

## GRAND JURY TO STUDY CASE

# Shooting Wounds Youth

A bullet from a 30-30 rifle grazed a 17-year-old Littlefield youth's head, and four other young people escaped injury in a shooting incident east of town Saturday night.

The incident was touched off by a series of gasoline thefts occurring in the county, it was reported by Deputy Sheriff E. D. McNeese, and took place on the Buford Fowler farm, about 5 miles east of Littlefield.

The injured youth, Edman Merrifield, was admitted to Littlefield Hospital Saturday night and released Tuesday after treatment. A teenage girl in the Merrifield car reportedly sustained minor wounds on the lower

portion of her body, but was treated and released Saturday night.

No charges were filed in the shooting, but District Attorney Jack Young of Muleshoe indicated the case would be presented to the grand jury for investigation. Young questioned both parties involved in the case here Monday morning.

J. L. Richards, employed by Fowler to watch his farm gas tanks, was identified as the man who did the shooting. Fowler had reported the theft of gas from his tanks previously.

According to the story told to officers, Richards said a car pulled up to the gas tank and

pump shed about 11:30 p.m. Saturday. He reported a man got out of the car and went to the gas tank, and when he yelled for him to halt, he started running and the car began to pull away. Richards then fired two shots. Richards said the car stopped after going a short distance, and he approached and found four young people in the vehicle, the driver injured. He took down their names and the license number of the car before Merrifield was taken to the hospital.

The district attorney said the young people in the car all denied they were attempting to take gasoline. Joe Smith, 20, said

he was the one who got out of the car, but it was only to "take a stretch." He reportedly didn't hear a warning before the shooting started.

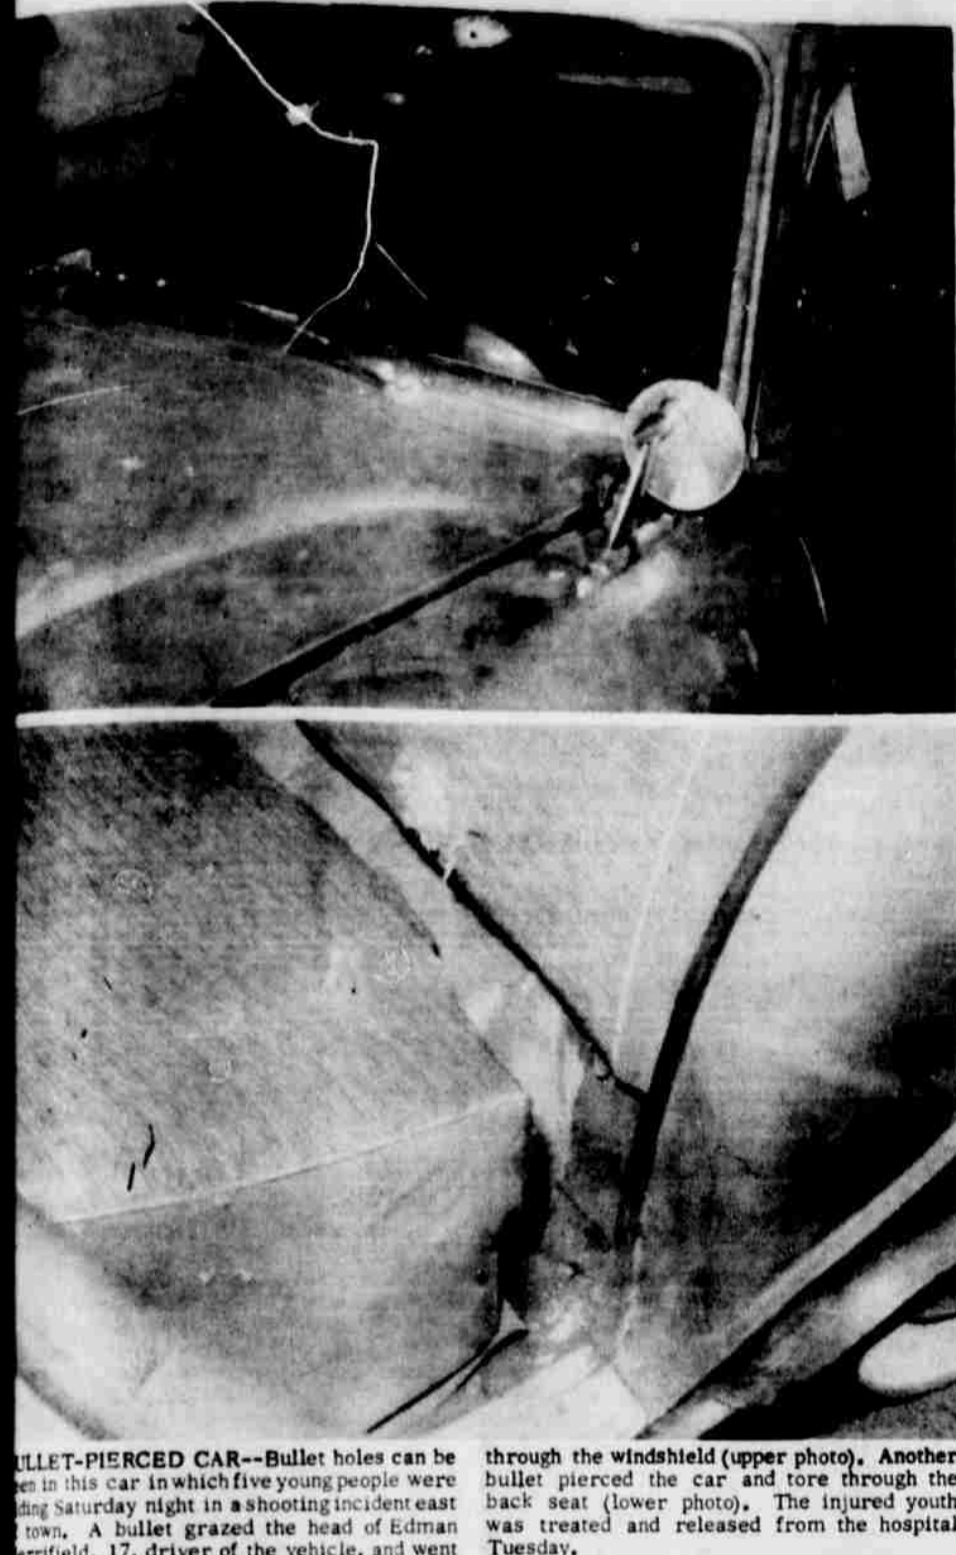

Richards was using a .30-30 rifle, officers reported. One bullet smashed the rear window, apparently grazing Merrifield's head and going through the front windshield. Another hit the right fender of the Mercury automobile and emerged in the back of the left rear seat.

The latter shot apparently splattered, with small slivers striking Nuketta Bamberg, 18. Officials were told that no stitches were required in treating the minor wounds. Other passengers

in the car were Wanda Ogle and Katy Jenkins, both 16. Deputy McNeese, who investigated the incident Saturday night, said "it was a miracle" that no one was killed or injured seriously.

McNeese said the sheriff's office had received a number of complaints from farmers in recent weeks about gasoline being stolen from farm tanks.

The incident, besides serving a warning to those who have been stealing gas, should point up the danger of persons trespassing on farms at night, a county official stated.

BULLET-PIERCED CAR--Bullet holes can be seen in this car in which five young people were riding Saturday night in a shooting incident east of town. A bullet grazed the head of Edman Merrifield, 17, driver of the vehicle, and went through the windshield (upper photo). Another bullet pierced the car and tore through the back seat (lower photo). The injured youth was treated and released from the hospital Tuesday.

## GINS TURN--SUN SHINES

# Bale Estimate Up

Sunny skies and dry weather have given late cotton crops a big boost in the Lamb County area the past week with some agricultural observers now predicting as much as 190,000 bales for the county.

The joint estimates of the Plains Cotton Growers, Inc., and the Lubbock Cotton Exchange, announced last weekend, remained at 180,000 bales for Lamb County--the same prediction as made in September.

M. A. (Rip) Elms, Jr., manager of Paymaster Oil Mill, this week made the 190,000 estimate. Elms keeps in close contact with the county's agriculture and pointed out the ideal weather has been a big help.

Earlier estimates had been pegged at 177,200 by Lamar Aiken, ASC office manager, and 163,000 by County Agent Bill Kimbrough. The Texas Employment Commission's estimate was for 158,000 bales.

"The cotton harvest has started, but it is very scattered at present. Much cotton is open now, especially where the rain was not heavy and on early dry-land cotton.

Most of the harvesting to date has been to the west and southwest of Littlefield. Syl Diersing at Pep estimates more than 200 bales have been ginned in that area, practically all from machine-stripped cotton.

Most of the farmers in the Pep area have early cotton, with only a few patches of late-planted cotton. Diersing thinks most of the farmers will start defoliating next week.

"It's dribbling in now, but the harvest will begin to pick up soon," he remarked. Diersing estimates the dryland cotton will make from one-half to 1 bale an acre, with showers during the growing season accounting for the difference.

The irrigated cotton may make from 1 to 2 bales per acre, and Diersing figures the bale is averaging about 2/3 bale per acre on the early harvesting.

Reports from over the county hit a high note of optimism. "We couldn't have ordered better weather," says gin operator Ross Lumaden, "and it has made a big difference."

Jack Speck at Claunch Gin, Bula, ginned his first four bales of stripper-harvested cotton Wednesday morning, all for H. E. Franklin of south of Pep. The cotton ginned out at 24 percent, Speck reported.

All county gins have had some 1963 cotton through their plants, ranging from four bales to about 60, practically all of it hand-picked.

The early runs have given gins an opportunity to true up operations for the season, preparatory to the intense harvest season that is expected in another two to four weeks, varying with the areas.

THIS LOOKS GOOD! This field of cotton pickers just west of Littlefield is one of the many signs of the 1963 cotton harvest, that is shaping up over Lamb county. The crop belongs to S. A. Davis, and the picking crew is from Caldwell county, in south Texas. Ginners and growers are increasingly optimistic for the upcoming crop, as fair weather holds for the county.

# Sandhills Favored For Water--Now!

The earliest possible development of a city water supply for the sandhills above Littlefield was called for with emphasis Saturday night in a meeting of the council with about 30 persons who had asked to be heard a water program to boost city supply.

Engineer Bill McMorris of Amarillo, who recently completed a study-report of the city water system and its outlook, headed for his third forum session on his findings.

Former mayor Ray Keeling, whose administration purchased a large water source in the sandhills, led off the two-hour session with a statement favoring a proposal immediately to develop and use the sandhills source.

"I have a definite opinion on this," Keeling declared. "I studied this thing back when we bought the land in the sandhills, and it was apparent that the ultimate solution to city water needs was to get a new and large source of supply."

"Our exploration of the present supply and other potential to the northeast of it indicates that these were not sufficient for the future, so we negotiated the purchase of rights in the sandhills. The supply there tested adequate, the quality showed good and it appeared to be the best way to go. I still feel this is the most economical solution, in fact, the only solution."

Keeling added that it was apparent that city water rates must be boosted, for use above the minimum charge, a statement Mayor Bill Armistead affirmed later in the evening. The city "ran out of water"

shortly after he took office in 1958, Keeling recalled, and this prompted a council study that led to purchase of 11 1/2 sections of land about 13 miles almost due north of Littlefield, as a future water source.

"I am biased, I suppose, and

justifiably so," the former mayor said. "If you can go to the sandhills now I think it is the only way to go."

"However, we didn't get the people to go with us the last

## Frank Rogers Selis Interest In Implement Company

Frank Rogers, veteran Littlefield implement dealer, has sold his interest in the Luce, Rogers and Nelson Implement Company, in a sale effective October 1, he said Wednesday. Rogers says he plans "to just take it easy."

The sale was to the other two firm partners, Earl B. Luce and Ralph Nelson.

Luce and Rogers had been partners in large John Deere implement house for 25 years, entering the business together. The firm is one of the South Plains older and larger implement establishments.

Nelson has been a member of the firm for 15 years. Mr. Rogers first came to Lamb County, at Amherst, with the late W. E. Halsell, when Halsell opened his large "Mashed O" ranch for sale as farm sites and established the town of Amherst.

Rogers served as bookkeeper with the Halsell interests for 13 years, before entering the implement business in Littlefield. He moved to the county from Vinita, Oklahoma, home country for W. E. Halsell.

Mr. and Mrs. Rogers will continue to make their home here,

FRANK ROGERS, veteran businessman sells, he affirmed, "and I'll catch up on my golf and some other things." They have one daughter, Frances, a senior student at Texas Tech. Over his quarter century in business here, Rogers has been active in a number of business and civic projects, and with Mr. Luce is one of the county's senior business operators.

# Lamb FB Meeting Tonight

The annual Lamb County Farm Bureau Convention is scheduled tonight in the Littlefield School cafeteria, beginning 7, with a free barbecue supper for the family on the menu.

Highlights of the convention include an American Farm Bureau speaker, election of new officers, and adoption of resolutions to be forwarded to the Texas Farm Bureau Convention, Warren Newberry of Vernon, district services director for the 18 southern region, will be guest speaker. Two county students--Dane Phillips of Littlefield and Billy Cox of Olton--will talk briefly about the Farm Bureau seminar on citizenship which they attended this summer.

Elmer McGill of Olton, president of the county Farm Bureau, will preside at the convention, and Herman Neuenschwander, chairman of the policy development committee, will present resolutions for action. Six new officers are to be named to the board, which then elects officers.

WARREN NEWBERRY

Free movies will be provided for entertainment of youngsters. A Red Skelton film and several comedies will be shown.

Newberry's topic tonight will be "Farming and the Future." He is expected to discuss major factors which will affect farmers' futures and to explain what farmers can do to have a voice

in their own future and the agricultural legislation being considered by Congress.

The guest speaker works with 13 southern states in his present job with American Farm Bureau.

Prior to the convention, the policy development committee mailed out questionnaires to all members and requested they be filled out and returned to the county office. Results were used to prepare resolutions which will be voted tonight.

A few of the results as revealed by the questionnaires returned: 100 percent voted against a "supply management program" as proposed by the Secretary of Agriculture; 98 percent thought there should be some changes in our foreign aid program; 81 percent favored Farm Bureau working for an effective "bind-week" control district in Lamb County; 92 percent think the state law on welfare is too liberal; 77 percent think farmers should be allowed a tax depletion allowance on irrigation wells.

## Police Check Theft Here

City police this week were investigating the theft of about \$800 worth of radios, a television set and a tubewriter from the TV Corner, 601 W. Delano, sometime Saturday night or Sunday.

Owner Leon Durham reported that a 19-inch portable GE television set was missing, along with six radios and a "tool caddy" machine. Two men also reported the thefts of hub caps from their cars.

A trio of wrecks were logged since Sunday. A minor three-car collision occurred on Phelps near E. 5th St. Tuesday at 4:45 p.m. It involved cars driven by Mrs. Robert Kloiber, who was backing out from the curb; John Martinez, and Lola J. Gonzales of Amherst. Damage amounted to about \$200 for all three vehicles.

Diana B. Walker of Littlefield and Eula L. Jackson of Star Rt. 1 were drivers in a minor collision on Lfd. Drive near E. 6th Monday at 5:47 p.m. Damage estimates were \$35 and \$15.

The other collision, recorded Sunday, involved cars driven by George A. Duggan and Paul C. Roberts, both of Littlefield. Damage was estimated at \$15 to the Duggan vehicle and \$125 to the Roberts' car.

## Bank Deposits Healthy

Bank deposits--one of the barometers of crop and business conditions--showed a whopping total of \$28,391,416 in Lamb County's six banks last week.

Another aspect to the healthy total was the fact that it was up \$4.4 million over deposits at the corresponding time last year.

Adding the Anton bank to that total would put the figure past the \$30 million mark and \$4.8 million over last year at the same time. Both totals are believed to be a record high for the end of September. Bank calls this time were for the end of business on Sept. 30.

## Good Poll Tax Payment Seen Here

Lamb County residents are paying their 1963 poll taxes at a good pace, undeterred by the prospect that the tax may be abandoned as a requisite for voting in Texas elections.

The county tax office reported Wednesday that 105 poll taxes had been paid, and that payments are coming in steadily. The \$1.75 poll tax will remain in effect for Texas, but will not be required for voting if an amendment to this effect passes in a Texas-wide election on November 9.

The poll tax may be paid up until January 31, and most payments are made in January. Many people, however, pay them with their ad valorem tax starting in October and the early trend indicates a strong payment for Lamb County. Texas schools receive \$1.60 of each \$1.75 paid in poll tax. The tax is not assessed against persons above 60 years of age.

## 7 City Wells Get Permits

Permits for seven new water wells on property of the City of Littlefield northeast of town were approved this week by the Lamb County committee of the High Plains Water Conservation district, said Calvin Price, secretary to the county committee.

Three of the wells are on the eastern side of a 354-acre water field that presently is supplying the city, and the other four are in the corners of a nearby 80-acre tract that may be developed as additional city water supply.

Applications for the well permits were made about three weeks ago. Approval was granted in the regular monthly meeting of the water district board.

## County Column

W. H. Carter, Lamb County Republican party chairman, attended a workshop for Texas Republican chairmen in Austin Friday and Saturday. He returned Sunday with the report that party prospects for 1964 are good.

Amos Ward, Anthony store manager, attended a meeting of the C. R. Anthony Company in Oklahoma City the early part of this week. He returned home Tuesday night.

## Weather

The U. S. Weather Bureau's 5-day extended forecast for the Lamb County area calls for temperatures 3 to 7 degrees above normal with minor daily changes and no precipitation expected. Normal high 73-80, normal low 45-58.

PIECE OF THE WEEK—Mrs. Aaron Williams, 512 E. 17th, is shown as she serves the biscuits. She is sharing her recipe for

"Angel Biscuits" with the readers this week. Mrs. Williams is the wife of Dr. Aaron Williams, and the mother of Linda, Lon Allen and Mary Gail, three active young people.

## Mrs. Aaron Williams Gives Recipe

Mrs. Aaron Williams, an accomplished homemaker and mother is giving her recipe for Angel biscuits this week, which tastes hot rolls but is really a biscuit. Mrs. Williams, Betty to her friends, is the wife of Dr. Williams, a local dentist, and the mother of Linda, Lon Allen, and Mary Gail Williams. Mrs. Williams and Betty moved to Littlefield three years ago from Tennessee. He graduated from the University of Tennessee Dental School in Memphis and practiced dentistry 10 years in Norris, Tennessee, before coming here. Betty also graduated from the University of Tennessee. Mrs. Williams are active members of the First Baptist Church. He is a deacon, and she is a church teacher and choir member. She is a GA counselor and teaches an adult Sunday school class.

It is a well known fact that Dr. Williams' hobbies are singing and playing musical instruments. He is in a church quartet and also entertains at various meetings. He plays numerous instruments, but his favorite are the string instruments. He also likes to hunt and fish. Besides Betty's church work, she is the secretary of the Band Boosters' Club, a room representative for the Sophomore Class and a room mother for Mary Gail's fourth grade room. Linda is a sophomore in high school and her number one hobby this year is stage band. She plays a cornet in the Wildcat Band. Linda is an experienced cook and loves to get in the kitchen and prepare a whole meal for the family or guests. She also enjoys swimming and sewing. She is a member of the FHA. Lon Allen is 12 years old and

in the seventh grade. His main interest right now is football, this being the first year he could participate in this sport. He plays a cornet in the intermediate band and also plays the piano.

Mary Gail, 9, is in the fourth grade and loves to read and sing. She is also taking piano lessons. Following is Mrs. Williams' recipe for Angel Biscuits:

- ANGEL BISCUITS**
- 1 cake yeast (or 1 pkg.)
  - 2 tablespoons lukewarm water
  - 1 cup shortening
  - 5 cups flour, sifted
  - 1 teaspoon soda
  - 4 tablespoons sugar
  - 1 teaspoon salt
  - 2 cups buttermilk
  - 3 teaspoons baking powder

Dissolve yeast in water. Sift dry ingredients. Cut in shortening. Add yeast and buttermilk to dry mixture. Knead to hold together. Roll dough to 1/2-1/4 inch thickness. Bake at 400 degrees for 20 minutes.

## PTA's Observe State Birthday

This month PTA's over the state will observe, in various ways, the founding of the state organization 54 years ago in Dallas during the State Fair. Mrs. Ella Caruthers Porter, state organizer, called a conference of mothers at the First Methodist Church, October 19, 1909. She was assisted in her efforts by the Dallas Council of Mothers.

Texas mayors were requested to send representatives. These, together with delegates from mothers' clubs over the state, leading educators and other interested men and women, made up the nucleus of the, then, Texas Congress of Mothers (now the Texas Congress of Parents and Teachers). State Fair officials and the Dallas Morning News lent active support.

The overall purpose of the organization then, as it is now, was to promote the welfare of children and youth in home, school and community.

Today, as a living memorial to Mrs. Porter and the other pioneers, there are more than 2700 local units, some 160 councils, and a membership of over 783,000, ranking Texas second in the nation in membership, preceded only by California. The organization will hold its 54th annual state convention in San Antonio, November 20-22.

## Mrs. Weaver, Son Honored

# Kiser and Bishop Pledge Wedding Vows

MR. AND MRS. DOYLE FRANKLIN BISHOP

Miss Frances Darlene Kiser of Levelland became the bride of Doyle Franklin Bishop in a ceremony in the home of the groom's parents, Mr. and Mrs. E. A. Bishop, of Anton, Thursday, October 3, at 8 p.m. Rev. D. L. Kroeger, pastor of Assembly of God Church in Littlefield, performed the ceremony. The bride's parents are Mr. and Mrs. C. W. Kiser of Globe, Ariz.

The couple stood before an arch decorated with white carnations, greenery and pink bows, flanked on either side with candelabras.

Musical selections were furnished by Mrs. Dewey Hulise at the piano. She played "Because" and "The Wedding March".

The bridal gown was of white lace, featuring scooped neckline, full street length skirt, and long sleeves. Her veil was shoulder length attached to a beaded crown. She carried a bouquet of white carnations atop a white Bible.

For something new the bride wore her bridal attire; something blue was a garter; something old was a penny in her shoe, and for something borrowed, the pearl necklace.

Serving her sister as maid of honor was Glenda Kiser of Globe, Ariz. She wore a sleeveless sheath dress of pink brocade satin with a round neckline and street length skirt. Her bouquet was of pink and white carnations.

The bride was given away by her father. Tony Cundiff of Anton served

as best man. The bride's mother wore a pleated pink satin dress and a corsage of white carnations. The groom's mother wore a turquoise velvet sheath. She also wore a white carnation corsage.

A reception followed immediately after the ceremony in the groom's home.

Miss Glenda Kiser, sister of the bride served the wedding cake and Miss Linda Moore of Carlsbad, New Mexico poured the punch.

For a short wedding trip the bride wore a beige brocade two-piece suit with black patent accessories.

They will reside in Anton at 501 Maurer.

## S. T. Walker Rites Today

Graveside services for Samuel Tandy Walker, 88, father of Mrs. C. Roy Stevens of Littlefield, will be at 2 p.m. today in Clyde Cemetery.

Mr. Walker died Tuesday morning in Medical Arts Hospital. The Rev. Jack Ellzey, pastor of the Littlefield First Methodist Church, will officiate. Payne Funeral Home of Amherst is directing local arrangements.

A former resident of Clyde, Mr. Walker had lived here with his daughter for the past five years. A druggist for 48 years, he moved here after retiring. Other survivors are a son, W. R. of Dallas; three grandchildren and a great-grandchild.

## Initiation Held

AMHERST (Special)—Five new members were initiated into the Intermediate Girls' Auxiliary Wednesday evening in an impressive candlelight ceremony. They were; Debbie Landers, Linda Johnson, Ruthie Fowler, Darlene Hammons, and Mary Bentley.

As soft music provided a background, each candidate was escorted into the initiation room and knelt before a beautifully decorated altar to repeat her pledges.

She was instructed in her new responsibilities by the counselors and the other members of the organization. Then each new member was presented with a candle. She added the flame of her candle with that of each regular member to symbolize how her life would add brightness to the Auxiliary and took her place in the Circle. When the Circle was complete, the girls repeated the GA Allegiance and Mrs. J. P. Brantley led in a prayer of dedication.

Elaine Black, newly elected president, presided at the business session. Officers for the coming year were elected and will be installed the last meeting of this month.

Mrs. James Holland, counselor, announced that the Auxiliary has achieved honor recognition for the past year's record. Micki Blair brought the call to prayer and Mrs. Eddie Landers, GA Director, led the closing prayer.

Refreshments of lime float and assorted cookies were served to the following: Joanie Brantley, Elaine Black, Micki Blair, Vicki Pigg, Debbie Landers, Ruthie Fowler, Linda Johnson, Darlene Hammons, Mary Bentley, and Mrs. James Holland, Mrs. J. P. Brantley, and Mrs. Eddie Landers.

## Social Security Reports Must Be Filed Correctly

John G. Hutton, district manager at the Lubbock Social Security office would like to remind all employees who are required to file quarterly returns of wages on Form 941 to be sure to show the employee's name and social security number of the return exactly as it is shown on the employee's social security card.

Failure to follow these instructions may result in the employee's social security account. Since the amount of retirement, disability and survivor benefits payable is based on the amount of wages posted to a worker's account, it is extremely important that his wages be properly reported.

Many employees report a recently married girl's wages under her married name when she has not changed her name on the Social Security Administration's records. The proper procedure is to continue to report the employee under her name until she gets a new social security card showing her married name.

Do not change your name on the employee merely by changing out her maiden name on her social security card and changing her new name. She should be urged to call at her social security office to get a new card that will show her original social security number and new name.

If you have any questions how the reports are to be filed, consult your local social security office or Internal Revenue office.

If you are unable to contact the Lubbock office, and you have a question concerning social security and its proper representative of the Social Security office will be in Littlefield County Courthouse each Thursday between 11:30 a.m.

**WITT OPINION ON WATER**

# 'In Flow' Recharge Is City Water Salvation

the High Plains there are, understandably, many opinions as to the quantity, the source and the underground water. Many people are in the business, principally as irrigators. They come to the city and speak with more than a passing knowledge of water depletion and recharge of pipe yield potential.

Yet, no one can speak with authority on that great underground sea, known as the Ogallala formation, which supplies the High Plains with billions of gallons of water yearly. Hydrologists and other engineers have voiced many opinions on the formation, and there have been powerful arguments about the extent and life of the Ogallala formation. Over the years, many expert opinions have been proven wrong that there is a certain certain recharge each year from an "underflow" of water, running from the southwest through Lamb County, from a flow over in New Mexico. Even a certain rest period, argues, most wells that show drop in their water level will in most of their loss through seepage of water in from the west.

I have one well near the city field that I've been irrigating from for 22 years, using a good pipe of water along, and have never lowered its level," he declares. "Sometimes the yield drops, in floods when heavy pumping is going on all around, but it comes up in the winter."

He cites this well, and others property he owns over the city, as evidence that an underflow of water gives new life to a well. "Like many others, especially in the city field area, I've watched water ebb and flow for years. I know that it has a recharge," Hewitt says positively. He voiced this opinion to enter Bill McMorries and the Littlefield city council in a meeting last week. McMorries agreed with Hewitt that there

is an underflow -- he says of perhaps 200 feet a year -- but he does not agree that it is as powerful as the ex-mayor thinks.

It is enough to brighten the long-range picture for irrigators, the engineer says, but not enough to keep up with the pumping pace of the city water system which last year drew 516,000,000 gallons from underneath its 354-acre water field.

Not all from the field, exactly. McMorries assigns an "influence area" of about 1,200 feet to a well the depth of the city's, which means that some of the field wells will be drawing from adjacent property.

Hewitt owns some of this property, and some adjoining a new 80-acre tract that he urges the city to develop for water wells.

"You'll be pulling from, but I feel sure enough about the supply that I'm urging you to," he told the meeting last week.

Other land owners in the city well field area do not share this feeling. There have been complaints recently about expansion of the city's water well system, from neighboring land owners, Mayor Armistead says.

McMorries makes the point that the 516,000,000 gallons of water pumped from the well field in 1962 -- last year for complete figures -- would make a wall of solid water five feet deep over the 354 acres.

"This is pumping of tremendous magnitude," he says. "This kind of pumping has pulled the well levels down sharply, and can drain the field."

If the city depends on the present field alone, it will be out of water in five years, the engineer warns. Inclusion of the nearby 80-acres will give a life of 6 1/2 years.

Hewitt recalls an engineer's statement of eight years back that put a 5-year limit on the field's life. "We still have water," he points out.

McMorries emphasizes that there is considerable difference in pumping for irrigation use, and day-to-day pumping for municipal use, in taking issue with Hewitt's water ideas. In his argument, he seems to have the support of most of the council, if not all.

Indications today are the views on water supply will not be reconciled this side of a city election, in which a positive water supply step is proposed. "If the people decide that going to the sandhills is the thing to do, then I'll go along with them," Hewitt says.

The former mayor supports his recharge convictions additionally with opinions of other veteran irrigators in the area of the well field, and of well drillers.

But, as Mayor Bill Armistead points out, the city is hearing the reverse of these ideas from other people in the area who also are irrigators.

"What the council is trying to do is find what we believe to be the most logical course, and then offer it to the people for their decision," the mayor says.

It was for this purpose that McMorries was retained several months back for a comprehensive study of the water system that included all its phases, supply, transmission and distribution.

The council, apparently, is looking to increasing the city water supply before next summer's peak-use period, when supply is so critical that much of the city is almost without water for periods of several hours. The city needs an estimated 4-million gallons of water a day, at present is able to deliver just over 3-million.

The council has termed the water supply need the number one city problem today, and has assigned it a priority for city action.

McMorries has proposed the solution of going directly to a large water supply area the city owns in the sandhills north of town -- 11 1/2 sections of rich water sand land -- that McMorries says will give the city "a minimum 50-year water supply."

He proposes also that the city develop further the present water field and use it for peak day purposes, a move that would permit the installation of a slightly smaller, and less expensive, transmission line to the sandhills.

The former mayor found considerable to agree with in the engineer's recommendations, but divided with him the present -- or near future -- need for the sandhills move.

The city can go in a period of months, once its present supply is exhausted, he declares. Meanwhile, he is willing to spend his own funds to prove up the new tracts of land, an offer he made a couple months back. The city would pay him only if he is right.

The Hewitt position, which has been heard carefully and is being considered, is but one of several facets to the city water supply problem from which the

council probably will pick a recommended course to take to the people in election in the months just ahead.

When it comes, a bond issue may run \$500,000 to just over \$1,000,000, depending on the course of action chosen.

This has been almost a certainty for several years, in fact, was turned down in an extensive bond issue in 1956.

The bond issue record and an exploration of the sandhills source will be in another water series in Sunday's News.

## Proclamation

Whereas, many years of experience in the employment of physically handicapped persons has taught us, that when employed on jobs for which they are qualified, they are often better employees than able-bodied persons, and

Whereas, it is imperative that even greater effort be exerted in keeping physically handicapped persons employed, and

Whereas, it is unquestionably desirable that they be kept employed, and

Whereas, Congress has by Enactment and the President by Proclamation designated October 6-12, 1963 as "National Employ the Physically Handicapped Week" and

Whereas, this community has definite responsibility for keeping its handicapped citizens employed on jobs for which they are qualified, and

Whereas, this community needs them as workers and as citizens.

Now, Therefore, I, B. W. Armistead, Mayor of Littlefield, Texas do proclaim the week, October 6-12, 1963 as National Employ the Physically Handicapped Week and urge upon all citizens the importance of cooperating in behalf of handicapped citizens.

B. W. Armistead, Mayor Littlefield, Texas

**Spade PTA Has Meet**

The Spade PTA met Thursday night at 7:30 in the study hall.

The meditation was given by Mrs. Leon Leonard. She gave the 12 rules for raising a juvenile delinquent and then read Prov. 22:6.

The music was furnished by the second grade room, under the direction of Mrs. Dan Norton. They sang some patriotic selections and also some Halloween songs.

The speaker for the evening was Mrs. Roy B. McQuatters, Sr. who spoke on the history of the Spade Ranch. She told that most of the land sold for \$35 an acre when the ranch was first broken up, compared with some now selling for \$625.

Mrs. McQuatters has interviewed the Norfleets and Elwoods and she brought out interesting events in their lives while they were living on the ranch.

She traced the history from the very beginning to the placing of the historic medallion on the headquarters last summer.

Mrs. Kenneth Ramage presided during the business meeting. Eight items were accepted for this year's projects. The PTA will have a food booth at the Halloween Carnival October 31 in the school, beginning at 6:30 p.m.

It was announced that the District Workshop will be at Ralls October 15 from 10 a.m. to 3 p.m. This workshop is for every PTA member in the district.

Refreshments were served in the cafeteria to the large crowd that attended by Mrs. Leon Leonard, Mrs. Joe Bailey, Mrs. Leroy Wallace, Mrs. Howard Baker, and Mrs. Ivens.

**TO SANDHILLS-58,000 FEET NORTH**  
**80-ACRE TRACT PROPOSED 4 WELLS IN CORNERS, 1 IN CENTER**  
**PROPOSED 3 NEW WELLS NOW, 2 NEW WELLS IN 1967**  
**TO TOWN**

HERE'S CITY WATER FIELD and prospects for enlargement. The 354 acres at the bottom, left, are the present water field, while a nearby 80 acres is just northeast, and another nearby, 177 acres, is on the east. Engineer Bill McMorries has offered a series of plans that would include the 80-acre tract, and perhaps the added 177 acres, where serious question of water quality exists. McMorries favors a move directly to the sandhills, 58,000 feet away, as did a Tuesday night meeting with the city council.

**SANDHILLS**  
 (Continued from Page One)  
 time, and it may not be easy now," Keeling added.  
 He was referring to a bond issue in 1956 in which the council proposed to build the sandhills system and make other city improvements, at a bond figure of about \$1,350,000. It lost in a hotly contested election.  
 The present city water field, bought a couple years before, was under development when Keeling took office, along with councilmen Jim Mangum and Jim Crump.  
 It is 354 acres, about three miles northeast of town, McMorries prediction that the field could last only for five years longer, on the heavy pumping the city requires, snapped the sand-

**Probation Is Revoked**  
 Billy Lee Davis has had probation on forgery revoked in 154th District Court today and was sentenced to 90 days in the penitentiary. At the time of the revocation of the probation, Davis' warrants for his arrest at Wichita Falls and Lubbock, officials reported.  
 A hearing on another probation was held in district court. It involved a drunk driving and the defendant was ordered to go to a hospital for treatment or face revocation of probation.  
 water is depleting in the field area much faster than other areas, and it is important that we go to the hills right away."  
 "I'll go along with Werner that," Clayton said. "If we have just one choice."  
 The group heard statements from Dan Hurd, who owns just south of the city's 80-acre tract--this is not developing that "I feel like if you have well in each corner you're pulling water from my place. The city already is doing with a well on the corner of its present field added.  
 Similar statements made by E. B. Kelly and Lichte, neighboring farmers. Lichte cited the case of a farmer city well, designated Number 5, which "drained well a quarter of a mile and Extension of the city's present well area "will drain out a tillable soils rather than sandhills. I hope you'll have the sandhills now."  
 There was testimony, some it humorous, about the quality of water on a 177-acre city owned northeast of present supply. McMorries said that this water probably not of quality to drink, or other city use.  
 Fred Cook, who owns adjacent to the city tract on the southwest, was emphatic on the quality.  
 "I'm not worried about using this water long," he said. "You can't put it in engine appliances, or it will eat up," a statement affirmed by Ray Graves, whose land is on the southwest and who has a labor directly south of his labor, owned by councilman D. Garland, Jr.  
 "If you drink water of this place, Graves said, "it's like taking a dose of salts." The water will eat the freeze plug of an irrigation engine in 45 days, he said.  
 The Tuesday night session was one of a series for the council in a continuing study of city water problem, that is expected to result in an election proposal to Littlefield soon, perhaps before the year ends.

# Wildcats Meet Victory-Starved Bulldogs Friday

## Plainview Aims To Snap 24-Game Losing Streak

There are those in Plainview who say the Bulldogs will win a game this year. With three chances already by cards without a victory and unless string at 24, Plain-

view fans are hopefully eyeing the Littlefield Wildcats as their first grid victim since Nov. 12, 1960. Besides the incentive for breaking a long losing streak,

the Bulldogs have the advantage of having four former Littlefield coaches on their staff. Head Coach Don Williams was chief mentor here in 1961, and the most recent addition to the Bulldog staff is Harold Green, grid assistant and basketball pilot here last year.

Plainview had 20 lettermen, including six starters, back for this year's team. The Bulldogs, in tough District 3-AAAA, lost a close 22-15 game to Albuquerque Highlands in the opening non-district clash. An early district clash with Amarillo ended in a 13-0 defeat, then Borger smashed the Bulldogs by 55-0 last week.

The game with Littlefield will mark the final non-district outing for the Bulldogs, and the Wildcats are the only Class AAA team on the schedule. The New Mexico team was equivalent to a 4A school.

Coach Williams thinks his defense is better this season. The offensive game is led by Joe Don Ford, 2-year-lettermen fullback, and Tom Sawyer, 160-pound veteran quarterback. Eddy Piercy, 165-pound guard and linebacker, heads up the defensive unit for Plainview. End Jerry De Cordova, 190, and tackle Robert Ferguson, 205, are other standouts on defense.

The Bulldogs' last victory in 1960 was a 13-6 win over Pampa. Plainview exploded for two touchdowns in the final quarter to win that one, and it's been a long, long, long time since.

the victory-hungry Bulldogs. It's shaping up as quite a battle, so we'll pick it close: Littlefield 14, Plainview 8.

In other area games of interest: Brownfield to edge Levelland, Lamesa over Hereford, Perryton to edge Canyon, Tulla to top Olton, Springlake by Amherst, Sudan over Frenship, Floydada to whip Dimmitt, Petersburg to beat Anton, Farwell by Plains, Friona over Bovina, Lorenzo by New Deal, Silverton to whip Hart, Crosbyton to top Hale Center, Morton over Abernathy and Lockney by Slaton.

On the college scene: Texas Tech to knock over TCU, Arkansas over Baylor, Oklahoma to top Texas, Navy over SMU, Houston by Texas A&M, Rice over Stanford, Arizona State to edge West Texas, Wichita over Hardin-Simmons.

## Sports Arena Has Special Attraction

A special attraction is on tap for wrestling fans at the Littlefield Sports Arena Saturday night.

Sweet Georgia Brown and Mary Sue Spencer, two colored girls, will meet in the first main event of the evening. Promoter John Ussery claims the Negro girls "show more action and a rougher match than their white counterparts."

Luis Martinez has called on his former tag team partner, Pat Kelley, this week to help him in his match against Tokyo Tom and Joe Gump. Kelley is well known to fans of the west

C. W. FINCHER

## Bula Coach Is Named

C. W. Fincher, former coach at Weslaco, has been named as football and basketball coach at Bula High School.

The new coach, his wife Burdill and 14-year-old son Dale, moved into one of the teacher-ages last weekend. He will teach science in the 5th through 8th grades.

Fincher received his BA degree from Sul Ross College and has had 12 years of teaching and coaching experience. He and his wife are members of the Methodist Church.

Fincher replaces Marvin Young, who was fatally injured in an auto accident recently.

## Armyworms Reported

Fall armyworms, which develop best during cool, wet weather, are being reported in many areas of the state, according to John G. Thomas and W. H. Newton, entomologists, Texas Agricultural Extension Service.

The worms which feed primarily on pastures, lawns, and native grasses during this part of the year, may later become a problem on small grains, say the specialists. They probably cause more economic damage to fall planted small grain, grain sorghum, and Bermudagrass in Texas than to any other crop, they add.

The worms eat the forage and tender stems of the plant they attack and cause whitish patches in fields of grain or pastures which are the first signs that the worms are present.

The adult moths are active in the late evening and at night and females usually lay eggs in masses of 150 on blades of grass or on the eaves of houses, since they are attracted to light.

The young larvae hatch in 2 to 4 days but the young larvae are usually not noticed until they are 1 to 1 1/2 inches long. Larvae feed for about 2 to 3 weeks and pupate in the ground, completing a life cycle in a month.

For the best control of the fall armyworm, insecticides should be applied at the first sign of an outbreak and when

## Surprising Raiders Host TCU In Saturday Contest

Texas Tech's surprising Red Raiders face a highly respected foe, Texas Christian's Horned Frogs, in Jones Stadium at 7:30 p.m. Saturday.

On the heels of an upset shut-out, 10-0, over Texas A & M, Coach J. T. King's Raiders will be confronted by a Frog eleven on an 18-3 loss to Arkansas in Fayetteville.

After three games the sophomore-flavored Raiders, with a 2-1 record, have captured one more victory than they did all last season. Tech opened with a 15-7 win over Washington State before bowing to Texas 49-7 a week before the rebounding win over A & M.

TCU, returning 28 lettermen from the team that blasted Tech 35-13 last fall, took its first two games, by 10-0 over Kansas and

by 13-0 over Florida State (earlier conqueror of highly touted George Mira's Miami, TCU battled Arkansas on even terms but fumbles and interceptions damaged the Frog cause.

Texas Tech's win over Texas A & M was the first Raider victory in Lubbock in the 22-game series. On four previous occasions here A & M had captured the contest.

Fullback H. L. Daniels tied a Southwest Conference record established 41 years ago when he booted a 37-yard field goal in the first quarter. He now has 10 field goals for his career, a mark set by Baylor's Wesley Bradshaw in 1921-22. Minutes later, end David Paetz made a diving catch in the end zone of a 46-yard pass from quarterback Ben Elledge.

## BALES

(Continued from Page One) takes a strong optimistic view based on day-to-day observation of crop progress in his section, where hail caused considerable late planting.

Ginner W. O. Hampton at Spade credits the high humidity of September nights coupled with steady sunshine, with good development of cotton, especially the late plantings. "This is ideal for cotton and you can just see it develop," he said.

A note of caution still underlies cotton forecasts. The bugaboo of early frost still hangs in the air, but is lessened sharply with each clear, sunny day. The average frost date for Lamb County is November 2.

The grain crop in the Pep area is about in, according to Dersing. The yields were "average to better than normal."

There was a wide range in the yields, from 1200 to 3000 pounds per acre.

The grain crop in Lamb County has been above average this year, this fact being reflected in the above average bank deposits for the end of September.

The PCG and Lubbock Cotton Exchange have forecast a production of 1,928,000 bales of cotton in the High Plains area, which includes 23 counties. Lubbock County tops the estimated production with 240,000 bales, and Lamb's estimate falls at 180,000.

Hockley is ranked third at 170,000, followed by Hale 155,000; Terry 145,000; Dawson 145,000; Crosby 125,000; Lynn 125,000; and the remainder of the counties below 100,000.

Cotton observers say a crop of the 1.9 million bales forecast would put about \$327 million into the area economy. The current crop estimate for the High Plains area compares with last year's second largest crop on record on 2,328,293 bales.

Acree allotments for 1963 were slashed by an average of 10 percent. The record high for the 23-county area was in 1961 when 2,344,803 bales were produced.

**SIDELINED**--Steve Lewis, sophomore halfback for the Littlefield Wildcats, will be out of action several weeks after sustaining a broken toe in the Denver City game. He has been a starter on defense all season, and will be replaced by Roy Dale Pierce.

## AREA GRID SCHEDULE

**ANTON**--Bulldogs play Petersburg at home Friday, beginning at 8 p.m.

## Junior Loop For Bowlers

An American Junior Bowling League will be formed at Lamb Bowling Lanes Saturday at 10:30 a.m.

The league will be for youngsters in the 11-18 age bracket. All interested youth are invited to attend the organizational meeting, and parents are also cordially invited.

Joe Onstead of Lamb Bowling Lanes went to school in Amarillo last week and is now a certified instructor in the American Junior Bowling Club.

The new bowling league for boys and girls will be held each Saturday morning.

Littlefield's Wildcats will be trying to claw their way above the .500 mark Friday night at Plainview, but the Class 4A Bulldogs will take the field with a sense of urgency, too, for they've been .000 for 24 games. The game, which has a 7:30 p.m. kickoff time, will mark the final non-district engagement for both teams. The Wildcats, who've posted an alternating win-loss, win-loss mark in four outings, will be in fairly good physical shape after a bruising battle with Denver City.

Plainview has a string of 24 consecutive defeats, and Coach Don Williams, a former Wildcat mentor, would like nothing better than to end that skein against Littlefield.

Coach John Howle said Wednesday that defensive halfback Steve Lewis will probably be the only regular to miss action Friday. The fine sophomore back broke a toe in the Denver City tilt and will be out two more weeks.

End Larry Wood also hurt a toe in the game, but he is expected to be ready for duty. Tackle Robert Bolton will be ready after bruising a leg in the last contest. Defensive tackle Dickie Montgomery was sick the first of the week but may round into shape by game time.

Howle's probable starting lineup may have a couple of changes. He indicated that Roy Dale Pierce would fill in for Lewis at defensive half, and that Ronald Sitton might move to the starting fullback post with Larry Coffman taking over at wingback.

Ray McKinney and Grover Pigrum would complete the backfield. The line will probably be the same, although Charlie Powell is making a bid for a tackle slot. That would be Wood and Jerry Cox at ends, Robert Bolton and Ricky Phillips at tackles, Steve Lowe and David Dusek at guards and Tim Chambers at center.

Howle had his crew working hard on their offensive attack this week after the club had a hard time moving the ball against Denver City. The Wildcat coach had high praise for his team's defensive work last week.

Plainview lost a close one to Albuquerque Highlands in the season opener, 22-15, then fought Amarillo hard before bowling by 13-0. Borger broke loose for a 55-0 win over the Bulldogs last week. Reserves for both teams played most of second half after Borger built up a 40-0 halftime lead.

The Bulldogs are led offensively by quarterback Tom Sawyer and fullback Joe Don Ford. Sawyer is a good ball handler and can throw, and Ford is a power runner.

Eddy Piercy, all-district candidate at guard, is a standout defensive linebacker. The Bulldogs lean heavily on two big tackles, too--Trent Jordan, 190, and Robert Ferguson, 205.

# Schools Observe Fire Prevention Week

"Fire Prevention Week", Oct. 6-12, has been stressed in grades 1 through 6 in the Littlefield schools this week with a poster contest and home safety check highlighting the activities.

Special instruction on fire prevention and fire drills has been included in some grades, and films on fire prevention were scheduled in some rooms.

The Littlefield Chamber of Commerce participates in the program by offering prizes in the poster contest. First, second and third-place prizes will be awarded in each of the first 6 grades. The prizes will be cash awards of \$3, \$2 and \$1.

The posters will be judged at the close of the week, and the prize-winning posters will be displayed next week in downtown Littlefield.

The campaign also includes a Junior Fire Marshal program which is sponsored nationally by the Hartford Insurance Group

and locally by Citadel Insurance Agency in cooperation with the schools and fire department.

The objective of the program is to help eliminate common causes of fires in homes. Boys and girls in the first 6 grades will inspect their homes for fire hazards with the help of parents.

Special check lists have been provided for most of the grades. When the pupils complete their home reports, they qualify as

Junior Fire Marshals. The check list covers the most frequent causes of home fires-- worn electrical connections, overloaded circuits, improperly stored flammable materials, unscreened fireplaces, rubbish and improper smoking habits.

School children qualifying as Junior Fire Marshals will receive an official badge and a plastic fire helmet.

J. P. Ray, city fire marshal, commended the schools for participating in the fire prevention

program and said every family should make a home inspection regularly. He emphasized one item on the check list that will help save lives: planning in advance escape routes from every room in the house for every member of the family in case a fire should break out.

Local schools are more than 15,000 elementary schools across the country are participating in the prevention and safety program.

**"My neighbors insisted that I get an ELECTRIC RANGE!"**

says Mrs. Huff Pope, 1722 9th, Levelland, Texas

■ "When I moved from the farm to the city, my wonderful new neighbors, Mrs. Lendsey Dycus (at left in the picture above), and Mrs. Fred Barker, both of whom were already cooking electrically, insisted that I, too, get an electric range. Well, they won out and I'm sure glad — I wouldn't cook any other way," Mrs. Pope says.

In the picture, at right, Mrs. Pope slices one of her locally famous pound cakes with the comment, "I've never baked better cakes than in my electric range."

# Atomic Energy Program At LHS

Demonstration lecture program titled "This Atomic Energy Program At LHS" will be presented in an assembly program at Littlefield High School on Oct. 28.

The program, sponsored by the United States Atomic Energy Commission, is presented at the Oak Ridge Institute of Nuclear Studies, Oak Ridge, Tennessee.

The Institute is a nonprofit, national corporation of 39 member universities and colleges, operating under contract with the Atomic Energy Commission. The traveling exhibits, which visit hundreds of high schools throughout the United States each year, are designed to provide the public with better understanding of atomic energy.

James W. Bibb, an exhibit manager who has received special training in nuclear science, will present the program. Bibb has a bachelor of science degree in naval and electrical engineering from the United States Naval Academy at Annapolis, Maryland.

Subjects to be covered include atomic structure, the nucleus and radioactivity, radiation biology and fission and fusion. The

### School Has Display In City Window

A project to let the public get a "look through the school window" has been initiated by Mrs. Lou Driscoll, curriculum coordinator at Littlefield Schools.

A window display has been set up in the Hobby House building in downtown Littlefield. The present display illustrates beginning teaching methods for reading in the first grades.

Mrs. Driscoll hopes to have different departments at school prepare displays which will serve to inform the public as to what is going on in school and how it is being done.

She invites interested citizens to contact her if they have ideas they would like to see incorporated in a window display. Mrs. Driscoll said merchants and individuals had been "very cooperative" in helping start the "school window."
