"It's best for me . . . I didn't realize how easy and convenient fertilizing could be until I changed to LIQUID FERTILIZER. At the present time I am putting down 16-16-0 at the rate of 265-lbs. per acre. With my 3row rig we are covering about 45 acres a day. It's so simple to apply that I hardly

ever go about the rig - my driver has very little trouble with it . . . and since it is a 'service station' type of operation, only one man is actually needed to get the job done. Yes sir, it's 'King' with me. I only wish it had come along sooner," said Mr. Barron.

Mr. Barron has a progressive-type familing oper visors. When you visit his farm you see "Soll Conservation Practices" in action. His fields are asolity and property terraced, turn-rows are well maintained and the ands of the rows have been seeded to rye to provent blowing. It is Mr. Barron's type of farming that has helped Terry County some from a \$2,000,000 to \$30,000,00 000-a-your agricultural income in the past few years.

Preliminary statistics on cotion ginnings in Texas counties for the crop of 1959 with comparable figures for 1958 have been released by the Census Bureau.

Nine of the 12 largest producing counties of Texas are on the High Plains. Lubbock ranks first, Hidalge second, taking the place Hale County held last year Hale County is third, with Hockley County fourth and Lamb County fifth.

Lamb County, incidentally, is 12th in the nation. Kern County, Calif., this year toppled its sister county, Fresno, for first place. In order come Tulare County, Calif.; Maricopa County, Ariz.; Kings Calif. Mississippi County, Arkansas; Pinal Ariz., Lubbock Hidalgo, Hale, Hockley and Lamb in Texas.

HOLDS THE MOST ...

IN A FULL-SIZE WAGON! You'd never know it by looking, but this i America's lowest-priced full-size wagon! Its 97 cubic feet of loadspace is the biggest in its field. Extra-wide rear gates open easily, with one hand, to make loading a cinch. And this Ford Ranch Wagon is built for people. You get a foam-padded front seat, plus leg, hip and head room to spare. And it's built for savings, too. It thrives on low-cost regular gas. A Full-Flow oil filter lets you go 4,000 miles without an oil change. The aluminized muffler normally lasts twice as long as conventional types. And its Diamond FORD DIVISION. Sond Motor Bongham Lustre Finish never needs waxing.

. . with portable irrigation and Alcoa Aluminum Pipe!

Save again on leveling, installation and care with a sprinkler or gated system tailor-made of Alcoa Aluminum Irrigation Pipe!

You get bonus benefits when you deliver the right amount of water to your crops-as it's needed throughout the growing season-with port-' able irrigation using Alcoa® Aluminum Pipe. You'll find it uses only about 55 per cent as much water as flood irrigation; is more economical to install, easy to move; eliminates most leveling and ditching.

There's an Alcoa Irrigation Pipe for every need!

Alcoa Standard Class 150-tough enough for rough handling, strong enough for high pressures over long hauls-comes in eight diameters from 2 in. through 10 in. Alcoa Lite-Line comes extruded-light weight and low cost for most average uses; and welded-alclad inside for maximum corrosion resistance. It's available in nine sizes from 6 in. through 12 in. for high-volume sources. Both Alcoa Standard Class 150 and Alcoa Lite-Line come in lengths of 20, 30 and 40 ft; larger sizes of Alcoa Lite-Line, Welded, in 50-ft lengths.

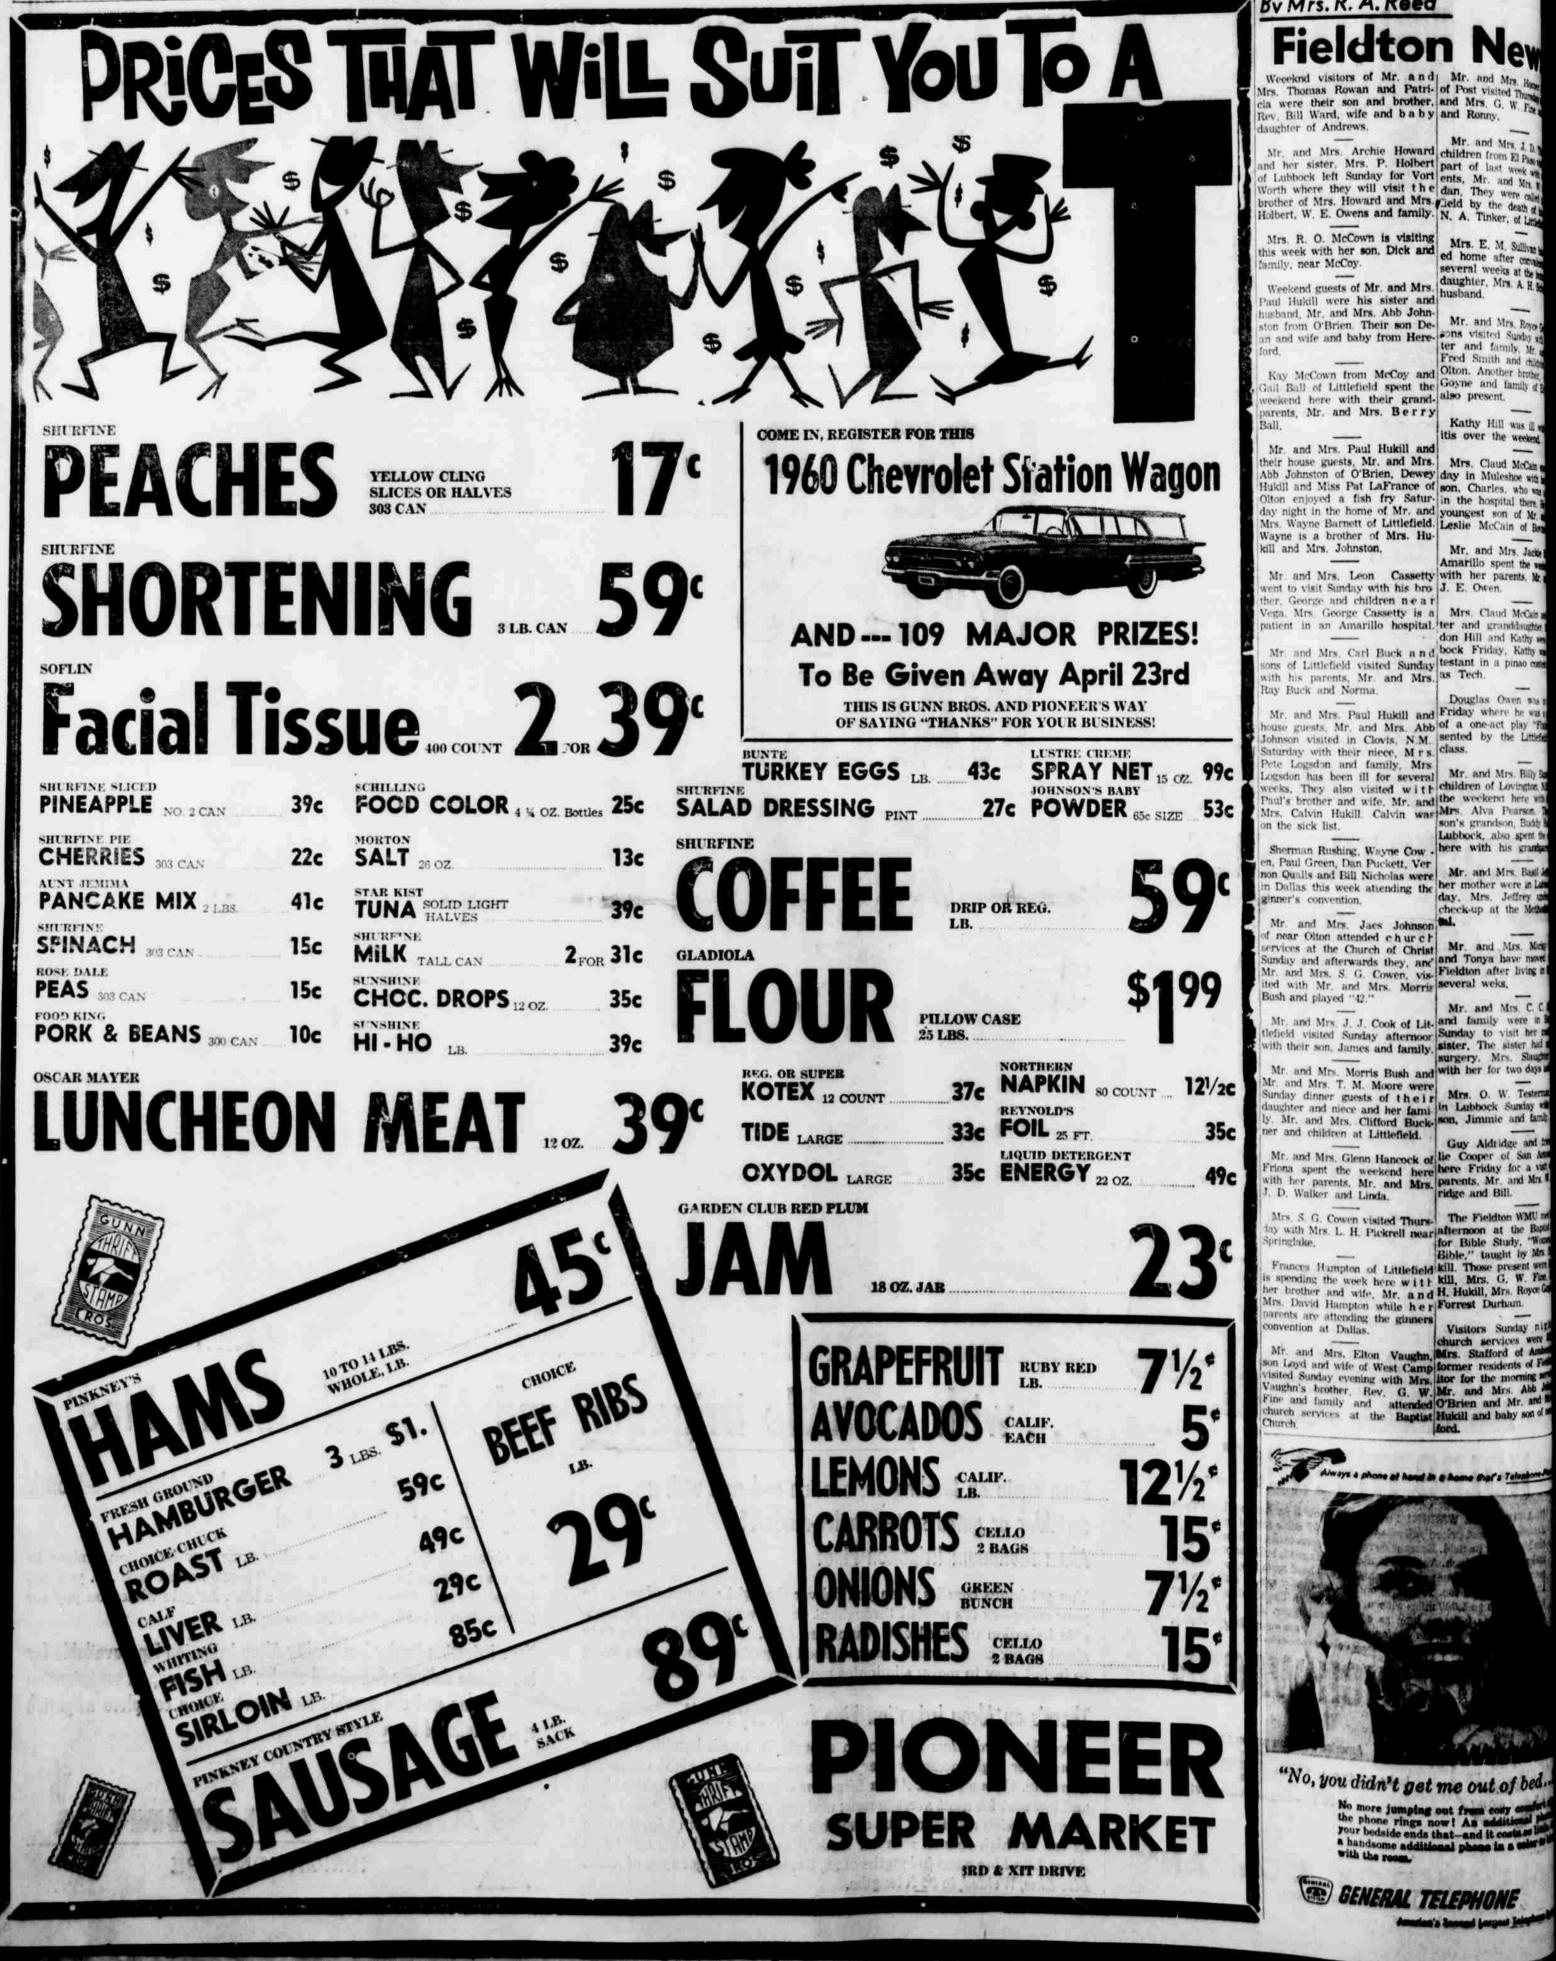

Ask your irrigation supply dealer about Alcoa's 48-Month Irrigation System Finance Plan!

Provisions of this finance plan allow your new irrigation system to serve as collateral against your loan. There's no red tape . . . you get immediate action on application for a loan. Irrigate while you pay for your system out of increased profits.

Your Irrigation Dealer has quality Alcoa Irrigation Pipe available for immediate delivery from local stocks. He is an expert on irrigation engineering and can provide local service on a complete irrigation system tailored to your needs.

This Series is Sponsored By the Business Firms and Individuals Listed On This Page. These Firms Along With the Ministers of Littlefield Hope That Each Weekly Message Will Be An Inspiration To Everyone.

THE CHURCH FOR ALL ALL FOR THE CHURCH

The Church is the greatest factor on earth for It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

When Mom and I got married, golden weddings seemed just as remote to us as they probably do to you. Matter of fact, folks celebrating them seemed like museum pieces!

Now here we are, posing for our fiftieth anniversary picture! Funny part of it is that we don't feel a bit like "old folks!"

Still, a couple can't be married for half a century without putting in a lot of living. Mom and I have. There were times when we were so happy we thought we'd burst . . . other times when it didn't seem as if we could find the strength to keep going another minute.

Through it all, we've had our church. It's hard to put into words how important that's been. Maybe you'll get an idea when I tell you this. When Mom asked me what I'd like to do to celebrate our anniversary, I said, "First of all, let's go to Church. I want to say a little prayer of thanks."

Mom smiled at me. "So do I," she told me.

Gladiola Flour is tailor-made for one special group of homemakers. They live in Texas (or right next door) and they bake the best biscuits, pies and cakes in the U.S.A.

These ladies are flour experts. They know what they want, and nothing else is good enough. So far (for 47 years) we've kept them satisfied. Today and every day, Gladiola Flour is outselling every other brand.

As for Santa Claus, Ind., women, they've never dreamed there's a flour like snow-white Gladiola. And they'll never know, as you know, that Gladiola quality is your best bargain in flour. Surprisingly, it costs the average family only about 1/2f a day more than the cheapest flour made.
