

Calvin G. Lippard Gets Bronze Star

SOMEWHERE IN THE PACIFIC
Lippard, displaying unusual cool-
ness under heavy enemy fire as a for-
ward artillery observer and as a vol-
unteer runner during crucial phases
of the battles for Iwo Jima, Marine
Private Calvin G. Lippard, 21, of Lit-
tlefield, Texas, earned the Bronze Star
and the award was presented to him
recently in formal decoration
ceremonies here.

Lippard, the son of Mr. and Mrs. J.
Lippard, Littlefield, received the
award from Colonel Robert H. Pepper,
commanding officer of Camp Artillery,
Fifth Amphibious Corps.

The citation presented to him in
the name of the President of the
United States, reads: "For meri-
tous achievement in connection with
operations against the enemy while
acting as scout sergeant of a Provi-
sional Artillery Group attached to the
Fifth Amphibious Corps Landing
Force on Iwo Jima, Volcano Islands,
February 20 to March 14, 1945.
Private Lippard, while performing
his duties and when communi-
cations to his post were disrupted by
enemy artillery and mortar
volleys, volunteered as a runner, and ex-
posed himself to enemy shellfire, car-
rying messages until communications
were restored. As a member of a for-
ward observer party, he displayed un-
usual coolness in the face of intense
enemy small arms and mortar fire,
keeping down accurate artillery fire
on the enemy. His conduct was a con-
tribution of the same high standard
of service performed by him in the
Iwo Jima campaigns. His actions were
in keeping with the highest traditions
of the United States Naval Service."

Cecil L. Holley Decorated For Outstanding Service

PVT. CECIL L. HOLLEY

Cecil L. Holley, son of Mr. and
Mrs. Sam Holley of Hart Camp com-
munity, has been awarded the Bronze
Star for outstanding service in the
Pacific. He has been in the
service nearly two years and over-
seas a year. His wife makes her home
in Littlefield.

The citation received by Mrs. Hol-
ley Wednesday states that her hus-
band was awarded the Bronze Star
for heroic achievement in connection
with military operations against the
enemy at Okinawa Shima, Nansai Shou
on April 19 and 27, 1945. When
the Holley's platoon was directed
to a fifteen man combat patrol,
volunteered for the mission. Dur-
ing the program of the patrol, it re-
sulted in heavy machine gun fire on its
left. With disregard for his own
safety, Pvt. Holley advanced towards
the machine gun and with rifle fire
grenades, destroyed the enemy
position and killed two Japs. This al-
lowed the patrol to move forward and
complete its mission. On another oc-
casion, when his platoon was assault-
ing a hill which was holding up the
advance, Pvt. Holley took a Bar after
he had been wiped out and mov-
ing forward, placing fire on the en-
emy gun position that had the whole
platoon pinned down. Upon noticing
three men of his platoon were
wounded, he rendered first aid until
a man could be called to the scene
of action. He placed the men
under the best possible cover and
helped the fitter bearers to them.
Holley made the evacuation pos-
sible by firing on the enemy from an
exposed position."

VICTORY AND PEACE AFTER OVER THREE YEARS OF WAR

Churches Plan To Hold Special Services Sunday

Business Concerns
Remained Closed
Throughout Wednesday

Announcement of Japan's surren-
der Tuesday evening was received
by the residents of Littlefield and
area with great rejoicing. The
sounding of the fire siren and blow-
ing of automobile horns, shouting
and shrieks by individuals, all con-
tributed to the celebration here for
joy felt by the residents for peace
once more. It was late Tuesday
night when the noises died down.

As a preventative against acci-
dents etc., The Lubbock Air Field
sent three members of the Military
Police to Littlefield, who patrolled
the streets, but no accidents have
been reported.

In observation of peace all busi-
ness concerns remained closed
throughout Wednesday.

Plans are being made for thank-
sgiving services at the various
churches.

The Methodist Church will ob-
serve peace with special thanksgiving
services Sunday morning and even-
ing; the Presbyterian church will
conduct a special thanksgiving ser-
vice Sunday morning. It is expected
that other churches of the city will
do likewise, but it was not possible
to contact them.

A special thanksgiving Mass was
held at the Sacred Heart church at
8 A. M. Wednesday, with Rev. F. M.
Higgins as the celebrant. All mem-
bers of the Parish attended, many
people attending from as far south
as Leveland.

Jaquess received a 15 day furlough,
and is endeavoring to get an extension
of his furlough, so that he may stay
here until his brother arrives, other-
wise he would have to leave here Mon-
day of this week. Mrs. Cowan is a
sister of Mr. L. W. Jaquess, and Mr.
Cowan is a brother of Mrs. L. W. Ja-
quess. The group, with Mr. and Mrs.
L. W. Jaquess were in Littlefield Sat-
urday visiting their daughter and sis-

ment houses have little room to com-
plain.

DFC Awarded to James Yarbrough

AN ADVANCED CHINA AIR BASE
The award of the Distinguished Fly-
ing Cross to Cpl. James G. Yarbrough,
son of Mr. and Mrs. Gilbert Yarbrough,
formerly of Littlefield, but now of
California, has been announced by
Headquarters, Fourteenth Air Force
in China. Cpl. Yarbrough is a radio
operator on a C-47, transport type air-
craft. The citation awarding the Dis-
tinguished Flying Cross to Cpl. Yar-
brough, signed by Maj. Gen. C. L.
Chennault, reads in part: "... for
extraordinary achievement in aerial
flight. They delivered supplies and
personnel to remote units that were
inaccessible by land routes. In order
to do so, they often flew near battle
zones or over enemy territory where
fire from enemy ground installations
and attacks from the air, were a con-
stant threat to their unarmed, heavily
laden transport planes. In carrying
out their missions, they frequently
flew through adverse weather over rug-
ged, poorly mapped terrain. Their
accomplishments reflect great credit
upon themselves and upon the Army
Air Forces."

In addition to the Distinguished
Flying Cross, Cpl. Yarbrough has also
been awarded the Air Medal for partici-
pation in the aerial supply of front
line Chinese troops.

Cpl. Yarbrough is a graduate of Lit-
tlefield High School, Littlefield, Texas,
where he was active in football and
track. He enlisted in the Air Corps
in February, 1943, and came overseas
in November, 1944. He was promoted

1945.

Japan Surrenders Unconditionally; Fighting Suspended

V-J Day be Announced
Following Formal
Capitulation of Japan

The Japanese surrender with vic-
tory and peace at last after almost
four years of war, was announced
Tuesday night at 6 o'clock by Presi-
dent Truman, and Japan has
shrunk from a world power, bent
upon ruling all Asia, to the state
of a fifth rate nation.

Japan surrendered uncondi-
tionally, and history's most destructive
war is over except for formalities.
Arrangements must still be com-
pleted for the signing of for-
mal surrender terms. Gen. Douglas
MacArthur has been appointed
Supreme Allied Commander to
receive the surrender, following
which V-J Day will be proclaimed.

President Truman in his address
to the nation stated that he had
ordered the Japanese government
to stop the war on all fronts and
that the Allied armed forces had
been ordered to suspend offensive
action.

Through Secretary of State Byr-
nes and the Swiss Legation, Mr.
Truman did the dictating.
He decreed that the Japanese gov-
ernment:

1. "Direct prompt cessation of
hostilities by Japanese forces.
2. Notify MacArthur of the effec-
tive date and hour of cessation and
send emissaries to the general to
arrange formal surrender.

In addition, he announced plans
for slashing Army draft calls from
80,000 to 50,000 a month and fore-
cast the return of 5,000,000 to 5-
5,000,000 soldiers to civilian life
within 12 to 18 months.

As the great news became known,
hundreds of Washingtonians raced to
the White House to join hun-
dreds already massed around the
grounds.

Mr. Truman, accompanied by his
wife, walked out on the porch and
stepped up to a hastily erected
microphone. He waved and smiled.
Then he spoke:

"Ladies and gentlemen, this is the
great day. This is the day we have
been looking for since December 7,
1941.

"This is the day when Fascism and
police government ceases in the
world.

"This is the day for the democ-
racies.

"This is the day when we can
start on our real task of implemen-
tation of free government in the
world.

"We are faced with the greatest
task we have ever been faced with.
The emergency is as great as it was
on December 7, 1941.

"It is going to take the help
of all of us to do it. I know we are
going to do it.

For millions of Americans, for
hundreds of millions of Allied people
his surrender announcement signi-
fied victory, peace and the eventual
return of loved ones from war. To
millions who sleep beneath stark
white crosses, it meant their sacri-
fices had not been in vain.

For Japan, as for already van-
quished Germany it meant the end
of savage conquest and aggression,
dismemberment of an empire won
by blood-spilling, disarmament and
occupation.

Those were the terms of the
Allied Declaration of Potsdam, de-
creeing unconditional surrender, to
which Japan acceded.

Once the Japanese sphere had
stretched from Attu to Timor and
Java and India. Once Japan kept
half a billion people enslaved under

Mr. and Mrs. Bob Smith of this city,
has been awarded the Navy Unit Com-
mendation Campaign ribbon, as an-
nounced in a letter received by Mrs.
Granville D. Smith from C. E. Braine,
Commander, U. S. Navy, Commanding
officer, dated August 4, as follows:

"It is a pleasure to tell you that
your husband, Granville Dewey Smith,
Seaman first class, U. S. N., has been
awarded the Navy Unit Commenda-
tion campaign ribbon for his services
as a crew member of the USS Helena.

"The Navy Unit Commendation was
awarded the cruiser Helena for the
outstanding heroism of her personnel
in action against the enemy Japanese
forces afloat in the Solomon Islands
and New Georgia area on October 11
and 12, 1942; November 12 and 13,
1942; and on July 5, 1943.

"The award, authorized by the Navy
Department, was presented to your
husband personally before the assem-
bled officers and men of this com-
mand at a formal ceremony, and has
been made a part of his official record.

"In winning this recognition, your
husband displayed great bravery, and,
to our country at war, rendered a
distinct service in which his family
and friends may well take a just pride.

Very sincerely yours,
C. E. Braine,
Commander, U. S. Navy
Commanding Officer."

**Navy Men To Get
30 Days Leave**

DALLAS, TEX., JULY 31—Commanding officers of ships and stations outside the continental limits are permitted to grant leave of 30 days in the United States to officers and men of the navy who have not been in the United States for 24 months, as a result of instructions just issued by the Secretary of the Navy.

Whether or not leaves are granted will depend upon the personnel needs of the individual ship or station. Granting of leaves is solely within the discretion of commanding officers. The degree to which this policy may be carried out will depend upon whether or not eligible personnel may be spared from their duties.

The instructions stipulate that the number of personnel absent on leave from any ship or station at any one time shall not exceed five percent of total personnel and that replacements for men on leave will not be furnished.

Travel time will be allowed in addition to the thirty days of leave.

It is estimated that between 8,000 and 12,000 officers and men may receive leaves monthly as the result of this policy.

Criminal Week Set For Aug. 27

When the grand jury met recently, J. C. Richards was indicted on charges of alleged burglary. Criminal week has been set for Monday, August 27, according to Sheriff Sam Hutson, who added that there had been several divorces granted the past several days, and that there would probably be a number of civil suits decided without a jury.

**BERTON PHILLIPS
DISCHARGE**

NEW ORLEANS, La. — The Navy Department has announced that Wilberton Phillips, age 20, son of Mrs. Millard Phillips, of Littlefield, had received his honorable discharge. He enlisted in the Navy in 1943, and has served at sea with the Armed Guard for eleven months.

"I moved around a lot," said Phillips, "carrying supplies from the various outposts in the South Sea, but we didn't see much actual fighting. Once, when we were going to Cook Straights, off New Guinea, I spotted a submarine on the surface. We opened up with the gun but there is no way we could hit it whether we got him or not. It left our convoy and didn't hang around where there was a chance of being hit."

Phillips is the husband of Mrs. Bula Starr Phillips of Littlefield, Phillips was employed as a shoe clerk in Cobb's Department Store before he enlisted in the Navy.

Phillips is going to work on Dad's farm

**How women and girls
may get wanted relief
from functional periodic pain**

Cardul is a liquid medicine which many women say has brought relief from the cramp-like agony and nervous strain of functional periodic distress. Here's how it may help:

- 1 Taken like a tonic, it should stimulate appetite, aid digestion,* thus help build resistance for the "time" to come.
- 2 Started 3 days before "your time", it should help relieve pain due to purely functional periodic causes.

Try Cardul. If it helps, you'll be glad you did.

Issues Statement On Canadian Meat

In response to numerous inquiries recently as to why meat cannot be imported into the United States from Canada the U. S. Department of Agriculture today issued the following statement:

"Canada has made commitments to ship its exportable surplus of meat to the United Kingdom and to liberated areas. Most of the meat shipped to the United Kingdom is supplied under the Mutual Aid (free contribution) program and most of

that shipped to liberated areas is a part of Canada's contribution to UNRRA.

"The Canadian export commitment to the United Kingdom is a minimum of 500,000,000 pounds annually (about 20 percent of Canada's total estimated production in 1945). However, efforts are being made, as in 1944, to exceed this figure substantially, although hog production is down about 35 percent from last year. The Canadians have already this year shipped to the United Kingdom slightly more meat than the United States. This availability to the United Kingdom from Canada entered into the decision to allocate no United States meat to the United Kingdom for the July-September quarter of 1945.

"It is estimated that in addition to the foregoing the shipments by Canada to liberated areas in 1945 may reach about 110,000,000 pounds as canned meat. Canada also is continuing to assume the responsibility of providing meat for certain areas, such as Newfoundland, and British West Indies. Altogether, exports may be 30 to 35 percent of this year's total meat production in Canada.

"To obtain meat for export and to restrict domestic consumption, Canada utilizes a system of Government requisitioning at inspected packing plants. This is similar to the set-aside system employed in the United States to procure supplies for lend-lease and the military services. Slaughter plants in Canada are required to reserve for overseas delivery all Grade A hogs everywhere, all Grade B hogs in western Canada and 65 percent of Grade B hogs in Ontario and other eastern provinces. These two grades comprise the bulk of the hog marketing.

"Canadian consumption of meat is at a lower per capita rate than last year and canned meat has been withdrawn from civilian consumption except for certain priority users. Per capita consumption of meat in Canada this year is expected to be about 10 pounds higher than in the United States.

"To import meat into the United States an export license must be

obtained from the Canadian Government and no permits for export to the United States are being issued at the present time. Some meat from Canada, however, is being furnished to the U. S. military forces.

"In addition to its contribution of meat, Canada has made available to the United Kingdom and the British armed forces substantial amounts of dairy products. Almost 75 percent of all the cheese produced in Canada is now being sent to the British, also under Mutual Aid. Civilian consumption of butter in Canada is considerably higher than in the United States but butter has always made up a considerably larger proportion of Canadian fats and oil supplies than is true in the United States, and consumption of other fats and oils is lower in Canada than here.

"Canada now rations butter, sugar, canned fruits, preserves and evaporated milk. While consumption of some foods such as meats is a little higher in Canada than in the United States, consumption of other foods, particularly sugar and canned fruits is lower.

"From 20,000,000 to 30,000,000 pounds of poultry are being furnished this year to the war services

of the United States by Canada. Poultry may be imported from Canada by private importers in the United States by obtaining an export license from Canada and an import license from the United States."

Perhaps more people get out from avoiding hard work than come bent from too much of it.

FLIES TRANSMIT DISEASE TO CATTLE

Austin, Tex., Special: Farmers were given another reason for a war on flies this summer in a report issued today by livestock health authorities.

Flies, the report states, have been found to be carriers of the deadly cattle disease, anaplasmosis, which is causing heavy cattle losses in a number of Western states.

"Recent tests show that horse flies which suck the blood of cattle carrying this disease, can readily transmit it to healthy cattle," says the report released here today by the American Foundation for Animal Health. "Anaplasmosis is caused by a minute parasite which attacks the blood cells of cattle, causing severe anemia. Cattle which contract the disease remain carriers, and during the horsefly and hornfly season such 'carrier' animals can endanger all healthy cattle in the locality. Persons not familiar with proper sanitary and disinfection practices in vaccinating may also spread the disease. There is no known cure, so rigid preventive measures are doubly important. A vigorous campaign against biting flies at this time should be especially helpful."

SUFFERS BREAKDOWN

C. C. Sanders of Bula, suffered a nervous breakdown, and is a patient at the Payne-Shotwell Hospital, Mr. Sander's son, Pvt. James L. Sanders, who is stationed at a medical detachment station hospital at Camp Fannin, Texas, was notified of his father's condition. It is hoped he may be granted a furlough.

SAFEGUARDING THE EYES OF TEXAS

What are the causes of faulty vision?

There is no simple answer to that question, because the eye is one of the most complicated and delicate organs in the body. To find the true cause of faulty vision in any particular case, and to correct it safely, are tasks requiring long professional training and skill. That's why it's foolish and risky to assume that all you need to do, if your vision is defective, is to "buy a pair of glasses." Glasses alone, without the professional services and technical skill of a properly qualified person, cannot improve your eye comfort and visual efficiency. Don't risk your precious eyesight on a bargain counter. Seek professional advice, not glasses at a bargain counter.

The new Ford building will be located across the street from the City Hall, on lots purchased recently from A. F. Bell and Mrs. A. P. Luzzan.

Mr. Hall stated in an interview Monday that he and his family would be glad to be back in Littlefield; that during his army life he had met people from various sections of the country, but that he enjoyed living and working with the people of this area better than any other, and it was his desire to return here and re-establish his office Agency.

Mr. Hall stated Monday that he

Mr. Hall announced Wednesday that he had leased the Littlefield Hotel building for a temporary location from Luther Wood, which will house the Hall Motor Company until the new building is erected and ready for occupancy, which is expected about January 1.

The Hall Motor Company will open temporarily in the Littlefield Hotel building September 1 with a complete stock of genuine Ford parts. For the United States, the price of victory in World War II was more than a million casualties, an expenditure of some \$350,000,000.

To the Farm Homes of This Area

Just Completed

A Rural Electric Project, including a number of short lines, aggregating 110 miles, has just been completed, supplying 200 additional farm homes with electricity.

PROJECT COVERING 120 MILES APPROVED—

The Rural Electrification Administration of St. Louis, Mo., last week approved a second project covering 120 miles to take care of about 240 new members over a scattered area of north part of Hockley County, all over Lamb County, and along the west line of Hale County, and east line of Cochran County. Maps plans and lists, were prepared and members secured on this project before the war, and work is getting underway at once.

THIRD PROJECT TO BE PRESENTED—

Carrying out their usual progressive program the local organization is also working on a third proposition to present a 200 mile additional project to the Rural Electrification Administration at St. Louis, and will have their application ready to submit in a short time.

We view with pride the progress that has been made in helping to modernize the farm homes in this section. The system which had only 351 members at the end of the first month of operation, after the lines were energized on May 15, 1939, now furnishes electric service to 1427 consumers along 525 miles of distribution lines in Lamb, Hockley, Bailey, Hale and Cochran Counties.
