Dumpster Installation Starts

BEFORE DUMPSTER—Here's a shot taken Monday afternoon showing trash boxes on XIT Drive. Wind actually had blown the box in the foreground into the street. Three battered containers were used.

AFTER DUMPSTER—Another shot taken from the same position Tuesday afternoon shows the Dumpster container has replaced three old receptacles and brightened up the scene. (STAFF PHOTOS)

New System To Be In By Friday

The first 13 of 29 Dumpster trash containers had been installed here Wednesday as the city embarked on a new trash removal program.

Installation of the system, which is scheduled to be completed by Friday at noon, put into effect new regulations passed during the summer by the city commission.

Sid Patterson, the Norman, Okla., Dumpster representative, moved into town Monday and started supervising clean-up work throughout the business section.

By Wednesday at noon, nine fireproof Dumpster containers had been placed along XIT Drive and four others had been spotted at the high school, Pioneer Market, Renfro Bros. Grocery and Foust Food.

More Work Today

Patterson's plans called for installations of nine containers on LFD Drive Wednesday and Thursday, along with five others at Piggly Wiggly, Furr Food, Littlefield Hospital, Medical Arts Hospital and Nelson's Hardware.

Using city crews, Patterson directed clean-up activities along XIT Monday and Tuesday. The fire department moved in after Patterson was through and hosed the area down.

Clean-up workers will follow the same schedule along LFD Drive today.

Patterson said he had talked to each merchant where containers had been placed so far, explaining the use of the container to each one.

100 Per Cent Cooperation

"We've had 100 per cent cooperation from everyone," Patterson said. He described the installation as running "smoothly."

The containers on XIT Drive are placed in strategic locations for use by merchants on the west side of Phelps Avenue. The ones on LFD will be used by merchants on the east side of Phelps.

No definite schedule has been set up for the system yet, Patterson said. He said the system would need some operation before it will be known how often each container will need to be hauled away for dumping.

Mayor Ellis Foust told Patterson Tuesday that he had received several calls complimenting the commission on the new system. The installation apparently was being well received throughout the business district, Patterson said.

Purchased in July

City commissioners purchased the Dumpster plan in July at a total cost of \$25,297.92.

The system is operated with one truck and a hoisting unit. The only manual labor required is when the driver attaches hoisting chains to the container.

The truck will take each container separately, make a run to the dump grounds and return to spot the container in its location and pick up another. Each run can be handled in about 20 minutes.

Addition of the new system was planned to relieve two trucks. (Continued on Page 4)

es Held Walker, sh Victim

services were conducted Wednesday afternoon after the body of 41-year-old Littlefield business body was found with companion in the wreckage of their light plane late Monday.

Wife of Walker and Doss, 37, who were Odessa men, were found after a search Sept. 30.

Walker was flying a small red and white Tri-Pacer airplane at Del Norte Gap, 23 miles west of Marathon in end country.

Walker formerly was owner of Battery and Electric in Odessa. He lived in Lamesa until 1950 before coming to Odessa. He moved to Odessa in January.

Millsap, who was co-owner of an Odessa tire company, was killed while on a flight to Odessa, after a search for the plane. They left Presidio at 5 p.m. Sept. 30 and disappeared.

A search in private planes, including one by Alvin Webb of Littlefield Civil Air Patrol craft and two helicopters were used.

Walker was identified by rings on his fingers. They said the wreckage was caught fire and the tanks exploded in the crash.

Walker was buried in the chapel of the First Church at Lamesa, with James Cox, pastor of the First Baptist Church officiating.

Walker was in Lamesa Memorial Hospital when he was killed.

Walker's wife, Miss Dorothy Wynell, was in Odessa; a son, Kenneth Walker, Odessa; a daughter, Mrs. C. E. Littlefield; a sister, Mrs. Snyrl, Canyon, and a brother, Herbert Walker, Odessa.

Milkman Foils Robbery Try; Latin Sought

City officers Wednesday were seeking a Latin American who slashed a milkman while attempting to rob him at knife-point here Sunday morning.

The milkman, Ken Johnson, employed by Bell Milk Co., received a quarter-inch gash an inch long in his back when he was wheeled and struck the Latin with his elbow. The Latin ran.

Johnson received emergency treatment at Littlefield Hospital and continued his route.

Johnson told officers that he was driving his route about 10:30 a.m. when he stopped near the Furr Food parking lot to check a rattle in his milk boxes.

When he got out of the truck Johnson said he felt the point of a knife in his back and a voice demanding his money.

Johnson said he whirled and hit the Latin with his elbow. The knife slashed Johnson as he whirled.

Johnson said he caught a good look at the Latin before he ran. He described the would-be robber as a "big guy with dark bushy hair and a mustache."

ing Slated Johnson Case

A hearing on a motion for a writ of habeas corpus for Alfred "Jaybird" Littlefield Negro, has been set for Friday at 10:30 a.m. in court-at-law.

The case was filed by John R. (Billy) Hall, Johnson was convicted of a violation of the liquor law in a hearing in September.

Johnson's punishment is set for 18 months in jail and a fine.

Saturday Night At Phillips

Cats Meet High-Flying Hawks

By ALEX DUGGAN

"It's just like we have our backs to the wall."

"The Blackhaws are ranked fifth in state of AAA schools. We aren't even in the top 20 teams in the state. Boy, we've really got it on our hands."

That's what Coach Don Williams has to say about the game Saturday night when Littlefield will play the powerful Phillips Blackhaws in the first District 1AAA contest of the year for both teams.

On top of that, it will be homecoming in Blackhawk land.

This week the Wildcats are having shorter workouts. Coach Williams cut down the scrimmage time in the workouts in order to polish the offensive attack and work harder on defense. He also feels that the shorter workouts

C-C Drive Adds 11 Members In First 2 Hours Wednesday

Eleven new memberships in the Chamber of Commerce were added Wednesday morning in the first two hours of the C-C's annual membership campaign, Drive Chairman Jack Christian announced.

Christian and 11 other men planned to work until noon Wednesday on the first part of the drive, then follow up with a similar drive some time next week.

Six two-man teams added the following firms during the morning:

Roberts Lumber Co., P. W. Walker Grain, Plains Egg Producers, Jan's Women's Apparel, Littlefield Delinting, Keithley and Co., Palace Barber Shop, Wright's Welding, Littlefield Implement, Virgie's Beauty Bar and Heathman Butane.

Teams working on the drive were Christian and Tom Hilbun, Sam Williams and Arnold Neumann, Joe Wilson and Howard Horne, James Lee and Byron Douglas, Slick Chandler and Ken Roast and Marshall Howard and Winnie Stout.

Merchants To Plan Yule Program

Retail merchants will plan the Chamber of Commerce program for Christmas at a meeting at 10 a.m. today at the C-C office.

They'll decide whether to have such things as a parade, a "Santa's Mail Box," carol hours and other Christmas events.

They'll also set suggested store hours and plan a retail promotion for the season.

The Christmas season gets under way in Littlefield the day after Thanksgiving. Christmas street lights will go on that night.

Another Chamber of Commerce meeting scheduled Thursday is one for the board of directors, also at the C-C office.

Directors will meet at 3 p.m. to hear a report by a nominating committee and to set up plans for continuing the 1959 membership drive.

The nominating committee will name its candidates for election to the C-C board to replace Bill Kelly, Charles Duval, I. D. Onstead and Kenneth Ware, whose terms are expiring. The election will be held in mid-November.

Olton Woman Injured Tuesday In Auto Mishap

OLTON — A 60-year-old Olton woman was injured Tuesday about 8 a.m. in an automobile accident about 1 1/2 miles west of here on U. S. Highway 70.

The woman, Mrs. L. A. George, was listed in good condition Wednesday morning at Methodist Hospital in Lubbock. She suffered fracture of a small bone of the leg, and fractured ribs, attendants said.

She was given emergency treatment at Community Hospital here and then transferred to Lubbock by Parsons Funeral Home ambulance.

Highway patrolmen who investigated said Mrs. George, member of a well-known farm family, lost control of her car while driving east toward Olton. She was passing a truck and struck a parked car owned by Euel C. Jones of Olton, officers said.

FOR A CHILD'S ROOM—Colorful nursery character decals in vinyl may be used to dress a plain lamp shade. (AP PHOTO)

Tailor Decorations To Child's Tastes

By VIVIAN BROWN
An Newsfeature Writer

Baby's nursery can be a joy to him, if it is decorated with things he loves and understands. Ambitious mothers may go all out with footballs, airplanes and baseball caps strung around nursery walls, hardly the decor for a 6-month-old boy, who is just about getting nep to form and color.

Before you put positive decor into a small child's room, study the things that attract him. It may be small colorful toys, particularly red ones. As he grows, objects will take on more meaning. Then Dad can muster up his woot-you-see ingenuity. He may suspend a mobule of airplanes from the ceiling, carving them out of cardboard or making them from little model kits right to scale to be appreciated at some future day by his offspring. A mobule of stars or colorful flowers will please a little girl.

A happy clown or handsome spotted dog may be made from wood and painted to serve as a clothes tree with hands or paws acting as pegs for clothes.

Wood cutouts of animals or nursery characters may be installed around a shelf to please a younger child. Dad will have fun making these and egging the shelf with them. They serve also to keep toys, books and records from falling out the shelf.

There are many characters made of vinyl that may be used to decorate a nursery wall, baby's crib, play-pen or high chair. Or press up a plain lampshade with these picture book cut-outs that include whimsical cow, rabbit, bear, goose and kitten. They are similar to those that appear on certain boxes.

There are many ways of dressing up a nursery. Little girls will love any cups used as shade pulls, strings of colorful beads as night pulls, appliques of clowns and animals on window shades. If you want floor brighteners, decals may be pasted to them. Paint the floor a gay shade, paste the decals down, then shelter over them to protect the decals for a while. Floor boards painted in colorful stripes will intrigue the tinnest toddler.

Blocks made of large plywood squares in different sizes make interesting nursery accessories. These may be used to sit on, to stand on or as little tables. One may be made with a cover so they may serve the useful purpose of holding the myriad of little push-pull toys that children assemble in heaps all over a room.

Mrs. Schroeder Feted With Bridal Shower

AMHERST—The home of Mrs. Guy Huttedler was the scene of a bridal shower, honoring Mrs. Charles Schroeder, the former Paula Carmickle. Calling hours were between three and five o'clock Saturday afternoon.

Guests registered in the bride's book and were shown the large array of gifts displayed in a bedroom.

Mrs. Claude Emmons presided at the refreshment table and with a lace cloth. Two light blue wedding belts were filed with yellow chrysanthemums for a centerpiece. Light blue satin ribbons were looped at the top of the tilted beads and formed streamers in letters in glitter. "Charles and Paula." Nuts and mints were served with fruit punch and cake squares iced in white and blue.

A set of stainless steel cooking ware was the gift from the hostesses Mms. W. N. Humphreys, Nia Paivado, John Humphreys, Jack Yarborough, A. T. AMHERST—The WSCS met at nine o'clock Tuesday morning at the church in a regular meeting.

Mrs. Roger Britt conducted the study, "Understanding Other Cultures." She was assisted by Mrs. W. P. Holland, Mrs. Earl Burleson and Mrs. David Harmon. Mrs. I. N. Griffing had the devotional from the second chapter of James.

Liquor Law Charges Land 3 In Jail, Including Teenager

Two adults were charged with violation of the liquor law in separate cases in the area over the weekend and a minor was arrested for possession of alcohol.

Liquor Control Board Agent Loyd Dunlap and County Deputy Homer McLaury arrested a Sudan area woman Saturday.

Mrs. John Jones, who lives three miles south of Sudan, was jailed on a charge of possession of whiskey and vodka for purpose of sale.

Officers said they found six half-pints and 11 pints of whiskey and one pint of vodka near the Jones home. They said they saw Mrs. Jones put the half-pints in a sack.

Mrs. Jones entered a plea of not guilty to the charge and was released on \$1,000 bond Saturday night.

In an arrest Saturday night, county deputies Dan Blanchard and V. L. Smith Jr. picked up a Latin American near Earth on a charge of transporting wine.

The man, Margarito Ramirez, was jailed here and his bond was set at \$1,000. He was still in jail Tuesday.

City officers arrested a 17-year-old boy here Saturday night for minor possession of beer.

The boy was turned over to Liquor Agent Dunlap, who took the case before justice court. The youth was fined \$119.50 for having beer in his car.

Under the law, minors are not allowed to have any alcoholic beverage in their possession at any time.

Funeral Services For G. C. Green Held Monday

EARTH—Funeral services were held for Golden C. Green, 53-Avenue Sunday afternoon when a car was struck by another auto which was being backed from the curb, city officers reported.

Officers said a car driven south on Phelps by Glen W. Holmer of Littlefield was struck by a car driven by J. W. Bitner Jr., also of Littlefield, who was backing from the curb. Damages were \$180 to the Holmer car and \$5 to the Bitner auto.

Burial was in Earth Cemetery under direction of Dennis Fucera, Home of Dimmitt.

Two Accidents Involving Parked Cars Investigated

Highway patrolmen investigated two accidents in the area Tuesday involving parked cars.

The first occurred Tuesday about 1 a.m. on highway 84 just west of Anton when a pickup driven by D. L. Eustace of Sudan struck a car parked on the shoulder. The parked car was owned by Glenn B. Marcie of Ropesville, who was fixing a flat.

No one was hurt, but damages amounted to about \$125 to each vehicle.

The second mishap occurred Tuesday about 8:35 a.m. on a dirt road one mile east and three miles north of Olton.

Officers said a car driven by Romana Martinez of Olton struck a parked car owned by Ustacio Garcia of Brackettville. Damages

were \$125 to each car, but no one was injured.

Hit-Run Driver Pays Fine After Accident

County officers arrested a Littlefield Latin American Tuesday on a charge of failures to stop at the scene of an accident in which he was involved Sunday afternoon.

The man was fined \$24.50 in justice court.

Officers said a vehicle driven by E. E. Nichols, also of Littlefield, was struck by a car driven by the Latin American. The mishap occurred on a dirt road about two miles south of Littlefield.

1959 Chrysler Powered by New Engine

THE 1959 CHRYSLER Windsor two-door hardtop is powered by an all new 305 horsepower Golden Lion 383 engine and features advanced styling which includes a new two-tone roof design. The 1959 Chryslers go on display Friday at Garland Motors in Littlefield.

'59 Chrysler To Be Shown Friday At Garland Motors

Chrysler cars for 1959, with a new series of Golden Lion V-8 engines, will be displayed by dealers beginning Friday, C. E. Briggs, Chrysler Corporation Vice President and General Manager of the Chrysler and Imperial Division, said this week.

The 1959 Chrysler goes on display here at Garland Motor Co.

The new models have major styling changes, including new front and rear designs, side trim and roof styling. New optional features include front swivel seats, an electronic rear view mirror, an automatic headlight beam changer, extra large super soft cushion tires carrying 16 pounds air pressure and rear air suspension for automatic leveling.

Briggs said the emphasis in the design and styling of 1959 models was on functional improvements which contribute to agility and handling ease of the car on the road, and on economy, safety and passenger comfort.

He said the new Golden Lion engines, although larger in displacement and with greater rated horsepower, will perform as economically as the engines they replace. He recalled that Chrysler engines took top honors in competitive western economy runs last spring, and in previous years.

Low numerical axle ratios throughout the line, a reduction in engine weight and extensive use of aluminum in both trim and functional parts, he said, contribute to economical operation of the 1959 models.

Horsepower of the new engines ranges from 305 to 380, a modest increase from previous models except for the Chrysler 300E which is unchanged in horsepower. Briggs said Chrysler engineers considered top horsepower rating much less important than the fact that the Golden Lion engine deliver increased torque and horsepower in the low and medium speed ranges, for greater agility in traffic.

All models except the Chrysler 300E feature a new roof which is styled in two sections, separated by a stainless steel band. The ribbon of steel separates the top for striking two-tone color treatments. Hardtop roofs are changed in shape to provide increased passenger room.

Dual headlights, introduced first by Chrysler in the fall of 1956, have been integrated with parking and turn signal lights. A massive new grille and front bumper carry out the Lionhearted Chrysler character.

Distinctively-styled new rear quarter panels terminate in a notched tail light treatment which distinguishes Chrysler from all other automobiles. A new theft-proof deck lid latch locks the trunk whenever the deck lid is

closed. Exhaust outlets are hidden.

New swivel front seats, which swing silently outward a full 40 degrees for easy entry and exit, are standard equipment on Chrysler 300E models and optional on all others except Town & Country wagons. The new swivel seat is available either with manual or six-way electric seat adjuster.

The swivel front seats accommodate three persons. When one or two persons use them, a pull-down center arm rest adds to riding comfort. Swivel seats, which are completely foam cushioned, also hold forward, facilitating rear seat entry in two-door hardtops and convertibles.

For the first time all Chrysler front seats are cushioned with a full two and one-half inches of foam rubber and rear seats are covered with more than two inches of foam. The foam cushioned rear seat is at extra cost on the Windsor.

All air conditioning and heating controls are of the push-button type and are integrated completely in the instrument panel. The buttons actuate vacuum servo motors and electric switches to perform all adjustments previously made by the driver.

The new air conditioning system has 10 per cent greater cooling capacity than previous models. A dual evaporator unit is also available for very hot areas.

Roof-mounted evaporators for Town & Country wagon dual air conditioning installations are available.

Offered as standard equipment at no extra cost on all Chrysler models is an improved version of the torsion bar suspension which has been hailed by industry critics as the finest automotive suspension of the decade. It offers maximum performance with an absolute minimum of dive, squat and roll.

B-Team, Frosh Entertain Levelland Gridders Tonight

Both B-team and frosh return to Littlefield after three straight road games to tangle with teams from Levelland tonight at Wildcat Stadium.

Coach Ringo's B-team made its best showing of the season last week at Clovis, tying the powerful Clovis team, 13-13.

This week, in a scrimmage with Hereford, the B-team showed well according to Ringo. The final score of the unofficial game was 20-20.

The B-team game will begin at 7:30 p.m.

In the first game of the night, the Littlefield freshman team will pit their strength against the Levelland frosh.

Earlier in the season Levelland defeated Coach Bill Harmon's charges by a score of 20-14. Since

then, the team has picked up steam.

Coach Harmon said, "I have very high hopes that we can reverse the first game. The fact that we are playing on the home field may give us the needed extra confidence."

The freshman game will start at 8 p.m.

Kermit Uses Big First Half To Slug Cats, 28-16

Penalties, Costly Mistakes Cost Kermit Second Loss Of Year

ALEX DUGGAN fighting, upset-minded stinging Yellowjackets the unsuspecting Wildcat Littlefield, and before the stabbing specie had the first half to gain a lead.

As the story Saturday Kermit as the Yellowjackets inspired by the home-coming, rolled to a 28-16 Littlefield.

Littlefield Bill Towns scored touchdowns in three quarters. Three disastrophies against Littlefield of his scores.

Don Williams felt the game isn't 100 per cent ready to play. In his words, he mistakes that just made if you expect to win the pre-game home-coming ceremony in which the Yellowjackets crowned their home-coming, Littlefield's James Dickoff.

Littlefield's 170-pounder, started the game off right, and a glimpse of what was to return 25 yards to the 37.

Down, Mike Williams, faded back to throw complete pass of the Kermit gained 137 yards in 25 of these in the first half.

As to Leo "Gladrag" Littlefield skatback, was good field stripe and a first down went to the Cats three

plays later on their 37 after Pace had fumbled on an end sweep.

Unable to gain, the Cats sent Pressley deep to punt on fourth. The Yellowjackets took over on their 19 and, after getting a first down on the 31, Jerry Jackson, Kermit punter, went back to boot as the drive stalled.

At this point Kermit received one of the big breaks of this drive and a big break in the game. Hard-charging Lewis Foley, Littlefield defensive end, bore down on Jackson, and knocked him off his pins.

The roughing-the-kicker penalty gave the ball to Kermit on the 50-yard line.

Eight plays later, Towns rolled across the Cat goal from three yards out to score the first TD. The extra point, also run by Towns, put Kermit ahead, 8-0.

Kermit kicked off and Littlefield took over on its 25. Three plays gained five yards, and Pressley punted again. This one went only 15 yards, to the Littlefield 45.

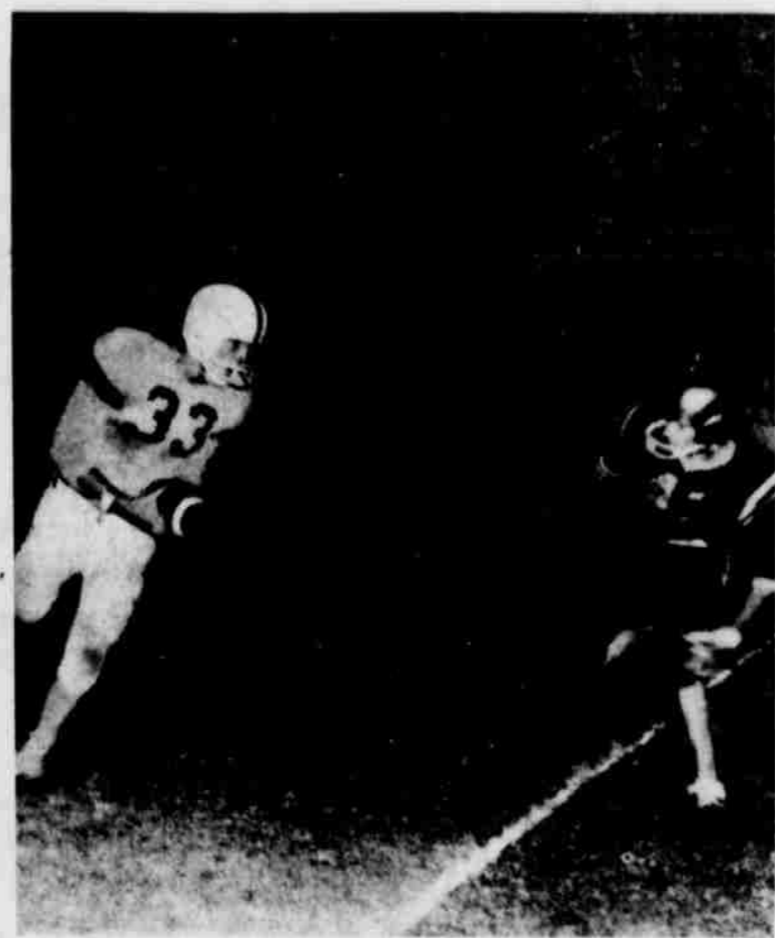

Williams hit pace for 13 yards to the Cat 33. There it ended.

Billy Jeffries, defensive half-back, intercepted a Williams pass and ran it back to the Kermit 47-yard line. It was only the first interception by Jeffries; he stopped three Yellowjacket treats during the night with interceptions.

Fullback Jerry Koller set up the Cats on the 35 with a 12-yard gain up the middle. Again things were slowed for the Cats by a killing penalty. A 15-yarder for holding moved the Cats back to mid-field.

PRESS ROUNDS END—Halfback James Pressley added a first down with this 10-yard end sweep against Kermit. Pressley went down a second later.

HEMP MAKES A FEW—Wildcat End Hilton Hemphill is shown after taking a pass for a short gain Saturday night as the Cats bowed to Kermit, 28-16.

PASS-SNAGGER — Billy Jeffries, Wildcat defensive halfback, was a thorn in Kermit's side. Here, he's shown after making one of three interceptions. (STAFF PHOTOS BY CHAPMAN)

A third down end sweep lost back to the Cats' own 44.

On the following fourth down, a De Pierce pass fell incomplete, and the Yellowjackets took over.

On third from the 41, Williams fired a long pass complete to Pace on the 16-yard line. At the end of that play Littlefield was penalized 15 yards down to the one for piling on Pace.

On the next play, Towns banged over for the second score.

Williams sneaked the extra point and it was 16-0.

Littlefield took over on the 35 following the kick-off. A roughing the receiver penalty against Kermit moved the Wildcats to the 50.

It took the Cats 11 plays to cross the goal from the 50. Carries by Koller, Pierce and Pressley set up first down on the Yellowjacket 19.

From there James Goldston turned the corner and weaved 16 yards to the three-yard line. Pressley scored on the next play. The count jumped to 16-8 when Pressley threw to Gallini for the extra point.

Kermit struck back less than one minute later. Williams returned the kick-off to the Kermit 40.

to forge another first down on the 31.

At this spot the drive stalled and Kermit took over.

This gave Jeffries his cue to intercept his third Williams pass of the night. It set up a Littlefield touchdown.

Taking over on the 25, Littlefield sent Koller through the line to a first on the 14.

Here, yardage started coming the hard way. Four carries, two

Towns carried three times and picked up 25 yards for his efforts. The third decisive penalty against Littlefield came on the next play.

In an attempt to bat down a long pass from Williams to end Moore, Pierce, playing a defensive halfback position, interfered. Kermit then put the ball in play on the six-yard line.

It was Towns again, storming the remaining six for the counter.

The extra point failed. The score stood at 28-16 with only four minutes remaining on the scoreboard clock.

The Littlefield pass attack failed when alert defenders covered Wildcat receivers. When the game ended, Kermit was in possession at mid-field.

Outstanding linemen for the Yellowjackets were Jose Dominguez, Melvin Mosely, Moore, and Billy Westmoreland.

The third quarter saw both teams drive on the ground to threatening positions, but neither team could punch across a score.

Littlefield received the opening kick-off. Goldston returned to the 35.

On first down Pressley cut loose on one of several great runs he made during the half. This drive carried to a first down on the Littlefield 45.

Koller gained eight to put the ball in Kermit territory. Another carry by Koller and one by Ray Minyard moved Littlefield to the 32. This time it was a holding penalty that put the stop on the drive.

On second down Pierce fired to Minyard, who just returned to action this week from an early season rib injury, to regain the 31-yard line, but the Jackets dug in to hold.

Jackson hunted Kermit 41 yards out of trouble four plays later.

Kermit took over again on the Littlefield 43 when Littlefield fumbled.

Jeffries came to the rescue for the second time by flagging down another Williams pass on the Littlefield 20.

Pressley gained nine yards all by himself around right end, and Koller secured the first down on the Littlefield 31.

Minyard drove to the 39; Pressley picked up another first down on the 44.

Minyard carried again and gained mid-field. Another first down, the third in the series, came when Kermit jumped off-side.

Pressley and Koller combined

Return Of Unused Hospital Items Asked By Legion

Persons who have unused hospital beds or wheel chairs belonging to the Littlefield American Legion Post were requested this week to return them.

If the beds or chairs are not being used, they should be returned by contacting Gene Bartley at 318 Phelps or phone 81. There is a daily need for these items, said Bartley.

1959 Ford Trucks Go On Display At Hall Motors

Ford's 1959 line of trucks, designed and built to the highest quality standards, introduces new economy, durability, styling and driver comfort features in a full range of 3-1/2 models, which this year includes a new tilt cab tandem model and a Ford-built four-wheel drive.

The new Ford trucks are now on display at Hall Motor Co. in Littlefield.

Ford's new four-wheel drive models, which will be available soon, in the F-100 and F-250 series, will cruise along the highway in two-wheel drive, or pull through deep mud, snow or sand when shifted into four-wheel drive. Equipped with the optional 292 V-8 engine, the new four-wheel drive trucks in the F-250 series will climb grades of more than 60 per cent.

Another new truck model Ford introduces this year is the tilt cab tandem, Ford sold more tilt cab models in 1958 than any of its competitors. The new model combines the serviceability advantages of the tilt cab with the proven features of the powerful tandem axle and chassis.

New front-end styling of the 1959 Ford trucks includes a new hood on lights and medians, new

"floating type" grille with a horizontal design, new rectangular parking lights mounted in the grille area under the safety twin headlights, and on the light trucks, a new contoured integral bumper with a center recess area that protects the license plate. A new Ford nameplate is superimposed on a broad anodized aluminum strip across the front of the hood of light and medium trucks.

A new tractor package for heavy and extra heavy duty Ford trucks includes ICC-approved air brake and electrical connections, hand-control valve, tractor protection valve and dash control, clearance lights, trailer circuit breaker and relay, emergency stop light switch and turn signals.

Conventional cabs in the heavy and extra heavy duty trucks have been reinforced with stabilizer rods mounted in an "X" fashion, causing cab and sheet metal to move as a unit for greater strength and rigidity.

Custom cabs in the 1959 Ford trucks feature brighter interiors for greater driver appeal, including a two-tone instrument panel that blends with the side panel colors, white lifeguard steering wheel with bright metal horn ring, candy-striped seat up-

holstery color-keyed to the cab's exterior colors, two sun visors, foam rubber seat pad and seat back pad, and an arm rest on the left door. A dome light is standard in all Ford trucks.

A new internal-expanding two shoe parking brake offers 50 per cent more holding power. It is standard on all models from the "500" series up. This large, efficient combination parking and emergency brake is located on the rear of the transmission.

New frame reinforcements on some models add about 40 per cent more strength to the fifth wheel area for tractor service.

A new heavy duty tilt cab combination fresh air heater and defroster delivers more heat throughout the cab, and adjustable doors permit the driver to direct the air distribution and flow.

The front bumper of Ford's light trucks has been raised to increase ground-to-bumper clearance, permitting greater freedom when driving on sharp grades or steep ramps.

Ford's truck engine lineup for 1959 includes the 223 cubic inch short stroke six-cylinder engine, and modern deep-block V-8's of 282, 302, 332, 401, 477 and 534 cu-

bic inch displacement. All Super Duty V-8's have fully-machined wedge-shaped combustion chambers for accurate vol-

ume and compression and Turbulance-Top pistons—together offering maximum power and economy.

Homecoming Slated Friday For Springlake Ex-Students

SPRINGLAKE — Homecoming for ex-students of Springlake Schools has been scheduled for Friday, when the Springlake Wolverines meet the Kress Kangaroos in a game at Wolverine Stadium.

Final plans for the occasion were made at a recent meeting of ex-student officers.

Mrs. J. L. Hinson will act as mistress of ceremonies at the program, which will begin at 5 p.m. in the school auditorium.

During this time, the classes of 1928, 1938 and 1948 will be honored, along with the introduction of

guests and the recognition of the oldest graduate and the ex-student who travels the greatest distance.

A short skit also will be presented. Music will be furnished by the school band and a local quartet.

An evening meal of baked ham and all the trimmings will be served at the school cafeteria from 6 to 7:30 p.m.

Highlighting the homecoming activities will be the crowning of a queen picked from the ex-students. Candidates include Mrs. Ed Dawson (Norma Cleavinger)

Mrs. Pat McCord (Gladys Barton), and Mrs. Robert Riley (Charlene Hamilton).

Names of the nominees will be placed on a ballot and the queen will be elected by the entire association. Also on the ballot will appear the names of those who have been nominated to serve for the next two years as chairman of publicity, finance, hospitality and program.

Ex-students will receive a ballot at the pre-game meal. The queen will be crowned by the president of the Ex-Students Association, Kenneth Parish, during the half-time ceremony.

After the football game, ex-students are invited to return to the cafeteria for coffee and donuts.

Mrs. Benny Shipley Hostess To WMU

AMHERST — The Annie Armstrong Circle of the Baptist WMU met at 9:30, Wednesday morning in the home of Mrs. Benny Shipley for Mission Study.

"We've A Story To Tell to the Nations" was sung and Mrs. J. P. Brantley offered prayer, to open the meeting. The chairman, Mrs. Victor Reynolds presided in the business session.

The associational YWA will meet here at seven o'clock Wednesday Oct. 22. Plans were made for the meeting. A tea will follow in the dining hall of the church, following the installation ceremony in the church auditorium.

Mrs. M. Branley conducted the study on "Baptist Missions in Southeast Asia" and showed film strips, "Into A New World" by J. Winston Crawley, will be a study directed by Rev. John Rangin beginning Nov. 16 and will be in five parts.

Mrs. Shipley served homemade doughnuts, mints and pineapple tidbits and coffee to Mrs. J. D. Bench, Paul D. Bennett, Bill Bradley, Maurice Brantley, J. P. Brantley, Laverne Bryant, R. C. Davis, Victor Reynolds, Keith Tomes, J. L. Harris, and a new member, Mrs. Kenneth Noles.

Judge Pat Moore Speaks To Club

ANTON — Mrs. Glen Jones was hostess to the 1950 Study Club Wednesday, Oct. 15 with Judge Pat Moore, County Court at Law No. two, as guest speaker.

The judge spoke on the "American Political Scene," and as she talked she emphasized the importance of each single vote, and she stressed the fact that every lady there should never pass an opportunity to vote.

At the close of the program, refreshments of coffee and pecan pie were served to seventeen members and the guest speaker.

The house was decorated in Halloween colors and arrangements.

TEC Now Taking Applications On Unemployment Of Ex-GI's

The Littlefield office of the Texas Employment Commission began receiving applications for unemployment compensation benefits under the ex-servicemen's new Federal program Wednesday.

Edward D. Vaughn, manager announced this week.

The program is a Federal permanent unemployment insurance provision for the armed forces as enacted in Public Law 848 by the last Congress, Vaughn said. The Texas Employment Commission will administer the program under an agreement with the United States Department of Labor. The Federal government will reimburse the TEC for all benefit payments as well as administrative costs, he said. "This new program will not affect the tax rate of Texas employers or the cash balance in the Texas Unemployment Compensation Trust Fund."

Some 7,250 Texas veterans will be eligible, Vaughn said. Provisions generally require a serviceman to have had 90 or more continuous days of active service after January 31, 1955, and to have been discharged or released under conditions other than dishonorable. Benefits are payable for week of unemployment ending after October 27, 1958. However, servicemen will not receive benefits until after periods covered by lump-sum terminal leaves an mustering-out payments have expired, he said.

The new law allows a peace-

time serviceman who registered for employment to collect jobless benefits while trying to get a civilian job. Earlier laws covered only World War II and Korean conflict veterans. Amount of payments will be governed by rank at time of separation from service, Vaughn added.

What it takes for Good Heating

INSULATION

No matter how your home is heated, good insulation will save you money — give greater heating comfort — provide more efficient summertime cooling. Ceilings should have 6 inches of non-settling insulation. Walls should have 3½ inches—floors, 2 inches. A concrete floor should have 2 inches of insulation between it and the foundation. Windows are great to see through but they're guilty of tremendous heat loss and so they should be small or double-glazed — always weather-stripped. Ducts in a forced-air heating system should have a 2 inch coat of insulation.

DESIGN OF HEATING SYSTEM

A properly designed heating system is a must to have enough plus the efficiency necessary for low-cost operation. The system must be sized to meet the demand of the building and its occupants. A small system won't do the job and a too-large system is wasteful of both the cost of the unit and its operating cost. In a forced-air system the ducts and the blower is important for proper distribution. The placement and size of the louvers must be considered in getting enough to all areas of the room.

HOME DESIGN

For greater comfort and economy much can be done with the home itself. Cold, windy or hot exposures must be reckoned with. However, since cooling a building is usually more expensive than heating, air conditioning engineers recommend that home design offset hot, sunny exposures. One way of making the home cooler is to have extending roof overhangs to shade the exterior walls and windows. Other ways include designing the garage on the southwest corner of the house. Porches can be used to advantage, as well as adding beauty to the home. Shade trees on the sunny sides of the house are helpful.

QUALITY OF HEATING SYSTEM

You wouldn't build today and use wood stoves for heating because you're best looking for comfort and economy. That's why, all over America, modern-thinking — architects, builders, home buyers are looking with the comfort and convenience offered by home heating. There are 4 basic types of heating from which to choose: 1. Wall passage, 2. Baseboard, 3. Baseboard, and 4. Heat pump. The first three use no ducts and can be individually temperature-controlled in each room. The heat pump is an amazing new appliance that cools as well as heats. It is a forced-air system.

There's a new low electric heating rate now available. Your Public Service manager has the details — talk to him about it.

"The Inside Story of ELECTRIC CLIMATE CONTROL" — a new booklet that tells the facts about electric heating. If you're building or remodeling you'll want this booklet. Your Public Service manager has a copy for you.

Seven Area Football Teams Hit Road For District Games

ALEX DUGGAN

Two teams hit the road to play district games, and others take a week's rest.

The Amherst Bulldogs will rest up for next week.

The Mustangs, who lost a one-pointer to Mule week in a District 2AA game, will try to even the slate out of district next week.

The Mustangs will be a 6-point favorite to stay in the race.

The Indians, and Springlake, two representatives of District 2B will play important games Friday.

The game has been up and down but they always pose a threat with high scoring.

Billy Thetford and

Donny Polk. These two ranked first and second in the scoring column for South Plains Class B school two weeks ago. The Panthers have had a week of rest, and they will be favored to down Whiteface although Whiteface did defeat Anton early in the season.

The two six-man teams, Bula and Spade, will hit the road also this Friday.

Spade, out of the race as far as winning is concerned, will now make the stand of underdog in all games. But with Tommy Bush at quarterback the Longhorns are likely to topple anyone of the competing teams from the championship race. Friday they will meet Cotton Center there. Although The Elks will be favored, Spade always poses the threat of an upset.

Bula, still barely in the race for district honors, will start its second half of district encounter against Three Way. Bula downed this team early in the season, and it will be favored to turn the trick again.

Just to make sure that not one game will be played in the area this weekend, the Littlefield Wildcats will march to Phillips for battle. This game will be Saturday.

System, Paving Help; Let's Clean The Streets

of the installation of the Dempster Dumpster trash system here early this week brought more signs of a clean up Littlefield. City Commission, the Chamber of Commerce and as a whole can justly take pride in this move to make a cleaner, more attractive town. Commissioners should be commended also, along with the paving program came badly needed repairs to the streets. These things will help in improving the "looks" of the city.

much remains to be done. One spot" with many citizens is the need for regular maintenance.

streets in residential areas are caked with dirt. In many cases these dirt spots are turning into "lawns." Around town some and you will see weeds actually growing in the streets.

It seems to us that the logical "next step" in the move to clean up Littlefield is some street-sweeping in the residential areas.

Roots Opinion

TOW, FLA., FOLK COUNTY DEMOCRAT: "There is wide interest in scientific studies . . . and with the aid of modern equipment it has been amply demonstrated that not only is it possible to become a genius in science . . . and that not everyone may be considered a budding Cardewski, a skilled surgeon, a good dragline operator, a competent racing driver, or even a capable writer, or teacher . . . all of which leads us to the conclusion that the most interesting study in or out of books is a human nature."

INGHAM, WASH., NABOR NEWS: "A tremendous to the vigor, honesty and democratic tradition of the American trade unionists was presented to the nation at the first constitutional convention of the American Bakery and Confectionery Workers Union, ABC convention has proved resoundingly that giving democratic atmosphere workers will trample down racketeering and eliminate the traces of it in the trade union movement."

LES, ARIZ., HERALD: ". . . Many Americans have the impression that defense is the cause of big government. But more than half of the record Federal budget goes for defense items at all . . ."

SANTON, CALIF., TIMES: ". . . We don't wish to be unpatriotic . . . surely the defense of our West Coast is not only our duty but our right. However, we can't help wondering why the Navy spends billions of dollars at Pleasanton, tears it down only to rebuild it a few miles south of here; while the Air Force spends billions here, then a year later spends it all over again at Santa Maria, Fairfield, etc., etc. . . ."

or the life of us, every time we write a pay check we are giving 20 per cent for Uncle Sam, or pick up a bottle of soft drink (we've stepped up our consumption of soft drinks) and realize that 50 per cent or more of it goes to Uncle Sam, then we just can't help wondering . . ."

MAY COURT HOUSE, N. J., COUNTY GAZETTE: "It is our duty to report happenings of a public nature. We will do so in spite of criticism or pressure. However, it is our duty and our right to report and interpret the news of the people of the community, so is it the right and the duty of the people to make their beliefs known . . . As we have the right to present and interpret the news, we have the right to present and interpret the news. We are the medium of this paper the right to agree or disagree with the editor. The medium of a signed letter to the editor . . . The letter to the editor is your opportunity for expression."

ENNE WELLS, COLO., RECORD: "By this time the fire will have struck seven hundred ninety-one homes. Check your home for fire hazards."

LUCKY THIRTEEN—Thirteen proved a lucky number for Bill Holcomb, right, of Seminole. That was the number he was given when he entered the ring to show Ranchy, his 1,000-pound Angus steer, at the State Fair of Texas. Ranchy was named grand champion of the milk-fed junior steer show at the Fair and was presented the award by James H. Stewart, left, executive vice president and general manager of the fair. STATE CAPITAL

Highlights

AND

Sidelights

by Vern Sanford

TEXAS PRESS ASSOCIATION

AUSTIN, Tex.—Austin is up to its ears in opinions and pronouncements as the prelegislative debate of state issues blows through the city.

Taxes and schools are leading topics. Committees, study groups and associations, both public and private, come to town, hold a meeting, hear speakers and, usually, pass some recommendations. They are part of the sifting, sifting out and solidifying of thinking that precedes a legislative session.

ON SECOND THOUGHT, YES—Hale-Aikin Committee reconsidered and reversed its previous stand that Texas schools should not take federal aid for lunch rooms and vocational education.

New statement, passed 11 to 8, was offered by Ed Ray, San Antonio Express-News editor. It affirmed the committee's belief in state control of education but said it did not feel this would be lost by accepting federal aid for lunches, vocational education and for large numbers of children brought into a district by federal activities. It also endorsed the desirability of the federally-financed activities covered by the National Defense Education Act.

Hale-Aikin Committee of 24 lawmakers, educators and other citizens was set up by the Legislature to advise it on public school needs and problems. Some six weeks ago it stirred up a hornet's nest by recommending that Texas quit accepting several million dollars a year in federal school aid. Arguments, pro and con, flared over the state, and many legislators were rendered uncomfortable by the necessity to take a stand. In many cases, the lawmakers disapproved federal centralization in principal but were hesitant to get in a position where they might be accused of taking milk from the school kids.

Hale-Aikin Committee also gave final approval to a recommended program of public school improvements. It would raise school costs by about \$112,000,000 a year—mostly for teacher salary raises, sick leave, building upkeep and transportation.

CALLS FOR BIG TAX—A meeting of the Texas Association of School Boards was the sounding board for more ideas on school financing.

Only a state income tax or general sales tax can produce enough revenue to cover school program improvements, a spokesman for the Texas State Teachers Association told the meeting.

TSTA-man L. P. Sturgeon said other taxes proposed thus far would hardly get the state treasury out of the hole, let alone cover new needs. School Board members also heard Dr. B. F. Pittenger, one-time dean of the University of Texas College of Education, say he had felt for 30 years that public schools need "a considerable amount of federal aid."

Also urged by Dr. Pittenger:

more discipline in schools, more attention to students "most highly endowed with brains."

NO FAT, THEY SAY — Gov. Price Daniel's request that state department heads try to pare down their budget requests for the next two years brought no dramatic tax-saving slashes.

General reaction of the department heads was that they were already being economical as they could be and still maintain the services expected of them.

Altogether the requests totaled \$225,000,000 more than is being spent during the present two-year period. But some are, indeed, "not cuttable" under present law. Biggest increase—\$90,000,000—is for public schools whose costs go up automatically with the number of students. Similar unavoidable increases occur in welfare, highway and retirement costs.

In other areas, department heads declare there is "no fat" in their budgets.

FORMULA FOR COLLEGES — Commission on Higher Education has adopted two major policies on division of studies and funds among the state's 18 colleges and universities.

One is a plan for study program which concentrates graduate study, especially for Ph.D.s, at Texas A&M and the University of Texas. Other is a formula for asking for appropriations based on the number of semester hours taught.

Officials of UT, A&M and Texas Tech did not oppose the money formula, but indicated they would need additional funds to maintain desired standards of quality.

IT'S A LONG STORY — More insurance legislation and, possibly more grand jury action may result from the reports of the Senate Investigating Committee.

Sen. Charles Herring, chairman, released the first of five reports on the committee's findings. It dealt with the means by which ICT Insurance Co. rose and fell. Herring said testimony suggested that some people not indicted should be called before the grand juries. There was, he said, conflicting testimony, under oath, indicating perjury.

Recommendations for new legislation are to be included in the last report, due in December. Testimony on which the reports are based totaled 4,000,000 words, enough to fill 40 long books. This may not be all since the committee is to meet again in November.

Panel members, in addition to Herring, are Sens. Grady Hazelwood of Amarillo, Jarrad Secret of Temple, Culp Krueger of El Campo and Frank Owen III of El Paso.

OUT OF THE WOODS — Texas Employment Commission officials took a look at steadily improving employment figures, then at the still-substantial unemployment compensation fund and breathed a sigh of relief.

This recession, at least, hadn't broken the bank. A year of high unemployment

DOWN MEMORY LANE

(Taken from the files of Lamb County Leader, Oct. 30, 1941)

As announced by Aubrey W. Bingham, Secretary of the Lamb County A.C.A., approximately \$35,000.00 has been received in party checks during the past week.

Lamb County has been selected by the Prairie States Forestry project to receive Shelterbelt planting for 1941.

The game scheduled between the Lubbock Cowhands and the locals was called off, after that spectacular game last Friday night, when the Wildcats upset predictions and hopes for the Oilton Mustangs, by defeating them 38-0.

Mrs. J. E. Coen honored her little daughter, Mary Jane, Friday at her home of east seventh street with a party celebrating her eighth birthday.

had taken \$61,000.00 from the fund, but it still had \$272,523.000. It was only \$30,700,000 lower than at the beginning of the recession year.

It was in October, 1957, that the upsurge in joblessness began. In the first week of that month benefits paid out totaled \$484,617. From then figures moved swiftly upward until the mid-April peak when \$1,875,000 was paid out in one week, nearly four times as much as the pre-recession figure. Steady improvement began in the summer months. By this October the cycle is not back to its starting point: latest report shows \$1,099,201 paid out in one week. But with new claims falling sharply and economists generally agreed that the recession was fizzling, it seemed as if the dark period was over.

Maybe We'd Better Just Keep People Off The Moon

Editor's note: The Sandhills Philosopher on his Johnson grass farm claims to be worried this week, but we doubt it.

Dear editor:

In all this excitement over trying to get a rocket to the moon, most people seem to be concentrating on the sheer fact of getting one there, while some of us deeper thinkers have been concentrating on other aspects of the matter. There's no point in rushing into space or a farming year without first doing some heavy thinking.

I read the other day where a scientist is deeply concerned about man's contaminating the moon with radiation and possibly disease germs, and he wants the explorers to go easy on this. Maybe he's right, but don't land.

I don't know anything about germs, except they're the biggest friend a doctor has in explaining some forms of virus sickness he can't explain otherwise, but germs aren't the only thing we ought to be worrying about when it comes to contaminating the moon or any of the other planets.

Take Johnson grass. The last

thing man wants to do, if he's planning on colonizing the moon, is get Johnson grass started up there, not to mention all sorts of weeds, mosquitoes, ants, chiggers, wasps, motor scooters, etc.

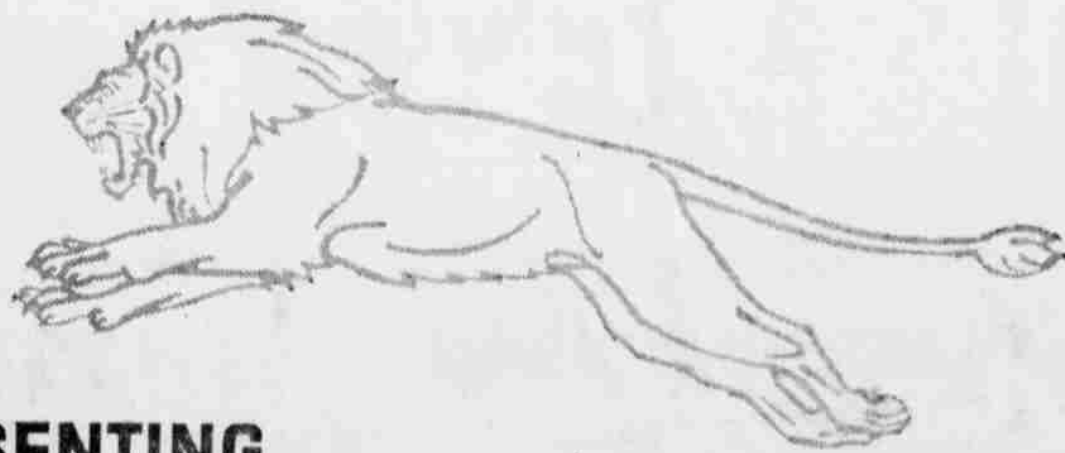

Also, some scientists are worried about the effect the impact of a rocket may have on the moon if one hits it, and one is able to if they keep shooting in that direction. It's sort of like a roman who talks all the time. Sooner or later she's bound to say something accurate.

But it's not the shock of a rocket hitting the moon that concerns me. As I see it, if we reach it, sooner or later we'll land some people there, and then later on somebody will want to bring in a car, and if we get as many as two up there, they're bound sooner or later to hit head-on. If the moon can't stand sudden impacts, it's doomed.

In fact, come to think of it, if we want to avoid contaminating the moon completely, we'd better not land any people there at all.

Yours faithfully,
J. A.

Texas DPS Lists Rules On Motor Scooters, Drivers

The Texas Department of Public Safety has received numerous requests from individuals who want to know the exact law governing the operation and licensing of motor scooters and drivers.

They ask such questions as: Do I have to be licensed? Does my scooter have to be inspected? If I have to be licensed, how do I go about it?

With the idea that there may be many others who are concerned about these same questions, the following information has been compiled for the use of Texas motorists:

Senate Bill 53 and House Bill 46, both amending Section 4 of Article 6687b, Revised Civil Statutes, empowers the Texas Department of Public Safety (instead of the county judges, as it used to be) to determine the necessity for issuance of operator's license to minors between ages 14 and 18. Such minors may apply for an operator's license by obtaining proper parental signatures and presenting a driver education certificate or "Minor Emergency Application for Operator's License."

The Department shall not issue any license to any person who is under the age of 16 years, except to such person if 14 years of age or older where, in the opinion of the Department there appears an emergency sufficient to justify the issuance of such license, or if it appears that the failure or refusal to issue such license to any such person will work an unusual economic hardship on the family or the applicant for the license, or it appears that a license should be granted to the applicant because of sickness or ill health of members of the family of the applicant, or the failure to issue such license would be detrimental to the general welfare of the applicant or his or

her family, or it appears that the applicant has completed and passed the State Department of Education approved standard driver training course. The applicant for such license shall include a certificate by the superintendent of the school that said driver training course is part of the regular curriculum, and that the applicant has passed this course.

House Bill 46 provides for the issuance of a special combination operator and commercial operator restricted license to applicants between the ages of 14 and 16 years for the purpose of operating motor cycles, motor scooters, motorized bicycles, etc., whose horsepower does not exceed five brake horsepower—on the basis of parental signature only. These "scooter" applicants are exempt from obtaining either the "Minors Emergency Application" or a driver training certificate. They must, however, obtain proper parent's authorization and comply with all other requirements in the law.

To comply with this bill, the Department will simply issue a Commercial Operator's license restricted to "motorcycle only, not to exceed 5 brake horsepower." The regular commercial fee of \$3 will be collected and the license will be good only to operate a motor scooter not to exceed 5 brake horsepower. Only an operator's examination will be given for issuance—the commercial rules questions will not be required.

It shall be the duty of Texas DPS to require every owner of every motor vehicle registered in this state, to have the brakes, lighting equipment, horns and warning devices inspected at State appointed inspection stations or by state inspectors. After the period designated for the inspection, no person shall operate on the highways of this state any motor vehicle registered in the state unless a valid certificate or inspection is displayed thereon or in the possession of the scooter operator.

The Department shall not honor the application of any minor under the age of 18 years for an operator's, commercial operator's, or chauffeur's license unless such application is signed by the father of the applicant, if the father is living and has the custody of the applicant, otherwise by the mother or guardian having the custody of such minor.

The DPS shall give a complete visual, written and driving examination to every applicant for operator's license, whether minor or adult.

If any minor shall drive any motor vehicle upon any public road or highway in this state or upon any street or alley within the limits of any corporate city, town or village, or upon any beach, without having displayed a valid certificate of inspection of such vehicle, such minor shall be fined as set forth in the laws. WMU Meets With Mrs. Rankin

AMHERST—The Business Women's Circle of the Baptist WMU met Monday night with Mrs. John Rankin.

Mrs. Charles Mixon gave the devotional. The officers are Mmes. Randal Crawford, chairman; James Holland, vice-chairman; Charles Mixon, secretary-treasurer; J. N. Thomas, mission study chairman; Manery Brantley, Bible study chairman; Bill Taylor, community missions chairman; Hubert Sawyer, stewardship chairman; prayer chairman, Allan White, and Norman Snyder, social chairman.

Refreshments were served to the eight attending.

Mrs. White will be hostesses for the next meeting, Oct. 27.

er of such vehicle (without valid certificate of inspection) is also guilty of a misdemeanor and shall be fined as set forth in the laws. Since a minor cannot legally own a motorscooter, of course the parents is usually the owner.

FARM INUNDATED—One of several farms south of Rio Grande City on the United States side of the Rio Grande that were flooded out by the surging water of the river. The river has been out of its banks due to heavy rains up-stream on both the Mexican and U. S. side. Hundreds of acres of fertile farm land has been left with standing water. (AP Wirephoto)

About Your HEALTH

3 weekly public service lectures from the Texas State Department of Health. HENRY A. HOLLE, R. D. Commissioner of Health.

Air is the most important one commodity for the existence of man. He can go for weeks without food, a very few days without water, hours without protection from the elements, but only a few minutes without his most precious commodity—air.

The importance of clean air is indicated by the fact that Governor Daniel has set aside this week, October 19-25, as "Clean Air Week."

This is an excellent period for all of us to evaluate the air cleanliness of our communities and if it is not all that it should be to in turn evaluate the efforts the community is making to control the air cleanliness for us.

Are you as an individual citizen satisfied with your community's air standard?

A number of communities throughout Texas are happily enjoying the benefits of good clean air without effort to control it. Unfortunately, many other communities are not so blessed and are therefore concerned with the cleanliness of the air over their communities.

It isn't only the big industrial cities that have difficulties. Any Texas town that has any kind of industry, including cotton gins, may have a problem without realizing it. Should there be such a problem, it certainly would be well to take inventory of the efforts your community is making in your behalf regarding cleaner air.

Already there is much study and effort being done in Texas to evaluate and remedy some of the air pollution problems.

The State Department of Health has completed its part in a national air pollution appraisal. The report of the complete findings is being readied.

Cooperating in the national air sampling network are eight stations in Texas at Dallas, Houston, Port Lavaca, Austin, Waco, San Antonio, Fort Worth and El Paso. Dallas and Houston operate on a permanent basis while the rest serve only one year in three, however, some operate every other year.

These air samples are analyzed for dust and other solid materials, and beta ray radiation activity. In addition the State and local departments of health cooperate with the Atomic Energy Commission in sampling atom bomb fallout, with the aid of the U.S. Public Health Service.
