Winners Of Stock **Show Return From Educational Trip**

Thirty-one FFA and 4-H Chul boys, accompanied by eight adult leaders returned home Wednesday night, tired but very, very happy, after spending four delightful days

on a trip to San Antonio. The boys were winners in the recent FFA and 4-H Fat Stock show held here last month, sponsored by the Chamber of Commerce, and the award was the all expense paid educational four to the Alamo City.

Resume Of The Trip Leaving Littlefield at 8 a.m., Sunday; May 4, the first stop was at San Angelo for lunch, arriving in

San Antonio that night at 8 p.m.

Hotel headquarters was Robert E.

Hay Market Square was on the agenda and was visited before anyone had a bite to eat. One of the largest market places in San Anhand insight on just how much pro-

visit-they were hungry. Breakfast served at 7 a.m. in the hotel coffee shop consisted of four eggs, two and three stacks of hot cakes, etc., for some-they had

really worked up an appetite. After breakfast (needing exercise), a walking tour of the downtown places of interest was made that morning. The first stop was at the famous old Buckhorn Curlo Store, which is originally the famous Buckhorn Saloon, containing the greatest collection of heads and horns in the world. It was estab-

lished in 1881. The Old Spanish Governor's Palace was visited. It was built in 1749. This palace is where the Spanish governors lived during the time that San Antonio was a province under Spanish rule Above the entrance is the original keystone and the Hapsburg coat of arms. There are many conflicting dates among historians as to its construction. The first document in existence relating to the actual building is dated 1804. In this year its owner, Joseph Menchaca, a captain of the Presidio, sold it to Ygnacio Perez for \$800, As regards any earlier history, the abstract of (Continued on Back Page)

The C. S. Duncans **Moving To Austin**

Mr. and Mrs. C. S. Duncan, and two sons. Freddy and Bert will leave Littlefield next Wednesday, for Austin where they will make their home.

They moved here from Austin about three years ago, and have made a host of friends during the short time they have lived here. Mr. Duncan, a traveling salesman for a commercial printing concern, has been transferred to the Austin territory.

Freddy a member of the graduating class of Littlefield High school, will spend the summer in Austin, and return to Lubbock this fall, where he will attend Texas Tech. Bert will eproll in Austin High school this fall, where he will be

classified as a sophomore. Mrs. Duncan is the daughter of Mr. and Mrs. R. T. Budger-of Austin, formerly of Littlefield.

HOMES FOR AMERICANS

AP Newsfeatures Economical to build, this simple rectangular plan eliminates costly frills. It features what the architect calls a sound buffer zone, consisting of center hall and a row of closets to keep the three bedrooms in the rear of the house quiet. Stairs to the basement open directly from the

side service entry, adjacent to kitchen and work clothes closet. Frame construction, wide siding. colored asphalt shingles and a touch of brick facing are suggested. This plan C-227 by the Small House Planning Bureau, St. Cloud, Minn. It covers 1,159 square feet; 22,021 cubic feet.

et Us Do Our Part

along the streets of our city or on a highway, seen m black and white patrol car and thought to yourcoeff - "Oh, oh, there's a cop-better watch yourself!" You may hit the brakes for a moment, or at least you automatically look down at your speedometer to see if you're well within the speed limit.

Or perhaps, in your travels on the highway, you've moticed a long string of cars trailing a highway patrol car that is cruising at 45 or 50 miles per hour, when the legal limit under good conditions during the day is 60. Why don't the motorists pass that patrol car? Are they afraid to pass even though they might do it well within the legal speed limit?

It is unfortunate that many Texans have an unnecessary fear of their enforcement officers. Perhaps this feeling has been instilled since childhood with the threat by Mother or Dad of, "Johnny, if you don't eat your cereal, I'll call a policeman." Believe it or not, that threat si used often, today!

But what of the other side of the story? What are the enforcement officers' thoughts and opinions regarding the traffic they are watching?

Traffic officers today, as a whole, are a different caliber of man than that of several years ago. Most police officers now receive extensive and intensive training before and during their service in police de-

and he has been replaced by men usually having at least a high school education and who have been proved to be stable under emotional stress.

To these men, the safety and welfare of the travelling public are of great concern. They are aware of, and know, the factors that cause accidents. Why do they stop a speeder? They realize that this motorist is, in all probability, heading for an accident that may either kill or injure himself or innocent parties. Why do they stop drunk drivers? For the simple reason that such a person is a menace to others as well as himself! Why do they arrest drivers for any violation? Because they are concientiously carrying out the laws that YOU-as a driver, may travel on our streets and highways in as safe a manner as is pos-

After stopping someone for a violation that if continued or repeated, might mean death to that person, can you imagine an officer's feelings when that person turns on the officer who is merely trying to prevent an unintentioal suicide?

These officers have a keen sense of responsibility to the citizens of Texas. They are working in your behalf to make our highways safe. Let us all join with the Texas Safety Association in supporting these men for a safer Texas.

otes A

This may go down in political history as the year when a third party-neither Democrat nor Republican-determined the outcome of the presidential election. Properly speaking, the force which may exert the balance of power in the election can not be called a party, for it has no organization, no platform, not even a candidate. It is composed of the growing number of independent voters in the coun-

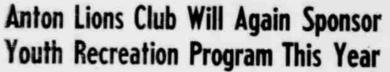

The "United States News & World Report" estimates that this new group is more than 24 million strong. That compares with the estimate that the Republicans can count a membership of 28.3 million and the Democrats 30 million. Pretty closely bearing out this estimate is a survey by the American Insti-ante of Public & inion indicating that 32 per cent of the voters call themselves Republican, 40 per cent Democrat, and 27 per cent independent.

The indications are that a large proportion of these independents are in the younger age bracket

-voters who feel no binding loyalty to either party. Accordingly, they will vote for the man and not the party-provided they do not conclude that neither of the candidates offered by the major parties merits their vote. Thus, for any presidential nominee to win, be must be able to pick up a substantial portion of the independent vote.

This, of course, is most necessary in regard to the Republican candidates, since the Republicans are the minority party. Elmo Roper, conducter of a leading public opinion poll, calls General Eisenhower the strongest vote-getting candidate the Republicans could nominate, and the one appealing most strongly to the independent voters. This appraisal is firmly supported by the great popular preference that has been shown for General Eisenhower in the states where presidential primaries have been held.

The statistics and the probabilities should be convincing to the Republican leaders, who want strongly to win this year even though they are slightly out -Star-Telegram

BUDDY POPPIES SYMBOL OF A NATION'S DEVOTION

Emblem of the dead and dying on the fields of landers in 1918, the V.F.W. Buddy Poppy has been glorified by the American people as their Flower of Remembrance."

Down through the years, ever since 1922 to be east, the V.F.W. Buddy Poppy has given to all patriotic citizens—rich and poor alike—their chance to honor the dead by helping the living.

The annual sale of Buddy Poppies serves two peat purposes. It fosters the beautiful custom of searing these little flowers, once each year, in mute slute to the memory of America's honored dead; it provides the funds that are required to serve the daily personal needs of the nation's disabled and needy veterans, and their dependents.

There are millions of unfortunate veterans—as well as widows and orphans and dependent parents—who are unable to qualify for government aid.

Why? Mainly because the government itself in time of war—has never been able to maintain accurate records on the physical welfare of each individual in uniform.

Through no fault of their own, these veterans many of them the victims of the lingering effects of exposure, shock and malnutrition—are unable to qualify for help from their government because their service records fail to confirm the origin of their ailments.

Your support of the annual sale of Buddy Poppies makes it possible for the Veterans of Foreign Wars to maintain its great, nationwide program of free rehabilitation service to the millions of needy veterans.

Every dime or dollar which you may give in exchange for a Buddy Poppy goes into a special sacred fund—one that will be spent for nothing but the relief and rehabilitation of America's disabled veterans, and their needy loved ones.

Remember the dead who are buried near the battlefields where they died, or in our cemeteries here at home. Let's do them honor by helping the living!

Eighteen Models of Other Makes of Cars Cost More!

Official price lists show that there are eighteen different models of American motor cars, produced by five separate automotive manufacturers, which actually cost more than the lowest-priced Cadillac-when similarly equipped.

If you find this difficult to believe-then you're in good company!

For the record also shows that, during the past few years, literally hundreds of thousands of motorists have taken title to these costlier models. And there can be little doubt that many of them did so simply because they failed to realize how relatively modest the cost of a Cadillac can be.

They simply assumed that exclusive in quality means exclusive in price! And it is doubtful if a single misunderstanding ever cost so many motorists so

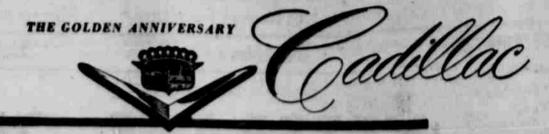

It cost them, first of all, the satisfaction of owning a Cadillac! For there is no substitute for the sense of pride and well-being that comes from owning a motor car that is universally recognized as the "Standard of the World."

It cost them, too, the pleasure of driving a Cadillac! And this, beyond any question, is the greatest penalty of all! For in missing out on the many thrills to be found behind its wheel-they're missing out on motoring's finest rewards.

And, of course, it also cost them Cadillac's many long-range economies-its almost unbelievable gasoline mileage, its unsurpassed dependability, and its legendary long life.

We know that you wouldn't want to make such a costly mistake in the selection of your next car. But you'd better be careful-because there are eighteen

different ways to make it! So when the time comes-investigate! And if you pay the price of a Cadillac-be sure that you get and

CARD OF THANKS

We wish to take this means of expressing our sincere thanks to each and every one for the many expressions of sympathy extended to us at the death of our dearly beloved husband, father and grandfather. We especially wish to thank those who so graciously brought and served food, among them, the Friendship Class of the First Methodist Church, the Rebekah Lodge, the Woodman Circle and the Woman's Society of Christian Service, also for the beautiful floral offering, and for each act of kindness, and expression of sympathy rendered during this dark and sad hour. May God bless each and every one of you is our prayer.

LEGAL NOTICE Notice Of Hearing On Street **Improvements**

ING ANY PROPERTY ABUT-MENTIONED PORTIONS STREETS AND AVENUES IN THE CITY OF LITTLEFIELD. ING ANY LIENS ON ANY OF SAID ABUTTING PROPERTY. TO ALL OWNING OR CLAIMING ANY INTEREST IN SAID ABUTTING PROPERTY:

The City Commission of the City of Littlefield. Texas, has by ordinance duly passed and adopted, orthat the hereinbelow men tioned portions of the streets and avenues of the City of Littlefield. Texas, be improved by raising. grading, excavating and filling, and paving with caliche base and triple asphak surface, and by constructing curbs and gutters where necessary, all as provided in the plans and specifications for said improvements prepared by the Engineer the office of the City Secretary and heretofore approved by the City \$4.28; T F. Jones Construction Company has been executed by the City and is on file in the office of the City | \$11,739 98 Secretary, which said plans and specimeations and said contract are referred to for all pertinent purposes. It is proposed and provision will be made that a portion of the costs of all said improvements will be assessed against abutting proplows: Not exceeding nine (9/10) tenths of the cost of all improvements in front of the property, and not exceeding nine (9/10) tenths cost of all improvements on sides of property. By the term "frunt" as used herein is meant: Where a parcel of property is unimproved the front thereof is a street or avenue on which same faces according to the official recorded maps or plats of the original Town of Littlefield. Texas, and any additions where improvements are ordered made; and where parrels of property are improved the front there of is the street or avenue on which the improvements face. Estimates of the cost of such improvements of the portions of the streets and avenues in the various districts or units of construction as becomerter designated and set out, have been and approved by the City. The portions of such streets and use ordered to be improved are divided into and designated as separate inferendent districts in mire as hereinafter set out. The estimates prepared and set out and filed as aforesaid show the costs of improvements and the amounts to be assessed against abutting separate districts or units, improvements will be such districts or units, numbered and designated as Units Nos. One (1) to Thirty (34) Four, inclusive, The portions of the streets and avenues to be improved in each unit, together with the estimated east of the mprovements in each unit, the amounts per front foot to be assessed against the abutting property and owners thereof on the portions of the streets and avenues to be improved to each unit, and the total estimated amount to be assessed against property and the owners thereof in each unit are as

He was all each page. lowed to sit down or to stand up or to pace the tiny sisle between the wooden bunks of the cell. But were summoned before an importhe could not lie down. It he fell ant looking official who might have asleep sitting down, the guard been Beria. For the first time in awakened him roughly.

Ready to Sign Anything

At the end of two weeks of this food rations cut, the prisoner is no longer able to understand what is happening. He is not capable of thinking clearly. Toward the end of the treatment, when the prisoner is signing the confession, he is actually temporarily insane. De Mohr

The worst questioning for De Mohr came in 1949, conducted by a man the prisoners called "the terrible commissar," whose name was Purenkov. At one point in the endless questioning, Purenkov's tone suddenly changed to wheedling, and the questioning went like this: Q. What would you do if you

were suddenly freed? A. I have no hope of getting out of here.

Q. Well, just suppose you did get men and women guards descend out. What then?

A. I don't know. I suppose I upon a cell, with strong lights which blind prisoners accustomed would do anything I could to make to perpetual semi-darkness. The a living. prisoners-there are three to a cell Q. Ha, ha! You have "L'Oncle

Sam." (He said it in French.) A. What do you mean?

Q. I mean the Americans. You can go to America. You can join But this is not the worst. The their service. They will give you most dreaded occurrence is the money, an automobile, an apartment, anything you want. (De Mohr DeMohr went through three interrogations. Each lasted for nights was puzzled. Where was all this leading. Suddenly Purenkov's tone changed again and he became furious.)

"You will be damned careful! You must decide between them and us." He paused. Then he shouted: 'But it doesn't matter. In 1951 we will settle accounts."

Did Korea Change It?

This was in 1949, before Korea. es the biography. Where were you Perhaps, says De Mohr, something has happened since then to change your father, your mother, your rel- the Russian mind. Perhaps it was only the braggadocio of a minor political views at the time? What bully,

Sometimes a prisoner is tough. The Russians explain that they What did their friends read and have plenty of time and plenty of say? What were the names and ad- experience with tough cases. They dresses of all your friends and rel- break all of them. Sometimes the atives from the time of your child- questioning is wheedling. Sometimes there are blows. Sometimes the guard grinds his heel into the toes of the prisoner. Always there is the threat of the "kartsa," a tomb-like box in the cellar, with no is not accepted. This questioning can go on for many days. But it is food for days at a time in the freezing cold.

After completion of the interrogation, there is a written report,

Bulgaria, a full description of all in Russian. If a prisoner does not his "spying" activities. Everybody know Russian, he must take the interpreter's word for what is in it. Each day at dawn he was taken It runs anywhere from 20 to 70

In September 1950, the prisoners six years, they met their colleagues and were unable to recognize them.

One of the prisoners was told his treatment, without sleep and with wife had died in prison in 1945. They told him it was cancer. He said it was impossible, but there

was nothing to be done about it. The terrible Purenkov told them there had been a revolution in Italy and that Palmiro Togliatti now was head of the "Italian People's Republic." The prisoners feared then they were going home to Communist trial and death. But they were supplied with Russian papers on the trip west, and from the attacks in them on Italian government officials, they knew it could not have been so. The prisoners were taken to Vienna, and after much Soviet red tape, sent home to Italy.

The first tobacco is believed to been the first to raise silkworms.
