if that's what happens when you go in the hospital, I know a lot of people that wish they were sick???

CAFETERIA

(Continued from the Skat) eating. While setting at the table they count the tickets and wrap the silverware for the next day. After this they go to the kitchen and clean up. Two of them clean the steam table, three clean the stove, one cleans the restroom, one the storeroom, one the table, one the 40 quart mixer, 20 quart mixer, and the coffeepot, and the rest of the twelve finish washing the dishes.

All 12 of the staff sweep the dining room floor and mop. The floor is mopped thoroughly each Friday and spot mopped all the other days. The kitchen is mopped every day and the whole area is waxed, as Mrs. Martin said "every payday." They finish up about 2:30 or 3:00 and then at last... HOME AND REST!

If this ends a normal day at the lunchroom it is a good idea there are not very many unusual ones... for the lunchroom might not be open for business because of a lack of workers!!!!!!

Soil Testing

Soil testing is being recognized by farmers, ranchmen and gardeners as the accurate way to determine the fertility of their land, according to report by William F. Bennett, extension soil chemist, Agricultural Extension Service.

During the report year of September 1961 to September 1962, a total of 17,768 soil tests were made by the three College laboratories, Bennett says. This exceeds the record year of 1959-60 with almost 2,000 tests, and is higher than the 1960-61 year of 13,987.

Baylor county laboratories during the year just completed, tested 1,756 samples and with less than a thousand in 1959-60, says Bennett. High Plains laboratory, in its second year of operation, handled more than 2,000 samples as compared with last year, he adds. The ASM College laboratory tested 11,990 samples this year, 2,000 more than the 1960-61.

Counties submitting the most number of samples were #93; Fannin, 650; and #97, 577. Thirteen other counties submitted more than 100, Bennett says. Some of out-of-state samples sent for analysis came from Mexico, 21 and #15.

These figures show that people are realizing more each the importance of this service performed by the three laboratories in Texas, says Bennett.

WATCH THEM IMITATE THIS ONE!

This is the look of things to come in modern motor car styling. It's the 1963 Cadillac—a motor car so beautiful and so tempting it is difficult to resist. The new look in Cadillac combines formality and youthfulness, majesty and vigor in a way that is predictably trend-setting. And it belongs to Cadillac alone. You won't see any others with that sweeping expanse of hood and deck that gives the 1963 Cadillac its unique look of vitality and power. And its discerning use of chrome and adornment welcomes a new purity of form in automotive design.

Of course, there's a great deal more than styling in this new Cadillac that is worthy of emulation. There are Cadillac's beautiful and luxurious new interiors—and Cadillac's remarkable new performance—and Cadillac's unprecedented choice of personal appointments and accessories—and Cadillac's unrivaled dependability and value. Cadillac is now more clearly than ever before the Standard of the World. The thing to do is to see and drive one of the twelve brilliant new models and get the whole Cadillac story for 1963. And for a full year at the wheel, do it before another week goes by.

You Can't Run Away From Life

Rev. Robert Longshore,
Pastor, First Baptist Church

"For me to live is Christ..." A recent book by a writer named Harold Walker is called Power To Manage Yourself. That title suggests the fact that each of us has on his hands this thing called life and must do something with it. The philosophers tell us that reality is that which must be dealt with. You do not have a choice as to whether you will deal with it, but you do have a choice as to what you will do with it. There are several possibilities.

In the first place you may decide to try to run away from life. Jonah tried to escape life with its responsibilities by running away. Jesus tells us about a man who was given a talent and told to put it to work. The other two men in the story did as they were told, but this poor fellow went out and dug a hole and buried his talent. He ran away from his responsibility. Unable to face the demands which reality makes upon us, some of us find ways of escape. This mode of dealing with reality explains why so many people drink intoxicating beverages. A British officer in India, warned that he was drinking too heavily, lifted his glass and said, "My friend, this is the swiftest road out of India." A doctor states the truth in scientific form; "Alcohol is used as an escape from the responsibilities and burdens of mature emotional life and its decisions. It provides with - fulfillment." If you do not like the world you life in, then you run away from it. You build up an unreal world time being. If you are Littlefield, you seem to be happy. be trying to re frustrated, you seem Whitefaces ee. If you are weak, you are grid action be strong. You are like use that found a cask of cal stadium ripping in the cellar. He away. "Hereford he taste and began to ing anyone's muscles, he took two Howle, head and stood up on his hind Wednesday faced the world and said, let the cat come on," ed to their s same method of dealing with life explains many of the divorces granted by our courts. Someone has said that a good sailor will not jump overboard in the first squall on the sea of matrimony but many of us are not good sailors. We run away from the responsibilities of the

Rev. Robert Longshore

marriage we have made and seek an escape in divorce. Much of our mental inness has the same cause. A visitor at a mental hospital saw a workman hauling materials for a new building. Among them was a patient with a wheelbarrow, but turned upside down. When the visitor asked him why he had it upside down, he replied; "Do you think I'm crazy? If I had it turned up they would fill it." That answer no doubt explained the reason why he was there. He had run away so much from the responsibility of pulling his load that he found permanent residence in the unreal world of insanity.

Of course the ultimate in the search for escape is suicide; in this country every year indicates how strong is this tendency to run away from life. Dealing with life by trying to escape it never works out very well. Ask Jonah. Ask the man who dug the hole in the ground and buried his talent. If you are looking for something to do with your life don't run away from it. Don't choose the course of trying to run along with it for this always spells compromise. Don't try to run your own life for you will likely run it into the ground. Why not put your life into Christ's hands and let him run it for you. That is what Paul meant when he said, "For me to live is Christ." Let him be your quarterback and call the signals. Your life will be much more meaningful and fruitful.

Jack Durham Family Visits Six Flags Over Texas

Earlier in the fall the Jack Durham family was lucky in a drawing sponsored by Pryor Hardware and Appliance for a trip to Six Flags Over Texas. Last weekend they made the trip and visited relatives in Dallas and Terrell. Jack, Jr., is attending W.T.S.C. Canyon and did not accompany his parents and sister, Wanda Carroll.

Miss Janice Adams, Muleshoe, spent Thursday night and Friday with her aunt, Mrs. H. H. Robertson.

Elouise Terrell's room-mate at Eastern New Mexico University, Portales, Sue Payne of Eunice, N. M. accompanied her home last weekend.

Mr. and Mrs. Victor Reynolds and Mrs. Carlton Bowman were in Canyon Thursday for a visit with their daughter and niece, Judy Bowman, a freshman at W.T.S.C.

Nellene Embry of W.T.S.C., Canyon accompanied her parents to Lubbock when Nancy was there from SMU.

Mr. and Mrs. Boyd Gross are visiting relatives and friends in Missouri. Before their departure her son Charlie, Daniel, Muleshoe and daughters were their guests.

Mrs. Gladys Joplin and Mrs. Ann Rutledge, Littlefield, were guests of Mrs. G. D. Lair Friday evening.

Guests of Mrs. H. H. Robertson Wednesday were her sister, Mrs. Rena Crowell and friend Mrs. Lena Reese, Odessa. Mrs. Reese and Mrs. Robertson were school friends and had not seen each other in more than 30 years.

Roy Simmons was brought home from Methodist Hospital this week. It was necessary to amputate his leg in October.

Cpl. Glen Hughes, Mrs. Hughes and three children left this week for Ft. Bragg, N. C. where he will be stationed. He

recently returned from a year's tour of duty spent in Viet Nam.

Mr. and Mrs. S. E. Lightner visited his sister, Mr. and Mrs. Ollie Foster and sons in Lubbock last Sunday.

Mrs. Clara Stokes and son Johnny spent the weekend with relatives in Causey, N. M.

Mr. and Mrs. Bennie Shipley and Carty Mac and her mother, Mrs. Annie McCarty, Anton, were in Lubbock, Oct. 27 for dinner and a visit to Tech Museum to celebrate Carty Mac's twelfth birthday.

Mr. and Mrs. Joe Bozeman visited his sister, Mrs. Roxie Seymour, Earth Thursday. Joe continues to improve from major surgery several weeks ago.

Mr. and Mrs. J. H. Bradley had as guests Sunday Mr. and Mrs. Gordon Thurman and four children, Hereford.

Guest of Mrs. E. F. Nottall and Leray Tuesday was Mrs. F. J. Kirk, Littlefield.

Paul Lair, Vallejo, Calif., and Mrs. Elsie Bess Sherman, Temple, returned home after spending the past week with their mother, Mrs. Graham D. Lair.

Mr. and Mrs. Jim Nix left Sunday for Wilcox, Ariz.

Mrs. Fred Hammi, Hart spent last week with her daughters, Mrs. W. P. Holland, Jr. and Mrs. Gerald Coffey and family. Mr. Hammi was on a deer hunt.

Preliminary work is expected to begin the first part of November on the paving program for Amherst. The bonds were approved and the city commission met Friday Oct. 26 to open the bids. Five were submitted and the contract was awarded to the F. E. Hodges Construction Co., Lubbock.

Ralph Douglas, Littlefield is the engineer for the project. The City Commission is composed of Lloyd Pryor, Mayor, Ernest Black, and Bob

Clayton, commissioners.

Rev. and Mrs. John Rankin were in Ft. Worth this week and attended the annual meeting of the Texas General Convention. They attended the Texas W.M.U. and Brotherhood meetings held in conjunction with the general convention meeting.

Eighteen GA's and leaders attended the Associational GA workshop in Bovina Saturday. The workshop which was planned by Mrs. Don Murray, associational GA director was designed to help new officers and members of GA organizations.

Mrs. J. P. Brantley led a conference for Forward Steps chairmen. Joanie Brantley is Associational Forward Steps chairman and represents Amherst on the council.

After lunch the main address was brought by Rev. M. Frank Gillham a missionary to Japan who is home on leave. His message was "His Way - Mine."

Those attending from Amherst were Joanie Brantley, Judy Brantley, Linda Heard, Ann Hedges, Carla Hedges, Charlotte Crawford, Debbie Landers, Susie Humphreys, Ruthie Fowler, Brenda Davis, Linda Johnson, Pam and Teena Morphis, and Mmes. J. P. Brantley, James Holland, Buster Fowler, Bob Clayton and Randall Crawford.

AT PEP

Mrs. Elwanda Duke attended a Teachers meeting at Canyon Saturday.

Joanie Brantley on the theme "Moments with God," she was assisted by Elaine Black and Linda Heard. Ann Hedges presented Bud with a book for his birthday from the GA's.

At the regular meeting which followed Shelia Lindsey brought the call to prayer. With the room in total darkness, Shelia pointed out the darkness of the world without Christ, and she lighted a candle to symbolize the light of the gospel. Then a candle was lighted by each member to represent a missionary having a birthday. Judy Brantley led in prayer. The program concerned the appointment of missionaries by the Foreign Mission Board. Before a missionary receives his official appointment he must give his testimony before the board. Several candidates were portrayed by Ann Hedges, Shelia Lindsey and Carla Hedges.

Business was conducted by the president Linda Clayton and plans were made to attend the Associational GA workshop in Bovina Saturday. Mrs. J. P. Brantley, local director, commended the organization on achieving an "Honor" status last year and presented the group with a plaque of the GA allegiance.

The meeting closed with the girls repeating the allegiance in unison.

Joanie Brantley served refreshments to 11 members attending.

Mr. and Mrs. N. B. Embry attended the Tech - SMU game in Lubbock Saturday of last week. Their daughter who attends SMU was there for the game, with the students from Dallas.

Mr. and Mrs. W. P. Holland, Sr., are in El Paso and New Mexico for several days.

Jim Homer left last Thursday to attend the Cursillo meeting in Lubbock at Saint Elizabeth's Hall. He arrived home Sunday.
