Lamb County May Gin 170,000 Bales of Cotton

Five hundred cotton pickers will be needed in Lamb County by Sept. 26, according to Mr. Jordan, head of Texas Employment Commission, Littlefield. This number may vary according to the weather and many farmers are reporting that even late cotton is beginning to open. Recent rains have almost completely stopped picking the past week. Mr. Jordan added that around 15,000 pickers would be needed between October 3 and 10. By that time the need for picking will be urgent, and an appeal will be made for every able bodied person to help harvest Lamb County's largest cotton crop. At the present time, the thousands of Mexican cotton pickers, who usually pick on the South Plains each fall, are still in the valley area, and many are not expected until sometime next month.

Littlefield Collie Mother Of 13 Puppies

Polly, a three-year-old black and white registered collie owned by Mrs. J. E. Chisholm, appears to be destined to have large families.

In April, 1947, she had eleven puppies! In April, 1948, 10 puppies, and on September 10 of this year she broke her own record when she whelped 13 pups.

There were 10 black and white pups and three sable and white pups in the litter, the latter three following in color their father, a young registered collie who was owned by Howard Reese, Littlefield druggist.

The father dog's name is Sparks, and his whereabouts are unknown at this time. Mr. Reese gave Sparks to Danny Spears, son of L. D. Spears of three miles west of Lums Chapel.

About the time the pups were born to Polly, Sparks disappeared. Perhaps he is trying to escape heavy alimony.

Sparks was purchased by Mr. Reese from Mrs. Anna D. Baldwin of Spur, who is well known as a collie breeder.

The whelping of as many as 13 pups by a collie may not be a record, but is certainly an outstanding achievement and gives Polly something to brag about.

The mother dog and the 13 pups, all healthy and happy, are at the Chisholm home in College Heights.

Large Army Of Pickers Needed To Handle Lamb's Bumper Cotton Crop

In the past, the most oft heard words in this section have been potential cotton bumper crop.

Columns have been written, and the press throughout the Plains, first prophesied bumper crop to be planted that it had been planted into at least the finishing crop these Plains had, and lastly and predictions of the yield and probable

come from, to pick the fluffy stuff from the huge acreage that has been planted. That is, not until lately.

son, they would still fall short of handling the predicted 175,000 bale crop, and yet each would have earned between \$200 and \$300, depending on the scale for picking, which has opened, we are informed at \$1.75, and is almost certain to rise, as competition for pickers develop.

The Texas Employment Commission is willing to, and is doing everything possible to bring more pickers in from Mexico, but admit that it probably was not anywhere near enough. Last week they estimated that there would be demand in the state for 100,000 more pickers than could be supplied. And with cotton

Those who bring specimens—and from one to three blooms is counted a specimen—may put them in small bottles, jars, or fruit jars.

Square Dance Festival Planned

One of the biggest square dancing affairs ever to be staged anywhere on the South Plains, will be staged in Littlefield as a pre-Fair attraction, tonight, Thursday, with the Fair schedule to open the following morning.

Lee Searcey's seven-piece string band has been signed to furnish the special square dance music, and this makes certain the entry of a large number of participating teams of square dancers.

A special dance platform, 100x120 feet is being constructed in the roping arena at the Fair grounds where the dance competitions have been staged. Inclement weather and rain will not interfere with the staging of the show, as arrangements have been made to move it indoors in the big cotton compress buildings.

The number of inquiries already received from out-of-town dancers makes certain the fact that there will be plenty of keen competition. However, the dance management and sponsors is asking any and all towns not only to send their team entries, but also to enter their best "callers," in the calling competition.

There will be no charge to the public who attend as spectators, and occupy grandstand seats, aside from Fair ground gate admission. Those wishing to dance to the strains of the 7-piece stringed band will need to be fortified with 50¢ dance admission tickets.

Immediately following the wedding ceremony, a reception was held in the home of the bride's parents. The home was attractively decorated with a profusion of autumn cut flowers. Emmanuel Lutheran Church News

After the hour of worship at Emmanuel Lutheran last Sunday morning, those in attendance helped dedicate the new parsonage to the glory of the Triune God. The rites were simple, yet impressive and complete. The newly-decorated residence of Emmanuel Lutheran's pastor and family will be ready for occupancy within a week or so. In the near future it is hoped that to have an open house in order that those interested may see the new home.

Although Emmanuel Lutheran's pastor will be out of town over the Sunday of September 25th, divine worship will be held at the usual 11:00 a. m. hour. Sunday school will begin at 10:00 a. m. Adult Bible class will not meet. Pastor Heckmann will be in Plainview, where he will deliver two mission sermons at St. Paul's Lutheran church.

G. L. White, Jr., Victim of Polio; Funeral Services Wednesday

G. L. White Jr., age 14, passed away at 11:30 o'clock Monday night at Plainview Polio clinic, where he had been a patient for several weeks.

Funeral services were conducted yesterday afternoon at 3:00 o'clock from the First Presbyterian church, with the pastor, Rev. Carter McKemy, officiating, assisted by Rev. LeRoy Thompson, pastor of the First Presbyterian church at Roswell, New Mexico. Interment was in Littlefield cemetery, with Hamilton's Funeral Home in charge.

G. L. Jr., was born October 15th, 1934, at Roswell, N. M. He attended school in Roswell and in Littlefield, and graduated from the 8th grade here last spring. He would have been a member of the freshman class in the local high school, had he been able to have attended this fall. He was active in all sport activities and was popular with his fellow classmates and teachers. He was a member of troop 41, of the Boy Scouts, and was a first class scout. He was a member of the First Presbyterian church, having joined April 21st, 1946.

G. L. Jr., entered Camp Stewart at Kerrville, June 4th of this year, and was stricken with polio while there, on June 11th. He was removed to Robert B. Green hospital at San Antonio, where he remained until June 29th, when he was transferred to Hendrick's Memorial hospital at Abilene. On August 26th he was removed to Plainview Polio clinic. His condition seemed to have been improved during the past few weeks, and doctors had given the family encouragement, and they were making plans to bring him home in the next few months.

Surviving are his father and step-mother, Mr. and Mrs. George L. White; his mother, Mrs. Jaundell White of Clovis, N. M.; one sister, Mrs. Donna Lee White; and a brother, John David White; the grandparents, Mrs. J. P. White sr., of Roswell, and Mr. and Mrs. O. B. Shook of Ruidoso, New Mexico.

VISIT IN ROSWELL

Charles D. Strange spent the weekend at Roswell, N. M., in the home of his sister and brother-in-law, Mr. and Mrs. W. L. O'Neal, where the three younger Strange children are making their home. They are Wade, Sue and Deanie.

Gates Swing Open—

(Continued on page five)
been officially opened and launched. The Ticket Admission Booths will be open all day Thursday, as will the Fair gates, for all who care to attend and view the exhibits, prior to and during the time that judging and ribbon placements are being made.

Square Dance Festival Thursday

Advertised and publicized for Sept. 22-23-24, it should be explained and emphasized, that on opening day, Thursday, the 22nd, aside from the receipt and placing of exhibits, the readying of amusements and stands, final lighting arrangements, and the judging of exhibits, and placement of ribbons on prize winning entries, there will be little activity on the Fair ground that day, until evening, when the annual Fair Square Dance Festival will be staged at the Fair grounds, as a pre-ener of the Fair.

Lubbock Band to Furnish Music

A huge success at last year's Fair, the Square Dance committee has gone "all-out" in planning and arranging this Square Dance. It is certain to draw several thousand spectators from throughout the entire area. A huge dance arena is being completed, with materials donated by Higginbotham-Bartlett. A 7-piece stringed band from Lubbock has been engaged to furnish music, and an uncounted number of teams of top-notch squarers from all over the South Plains will compete. In addition there will be a competition for dance "callers." And of course, there will be ample time in between prize events for the spectators to join in the dancing. There is no admission charge for spectators, but dancers will have to be supplied with admission tickets. A band concert will also be staged at the Fair ground during the evening.

As previously stated, the parade will form at 10:00 a. m. Friday, with four bands definitely signed to march. Grouped into one big band, and playing as individual organizations, they will present a band concert at the Court House

About 17,000 Balls—

[continued from page one]

Farmers who wish to contract for Mexicans from the Mexican government may file their application with the Texas Employment office in Littlefield.

County Agent David Eaton stated Monday that while the cool, damp weather had slowed down the opening of cotton bolls, it had not hurt the cotton prospects for this county. His prediction is still around 170,000 bales, the largest crop ever produced in the county. Eaton states that this prediction depends largely upon a normal frost around the 4th of November. An early frost would curtail production considerably. Some boll worms are still active, but dusting has prevented their spread. Defoliating of cotton should begin around October 1.

ries will be judged.

\$1500 in Prizes

The prize list for the Fair totals approximately \$1500, and as a result more and better entries are assured. In the VFW building at least 11 exhibits will be placed, and at least ten implement dealers will have displays outside, on the space between the woman's building and VFW hall.

It's Fair Week in Littlefield and with the sun beaming forth as it is as this is being written, every promise is given, and can be held out that it is going to be a big Fair and a big Fair week.

"Come early, stay late, have a big time, and do anything and everything you please and choose." Littlefield is proud to be the home of the Fair, and host to the thousands from over the county, and from throughout the area who will be our guests on these Fair Days.

Not only may you visit and enjoy the Fair, but each and every business house in the city will be happy to welcome you, and nowhere on the South Plains will you find better stores and bigger stocks, in all and every line, if shopping you care to do. Not only that, but each and everyone of them will enjoy a visit from you as you visit the Fair. As one prominent business man put it—"It's a grand opportunity for me to get acquainted and make friends with a lot of new people, and I aim to take advantage of every minute of those Fair days in doing just that." All roads lead to Littlefield, Thursday, Friday and Saturday. We want you—we're expecting you—and we promise you—a big Fair and a big time.

at 9:00 a. m. just ahead of the parade.

Judging To Start at 10 A. M.
Hundreds of entries have already been promised and are even now commencing to arrive at the Fair grounds, and which must be in place not later than 10:00 a. m. Thursday morning when judging and ribbon awards, (which also qualify for cash prizes) will start. An entire corps of judges will be on hand, to evaluate the entries in individual departments.

Premiums Increased
Fair officers and sponsors, are hoping for good weather, which would mean not only a bigger fair, but one sufficiently profitable to pay its own way. But, it can be emphasized, little or no thought is being given to the latter angle. Without giving thought or consideration to the matter of gate receipts, the Fair committee has in almost every instance increased both premiums and amusement features, in the secure assurance that Lamb County folks want only the best in their Fair, and only the best will suffice.

In addition to dancing and plenty of band music, amusement features will be in profusion. A big carnival is already encamped on the Fair grounds, a big rodeo and horse show will be staged, hog-callers' contest, and numerous individual amusements have been provided. And a dozen or more gaily decorated stands will serve everything from pink balloons to walking canes, from the lowly hot dog to a full square meal.

Local merchants and business houses, car and implement dealers will show their newest lines and wares, in commercial booths, both in the Fair buildings and on the outside. The committee states, also, that they still have limited space remaining untaken for late-comers in entries in this commercial division. Lon Campbell is in charge of commercial exhibits.

The big Fair catalogues have been off the presses, and in circulation for the past few weeks, and contain the various entries which will be judged, as well as all of the rules.

It is an exceptionally good crop year, and Lamb county exhibitors are certain to have on display farm-grown products better and more prolific than in almost any year in the past.

Dairy Cattle Judging Friday

In the dairy cow, and other cattle and swine exhibits, special dates and hours for judging, so that spectators may enjoy watching the experts pass on the entries, have been set. Judging of dairy cattle will take place at 9:00 a. m. Friday. At 1:00 p. m. the same day, judging of dual purpose cattle will take place. Saturday morning at 9:00 a. m., swine will be judged, and at 1:00 p. m. beef cattle en-

TECH PROFESSOR TO MAKE TOUR

Parsons will sail on the Queen Elizabeth, and while in England he will be a guest of the Textile foundation and the British textile industry. The group will visit British textile schools to study curricula and methods, and later attend a two-day conference at Harrogate, England, on "The Cotton Industry in a Changing World."

While in England, the educators will view the Manchester Machinery exposition and meet with the wool secretariat. At Buxton, England, they will meet with the British cotton board as guests of Sir Raymond Street, president of the Cotton Board of Manchester.

Amherst's First Bale Grown by J. T. Jamieson

J. T. Jamieson, who lives about four miles south of Amherst, had the honor of ginning the first bale of cotton in Amherst this year and of collecting the premiums donated by the Amherst merchants.

Farmers' Co-Op Gin received the bale and ginned it free of charge early Thursday morning. Premiums collected by Jamieson amounted to \$72.50. Ernest Black, local cotton buyer, paid a premium price for the bale which weighed 460 pounds.

This bale was produced from 1720 pounds of snapped Northern Star cotton and produced 720 pounds of cotton seed. Total receipts of the bale brought Jamieson approximately \$225.00. Grade was middling spot with 15/16" staple.

Jamieson extended his gratitude to all the merchants for their premiums and to the Farmer's Co-Op Gin for the free ginning and bagging. This is his first time to bale the first bale of cotton in Amherst. He expected to have other bales next week, but the rain received Tuesday will delay cotton pulling several days.

This year Jamieson has 115 acres in cotton and estimates it will produce 70 bales. He had his hands ready several weeks ago and paid them premium wages of \$2.00 per 100 pounds for pulling the first bale.

Health Program In Three Grades to be Sponsored By PTA

A two-year child physical and health examination plan will get underway in three grades of the local schools within the next few days at the urging, and under the sponsorship of the health committee, of Parent-Teacher association.

Immediately recognizing the difficulty, if not impossibility, of giving thorough physical examination to the entire lower school enrollment, because of their numbers, it was decided to inaugurate the program on a two-year basis. Students in three grades, the 3rd, 5th, and 7th, including also the Duabar school, will be given the examination this year, and next year, the same grades will receive a similar health examination, which of course, will practically comprise children in 2nd, 4th and 6th grades this year.

The examination, which will be given free of any cost or charges to parents, will include examination of eyes, ears, throat, teeth, chest, heart, and lungs. If defects are found, parents will be advised.

Mrs. Dalton Teague, R.N., a new member of the local school faculty, in the capacity of school health nurse, will be in charge of the health survey.

Mrs. F. B. Faust, M.D., a former practicing medical doctor of Philadelphia, Pa., who came here with her husband two years ago when he joined the staff at Payne-Shotwell hospital, will be in charge of the examinations which will be given to more than several hundred school children.

West Plains Baptist Association Hold Annual Conference

A state denominational budget of ten million dollars was the main item of discussion when Baptists of this area met Tuesday, September 20, for the annual conference of the West Plains association. The West Camp Baptist church, Muleshoe, was headquarters for the meeting.

Dr. A. C. Miller, head of ministry to minorities for the Baptist General convention of Texas, presented the ten-million-dollar budget, which comes up for approval at the statewide Baptist convention in El Paso in November. For the first time, the state executive board asked the convention to adopt a budget only half of which go for state missions, the other half to worldwide causes.

Representatives from the twenty-four churches in this association reported on the progress of their various organizations and made plans for the coming year.

Dr. Miller urged the individual churches represented to follow the convention example by designating fifty percent of their own budgets for worldwide causes.

The Baptist churches in this association have a total membership of 5,801.

Large Amount Of Liquor Taken In Raid Near Roundup

Nine hundred and fifty pints of whiskey, 176 half-pints of whiskey and 7,522 12-oz. containers of beer were recently taken in a raid on the old Hoping barn a half-mile south of Roundup.

Three men were arrested in connection with the raid. They were: Bob Vaughn, W. T. Baker, and A. A. (Audy) Tipton, who were charged in Hockley County court with possession of liquor for the purpose of sale in violation of the law.

Fred Prestage, head of the liquor control board at Lubbock, and a group of inspectors out of his office, made the raid after securing a search warrant out of Peace Justice Richards' court.

It was estimated that the wholesale value of this contraband was over \$3,600.—Anton News.

Funds Needed Badly In Polio Epidemic

The 1949 polio story is not finished, although the numbers of weekly cases apparently are at last going down somewhat. The story is only a little more than half told. As the epidemic slowly recedes, new cases are reported daily. They still are being reported at a rate of about 3,000 a week for the nation. As fear for your own children lessens a little, somebody else's children are making the long uphill fight to overcome weakness and crippling. The period of heaviest financial need lies just ahead.

Yet March of Dimes epidemic funds have been wiped out by the severity of the summer's epidemic. That is why the National Foundation for Infantile Paralysis has launched the polio epidemic emergency drive now in progress asking people throughout the nation to mail contributions to polio, care of any local post office. It will take \$14,500,000 more than is available for patient care until the next March of Dimes is held.

About half the 23,741 youngsters and grownups who contracted infantile paralysis this year before September 3rd are home now from the hospital. Those who remain are those whose attacks were severe and those who came down with the disease late in the summer. For them, adequate medical care is just as important—maybe even more desperately needed—as for the early cases. And to their ranks probably will be added another 16,000, those who succumb to the virus in the week of steadily decreasing polio incidence, making an expected total of 40,000 cases for 1949.

This adds up to a costly bill for the national foundation. To care for all who need financial assistance, the early and the late cases, the fortunately mild and the tragically severe, the National Foundation will be called upon to spend \$26,000,000 this year. And to that must be added \$5,000,000 to continue care for those 1948 patients who still need medical treatment in 1949.

When the emergency drive opened there was barely enough remaining in the national epidemic fund to allow eleven days' advances from national headquarters to the chapters whose local March of Dimes funds were exhausted. With daily expenditures averaging \$100,000, using every available dollar short of slowing the important research and professional education programs of the national foundation, there is no alternative to asking the American people for the amount needed to continue to help all those who need help—and help them promptly, when it counts.

The final answer to the polio puzzle lies in scientific research, of course. The broad and comprehensive program of research, made possible through March of Dimes contributions for eleven years, is producing results that are more than promising. From current signs

the solution to infantile paralysis will be found in the not unforeseeable future. But until it is, immediate treatment of patients is imperative. You do not stop to investigate the cause of a plane crash until all aid possible has been given to the survivors. You do not stop to investigate a fire until those trapped in the burning building have been carried to safety.

This is an emergency. It must be treated like an emergency. Polio treatment is very costly. It takes weeks, months, sometimes

years to take away—with happiness—the hospital bed, the wheelchair, the crutch, the brace—the pitiful but powerful aids to the afflicted.

We must heed the call for help from every child who needs our help, lest even one be made a cripple because we, his fellow citizens, did not care enough — nor care soon enough.

In Littlefield, such a campaign is underway and Littlefield and area residents may contribute by mailing their contributions to Polio care of Postmaster Storey.

NURSERY

This week we find there are three girls and two boys peeping out of the nursery at some proud mamas and papas. The proud folks are: Mr. and Mrs. Charles O'Connor of Sudan, a baby boy, Sept. 7. Mr. and Mrs. N. H. Morris of Amherst, a baby girl, Sept. 10. Mr. and Mrs. Ruby Barton of Muleshoe, a baby boy, Sept. 11.

THE MAR VELS will appear, nightly, at the 32nd annual Panhandle South Plains Fair, Sept. 26 through Oct. 1 at Lubbock, in the Gertrude and Readolph Avery Musical Revue. The group of teeter-board tumbler are pictured above as they send one of their members sailing through the air to land in the chair which is supported on the top of a 14-foot pole. Chuck full of speciality numbers which include singers, dancers, comedians, and balancing acts, composed of former movie stars, swank night club entertainers, circus performers, and Broadway production stars, never let the show grow stale. The Musical Revue is built around 16 lovely chorines, who will present "Snow White and The Seven Dwarfs" and the charming "Ballad of Flowers" in the overall production "A Trip to Wonderland." Prices for the attraction have been contracted at the lowest possible scale to allow more people to attend the Revue. Admission has been set at \$1.00 for adults and 40 cents for children—tax included. Absolutely, it is believed by critics to be the greatest production ever held in West Texas, and will be educational as well as entertaining. Beauty, culture and art will not be lacking in The Gertrude and Randolph Avery Musical Revue.

AMHERST SCHOOL NEWS

Yes, school has started again! For some, the year will be one of those long, drawn-out years of school. Yes, and for some, the shortest year of school in all their 12 years. All the four grades in high school have elected class officers. The senior class have also chosen their "High School Paper" staff, and the first edition of the little paper came out Friday. The Pep Squad has also chosen officers, leaders, and uniforms for this year of football. Sponsors are Miss Phelps and Mrs. Owens. The group is patiently waiting the first game which will be played with the Dimmitt Bobcats at Dimmitt tonight at 8 o'clock.

New Telephone Rates Announced

Announcement of necessity for new telephone rates at Littlefield has been made by G. D. Shelley, district manager for the Southwestern Associated Telephone company. Greatly increased costs of furnishing telephone service make it necessary for the telephone company to place new rates into effect immediately. Shelley states that he plans to go before the city council at an early date to explain the need for new telephone rates

here. "We are proud," Shelley said, "that in the past eleven years we have been able to provide more and better telephone service without increasing rates. However, the pyramiding effect of higher costs of operations—higher wages, taxes, equipment and supplies—make new rates necessary despite every possible economy that could be used." Shelley said that while revenues had increased, expenses had increased much faster and that earnings in 1948 dropped to two per-

cent. "The new rates are reasonable and are necessary to help pay the cost of furnishing telephone service. We do not seek big profits, but are asking only for rates that will provide enough earnings so that we can continue to expand and improve service," it was stated. For residence users the new rates represent an increase of from less than one cent to 12/3 cents per day. For business users the new rates represent an increase of from 4 1/6 cents to 6 2/3 cents per day.

Band Mothers Sell Food to Pay for Musical Equipment

A special campaign is underway by the Band Mothers to raise money to pay for certain musical instruments purchased last year for the band. Band Mothers are selling hot

dogs and coffee at all the football games in Littlefield, and also will have a stand at the Fall Fair this week and sell hot dogs, wafers, coffee, cold drinks and cakes and pies. At the Square Dance Festival Thursday night they will also have a stand and sell eats. Returns from these sales will go toward paying off the debt for musical instruments.

A Lesson Every Youth Should Learn

Schooldays are here again and Young Americans are resuming their training for Life. There's no more valuable lesson for every youth to learn than that of Thrift. Boys who are members of the Woodmen Society learn that success depends on what one saves. Along with the financial security they build with safe, sound, legal reserve Woodmen life insurance protection, they also enjoy the character-building fraternal and social activities of Boys of Woodcraft.

Ask the local Woodmen representative about the Educational Endowment and Success Builder certificates for your son. Let him explain the many life-long benefits your son will receive as a member of the Woodmen Society.
