

QUEEN AND HER FAMILY

The above picture shows Queen and her family of six puppies and one—adopted—a little red pig, which when abandoned by her own mother—was adopted and has been cared for by the English Bull and Shepherd dog, as indicated by the above picture.

Mr. and Mrs. A. L. Decker, who farm near Lake Dallas, Denton county, are the owners of the livestock. Recently Mr. and Mrs. J. H. Graham of this city visited Mrs. Graham's sister and brother-in-law, Mr. and Mrs. Decker, and brought to Littlefield the story and picture.

The little pig was abandoned by its mother when two days old, and Mrs. Decker went to town to buy a bottle with which she planned to feed the pig. Much to her surprise on arriving home that day from making the purchase she found the little pig had taken up with the pups, which were about two weeks old, and was feeding along very comfortably as a member of the group. They are now about five weeks old, and Queen still has four pups and one pig to mother.

No. 1 Jackson Is County's First Producing Well

Other Locations Made, And Several Wildcats To Be Drilled

All indications point to an oil field in Lamb county. The Humble Oil & Refining Co. No. 1 Jackson, located 3 1/2 miles northeast of Anton, and about 15 miles east of Littlefield, Lamb county, is reported producing from the lower Permian lime. Rumors indicate that it is expected to produce between 800 and 1200 barrels.

However, in an interview with J. P. Jackson, driller, Wednesday, he stated that this well would make at least 500 barrels and possibly more. He also added: "We are going to have a nice field out there, and within six months there will likely be 50 wells drilling out there. We have two 500 barrel tanks on the location, and will start building them today or tomorrow. We will still swab into the slush pit until the tanks are ready. We are acidizing today with 10,000 gallons."

This well is located approximately 30 miles north of the nearest production in the Slaughter pool of Hockley county.

That zone had been treated with 5000 gallons of acid. The operator had good shows of oil and gas in swabbing down to 4000 feet from the surface after the treatment, and after reaching that level swabbed into pits at the rate of five to six barrels of oil per hour. The well was shut in for five hours and the hole filled up and "sloshed" top of the casing.

This test drilled to a total depth of 7,191 feet in granite which was

Roosevelt, Truman Election Winners

Franklin Delano Roosevelt easily won a fourth term in Tuesday's election, and continued leadership in the unfinished business of war and peace.

Returns from all but 37,275 of the country's 130,810 voting units indicated his electoral vote margin over Gov. Thomas E. Dewey toward 491 to 124.

The president's big lead lengthened as the hours went by Wednesday, and by afternoon reports indicated the total votes cast at 49,841,826, with 19,721,303 for Roosevelt, and 17,299,523 for the Republican candidate, Gov. Thomas E. Dewey.

To the millions who voted with him in the Republicans' losing fight under the battle cry of "it's time for a change," went Dewey's thanks and his expressed confidence that all will join in the hope that providence will guide Mr. Roosevelt and the nation to peace.

The victory vote with which the democracy's majority stamped approval on Mr. Roosevelt's conduct

of the war thus far, sweeping as it was, still was less than the one he gained in his third term bid four years ago.

With the Democratic victory, Vice-President Harry S. Truman, who 10 years ago was an obscure county judge of Missouri, will serve.

Returns from Texas election bureau Wednesday morning from 230 out of 254 counties in the State, including 25 complete, show the following totals for candidates in Tuesday's general election.

President — Democrats 511,895; Republicans 109,560; Texas Regulars 79,131; Socialists 283; Prohibitionists 590; America First 114.

Governor — Stevenson 450,847; Peasley 43,647.

Amendments: Municipal pension plan: For 122,624; against 71,884. State pension plan: For 114,688; against 745,595.

County tax reallocation; for 108,950; against 59,802. Total vote counted 701,573.

More Votes Cast Tuesday Than In History Of County

Democrats Get 2337 Votes; Republicans 587; Texas Regulars 391

Judge I. B. Holt announced Wednesday that about 3,500 votes were cast in Lamb county Tuesday, which was the largest number of votes cast in a general election in the history of the county. The second largest vote cast in a general election in the county was in 1928, when Herbert Hoover and Al Smith were presidential candidates, 2800 votes being cast.

Lamb county voted as follows: Democratic 2337 votes; Republicans 587; Texas Regulars 391; Socialists 5; and Prohibitionist 1.

Inasmuch as the United States have invaded Leyte Island, in the Philippines, and it is expected that many Americans confined in prison camps in the Philippines, who will be liberated soon, the American Red Cross are making arrangements to have messages for the prisoners of war from their home folks on hand to be delivered to those servicemen upon being liberated.

Chairman O'Connor of the American Red Cross, St. Louis, issued the following statement to the newspapers and radio networks Friday last: "Messages for delivery to liberated U. S. Prisoners of War and civilian internees in the Philippines will be accepted by all Red Cross chapters during the month of November. Arrangements have been made by the American Red Cross through the cooperation of the War Department, Post Office Department, and the Office of Censorship.

"This service is designed to bring to any prisoner liberated by United States forces news of home as soon as possible after he is free. Because letters to men and women in Japanese prison camps have had to be sent across Siberia, news of home has taken six months or more to reach them. Now, in addition to (Continued on Back Page)

Considerable Money Also Contributed With Which To Buy Gifts

Splendid response has been forthcoming by Littlefield and area to the appeal for Christmas gifts for the wounded service men of McCloskey Hospital; and Mrs. L. M. Brandon, executive secretary of Lamb County Chapter of Red Cross, stated Monday that at least 500 gifts will have been received when the project is completed Nov. 15.

A booth was set up in front of the Southwestern Public Service Company Saturday, with Mrs. J. C. Elms as chairman, assisted by Mrs. L. M. Brandon, Mrs. J. W. Keithley, Mrs. D. W. Holladay, Mrs. P. S. Cowan, and Mrs. Gertrude Cowan. The women worked at the booth and on the street, handing out cards and soliciting gifts.

Besides a large number of gifts received, \$67 was received in cash, with which gifts will be purchased.

Spade Methodist Church took up a special collection Sunday in aid of this project, which netted \$27, with which they are buying gifts.

May Now Write To U. S. Prisoners In Germany

Community Ch'rmn Will Meet Tuesday

Pat Boone, county chairman of War Bond Committee, announced Wednesday that a meeting of all community chairmen of the county would be held Tuesday night at 7 o'clock at the First Methodist church, Littlefield, for the purpose of organizing for the Sixth War Bond Drive, and getting their support for the campaign.

In an interview with Mr. Boone Wednesday he stated they were going to invite Congressman George Wharton to the meeting, and hoped they would be able to be present and address the gathering.

C. O. Stone is county chairman of the drive, and the quota for Lamb county is \$705,000, of which \$270,000 is to come from the sale of "E" bonds.

The quotas for the various school districts are: Amherst \$86,362.50; Olton \$93,412.50; Fieldton \$19,387.50; Hart Camp \$24,675; Littlefield \$106,175; Sudan \$121,612.50; Pleasant Valley \$10,575; Spade \$51,112.50; Spring Lake \$61,687.50; making a total of \$705,000.

Families and friends of newly captured American prisoners of war in Germany can write to them immediately upon notification of their imprisonment, as announced by the local Red Cross Chapter Monday.

Under a new plan announced by the Army Provost Marshal General, mail will now be forwarded through the International Red Cross in Switzerland, he said. Previously, mail could not be accepted by the post office for prisoners until their permanent prison camp addresses were received. This usually was two or three months after the notification of capture.

Letters can now be sent as soon as a man is reported prisoner, provided that they contain the full name and address of the prisoner identifying him as a United States prisoner of war in Germany and are sent in care of the International Red Cross Directory Service, Geneva, Switzerland.

Packages cannot be sent until notification of the prisoner's permanent location is received. Official prisoner of war package mailing labels will then be supplied by the Provost Marshal's office allowing one parcel to be sent every two months.

Irby W. Davis Prefers "West Texas Sand Storm"

AN AIR SERVICE COMMAND REPORT IN ENGLAND—Irby W. Davis' first wish has come true in England, but he's still bucking for the second.

Promotion of the Littlefield soldier from Technician, Fifth Grade to Sergeant was announced recently by Major General Hugh J. Knerr, commanding general of the Air Service Command, United States Strategic Air Forces in Europe.

"I've visited many cities in England," he said, "and seen many old historic places, but still the best

sight to me would be a West Texas sand storm."

Overseas a year, he is stationed at the largest Air Service Command supply depot in Britain. He rushes supplies and equipment to the fighting planes at advanced combat stations.

He is the husband of Mrs. Elsie Davis, Littlefield, and the son of Mrs. Tempie Davis, Lubbock. He attended Littlefield High school and before joining the Army was employed by the Lowmire Oil Co. in Lubbock.

How women and girls may get wanted relief from functional periodic pain

Cardul is a liquid medicine which many women say has brought relief from the cramp-like agony and nervous strain of functional periodic distress. Here's how it may help:

1 Taken like a tonic, it should stimulate appetite, aid digestion, thus help build resistance for the "time" to come.

2 Started 3 days before "your time", it should help relieve pain due to purely functional periodic causes.

Try Cardul. If it helps, you'll be glad you did.

Hopes To Have Pure Bred Jersey Farm

Elwin Matthews, local Agricultural teacher, who has purchased the Hopping Dairy property from Mrs. Esta Mae Hopping Shaw, will move to his newly acquired home about January 1, according to Mr. Matthews, who stated that the same program of selling the whole milk to the Wayne Milk Company as now in progress would continue under his management. Mr. Matthews, however, will continue his duties as agriculture teacher.

The property includes 44 acres of land, a five room house and bath, and all dairy buildings, and represents an investment by Mr. Matthews of about \$8000.

Mr. Matthews will purchase cattle and bring them to Littlefield for his dairy farm. In an interview Monday, he stated that he "hoped to have a pure bred Jersey farm up there some day," stating that was the goal he would work to, and that he would use student labor.

Mr. and Mrs. Matthews have two sons, Jerry and Paul.

Cotton Harvester Popular At Cunningham Farm

W. H. Cunningham of 2 1/2 miles southwest of town has defoliated 300 acres of cotton, and is gathering this crop with the aid of a cotton harvester, which he states will pick from one to two bales per hour.

This harvester, according to Mr. Cunningham, does its work economically in about the same manner as a combine. He states it takes two men to operate it, and it represents an investment of \$1150.

Mr. Cunningham has two machines on hand, a Marco and a Wallace, and expects to also use a John Deere.

Work got started several days ago at the Cunningham farms in the gathering of the cotton crop by means of the harvesters.

Mr. Cunningham also states he is getting a bale to the acre, and that the harvester will gather from 10 to 20 bales a day.

Changes Announced In Classification

The past few weeks have shown a number of changes in classification procedure for Selective Service. The Lamb County Board is urging all registrants to acquaint themselves with these regulations in order that it be possible for the board to classify correctly men under their jurisdiction.

All men in classes II-A, II-A-F, II-B, II-B-F, II-C and II-C-F are classified for a six months period only. At the end of each six months these deferred classifications are re-considered, and it is necessary that new information, consisting of correctly executed forms, be filed by each individual. The date of expiration of the classification is listed on cards mailed to registrants at the time of classification, and forms should be filed five or six days before such expiration date, with the Local Board.

The forms necessary to this procedure are available at any Draft Board office, and the Lamb County Board urges all registrants to keep their files up to date. The practice of sending notices to individuals every six months is to be stopped due to lack of time of the office staff.

The new regulations require all men who have reached their 38th birthday to be classified in Class IV-A, while heretofore only men who had reached their 45th birthday were in this class. Until it is necessary to start drafting men who have passed 38, the Class IV-A will not be re-opened.

Melvin Shipley, employed by Paul Pharris, received his call into the service, and is leaving November 16.

Sgt. Pat Boone, Jr., is still stationed in England. His parents received a letter Friday, stating he was O.K. and getting along nicely.

Of course everybody gets SOME Vitamins. Surveys show that millions of people do not get ENOUGH. A pleasant, convenient, economical way to be sure that you and your family do not lack essential B Complex Vitamin is to take ONE-A-DAY brand Vitamin B Complex Tablets. Sgt. Whisenhunt At McCloskey Hospital

McCLOSKEY GENERAL HOSPITAL, Temple, Texas, Nov. 4.— Instead of getting in a safe spot where he thought he was protected from German shellfire, Sgt. James M. Whisenhunt of Sudan, Texas, 36th Division veteran of the Italian and Southern France campaigns now at McCloskey General Hospital, Temple, Texas, picked a location which turned out to be right in the middle of the firing.

"The fighting at the time I was wounded was near Crest, France. I was sitting by a stone wall trying to stay out of the firing, but a shell hit a nearby tree top. I received 22 wounds altogether, but my right arm, left leg, and back were the most seriously injured," explained Whisenhunt, company mechanic with a medical battalion of the 141st Infantry Regiment.

The 28-year-old Texan entered the Army in March, 1941, and joined the 36th Division at Camp Bowie, Brownwood, Texas. He went overseas in April, 1943, to Africa. After participating in the Salerno landing in September, 1943, Whisenhunt's outfit was in the action at San Pedro, the Rapido River, Cassino, Anzio, and Rome. They were relieved the other side of Grossetta the end of June and sent to Southern Italy for invasion training.

Following this training, Whisenhunt went into Southern France on August 15, or D-Day, about two hours after H-Hour. He remained with the Division until he was wounded on August 26.

Sgt. Whisenhunt, the son of Mr.

Josephine Weaver Now In France

Cpl. Josephine Weaver, formerly of Littlefield, who made her home with Mr. and Mrs. E. S. Rowe, is now stationed in France with the WACS, and under the supervision of Staff Sgt. Ethel Kravita, Atlantic City, N. J., assists in the preparing of meals for all men and women of their company.

A recent release from headquarters of their detachment to the Leader states:

First WAC officers and enlisted women serving with the Air Forces to arrive in France were members of an Air Force Signals Company, now handling cryptographic and

and Mrs. James H. Whisenhunt, Star Route, Sudan, attended school in Fairview, Texas, and worked as a farmer prior to entering the Army.

clerical duties with the American Component, Allied Expeditionary Air Forces, on the continent.

Captain Jean Richmond, Woodburn, Ore., and the women of her detachment came overseas only a few months ago, but since their arrival in England, where they were previously stationed, they have been expecting—and hoping for—assignment to France.

"Some of the women had scarcely unpacked from their trip from the States when we were 'alerted' for this move," said Technical Sergeant Marie Baston, New Franken, Wis., acting first sergeant of the organization.

Mrs. T. L. Blewett and daughter, Mrs. P. A. Davis and family, have returned to Littlefield to make their home. Mrs. Blewett has been living at Witharral since 1935 and the Davis family have been residents of O'Donnell.

Be Quick To Treat Bronchitis

Chronic bronchitis may develop if your cough, chest cold, or acute bronchitis is not treated and you cannot afford to take a chance with any medicine less potent than Creomulsion which goes right to the seat of the trouble to help loosen and expel germ laden phlegm and aid nature to soothe and heal raw, tender, inflamed bronchial mucous membranes.

Creomulsion blends beechwood creosote by special process with other time tested medicines for coughs. It contains no narcotics.

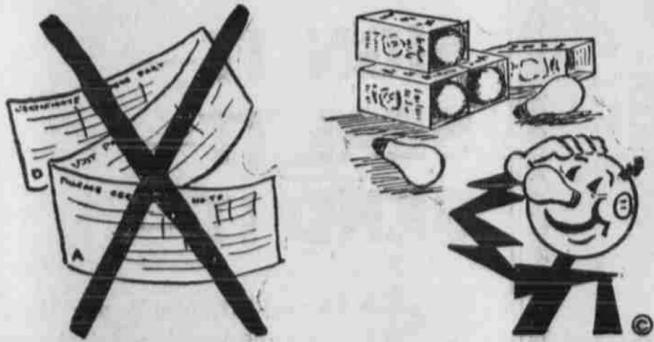

No matter how many medicines you have tried, tell your druggist to sell you a bottle of Creomulsion with the understanding you must like the way it quickly allays the cough, permitting rest and sleep, or you are to have your money back. (Adv.)

NO CERTIFICATE NEEDED FOR THESE "SPARES"

Keep spare lamp bulbs on hand in your home to replace burnouts as soon as they occur. Most electric dealers now have bulbs in all common home sizes. You need no points, coupons or certificates to buy them—never did, in fact. So don't be without light these dark fall days and longer evenings.

It costs you little to have light in your home where you need it. You can be sure you are getting all you pay for if you keep your home lighting equipment in shape this way.

Begin by putting the RIGHT SIZE bulb in each lamp or fixture. Then keep the shades

and diffusing bowls, as well as the bulbs, free of dust and dirt.

Use white or light-lined shades on your lamps, to reflect more usable light.

Move lamps closer to points of use, to shed more light directly on the work. You can often increase their usefulness by rearranging furniture so that one lamp will serve two people.

Your eyes need the correct amount of diffused light to perform difficult seeing tasks like reading or sewing without strain. Now is the time to see that your home lighting equipment can furnish proper illumination.

LAMB COUNTY CLUB BOYS HAVE RECORD ENROLLMENT

The 4-H Club boys of Lamb county with an enrollment of 391, are exhibiting, on the home front, some of the same qualities of their older brothers on the battle fronts in the various theatres of war. Namely, an all out effort in what they undertake to do.

Among the 391 boys enrolled in 4-H work, many of whom have just begun and have not as yet selected all the projects they will have this year, there are 88 pig for pork production demonstrations; 74 calf for beef production demonstrations; 64 gilts and sows for pig production demonstrations; 49 poultry demonstrations; 47 cow for milk demonstrations; 37 heifers for milk cow production demonstrations; 18 grain sorghum production demonstrations; 12 cotton demonstrations; 18 victory gardens; 4 rabbit for meat production demonstrations; and 1 each of goats for milk, turkeys for meat, and lamb for mutton production demonstrations.

While some of the older "leaders of tomorrow" have several demonstrations, some of the younger boys have only one small project. But then, Rome was not built in a day. Although meat, milk and egg production has been emphasized during the past months, we cannot afford to overlook the importance of the cotton projects to aid in the fiber battle or the grain sorghum projects which are also, indirectly, producing food for our fighters and the over-run countries that have been our faithful allies.

Just recently some of our local boys have, through cooperation with Sears, Roebuck and Company's Cow-Sow-Hen Continuation program, won honors coveted by hundreds of South Plains 4-H Club boys.

O. D. Martin, Jr., of Route 1, Sudan, won first prize at the F.F.A.-4-H Club District Sows Boar Show which was held at the Livestock Judging Pavilion of Texas Tech college of Lubbock, October 14, and for the efforts put forth in caring for, fitting and showing the animal was awarded a registered Jersey heifer.

John Henry Powell of Star Route 1, Littlefield, who ran a close second in the District F.F.A. and 4-H Club Sows Gilt Show which was held at the same time and for that honor won a registered Jersey heifer plus one hundred and twenty-five baby chicks, of the breed of his choice, for having been first in this county and thereby being eligible to show at the District Show at Lubbock.

Other boys who did a swell job and won chicks were Lilburn Bales, Star Route 2, Littlefield, and Donald Gene Mixon, Star Route 2, Littlefield. These two boys were awarded 100 baby chicks each, of the breed of their choice, for having been third and fourth place winners, respectively, in the county. The county show was held at Littlefield.

In spite of the fact that several schools have dismissed for a short period of time to enable boys and girls to help with the harvest, some of the clubs in the county have already organized and have elected officers to carry out the program of the full year ahead of them. Those that have organized with the officers they elected are:

Littlefield Junior—President, Gary Pass; vice-president, Don Wilson; secretary, Larry Rice; treasurer, Terry Church; reporter, Earl Adkins; sergeant-at-arms, Joe Dishman; song leader, Wilford Lann and Joe Lee Boyd; adult sponsors, Mr. Blackman and Mr. Adkins.

Junior Red Cross Enrollment Drive Going Over Big

Lamb County Schools Are 100 Per Cent In Securing Goal Sought

Lamb county schools are 100 per cent in their efforts to put over the greatest campaign for Junior Red Cross enrollment for service since its beginning. Spade school is the first to report, having given \$32.52 toward the fund. Other schools are working hard and good reports are coming in as to the response being given by the pupils.

Not one boy or girl in America is too young to be part of the war effort. By the things they have done, they have proved that they, too, can help win the war and the men who are fighting the war. In their schools they have carried on the work of the Junior Red Cross. They are an effective army. Their efforts have resulted in nursery homes for children left homeless in bombed-out sections of England; in medical supplies for the children of China; in school supplies for the refugee children of Poland and Yugoslavia; in thousands of shoes for Russian orphans. They have produced millions of comfort articles, games, favors and furniture for the use of soldiers in this country and overseas. By their efforts, they have confronted and helped the men of our Army and Navy and the children of other countries who have suffered all over the world. By carrying on so large a part of the work of the Red Cross, the children of America have taken their place on the fighting front.

You will want to tune in on the Vox Pop program Monday evening, Nov. 13, at 7 p. m., over the Columbia broadcasting system to hear the story of the American Junior Red Cross. It will come from Chico, Calif., a representative community in terms of size, and one having a well-rounded Junior Red Cross program. Hear this program and you will delight that our Lamb county, schools are supporting an all going, worthwhile, and challenging program such as is offered by the Junior Red Cross.

Other clubs that have been partially organized will finish organizing in their next regular meeting or just as soon as the boys are over the present busy harvest season enough to call special meetings, said Lamb County Agricultural Agent Lem Weaver, and G. K. Bullock, Jr., assistant agent.

MUCH ADVERTISING NEEDED IN SELLING WAR BONDS IN SIXTH DRIVE

In connection with the 6th War Loan Drive, which will be launched November 20, and extend through December 16, in which fourteen billion dollars is the total quota with five billion to be raised from individuals, the Treasury Department writes the Lamb County Leader, in part, as follows:

"We will have a tougher job in the coming Sixth Drive, in reaching our quota, than we have had in any of the previous ones. Selling sponsored advertising will no doubt be more difficult, and we want to give you all the help we possibly can.

A large volume of sponsored newspaper advertising will be absolutely essential to the success of this gigantic and crucial effort. Newspapers supported the Fifth Drive with \$10,160,000 worth of advertising, and while that far exceeded all previous records, we're going to need even more this time. The Treasury has arranged for a

larger schedule of ads than has been available in any other drive.

"Within a few days, a portfolio containing reproductions of advertisements available for the Sixth Drive will be sent to you. In order to avoid paper waste, only one copy is being sent to each newspaper, but an extra copy will be sent for selling purposes if you need it.

"Please express the appreciation of the Treasury to your local business organizations who have cooperated so unselfishly with this program and ask that they again back our boys at the front, by helping put the Sixth War Loan over the top. The Nation needs your help more in the coming Sixth Drive than ever before. American dollars must be spent in appalling sums to finance our all-out military efforts. Next to our military operations the War Bond Program is the most vital part of our war effort. It is our NUMBER ONE obligation here at home."

OIL FIELD—

encountered at 7,185 feet. The Humble Oil Company have considerable holdings in Southern Lamb county, and already have staked another Wildcat, its No. 1 R. L. Bagwell, 660 feet from south and west lines of Labor 25, league 673, Capitol Lands, three miles southwest of Littlefield. It is located on a 12,000 acre block out of leagues 673, 674, 684 and 685, Capitol Lands, and will be drilled to 7500 feet or granite.

The derrick is already up for this test, and it is understood the machinery will be moved in within the next few days. This location is near the Dewey Hulse farm. It is expected the driller will spud in soon.

Five and a half miles northwest of the No. 1 Jackson, the Woodley Petroleum Company No. 1 Bird, section 66, Block T, Thompson survey, is drilling below 6,422 feet in lime. This wildcat is located 2 miles west of Spade, and 8 miles east of Littlefield. It is rumored that there is a fair showing of oil in this test.

There are already two producing wells 14 miles southwest of Littlefield, and drilling underway on a third well. These are Cobb No. 1 and 2, being drilled by the Stanolind Oil Company. Reports indicate that royalties are selling for as high as \$100 for one-half of one-eighth royalty.

A new location has been made, and derrick going up on the Hilburn & Foust property, five miles southeast of Spade, on what is known as the old Fowler farm. Practically everything in this vicinity is reported to be leased, and royalties in this locality are selling at a high price, it is reported.

They returned home Wednesday.

Mrs. Jones is the former Miss Minnie Kate Grissom. She has been making her home with her mother-in-law, Mrs. Chester Jones, at Colorado City. Forced To Abandon Ship On Acc't Fire

Mr. and Mrs. B. W. Lindley received word from their son, Lieut. Byron K. Lindley, co-pilot on a B-17 four motor bomber from the Yuma Air Base at Yuma, Arizona, that he with his pilot, Capt. Lair, were forced to abandon ship only 15 miles from the air base on account of fire. The right in-board motor suddenly burst into flame. All fire-fighting equipment was immediately put into action but to no avail. The motor just melted and fell out, but by that time fire had spread so the captain gave orders to abandon ship. When all 14 men were safely out, Lair and Lindley parachuted to safety. They saw their ship crash in the mountains and burn. One man received a broken ankle; and others just minor scratches.

After investigation, authorities lay the blame to a 100 per cent mechanical defect, since all four motors were new and had been up one hour on test flight. Commanding officers commended the men for the fine way in which they handled the situation, and all men were given a 15 day leave in which to rest and recuperate from shock. Lieut. Lindley has gone to Gary, Indiana, to see his fiancée, Miss Rosa Lee Frankovich, and will come here to visit his parents before returning to Yuma.

Wins Bond In Garden Contest

Fulton Smith, Jr., 10, son of Mr. and Mrs. Fulton Smith of Route 1, Anton, Texas, has been selected by L. L. Johnson, State Boys' Club agent, of the Texas Extension Service, as a winner of a \$25 War Bond in the Green Thumb Garden contest, G. K. Bullock, Lamb county assistant Agricultural agent, announced Monday.

The Garden contest was sponsored by the National Victory Garden Institute.

Smith, a member of the Littlefield Intermediate 4-H club, with an excellent record for the past year, had 17 different kinds of vegetables. This alert lad helped his mother preserve 350 quarts of various kinds of vegetables, in addition to providing all the fresh vegetables his family could use during the summer months.

In addition to seven bushels of green tomatoes gathered recently, when he anticipated frost, Fulton still has more tomatoes than the average victory garden produces.

Young Smith is already planning for an all-out effort to produce even more food during the next season. What is more, he is anticipating a program of beef and pork production for the war effort during the coming year. Fulton is looking forward to the time in the not too distant future that he will be eligible for one prize most all 4-H club boys hope to win sometime—an all expense paid trip to the National 4-H Club Congress which is held in Chicago each year.

food, clothing, and medical treatment, which liberated prisoners will receive from the Army, the Red Cross hopes to bring to them recent news of their families and friends at home.

"One message, the length restricted only by the space on the Red Cross message form, will be accepted by chapters from any person in this country for a prisoner of war or civilian internee known to be held in the Philippines. All messages will be sent immediately to Washington for transmittal by Army Postal Service. While the Red Cross does not guarantee delivery, every effort will be made to reach the addresses as soon as they are liberated. The Army will attempt to deliver messages to prisoners of war, and the American Red Cross or a State Department representative will try to deliver messages to civilians on their liberation. No messages can be accepted for men listed as missing in action.

"The Red Cross urges families not only to submit the special messages, but to continue writing at regular intervals by Prisoners of War Mail.

Red Cross form 1616 must be used in transmitting these messages. Prompt action is necessary as no messages received after November 30 will be accepted for delivery."

G. M. Shaw, county chairman, received a 300 word telegram Saturday with the above information.

Mrs. L. M. Brandon, executive secretary, Lamb County Chapter of Red Cross, stated that she had on hand a supply of the proper forms for transmitting the messages to Prisoners of War, and asked those who wish to contact Prisoners of War or civilian internees, imprisoned in the Philippines to call at the Red Cross office and secure same.
