

Webb-Fisher Married In Home Ceremony Jan. 24

Public ring ceremony read at the home of Mr. and Mrs. Webb-Fisher on Thursday, Jan. 24 at 7:33 p. m. The bride, Miss Charlotte Webb, daughter of Mr. and Mrs. W. D. Webb, and the bride of Steve Fisher of Mr. and Mrs. Jack W. Sudan.

The bride, given in marriage by her father, wore a white lace fitted bodice and soft skirt over white satin. Her matching bolero had high neckline with tap-eyes, with self-covered finger tip veil was to sequin covered earrings, she carried a bouquet of carnations and wore a red shoe for good luck.

MISS FAYE SCOTT
Faye Scott
in FHA Girl
of the Month

Faye Scott was named of the Month for January for her chapter Future Home of America.

On the basis of points on chapter participation as decorations chair- man of the chapter and was elected of the sophomore class the daughter of Mr. and Mrs. R. E. Scott.

In other school affairs, she is a member of the Future of America club; report- er for the Student Council; and she was in the school annual. She also served last year as a member of the Hornet club, where she is painting, music and writing letters.

Given to her by Minyon Chisholm for something blue she chose a blue garter, a gift from Mrs. M. O. Dummigan, and for something old she wore a string of pearls of her Aunt Pearl's, and a gold watch belonging to her deceased grandmother Collier.

Mildred Teague served as maid of honor. She wore a lime green dress of nylon tulle over satin and carried white carnations.

Jan Fisher served his brother as best man.

The bride's mother wore a blue-green wool dress with a white corsage and Mrs. Fisher wore a grey dress with a white corsage.

Immediately following the ceremony a reception was held in the bride's home. The table was covered in a hand crocheted table cloth over lime green satin. The centerpiece was formed with the bouquets of the bride and her attendant.

Miss Teague served a two-tiered wedding cake of white and lime green topped with a miniature bride and groom, and punch.

For a wedding trip, Mrs. Fisher wore a navy suit with black accessories.

Mr. and Mrs. Fisher are at home on a farm close to Sudan, where he is going to school to complete his education, and she plans to complete hers by correspondence.

Income Tax Chief Answers Most Common Questions

It is tax time at the Internal Revenue Service. Every Monday morning thousands of North Texans call the magic IRS telephone number for the answers to those baffling tax questions. Other taxpayers find it necessary to visit one of the 21 Internal Revenue Service offices located in major cities throughout the northern part of Texas.

Revenue Director Elms Campbell, 47, of the Dallas office, who supervises the Internal Revenue Service district covering 14 counties in the northern half of Texas, has answered the ten most common questions being asked this year:

(1) Can I use the new carry-over method? Answer: Yes, if you have more than \$10,000 per year and you do not desire to change your deductions you can complete the simple Form 1040-A. These forms are available at all Internal Revenue Service offices, most banks and Post Offices; (2) I am an employer. What are the new FICA tax rates for Social Security withholding on my employees for 1959? Answer: The new tax rates were provided to all employers on an extra sheet attached to the Form 941 mailed during the last week in December; (3) I am an employer. When will I receive the new Circular E which gives the new Social Security rates for my employees? Answer: Unfortunately, the printing of this publication has been delayed. We expect to be able to mail the Circular E to the more than 52,000 employers in our district during the first week in March; (4) Since the Internal Revenue Service took line 6(a) of the Form 1040 how do I claim my travel expense deduction? Answer: The instructions you received in the mail fully explain how to claim travel expenses on your 1958 return. Read the instructions on page 6, entitled "Employee Business Expense"; (5) What can I claim as a medical expense deduction? Answer: Medical expense deductions are explained on pages 9 and 10 of your Form 1040 instructions this year. Most taxpayers will have no trouble in taking the medical expense deduction if they will read the instructions; (6) I am an employer. How

do I figure my state unemployment credit on the tax Form 940? Answer: The instructions on how to figure state unemployment credit is attached to the Form 940 that was mailed on December 24 to the more than 40,000 North Texas employers due to file this return. Employers who do not understand the instructions can obtain additional help from any Internal Revenue Service office; (7) Do I have to file an estimate? Answer: The tax instructions mailed to taxpayers with 1958 tax forms set out the requirements on page 14 on who must file. If you have income other than wages you should plan to file an estimated tax return for 1958 along with your income tax return for 1958 by April 15; (8) I am an employer and I have not received my Employer's Federal Tax Return, Form 941. These forms (more than 92,000 of them) were mailed on December 24 to employers. This is earlier than the usual mailing and form may have been lost in the Christmas shuffle. If the employer cannot

find the form, he should contact Internal Revenue Service, 2101 Pacific Avenue, Dallas, Texas, and we will furnish a duplicate form; (9) I am an employer. Why have I not received by Forms W-2 and W-3? Answer: Publication 393, the booklet containing the Form W-2 and W-3 were mailed to more than 1,000,000 employers in our district in September, 1958. Less than the first year the forms W-2 and W-3 were mailed to employers in booklet form are received more than 20,000 telephone calls and letters asking for these forms. We hope that next year everyone will be familiar with the form booklet, Publication 393; and (10) What deduction can I claim under the new changes? Answer: There are more than 200 changes in the income tax law under the 1958 Technical Amendments Act change. Only a few of these changes affect the average individual. These are contained in the tax instruction booklet you received in the mail with your 1958 Form 1040. We advise you to read your instructions carefully and file early.

Texas Baptists Seeking 1,200 New Churches By '64

DALLAS, (AP) — What is a church mission? To the Texas Baptists, now in a vigorous attempt to keep up with the states' exploding population, it means many things. It is a downtown place in Fort Worth where skid-row winos squalor each night for a square meal, a place to sleep and a New Testament. Or a minister preaching on a street corner or in a jail. Or it is a half million dollar structure in Houston and a quarter of a million dollar edifices in Lubbock and Amarillo. The Fort Worth, Houston, Lubbock, and Amarillo missions are a small part of what state Baptist headquarters spokesmen here call the "most extensive church expansion program ever undertaken

in Texas by any church group." The program calls for the establishment of 1,200 new churches and 2,400 new missions by 1964—a staggering total of 14 new churches or missions each week. Dr. Arthur Rutledge, state director of the expansion program, is worried that even this will not be sufficient. He has figures indicating Texas will have 1,500,000 additional population by 1964 added to its present estimated 9 million. And already, says Dr. Rutledge, "three and a half million Texans are not affiliated with any religious faith." The missions, as defined by the Baptist, can include many things. It can be a street corner service—provided they are held regularly. Or it can be regular, permanent services in jails, hos-

pitals, homes for the elderly, and many other places. The Fort Worth mission is one type. About 30 down-and-out characters receive care each night in the new mission. Their principal benefactor is Fort Worth oilman William Fleming, who recently gave \$50,000 to the Tarrant Baptist Assn. for expansion. The mission is sponsored by the Connell Baptist Church of Fort Worth and staffed mainly by Southwestern Baptist Theological Seminary students. "By 1964," says Dr. Rutledge, "nearly every growing community in the state will have a new Baptist mission or church." His estimate of what the program will accomplish: The new churches will record more than 20,000 baptisms a year within five years after the campaign ends. New church members will contribute more than 11 million dollars annually, of which more than a million will go to missions. Sunday schools will add 200,000 members. Texas Baptists will have invested 54 million dollars in new build-

ings by 1964, said a denominational church building expert. Average cost for a first-unit church is \$45,000. "Some new missions, however cost as much as a half million dollars," says J. W. Caldwell, church building consultant for Texas Baptists. "A new Willow Meadows Chapel in Houston, sponsored by the South Main Baptist Church, will cost about that much. Two other missions in Lubbock and Amarillo are being built at a cost of about \$250,000 each," said Caldwell. The Texas campaign is part of 30,000 new churches by 1964. The 1964 goal was selected because it marks the 150th anniversary of organized Baptist work on the continent. To locate areas where new churches and missions are needed, nearly every community and hamlet in the state will be surveyed, Baptist leaders say. "The 30,000 movement is the brainchild of Dr. C. C. Walker, former president of the Southern Baptist Convention. He issued the challenge for 30,000 new churches at the 1953 Southern Baptist Convention meeting in Kansas City. He was named chairman and now directs the entire convention effort from offices in Richmond, Va.

properly constituted government agencies to hold hearings for the purpose of gathering information necessary to carry out their functions. Those functions, however, should not include the power to act as a court of law to deprive citizens of their liberty or property. That is the proper function of our courts. Some committees have operated on the theory that if they make their charges and insinuations

strong enough a sizable portion of the public will believe there is guilt, even when later evidence fails to reveal wrongdoing. Business men will be in for a grueling ordeal when they face investigating committees headed by Senators Joseph O'Mahoney of Wyoming and Estes Kefauver of Tennessee, and in the House by Celler of New York and Wright Patman of Texas.

THIS WEEK In Washington

With CLINTON DAVIDSON

Congressional investigating committees are beginning to line up big business executives to give them the same kind of "treatment" meted out in previous Congresses to communists and labor racketeers.

The crime they are to be accused of is that they are "conspiring" to raise prices, and thus cause inflation. One legislative proposal would require businesses to give the government advance notice of any intention to raise prices.

Staff investigators from at least four business investigating committees have begun, or soon will begin, probing into business files and records in search of evidence on which to hale business men before the committees for public hearings.

President Eisenhower's State of the Union message, which dealt at length with the danger of inflation, did nothing to reassure business that it can expect a "friend in court" when put on trial before the congressional committees.

Anti-Business Drive

Business men we have talked with fear that the advance notice proposal, if adopted, would result in governmental-administered pricing, just as the Interstate Commerce Commission, for example, establishes transportation rates.

The thoroughly disturbed Wall Street Journal, which usually reflects business thinking, recently headlined a warning that Congress plans the "Biggest Anti-Business Drive Since the New Deal."

The U. S. Chamber of Commerce, which also has big business interests, is quoted as saying "they (the committees) won't lay the cause of inflation at labor's door. They have failed to find a scapegoat, and business is it."

It could be that business men are "talking scared," but if so they are being given some very plausible reasons for doing so.

Many business men are becoming convinced that the government is against them and that any time they appear before a congressional or administrative agency they have two strikes on them.

A Fair Trial

It is entirely within the province of congressional committees and

Income Tax Fax

Questions and answers about your individual income tax report for 1958, as presented by the Texas Press Association. Do you have traveling expenses in connection with your employment? If so, you can deduct them from your income in arriving at your adjusted gross income. This means that you also can use the standard deduction as you no longer have to itemize your deductions on page two in order to take these traveling expenses. Out-of-town Travel Expenses: The law provides special deductions for the expenses of travel while away from home in connection with your employer's business. "Traveling away from home" means going away from the city or town where you normally work and remaining away at least overnight. "Travel expenses" means the cost of transportation fares, meals, and lodging, and includes porters' tips, hire of public stenographers, baggage charges, and similar expenses necessary to travel. Travel expenses do not include any entertainment expenses, or any personal expenses such as laundry. Other Transportation Expenses: Even though you do not travel away from home, as explained above, you may deduct transportation expenses paid in connection with the performance of services for your employer. Transportation expenses include payment for actual travel or, if you use your own car, the business portion of the cost of operation, including fuel, repairs and depreciation. Expenses of Outside Salesmen: The law allows "Outside Salesmen" to deduct all their ordinary and necessary business expenses. This applies only to full-time salesmen who are engaged in soliciting business for their employers away from their employer's place of business. The term does not include one whose principal activities consist of service and delivery such as a milk-driver or salesman. Any reimbursement of these expenses must be included in your income. Attach a statement to your return explaining in detail the expenses you deduct. You may obtain Form 2106 from the nearest Internal Revenue Service office to explain these expenses. All expenses deductible under this section must be allowable expenses. Transportation expenses do not include the expense of commuting to and from work. Commuting is a personal living expense and is not deductible.

Johnson Goes To Jail For 60-Day Term

Alfred "Jaybird" Johnson, Littlefield Negro who was convicted of violation of the liquor law in March, 1958, began serving a 60-day jail sentence Tuesday. A jury headed by H. B. Thomas of Lubbock, formerly of Olton, found Johnson guilty and assessed his punishment at 60 days and a \$500 fine. Johnson was on trial in a case which occurred Dec. 20, 1957, in which Elson McNeese, former county sheriff, and L. H. Randolph, justice of the peace, testified they observed with binoculars Johnson going to a hog pen getting a couple of bottles. They told of going to the hog pen later and finding five pints of whiskey and two pints of vodka. The case had been appealed by Johnson's attorney, Billy Hall, but the Court of Criminal Appeals affirmed the conviction. A later case in which Johnson received a 9-month jail term and a \$750 fine is now on appeal.

Accident Victims Said Improved

The four persons injured in last Friday's accident near Anton were reported improved in condition Wednesday morning at the Medical Arts Hospital. Those injured were R. B. Baxter of Lubbock, L. B. Baxter and Doyle James of Littlefield and W. C. Crawford of Houston. The accident occurred at the intersection of U.S. Highway 84 and FM 537 near Anton.

DIETING GETS RESULTS—E. R. Chalmers, who has managed to reduce his weight from 556 to 477 pounds, demonstrates how dieting has trimmed his waistline. He used to be 86 inches around his tummy, now he measures only 74 inches. Chalmers credits the fast at Good Samaritan Rescue Mission in Corpus Christi, where he is now living, with helping him to slenderize his figure. He used to be in a circus, billed as the world's fattest clown. (AP PHOTO)

556 Pounds To 477

Ready To Slim Down? Don't Do It His Way

CORPUS CHRISTI (AP)—Need to lose about 12 inches around the waist? E. R. Chalmers did, but his method of dropping from 556 pounds to 477 and to a 74-inch waist is not recommended for many. "I've been sick and off my feet for the past few years," he said. Chalmers was known as Freddie the Clown when he was with the circus. Now he is a boarder at the Good Samaritan Rescue Mission. In the old days, as Freddie recounts it, a breakfast consisted of five dozen eggs. A dinner included five barbecued chickens, 3 1/2 dozen hot buns, a pound of butter, three pounds of salad and two gallons of milk. The mission fare is not so sumptuous, but Chalmers doesn't mind. "I had to cut down for financial and health reasons," he said. With a chuckle he said, however, that "Of course, if I had the money, I might spread it on 'em now and then." By losing 12 inches in his waist, his trousers show a great slack. But he keeps up with two belts stitched together. Freddie comes by his size naturally. His father was a circus clown with the Hagenback and Wallace Circus. He stood 7 feet 10 inches and weighed 504 pounds, Freddie says. His mother was wardrobe mistress for the show. Freddie was born in the circus in Grant County, Ind., in 1900. He was a circus helper until he was 9 and then became a clown. He says he was billed as "the world's youngest clown" until he grew and grew and grew, and then he was billed as "the world's fattest clown." In 1949 he became ill and spent nearly five years in hospitals. "I don't do much clowning any more," he said. "I just don't feel up to it. I work when I can find it, but nothing strenuous. No more tumbling acts or falling flat on my face. Occasionally I play for a birthday party or walk the streets with a sign." Freddie came to Corpus Christi two months ago, and then he came ill. Through special donations a room was rented for him.

Price Is Voted Best Speaker

Calvin Price was voted the best speaker and Wendell Tooley the best participant at the Toastmasters' dinner Tuesday night. Tooley served as toastmaster, Viggo Peterson was the topic-master, and Jack Christian the general evaluator. Speeches were made by Price, Rev. Rufus Young and W. W. Hall. The club decided to send representatives to the Toastmasters' dinner in Clovis next Monday night. County Officers' Salaries Kept At Same Rate As '58

County commissioners set salary schedules for county officers and approved bonds for several county officials in a regular meeting Saturday. Salary schedules remain the same as last year for all officers—the county judge, county clerk, district clerk, county attorney, sheriff, county treasurer, county tax assessor-collector and commissioners. In addition, commissioners approved budget requests for offices of the county attorney, county clerk and tax assessor-collector. Main changes in the requests were raises in the maximum salary for deputies in the county

clerk's and county tax assessor-collector's office. Maximum salary for these deputies is \$3,300 in 1959, although this does not mean that they will receive that figure. Maximum salary for them in 1958 was \$3,000. All deputies were re-appointed, as was Bobby G. Rogers, district court reporter. Commissioners also approved payment of \$119.56 as Lamb County's part in the salary of the district attorney's secretary. Bonds of \$1,000 each were approved for W. A. (Bill) Corzine, reelected two justice of the peace; G. W. Davis, precinct five justice of the peace; J. E. (Pete) Mitchell, assistant of precinct two and deputy sheriffs Bill Ford, V. L. Smith Jr., Emil Macha, Homer McLauri and V. L. Smith.

New Milk Firm, Cream O'Plains, Opens Here

A new milk company, Cream O'Plains, is now operating in Littlefield at 514 Phelps Avenue, next door to Wayne's Ice Cream Parlor. Manager is Paul Jensen who has been in this type business in Littlefield for the past 16 years. Jensen began his milk processing and dairy products experience many years ago in a country that is noted for dairy products, Denmark. He is known locally for many kinds of ice cream novelties and other various dairy products he has designed and produced through the years. Many area housewives have been buying Cream O'Plains milk from local grocers as it was produced in Hereford. There will be no change in the quality or price. The milk will continue to be bottled in gallon jugs. Only change will be in the cap design and wording which will now read "Cream O'Plains Dairy, Littlefield, Texas."

The accident on U.S. 84 resulted in a minor fire in one of the cars, but the blaze was doused quickly. Cars driven by Gus Chandler of Tulla and Harold E. Miller of Sudan collided. The mishap at 15th and Farwell involved cars driven by Dwayne Walker of Odessa and Ire Cummings of Littlefield. Three mishaps occurred Monday afternoon. One at Ripley and W. Delano involved a city-owned pickup driven by Leonard Trotter. The pickup struck a parked car owned by Bill Little. An accident at Phelps and U.S. 84 involved cars driven by David Hampton of Littlefield and Ed Greathouse of Portales, N.M. A Littlefield Butane truck and a General Telephone pickup collided on U.S. 84 near the West city limits Monday afternoon. Drivers were Kenneth Berg, of the phone company, and Freddy W. Parkman, of the Butane firm. Neither driver was injured.

Mr. Farmer..

Do you want to know the facts about fertilizer?

There appears to be considerable misunderstanding relative to what kind of fertilizer is best for your crop. Please find below some facts which may clear up two particular problems that are most prevalent. The two problems are explained in some detail. Be sure to study it closely.

Conventional Process (Caprock) Vs. so called "Water-Soluble" Process.

Some fertilizer dealers would like for you to believe that so called "Water - Soluble" fertilizers are the only fertilizers that will give you satisfactory results. If this is the truth, then about 85% of all the fertilizer sold in the U.S.A. is not satisfactory. Many field experiments have proven that the difference in yields from either process are not significant enough to mention. The answer to the problem is that the "plant foods" in both processes are utilized equally. To further clear the point, we are divulging trade secrets and showing you the formulation for "Caprock Process 16-20-0" as compared to the other process.

CAPROCK PROCESS FORMULA

16-20-0 TON BASIS

549 lbs. - 44.8% Nitrogen Solution

69% AMMONIUM NITRATE
26% ANHYDROUS AMMONIA
6% WATER

400 lbs. - 21% Ammonium Sulphate

21% NITROGEN
25% AMMONIA
23% AVAILABLE SULPHUR
31% VALUABLE TRACE ELEMENTS,
such as Manganese, Copper and Zinc.

580 lbs. - 46% Triple Super-phosphate
470 lbs. - 20% Super-phosphate
120 lbs. - Sulphuric Acid

SOURCES OF PHOSPHATE AND SULPHURIC ACID ARE LOADED WITH TRACE ELEMENTS NOT FOUND IN THE OTHER PROCESS.

OTHER PROCESS FORMULA

16-20-0 TON BASIS

16% Nitrogen
20% Phosphate

This is made by neutralizing a mixture of Phosphoric Acid and Sulphuric Acid with Ammonia. In short, this process contains the three basic plant food elements, Ammonia, Phosphoric Acid and Sulphuric Acid. Trace elements are found only in limited quantities.

Therefore, after studying the above formulations, we would like to quote from "Our Land and Its Care," published by the National Plant Food Institute, the following statements:

Secondary and Trace Elements

Until recent years little attention was given to the importance of the secondary and trace elements—calcium, magnesium, sulfur, boron manganese, copper, zinc, iron and molybdenum—in fertilizers. It was thought that most of our soils contained sufficient natural supplies. Also, commercial fertilizers supplied considerable quantities of these elements as impurities and carriers of the primary nutrients.

The development of more highly refined materials carrying more nitrogen, phosphorus and potassium has reduced the supplies of some secondary and trace elements in fertilizers. Also, with intensive cropping, greater emphasis on higher yields per acre, and with our soils becoming older and more depleted, the need for all essential elements becomes more pronounced.

It is now known that poor yields often are due to deficiencies of one or more of the secondary or trace elements. Therefore, for most profitable crop production more attention must be given to these nutrients.

CAPROCK 0-20-0 SUPER PHOSPHATE

VS.

LIQUID PHOSPHORIC ACID

THERE ARE SEVERAL DISTINCT ADVANTAGES IN USING 0-20-0 INSTEAD OF PHOSPHORIC ACID:

1. 0-20-0 contains lots of extra secondary plant food elements that are so very important for maximum yields.
2. 0-20-0 can be applied by several methods such as broadcast spreaders, Grain Drills or Chisel Applicators. Phosphoric Acid requires expensive Non-Corrosive equipment. This usually means you have to hire some one to apply this form of Phosphate at an additional expense.
3. This is of utmost importance. If you are applying 50 lbs. of available Phosphate per acre, you can save at least \$4.00 per acre using 0-20-0 instead of Phosphoric Acid. **THINK OF IT, \$4.00 PER ACRE SAVING!** Do not be misled, if you doubt these figures, Come in and visit with us at the Caprock Fertilizer Co. office.

Assuming "water soluble" fertilizers were completely available immediately reminds us of the following... "if you plan to feed a steer 2000 pounds of feed to prepare him for market, would you give him all the feed at once or a little each day?" Think about it.

WHOOSH!—A right by Paul Keeling, left, goes over the head of Plainview's Elias Bernel. Keeling won the bout.

IF I EVER GET OUT OF THIS CORNER . . . The eyes of Ronnie Belt of Lockney, left, seem to say that as Louis Putman of Littlefield pounds away. Putman won.

Slam-Bang Tournament Pleases Fans

Boxing fans in the Littlefield area made one thing clear last week:

They want more of the same.

For that reason, Littlefield Jaycees plan to turn their 1st Golden Gloves Tournament into an annual event.

The fans turned out lightly last Thursday night — the first night of the tournament.

The next day, the matches were the talk of the town.

The next night, the crowd doubled in size, filling a good part of the Sports Arena.

Members of the Jaycees believe the tournament will grow in popularity every year, especially if they can get more Littlefield boys interested in the art of fistieuffs.

Eight Littlefield fighters took part in this year's tournament — John Hayward, 80-pounder; Paul Keeling, 113; Larry Pierce, Gary Tolle, Tommy Montoya

and Dean North, 135-pounders; Randy Greer and Louis Putman, 147-pounders.

The combined won-loss record of these fighters was 8-7, if you count a bout which Putman had to forfeit.

Putman beat Ronnie Belt of Plainview and Greer to reach the finals of his division. But he and Greer put on such a slam-bang fight early Friday night that neither of them would have been in shape to

fight later that night, against Plainview's Manuel Gonzales. Fight officials forfeited the title to Gonzales.

Little John Hayward split his two matches, beating a Levelland boy in his first fight. He had to fight a second match that night and wound up losing it, to Keith Billington of Plainview, the eventual 80-pound champion.

Pierce scored a TKO over another Littlefield boy, North, then met Tolle in the finals.

Toile scored a pair of impressive TKO wins, beating both Montoya and Danny Meadows of Petersburg Thursday night.

Then Pierce won the 135-pound title with a decision over Tolle Friday night.

Keeling, although he was boxing the first match of his life and hadn't been training long enough to be in good shape, won his first bout. He beat a Plainview boy, but lost his second match on a TKO by a Lockney youth.

PIERCE, right, lands a right to the head of Gary Tolle in their all-Littlefield bout for the 135-pound championship. Pierce outpointed Tolle for the title.

MAN, I'M TIRED—That seems to be the word with Johnny Hayward of Littlefield, left, in his second fight Thursday night. He won his first, but lost his second bout.

CONTACT!—Both Randy Greer, left, and Louis Putman made contact in this exchange Friday night. The two Littlefield boxers dealt out plenty of punishment to each other.

BIM-BAM-BOOM!—Greer winced at this blow on the noggin and Putman kept pounding away to gain the decision. Putman was runner-up in the 147-pound division of the tournament.

WHIZ MA, I MISSED — Little Johnny Hayward looked up like this after missing a roundhouse right. He missed anyway.

Battle Of The Budget Seen As Congress' Biggest Fight

Many a no-holds-barred conflict is in prospect for the current Congress. None, it is safe to say, will produce more shot and shell than the pending battle of the budget.

Mr. Eisenhower stands back of a budget of approximately \$7.7 billions which, it is expected, would be equal or about equal to revenues, and might even produce a small surplus. But there are many dissenting voices in Congress, who regard this figure as totally inadequate, and believe that federal spending must be fixed at a much higher level, even though great deficits result.

The battle will not be fought out along straight party lines by any means. The Republican Party contains Senators and Representatives who favor much greater spending than the President is willing to accept. And, on the other side of the aisle, the President will have the support of economists within the Democratic Party. These consist principally of the Southern Conservatives, of which Senator Byrd is the leading spokesman on money matters.

"A comprehensive survey of the situation is provided by Albert Clark, writing in The Wall Street Journal. He says: 'There's no doubt that Mr. Eisenhower, as of now, fully intends to keep up his budget-cutting drive.' The budget issue, in his mind, is second only to that of war and peace.

Clark cites reports that the President intends to "dramatize" threatened spending rises in terms of inflation and taxes. Very few of us can visualize billions of dollars, much less relate them in any conclusive way to our comparatively small problems and affairs. So, the news goes, Mr. Eisenhower will spell out what government spending means to the average family in terms of higher taxes. Then, in Clark's words: "He will also attempt the politico-economic feat of making voters conscious of what higher spending might mean in higher prices at the corner grocery or at the clothing store."

What are the deans and credits the President faces in his campaign to hold spending down? On the credit side is something that even his strongest critics admit—that he, personally, commands a vast amount of public support and admiration. On the debit side, two facts are particularly obvious. Mr. Eisenhower is the first President to be legally barred from seeking re-election and this, some think, is a great weakness. Secondly, he must deal with the most heavily-weighted Democratic Congress in many years.

Also, Clark reports that the President's official family is not entirely agreed on policy. One top group, led by Mr. Nixon, has ideas of its own. Furthermore, "What Mr. Nixon has been—and probably will continue—trying to do is to develop a philosophy and stature in his own right that is independent of the President." It is, obviously, essential that Mr. Nixon do this in one way or another if he is to get the Republican nomination and have a fair chance to win in 1960. At any rate, Clark quotes an insider as remarking: "The President does not start the year with a united family."

We will soon see which way the coin falls. The certainty is that the President's position on fiscal matters has stiffened. He is no longer as willing to compromise as he used to be. And the explanation for this change is a compelling one. As Clark sees it: "He faced the prospect of leaving a record of increasing spending, mammoth deficits, rising Federal debt, inflation, higher taxes and possibly even wage and price controls."

One more point, also reported by Clark, is significant. It casts another light in the present Eisenhower position. An official summed it up thus: "I think he has decided that unless he holds the dilts, no one else is going to."

Grassroots Opinion

NORWALK, CONN., HOUR: "The largest union in the world, the Metal Workers Union of West Germany, has been ordered to pay employers for money lost when they went on strike. The highest court in the country held they violated an agreement forbidding either side to take 'militant measures' for five days after a breakdown of negotiations when they took a strike vote one day after. The damages may run to \$6,000,000 a per capita fine of \$3.40 each for the 1,760,000 members."

HOLBROOK, ARIZONA, TRIBUNE-NEWS: "If ever this state—or others—start leaning on federal aid for school purposes, it will do little good to attempt to teach the free enterprise system of life to pupils receiving their education under a socialistic program."

AUSTIN, Tex.—The first month's sugar, the second month's pie, the third month you can work. . . . And so can I."

This ancient bit of verse, written for newlyweds, might apply to the usual pace of legislative sessions, with short meetings and long weekends in the only months, followed by an around-the-clock grind. But this year lawmakers are being urged to cut short the honeymoon.

With committees appointed and put to work, Speaker Waggoner Carr urged House members to be "especially industrious" to save both time and money. Answers, he said, will "not be any easier to find next summer than this winter and spring."

Appropriations Committee responded by putting itself on a five days-a-week, eight hours-a-day schedule, aimed at having the big appropriations bill ready in 60 days. Ordinarily, other legislation is held back until appropriation decisions are made.

HOUSE COMMITTEES — After Carr defeated Rep. Joe Burkett Jr. of Kerrville for speaker, suspense centered on how Burkett supporters would fare in Carr's committee lists.

Outcome was that Carr men, naturally, received all choice posts and approximately 86 per cent of committee chairmanships. Of the 43 House committees, 37 are headed by Carr supporters, four by definite Burkett supporters and two by persons whose vote was not known.

Rep committees and their leaders are: Appropriations, W. S. Heatly of Palestine, chairman; John Huebner of Bay City, vice chairman; Revenue and Taxation, V. L. Ramsey of Beckville, chairman; Frates S. Seeligen of San Antonio, vice chairman; State Affairs, Richard Cory of Victoria, chairman; Max C. Smith of San Marcos, vice chairman; Oil and Gas, Wesley R. Sandhills Philosopher

He And Few Others Not For Flights To Outer Space

Editor's note: The Sandhills Philosopher on his job on a gas farm has a few remarks about space flight this week. Dear editor:

Not that I had planned on going myself, I've got things to do out here on this Johnsongrass farm, but I was reading yesterday about the requirements for the first man to take off for outer

space from the United States. In case you missed the case, let me tell you that I think I'd qualify and I'd like to be calling on Mr. Bill Turner.

In fact, right off, I'd like to call, at least in my immediate vicinity. For example, in the case of a man who is in a bad condition and in one count or the other, it's a lot of men

There are a lot of men who are not qualified to fly. I don't see how many of them can get to the point of not going to have time

When a man's five years in his work on his own doesn't have any business in it, in my case it's not necessary dependent on space to escape my obligations on this farm. I know how I'm on my own.

Besides, fast flight appealed to me much more than to leave town on the road the other day when I left Los Angeles at 8 a.m. and got to York on the East Coast moon by jet, thus, as a point of out, eating in Los Angeles and four-hundred-catchin' lunch in New York. Well, I've got the same ole out here on this farm. I don't see how many can eat lunch, but the moon is that out here you don't have to take the chair here is just as good as the ones they have planes, and at the end of hours you're at home saving 3,000 miles away also saved \$300.

Science is wonderful. People didn't know how to get to their own advantage. Yours faithfully, J. A.

THE WORLD'S MOST BEAUTIFULLY PROPORTIONED CARS

Here's how to comfort-test a Ford. Take six people—a daddy longlegs, a Mr. "five by five," any shape, any size. Put them in a Ford and watch what happens. First they can get in easier. Once inside, everyone (including the man in the middle) has a thickly padded seat for real comfort. There's more than enough room for legs, elbows, hips—and hats! Come in for a "people test!"

Ex Cat, Tech Star Named To All-Army Grid Squad

M. C. Northam, former Littlefield Wildcat and Texas Tech football star, recently was named to the honorable mention list on the 1958 Army Times All-Army football squad.

The Fort Lee, Va., halfback was picked in a poll of Army football coaches and sports editors.

Northam, a 5-9, 183-pounder scored 43 points while his team was winning only two of 10 games last year. He scored exactly half of the team's 14 touchdowns.

The hard-running Fort Lee star was a scoring threat whether running inside or outside opponents' lines, but his most sensational touchdowns resulted from his passing ability.

He sparked both Fort Lee victories last season. He scored twice on runs of five and three yards in Lee's trouncing of Dover, Del., Air Force Base. He again picked up a pair of touchdowns as the Fort Lee team defeated Fort Bragg, N.C., 24-20—one on a 25 yard pass reception.

He scored both touchdowns in Lee's 26-12 loss to Fort Dix, on pass receptions of 67 and 55 yards.

Charles Trull Serving At Santa Ana, Calif.

Marine Pvt. Charles D. Trull, son of Mr. and Mrs. C. C. Trull of Route 2, Littlefield, is serving with the Third Marine Aircraft Wing at the El Toro Marine Corps Air Station, Santa Ana, Calif.

In Lee's loss to Fort Meade, he scored his team's only touchdown on an 88-yard scoring pass.

Northam will be discharged from service on March 13 and he plans to marry Anne Barnes of Petersburg, Va., on March 14.

He will continue his college work at Richmond University, Richmond, Va., and then hopes to return to Texas to coach.

L. M. Stone Completes Course

Second Lt. Leland M. Stone, son of Leland E. Stone, 201 E. 2th, Littlefield, completed the 12 week military orientation course Jan. 23 under the Reserve Force Medical Center, Fort Sam Houston program at Brooke Army Hospital, Texas.

A newly-commissioned medical service officer, Lieutenant Stone received training in pharmacy supply, sanitary engineering, optometry, podiatry and medical administration.

The 22-year-old officer was graduated from Littlefield High School in 1954, from Texas Tech in 1958 and is a member of Kappa Sigma fraternity.

Stone, son of Mrs. Ophelia Stone, 701 E. 12, was employed by the Methodist Hospital, Lubbock, before going on active duty.

ROBERT S. BURKS and Secretary Judy Hendrix (left) sign up three Littlefield students who are entering South Plains College in Levelland for the first time this semester. From left, the students are Kenneth Hoult, Harry Miller and Cecil Johnson, all of whom attended Texas Tech last semester and are transferring to the Levelland Junior college. Registration at South Plains will continue through Feb. 9 in both the day and evening schools.

GOES AND GOES AND GOES ON A GALLON!

Biscayne 4-Door Sedan shows the Fisher Body beauty of Chevrolet's lowest priced series for '59.

CHEVY'S NEW HI-THRIFT 6

More miles are back in a gallon of regular-grade gas—up to 10% more—and Chevy's new Hi-Thrift 6 engine puts them there. It also gives you more "git" in the speeds you drive the most.

Here's an engine that always seems able to coax extra miles out of a tank of regular-grade gas. In fact, if you're one of those drivers who keep tab on things like gas mileage, you'll soon see for yourself that this new Hi-Thrift 6 gets up to 10% more miles a gallon.

Another thing you'll like about this 135-h.p. 6 is the

extra pep it gives you for passing and climbing hills. This is due to higher torque at normal speeds.

It may be hard to believe anything that looks and moves like this '59 Chevy can be such a stickler for economy. But—whether you pick the Hi-Thrift 6 or a vim-packed V8—this is just one more reason Chevy's the car that's wanted for all its worth. Stop by your dealer's and see.

The smart switch is to the '59 Chevy!

now—see the wider selection of models at your local authorized Chevrolet dealer's!

Drivers Reminded Of Dead For Inspection Of Vehicle

The Motor Vehicle Inspection Service of The Texas Department of Public Safety issued a reminder this week that registered motor vehicles in Texas must be inspected prior to April 15.

This announcement by Captain Alan Johnson stated that only 19 per cent of the vehicles in Region 5 have been inspected. Region 5 consists of 60 west and northwest counties.

"Many vehicles are operating on the highways with defective equipment, including a large number with only one headlamp," made a vehicle hazardous in addition to being inviolable law." He further pointed out that vehicles should be inspected in an effort to avoid a rush.

A check revealed that some 428,000 registered vehicles in this region. Following a 13 deadline, Johnson said drivers will be subject to a fine of \$1.00 to \$200.00 if a motor vehicle without inspection sticker attached to it is licensed.

Captain Johnson said that all licensed trailers gross weight exceeding 6,000 pounds, are required to be inspected.

HOW BOUT THAT

Which GI Insurance Groups To Get Dividends Identified

Veterans Administration this week identified the groups of GI insurance policyholders who will and who will not share in the recently announced regular annual dividends of \$256,000,000 for 1959.

The agency said an estimated 5,335,000 GI policyholders will and 937,000 will not participate in the dividends.

Included in the 5,235,000 participating policyholders are:

- About 450,000 holders of National Service Life Insurance (NSLI), which originated during World War II and has the letter "V" preceding the policy number.
- About 285,000 holders of U.S. Government Life Insurance (USGLI), which originated during World War I and has the letter "K" preceding the policy number.
- About 716,000 Korean and post-Korean conflict veterans who hold special non-participating NSLI policies identifiable by the letters "RS", "W", or "RH" preceding the policy number.
- About 150,000 servicemen who, prior to January 1, 1957, placed their "V" or "K" policies under in-service waiver of premium payments and who have not rescinded such waivers. The law provides that as long as a GI policy is under in-service waiver of premium payments, it does not participate in any dividends for which it might otherwise be eligible.
- About 7,000 veteran special non-participating insurance because of incurred during World War I. These policies, which applied for prior to 1950, are identifiable by the letter "H" preceding the number.
