

Government Requests Newspapers To Aid In Bond Drive

Various channels of the United States Government are bringing to the attention of the newspapers their responsibility, and that newspaper advertisers, in carrying through the Fifth War Loan Drive to a successful conclusion. Newspapers and newspaper advertisers have been given extensive credit by our Government for the success of all of the previous

drives, and for the Fifth War Loan Drive a more intensive effort than ever before has been requested.

Lamb County Leader advertisers and the management and personnel of the Leader have entered actively and extensively into previous campaigns, and the call for an enlarged service in the Fifth War Loan Drive is being enthusiastically received.

Sponsored Advertising Important.
"Our country needs the support of sponsored War Bond newspaper advertising, more this time than ever before, and your full co-operation will be greatly appreciated," says a letter received by the Lamb County Leader from the United States Treasury Department.

Among the outstanding organizations working with the Government in advancing the success of the Fifth War Loan Drive is the Newspaper Advertising Executive Association. The Leader has just received a letter from Col. Leroy W. Herron, chairman of the association's War Bond committee. Mr. Herron's letter reads in part:

"Despite the fact that you are still in civilian clothes, there is now an opportunity for you to contribute in an important way to help win the war, and winning the war is the most important job that any of us have to do."
"NEWSPAPER ADVERTISING TO INFLUENCE THE PUBLIC AND TO AROUSE THEM TO BUY WAR BONDS DURING

THIS COMING CAMPAIGN IS ABSOLUTELY ESSENTIAL TO ITS SUCCESS."
Col. Herron informed us that "the important part that newspapers and newspaper advertising has played in the previous campaigns is well recognized here in Washington by Treasury officials."
Col. Herron concludes his letter (Continued on Back Page)

County Wide War Bond Meeting To Be Held Next Week

District War Finance Official Expected To Attend This Session

Pat Boone, County chairman of the War Bond committee, announced today that a meeting of all county committees would be held next week for the purpose of making plans for the Fifth War Loan Drive, which will get underway over the week of June 12.

Boone stated that the time and place for this meeting had not been decided on.

O. Stone, who so capably served as County chairman in the Fourth War Loan Drive, will also serve in the coming drive. The fact that the county will again have the fine leadership of Mr. Boone and Mr. Stone is ample assurance that the drive will be left unturned to see the county's quota. These men, in the last drive, gave unstintingly of their time and effort, with fine cooperation of the other committees in the county, and the county is proud to announce that they will again lead the Fifth War Loan campaign.

Boone also announced that there will be a special District War Finance official here to assist in carrying out plans for the coming drive. Lamb County's quota is \$755,000, of which \$305,000 to be purchased in bonds, securities of smaller denominations. The State quota is \$400,000.

COUNTY WIDE OPA MEETING TO BE HELD HERE FRIDAY

GENERAL MOISTURE FALLS OVER SOUTH PLAINS AREA THURSDAY

Littlefield Gets Nearly Two Inches Over Past Week End

Falls Slowly And At Right Tempo To Be Especially Beneficial

Rains fell over Littlefield and the South Plains area over the week end, drenching the entire territory, the first good moisture received in several months. The moisture was reported to have gone north into Kansas, west to the New Mexico line, far into South Texas, and east to Dallas. Littlefield received 1.83 inches, while many communities in the area reported as much as three and four inches.

Rains began falling at 4:30 o'clock Thursday afternoon, continuing more or less until noon Sunday.

A heavy downpour was reported at Enochs Thursday, where about four inches fell.

While the moisture may necessitate some re-planting of newly planted row crops, the rains were welcomed. Some re-planting is reported necessary in the Enochs area, where the rains fell heavy. In most areas, however, as in the Littlefield section, the rain fell slowly—at the right tempo to soak into the ground, not hard enough to pack the ground, and is proving especially beneficial to the growing crops. Farmers of this area report sufficient moisture for the present.

Spade received two inches of moisture while north of that community four inches are reported, with three inches at Fieldton, three inches at Sunnydale; two inches at Spring Lake; with over two inches (Continued on Back Page)

Jesse L. Murdock Is Awarded Wings

Pfc. Jesse L. Murdock, Jr., son of Mr. and Mrs. J. L. Murdock, of Littlefield, is included in the large class of aerial gunners to guard Army Air Forces' bombers which was graduated this week from the AAF Training Command aerial gunnery school at Harlingen Army Air Field, Texas. These aerial gunners are regarded as the "Sharpshooters of the Sky."

At brief graduation exercises held at Harlingen Murdock received a pair of gunner's silver wings, as well as a promotion in grade. Unless retained at Harlingen as an instructor, he will join an aerial combat team. A comprehensive seven-week course in every phase of aerial gunnery warfare has prepared him for his place in America's stepped-up air offensive.

Texas Parents-Teachers Assn. Express Thanks

The Leader is in receipt of a letter of appreciation and thanks from the Texas Congress of Parents & Teachers for its contribution towards the success of the recent Annual District Conference held here April 27 and 28. The letter follows: "The Board of Managers of the Fourteenth District of the Texas Congress of Parents and Teachers wishes to express its appreciation for your willing efforts and your contribution to the success of the Sixteenth Annual District Conference held in Littlefield, April 27-28. The success of the program would not have been as it was without this contribution, for which we are not ungrateful. It will be through such channels that this folk-movement will be through such channels that this folk-movement will be kept foremost in the minds of our people."

Pat Boone, president of the Littlefield Cemetery association, announced Tuesday that the clean-up and beautification program being carried out at the cemetery during the past ten days had been an outstanding success. He stated that wonderful cooperation had been received on all sides, and he asked the Leader to thank the people of this area for the fine work they had done, and to ask their further cooperation and assistance in keeping the cemetery clean and making the grounds as attractive as possible.

Mr. Boone stated that they were erecting a 75,000 gallon quarter inch steel tank at the cemetery, and he felt that now their water troubles were over. This tank represents an investment of about \$400.

In this connection, Mr. Boone also said: "As soon as the war is over, and building materials are available, it is the aim of the directors to build a cottage on the grounds, and maintain a sexton at the cemetery at all times. In that case the grounds would be maintained by the sexton, who could also do any special work that owners of the lots might desire at a small fee to them. In that way owners of lots who had moved away from here could have the graves of their loved ones taken care of by paying a certain fee to the sexton."

Several hundred people attended the beautiful memorial service at the cemetery Sunday. Flags and flowers were placed on seventeen graves of veterans of World Wars I and II.

Miss Jennings Issues Statement To Lamb Voters

Resident Of County For Nine Years Seeks Office Of County Clerk

Miss Treva Jennings, who authorized the Leader last week to announce her candidacy for the office of County Clerk, is making her formal statement as follows: "To The People of Lamb County:

"In announcing my candidacy for the office of County Clerk, of Lamb County, I wish to state that this is my first time to seek a public office.

"I have resided in Lamb County for the past nine years, having moved to this place with my family in 1935. I am 25 years old; was graduated from high school in 1936, and attended West Texas State College for one year. My plans were to continue my studies in college, but circumstances made it necessary that I discontinue further schooling and seek employment. In the fall of 1937, I began work (my first position being in the County Clerk's office) and have been working in Lamb County offices since that date. Having worked for several years in the office for which I am now announcing my candidacy, I feel that I am fully capable of performing the duties of that office. I was also employed as Chief Deputy for approximately two years by the present County Clerk, during which time I familiarized myself with the records and with the responsibilities of that office.

1944 Annual Audit and Report of City Finances

OF THE CITY OF LITTLEFIELD

AS MADE TO THE CITY COMMISSION, FOR THE YEAR ENDING AS OF MARCH 31, 1944, BY MONTGOMERY & WITT, AUDITORS, OF LUBBOCK, TEXAS.

In Condensed Form (with some explanatory notes on individual items, and distinguished by the word "Explanation"), showing the financial status of each department, and total bonded indebtedness. Especial attention is called to the fact that the over-all report reflects a splendid financial position, with assets of \$455,048.43, and liabilities of \$323,378.20. This means that the physical assets owned by the City exceed liabilities by \$131,670.23. Aside from current bills, the City has no other indebtedness other than bonded indebtedness, bonds voted for specific purposes, and the outstanding of these totaling approximately \$323,500.

The preface of the audit says (in part) the following:
Touching on the executive operations of the City of Littlefield, we wish to commend the officials for the record of improvements that has been made in the city in the last few years. By referring to prior audits and the minute books, we find that there has been seven miles of pavement laid in the city with not a cent of indebtedness. There has been thousands of feet of sidewalks, the two inch mains have been increased to four inches and the four inch mains to six inches. The city has at this time 919 water connections. These things are in addition to no city liabilities, except the bonded indebtedness, which has been decreased during the past twelve months by \$5,000.00 and the delinquent taxes have been decreased in the last fiscal year by \$3,857.53. We would like to add that there is no delinquent interest due on the bonded indebtedness.

PENICILLIN TREATMENT EMPLOYED BY PAYNE-SHOTWELL HOSPITAL & CLINIC

Penicillin, new wonder drug, which has been largely perfected since World War II, and which is proving of life-saving value in the treatment of the wounded in the service, for all kinds of wounds and infections, gangrene, etc., and which only recently reached a volume of manufacture to permit the allocation of some of this precious drug to private hospitals throughout the State, was employed last week by the Payne-Shotwell Hospital in an effort to save the lives of two of this hospital's patients—Jimmy, eight year old son of Mr. and Mrs. George E. Brown of one mile north of Circle, and Wendell Lafon, 9 year old son of Mr. and Mrs. A. T. Lafon of Causey, N. M.

Both children were reported in critical condition. Jimmy Brown suffered a gunshot wound, a bullet from a .22 rifle having completely passed through his stomach when the gun fell and went off accidentally while

he and companions were playing in the Brown garage. Wendell fell from a gin left while hunting birds' nests. Penicillin is said to be manufactured from a mold extract.

Pryor suffered an injury to his right leg when in paratroop training, which recently has developed into a bone tumor, and on which military doctors plan to operate. Mr. and Mrs. Hammons left here, following this advice from the Army doctor treating Pryor, expecting that they would operate on the boy's leg, but after spending two weeks in Oceanside, they were awaiting X-ray pictures taken soon after the injury at San Diego, and did not think it advisable to operate until these pictures were available for diagnosis.

While Mr. and Mrs. Hammons were at Oceanside, Sgt. Maxie McKnight, stationed at Mojave, Calif., spent the week end there; and Mrs. Hammons' brother, Bill Gilliland, of Richmond spent a couple of days with Mr. and Mrs. Hammons and son, Pryor.

Agricultural experts wisely suggest that at least we grow these "Big Six" vegetables in our back yards this year and get the most for our money and effort. They're the "Big Six" because they have been selected for their high nutritive values, ease of culture and volume of yield. Since food is vital to winning the war, let's plan our Victory Gardens now and help to hoe the Axis under.

City Is In Good Financial Condition

The 1944 annual audit and report of city finances of the City of Littlefield is published in this week's issue of the Lamb County Leader.

The audit for the year ending March 31, 1944, was compiled by Montgomery & Witt of Lubbock, and has been presented to Mayor Homer Hall and Commissioners Beamon Phillips and Ellis Foust.

Publication of the annual audit and report of finances is part of the program of the mayor and commissioners to at all times acquaint the taxpayers with the facts as regards the operation of the affairs of the City of Littlefield.

Especially attention is called to the fact that the over-all report reflects a splendid financial position, with assets of \$455,048.43 and liabilities of \$323,378.20. This means that the physical assets owned by the City exceed liabilities by \$131,670.23. Aside from current bills, the city has no other indebtedness other than bonded indebtedness, bonds voted for specific purposes, and the outstanding of these totaling approximately \$323,500.

The preface to the audit says in part:

Touching on the executive operations of the City of Littlefield, we wish to commend the officials for the record of improvements that has been made in the city in the last few years. By referring to prior audits and the minute books, we find that there has been seven miles of pavement laid in the city with not a cent of indebtedness. There has been thousands of feet of sidewalks, the two inch mains have been increased to four inches and the four inch mains to six inches. The city has at this time 919 water connections. These things are in addition to no city liabilities, except the bonded indebtedness, which has been decreased during the past 12 months by \$5,000, and the delinquent taxes have been decreased in the last fiscal year by \$3,857.53. We would like to add that there is no delinquent interest due on the bonded indebtedness."

PLAN and PLANT a "BALANCED PROGRAM"

As the days in the planting season go swiftly by, every farmer in the Cotton Belt should think and ask himself these questions.

Am I planning my program to the best advantage of the war effort and myself?

Is there enough cotton acreage to balance my grain and livestock production?

Will there be enough cottonseed meal and cake for cattlemen and dairymen who can't raise their own cotton?

Is there enough cotton acreage to maintain high production levels in event of a drought?

Is land suited to cotton being allowed to do its share in the FOOD AND FEED PROGRAM of the Nation?

If the answer to these is obviously "no," then GET IN BALANCE BY PLANTING MORE ACREAGE TO COTTON.

Seats Being Built At Fundamental Baptist Church

Work continues at the Fundamental Baptist Church in the erection of

the pews, and other work necessary for the completion of the new auditorium. Seating capacity is about 300 attendants.

The Littlefield Cabinet Shop built the jacks for the seats, and a number of the members of the Fundamental church completed the work. Those contributing their labor to this work were: Harley Miller, Buck Barrett, Bob Cox, Herman West and Herman Rice.

Among others who donated their valuable time to the building of the new auditorium at the Fundamental Baptist church are: John Clayton, Connie Powell, Les Sinclair, Bill Taylor and Shirley Bevil.

Rev. Power has been pastor of the Fundamental Baptist Church for the past three years. He has planned a rather extensive series of meetings, to be held over Texas for this summer.

Rev. Power will conduct a meeting at Borger for the week from June 6 until the night of June 10; and at Coleman from June 12 to June 25. He will spend from June 25 until July 9 here, and during that time will occupy the local pulpit. He plans to go to Wichita Falls starting a meeting on July 10, which will continue for two weeks. For the first week in August Rev. Power will speak at Breckenridge. Other meetings planned are at Abilene, Burk Burnett, Sulphur Springs, Kilgour, Chickasha, Okla., etc.

Attends Church Meeting At Fort Worth This Week

Rev. Lee Hemphill left Monday morning, accompanied by Rev. Furr, Baptist pastor of Anton, to attend the Evangelical Conference, which convened at the Southwestern Baptist Theological Seminary at Fort Worth from Monday through Wednesday.

Among other pastors who attended from this area was Rev. B. P. Harrison of Amherst.

Pep And Littlefield Made Two Parishes; New Pastor Here

With the completion of a new rectory at Pep, the Littlefield-Pep parish of the Catholic church was divided.

Rev. Matthew Schafle, who pastored the Littlefield and Pep churches, was transferred to the Pep church, and Rev. Florence Michael Higgins, formerly of El Paso, became pastor of the local church.

The new rectory at Pep had been planned for several years, but was only recently completed. It has six rooms and bath, and was built entirely by donated labor.

Rev. Father Higgins came to the United States from Ireland at 20 years of age, and completed his studies at Kenrick Seminary, St. Louis. A resident of Texas for many years, Rev. Father Higgins has been pastor of churches at Ranger, Dalhart, and other places. He came to Littlefield from El Paso, where he had been a guest of Bishop S. M. Metzger.

Give Demonstration To Club Members

Victory Demonstrators Mary Ann Jones and Bouncer White of the Amherst 4-H Club gave a demonstration on "Production of Clean Milk" to 161 4-H Club boys and girls during the month of May. The demonstration, prepared and directed by Miss Vera Crippen, Home Demonstration Agent, and S. L. Garrison, Assistant County Agent, covered part of the eight-point program in the production of more milk per cow and the production of clean milk.

The demonstration consisted of exhibitions of the correct milk pail and strainer as opposed to an ordinary bucket and strainer, the results of sediment tests on various strainers and filters, the best methods for preparing the cow for milking, and the care of utensils. Mary Ann and

Bouncer also showed charts emphasizing the relative food values of milk and other foods.

These two 4-H Club members gave their demonstrations to 10 clubs in the county, including Sudan, Amherst, Littlefield, Olton, Spade, Spring Lake, Hart Camp, and Fieldton. Members of the various clubs reported the demonstration was not only interesting but very helpful to them in learning of the best methods of milk production.

IMPORTANT INFORMATION

When your car develops a knock or a rattle, you immediately take it to the garage to see what the trouble is. When a pain develops in your body, do you go to a doctor and see what the trouble is or do you say, "Oh well, it will be all right in a day or two," and just let it go until it has gone so far that many times it is too late to get relief?

You wonder why so many people are dying from cancer and heart trouble. It is because they do not look after their health until it is too late.

If you think you might have any of the following diseases: rheumatism, chronic appendicitis, dizziness, headaches, gas pains, high blood pressure, diabetes, constipation, neuritis, sluggish liver, coated tongue, heart burn, or many other common ailments, come in and I will always take time to talk to you about your health problems. If I can help you, I will be glad to do so—if I don't think that I can be of any help to you with your health problems, I will be man enough to tell you so.

Club Boys Produce Enough Food For 200 Fighting Men

Enrollment In County Show Total Of 352 Boys With 410 Demonstrations

The 4-H Club boys of Lamb county will produce enough food for their projects this year to provide for the food needs of approximately two hundred fighting men for one year, according to the figures of S. L. Garrison, Assistant County Agent.

The final enrollment in the 4-H Clubs of the county show a total of 352 boys with 410 demonstrations. The most favored demonstration is swine, with 177 boys having 355 pigs. Eighty-seven boys have 95 calves, 50 boys have 54 dairy cows and heifers, and 32 boys have 1,257 hens and fryers. Other projects chosen include lambs, goats, cotton, wheat, grain sorghum, and rabbits. If all of these projects are completed, a conservative estimate of production would make the total equal the annual food needs of two hundred men.

public office. I am seeking this office because I feel that with my previous training and experience that I am equipped to carry out the duties of County Clerk in a satisfactory manner; and should the voters see fit to elect me I would devote my entire time to the office, and will fill the office to the very best of my ability.

"When voting for a candidate for any office, it is right and proper that the voter should know something of the man for whom they cast their ballot. Without going into too much detail I want to tell you that I am now 40 years of age, married and the father of three children, and we have made our home in Littlefield and Lamb county for twenty years, coming here in 1924, although a part of these years was spent at Big Springs and Abilene.

"I am a native Texan, born in Navarro county, and my wife is likewise a Texan, having been raised in Erath county. Our children, the youngest only ten months old, have all been born in West Texas. There is nothing of pride, nothing but a friendly humble feeling that prompts me to tell you that I do need the office, and will try to repay you for electing me to it by conscientious endeavor.

"In regard to qualifications, I wish to say that I am a public accountant, fully familiar with all phases of figures and book work, and in recent years have been doing auditing and income tax work. In prior years I worked for the Texas Railroad Commission, being connected with the auditing department of the oil and gas division.

"It will be impossible for me to contact all of the voters. I believe that each of us should try and preserve tires and save gasoline as much as possible, in line with our government's request.

"However, I want to see as many of you as actually possible, and will try and see most of you between now and the July primary.

"Folks, I will appreciate very much your vote and support at the coming July primary."

bert Dunn, as Deputy District Clerk, and also by Mr. E. S. Rowe as typist for Rowe Abstract Company. My present position enable me to keep in close contact with the records of the County Clerk, since abstracts are made up from them, and abstract indexes must be kept up to date from these same records.

"I feel that I am acquainted with many of you, through office correspondence, having handled papers for you in both the District and County Clerk's offices, and my intentions are to meet, personally, as many of you as possible. Due to the scarcity of tires, and due to the fact that I must attend to the duties of my job, it will be impossible to meet every one; therefore I am asking that you consider this announcement as a personal solicitation of your vote and influence. I am just an ordinary working girl, who has ambition to serve you and who appreciates every advancement.

"I want to make a special appeal to my friends all over the county, who know me, and who know my work, to respond to my call for support and assistance. You can be assured that it will be greatly remembered. If I am elected, it will be due to your help.

"If you will seriously consider this matter, I believe that you will want to elect to the office someone who is qualified to serve through actual experience. I feel that my previous training will enable me to give the kind of service you want of your county clerk.

"If given the opportunity to serve you in this capacity, I pledge my full time and energy to the job, and promise that the office of County Clerk will be handled in an honest, fair and efficient manner.

"Your help is earnestly requested, and your vote and influence will certainly be appreciated.

Please Bring In Your News Early

Your Friendly Cooperation Will Be Much Appreciated

With our country engaged in a great World War, virtually every line of business has been forced to operate with a curtailed number of employees.

AND YOUR NEWSPAPERS ARE NO EXCEPTION TO THIS ALMOST GENERAL CONDITION.

Your Lamb County Leader seeks to give an extensive news coverage in Littlefield, Lamb County, and adjacent territory, and the gathering, writing and printing of such a vast amount of news entails hours and hours of work.

Many people are of the opinion that once an issue of a newspaper is published for that week, the office and mechanical staffs have very little to do until just a day or two before the next issue is printed. That is not a fact. A newspaper is continuously in the process of being published. The vast amount of work involved could not be accomplished in one or two days.

That is why we always urge that news be made available to us at the very earliest possible time. If you have some news that you would like printed, bring or mail it to us immediately. In that way you are better assured of space being available for the news you would like to see printed.

We endeavor to have all our news in the Leader office for publication that week by Tuesday night, but please bring in any news you may have immediately it is available, because news must be handled all the time from the publication of the last issue to the publication of the next paper. We could not possibly handle all news in the time available in a day or two.

The only news which we can accept at any time on a Wednesday are deaths, accidents, or other news of outstanding importance.

We want to maintain the Lamb County Leader as the "newspaper" published in this part of the state, and we greatly appreciate the kind co-operation we are receiving from such a large number of people. PLEASE CONTINUE YOUR FRIENDLY ASSISTANCE.

Thank You!

with this statement:

"The war is not yet won but the winning of it is a serious and vital matter to each of us and a great deal of newspaper advertising is urgently needed for this Fifth War Loan Drive—more than we have ever had before."

Everybody's Help Needed

Just as invasion and the winning of victory is everybody's job and responsibility, so is the promotion and sale of War Bonds. Numbered among the five million volunteer War Bond salesmen are people of all races and creeds, with one common denominator—they are all true Americans.

The Lamb County Leader welcomes every opportunity to advance the war effort, and has been particularly active in aiding in the sale of War Bonds. We appreciate deeply the immense co-operation we have received from our advertisers. Without their help it would have been impossible for us to have so extensively carried the message of the importance and need of buying War Bonds.

The help of our advertisers will be deeply appreciated as we go about the task assigned to us by our Government—the promotion and sale of War Bonds.

FUNDS ASKED BY ARMY BELIEVED SUFFICIENT TO DEFEAT GERMANY

According to Representative Geo. Mahon in Washington, hearings will be completed this week on the annual War Department Appropriation bill to supply the Army with funds for the fiscal year beginning July 1. The bill now in the subcommittee involves the largest appropriation to be considered by Congress this year, the Army requesting the total sum of forty-nine billion dollars, including reappropriations.

Mahon is a member of a seven-man subcommittee of four Democrats and three Republicans, which conducts hearings and handles in

the House the appropriations for the Army.

On the current bill General George Marshall, Chief of Staff, General Arnold, and many other officers of the Army have appeared before the committee to discuss and explain the war situation and the need for the funds requested. However, because of the nature of much of the testimony, the hearings on the bill are not open to the public. The bill covers appropriations for all items of expense of every nature for the carrying on of the war by the War Department. Included are pay, food, clothing, guns, ammunition, airplanes, fuel, and innumerable other requirements for an army of 7,700,000 men. One of the usual requests of the Medical Corps is for one hundred million dollars for the new wonder drug Penicillin, designed to save the lives of thousands of our fighting men.

Mahon states that the belief is that no funds other than those now being requested will be required by the Army for the defeat of Germany—that while the fighting has not reached its peak, war spending has reached its peak and will taper off very sharply within a few months.

MOTHER OF MRS. JAQUESS HAS RIGHT LEG AMPUTATED

Mr. and Mrs. L. W. Jaquess of Earth left for Ada, Okla., Wednesday of last week in response to a telephone message that Mrs. Jaquess' mother, Mrs. Amanda Cowen, was having her right leg amputated between the hip and knee, as a result of an old trouble, a complication of an infection.

Mr. and Mrs. Jaquess were accompanied to Ada, Okla., by their son, Clifford, Jaquess. Enroute there on the road near Matador, by the Matador Ranch, the car Mr. Jaquess was driving collided with a cow, and although no one was hurt, only shaken up, the car was wrecked; and they were obliged to have it towed back to Earth while the party proceeded to Ada by bus.

Mr. Jaquess returned to Earth Sunday, while Mrs. Jaquess remained with her mother. Mrs. Cowen is reported to have stood the operation well.

Mrs. L. M. Brandon, was at the port of embarkation last week, when his knee "went out," and he was ordered back to the U. S. Naval Hospital at San Diego, Calif., where he had previously been a patient suffering from a chronic knee dislocation.

Sgt. E. D. Parker, son of Mrs. D. S. Parker, who has been in service three years, and overseas a year, is a cook in the Medical Corps, and now stationed somewhere in Italy. Previous to going to Italy he was in North Africa. Sgt. Parker has been in the service three years, and overseas a year. His mother now makes her home in O'Donnell.

Pvt. Fulton E. Walker, son of Charlie Walker, and cousin of Mrs. George Vaught, stationed on the beachhead in Italy, who attended Littlefield schools about 10 years ago, wrote Mrs. Vaught recently as follows:

"Dear Lucille, "Received your nice letter today, that was written March 24. It was your 36th letter and very interesting."

"Well, Lucille, I am getting along fine, hope these few lines finds all of you the same."

"I should say so, Weldon is lucky if he is getting that many days off. Wish I could even get a day off. But let him get as many days off as he can while he is in the States, because when he ever gets over here, he will have to settle down. C."

"No, I haven't gotten the box yet, but I will get it before long. I got the letter telling me what was in it."

"So George couldn't get his tractor. I figure it is hard enough to get anything back there."

"Lucille, have you sold your eggs yet. I know the other letter I got from you, you said they wouldn't

hardly buy eggs. Just think, several years back people used to pay 40 cents a dozen for eggs. And now over here when we buy a few eggs, we have to pay 25 cents an egg. What do you think about that?"

"I can't hardly figure it out, even if the people are going without food to eat and charging that much for eggs."

"For instance, I will tell you something about the people over here, how they are doing without food to eat. It was a place where we were camped, in range close enough where the people could come around camp. They would be waiting for the food that the boys would throw in the garbage, then they would pick it out with their hands and eat it. What a pitiful sight it is to see them doing that. But don't get it wrong, all he people here are not like that."

"Here's some poetry you might like to read that some of the fellows made up:

WAR IS LONELINESS
"When I lie down to sleep
In the arms of the night,
And the moon like a galleon
Splashes her silvery light.
"Then alone with my thoughts,
How often I weep—
For I think of you, dearest,
When I lie down to sleep."
"Author—Pvt. P. J. Costa."

WAR IS PAINFUL SUFFERING
"Have you ever lain out yonder
With death's breath upon your face,
And you wonder how much longer
They'll take to lay one in this place?
"And the next burst is much nearer,
And you look up into the sky;
Then you find that life is much
dearer,
As in helplessness you lie.
"Your thoughts of home get hazy,
As you struggle to move around;
But you feel so doped and lazy,
You slide back in blood on the
ground."

"You give a start as you waken,
Can't believe what you saw—
It leaves you then quite shaken—
But it's the medics combing the
draw!"

"You yell; Thank God, they've heard
you,
And you breathe a word of prayer;
If you know how it feels when they
find you,
Then God help you. (You've been
there.)
"Pfc. Dan Gravely."
"So will close for now."

"Your Cousin,
"FULTON."

Pfc. Walker's father formerly carried the mail on Star Rte. to Morton. He has a brother, S-Sgt. Weldon Walker, at Altus, Okla., who has been in the service three years.

Pvt. Fulton Walker has been overseas since November.

Their parents live at Hollis, Okla., but at present are working at an airbase at Childress, Texas.

Mrs. Vaught says she has written Pvt. Fulton Walker 88 letters and that he is 52 letters behind in getting his mail.

With South Plains Men In The Service

Bartee Haile, Yeoman 2-C, son of Star Haile of this city, has been transferred from the Amphibious Force to duty on the Destroyer USS

Ammen. He has been in the service 18 months and overseas 16 months; has been serving in Australia and New Guinea, and is now somewhere in the South Pacific.

S-Sgt. Jimmie Walker, son of Mr. and Mrs. Carl Walker, on a ten-day

delay enroute to Camp Harahan, near New Orleans, arrived home Friday, May 19, leaving here Saturday, May 27. He planned to visit friends in Roswell, and then return to Fort Bliss, where he would receive his traveling orders. He will leave from there for New Orleans, and his new location. He has been overseas a year, in the Central Pacific.

Sgt. Bruce was home last October. An effort was made to secure for him an emergency furlough at the time his father was killed in June of last year, but he was not permitted a leave at that time.

Mrs. Lee Bruce also has two brothers in the service: Sgt. Paul Blackwell and Pfc. W. H. Blackwell, both of Whitharral.

Darwin Pierce, CM 2-C, son of Mr. and Mrs. V. B. Pierce, of College Heights Addition, Littlefield, who has been in the service for two years, has been overseas since December, 1942. According to his mother, he wrote sometime ago that he was engaged in carpenter work in the Green Islands, located near the Marshalls.

T-Sgt. Buck Teague, a member of the Medical Corps, and stationed at Camp Breckenridge, Ky., and formerly manager of the Doggett Grain Company here, arrived home Saturday night on a ten day leave. Sgt. Teague has been in the service two years.

"I hope to be home long enough for my 19th wedding anniversary, June 5," he said.

Mrs. Teague has not been in good health recently, and after being a patient in the Payne-Shotwell Hospital, she is now resting at her home. Sgt. Teague left on his furlough two days earlier than he anticipated because of Mrs. Teague's illness.

Mrs. Lee Bruce of Plainview, formerly of Littlefield, has three sons in the service, and all overseas. She spent most of last winter with her daughter, Mrs. Bill Tolbert, at Vega, but returned to Plainview about six weeks ago.

S-Sgt. Harvey L. Bruce, 29, Engineer Gunner on a Twin Engine B-24 Bomber, is stationed in England. He has been in the service 2 1/2 years and overseas since March 1. Previous to going overseas he was stationed at Wendover, Utah, and was at this field at the time that Jack Fowler was killed. He talked with Pvt. Jack Fowler just before he took his last flight in which he crashed.

Lieut. John B. Bruce, 27, with the Anti-Tank Infantry, stationed in New Guinea, has been in service four years, and overseas about three months. He left from Camp Pickett, Va. His relatives did not hear from him for three months after he left the States, but his wife has received two letters from him, and he states it is very hot where he is stationed.

Sgt. Charles H. Bruce, 24, has been in the service 5 years, and overseas since war was declared in December, 1941. He is with the Coast Artillery and is stationed in Hawaii, close to Honolulu. He states that they enjoy a nice climate; that it never gets below 70 degrees.

All the sons of Mr. and Mrs. M. C. Taylor of Littlefield are in the service; two in the Navy, one in the Air Corps, and one in the Marines.

The most recent to enter the service was Henry Taylor of Selma, Calif., who enlisted in the Marines about a month ago. He is married, has two young children, and has been a resident of California for the past five years.

The other sons are: Bob, serving with the Seabees somewhere in the South Pacific; Jimmy, in the Air Corps in Alabama, and Waymon, who is taking training at Georgetown, Texas, to become an officer in the Navy.

Henry is stationed at San Diego. All the Taylor boys formerly lived with their parents in Littlefield.

Samuel A. (Gus) Thompson, Seabee Third Class, brother of Mrs. T. E. Hamilton, and formerly of Lockney, but known by a large number in this area, is stationed at Vanda Point, Fizi Islands. He was a member of the First Seabees to locate in these islands.

The Seabees, Maintenance Unit No. 503, celebrated their first anniversary on May 6, and Seabee

Thompson sent his sister, Mrs. Hamilton, a program of the event, which is a four-page, mimeographed program. On the front is the Seabee emblem, underneath which is the Seabee Slogan, "We do the difficult immediately—the impossible takes a little longer."

The program included a field meet with 12 events, starting with Tag-Of-War and ending with Officers Ankle Race, followed by a dinner and theatre party.

Jimmie Beisel from Littlefield was formerly stationed in the Fiji Islands with Seabee Thompson, but Mrs. Hamilton, who furnished the Leader with the above information, stated she believed Beisel was enroute home.

Alfred Lynn Castle, 18, S 1-C, son of Mr. and Mrs. O. L. Castle of Morton, formerly of two miles east of town, in the Armed Guard, on the S. S. Abigail Adams, is stationed "somewhere in the Pacific." He has been in the service over a year, and overseas since September.

Seaman Castle writes his parents regularly, and in a recent letter said:

"I sure would like to see you. The next time you go to Littlefield, to the folks "Hello" for me. I don't have time to write everyone. I don't know how long it will be before get home. I hope soon."

Seaman Castle attended Littlefield schools five years, before moving to Morton. He was attending Whitefield High school when he enlisted in the service.
