LITTLEFIELD, LAMB COUNTY, TEXAS, THURSDAY, APRIL 10, 1930

NO. 52

Band and Delegation From Lfd Attend The Plainview Dairy Show

The Littlefield delegation 75 strong, headed by the Municipal band under direction of Prof. Monte Bowron, attended the South Plains Dairy show, at Plainview Tuesday.

The general attendance at the show this year is much larger than at any previous year, it being estimated there were 20,000 people present Tuesday. Delegations from all counties of both the North and South Plains countries were present, including a special train of visitors from Amarillo. There were six bands to furnish music.

The exhibits of pure bred and high grade dairy stock were much larger than on previous exhibits, and the general and farm machinery exhibits size and number. Farmers, particularly, were interested in new implements shown at the exhibit grounds "Flowerdale Echo Cynthia," owned by Tech college, won high honors in the milking test.

The E. C. Cundiff dairy, Littlefield won honors in the cottage cheese entries.

Band Rates Well

The Littlefield band won to itself many words of praise from the quality of music presented. At 10:00 a. m. they gave a concert on the court house lawn, which was followed by another concert at the dairy show barn before noon. Again at 1:00 p. m. another concert was given in the municipal stadium, and at 4:00 p. m. a concert was played before the Herald daily newspaper building. At 8:00 p. m. the members of the local organization participated in a mass band concert in which there were over 200 instruments taking part. There were three other larger bands present, but none furnishing a higher grade of music according to the statement of several band leaders and other competent judges.

Littlefield Cats Have Workout; Plan Game

Last Sunday afternoon the local baseball squad indulged in their weekly work-out. With no visiting club to play the squad was divided and a three inning contest was reeled off. The weather being perfect, those present had no difficulty in getting in a game to play a real brand of baseball. A light workout preceded the three inning affair.

Thus far no little difficulty has been encountered to get games for the local team. It is hoped that a match game may be played here Sunday as the boys are getting anxious to play and get started, with some of the best clubs. This will be arranged as early as possible.

BELL-GILLETTE CO. SELL 21 CARS AUCTION SATURDAY

There was a large crowd attended the automobile auction sale held by Bell-Gillette Chevrolet Co., last Saturday afternoon and night when 21 cars of different makes were sold.

Most of the cars brought very good prices, said Mr. Gillette.

L. V. Price was the recipient of the car given away free, a Ford sedan.

President Resigns

William C. Cosgrave, President of the Irish Free State, who resigned with his entire Cabinet when his policies were voted down by the Irish Parliament.

Rev. Freeman Gives Sermon Rainbow Girls

The annual pre-Easter service of the Order of Rainbow Girls was held last Sunday night at the First Baptist church, the house being well filled with a congregation of interest and attention.

With Mrs. J. H. Lucas at the piano the Knight Templars in full regalia, under direction of B. L. Cogdill, marched into the church building, standing at attention and with drawn swords forming an arch of steel while the Rainbow girls marched beneath and to their respective places on the platform. The members of the organization were exceedingly attractively dressed in their new robes of snow white, trimmed in gold tinsel and the various colors of the rainbow artistically draped over their right shoulders.

Miss Pauline Courtney, worthy advisor, gave a history of the organization from its inception, stating that the Littlefield auxiliary was organized in 1924, now having 26 members. Mrs. J. W. Hopping is mother advisor.

"Blest Be the Tie That Binds," was sung by the Rainbow girls, after which prayer was led by Rev. Joe Grizzle, of the First Baptist church. Mrs. T. Wade Potter and Miss Maude Fields rendered a beautiful duet. The sermon was delivered by Rev. R. B. Freeman, of the Methodist church. An offering amounting to \$24.92 was taken to apply to the purchase of robes for the Rainbow girls, and which nearly finished paying for same.

The service throughout was deeply inspirational and greatly appreciated by those attending.

Waiting For Spring Is Farmers Indoor Sport

Practically all the farmers around Littlefield and in Lamb county generally are just sitting tight, as the saying goes awaiting the sufficient advance of Springtime so they can start planting their crops. The largest percentage of farm lands within the county has been broken out and is ready for the seeding machines. The recent snows visiting this section have put in plenty of top moisture which has gone down and connected with the fine underground moisture, furnishing an excellent seed bed for sprouting purposes.

It is generally conceded that farmers of this section are about 30 days ahead of last year as regards to preparations for this year's crops. There will be several thousand acres of land planted to crops in Lamb county this year than there was last year. There will be some cotton reduction in the old acreage planted last year, but with the new acreage to go in the average will probably be as much in cotton as was planted last year, with a large increase in feed and other grain acreage.

While the month of May is the big cotton planting month of this section there will probably be some farmers who will start dropping cotton seed around the middle of this month, but there will be some chances of freezing and necessary second plantings.

Grain sorghum planting will start between the 15th and 20th of May, if conditions are favorable at that time.

SCHOOL TRUSTEES ELECTION

Voting in the school election here last Saturday was light, only 152 votes being cast, according to E. G. Courtney, presiding officer.

Pat Boone received 148 votes for trustee at large, and W. S. Mitchell was elected county school trustee from precinct four.

J. T. Elms, J. L. Dow and R. L. Hendrix were re-elected as members of the Littlefield school board.

SHREVEPORT KEEPS MUELLER

Word was received that Embert Mueller will be retained by the Shreveport Sports, and will be used as utility infielder.

He has been going good during the Spring training season both in his fielding and hitting hence he is expected to make a good showing in class "A" baseball this being his first year in fast company.

Where Ideas are Born

By Albert T. Reid

Boy Scout Council To Be Held in Lubbock; Plans For Camp Made

Lubbock, Texas, April 8.—Boy Scouts from all over the South Plains of Texas will gather in Lubbock for the fifth annual Field Day for the South Plains Area Council, D. T. Jennings, new area council executive has announced, the meet to be held here May 17.

Jennings is urging all troops to be represented in the meet here which will include such contests as knot tying, first aid, signalling, fire making, arrow throwing, string burning, games such as relay races, antelope races, chariot races and others. An inspection of the troops will play a big part in the contest likewise.

Jennings took over duties at the beginning of last week. He has formerly been with the Kansas City organization as field executive of the council for the past four years.

The South Plains council includes thirteen South Plains counties—Lamb Cochran, Hockley, Lubbock, Crosby, Dickens, Yoakum, Terry, Lynn, Garza Gaines, Dawson and Borden.

Jennings is already making plans for the summer camp to be held at the Scout park near Post.

ROTARY CLUB MEET

The Rotary Club held its weekly luncheon at the M. E. Church, Thursday, April 3, with President Charlie Clements, presiding.

After luncheon the secretary called the roll and reported 29 members present. Also, the following visitors were present: Jim Kilpatrick, of Lubbock, H. S. Brown, West Campbell, Mr. Perkins, Mr. Christopher, Rev. R. B. Freeman, and W. T. Orgaine.

After some discussion, the Secretary, J. S. Hilliard, was elected as delegate to the International convention of Rotary International, which will be held in Chicago, June 23 to June 27.

The matter of numbering the streets and houses in Littlefield was also discussed, but Reverend Freeman from the Lion's club advised that their committee was endeavoring to secure some information about this matter already. The Rotarians were then instructed to defer any further movement in this matter until the Lion's had gotten their information.

The meeting was then turned over to Bill Chesher, chairman of the program committee for the day, who introduced Messrs. Campbell and Perkins. Several numbers were rendered by those two visitors on the violin and guitar, which was greatly appreciated and enjoyed by all present.

SHERIFF GETS 144 BOTTLES FROM DEPOT AT AMHERST

Sheriff Len Irvin raided the Santa Fe depot at Amherst, Tuesday afternoon obtaining 144 2-ounce bottles of "Jamaica Ginger," according to the labels on the bottles.

The liquid was shipped to "Davis Drug Co.," Amherst, which is an unknown firm there.

Irvin is having the liquid analyzed as to its chemical content.

Tech Will Confer 271 Degrees on Graduation Day, Monday, May 26

Lubbock, Texas, April 8.—Dr. Paul W. Horn, president of Texas Technological College, expects to grant 271 degrees on Monday, May 26. Although the entire graduation program has not been mapped out, commencement plans for the June graduates which have been decided upon are:

Sunday, May 25, 11 o'clock, sermon by Dr. I. E. Gates, pastor of the First Baptist church of San Antonio.

Monday, May 26, commencement address by Dean Walter Williams, School of Journalism, University of Missouri.

Both these meetings will be held in the college gymnasium.

There will be two commencement programs this year, one for the May graduates and one for those who graduate in August. Plans for the second program have not been announced.

BUYS BEAUTY PARLOR

Miss Dollie Miller, of Plainview, has this week purchased the Grand Beauty parlor, taking charge Tuesday.

Miss Miller spent some time in Littlefield last winter, employed as bookkeeper at the Hardberger gin.

She will be assisted in her shop by Miss Terrance, of Lubbock, who is a graduate operator.

CANTONS GIVE DANCE

The Cantons gave a dance at the I. O. O. F. Hall Wednesday evening of last week, with about 75 couples present.

Good music was furnished by an orchestra from Plainview, and everyone seemed to enjoy the dance.

Sponsors of the dance were H. G. Dobbs and N. T. Renfro.

SINGING AT MULESHOE

The Bailey County Singing convention will be held at Muleshoe, in the High School auditorium, next Sunday, April 13.

The Peddler's Jubilee Party Will Be Held In Lubbock, Sat. April 26

Lubbock, Texas, April 8.—Hotel managers and sales managers for wholesale concerns over the Southwest are being urged to come here Saturday April 26, to assist in entertaining the eighth annual Peddler's Jubilee party.

The attendance at these meetings have grown from year to year and the South Plains section has gained much favorable publicity by making of these seven to eight hundred traveling salesmen, walking advertisements for this section.

The traveling men are to again be guests of the Lubbock Chamber of Commerce. Invitations are being broadcast to every traveling salesman who makes Lubbock and the South Plains section once in a life time to come to the jubilee April 26.

START REVIVAL MEETING

An old time revival meeting like the fore-fathers enjoyed will begin next Friday night at the Skating Rink. Evangelist Rev. C. M. Carel, cowboy preacher, from Phoenix, Arizona, will do the preaching.

Miss Mary Carel will have charge of the music, and there will be special songs each night.

Everyone is invited to attend.

SINGING LAST SUNDAY

The First Baptist church was comfortably filled last Sunday afternoon with singers and song-lovers from both town and surrounding country.

Several well known song leaders were present to lead in the music, and there were several special numbers in duet and quartet form to add zest and impetus to the occasion.

HOBBS WILL CELEBRATE

Several Littlefield citizens who have property interests in Hobbs, New Mexico are planning attending the two day celebration there April 19 and 20 of the coming of the first train into the county.

Features of the event will be a rodeo, carnival, and several speakers, including governor Dillon, of that state.

\$43,250 BUILDING PERMITS ISSUED HERE DURING WEEK

There were \$43,250 in building permits issued in Littlefield during the past week, as follows: Methodist church, \$40,000; R. L. Renfro, residence, \$1,750; J. T. Harris, Jr., residence, \$1,500.

20 Cases Jake Paralysis Reported In Littlefield Disease Baffles Doctors

There have developed about 20 cases of "jake paralysis" in Littlefield during the past 10 days, according to information, and one death, a negro, said to have resulted from the same cause.

During the past two weeks more than 50 cases of this type of paralysis has been reported from various towns in this section, its peculiar action being unknown to medical science today. The victims seem to be afflicted in varying degrees, thought probably due to the amount of the liquor imbibed. Generally speaking, the concoction produces rheumatism of the legs, numbness in the feet, and in extreme cases there is a total paralysis from the hips down.

Chemical analysis of the liquor from samples obtained shows it to contain a mixture of creosote, carbolic acid, a small quantity of ginger, coloring matter and alcohol, and it has been branded as better adapted for dipping sheep than exhilarating human beings.

While physicians are endeavoring to discover a cure for the peculiar type of paralysis produced by this particular type of "bootleg," prohibition officers are making an effort to apprehend the bootlegger who dispensed the concoction.

Methodist Corner Stone To Be Laid Next Friday Bishop J. Moore Invited

The corner stone of the new Methodist church here will be laid next Friday morning, the services beginning at 10:00 o'clock.

Former pastors, Geo. E. Turrentine, of Brownwood; Ed Tharp, Post; Harold Scoggins, Artesia, N. M., and R. R. Gilbreath, Higgins have been invited to attend.

Former presiding elders, R. R. Borinson, now of Memphis; D. B. Doak, Plainview, and the present presiding elder, C. A. Bickley, Lubbock, are also expected to attend.

Bishop John R. Moore, of Dallas, has been invited to be present and deliver the principal address.

The corner stone is of Tennessee marble, 18x30 inches with a center vault in which will be deposited various articles of historical interest.

Work of construction was begun last Saturday. J. H. Wells has the brick contract, with B. L. Cogdill mechanical foreman. The building when completed will cost approximately \$40,000.

HOLD PRE-EASTER SERVICE

Pre-Easter evangelistic service will be started at the Methodist church next Sunday, according to announcement made by Rev. R. B. Freeman, pastor.

The services will continue on through next week, closing with the morning Easter service, at which time several new members will be taken into the church.

The pastor will do the preaching throughout the series, and extends a cordial invitation to the public generally to attend.

Diomedes, tyrant of Thrace, fed the flesh of his guests to his horses.

A Modern Helen

Miss Angela Mujinos, declared by Greeks of America to be the most perfect type of Greek beauty born in the U. S., rivaling the famed Helen of Troy.

AVERAGE BABY COSTS OVER \$110; ONLY 42 PER CENT OF EXPENSE CHARGED TO DOCTOR

How much does a baby cost is a question which seldom is considered by young couples when they are first married, but in about 90 per cent of the cases they are thinking about it before the honeymoon is over. While present day styles call for smaller families than used to be the vogue, yet statistics show that about 70 per cent of couples married in this twentieth century

have their first child before two years have past. Twenty years ago the cost of bringing a child into the world was much less than it is today, doctors say, and incidentally there were a great many more funerals of mother or babe or both in those days than now. With modern advancement in knowledge of obstetrics and how to care for the mother and babe following childbirth the mortality rate has dropped so low that now it is very seldom that either is lost by the average physician, especially if he is taken into consideration a few months before the natal day.

Of course many expectant fathers who are in position to do so, spend large sums of money on the anticipated arrival of their first heir, and no one has any particular objection to it; though such expenditure is not entirely necessary. Statistics show that the average cost of bringing a babe into the world nowadays ranges near \$110 each, including layette, care of mother before birth, doctor's services, hospital and other miscellaneous items.

A recently worked out survey in the east of 540 newly-born babies in a community of 300,000 people found the expenditures necessary for bringing a baby into the world averaged as follows: doctor's services \$46; hospital care, \$27; nursing \$9; baby's clothing, \$22 medicines, \$1; miscellaneous expense, \$5. The survey further says:

"Only 42 per cent of the cost of the average birth was devoted to the doctor's services," says the bulletin. "The doctor is indispensable in bringing the baby into the world. He is indispensable in keeping the infant healthy later on. The mother who makes a practice of consulting a reputable physician regularly on the diet of the baby, and its care will keep the family illness budget at a minimum and insure the baby sturdy health, for the doctor by training and experience is best equipped to direct the health program."

"The survey disclosed that babies cost their parents all the way from \$692 to nothing at all, depending on the financial condition and the elaborateness with which they prepared for the little stranger's arrival. Babies of parents in comfortable circumstances cost \$270, those born to the poor averaged \$64 and those whose parents were dependent on health or social agencies cost only \$27.

TAKE IT FROM DAD

By Frank H. Cheley

Is the Church Really Dying?

"Another evening wasted away," sighed Bob from his corner just as Dad put down his paper and reached for his magazine. "How come," asked Mr. Salthrough, not quite understanding, "lessons a bit like some?" "Sunday school lessons, yes," replied Bob half reflectively. "Dad, I'm about through with Sunday school and church. Seems to me it's just wasted time when there is so much a fellow wants to do. Besides the church is dying in a generation or two there won't be any such a thing at all, will there?"

Dad smiled indulgently. "Bob you are always so cock certain in your conclusions. I suppose you have gathered dependable facts for that statement. It's very dangerous to allow one's thinking to be based on mere opinions, or worse, casual impressions."

"It's a very popular indoor sport nowadays among certain very wise folks never to lose an opportunity to give the church and all it stands for, a good kick in the pants, unconscious, no doubt, that such talk advertises to the high heavens their total ignorance of facts. Some things in our modern life, my boy, are far too big to judge from a few scattered facts. Much the same situation as your 'rotten politics.' No doubt that we do have too many little struggling ineffective churches and I share heartily the idea that we have vastly too many sects and creeds and denominations. It would be a marvelous forward step for all modern life if an effective get-together program could be arrived at, but just because here and there you find a half-dead church and an old moss-back preacher who has outlived his day and his usefulness—don't generalize too soon on little or no data."

"Bob, I saw some facts the other day which tended to show that the modern church is the greatest business in the world. It has absolutely world-wide scope. It has branch offices in every community in every civilized country in the world. It has more paid employees than the greatest industry. Its hospitals and orphan homes, its schools and colleges; its organized agencies of hope and love and mercy add more to our modern peace and happiness than any other given single factor."

"Bob, if you and your gang would catch some of the historical values out of your Sunday school lessons instead of just spending your time arguing some minor point for the sake of argument, things would look much different to you. Why take this fact alone, boy, pretty much our whole modern attitude toward women, and that means to us our attitude toward mother, is the result of the tremendous efforts of this church which has from its beginning championed woman and motherhood and any boy who is not too old to feel a love for his own mother, is not too old to support an institution that is making life more worthwhile for mothers all over the world."

"And Bob going to college? Sure if you're ever going to be a senator. But, say, where did the colleges get their start? Did you know that Harvard was founded by a Christian minister? Yale was founded by a group of Christian ministers and supported by the church largely for many years. Fully a quarter of a million of college students in America today are attending schools founded and developed and supported by this 'dying church.' Sort of surprises you doesn't it, boy?"

"Well, another thing to remember, boy, is that the church of today is quite unlike the church of yesterday and very likely the church of tomorrow will be different again. Change and progress are always at work. We know a great deal more in every realm of thought today than even a hundred years ago, and just as rapidly as folks with their prejudice and deep ingrained convictions will allow it to happen, the church, too, will adjust her thinking and teaching to the best that is known by men. Keep in mind as you consider your attitude toward the church that religion is neither apart from life nor a part of life but life itself, lived at its very best. Any agency that devotes itself to such a task cannot die, it can only re-adjust and re-adapt itself to new times and new conditions. So don't be a 'wise guy' my boy, and try to blow out the moon!"

"The best of men in all times, men of world travel and very large experience have supported and do still support the church at work with their personal allegiance and their time and their money. Hand me that 'Life of Roosevelt' there, I marked a passage in it not so very long ago. Here it is: 'I think it is the duty of every man to go to church. Frequently I have to listen to sermons that bore me, but the church has contributed so enormously to civilization; its service to society is so great that irrespective of all other considerations I feel I ought to support it and to attend whenever I can.' There you are, old boy, and your argument might be presented on stage and on on."

TREES
Who intimately lives with rain,
Poems are made by fools like me,
But only God can make a tree.
—Joyce Kilmer

Texas' annual production of natural and casinghead—is estimated by the Texas Railroad Commission at 789 billion cubic feet.

Don't let the mail order houses deceive you!

Faster, Cleaner, Cultivating

The McCormick-Deering Two-row cultivator cuts two rows in one operation. It cuts in half the time you spend in the field, and releases you for other profitable work that is always waiting. It doubles your effectiveness, because it enables you to do the work of two men in one cultivation. It is the implement you need if you want to do your work in a hurry between rains.

This fine McCormick-Deering is also an easy implement to operate. You can dodge stalks and hills with the ease of a single-row machine because the gangs shift in pairs, and because it embodies an ingenious pivoting and locking arrangement that lessens the monotony of the work and makes operation very simple.

It has a wide range of usefulness. Equipment is available for gang or shovel operation and hitches suitable for every need can be supplied. This two-row cultivator will be on special display at our store all next week. You are cordially invited to come in and see it.

SAVINGS PASSBOOKS SOUGHT BY CROOKS

Use Them to Steal Money by Forged Slips — Should Be Guarded as Carefully as Cash.

Continued vigilance in safeguarding savings pass books, as well as blank and cancelled checks, against theft by crooks, who use this material in forger operations, is urged on bank customers by James E. Baum, Deputy Manager of the American Bankers Association, in charge of its Protective Department. This department is continually vigilant in promoting means, both among bankers and the general public, to thwart the operation of bank crooks. It annually investigates hundreds of crimes against banks and is responsible for the majority of arrests among this class of criminals.

"In a large majority of cases of forgeries on checks or savings withdrawal orders investigated by the American Bankers Association, stolen blank checks or savings pass books were the forgers' chief stock in trade," Mr. Baum says. "In many instances the temptation presented through the careless handling by depositors of cancelled or blank checks or pass books so that they fell into the hands of others was the immediate stimulus for the dishonest people to commit their first criminal offense."

Banks should educate their depositors to exert the same degree of care in handling these instruments and to avoid leaving them about unguarded as they exercise in respect to actual money because they represent money, he declares.

For dealing with the bank robbery situation, Mr. Baum recommends the use of electrical alarms actuated by any tampering with the wires or mechanism and also wider adoption of the plan of state police forces now employed in a few states, declaring that last year in seven eastern states where state police forces were maintained there were only 20 bank holdups as against 164 similar attacks perpetrated against banks in five states in the central and far west, where banks are denied the advantages of the speedy and coordinated action given by state-wide police forces.

"The records of the American Bankers Association Protective Department reveal that for many years the odds in favor of state police protection have been at least 5 to 1 when measured by the experience of banks in states where efficient police protection is missing in the rural districts," he says.

THE THINKER LEADS MODERN PROGRESS

By JOHN G. LONSDALE
President American Bankers Association

THE greatest need of the world today is interpreters of our times—modern Daniels in agriculture, finance, politics, industry—where we can see through the fog and haze that enshroud our daily problems and instruct, and influence those who are either indifferent or limited in their perceptions.

Through the thinker and the interpreter, unknown situations are disclosed or puzzling conditions explained in logical light. The American people are so constituted that they can meet and combat any situation once it is known and understood. It is the unknown that comes like the thief in the night and brings disaster.

Some one has defined prosperity as something the business men create for the politicians to take credit for. But America's present-day prosperity can be defined as a product resulting from the business man's ability to study and to interpret. Huge corporations maintain research staffs and special bureaus to interpret the times for them. Disaster looms in the offing for any industry that goes blithely on its way day after day without due regard to significant trends in trade and business.

Keeping Up With Change
Leaders of finance have discovered that they cannot remain passive in an age when all the rest of the world is in a transitional stage. The modern banker not only must know about the changing styles in other lines of business, but above all must be alert to the transformations which are taking place in his own. He must be a man of keener, broader vision, because the order of the day is for larger units of service. Mergers and consolidations have taken place in great numbers. We now talk of billions where a few years ago we talked of millions.

We have only begun our changes. What disposition is to be made of the many problems that they bring will depend in large measure upon our leaders, upon the students and the interpreters who can read accurately the signs of the times, so that we may base future actions and hopes upon their wisdom. The quickest way to go to the top is to go to the bottom of things, and let us hope that among them will be found many who will not only aspire to leadership but will be successful in reaching their goal.

Lfd. vs. Lubbock Sunday Open Season In Game With Amarillo Apr. 20th

The Littlefield Cats will journey to Lubbock next Sunday afternoon where a pre-season game will be played with the Hubbers, beginning at three o'clock. The Hub city team has been reorganized this year, is under new management, and a good game is anticipated.

Open With Amarillo
The following Sunday afternoon, April 20th, the opening game of the baseball season will be played in Littlefield between the local Cats and the Amarillo ball team.

"Sled" Allen, formerly manager of the Lubbock team, is this year in charge of the Amarillo team, which is reported to be a strong aggregation

of sphere hitters and base runners. A fast game is anticipated here on this opening day.

Cemetery Association Elect Officers Monday

A meeting of the stockholders of the Littlefield Cemetery association has been called for next Monday, April 14, at 3:00 p. m. to be held in the Palace theatre for the purpose of electing a Board of Directors for the ensuing year.

Members of the Board for Directors who have served during the past year are: Pat Boone, J. W. Porcher, J. T. Elms, Pryor Hammons, J. H. Wells, J. H. Lucas, and G. P. Howell.

The present officers are Pat Boone, president; J. W. Porcher, first vice-president; G. P. Howell, second vice-

president; J. H. Lucas, secretary-treasurer.

Every member of the association is urged to be present at this meeting.

THE WAY OF LIFE

HONESTY IN BUSINESS
By Bruce Barton

I graduated from college when muckraking was in its greatest glory. The magazines and newspapers and reformers had filled our youthful minds with so much distressing information that we hardly knew whether the world was a safe place for us to step out into or not.

We looked askance on all the fellows in college who fathers had made money. To be sure, the fathers seemed decent enough old codgers when they visited us at the fraternity house. But we felt that something was dark and bad in their past somewhere.

A business man was a being without conscience or intelligence, like a slot-machine. You gave him a nickel and he gave you a nickel's worth of goods.

If he took your nickel and withheld the goods, then he was a successful business man.

We know better now. In fact, I believe it could be shown that the greatest force for righteousness in the U. S. today is nothing more nor less than the once maligned business.

Business is the greatest ally and promoter of honesty. And more and more I have come to feel that Honesty is, after all the corner stone of all the virtues.

Nothing has impressed me more than this: Get to the top of a big business enterprise, and nine times out of ten you will find an idealist.

You will find a man that has long since ceased to be interested in mere money making who is staying in bus-

iness because of what he wants his business to do for his employees, his community and his country.

I do not say that business is perfect. Far from it.

But I do say the time is past when the young man who goes into business needs to feel that he is making a selfish choice—a choice that cuts him off from service to his fellow men.

"Be not slothful in business," said St. Paul, "fervent in spirit; serving the Lord."

Many a man building a big business in America, has, as a by product of his building, strengthened the character and lifted the ideals of hundreds of his associates, and helped them in the regeneration of a whole community.

And the number of such men—the idealists of BUSINESS in America—is increasing very fast.

Have your printing done at home.

It's wise to choose a SIX!

After all, it is a perfectly simple matter to decide which automobile to buy. Only two questions must be answered to your satisfaction—

- First: Which car gives the most for my money?**
- Second: Which car represents the soundest investment in satisfaction and pride of ownership?**

Six-Cylinder Motor

In buying a low-priced car consider the following facts:

It is wise to choose a six-cylinder motor—for six cylinders are necessary to take out vibration and roughness. Six-cylinder smoothness will save the motor, the whole chassis, the body, the passengers, and the driver.

The Chevrolet is a six. And yet it sells at a price that anyone can afford to pay.

This very low-priced car lasts longer, not only because of fine materials and oversize parts, but also because it is a six. Its big, smooth, 50-horsepower six-cylinder engine is always "taking it easy." There is no feeling of strain at any speed.

With all its six-cylinder smoothness and power the New Chevrolet Six uses no extra gasoline or oil. Efficient design makes this possible—overhead valves—high compression power from any fuel—very latest high-acceleration carburetor—close-fitting, long-

wearing pistons—crankcase ventilation—air cleaner. You can really have extreme economy and still satisfy your ideal of truly modern transportation.

Chevrolet economy is also the mark of Chevrolet sincerity in manufacture. To illustrate:

Chevrolet valves are readily accessible and adjustable. This saves replacing valves, and also makes it possible to preserve efficiency.

Fully Enclosed Brakes

A similar example is found in Chevrolet's molded brake lining—reducing the necessity of frequent replacement, and consequent expense.

Furthermore, there is a rear axle inspection plate on the new Chevrolet Six. This makes it unnecessary to take the axle apart to examine it or clean it.

The Chevrolet Six is full of such evidence that true motor car economy comes from advancement and refinement.

Like the finest cars, the Chevrolet Six provides the comfort and protection of four springs controlled by hydraulic shock absorbers. They are mounted lengthwise, in the direction of car travel, and self-adjusting spring shackles maintain quiet.

All prices f. o. b. factory, Flint, Michigan

Safety Gasoline Tank

With modern low suspension and extra wheelbase, the Chevrolet Six has excellent proportions.

Its impressive front view is distinguished by the genuine honeycomb radiator, another mark of modern cars.

The gasoline tank is in the rear, for safety and finer appearance.

Chevrolet beauty instantly says "Body by Fisher"—costly car style, with the permanent quiet of Fisher composite steel-and-wood construction.

Body by Fisher also gives you a genuine non-glare windshield, adjustable driver's seat, more space, deeper cushions, clearer vision, finer fabrics and fittings.

There is just as much extra value everywhere in the car. BY ANY STANDARD the Chevrolet Six is the greatest value in the low-price field.

It is wise to choose the Chevrolet Six with its six-cylinder valve-in-head motor... with full scientific equipment... with its Body by Fisher... with four long semi-elliptic springs, long wheelbase, low suspension, rear-mounted gasoline tank, honeycomb radiator and all the many other features of this day and age.

See your nearest Chevrolet dealer today and drive a Chevrolet Six. Ten minutes at the wheel will show you what a remarkable difference six cylinders make.

Bell-Gillette Chevrolet Co.

Littlefield, Texas

LAMB COUNTY LEADER

Published every Thursday afternoon at Littlefield, Texas.
Subscription: \$1.50 per year; 75 cents for six months.
Advertising rates given upon application.

No. Entered as second class matter May 24, 1923, at the post office 27 at Littlefield, Texas, under the Act of March 3, 1897.

JESS. MITCHELL, Editor and Publisher.

Subscribers who change their addresses, or fail to get their paper, should immediately notify this office, giving both new and old addresses. Communications of local interest are solicited. They should be briefly written, on only one side of the paper, and must reach this office not later than Wednesday noon of each week. The right of revision or rejection is reserved by the publisher.

Advertising that does not show in its text or typography that it is paid for must be marked as an advertisement. All local advertisements remain in this paper for the time specified or until ordered out. All notices, matters not by whom nor for what purpose, if the object is to raise money by admission fee or otherwise, is an advertisement and when sent in for publication must be paid for at the regular advertising rate per line for each issue printed.

Obituaries, cards of thanks, and resolutions of respect will also be charged for at the same rate.

Any erroneous reflection upon the character, standing or reputation of any person, firm or corporation which may appear in the columns of the Littlefield Leader will be gladly corrected upon its being brought to the attention of the publisher.

In case of errors or omissions in local or other advertisements, the publisher does not hold himself liable for damage further than the amount received by him for such advertisement.

Political Announcements

POWER OF "PIN MONEY"

By-products, which for many years were turned over to the farmer's wife as spending money, are now putting the farms of the country on a cash instead of credit basis. This is shown by government reports from sections of the middle west in which indicated a decline in credit purchases and a corresponding gain in cash sales by retail merchants in the agricultural districts.

Men engaged in food production declare that the produce end of farming is revolutionizing the agricultural industry and packing house business. One large packing house now has over 100 produce stations scattered over the middle west where poultry, eggs, milk and cream are bought. Instead of the old haphazard marketing farmers are now marketing eggs twice a week for cash, separating their cream from the milk and selling the cream twice a week for the cash, and feeding the skimmed milk to hogs, chickens and other animals, which are marketed at longer periods—but all for cash.

All this has made a marked difference in purchasing by the farmers. Instead of having to be carried on a credit basis for nine months, he is in most cases paying cash for what he buys. And development of roads and use of the automobile has helped him. So it looks as though the very thing that rural housewives around Littlefield once depended upon for "pin money" are going to prove the best investment on the farm.

THIS IS THE MONTH

Talking to a Littlefield man who has done a lot of painting in his life he tells us that those who follow the trade of housepainting always prefer to do it in the early spring. The reason, he says, is that insects are not then flying around and alighting on the paint as it is being put on, or sticking to it before it has a chance to dry. "It makes a cleaner job and saves a lot of annoyance to get at it early," he says.

We pass the tip on for what it is worth, and it certainly ought to be worth something to those who have a paint job to do but who still are postponing it for one reason or another. Get at it now—the ideal season of the year. By doing it now you also get additional protection from spring rains.

The same goes for whitewash. Apply it now before the insects get started, and they won't be so plentiful during the later and warmer months.

April is the ideal cleanup and paint-up month of the year. The end of it ought to see our town shining and in better shape to ward off disease epidemics than it has ever been before.

Another reason why marriages fail is because so many girls never outgrow their faith in Santa Claus.

LITTLE LEADERS

A New York scientist says kissing is dangerous. It is in Littlefield if the girl isn't willing.

Our advice to Littlefield boys is not to propose to a girl in flowery language. You might get nipped in the bud.

Instead of trying to patch up an old quarrel some folks around Littlefield would rather make a brand new one.

Many a Littlefield man who boasted he could read a girl like a book has found out after marrying her that the binding costs more than the text.

Our idea of the meanest husband in Littlefield are those who won't make enough money to give their wives the chance to turn up their noses at their neighbors.

Another thing that might lighten the gloom of Littlefield married life is for them to develop a chicken big enough so father can get something besides the neck when they have company.

The Family DOCTOR

JOHN J. JACOBSON, M.D.
DRUG-HABITS

Here is a topic that permits no "beating around the bush." I shall therefore speak plainly, with no intent to wound,—rather would I warn with all the vehemence I am able to summon: shun the narcotic drug as you would a rattlesnake!

I am told that those poisons are invading even the highschools of our land—chiefly morphin and cocaine. I know that the world has had narcotic problem for ages; the opium fields of Asia has been active in producing "living dead men" and women. Dope-smugglers are courting the seas everywhere; the profits are fabulous; the demand unceasing. The League of Nations in the hope of the world at large; education in the home is the hope of our own people.

I have seen a morphin addict take enough of the drug in one day to kill 16 men! The opium habit will invariably

make a liar and a thief of an honest man or woman. I could fill a book with experiences in dealing with the devilish cunning of "dope-heads."

Morphinism towers above alcoholism as a demoralizer, as Pike's Peak towers above the low foot-hill. I do not believe I have ever known a confirmed addict to be cured of the habit—a mighty good reason for avoiding the first dose as you would shun a viper.

I have seen young men waste a comfortable fortune on the seductive narcotic, land in jail, forfeit the respect and good-will of both relatives and friends, and for themselves reap the intolerable suffering that invariably goes with failure to secure an increasing supply of the drug.

For myself, as a physician, I have never given a dose of one of these dangerous things, without acquainting all concerned as to what I did—and warning them that repetition brings a deadly habit. The Harrison Narcotic law is one of the finest on our Federal statute books. I believe it is being enforced as far as brave and discerning officers can enforce; but the cunning of the silent victim is unscrupulous—uncanny. Eternal vigilance is the price of liberty!

BE LOYAL
To Your Town
as well as to your Country
PATRONIZE YOUR LOCAL MERCHANTS

More than 104 billion dozen eggs were marketed in 1928 through nine cooperative egg-marketing associations. All the larger associations are west of the Mississippi river. In the East such cooperative associations are numerous but do not handle large volumes of business.

For variety in menus in which pork is the main dish, good flavors are celery, cabbage, cymbalings, green peppers, parsnips, sweet potatoes, apples, and pineapple. These may be cooked in any of the ways you are accustomed to serving them, and used singly or in combination.

LOOK Ahead!

Every worker knows that such things as disablement, unemployment, old age, and emergencies exist, and those who are wise guard against misfortune by depositing part of their earnings in the bank EVERY WEEK.

The Bank needs the Working Man—and the Working Man needs the Bank.

WE'RE AT YOUR SERVICE COME AND LET'S TALK IT OVER

No matter your character of business, we can be of service to you and will always be glad to do so.

LITTLEFIELD, TEXAS

WE STRIVE FOR A MAN TO MAN RELATIONSHIP THAT WILL PREVENT MISUNDERSTANDINGS, MERIT MORE CONFIDENCE, AND CREATE FRIENDSHIPS.

High in power—moderate in weight --and therefore SUPERIOR in PERFORMANCE

An 85-horsepower engine makes the New Oakland Eight the highest powered car produced for its weight and size, only racing cars excepted. Because it develops one horsepower to 37 pounds of car weight, few cars can match the New Oakland's speed, pick-up and power. This ratio of power to weight accounts for its superior performance. . . . Furthermore, the inherent eight-cylinder smoothness of the power plant is intensified by a complete down-draft fuel system—new type cylinder heads—a short, very rigid crankshaft—and laminated steel spring and rubber engine supports. . . . The New Oakland Eight is also very economical to own. Its gasoline mileage equals that of many sizes of compar-

able size. Its sound basic design assures dependability and long service. And the extreme accessibility of its parts keeps maintenance costs at the minimum. . . . Come in and see this car with smartly tailored bodies by Fisher. It will convince you that you can now own an exceptionally fine eight of a very moderate price.

\$1045
AND UP

The New Oakland Eight, \$1045 and up, f. o. b. Pontiac, Michigan, plus delivery charges. Low cost Hydraulic Shock Absorbers included in list price. Bumpers, rear leader guards and spring covers extra. General Motors Time Payment Plan available at minimum rate.

Consider the delivered price as well as the list price when comparing values. Oakland delivered prices include only authorized dealers' freight and delivery and the charge for any additional accessories or financing desired.

**CHOICE BITS OF
NEWS FROM OTHER
TOWNS NEAR HERE**

SUDAN
I. G. Marrow was elected Mayor
last week over S. E. Miller.
The Stewart Furniture & Under-
taking Co., have purchased a new
ambulance.
Work is progressing rapidly on the
new high school building.
More than 200 volumes of books
have recently been added to the
school library.
Gas was turned into the city mains
last week and several connections
have already been made.

MULESHOE
The city water tower has been re-
painted and the city's name emblaz-
oned on its heights.
W. F. Rayburn, of Marlow, Okla.,
will locate a cotton gin here.
Plans are being discussed for a
farmers elevator here.
There have been 38 to sign up for
a local golf club.
The Henington grocery was robbed
here last week and \$18.00 taken from
the cash register.

Muleshoe is much interested in the
proposed railroad line to be built
here from Hale Center.

MORTON
Geo. E. Lance made a trip to Ft.
Worth and St. Louis, Mo., in interest
of a railroad for Morton.
Geo. E. Jones, of Abilene, proprie-
tor of eight stores, has purchased a
lot here and will put in a general
store.
Morton has organized a baseball
team, Gordon Morrow, manager; Alton
Nicholson, captain.
The Slaughter-Westbrook wildcat
well, three miles south of Morton, is
reported to soon resume drilling. It
is down 5,000 feet, and will go on to
6,000 feet.

**LOCAL AUTOMOBILE COMPANY
JOINS NATION SCRAP EVENT**
The Bell-Gillette company joining
in the national movement of scrap-
ping automobiles that have passed be-
yond their period of respectable and
efficient service have, during the
past month scrapped 26 old cars of
different makes.
Very little of these cars are worth
keeping as extra parts, said Mr. Gil-
lette, most of them going to the city

dumping grounds. That they all had
a good history, Mr. Gillette suggest-
ed there could be no doubt—no mat-
ter what name plate they bore on
their radiator. In other words, he
said if they could talk they could
probably tell some good front page
newspaper stories which if the editor
published might land him behind the
bars.

Fifteen million dollars worth of old
cars have been slated for scrapping
purposes this year by auto companies
over the country, it is said. Some of
these cars might give more service,
but in the interest of highway safety
to passengers they are being broken
to pieces and hauled out to wrecking
grounds.

**2,502 DOCTORS IN TEXAS MAY
PRESCRIBE LIQUOR—1,000,800
PINTS PER YEAR SHOWN**

Austin, Mar. 24.—There are 2,502
physicians in Texas holding state per-
mits to prescribe liquor, according to
the annual report of the comptroller's
department on administration of the
Dean law.
Under this, with each physician en-
titled to write 400 one pint prescrip-
tions per year, there can be legally
dispensed 1,000,800 pints of medica-
l whiskey in Texas each year.

There were 762 drug stores holding
state permits for sale of liquor under
prescription. There were 109 drug-
gists entitled to purchase and use al-
cohol. Seventy-three firms held per-
mits to purchase and use alcohol in
manufacturing non-beverage articles,
and 251 entitled to acquire it for
scientific and laboratory purposes. 84
hospitals held permits and 13 whole-
salers. No distillery or manufacturer
of liquor held a Texas permit.
Administration of the Dean law last
year brought in \$27,215 revenue to
the state. The permits were issued at
a charge of \$5 each, and supplies fur-
nished in connection with the red tap
of administration brought in 7,550
more.

MODERNIZING FOOD

The food industry is modernizing
itself. In the past the huge machine
that brings products to the kitchen has
accomplished its purpose only with
waste and lack of coordination, unaid-
ed by modern principles of production
and distribution.
Now several great companies have
announced the purchase of plants
manufacturing non competitive pro-
ducts. A single plant is to do the work
once done by twenty. Costs are to be
cut by elimination of duplicate facili-
ties and the economies that accom-
pany mass production.

This is a logical advance over an-
tiquated methods. Food, the most basic
of all human necessities, should en-
joy the advantages of the industrial
principle that have forwarded the pro-
gress of the electric, the automobile,
the clothing and many other great in-
dustries. The housewife of the future
will receive a better product at a low-
er price, as mass production and dis-
tribution are applied to the manufac-
turing and marketing of food.

**STATEMENT OF THE OWNER-
SHIP MANAGEMENT, ETC., RE-
QUIRED BY THE ACT OF CON-
GRESS OF AUGUST 24, 1912.**
Of Lamb County Leader, published
weekly at Littlefield, Texas, for Apr.
1930.
State of Texas,
County of Lamb.

Before me a Notary Public in and
for the State and county aforesaid,
personally appeared Jess Mitchell who
having been duly sworn according to
law, deposes and says that he is the
editor and owner of the Lamb County
Leader, and that the following is to
the best of his knowledge and belief,
a true statement of the ownership,
management, etc., of the aforesaid
publication for the date shown in the
above caption, required by the Act of
August 24, 1912, to-wit:

That the name of the publisher, editor,
managing editor and business
manager is Jess Mitchell, Littlefield,
Texas.

That the owner is Jess Mitchell.
That there are no bondholders, mort-
gages or other security holders of
any kind.

—JESS MITCHELL.
Sworn to and subscribed before me
this 3rd day of April, 1930.

**Easy! Quick! Glycerin
Mix for Constipation**

Simple glycerin, buckthorn bark,
saline, etc., as mixed in Adlerika, re-
lieves constipation in two hours! Most
medicines act only on lower bowel,
but Adlerika acts on BOTH upper and
lower bowel, removing poisons you
never thought were in your system.
Just ONE spoonful relieves GAS, sour
stomach and sick headache. Let Ad-
lerika give stomach and bowels a
REAL cleaning and see how good you
feel! —Stokes & Alexander Drug Co.

THE TEST OF PROGRESS

The test of progress is whether or
not it benefits the average person. In
past centuries the greatest progressive
movements customarily benefited on-
ly the nobility and aristocracy. Social
or scientific discoveries seldom touch-
ed the lives of the great body of citi-
zens.

Our American progress has scatter-
ed its principal benefits the other way.
It is the every-day person whose life
has been enriched and made happier
by the great industrial development
of this century. The automobile, elec-
tricity, the radio—such agencies as
these have revolutionized civilization.

We live in an age where prosper-
ity belongs not to a single ruling class
but to every worker in every field of
endeavor. No discovery of the time
has failed to do its share, great or
small, in the social and economic pro-
gress of the average person. The United
States is in the midst of the great-
est period of real progress in world
history.

The Little Red Schoolhouse that used
to turn out leading business men
and statesmen, is complained of now
for not producing football players.

PEP PARAGRAPHS

J. F. Gerik and J. E. Stengel brought out a truck load of sheep troughs from Whitharral last week. It is reported that Messrs. Gerik and Stengel have contracted for John Scott's lamb crop for fall delivery.

We are sorry to hear that Mr. and Mrs. W. O. Fortenberry and family contemplate moving to Monroe, soon. Mr. Fortenberry it is said, has bought a gin near that place.

J. A. Brogdon bought a new Whippet six last week. Miss Elizabeth Lupton bought a Ford coupe.

N. D. Welty, of Hereford, visited the family of H. C. Welty last week.

H. O. Mahoney accompanied from Kansas, by a young man who acted as chauffeur for him, visited his

daughter, Mrs. W. P. Lupton, last week.

H. H. Flood recently bought a new Chevrolet six.

W. E. Smith recently moved from Comanche, Oklahoma to this vicinity.

Little Margaret Demel was quite ill last week.

Mrs. G. C. Hills was a supper guest of Mr. T. J. Sparks last Thursday night.

C. T. Logsdon and F. S. Murphy visited the dentist last week. Each had an aching molar extracted.

At the trustee election held last Saturday four trustees were to be elected. Three were elected, J. E. Stengel, J. F. Albus, and J. F. Gerik. For the fourth trustee, M. J. Demel and G. C. Keith tied.

The following pupils in the fifth and sixth grades won places on the spelling roll of honor for the month: Alvin Robert Gerik, Wilma Gerik, John William Stengel and Clara Beth Williams.

Reverend Father Mosler, of Bomarton held Divine services at Pop Sunday.

Community Club Meeting

The Pop Community club held its regular meeting last Friday. An interesting program was given. The winners in declamation from the Pop school gave their selections, and Dr. "Cureall" demonstrated by means of shadow pictures on a sheet, his marvelous ability as a surgeon. With an astonishing collection of surgical tools which included butcher knives, whetstones, hack saws, pinchers and pipe wrenches, he performed wonderful operations, removing many strange foreign articles from the "innards" of his patients. Bottles of Jake, old shoes, live chicks were skillfully removed and yards and yards of intestines were drawn out and carefully put back. The patients were then sewed up with a darning needle, after which they went on their way rejoicing. F. S. Murphy making lightning changes of costume, acted the parts of the various patients, while H. J. Groemer acted the part of "Dr. Cureall," as one to the manner born. The club voted to spend fifteen dollars in getting appropriate prizes for the pupils winning places in the interscholastic meet. Mrs. G. C. Keith, Miss Elizabeth Lupton and F. S. Murphy were appointed as a commit-

Stranger Than Fiction

Esther Leve, 21, was separated from her parents at 7 and brought to America. Her father hunted all over Europe for her. In the press clipping bureau in Chicago where she works she found his name and address and is starting for Palestine to join him

to select the prizes.

Officers were elected for the next year. H. J. Greener was elected president and G. C. Keith, secretary-treasurer. The following committee were appointed for the next quarter program: Mrs. L. H. Albus, Mrs. A. G. Jungman, and Miss E. Lupton, social; Mrs. H. J. Greener, Mrs. W. T. Jungman and F. S. Murphy; Economics, G. C. Keith, M. J. Demel and J. E. Stengel.

Observing the Rules Of The Game of Life Makes Better Men and Women

By Mrs. Vernie V. Wright

Noting the stand that some of our colleges are lately taking in regard to football, sets in mind a train of thought which may or may not have occurred to the most of us.

It goes without saying that it is a wonderful thing to possess the health and strength and prowess that go to make a good football player; but the very things that make of one young man a power in the field of athletics and a character that inspires admiration in the hearts of his fellow men, make of another a ruthless marauder who, in the exercise of his own degraded impulses, sweeps everything before him, absolutely disregarding the ethics of the game, bringing unmerited suffering to his innocent victims and to the hearts of his loved ones.

So, when the time comes that the youth of our land are encouraged in the pursuit of an education for the sake of the high privileges which result therefrom, which stresses an excellence in the gentler arts, rather than the development of might and main which may possibly be construed by some as of more importance than intellectual development; when the time comes, then the pendulum will begin to swing the other way.

This condition will show its influence upon the wave of ruthless crime which is now sweeping our land and the numbers of high school boys and girls, and college young men and young women who have of late years been turning their talents to perverse lines of conduct in an alarming increase, will find other and better accomplishments.

Nor need this interfere with clean athletics, for certainly none has a better opportunity for right living than the one whose physical self is perfect, who is able to make quick, clean decisions, who observes right on thru life the rules of the Game.

LUM'S CHAPEL

The B. Y. P. U. course that Rev. Phipps has been teaching at Lum's Chapel, closed Monday night. Most everyone will get a diploma. We are going to make our B. Y. P. U. a standard B. Y. P. U. It seems as if all the young people are interested in helping to do this.

Many of the people from this community attended singing at Littlefield Sunday.

Mr. and Mrs. J. H. Hodges and family, Mr. and Mrs. Willie Bryant and daughter, Welty Theiford, John Dee Jackson, and George Lightsey took dinner with Mrs. Jessie Crow and family.

Miss Iris New took dinner with Misses Inez and Myrtle Nance, Sunday.

Earl, Floyd and John Dee Jackson visited Mr. and Mrs. Emzy Hobbs, Saturday and Sunday.

Mr. Malone and children have returned home after a week's visit in East Texas.

Mr. and Mrs. Sinclair and family, of Eric, Okla., are visiting Mr. and Mrs. J. E. Montgomery and family, of Littlefield.

Mr. and Mrs. Otis Kilcrease, Misses Lois Hodges, Sudie and Mary Kate Lightsey, Inez Crow, Valarie Humphries and Bill Lightsey took dinner with Mr. and Mrs. Hobbs, Sunday.

Buy it in Littlefield.

FIRST BAPTIST B. Y. P. U.

A hearty group of young people attended Senior B. Y. P. U. of the First Baptist church, Sunday evening at seven o'clock and enjoyed the program, "Growing Through Giving" rendered by the Junior group.

Miss Mary Lois Greene and Mr. Hubert Rook put their membership in and we are proud of these two young people as they are enthused and ready to put forth every effort in helping to better our Union.

An effective lesson, "Using the Bible as the Guide Book of Life," will be given by the Senior group this coming Sunday evening as follows:

Destination of Our Journey, Eva Joe Carmichael.

The Bible A Road Map, George Rothell.

Some Markers Along the Way, Thelma Warren.

Difficulties and Dangers Along the Way, Thelma Killough.

Our Safe Arrival Assured, Bessie Bellomy.

A Traveling Companion is Promised, Otis Smith.

Quartet, Arranged by Troy Howton.

Our B. Y. P. U. is growing by leaps and bounds, and very one is more enthused than they have ever been. We believe the young people would be more interested to come if they just knew how much good we are getting out of B. Y. P. U. Meet with us Sunday evening.—Reporter.

Heads Largest Bank

Winthrop W. Aldrich, chosen president of the Chase National, now the world's largest bank, is a son of the late Senator Aldrich of R. I. and brother-in-law of John D. Rockefeller, Jr.

No man is old until he gets to the point where symptoms are the only thing he likes to talk about.

A Brand New General Purpose Tractor

That's far ahead of anything you've ever seen

NOW you can get the tractor you've always wanted—a powerful, light weight, fast moving and easy to handle tractor that is as practical for planting and cultivating row crops as it is for plowing, threshing and the usual run of tractor jobs. It's the new Model "CC" Case—a real general purpose tractor.

The rear wheels can be quickly and easily set wider apart to fit the rows when cultivating, and just as easily changed back to plowing and disking width.

Two foot brakes that work on the differential,

independent of the steering device, aid in handling the tractor on slopes and over rough land. You can hold either of the rear wheels and pivot on it when you want to make a short turn.

You can sit down, stand up or change about as you choose. The controls are conveniently placed. The steering gear is very fast. The front wheels respond quickly to the slightest turn... all in all the tractor is remarkably easy to operate.

You will be as enthusiastic about this tractor as we are. Come in and let us tell you more about it.

Full Line of Quality Farm Machines

AVERY BLUE RIBBON SWEEPS

Modern Sweeps for modern farming

Having sharp cutting edges, and just the right shape and "set," Blue Ribbon Cultivator Sweeps are ideal for modern shallow cultivation. They move smoothly through the earth, destroy the weeds and produce a much desired top mulch.

Blue Ribbon Sweeps excel because they are skillfully designed, formed with special dies and machines, and treated with precision gauges. Also because they are made of purest, finest steel, which assures perfect securing, a bright land polish. Edges that stay sharp.

Blue Ribbon Sweeps have a self-sharpening tendency, but if dulled by extreme conditions, they are easily sharpened and hardened and their original temper restored. Or you may sharpen them with file or stone, without removing them from the cultivator.

Try Blue Ribbon Sweeps this year. You'll find they work better, require less upkeep expense, and last much longer. We'll gladly show them to you.

Back Quit Hurting

"I was in a very weak condition from a serious sickness," writes Mrs. I. Leonard, 571 Joseph St., New Orleans, La.

"I was so weak, I wanted to sleep all the time. I did not have strength to do anything. My back ached nearly all the time. I was just in misery. My mother told me I must arouse myself from the sleepiness, and take something to help get my strength back. She had taken Cardui and had been helped, so I decided to take Cardui, too. After my first bottle, I could see that it was helping me. I took four bottles at this time. My strength came back and I gained weight. Pretty soon, I was my old self again. My back quit hurting, and I haven't had any more trouble since I took Cardui."

**MEMORIAL SERVICES AT
 THE SACRED HEART CHURCH**

April 7th was the anniversary of
 the death of Mrs. Aloysia Dvorak,
 mother of the Rev. Charles J.
 Dvorak, pastor of the local Catholic
 church. The day was commemorated
 by a solemn Requiem mass that was
 sung by the pastor, Father Dvorak,
 assisted by the Rev. Fintan O. S. B. of
 Nazareth and the Rev. Rupert Schin-
 dler, of Rotan, as deacon and sub-
 deacon respectively. The Reverend
 G. A. Boeckman of Lubbock was the
 Master of Ceremonies, and after the
 services preached an inspiring ser-
 mon. The Reverend Paul Mosler, of
 Seymour, directed the choir, while
 Mrs. Rogers Willette presided at the
 organ. The congregation attended
 in full numbers. After the services
 a dinner was served to the visiting
 clergy in the parsonage.

Wheat bran contains much phos-
 phorus, a medium amount of protein
 and is of a bulky nature. These char-
 acteristics make it a valuable ingredi-
 ent of all dairy rations.

COLLEGE NEWS

A Tangle Party

Miss Virginia Conner was hostess
 at an interesting tangle party given
 at her home on the campus Saturday
 night. Her friends were met at the
 door by Mr. and Mrs. Johnnie Pol-
 lock, who assisted Miss Conner and
 who presented the guests with red
 and white crepe paper caps. All en-
 joyed various games including tangle-
 ed contests and music of all kinds.

Refreshments were served to the
 following guests: Misses Viola Fisher,
 Oleta Stermer, Karrol Kitebing,
 Thelma Warren, Josephine and Sibyl
 Glenn, Lois Farquhar, Maudie Joe
 Fields and Erna Simmons; Messrs.
 Clifton Winans, Fanny Donnell, J. W.
 Bell, V. V. Vance, Lester Wall, E.
 S. Rowe, Jr., Emory Jones, William
 Wingfield, J. L. Wingfield, Aubrey
 Wilf, J. D. Porter, Mr. and Mrs. E.
 W. Wooten, Mr. and Mrs. Johnnie
 Pollock, and the hostess, Miss Vir-
 ginia Conner.

The students are all doing good
 work in spite of the epidemic of
 Spring fever which seems to prevail
 these warm days.

E. S. Jelley, an India Missionary,
 visited on the campus again this week
 end.

Miss Margaret Porch is leaving for
 her home in Ferris, Wednesday. She
 has been a student of Littlefield col-
 lege taking a course in the Commer-
 cial department.

R. O. Conner addressed the Col-
 lege assembly last week. The cen-
 tral point of his subject was get-
 ting knowledge, and with the getting,
 get wisdom and understanding. While
 he urged the importance of knowl-
 edge, he insisted that without wisdom
 and understanding it was of little
 value; arguing that the text or cur-
 ricula when persistently followed
 would furnish knowledge, but wis-
 dom and understanding was the abil-
 ity of the student or the man of af-
 fairs, to properly handle the knowl-
 edge possessed.

Two of the teachers, Misses Finney
 and Strange spent Saturday in Lub-
 bock shopping.

Mr. and Mrs. Marion Armstrong
 and William Meade visited friends on
 the campus Thursday. Mrs. Arm-
 strong was formerly Miss Aileen Lav-
 ender, a student of Littlefield col-
 lege last year.

R. O. Conner left for Dallas last
 Friday on a business trip for the col-
 lege. He was accompanied by Mrs.
 Conner and son, Roy, who will spend
 a week visiting among friends and
 relatives.

W. M. U. MEETING

The W. M. U. met in their respec-
 tive circles Monday afternoon in an
 industrial meeting.

Circle 1 met with Mrs. Joe Grizzle
 Circle 2 with Mrs. Ike Griffin, and
 Circle 3 with Mrs. John Woodmoor.

The ladies made tea towels for the
 kitchen at the church. Also a busi-
 ness meeting was held.

Next Monday afternoon the circles
 all come together in a "Royal Ser-
 vice" program and social. This
 meeting will be held in the home of
 Mrs. R. E. McCaskill, and at this
 time the ladies from the country will
 be special guests. The following pro-
 gram to be rendered.

- Song.
- Prayer, Mrs. Happy Jordan.
- Reading, Mrs. Ike Griffin.
- Touring together over Foreign Mis-
 sion Fields, conducted by Mesdames
 Boles, Hazel, Jess Seale, M. E. Jones,
 and Ike Griffin.
- Prayer, Mrs. Howard.
- Vocal Duet, Mesdames Hopping
 and Jordan.
- Dismissal Prayer, Mrs. Joe Grizzle.

MRS. LINTON DIES

Mrs. Etta Ann Linton, who lived
 with her son, H. P. Linton, of Whit-
 harrah, died April 6, at 69 years of
 age. Pneumonia was the cause of
 her death.

Mrs. Linton is survived by a daugh-
 ter, Mrs. J. E. King, of Fort Worth;
 two sisters, Mrs. I. W. Simms, of
 Tulsa, Oklahoma; Mrs. Ella Sharp, of
 Pasadena, California; and three
 brothers: W. N. and W. L. Town-
 send, of Durant, Oklahoma; and T.
 L. Townsend, of Lockwall.

Arrangements were made here by
 Hammons Brothers for the funeral,
 and Mrs. Linton's body was shipped
 to Fort Worth for burial.

PIERCE DIES AT FIELDTON

G. W. Pierce of Fieldton, died
 Tuesday, April 1, at the home of his
 son-in-law, Perry Tooley, where he
 had been visiting for some time. His
 son, G. C. Pierce was present when
 death occurred.

Mr. Pierce was taken overland to
 Dickens City for burial. Hammons
 Brothers were in charge of arrange-
 ments.

Lions Win In Benefit Game With Rotarians Played Last Friday

Last Friday afternoon with the sun beaming down in all of its fullness, the local Lion's club marched their base-ball men out to meet the challenge sent them by the Rotarian organization who staged a neat performance for seven innings.

Happy Jordan did mound duty for the Lions with Etter and Al Mueller doing the receiving. For the challengers, Potter, Mayhew and Sales took their turn on the hill, with Cheater and Potter alternating as catchers.

The first inning looked like jam up base ball but in the second the fire-

works started with the Lions doing the bombarding to all corners of the lot, with a total of six hits, two walks, an error and a fielders choice counted nine tallies.

The Rotarians were not content so came back in the 3rd and 4th to score enough runs to tie the count at nine all. The Lions found pitching to their liking in the fifth and rallied again to boost their score to 13 for quite a safe margin, which seemed to settle the question as to who had the better of the argument while on the ball field. The final score read Lions 22, Rotarians 11.

SOUTHWEST NEWS

Mr. and Mrs. Joe Witsche and son Garelle, spent last Wednesday evening with J. W. Scheuer and family.

Sanders Lee Mills and family, and Mr. and Mrs. Bob Cox, visited in the Mattix home, Sunday.

A Vermont editor says the best novel a man can read is his own bank book. But we never cared for sad endings.

If the weather bureau wants to know if spring has really come, it might find out if the boys are playing marbles on the sidewalks.

Littlefield Folks Have Variety of Ways For Sunday Amusement and Recreation

What to do on Sunday is always more or less of a problem in a small town, and Littlefield seems to be no exception.

Of course, there are a large number of people who go to church and Sabbath school; but those who do so do not indulge the entire population by any means. There have been a few heard of who forget to get up until the ministers are about to pronounce the benedictions—and, of course, its too late then to begin to think about donning the Sunday regalia.

After dinner, particularly if the weather is favorable, there are lots of folks and families who bring out the flivver or higher class bus and hie out for some favorite country side spot, where with a portable victrola and a few sandwiches they rusticate in pleasure until old Sol begins to sink in the Western horizon. There are still others who content themselves in just driving up and down the pavement of Main and adjoining streets up and down, never seeming to weary of the constant roundabout routine—especially if they have congenial companionship.

Recently there have been hundreds of people who have been enjoying matinee pictures at the local theatre, and many favorable comments have been made of the highly interesting reels that have been shown. Plenty of these folks who now go to the picture show at home were in the habit of journeying to Lubbock on Sunday afternoons for the same purpose, and to them the local accomodation is greatly appreciated.

Just how many people remain at home on Sunday afternoons, reading their Bibles or other sacred or secular literature, is a very much mooted question, tho it is known there are many who do so to both their spiritual and intellectual enjoyment; but if it is safe to say that the majority of folks who own automobiles and have the money to buy gas for them, use them as a means of conveyance for the enjoyment of some other pleasure.

An Englishman visiting in this country one time remarked that he had discovered that all of the automobiles parked along the highways had not run out of gas. That is doubtless true, and, sometimes there are very important reasons for their gas conservation, tho few of them ever find their way into newspaper print. The Leader might be safe in publishing some of them; but there are others which might bring about serious trouble in more ways than one.

It is a credit to Littlefield to know that when Sunday night comes a large number of its citizens are found in some of the churches, and not infrequently more than one of these churches is filled to capacity, especially if there is a new preacher or some special program in order. Churches are always an asset to any town or community than the particular creed they emphasize of the brand of religion they stress.

After all, spending Sunday in Littlefield is largely a matter of personal choice. There are no "blue laws" nowadays, and, so long as folks do not interfere with the liberty and desires of other folks, do not crack the statutes too severely, everyone gets along pretty well and is ready to go to work Monday morning.

THE STATE OF TEXAS: COUNTY OF LAMB:

WHEREAS, by virtue of an execution and order of sale issued out of the District Court of Lamb County, Texas, on a judgment rendered in said court on the 23rd day of December, A. D. 1929, in favor of L. R. Crockett and against W. S. Brandon and Julia T. Brandon, said cause being numbered No. 470 on the docket of said court, I did, on the 8th day of April, A. D. 1930, at 9:30 o'clock A. M., levy upon the following described tract or parcel of land situated in the City of Littlefield, in Lamb County, Texas, to-wit: Being all of Lots Nos. One (1), Two (2) and Three (3), in Block No. Sixteen (16), in the said city of Littlefield, in Lamb County, Texas; according to the map or plat of said city, recorded in Vol. 6, Pages 500-502, Deed Records of Lamb County, Texas, reference to which is here made for a more particular description of said land; the same having been so levied on by me as the property of the said W. S. Brandon and Julia T. Brandon. The said Order of Sale having been issued on said judgment foreclosing the vendor's lien on said land, in favor of the said L. R. Crockett. And on the 6th day of May, A. D. 1930, being the first Tuesday in said month, between the hours of 10:00 o'clock A. M., and 4:00 o'clock P. M., on said day, at the courthouse door of said county, I will offer for sale and sell at public auction, for cash, all the right, title and interest of the said W. S. Brandon and Julia T. Brandon in and to said property.

Dated at Oton, Texas, this 8th day of April, A. D. 1930.

LEN IRVIN, Sheriff Lamb County, Texas. Apr. 10, 17, 24, 1930

The strangest feature of the new parrot disease is its failure to get an appropriation from Congress.

THE NEW PLANET

Percival Lowell, one of the worlds greatest astronomers, died ten years ago. Before his death he showed his colleagues in the Lowell Observatory at Flagstaff, Arizona, a book full of complicated mathematical calculations. He pointed to a spot on the chart of the stars and said:

"Here, or hereabouts, there is a planet as yet undiscovered, part of our own Solar system. These calculations prove that it must be there. Watch for it."

The greatest astronomers in the world have been watching for the Lowell planet ever since. The other day a farm boy from Burdett, Kansas, found it with a telescope which he had built himself.

Clyde Tombaugh, the boy from Kansas, has placed his name on the scientific roll of fame for all time because he recognized the tiny speck which showed on his photographic negative for what it turned out to be, a new planet. Only twice since the beginning of recorded history has such an event occurred. Until the telescope was invented in the middle ages, the only planets known to man were those which could be seen with the naked eye. Then in 1781, the planet called Uranium was discovered, and in 1846 the planet Neptune was discovered. Both of these were found by men who had already achieved fame as scientists. Clyde Tombaugh's name is now bracketed with those of Herchel, Gallileo and the other explorers of the skies.

Somehow, whenever something really important is done in the world, we find a small-town boy or a farmer's son doing it. Add this Kansas young man's name to the list of men of rural origin who have won fame by contributing to the world's store of knowledge.

SHERIFF ACTIVITIES

Deputy Sheriff Walraven reports the arrest of Louis Smelser and Jack Hill at Lubbock in connection with theft of feed from a Littlefield feed yard.

Sheriff Len Irvin went to San Saba last week for a man by the name of Washburn charged with moving mortgaged property out of Lamb county.

Rubber Hose

DANGEROUS As Gas Connections

BECAUSE of its lack of durability and the ease with which it may become leaky or disconnected, rubber hose or other flexible material never should be used for connecting gas stoves or other gas-burning appliances.

A CARELESSLY moved piece of furniture, a romping child, or even a slight movement of the heater thus connected may result in a leak or the pulling off of a connection.

THIS ADVERTISEMENT is not written for the purpose of giving alarm, but is written in the hope that consumers of the West Texas Gas Company may use an ideal fuel with the greatest possible degree of safety and security.

NATURAL GAS, when properly used, not only is a safe fuel, but it also is the cleanest, most efficient and economical fuel in existence.

THE SERVICE Department of the West Texas Gas Company is constantly available to help you with your gas problems. Its advice and assistance are free.

Fraley and Owens In a Scrap Here Mon. Night

Lee Fraley, local mitt artist, and Arlin Owens, another pugilistic demonstrator, hailing from Anton, Ill mix the gloves in a 10 round bout to be staged in the new Snow-brick on South Main street next Monday night.

Both men have appeared here before in the squared circle, and on this occasion the fans are assured a good show for their money.

Several preliminaries are also scheduled, including a free for all pro knock out; best man wins.

Help keep Littlefield clean.

HARTS AND SPADES

The party at Mrs. Pages was called off Saturday night on account of the Hobo party at Spade community.

Mrs. Chester was elected pianist and Tony Thomas choir leader for Sunday school.

The small children's class will be divided into two sections next Sunday as there are too many for one teacher.

Both communities were represented at the Hobo party given at Spade community. About 65 were present and as each one brought a can of vegetables for the Mulligan stew, none of the bums went away hungry. Many funny looking characters were standing around the camp fire eating stew out of tin cans. Everyone reported a good time. The party broke up about 10:30 p. m. and most of the young people adjourned to the home of O. D. Yeager and danced until 11:30 p. m.

A Hart's Camp school meeting was held the night of April the first.

The following school trustees were elected Saturday for the Spade school: J. A. Beckam, C. B. Blankenship, Jack Fowler, G. H. Hunt, G. W. Vann, Ben Gann and Floyd Dyer.

Mr. Coker has promised the young folks a tacky party as soon as the weather is a little warmer.

Mr. and Mrs. Calvin Patterson, Ethel Warren and Tony Thomas from Harts camp attended the Hobo party Saturday night.

Among the ones who were in town Sunday from the Spade were Mr. and Mrs. Boetick and children, Truman and Wayne Jackson, Martha Barbarick, Maxine Yeager, Lester Ragdale, and Tony Thomas.

Glen and Leota Woody were at the Spade Saturday. We were glad to have them come back again.

Several from the Spade community were at the singing, Sunday in Littlefield.—Jack of Diamonds.

The reason there are fewer marriages now is because there are not very many men who can support a girl like she's been supporting herself.

Now that they're using crude oil for fuel on ocean liners, the ship of state is the only ship still depending on winds.

THE QUALITIES OF LEADERSHIP

By JOHN G. LONSLADE
President American Bankers' Association

Leadership and success, in a general way, are synonymous. They are both founded upon simple codes of thought and action, upon the realization that he who wins the laurels must be a doer, not a waiter, that application of energy, not time or luck, is what counts most. A rabbit's foot is a poor substitute for horse sense.

John G. Lonsdale

Both success and leadership, if they be of the highest quality, are the result of service to humanity. Service has been aptly described as "the supreme commitment of life." Analyze the lives and times of all great leaders of history and you will find that those whose names are enshrined in the hearts of their countrymen are those who sought to render a needed service to the populace.

Leadership, like success, need not, however, be international or national to achieve great results. There is room for each of us to be a leader in his community, in his work, in his church, and in various organizations.

One of the indispensable qualities of leadership is the ability to persist steadfastly in the face of discouragements. If George Washington had not possessed the quality of persistence, he and his soldiers would never have survived the hunger and privations which were theirs at Valley Forge.

We have too many young men and young women these days saying a job cannot be done. Too many spend their time explaining why a thing can't be done, instead of saying, with firm resolve, that it can be done, and then going out and doing it. Anything that ought to be done is capable of being done. And anything worth doing at all is worth doing well. The fellow who handles a little job in a big way is always on the road to greater fields.

Flapper Mothers Are Raising Healthiest Babies Ever Recorded

Real estate men are generally considered the leading populators of any new country, but the Stork sometimes leads them a very close second. Nearly every week the Leader publishes from three to a dozen births within the town or nearby countryside, and only a few weeks ago one issue contained the record of eighteen births, all of which transpired within seven days time.

Of course, some of these births were from older mothers, some of whom had from one or two, to five or six other children, but quite a few of them were by young wives who hadn't been married more than a year or two or three. Several of them were once popularly known as "flappers" before their marriage and settling down period. They had bobbed hair, short dresses, wore plenty of rouge and powder, penciled eyebrows, knew how to make goo-goo eyes, and were possessed of a number of other intriguing arts and mannerisms which are said to belong to that type of young woman who sometimes blazed a jazz pathway to the very edge of the eternal abyss.

But now that she has chosen her life mate, she has not only come to look upon the more serious side of life in a very pleasant manner, but she is actually rearing the healthiest crop of babies that was ever reared since Cain and Abel wiggled their toes in the sandpile just outside the Garden of Eden fence.

Several years of the post-war period have now rolled by since the moralists, psychologists and a few other lesser lights predicted the younger generation was going to the eternal bow-wows, and these flappers have grown into womanhood and established homes and had babies of their own, just like others of their sex have been doing for untold centuries in the far back time bedimmer history of the past. Now these same physicians, psychiatrists, moralists, etc., are telling us that these flapper born babies are much healthier than those that were reared a generation ago by the flapper's mothers, and that they have three or four times the chance of survival that babies did when the future flappers mothers first discovered America. Statistics show and prove

these facts; but why quote them! Specialists who know what they are talking about do not hesitate to say that these flapper mothers know more about how to take care of a baby than the average of their mothers knew. She knows more about how to take care of herself during the pre-natal period. She is able to have the very best of care for herself and babe at child-birth. She knows more about how to take care of her first offspring. Its food is a prime consideration, and nothing but what is pure and wholesome is tolerated. Each new babe is a problem within itself and is given a diet and a treatment in keeping with its particular nature, peculiar needs and physical condition. Doctors and specially trained nurses are frequently interrogated, the babe weighed, examined and diagnosed to see if it is developing according to "Hoyle" or any of the other modern experts who pose as directors in playing the great "game of life."

These modern flapper mothers were noted for their freedom of dress, their short skirts, their penchant for scant underclothes and consuming desire for fresh air and plenty of sunshine, and it is all reflected in the "quality", if you please, of their children. A Littlefield physician said a few days ago that plenty of babes fifteen to twenty five years ago were literally smothered to death in long clothes and tightly closed rooms. He even went on to say that these modern flapper mothers of the gay life and jazz age may smoke cigarettes, drink cocktails and do several other questionable things, but generally speaking, she is living better, is better informed on health subjects and is, therefore, rearing healthier babies, despite whatsoever traits she may have acquired that are not in keeping with the Puritanical age of their grand-mothers.

After all, these modern fathers, perhaps themselves once of the "Jelly bean" type, have a right to be proud of their modern wives, and prouder still of their flapper-born sons and daughters.

There are now enough automobiles in America to permit every man, woman and child to ride at the same time, but, if the plan should be carried out who would sell them hot dogs and gasoline.

Adam rendered great service, if only by demonstrating that a man with a soft snap is primed for devilment.

WARNING ISSUED ON TOO EARLY PLANTING

"Until you put away your winter overcoats and heavy clothing you had better not plant your crops," is the sense of a warning issued by Don L. Jones, superintendent of the state agricultural experiment station at Lubbock, to farmers of the South Plains.

"Better wait until May," Mr. Jones declares, "before planting field crops on the South Plains. There will likely be a cold spell or two between now and the last of April. The first of May will give ample time and greater surety, besides providing needed moisture from rains ordinarily prevalent the first two weeks of May."

SOME SNAP SHOTS

Times change, but that little word "if" still stands between us and some mighty big things.

Maybe the reason we all quiet down as we grow older is because we have more to keep quiet about.

The difference between a wife and a barber is a barber always asks you what you're going to have instead of telling you what you're going to do.

We have seen pictures of a dear old grandmother wearing a nightcap, but we never saw one of her showing her kneecap.

Ordinarily the busiest man you come across is the one who is trying to make a living without working for it.

The difference between a modern couple and the Siamese twins is that nothing is easier than separating a modern couple.

Maybe the reason that Georgia bootlegger set up his still in a cemetery was so that his customers could see their finish.

This is the "do" age. We're debunking our national heroes, detouring our automobiles and denaturing our alcohol.

The professor who sent his wife to the bank and kissed his money good by may not have been so absent minded at that.

BANKERS STUDY CHAIN CHAIN BANKING

The Economic Policy Commission of the American Bankers Association has been specifically instructed by the general convention of the association to study and report on chain and group banking developments, and also on the proposal of the Comptroller of the Currency for an extension of branch banking in the national banking system, to permit those banks to conduct branches in the trade areas surrounding their locations.

R. S. Hecht, President Hibernia Bank and Trust Company, New Orleans, Louisiana, is chairman of the commission. The members are: George E. Roberts, Vice President National City Bank, New York, N. Y., vice chairman; Nathan Adams, President American Exchange National Bank, Dallas, Texas; Leonard P. Ayres, Vice President Cleveland Trust Co., Cleveland, Ohio; Frank W. Blair, Chairman of Board Union Trust Company, Detroit, Michigan; Walter W. Head, President Foreman-State National Bank, Chicago; W. D. Longyear, Vice President Security-First National Bank, Los Angeles, California; Walter S. McLucas, Chairman of Board Commerce Trust Company, Kansas City, Missouri; Max B. Nahm, Vice President Citizens National Bank, Bowling Green Kentucky; Melvin A. Traylor, President First National Bank, Chicago; Paul M. Warburg, Chairman of Board International Acceptance Bank, New York, N. Y.; O. Howard Wolfe, Cashier Philadelphia National Bank, Philadelphia, Pennsylvania; Garden Edwards, American Bankers Association, New York City, secretary.

A survey showing the extent to which chain and group banking has developed in the United States has been made and issued in booklet form by the American Bankers Association of New York City.

SECTIONS WHERE SAVINGS DECREASED

A regional analysis of the drop in the nation's savings deposits in banks, as recently reported by the American Bankers Association's Savings Bank Division in its annual compilation for 1929 showing the first recession in national savings in the twenty years during which it has published this data, reveals that all sections except the New England and the Pacific States groups recorded losses.

The published figures showed that on June 29, 1929, the total savings deposits in banks and trust companies of continental United States stood at \$28,217,656,000, which was \$195,305,000 below the similar total for 1928, when there was an increase of \$2,300,000,000.

The regional analysis by state groups discloses, however, that the six New England states as a group gained more than \$88,500,000 in savings and 152,984 in savings depositors, while the seven Pacific states as a group gained over \$79,000,000 in deposits and nearly 275,000 in number of depositors. The gains in these two sections, however, were smaller than the gains recorded there for 1928. The sections which showed losses are the Middle Atlantic States, Southern States, East Central States and the West Central States.

The Ford Motor Co. sold a tudor sedan to H. V. Gray, of Olton last week.

Harry Bennett, of Amherst, purchased a Pontiac coupe last week from Jones Brothers Motor Co.

Mr. and Mrs. Ed Nixon, accompanied by Mrs. A. B. Fraley, were Lubbock visitors, Sunday.

Mr. and Mrs. F. G. Sadler were called to the bedside of Mr. Sadler's father in Glenrose, New Mexico, Saturday.

Mr. and Mrs. Lloyd Roberson moved last week to Hereford. Their home here will be occupied by Mr. and Mrs. Sam Hutson.

Mrs. Tom Simms, Miss Lapina Jackson and Miss Gladys Walker of Sudan, visited the former's grandfather, Wm. J. Wade, Sunday.

Mr. and Mrs. Tom Keenan, and son, Mike, Misses Mary Frances and Irma Willis and Evelyn Wilf, spent Sunday in Olton.

M. F. Smith, fieldman for the Armour Creamery Co., is in Littlefield this week, looking after business interests.

The Buick Motor Co. sold the following cars last week: Marquette sedan to L. O. Secrest, Cotton Center, Buick sedan to Mr. Wills, Fieldton.

Rev. L. G. H. Williams, of Lubbock, will hold services at the Presbyterian church at four o'clock Sunday afternoon.

T. E. May has this week become manager of the Phillips Petroleum Co., filling station. He was formerly of Lubbock.

Earl, Jake and Sidney Hopping were called Tuesday to the bedside of their mother, Mrs. R. C. Hopping, of Lubbock, who is ill.

Messrs. Murray and Enochs, of Enochs, were in Littlefield Tuesday to buy some lumber, for making improvements on their land in Enochs.

J. I. Carrell and J. M. Hollowell made a business trip to Roswell, New Mexico, Friday, returning Sunday. While there Mr. Carrell visited his daughter, Mrs. Leonard Theford.

Jim Etter sponsored a dance given at the skating rink last Thursday. About 50 couples were present, and an enjoyable evening was spent by all. Music was furnished by an orchestra from Lubbock.

Mrs. Sam Hutson was called to the bedside of her father last week, who is ill in Hereford. His condition is improved very much. Mrs. Hutson was accompanied home by her sister, Miss Dovie Smith.

Mrs. Kathryn Whicker and Mrs. P. W. Walker left Saturday for Amarillo to attend the funeral of Miss Margaret Teal's father. Miss Teal is a teacher in the Littlefield public schools, and was called to the bedside of her father a few days ago.

W. H. Badger left this week for Wichita Falls. He will be accompanied on his return by Mrs. Badger who has been visiting there for sometime.

H. G. Dunbar, of Dallas, and C. E. Hooper, of Lubbock, were Littlefield visitors last weekend.

Mrs. L. H. Bates received word

Tuesday of the death of her brother, Glen Shearer, who was injured in an auto accident near Cunningham, Kansas, one week ago Sunday. He died in a Wichita, Kansas, hospital last Sunday night without regaining consciousness, suffering from a broken back and severe burns about the head and shoulders.

THE COTTON LINTER

The cotton linter, formerly a waste product of the South, has assumed a real importance in the economic scheme of things.

In the plant of the American Bemberg Corporation at Elizabethton, Tenn., several billion pounds of synthetic yarn are produced annually. The basic raw material used is high grade linters—in unnumbered tons.

By a chemical and mechanical process known as the stretch spinning suprammonium process, the linters are transformed into soft, shimmering silken threads. So fine and so similar to silk thread is the yarn produced that, woven into hosiery or into fabrics for wearing apparel, experts cannot by sight or touch distinguish between man made fibre and the silk worm's product.

Even further than duplication of the silk worm's skill has man gone. Recently was perfected after years of patient experiments in the Elizabethton laboratories, followed by many practical tests, yarns so fine that the closely approximate spider filament, which is nature's finest spun filament. The diameter of a single filament of Bemberg yarn measures 0.0004 of an inch as compared to 0.00023 of an inch which is the measurement of the spider's filament. In a single pound of filaments of this remarkable laboratory product there are 4,227 miles of filament.

Both the chemical and mechanical

processes by which Bemberg is manufactured closely parallel the production of natural silk. Both are made from cellulose, the one from cellulose of cotton linters, the other from cellulose of mulberry leaves. The infinitely slender filaments are produced alike by the silk worm and the machine—the dissolved cellulose being drawn through tiny perforations in the mechanical spinnerette just as it is drawn through perforations in the neck of the silkworm.

The vogue for tomato cocktails, made of the juice of canned tomatoes seasoned with celery, onion, horseradish, and salt and pepper, is excellent because it adds to the days supply of three valuable vitamins—A, B, and C. These vitamins are retained by tomatoes even when they are cooked or

canned, and the inclusion of tomatoes in the diet is recommended by nutrition experts.

If some folks were to truthfully report their principal occupation to the census takers, they would have to say it is losing their money in speculation.

An Explanation —And an Invitation

Please do not get the idea that our plan service is maintained only for those who contemplate building a new home. It will prove valuable to those who have remodeling in mind.

Before completing your plans for improving your home you should spend considerable time looking over modern floor plans and photographs of the newest up-to-date homes. We have a great array of these, showing many different arrangements of rooms as well as pleasing exterior features. You will undoubtedly find ideas that will be of great assistance.

Maybe it is only a new porch you have in mind. Certainly among our collection of designs you will find the very porch that will go best with your home.

WE MAINTAIN OUR PLAN SERVICE PURELY AS A MATTER OF SERVICE TO YOU— Cicero-Smith Lumber Co.

Littlefield Section and the South Plains Has Had the Greatest Agricultural Development in Texas for the Past Few Years

1930 LOOKS LIKE A BANNER YEAR

Lamb County Has Already Ginned Over 49,000 Bales of Cotton from the 1929 Crop and Will No Doubt Exceed 50,000 Bales

This demonstrates beyond question that the Littlefield section is a cotton country second to none, and everybody knows it is a wonderful feed country.

With these facts, and the rapid settlement of this section by good farmers from Texas and other states, there can be but one result—THESE GOOD LANDS MUST ADVANCE IN PRICE!

Why not secure one or more of our 100 per cent farm tracts, or combination propositions in the center of development while same can be had at present low prices!

The Terms are Liberal and the interest rate is low

Now is the Time to Buy
