

LAMB COUNTY LEADER

Official Newspaper of Lamb County, Texas

LITTLEFIELD, LAMB COUNTY, TEXAS, THURSDAY, AUGUST 12, 1926.

NO. 17

KEY RESIGNS SECRETARY OF LOCAL C. OF C.

meeting of the Board of Littlefield Chamber of Commerce held Tuesday noon at the Cafe, the resignation of Clayborne Harvey was accepted by the Board immediately. In offering resignation Mr. Harvey stated he was so with deep regret, but had been offered a position that carried with it such future prospects he could not refuse. In accepting his resignation several of the present expressed their appreciation of Mr. Harvey's services and regret at his leaving. No action was taken regarding electing a successor for the office.

BY MONROE DEAD.

Services Held Wednesday at Presbyterian Church.

Katherine Evelyn, daughter of Mrs. S. J. Monroe, died Monday noon, age one year, eleven months and two days.

Funeral services were held at Presbyterian church Wednesday afternoon, conducted by Rev. C. A. Henson, assisted by Rev. W. B. Henson and Rev. H. G. Scoggins, and were made in the local cemetery. Mrs. Monroe resides three miles west of Littlefield, having been here last February from Texas.

HENSON ENTERTAINS.

Vesta Henson entertained a party of friends with two tables of cards Saturday evening. The room and tables were most attractively decorated with sweet peas and combination of pink and white paper. After a number of games, refreshments were served to the following: Misses Barnes, Pattie Hopping and Yeatt, and Messrs. Roy McSlaton, Damen Nutt, Stone of Lubbock, and C. W. Littlefield.

Mrs. T. S. Sales returned from a visit to McGregor, Galveston, and Waco. They were accompanied by Mrs. Sales' niece, Miss Haley, of South Bosque. She will return to school here this year.

WONDER IF CAL ENJOYS HIS FISHIN'?

By A. B. CHAPIN

A MEETING HELD REGARDING FAIR ON MONDAY NIGHT

A meeting, attended by representative citizens of Olton and Littlefield, was held at the Gold Star Cafe Monday night to consider the advisability of holding a Lamb County fair this fall.

The meeting was held in answer to a call sent out by the local Chamber of Commerce. Representatives from Sudan, Amherst and Spring Lake were also expected, but failed to arrive.

It was the consensus of opinion expressed by those present that Lamb county should have a fair this fall, and, following the county exhibit, that the best of fruits and grains should be assembled and sent to the Lubbock and Dallas fairs.

A committee consisting of Prof. H. P. Webb and C. E. Barfield, of Olton, and G. M. Shaw, of Littlefield, was appointed to visit other communities of the county and enlist their support and cooperation in the movement and to make selection of a place for holding the fair this fall.

BACK FROM MARKET.

Mrs. Walden Tells of New Styles and Colors in Vogue.

Mrs. N. H. Walden, local milliner, returned Friday from a trip to market, bringing with her the following information concerning the leading colors and modes for fall wear:

Newest things in dresses is a dark red known as "Channell" and Jungle green, which is a beautiful soft, dark green. These colors in a soft clinging satin is very attractive. Black is occupying next place in morie and satin trimmed in cameo or white. The large droop brim hats are taking the day at present, smaller ones to be worn later with coats. The leading thing in coats is plaid tweed.

EDITOR RETURNS FROM TRIP.

Mr. and Mrs. Jess Mitchell and family returned Monday from a two weeks' trip to Los Angeles and Pasadena, Calif., where they visited relatives.

Needless to say their return was of great importance to us, the remaining office force, as a newspaper with out the regular editor reminds us of a spare casing without air.

Mrs. Charles Adams and daughter, Mrs. Flora Nutt, and son David, of Lubbock, are visiting Mr. and Mrs. R. C. Hopping this week. They are enroute to Las Vegas, New Mex.

TEST WELL PROGRESSING.

Material and Fuel Oil Received and Over 700 Feet Drilled.

Yellow House No. 1 well, located 12 miles southwest of Littlefield, is going down rapidly with a day and night shift steadily at work.

The depth of the well at present exceeds 700 feet. Three car loads of casing have recently been unloaded and moved to the well, also five car loads of fuel is in transit and is being put in storage on the Littlefield Ice Company grounds.

POISON BAIT IS DISTRIBUTED TO COUNTY CITIZENS

L. O. Cole of the United States Department of Agriculture has been in Littlefield during the past week completing plans for a prairie dog, rat and rabbit extermination campaign.

The Federal method of extermination has been recognized by many counties as being one of, if not the most effective method known, and in order that it may be thoroughly tried out by all the farmers and stockmen of Lamb county, the County Commissioners of this county have appropriated enough funds to furnish the material with which to give the project a fair trial.

Starting with Thursday morning of this week, August 12th, every farmer in Lamb county will have free access to a sample of the especially prepared poison which will be issued to each of the Chamber of Commerce offices throughout the county; that is, Littlefield, Amherst, Sudan, Olton, Littlefield, Amherst, Sudan, Olton. Each package will contain 5 pounds of the poison with all directions as to the ways it should be used, free of charge. In case it proves effective and is distributed within a certain prescribed time, the Commissioners will appropriate a certain sum which will go into a fund with which to buy the poison, poison to be distributed at actual cost to the consumer and will be kept on hand at the various points over the county as named in the above.

Each and every farmer and stockman in Lamb county is urged to call at the places designated and take a package of the poison with him and give it a fair trial. In case it proves its effectiveness, as is predicted, there is no question but what this county will rid itself to a large extent of these pests that are doing so much damage and have done a great damage this past few months. Parties are requested to use the poison while fresh for best results.

E. L. THOMAS OF BAIRD ARRESTED HERE ON SUNDAY

E. L. Thomas, of Baird, Texas, was arrested Sunday morning by Chief of Police Wynn on a charge of "cold checking." According to information Thomas registered at the Gold Star rooming house Saturday night, giving a check in payment for his bed. The proprietress insisted that she did not accept checks and that he have it cashed elsewhere.

At the Page restaurant he gave a check in payment for his breakfast, telling the restaurant man that he could not sign his name and would have to make his mark instead. Mrs. Foster, of the Gold Star rooming house, learned of the discrepancy, as he readily signed the check given her, notified the local police and went with him to identify the man, whom it is said was then leaving town. He was placed under arrest and taken to jail at Lubbock.

A telephone to Lubbock brought the information that several checks had already been turned down by the Citizens National Bank of that city, the bank on which the checks given at Littlefield were drawn.

SOUTHERN STUDENTS SPEAK... PURE ENGLISH BETTER.

AUSTIN, Tex., Aug. 11.—Students in Southern schools speak purer English than those in many Northern and Eastern universities, thinks Dr. George Sherburn, associate professor of English in the University of Chicago and a member of the faculty of the University of Texas Summer School. He attributes this to the fact that the Southern students are of a purer stock than the students of these other schools. The cosmopolitan character of some of these larger institutions does not enable the students to handle the English language with the fluency of the Southerners.

"Distinguished professors in the field of English give the University of Texas the best English department in the South," declared Dr. Sherburn. "There is not another school in the South to compare with Texas. I could name many professors on the faculty here who have a recognized standing in their field among the larger schools of the East."

Mr. and Mrs. R. D. Borough have purchased a home in Amarillo and have moved there to make their future home. Mr. Borough is in the grocery business in Borger and the move will make his home more convenient to his duties.

PARNELL TO RUNGE.

Will Teach Agriculture and Act as Secretary for C. of C.

Prof. and Mrs. E. D. Parnell left last Friday for Runge, Texas, where he has accepted a position as secretary of the Chamber of Commerce and Vocational Agriculture teacher at that place, devoting half of his time to each phase of the work.

Prof. Parnell was vocational agricultural teacher in the Littlefield schools during the past two years. His successor has not yet been named.

MADDOX & COX TO HOLD A REVIVAL; BAPTIST CHURCH

The Baptist church will begin revival services next Sunday morning, under direction of the local pastor, Rev. W. B. Phipps. He will be assisted by Rev. Layton Maddox, D.D., pastor of the Baptist church at Belton, Texas, and Prof. Jerry Cox, music director of Travis Avenue Baptist church, Fort Worth.

Dr. Maddox comes to Littlefield highly recommended as a strong pulpit man and one of the best preachers of his denomination in the State. Prof. Cox is one of the leading music directors and soloists of Texas. He is already well known and greatly loved in Littlefield because of the valuable assistance he rendered here about a year and a half ago when he conducted the music for Rev. Charles Mathews, who conducted a revival meeting here at that time.

The services Sunday will be held in the high school auditorium, conducted by the pastor. The evangelists will arrive here Monday, and it is then hoped the new church will have been sufficiently finished that the auditorium will be in readiness for the remaining services which will continue for at least two weeks.

All churches and people of all Christian faiths are urged to take part in the meeting. The evening services will begin at 8:30 o'clock, the time of day services to be announced later.

KNOX—WADE WEDDING.

The wedding of Mrs. Edna Knox and W. L. Wade was solemnized Saturday afternoon at 1 o'clock, at Clyde, with Rev. Hunt, formerly of Plainview, officiating.

Both parties have many friends in Littlefield, the bride having operated one of the most enterprising business firms in Littlefield, the Style Shop, for several months, while the groom has for several months been associated with the Whicker Land Company of this city and of Bledsoe.

They will make their home in Littlefield and will continue their respective duties.

PICNIC PARTY ENJOYED.

A party composed of Misses Dess Key, Louise Barnard, Wilma Henson, Verma Simpson of Stephenville, Mabel Morehouse of Munday, Alyne Cox, Gladys and Verna Wales; Messrs. Brooks Bradley, Ralph Dunbar, Nolan Barnes, Eldridge Eagin, Osa Blalock, Lee Harris, Kenneth Hemphill Carson; Mr. and Mrs. E. D. Parnell and Mr. and Mrs. Earl Hopping enjoyed a picnic Wednesday evening of last week at the swimming pool, after which they went to the home of Mr. and Mrs. Earl Hopping where bridge and dancing featured the entertainment for the remainder of the evening.

FARWELL PARTY GIVEN.

Mr. and Mrs. Earl Hopping entertained at their home Thursday evening, the most intimate friends of Mr. and Mrs. E. D. Parnell, who left Friday for San Angelo, where they will make their future home.

The rooms were decorated with a profusion of garden flowers and potted plants where tables were arranged for bridge. At the close of the games a delicious ice course was served to the following: Misses Wilma Henson and Dess Key; Messrs. Ralph Dunbar and Nolan Barnes; Mrs. Bessie Base, Messrs. and Mesdames E. D. Parnell, Jimmie Brittan, Ray B. Jones, the host and hostess.

Author Jones made a business trip to Clovis last Friday.

LITTLEFIELD WLIL ATTEND A MEET AT CARLSBAD, N. M.

Preparations are being made by a number of Littlefield people for a trip to Carlsbad, New Mex., where they will attend the meeting of the Southern New Mexico Inter-Mountain West Texas Chamber of Commerce Association to be held at that place August 17 and 18.

They will be joined there by Arthur P. Duggan, president, West Texas Chamber of Commerce, Mrs. Duggan and son, Arthur, Jr., and Mrs. W. D. Arnett, who left Monday for the former's initial tour of the recreational sections of West Texas and New Mexico.

Mr. Duggan will fill speaking appointments along his route and Carlsbad appears on his itinerary for the convention dates which will conclude his program. There he will address the convention tourists in "Big Room" of the Cavern at a depth of 800 feet below the surface. Governor A. T. Hannet, of New Mexico, and Homer D. Wade, manager of the West Texas Chamber of Commerce, will also appear on the program.

The business meeting of the association will be held at the American Legion pavilion at Carlsbad bathing beach on the morning of August 17. Each city holding a membership in the association will furnish a speaker who will bring before the convention the commercial and scenic attractions of his own particular community, and distinguished guests will be given opportunity to speak at the morning session of the convention.

The afternoon will be devoted to the mammoth water carnival at Carlsbad bathing beach, where the usual events of expert swimmers will be featured on the program.

The entire second day, August 18, will be devoted to an exploration of the world-famous Carlsbad cavern. The Chamber of Commerce several years ago constructed an easy stairway entrance and after the management of the cavern was assured by the National Park Service, there were constructed excellent trails and an electric lighting system, which now illuminates the Cavern for a distance of 3,300 feet. Giant searchlights, some of them having a "throw" of 1,030 feet, illuminate many spectacular formations such as Moose Head, the Music Room and Devil's Den.

A very enjoyable trip is anticipated by the Littlefield people who plan making the trip, some of them have already visited the cavern while others will view its splendor for the first time.

G. M. Shaw made a business trip to Lubbock Monday.

APPRECIATION OF MUSIC.

It was said that Orpheus, the mythical musician of Greece, with his simple lyre could charm the beasts of the field, sway the trees of the forest and even cause the rocks of the mountains to move from their places. When his beautiful wife, Eurydice, died he descended to Hades, and followed her, and so pleased Pluto with his music that the stern king of the underworld allowed him to lead his beloved back to the world of the living. And there was silence. And on, and on. What was the cause of this? It was not that he was not heard, but that he was not understood. Only heard him say, "Put up your instruments and let's get away as quickly as possible. There is no use wasting our time with this music on our streets that the air is vibrant with harmony? Have not the angels in their Ford cars moved closer and peeped thru their windshields? Yes, there are no cherubs of appreciation. Why not a good sound of theirs now and then?

Recently Mr. McClure brought a first class music troop to Littlefield. It happened to be the day we were having our jubilee barbecue in honor of Mr. A. P. Duncan's elevation to the presidency of the W. T. C. of C. Some of the troupe came out to help with their music. They played, and there was harmony. They sang, and there was silence. And on, and on. What was the cause of this? It was not that he was not heard, but that he was not understood. Only heard him say, "Put up your instruments and let's get away as quickly as possible. There is no use wasting our time with this music on our streets that the air is vibrant with harmony? Have not the angels in their Ford cars moved closer and peeped thru their windshields? Yes, there are no cherubs of appreciation. Why not a good sound of theirs now and then?"

Now, really, it is not lack of appreciation; it is only a lack of expressing our appreciation in some common demonstrative form. Without that demonstration our musical appreciation is likely to be retarded. Now, as our bark. We will be the "bullfrogs in the pool" while the little "bullfrogs in the pool," and if they do not hallow croak or toot to suit our finely developed sense of harmony we will still be on out with a tubaphone and send 'em off to school.

Italy and Germany have music loving peoples. Each village has its musical organization. They play on the village commons after the day's work is done and the people greet them with applause. The result is that they are ahead of their peoples both as composers and as artists. Notice how many great music writers and artists come from those countries. Most of these great composers and directors in America have Italian or German blood.

Littlefield has no reason to be ashamed of its part in the musical world. The young and thriving town of 3,000 population has a good church choir and an excellent concert band and a pipe organ. This is true of no other town of like size on the Plains. Now let us try to realize these facts and wake up. If you can't wake up, sure.

I understand that the trustees of the schools have added a first class music teacher to the school faculty. Vocal training can be had in the town by first class teachers at small tuition. Advanced pupils can get lessons at the Tech from such eminent teachers as Prof. Wagner, Pfaff and Hoff with credits for our best conservatories in America and Europe. Get busy and let us not be found in company with that galoot Bill Shakespeare was chasing when he wrote,

The man that hath no music in himself, nor is not moved with concord of sweet sounds, fit for treason, stratagem, and spoils; The motions of his spirit are dull as night, and his affections dark as Erebus: Let no such man be trusted: Mark the music!

LITTLEFIELD

At the southern extremity of Brewster county the Rio Grande flows through a gorge 1,800 feet deep and 12 miles long. The estimated available water power in this gorge is one of the marvels of the United States. The estimated available power is 150 million tons.

PROF. JERRY COX
Who will have charge of the musical program for the arrival of the Baptist church, beginning next Sunday.

The Cactus club met last Saturday afternoon at the home of Mrs. W. W. Gillette, with Mrs. Gillette and Mrs. S. J. Farquhar as hosts. The program was highly decorated with garden flowers. Games were played, Mr. Gillette giving high scores. Refreshments and refreshment were served. The program was highly decorated with garden flowers. Games were played, Mr. Gillette giving high scores. Refreshments and refreshment were served.

Whitharral Items

(Two late for last week.)

Group are looking fine here. Most farmers are still working, but will stop on lay day.

Lee Crowover and family, accompanied by Paul and Zella LaRue, Homer Morris and Lorine Hurley, left Saturday for a camping trip through New Mexico. They plan to visit the Rio Grande valley, west El Paso before their return.

Clarence Koeney, and Ed Whitmire went to Lubbock Monday afternoon and brought the former's son, C. H. from the Lubbock sanatorium, where he underwent a serious operation about two weeks ago.

Clarence Koeney, who has been at his bedside, returned with them.

The Baptist revival, which has been conducted here by Rev. Suttle, came to a close Sunday night. Rev. Suttle and Rev. Graves, his assistant, returned to Idalou Monday morning.

One of the Heckley county road gangs is grading the highway by Whitharral. They plan to grade this road on to the Lamb county line. We should have a good road to Littlefield if Lamb county will come up with her part.

Fred Lewis and family and Mrs. C. B. Edgar and son, Verlin, went to Hollis, Okla., Thursday to visit relatives.

The Shallwater baseball team played Whitharral here Saturday. The score was 7 to 6 in favor of Whitharral.

Rev. G. B. Fort, who began a series of meetings here Monday, went to Lubbock Monday afternoon to visit his wife who was reported ill. He was accompanied by Jim Goodwin.

Mr. and Mrs. Nick Gray have brought their little 4-year-old son home from Littlefield. He has been seriously ill for some time.

Will Redding is visiting in Post and other points at present.

Mrs. Tots Hutson and children are spending a few weeks with relatives near Hollis, Okla.

Glenn Signs and Art Birdwell surprised most of their friends by getting married last week. The young people went over and chivvied them Friday night. Their many friends extend congratulations.

Mr. Henry, of Wichita Falls, and family were guests of their uncle, John Rogers, and family last week.

Mrs. Jack Lawton, who has been very ill in the West Texas hospital at Lubbock, is much improved, and expects to return home within a few days.

C. B. Edgar and Douglas Robinson went to the convention at Clayene Sunday.

Mr. and Mrs. J. H. Ribbe and family, and Mrs. M. B. Ribbe and family, who have been visiting their relatives, the Lewis and Edgar families of this place.

Joe Woodruff is visiting old friends in Montague county.

The Whitharral Community Club met with Mrs. C. B. Valentines, the home demonstration agent, at the home of Mrs. George Long Tuesday afternoon.

John Seary, of Fort Worth, is spending his vacation here with his sister, Mrs. George Long, and family.

MRS. STOKES ENTERTAINS.

Mrs. J. M. Stokes was a delightful hostess Friday evening when she entertained with bridge, at her home.

A very pleasant hour was spent in the game following which the guests repaired to the veranda where they were served to delicious refreshments consisting of sherbet topped with cherries and nuts, and angel food cake.

Those present were Misses Virginia Cullum, Myrtle Wills, Dees Key, Wilma Henson, Helen Logan, Stella Lloyd; Messrs. Ralph Dunbar, Clarence Barnes, Alvin Handricks, Nolan Barnes; Messrs. and Mesdames W. H. Rutledge and Arbie Joplin and the hostesses.

TO THE VOTERS.

In the primary election of July 24th, you gave me 883 votes, which only lacked 88 votes of being a majority. I cannot express with words my thanks and appreciation for this big vote. Please help me over the top in the second primary of August 28th by voting for me in the office of County and District Clerk.

Sincerely your friend,

Smart New Rumble Seat For Sport Roadster

Rumble seats are justly popular. They add a smart, rakish touch to roadster lines, and increase the carrying capacity by two passengers.

That Dodge Brothers Sport Roadster now provides this convenience will be welcome news to thousands.

Like the main seat, it is deeply upholstered in gray Spanish genuine leather, and the seat back is high and well pitched, providing unusual comfort.

When closed, the rear compartment is absolutely waterproof, even in rainiest weather.

Ample space is provided behind the main seat for golf clubs, suit cases, tennis rackets and similar luggage.

Brilliant pheasant green lacquer body and hood, strikingly in contrast with the tan black fenders and full special equipment, complete a general color scheme of exceptional dash and charm.

Men will experience with their own eyes the reason why they know!

Subscribers who change their addresses, or fail to get their paper, should immediately notify this office, giving both new and old addresses.

Communications of local interest are solicited. They should be briefly written, on only one side of the paper, and must reach this office not later than Wednesday noon of each week. The right of revision or rejection is reserved by the publisher.

Advertising that does not show in its text or typography that it is paid for must be marked as an advertisement. All local advertisements remain in this paper for the time specified or until ordered out. All notices, it matters not by whom nor for what purpose, if the object is to raise money by admission fee or otherwise, is an advertisement and when sent in for publication must be paid for at the regular advertising rate per line for each issue printed.

Obituaries, cards of thanks, and resolutions of respect will also be charged for at the same rate.

Any erroneous reflection upon the character, standing or reputation of any person, firm or corporation which may appear in the columns of the Littlefield Leader will be gladly corrected upon its being brought to the attention of the publisher.

COMING FAIR TIME.

In some of the eastern states the carnival is taking the place of the county fair, but in Texas the annual fair still holds the supreme place among the citizenry as the most cherished form of outdoor entertainment, exhibit and advertising. It will probably be so far many years yet to come.

There will always be farm and garden products and there will always be people anxious to view exhibits of them, and others eager to contest with their neighbors for supremacy in producing them. There will always be women curious to know of new ways for canning and preserving, women anxious to see how their own efforts along the line compare with others. And what woman will ever tire of admiring the skill of her sex with the needle? Whether he has ever raised a hog or a sheep or a cow, where is the man or the boy who isn't always willing to drop his work for a chance to see the aristocracy of the live stock world on display?

And, there is that other feature of the county fair not to be overlooked—its social side; the chance to meet old friends and to make new ones; the opportunity to talk over old times, to swap suggestions and exchange ideas.

Lubbock, Amarillo and Dallas are all making preparations for bigger and better fairs than ever before—and they will have them. The Plains country has an excellent opportunity for big showing and big winnings in these fairs this fall. No county has better prospects for fine crops than this one. Lamb county ought to have an exhibit at each of these fairs this fall. More than that there ought to be a Lamb county fair held at some point central for attendance. Let the citizens of the county interested

in the county fair get busy and make preparations for it and let all the farmers throughout the county begin now to pick out the best of their products for these various exhibits.

Just about every two or three months the average married couple show the need of a peace conference.

TRESHING TIME.

The nation still is busily engaged in threshing its monster grain crops, though that process is now about finished in this section of the country. Now the hum of the separator is swinging toward the eastern states and the women folks farther east are now in the midst of heavy harvest time dinners while the gardens are under going a terrible strain.

It may be of interest to folks of the Littlefield community to know that there is an average of only one threshing outfit to every 52 farms over the country. Iowa leads with 13,464 threshing outfits, while Rhode Island, at the bottom of the list, has but eight outfits in the entire state. In North Dakota every 7th farmer has a threshing machine, while in Florida there is a single outfit for only every 1909 farmers, while in the entire United States there are 140,000 threshing machines.

But the point in this subject is the fact that there ought to be more wheat raising in the Littlefield community. Without taking any particular credit to itself, the Leader has fall predicted this would be a good year for wheat. The prediction was based on the cycle of seasons covering a period of more than twenty years and the carry over of grain from the previous year. The farmers of this section who planted wheat last fall,

without a single exception, have reaped bountiful harvests. Of course, there is some land in this vicinity not adaptable to wheat growing; but there is much that is, and we believe that the farmers around Littlefield should plant more wheat this fall than ever before. The price next year will doubtless be good, and the probabilities are that the season will be nearly as good next year as it was this year.

An educated man earns more—and it only takes about ten years after graduation to get educated.

WORRIED ABOUT HENRY.

It is said of Henry Ford, who was one of three brothers, that in his youth he was the only member of the family his father worried about. The father once confided to a neighbor that "Will and John are all right, but I'm worried about Henry's future." But today Henry Ford, with a fortune of \$2,000,000,000, is farther away from the poorhouse than any other man in America. Littlefield parents who worry about the future of their boys could do better by them if they would cease letting them feel that they might turn out a disappointment. The moment a boy loses self confidence he loses his most valuable aid to success. Show your boy that you have plenty of confidence in him and it will help him to build up confidence in himself. Then he'll succeed.

In the average town a man may escape being run down by an auto, but not by the gossips.

LITTLE LEADERS

Milk should be kept at or below 50 degrees F.

The trouble with much of our common sense is that too many people consider it too common to use.

A lot of fellows who graduated from the school of experience are still paying their back tuition.

There is no place like home, which may account for the reason so many people stay away from it.

Maybe the reason our language is called the "mother tongue" is because father gets so little chance to use it.

Sometimes you can figure the breadth of a Littlefield man's knowledge by the length of his argument.

It looks as though Littlefield people may spend a sad Thanksgiving day. We see where an Arkansas man got \$1,000 for a turkey.

The trouble with most Littlefield autoists who take a long trip is that about all they can tell you when they get back is where they struck the hardest detours.

The color of canned salmon indicates the variety rather than the quality. There are several kinds of salmon and these vary in color after canning from a bright red to almost white.

DID YOU EVER STOP TO THINK?
By Edson R. Waite, Secretary, Shawnee, Okla., Board of Commerce.

THAT all community building depends upon the active co-operation of the various civic and official bodies for the good of all. I have found in my newspaper and civic activities that unless the people of any community pull together for the common welfare there is bound to be a break-down of the morale that must characterize successful community effort. During the World War all over the United States communities were striving toward a single goal—the winning of the war and the bringing together of all essential elements for the achievement of the main objective.

Here and there one finds communities torn asunder by factional or selfish elements and the whole community suffers as a consequence. It is manifestly important and necessary that all who are striving for the improvement and betterment of the community in which they live should recognize the value of co-ordinating all the activities in an intelligent program which may be followed to the exclusion of purely selfish and personal ends.

Harrisburg is an example of intelligent pulling together. Twenty-five years ago our city undertook a campaign of city improvement which comprised parks, sanitation, water supply, street paving, play-grounds, and all that contributes to the welfare and happiness of the people with such success that today the "Harrisburg

Plan" is known far and wide as the practical solution of the community problems. It means nothing more or less than co-ordination of community effort to a common end.

When the American cities determine to combine local interests for a definite purpose the general program of the country as a whole will be manifested in such a way as to attract the attention of the world. Harrisburg is happy in the harmony of action of its several official and civic bodies, the Chamber of Commerce always taking the lead, with the co-operation of other associations. One public loan after another for public improvements has been authorized by the voters and we are now financing two fine high schools as a recognition of the need of still more modern educational facilities.

An educated city is a prosperous and successful city.

Nearest Yet

In the waters of the English channel for 21 1/2 hours, swimming more than 40 miles and within 2 miles of French soil, Miss Clara Belle Barrett, 33, of N. Y., was forced to give up due to a dense fog on August 2. The nearest any woman has ever come to making the swim.

Have you ever used horseradish in sauce for beets? Try a little next time you serve this vegetable. A bit of ginger also combines well with beets in vinegar.

ing eggplant is to bake it in lengthwise halves with strips of bacon laid over the top. Gash the flesh so that the flavor will be well distributed.

Community Building

Pays to Take Time on Plan for Garden

The laying out of the vegetable garden on paper is desirable for the purpose of economy of time and space. In the first place, and in order to insure the proper placing of the vegetables in regard to sun and shade and convenience in cultivating.

The taller-growing vegetables, such as corn and pole beans, are usually placed toward the western portion of the garden, because they will cast shade then only during the hottest portion of the day when a little shade may be helpful. The earliest vegetables usually are placed nearest to the back door for convenience in gathering in spring when the earth is likely to be no necessity for walking over the surface of the newly spaded and tilled soil.

The most practical means of laying out a vegetable garden is to draw a plan on a scale of half an inch to a foot on tough wrapping paper which is not easily torn and which will not break with folding. On this scale a 50-foot garden patch would occupy a 25-inch square. When vegetables are charted in place, after careful study and thought, there will be room on the paper to make notes as to experiments and results in the garden and as to various insect pests. The chart will become a record of the time necessary to mature the earliest crops from sowing and will furnish an excellent guide in seasons to come. By reference to the chart and notes, the same mistakes need not be made again.

If he has two rows of the same vegetable and uses a different succession crop in each row, the gardener may note which was the most successful combination.

In small gardens where intensive fertilizing and cultivation are simple, the rows need not be as far apart as in larger gardens. Eighteen inches is ample for most of the vegetables.

Lem Shipman, commissioner in Precinct No. 1, is reported to be in a critical condition as a result of a recent paralytic attack. He is in the Lubbock sanitarium at present and the attending physicians report that there is a good chance for his recovery with a few weeks of complete rest. Last week he was reported to be doing well, but a latter report stated that his condition was critical. Mr. Shipman has many friends in Bledsoe who regret to hear of his illness and hope that he will have a speedy recovery.—Cochran County News.

Political Announcements

The Lamb County Leader is authorized to announce the following candidates for the respective offices to which they aspire, subject to the action of the Democratic Primary election, the fourth Saturday in August, 1926.

County Tax Assessor.
S. M. Davis, Olton.
Roy L. Gattis, Littlefield.
County Clerk.
Marshall R. Cavett, Olton.
A. H. McGavock, Littlefield.
County Treasurer.
M. M. (Jimmie) Brittain, Littlefield.
Guy Willis, Olton.

THE PROGRESS OF TEXAS AS MEASURED BY PUBLIC UTILITIES

A glance backward and a look ahead which business men always take at the beginning of a year shows that Texas has been making progress during 1925. It shows that the prospects for further advancement during 1926 is good.

And in every phase of the review and prospect is seen the progress of the several essential public services upon which growth and achievement have depended.

The service of the telephone in this community is one of the items that have made for development here and without which the outlook for the past year could not have been accomplished. It is to be a major factor in the building of this community, to still better service to the people.

The service of the Panhandle Telephone system and the growth of this community go hand in hand. Our aims and ambitions, if they are right, are identical.

WORLD FAIR IS BIGGER AND BETTER THAN PAST

August 11.—Stock raisers, housewives, agriculturists and others are at the county in the Panhandle section preparing agricultural products, home art for exhibition at the South Plains Fair which opens this year, September 29, at 1 and 2, while old Father Time stands between the present and the future. The fair will be in readiness for the arrival of the spectators who will arrive, according to Walter K. Jr., president of the fair. Improvements and additions are being made in practically every department and the attractions and exhibits are expected to be the best in years.

Practically every county in the section has sent in its application blank, reserving space for a booth. These counties report conditions are excellent and that winning exhibits are being prepared. A large number of individual exhibits are to be shown by farmers in every county on the South Plains. The live stock and poultry departments of the fair will be crowded by entries this year, and additions to the live stock barn will likely be made to take care of the additional herds and individuals that will be entered in this department. The premiums offered in this department are on an average higher than those offered by any regional fair in Texas this fall, and the exhibitors have a good territory

for selling their stock here with the large number of farmers who are stocking their farms with good stock. The W. H. Haines shows will furnish fair visitors plenty of amusement with the latest rides and carnival attractions while football games, air plane stunts, fire works and other attractions will not be neglected.

FOOTBALL CHANGE IN RULES MADE BY STATE OFFICIALS

AUSTIN, Tex., Aug. 11.—Prospects for an excellent season in high school football are rapidly materializing, according to Roy B. Henderson, in charge of the University of Texas Interscholastic League athletics. The new football plan to be put in operation this fall is expected to more nearly fit the needs of the schools than anything yet proposed, Henderson said. More acceptances of the plan have been received than ever before at this time of the year, he stated.

Calls for football contracts have also been received in greater numbers than heretofore during the summer season, Henderson said, exhausting the supply on hand in the League headquarters. Between 15,000 and 20,000 contracts are now being printed and these will soon be ready for distribution.

The principal changes in the League football plan for the coming year are that each district in both conferences A and B will have an executive committee for settling all questions which may arise in that district, and in the revision of districts. This last change is of particular importance in conference A in North Texas where all the schools of Dallas and Fort Worth will compose one district. The making of one district of these two city systems has met with almost unanimous approval, both with the schools concerned and others of that section of the state, according to Henderson. This will also make possible an inter-city championship between Dallas and Fort Worth, the winning team immediately entering the state finals.

MEAT MARK HARMLESS.

People often wonder whether the purple meat-inspection mark is harmful. The purple dye and all other ingredients of the marking fluid as applied by the Federal Meat Inspection Service are entirely harmless.

Chipped places on the edges of tumblers and other glass articles can be made smooth by rubbing down with fine emery paper, or with fine sandpaper if the emery is not available. To avoid breathing the glass dust, one should tie a dampened cloth over the nose and mouth.

Child's Health Maintained By Wholesome Diet

Modern education is leaning more each year to the old Greek idea of rearing the citizens of the future. They are working on the principle of "a sound mind in a sound body."

Good health is built primarily on the foundation of right food. The sort of food the child has determines to a large extent the fitness of the man of woman.

Children have to be taught to like the foods that are good for them much in the same way that they have to be taught arithmetic and history. Boys and girls are not born with any particular desire for cereals or for bread. It's up to their parents to see that they learn the rudiments of a balanced diet and the reason for such a diet. Firmness and patience are often necessary in the teaching, but the job must be done.

Many mothers unconsciously put their children under health handicaps by allowing them to use their own discretion in the matter of eating candy, fruit, nuts and cookies. By so

doing they set a precedent in the matter of other foods and make the teaching of good nutrition harder.

One or two articles are not enough to supply a child's needs for a meal. In order that there be normal development, there must be variety.

Fresh eggs, whole cereals, fruits in season and leafy vegetables should occupy an important part in the growing child's dietary. Then, too, a certain amount of concentrated food is necessary for children, because rapid growth whets their appetites to a razor edge, so that they crave more food than their systems can well dispose of. Evaporated milk, diluted with orange juice as a drink, or in custards or other baked foods, is especially beneficial for the growing child for the reason that it is concentrated to double the richness of ordinary cow's milk and is entirely sterile as well. The can of evaporated milk solves the problem of obtaining perfectly pure milk, as well as the problem of lack of refrigeration facilities, since this type of milk will keep indefinitely in the can.

Foreign Dishes Bring Added Zest to Dinner

By MRS. WM. C. POST

Height of my culinary ambition always has been to make dinner each day a gastronomic poem, rounded and perfect like a stately rime. A meal that pleases eyes, nose and palate alike!

A well-turned dinner is like a pretty woman in that it unlocks men's hearts with a magical key. Exotic dishes give a tang of other lands to the dinner table. Things foreign awaken the romantic sense. Taste of codfish in Benedictine transports one for the minute to the Montmartre in gay Paris, a dash of Piroski and we are supping in a quaint cafe on the Nevsky Prospekt in Leningrad, while the crunch of English tea cakes may bring visions of the rolling moors of Sussex.

As an aid to the housewife in carrying out this new and fascinating idea in cooking, the following of my recipes may prove of particular interest:

Italian Polenta.
3 cups hot-cooked 1 1/2 tbsp. butter
rice or mush or olive oil
Beat the butter into the mush while hot. Turn onto a hot serving plate and pour over the following cheese sauce:

Cheese Sauce.
2 tbsp. fat 1/4 cup evaporated
2 tbsp. flour 1/4 cup milk diluted
1/4 tsp. salt with
Dash pepper 1/4 cup meat stock
1/4 cup grated cheese

Melt the fat, add the flour, salt and pepper, and stir until the mass is smooth. Add the diluted milk and cook in a double boiler. Stir occasionally to keep smooth. Add grated cheese to the hot sauce and stir until melted or about three minutes.

Butterfren Kuchen.
1 1/2 cups sugar 1/4 cup flour
1/4 cup butter 4 tsp. baking
2 eggs, separated powder
1-2 cup evaporated Grated rind of 1
milk diluted lemon
with Chopped or sliced
1-2 cup water almonds

Cream butter and sugar, add yolks of eggs and the lemon rind, stirring constantly. Mix flour and baking powder, add to the butter mixture, alternately with the milk and lastly stir in the stiffly beaten whites of eggs. Place in well-greased shallow coffee cake tin, sprinkle with granulated sugar, cinnamon and a few almonds, sliced fine or chopped. Bake in a moderate oven.

With the time set for the session of the Scouts of the South Plains Council, final preparations are being made for the coming year. The camp site will be somewhat different from last year's camp—the exterior. There will be, however, the same Scout ideals to be lived up to, and the same spirit of Scouting; but the financial factor will be widely different.

Last year the Council paid almost four hundred dollars out of the Council funds in addition to the camp fees; but this year the camp must support itself. As a result, each adult leader will pay his camp fee, the same as the boys, instead of being admitted and entertained free. The fee this year is slightly higher than it was last; but that is also a result of the Council's inability to meet the financial burden of the camp. Ten dollars, however, is no more than it will cost a boy to live at home, including his board, and counting on the same advantages of training and entertainment that will come in the Boy Scout camp; and ten dollars is the amount set for the ten day period at camp.

The camp site is not as yet a reality, as only a small part of the original program has been carried out; but if we accomplish nothing else during this camp, we want to teach every boy to feel, know and say "This is our camp, it is for us. We will make this thing this year, build this trail, erect this monument—all for next year."

An excellent program has been arranged for and will be carried out. Too, there will be good, wholesome food, "served with a smile," on good tables, with good seats to sit upon. Squad tents with a few small ones will make up the camp city. Water is piped down to "Company Street" electric lights in the kitchen, mess hall, under the arbor and down to the latrine. A cost something like fifteen hundred dollars, and we must teach these boys to be good.

PROFIT IN LOW SPOTS
Farmers who have marshy places on their land that they contemplate draining should first consider the possibilities of these low spots as places for growing watermelons. The Biological Survey of the United States Department of Agriculture has information on the subject and will be glad to advise interested persons about the possibilities of profit in the increase of wild life.

Benzol is effective against screw worm infection in livestock.

The Ford Motor Company has recently changed its closed body finish from a varnish paint job to Pyroxylin paint. For your information, Pyroxylin is the correct name for all cellulose and gun cotton base paints, although numerous manufacturers have applied particular trade names to their individual Pyroxylin paints, such as Duco, Mimax, etc.

This paint withstands the elements, and is not affected by alkali and acids, and will not mar as easily as the old type varnish finish. For the above reasons, Pyroxylin finish will be much more satisfactory from a service standpoint.

14,000,000
REACHED PRODUCTION

Another million mark in Ford production was passed on July 21 when Motor 14,000,000 came off the assembly line at the Fordson plant of the Ford Motor Company.

Some idea of the present enormous production of Ford cars is obtained when it is recalled that it was only a little more than two years ago, June 4, 1924, that the famous Ten Million Ford was produced, an event which was celebrated by driving the car across the country from New York to San Francisco on the Lincoln Highway.

Yellow House No. 1 Now Drilling

On Labor 3, League 697, Yellow House Lands

This is to be a 3,500 foot test unless Oil or Gas is found in paying quantities at a less depth. The Gulf, Pure and Humble Oil Companies have large interests and expert Drillers are in charge.

So far we have made no advance in prices on our Yellow House and Spade farms, although the Oil interest in Littlefield section seems to be growing daily.

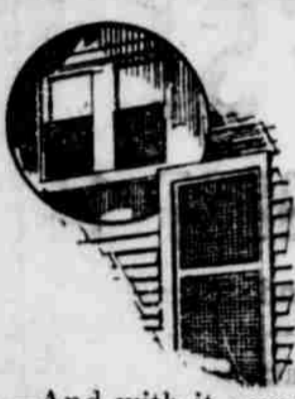

Now is the Time to Buy!

Several hundred choice farms, also a number of ideal farm and ranch combinations can be had without advance in price by those who do not delay.

Our Lands are located in center of great agricultural development, convenient to Railroads, Highways, Splendid Schools, good towns and offers the opportunity of a life-time, both to the homeseeker and investor.

See any of our Authorized Agents or address the Company at Littlefield, Texas.

Yellow House Land Company

Warm Weather Is Now Here!

—And with it comes a multiplicity of needs and opportunities. Screens are essential for the summer weather, if you value your health and comfort. Flies are not only a source of annoyance, but the most prolific carriers of disease. Why endure this source of worry and endanger the entire health of the family when they may be shut out at small cost?

We have a nice line of Screen Doors, different sizes, patterns and prices, also all widths of screen wire, with mesh small enough to keep out any stray mosquitoes that may be lurking around.

CHICKEN FENCING

Of course you are raising some chickens this summer—nearly everyone is. And you don't want them messing around the lawn or in the garden scratching up the plants—no need of it when they may be corralled so nicely with a little cost.

We have a nice supply of woven wire fencing, different heights and weights, all heavily galvanized and rust proof, one and two inch mesh, and guaranteed to give good service for many years to come. Better invest in some of it NOW!

PAINT—PAINT!

Spring and summer is always clean-up and paint-up time, and we have a very complete stock of the famous Sherwin-Williams Paints, both for interior and exterior work. Also a good line of Varnishes of different kinds to make the home look clean and bright—and the brushes to put it on with.

THE SLEEPING PORCH

Already the days are here when the inside bedroom has begun to feel stuffy. Why not a sleeping porch for the summer months? We have all the material and plans for the making of them. Let us show them to you—not much cost, and the enjoyment of a sleeping porch, during the summer months will bring big returns in comfort and added health conditions.
