# Target Date Named For U. S. Highway 84 Bids

## August 15 Set By State Office

State Highway officials have set August 15 as a tentative date for the contract letting on construction of U. S. Highway 84. Rhea Bradley, resident state engineer, made the announcement Wednesday morning.

"All the right-of-way has been secured with the exception of some which has been appealed and will be heard in county court sometime in the next two weeks," Bradley commented.

"We are hoping that everything goes right and we will be able to call for bids on or about the August date," he continued.

## Perkins Is New Lions Club Boss

DR. ALBERT PERKINS

Dr. Albert Perkins was elected new Lion Boss of the Lions Club at the Wednesday luncheon in the First Christian Church.

He succeeds Slow Grissom.

James Lee was elected first vice-president, Neil Wood, second vice president and H. A. Mitchell, third vice president.

Ronnie Onstead is the new secretary, Jerry Lumsden, treasurer; Amos Ward, tail twister, Harold Kids, Lion Tamer.

New directors are: Otis Bennett and Boyd Allen.

Bradley added that most of the delay could be caused by two factors. First, the actual letting will be dependent on whether the utility companies can move their facilities from the right-of-way. Second, the state will have to have sufficient time to advertise and sell the improvements that have been condemned and purchased by the state.

Attempts were made Wednesday morning to contact the various utilities located here to see what progress was being made in the clearing of the right-of-way. Officials of the Lamb County Electric Company and those of the General Telephone Company were out of town and their progress to date is not known.

Howard Horne, manager of the Southwestern Public Service Company, said his crews began work Monday morning and are moving the company's sub-station located at Balmer.

"All poles, lines and other equipment will be moved before August 15," he added.

A spokesman for Pioneer Natural Gas Company said they had started no actual work on clearing their portion of the right-of-way, but they had just one place that would be involved near Balmer.

The state's property that must be sold and moved consists of three houses located on the right of way.

The first leg of the highway is made of about eight miles of divided four lane roadway and will be built of asphaltic concrete beginning at the county line and continuing to a point one and one half miles southeast of Littlefield. At this point the road will be joined with the second leg of the road which is being appraised at the present time. Each side of the road will have a paved parking shoulder.

Bradley continued, "Plans are complete and will be submitted to Lubbock and Austin for approval (See Target Date, Page Seven)

## American Legion Sponsors Drive For Equipment

Littlefield's American Legion Post 301 is sponsoring a drive which began Wednesday to secure more wheel chairs and hospital beds which will help them to better serve the residents of the county who are in need of such equipment.

The equipment, when available, will be loaned without charge to Lamb County residents.

No donation will be accepted in this drive, but funds will be derived from the sale of well-known magazines and other publications. Handling the sale of the subscriptions will be the Publisher Readers' Service, who has the full sanction of the Legion.

Officials of the Legion pointed out that while the money made from the subscriptions will go for a very worthy cause, subscribers will be getting the full value of their money through the magazines.

Other city businesses will remain open for business.

COMMUNITY CENTER WORK—Shown above is a part of the construction going on inside the Community Center as a part of the \$15,000 remodeling job underway. New air-conditioning plus all new interior and other features will highlight the building. Work on the project is being paid for by donations from city and area people. Shown being built is a stage at the southeast end of the building. (STAFF PHOTO)

## Barker Leads Team In District Track Meet

# Cats Cop Second

The Wildcat thinly-clad finished a distant second in the District AAAA Track meets Saturday in Amarillo as Dumas came on to win the crown with a gigantic 220 2-3 point bulge.

Littlefield grabbed the runner-up spot with 93 1-2 points.

Leveland, Phillips and Hereford rounded out the five team meet, finishing in that order.

Boots Barker led the local tracksters at the point table, gathering in 25 to finish in a tie for second as high-point man, leading scorer during the meet was Dell Cothorn of Dumas with 27.

Barker won the broad jump with a leap of 20 ft. 5 1-4 in.; finished second in the discus with a toss of 117 ft., 4 1-2 in.; and placed second in the high jump at 5 ft. 6 in. to rack up the 25 points.

Gary Schovaisa finished behind Barker in the broad jump with a 19 ft. 8 5-8 in. mark to make it a one-two event for the Wildcats.

Results of the track and field events were:

SHOT PUT 1. Bill Malone, Phillips, 49 1/2; Bobby Wash, Dumas, 41-11 1/2.

# Rabies-Infested Skunk Attacks Child Near Pep

A rabies-infested skunk attacked a two-year-old child in the front yard of his home near Pep earlier this week, biting the child before his mother could kill the animal.

The child's mother notified Dr. O. W. Still who rushed the head of the skunk to Austin for a rabies check which proved affirmative.

According to Dr. Still, the child is now undergoing treatment for rabies, which consists of daily shots for two weeks - 14 in all.

Dr. Still said that the skunk came into the yard of the child's home and attacked him without provocation.

The head of a second skunk killed Tuesday was sent to the Austin laboratories for a rabies check by Dr. D. J. Stafford but no word had been heard of it as of Wednesday.

City manager J. W. Harrison has declared war on all animals that have not been vaccinated against the disease.

"All animals will be kept under close watch," Harrison said, "and all those without tags will be picked up."

Rabies or hydrophobia is usually associated with dogs, but can be carried by almost any animal who has contracted the disease. Transmittance is usually by the bite from a rabies-laden animal.

## Jaycees Pledge Show Money For Center Furniture

The Jaycees earned \$285.50 from receipts of the talent show staged Saturday in the high school auditorium.

Earl Pierce, president of the organization, said that the money will be used to help furnish the Community Center.

Winners of the first division in the talent show were the Arkansas Ridge Runners, a trio composed of Pete Davis, Elton Bass and Jimmy Bass. Division two winner was a vocal group, the Triple Trebles. Singing in the group were Marilyn Penn, Christy Smith and Virginia Penn.

An aerobic solo performed by Linda Dament of Lubbock captured first place in division three.

In their meeting Tuesday night, the Jaycees decided to sponsor a teenage "Road-o" Sunday, May 7. Dale Watkins was appointed chairman of the event.

John Banks was placed in charge of the Miss Lamb County Beauty Pageant, to be held in conjunction with the "Bunk n'k" Days celebration in June. Assisting Banks will be Mrs. Elbert Dillon, president of the Jaycees.

## Feed Grain Meeting Set

All area farmers are urged to attend the special meeting on the Emergency Feed Grain program which will be held in the District courtroom of the courthouse at 7:30 p.m. Thursday.

L. D. Aten, ASC manager, will explain the new program. There will be a question and answer period during the meeting.

# BCD Schedules Industry Survey

The Littlefield Board of City Development has scheduled an industrial survey of the city, according to plans made at the board meeting Tuesday night.

The survey, which will measure the conditions which now exist in the city concerning industry, will follow a survey set up by the Texas Employment Commission. It will determine the work force, availability of materials, transportation climate, water supply and other factors necessary for businesses.

"Every town in the nation wants industry," Chamber of Commerce manager Gene Garrison said, "but not all will be able to obtain it. Only those who get ready for industrial growth will be considered by big business."

The BCD discussed the factors that make a good business climate and the values of industries at the Tuesday meeting.

The board will meet again May 2 to discuss the outcome of the survey and to make recommendations from facts obtained from it.

Garrison announced that a general membership meeting of the Chamber of Commerce will be Friday at noon in Thornton's Cafeteria. Featured speaker of the meeting will be the vice-president of the West Texas Chamber of Commerce, Fred Husbands.

The chamber manager urged that all members attend the luncheon.

## Littlefield Banks Observe Holiday

Security State and First National Banks of Littlefield will be closed Friday in observance of San Jacinto Day. They will be open again Saturday morning as usual.

OLTON LIONS CLUB QUEEN—Cheryl Poteet, daughter of Mr. and Mrs. Clovis Poteet of Olton, has been selected to represent the Olton Lions Club at the District 2-T2 convention in Levelland June 2-3. Cheryl is a sophomore in Olton High School. She won over 29 other entries in the Olton contest.

## Phone Officials Cancel Meeting

Scheduled meeting of the two telephone companies serving the Pep-Bula area has been postponed because high company officials are not able to attend the session originally set for tonight.

J. W. Harrison, city manager, said that officials of General Telephone notified him that their men have previous commitments and will be unable to attend the meeting.

The meeting of the two companies was called by the City Council in an attempt to work out some means of providing toll free service from the Pep-Bula area to Littlefield. The residents of that area have expressed the desire to have this service.

"Our meeting will begin at 6:30 (p.m.) as we scheduled it and a representative of the local telephone company will be present (See Phone Officials, Page Seven)

### THE CHURCH FOR ALL . . . ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

Day	Book	Chapter	Verses
Sunday	I Corinthians	12	12-21
Monday	Exodus	4	1-5
Tuesday	Matthew	6	1-4
Wednesday	Psalms	24	1-6
Thursday	II Corinthians	12	14-15
Friday	Genesis	49	48-49
Saturday	Matthew	28	18-20

When someone says, "It's for you," our minds begin to buzz with questions. Who is it? What do they want? Good News? Bad News? Work? Pleasure?

*It's for you!* Commanding words that summon our immediate attention. And those words apply as well to the Church as they do to a telephone call.

The Church is for you! Its services of worship, its program of religious education, its comforting ministrations in time of spiritual crisis . . . all for you!

And the Church has a vital message—good news for a discouraged world. It has a glorious work before it—a happy fellowship for men, women, and children of noble purpose.

The Church deserves your support. *It's for you!*

Crown With 157 Points

# Anton Cops 4-B Track Title

Anton's power continued their victory over District 3A Saturday afternoon as they maneuvered the competing teams by events and scoring.

Amherst trailed the Bulldogs with 125 points while Whitharral, riding the swift legs of its star, Milton Marrow captured the third place spot with 98 points.

The Bulldogs won six events and took second place honors in the same number of contests in racking up their total of 157 points.

Marrow of Whitharral took individual honors at the meet by winning three events and anchoring the winning mile relay team. Marrow won the 440 in 52.0, the 200 in 23.2 and captured the broad jump with a leap of 18 feet.

In the junior high meet Anton also took first with 56 1/2 while Cotton Center was second with 20 and three fourths. Whitharral scored 134, Amherst made 5 1/2 and Smyer scored 5.

Complete results of the 4-B variety meet are as follows:

440 Yard Relay - 1. Anton (Melvin Bell, Carl Taylor, James Patterson and Ray Batson) 2. Amherst; 3. Cotton Center; 4. Whitharral. Time 47.3.

Snappy Names for Lures

These lure makers really concoct some clever names for their products. Latest to come to our attention is that made by Instant Lures, Inc. of Maud, Oklahoma. They call theirs "Instant Bass." You "just add water!"

Mac McLaughlin of Marble Falls has designed a fish-taker which he very appropriately named "The Hustler."

lips or under the dorsal fin or in the tail or through the eyes. Just slip the minnow inside the handcuffing sock and go about your still-fishing, trolling, or casting - as always.

My son and I gave this new invention a good test on Lake Travis as soon as the minnow socks arrived. We bought four dozen big silver shiner minnows - the kind they raise at Rockdale.

Fishing wasn't so hot that day. In fact we didn't see any do-do hauling in fish, even the several boats were out.

Sandy and I trolled for six hours. Total 12 hours of fishing. Total score: 8 black bass, 4 each. Total number of minnows used, six, or three apiece. Minnows not used, 42.

Nothing sensational about the haul - except that nobody else was catching fish - and the only minnows we actually lost were those snagged in deep brush where we had to snap the line.

Another interesting feature of the experiment was the fact that bass would attack the minnows three, four, sometimes five times, trying to free the bait - even sculling and skinning the tail of the big shiners in an effort to take the bait from the sack.

We wrote Wes Rose of Bait's Alive in Toronto, and told him about our experience and ordered several of his minnow-socked hooks in each size. Wes makes them in large (8-0 and 10-0) medium (3-0, 4-0 and 5-0); and small sizes (4, 2, and 1-0).

Wes says that the "sock" is tied to a specially designed knotted hook, with a pan shaped shank, because it allows the minnows more freedom of motion.

His idea was developed with three main thoughts in mind.

First - by far the largest proportion of a fish's diet consists of minnows.

Second - no device yet had been produced that would hold a minnow securely while still allowing it to swim and remain alive almost indefinitely.

Third - best position of minnow-to-hook is parallel.

For maximum hook exposure the sock and minnow should be on the left side of the hook.

Ordinarily the minnow is inserted into the sock head first. However, for certain conditions, some fishermen prefer the head at the point of the hook. In that event, they insert the minnow into the sock, tail first.

I never could understand why Bait's Alive put such high socks on 10-0 hooks. Now I find that the big socks are especially designed for fishing with live frogs. Another clever thought!

Next time out we'll try them with some small perch as bait. Minnow socks should be equally as effective on the Gulf, using live shrimp as the tempter. For that matter, hunks of squid might be inserted in the sock, thus saving a man lots of re-baiting time. Anxious to try that too!

We also pointed out some other uses. For example - attaching the sock and its single hook to a spoon and trailing it bucktail like. Or using it in conjunction with any type of spinner or wobler.

For still-fishing Wes recommends the use of a solid piano wire leader, bent into an "L" shape. With this rig and a 10-foot line the minnow will struggle in a wide circle.

In fishing a heavy flowing stream a large sinker should be used on the end of the line, with the sock and bait attached at the desired distance from the bottom.

Another point Wes emphasized is to select a sock to suit the size of the minnow. Also while inserting the minnow into the sock, keep it upright and push the sock open with thumb and fingers, not with the bait.

When properly placed, the minnow should have its gills exposed, and the pectoral and dorsal fins showing through the mesh.

Wish we could say that Wes has distribution outlets throughout the USA but he hasn't. However, we'll wager it won't be many months before he does.

## Springlake 7th And 8th Grade Teams Win Meet

Springlake Seniors and eighth grade boys' track teams won numerous top places in the District 3A track meet held at Hale Center Saturday to capture first place honors in both divisions.

A total of 112 points were chalked up by the eight graders whose tabulation is as follows: 440 relay, first; 50 yard dash, first and fourth; 75 yard dash, second; 220 yard dash, fourth; 100 yard dash, second; 220 yard dash, fourth; 100 yard dash, second; 800 yard relay, first; low hurdles, fourth; three-quarters of a mile, second; pole vault, fourth; broad jump, third and fourth and chin ups, first and fifth.

Comprising the eight grade team are John Patterson, Thom as Gregory, Darwin Sanders, Ray Tom Packard who make up the relay team, also Julio Cortez and Dewain Parish.

An impressive record was also made by the seventh grade team which is made up of Floyd Bennett, Aurielo Delgado, Richard Mitchell, Jerry Don Sanders, Ken Dawson, Mike McClur, Dickie Woodring, Leon Green, Harley Galloway and Davy Haberer.

These boys amassed a total of 226 points for the following wins: 440 relay, first; 50 yard dash, first and second; 70 yard high hurdles, first; 75 yard dash, first; 220 yard dash, second, third and fourth; 120 low hurdles, third; and fourth; 100 yard dash, first and second; 880 yard relay, first; three quarters of a mile, first, third and fifth; pole vault, first and second; broad jump, second and third; high jump, first; shot put, first, second and third; discus, first and third and chin ups, third.

Springlake was in competition with teams from Kress, Hale Center, Farwell, and Sudan.

Coaching the Junior High district Champions were Eldon Davis and Jody Mahan.

**MAN, that's sorghum!**

P.A.G. 430 SORGHUM: Red seeded and produces red grain. Almost identical to P.A.G. 435 Sorghum (below), except for seed color.

P.A.G. 435 SORGHUM: This white seeded hybrid produces red grain and is slightly earlier than RS610. Recommended for dryland, or early maturity on irrigated land, it has excellent standability and yields have been comparable to later maturing competitive hybrids.

P.A.G. 465 SORGHUM: About the same maturity as RS610. This relatively short hybrid exhibits very good uniformity and has performed above average in dry areas where standability is of prime importance. It produces red grain.

P.A.G. 515 SORGHUM: Outstanding yield of dark red grain under a wide range of conditions. It has been called "Mr. Adaptable" because of its versatility in either dryland or irrigated conditions. Slightly later than RS 610. It has topped any County Agent and research plots on both irrigated and dryland. It stands up in the field . . . stands out in the yield.

P.A.G. 625 SORGHUM: One of the later maturing hybrids with very high yield potential. Produces deep red grain with about the same maturity as RS 650. Has performed well even under adverse conditions. Above average in uniformity and standability.

P.A.G. 665 SORGHUM: Slightly later than Texas 660, this full season red grain hybrid has been a top yielder in every field test where adequate moisture and fertility was available. Usually requires 3 to 4 irrigations for top performance and has good standability with sufficient moisture.

The one-time unwanted stepchild of the forest industry - sawdust - has now become a useful production in millions of American homes.

Sawdust at one time was considered commercially valuable only as a fuel to power sawmills. More often than not, surplus sawdust has presented a disposal problem. But slowly this leftover of lumbering has been finding its way, in various disguises, into our homes.

Did you know, for instance, that the briquette, used so extensively for fuel, is nothing more than compressed sawdust? Producing plants, public buildings and power plants are utilizing sawdust in combination with other wood wastes to provide heat. Sawdust alone, it has been found, also can be used to fuel special home saw-

dust burners.

Ever use plastic wood? Its chief ingredient is sawdust. Graded sawdust is used as fiber for building products. Combined with resin, it makes a subflooring for linoleum, house sheathing and as core stock for furniture doors. It is used as filler for saturating felt, asphalt shingles and the like, and as low-grade pulp for container liners.

Stucco and plasters in composition form contain sawdust. Clay products such as porous clay bricks and tile, are produced by combining with a dry, finely-sifted sawdust during the baking process. Sawdust is used in gypsum compositions and cast products, as a fertilizing agent and a substitute for sand in special cements, in the making of concrete.

Forest industry researchers and enterprising tree farmers expect to find many more new uses for sawdust in the years ahead.

Government reports show a sharp drop in private housing starts - that is, private homes in which construction has started. While part of this decrease no doubt is the result of the interruption of steel production, it is equally evident that tight money has played a vital role in holding down new construction.

Letters to this department make it evident that many persons are not quite sure what the term tight money means and, more important, how it got that way.

Tight money merely means that financial institutions are making less of their money available for mortgage loans. Without these mortgages, builders cannot proceed with construction at as fast a pace as they would like and as they feel is necessary to meet the demand.

The reasons for tight money are so many, so varied and so complex that an entire book could be written about it - and many have. But to attempt a brief explanatory version, tight money in the mortgage field is caused when lending institutions make it more difficult to obtain mortgages by being more "choosy" and by charging higher interest rates. A prime factor in this situation is the fact that many persons are drawing their money out of banks to invest in commitments where they can obtain higher interest than the banks give them. The banks thus have less money available for mortgages.

BY D. N. P.

My Pappy up in Oklahoma had a gem in his column this past week and knowing that he won't mind my use of it, I'll let you read it. It is supposed to have been written by a six-year-old and could find its way alongside the "Yes, Virginia, There is a Santa Claus" story annually copied by so many. This is her definition of a newspaper.

"Newspapers. We need them so we can know who rules and who drowns and who shoots somebody. And who wants a house or who dies or gets a baby. It tells if your dog is lost. They are good on shelves and to make hand fires. They also do good under a baby's plate and to keep dogs off a things. You can wrap potato peelings in em. You can put one when you defrost. They tell about shows and how much things are."

I enjoyed both shows at the Palace this week. "Midnight Love" on the screen and another romantic presentation going on right in front of where I sat. Although the show on the screen was quite exciting, the one in front could have developed into an even more thrilling ending. There was one boy and two girls sitting close-together. The boy was making mad love to both girls and telling each how pretty she was. Most of the people sitting behind the trio stopped watching the movie and made them the center of attraction. I wasn't long before

When you have a program that is getting things done, you have inherent publicity. Publicity is information with a news value. Public Relations is action or conduct with a news value. A good public relations program greatly assists the publicity media. It gives news rather than mere verbal barrages.

This is the direction in which the West Texas Chamber has moved. Rather than emphasize the glossing up or painting a better picture of the town, they have advocated and assisted to building better towns, better communities and a better West Texas.

The West Texas Chamber of Commerce is even more important when you consider the geographic location of our area. We are at a disadvantage for state recognition in the fields of legislation, etc. This factor has been greatly offset by the very active program of the West Texas Chamber of Commerce.

If you are one who is interested in the progress and development of your community, state

## From Your Chamber Office

The Littlefield Chamber of Commerce monthly meeting will be held at Thornton's Cafeteria, Friday, April 21, at noon.

Everyone attending the meeting will go through the cafeteria line and carry their tray back to the dining room for the meeting.

This meeting will be well worth your time. The speaker will be Mr. Fred Husbands, executive vice-president of the West Texas Chamber of Commerce.

One needs to have direct relations with other regional and state chambers before he can fully appreciate the work of our fine regional organization.

West Texas Chamber of Commerce is better staffed and better supported by participating members than any regional chamber I have been familiar with. Further, they are an active, functioning organization. They meet problems head on and deal with them directly. West Texas Chamber of Commerce has been a leader in the transition of chamber emphasis.

The time was when chambers were hot-shot organizations that did a lot of talking, flag waving, bonner hanging and not much else. It seemed that the manager (secretary it was called then) who could do the best job of exaggerating was the most successful. Cities and towns referred to this hulla-balloo as public relations. Actually a better term for all of this "bell ringing" would have been slanted publicity. Slanted publicity is the practice of influencing news media to deal kindly with a person, place, event, institution, cause or organization. Slanted publicity attempts to display the good side and conceal the bad. It is a flood light playing on a subject from without. You could say that publicity is the make-up on the face. Publicity is vital and essential, but it cannot nor should not substitute for other public relations activities.

Public relations is making things happen. Further clarification could be illustrated thus: Publicity glids the city. Public relations works to grow a better city.

Public relations is not some-

## Operation Eichmann'

## Palace Theatre Picture Depicts Current Topic

Fate, on these rare occasions when the material moves here, still shows herself the supreme dramatist and she proves it with "Operation Eichmann," which opens Friday at the Palace Theatre.

Surely the lady has wrought one of the great crime-and-punishment pieces of all time in this story which refines the whole complicated Nazi epic into the ease of one man, Adolf Eichmann, singled with the guilt of all the atrocities against the Jewish people, hunted across the world, trapped

and nation, you will enjoy Mr. Husband's presentation, at noon Friday, at Thornton's Cafeteria.

actors and actresses. But they have opened the door to stardom for their three leads.

Klemperer's brilliant actor son, Werner Klemperer, whom Hollywood grabbed when it saw him opposite Tallulah Bankhead on the stage in "Dear Charles," is chillingly convincing as Eichmann, whose Jewish Bureau of the Gestapo slaughtered 6 million civilians.

Rita Lee gives a performance in depth as the beautiful Berlin courtesan, Anna Kemp, who pouts because Eichmann will not deck her in the jewels of the slain. The spectrum of human values, from barbarism to world conscience, it projects a distinguished and virile talent as Eichmann's nemesis, the young Israeli agent who finally nails him in Buenos Aires.

Director R. G. Springsteen's subtle art is notable for concealment itself, perhaps the major contribution to the feeling of actuality. The photograph of Joseph Bircs is prime. The music of Alex Alexander and his associate, June Starr, heightens the suspense. Did not cast it with old familiar

### About Your Health

**AUSTIN** - More Texans have been stricken by infectious hepatitis to date this year than in any similar period since the State Department of Health began keeping records on it back in 1952.

Between January 1 and April 1, the exhausting liver ailment had stricken 1,028 persons. Some of them are undoubtedly still feeling its ill effect since the disease is capable of keeping its victims bed-ridden for weeks.

For the first 13 weeks of 1960 only 493 cases of the ailment had been reported in Texas. The highest incidence previous to this year was 626 cases reported in 1954.

The reason for the present upsurge in cases is not known. Public health physicians say the disease seems to attack relatively large numbers of people - mostly youngsters and young adults - every eight or 10 years. Why it should follow such a cycle is a mystery.

But it is known that infectious hepatitis is caused by an elusive virus for which man is the reservoir. And it is known that it is spread by personal contact with sick persons or with carriers, and sometimes in contaminated food or water.

Victims of the disease usually begin feeling sick two or three weeks after exposure. They usually are weak. They might be nauseated, but may or may not vomit. They will feel aches and sore, and may have a sensation of heaviness in the stomach.

One of the most prominent symptoms is a yellow discoloration - known as jaundice - of skin and whites of the eyes. But some persons never show such discoloration, and children sometimes contract the disease without showing any of the typical

### It's the Law in TEXAS

**ABSTRACTS**

While driving around a lake, John and Mary saw a "For Sale" sign on a piece of lake property which they thought they could afford to buy.

They made inquiry of the owner and agreed on a price. They inquired about title and the owner assured them that he would give them an "abstract." They took the abstract, which was a fat book of papers, and the deed, filed the deed at the courthouse and thought no more about it, assuming, as many people do, that an "abstract" is an assurance of good title.

Some years later they went to sell to a buyer who was better informed. He insisted that either the abstract be examined and an opinion given by an attorney that the title was good or that the sellers must provide title insurance. When they sought an opinion as to whether the abstract showed good title, they were dismayed to find that the title was no in good order, and that there would have to be a quiet-title lawsuit to dispose of some flaws in the title before the buyer would accept it. Neither would a title insurance company write a policy of insurance for them without legal action to clear up the title.

John and Mary were astounded to learn that they were wrong in assuming that an "abstract" was an assurance of good title. An abstract is merely a record of every document which has ever been filed of record at the courthouse affecting the title to a particular piece of property. It may show good title or bad title, or no title at all. It is only a bundle of papers, as John and Mary discovered, which summarizes the state of the title. Its possession does not in any way assure good title.

Thus while one may be able to get possession and peacefully occupy a property with an unsalable title, difficulties will arise when the property is to be sold or mortgaged. To do so is only to postpone and perhaps increase the trouble and expense of clearing the title. It makes good sense to correct any title defects when you buy a property.

Sandhills Philosopher

# Philosopher Likens Space Travel To Bicycle Riding

Editor's note: The Sandhills Philosopher on his Johnson grass farm calms his concern about the Russians' space flight, in his letter this week.

I was out here on this Johnson grass farm the other afternoon looking up at the sky and a neighbor stopped and asked: "What're you doing, looking for a Russian traveling through the earth, not from space." I told him nope, just looking for clouds.

Everybody I know has been excited, and a little concerned, about the Russians' getting the first man into space, and it is an achievement, but I have a notion that the Russians, who threw their hats in the air when they heard they were first in space, spent the next few minutes looking for them on the ground, as hats spring from the products of a clown.

Gifts were presented to the honoree. Guests present for the party included Kim and Dell Sealy, Littlefield, Kathi and Karen Gardner, Lubbock, Kim Caldwell, Bethany and Debbie Richardson, Lubbock, and Jimmy Hammock. Also present were Mrs. Homer Sealy, Mrs. Jean Gardner, Mr. and Mrs. Gerald Richardson, Mr. and Mrs. Donald Caldwell, Mrs. Pete Hammock, Mr. and Mrs. Grover Durham, and Mr. and Mrs. Charles Durham, Chuck and Tammie.

Mr. and Mrs. J. W. Griffin, Jr. had their daughters and their families as guests in their home over the weekend. Visiting with them were Mr. and Mrs. Hollis Smith and Elton, Houston, Mr. and Mrs. Richard Birchfield and Jay and Mickey, Vega, and also Mr. Smith's mother, Mrs. Vernon Smith of Roscoe.

Mr. and Mrs. W. H. Thompson and Lavonne of Hereford visited Saturday night in the home of their daughter and family, Rev. and Mrs. Bill Hindman and Mark.

# County Marks Eight Accidents During March

The Highway Patrol investigated eight rural accidents in Lamb County during the month of March, according to Sergeant D. S. Lawson, Highway Patrol Supervisor of this area. These wrecks accounted for four persons injured and a property damage of \$4,555. This brings the total for 1961

interesting, but the best sight he saw was the look of home when he got back. And you've got to remember this man was on the earth's surface, not going around it 150 miles up where you don't meet any new people and your main pastime is wondering if there's a leak in your oxygen hose.

Yours faithfully, J.A.

# Cub Scouts Tour Air Force Base In Lubbock

Den Mothers, Mrs. Bennie Shipley and Mrs. Gerald Coffer, of Cub Scout Den 2 took the boys for a tour of Reese Air Force Base, Lubbock, Saturday. The theme of their study for the month is "Air Adventure."

Among the interesting things shown them was a ling trainer, the simulated interior of a plane. Later they saw inside a plane.

A parachute folded with the unfolding process explained and a new model jet on the base were shown. They saw a pressure capsule containing a dummy with the dummy's reaction as it was put into action. After a visit to the fire station, on the base and lunch at the Reese PX they returned home.

Earlier in the month the boys flew kites and made "model-draggles" from long balloons. Cub Scouts making the air base tour Saturday were Ronnie Hedges, Paul Holland, Carry Mac Shipley, Rodney Masfield, Mike Coffer, Pat Duffey and Bruce Nicholson.

Mr. and Mrs. Donald Priddy and children of El Paso visited her parents, Mr. and Mrs. L. E. Vaughn and his brother, Eugene and family last week. They were enroute Harlingen where they will make their home.

Guests of her parents, Mr. and Mrs. Raymond Cantrell for the week end were Mr. and Mrs. Ray Sobrem, Delinda and Paul, Hobbs, N. M. DeLanda is staying for a longer visit.

Mr. and Mrs. Victor Reynolds and Mr. and Mrs. Ed Ross, Littlefield, are fishing at Fale on this week.

Mr. and Mrs. A. O. Adkins are visiting their daughter in Alex, Okla.

Mr. and Mrs. Vernon Stagner and Mr. and Mrs. Jack Durham left early this week for a fishing trip to Falcon Dam.

Those attending the annual spring conference of the 14th District Texas Congress of Parents and Teachers held in Lubbock Tuesday were Mrs. Leroy Maxwell, Mrs. Melvyn Dutton, Mrs. Ivan Dale Weaver and Mrs. Doyle Tapley. The theme of the conference was "The Home - It's Unchanging values in a changing world." Mrs. Tapley, a member of the district board, was there for the dinner Monday night also.

A large enthusiastic audience was there Friday night for the Senior class play, "Her Emergency Husband."

Mrs. Allan White is visiting her mother and sisters in Tucson, Ariz. She accompanied her son, Allan, Jr. Lubbock.

Mr. and Mrs. Aubrey Jones and Mr. and Mrs. David Harmon are fishing at Granite Shals near Marble Falls.

Mr. and Mrs. Ray Bliss (in a visit with the Willis Hedges family and their sons Pat and Jedd and families. Mrs. Hedges has recovered from surgery performed a few weeks ago.

Mr. and Mrs. Roger Britt, Barbara and donnie were in Carlsbad, N. M. His mother, Mrs. Mary E. Britt, who had been there returned home with them. She welcomed her new grand son, Joseph Britt Hatbeck, son of Mr. and Mrs. Joe Hatbeck, born April 10.

Guests of Rev. and Mrs. John Rankin Sunday afternoon were Mrs. W. A. Holt and Mr. and Mrs. Wayland Holt and two daughters, Snyder. He is district attorney for Scurry and Borden counties.

In Muleshoe Friday evening for a G.A. Houseparty were Mrs. James Holland, Mrs. J.P. Brantley, Mrs. G. C. Beardien, Rev. and Mrs. John Rankin, Jan Holland, Linda Heard, Martha Jane Slate, Linda Clayton and Cecelia Joan Brantley.

Weekend guests in the home of their parents, Mr. and Mrs. E. L. Schovajsa and brothers were Mr. and Mrs. Jack Cummings and children, Amarillo and Mrs. Bobby Hayworth and daughter, Lubbock.

Rev. John Rankin's sister Miss Mary Rankin, Lorenzo was honored Thursday evening by the Lorenzo Parent-Teacher Association as she is retiring from the teaching profession. Mrs. Rankin accompanied him for the occasion.

Mr. and Mrs. Bennie Shipley and Carry Mack visited the Hugh Painters in Dotsen last week.

Mr. and Mrs. Don Hevern and Mike and her mother, Mrs. Susie Lynch, Sudan were in Lubbock Sunday to welcome her new grandson, born to Mr. and Mrs. Bobby Lynch Saturday. He was named Bob Jr. and weighed six pounds, nine ounces and one-half ounce.

Mr. and Mrs. Bill Tadlock and daughters, Rudison, N. M. visited her parents, Mr. and Mrs. Lee Payne and grandfather, Mr. Fred Hood during the weekend.

Mr. and Mrs. A. B. Enloe are visiting relatives in Olney this week.

The Home Ec classes One and Three are sponsoring a style show at 2:30 p.m. tomorrow (Friday) in the high school auditorium. Clothing made as their projects will be modeled. The public is invited to attend.

Mrs. Helen Kerrand children, Lubbock visited Mrs. Bill Tadlock and family when they were here during the weekend. Her brother, Bob Payne and family were here Saturday also.

Mrs. Alvin Whiteaker of the Beck community visited Mrs. Eva Altaway, Saturday.

Mr. and Mrs. Wallace Gosdin went to Mineral Wells Thursday for a short visit with his mother.

## Why is the Ford Galaxie head and shoulders above all the imitators?

'61 Ford Galaxie, like all Fords, is available with the Thunderbird 292 V-8 engine that won the low-price V-8 class in this year's Motorists' Economy Run—averaging 21.5 miles per gallon!

Because it's beautifully built to take care of itself!

Frankly, we're tickled to see so many other cars trying to latch on to the styling trend started by Galaxie. But they can't copy that Thunderbird roofline—any more than they can match Galaxie's Thunderbird luxury and handling.

What's more, Galaxie is the fine car built to cut your operating costs—by being beautifully built to take care of itself! For example, you can go 30,000 miles without a lubrication. And when you compare price, you find that Galaxie costs several hundred dollars less than some cars that give you less. Challenging statement? We're here to prove it—today.

Here's how the '61 Ford takes care of itself:

- Lubricates itself**—You go 30,000 miles between chassis lubrications (which cost only about \$4.00 and take about 10 minutes).
- Cleans its own oil**—You go 4,000 miles between oil changes with Ford's Full-Flow oil filter, which filters better through 100 miles.
- Adjusts its own brakes**—New Truck Size brakes adjust themselves—automatically.
- Guards its own muffler**—Ford mufflers are double-wrapped and laminated to last three times as long as ordinary mufflers.
- Protects its own body**—All vital underbody parts are specially primed to resist rust and corrosion, even to galvanizing the body panels beneath the doors.
- Takes care of its own finish**—Just wash and clean Ford's new Diamond Lustre Finish and it will continue to gladden the eye. It never needs waxing.

 TEXAS PRESS ASSOCIATION

By Vern Sanford  
 Texas Press Association  
 AUSTIN, Tex. — Sometime between now and August 32, the Texas Legislature must come to a showdown, do-or-die, back to the wall decision on a big new money raising bill.

But many lawmakers believe the situation will have to have reached the desperate, no-choice-left stage before such a decision can be made. To meet current needs, say some lawmakers, the tax bill will have to be big one and it's bound to bring static from voters.

Only way they can survive, said one, is to be able to say, "Look, I don't like this bill either. But what can we do — close the schools?"

In this climate, the House postponed floor action on the general sales tax measure by Reps. John Allen of Longview and Forrest Harding of San Angelo. Gov. Price Daniel attacked the bill as "obnoxious and inequitable," hitting everything "from the cradle to the grave."

Governor Daniel urged compromise through a "package" bill. Ingredients for the package, he said, might be gotten from Rep. George Hinson's omnibus tax bill and Rep. Ben Atwell's selective sales tax measure.

Hinson's bill would hit in many areas — watches, jewelry, power tools and machinery, construction materials, natural gas, restaurant meals, non-essential beverages, etc.

Atwell's bill is akin to a general sales tax except that it names the hundreds of items it would tax rather than making a blanket provision.

SENATE COOL TO TAX — With less than bubbling enthusiasm in Senate State Affairs began hearings on the first tax bill sent over by the House.

It is Rep. Charles Ballman's "loophole bill" designed to raise some \$43,000,000 toward retiring in the general revenue fund.

Senators listened with seeming sympathy to witnesses who criticized the bill's provision for a revised franchise tax formula and a gift tax. They listened, too, to a lengthy pro-sales tax discussion by Tom Senly of Midland, chairman of the Citizens for a Sales Tax group.

Under the Ballman bill's broad caption, the Senate could add extensively to its revenue-raising features, but most observers doubt the Senate will be eager to seize the initiative at this stage.

CAMPAIGN LIMIT KILLED — A bill to limit campaign expenditures to \$25,000 in a race for the U.S. Senate or congressman at large was killed by the House 83-50.

Sen. Martin Dies, Jr. of Littlefield was sponsor of the bill which passed the Senate.

Supporters of the measure said that as things are "a rich man can buy his way into office." Opponents said the limit was unrealistic and that a newcomer to politics could never become known with such restrictions on a state-wide race.

INSURANCE CHANGE FLOUNDERS — Sen. Grady Hazlewood's bill to set ground rules for the state's merit rating auto in-

urance has had at least a temporary setback.

Senate voted 16-to-13 to take up the bill. However, a two-thirds majority is needed to begin floor action.

Prior to this action, the State Board of Insurance announced extensive changes in the rating plan effective August 1. Such violations as running a red light or stop sign, illegal passing or turning, negligent collision and breaking of drivers' license restrictions were removed from the list of actions causing a driver to pay higher insurance rates.

Senator Hazlewood was not satisfied with the changes. He criticized the removal of red light running from the list and the keeping of penalties for speeding, no matter how slight.

FREIGHT RATE BILL PASSED — A bill to simplify rate setting for railroads and truckers was passed on second reading by the House.

Under present law, the Railroad Commission has to pass on every rate change request, no matter how trivial. Under the proposed measure, the rail or truck line would publish the proposed new rate and if no one objected, it would go into effect. If there Commission would call a hearing and decide the matter.

CONSOLIDATION PAYMENTS OKAYED — A bill designed to encourage consolidation of school districts received final Senate passage.

It provides that common school districts which consolidate into one will continue to receive, for 10 years, the same amount of state aid they would have received if they had not merged.

Sen. Thomas Creighton of Mineral Wells is sponsor. He said it would promote better schools, and in the long run, economy.

JEFFERSON REPORT "BLOWS IN" — Release of House general investigating committee's report on its study of vice in Jefferson County blew the lid off a long-smoldering controversy.

Report accused Atty. Gen. Will Wilson of failing to follow up vigorously on reports to him of flourishing prostitution and racketeering in the Beaumont-Port Arthur area.

It also criticized Liquor Control Board Administrator Coke Stevenson, Jr. for merely denoting an agent accused of failing to stop liquor law violations by private clubs in the Jefferson County.

House committee completed its study last year and was automatically dissolved at the beginning of this session, but the report was delayed.

Wilson hotly denied that he had failed or refused to take any action within the power and scope of his office. He said the criticism of him was "politically motivated" by Rep. Tom James of Dallas, vice chairman of the committee.

Meanwhile, the House — rather wearily, perhaps — voted against a bill that would set up House and Senate investigating committees every session, as a matter of law. Better, they decided, to establish such committees every session, as a matter of law. Better, they decided, to establish such committees by resolution when special circumstances seem to warrant.
