Here are the facts

that prove it America's finest
medium-priced automobile

Below are typical examples of facts drawn from a comparison of the Oakland All-American Six with 20 leading cars in its field. Study these facts—then come to our showroom for additional information. We can give you dozens of other comparisons as further proof of Oakland's unrivaled value. And these are facts which prove the Oakland All-American to be America's finest medium-priced automobile.

What these features mean to you

Large piston displacement is needed to develop high power at moderate engine speed. Moderate engine speed is an important factor in the life of a car.

PISTON DISPLACEMENT

No name in automobile coach building means so much as Fisher. Fisher bodies are famous for style, luxury and roominess. In addition, they hold such advantages as sturdy composite hard-wood and steel construction, VV windshield, side cow ventilation and adjustable drivers' seats.

FISHER BODY

Reasonably long wheelbase gives greater riding ease and road balance. Also permits use of longer, smarter, roomier bodies. At the same time, a small turning circle is essential to handling ease.

WHEELBASE

For safety, efficiency, convenience, smoothness and silence nothing has been found to compare with internal-expanding mechanical 4-wheel service brakes with non-squeak bands. An entirely separate emergency braking system is needed as an extra safety factor.

BRAKES

How Oakland compares with the field

Only one car as low-priced as Oakland surpasses Oakland's piston displacement of 228 cubic inches. Twelve cars in the field have less displacement, and five of the 12 are higher-priced than Oakland.

Only Oakland and two other cars in the field offer bodies by Fisher. And one of the two is nearly \$100 higher in price than Oakland. Of the 18 cars which have less-known bodies, 11 are priced above the All-American Six.

Only one car as low-priced as Oakland has a wheelbase as long as Oakland's, which is 117 inches. That car requires a turning circle to the left of 42 feet as compared with Oakland's 36 feet. Six higher-priced cars have shorter wheelbases.

Only Oakland and one other car, costing \$200 more, use the fine type of brakes described opposite. And no car in the field equals Oakland's 290 square inches of brake band area. Oakland's separate emergency brake operates on the transmission. Seven cars in the field have no separate emergency brakes, although three of them exceed Oakland in price.

Oakland All-American Six, \$1145 to \$1375, J. O. Pontiac, Michigan, plus delivery charges. Spring covers and Lovejoy Hydraulic Shock Absorbers included in list prices. Bumpers and rear fender guards extra. General Motors Time Payment Plan available at minimum rate.

Consider the delivered price as well as the list price when comparing automobile values. Oakland-Pontiac delivered prices include only reasonable charges for handling and for financing when the G. M. A. C. Time Payment Plan is used.

CITATION BY PUBLICATION THE STATE OF TEXAS, AND CITY OF LITTLEFIELD. To the Sheriff or any Constable of Lamb County—Greeting: YOU ARE HEREBY COMMANDED to summon A. L. Smith by making publication of this Citation once in each week for four consecutive weeks previous to the return day hereof, in some newspaper published in your County, if there be a newspaper published therein, but if not, then in the nearest County where a newspaper is published, to appear at the next regular term of the District Court of Lamb County, to be held at the Court House thereof, in Olton, Texas, on the 1st Monday in August A. D. 1929, the same being the 5th day of August A. D. 1929, then and there to answer a petition filed in said Court on the 28 day of June A. D. 1929, in a suit, numbered on the docket of said Court No. 449, wherein Arthur P. Dugan is Plaintiff, and L. V. Barnes, A. L. Smith, and M. D. Mahaney are Defendants, and a brief statement of plaintiff's cause of action being as follows:

Plaintiff represents and shows to the court that the defendant, L. V. Barnes, a feme sole, executed and delivered to plaintiff 8 certain vendor's lien notes, dated December 12, 1927, payable to the order of plaintiff, bearing interest at the rate of 6% per annum until maturity and 10% thereafter, providing for 10% attorney's fees, the first 7 notes being each for the sum of \$100.00, and note No. 8 for sum of \$650.00 due and payable January 1, 1929, to 1936, inclusive, providing that failure to pay any note or any interest thereon would, at the option of holder mature all of said notes. That said defendant failed and refused to pay interest due on said notes on January 1, 1928, and 1929, and failed and refused to pay note No. 1, and plaintiff declared all of said notes due and payable. That said notes are secured by vendor's lien on labor No. 19 in League 687, situated in Lamb County, Texas, conveyed by plaintiff to defendant, L. V. Barnes, by deed of even date with said notes, and in the deed the vendor's lien was retained. That the said defendant, L. V. Barnes, also executed deed of trust to said premises to E. W. Walker, trustee, to secure said notes, which deed of trust, also provided that defendant should pay all taxes on said land. That the defendant failed and refused to pay taxes and plaintiff was forced to pay said taxes to protect his lien on said land and the taxes paid to School District is the sum of \$393.02, and to State and County \$102.17. That subsequent thereto the defendant, L. V. Barnes, conveyed said land to A. L. Smith who assumed payment of said notes and taxes, and said defendant A. L. Smith thereafter conveyed said land to defendant, M. D. Mahaney, who assumed said notes and taxes and is now claiming an interest in said land.

Plaintiff prays for his debt, damages, interest, attorney's fees, costs of suit, and foreclosure of his liens on said land.

Herein Fail Not but have before said Court, at its next regular term, this writ with your return thereon, showing how you have executed the same.

Given under my hand and seal of said Court, at office in Olton, Texas, on this 28 day of June A. D. 1929.

Plaintiff alleges that she is a bona fide inhabitant of Texas, and has been for more than a year and resided in Lamb County, Texas, for more than six months prior to filing of this suit. That she was married to defendant on December 1, 1923, and continued to live with him until December 1, 1928, when they finally separated. That she was always kind and forbearing toward defendant, but that defendant was guilty of cruel treatment toward plaintiff, that he was indolent, idle, refused to support her, and forced plaintiff to perform hard labor for her living and all of which caused her much mental pain and anguish and distress, that while she was sick he would treat her cruelly. That he would leave plaintiff and be gone for days at a time. That his conduct generally is of such a nature as to render their living together insupportable. Plaintiff prays for divorce and for custody of her minor son, and general relief.

MEETING OF TAX BOARD

At a meeting of the Board of Equalization, City of Littlefield, held last week, it was decided that a final meeting would be held Tuesday, July 30.

It is understood there have been about 190 changes in renditions of city property.

The Board is composed of Chas. L. Harless, J. E. Barnes and C. O. Stone.

LAMB COUNTY LEADER

Published every Thursday afternoon at Littlefield, Texas.
Subscription: \$1.50 per year; 75 cents for six months.
Advertising rates given upon application.

No. Entered as second class matter May 24, 1923, at the post office 27 at Littlefield, Texas, under the Act of March 3, 1897.

JESS. MITCHELL, Editor and Publisher

Subscribers who change their addresses, or fail to get their paper, should immediately notify this office, giving both new and old addresses. Communications of local interest are solicited. They should be briefly written, on only one side of the paper, and must reach this office not later than Wednesday noon of each week. The right of revision or rejection is reserved by the publisher.

Advertising that does not show in its text or typography that it is paid for must be marked as an advertisement. All local advertisements remain in this paper for the time specified or until ordered out. All notices, matters not by whom nor for what purpose, if the object is to raise money by admission fee or otherwise, is an advertisement and when sent in for publication must be paid for at the regular advertising rate per line for each issue printed.

Obituaries, cards of thanks, and resolutions of respect will also be charged for at the same rate.

Any erroneous reflection upon the character, standing or reputation of any person, firm or corporation which may appear in the columns of the Littlefield Leader will be gladly corrected upon its being brought to the attention of the publisher.

In case of errors or omissions in local or other advertisements, the publisher does not hold himself liable for damage further than the amount received by him for such advertisement.

THE FIRST SIX MONTHS

With the first half of the year 1929 gone, it is of interest to note that industrial, agricultural and financial reports for the nation as a whole indicate a healthy condition and one that need not cause any great alarm as to how the balance of the year will turn out.

Employment conditions throughout the country are said to be satisfactory reports of labor disagreements are few. The volume of production equals that of the first half of 1928, and there has been no increase in prices to consumers, as a rule, over last year. Commodity markets in general are said to be in a strong position and money rates are not causing any comment outside of the Wall Street speculative district. In the agricultural communities and fruit belts crops are reported to be above the average in yield, and while prices are not, in many instances, all that producers could hope for, they average with those received at the same time last year.

The Littlefield citizen who inclines toward pessimism—and we still have a few of them left—seems to have little on which to hang his fears. There is no indication of a business depression in sight at this time. On the other hand, the country has passed through the first half of the year in satisfactory shape, and present indications are, according to government reports, that there will be no general cause for complaint during the final half, which we are now entering upon.

One thing about the days of the horse, a second-hand Dobbin was worth just as much, if not more, than a brand new one.

ABOUT FARM WAGES

It should interest our readers around Littlefield to learn that a favorable comparison between wages of hired hands and industrial wages has just been given out by the Department of Agriculture. In the survey 2,117 farm employes reported that the board, rent, food, etc.—was \$30.34 total average value of all perquisites per month and wages \$46.44, or a total of \$76.78 a month as the average wage of a farm hand. Should the farm value of perquisites, of which food is a larger part, be expressed in terms of retail prices, the total of perquisites and cash would compare favorably and in some cases probably exceed wages for comparable labor in industrial plants, say the experts. The average farm hand, in other words, is as well if not better off on ten or twelve dollars a week and his board and lodging than is his brother in the city factory who gets even three times as much but who has to pay for his meals and his bed.

One reason why we have so many divorces is because people do not tell enough truth before marriage and tell too much after marriage.

AIDING THE BOY

A few years ago a boy's club was regarded merely as a plan to keep the youngsters off of the street and out of mischief. Today there is a membership in such clubs of over 200,000 and the movement has spread into every state. Everybody now realizes that the boy's club is the answer to the old question of what to do with the boy's

spare time.

The boy's clubs, to which both town and farm boys are now swarming, are not only providing the boy's with entertainment but they are training them in scores of things that are going to be helpful to them in the years to come. They are learning the very things they will have to know later on to be successful men. It is a fine movement and we want here and now to urge every one around Littlefield to cooperate in any movement that seeks to establish such an organization, or that will serve to increase interest in those already established.

The average healthy boy has surplus time and energy to be spent in some way. Both can be usefully directed if his interest is captured and opportunities for improvement are provided him. This is best done through boy's clubs. They are solving a problem that is as old as the hills—how to enable the boy to put in his spare time with profit to himself. And as a result every community that encourages such an organization is not only aiding the boy but benefitting itself by moulding substantial future citizens.

The old bearskins on the floor never attracted as much attention as the bare skins on the street do now.

TOO MUCH BUNK

A good deal of nonsense is said and printed on the subject of success. The average young person today is

overwhelmed with advice. Success agitators have reduced the science to charts, blueprints, tables and statistical data without end. At the other extreme brood the soothsayers who will tell you that your progress in life depends on what the stars were doing the night you were born, how many letters there are in your name, the color of your hair, the tilt of your nose and the typography of your palms. You may throw away as pure bunk all the success hints that fail to tell you that you'll never get anywhere unless you are ready and able to stand the gaff. If a lot of preachers, teachers and business leaders would talk horse-sense and give the boys and girls the one genuine golden thought—that nerve and stamina stand highest in the list of virtues—they would accomplish real service and do something worth while for humanity.

MONEY IN IT

We see where an old "high boy," the name once applied to a tall chest of drawers, recently brought \$44,000 in New York. It was made in Philadelphia about 1770, and the price is said to be the largest ever paid for a piece of antique furniture.

It reminds us that many pieces of antique furniture can even now be found in homes around Littlefield, odd pieces of hand-made designs that have been handed down from generation to generation. It is worth real money—more than new and modern furniture brings—and the owner of every piece

of this old stuff should hesitate before splitting it up for firewood or selling it to someone for a mere song. Every year it is more valuable, every year finds more and more people buying antiques. Hold on to what you've got in this line until someone who really knows the value of antique furniture comes along. Otherwise you may have cause for regret.

LITTLE LEADERS

Every Littlefield boy should strive to be a great man for then he can sell his testimonials to the medicine and cigarette manufacturers.

You can always put a lot of dependence in the Littlefield man who boasts that he has the best neighbors in the world.

We're willing to bet our last year's straw hat against a German mark that there are more Littlefield men afraid not to go home than there are men who are afraid to go.

Another reason why marriages around Littlefield were happier in the old days is that women didn't get married then thinking that they wouldn't have to work any more.

Before marriage a Littlefield girl likes a man to make love, but afterward she is more concerned about his making money.

There's little hope left for a Littlefield girl once she claims to have discovered that dishwasher hurts her hands.

Some Littlefield married women are of the opinion that doors were

invented merely to provide the bands with something to do when they want to relieve their hands.

When a girl drops him a generally broke.

A SUCCESS STRY

"Twenty-five years from now I want to be worth at least \$50,000," said a young man one day.

So he opened a bank account and saved about \$90.00 out of each month's income. Part of his money was kept in the bank and part of it was wisely invested otherwise under the direction of his banker.

He really saved from pay check only a little more than \$20,000, at the end of the 25 years he had almost \$60,000. Such is the power of interest in behalf of money that is wisely kept at work.

This bank will be glad at any time to assist in your investment and of financial problems.

**What Shall We Put
 in The Vacuum Bottle?**

MIDSUMMER and midwinter are the two seasons when vacuum bottles are most in vogue. But the chilled fruit drinks, iced tea and coffee and chilled soups that keep so miraculously cold in summer are sufficient to send shivers up and down your spine these frosty days. We still like to be outdoors, however—skating, skiing, hobsledding, automobiling—and the time comes in all these sports when "something hot" looks mighty inviting.
 Some Comforting Suggestions
 Why not take along some steaming coffee, hot and delicious, made from coffee packed in vacuum cans from which none of the aroma has escaped? Or, if you want nourish-

ment as well as heat and stimulus, to take the tingle out of your fingers and toes, why not take along some one of the canned soups for this purpose? You can have your choice of asparagus, beef bouillon, celery, chicken, gumbo, clam broth, clam chowder, consommé, julienne, mock turtle, nulligatawney, mutton broth, oxtail, pea, vegetable, vermicelli or tomato; or, if you crave something exotic and savoury of the crisp outdoors, try bare soup.

Heat it at home and pour it into the vacuum bottle. Put the cork in tight, and screw on the top. Then overcoat, over-shoes, gloves or mittens, perhaps car muffs, and you're all ready to face old man Winter at his worst!

Among the 13 officers installed were H. G. Gibbs, noble grand; Clarence Evans, vice-grand; G. L. Collard, treasurer; J. M. Moore, chaplain.

The smile that wont come off. And you'll be forever wearin' You can get this at Phillips Station in Littlefield.—Adv.

EYE BURNED WITH ACID

T. J. Watson of the Farmers produce happened to a very painful accident, last Saturday, when a bottle of acid exploded, burning his eye and face.

According to Mr. Watson, he was leaning over the bottle to see how much acid it contained, and noticed some bubbles arising, but before he could remove his face from the danger zone, the acid shot a stream of spray into his eye, severely burning it.

However, the burn is healing nicely, and he believes will leave no bad effects.

DATES ARE CHANGED

The Leader is requested to announce that the Seventh Day Adventist meetings to be held in the Spade Community church will be from July 21 to 31, instead of the same dates in August, as stated in last week's issue, according to Mr. Cecil Jenkins, in charge of the meetings.

Secretary J. W. Ratekin, of the Chamber of Commerce, received a telegram Wednesday, from Mrs. Ratekin, now in Kansas City, stating her mother passed away Tuesday night.

ALL-STEEL
REFRIGERATOR
 sets new standard of
DURABILITY
EFFICIENCY
POPULARITY

AN all-steel cabinet that cannot warp. A mechanism that is hermetically sealed, dust-proof and self-oiling. No wonder the General Electric Refrigerator has set new standards! It actually operates more quietly—it uses less current, it provides for maximum food storage.
 And—important to busy housewives, it operates automatically, regulating itself so that the temperature is always within the safety zone—several degrees below 50.
 These new all-steel models are remarkably low in price, beginning at \$215 at the factory. They are as durable as a safe and cannot warp. They keep cold from seeping out and heat from creeping in.
 Visit our display rooms and see the new all-steel models and learn how easily they may be bought with conveniently spaced time payments.
 There are now over 250,000 users of General Electric Refrigerators. Not one of them has ever spent a single dollar for repairs or service. That was our guarantee to them.

LUBBOCK CONTRACTOR OUT WITH FACTS

J. W. THOMPSON TELLS OF BENEFITS HE HAS DERIVED FROM ORGATONE

"I can testify to the value of Orgatone because it has done more to rid me of my trouble and build me up than anything I have ever taken," said J. W. Thompson, of 1614 Fifth Street, in relating his experience with Orgatone while talking with the Orgatone representative. Mr. Thompson is a well-known contractor in Lubbock.

"For about a year," continued Mr. Thompson, "I suffered from stomach trouble and liver trouble. I was in a general run-down condition, was nervous and restless all the time, and it just seemed as if I was hungry all the time but what I would eat would sour on my stomach and the gas would bloat me up so badly I could hardly breathe. I had a chronic case of constipation and was forced to take strong laxatives most all the time. Many nights I just couldn't go to sleep for I was so nervous and restless and when I would get up in the morning I'd feel all tired and worn out."

"I was in this condition when I began reading about Orgatone, and how it was helping others who were suffering as I was so I made up my mind to give it a trial and I have only taken one bottle and I certainly notice a big change. I have a splendid appetite and I eat anything and everything that I want. Gas doesn't bother me any more and I am not nearly as nervous as I was. I feel better than I have in several months. Orgatone is a wonderful medicine and I feel that it has saved me from a nervous break-down which might have proven serious. I am glad to recommend Orgatone to my friends."

Genuine Orgatone is not a so-called patent or secret remedy but a new scientific bile treatment containing no alcohol or other false stimulating drugs and is sold in Littlefield by the Walters Drug Company who are direct laboratory agents.—Adv.

Good Summer Feeding Pays in Winter Eggs

"It pays to feed hens a laying mash right through the summer," says L. R. Price, "even if eggs are cheap." Mr. Price is making a specialty of White Leghorn eggs of the non-fertile variety this summer, and making quite a success of it.

"My experience," says Mr. Price, "is that eggs may be produced during the summer for a feed cost of from 11 to 13 cents per dozen, but where a balanced ration is abandoned and the fowls left to shift for themselves in an attempt to save a feed bill I have found that the egg production often falls off so much that the cost of producing a dozen eggs is nearly if not quite as high as this, and the birds are left in a bad condition."

"The high cost of not feeding hens in the summer time is felt most in November and December and on into January when eggs are high. A summer starved flock just can't come through with high priced eggs at that time."

"There are getting to be lots of chickens raised around Littlefield now," said Mr. Price, "and I would like for the producers to get as much for their products as possible. By careful feeding and careful marketing this can be done."

METHODIST MISSIONARY

The Missionary Society met at the church Monday afternoon. The last chapter of "Friends of Africa," was given with Mrs. D. G. Hobbs as leader.

Mesdames D. G. Hobbs, W. W. Gillette and W. H. Gardner were appointed as the Ways and Means committee for this quarter.

Mrs. H. B. Teal will act as leader at the next meeting with the Voice lesson for July.

Those present were Mesdames M. P. Reid, Miller, W. P. Kirk, D. G. Hobbs, W. W. Gillette, J. J. Eagan, Fondra, D. L. Hobbs, G. S. Glenn, B. L. Cogdill, Carl Arnold, Gardner, J. W. Keithley, W. C. Thaxton, and Geo. E. Turrentine.

SPRING RAINS PROVE VALUE OF TERRACING

"There have been more than 25,000 acres of Lamb county land terraced this last fall and winter, all of which is proving its value at this time," said County Agent D. A. Adam.

"There are a number of terraced farms in this county where water stood on them from 24 to 36 hours whereas on adjoining farms that were following some of the spring rains,

not terraced the water was lost almost immediately. I do not believe I am exaggerating when I say most of these terraced farms will produce from 15 to 20 per cent more crop this year than the adjoining unterraced ones.

Terracing and contouring have already proven their value in protecting crops during sand and wind storms, and there will be many more farmers of this county who will be doing terracing this coming fall."

BULL CIRCLE HEIFERS OUT DO THEIR MOTHERS

"Farmers in Lamb and adjoining counties who have invested in pure bred bulls during the past three or four years are now beginning to know their real value," says County Agent D. A. Adam. "Some of the heifers that are now coming fresh are in many cases giving from 25 to 50 per cent more milk than their mothers."

"The value of good grade mothers and pure bred sires can not be over estimated, and the sooner our farmers can get into this kind of stock the quicker their milk checks will take on
