AMERICAN BISON, OR BUFFALOES, ONCE ROAMED THE COUNTRY IN HERDS... NUMBERING ABOUT 60,000,000 HEAD... AND WERE AMERICA'S MOST IMPORTANT BIG GAME

The **BUFFALO** IS A MORE DANGEROUS ANIMAL THAN THE GRIZZLY BEAR, OR ANY OTHER ANIMAL OF MODERN AMERICA! ASIDE FROM MAN, WOLVES WERE ABOUT THE ONLY ENEMY IT NEEDED TO FEAR.

THEN CAME THE WHITE MAN, WHO SLAUGHTERED THEM SO WASTEFULLY THAT BY 1895 ONLY 800 WERE LEFT ALIVE ON EARTH

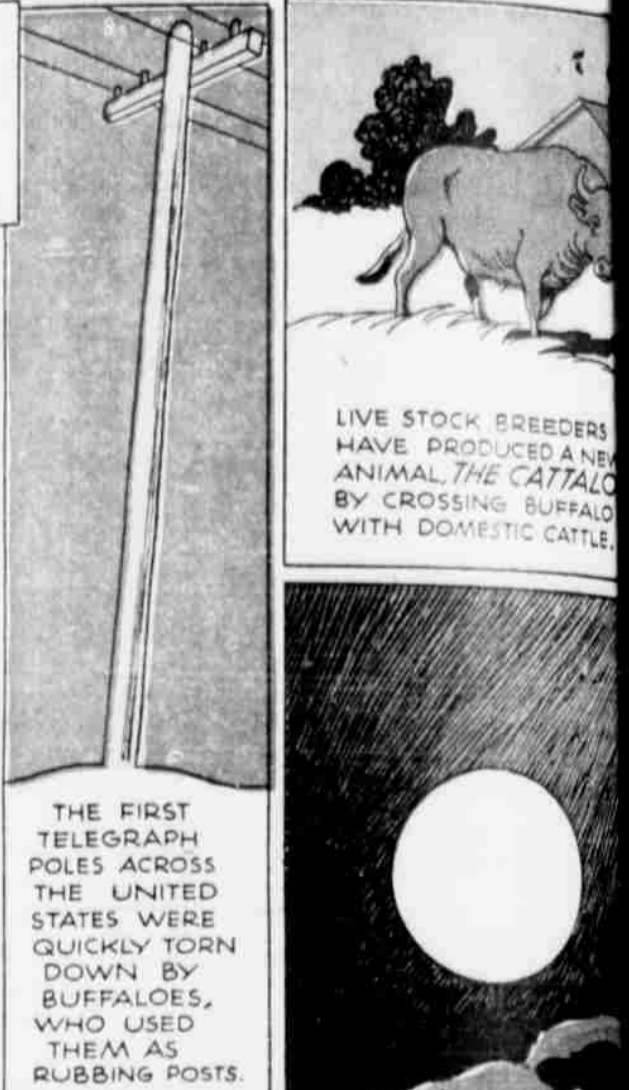

THE INDIANS TRIED TO SAVE THE HERDS BY KEEPING THEM PARTIALLY SURROUNDED, IN MONTANA AND WESTERN NORTH DAKOTA. AFTER THE BATTLE OF THE LITTLE BIGHORN, THE INDIANS GAVE UP THE JOB AND LET THE RUTHLESS SLAUGHTER GO ON.

WOLVES COULD ATTACK SUCCESSFULLY ONLY WHEN HUNTING IN PACKS.

LIVE STOCK BREEDERS HAVE PRODUCED A NEW ANIMAL, THE **CATTALO** BY CROSSING BUFFALO WITH DOMESTIC CATTLE.

THE FIRST TELEGRAPH POLES ACROSS THE UNITED STATES WERE QUICKLY TORN DOWN BY BUFFALOES, WHO USED THEM AS RUBBING POSTS.

Is Standing 30 Feet In Water; May Be Good for 600 Gallons Per Minute

Work is now underway on the first test well under the new water works extension plan, which is being drilled on the south side of the farm of Leslie B. Davis, 3-4th of a mile east of present water plant.

According to W. G. Street, City Secretary, present indications are that it is going to be an excellent well. The driller is now down 108 feet, and has gone through 30 feet of water bearing sand.

"The well ought to be good for five or six hundred gallons per minute, and maybe better.

"The water found looks very encouraging. If this well is as good as we think it is, we won't need to drill any more wells, as that will be enough to supply the city," said Mr. Street.

John Cary is doing the drilling. The transcript of the Waterworks improvement plan has been completed and sent to Washington for approval, and upon approval, the bonds will be printed and issued.

H. N. Roberts, Engineer in charge is working on the plans, which will be completed shortly after the city has definitely located the source of supply.

According to the city Secretary, the city let a contract Wednesday to L. C. Kurtz to repair a leak in the water tower and to repaint it.

In this connection Mr. Street said: "If during the next week the citizens find the water turned off, they should not be alarmed, as it will only be for a few minutes. This work will require about a week, and it will necessitate the turning off of the water at intervals for a few minutes at a time."

G. A. Dunn, Jr. to Occupy Regular Pulpit Sunday

Knowing it will be of interest to the members of Bro. G. A. Dunn's Church, the Leader is publishing as follows, letter received Tuesday from Mr. Dunn from New York City:

"I am expecting to leave here Wednesday evening or Thursday morning for Littlefield to be there for Sunday services. Enclosed you will find our regular church notice, which I am sending you by air mail that you may get it in time for publication in this week's Lamb County Leader.

"After more than three months of evangelistic work, which ended with a meeting in West Virginia last week, I shall be glad to return to regular work with the church there. This will begin my second year with that church."

The deal was consummated Saturday last, whereby Mr. and Mrs. O. B. McLarron of San Antonio purchased two ten acre tracts of land in College Heights Addition from J. T. Elms of this city.

Eddie Botsford Visits Old Friend; Spends Day at Fair With Tom Mix

E. M. Botsford spent last Tuesday at the South Plains fair visiting with his old friend Tom Mix and seeing Sam Dill's Circus and the Tom Mix Wild West Show.

"Eddie", as he is known among show people, reports that he had a wonderful time; in fact, talking with his old friend Tom and several of the riders in the Wild West Show, also old friends almost got the best of him; he sort of felt that he would like to be back again under the big top.

But that's to be expected; Eddie spent many, many years in the show business. He was arena

director for the 101 Ranch Show and also was connected with several other similar shows.

Eddie looked over Tony, Tom's famous horse, and he also looked over Tony, Jr. He reports that Tony, Jr., is showing real class, and that he has plenty of intelligence.

We Do Our Part

TEAM PLAY

One of the outstanding indications of a progressive growing city — one in which the people really do things — a city in which it is a joy to live — is a city in which the people take an immense interest in sports.

A city which is sport-minded can put over undertakings that other cities would not even think of tackling.

Littlefield, we have been pleased to observe, is becoming immensely sport-minded.

The team work which is necessary on the diamond and on the football field is spreading to our activities in civic affairs. The people of this city are pulling together better today than they have for a long time.

And we believe that this enlarged spirit of team play, comradeship and good will, has been brought about to a large extent by the schedule of soft ball games which recently closed. Men cannot meet on the diamond as team members or as members of opposing teams without becoming much better acquainted — without greater friendships being developed. And these friendships spread into their every day life, with the result that they make their city a better place in which to live, work, and carry on business.

The same spirit of team play which existed on the diamond has been carried into the program for supporting the football team. And as time goes on the team spirit of the people of this city will build a better football team — a better city.

We should never lose sight of the fact that there is not anything which exceeds team play in value to our city.

EIGHT YEARS AGO IN LITTLEFIELD

(Excerpts from Lamb Co. Leader)

R. T. Green last week bought the John Estes farm of 177 acres, a few miles north of Littlefield. He will move his family here from Oklahoma making this his future home.

Mrs. C. E. Strawn of Littlefield, who was taken to a Lubbock sanitarium last week and operated on for a ruptured appendix is reported doing nicely.

The new gin at the Yellow House Switch being put in by D. G. Hobbs is being finished this week.

That A. S. Underwood, manager of the cotton compress now being built in Littlefield is favorably impressed with Littlefield territory, is further emphasized by the fact that he is now negotiating with a large land holder of this section for the rental of 1500 acres which will all be planted in cotton the coming year.

Mr. and Mrs. Roy Bennett are the parents of a fine boy, born last Friday afternoon at the home of her parents, Mr. and Mrs. C. W. Phillips. Roy Sr. plans great things and much notoriety for his son, he therefore, named him "Roy Lindy."

Joe Harpool of Ranger is this week hauling out lumber for a four room house to be built on his farm southeast of Littlefield.

Little Muriel Alfred Goen, aged four of Anton, died at the Simpson Sanitarium last Friday afternoon. He was buried at Anton Saturday afternoon.

Good printing will aid your business. Let the Leader take care of printing needs.

John Deere Tractor Field Demonstration

TRACTOR FLEET IS COMING FOR DEMONSTRATION

FARMERS INVITED TO SEE MACHINES AT WORK

Quick, easy and low-cost power farming will be fully demonstrated and explained to farmers of this vicinity at a big field event to be conducted by the J. T. Harris Implement Co., local farm equipment dealers, with the assistance of John Deere representatives. Their tractor demonstration fleet is now headed this way.

Invitations are going out to farmers and their sons to see the new John Deere Model A General Purpose Tractor at work in the field. Practical tractor men will be on hand to explain every point of its operation on various farm-power jobs. One of the tractors will be equipped with rubber tires; the other, with steel wheels.

This field demonstration of new tractors and new tractor-drawn

equipment will be held at 1 p. m. Thursday, October 11, opposite Lowrimore & Irvin Gin, Littlefield.

Much interest has been displayed here and elsewhere in this new John Deere Tractor.

"We invite every farmer and every farmer's boy to attend this instructive demonstration," says the J. T. Harris Implement Company. "All the special features farmers have been wanting are to be found in the new John Deere Model A, including adjustable rear-wheel tread, unobstructed view of work from the tractor seat, steering ease, platform on which the operator can stand erect and four speeds forward.

"In plowing, the new tractor pulls two bottoms. The heavy-duty, two-cylinder motor insures economy, efficiency and simplicity. John Deere engineers have stressed lightness of weight in combination with structural strength and ample power delivered at the drawbar or on the belt. Like all John Deere Tractors, the new Model A burns distillate, fuel oil, the better grades of furnace oil and similar low-cost fuels, as well as kerosene or gasoline."

In command of a tractor expert, the John Deere demonstration fleet is cruising about the Southwest in the interest of power farming. It consists of a large truck and a four-wheeled trailer, besides the cars carrying the additional John Deere representatives.

Two tractors are carried aboard. The tractor-drawn equipment includes a two-row, power-lift lister, a two-row, power-lift cultivator, a two-row, power-lift listed corn cultivator and a two-bottom, fourteen-inch tractor plow.

A welcome awaits you in all our services.

METHODIST CHURCH J. W. HENDRIX, Pastor

It is but proper for us to here mention the fact that all of us in this Revival deeply appreciate all who have taken part. We are soured in our conviction that the future hope of Christianity lies in co-operation. Our fathers in their day of rugged individualism were able to succeed with an idea of Christianity which manifested itself in that self same spirit. But that day has past. The world has gotten together, organized and Churches will get together on the great moral questions and in our efforts to overcome the world, the flesh and the Devil or the way of the Churches is very dark. We have no apology for our efforts in the line.

The pastor will be in his pulpit Sunday at the morning hour, and in evening all of us will be together in the Revival service at the Baptist auditorium. The pastor will speak at 11 a. m. upon this subject, "IN THE RED SPIRITUALLY." We hear so much about "being in the red," it might not be out of order to mention being in the red in another line.

The Church school opens at 9:45 a. m. sharp. We rejoiced deeply over the increased number in attendance. Let's make it even larger. Some who have thought it over can think of our own who were not present. It could be more.

Leagues will meet at 7:15 p. m. Each in their places in the church.

THE PRESBYTERIAN CHURCH Rev. H. C. Travis, Pastor

Rev. Hendrix Addresses Student Body Thursday

Rev. R. W. Hendrix, pastor of the Methodist Church, talked on Loyalty before the faculty and student body Thursday. He stressed the necessity of loyalty to self and to one's fellow men in order to accomplish good in life. He urged the young student to have ideals and be loyal enough to maintain those ideals.

NOTICE TO WATER CONSUMERS

A small leak has been discovered in the water tower which must be repaired at once. Also the health of the water consuming public makes it necessary for the inside of the tank to be cleaned and repainted. In order to do this work it will be necessary to drain the water tank and keep it empty for about six days. This work will be started October 7th, and during the following week the water may be off for a few minutes at a time. The pumps will be run continuously while the tank is empty, but water consumers are advised to keep a small amount of water drawn off to use during the time that it may be necessary for the pumps to be shut down for a few minutes at a time.

SYNOPSIS

Weeks after a cream colored car had been found wrecked in the foot of a cliff, a girl named Anne Cushing appears in town Marston. She has just unseemingly a ranch located away. Barry Duane, her neighbor and his man, Boone, a reliable woman for the Barry's car, loaded down with Marston her reticence has suspicion.

Water in her pitcher was fresh and cold. Anne looked at it vigorously, one foot at odd moments in time, intermittently hummed tune, approvingly pucker had come to her delicately marked brows. "Did she have to do that?" Hadn't she any sense at all to do anything which might offend anybody, even Marthas, wondering she had come from and had been before she had left the two-thirty-eight at Marston? She must be more careful. It was a swift matter in her. Innuendo odors of baffle were creeping in, but she was out of doors first.

At the corner of the house the sight of Barry Duane, coming sounds came from the pinto Anne had ever seen, in the coral and making play at the gate. On the ground was a saddle. Barry Duane, what are you doing?

"Hello?" He turned with a grin. "Do you mind having a ride this hour? I thought I'd get a pinto down and ask you to ride occasionally. His name is Comet. It's a great riding horse around here. I know some good trails."

"You're so innocent. You know you've taken hours of riding and hammering and sawed, and made trips to Marston on errands, and to have looked after even brought things from your own ranch, but when it comes to taking your saddle you like him?"

"I like him. He's a darling. He's years. And don't think I'm getting anything very young. I have a hundred more years. Comet, come and make with your new boss."

Barry Duane looked down at her

with his nice smile.

"It doesn't have to be a complete separation. I've been hinting that I expect to come along when you ride him, but I haven't had even a nibble yet."

"You've got one now. I'm wild to try him."

"This morning?"

"Love to. Right after breakfast. Have you had yours or will you have some with us?"

"Both, thank you. I like Marthas coffee and I've been up since before five. Comet, we stay."

Half an hour later he was out again saddling the pinto for her and Anne was making a quick change into riding clothes.

Barry was waiting with the horses. "All outfitted for the trail, aren't we? I suppose that means that you have ridden before?"

"Some. . . Not much," she added honestly, but I'm crazy about it."

The pinto danced delicately, impatient to be off, but she held him in while Barry swung himself into his saddle. He nodded approvingly.

"That's just right. Keep a steady hand on him and he will soon know which one of you is boss. You'll find that he has plenty of ginger, but he's well behaved."

For the first half mile they scarcely spoke. Anne let Comet out a little. Pounding hoofs sounded back of her, and the long striding Captain soon came abreast. She gave Barry a radiant look, and his heart suddenly skipped a beat or two and went rocking up into his ears.

After a time they came to a high flat that was like a parkland.

"Like to stop?" he suggested. "This is one of the places I wanted to show you."

They found an inviting place to sit. Anne sighed happily.

"And to think," she added lazily, "I'd planned to spend this heavenly morning struggling with a hoe."

"It's not a woman's work," he insisted doggedly. The mere suggestion seemed to make him angry. "If you need more help, let your neighbors take a hand. Or if you won't do that, Tranquillo has a nephew who will come by the day, and I'll see that he doesn't overcharge you. I hate the idea of your grubbing in the fields. It doesn't fit you at all."

"I'm a hard-working woman, you know, not a princess in an ivory tower."

"You'd make a better princess than anyone I know."

She caught a dark flicker in his eyes. A warning little bell chimed somewhere in her head. Barry Duane was not the kind who made careless love.

The days ran by as swiftly as water slipping over a dam. There was still plenty of work to be done, but the first furious onslaught was over. Things were shaping up indoors and out.

Every morning Anne ran out to look at the new green of her alfalfa fields. There were hours in the kitchen garden or out on the porch. Evenings she often sat with pencil and paper and thoughtfully pucker-brow, trying to figure profits and losses, the cost of stock and what she ought to do next year.

Barry was looking after some neglected work on his own ranch, but every few days he found an excuse to stop at Trail's End. The obliging Boone Petry detoured to Trail's End every time he drove in to Marston and occasionally when he didn't. Marthas developed an uncanny presence in guessing when Petry was due and piling up errands and odd jobs for him.

They were out on the steps one day when Petry drove up, the old car piled with supplies.

"There's your package from the mail order house, Miss Anne, and here's a letter for Marthas. No letters for you or me. Shall I take the groceries around back, Marthas?"

He usually walked straight through the front door to the kitchen, as did everybody else, but today he flickered eyed at Marthas and tramped around to the back door. Marthas followed him.

"Look here Marthas, some of those old hens in Marston are talkin'."

"What's the matter with them?"

"Miss Anne's the matter. Miss Bagley, she can't get over the shock of findin' that there wasn't any tag on her coat, and Miss Caswell at the post-office, she says it's awful queer that Miss Cushing never gets letters from home like other folks."

"Well," said Marthas sharply, what did you tell her?"

"What could I tell her?" Petry scratched a worried head. Her being a lady, I couldn't very well cram her remarks down her throat, could I?"

because he's awfully fond of Miss Anne.

Inside of the house a voice was singing, a lilting soprano. Petry listened for a moment, eased the box softly to the table and and tiptoed out again.

Anne was restless. She was alone, for Marthas had gone to Marston to spend the day, leaving shortly after breakfast with Petry. At first it had been rather fun. She had roamed from the house to the creek and back to the house again, but little by little things that she wanted to forget had crept in.

She must not think of them; she didn't want to. This was a new life and she was going to be happy in it. She was happy. Would she ever feel free to do the things that other girls did—well, to marry, for instance? Even if she told the man first? But she couldn't tell. Whatever happened, she didn't dare do that. . . . She wondered what Barry Duane would say if he knew.

She jumped up suddenly and gave herself an impatient shake. She would go out and saddle Comet, and leave it miles behind.

For the first level half mile they swept along in an exhilarating burst of speed, but after that she pulled the pinto down to a steadier pace, and once turned to a steeper trail he bent down to business and climbed diligently.

This was the first time that she had ridden for any great distance alone, and there was a thrill in it. Se meant to make the same circle that she and Barry had traveled on their first ride together.

For over an hour she rode slowly. Then she reined in and dismounted. Comet watched her with liquid, unblinking eyes as she climbed out to a boulder of red sandstone. It made a natural seat.

For a long time she sat there. The sun's rays were slanting from the west. Little by little the warmth and light were fading from her face again. She pumped up abruptly. She suddenly realized how low that sun was. "Comet!" she called. "Come boy we're going home."

No answering whinny came to her call. There was no sign of the pinto. Anne stood very still for a moment, telling herself that she wasn't scared. It was her own fault; she ought to have "tied him to the ground," as Petry called it. She gave

an anxious glance at those slanting rays and turned quickly on her way.

A swaying of bushes on a lower slope caught her eye, and then in an open space there was flash of glossy piebald flanks. She called with all the strength of healthy young lungs. The pinto caught the sound, looked back and hesitated. She was within a hundred feet of him when he frisked capriciously, broke into an easy canter and stopped at a safer distance.

She could have wept with vexation. More slowly this time, Anne followed him with coaxing voice and outstretched hand. This was a nice game and Comet was feeling coltish and gay. He let her come quite near and then wheeled and cantered off again.

When she came to the next open space there was no sign of the pinto. She stopped and called again. There was no sound. The graceless Comet had gone lightheartedly about his own business, and she must get back to the trail and make her long way home.

The trail? The thought startled her. She made a turn blankly strange and came suddenly on a wall of rock.

It rose sheer two-hundred feet or more, directly in her path. She turned and looked back uncertainly, wondering where the first wrong turning had been. Back of her was the blank wall of cliff, and ahead and on both sides stretched an endless reiteration of trees and undergrowth and rocks in bewildering confusion.

There was no trail. She was lost.

Barry lounged comfortably in a big chair and wondered why Petry was so late. He had been out in the blazing Junipero all day, but he knew that Petry had conveyed Marthas Larabee in to Marston to spend the day and the efficient Marthas would not have allowed any such late returning to her own duties. Probably the old rascal had invited himself at Trail's End.

Barry was thinking of a shabby little ranch house in a small valley, where a girl was gallantly tackling a man's job. It was a queer occupation for a girl like Anne Cushing to choose. Usually girls as pretty and dainty as Anne wanted anything that kept them manicured and permanently waved.

For a moment the fading sunset lights played a curious trick on him. He saw a shadowy figure in the chair opposite him, with luminous eyes and a curved mouth that smiled at him. He was always thinking of Anne. And he had known her only a few short weeks.

Steps came from the rear, heavy and hurried and Petry's head appeared. "Ain't Miss Anne here?"

"No." Surprise turned quickly to apprehension. "What's the matter?"

"I dunno exactly." Petry looked increasingly uneasy. "You see, I brought Marthas home, but Miss Anne she'd gone out somewhere for a ride. That was two hours ago. Of course they ain't any reason why she shouldn't go off for a ride and come home late, but it kinda bothered me."

Continued Next Week.

There was no trail. She was lost.

WILDCATS TO PLAY HEREFORD HERE FRIDAY

Lay Tidwell Barksdale's Wildcats will face a new team they meet Hereford's Whitefaces here Friday night. A decisive victory over the field Cubs last week has put the spirit into Littlefield fans. The opinion is that they will have the necessary vim, vigor and vitality to put things over in this game.

Some trouble in wiring the lights was not ready and last week's game had to be played by the light of a candle. The wiring is now completed and everything is all set for a normal scrimmage under the lights Friday, beginning at 8 o'clock.

Squad Leader Mamie Brewer and Director A. B. Taylor will be bright and early with a full complement of boosters to do their part in surrounding up the Whitefaces.

O. K. Yantis, working in the backfield for Littlefield, intercepted a pass that was good for 35 yards and another touchdown.

The last touchdown was made by "Curly" Hall from the 2 yard line.

The line up was Foust and Brantly, guards; Hendricks and Smith, center; Dorman, Martinez and Pierce, Ends; Rowe tackle and Hall, Duffy, Yantis and McKnight backfield. Substitutes entering the game were: Melton, R. Smith, Neely, Moore and Lakey.

Mr. and Mrs. Dick Ratliff of Troup Texas, returned home Sunday after spending a few days here visiting relatives and friends.

Mrs. F. G. Sadler is visiting her sister, Mrs. P. G. Tom, who resides on a ranch in New Mexico.

HEREFORD WHITEFACES HAVE HEAVY LINE ON LIGHT, FAST BACK FIELD

(Special to Leader)
HEREFORD, Texas, Oct. 3.—The Hereford Whitefaces, which will play the Littlefield High School football team at Littlefield Friday night of this week, have won both games played this season. Wildcats Defeat Brownfield Cubs By Sweeping Victory

Littlefield wildcats won over Brownfield Cubs a sweeping victory in a game played here last Friday. The score at the last whistle was 19 to 0 in the wildcats favor.

Cats, coached by L. T. Barksdale, showed great progress in handling the pigskin and also in blocking the line.

Robert McKnight sent his team through some of the tightest spots possible to gain at least five yards each plunge. The most notable play of the game was Martinez, R. E. for wildcats, who up a short thrown pass and caught two of his opponents for touchdowns for the wild-

VOCATIONAL STUDENTS WIN PRIZE AT SOUTH PLAINS FAIR

R. L. Bardettes vocational Agriculture Students ranked fourth at the Lubbock Fair in booths exhibiting phases of farm development. Entries of individual students brought back fifteen blue, red and white ribbons to Littlefield.

Each agriculture department on the South Plains was allowed to enter the contest.

Floydada's booth featuring Feeding Dairy Cattle was awarded first place. Lorenza was given second place on a project showing conservation of moisture. Sprink Lake received third prize on an entry showing quality Dairy Products. Littlefield's project showed the Pit Silo.

Some distinctive advantages of the Pit Silo pointed out by Littlefield Farmers are that there is no expense attached since no materials are needed to construct it. It is easy to build since it simply requires digging a hole in the ground. Finally, it preserves the entire plant thereby providing the farmer with plenty of silage at no cost and small labor expended.

Individual places were won by the boys on entries in grain sorghum, cotton, and vegetables.

Bay City Woman Twirls A Lariat And Brands Cattle

BOY CITY, TEXAS, Oct. 4. (UP) Mrs. May Cleveland is 63, a little wisp of a woman, but even now she can twirl a lariat, throw a half-breed Brahms or slap on a branding iron with the best of the vaqueros.

"A cow and a horse, that's all I know," she said. "And I'd rather be dead, yes, I really had, than not to be able to handle my own cattle."

But from appearances she does not have to worry about that for several years at least. When branding season comes she dons a ten-gallon hat, bit-roped spurs, high boots and riding pants and goes out on the range to help in the branding.

She is one of the last of the old order of cattle-women reminiscent of Amanda Burks of the last century, the so-called cattle queen of Cotulla who drove herds of South Texas cattle over prairie trails to northern markets.

Mrs. Cleveland comes of hardy stock. Her father was Norman Savage, early day cattlemen. Her own grandmother, back in the late 40's killed an Indian with a rifle down near the old town of Matagorda.

She was born and reared in Matagorda county where her grandparents settled during the war with Mexico in 1847. She has known the range all her life.

And a short conversation with her is convincing that she inherited a large quantity of her grandmother's qualities.

"A good cow pony and a six-shooter, they're the best friends the cattleman ever had," she said.

Then she will relate the story of her "best cow-pony," how it would keep the mother cow away while Mrs. Cleveland applied the branding iron to the calf. The pony was so adept, she recalled, that only on rarest occasions did the cow ever succeed in putting the woman vaquero to flight.

The calves of the Brahma cross-breed are difficult to handle, because of their strength, especially for a woman. But Mrs. Cleveland "knows the tricks of the trade."

She has been in the saddle since childhood, ridden virtually every kind of horse known to the South Texas range and in all her life has never been thrown but once, she said.

Cattle thieves still infest the ranch, Mrs. Cleveland resorts to the old method of handling cattle thieves, the six-shooter, an important bit of the code of the old West.

"Somebody has been stealing our calves," she said. "My son's going down to the pasture tonight to lay out and try to catch 'em at it."

Then turning to the son, she advised him in that code of the old West:

"Take the six-shooter, and if you catch 'em just send into town for the undertaker."

Petition to be Sent to Sec'y of Agriculture

The Leader has been requested by John Reznik to publish the following petition, which will be forwarded to the Secretary of Agriculture:

TO SECRETARY OF AGRICULTURE

Washington, D. C.

We the undersigned cotton farmers solemnly protest against the present plan of the cotton law, as we must consider it unfair and entirely detrimental to the small farmer, because the present plan does not make any difference between the small farmer who by diversification already reduced his cotton acreage and the large planter, who never reduced, or reduced very little.

If the government finds it necessary to extend the Bankhead law, in the next year, then we demand that the first plan be replaced by the second plan, as contained in Section 7, paragraph 2 of the Bankhead cotton law stating—"Such allotments to any farm shall be made upon application therefor and may be made by the secretary based upon—"

"2. By ascertaining the amount of cotton the farm would have produced during a fair representative period if all the cultivated land had been planted to cotton, and the reducing such amount by such percentage (which shall be applied uniformly within the county to all farms to which the allotment is made under this paragraph) as will be sufficient to bring the total of the farm allotments within the county's allotment."

Signed:

John Reznik, O. L. Schlotzman, H. J. Miller, Joe Macha, B. Dolle, W. R. Geistman, Otto J. Green, Mike Yohner, Herbert Dolle, Bernard Gruel, Edward Schlotzman, J. C. Johnson, A. F. Wedel, Fred Duffey, J. H. Reisman, M. R. Fowler, Sam Hampton,

TODAY'S FASHION HINTS VERY LATEST By PATRICIA DOW

Designed in Sizes: 34, 36, 38, 40, 42 and 44. Size 38 requires 3 1/2 yards of 39 inch material, with 1 1/2 yard contrasting.

Pattern 8337 — Have you noticed how smart the woman looks who uses strong contrast in the assembling of her costume, either by means of accessories or else by contrasting colors and materials in the frock itself? The becoming and useful frock sketched above is designed with this idea in mind—giving a woman an opportunity to combine two materials or two colors of the same material.

Metallic prints are very popular. Such material may be used here for the light upper part of the dress and upper sleeves, so as to form a flattering and becoming frame for the face to which the slight cowl at the neckline adds its bit. The lower part of the waist and yoke of the skirt are cut in one and fitted by means of darts at the waistline, and the skirt is flared slightly at the lower edge.

BLACK-DRAUGHT
"Such a Good Laxative," Says Nurse Writing from her home in Pecos, Mo., Mrs. Anna LaPlante says: "I am a practical nurse and I recommend to some of my patients that they take Black-Draught, for it is such a good laxative. I took it for constipation, headache and a dull feeling that I had so much. A few doses of Black-Draught—and I felt just fine."

Because so many people know from having used it that Theoford's Black-Draught is a good, purely vegetable laxative, millions of packages of it are sold every year.

HART'S CAMP

Rains in the community hindered the gathering of cotton and possibly delayed the reopening of school for another week.

The Home Demonstration Club of Spade sponsored a demonstration on canning tomato juice in this community on Monday afternoon, Sept. 24. The demonstration was given by a team composed of Mrs. Sheffield and Mrs. Griffin and was given in the home of Mrs. W. C. Squires.

Haswell Lynch, who recently had a painful attack in his left side is improving nicely. The exact trouble has not been solved but the pain was eased only by a hyperdermic shot.

J. F. Montgomery of Tucumcari, N. M., arrived the early part of this week and will make his headquarters here. Mr. Montgomery has trapped in most all of the Southwestern States and is a well known trapper.

LAST RITES ARE HELD FOR MRS. H. W. STEWART

Last rites were read at the grave in the Littlefield cemetery Monday afternoon at 2:30 o'clock for Mrs. Helene Alberta Stewart, aged 44, wife of H. W. Stewart, who died at her home in the Texas Tourist Camp Wednesday morning about three o'clock following the birth of a daughter, who also passed away.

The babe was laid to rest with her mother.

The services were conducted by Rev. J. F. Grizzle, Pastor of the First Baptist Church, and interment in the Littlefield Cemetery under the direction of Burleson Funeral Home.

Deceased was born in Independence County, Arkansas, in 1890; and moved to the Indian territory in Oklahoma when six years of age. As Helene Alberta Hall, she was married to H. W. Stewart on July 11, 1906, at Muskogee, Okla. where she united with the Missionary Baptist Church in 1917, and where her membership was at the time of her death.

She was the mother of twelve children, nine of whom are living, all with the exception of one son being deceased at the funeral.

Besides her nine children, she is survived by her husband, and aged mother and four grand children.

We Think—

(Continued from page 1)

Members of the order weep in their misery at their pitiful offerings.

And strange to state, in view of the fact that Mr. Bellomy is a fisherman of renown, the offering he will make in applying for membership in the order, is a story about killing many, many squawls with one bullet.

WATCH FOR MR. BELLOMY'S STORY—

TEAGING "SUN" SHELTON—

"Sun", you have been promising for a long time to contribute to the "We Think" column; in fact, we have had some of the young men hereabouts, including "Cotton" Dobbs, as how we could expect a contribution from you right sudden.

"Cotton" offered the suggestion that a delegation call on you and DEMAND that you strut yourself as a sparkling young author.

We Think— That "Cotton" is right.

MAJOR HOOPLE HAS APPLIED FOR MEMBERSHIP IN THE GRAND AND EXALTED ORDER OF THE WORLD'S MOST ACCOMPLISHED LIARS—

The major was nominated by Rex Matthews.

Rex also has applied for membership.

Rex promises to qualify for membership with a sandstorm story and will the qualifications of Major Hoople are known on land and sea.

WE WELCOME BOTH INTO MEMBERSHIP IN THE GRAND AND EXALTED ORDER OF THE WORLD'S MOST ACCOMPLISHED LIARS.

J. E. NORMAN HAS EXPRESSED A WILLINGNESS TO JOIN THE GRAND AND EXALTED ORDER OF THE WORLD'S MOST ACCOMPLISHED LIARS—

The application from Mr. Norman is very much appreciated, but in view of the fact that the GRAND AND EXALTED ORDER OF THE WORLD'S MOST ACCOMPLISHED LIARS, is strictly an amateur organization, it has been suggested that a committee investigate Mr. Norman's amateur standing.

However, the club may require the services of several instructors, and it might not be a bad idea to admit J. E. to membership in that capacity.

ANOTHER APPLICANT FOR MEMBERSHIP IN THE GRAND AND EXALTED ORDER OF THE WORLD'S MOST ACCOMPLISHED LIARS IS BOB LEWIS, MANAGER OF THE WEST TEXAS CO.—

Bob is reported to have a first class story to tell and we think that he should be admitted without further discussion.

Welcome, Bob! Take your seat on the left; light up and spin your yarn.

R. E. ILES BUYS CONOCO STATION

R. E. Iles, who was in the grocery and produce business in Littlefield for a number of years, has purchased the Conoco Service Station at Phelps Avenue and Highway No. 7, opposite the Santa Fe depot, and is now in charge of the business.

In addition to handling a complete line of Conoco products, Mr. Iles will handle tires and tubes, and numerous other items for the maintenance and equipment of automobiles.

CONSIDERABLE IMPROVEMENTS MADE TO SCHOOL PROPERTY

Considerable repair work has been done and is now underway by the Littlefield School Board in the improvement of the school buildings and truck bodies.

The truck bodies have all been repaired, repainted and relettered, putting them in safe and first class conditions for the fall term of school.

Contract has been let for the erection of a new roof on the high school building to H. P. Denton of this city, and the work is now underway.

At a meeting of the School Board held Monday evening, it was decided to repair the shower bath, and cover the steam pipe line from the Grammar to the Primary school, and purchase fire extinguishers for the school trucks.

Suffer Serious Burns When Car Become Ignited

Mr. Rawlins of 7 1-2 miles southwest of Littlefield is in the Lubbock hospital in a serious condition from burns sustained Wednesday of last week when the automobile in which he was riding, coming from Levelland caught fire near Whitharral.

He and B. O. Hall a neighbor had purchased some naphtha, which was in a jug and held by Rawlins in front of him on the floor of the car. The automobile jolted on a rough place on the road, knocking the bottom out of the jar, and allowing the liquid to escape and run down and become ignited from the exhaust pipe thereby causing the car to become a blaze. Mr. Rawlins was seriously burned, while Mr. Hall escaped with less severe injury. Both men are confined in the Lubbock Sanitarium.

Rev. McGahey Elected As Missionary

At a meeting of the board of district nine was held at Plainview last Tuesday afternoon, Rev. Phillip McGahey was elected as Missionary to take the place of Rev. B. N. Shepherd who resigned some days ago to accept the pastorate of the First Baptist Church, Hereford.

The district is, indeed, fortunate in being able to secure a man like Rev. McGahey as their field man.

He is a young man a graduate of Wayland College and with his A. B. from Baylor university, also his T. H. M. from Southwestern Seminary. He is a native of West Texas and greater than all else is a man of God.

Rev. Joe F. Grizzle attended the Board meeting, and Mrs. Grizzle attended a woman's meeting at Wayland College while the Board was in session.

Hollywood Premiere Outstanding Success

Littlefield's first Hollywood Premiere, which was presented at the palace theater Friday night, was an outstanding success from every standpoint and points the way to more and greater things in entertainment for the people of this city and section.

A Hollywood Premiere largely consists of impersonations of Hollywood stars and characters, and attracts special interest in view of the fact that these impersonations are carried out by local people.

A prize of \$10 was awarded first and second prize winners in Friday night's show.

First prize went to Christine White of Amherst, who impersonated Ruby Keeler, and second prize was given to Veda Payne of Amherst, who impersonated Shirley Temple.

Others participating in the contest were:

Wayne Cowley as Mae West; Julian Timian as Joe Penner; Ray Timian as Harpo Marks; Blair Goodwin as Big Boy of our Gang; Mary Ellen Duffy, Amherst, as Ginger Rogers; Blanche Crockett and Clyde Willis were teamed as Ruby Keeler and James Cagney; Dorothy Louise Clements as Fay Ray; Thelma Bean as Fifi Dorsay; Pat Boone, Jr., and Thornton as Laurel and Hardy; Cotton Eagan and Emery Glass as Laurel and Hardy; two colored children as Stanna and Fatumina of Our Gang; Thelma Crockett as Carroll Lombard; "Sunshine" Burleson as Clara Bow; and Egan as Ben Blue.

The premiere was presented under the direction of Johnny Oxford, publicity director for the Palace and Ritz.

Cars conveying the participants in the premiere to the theater were furnished through the courtesy of the Hewitt Chevrolet Co.

The theater wishes to offer special thanks and appreciation to Mrs. C. C. Clements and others for their cooperation in the presentation of the premiere.

TO ORGANIZE ADULT CLASSES IN EDUCATION

A plan for adult education is being sent to all the County and City school superintendents. This plan calls for the administration to be had through these officials.

At a recent meeting of the Littlefield School Board a motion was made and passed to permit any person or persons interested in the organization of adult classes in education the use of part of the school plant that they might need.

The big problem in these parts seem to be teachers who are interested to the extent of working up the classes. The application for this project can be secured from the County Relief Administrator, Mr. Floyd, at Amherst. The particular form numbers can be secured from A. B. Sanders.

There are two plans for the organization of Adult Education that might appeal to the people here. The first plan is "Vocational Education". Under this plan it is possible to get instruction (1) Trade and Industrial Education, (2) Home Economics, (3) Agricultural Education (4) Commercial Education and (5) Vocational Adjustment counseling for unemployed. Any adult person is eligible for this instruction who is interested. There is only one restriction and that is that those who take commercial work must be an unemployed adult. Plan No. 2 is General Adult Education. Under this line up such courses as Economics, History, Pure Economics, Civics, Government, Legislation, Community problems, History of Labor Movement, Social psychology etc. Also under this plan you may organize courses in general academic education, cultural education etc. In other words you may organize almost any type of instruction suitable to the group.

The teachers who teach in these schools must be eligible for relief and have the proper certification. The salary paid is \$12.00 per week for twenty hours work. That is fifteen hours instruction and five hours preparation, and if employed less than 20 hours his pay shall be prorated.

There will be no cost to the people instructed except for what ever materials they may need in the work. The school will furnish any state texts that are on hand.

Littlefield should have some teacher that is unemployed who will work this matter up. Persons interested in these classes should register with Mrs. W. W. Gillette at the school Secretary's office in the City Hall immediately.

Jones Hardware Move to New Cheshier Building

Otto Jones, who conducts the Jones Hardware in this city, moved his stock and equipment early last week to one of the new Cheshier buildings formerly occupied by the Vogue, and located opposite the Texas Utilities office.

This affords the Jones Hardware much more convenient location, and new building, with ample window and other display room in which to show their goods. This building has a beautiful white front, which gives it a very attractive appearance. The large display windows enables the concern to show to advantage dishes, chinaware and other merchandise, for which they did not have the room in their former location.

The Jones Hardware handle general hardware and specialize in Nesco stoves and Massey Harris implements.

Associated with her husband in the business is Mrs. Jones.

CREAM GRADING MEETING HERE TUESDAY NEXT

As announced by T. J. Watson, local produce man, cooperative produce meetings are scheduled to be held in different cities on the South Plains in connection with the grading campaign started June 1, and to acquaint the farmers with the program underway by the State Department.

Such a meeting will be held at the office of the South Plains Creamery in this city at 8 P. M. Tuesday, October 8, and all produce dealers, farmers, and others interested in the buying and selling of cream are invited to attend.

A circular letter sent by the District Cream Grader and Inspector, Mr. Willis Tinney, to the produce dealers of this section, in connection with the bringing of cream up to government standards, and which has been handed to the Leader for publication is as follows:

"The grading campaign started June 1 and has shown marked improvement in cream in this territory but a recent survey of conditions indicates that there is yet much to be done to bring all cream produced in this territory up to government standards.

"The Federal government is very insistent that extraneous matter must be eliminated from cream and we feel that you should be fully acquainted with the requirements of the Food and Drug Administration in regard to buying cream. Therefore we are holding a series of meetings similar to those held last May in order to acquaint you with this program.

"These meetings will cover grading of cream, care of cream in stations and on the farm, and particular attention will be given to sediment tests and the elimination of extraneous matter in cream. These meetings will be held in the following towns on the following dates at 8 P. M.: Lubbock — Oct. 3, at College. Lamesa — Oct. 4, at Creamery. Brownfield — Oct. 5, at Farmer's Co-op. Creamery. Littlefield, Oct. 8, at South Plains Creamery. Hereford — Oct. 9, at Creamery. Amarillo — Oct. 10, at Borden's Plainview — Oct. 11, at Creamery.

Will Rodgers To Be Featured On Palace Screen In 'Handy Andy'

Will Rodgers keeps the laughs rolling right along in his latest picture "Handy Andy", which will be featured at the Palace Theatre Saturday midnight, Sunday Matinee and night, and Monday. Without doubt, it's his funniest picture. Dialogue and situations combine to maintain a steadily mounting crescendo of mirth—just a whirlwind of belly laughs. He keeps the audience in stitches most of the time.

Rogers portrays a druggist who wants to work in peace. But his wife, expertly played by Peggy Wood, nags him to sell out and learn to play. And he does!

First he becomes a pigeon fancier, and lets his petas fly all over the house. Then he takes up golf with exasperatingly funny results.

The climax comes, however, when his wife persuades him to take a trip to the Mardi Gras in New Orleans. There Rodgers rebels violently when his wife tries to make him dress in a fancy costume to attend the Comus ball. She attends with a gigolo and leaves Rogers at home. Lonesome, he meets a druggist and the latter's girlfriend, Conchita Montenegro. After a few cocktails with his new friends, Rogers is persuaded to attend the ball after all.

Rogers appears in a Tarzan costume and causes a sensation with his rough and tumble dance with Conchita.
