\$5,400 Received To Wednesday

### Cancer Drive Exceeds Goal

Lamb County's Cancer Crusade greatly exceeded the goal of \$3,150 Wednesday morning with a report of \$5,471.84 according to Mrs. J. R. Fain, county drive chairman.

Theme of this year's campaign was "Better Your Best" and the cancer organization here was attempting to best 1960 when \$3838.46 was received.

Mrs. Fain said most of the drives are completed, but final reports from Earth and Springlake have not been received. "The final total may run over \$6000 when these two areas report," she stated.

Reports received by Mrs. Fain from various parts of the county included: Amherst with \$284.70; Hart Camp with \$152.50, southwest of Little-

field with \$58.50, southeast of Littlefield with \$87.50, Pep school with \$15, Rocky Ford with \$81.85, Pleasant Valley with \$102.40, Spade with \$298.21, Fieldton with \$80, east of Littlefield with \$163.50, north of Littlefield with \$20, Sudan house - to - house with \$467.35, Sudan business with \$388.15, Olton business with \$605.51, Olton house - to - house with \$218.81, Littlefield house-to-house with \$1,031.09, Littlefield with \$1,043, Springlake with \$106.28, and west of Littlefield with \$101.65. ### TOWN and COUNTRY

by Wendell Tooley

DENTIST Bill Orr got a taste of his own medicine this past day when he visited a local medical doctor to have his eyes sewed up. It seems he was working around the construction job of Jimmie Britton (Jimmie's doubling the size of his pharmacy) when a piece of wood fell on his head.

When he arrived at the hospital, the nurse gave him an injection around the wound to numb the pain before the doctor made the six stitches necessary to close the scalp.

Mr. Orr suggested to the doctor that the needle wouldn't go as badly if she wouldn't put it so fast. "She replied that she thought she was doing a very 'easy' job of numbing him the shot, in comparison with some dentists she had seen."

Well, a shot's a shot... in book they all hurt... yet, they'll never be any as bad as those I got back in my days!

THOUGHT I'd lost my wife at Baptist church last week, attended a morning service near Troy Armes' brother-in-law, and from all reports certainly liked what she said. By popular request Rev. Ware repeated his "A Little of Honey" sermon which he preached in Littlefield some time ago. The basic concept of the sermon could well apply to anyone... that of reminding us to say something nice to persons we meet during the week.

John Petty receives Tech Award

John Petty, former feature sports writer for the Littlefield Press, was honored Monday night at the Texas Technical Banquet as the recipient of the Editor's Award. Petty, a senior, served as editor for the Toreador, a student newspaper, this year. He served as a writer for the Press from June 1960 to August 1961.

### Teacher Is Rotarian Speaker

H. B. Van Der Horst of Saint Peterland, Arnhem, Holland, will speak to the Littlefield Rotary Club at its noon luncheon today. The retired Dutch teacher is presently touring the United States and speaking to many Rotary Clubs throughout the nation.

Howard also announced the light bulb sale planned by the Rotarians. The date set for the event is Thursday, April 26. Proceeds from the sale of the bulbs will be used to construct restroom facilities in the Crescent Park play area.

### Chamber Hears New Member Report

The Chamber of Commerce board heard several reports at its meeting in the chamber office Tuesday night. Possibly the most important report was the announcement that 19 new firms had joined the chamber and eight members had raised their dues.

President of the chamber Kenneth Ware presided at the meeting and Ware made the membership drive report for Bob Manley, who was unable to attend the meeting.

In other business the board turned down the governmental affairs committee's request to hold a political rally in Littlefield.

The board assigned the public relations committee the job of beginning organizational plans for Littlefield's 50th Anniversary celebration. The board felt that a big week's celebration should be staged in July of 1963 to herald the event.

Chamber manager Gene Garrison reported on the Community Development Action studies and suggested that the board co-

L. D. Aten, ASCS office manager, that this amount was being released from the state ASCS office for the county.

The additional acreage allotment will be reapportioned to farms in the county where the producer has applied for additional acreage. This year's addition is somewhat higher than the 625 acres received last year.

This brings the total acreage for the county to 208,298 for the 1962 crop as compared to 211,300 acres in 1961. Persons will be notified next week of any additions to allotments from the released acreages. (See Skip Row on Page 8)

Fain, drive chairman, seated at right. The women are Mrs. Dean Morgan, left, and Mrs. Robert Barton, center. The county drive surpassed its goal with a report of \$5,471.84.

### New Labor Agency To Aid Plains Producers

A new farm labor service to farmers in the South Plains area has been established in Lubbock. The new service, Texas Farm Labor Agency, will attempt to obtain domestic farm labor for producers of this area.

Cotton Fanning, general manager of the private agency, said this is the first time this has been tried and the agency has the first license ever issued in Texas for interstate recruiting of farm laborers.

The agency was established as an answer to S. 1129, a government measure to obtain domestic farm labor for this area, which calls for positive recruiting measures by the farmers.

### City Agenda Released

Six items have been listed for the agenda of the Littlefield City Council which meets tonight at 7 in the new meeting room of the city hall.

J. W. Harrison, city manager, released the agenda Wednesday.

Included on the agenda is the second reading of the annexation ordinance, the opening of bids on a 750 gallon per minute fire truck and opening of bids on central store items.

Other items to be discussed is the extension of sewer facilities to Block 2 of the High School addition, the present hospitalization policy and the purchase of water meters.

### 23 Entries Told County Tennis Match Slated May 12, 13

The Lamb County tennis tournament has been set for May 12 and 13. The tournament will be played all day Saturday and Sunday afternoon in Littlefield courts.

Spectator benches will be provided by sponsors of the tournament, Littlefield Press and the Sudan Beacon - News. Contest judges will be announced later.

Two trophies will be given in each division. Entrance fees are \$1.00 per singles entry and \$1.50 per doubles entry. Deadline for entrance in the tournament is May 7. No division will be played with fewer than four entries. Players must furnish own tennis balls.

To day 23 entries have been made, and other interested players should register at either newspaper office.

Contestants and divisions entered are: Alvin Webb, Jim Tom Brittain, Wendell Tooley, Jim Mangum, Tom Hilburn, Harold May and Billy Smith, entered in singles of "Veterans,"

"The reason we began our agency," Fanning stated, "is that we feel the South Plains farmers have two choices, since the Bracero labor is all but out. They can quit or find another source of labor, and we don't think they will quit farming."

"Our agency is simply a means of supplying domestic farm labor to the South Plains," he said.

### Flame Cultivation Told Young Farmers

"Flame cultivation damages a cross section in the weed, thereby serving as a dam to stop the flow of plant food and water to the leaves," Jodie Howard, representative of Western Tank and Steel Corporation, told the members of the Littlefield Young Farmers Association Monday night.

Howard continued, "The flame must raise the temperature of the water within the plant to 200 degrees for a period of one-tenth of a second to be effective." "Any plant can be killed by fire if the plant is completely enveloped by a temperature of 650 degrees or more for one second," he explained.

"Any crop can be flame cultivated if it has a protective coating or bark which is tougher than the weed," Howard said. "Dew acts as a protective shield, yet on the other hand the excessive water content inside the plant cells make them

easier to destroy." "There are many advantages to flame cultivation," Howard stated, "including the burning of all leaves and trash which is on the ground, will not dry out the moisture or damage feeder roots and will not leave the soil sterile for future rotation of crops."

Howard reported these conclusions from flame cultivation tests: "A cultivator travelling at (See Flame on Page 8)

### At Lions Club Barry Tells Of Trucking Fight With Teamsters

### Local Man In Jail Break

Jessie Magana, a Littlefield resident, was one of two young prisoners who escaped from the Bailey County jail at Muleshoe early last Sunday morning. The pair was captured and returned to jail by late Sunday afternoon.

Sheriff Dee Clements said Magana and Daniel LeRoy Lowe of Columbus, Ohio, escaped sometime between midnight and 6 a.m. Sunday.

A report was received about 2:30 p.m. that the pair was thought to be in the area about five miles northwest of Muleshoe.

Officers found them behind a vacant house studying a road map, and returned them to the county jail.

Prior to their escape, the sheriff said the two had been placed in the jail run-around because a prisoner in the cell area was considered violent.

Clements said the escapees knocked a hole in sheetrock in the ceiling of the restroom, climbed into a storeroom and then onto the roof. There they tied blankets to a flagpole, lowered themselves to a second floor window, re-entered the building and left through a ground floor door.

Magana had been convicted on charges of forgery in Littlefield and was being held for trial on similar charges here.

Lowe was being held for investigation in several break-ins and although he was listed as 17 years old his parents claimed he was 16. He was to have appeared at a hearing Tuesday to determine whether he would be turned over to juvenile authorities.

WHEN does the rain fall? ... what's past is past and on record but what's to come is anybody's guess. The average rainfall for April in this area is 1.14. . . the average for the year is 16.66.

So far we've received .70 for the month, 1.89 for the year. This time last year we had received 4.93.

The average rainfall for May is 3.32, which is ordinarily the best rain month of the year.

So, at this point we're less than average for the year and the month and it's getting close to cotton planting time. Some farmers have already planted at a soil temperature of around 52 degrees.

Sixty degrees for ten days is considered about right for planting cotton, but there are

always some "early birds." We aren't really "hard up" for rain yet, but two or three inches surely would brighten crop prospects at this time.

When it gets dry, the farmers cry . . . and the merchants cry with them . . . and the newspaper people cry with the merchants . . . and everybody gets sorta unhappy.

Well, this is Wednesday and it looks like it may be raining any moment . . . here's hoping!

PALM SUNDAY - A cowboy listened carefully to the story of the first Palm Sunday, and then he looked up and said: "Jesus must have had wonderful hands." Those who were present with him said, "What do you mean?" "Well," he said, "if Jesus could sit on a colt on which no man had ever sat, an untired, unbroken animal; if He could soothe it and control it and guide it while people were shrieking hosannas in its ears, waving the branches of palm trees in front of its eyes, and throwing down clothes before its feet, He must have had wonderful hands." -- Rev. Leslie D. Weatherhead, "The Things That Belong Unto Peace," Pulpit Digest.

I HEARD a rumor that the cowboys on the Halsell ranch drink milk for breakfast . . . thought all cowboys drank only hot java in the early mornings! Anyway, I've wrangled an invitation to the round-up in the next week or two, and if they're drinking milk . . . I'll get a picture for proof. Believe I'd rather have a picture of the cowboys at milking time . . . should be pretty exciting . . . then again, the milk may be a Cream O'Plains, Borden's, Bell, etc!

HERE's one for you puzzle hounds . . . someone asked a man one day how many were in his family and this is the answer he gave them. "I have just as many brothers as I have sisters, but my sister has twice as many brothers as she has sisters." How many children are there in the family?

TEXAS has a stirring and glorious history of which Texans are deeply proud. Preserving and celebrating that historical heritage is of outstanding importance today. The attraction "SIX FLAGS OVER TEXAS," with a 105-acre park located midway between Fort Worth, dramatically recaptures that heritage and the glory of Texas under the six nations. Texans as well as tourists from every corner of the United States and from other countries are drawn by the historical pageantry, wholesome fun and enjoyment offered by the \$10 exhibition. ## Electrical Systems Should Be Checked At Cleanup Week

Spring Cleanup Week, April 29-May 5, offers an excellent opportunity to clear up potential hazards in your farm wiring and electrical equipment. This word comes from W. S. Allen, extension agricultural engineer. He says many hazards have never been corrected simply because time was not taken to clear them up.

Allen offers several suggestions for an electrical cleanup program. First, clean around all main electrical switches by removing any obstacles which might prevent your getting to them quickly. Plug holes in any main switch boxes, because small animals can get inside and possibly cause trouble.

After this is done, clean the outside of corroded or rusty switch boxes with a steel brush and mineral spirits, and then repaint them.

Cobwebs, dirt and trash should be removed from around lights or switches, especially in hay barns, cribs and feed rooms. Heat from bulbs can set off an explosion or cause fire where dust or cobwebs accumulate.

You should also replace faulty wall switches or convenience outlets that have bad contacts or do not work properly, continues Allen. Repair frayed or damaged cords on any portable equipment such as irons, heaters, lamps or small appliances, and replace outside wires that have lost their insulation.

Make sure that no clothes line poles, antennas, or other such possible contacts can be made with your system of wires around the farmstead.

Allen points out that the appearance and safety of the farm is vastly improved by a neat outside electrical distribution system. Spring Cleanup Week is a good time to repair any flaws in yours.

Mr. and Mrs. D. L. Key and Kathy visited her parents, Rev. and Mrs. Hugh Blaylock, Dimmitt recently.

**FLAME**

(Continued from Page One)  
two miles per hour will not kill a row crop which has formed its protective cover.  
"All weeds, vines and grasses will be destroyed by one flaming at speeds up to five miles per hour if plants have not grown over one and a half inches tall.  
"The numbers of flamings will depend on how the weeds come up. This will vary from one to six times.  
"Flame travels in a straight line and will follow the ground until deflected with a quarter inch thick flame.  
"Flaming also can be used for drying grain in the field according to tests run by the University of Illinois.  
"Flaming cotton will remove the bottom bolls and transport them to the top of the stalk because the bottom is not allowed to grow thereby increasing the height from the ground of the bottom bolls.  
"Savings will be approximately 20 per cent of the gross cost of raising a crop."  
Approximately 20 association members and 15 guests attended the Monday night meeting.

**SKIP ROW**

(Continued from Page One)  
Another important announcement was also received this week in the ASCS office pertaining to skip-row practices. Producers who plant cotton leaving at least four rows out of production can count this acreage as layout land in the feed grain program.  
Word was received Monday, the final day for signing up in the 1962 feed grain program, of the change. Heretofore, the fallow land left between rows of cotton could not be counted as layout land in the feed grain program.  
"This will give producers an opportunity to change their planting operations for those who have entered the program," Aten remarked, "but the diverted acres must contain at least five acres if the base is large enough."  
As an example Aten said on a 10-acre block of land planted four in and four out would give five acres of diverted acreage.  
"The important thing for producers to remember," Aten said, "is that before the skip-rows can be counted in the program, there must be at least four rows left out." The pattern can vary with one in and four out, two in and four out, three in and four out, etc.,

next day. So the suit began and another emergency grant was made to let him continue trucking.  
Through the entire fight Barry said that he asked the aid of expert attorneys, who refused to take his case, but finally he secured the help of a hometown attorney who helped him through the years of battle.  
At last newspaper publicity took Barry's side of the fight and congressional hearings began . . . publicity protected him and his employees from physical harm.  
Finally, he was able to secure legislation to protect his company, yet in some cases Barry said that the Supreme Court and other government agencies were still tabling pending suits.  
Barry summed up his fight for constitutional rights, that America needed less "yes" men and more individuals who would take a stand for the rights of free men. He condemned Bobby and Jack Kennedy in his fight which finally developed through the McClelland committee. He said that every American should stand up and be counted in the interest of seeking the individual's constitutional rights.  
Barry was introduced by manager of the Littlefield chamber of commerce, Gene Garrison.

Den mothers who attended the presentation were: Reba Harrell, Jean Brock, Louella Witchee, Audette Myers and Bonnie Ward.

**Sudan Tennis Loses Out In Regionals**

Sudan tennis players gave a good account of themselves in the regional Class A tournament at Lubbock last weekend, with senior Sue Lynch advancing all the way to the finals before losing to three-time state champion Brenda Cook of Junction.  
Miss Lynch went farther than any Sudan player ever in the regional, but stood no chance against the fabulous Miss Cook, who won the state singles title as a freshman, sophomore and junior, and appears well on the way to her fourth championship at Austin.  
In the first round, Miss Lynch defeated Wanda Anderson of Plains 9-7, 6-2, and followed up with a 6-0, 6-2 win over Darlene Mason of Coahoma in the semifinals. She was overpowered in the finals by Miss Cook, 6-0, 6-0.  
Sudan's Scrappy Wingo, playing singles, won his first round match over Dan Simmons of White Deer, 6-2, 6-2, then lost in the semifinals to Kenny Neal, Junction, 6-4, 1-6, 2-6. The 6-4 set which Wingo won over Neal was Neal's only loss in the tournament as he swept to the singles championship.  
Sudan's girls doubles team of Linda Williams - Kathy Barnett lost to Wink's doubles team of Theda Mauldin - Wanda Prater, 7-5, 7-5, after leading in both sets, in a first round match.

**You Need The Church The Church Needs You**

*The lion that can roar the loudest and bite the hardest usually gets what he wants.*

That's the way it is in the animal kingdom, and sometimes the system creeps into man's world too!

Most of us have too much RELIGIOUS AWARENESS to believe that such a system is the best one. We would rather live in a world in which kindness and peace and unselfishness were the rule.

Our Churches can help us build such a world. They can turn our religious awareness into SPIRITUAL GROWTH.

On Sunday morning, the man in the armchair knows just as well as the man in the pew what is wrong with the world. But the man in the pew will be busy doing something about it!

**THE CHURCH FOR ALL . . . ALL FOR THE CHURCH**

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.
