THE FLAMINGO

A BIRD THAT APPEARS TO BE BUILT OF ODDS AND ENDS! IT HAS LEGS LIKE A HERON, FEET LIKE A DUCK, A NECK LIKE A CRANE, AND A BILL LIKE A SHOVELER DUCK, WITH A BROKEN NOSE! WHEN ITS NECK IS EXTENDED, THE BIRD STANDS TALLER THAN A MAN.

THE FLAMINGO USES ITS BILL LIKE A SOUP LADLE. IT TURNS ITS HEAD UPSIDE-DOWN, SO THAT THE UPPER MANDIBLE IS ON THE BOTTOM, AND SCOOPS ABOUT IN THE WATERY MUD FOR MOLLUSKS AND WORMS.

FLAMINGO TONGUES WERE A FAVORITE DELICACY AT ANCIENT ROMAN BANQUETS.

A FLOCK OF THESE PECULIAR BIRDS IN FLIGHT, WITH OUTSTRETCHED NECKS AND LEGS, IS A SIGHT NEVER TO BE FORGOTTEN.

SCIENTISTS HAVE DECIDED THAT FLAMINGOES FORM THE CONNECTING LINK BETWEEN WADING BIRDS AND SWIMMING BIRDS, AND HAVE PLACED THEM IN A DIVISIONAL ORDER APART FROM OTHER BIRDS.

LAMB COUNTY VOTERS SELECT OFFICERS

ALLRED HEADS HUNTER WITH 50,000 LEAD

Approximately A Million Votes Were Estimated As Cast

The final, unofficial tabulation of votes from last Saturday's primary by the Texas Election bureau accounting for 901,354 votes out of 1,000,000 estimated, showed that Attorney General James V. Allred was leading Tom Hunter by 50,000 votes in the race for governor.

Returns had been received from 252 of the state's 254 counties, and only 176 of them complete. Reports show that tabulation is proceeding slowly in all departments. The Election Bureau estimated however, on the basis of the results already tabulated that the ratios between the various candidates would not be altered greatly.

The count for governor is: Allred, 269,470; Hunter, 219,354; McDonald 189,001; Small 111,510; Witt 56,598; Hughes, 51,248; Russell, 4,404. In the new 19th congressional district, George H. Mahon of Colorado and Clark M. Mullican of Lubbock apparently were headed for the runoff with the tabulations showing returns from 22 counties with 16 complete; Mahon 18,688; Mullican 10,290; Arthur P. Duggan of Littlefield 9,629; Homer Pharr of Lubbock, 4,273; and Ferd C. Hule of Spur 3,134. Senator Tom Connally forged ahead to lead Joseph Weldon Bailey, Jr., by 409,506 to 259,125.

Win Without Run-Off
George Sheppard, state comptroller Charley Lockhart, state treasurer, and J. D. McDonald, commissioner of agriculture apparently received enough votes to win renomination without the necessity of a run-off.

For railroad commissioner, Pundt received 200,869 votes; Smith 237,657; Hatcher 169,180; Johnson 121,563; and McNeese 65,865.

State Senator Walter Woodul had 236,030 votes and Joe Moore of Greenville 124,845 as they matched strength for the runoff August 25.

Senator Walter Woodward of Coleman gained a lead over William McCraw of Dallas of 319,250 votes to 312,967 in the race for attorney general.

DOLLAR DAY IS SET FOR AUG. 6 IN LITTLEFIELD

Big Crowds Expected for Bargain Day Sales

Littlefield merchants are preparing another series of bargain offers for their customers for Dollar Day, Monday, August 6, continuing a practice which has gained wide spread favor and support among the buyers of the community.

Dollar Day has become a real feature in this trade territory. As can be seen in the Dollar Day advertisements in this issue of the Leader, bargains are being offered that could not be duplicated or even approached on any other occasion.

In the three months that Littlefield has been observing Dollar Day, buyers have learned to appreciate the bargains that are offered and avail themselves of the opportunities. Reports from the merchants show that each Dollar Day has been better attended than the previous one. And with the bargains that they are offering this Monday, it is likely to suppose that it will be well attended by the people of the Littlefield territory.

Foust Re-Elected Commissioner of Precinct No. 4

E. J. Foust, commissioner of Precinct No. 4 and a candidate for reelection, was returned to office without a run-off, in last Saturday's election. He defeated Grady W. Simpson and J. P. (Jim) Gibson.

R. D. (Don) Bryant, commissioner of Precinct No. 1, and a candidate for re-election, was returned to office. He defeated W. C. (Dad) Carpenter. Mr. Bryant received 491 votes and Mr. Carpenter 307 votes.

C. A. Daniel, commissioner of Precinct No. 2 and a candidate for reelection, was returned to office. He defeated H. R. Harberer.

LAST RITES HELD FOR O. M. BEAN SUNDAY LAST

Passes Away Following a Stroke of Paralysis Two Weeks Ago

Funeral services were conducted at 4:30 o'clock Sunday afternoon, July 29, at the grave in the Littlefield Cemetery, for O. M. Bean, aged 54, of three miles south of this city, who passed away Saturday night at 11:25 following a two weeks' illness.

Deceased suffered a stroke of Paralysis two weeks ago, which was believed caused from high blood pressure and was unconscious and confined to his bed since that time. This is said to be his second stroke, having been stricken previously about ten years ago.

Rev. Joe F. Grizzle, Pastor of the First Baptist Church, officiated at the services, and burial was in charge of Hammons Funeral Home.

Deceased had lived in this section for the past nine years, coming here from O'Donnell, Texas, and locating 1-2 miles north of town, where he farmed for two years. He then moved to three miles south of Littlefield, where he and his family lived for the past seven years.

He was born and reared near Comanche, Texas, where he lived until going to O'Donnell.

He was a member of the Baptist Church since nineteen years of age.

Surviving deceased are his widow and ten children, six sons and four daughters, J. P. Bean of 9 1-2 miles southwest of Littlefield; Bob of Artesia, N. M.; H. D. of O'Donnell; Henry, E. J. and Bill of three miles southwest of town; and Mrs. Ola McCullough of Artesia, N. M.; Mrs. Ila Culp of Carlsbad, N. M.; Mrs. Lizzie Cottrell of 17 miles southwest of Brownfield; and Minda at home; one brother and three sisters, E. J. Bean of O'Donnell, Mrs. Exia Wilson also of O'Donnell; Mrs. Genoa Vineyard of Comanche; and Mrs. Minda Hurd of Burk Burnett, two half brothers, Wallie and Wilson Bean of Rochester, Texas.

All the above named were here for the funeral services with the exception of Mrs. Genoa Vineyard and Mrs. Minda Hurd, who were unable to be present.

Other out of town attendants were; Mr. and Mrs. J. D. Cottrell of Brownfield; Mrs. Mary Drake of Vernon; Mr. and Mrs. Walter Colburn of Eastland; Mrs. Bill Workman, Mrs. Otis Jones and Mrs. John Sturr all of Amherst.

JOINER IS CHOICE FOR JUDGE OF 64TH DISTRICT

Defeats Clements by Total Of Approximately 1000 Votes

Available returns indicate that former district judge R. C. Joiner of Plainview, was returned to office as judge of the 64th judicial district in last Saturday's primary.

Official returns probably will show a plurality for Judge Joiner of approximately 1000 over his opponent, Judge C. C. Clements, the present incumbent.

With returns from six voting precincts in Lamb County not available until the vote is canvassed, Judge Joiner has 6366 votes and Judge Clements 5401 votes.

The total vote, not including Lamb county was 5155 for Judge Joiner and 3743 for Judge Clements.

The returns from nine Lamb county voting precincts are as follows: Littlefield — Clements 606; Joiner 338.

Bainer — Clements, 104; Joiner 24.

South Sudan — Clements, 153; Joiner, 87.

Spade — Clements, 122; Joiner 57.

North Sudan — Clements, 152; Joiner, 89.

Olton — Clements, 304; Joiner, 369.

South Olton — Clements, 19; Joiner, 20.

GOVERNMENT IN BANKING

People who like to sit about and discuss whether the government ought to take over banking, might stop a moment and consider to what extent it has already done so.

Since the banking crisis of March, 1933, great changes have swept across the whole banking world, changes so sweeping that few realize them. The American Bankers' Association recently summed up some of them, and the picture it draws is enlightening.

For instance, we used to have 30,800 banks, back in 1921. Now we have something more than 14,000, a decrease of around 16,000 (over half).

About 4000 banks have vanished since March, 1933. Several thousand banks owe the R. F. C. more than a half billion dollars on pledge of valuable parts of their assets.

The R. F. C. has taken more than a billion dollars worth of stock in 6400 banks by way of increasing capitalization including many of the strongest banks in the country. Thus it has an interest in 44 per cent of all banks today.

A million people and institutions have borrowed from the 5800 loaning associations and corporations started by the government to extend various types of credit.

The R. F. C. also has direct loans to various corporations totaling around \$700,000,000.

Private agencies have virtually abdicated from the credit field, the survey indicates. From 1922-1931 securities floated in private capital markets averaged more than five billions a year. During 1931-1933 these issues shrank to \$621,000,000 a year, a decrease of almost 90 per cent. Somebody had to do the financing. So the treasury did it.

Add in the fact of federal deposit insurance, giving another government agency a direct interest in banking. Divorce of the security business from commercial banking puts a new complexion on the whole field, and the influence of the Federal Reserve System is admittedly rising.

So, when you hear a discussion of whether the government ought to go into banking, it's well to realize right at the outset that the government is already banking—right up to the hips.

Gold Star Pins To Be Presented To 4-H Club Boys

COLLEGE STATION, Texas, Aug. 1. — Gold star pins will be presented to 100 4-H Club boys and a like number of 4-H Club girls making the highest scores on their demonstrations in 1933 at one of the evening programs of the farmers short course being held at Texas A. & M. College July 31-Aug. 3, according to announcement of boys and girls club committee of the Extension Service. President T. O. Watson of A. & M. will present the pins, which will be the first public presentation of such an award before the short course group.

The demonstrations for which the pins are awarded are judged by their productivity and by their fulfillment of the essentials of the particular demonstration being carried out.

In addition to this feature, many inspirational programs have been arranged for the morning hours for the boys and girls attending the short course. The afternoons will find them witnessing practical demonstrations relating to farm life, participating in sightseeing expeditions over the campus or indulging in a few hours of relaxation and recreation.

Art Goebel Is Skywriting For Phillips 66

Art Goebel is skywriting for Phillips 66 again. The famed stunt and speed flyer who flew to international renown in 1927 by winning the Dole prize flight to Hawaii, began his campaign August 1 in Chicago and will continue for four months, according to present plans.

Goebel started skywriting last year when his friend and Dole flight backer, Frank Phillips, put him to work writing "Phillips 66" above the crowds at Chicago's International Air Races. Following the races, Goebel made a tour of Phillips territory — a tour which was cut short because of inclement weather.

The results of last year's skywriting were so successful that a larger program was planned for this year. Most of Goebel's time will be spent in Chicago and vicinity, but he will make occasional sallies to major points in the 17 Phillips states.

An innovation which, it is expected, will cause much comment this year, is Goebel's use of red smoke. Colored smoke has never been used before, according to aviation authorities.

Texas Baby Chick Convention at Lubbock Aug. 14

LUBBOCK, Texas, Aug. 1. — The 11th annual convention of the Texas Baby Chick Association to be held at Lubbock, August 14, 15 and 16, has been termed the "Second International" by President A. H. "Hank" Denke of Stephenville, because some 500 hatcherymen are expected from Texas and 10 adjoining states and the convention program is an almost duplication of the one at the International convention in Cleveland this week.

Headliners on the program will be J. A. Hannah, managing agent of Kansas City, and D. D. Slade, chairman of Lexington, Ky., of the National Commercial and Breeder Hatchery Coordinating Committee; Dr. M. A. Jull, Senior Poultry Husbandman, and H. L. Shrader, Senior Extension Poultry Husbandman, U. S. Department of Agriculture, Washington, D. C.

The convention will be discussed by Hannah and Slade. Shrader will conduct a government sector demonstration. Jull will discuss immunization and production by feeding and breeding.

Entertainment features include a banquet, barbecue, old timers' dance, refreshments each afternoon, and a waxline of \$500.00 worth of prizes during the three days.

A two day state hatchery school follows the convention.

A RECORD OF SERVICE TO THE AUTOMOBILE OWNERS OF COUNTY

Carl Smith, proprietor of the Littlefield Battery and Electric, is one of the pioneer citizens of this city, having moved here in 1912. It was his father who built the first residence in the new town of Littlefield.

From 1921-24 Mr. Smith worked as mechanic for Harry Wiseman at the City Garage. He then operated a filling station which used to stand across the street from the Home Bakery. For two years he was in the battery shop at the Chevrolet Garage.

In 1930 Mr. Smith opened his present business, the Littlefield Battery and Electric, with a background of experience in the automotive field which qualifies him to give the public a superior type of service.

Mr. Smith and his helpers do generator and starter repairing, battery work and charging and carry a complete line of ignition parts. He sells Willard batteries, Crosley radios and Federal tires.

R. E. Williams Now Associated With Tire Department

R. E. Williams, who for the past year has been handling Star tires at his place of business near Phelps Avenue Gulf Station, now associated with Carl Smith in the selling of Federal Tires.

Though Mr. Williams has been in Littlefield only a year, coming here from Hobart, Okla., he has been in the tire business for the past ten years, and knows automobiles tires thoroughly.

From his new location with Carl Smith, Mr. Williams invites the motoring public to drop in for a visit and discuss their tire needs and to examine the new features of Federal tires.

GARLAND AND WHITE AUTO SUPPLY

GARLAND AND WHITE HAVE MOVED INTO NEW QUARTERS

OPERATE IN TWO LOCATIONS

Business Will Include Agency For Dodge and Plymouth

... a step forward in their aggressive business, career, and White Auto Supply are doing business at two locations,

their old site near the east end of the Highway No. 7 paving and the new location, the former Ford Motor Co. building.

The two locations offer much increased facilities for the serving of their customers.

The recent acquisition of the Dodge and Plymouth agency for motor cars and trucks enable them to offer to the motoring public another dependable product in addition to their already numerous lines of automobile merchandise.

Garland and White have just installed a new \$300 Stormizing machine for reboring motors, improving

their service which they have been offering. A new Rusco brake machine for applying Rusco brake linings assures a perfect job of workmanship on a nationally advertised brake lining. An this new, expensive machinery assures the customers of Garland and White a superior service on all jobs. And for each of the machines, there is an expert mechanic with years of experience in his particular line of work.

Garland and White are agents for the famous line of Goodyear automobile tires, featuring the new G-3. These tires carry a 12 month guarantee against all road hazards, thus

Fair Cows Trod World's Most Costly Cowpath

Three cows from the Brook Hill farm at the Chicago World's Fair ambled through a tunnel under a twenty-two story office building at 100 West Monroe street, Chicago, which is kept open for the passage of cattle under the terms of a deed dating back to 1844, and represents a land value of \$177,000 and an annual loss of \$10,000 rental to the present owners of the property. With the cows is Louis Jones of Chicago, the grand-nephew of William Jones who

purchased the land from the government in 1834 and started a dairy farm in the spring of 1834, just one hundred years ago. The dairymaids who took part in the ceremony are (left to right): Ruth Andreas, Chicago, who was "Miss McHenry County" for two years while a resident of Marengo, Ill.; Miss Helen Hailberg, of Brook Hill farm, Wisc. and Miss Elizabeth Rucies, of Chicago Ridge, Ill., 1928 Cook county high school health champion.

Crowds Thrill at Music of Detroit Symphony at Fair

A great and enthusiastic audience greeted the premier concert of the Detroit Symphony orchestra in the bandshell of the Ford gardens at the new World's Fair in Chicago. Throughout the summer the Detroit and the Chicago Symphony orchestras under the direction of Victor Kolar and Frederick Stock, respectively, will offer free outdoor concerts to Fair visitors. The concerts also are broadcast for those who are unfortunate enough to miss them at the

Fair. The opening concert included some of the best known compositions of Wagner, Strauss, Chopin, Rubenstein, Mendelssohn, and Saint-Saens. Selections from Offenbach's "Tales of Hoffman" and the lighter pieces of MacDowell, Middleton and Rubberg comprised the second part of the concert. It will be the purpose of the conductor to give as wide a selection of compositions as may be arranged, to satisfy tastes of people lacking opera opportunities.

making the purchase of a Goodyear tire a safe investment, and an economical investment.

Moog electrical heat treated lateral springs are obtainable there. Also a complete line of other automobile and truck springs. Garland and White are local distributors of the McQuay-Norris products, products which are "Time Tested" and "Proved in Service."

Their line of Automobile parts covers every possible need of the motor car owner, and is constituted of nationally advertised products. Whatever your need, Garland and White can supply it. Since the acquisition of the Dodge and Plymouth agency, they will carry a complete line of genuine parts.

With six years of continuous service in Littlefield, Garland and White have made many friends and regular customers. And with the moving into new and larger quarters, they again pledge the service of their large organization in the interest of the motoring public.

Short Course To Be Held July 30—Aug. 3

COLLEGE STATION, Texas, Aug. 1. — Texas' biggest farm demonstration, the silver anniversary farmers short course, opened on the Texas A. & M. College campus, July 30. Akin to a county fair, but naturally having a much more serious meaning, in the picturesqueness of its make-up and in the pageantry of its nightly entertainment programs, the short course is expected to attract between 3,500 and 5,000 people as regular attendants during its tenure of from Sunday night to Friday night inclusive. In addition, it is expected hundreds of visitors for a day probably will throng the campus daily throughout the week. Built around a basic series of demonstrations and colored by interesting lectures and discussions, the short course program also will attract a number of separate meetings. Among these will be the sessions of the State Board of Education, the County School Superintendents and Supervisors Conference, the Rural Pastors' and Laymen's Conference, the Texas Beekeepers' Association, the Texas Agricultural Writers' Association, the Texas Home Demonstration Association and producers of state registered and certified seed. Among the prominent religious, educational, agricultural and layman leaders who will appear on these early morning programs are: Dean E. J. Kyle, of the school of agriculture at A. and M., founder of the short course, who will deliver the keynote address; Hon. Marvin Jones, chairman of the agricultural committee, national House of Representatives; C. A. Cobb, chief of the Agricultural Administration cotton section; Bishop Clinton S. Quin, Houston, Episcopal Church; Bishop A. Frank Smith, Houston, Methodist Church; Dr. J. C. Hardy, president of Baylor College for Women, Belton; Mrs. Noyes Darling Smith, Austin, vice-chairman of the State Board of Education; A. C. Williams, Houston, general agent of the Farm Credit Administration; O. H. Benson, New York, national director of rural scouting; W. L. Clayton, Houston, head of Anderson Clayton Co., cotton firm.

"A Show of A Century" at Fairs
DALLAS, Texas, Aug. 1.—"The Show of A Century," a gigantic musical extravaganza with a cast of more than 100 people, has been booked as the auditorium attraction at the 1934 State Fair of Texas, it has been announced here by Otto Herold, president of the exposition. "The Show of A Century," is now being produced by Barnes-Carruthers of Chicago. Offering two of the outstanding sensations of the American stage, "The Show of A Century," brings to this section of the country for the first time, "Lottie Meyers, Disappearing Water Ballet," and ten year old Manuel King and his ten African Lions. In addition to these two sensational acts, the musical extravaganza will offer Willie West and Meg-Gintie, the Odeon Male Octet, Allanoff's Imperial Ballet, the Hudson sisters, and many of the outstanding musical headline acts of the American Stage of today. "The Show of A Century," will be offered to patrons of the auditorium and visitors to the 47th annual State Fair of Texas at low, popular prices. It will be the biggest musical attraction ever offered at such low prices in Texas.

Nightly entertainment programs will include a horse show, band concerts, group banquets, community singing, campus tours, announcement of contest winners and exhibition of products made during the short course. The short course's opening feature will be a large non-denominational religious service Sunday evening in the Kyle Field stadium.

Money Retained To Aid Texas Farmers

DALLAS, Tex., Aug. 1.—Fifty-five millions of dollars in loans outstanding on city property and farms in Texas, and an interest rate that has declined steadily on such real estate loans since they entered the field, is a contribution to Texas economic life revealed by the recent survey made by the Information Committee of the Texas Life Convention, to have been made by the Texas legal reserve life insurance companies.

This study shows how money that formerly flowed out of Texas, prior to the passage of the Robertson Insurance Law and the building up of the Texas companies is now retained within the State to aid Texas farmers and home owners.

But real property loans represent only a part of the Texas money that is assembled and kept working within the borders of Texas by the Legal Reserve Life companies, the survey further shows.

These companies also hold \$9,500,000 of the bonds of municipalities and counties of Texas. This represents rapidly circulating money—used by these local governmental agencies largely for construction purposes, such as building, roads, street paving and similar projects, with a high percentage of the cost being spent for labor. In addition, the Texas Legal Reserve Companies hold approximately \$1,250,000 of State Relief Bonds—the so-called "bread bonds"—voted by the people to match the Federal funds in feeding the hungry unemployed of Texas.

by treatment to save all but three. According to Mr. Fowler, through the continued dry weather some of the feed has become stunted, and if eaten by livestock will cause them to be poisoned. It was broomcorn that the cattle in this instance had

eaten, but from the information furnished, any feed that may be drouth stricken and stunted may act as a poison when eaten by livestock. When asked how he treated the cattle, Mr. Fowler said: "First, I gave each of the cattle

five tablespoons of Watkins Liniment in a pint of water. Then I followed it up with a pint of lard and a half cup of coal oil each." John Porcher, farmer of northwest of town, also lost one cow recently from poisoned sudan feed.

EMERGENCY CROP LOANS AGAIN AVAILABLE

Limited to \$250.00 To One Individual For General Purposes

Emergency crop loans for general purposes which were discontinued by Act 31, are again being made available to farmers in all of the drouth stricken agricultural areas until September 1, the Farm Credit Administration announced today (July 20). According to the announcement, the loans limited to \$250.00 to one individual for general purposes, and \$500.00 for summer fallowing or for combined purpose of summer fallowing and the purchase of seed for winter wheat, winter rye or garley, may be made in all the designated drouth stricken agricultural areas, whether primary or secondary.

Outside the drouth stricken areas loans may be made for summer fallowing or for the combined purpose of summer fallowing and the purchase of seed for winter wheat, winter rye or garley, but a loan may not exceed the sum of \$250.00 to one individual.

The reopening of the emergency crop loan facilities will not interfere with the making of feed and forage loans in the emergency drouth areas from the recently appropriated \$525,000,000 fund. The crop loans, including loans for feed for livestock in secondary areas, are being made from \$40,000,000 fund appropriated in the Act of Congress approved February 23, 1934; whereas the loans for livestock feed and forage production in the emergency areas are being made from a part of the recently appropriated \$525,000,000 drouth relief fund.

If an applicant already has obtained an emergency crop loan during the year 1934, his new crop loan plus the principal amount of the old crop loan must not exceed the \$250 limit for general purposes, or the \$400 limit for the purpose of summer fallowing. Loans will be made only to applicants who do not have other

available sources of credit and any farmer applying for a crop loan in excess of \$150 must submit written evidence from a production credit association that his application for a loan of approximately the same amount has been rejected. The crop loans will be secured by liens on the crops financed, and loans for feed for livestock from the \$40,000,000 fund in secondary areas will be secured by mortgages on the livestock.

Applications for the loans are received by the county loan committees already established and sent to the regional emergency crop and feed loan offices established at Dallas, Texas. Checks to approved applicants are mailed directly to borrowers from these offices.

Farmer Loses Three Cows From Eating Poisoned Feed

According to reports a number of cattle have died through the county from eating poisoned feed.

M. R. Fowler of seven miles southwest of Littlefield lost three milk cows Tuesday from eating drouth stricken feed. Fourteen of Mr. Fowler's cattle took sick, but he was able

LITTLEFIELD, TEXAS

THE WATER SITUATION IN LITTLEFIELD

A STATEMENT BY THE CITY COMMISSION

In view of the fact that an election has been called to be held on August 29th, 1934, in which the property tax paying voters of the City of Littlefield are asked to vote on the question as to whether or not the City Commission shall be authorized to issue revenue bonds of the City to the amount of \$39,000, the proceeds of which are to be used in making necessary additions and extensions to the waterworks system, the City Commission is submitting the following information with reference to the water situation, as it actually exists today.

No doubt every one has read in the local newspapers that the Public Works Administration has approved a loan and grant totalling \$48,000 for the purpose of making these improvements. Of this sum thirty per cent of the actual cost of labor and material will be a grant, the balance to be a loan, secured by revenue bonds, drawing four per cent interest, and maturing over a period of thirty years from 1935 to 1964. THESE BONDS CANNOT BE PAID FROM TAXATION AND NO TAX LEVY FOR THEIR PAYMENT WILL BE PERMITTED BY THE GOVERNMENT, SHOULD THE CITY COMMISSION DESIRE TO LEVY A TAX, WHICH IS NOT DESIRED. THESE BONDS MUST BE PAID FROM REVENUES FROM THE WATER DEPARTMENT, and we are of the opinion that this can easily be done. At present the fuel cost of pumping water into the stand pipe, ready for sale, amounts to .049 per 1,000 gallons. Our engineer has figured that under the new set up this water can be pumped into the stand pipe for .13 per 1,000 gallons, and these figures have been checked and approved by the engineers for the government. This saving in fuel costs will practically pay the interest and sinking fund on the bonds, without taking into consideration the increase in business that will naturally come when we have the additional water to sell, or the present revenues from the sale of water system as it now exists. Under these conditions we are of the opinion that there will be no trouble in meeting the payments from the revenues from the water system.

It has been reported to us that some citizens of the town do not see the necessity for these improvements, and are of the opinion that our present water supply is sufficient for the needs of the town. It has also been reported that the wells are not being pumped all the time and that more water could be produced from the present wells. This information is in error, for the wells are being pumped day and night, seven days in the week, and this has been going on for the past fifteen months. It is absolutely necessary for the city to authorize this bond issue or to take some other steps to increase the supply of water, or it will be but a matter of a short time until we will be unable to supply the town as it now exists without taking into consideration any future growth or expansion. The City at present owns four small wells, of which three have been pumped day and night for the past fifteen months. The fourth well has dropped off to such an extent that it is too expensive to pump it, as it will produce only seven gallons per minute. The other three wells are now producing a total of about one hundred sixty gallons per minute, and are steadily getting weaker. It has been reported that proper care has not been taken of the wells and they have not been cleaned out in years. This information is also in error, for two of the wells were cleaned out in January and February of this year, with no increase in production after cleaning them. One of the other wells was a new one, having been drilled in May, 1933, and it was not necessary to clean it at that time. The fourth well was in good condition at the time and was producing about all the water that it could be made to produce. Since cleaning the wells in January and February, the demand for water has been so great that it has been impossible to shut down either of the wells long enough to clean them. In addition to the fact that the wells are getting weaker, the de-

mand for water has been steadily increasing for the past two years, and the attention of the voters is invited to the following figures:

Since August 1, 1932 there have been added to the water system twenty six new connections, of which three represent large consumers viz: The Panhandle & Santa Fe Railway Co., the Choctaw Gin and the South Plains Creamery. The water pumped for the past two and one half years is as follows:

January 1 to December 31, 1932, 40,303,064 gallons, an average of 3,358,587 gallons per month.

January 1 to December 31, 1933, 53,387,635 gallons, an average of 4,448,969 gallons per month.

January 1, to July 31, 1934, 33,175,263 gallons, an average of 4,739,327 gallons per month (seven months).

These figures will show that the demand for water has been steadily increasing, and the consumption for the year 1934 would have been considerably larger if we had the water to sell. Instead of soliciting as large a volume of business as possible, we have been compelled to request water consumers to use as little water as possible.

The present plan of making these improvements is to drill test wells at a distance of from one to two miles north of the present waterworks plant and locate the unlimited supply of water which is known to be there. If water in sufficient quantity is not found at a nearer location, one of the large irrigation wells that have been known to produce as much as 1,000 gallons per minute will be bought. This well will be connected with the present reservoir and stand pipe with an eight inch water main, which is the smallest size that is practical, and is the smallest size that the State Fire Insurance Commission will approve. The present PWA loan and grant has been figured with a view to running a line to one of these wells which are already drilled, but should water be found in sufficient quantity at a location nearer then this, the amount of bonds will be correspondingly smaller. In other words, no money will be spent except for the actual cost of the project, and the full \$39,000 is not required, only enough bonds will be issued to cover the cost of the improvements.

The City is at present being penalized in fire insurance rates due to 2,200 feet of six inch water main between the present plant and the stand pipe. It is planned in the new set up to remove this six inch pipe and replace same with eight inch, and to use the six inch at some other place in town where this insurance penalty will not apply. Necessary funds for all labor and material for making this change have been figured in this loan and grant.

There seems to be some lack of understanding about the difference in the amount of the present loan and the loan that was applied for in December, 1932, and which was rejected by the Reconstruction Finance Corporation. In order that the voters may get a clearer idea as to the differences in the two projects, attention is directed to the following comparative figures:

	RFC APPLICATION DECEMBER, 1932	PWA APPLICATION AUGUST, 1933
(1) Organization & Preliminary Expense	\$ 100.00	
(2) Lands and Rights of Way	1,200.00	\$ 1,200.00
(3) 8" Cast Iron Supply Line	14,000.00	14,300.00
(4) Machinery, Foundations & Equipment	7,800.00	17,100.00
(5) Water Dept. Deficit & Carrying Charge	4,500.00	
(6) Engineering	425.00	2,500.00
(7) Printing Bonds & Contingencies	375.00	400.00
(8) Power House & Pump House	1,600.00	4,200.00
(9) Remove 2,200 ft. 6" C. I. L. and relay		1,100.00
(10) 2,200 ft. new 8" supply line		3,200.00
(11) Transmission line and transformers		4,000.00
	\$30,000.00	\$48,000.00

Item (4): The R. F. C. set up provided for a 30 hp oil engine at the new well and a 40 hp oil engine at the booster pump station. ever, when the P. W. A. application was considered, it was decided to construct instead, a central generating station, so that the old well any number of new wells could be driven with only a motor and at the well, instead of an oil engine to be supplied to each new well, therefore a 55HP and 110HP oil engine were figured in the P. W. A. application to make a more flexible installation and a DUPLICATE OR RESERVE POWER which was not provided for in the R F C set up.

Item (6) Engineering: There was no resident supervisor of construction provided in the R. F. C. engineering contract; but the State engineer insisted on rigid and continuous engineering supervision under P W A application, and dictated the fee to be paid for engineering City had nothing whatever to do about it.

Item (8) On account of the generating plant for central for the wells the buildings naturally cost more under the P W A plan.

Item (11) The transmission line to the wells was a necessary part of the more flexible method of operation from a central power plant supply any number of wells, as they may be added in the future is a much better method, though more expensive as to installation of operating the system.

The requirements of the State Fire Insurance Commission for a town the size of Littlefield shall be able to pump as much as a hundred forty-seven gallons of water per minute. We are now pumping about one hundred sixty gallons, the total capacity of the wells, or seven gallons per minute short of the state requirements. For this age and also for the 2,200 feet of six inch water main, we are penalized in the fire insurance key rate. These penalties will be moved if the plan as outlined under the P W A application is carried out which will figure about six cents reduction in the key rate.

In view of the fact that the city has been barely able to supply needs of the town with water during the past summer, it will be a matter of impossibility for the present water system to take care any further growth or expansion. If the voters do not authorize the City Commission to accept this loan and grant, it will be necessary to drill additional wells at one present or some other location, which is expensive and unsatisfactory method, as these wells in the past shown that the water supply at this location is inadequate, and wells are of short life.

Taking into consideration the thirty per cent grant which has allowed us, it will make the bonds actually draw about three per cent interest, and our opinion is that if we do not accept this proposition it may be a long time before we have another opportunity to money for these improvements at this low rate of interest.

We have endeavored to cover all points in connection with this matter, but if there is anything further that is not fully understood by the voter, we urge that you discuss the matter with any member of the Commission. We also especially request that we be given an opportunity to discuss the matter with any voter who is at present opposed to the issuance of the bonds, and we invite any and all voters who for or against the bonds, to meet with us at any time to suit their convenience. We also ask any and all citizens of the town to visit the pumping plant at any hour of the day or night, and satisfy themselves that the statements contained herein represent the facts in the matter.

Sheriff Irvin To Return Prisoner To Lamb County

Sheriff Len Irvin, accompanied by Mrs. Irvin and son, Billie left Littlefield Sunday morning for Boyce, Idaho, on advice by officers of that city that they had arrested a man

giving his name as Jack Mahaffy at the request of Lamb County officers.

This man is alleged to have robbed an Olton oil and gasoline wholesale establishment, and will be returned to this county and charged with robbery with firearms.

Sheriff Irvin is expected to return with his prisoner Friday.

Panhandle Plains Historical Society Display Indian Artifacts

CANYON, Texas, Aug. 1. — A collection of Indian artifacts which Z. L. Evans of McLean has spent a life time in securing are now on exhibit in the museum of the Panhandle Plains Historical Society.

Most of the material in the exhibit were found in western Arkansas. Dr. Angie Debo, curator of the museum says that they are better made than the implements which were made and used by the Indians of the Plains region.

The collection includes hatchets, spear heads, knives, arrow heads, and scraps of polished stone. The Indians of the Panhandle Plains, according to Dr. Debo, did not make polished implements.

Mr. Evans' collection will be on exhibit for a short time only.

You don't need to go out of town for your office supplies; come by the Leader office.

I WANT TO THANK ALL OF YOU

For your splendid vote in the primary, and for the expression of confidence in me as represented by your action at the polls.

A continuance of your fine support in the second primary will be very deeply appreciated.

Richard Dix and Irene Dunne In "Stingaree" At Palace

Richard Dix and Irene Dunne are reunited as co-stars in "Stingaree", RKO-Radio's eventful melodrama, to be featured at Palace Theatre Sunday night and Monday. These stars have not appeared together in a talking picture since their sensational success in "Cimarron."

of a humble relative and servant. He kidnaps her and escapes right through mantic mountain lair, right through a cordon of mounted police sworn to kill him. After one glorious night of love he starts her on her cherished road to fame by sacrificing his liberty.

In a surprise climax, Miss Dunne tries to sacrifice her glory for him

"Stingaree" is a dashing and sympathetic Australian bandit who spends his spare time composing music. The role gives Dix an opportunity to return to the adventurous, twinkling-eyed roles he enacted in the days of his early successes.

Miss Dunne, opposite, has her fine opportunity to exploit thoroughly her beautiful voice. In "Stingaree" she sings both popular and operatic songs.

The story, adapted from the "Stingaree" series by E. W. Hornung, author of "Raffles", deals with a great love between the two, born when Stingaree comes to rob the home where the girl occupies the position

but he balks her by staging an exhilarating escapade during which he even goes so far as to kidnap the Governor General of all Australia and to masquerade in that gentleman's official raiment.

Thereafter the beautiful opera singer never marries, but is followed about the world by a mysterious, romantic looking man.

Costumes of the Seventies in Australia, together with the appearance of historic characters of the period in London, where latter scenes in the story are laid, lend spectacular interest to the production.

Ford Produces Half Million Cars First Six Months of 1934

DEARBORN, Mich. Aug. 1. — Almost unnoted in the tide of production, the 22,000th Ford car rolled from the assembly line at the River Rouge plant of the Ford Motor Company on July 18.

Unlike some of its historic millionth-mark predecessors, the 22,000,000 Ford unit was not put on display or started on a country-wide tour, but went quietly along into the hands of some dealer for sale to the public.

The 10,000,000th and 15,000,000th Ford cars were both Model Ts. They left the assembly line respectively on June 4, 1924 and May 25, 1927. Of this model Ford built more than 15,000,000. The 20,000,000th car, a Model A, left the line April 14, 1931. The 1,000,000th V-8 was turned out on June 20 this year and is now on display in the Drama of Transportation in the Ford Exhibition Building at the Century of Progress Exposition, Chicago.

More than half a million of the 22,000,000 cars and trucks were pro-

Is Demonstrated Purebred Hogs Pay

That it pays to have purebred hogs and then finish them well has been demonstrated again — this time by Rex Hardin of Hockley county. Last fall he purchased seven purebred Hampshire pigs to use for a 4-H club demonstration and fit them for the spring shows. They were placed on feed the first of November weighing 60 pounds and they averaged 214 at the Lubbock show. They were well fitted as shown by the fact that Rex won first in the light class, reserve champion, and fourth on a litter of five.

They were fed threshed grain and a protein supplement composed of cottonseed meal and tankage half-and-half by weight in a self-feeder. Four pounds of grain and the protein supplement were required to produce a pound of pork. Water was kept before the pigs at all times.

To My Friends

I am taking this means of expressing my sincere thanks and appreciation for your support in Saturday's primary.

I wish to congratulate Mr. Gilbert for his success in the campaign, and also to assure you that I have no ill feelings toward anyone who saw fit to support him in the race.

Our campaign was made in a friendly manner and without abuse. We entered the campaign as close friends, which the result of the election has not affected.

We both offered our services to the public on our qualifications and Roy got the job. However, I will ever remember and appreciate the support you have given me. Thanks,

Your friend,

CLINT GRIFFIN

I Want To Thank

the voters of Lamb County who supported me in the primary election and made it possible for me to be your next county treasurer. I sincerely appreciate your votes and influence, and throughout my term of office I will strive to serve you in an efficient and impartial manner.

Mrs. W. P. McDaniel

I WISH TO EXTEND MY SINCEREST THANKS

to the people of Lamb County whose vote and influence put me in the run-off for County Judge for the coming term. I want you to know that I sincerely appreciate your support.

But the race is not over, and I ask you to stand by me in the run-off, August 25. To you who did not support me in the first primary, I ask your consideration. If you feel that I am the man for the office, I will appreciate your vote when we come to the polls again.

SIMON D. HAY

I WISH TO EXTEND MY SINCERE THANKS

TO

the voters of Lamb County whose votes and support put me in the run-off for re-election as County School Superintendent. Your efforts in my behalf are sincerely appreciated.

• But the work is not yet finished. I ask that you continue your support through the August primary and that you be sure to cast your ballot then. •

• If you did not support me in the recent primary, I ask your consideration now if you feel that I am deserving of a second term as your superintendent. I invite you to look at my past record of achievements for the schools of this county. •

SOFT BALL UNDER FLOOD LIGHTS PROVES POPULAR

Soft ball has been receiving a wider following the last few days because of the night playing under the new flood lights. Automobiles filled with spectators completely surrounded the playing field during the games this week.

Though a practice game was played Saturday night, the lights were not really usable until Monday. The 12 lights mounted on poles illuminate the field sufficiently for easy playing, and because of the coolness of the hour, night ball has found a rapid and widespread following.

League games are continuing as per schedule except for the change of hours. With two new teams in the tournament and a re-vamped line up for several other teams, softball promises a real excitement during the last half of pennant playing.

TWO NEW TEAMS MAKE DEBUT IN LEAGUE CIRCLE

Sunnydale Wins Over The Comets 8-6 In Initial Game

Making their debut in the Littlefield soft-ball League as contestants for last half honors the Sunnydale Commanders and Rev. Lueck's Comets displayed their lineups in a fair exhibition of ball with the Sunnydalers showing a slight edge over their opponents.

P. S. Hanks promoter of Sunnydale entry and his players broke the ice in the second frame to count twice. This lead held good until the third when the Church goers registered four in the third inning. The score reversed again in the 4th when Hanks and company marked up three more to forge ahead and for safety they made another rally count for three more to decide the issue as to the winner. In the 6th and seventh the Lutherans counted each time but their rallies were short lived.

Rev. Lueck showed real class on the mound for his team, while John Hanks, son of P. S. Hanks held his own well for the victors. These two teams will give others in the league a contest at anytime. It is right to believe that they will improve as the playing season progresses.

Firemen Nosed Out By School Faculty With Score of 4-3

The firemen made a desperate attempt to stave off defeat in their conflict with the school team last Friday afternoon. With neither side able to score until the sixth inning and the firemen pulling themselves together to score three times which appeared to be a safe lead for the moment. But when the School forces

Oilers Lose To All-Stars Under New Lights 15-14

With the new lighting system shining down upon the playing field and many fans and players out to witness and participate in a night performance of this kind for the first time. The Oilers and All Stars locked horns to initiate night play in the Littlefield soft ball league. With the usual excitement that nesses both players and fans along with an uncertainty on the part of players who never before fielded or batted a ball on a field lighted by artificial light the play was rather below the usual standard as seen in the afternoon games. With this occurring on both clubs made possible the closeness of the scores and not until the last man was retired could the outcome be ascertained.

Baize and Graham were opposing moundsmen for their respective Clubs, with Luke and Davenport doing the receiving for these batteries. The Oilers drew first blood when they counted twice in the last inning. In the second the All Stars rounded the paths for a total of seven tallies. This however lasted only until the 3rd when the Oilers made good their rally for a like number. The remaining innings the score was a sea-saw affair with the All Stars emerging victorious. Aldridge and Jordan did the Umpiring.

came out of the huddle and all the bombardment was over the school had one to go on and another game under their belt.

The game was interesting and well played by all players. It was one of those pitchers battles that folks like to witness and with Cotton Eagan working like a well oiled clock and Scott his opposing chunker doing equally as well excepting the fatal 6th when base-hits decided the issue. It was a real ball game. Vernon Eagan and Evins hit for the circuit for their teams.

ORGANIZE MEN'S CLASS IN SWIMMING

Group Meets For First Session Monday Afternoon at Rainbow Pool

A Men's class in recreational swimming has been recently organized by George Rothell and met for the first session Monday afternoon at the Rainbow Pool at 7:00 P. M. This class will continue to meet at that place and hour each day for at least eight days. At the present time there are only about ten men who have registered. They are George Rothell, Earl Hobbs, T. Wade Potter, James Norman, Dr. Wm. Orr, Dr. Woods, Earl Shelton, Joe Replin, and Oscar Wilman. More men are invited to join in the fun of this class and help Joe Replin and others make a big splash.

The class will always finish in plenty of time for you to get a bite of supper and attend the ball games at night or play.

The instructions in this class is free. The general admission to the pool is the only charge to you.

The Local Chapter of the American Red Cross would be pleased if a great number of men would take advantage of this work.

New Auctioneering Firm Will Open Business Here

H. L. Linam, auctioneer, will open his office in Littlefield after September 1, in the building with Yeager Land company, he has announced. Mr. Linam is associated with Col. W. A. Nash of Plainview, probably the oldest auctioneer on the Plains.

Within about 10 days Mr. Linam will be in Littlefield for a few days and anyone wishing to see him can do so at that time. He says that if anyone wishes to make application for a farm sale, they may leave their applications with Mr. Yeager. There they can get prices and conditions also.

Though Mr. Nash will maintain offices in Plainview, he will be present to assist Mr. Linam in sales in this locality, Mr. Linam stated.

The firm of Linam and Nash is an old established business and comes to Littlefield well recommended. Mr. Linam states that their satisfied customers are their best advertisement.

All Stars Defeat Sunnydale 5-3 In Match Wednesday

The All Stars took a step upward in league standing Wednesday afternoon when they defeated Sunnydale 5-3 in one of the week's best games.

Baseball Shows Little Activity Last Two Weeks

Increasing interest in soft ball seems to have worked havoc among the players of the regular baseball team, together with injuries sustained by several of the members. Since these games in the Anniversary exhibition, the local team has not played a match game. They missed last Sunday and no definite arrangements have been made for a game this coming Sunday, players report.

After getting the season started in a somewhat hectic manner the Littlefield club developed into one of the Plains' finest hitting units and turned out a brand of baseball that is baseball in any man's town. With the lack of activity the last two weeks fans are becoming restless and hope for a continuation of good ball games.

Farmers Must Make Applications For Cotton Tags Soon

Farmers must apply for Bankhead bill tags at once if they expect to receive exemption certificates. D. A. Adam, county agent announces. Final date for sign-up under the Bill has not been set, he says, but will be in the very near future. Farmers who are expecting to get exemption certificates, whether or not they have signed a 1934 cotton contract, will have to make application to their local committee.

About 1000 applications for tags had been received in the county office up to Saturday night, July 28, he said.

COACHES HEAR NOBLE KIZER GRID TACTICS

Crisler And Moynihan Continue With Football Pointers

LUBBOCK — (Special) — a group of Texas Tech athletes illustrate his lecture on the gridiron. Noble Kizer, coach of the Purdue Boilermakers, talks to 300 coaches under the floodlights at Matador field Tuesday night as one of the features of the annual coaching school at Texas Tech.

It was the first night session of the field in four years of coaching school activity here, but it was well received. After illustrating with use of picked men the finer points of blocking for linemen on offense, Kizer ran the boys through a series of what are supposed to be new plays. He had little trouble getting them executed, because they were exactly new to Matador gridders.

It was one of Kizer's climactic appearances. He winds up his part of the school this afternoon, and Crisler, Princeton mentor, will be head master for the balance of the week. Tim Moynihan, former American center at Notre Dame and now line coach at the University of Texas, will continue to give pointers on Rockne style football for the two days.

Crisler and Moynihan were warmly greeted Tuesday, and during the morning session took the field in the afternoon demonstration work.

TO THE VOTERS OF PRECINCT NO. 3

I sincerely appreciate the vote which you gave me in Saturday's election, and am deeply grateful for the many expressions of friendship throughout the primary campaign.

As you probably know, I am in the run-off and I am taking this opportunity to ask for a continuance of your loyal support.

To those of you who did not cast your ballot in my favor, I am soliciting your vote and influence in the second primary, believing that I am qualified to serve you efficiently.

Thank you,

I WANT TO

Thank You

For electing me your District Clerk for the next term. I sincerely appreciate your vote and the support you have given me.

It has been a pleasure to become more thoroughly acquainted with the people of this district, and when I told you I would do my best to fill the office to the best of my ability if you elected me, I meant it. You can count on me for an efficient, economical administration.

I. B. (Doc.) HOLT

I WISH TO EXTEND MY SINCERE THANKS AND APPRECIATION

To my friends and all the voters of Lamb County for the splendid vote I received, electing me Assessor and Collector of Taxes.

Such an expression of thanks and appreciation would not be complete without including Clint Griffin and his supporters as my friends. Mr. Griffin and I went into the contest as friends and there was not anything transpired which marred that friendship.

I have always considered everyone my friend, and as an employe of the county I have always tried to serve each and everyone with that thought uppermost in my mind.

The promotion I have been given to a larger office in service to my county makes me feel that you have confidence in me, and throughout the term I am going to try to merit that confidence. When I promised you that I would do my best to give you an efficient administration, I meant it, and am renewing that promise.

Sincerely,

ROY GILBERT

SLENDER LINES

Comfortable, easy to wear, smart and easy to look at — such is the dress pictured here. And we must add more easy — it is very simple to make. The wide revers falling in soft folds and surplice closing make it good style and comfortable to wear and the straight lines of the skirt make it slenderizing.

A cotton voile or printed silk could be used in developing the patterns with a white organde edging the revers and sleeve trimming. And the construction has been all figured out and given you in the Step by Step Sewing instructions.

CHURCHES

FIRST BAPTIST CHURCH

Joe F. Grizzle, Pastor

The doors of our church will open and a welcome will await you next Sunday as usual.

The Sunday school bell will sound promptly at nine forty five, and the general assembly bell at Ten-forty-five.

Our singers will be in their places to lead you in worship with a program of spiritual songs.

The pastor's morning message will be taken from the eleventh chapter of Isaiah, Subject "And a Little Child Shall Lead Them".

The young people will welcome you into their fine meeting at seven-thirty and the evening service will be held from eight-thirty to nine-thirty. Will you come. If you will we will appreciate you and try to make you feel our appreciation.

METHODIST CHURCH

We are authorized to announce that Rev. J. W. Hendricks and wife will arrive home from their vacation Friday, August 3, and that he will be in his pulpit both morning and evening on Sunday, August 5.

They report they have had an excellent vacation and much of the real pleasure of this vacation is due to the very noble manner the Church took toward such a venture, and the many kind wishes which came from the congregation.

The theme for the morning sermon will be, "The Gospel For The Privileged." In the evening the subject will be, "Taking The Wrong Road."

All the services, as to the general program of the Church, such as Church School, the Leagues, and the Choir, will be at their places in due order.

"Hollywood Party" With Carload Of Stars, Coming To The Palace Theatre

Much-Talked-Of Film, Offering Something Entirely New In Amusement World, Compounded of Laughs, Drama, Song Hits and Lavish Dance Numbers

"Hollywood Party", an hilarious romance staged as a spectacular musical extravaganza with an all-star cast, is the new film attraction coming to the Palace Theatre Saturday, Midnight and Sunday afternoon. This much-talked-of Metro-Goldwyn-Mayer production in which a drama is embellished with music and comedy thrills and spectacle, marks a type of entertainment entirely new to the screen.

Ben Bard, Tom Kennedy and Ted Healy and Stooges are among the players.

And There's A Love Story — Through all this comedy runs a love story between June Clyde and Eddie Quillan, and a burlesque love affair between Jimmy Durante and Polly Moran.

The musical numbers are interwoven as an integral part of the drama itself. They include "Hello," a spectacular number in a glass and cello-

Its plot was written by Howard Dietz, author of such Broadway successes as "Flying Colors", "The Band Wagon" and "Three's a Crowd," and Arthur Kober, well-known Hollywood scenarists. Its musical numbers are the work of Rodgers and Hart, Donaldson and Kahn, and Brown and Freed, the three outstanding song teams of today. Its casts ranges from Laurel & Hardy to Mickey Mouse, the famous cartoon figure, which, through amazing camera effects, actually appears with human actors.

Jimmy Durante Present

phane setting, with Durante, Jack Pearl and a great dancing chorus; "Hollywood Party", sung by Frances Williams; Durante's hilarious "Reincarnation" number — with appropriate tableaux; a screaming funny duet with Durante and Polly Moran; "Hot Chocolate Soldiers," a Walt Disney Silly Symphony with Mickey Mouse; "I've Had My Moments," the love number, sung by June Clyde and Eddie Quillan; and "I'm Feeling High" with Harry Barris, the Shirley Ross Quartette and chorus.

Striking settings, an orchestra suspended in mid-air, and dancing spectacles in which 1,500 of Hollywood's most beautiful girls take part are among the unique features of this "totally different" screen entertainment.

There will be a run-off contest for the selection of a county commissioner for Precinct No. 3. This contest will be between Roy L. Gattis and G. M. Vann.

The precinct voted as follows: Hart's Camp — Gattis, 29; Vann, 23; Cook, 24. Spake — Gattis, 159; Vann, 145; Cook, 26. Fieldton — Gattis, 34; Vann, 7; Cook, 19. Balmer — Gattis, 101; Vann, 49; Cook, 37.

Final Rites Held For Anton Resident

Funeral services were conducted Sunday afternoon at 5 o'clock at the Anton tabernacle for W. J. Mapp who succumbed to a ten day illness in a Lubbock sanitarium early Sunday morning. He was buried in the Anton cemetery.

Mr. Mapp moved to a farm two miles west of Anton in 1928 from Washata county, Okla. He has lived on the Anton farm since that time with the exception of a few months

which he spent in Littlefield in 1929. Other than his wife the deceased is survived by a son, L. J. Mapp of Anton, and several brothers and sisters living in Oklahoma and California.

TO THE VOTERS OF PRECINCT NO. 3

I want each and every one of you to know that I appreciate very deeply the large vote which you extended to me in the primary election.

This vote enabled me to enter the run-off campaign August 2nd and I am taking this opportunity to bespeak a continuance of your splendid support.

In the run-off campaign I would appreciate the votes of those who did not cast their ballots in my favor in the first primary.

It is a pleasure for me to state that my opponents in the primary, Mr. Vann and Mr. Cook, conducted clean contests; they were my friends before and throughout the first primary; they are my friends today, and our friendship will continue with or without the election.

Sincerely,

ROY GATTIS

THANKING YOU

Sincerely for your splendid support in the primary election Saturday of my campaign for County Judge. Your vote makes me feel that you have a large measure of confidence in my ability to fill the office efficiently.

Though the final count has not been made and Mr. Reeves and I are practically tied for second place, I feel that I will be in the run-off.

And I earnestly ask your support in the coming election. If you did not vote for me in the first primary, I invite you to reconsider my qualifications and cast your ballot in my favor August 25, if you feel that I am the man for the office.

I want to renew my pledge to you for an efficient, economical administration if you put me in office.

Houk Grocery Moves Three Doors North To Larger Quarters

J. C. Houk of the Houk Grocery moved his business Monday and Tuesday from his old location next door to the Home Bakery to the building two doors north formerly occupied by the Sweet Adeline cafe and the City Market. The market owned by J. U. Wright, will occupy the remodeled building with the Houk grocery.

The businesses are still separate, Mr. Houk said, but are occupying the same building for convenience to both.

Mr. Houk came to Littlefield 11 years ago and began a grocery business in the building now occupied by Homer Hall. After six years, he moved to the location he has just vacated.

In the larger quarters Mr. Houk will be better equipped to offer a complete service to his customers and invites them all to come in to see him at his new location.

PERSONALS

Mr. and Mrs. E. C. Logan left Thursday morning for Weatherford on a three weeks' visit with relatives.

Mr. and Mrs. F. M. Burleson are planning on taking their daughter, Sunshine, to the Lubbock Sanitarium today for an X-Ray examination of her leg, which was injured in a fall sometime ago, and which is still giving trouble.

Good printing will aid your business. Let the Leader take care of your printing needs.

Thank You

I am deeply grateful for the vote and confidence I received at the hands of the voters of the 64th Judicial District Saturday.

Sincerely,

Chas. H. Dean

Nominee for District Attorney

"John, I'm Really Indebted to You."

"And why, Homer?"

"For sometime you have been telling me about the Hi-Test Bronze gas McCormick Bros. have been selling at a lower than the price of ordinary gasoline, and I've been using it the past two weeks."

"How do you like it Homer?"

"Fine! It can't be beat John. I've noticed a decided change in the old bus and the wife says that there are lots of necessities for the house that she is going to buy with the money we are now saving on gasoline. I wonder why everyone isn't Hi-Test Bronze?"

"They will, Homer, just as soon as they learn about it."

Manley Can Adjust Your Brakes; He Can Cure Your Motor

We all like an automobile that can go places, but its powerfully important that they be able to stop sometimes, and stop sudden. A car without good brakes is a menace on the streets or highway. They are just an invitation to an accident.

Manley can remedy that situation

quickly — and economically. Just drive in and ask to have your brakes adjusted. Or if the bands are worn out, he will put in a new set that can get the job done.

Or if your car needs some adjusting or an overhaul job, drive in and figure with him. He'll give you an expert job and when it comes to paying, you will not feel that you are paying for a new car.

AND REMEMBER — He uses Raybestos Brake Lining for all brake relining jobs. All brakes installed with a brake lining machine.

Your Car Dresses Up When It Visits K. H. Hans' Shop

Smashed fenders and dented bodies do not improve the looks of your automobile. And it is not necessary that you drive such an auto, for K. H. Hans can take the dents out and leave the body smooth looking like a customs job. Mr. Hans is an artisan of long experience and received his preliminary training in a factory body works.

He has the machinery to straighten out any kind of smash up and knows how to use it. Or if your car needs repainting, Mr. Hans can give you a spray job that looks like the original finish. Or perhaps your car needs new upholstery. "Body Re-Builders" describes the establishment of Mr. Hans. He is located at the Day and Night Auto Camp. Go in to see him.

THERE MIGHT BE A RESEMBLANCE

Pictures are funny things. They can tell tales and get away with them that an ordinary person would be ostracized for. They make good looking people out of very ordinary people; they make young out of old; significant out of commonplace.

And the story goes that a young boy off at school had his picture taken and it made him look so much like a sophisticated man of the world that he decided to send one to the folks at home. To prevent its being broken in the mails, he re-enforced it with the lid of a cigar box that uses the picture of an owl for a trademark.

As the family were gazing on the likeness of the young man, a sister with a sense of humor handed the cigar box lid to the nearsighted father.

He looked at it, turned it, and looked again. Then he grunted. "Guess that's him all right, but darn if he don't sort of favor a hoot owl."
