

# FACTS TO ASSIST FARMERS

## WE THINK

What do you think?

BY M. B. D.

### TAKE COURAGE

Last June, Thomas A. Edison spoke to the nation over the radio. It was his last public utterance and was marked by his usual brevity. He said:

"My message to you is: Be courageous! I have lived a long time. I have seen history repeat itself again and again; I have seen many depressions in business. Always America has emerged from these stronger and more prosperous."

"Be as brave as your fathers were before you."

"Have faith!"

"Go forward!"

We think that all of us should remember what Edison said and take courage.

### What Do You Think?

### GOOD WORK!

Robert W. Hammons, aged 6, and Pryor, Jr., aged 8, promise to make experts in the art of picking cotton. Robert W. (Babe) picked 74 pounds and Pryor, Jr., picked 121 pounds on Tuesday of last week at the Roy Gaddis farm.

### SMILE, BROTHER, SMILE!

Commerce and industry throughout the United States are taking on increased activity.

### LEAVING OVER FIRE HOSE

We don't think we know that something should be done in Littlefield to put an end to the practice of automobile drivers running over hose at a fire.

Such procedure is against the law.

The only reason the officers of the law have not brought a great many offenders into court recently is because the officers do not like to prosecute people; they are doing their best to stop the practice without court proceedings.

At the fire Saturday night a car was driven over a one and one-half inch hose, one of the two which are run from a two and one-half inch hose. The hose was put out of commission and the stream from the other hose running from the two and one-half inch line was weakened.

The result was that the firemen were handicapped in fighting the blaze.

Think it over, folks.

Do you want to handicap the fighting of the demon fire.

We believe that you want to cooperate with the firemen.

### HOW WE FEEL SOMETIMES

Guess we'll have to pay more attention to the breakfast foods advertisements.

### MORE CAUSE FOR OPTIMISM

The price of crude oil is climbing. We think that is another good indication that business conditions are improving.

### What Do You Think?

### JOHN, WE THANK YOU!

The Santa Fe railway has paid its dues to the City of Littlefield and to the Littlefield Independent School.

Think that the Santa Fe show-mortgage is paying their dues this time, when the city and school are out of money.

## Three Are Seriously Injured In Automobile Crash

### Two of Accident Victims Thrown Through Windshield

### One Automobile Is Declared Total Loss; Other Badly Damaged

Two women and a man were seriously injured and several other persons sustained bruises, in an automobile accident late Sunday afternoon on Highway No. 7 at the Littlefield cemetery.

The seriously injured were:

W. B. Mersfelder, Springerville, Arizona, four ribs broken and cuts and bruises.

Miss Ophelia Walls, Clovis, slight concussion and cuts and bruises.

Mrs. Annis Barker, Clovis, slight concussion and cuts and bruises.

The three who were seriously injured were driving from Clovis to Lubbock in a coupe owned by Mersfelder.

The other automobile was owned by R. E. McCaskill, and those riding in that car were:

Mrs. McCaskill and son, Sam; Miss Nora Belle Grizzle, daughter of Rev. and Mrs. Joe F. Grizzle; Miss Bertina Howell and Miss Ada Lee Love, students at Wayland college, Plainview, and Rev. Roy Clayton and Rev. Melvin Shaw, both of Wayland college.

The Plainview visitors had presented a program at the First Baptist church Sunday morning and were returning from Amherst, where they had presented a program that afternoon.

### Coupe Total Wreck

The coupe was a total wreck, and several hundred dollars damage was done to the McCaskill car.

Rev. and Mrs. Grizzle were at the cemetery, where Mr. Grizzle was to conduct a funeral service. The funeral procession was turning into the cemetery, and Mrs. Grizzle, wishing to return to Littlefield with the party in Mrs. McCaskill's car, signalled for the automobile to stop. It is stated that the McCaskill car was driven a short distance before it was stopped.

The Mersfelder car crashed into the rear of the McCaskill car. Mr. Mersfelder and Mrs. Barker were thrown through the windshield, while Miss Walls was thrown out one of the doors of the machine. It is stated that the impact of the collision was so great as to lift the McCaskill car several feet off the ground. Both cars, however, did not leave the road.

The injured were rushed to Littlefield in automobiles and were attended by Dr. T. B. Duke and Dr. J. R. Coen, and an investigation of the accident carried out by City Marshal W. P. McDaniel.

### In Flanders Fields

In Flanders fields the poppies grow Between the crosses, row on row That mark our place, and in the sky The larks still bravely singing fly Scarce heard amidst the guns below.

We are the dead, Short days ago we lived, felt dawn, Saw sunset glow, Loved and were loved and now we lie In Flanders Fields.

Take up our quarrel with the foe, To you from falling hands we throw the torch, Be yours to hold it high.

If ye break faith with us who die, We shall not sleep, though poppies grow In Flanders Fields.

—John McCrae

A poppy sale will be conducted in Littlefield this Saturday by the auxiliary of the local post of the American Legion. Proceeds of the sale will be used in child welfare work and in rehabilitation.

## OIL LEASING HERE IS EXPECTED TO DEVELOP SOON

### REPRESENTATIVES OF INDEPENDENTS VISITING THIS SECTION

With the announcement last week that the Magnolia Petroleum company had moved three oil well drilling rigs into the Muleshoe territory, interest in possible oil development in this section became very pronounced. A number of men, some known to represent independents, have visited Littlefield, and this entire section.

It is anticipated that some considerable leasing activity will be developed.

Leases were obtained about five years ago on considerable land in this section, but it is stated that the great majority of these leases are now in force.

The rigs moved in by the Magnolia company will be used in drilling in the Lazbuddie section north of Muleshoe.

### Auxiliary Ladies to Put on Poppy Sale Saturday

The ladies of the Auxiliary of the American Legion are sponsoring a poppy sale Saturday on the streets of Littlefield, the proceeds of which will go to disabled veterans.

A Garza county woman made one hundred twenty-six dollars worth of cucumber products from a patch that it cost forty cents to seed.

Fort Worth's building permits for 1931 total \$3,892,475.

## Consideration Being Given To Forming Loyalty Council Here

Consideration is being given to the establishing of a Littlefield Loyalty council, similar to an organization which is functioning very successfully in Lubbock.

The purpose of such a council is to encourage the loyal support and maintenance of educational, financial and commercial institutions of a city, and to foster an aggressive community interest in the welfare and enterprise of the citizens, individually and collectively.

Some of the accomplishments of the Lubbock organization were brought to the attention of the Littlefield Rotary club at last Thursday's luncheon by A. P. Duggan.

The pledge which is being used by Lubbock follows:

LUBBOCK LOYALTY COUNCIL

Believing it is time for constructive forces to take a stand for the maintenance and support of Lubbock and its institutions, to combat destructive forces of fear, doubt and lack of confidence abroad in the land; and that this can only be accomplished by uniting the efforts of the manpower of Lubbock banded together for this common purpose, we hereby outline and subscribe to the following principles in forming the Lubbock Loyalty Council:

1. To loyally support, maintain and sustain the educational, financial and commercial institutions of Lubbock.

2. To foster an aggressive community interest in the welfare and enterprise of Lubbock's citizens, individually and collectively.

PLEDGE

To further these ends and believing that the above principles will maintain Lubbock against destructive forces, I hereby pledge by every effort to bring honor, rather than dishonor, upon my city; to uphold, and not tear down its ideals, objects, traditions and institutions; and to try, by every word and deed, to quicken the public sense of civic duty, so that I may help to leave to posterity a better city than I found upon entering.

## New Action Taken By Yellow House Land Company

### Farmers to Get 8 Cents for Cotton in Payment of Land Notes, Interest

A new step has been taken by the Yellow House Land Co., in the interests of the Littlefield section.

The company has been accepting cotton at 7 cents basis middling as payment on Yellow House Land Co. notes and interest, and Plains Investment Co. interest, but until further notice 8 cents basis middling will be allowed.

A letter which has been sent out to purchasers of Yellow House lands reads as follows:

"In view of some advance in cotton market, we will, on and after November 2 and until further notice accept cotton at 8 cents basis middling as payment on Yellow House Land Co. notes and interest, and Plains Investment Co. interest, but as stated in our former letter of September 25, we will only take cotton grown on land purchased from us. Should there be a decline in market, we reserve the right to change the price at any time, but hope to be able to continue to pay same.

"This letter in nowise changes the conditions of our letter of September 25, except the advance in price, which is effective from November 2nd until further notice."

The action of the Yellow House Land Company, in accepting cotton in payment of Yellow House notes and interest and Plains Investment Company interest, should not be interpreted that the Yellow House interests are engaging in the cotton business; their action is prompted by a desire to serve the purchasers of Yellow House lands by offering them a satisfactory method of meeting their obligations, should they not have the cash to make the payments.

The action of the Yellow House people also can be interpreted as again expressing their great confidence in the Littlefield section.

Since the announcement was made late in September that cotton would be accepted as payment of Yellow House notes and interest, and Plains Investment Company interests, many of the purchasers of Yellow House lands have availed themselves of the liberal offer made by the Yellow House interests.

A large acreage of tomatoes for next season is being promoted at Denton, Texas.

GEORGE WASHINGTON CELEBRATION

These points should be emphasized with respect to the celebration of the Two Hundredth Anniversary of the Birth of George Washington next year:

- 1—It is sponsored by the United States Government: Congress created the United States George Washington Bicentennial Commission and the President of the United States is its chairman.
- 2—It will not be a world's fair or exposition, and it will not be held in any one place.
- 3—It will be a nation-wide, even a world-wide series of celebrations in which every state, city and town—every organization and institution, every home and individual—in this country, together with Americans and others in many foreign countries, will participate. Every community is expected to plan and carry out its own program of events, in cooperation with the United States Commission and the State Commissions.
- 4—It will last from Washington's birthday, February 22, 1932, to Thanksgiving Day, November 24, 1932, with special local and national celebrations everywhere on all holidays, anniversaries, or other days which can be connected with the life of George Washington.
- 5—While the ceremonies on February 22 should be especially elaborate and impressive, as marking the actual Two Hundredth Anniversary of George Washington's birth, arrangements also should be made for public gatherings, pageants, plays, processions, musical festivals, tableaux and other events at various times during the entire period of more than nine months. Every program should relate to the great life and work of the First President and Founder of the Republic. On Memorial Day, Independence Day, Labor Day, Thanksgiving Day and other national and local holidays or anniversaries there should be special programs, but the celebration should not be confined to these days.
- 6—It will take time to prepare the local program and arrange for the local celebrations. The United States Commission urges mayors and other officials of every city and town in the country to appoint George Washington Bicentennial Commissions or Committees in order to prepare for the events of the Bicentennial Year.
- 7—All organizations and institutions of whatever character—civic, business, labor, educational, religious, fraternal, literary, social and others—are urged to plan for a "George Washington Year" in 1932.

BUSINESS IMPROVING

Business conditions are improving gradually, according to an official report to the unemployment conference of the National Association of Manufacturers. The report was the result of a trade survey of industries throughout the United States.

Eight hundred companies in 26 lines of business answered a questionnaire of conditions as of Oct. 15, J. Lewis Benton, general secretary, said. Favorable factors follow:

- 1—Better business than last fall is reported by 8 per cent of the companies, compared with 5 per cent last year. Eighteen per cent held the same business, compared with 14 per cent last year.
- 2—Employment shows a slight increase over October, 1931. Five per cent of the companies increased their forces, compared with 3 per cent last year. Thirty-one per cent have held the same personnel, compared with 29 per cent last year.
- 3—Wages have held their own or been bettered in 54 per cent of the companies. Decreased production, sales, and prices strike a general average nearly three times that of wage reductions.
- 4—Inventories are the lowest in years, indicating that when general buying is increased, plants will be compelled to enlarge forces to speed production.

A GOOD TONIC FOR THE NATION

Al Capone's sentence of eleven years in federal prison and a fine of fifty thousand dollars is one of the finest tonics along the line of respect for law the nation has witnessed in many years.

It proves that no man can be rich enough nor powerful enough to flout the laws of the land. It proves that if local laws can be evaded, there is teeth in federal statutes and the penalty is certain.—Clarendon News.

The largest crowd of this fall and winter visited Littlefield last Saturday. All business establishments report the greatest day's business in many months. So great was the number of shoppers that some stores temporarily locked their doors in order to wait

## SPRING LAKE HOLDS CATS TO COUNT OF 21 TO 0 IN STIFF BATTLE; LOCALS HAVE CHANCE FOR DISTRICT HONORS

### W. E. HARVEY OF MARLOW VISITS THIS SECTION

Mr. W. E. Harvey of Marlow, Okla., spent a few days this week in Littlefield and section. While here he called to renew his subscription to the Leader. BETTER EYE SERVICE FOR LESS MONEY—Dr. Ira E. Woods, Eagle Drug Store, Littlefield.

Littlefield High School's Fighting Wildcats won the championship of sub-district No. 1 of District No. 2, University Interscholastic League Football last Friday by defeating Springlake by a score of 21 to 0. The game was hard fought from beginning to end and although the Wildcats made 14 first downs to 4 for Springlake, the Littlefield fans were continually remembering last year's comeback by the Spring Lake team during the second half and many sighs of relief went up when the last whistle sounded.

The first score came in the first quarter when Powell took a lateral pass from Harless and went around right end 15 yards for a touchdown. The try for extra point failed. The next score came in the second quarter when Harless got off a long kick and the Spring Lake safety man fumbled and after recovering the ball ran out of the end zone behind his own goal posts to give Littlefield a safety. This ended the scoring for the first half, Littlefield 8, Spring Lake 0.

Both teams came back fighting the third quarter on fairly even terms for that playing period. Spring Lake began to weaken noticeably at the beginning of the fourth quarter after Bill Carter sidestepped his way beautifully through six tacklers for 53 yards. This was the most spectacular play of the season for the Littlefield squad, but Bill Carter is mighty liable to pull the same kind of a run against any team. The next two touchdowns by Carter and McCarry came in quick succession and Harless kicked goal after the last one.

Littlefield has no other game scheduled but the district executive committee composed of A. B. Sanders of Brownfield, Supt. J. B. Pace of Tahoka, Supt. I. R. Witt of Post, Supt. W. E. Patty of Floydada, and Principal F. O. Boles of Littlefield will meet at Lubbock next week to determine the remainder of the district race schedule. It appears that Floydada and Littlefield will meet for the north half leadership and the winner of this game will play the winner of the Post-Lamesa game for the District championship about Thanksgiving.

The Wildcats have a fighting chance for the district championship this year and if the proper support can be obtained from the citizenship, Coaches Tucker and Hopping may be counted on to have the team ready for these final games.

FIGHT 'EM WILDCATS, WE ARE BACKING YOU FOR THAT DISTRICT PENNANT!

### CAMELS are never parched or toasted!

**FRESHNESS** and flavor in a cigarette trace right back to natural moisture.

If you overheat or process tobacco so harshly as to dry out all natural moisture you drive out *freshness* and flavor too.

Camel never parches or toasts the fine Turkish and mild Domestic tobaccos it uses—they are *naturally* smooth, cool, mellow, with natural moisture retained.

That's why the Camel Humidor Pack proves such a blessing to Camel smokers—it brings them a fine cigarette *fresh* to start with, and *fresh* to smoke.

If you don't realize what natural moisture means in genuine *freshness* and flavor, switch to Camels and see.

Try this mild, slow-burning, throat-friendly favorite for just one day—then leave it, if you can! R. J. REYNOLDS TOBACCO COMPANY, Winston-Salem, N. C.

### DECISION ON T. & P. APPLICATION EXPECTED TO BE GIVEN EARLY IN 1932

LEVELLAND—A decision on the application of the Texas and Pacific Northern railroad to construct 333

miles of railroad in West Texas from Big Spring to Vega, is expected early in 1932, Judge John H. Doyle said he was told by officials of the T-P in Dallas. Mr. Doyle made the statement on his return from a trip to Dallas where he conferred with Texas and Pacific officials.

"I talked to Judge Gresham of the T-P and he said that they expected oral arguments late in November, with a decision in January or February," Judge Doyle said. "Judge Gresham is rather optimistic over the outlook."

"I believe if the railroad were built in the spring it would help to a great extent our present condition on the South Plains. We need a new railroad to help build up this country. If the T. P. N. is authorized to build the railroad I am expecting work to start early in the spring."

Cotton picking is getting in full swing as the farmers are getting in more pickers every day. The gin is running day and night. One mechanical cotton stripper has been in operation for about two weeks. Most of the cotton gatherer with it is still in stacks in the field. Some seven bales were ginned and the turn out is a little better than most of the hand snapped cotton, so is the grade.

Little Miss Eva, the nine year old daughter of Mr. and Mrs. Geo. C. Hughes, underwent an operation for appendicitis in a Lubbock hospital Monday evening, and we are glad to report her doing fine. They expect to bring her back home Wednesday of this week.

Albus for the last few weeks, returned home Friday, where Miss Leona will assume her duties as teacher in the school there. The young ladies also helped L. H. Albus pick some cotton while here.

Mr. Arthur Kleypas of Lott, visited with Herman Greener Sunday. We understand that Mr. Kleypas will make his home in Littlefield in the future.

Mr. John Stengel and A. G. Jungman were in Lubbock on business Saturday.

#### Farm Home Improved

By Mrs. V. B. Pierce, President Lum's Chapel H. D. C.

One morning while in the midst of churning, preparing a meal for the family, and finishing some work that had been started, Miss Murray and Miss Mashburn came in. After a short visit, they explained they were interested in getting some one to improve the entire home, and wanted some one who would do the work and be willing to have the home used as a demonstration.

I was very much interested in the plan and asked them to look over the house and make suggestions as to what should be done. The following things were decided upon:

A window added to the living room. Clothes closet in each bed room. Kitchen cabinet built in. Sink installed. Water piped to the kitchen. Floors scraped and refinished. Wood work scraped and refinished. Walls all papered. Iron bedsteads refinished. New draperies for windows.

The paper for each room was to be furnished for the demonstration by Cameron Lumber Company of Littlefield. All other expense was to be mine unless some other company was found that would co-operate.

I agreed to accept the offer of the wall paper and to do what ever improvement I could. I thought at this time I could do only a small part of what was outlined.

I began by putting in the window. Then there was the bed room that was not sheet rocked. This required quite a bit of work as the cracks had to be filled, strips of cloth cut and pasted over each. There was a frame of a clothes closet in this room but no door, shelves, or rods. A strip of sheet rock and some scrap lumber made a very convenient and much-needed storage place. This done, the room was convassed and papered. Then I immediately got busy on the others and one by one the list of suggested improvements disappeared. The kitchen probably under went the greatest change of any room. My kitchen like all others was a work shop so I really needed the cabinet and sink to lessen the steps and shorten the time spent there. Finally I gathered all the scrap lumber that had been used in taking care of the broom corn last year and an old cotton sled. At this time I did not have plans for building a cabinet that was somewhat like I had planned. After closely examining this picture I decided what changes to make in the one I wanted built.

My son-in-law, husband, boys and myself got busy and soon had the cabinet built. It was far better than I ever hoped we could make from scrap lumber. The cabinet has plenty of storage space for staple goods, kitchen utensils, and dishes. There is plenty of working space at the right height so I will not have to stoop while working. The sink is well located and saves countless steps in not having to go to the well for all water used and in carrying all waste water outside.

The cabinet and woodwork are finished in lettuce green to harmonize, with the touch of green in the wall paper. My son Morris, made a broom rack and dish cloth hanger and match box. These are finished in green and are very attractive as well as useful devices.

My daughter, Mrs. Mealer, and I made a table to place near the stove to be used as an assembling unit.

On the outside of the kitchen door I have built a combination shelf and rack for the milk utensils where they will get plenty of sunshine.

It is a pleasure to work in a shop like my kitchen and the work, although the same, does not have the

same drudgery as it formally had.

My living room is well lighted, cheerful and very liveable. Buff color predominates here in, the wall paper, floor and woodwork. My window draperies are orange colored theatrical gauge. I used this color because there is a tiny bit of it in the wall paper. Many pictures and bric-a-brac that had accumulated in the living room have been removed permanently. Now my room does not have that clutter-up look and is more restful and easier kept.

Higinbotham - Bartlett Lumber furnished the paint for the cabinet and the hand made devices. They also sent two men to give a paper hanging demonstration.

# State Teachers Association To Meet In Amarillo Nov. 26-28

## FAUSTIN WIRKUS, MARINE, WHO WAS CROWNED KING OF SOUTHERN ISLE, TO BE SPEAKER AT TEACHERS CONVENTION

FAUSTIN WIRKUS

### R. L. BUSHER GROWS LARGE TURNIP HERE

R. L. Busher of west Littlefield brought to the Leader office this week a turnip weighing 4 3/4 pounds. According to Mr. Busher, he has ten acres of land, most of which he has in vegetables of all kinds.

One hundred twelve students graduated from Texas Technological College, Lubbock, at the close of the two summer terms this year.

Some years ago a baby boy was born into a certain one of the many little poverty-stricken homes of a small mining village in Pennsylvania. That, in itself, was nothing unusual, to be sure, but what came into the life of that baby after it grew into manhood was as strange and as interesting as the world in which it moved.

The Polish mother christened the child Faustin, after one of her favorite saints. Little did she, or the group of friends who gathered in the home on the day of his birth, dream that one day, Faustin Wirkus would become the "White King of the tropical island of La Gonave.

The early life of Faustin was anything but regal, for as a boy he worked hard, picking slate from the coal chute at Wilkes-Barre. At 17 he ran away, joined the Marines and set forth to see the world.

It was soon after his arrival at the Haiti in company with a detachment of rookies that he first learned of La Gonave. The sergeant he questioned did not give it an alluring description. "That's a place you'll never get closer to than you are now if you are lucky," he said. "No white man has set foot on that island since the days of buccaneers, until this occupation. Men stationed there don't generally come back, and if they do, they ain't fit for nothing but the hughouse. That

place is full of Voodoos and God knows what else."

But Faustin, the rookie Marine from Wilkes-Barre, was interested in La Gonave. Whenever he could, in the years that followed, he visited the island. Then, finally, when his chance came he asked to be transferred there as sub-district commander. Thus, the drama unrolled to fulfill a prophecy—a prophecy that Emperor Faustin I would be miraculously restored to his people. For in this straightforward, kindly young sergeant of the Marines, Ti Memenne recognized the reincarnation of the first Faustin, and crowned him King of La Gonave. Seabrook wrote of him in his book, "The Magic Island," and it became rare copy for newspapers and magazines the world over.

Teachers attending the annual convention of the Texas State Teachers association at Amarillo, November 26-28, will have the opportunity to hear Faustin Wirkus recount his adventures in one of the strangest lands on the face of the earth, and see motion pictures filmed upon that southern isle.

WILLIAM JOHN COOPER

Mr. Cooper, United States Commissioner of Education, is a Californian by birth and served in various capacities as teacher, principal and research worker before being appointed state superintendent of public instruction. Doctor Cooper will appear before the convention Friday evening, November 27. His address will be on some subject related to the theme of the convention—"The Relation of Schools to Business."

MISS FLORENCE HALE

President of the National Education association and state rural school supervisor, August, Maine, Miss Hale will address the second general session of the convention, Thursday afternoon, November 26. Miss Hale will speak also to several sectional meetings on the following day.

W. A. McINTOSH

Superintendent of Schools of Amarillo, Mr. McIntosh will be host superintendent to the expected 5,000 delegates to the convention.

J. C. COCHRAN

President of the Texas State Teachers' association and superintendent of schools at San Antonio, Mr. Cochran will have an active part in the convention.

## 5,000 DELEGATES TO ATTEND 53rd ANNUAL MEETING

### MANY PROMINENT EDUCATORS ARE ON PROGRAM

When the public school teachers of Texas meet in Amarillo, Thanksgiving day for the opening of the 53rd annual convention of the Texas State Teachers association, they will find a city prepared to welcome them and make them glad they "let school out" in order to attend the three-day session.

To Amarillo it will mean the privilege of being host to the largest convention in the state, whose delegates form an integral part of the development of the Texas empire. It will be the first time a state teachers' convention has been held in a city west of Fort Worth. Five thousand delegates are expected to attend, and Amarillo, with the full co-operation of other cities of the Panhandle, is leaving no stone unturned to show the teachers the sure enough West Texas hospitality.

#### Prominent Educators on Program

In the list of speakers appearing upon the general program are some of the nation's ablest educators. Among these are Willis A. Sutton, superintendent of Schools, Atlanta, Ga., and retiring president of the National Education Association; Edwin A. Lee, professor of education and director of vocational education, University of California; Miss Florence Hale, president of the National Education and State rural School Supervisor, Augusta, Maine; William John Cooper, United States Commissioner of Education; H. W. Morelock, president of Sul Ross State Teachers' College at Alpine; J. C. Cochran, president of the Texas State Teachers' Association and superintendent of schools, San Antonio, and Sarah Sturtevant, Dean of Women, Columbia University.

Music will figure largely in the convention's amusement program.

The famous Cow Boy Band of Simmons University, the West Texas State Teachers College Band; The Technological College Band; the Amarillo High School Band, and the Amarillo High School chorus are among the musical aggregations to be here for this statewide occasion.

Under the supervision of Miss Ventura Smith, supervisor of music in Amarillo Schools, an all-state band will be assembled at Amarillo for several concerts.

#### Candidates for President

Members of the association usually display a great deal of spirit in electing their president. Dr. J. A. Hill, president of the West Texas State Teachers' College, and Dr. A. W. Evans, member of the Texas Technological College faculty, are the only known educators to announce as candidates.

From the opening of the first general session at Amarillo's large auditorium on the morning of November 26, until the benediction is pronounced at the close of the final program on Saturday afternoon, November 28, there will be numerous and varied meetings over the city. Aside from the regular association program and meetings the delegates always look forward to the contacts, where new friendships are made and old ones strengthened. Every preparation possible is being made by the Amarillo Chamber of Commerce to provide the teachers with every want while in the city.

Plans are being made to sponsor tours, especially for geography instructors, to the largest gas field in the world near Amarillo; to the largest wheat farms; the big ranches, the old field region near Pampa and Borger; the only helium gas plant in the United States which is located at Amarillo, and to Palo Duro Canyon, scenic wonder of Northwest Texas.

Churchmen in Midland recently shipped a car of 51 beef cattle to an orphan's home.

### John Blair Duplex is Badly Damaged by Fire Saturday Night

Considerable damage was done by fire late Saturday night at the John Blair duplex, just north of the Presbyterian Church.

The fire was in the north apartment, and considerable damage was done by fire, water and smoke.

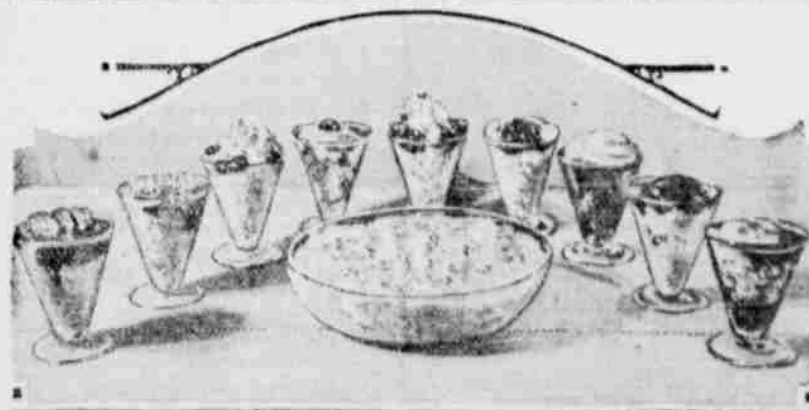

Work of the fire department was considerably handicapped by large numbers of cars rushing to the scene of the blaze. One example of the difficulties, in which the firemen

worked, was the fact they were required to go 600 feet to a plug, whereas if it had not been for the automobiles blocking the way, a plug could have been reached at 150 feet. One automobile was driven over a 1 1/2 inch hose, which was broken by the automobile passing over it.

Very slight damage was done by a fire about daylight Sunday morning at the Texas Cotton Growers Gin. The fire started in the boiler house. The damage was so light that ginning operations were not interfered with.

### New Kitchen Magic

Modern housewife quickly turns simple cream into many dessert treats

THE old idea that a dessert was an extra "fill" to the meal is gone forever. Today modern, diet-wise homemakers choose desserts that not only please but nourish the grown-ups and the youngsters too. And when a dessert is as economical as it is delicious, it becomes the perfect and popular all-family dessert.

There is such palate satisfaction in a foamy Tapioca Cream. And there is such time saving convenience in the various ways this basic recipe can be transformed into half a dozen different desserts. Just make up enough Tapioca Cream for two days' dinners. Serve it plain one day and dressed up for the next day.

First the basic recipe for—

**Foamy Tapioca Cream**  
 1/2 cup quick cook- 1 egg yolk, slightly Tapioca ly beaten  
 1/2 cup sugar 1 teaspoon flavoring  
 1/4 teaspoon salt  
 1 qt. milk, 1 egg white, scalded stiffly beaten

Add tapioca, sugar and salt to milk. Cook in double boiler 15 minutes or until tapioca is clear, stirring often. Pour

small amount of tapioca mixture over egg yolk, stirring vigorously. Return to double boiler. Cook until thickened. Remove from fire. Add flavoring. Fold in egg white. Chill. Serve in sherbet glasses. Garnish with whipped cream and a few berries or pieces of fruit. Serves 8.

Now for the four dessert surprises you can turn out in a jiffy:

1. Serve with chocolate, or caramel sauce or maple syrup. These may be folded into pudding or poured over each serving and garnished with nut meats.
2. Serve with a Fig Sauce made of stewed dried figs, chopped.
3. Fold whipped cream into pudding. Garnish with orange or grapefruit sections, with jam or jelly, or with a fruit sauce or canned fruit syrup.
4. Fold in whipped cream. Garnish with fluffy chocolate sauce. (Whipped cream and chocolate sauce folded together).

In addition to these suggestions every woman will be able to add some of her own, such as shredded coconut, candied fruits, canned fruits.

## Miss Irene Meador and Rev. M. Boyd Wed In Beautiful Morning Ceremony Tuesday

In a very impressive and beautiful ceremony at the Methodist church, eight o'clock Tuesday morning, Miss Irene Meador, daughter of Rev. and Mrs. R. B. Meador, became the bride of Rev. Marvin Boyd, son of Mr. and Mrs. Walter Boyd of Cisco, Texas.

Rev. M. M. Beavers, Presiding Elder of the Plainview District of the Methodist Church, in which Littlefield is located, and a long time friend of the Meador family, performed the ceremony, which was witnessed by the immediate relatives of the bride and a large number of Littlefield friends.

The altar was beautifully decorated with baskets of chrysanthemums, ferns and pot plants, while delicate shaded floor lamps lent much color and charm to the occasion. Miss Johnnie Pace played the wedding march, and Miss Eva Gertrude Chisholm sang "All for you," and "I love you truly."

The bride was charmingly attired in a navy blue flat crepe ensemble,

trimmed with egg shell allover lace, and accessories to match.

Mrs. Boyd is a very accomplished young lady of exceptional talent, and one of the most popular among the younger set of Littlefield. She graduated from the Abilene High School, received her A. B. degree at McMurray College, Abilene, and studied a year in Scarrett College, Nashville, Tenn.

The groom is a young man of very pleasing personality, character above reproach, and very fitted to the profession to which he is called. He received his A. B. degree at the McMurray College, Abilene, and just recently finished his divinity course at the Southern University, Dallas. He is temporarily serving at pastor of the Wesley Memorial Church, Big Spring, Texas, but expects to attend the Northwest Texas Annual Conference of the Methodist Church, at Vernon, Texas, November 12, where he

will be given a permanent charge. The happy couple left immediately following the ceremony for their home at Big Spring.

## Hallowe'en Party Given at School Cafeteria Friday

The adult department of the First Baptist Church Sunday School and the Downtown Sunday school class entertained with a delightful hallowe'en party at the school cafeteria Friday evening.

Black cats, pumpkins with grinning mouths and black bats adorned the spacious room, with a witch's booth arranged near the entrance, and orange and black streamers hanging from the ceiling.

A tall ghost greeted the guests with a hand shake, which rendered them an electric shock, and created much merriment. The arrivals were then invited to the witch's booth, where Mrs. R. T. Badger as the witch, very ably presided over a brewing black pot, and told fortunes.

The guests were in attractive hallowe'en costumes and everyone entered into the spirit of the occasion.

Many games were played and contests put on, the prizes awarded being Hallowe'en whistles and other noise making articles in various shapes.

Mrs. J. H. Lucas, social chairman of the T. E. L. class, had charge and proved a very versatile entertainer. She was assisted by Mr. and Mrs. Spinks, who put on some very clever stunts, in keeping with the season's celebrations.

A pleasant evening was enjoyed by all. Those present were Misses Urleue Foust, Faye Herman, Ruby Yearly, Eula Mae Page, Eunice Smith, Louise Baird, Mary Edith Robinson; and Messrs. # We Pay Homage To The Heroes of War....

WE COMMEMORATE THE COMING  
OF PEACE

**O**N THIS Armistice Day we glorify Peace, not War. We honor the nation's heroes as men who gave their lives not to win a war, but to win an everlasting peace. They were brave, fighting

hearts that bled for a noble cause. We can all cherish the memory of their deeds. But in remembering let us also pray that our youth and the youth of the world will never again meet on the battlefield.

**Farmers in Enochs Section are in Good Financial Condition**

The farmers in the Enochs section are declared to be in better financial shape this year than last year. They are paying off their government loans, and are meeting other obligations. Crops in the Enochs section this year are good. Some land is making a bale of cotton to the acre, and plenty of land is making three-quarters of a bale to the acre in going over the first time.

One example of the good cotton crop in Enochs section is contained in the fact that G. P. Howell will get 120 bales in going over a 160 acre tract, the first time, and will have a total of 150 bales from the 160 acres.

Maize is running 1 1/2 to 2 tons to the acre in the Enoch section, and threshed grain will yield 40 to 50 bushels to the acre.

**NEW GROCERY TO BE OPENED HERE THIS SATURDAY**

**BUSINESS IS BEING ESTABLISHED BY J. O. GARLINGTON**

A new grocery store, which will operate under a Piggly-Wiggly franchise, is being established on Phelps Avenue, in the building just south of the Stokes-Alexander Drug company, by J. O. Garlington, for the past six months a resident of Fort Worth, but previous to that, a resident of Midland.

Mr. Garlington has purchased the Piggly-Wiggly franchise for Lamb county from Davis and Humphries, Lubbock, but beyond operating under a Piggly-Wiggly franchise, the new store will be strictly a local institution.

Mr. Garlington has moved his family to Littlefield, and will operate the store.

The store will be open for business Saturday, but it will not be completely stocked and equipped until the middle of next week. The formal opening will take place a week from this Saturday. Full details of the formal opening will be carried in next week's Lamb County Leader.

**Levelland Banker Says Business in Hockley is Good**

"If we can gather all of the crop that we have I believe Hockley county this year will pick and gin 45,000 bales of cotton," Judge H. Doyle, president of the First National bank of Levelland, said in an interview this week.

"The gins at Levelland and all over the county are busy," he continued. "In fact, they are crowded and have more than they can do.

"Many farmers had to stop gathering their feed to get the cotton crop gathered. There are many fields that are yielding a bale of cotton to the acre.

"Our feed crop is excellent. I never saw any better. I know of fields of maize that have been having between a ton and a half and two tons of heads to the acre."

Mr. Doyle said that general business conditions in Hockley county and Levelland were good. There seems to be strong trend of merchandise and agricultural business and prospects are brighter.
