

CHRISTMAS EXCITEMENT—Here is a picture that will become increasingly familiar during the next two weeks. Joining in a pre-Christmas gift-giving are Sandra Haley, Brad Grisham and Doug Jones — all of whom were more interested in what Santa will bring them than what was in the gaily wrapped package by the fireplace.

Farmers To Vote Tuesday

Cotton farmers of "upland and extra - long staple cottons" will go to the polls next Thursday to vote on whether marketing quotas will apply to their 1961 crops. L. D. Aten, ASC official here, pointed out Wednesday. Marketing quotas have been proclaimed for both upland and extra long staple cotton as required by law. Lamb county got a 30,668 - acre share in its 1961 cotton allotment for next year to bring the total allotment to 211,406 acres as compared with 189,738 for the present year. State Chairman B. P. Davenport, Jr., pointed out Wednesday that all upland growers have received their official notes of 1961 farm acreage allotments. These notices were mailed from the county ASC offices. The allotments determine the marketing quotas for the individual farm. In a change from the programs in effect for 1959 and 1960, each farm operator will receive only one allotment for 1961. This will represent the farm's share of the national upland acreage allotment of 18.5 million acres, Davenport added.

C-C To Sponsor Christmas Home Decorations Contest

\$150 Cash Offered Winners

With a total of \$150 being offered as prize money, the Chamber of Commerce has kicked off its annual Home Decoration contest as a part of the holiday activities of Littlefield.

Decorations has been divided into two categories this year — best yard decoration and best house decoration.

First prize in each category will be \$50 with second prize in each field receiving a \$25 cash award.

Entries will be judged on originality of thought rather than expense of the decorations, according to Harold Kids, spokesman for arrangements committee.

Deadline for entering the contest is Monday, Dec. 19 at 5 p.m. with judging of the entrants to take place on the following Thursday, Dec. 22.

The panel of judges will be announced at a later date. Kids said.

Persons wishing to enter the contest should fill out the entry blank that appears in today's paper — and will also appear in subsequent issues — and return it to the Littlefield Press office. Or entry may be made by calling the required information to the Press at 385-4481.

The purpose of the contest is to provide a colorful and interesting decorations for the city during the Christmas season. (Continued On Page Six)

'GOTTA SEE TO GET HOME'—And that called for the trusty ice scraper Tuesday and Wednesday. Area people found their car windshields crusted with ice as the season's first bad storm moved across the county. Here, Velma Smith scrapes out a hole in the ice covering her car's windshield.

Yule Rush To Delay Center Cost Survey

Cold weather and Christmas down condition. However, the rush are expected to delay a cost study to be made of Littlefield's community center by a six-member committee named last week at a meeting of the city council. Gene Pratt, a committee member, said Wednesday.

The committee, composed of members of the much larger Community Center board, agreed to survey the center's needs and to present cost estimates for further study. The center is in a bad state of repair, and the council said the city would not be willing to take over control of the building as long as it is in its present run-down condition.

All-District Team Picked

Selection of the all-district football team was announced Wednesday with five members of the Wildcat squad on the team. The winners are listed on the Leader's sport page.

Drunks Top November Arrests

Drunks continued in November to clutter up the Littlefield police blotter, report of F. A. Fitzgerald, chief, showed Wednesday. Of the 48 persons arrested, 44 were for drunkenness in one form or another, the chief said in his monthly accounting to the city manager.

Thirty-three were arrested for being drunk in public and three for drunk and disturbance offenses. One person was arrested for drunkenness and resisting arrest and seven for being drunk in automobiles.

Two minors were charged with possession of intoxicants, and one person was arrested for disturbance to round out the report.

The police investigated 15 accidents and six cases of breaking and entering.

November also was a peak month for minor fires, 12 being reported last month inside the city limits and four outside the city. (Continued On Page Six)

Winter Blankets Area; Roads Iced

Winter smote West Texas this day morning as surprised motorists found the tissue-thin ice deceptively treacherous.

No serious injuries had been reported, however, although several persons suffered minor bruises in falls on the ice-covered streets and sidewalks. Traffic slowed to a crawl as the freezing drizzle continued Wednesday for the second day.

Possibility of snow continued in this area, but the bulk of the Tuesday snow had been dumped on the North Plains with points in the Panhandle receiving up to two inches and New Mexico points as much as four inches.

The Artic blast moved into the South Plains Tuesday on the wings of strong winds, a good 24 hours ahead of schedule, as part of a giant cold wave that charged into the Midwest from Canada Monday.

Here in Lamb county, the cold weather had practically caused a shutdown of all farming operations, including cotton ginning, but

Truck 'Cracks Up' But Eggs Don't

W. L. Koehler and Dave Holladay of the Plains Egg Producers Inc. got a fast ride and eventually a "crack-up" in their panel egg delivery truck Tuesday afternoon when they encountered an icy stretch of road between Olton and Hart.

Koehler was driving as they started down a hill, the truck hit an icy spot, began to spin, the trailer with 15 cases of eggs was thrown into a gully, then Koehler and Holladay were thrown from the truck.

Koehler was not injured, Holladay is suffering from minor injuries in the Medical Arts Hospital. What about the 15 cases of eggs in the trailer? Not a one broken!

Westerners Blast Cat Cagers 79-39

Littlefield's Wildcats dropped their fourth game of the young season Tuesday night as the Tom S. Lubbock Westerners pulverized the locals 79-39 in the opening game of the season in Littlefield Wildcat gym.

The Lubbock basketballers made a clean sweep of the evening when the two schools' "B" units met in an early contest that saw Lubbock take the win, 70-34.

Boots Barker led the Cat varsity with 11 points while Jerry Koller followed closely with 10.

Lubbock was never in any serious trouble with Littlefield. The Cats scored the first basket of the game, but the Hub City sharpshooters eyed in the net and quickly smothered their hosts with points.

Barker, De Pierce and Dale Purdy looked good in moving the ball for the locals.

In the warmup "B" contest, Van Ashley led his teammates with 12 while Randy Ammons has 10.

Style Show Here Set For Tonight

Nineteen pretty girls, including the South Plains Maid of Cotton, will model dresses dating from 3,000 B. C. to the "New Look" of 1947 in an elaborate style show tonight at Littlefield High School auditorium. The program, open to the public, is free and is being sponsored here by the Littlefield Rotary club, and was arranged by Jack Christian, Rotary's December program chairman.

The pageant, entitled "5,000 Years of Cotton Fashions," parades 15 authentically recreated cotton costumes and will feature models from the high school home-making department. In addition, two girls, Stacie Hart and Diane Phillips, will show dresses which they have made. The South Plains Maid of Cotton, Miss Joan Wenke, Lubbock, and Miss Donna Welch, Levelland, also will model. Miss Welch is first alternate Farm Bureau queen.

Local girls who will model the costumes, created by the National Cotton Council, include Joyce Zybura, Watzell Kennedy, Kay Dolle, Phyllis Arter, Martha Donahoe, Patricia Locker, Billie Vann, May Belle Ayres, Twila Pickrel, Martha McQuarters, Sheila Hein-

Lubbock Action May Be Key To Area Gas Rate Increases

West Texas towns in which Pioneer Natural Gas Co. is seeking a 10 per cent boost in rates may take their cues from today's action by the Lubbock City Council, Charles Duval, local manager, said Wednesday.

The Lubbock council is due to act on the rate increase request, and other towns in this area have delayed action on similar requests until after the Lubbock board has acted, Duval said.

Littlefield is one of 49 towns in West Texas in which a rate increase was asked in October. The council here, however, has not acted on the request, pending further study of profits and losses by the company.

Other towns in this area which have not yet acted on the rate increase include Anton, Earth, Hale Center, Levelland, Muleshoe, Ol-

ton, Shallowater and Sudan.

Towns which have granted the increase include Abernathy, Amherst, Brownfield, Canyon, Crosbyton, Dimmitt, Bovina, Hart, Hereford, Lamesa, Lockney, Odesa, O'Donnell, Petersburg, Happy, Quitaque, Ralls, Ropesville, Seagraves, Seminole, Silvertown, Slaton, Southland, Springlake, Stanton, southern, Springlake, Tula, Vega and Wilson.

Duval said these towns, other than those mentioned, also have not acted on the rate request: Floyada, Idalou, Kress, Meadow, Midland, Plainview, Post, Tahoka, Turkey and Wolforth.

Significance is attached to action by the Lubbock council since it is the largest of the 49 towns in which rate boosts are being sought, Duval said if Lubbock passes the request, it is likely other towns will follow the lead.

Duval said the company has "no intention at this time" of taking the rate request issue to the Texas Railroad Commission, although if denied increases eventually "might bring the matter before the Commission."

Duval said that increased costs, both for labor and for gas supplies, prompted the company, which has its headquarters in Amarillo, to seek the increase.

In its original petition, Pioneer President C. I. Wall said that "continuous increase in our cost of operation... has resulted from increased costs of material, wages, taxes and gas purchased for resale."

The company cited four rate changes through the last 30 years. These included rate reductions in

October, 1930, in October, 1935, and January, 1937, and January, 1940. "The first increase in the company's history was granted Nov. 1, 1951," the company petition says, and another increase, this one in the minimum bill only, was granted in December, 1957.

The petition says that the average field price for natural gas has risen from 9.1 cents in 1953 to 15.3 cents under the present contracts.

The company in its original petition had asked that the new rates go into effect December 15 this year. Twenty-one of the towns in which rate increases were granted passed the requests before Nov. 14, the company manager here says.

Scouts Launch Member Drive; Rally Planned

Scouting is putting on an intensive campaign to enlarge the membership of Littlefield's three troops. J. Alfred Groves, district Scout executive, said Wednesday.

And to boost the drive, a rally is planned for tonight at the First Methodist Church, starting at 7:30 p. m. Anyone interested in scouting is invited to attend.

Frances Smiley, daughter of Mr. and Mrs. C. R. Smiley, was named district Miss FTA at a district meeting of the Future Teachers held Saturday in Olton.

In The Martin Manner By Ramon Martin. Includes a cartoon illustration of a man reading a newspaper.

INTERESTING these days to pick up the big-town papers and see stories and editorials on the general subject "Why is our downtown area dying on the vine?"

LATEST of the big towns to cry into its downtown is Oklahoma City. For several years they have had a downtown association made up of business men who have been trying to lure the shopping center trade back to the Main street old-line houses.

THE AMAZING thing to me is the fact that Oklahoma City and all other big towns which are suffering from the same disease have been unable to see that the lowly parking meter is the cancer-causer.

THE department is declining to place 90 percent of the cause on a simple little machine which was invented by a fellow named McGee in Tulsa, Okla. That little machine is the parking meter the greatest inhibitor of downtown shopping ever invented.

Un-Baked Cookies Can Become Wonderful Holiday Decorations Easily

comes to decking the holidays do you stay with the old-fashioned tradition? Or do you try something new? Here's a holiday that could be the hit of the season. It's a cookie mobile, it's new, it's different, it's fun — but true to the old-fashioned tradition of decorating with cookies.

Decorate as desired by spreading cookies with icing and decorating with colored sugar or cake decorations, or by making designs on each cookie with a decorating tube. Carefully tie cookies with colored string or ribbon and hang on mobile.

Christmas Balls
Slice cookies 1/4 inch thick. Roll each slice into a ball and coat with colored sugar or cake decorations.

Stenciled Cookies
Slice cookies 1/4 inch thick. Place stencil over each slice and spoon colored sugar into opening until design is filled. Press stencil with back of spoon. Remove stencil. Bake. For reverse stencil, place cut - out on each slice and spoon colored sugar around edge. Remove cut - out. Bake.

Christmas Tree
Slice cookies 1/4 inch thick. Arrange six slices in tree shape. Place a half slice at the bottom for trunk. If desired, sprinkle some with colored sugar or cake decorations.

Candy Canes
Slice cookies 1/4 inch thick. Roll each slice to seven inches in length. Shape into a cane.

Angel
Slice cookies 1/4 inch thick. Cut narrow strips from two sides of each cookie slice, leaving a triangular - shaped piece for "body." Place the 2 cut strips at sides for wings. Make a ball from 1/4 of another cookie slice; place at top of triangle for head. Use two silver cake decorations for eyes.

Christmas Stockings
Slice cookies 1/4 inch thick. Roll each slice to three inches in length. Form stockings by pushing one end slightly to one side for "foot."

Icing
Combine one cup sifted powdered sugar to four to five teaspoons milk until smooth. If desired, divide icing and color some with red or green food coloring. Spread cookies with icing or use decorator tube to make designs on each cookie.

Cookie Decorating Hints
For a very smooth icing to frost cookies, use thin icing that spreads easily without leaving ridges.

Icing for a decorating tube should be slightly stiffer than that used for spreading on cookies, but not so stiff that it breaks as it comes out of the tube. The icing recipe given does not hold stiff ridges; use a plain round point to make scroll-type designs.

To make your own paper decorating tube: Fold a 12 - inch square of wax paper in half to form a triangle. Place triangle on table with point opposite long side toward you. Bring left hand corner down to point forming a cone.

Wind remaining part around cone bringing third corner to meet the first two. Fold corners down inside cone. Fill with icing. Then fold together top edges of cone toward bottom, forcing icing through the point. If necessary, cut off tip.

To make red icing, use many times the amount of red food coloring ordinarily used to tint icing pink. For Christmas red, use a drop of yellow food coloring with every 3 to 4 drops red food coloring.

Practice making designs with a decorating tube on wax paper to test your skill. Icing can be removed from paper and reused.

To keep icing soft while using another color icing, cover bowl or decorating tube with a damp cloth.

Allow icing on decorated cookies to harden about three to four hours before storing cookies or trying to hang on mobile.

'Goldilocks' Is Ready

March Of Dimes Helps Lisa Ride Her Horse

A magnificent fairyland of a special kind, in which leg aches are still known but not felt so often as before, has just opened for four-year-old Lisa Sliker, of Leicester, N.Y.

"My doctors," the blue-eyed and auburn-haired Lisa tells every one today, "have made my leg almost all well again. Now I can sit on my horse, Goldilocks, and I can walk to the barn on my crutches and see my kittens and the pigs."

The new lease on life accorded little Lisa is due in great measure to the treatment she continues to receive each month at the Arthritis Clinical Study Center at University of Rochester-Strong Memorial Hospital, established with public contributions to the March of Dimes. Stricken three years ago with baffling rheumatoid arthritis in her right leg, the attractive child wore a cast of many months but now no longer wears it at night.

although she goes to sleep hugging "my old leg" like a doll.

Lisa is one of 30,000 youngsters in the United States who are afflicted by rheumatoid arthritis which interferes with bone growth and may cause deformity.

In addition to the study center visited by Lisa at Rochester, March of Dimes funds have made possible the opening of additional arthritis study centers in New York City, Dallas and San Francisco.

Mrs. Sliker recounts: "My husband and I were scared witless when Lisa's stumbling was diagnosed and provoked by rheumatoid arthritis, which somehow sounded like something that might strike your great-grandfather. But not strike down the beautiful, merry and innocent little baby with whom God had blessed us."

Says Texas Medical Journal Cities Should Have Use Of Medical Examiners

AUSTIN — Murder performed with finesse may be occurring daily in Texas — and because most Texas cities have no medical examiner to challenge an apparently natural death, many of these murders go undetected.

That is the summation of an article, "Coroner's Thrombosis" written by a leading Texas pathologist, Dr. John J. Andujar of Fort Worth, in the November issue of the Texas State Journal of Medicine.

"With the jet age progress of modern forensic pathology," Dr. Andujar declared, "our oxcart cause of death in Texas stands indicted, tried and convicted before the court of public opinion."

Deaths are now investigated routinely by justices of the peace. Although the state legislature requires that the JP call in the county health officer or another licensed physician to determine the necessity of an autopsy, the final determination as to need of a medical investigation remains with the justice of the peace.

"Under Texas Law," Dr. Andujar reports, "the justice of the peace is not required to have any training in anatomy, pathology, or any of the fields of medicine. In fact, he is not required to be a licensed attorney, and more often than not, he is only slightly versed in medicolegal matters. It is simply not fair to such an official to expect him to investigate matters with which he is entirely unfamiliar and to reach any laudable verdict."

"Since no one can argue but that the heart always stops in death, it is reasonably safe to indict every corpse as being the victim of a heart attack. More than one victim of murder has been officially certified as dying from 'coroner's thrombosis.'"

Dr. Andujar noted that Robert Baker of Houston, present senator and former state representative, sponsored a bill in 1955 setting up a model medical examiner system. The bill, however, applied to only four Texas counties, Harris, Bexar, Dallas, and Tarrant. Gvo cities now have such systems, San Antonio and Houston.

"Even the layman who reads novels and children who read comic strips are familiar with the fact that there are tremendous contributions from the fields of immunohematology, ballistics, toxicology, spectroscopy, microscopic pathology and numerous related disciplines," Dr. Andujar noted. "Without these aids the earnest and conscientious justice of the peace is stymied in his efforts to arrive at accurate death verdicts."

"The fact that there is every evidence of violence is all the more reason for careful investigation," Dr. Andujar claimed.

"I remember one of my first experiences in this field, at which time I went out with a modern medical examiner to investigate a badly mangled corpse found on a railroad track after a freight train had passed across it. Portions of the corpse were strewn over several hundred feet of track and it seemed futile to examine this material. It was certainly worthwhile, however, since a small bullet hole in the occipital bone of the partially mangled skull was found on careful autopsy of the fragments."

Dr. Andujar disclaimed one argument which has been used

Woolen Contest Slated At Tech

LUBBOCK — Entries in the "Make - It - Yourself - With - Wool" contest will be narrowed to four talented seamstresses at the second annual district elimination Dec. 10 in the Texas Tech Home Economics building.

Youth and adults from 60 West Texas counties may enter an all-wool dress, suit or coat which they have made from 100 per cent wool.

Only four contestants from one county may compete in the district contest. County elimination contests are currently being conducted. District winners are eligible to compete in the State contest in mid-January in Denton. Garments are judged on quality of construction and on the general appearance on the models.

Judges of construction quality for the contest will be:

Mrs. Novella Crump Hart, home service director of Pioneer Natural Gas Co. Mrs. Hart is a 1954 Tech graduate with a home economics education major;

Mrs. Vivian Limer, home service advisor of Southwestern Public Service Co. A graduate of Mary Hardin Baylor with a home economics major, Mrs. Limer has done graduate work at Colorado University and Texas Woman's University.

Mrs. Betty Brooks Knowles, graduate student in clothing and textiles from Tech. She is a former homemaking teacher and is an honor graduate with a major in home economics education.

The judges for general appearance will be: Bill Childers, fashion coordinator with the Dunlap Co. Childers is a Tech graduate and has studied in Colorado and in Paris;

Mrs. Joan Chesher Johnson, formerly in extension service in Hale County and a home economics education graduate from Tech;

Mrs. Martha Lively Schmidt, a former art teacher and Tech graduate with an applied arts major.

Hard Sauce Is Easy

An important part of holiday puddings, hard sauce, can be simply made. Here's one recipe: Cream together a half pound of butter and two cups of sifted confectioners sugar. Blend in on third of a cup of beer. Chill and serve over steamed pudding.

Style Show--

(Continued From Page One)

The style show will be narrated by R. B. McAlister and background music will be played on the stage. The style show will follow a ladies' night dinner at the school cafeteria at 7 o'clock.

The costumes are being supplied by the National Cotton Council which designed all the clothes after an intensive study of cotton history throughout the New and Old Worlds. One of the highlights will be an authentic copy of clothes worn in 3,000 B. C. Script for the show was written by the National Cotton Council.

ty. So far this year, 15 fires have been reported inside Littlefield and five outside the city for a total of 20 for the year. The city's year, however, began October 1. Losses from fires last month were also considerably higher than the previous month, totaling \$4,825 for November and \$200 outside the city limits.

Cotton accounted for three of the fires last month, the report shows. Other reports included three trash fires, a washing machine fire, a fire in trash in the rear of a pick-up truck, two car fires, a grass fire ablaze in a burr pile, two truck fires, and two houses damaged by fire.

In a message to parents, Groves said, "since Scouting requires the participation and co-operation of parents, it is necessary for you to learn how you will help your son in this program. We are hopeful you will accompany your boy to the Boy Scout new member rally tonight."

Farm Facts

Farmers have gambled with weather since Cain planted the first seed. In some years Nature is kind. At other times it looks like the cards are stacked against the farmer. He has to play his hand against drought, rains, heat, cold, hail, winds, killing frosts or unseasonable freezes. For almost a decade, back in the 1950's, hot, dry winds scoured the Great Plains of the United States, creating the Dust Bowl, impoverishing thousands of farmers and forcing them from the land. Hoping to market their products for premium prices, vegetable growers may gamble and plant a little earlier. Unseasonable weather often exacts a disastrous toll in which the grower not only loses his labor and seed but his fertilizer as well. Such weather, too, has meant disaster for many a citrus grower, killing trees that have taken several years to reach the bearing stage. Prolonged wet weather encourages plant diseases and impairs the quality of fiber

Although the moisture in frozen form made driving hazardous, total precipitation during the Tuesday - Wednesday drizzle amounted to only .04 inch.

Monday night's temperature actually was a bit lower than Tuesday night's bottom reading. Monday's low here was 24 while Tuesday's mercury went only to 25. However, highest mark reached Wednesday up to mid-afternoon was only 31, while Tuesday's best reading was 35.

Hospitals here reported "two or three" brought in for minor bruises as a result of falls, but they were dismissed.

A little old lady entered a department store. Instantly a band began to play, an orchid was pinned on her dress, a \$100 bill put in her hand. She found herself being photographed from all sides and TV cameras beamed down on her. "You're our 1 - millionth customer," the master of ceremonies for the event told her, smiling broadly. "And now can you tell us what you came here for today?"

"Yes," said the little old lady. "I'm on my way to the complaint department." — Lion Mag.

A Moscow father was complimenting another on his three sons.

"You must be mighty proud of them," he said. "One a people's doctor, one a people's lawyer, and one a people's artist."

"Yes, they're fine boys," said the father. "but the son I'm really proud of is in America."

"Oh, he's an American?" "Yes, indeed — He's unemployed and gets money from the government and if it weren't for the few dollars he sends home we'd starve." — American Mercury

Soon after a girl enlisted in the WAVES, she was sent to boot camp. After her arrival there, she was herded in with the rest of the recruits into a long narrow building that had but two entrances.

one at each end, the rear door leading into the dispensary where a doctor and several pharmacists' mates were preparing to give the newcomers their physical examinations. Embarrassed beyond words, the girls stripped to the skin, stood facing the dispensary door, waiting their turns.

Suddenly the door of the dispensary opened. Through it a seasoned pharmacist's mate thrust his head and without showing any sign of indecision, sang out: "Close your eyes, girls I'm coming through!"

Under previous arrangements, the center has been operated by a board made up of civic and club representatives, and operation has been financed through rentals. However, the council was told that the rentals are not providing sufficient funds to keep the building up in good repair.

A possible increase in fees charged for use of the building also was one of the suggestions made at the council meeting last week. The average income at present is \$60 to \$75 per month. Mrs. Bob Pell, Community Center board secretary, told the councilmen. The city pays the utility bills at the building.

Pace, Brantley, Koller, Pierce and Montgomery Picked In Hereford Meeting

Littlefield Places Five On All-District

Five members of the Littlefield Wildcat grid team have been named to the 1960 1-AAA All-District team picked Wednesday in Hereford by the school's coaches. Grabbing berths on the team were De Pierce, Cat quarterback, Weldon Pace, end, Mickey Montgomery, tackle, Jerry Koller, halfback and Jerry Brantley, center.

Twenty-three players were named to fill the team, the extra man coming in at center where there was a tie among Brantley, Joe Allen of Levelland and Kenneth White of Phillips.

District champion Levelland Lobes placed the most men on the "dream team" selection with six followed by Littlefield and Phillips both with five.

Hereford had four players chosen for the honor and Dumais came up with three position.

Pierce, who guided the Cats to a second place tie in the conference along with Phillips and Dumais, was generally conceded as one of the top ball handlers in the league by all who saw him play.

Pace, Brantley and Montgomery were solid weights in the Littlefield line, playing both offense and defense.

Koller's explosive running and never-say-die charges through the Cats' opponents proved to be a key cog in the Littlefield offense, which ended the season with a 5-1 record.

The All-District selections, as announced by the coaches are: ENDS: Mike Milligan of Dumais; Ed Pennington of Phillips; Weldon Pace of Littlefield and Ronnie Simpson of Levelland.

TACKLES: Eugene Baldwin of Hereford; Bill Malone of Phillips; Dan Bennett of Levelland and Mickey Montgomery of Littlefield.

GUARDS: Edwin Thomas of

Hereford; David Baldwin of Dumais; Larry Carlsie of Levelland and Mike Kendrick of Phillips.

CENTER: Joe Allen of Levelland; Kenneth White of Phillips and Jerry Brantley of Littlefield.

QUARTERBACKS: De Pierce of Littlefield; Garry McMillan of Levelland.

FULLBACKS: Jack Gray of Phillips; Eddie Skypala of Hereford.

HALFBACKS: Mack Conslie of Hereford; Jerry Koller of Littlefield; Charles Dean of Dumais and Ronald McCann of Levelland.

Pierce, Koller and Brantley are repeaters from the 1959 All-District squad with Pierce and Brantley making the selection in the same position while Koller was listed as a fullback in 1959.

Honorable mention on this year's team went to tackle Tommy Wicker, tackle Bobby Joe Walton, guard Buddy Price, halfback Max Ball and all the Wildcat players named to the first team are seniors. Ball, Walton, and Wicker are also seniors, but Price is a junior and will have another year of action with the locals. Estrada is a sophomore and is slated to see two more years on the field for Littlefield.

Both Estrada and Price were regulars this year.

Contests Will Highlight Cotton Bowl Week

National Rodeo Finals Scheduled

DALLAS — Sixty-seven cowboys from 21 states and Canada have qualified for the 1960 National Finals Rodeo, to be presented here Dec. 26 - Jan. 1 in State Fair Livestock Coliseum as a feature of Cotton Bowl Week.

The contestants qualified for the National Finals on the basis of their total winnings at 508 rodeos sanctioned by the Rodeo Cowboys Association this year.

The National Finals is the only rodeo limited exclusively to the top money-winning cowboys of the year. Contestants are the top 15 world championship contenders in each of the five standard rodeo events, which are bareback and saddle bronc riding, bull riding, calf roping and steer wrestling. Eight of the cowboys qualified in more than one event.

Harry Tompkins of Dublin is in the lead for the 1960 World Championship All-Around Cowboy title. Going into the Finals, Tompkins has won a total of \$31,218 so far this year. He will compete in the Finals in both bull riding, in which he is in first place, and bareback riding, in which he ranks second.

Top hands in the five events going into the Finals are: saddle bronc riding, Enoch Walker of Cody Wyo., \$18,727; bareback riding, Jack Buschhorn of Cassville, Wis., \$15,521; bull riding, Tompkins, \$16,882; calf roping, Dean Oliver of Boise, Idaho, \$27,244; and Bob A. Robinson of Rockland, Idaho, \$12,118.

In addition to Tompkins, cowboys who have qualified for the Finals in more than one event include Robinson, Jim Shoulders of Henryetta, Okla., Duane Howard of Minnewaukan, N. D., Benny Reynolds of Meirose, Mont., Harry Charters of Meiba, Idaho, Bill Fedderson of El Reno, Okla., and Buddy Peak of Tucson, Ariz.

The National Finals will be presented in 10 go-rounds with a complete section of competition in all five events, and all contestants competing at each go-round. The go-rounds are scheduled at 8 p. m. nightly Dec. 26, 27, 28, 29, 30, 31 and Jan. 1, with matinees at 2 p. m. Dec. 30 and 31 and Jan. 1.

Help To Home Buyer Comes In Tech Class

LUBBOCK — Buying a home or building one involves various problems which will be covered in a new course in residential architecture offered the Spring semester at Texas Tech.

"The course is designed to cover the needs of the average person who buys a home," says Nolan E. Barrick, head of the department of architecture and allied arts and Tech's supervising architect.

"We plan to cover all aspects of home buying and what concerns the individual in analyzing a home for his needs."

All students with at least a junior classification are eligible for the three-hour course offered by the department of architecture and allied arts. The course will be taught at 9 a. m. Monday, Wednesday and Friday.

Different members of the architecture department will lecture in the areas in which they have specialized. Guest lecturers will also speak to classes.

Studies of the eating, sleeping, relaxation and sanitation areas will be one of the functions of the course.

To Remove Wall Stains
Grease stains, like those left by oily hair, often can be removed from a painted wall surface by simply rubbing the spot with a soft rubber eraser.

Social Security Reduces Working Time For Insured

The 1960 amendments to the social security law reduce by about one-third the length of time a person has to work under social security to become insured for the payment of benefits to himself and his family.

Some 400,000 persons are now eligible for cash benefits because of this change in the law, including many wives, widows, dependent husbands and widowers already at or beyond retirement age, and minor children of deceased workers. First payments to newly eligible persons will be for the month of October, 1960.

Under the new rule, persons reaching retirement age (65 for men, 62 for women) this year need only about 3 years of work under social security instead of the four and one-half to five years required by the old law. If you reach retirement age any time next year, you will need to have worked under social security for only three and one-quarter years instead of the five to five and one-quarter years required before the change in the law. There is, however, a minimum requirement of a year and a half of work under social security — without which no benefits can become payable.

There are a number of people in Lamb County, who will now be able to get monthly payments as a result of this change.

The change in law also provides monthly benefits are now payable to all children under age 18 whose fathers are deceased, providing he was insured, regardless of whether or not the minor child is living with and chiefly supported by a stepfather. Under the old law, dependency on the stepfather prevented payment on the natural father's earnings record.

Remember that social security benefits cannot start until you file

Joe Young Buys Bowen's Grocery On Highway

The Bowen Grocery, located on the Lubbock Highway, was recently purchased by Joe Young.

Young and his wife and Mary Mendoza will operate the grocery from 7 until 7 each day, and they invite everyone to come in and get acquainted.

Young has been in the grocery business before; more recently he has been farming.

J. N. Bowen expressed his thanks to the customers who have supported him the past 13 years.

Tech Entertains SU, Vanderbilt

Games with Southeastern Conference basketball opponents are the only engagements on Texas Tech's Coliseum calendar before the Holiday Doubleheaders.

Louisiana State invades the Coliseum Friday night, Dec. 16, and Vanderbilt will be here Dec. 19. Otherwise, the only games on the Raiders' home court remaining this month will be during the Doubleheaders.

Texas A & M and Texas Tech are hosts in the Doubleheaders to Eastern Kentucky State and the U. S. Air Force Academy. A&M meets the Kentuckians, and Texas Tech plays the Air Academy Dec. 29. The next night they switch opponents.

Tickets to the Doubleheaders are separate from the regular season ticket. "Particularly choice" seats, according to business manager Jimmie Wilson, are available for the Doubleheaders. Prices each night will be \$3 and \$2.50 for reserved seats, \$1.50 for general admission.

Three road games will be played by the Raiders in the meantime, with Florida and Loyola Dec. 10 and 12, with Oklahoma Dec. 22.

Letters To Editor

Dear Editor:

The last project of the Jaycees this year will be the annual Turkey Shoot. Proceeds of this program will go for 50 Christmas packages for the needy of this community and this area.

The Jaycee trust that you will again support them in this worthy project by participating in the Turkey Shoot, which will be held the next two Sundays at 2 p. m. at the south end of Phelps Avenue, (southwest corner of Crescent Park.)

Very sincerely,
The Jaycees

Turkey Shoot To Aid Jaycees'

Fifty needy families will get special Christmas packages from the Littlefield Jaycees this Christmas . . . if the public participates in their annual turkey shoot.

The turkey shoot is sponsored by the Jaycees each year as a money raising project for the needy.

The shoot is scheduled for the next two Sundays at the south end on Phelps Avenue (southwest corner of Crescent Park.)

Jaycee President Bill Little reports that the Jaycees lost money on the recent golden gloves tournament due to the poor attendance and therefore no golden gloves money will be available for the needy Christmas packages.

Yesterday's Christmas Centered In The Kitchen's Warmness

THE NUTS were in pairs by a corner of the kitchen and I would be ordered to take a hammer and a "sadiron" and crack bowls of nutmeats, under firm orders not to eat too many.

Spicy Pie
Out another window we could see the cornfield where we had watched the pumpkins grow from tiny green knobs to great orange nooms gay over the field after the corn had been cut and put into shocks.

Full of Food and Faith
As full of food as of faith, we would push away from the table and wait until I ran to the milkhouse and got the thousand island pudding, its white fluff floating on the yellow surface just as the bowl floated on the cold water where cream cans were cooled.

uncle George, from the Snake River in Idaho, was farther from home than the Wright brothers were from theirs, but he always tried to send us a wire which said the same thing, "Home Christmas."

Home Christmas
It is not only comforting, but exciting and, at the same time, perfectly natural, that two men should have done this. What is more a part of our heritage than to get home by Christmas? Having put a machine with a man just enough above the solid earth to suggest that they would soon be in the sky, the brothers at once thought of the annual celebration of that event which had been marked by the flight of a star in the sky.

STATE CAPITAL Highlights AND Sidelights

by Vern Sanford

TEXAS PRESS ASSOCIATION

AUSTIN — By the time Austin sweeps up the last of the holiday season, it will be time to prepare for another round of festivities.

Committees already are meeting to plan details of the inaugural events that will attract thousands of visitors to the Texas capital, come January 17.

Gov. Price Daniel will take the oath of office for his third term; Lt. Gov. Ben Ramsey, for his sixth term. If weather permits an inaugural parade these two officials will ride at the head of it up Congress Avenue, to the Capitol grounds where the swearing-in ceremony will be held.

A reception and a half-dozen balls will fill out the day. For his past two inaugurations, Governor Daniel has held a prayer breakfast beforehand for state officials.

No Special Session — Hagging and suspense over who will be Speaker of the House for the 57th Legislature will continue until January 10.

That is the first day of the regular session when House members, by secret ballot, will elect the speaker from their membership.

Rep. James Cotton of Weatherford asked Governor Daniel to call lawmakers together this month. New members could be sworn in and a speaker elected in a one-day session, he said. This would give the speaker time to organize committees and be ready to go to work in January.

But Governor Daniel said that any legislature meeting this year would be the 56th Legislature, which could not elect a speaker for the 57th Legislature.

Reps. Wade Spillman of McAllen and James Turman of Gober are candidates for speaker. Both, reportedly, are "ahead."

Spillman, in a recent letter to House members, announced addition of two more pledges to him. He said, "A majority of the members have committed their votes to me for Speaker." Jim Turman says the same thing. So, the big question still is: How will the members vote?

Safety Drive Launched — This year's campaign for careful driving during the holidays will be launched on "Safety Sunday," December 11.

Many organizations, including the Texas Press Association, will help in the annual drive to cut the Christmas - through - New Year's accident toll.

"Safety Sunday" said the governor in his proclamation of the special day, is "to awaken the conscience of every driver to the understanding that negligence at the wheel is a transgression of God's own command, Thou shalt not kill."

In past years, the governor noted, the all-out campaigns have resulted in the death toll's falling below the Department of Public Safety predictions.

Last year the DPS predicted 111 deaths. When the holiday season ended only 91 had died, for a total of 20 lives saved.

Program For Aged — Enactment of medical care for the aged and an increase in state pensions are among recommendations of a joint legislative committee to study problems of the aging.

Committee announced it would work for a constitutional amendment to raise by \$10,000,000 a year the ceiling on old age assistance. It also urged that the next Legislature pass laws to put into effect a program to provide state help for the medical expenses of needy oldsters.

Transfer of senile, but not mentally ill, patients from the mental hospitals to nursing home care was recommended.

Sen. Crawford Martin of Hillsboro, is chairman of the committee, and Rep. Howard Green of Fort Worth, is vice -chairman.

Vet Bond Sale Canceled — Veteran Land Board has set aside plans to hold a bond sale this month because of criticism from Land Commissioners -Elet Jerry Sadler.

Board announced its decision "with regret" declaring that the

veterans waiting to be the losers.

No bonds have been sold at a more favorable year after a change in administration.

Dam Site Reopened — A report from the Texas Department of Water Engineers on a proposed reservoir on the river Navasota River.

An engineering firm recommendation after a study of the site, conducted by the Texas Department of Water Engineers, the towns of Brown Station and Navasota industrial firms.

Statistics for the project are as follows: The project would yield in the year of 200,000 gallons of water, cost an estimated \$10,000,000. It would not be completed until 1970 and paid for by the state.

Parr Loses Out — George Parr's fight to lower court ruling to nullify County's Democratic chairman.

Parr won a district for a re - count, but the Tenth Court of Civil Appeals turned the decision. Court refused to step in to help Parr. The court had no jurisdiction to do so.

It was another Duke of Dalva, once the power to decide political race in the state.

Short Shorts — State revenue fund is going to the hole, sinking to \$76,724,738 on the state's last report. Deficit of \$10,000,000 in three months. On the plus side, the board received a check for \$1,119,400,000 from other uses of national forests. Money divided among the 11 counties in which the land is located.

Always a phone at hand in a home that's Telephone-Planned!

Automatically lights at night

Compact beauty... new Starlite phone

Only half the size of a desk phone, smart Starlite brings new beauty and convenience to telephoning. Slender and light, its amazing PANELSCOPE dial automatically all night for easier dialing (and less than 1¢ per year for electricity). You can even dial in the dark! Simply turn a tiny dial, and dial glows bright enough to serve as a night light.

Somewhere in your home is an ideal place for this little extension phone. Just call our business office and order your STARLITE today. Available in many color combinations to match any room. Remember, the phone costs far less than the first.

DECEMBER PARADE

Market Street! Just a handful of shopping days before Christmas! The best-organized parade of the year!

Every marcher has been summoned by advertisements . . . elated by the music and decorations . . . inspired by the joy of giving. Each has a destination, an objective, a mission. And there's a kind of desperate dedication in it all: everyone searching for something someone else needs!

But never confuse the December parade with the real dedication of Christmas.

What every soul needs is not displayed in windows. And Christmas means nothing unless it means:

ALL WE REALLY NEED . . . GOD HAS GIVEN!

In the church of your choice, dedicate your life anew to the Christ Child.

THE CHURCH FOR ALL . . . ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.
