## The Second War Loan

We on the home front face one of the most personal challenges of this war to date. That challenge is whether or not we are willing to lend our government thirteen billion dollars within the next few weeks.

To do the job, you and I, and everyone we know, are going to have to dig down in our sock--to dig out some of those dollars we have salted away for a rainy day--as well as to take a good hunk out of this month's pay check.

This is a job that has to be done. Sure, we on the home front are feeling the pinch of war. We have gasoline rationing, food rationing, higher taxes and a lot of other little discomforts. But they are nothing compared with the agonies faced daily by our men from this community among them--out there on the fighting fronts of the world.

Yes, we know that this constant demand for more money out of our pockets and out of our pay checks--an increasing amount each month--is monotonous. But so is sitting in a fox-hole or lying in a slit-trench day after day, slogging through the hell of a humid jungle or that of Sahara sand.

Our sons, friends, brothers, husbands and others we know are doing that for us. They are facing something more terrible than cutting down on a few things that we once thought were essentials to the American standard of living in order to do it, too. As Secretary Morgenthau has said: "Shall we be more tender with our dollars than with the lives of our sons?"

The Second War Loan is an order to the home front to go on a new offensive. Your dollars are the weapons in this attack. They will make possible the passing of the ammunition to those boys up there in the front lines. To win this war is going to cost more and more money--and more and more lives. But the price of freedom is high. We can not; we dare not let our fighting men down.

You can't let George do this for you. You must pitch in with your dollars. Just keep in mind those boys in the front lines. They give their lives--you lend your money! Don't wait for someone to come around and ask you to do it. Do it today--and do it until you feel worthy of them.

## Preparations Are Underway For Big War Bond Campaign

Committees To Meet At Postmaster Storey's Office Friday Evening

The Second War Loan drive to raise \$428,000 during April in Lamb County will get underway Monday, April 12.

Storey Friday evening at 8:30 o'clock, to make arrangements for the biggest drive yet to sell War Bonds and Stamps.

In an interview with Pat Boone, who is Chairman of both the Lamb County War Bond Committee, and the War Finance Committee, he reported that he had met with the Amherst War Bond Committee, of which Neal Duffy is Chairman, Wednesday morning, and assisted them in the making of plans to get their drive underway.

Mr. Boone also made a trip to Sudan Wednesday night and met with the Sudan War Finance group, and plans were discussed for the getting underway of the drive in Sudan and territory. W. C. Warren is Chairman of the Sudan Committee.

Mr. Boone also said he planned to go to Olton and Earth today in the interest of the war bond drive in that area. C. E. Bley is Chairman.

## R. S. Berger, Father Of Mrs. Herbert Martin, Passes Away

Mr. Berger had suffered a stroke of paralysis about a month ago when Mrs. Martin was called to his bedside, where she remained about a week and until he was much improved. When his condition became worse last Saturday, she returned to Austin, and early Tuesday morning Mr. Martin received the message from his wife that Mr. Berger had passed away. He left immediately for Austin.

## Spend 1863 Hours In March On Surgical Dressings

According to Mrs. L. M. Brandon, Chairman of Surgical Dressing Program, the Red Cross room ran short of material last week, and borrowed some work from the Lubbock office.

The local workroom received 2700 4x4 sponges and the Amherst room 500 2x2 sponges for the Lubbock Surgical Dressing room.

Lubbock is reported as pleased to get this help, inasmuch as they have a quota of 70,000 sponges to get out this month, and are having trouble getting workers.

However, the local workroom has since received their own quota of 30,000 2x2 sponges, and will begin on same as soon as they have finished the 2700 4x4 sponges for Lubbock.

Mrs. L. C. Hewitt, who takes care of the time cards for the workroom reports the number of hours worked for the month of March at 1863 hours, 15 minutes. The report indicates Mrs. C. F. McCormick worked the most hours, 50 hours, 40 minutes, with Mrs. C. Frank York in second place with 48 hours and 30 minutes; and Mrs. G. M. Shaw third with 37 hours.

## Smallest Class In Past 10 Years To Be Graduated

Only 56 In 1943 Class, Including 38 Girls And 18 Boys

Arrangements for closing of Littlefield schools for the summer months are not complete, according to Supt. F. A. Hemphill, who Tuesday announced that the baccalaureate sermon to the high school students would be delivered Sunday evening, May 23, at 8:45 o'clock; and commencement exercises will be held Friday evening, May 28, at 8:45 o'clock.

With only 56 prospective graduates, Supt. Hemphill announced the 1943 graduating class as the "smallest in 10 years."

Also commenting on the class, Supt. Hemphill said: "Of the 56 pupils, we have the usual number of girls, 38, but only 18 boys. The graduating class during the past 10 years has always had approximately 35 boys and 35 girls. It is known, however, that 13 of the boys who would normally be members of the class are in some kind of war service."

The following is a list of prospective May graduates. This list includes students who have made some sort of arrangements which might indicate the possibility of their receiving diplomas in May of this year. Any student who expects to receive a diploma in May and whose name is not on this list should call at the office of the Superintendent of Schools.

American People Face Acid Test in Treasury's 2nd War Loan To Raise 13 Billion Dollars in Three Weeks The Nation Dare Not Fail in This Greatest Financing Task in History—"They Give Their Lives—You Lend Your Money."

Washington, D. C.—Coming as it does upon the heels of income tax payments, the people of America will face an acid test this month when the Treasury's Second War Loan drive opens April 12 with an objective of thirteen billion dollars to be raised through sale of Government securities.

A substantial part of this huge financing, the most stupendous ever undertaken by any government in the world's history, must be loaned by people in ordinary walks of life.

High Government officials have pointed out that the nation must not fail in this duty to our men on the battle fronts who are now carrying the offensive to the enemy at every stage. It is obvious to every thinking man and woman that as the United Nations take this offensive against the dictators, the cost of war operations increases in proportion.

The American people must no longer think of war costs in terms of equipping a soldier, building a tank or plane or a ship. We must now think in terms of the cost of battles, invasions and new offensives. Attacking armies cost more money than equipping that army and we must meet that increased cost by buying more War Bonds and Second War Loan Securities.

They Give Their Lives.

It is not only necessary that the American people left here at home assume this additional participation in the war effort—it is an honor to do so... for we here at home can do no less than attempt to approach the sacrifices of our brave men out on the fighting fronts to whom the last great measure of sacrifice is but a daily offering. They give their lives... we are asked only to lend our money.

And that is the theme of the Second War Loan, "They Give Their Lives—You Lend Your Money."

Financial experts who know monetary conditions in the nation point out that at the present time there is in liquid funds, cash and commercial bank deposits over and above taxes and present investment in Government Bonds, and over and

above what can be bought this year because of restrictions and rationing... approximately 40 billions of dollars which should go into Government Bonds.

It should be the objective of every American to invest these loose dollars, idle dollars, in Government securities, not only from a patriotic standpoint, but from the standpoint of their own financial security. There is available during the Second War Loan a type of Security to fit every pocketbook.

Are Wild Dollars

Every dollar of these forty billions of dollars available, which is not invested in Government securities during this War Loan Drive is a "wild" dollar which, together with its mates, will tend to increase inflation. Uncontrolled inflation might raise the cost of living to a point where the dollar is worthless. It can happen. It happened in Germany after the last war when the price of a loaf of bread cost more than an annual wage.

Invested in Government securities, your dollar will work for you. It will hold down inflation because it is harnessed in war work; it will help buy food, transportation, munitions for our boys on the front lines and it will be earning interest that, together with your original loan, will come back to you later to help you buy the things you cannot buy today... to insure your peace of the future.

Remember those boys out there in Tunisia... in the South Pacific... They give their lives—You lend your money.

### Announces Ceiling Prices

Office of Price Administration set uniform retail ceiling prices now being charged cities and will help drive markets out of business. The prices go into effect and retailers will be forbidden to sell meat that has not been

graded in accordance with government standards.

The new ceilings apply to all varieties of beef, veal, lamb and mutton. Pork already is under uniform price ceilings.

The new prices and the grading requirements are expected by OPA officials to go far toward stamping out the black market. They felt that black market operators no longer would find it possible to pose as legitimate retailers.

Hitherto, beef, veal, lamb and mutton have been under the general maximum price regulation. Under that system ceiling prices vary from store to store, making it difficult for shoppers to keep track of prices and leaving the way open for unscrupulous retailers to advance prices.

The OPA has applied to the new program the system it used in setting retail pork ceilings in the various retail outlets. That is, all independent stores having a total sales volume in 1942 of less than \$250,000 will be in one price category. Their ceilings will be from one to three cents per pound more than in stores with a larger sales volume.

To assure the housewife that she is getting exactly what she pays for, the regulation contains these limitations: No butcher may sell any meat pre-ground prior to sale except ground beef (hamburger), ground veal and ground lamb. If a customer buys any other cut of meat and wants it ground, the retailer may grind it at the time of purchase but may not charge for the grinding.

Butchers may sell as cube steaks only those that are cubed at the time of purchase. If a customer buys a cut of meat and wants it cubed, the storekeeper may cube it, but cannot charge extra for the service.

Storekeepers must keep the official OPA price list available where customers can inspect it. In case of overcharging, the customer may sue for a minimum of \$50 and costs. Regular ceiling prices for meat announced Monday by the Office of Price Administration include the following:

Commodity—annual sales)	Independent stores less than \$250,000	All other retailers
Leg of lamb, whole, half or short cut	42	40
Lamb rib chops	49	47
Veal Cutlet	50	48
Roast beef 10" rib	38	36
Round steak (bone in)	47	45
Sirloin steak (bone in)	46	44
Porterhouse steak	61	59
Chuck roast (bone in)	34	32
Ground beef (Hamburger)	30	29

### Bob Burlingame Commends Leader

In writing Mr. Wells, Mr. Burlingame said: "I appreciate your kindness in sending me a copy of the Lamb County Leader with its splendid stories on Littlefield's participation in the WHO bond campaign. Let me express my personal appreciation and that of the Central Broadcasting Company for your generous work in this program.

"I am wondering if I might impose upon you for two additional copies of the Leader for March 18—one for my personal files and one for the company records.

"Any time you are in the upper Mississippi Valley, I hope you will give us a chance to repay your courtesy."

Bob received the papers; Joe thanks him for his nice letter and invitation to visit him in Des Moines; the editor of the Leader thanks him for the nice things he said about this publication and this editor extends himself an invitation to accompany Joe when he visits the famous radio announcer of the upper Mississippi Valley.

Checks for bonds purchased through Mr. Wells are sent to the WHO War Bond club and the names of the bond purchasers are announced over WHO by Mr. Burlingame. But Lamb County's quota is credited with these sales.

Joe's first one-man war bond drive sold \$14,000 in bonds.

Joe's second drive is underway; he'll sell double the amount of bonds that he did in the first drive. Perhaps he will treble the total of his first campaign.

### To Hasten Victory

No American wants this war to go one minute beyond the time we can bring it to a victorious end. To hasten that victory—to save possibly the lives of millions of our boys on our far flung fronts—it is imperative that every American do his part in the Second War Loan. There is an investment to fit every purse. The most you can do is little enough compared with the sacrifice offered by our boys in service. They give their lives—you lend your money.

It's common sense to be thrifty. If you save you are thrifty. War Bonds help you to save and help to save America. Buy your ten percent every pay day.

### An Appreciation and My Thanks . . .

The fact that I received the largest majority of the votes that I have ever received in the three times that I have been a candidate for the office of mayor, in last Tuesday's election, could not be anything but a source of gratification to any man who receives such an expression of confidence from the folks whom he lives among year after year.

I am appreciative, and I am grateful for the confidence you have again placed in me by giving your support and vote.

I cannot but feel that the big majority you gave me Tuesday, is an outright endorsement of my efforts toward economy in City government, in which I have had the full support of both of the Commission members who are unopposed.

An audit of the City books is being made this week. I can assure you that they will show our City government and finances to be in the best condition they have been in for many years—with our General Fund on a CASH basis for the first time in history.

This has been accomplished in the last four years, despite the fact that the City finances have also been called upon to bear some extra burdens and expenses due to the war.

As your elected mayor, I shall continue, with the assistance and in co-operation with the two Commission members to give our city my best services and efforts, realizing that progress cannot be sacrificed to economy—knowing that real progress cannot be attained without economy.

The City Commission holds "open house" at every scheduled meeting. We invite the citizenry to meet with us, and to advise with us at any time, and on any public matter.

**A SALUTE TO American Womanhood**

**Valiant in the Service of Their Country**

War brings vividly to our attention the important place of womanhood in developing and maintaining the kind of a country in which we Americans are proud to live... an America that is the envy of the world... an America that looks enthusiastically into the future with thoughts of a better country and new achievements after the war... an America that faces dangers with resolute courage and with only one thought, one purpose... complete and absolute victory over aggressor nations.

Without our high type of womanhood... valiant in the service of their country... America would not be all that it is today... the America of which we are so thrillingly proud.

There's a job for everybody in the war effort... each of us are needed to perform one or several tasks in the cause of Victory. And in the cities and on the farms you will find American womanhood performing innumerable duties... important services in the cause of Victory... Valiant in the Service of Their Country.

IT IS AN HONOR TO SALUTE AMERICAN WOMANHOOD.

Total working hours in the Surgi-

total your hours.

Mrs. C. F. McCormick worked the

**Waxy Type Grain  
Sorghum To Be  
Planted Here**

Development of waxy sorghums  
in this area is discussed in an  
editorial published in the Lamb County  
Leader last week.

It is expected that 20,000 acres  
of waxy sorghum seed will be plant-  
ed in 1943 in the territory embrac-  
ing Littlefield, Levelland, Lubbock,  
Dimmitt, Muleshoe, Abernathy and  
Chillicothe.

Products from this sorghum will  
replace cassava or tapioca starch,  
which has been unavailable from the  
East Indies since the start of the  
war, it is believed.

W. H. Cunningham, state certi-  
fied seed grower, who has been in-  
strumental in introducing the sor-  
ghum to West Texas, announced this  
week that anyone wanting seed to  
plant should contact him, or V. F.  
Jones, county agent, or R. L. King,  
vocational agriculture teacher. Mr.  
Cunningham said the seed was free,  
and was to be grown under con-  
tract.

Additional acres have been allot-  
ted to Littlefield and territory, he  
said.

A field man from New York City  
will be in Littlefield in the near  
future to explain the details of  
growing waxy sorghum, to farmers  
in this area, and will assist them  
in signing the growing contracts, Mr.  
Cunningham said.

# NEWS OF AMHERST

## "The Pick of the Plan"

### Junior Class Will Present "Introducin' Susan" Friday

"Introducin' Susan," a three act comedy, will be presented Friday night, April 9, by members of the Junior Class of the Amherst High School in the Amherst School Auditorium.

The play will begin promptly at 8:30 o'clock and admission will be 15c and 25c. Proceeds will be used to defray expenses of the annual Junior-Senior banquet.

The cast will include Ted Cummings, Mary Ellen Duffy, Bobby Payne, Juanita Woodward, Lonnie Merle Bass, Veta Payne, Eddie Crawford, C. R. Roberts, Geraldine Nicholson, Bill Patterson, Dean Herring, and Billy Wagoner.

Mrs. Helen Hunton and Miss Opal Kittrell are directors of the play, and Gerold Tomes has been named stage manager, with Mozelle Useiton

and Patty Phillips as make-up artists.

This is to be a three-act riot. You can guess what a scream "Introducin' Susan" will be when our own Ted Cummings turns college professor on us, and to set it off is married to none other than our lovable Mary Ellen Duffy. Eddie Mae Crawford, as Violet, the Cook, and her great big prize-fighting brother, who is that meek little C. R. Roberts, furnish plenty of laughs. By the way, Bobby Payne turns feminine on us, and Juanita Woodward turns masculine. So why not drop in on the night of April 9, at 8:30 o'clock, and watch the fun when Mary Ellen walks out on Ted, and he tries to dig up a wife for his dear Aunt Cordelia Quackenbush's benefit.

# LASTING PEACE AFTER WAR PRESENTS PROBLEMS

## What To Do With Germany

WHAT TO DO WITH Germany will be increasingly debated as the war progresses to its final phases.

Great cries, of course, will be uttered against the so-called breaking up of the Reich—as if it was ever anything more than a conglomeration of tribes, sects and states.

The American people would be the first to lash out if the British ever had the temerity to propose that all English speaking people come under the British crown. And any suggestion that all Slavs become subject to the Soviets would be denounced as the basest imperialism. So likewise would any effort on the part of a dozen other racial and political entities to achieve hegemony—including the Latin, the Oriental, the Arabian and the Scandinavian among others.

There is not now and there never has been a single homogenous Germany. Prussia, The Eastern Catholic provinces including Austria, Protestant Germany and other than Prussia, are but three of the major Teutonic sectors. There is also the Sudetanland which, until Hitler's knifing of Czechoslovakia, had never before belonged to Germany.

It may be that the best way to eradicate the possibility of a third World War would be to enforce the principle of self-determination in German speaking Central Europe. A Republic of Prussia, its Junker class utterly destroyed; a cantonized federation of states essentially Lutheran in profession; and a Catholic monarchy consisting of Austria and adjacent territory would provide a reasonably secure Central European pattern.

Such a political organization, especially after Germany's war making heavy industry was liquidated, would release the natural educational forces which, giving proper dignity and strength to the historic segments of the Teutonic speaking people, would insure a peaceful membership in the family of European nations.

The principle of self-determination enables the Scandanavian people, racially, culturally and lingually related, to exist and prosper in the three compact units which are Norway, Sweden and Denmark. Poland, Yugo,Slavia, Bulgaria and Russia are all Slav yet all three are independent. Portugal and Spain stem from the same Latin Stock as do France and Italy, yet unification of these basically related nations has never been seriously suggested, least of all by the inhabitants themselves.

If there is one thing that the two World Wars have taught us it is that Teuonic central Europe must never again be permitted the luxury of being organized, by one madman or another on one pretext or another to the danger of the continent and the distress of the world.

Despite the Nazi policy of discouraging Christianity, membership in the Calvinist churches of the Netherlands increased in 1942 by 11,000 to a total of 684,505. The Nieuwe Rotterdamsche Courant of February 1 said that crowded services had made it necessary for church councils to inaugurate additional services. . . . A Dutchman who escaped to England at the end of January related the following story which is circulating throughout Washington: A man, fed up with conditions, tried to commit suicide. First he tried to hang himself, but the "ersatz" rope broke under his weight. Next he threw himself into a canal, but his "ersatz" suit, made of wood, kept him afloat. In disgust he bought some poison from a drug store, but that was "ersatz" too and had no effect. Finally he gave up the idea of suicide, and started to live on his ration coupons. As a result he died within a month.

**THE SHAPE OF THINGS TO COME . . .** Rationing for at least one year after the war ends to prevent super-boom and resultant crash. . . . Civilian workers in Army and Navy offices may be required to wear special uniforms. . . . Swiss watches may be boycotted because the raw materials come from the Nazis.

### With South Plains Men In The Service

Following up their recent letter advising Mr. and Mrs. J. H. Lippard that their son, Pfc. John B. (Johnnie) Lippard, was alive and a prisoner of the Japanese in the Philippine Islands, the Information Bureau office of Provost Marshal General, Washington, under date of March 30, wrote Mr. and Mrs. Lippard as follows:

"The Provost Marshal General directs me to inform you that by following the enclosed instructions you may communicate, postage free, with your son, Private First Class John Bryan Lippard, interned in the Philippine Islands.

"Further information will be forwarded to you as soon as received."

Excerpts from the instruction sheets enclosed are as follows:

"American prisoners of war are receiving fair treatment.

"The Geneva Conference requires

each internment camp properly equipped infirmary with adequate medical personnel in attendance. Prisoners are examined at least once a month.

"Inspections of enemy prison camps are made by representatives of Protecting Power and by delegates of International Red Cross, making double scrutiny of conditions in camps. Reports of these inspections are sent to Prisoners of War Information Bureau, Office of Provost Marshal General, Washington.

"It is reported that Prisoners of war are permitted to correspond with friends and relatives, but all communications must be brief, and strictly of a personal nature, and if possible, typewritten or in block letters. V-mail facilities are not available. No assurance that air mail will facilitate delivery.

"Mail to prisoners of war should not be sent through the Bureau of War Information. Existing regulations do not permit mailing of cash, money orders, or checks to prisoners. Reports indicate that prisoners are receiving mail.

"Mail to American prisoners is routed by the P. O. Department by any available means. There is no information at hand concerning time required for mail from prisoners of war to be delivered in United States.

"Camp numbers and prisoners of war numbers are necessary in sending ordinary mail to prisoners of war in Germany and Italy. To date these numbers are not necessary in sending ordinary mail to prisoners of war in Japanese custody. Address should be plainly written, leaving room on face of envelope for forwarding address, should it be necessary and should indicate nationality, namely 'American,' prisoner of war.

"Arrangements are made by American Red Cross permitting cables to prisoners of war, as follows:

"To Germany and Italy, only in case of extreme emergency, such as life or death;

"To Japanese controlled territory—one cable to each prisoner of war, thereafter only in case of extreme emergency, as life or death.

"To send cables, contact your nearest chapter of American Red Cross.

"Personal effects will be returned to the United States when transportation is available.

"Questions concerning them should be directed to Effects Quartermaster, Kansas City Quartermaster Depot Kansas City, Mo.

"In all possible cases International Red Cross, under arrangements made by American Red Cross, is now delivering weekly parcels to American prisoners of war. These parcels contain substantially the following:

"16 oz. milk powder; 8 oz. processed cheese; 6 oz. liver paste; 12 oz. corned beef; 16 oz. oleomargarine; 12 oz. pork luncheon meat; 8 oz. salmon; 4 oz. sardines; 8 oz. sugar; 12 oz. prunes; 4 oz. concentrated orange juice; 4 oz. coffee; 4 oz. chocolate; 1 oz. salt and pepper mixed; 3 pkgs. cigarettes; 7 oz. biscuits; 4 oz. odorless soap.

"Transportation facilities are not available at this time to permit parcels to be sent to the Orient. When facilities become available, package labels without request will be sent to each next of kin."

Pfc. Johnnie Lippard was serving with the Marines when taken prisoner, and has been in the Service nearly four years, enlisting in May of 1939.

The address to which mail to him must be addressed is: Pfc. John B. Lippard, U. S. M. C. Serial No. 273486 Prisoner of War Philippine Islands c/o Japanese Red Cross Tokyo, Japan Via New York, N. Y.

Pfc. and Mrs. Robert L. Fisher of Denver, Colo., are visiting his parents and friends at Olton. They spent Monday and Tuesday of last week in the home of his sister, Mrs. Lee Haynes, and Mr. Haynes in Littlefield.

Pfc. Fisher has been in Denver the past three months taking a course in photography, which he will finish two weeks after returning to Lowry Field. He will then be sent

to Yale University for an advanced course.

Pfc. Fisher recently underwent an appendectomy at Lowry Field.

Rip Elms, son of M. A. Elms of Beck's Gin Community, arrived Monday on leave for a visit with home folks.

Mr. and Mrs. George W. Ross received word that their son, Lieut. Geo. O. Ross, had been transferred to Atlanta, Ga., for two months' officers training in instrument flying.

### "IT AIN'T HAY" COMICAL PICTURE COMES TO PALACE SATURDAY MIDNIGHT, SUN., MON

The nation's No. 1 box-office champions, Abbott and Costello, come to the screen of the Palace Theatre Saturday midnight, continuing through 'Sunday, and Monday, in Damon Runyon's "It Ain't Hay." The Universal picture, heralded as the most comical in which the two comedians have starred, has Grace McDonald, Cecil Kellaway, Eugene Pallette, Patsy O'Connor and Richard Lane in its cast. Extraordinary added feature is the appearance of Leighton Noble and his orchestra. Some of Runyon's most colorful Broadway characters are portrayed in the hilarious story in which he and Lou become embroiled in a strange case of mistaken identity. Two horses, however, are the principals in the error, one a nag and the other a handicap favorite. While the comics are suspected of substituting one steel for the other,

### "Regulated Penetration"

Weld-Tite Primer gives new life to Exterior Paints. That's because it controls, regulates, the oil penetration. Instead of soaking into the surface, the oil remains in the primer and in the paint... keeps the paint film tough, elastic, resistant to heat, cold, moisture.

Invariably, exterior surfaces are more porous in some spots than in others. Weld-Tite seals the entire surface evenly, provides an ideal base for a finishing coat of Quality House Paint—its MINNESOTA buddy.

Only TWO COATS gives real protection... and that's real economy!

**Ceremony Postponed On Account Floods**

The marriage of Miss Mary Eleanor Wiseman, daughter of Mrs. Anne Louise Wiseman of this city, and Lieut. Louis Melchoir Cartall, U. S. Navy, scheduled to take place at Oakland, Calif., Saturday, March 13, was postponed two days due to heavy rains and floods, which necessitated the train on which the bride was a passenger to detour, causing it to arrive late in Oakland; and the fact that three days' residence is required of those marrying in California.

The beautiful ring ceremony took place in the Chapel of Chimes, San Francisco, Calif., at high noon, Monday, March 13, with a Presbyterian pastor officiating.

The bride wore a blue crepe suit with matching accessories. Her corsage was of white orchids.

She was a member of the staff of John Sealy Hospital, Galveston, previous to going to California to be married.

Lieut. Cartall, who is interning in the medical corps of the U. S. Navy, received his permanent commission in January.

Lieut. and Mrs. Cartall spent their honeymoon in San Francisco, and are now at home at Oakland, Calif.

# The Second War Loan Starts April 12

**13 billion dollars must be raised!**  
**LAMB COUNTY'S QUOTA WILL BE \$428,000**

**This Money Cannot Be Raised Without Your Bond Purchases! Everybody! Let's Go!**

**THE GOVERNMENT** of the United States is asking us to lend it 13 billion dollars in the next few weeks. We can do it. And we must do it. Every American must realize the truth:

In this, our toughest war, we've made a good start. We've trained a lot of men—made a lot of weapons—built a lot of ships.

But it's only a start. No man or woman among us would contend for a single instant that we're doing enough now to win this war!

**WE'VE GOT TO BUILD MORE!**

We broke all records building 8 million tons of shipping last year. But grim-faced Army and Navy men will tell you that the 18 MILLION tons we're building this year still won't be enough!

**WE'VE GOT TO FIGHT MORE!**

From now till this war is won, America must be on the offensive. In ever-increasing numbers, your sons, brothers, husbands must go into actual battle. Our losses have already begun to mount—and they will not grow less.

**AND WE'VE GOT TO BUY MORE WAR BONDS!**

Sure we're all buying War Bonds now. But we've got to help pay for our increased fighting and building . . . We've got to match, as best we can, the sacrifice of those Americans who are toiling and sweating on a dozen battlefronts—with the bloodiest yet to come. The blunt fact is this: to keep our war machine going, we've got to dig up 13 billion extra dollars this month. 13 billion dollars over and above our regular War Bond buying!

In the next two or three weeks you may be visited by one of the thousands of volunteers who are contributing their time and effort to this Drive. But don't wait for

him. Make up your mind now that before this drive is over, you're going to march right down to your nearest bank, Post Office, or place where they sell War Bonds, and do your duty. And don't ever forget this: in doing your duty, you're doing yourself one of the biggest favors of your life!

For United States War Bonds are the greatest investment in the world—bar none. They're investments tailored to fit your particular situation. And they give you the chance of a lifetime to order and get the kind of world you want to live in after this war. Every cent you put in War Bonds now will help to guarantee plenty of peacetime jobs making peace-living for every one of us.

For your Country's sake—for your own sake—invest all you can!
