As announced by Miss Lula Hubbard, Supervisor of the Red Cross Sewing Room, 25 overseas kit bags have been completed, filled with necessary articles for the soldier, and sent to headquarters.

However, Miss Hubbard reports there are still 72 kits to be made and filled. She states that it costs \$1 to equip these kit bags with the necessary articles, and that anyone wishing to contribute a dollar, he or she may do so, and their name will be sewed into one of the kit bags going overseas.

Miss Hubbard also reports that donations have been coming along very nicely in this connection; that at the regular meeting of the local Chapter of the Order of Eastern Star; the group voted to donate \$10 towards the project, which would finance the filling of 10 kit bags; and members, personally, also contributed to this very worthy cause \$17, thus taking care of 17 additional kit bags.

The Woman's Missionary Society of the First Baptist Church contributed \$5.

Besides the above two donations, \$10 by Eastern Star, and \$5 by the W. M. S. of Baptist Church, other contributions towards this worthy (Continued on Back Page)

The Home Front Must Sacrifice

Free-working women of Texas already are actively engaged in a campaign to put their state's quota of War Bond sales to individuals over the top, Frank Scofield, Texas War Bond Administrator, has emphasized.

His announcement was made following conferences with Miss Harriet Elliott of Washington, the U. S. Treasury's War Bond Saleswoman-in-Chief, who has been in Texas mapping War Bond drive plans with women leaders.

A goal of 18 billion dollars has been set by the Treasury for bond sales to individuals during the remainder of this year, and both the men's and women's War Bond Divisions of the Nation have received a challenge from Secretary of the Treasury, Henry Morgenthau, Jr., to meet it. The Treasury Department is laying full stress on the importance of bond purchases by individuals.

Mr. Scofield pointed out to Miss Elliott that Texans led the Nation in sales to individuals in the recent Second War Loan Drive.

"And they'll do their share, and more, in this particular drive," he said. To do it, Mr. Scofield and Miss Elliott agreed, the home front must sacrifice in dead earnest.

"The goal can be attained, but not by wishing," Miss Elliott said. "It can be attained only if each of us buckles down to a very serious job of doing without a lot of things to which we grew accustomed in days of ease and plenty.

"Wearing last year's clothes, shrinking household budgets, giving up pleasure trips, doing with less spending money—these are the sort of sacrifices we are going to have to make, and I'm sure every woman in Texas will be proud to make them.

Miss Elliott, well known educator, has served for more than a year at Washington in her present capacity. She is on leave from the post of Dean of Women and Professor of History and Political Science at Women's College of the University of North Carolina.

"Every bond purchase by an individual serves a double purpose," Miss Elliott asserted. "It helps provide our soldiers with the equipment they must have, and turning the money over to war purposes instead of spending it on supposed personal needs and luxuries helps stem the tide of inflation."

What Loose Talk Does

The Beaumont riots which culminated in bloodshed and destruction of property were caused by the magnification of a single untoward incident. Loose talk, which runs faster and waxes hotter than a prairie fire, was charged with responsibility for what happened by Lt. Col. Sidney Mason in his description before the State Guard School at Camp Bullis. Colonel Mason commanded the troopers who restored order in Beaumont, and his assignment of the contributing cause has been made after authoritative investigation. "An infernal mass of rumor," Colonel Mason termed it, and he added the warning, "it can happen in your community."

The warning has value not only for his immediate hearers, but for the communities which they represent and every citizen in them. Rumor mongers undoubtedly contributed to clashes in Detroit and Los Angeles. They have always made trouble and in a time of such stress as this, they can make enough trouble to threaten national unity and seriously hamper the war effort.

Not all the loose talk is concerned with racial differences. Washington, out national capital and nerve center, is a hotbed of rumor. Much of it has been of a sort to make the task of men who are responsible for prosecution of the war and solution of the home-front problems infinitely harder. Such loose talking could affect adversely every individual in this country, including the loose talkers themselves.

Americans have been asked to guard their tongues when they mention anything concerned with the war effort, lest some tool of the enemy be near to overhear and make report of valuable information. It is equally important that they discipline their tongues to prevent further broadcast of irresponsible rumors, and that they silence the rumor monger by demanding that he give the source of his gossip. —Dallas News.

"I would like to see every woman in Texas draw up a chart of the things for which she is now spending money, or for which she is planning to spend money, and then see how many items she can blue pencil in favor of bond purchases. Call it a 'sacrifice chart,' and preserve it among your souvenirs of the war—for it surely will deserve preservation."

## Longer Life For Your Kitchen Tools

Here are tested, practical suggestions that will give you longer life and more efficient service from many things you use in your kitchen.

All kinds of pots and pans deserve your special attention. Don't let food burn or stick in them. To prevent breaking or warping, don't leave utensils over heat without something in them.

ENAMELWARE should not be subjected to high temperature. Don't drop it or give it harsh blows, and never dash cold water in it while it is still hot. Wash it with sudsy water or a very fine cleanser. Harsh cleansers will scratch the surface.

ALUMINUM will stay bright and shiny if it is washed with hot, soapy water. Rinse and dry thoroughly. Aluminum, like silver, will turn dark if you boil eggs in it—or other foods containing sulphur. Use granite or enamelware for eggs and other alkaline foods.

GLASS is easily cleaned with soap and water. To prevent breakage, avoid sudden temperature changes; don't pour cold water into a hot pan; don't set a pan or casserole directly from the range on a wet surface. Always cook with at least one-half inch of water in the bottom of glass utensils.

TINWARE should be soaked after using, and washed in warm soapy water. Dry thoroughly before putting away. Don't scour with abrasives—the coating may wear through and cause rust. To guard against warping, don't cool tin utensils rapidly. The dullness that comes with use makes them better heat conductors.

The campaign has the approval of the President's War Relief Control Committee. ### Injured In Car Accident Thursday

G. B. Daniels, 19, is confined in the Payne-Shotwell Hospital suffering from a dislocated hip and broken pelvis, as a result of an automobile mishap about 2 miles this side of Lum's Chapel, on Levelland Highway, Thursday night about 10 o'clock.

At the same time Orville Simon received minor injuries for which he was treated at the hospital, and released Friday morning.

Mr. McDaniels and Mr. Simon, both Sanitary State employees, accompanied by Simon's father and brother, were coming to Littlefield, where they had living quarters at the Littlefield Tourist Cottages, when a tire blew out, and was said to have thrown the car on the opposite side of the highway. They are reported to have been fixing the tire, when another car occupied by a man and his wife and several children, of 16 miles south of Littlefield, collided with the McDaniels and Simon automobile.

newly issued discs at the lowest factory prices. As the result of last year's campaign more than 370,000 brand new records have been distributed to American fighting men around the world. This year two million more are needed.

Every person who can and will turn in their old records to Jones Hardware Company or Madden Drug may rest assured that they are having a part in this nation-wide event to promote many cheerful moments of relaxation for the fighting men on the war fronts.

Richard New Post of the American Legion wishes to be helpful in this cause and feel sure you will do your part to contribute most generously as you have in the past.

### Lieut. Chas. O'Connor

(Continued From Page 1)

worked five weeks to bring the plane to the surface.

During the week Lieut. O'Connor spent in the home of Mrs. S. A. Landrum, mother of the unfortunate pilot, and family, 11 miles west of Littlefield, the Landrum family got to know this brave pilot intimately, and became very much attached to him. They have nothing but the very highest expressions of commendation to offer this man, who was graduated and received his wings at Mission, Texas, in October, 1942, at the same time as their son and brother, Lieut. Curtis Landrum, was awarded his commission. Immediately following the graduation ceremony, Lieut. O'Connor and Mrs. O'Connor were married, which ceremony was witnessed by Lieut. Landrum, and his mother, Mrs. S. A. Landrum, and brother, Aubrey Landrum, of Littlefield, who were at Mission for the graduation.

After receiving their wings, Lieut. Landrum and Lieut. O'Connor were assigned to duty with a fighter squadron on patrol duty at Oakland, Calif., where they were close friends in their gallant work in the service of their country, until the untimely accident claimed the life of Lieut. Landrum.

In reporting Lieut. O'Connor's memorable act in scoring the 100th enemy aircraft for his fighter group, Ray Landrum said that he enjoyed immensely, during the 17 days spent with this pilot in California and here in Littlefield, his companionship, and got attached to him as though he were one of their family. He was of such a type young man that he won the admiration and love of the entire Landrum family.

Lieut. O'Connor had vowed, on the death of Lieut. Landrum, to do double duty as a fighter pilot, and make up for what his pal and officer, Lieut. Landrum, was prevented from doing. This statement brought out the true soldier and gentleman that Lieut. O'Connor is. He is an officer of exceptional skill and determination, one who will always

*Salutes Our Heroes*

1 Every time you boost the amount of your pay that you put into War Bonds . . .

2 You slip bullets into the rifles of your friends and relatives overseas. Thus . . .

3 You help to bring the happy day this war will end. In addition . . .

4 You tie another anchor to the prices of the things you buy to buy today. And . . .

5 You make dead sure you'll have money for the things you want to buy tomorrow. Because . . .

6 You pick the world's finest investment—absolutely safe, and one which pays you back \$4 for every \$3 when the Bonds mature. Besides . . .

7 You help guarantee a strong, prosperous America after the War, with a good job for yourself and everybody else. And last, but not least . . .

8 You get the swellest feeling in the world! The warm, proud feeling that comes from knowing that, when your country asked your help, you toed the mark.

TO EVERY MAN AND YOUNG MAN from Littlefield and the surrounding communities now serving, or who will later serve, in the Armed Forces of his Country against this band of outlaws seeking to destroy us—this message is dedicated to you. Here on the home front more and more each day we are mindful of the sacrifices you are being called upon, and will be called upon, to make in the defense of our Liberty and Freedom, and the American Way of Life . . . a heritage we have cherished and so gallantly defended for 166 years. Today, yours is the greatest task . . . the greatest responsibility . . . through any group of sons of our forefathers have been challenged to assume. And as you so gallantly acquit yourself on the far flung battlefronts of a war-mad world, the people of Littlefield, your parents, wives, brothers, sisters and friends through this message express to you their appreciation of the heroic efforts and sacrifices you are making in defense of this long cherished Liberty and Freedom—an appreciation as deep and as profound as the principles you so nobly preserve.

TO ALL OF THOSE AT HOME—Let's show our boys in the service that we are fighting with them. Buy that extra bond today . . . no matter what else you have to give up. Mr. and Mrs. Carl Tremain Write Interesting Letter

The Leader is in receipt of a most interesting letter from Mr. and Mrs. Carl Tremain, which will be enjoyed by their many friends here, and which is published below: "Dear Friends, "Just a line this beautiful summer morning. Now, I know you folks will be surprised to hear from the old Tremains from the Valley. Now the first thing I want to do is to thank you good folks for the Lamb County Leader that we have enjoyed so much since leaving the city. Now we are both very well and enjoying very good health, for which we are both very thankful. Now we only wish we could step in and say 'hello' to you both as well as a lot of other good friends in Littlefield. Now as to the Valley, it is turning to summer and I think we are having one of the driest years that was ever experienced by Valley people. But the Valley crops as a whole have been lovely. The past fruit crop was one of the best ever harvested as to quality and also the price, and potatoes were

fine; lots of cabbage, and the price went as high as \$85 per ton, which is awful high; and vegetables were also fine; but the irrigation system is what has helped the farmer so much this year. And, for this year's fruit crop, I will say that it is coming along fine. The grapefruit on our trees in the yard are getting pretty good size, some as large as baseballs, also our oranges are fine. Now we both are just anxious for the time to come when we can come to West Texas and meet a lot of our old time friends of your city. But we will try to come some time this fall as there are some things in the line of business that we really ought to see after. But this awful war that is brewing makes a person wonder what it is all about. No one goes down on the street in this town. About all one can see at times are sailors and soldiers of all classes. We would be so pleased to have you folks come to see us as we have had quite a few of our Littlefield friends come to see us and we would love to see a lot more come. Mr. and Mrs. Hilliard seemed to enjoy their little visit with us while they were in the Valley. Now again we want to thank you folks for the Lamb County Leader, as we both enjoy reading it every week. Always mentioning someone that we know and are glad to get the news. Now I am sure you will be tired out when you have finished reading this letter. Now will close for this time, sending best wishes to you, also to the many, many friends that are still in the city. We are as ever yours truly, friends from the Valley. An enclosing check. Thanks again. "Mr. and Mrs. Carl Tremain, 126 West Jefferson St. "Brownsville, Texas."

Work is underway in the completion of the Seventh Day Advent Church, the structure of which was erected sometime ago, and in which church is being held. The interior is being completed under the supervision of William H. Grotheer of Clovis, N. M., from Conference Headquarters.

Mr. Grotheer said Tuesday that they would complete the church building as far as they could get materials; that they would not likely be able to get the pews. They had hoped to have the dedication by July 24, but Mr. Grotheer said it was doubtful if they could, in view of the fact that materials were so hard to get due to the war.

The services are being held each Sabbath Saturday, with Sabbath School at 11 o'clock and Divine Worship at 12 o'clock noon. Mr. Grotheer said he would be in charge of the services while he is here.

## Wind Causes Some Damage In Amherst

Thursday night of last week the slight wind storm which hit Amherst and the vicinity did considerable damage to the trees and houses. The top of the warehouse of the Co-Op Gin was torn off in the twister, and large trees in the yards were broken off and left lying on the ground.

## CONDITION OF PAUL TRACEY IMPROVED

Paul Tracy, 26, of College Heights in Littlefield, who has been confined in the Amherst Hospital for over two weeks suffering serious burns about his body, is now getting along better. Barring complications, or contracting pneumonia, Mr. Tracey is believed to be on the road to recovery. At the time of the accident, Mr. Tracey was reported to be putting gas into the carburetor of a car about a mile this side of Fieldton, when the owner of the car stepped on the foot feed, and the car backfired, causing the gas to ignite. Tracey is said to have thrown the can, but the wind blew the flame onto him. Although much improved, doctors report that Tracey will have to be confined about a month. His right arm is badly burned.

## FIRST METHODIST CHURCH

Amherst, Texas  
R. H. Campbell, Pastor  
It has always been that people have an inclination to let their faithfulness drag in hot weather. But the church needs everyone just as much in July and August as in December. So let us put forth just a little extra effort during these days to be in all services of the church. Let us remember that it is only two weeks until our revival meeting begins. If we get the results which we hope for we must begin working now for the revival.  
Rev. J. L. Carpenter, who has been visiting relatives here before entering the Military service as a Chaplain, brought the message last Sunday morning. J. L. is one of our own boys, having grown up in the community.
