DEPUTY SMITH ... A real haul after a real chase.

Truck Driver Flees

Deputy Chases Down \$2,000 Load Of Beer

A 60 mile-per-hour chase down dirt roads north of Littlefield about 1:30 a.m. Tuesday ended 15 miles later with a county deputy nabbing a record truck load of beer, but with the truck driver escaping on foot.

The county confiscated 500 cases of beer, two cases of whiskey and a quart of wine along with the truck. The stuff was valued at about \$2,000 on the wholesale market.

Deputy V. L. Smith Jr. of Earth took up the chase about 10 miles north of Amberst, winding down narrow roads 15 miles before he was able to force the truck to a halt.

The truck, a 1 1/2-ton GMC, had New Mexico tags and a Texas inspection sticker. It presumably was coming from New Mexico, headed east.

The chase ended east of U. S. 385 about 15 miles north of Littlefield as the driver slowed down and left the truck via the right door while the vehicle was still traveling.

"I got out as quick as I could and started chasing him on foot, but that fellow ran like a jack-rabbit," said Deputy Smith.

The officer said he fired a couple of warning shots in the air in an attempt to halt the fleeing driver, believed to be a Latin American. Smith said he chased the man "about a block."

During the car-truck chase, Smith said the driver thwarted his attempts to get around him, swerving to the center of the road while traveling at 60-mph clip. Smith said his radio went on the blink during the chase, and he was unable to call other officers in for help.

The truck was later driven to Littlefield, where it took 10 men about an hour to unload it and put the confiscated beer under lock and key.

County Attorney Curtis Wilkinson and Sheriff Dick Dyer were investigating the case Wednesday morning, checking out the license plates on the truck.

No charges had been filed, and the search was continuing for the driver of the vehicle.

In the only other liquor law violation case lately, county officers jailed a Latin American man Saturday night on a charge of possession of beer for purpose of sale.

Officers said they arrested Alfred Segovia, Littlefield, at the Mexico Cafe, where the beer was found. Segovia pleaded guilty in county court and was fined \$100 and costs.

THE WEATHER

Today's forecast - Partly cloudy and warmer. Temperatures - Sunday high 101, low 70; Monday high 94, low 71; Tuesday high 90, low 68; Wednesday high at 10 a. m. 66, low 65.

Gatesville Time Given 2 Boys, 13

Two 13-year-old Littlefield Latin American boys who admitted a rash of recent burglaries and vandalism were declared delinquents Tuesday and sent to the state reform school at Gatesville.

Another boy, 15, who had been judged a delinquent at a hearing Saturday morning, was placed on probation to relatives in Roswell, N.M. He also had admitted burglaries and vandalism.

Disposition of these cases came Tuesday after the two Latin Americans and the other boy were arrested in separate incidents last week.

The two 13-year-olds were arrested last Friday night and later admitted break-ins at a firecracker stand, Caprock Fertilizer, Lamb County Locker, Johnny's Wheel Inn Cafe, Highway 51 Garage, Foxworth-Calbraith Lumber and Highway service station.

They also admitted vandalism at Renfro Grocery and Sumrall Pontiac, where windows were broken by flying rocks.

The 15-year-old had confessed to burglarizing Tunney Moore Appliance Tuesday, June 23. At the time of this break-in, he was awaiting a hearing in juvenile court on previous break-ins at Molder Pump Co., the bus station cafe and the elementary school.

The United States ranks 15th among nations in per capita consumption of milk.

Whitharral Petition Requests 'No Change'

Open And Shut Case?

What to do with the city's swimming pool, which has operated in the red this summer, will be a major item before city councilmen at a regular meeting tonight.

The council will get together at 7:30 p.m. at the city hall. Councilmen discussed the

possibility of closing the pool permanently at their last meeting, but tabled action on the matter until tonight.

Discussion of closing the pool came after the council heard a report that the pool operated on a \$9 per day revenue with \$18 per day over-

head in recent weeks. Major attraction at the pool was the city's annual summer recreation program. With that program over and most of Littlefield's swimmers now using the new Crescent Park pool, the 12-year-old pool is getting little use.

White To Rebuild

\$50,000 Fire Destroys Headquarters At Ranch

New headquarters for historic Yellowhouse Ranch are being planned following a \$50,000 fire which destroyed the 27-year-old ranchhouse Sunday night. Owner George White of Littlefield said Wednesday.

A bolt of lightning struck the ranch about 10 p. m. Sunday and turned the house into a "ball of flame," White said.

Littlefield and Levelland fire department units were dispatched to the scene, but the fire burned beyond control before they could reach the blaze.

The home, built in 1932, was occupied only on occasion by White, who lives on the Levelland highway.

Lightning struck during a severe electrical storm which was accompanied by high winds. Only a sprinkle of rain fell.

Firemen were able to keep the blaze from spreading past the ranchhouse. Water from a 12-foot swimming pool was used in combatting the blaze, along with water carried by the fire trucks.

No one was in the home when the fire started. The ranchhands were in a nearby house.

Entries for the event are being accepted now by Norman Dudley of Hart and Mrs. Clovis Poteet of Olton, who is chairman of the committee.

A "Little Miss ORC" contest has been scheduled in conjunction with the bathing beauty contest.

A beach theme will be carried out in the decorations, according to Mrs. Poteet, who is in charge of arrangements for the contest.

Entries in the beauty contest must be 15 years of age or older and single. "Little Miss ORC" will be named from entries not more than 5 years old. Trophies will be awarded to both winners.

Conoco To Drill

Wildcat, No. 1 Reed

Continental Oil Co. of Borger will drill a 4,000-foot wildcat oil venture, the No. 1 D.C. Reed, 10 miles southwest of Littlefield.

The project spots 330 feet from the north and east lines of labor 11, league 677, state capitol lands survey in Lamb County on a 177-acre tract.

'Hams' Solve

Emergency, Finish Alert

Lamb County Amateur Radio Club's emergency drills here Saturday night and Sunday turned out to be "for real."

The club, which went on 24-hour alert for "disaster" conditions, wound up with a broken fan belt on its power supply Saturday night and faced an emergency in continuing the drills.

But the "Hams" reported they solved their first emergency and ended up by making 94 contacts in 27 different states.

"The closest was Lubbock," reported Hubert Carrico of Littlefield, one of six licensed "hams" who took part in the alert.

The farthest was New Hampshire. Other "hams" in the alert were Dr. and Mrs. Ralph Schilling and son, Ralph Jr., Littlefield; and Pat Kent and Charles Logan, both of Sudan.

The club began the 24-hour alert at 4 p.m. Saturday. Coffee and donuts were furnished by several local grocers.

Club members making the contacts worked under emergency conditions, assuming that Littlefield had lost its communications, commercial power, telephone and telegraph lines—all contact with the outside.

68 Phone Users Sign Request

A petition signed by 68 Whitharral telephone subscribers — two thirds of the phone users in the community — was submitted to General Telephone Company here Monday, asking that "no change be made" in the present toll-free service to Littlefield.

The action was the latest in a series of developments prompted six weeks ago by a move to establish toll-free service from Whitharral to Levelland, rather than then Littlefield.

In petitions presented to Levelland Mayor J. Spencer Ellis six weeks ago, 36 Whitharral phone users had requested non-toll service to Levelland, in preference to the existing service between Whitharral and Littlefield.

The 68 Whitharral subscribers who signed the latest petition said the Levelland request "does not reflect the true wishes of the majority of the patrons of the Whitharral exchange."

Ralph McClure of Whitharral, who presented the petition here Monday, said 96 of the 107 subscribers in the Whitharral Exchange were contacted to sign the petition. Sixty-eight of the 96 signed the document.

General Telephone District Manager Bob Saunders said the petition will be forwarded to the company's Brownfield headquarters.

"Our position," said Saunders, "is this: Whitharral subscribers are our customers and we certainly will abide by their wishes as far as it is economically feasible."

The text of the latest petition: "We, the undersigned patrons of the Whitharral Telephone Exchange, wish to go on record as favoring the present set-up of toll-free service to Littlefield, rather than to Levelland, and respectfully and urgently request that no change be made."

"We feel that the petition submitted to you by the representatives of the City of Levelland does not reflect the true wishes (as evidenced by this petition) of the majority of the patrons of the Whitharral Exchange since it was not circulated generally to the patrons and the first knowledge many of them had of the requested change were items in the Levelland newspapers pertaining thereto."

All three towns involved in the petitions are served by General Telephone. Under the present set-up, Whitharral subscribers now call Littlefield toll-free, but must pay toll on calls to Levelland.

General Telephone officials have said previously that "Extended area service" to Whitharral from Littlefield will be installed when Littlefield is converted to dial next June. This would link Littlefield to Whitharral for non-toll calls both ways.

INDEPENDENCE DAY HOLIDAY SLATED

Most stores will be closed here Saturday as Littlefield observes Independence Day.

City and county offices will be closed, with most employees off for the holiday. The Chamber of Commerce office also will close.

State and federal offices will be closed, as will both Littlefield banks.

Who Can Vote On U.S. 84?

Who can vote in the coming U.S. Highway 84 right-of-way bond elections? Where does the qualified voter cast his ballot?

The answers to those two questions are important with the three Highway 84 road district elections only 12 days off and absentee voting already under way.

Here's the answer to the first one: Any otherwise qualified voter who has rendered real or personal property for taxation within the road district in which he resides may cast a ballot. "Otherwise qualified" means you must have paid your poll tax or else be poll tax-exempt.

The answer to the second question is this: A qualified voter may vote only in the district in which he resides.

For example, a voter may own property in both road district 1-A (Littlefield area) and district 4 (Sudan area). If he lives in district 4, he may vote in district 4 only.

Persons voting absentee in the July 14 elections may do so between now and July 10. All absentee votes must be cast at the county clerk's office in the courthouse here.

GARDENING was never better in the Littlefield area, as attested here in the garden of Mrs. Alvis Tubbs, who lives east of Littlefield. She's shown picking beans in her plentiful garden. For more pictures and a story on several Littlefield gardeners, turn to page three. (STAFF PHOTO)

MRS. KIRBY WAYNE CARRELL (Formerly Marilyn Kay Aduddell)

Miss Aduddell - Carrell Exchange Vows Sunday

Marilyn Kay Aduddell became the bride of Kirby Wayne Carrell before an altar decorated with pink candles, pink gladioli and greenery, Sunday at 4 p.m. in the Lubbudie Baptist Church with the Rev. Bill Curry officiating.

Parents of the couple are Mr. and Mrs. John Aduddell and Mr. and Mrs. Thomas Carrell, all of Lubbudie.

The bride, given in marriage by her father, wore a gown of shimmering tulle with lace inserts of imported Chantilly lace. The floor length gown was designed with a scalloped neckline outlined in pearls, with long sleeves of lace terminating in points over the hands. The dress was accented with a satin stole effect in back which fell into a chapel train. Her fingertip veil of tulle fell from a crown of beaded pearls. She carried a bouquet of white split carnations and white stephanotis atop a white Bible.

Sandra Broyles was maid of honor and Donna Duckett of Plainview was bridesmaid. They wore identical dresses designed with full length circular skirts with alternating ruffles of white lace and pink nylon on a strapless bodice. The dresses were accented with pink-nylon cummerbunds. They wore headpieces of white lace leaves and carried bouquets of pink roses on white satin hearts with streamers.

Candlelighters were Peggy Carrell, sister of the groom, and Marsha Aduddell, sister of the bride, both of Lubbudie. They wore identical dresses of piny nylon.

Beverly Tiller of Bula, niece of the bride, was flower girl. She was attired in a pink lace dress and carried flowers in a lace umbrella. She wore a waist corsage of pink sweetheart roses.

Clifford Huggs of Lubbudie served as best man and Jerald McCashee was groomsman. Kenneth Duckett and Derrill Jennings assumed the ushering duties.

"Till" and "The Lord's Prayer" was sung by Mrs. Ira Wimberly, accompanied at the piano by Mrs. Wayne Moore, who also played traditional wedding music.

The bride's mother was attired in a navy lace dress with white accessories and a white orchid corsage. The groom's mother chose a royal blue dress with white accessories and a white orchid corsage.

A table laid with white net over pink and crystal appointments were used at the reception which followed the wedding ceremony.

After a wedding trip the couple will be at home at 2006 B, Lubbudie, where the groom is employed with Pungly Wigly No. 7.

Barnett Named A&M Honor Student

Max Barnett of Littlefield, has been named a distinguished student at Texas A&M, where he will be a senior next fall.

The honor was placed upon him because of his scholastic achievement last semester. Max is majoring in animal husbandry.

Virgie Baccus Feted Saturday With Shower

SUDAN - Miss Virgie Baccus, bride-elect of Jim Eddins was the honoree for a tea-shower held Saturday afternoon in the home of Mrs. Radney Nichols.

Approximately 50 guests called between the hours of 3 and 5 p.m. Yellow and white, the honoree's chosen colors, highlighted decorations.

In the receiving line was Miss Baccus, her mother, Mrs. Elgan Baccus and Mrs. Wendell Eddins, mother of the groom-elect, and Mrs. Radney Nichols.

The serving table bore a pale yellow umbrella atop daisies and yellow rosebuds. Yellow candles were highlighted with yellow skirts and accented with white daisies. Floral arrangements throughout the house completed the decor.

Alternating at serving and showing the array of gifts were Mesdames Billy Baker, Marion Chaulker, Joe Price and Miss Louise Boyles.

In keeping with the colors, the hostess gift presented to Miss Baccus was a yellow electrical appliance.

Others in the house party included Mesdames Joe Foster, Raymon Bowman, Milton Wiseman, Tray Gaston, Glenn Gatewood, Ves Patterson, Joe Salem, Ralph May, R. D. Nix, J.W. Olds, F. M. Smith, and Olan Roark.

OF LITTLEFIELD

KINDA SCARY—Michael Griggs, waits with wide eyes and holds his breath as Mrs. Henri Boyin, a volunteer nurse, prepares to inoculate him against polio. Mr. and Mrs. C. D. Griggs brought their son to one of five free clinics sponsored by the Houston Junior Chamber of Commerce. (AP PHOTO)

It was interesting to hear Harold Clements tell about the trip they made up on the Conchos River when the children were very small. They had planned to stay a week, but after they had tried it for two days, (it rained most of the time, besides the children whooping it up pretty good all the time) they decided to pull stakes and head for home.

Yes Suh, Technique And Hog Is Kentucky Ham

By DORMAN CORDELL
LOUISVILLE, Ky. (AP) — The formula:

Common conversation among farmers nowadays is already about whether or not we'll have an early or late freeze. Some of them have been fortunate enough to still have some growing April and early May cotton. They want farmers who have been haled or washed out will be very much interested in the first freeze.

We look back through our records and find that the average freeze for the last 65 years is November the second. The earliest freeze on record is October 7 and the latest is November the 22nd.

Nearly everybody has a few hogs since sorghum prices have gone to the bottom, and IF hog prices don't go down to nothing, they'll get better than \$3.00 for that \$1.35 sorghum by feeding it through the hogs. In fact swine prices have been declining the last few months. Looking at it from the farmers side of the fence, prices shouldn't go down. Looking at it from the housewife's budget book, meats have always been too high. The sad thing about the whole situation is that the cattle and hog prices may go down, but there is very little of the price decrease revealed in the weekly meat purchases in the grocery store.

We know that bread prices have climbed in the last five years while wheat prices have continually decreased.

What's the answer? It isn't all Benson's fault. . . it isn't all Republican error. . . some of it is due to the rising inflation of wages and packaging materials. Whatta we gonna do about it? Well, I would say, just wait until next year. Next year is an election year.

July is a good month for many things. . . to a lot of folks it's bargain month because the stores clean up the summer merchandise with their July Clearances. Our first July Clearance appears in today's Leader. It is Little's and it continues through Dollar Days, Ware's closes Friday, preparing for their sale Monday.

Nothing distributes wealth like taxation and a large family.

For one month a year Moslems eat nothing during daylight hours.

The green ham is hand-rubbed with the curing mixture. Then it's packed down in mixture for 25 to 35 days depending on the weather. Knowing when the hams are ready for smoking is a true art. John Hinkle, the meat-curing foreman, says, "One day I look at them and say to myself, 'They're done.' You don't get that out of the ham, you get it out of your head."

After the ham is washed with cold water to remove the excess salt, it is smoked with green hickory wood. Then it is wrapped in heavy paper, tied into a cotton sack and hung up to cure.

Cures 4,000 a Year
Henry's words on Kentucky hams usually are accepted as gospel. He and his helpers cure about 4,000 a year at his home at nearby Pewee Valley and at his wife's family's farm about 50 miles northeast of here.

There's no secret about the procedure in curing Kentucky hams. The technique used is centuries old. But there is an art to using the procedure which only experience can give, Henry says.

Henry has refined his curing methods somewhat since he started curing hams in 1937. When he started, the hams were cured with salt. Now a mixture of salt, sugar and pepper is used.

Of course, the first step in getting a good cured ham is having a good green ham.

Prefers Corn-Fed Hogs
"A prime corn-fed hog is the secret to a good ham," Henry says. "Virginia hams come from peanut-fed hogs, but even those are finished on corn."

At the risk of starting an inter-state war, Henry claims that Kentucky hams are better than those from Virginia. "The hams from those peanut-fed hogs seem to me to be stringier and oilier than those from corn-fed hogs," he says.

Spotted Showers Hail Continue

Thundershowers continued to spot Lamb County early this week, dropping moisture varying from a trace to two inches.

Light rain fell in Littlefield early Wednesday morning, following showers of Sunday and Monday which dropped .08 and .02 inches.

Heavy hail struck northwest of Olton Monday night and rain in that area ranged from a half to two inches.

A narrow strip 1 1/2 miles east of Earth, running northwest, was hit hard by hail Tuesday night. Light hail peppered the Spade area Monday night, but was not believed to have caused any damage. Showers ranging from .25 to .48 fell in the community.

Light hail was reported southwest of Sudan Sunday night, but it did little damage.

HERE'S HOW . . .

MAKE AN EARLY AMERICAN WOODBOX

A simulated antique woodbox follows early American design. First make the base, as shown, fastening it with 16-penny nails and glue.

The floor and back are of 1 by 10-inch lumber, edge-glued or cleated. Use 2 by 2-inch corner supports.

To make the ends, draw a pattern to size, as shown in the section drawing, using measured widths and thickness of the boards. Mark the angle of the front and of the bevels.

Use two 1 by 12-inch boards for the front, ripping them to coincide with the chamfer lines of the sides.

Hinge the top with a large decorative hinge.

Round all sharp edges by rasping and sanding. Add decorative screws or upholsterers' buttons.

Memorial Cancer Fund Established; County Chapter Will Be Organized

In response to numerous requests from families and individuals, the American Cancer Society has inaugurated a memorial fund to which families and friends of cancer victims may contribute, as a way to commemorate a loved one who has died of cancer.

Mrs. J. R. Fain of Littlefield.

Mrs. Fain also announced that an organizational meeting will be held Tuesday at 8 p. m. at her home at 521 E. 16th for the purpose of organizing a county chapter. She urges all those interested in a county-wide organization a-

gainst cancer to attend the meeting. "The memorial fund has been established because so many families and individuals have sought a way to commemorate a loved one who has died of cancer," Mrs. Fain said.

"Contributions made in memory of a friend or a member of the family are acknowledged by the American Cancer Society, and a memorial card is sent to the family, stating that a memorial has been received and giving the name of the donor. These contributions may be made in any amount."

Continuing, Mrs. Fain said, "Memorial funds are used to support the Society's three-fold attack on cancer through research, education and service."

"Although the major source of funds for this program comes from the Society's annual April campaign, memorial funds received throughout the year are becoming of increasing importance to the Society as more families and individuals become aware that they can contribute in the name of a loved one to the ultimate victory over the dread disease."

"The American Cancer Society is deeply grateful to everyone throughout the county who will use this practical means of assisting the Society to carry on the fight against cancer."

Memorial funds should be sent to the American Cancer Society, in care of Mrs. J. R. Fain, 521 E. 16th.

Others on the team are outfielder Clinton Ashley, Roden Drug; pitcher - outfielder Jerry Johnson, Olton; and infielder Bobby Hedges, Amherst. While the all-stars are playing at Lubbock this week, the rest of the league is taking a holiday until next Monday, July 6. In games last Saturday night, Ware - Keeling thumped Amherst and Roden Drug bumped Sudan. That made the standings look this way:

PONY LEAGUE (Second Half)		
Ware-Keeling	2 0	1.000
Roden Drug	2 0	1.000
Dairy Queen	1 0	1.000
Sudan	1 1	.500
Earth	1 2	.333
Olton	0 1	.000
Amherst	0 3	.000

Roden Drops Sudan, 6-3

Roden Drug won its second game of the second half here Saturday night, defeating Sudan's PONY Leaguers, 6-3, behind the pitching of Kenneth Polk. Roden wrapped up the victory with three runs in the bottom of the sixth, breaking a 3-3 tie. The Littlefield team took the lead in the second frame, with hits by Clinton Ashley and Terry Gage driving in three runs. Sudan, which had scored once in the top of the second, added two runs in the top of the sixth, with Pitcher Ray Roberts' hit driving in the counters. That made it 3-3. Gage's double and a single by Richard Kimbrough drove in the winning runs for Roden in the bottom of the sixth. Polk was the winning pitcher. Roberts took the loss, Sudan's first of the second half.

Bawcom Rips Foust, 25-9; Richey Wins

Bawcom Butane laced Foust Food, 25-9, and Richey and Son topped Mangum-Hilburn, 12-9, in minor league games at Little League Park Saturday night. Bawcom racked up seven runs in the first frame and six more in the second to take a 13-4 lead, then added a pair of runs in the third and 10 more in the fourth for its 25 scores. Kevin Hutson, with three singles, and Hilton Craddock, with a single, double and triple paced the Bawcom hitting attack. Kim Hanlin and Douglas McNeese had two hits each for Foust Food. Richey and Son scored four runs in each of the first, second and third innings, while Mangum-Hilburn got five in the first and four in the third. Mangum-Hilburn used walks and errors to get its nine runs, with the only M-H hits by Edward Moore and Junior Roddy. Richey picked up five hits, including two doubles by Lee Carter, Charlie Craddock had two singles, with Jerry Fudge getting the other hit, also a one-bagger.

Holiday For Travelers Will Be '96-Hour Nightmare' For Patrol

For thousands of area motorists, Saturday will signal the start of the beginning as motorists will be long, carefree holiday, but for a handful of Texas Department of Public Safety personnel, the same day will be the beginning of a 96-hour nightmare. These men of Region 5, who number approximately 140, will have the responsibility of trying to keep the ever-rising traffic fatality rate down to a reasonable figure in 60 North Texas counties. This small group will be trying to protect happy motorists from the Grim Reaper and the wise guy in the high-powered automobile on several thousand miles of state and federal highways.

It's going to be a tough job from the beginning as motorists will be eager to arrive at their destination and just as eager to get home. Major R. A. Crowder, commanding officer of Region 5 of the Department of Public Safety, has appealed to all motorists to take part in the State's "Share the Road" holiday program. The veteran highway patrolman cautioned travelers to exercise more than just the normal amount of caution when traveling over area highways during the Independence Day holidays. He explained that all roads will be handling a heavier flow of traffic than usual.

Major Crowder explained that thus far this year the state's traffic death toll has risen 10 per cent above last year's same period and the alarming rate shows no signs of decreasing. On July 4, 5 and 6 last year, 25 persons lost their lives as a result of Texas traffic accidents, a 26 per cent increase over the same period of this year. The Department of Public Safety estimates an additional 26 others will die on state highways.

Crowder ordered his men, who will be working from 12 to 14 hours a day while others are enjoying their holiday, to arrest less and reckless drivers they find on the highways the coming four-day period of decreasing. "We're going to do our best to keep our state roads safe," he said, "and if it takes extra hours to insure our citizens we'll do everything in our power to help them avoid a tragedy."

Hammons Funeral Home will be in charge of services.

Products Party Held At Hodges Home

WHITHARRAL - Mrs. Betty May of Littlefield was demonstrator for a products party Wednesday Morning at the home of Mrs. V. D. Hodges east of Whitharral. Mrs. Henry Jones was the "lucky lady" with Mrs. Clifton Adams "guessing the sales." Punch, coffee, cheese-its, and cookies were served to Mesdames May, Jones, Adams, Glenn Barbee, Roger White, Elva Crank and the hostess.

Texas Construction Hit New Peak In Year 1958

The construction industry moved ahead to unprecedented peaks in 1958 in Texas, even though some segments of the economy suffered setbacks, according to an article in the forthcoming issue of EAST TEXAS, official publication of the East Texas Chamber of Commerce.

Edward A. Sprague, writing in the chamber publication, called Texas expansion one of the most vigorous in the nation.

He pointed out that construction contracts rose sharply in May, 1958, and remained at peak level most of the year. As a result, work under way picked up sharply in the second half and reached all time highs by the year end.

Contracts for all types of construction in Texas totalled \$2,041,571,000, a 21 per cent gain over 1957, compared to a 9 per cent increase for the nation as a whole. Sprague pointed out that it was the fifth consecutive year of record-breaking contract totals for the state. Texas moved from fifth to fourth position in the United States in terms of total contract valuation. Ohio barely nosed out Texas for the number three position by less than \$5,000,000.

Contracts for residential buildings jumped to \$906,988,000, a 27 per cent increase over the 1957 level. This was in accordance with the general easing of credit in the first half of 1958, and the particular stimulus to home building of the emergency housing act. There has been no real letup in the basic demand for more and better housing, the article continued.

Other major construction categories of non-residential buildings and heavy engineering (public works and utilities) also showed improvement over 1957, with statewide increases on 17 per cent and 15 per cent respectively. The strength shown in Texas was in direct contrast to the weakness nationally in this category, which was down 3 per cent from 1957 on a 48-state basis. As non-residential buildings include the major sub-categories of commercial buildings and manufacturing buildings, most affected by government aid efforts, the 1958 performance was a particularly encouraging indication of fundamental good health in Texas construction.

Continued strength in the statewide construction picture was shown in 1959, contracts for all types of construction the first four months amounted to \$708,133,000, a 17 per cent gain over the comparable period last year. Building plans early in 1958 were influenced by adverse business conditions, Mr. Sprague pointed out; but, in Texas, at least, total contract valuation for the first third of last year was down less than 1 per cent from the first third of 1957. Thus, the advance so far this year shows real gains - not just recovery of lost ground. And it's enough to push Texas into third place in the nation, with a good chance of nailing down that position for the whole year.

In the first four months of 1959, contracts for residential buildings again made the most headway. Totals for this category reached \$373,484,000, a startling 42 per cent over the first four months of 1958 (which was above the comparable period in 1957). A high level of home building in Texas during the rest of the year seems assured. The state should get a good share of the 1,300,000 dwelling unit starts estimated for the nation during 1959.

Statewide contracts for non-residential buildings in early 1959 were below last year's level, due chiefly to the very high levels of activity in early 1958, rather than to any present day weakness. Heavy engineering contracts in the first third of 1959 were higher than the comparable third of 1958.

One of the most important features of the contract figures is that they show, in advance, the pattern of actual construction spending to be done in later months. Thus, Texas construction activity during the rest of 1959 should reflect the gains in contracts already let. Additionally, there is an excellent chance for another record year of contract totals in the state, which would augur well for the industry into 1960.

Adams' Sub-Par Golf Wins Littlefield Invitational

Carl Rushing Of Anton Takes 3rd Flight Title

Roland Adams bested defending champion Dave Lawson, 1 up, in an all-Lubbock golf final to take the championship of the 8th Annual Littlefield Invitational here Sunday.

Adams, shooting sub-par golf the third straight day, won the title with a birdie on the 17th hole. He and Lawson halved the 18th. Adams was 3 under par for the day, with Lawson 2-under.

The new champ ran in a 15-foot putt on the 17th green to take the lead. Lawson had evened matters back on the 15th with a bird.

Both men hit the green on the 18th hole. Adams eight feet away from the cup and Lawson 10. Both missed their putts and that was the match.

Only Littlefield Country Club golfer to win a flight was Carl Rushing of Anton, who defeated Marlin Bumpass of Lubbock for the third flight championship.

J. R. Chamberlain of Littlefield was runner-up in the second flight, losing in the finals to John Berry of Lubbock.

Another Littlefield golfer, Mackey Greer, won the second flight consolation with a victory over Max Harrington of Anton.

Two other Littlefield Country Club golfers made it to the final round, Jerry Biffle of Anton in

Amherst Girl Get WTSC Scholarship

AMHERST - LaPearl Emily Jones of Amherst has been awarded a \$100 scholarship to attend West Texas State College, Canyon for the 1959-60 session.

She was selected by a committee on scholarships for her outstanding record at Amherst High School.

The award was announced by WTSC Dean Walter H. Juniper, and funds are provided by the West Texas State Ex-Student Association.

Miss Jones, daughter of Mr. and Mrs. Aubrey R. Jones of Rt. 1, Amherst, is planning to major in secretarial science.

She was selected student of the month, served as editor of the school newspaper, and was chosen as "The Senior Most Likely to Succeed."

She was an officer in Future Homemakers of America, a member of the pep squad, basketball team, band, and chorus. Participating in the junior play and the senior play, she also served as secretary to the Principal for two years and secretary to the Superintendent for two years. She was also active in church work, serving as organist and pianist for the Methodist Church and as an officer in the Methodist Youth Fellowship.

Jaycees Plan Hypnosis Show In October

Littlefield Jaycees have completed arrangements with Variety International Productions of Houston to bring to Littlefield a program on hypnosis.

Littlefield and area residents will have an opportunity to see "Hypnodrama" at 8 p. m. at the high school auditorium on Oct. 6, 1959.

The arrangements were announced by R. B. (Slick) Chandler, Jaycee president, this week.

"Hypnodrama" features a past master of the art of hypnosis who has demonstrated before TV audiences, theatre crowds and performed in supper clubs and hotels all over the world.

The evening performance will be prefaced on the same afternoon by a free downtown show.

An advance agent is in Littlefield this week working out details for the performance with the Jaycees.

The agent is working with the club on a souvenir program for "Hypnodrama". Proceeds of the program and the ticket sale for the show will go to community projects of the Jaycees.

Best Room!

Take a tip from the experts... in their own words... and from on-the-record facts and figures: More than ever, Chevrolet gives you more than any other of the leading low-priced three! More room to relax in, for instance. A sampling of official dimensions reported to A.M.A.* makes this clear. Chevy front seat hip room, for one thing, is up to 5.9 inches wider than comparable cars. And Chevy even offers more front seat head room than all but one of the high-priced cars!

Best Brakes Not only bigger, but built with bonded linings for up to 66% longer life. Just to prove what's what, Chevy out-stopped both of the "other two" in a NASCAR†-conducted test of repeated stops from highway speeds.

Best Style It's the only car of the leading low-priced 3 that's unmistakably modern in every line. "In its price class," says POPULAR SCIENCE magazine, "a new high in daring styling."

Best Engine Every motor magazine has given Chevrolet's standard and Corvette V8's unstinted praise. As SPORTS CARS ILLUSTRATED puts it: "... surely the most wonderfully responsive engine available today at any price."

Best Ride MOTOR TREND magazine calls Chevy "... the smoothest, most quiet, softest riding car in its price class." You'll be

able to tell this yourself instantly, once you take the wheel.

Best Economy No doubt about this: two Chevrolet 6's won their class in the famous Mobilgas Economy Run, got the best mileage of any full-size car, 22.38 miles per gallon—with Powerglide.

Best Trade-In Check in any N.A.D.A.† Guide Book. Chevy used car prices last year averaged up to \$128 higher than comparable models of the "other two."

EDITORIALS

10 Seconds To Live!

EDITOR'S NOTE: Here's an editorial designed to bring drivers to their senses. It's something everyone should read, especially just before a holiday weekend, when traffic will be heavy.

By Raymond M. Eastman, Des Moines Register and Tribune. Reprinted by Special Permission of the DES MOINES REGISTER AND TRIBUNE

HE PUSHED HIS SLEEVE BACK, held his wrist to the lighted speedometer, squinting to read the time. A little after nine. Five, ten minutes after that to be home in half an hour. If he'd known he only had ten seconds to live, he might have checked his time more closely. He might have done several things differently. TEN SECONDS TO LIVE. He massaged his eyes with his thumb and middle finger, trying to rub out some of the sand. NINE SECONDS TO LIVE. He'd driven almost eight miles since lunch, and was beginning to feel it. EIGHT SECONDS TO LIVE. Lousy driving in the rain. It felt from your headlights just seems to soak in your windshield with the water. SEVEN SECONDS TO LIVE. Probably need a new windshield wiper blade. Old one just spreads the water and instead of wiping clean. Get one tomorrow, or next time it rains. SIX SECONDS TO LIVE. Somebody threw a cigarette out of an oncoming car. The red glow dissolved before it hit the pavement. FIVE SECONDS TO LIVE. He planted his heels on the floorboard, squirmed in the seat, trying for comfort. FOUR SECONDS TO LIVE. At 60 miles an hour, a car covers 88 feet of pavement every second. Four seconds: 352 feet. THREE SECONDS TO LIVE. Something looked wrong. Though the blurry windshield. A tentative dab at the glass stiffened into desperate pressure as he made an old, unlighted, slow-moving truck ahead. TWO SECONDS TO LIVE. Panic moved in. Turn to the left. No! Car coming. Headlights too close. Can't see it. Turn to the right. ONE SECOND TO LIVE. Horror numbed everything. Slow motion. He was floating right into the rear of the truck bed. He opened his mouth to scream. ZERO—NO SECONDS TO LIVE. It's happened to lots of people; maybe not just that way, but similar. Drive too long, eyes get tired, reactions slow down. Rain, darkness, a windshield that's hard to see through. Driving too fast. A car or truck ahead that can't see. It's happened to lots of folks. IT COULD HAPPEN TO YOU.

Grassroots Opinion

McGEHEE, ARKANSAS, TIMES: "With the spiraling prices of the past years on machinery and building there is a great difference in the amount saved to replace and the price of replacement, and the difference is often very difficult to make up. . . . Revision of the tax laws in this respect would not only be more realistic, but it would help the farmer and the industrialist make these necessary replacements to the benefit of the economy as a whole."

Federal excise tax collections showed a substantial drop in the first quarter of this year as compared with same period in 1958—from \$2,616,949.00 to \$2,021,000.

A slowdown in the advance towards higher compression automobile engines and higher octane gasoline was forecast by four oil scientists at the Fifth Annual Petroleum Congress. Further improvements are possible, they said, "but the pace of the past cannot be expected to be the future."

CARRIZO SPRINGS, TEXAS, JAVELIN: "There is nothing such as a free lunch. . . . not even when the government provides it. Every lunch has to be paid for by somebody. The same is true of Government aids, gifts and services.

"They are not free. All of these things have to be paid for by somebody, and that somebody is we . . . people."

STATE CAPITAL Highlights AND Sidelights by Vern Sanford

BY VERN SANFORD Texas Press Association AUSTIN, Tex.—Much more than just taxes is being written now at the State Capitol. Political careers are being shaped — or broken. Climate is being determined for business development — or freeze. Cost of living for every Texan is involved. That's what the edginess, temperament, fussing and name-calling is all about right now. Seldom, if ever before, have lawmakers been so sensitive to criticism — from governor, from press, from public. For the first time in years, the House met on a Saturday (June 20) to work on the long overdue tax bill. Kneeling down had come reluctantly — but surely — after governor and press had chided lawmakers for long Thursday-to-Monday recesses during the short 30-day special sessions. Lawmakers fussed back earlier in that week — but they stayed late. For the most part, the fussing was all bark and little bite. House members who threatened to evict Capitol news reporters from their Capitol quarters and House floor press table in reprisal weren't taken seriously. Reporting of legislative affairs is fundamental to the democratic processes — and no one realizes it better than do lawmakers. In brief: pressures mounted, a safety valve blew, and work was resumed in earnest. NEW TAX PROPOSAL—A 2 per cent "luxury tax" on items costing more than \$50 is the principal new feature of a House committee-approved revenue bill. Tax committee voted 12-to-6 to send the bill by Rep. Frate Sessing of San Antonio to the House floor. Like several previous bills, it was an attempt to compromise the conflicts between the "sales taxers" and "business taxers." It would raise an estimated \$170,000,000 for the biennium. About \$36,000,000 would come from the luxury sales tax. About \$6,100,000 would come from a one per cent severance beneficiary tax on natural gas, and about \$13,000,000 from increased franchise taxes on corporations. Rest would come from increased levies on gross receipts of utilities and sales of automobiles, tobacco, wine and liquor. In the showdown on taxes last session, the House refused to approve a bill heavy on sales taxes. Some committee members voted against this bill on grounds that a 2 per cent sales tax, even though it was only on \$50 or more items, would be ruinously unpopular. A majority of the Senate, however, has shown definite disapproval of loading too much of the new burden on business. They feel heavy business taxes would shut out industry and cut off the source of new prosperity. SPENDING BILLS RE-PASSED—Both houses re-passed the appropriation bills that went through the first special session. They went to same conference committee that worked before to adjust differences. House bill was some \$20,000,000 higher. Conference committee reportedly did most of the routine work on the bills and set them aside until a tax bill could be passed to make spending possibilities more definite. STILL FEUDING — Abandoned property bill, which provoked some of the most heated legislative debate this year, is having its third round. Rep. James Bates of Edinburg, sponsor, told the House tax committee the bill wouldn't change the escheat laws that have been on the statute books for years. He declared it would make the old law more workable. Bates' bill, as introduced this session, would require banks and others holding money or property unclaimed for seven years, to report it to the state within 60 days after passage of the bill. It also would give state agencies authority to examine the books and records of businesses to see if they are holding such property. Bankers labeled it a "free hunting license into all bank accounts" and "unconstitutional search and seizure." Bill was sent to subcommittee. STUDENT FEE BILL MOVES—Making progress in its second legislative round is a bill that would allow state colleges to require students to pay an activity fee. Similar bill died in the first special session. It would allow the colleges to make mandatory a student fee of \$30 a semester. This would pay for such campus services as hospital and medical care, book rentals, student publications and tickets to athletic and cultural events. College presidents are supporting the bill. Those from smaller schools, particularly, say they need the extra revenue to stay in the black on these activities. Spokesmen for student groups opposed. They said poorer students would rather do without these services than pay the fees. Senate Finance committee leaned toward the presidents' view, voted the bill out by a 2-to-1 majority. NEW BEACH BILL—Senate has a simplified substitute for Rep. Robert Eckhardt's bill to protect public beaches. New bill says that no one shall get in the way of the public's right to go to and from public beaches. It leaves to the courts the job of defining where the line is between public and private ownership along the coast. It would not, according to Senate sponsors, cloud the title of privately owned land next to the beaches. Sponsors are Sen. J. P. Fuller of Port Arthur, Jim Phillips of Angleton, Culp

Says Charlie Challenge: Sandhills Philosopher

Editor's note: The Sandhills Philosopher on his Johnsongrass farm sounds like he's afraid somebody may try to make him work. We doubt it. I'm not opposed to new ideas, as long as they're sound, and you and I both know by sound I mean any idea that's convenient for you and me to live with, but when a new idea is hatched up by some smart-aleck that threatens the very way of our existence, it's time to strike back. I read in a newspaper yesterday afternoon which blew off my tractor seat while I went to the house for a drink of water — the paper was left there to keep the sun off the seat while I was gone and since by then the seat was too hot to use and no chance of a cloud coming by to change it, I took it to a shade tree and read — at any rate, to get on with this sentence, I read where the Federal government has sued an employee for \$4,000 in wages he'd gotten but didn't work for. According to the trial testimony, the employee spent half his time loafing in a nearby club, and the government fired him and sued him for half his wages for the past year. At first glance, this might seem like a sound idea. A man's loafing on the job, make him pay back part of his wages. Legislature takes six months to pass a tax bill when it could have been done in three, sue the members for half their pay. But there are other angles to it. For example, take a Legislature. If it takes it six months to pass a tax bill when it could have been done in three, it's true the government loses three months of taxes, but on the other hand, you've got to remember, the tax payers gain three months. This is worth thinking about. And just because a government worker is working is no sign the Krueger of El Campo and Robert Baker of Houston. At the House committee hearing on the Eckhardt bill, many came to testify for and against. Supporters of the bill said the only opposition was from "selfish land owners." Opponents called it an effort to "take land without just my Phillips of Angleton, Culp compensation."

Whitharral HD, Northside HD Have Joint Meet WHITHARRAL - The Whitharral Home Demonstration Club and the Northside Home Demonstration Club held a joint meeting in the home economics building here Thursday evening. Mrs. Rafe Rodgers of the local club presided and introduced Dr. W. C. Nowlin of Littlefield and County Health Nurse Mrs. Moore of Levelland. Mrs. Moore showed two films "Time and Two Women" and "Breast Self-Examination" and led the question and answer period that followed. Mrs. Ed Blackwell of the Northside Club and Mrs. L. C. Lewis of the Whitharral Club served punch and cookies to approximately 45 guests. Mrs. Rodgers was named one of the three delegates of Hockley County to the State THDA Meeting at Galveston in September. Swaps earned \$409.400 as a 4-year-old.

Area Bowling Lanes To Be Ready Sept. 1 SPRINGLAKE - The contract for the construction of the Olton Bowling Center has been awarded to the Panhandle Steel Building, Inc. of Amarillo. Completion date has been set for Sept. 1. The building will house an 8-lane automatic pin setting device. The bowling alley will be equipped with a snack bar and will be located west of Olton outside the city limits on Highway 70. Jesse G. Watson of Springlake has been named general manager by the stockholders, which include L. G. Watson, Kenneth Hinson, Earl Watson and Jesse G. Watson. public and private ownership along the coast. It would not, according to Senate sponsors, cloud the title of privately owned land next to the beaches. Sponsors are Sen. J. P. Fuller of Port Arthur, Jim Phillips of Angleton, Culp

Earth Man Has Dealership For Duraclean

Larry Price of Earth has the dealership for Duraclean, a new product for cleaning carpets and upholstery.

According to Price, Duraclean cleans by absorption with a snow-white, highly-fluffed aerated foam. The foam is mild and safe enough to be used as a hair shampoo. Duraclean also affords a safe treatment for delicate antiques.

Price reports that this process will also clean auto upholstery, tapestries, and all types of rugs, including the most expensive orientals.

The complete service, Duraclean by Price, also includes Duraproof, a service which immunizes home furnishings, clothing and furs against carpet beetles.

About Your Health

Six years ago, more than 230,000 new Texans were born, and they will be entering school for the first time in both public and private schools in September.

The right preparation for those first school days is vital to the future satisfaction and adjustment of your child in his new environment.

If he has an older brother or sister the task will be easier, but still there are many steps of getting-ready-for-school that should be taken before September 1.

Some effort should be made to make it clear to the child that he will be on his own—without Mom or Dad watching over him all the

time—a good while before that first day of school.

Clothing should be given much thought. Check the habits of your local school and find out what is the predominant mode of dress. If all the boys wear long pants, by all means make sure your son has them too.

Make sure everything is large enough, but not baggy or his classmates will make fun of him.

Proper nutrition is very important. When school starts allow enough time in the morning for a wholesome breakfast. A good breakfast includes citrus fruit or juice, milk, whole grain cereal or bread, eggs, or bacon or both.

Lunch and dinner should be leisurely and pleasant, too. The new adventure of school is pretty fast paced, but mealtime offers an opportunity for the family to pause and enjoy being together.

Now is the time to check up on your school's requirements regarding vaccinations or other health measures and take care of them well in advance.

Also, nearly every school district in Texas requires proof-of-age for first year students in the form of a certified birth certificate.

You may obtain a copy by sending one dollar to the Registrar of Vital Statistics where your child was born or to the Division of Vital Statistics, Texas State Health Department, 410 East 5th Street, Austin, Texas.

Be certain to include the name of the child, date of birth, place of birth, father's name, and mother's name.

It would be a good idea to do it now to avoid the August rush. (This is a weekly feature of the Public Health Education Division, Texas State Department of Health.
