Time is Precious

New candidates, time is the most
precious commodity in the world.
There is nothing of greater value and
nothing more criminally careless than
the waste of time!

This is true in business, in the
home, everywhere! And, it is espe-
cially true in the Leader's big prize
campaign, just starting. Indecision
and delay in entering the contest, in-
difference or half hearted effort af-
ter starting means small success and
possible defeat. It does not necessar-
ily mean that the ones with the most
spare time will win, but instead, the
ones who act promptly, without de-
lay, and make the most of their spare
time will likely return the winner.

In a campaign of this kind there is
no question about the value of an
early start. Slowness in starting will
work to a disadvantage in more ways
than one. First of all the time is ex-
tremely short and the first in the field
will get the "cream" of votes and
subscriptions and of still greater im-
portance is the fact that the maxi-
mum number of votes are allowed
during the first part of the contest.

LITTLEFIELD POST OF LEGION ACTS TO DISCOURAGE HOARDING, AND INCREASE CONFIDENCE IN BANKS OF NATION

At the regular meeting of the local post of the American Legion Monday night, February 8, the Anti-Hoarding movement was discussed, and a resolution was passed by the members of the Littlefield post favoring the passage of a bill by Congress, making stricter banking laws guaranteeing the deposits in the bank, etc., thereby creating the fullest confidence of the people in the banks, and bringing more money into circulation.

The resolution reads as follows: "February 8th, 1932.

"BE IT RESOLVED, that the members of Richard New Post, No. 301, American Legion, Littlefield Texas, go on record as favoring the passage of a bill by Congress, guaranteeing the deposits in all banks; and that the laws governing operation of banks be so amended that the government may have a closer supervision over same. We believe that this is the quickest and most effective way to restore confidence in the banks of the country and stop hoarding, and when this is

done the \$1,300,000,000 which our President stated in his talk was now in hiding, will be turned back to the banks, as the people will then have the same confidence in the banks that they now have in the Postal Savings Banks.

Furthermore, it will stop any further runs on banks, thereby reducing bank failures to the minimum, and will enable the banks to loan more money with safety to the people, as they will not be compelled to carry an excessive amount of actual cash to take care of some uncalled for run.

"A copy of this resolution to be sent to the State Commander, with a request that he take it up with the other posts of the State for their consideration. Also that a copy be sent to the national commander.

Letters were immediately sent out by the local post of the American Legion to the different congressmen and Senators from this district, and to the national and State commander of the American Legion, asking their support and cooperation in putting over ideas outlined in the resolution.

THE GASOLINE RACKETEER IS ROBBING YOU As Well As Your State. An enormous new racket has grown up in the past few years—the bootlegging of gasoline to escape payment of the state tax. Now an alarming amount of gasoline is being sold without payment of lawful tax. Most motorists who buy bootleg gasoline buy it unknowingly. But know it or not, they are being robbed by the gasoline racketeers every time they buy from them! The gasoline tax you pay belongs to you, and you should get it back from your state in the form of good roads. When you buy bootleg gasoline, you pay all or a part of the tax, too—but the racketeer pockets the money. You never get it back! And remember—if your state received all the money paid as a gasoline tax, it could well afford to lower the gasoline tax! Knowing this, you naturally don't want to buy any bootleg gasoline. To be sure the money you pay as tax goes to your state, buy only gasolines sold under dependable, familiar brand names, backed up by reliable companies who make sure the state gets the tax. By sticking to familiar, reliable brands, you'll help banish racketeers. CONOCO Gasoline is a branded gasoline you can buy with safety at the sign of the CONOCO Red Triangle. CONTINENTAL OIL COMPANY

Rain Falls Here Late Monday Night

Light rains were quite general over the South Plains, heaviest rain being reported at Post, where about one inch fell.

MULESHOE

The Western Drug Company acquired recently a three year lease of the brick building on Main Street from A. V. McCarty, owner, and expect to move their business to that location by March 1.

Elmo Stevens, stock farmer of northeast of Muleshoe, recently shipped a car load of sheep to commission merchants at Kansas City, Mo.

Earl Wendell Richards, two year old son of Mr. and Mrs. E. M. Richards, died Thursday, February 4, in Plainview, and burial took place in the Lazbuddie cemetery, Rev. R. E. Randy of Farwell, officiating.

According to Albert Isaacs, City Secretary, the usual 10 per cent penalty and 6 per cent interest on delinquent City taxes as of February 1 each year has been deferred until June 1, which will save the taxpayers considerable money.

Miss Inez Farrell became the bride of Pat R. Bobo Saturday evening, February 6, at the bride's home at seven o'clock, Rev. C. A. Joiner, pastor of the Baptist Church, performing the ring ceremony.

The bride is the charming daughter of Mr. and Mrs. C. R. Farrell, is a graduate of Muleshoe High school, and has been connected with the local bank for some time.

The groom is the son of Mr. and Mrs. Z. B. Bobo of Fort Worth, and is the county attorney of Bailey county. After a short honeymoon the couple will make their home in West Muleshoe.

The official opening of the nationwide George Washington Bicentennial Celebration will take place February 22 at noon, Eastern Standard Time, when President Hoover will deliver his George Washington address before a joint meeting of Congress. Members of the United States Supreme Court, the Cabinet, foreign diplomats and many other distinguished visitors will also be present. Radio will carry the address to every corner of America over a nation wide hook-up.

Immediately after the address, the President will give the signal for the singing of "America" by a combined chorus of 10,000 singers assembled on the east steps of the Capitol. The entire nation, listening at its radios, is expected to join in this singing. The accompaniment will be played by the United States Army, Navy and Marine bands directed by John Philip Sousa. Walter Damrosch will direct the singing.

In the afternoon, President Hoover, accompanied by members of the United States George Washington Bicentennial Commission and the District of Columbia Bicentennial Commission will lay a wreath on the tomb of the Father of his Country.

The George Washington Colonial Costume Ball, under the auspices of the United States and the District of Columbia Bicentennial Commissions, will be held in the evening in the Mayflower Hotel in Washington, D. C. Every State in the Union will be represented by invited guests.

Even before the official opening of the Celebration, however, the churches of the Nation will participate in an "unofficial" inaugural of the event in religious services to be held in honor of George Washington. These ser-

VICES will commence on Friday evening, February 19, with those whose Sabbath begins at sundown the sixth day of the week. Groups observing the Sabbath on Sunday and Sunday will also hold national services, so it is probable nearly all of the 232,000 churches the country will thus honor the memory of George Washington.

They were accompanied by the bride's brother and sister, Vancil Simmons and Miss Eulema Simmons, who witnessed the ceremony.

Our next meeting will be with Mrs. Mike Brewer on the fourth Friday in February. Each one bring the seeds that they care to exchange. We are hoping to have Miss Mashburn with us soon and wish her a speedy recovery. The Littlefield club meets with Lum's Chapel the second Friday in March.

Seed Tests Indicate Less Cotton Acreage More in Feed Crops

A substantial increase in the number of tests made on various sorghum seeds and a material decrease in the number of cotton seed tests this season indicate that Texas farmers will plant less cotton and more feed crops, J. B. McClung, chief of the seed laboratory division of the Texas Department of Agriculture, said today.

Tests of seed that will be used for planting in cotton this year are about one-third of that of last year at this period, while the sorghum seed tests have increased sharply. Another indication as to this year's cotton planting is that farmers will plant more home-grown seed than in the past. This is attributed to the lack of profit realized from the last crop, necessitating a smaller outlay of money in the cultivation of the 1932 crop.

Growers were cautioned by McClung to plant only tested seed which show a very low percentage of noxious weed seeds. He pointed out that the presence of weed seed in planting seed causes a double increase in the cost of cultivating a crop, for it increases the cost of cleaning the field and also decreases the ultimate yield.

McClung called attention of growers to the fact that the testing division of the department is different from the seed certification division. The seed laboratory division has to do only with the mechanical purity of seed, while the certification division deals with the varietal purity of seed, he explained.

The tests of seed are made by the Department of Agriculture free for all citizens of the state.

CHEVROLET MOTOR COMPANY PRESENTS NEW LINE OF COMMERCIAL CARS

The most complete commercial line ever built by Chevrolet Motor Co. is on display in dealer's showrooms nearby.

The Hewitt Chevrolet Co., Littlefield, are the dealers for this city and district.

Three new chassis and 28 new bodies, covering 80 per cent of all commercial needs, are featured in the new line.

New low prices, with reductions as high as \$65 on some models, are included in the 1932 price range, which extends from \$355 for the half-ton truck to \$1,020 for the 1 1/2 ton truck.

Twenty-eight standard production models, an increase of 100 over last year, comprise the 1932 Chevrolet commercial line.

There are three types of vehicles—light delivery, 131-inch wheelbase truck and 157-inch wheelbase truck.

Increased power, a smoother clutch and a more rigid frame are outstanding features. Other refinements include smoother, neater cab, newly designed wheels, silent synchro-mesh transmission on the half-ton models, larger models and stronger rear ends.

The engine develops greater horsepower throughout the entire speed range, reaching a peak of 53 horsepower at 2,800 revolutions per minute.

This additional power insures better acceleration in traffic as well as providing sufficient torque for exceptional pulling power at low speeds.

Over-draft carburetion contributes to the smooth, quiet operation and increased power developed by the improved Chevrolet engine.

Over-choking has been eliminated by a split-choke which predetermines the maximum amount of choking for ordinary conditions and yet permits full choke when necessary.

Body appearance in the 1932 models has been greatly improved. A choice of 12 colors is provided at no extra cost, including two-color combinations on the panel bodies.

Reduction of excess weight without sacrificing strength or durability, results in lower operating cost, an important economical feature.

The light delivery models on the 109-inch wheelbase are offered in 11 popular types. In addition, a special light delivery chassis with chrome plated radiator shell, headlamps and tie-bar, and with a fender-well tire carrier, is presented.

Ten standard production models are available on the 131-inch wheelbase truck, including a new standard stake express. A combination farm body and a stake express are the new models offered in the 157-inch wheelbase.

The remaining five models have the same general appearance as the 1931, but feature changes which increase the structural strength of the new refined bodies.

Fire Completely Destroys Skating Rink Sunday A. M.

Fire, believed to have been caused by a coal stove, completely destroyed the skating rink Sunday morning about 3:30. The Littlefield Fire Department answered the call, but were not able to save the frame building.

According to Fire Marshall Hoover, the building is owned by Buck Myrick, who carried \$400 insurance on the structure, but nothing on the contents.

A dance had been held in the building Saturday night, and two coal stoves at the south end of it supplied the heat for the evening.

Believe It or Not

A fellow yelled at me the other day, and said: "That is a rattling good car you drive!" I hadn't had my car long and the remark made me sore. But on my way home I noticed I had about a million squeaks and rattles in it.

When I started downtown the next morning I was so ashamed of it I drove on a back street to the Auto Laundry on North Phelps Avenue, next door to the Littlefield Service Station, and let Jerry grease it.

And let me tell you if you want a quiet car, let Jerry grease it. I watched him while he took all of the old grease and dirt from every six-year moving joint and replaced with brand new grease. It took just one hour to do the job and it only cost me 75 cents. It was worth twice or three times that much.

Later in the week I am going to get my car washed and I am sure going to let Jerry do it. When he lets them go they look most like new.

Thanks to the guy what yelled at me and one for Jerry, too.

WASHINGTON THE NATION-BUILDER

(Bicentennial poem written especially for the celebration of the two hundredth anniversary of the birth of George Washington.)

By EDWIN MARKHAM, Author of "The Man with the Hoe"

A Spartan mother called him into Time,
And kindled duty in him as a flame;
While he was schooled by the primeval hills
Of old Virginia—schooled by her mighty woods,
Where Indians war-whooped and the wild beasts prowled.
His name was written on no college scroll;
But he drank wisdom from the wilderness.
The mountains poured into his soul their strength,
The rocks their fortitude, the stars their calm.

He grew a silent man;
Yet carried on all roads
The lofty courtesies, the high reserves.
He seemed to know, even in the noise of time,
The solemn quiet of Eternity.
But fiery energy, a live crater, slept
Under that mountain calm; yet never blazed
Into a passion, save in some black hour
When craven souls betrayed the people. Then
He was all sword and flame, a god in arms.

With the heart of a child, the wisdom of a sage,
He toiled with no self to serve.
He grew in greatness, year by luminous year
Until he carried empire in his brain.
Yet if no Cause, no high commanding Cause,
Had called him to the hazard of the deed,
None would have guessed his power
To build a nation out of chaos, give
To her the wings of soaring destinies.
But at the hour, the People knew their Man,
The one ordained of Heaven, ordained to stand
In the deadly breach and hold the gate for God.

And when the Scroll was signed and the glad Bell
Of Independence echoed round the world,
He led his tattered host on stubborn fields,
Barefoot and hungry, through the ice and mire—
Through dolors, valors, despondencies, dreams—
Through Valley Forge on to world-startling hours
When proud Cornwallis yielded up his sword.
And all the way, down to the road's last bend,
Cool Judgment whispered to his listening mind,
Where there was faltering, he was there as faith;
Where there was weakness, he was there as strength;
Where there was discord, he was there as peace.

His trust was in the Ruler of Events—
In Him who watches. He could say, "The ends
Are in God's hands. I trust,
But while I trust I battle." In this creed,
His soul took refuge and his heart found rest,
When, after Yorktown, all the guns were hushed,
Still was our Chieftain on a battle line,
Fighting old laws, old manners, old beliefs.
He fought the outworn old,

And lit new torches for the march ahead.
Life tried his soul by all the tests of time—
By hardship, treachery, ingratitude;
Yes, even by victory and the loud applause.
When fortune flung to him a crown, he flung
The bauble back and followed the People's dream.
He turned from all the tempters,
Stood firm above the perils of success—
Stood like Monadnock high above the clouds.

He did the day's work that was given him;
He toiled for men until he flamed with God.
Now in his greatness, ever superbly lone,
He moves in his serene eternity,
Like far Polaris wheeling on the North.

THE WREATH

EIGHT YEARS AGO IN LITTLEFIELD

(Excerpts from Littlefield Leader)

Engine No. 1455, pulling west-bound Santa Fe train No. 91 exploded Wednesday morning at 8:30 o'clock near Lariat Switch, which is about half way between Mulierhoe and Texica. Engineer Plumlee of Clovis, and his fireman, Tim Cronin, were both instantly killed.

D. E. Cox of Seagraves has arrived as the new Santa Fe agent for Littlefield, taking the place of H. C. Pumphrey, who was transferred to Seagraves.

Saturday morning the new \$50,000 school building at Sudan was burned to the ground, only a portion of the west wing being saved from the ravages of the angry flames. It was about three o'clock in the morning when some light sleeper looked from out his bedroom and saw the heavens

glow with a lurid light. Investigation proved that the beautiful and commodious school building, which was completed scarcely four months ago, was aflame. The alarm was given, and a few minutes later, men and women from every direction were

hurrying to the scene. The flames were then shooting out through the windows and leaping in winding streaks toward the sky.

The town being new, possessed no fire-fighting apparatus, so bucket brigades were formed; men with pick and axes, covered their faces with wet towels and braved the smoke and flames to cut the building away ahead of the fire in hopes of saving a portion of their school building. In a measure they succeeded, but at best the building is practically a total loss, at least for the school year.

If T. L. Matthews happens to put gas in your radiator and water in your tank this week, don't get sore, because Tom's wife has just presented him with the first family rebate on his income tax, which came in the form of a fine nine pound baby girl, born at Lubbock, Saturday, February 9th.

Carl Allen of Wellington has purchased a new well drilling outfit and is ready to punch holes in Littlefield territory. He is a driller of several years successful experience. Associated with him is N. B. Nickel.

About 20 per cent of the school children are out on account of the measles.

Jesse York has discontinued the stage line, not finding it a profitable business just now, and is back in the Ford garage.

Lightfoot and Chambers have purchased the John Blair well drilling rig,

and are this week putting down on the Pool place, six miles from town.

J. Everett Whicker, son of Whicker, of Lafayette, Ind., accepted a contract as district agent for the Yellowhouse Land Co. and will have charge of McCall, Brown and Coleman counties.

The grocery store building, owned by M. Brazier and D. T. Farley, was completed yesterday by Contractor Wood and turned over to the owners who have ordered their goods to be ready for business in about a week. Their opening announcement is elsewhere in this paper.

J. H. Hudgins and son of Na are contemplating the construction of a new cotton-gin in Littlefield. Work of construction will be completed as soon as Mr. Hudgins, who is now convalescing in a hospital, arrives here.

Mrs. Mary Williams has installed the Littlefield Telephone system. Snodgrass, of Roaring Springs, is now proprietor taking charge of the business this week.

Mr. Snodgrass is also installing a telephone system at Ralls, Roaring Springs. It is understood that Mrs. Gladys New will have the switch board.

10c a DAY

If someone came to you and said: "For ten cents a day I will postpone old age, give you better health and more leisure," what would you say?

"Yes," of course. We are prepared to promise just that.

Unnecessary manual work means fatigue. Continued over a period of time it means impairment of health, which, in turn, brings old age long before its time.

If the end of the day finds you too tired to entertain, to read, or to do the things you wish to do, ask yourself, "What have I done today that electrical appliances could have done for me, or could have helped me do?"

There are many efficient electrical helpers for the home which not only lessen the physical effort required for almost every task, but cut down the amount of time required to do the work "in the old way."

How One Woman Lost 10 Lbs. in a Week

Mrs. Betty Luedeke of Dayton, writes: "I am using Kruschen to reduce weight—I lost 10 pounds in one week and cannot say too much to recommend it."

To take off fat easily, SAFELY and HARMLESSLY—take one half teaspoon of Kruschen in a glass of hot water in the morning before breakfast—it is the safe way to lose unsightly fat and one bottle that lasts 4 weeks costs but a trifle. Get it at any drug store in America. If this first bottle fails to convince you this is the safest way to lose fat—money back.

But be sure and get Kruschen Salts—imitations are numerous and you must safeguard your health.

"Possessed;" Drama of Factory Girl's Career Brings Joan Crawford to Palace Theatre

A trio of important film names are connected with "Possessed," which will appear at the Palace Theatre Thursday and Friday, for the principal roles and played by Joan Crawford and Clark Gable, two of the most popular personalities on the current screen, and the picture was directed by Clarence Brown, who did such fine work on Norma Shearer's "A Free Soul," and Greta Garbo's "Inspiration."

Report has it that Miss Crawford gives her greatest talkie portrayal in "Possessed," in which she plays the role of a factory girl who tests the luxuries of Park Avenue life only to meet with bitter disillusionment when her love stands in the way of Gable's rise to governorship of his state.

The story opens in the box factory where Marian Martin (Miss Crawford) is just another cog in the machine age. Her only chance to escape the monotonous routine of her life is to marry Al Manning (Wallace Ford), a fellow worker, but Marian, embittered by poverty, feels that a wife is nothing more than a servant who isn't paid for her work.

Circumstances bring her to New York, where she ultimately tastes the luxuries of Park Avenue life as the mistress of Mark Whitney (Clark Gable). For the sake of convention, she is now known as Mrs. Moreland. Whitney, whom she comes to love devotedly, abhors marriage because of a previous unfortunate matrimonial experience. But Marian discovers his love for her when he is about to turn down an opportunity to run for governorship of the state because it will mean giving her up.

Makes Heroic Gesture
 Marian heroically attempts to solve his problem by telling Whitney that she is going to marry Al Manning. Embittered, Whitney enters the political fight. When it seems that a whispering campaign about the infamous "Mrs. Moreland" will prove his undoing, Marian goes to the political rally and brings the dramatic conflict to a surprising denouement.

The picture was adapted from the Edgar Selwyn stage success "The Mirage," in which Florence Reed scored some years ago. Wallace Ford, one of the better known leading men on the New York stage, makes his film debut in the production of Skeets Gallagher plays one of his typical comedy roles. The supporting cast also includes Frank Conroy, Marjorie White, John Miljan and Clara Blandick.

Large Number "Flu" Victims Are Reported

There has been considerable sickness reported in Littlefield and vicinity recently.

W. D. Storey, teacher of Science at the High School, who lives 3 miles north of the city, and Mrs. Storey, are both ill with "flu," though getting along nicely.

Floyd Hemphill, also a teacher in the high school, went to Amarillo to spend a week end, and got sick. He is somewhat better, and is expected home soon.

Miss Dahlia Hemphill also was ill for a few days last week and her sister, Miss Etta Mae, took her place as teacher in the grammar school.

Miss Carrie Lou Collins, teacher of Home Economics in the high school, also has been ill, but is much improved.

Miss Lucas, who makes her home with Mr. and Mrs. J. H. Lucas, is reported to be ill with "Flu."

Katherine Cundiff, ten year old daughter of Mr. and Mrs. E. C. Cundiff, who has had scarlet fever for the past two weeks, has recovered from the fever, but is having trouble with her ears.

Miss Alma Busher, who was ill with "flu," last week has fully recovered.

J. E. Chisholm, Jr., who first took the "flu," in the Chisholm home is better, but his mother and sister, Eva Gertrude, are both confined to the house suffering from the same sickness.

When in need of office supplies, get them at the Leader office.

City Collects 58 Per Cent of 1931 Taxes

According to City Secretary W. G. Street, the City of Littlefield has collected 58 per cent of the 1931 taxes due, or the sum of \$16,500, and also some delinquent taxes.

Last year the city collected 62 per cent of the 1930 taxes, or \$17,500, and a small amount of delinquent taxes.

Mr. Street considers the 58 per cent collection only fair, when taking into consideration that in the year 1929 the city collected 94 per cent of the taxes due, or a total of \$21,620.

Contest—

(Continued from Page One)

prizing ones have secured receipt books and list of present subscribers and have started right out to let their friends know that they are in to win! There is still plenty of room and prizes for more campaigners and the field is mighty fertile—hardly been scratched.

It should be understood from the very outset that this is not a popularity or beauty contest, but a competitive business proposition, pure and simple. There is no catch to this offer. You can enter to win—set your stakes according to the published schedule of votes—and feel sure in

the fact that "everybody will be paid" and there will be no losers in this race.

Saturday Night Pay Checks

Yes, a check every Saturday night for every contestant, will be waiting for them. You can draw down your commission and go spend it; you don't have to wait for this campaign to close to get anything out of it—you begin earning from the very first day you enter. There are campaigns and then there are campaigns! But there never was a campaign like the one the Leader is now conducting ever offered to the people of this section of the country. If you want to work and get paid for your time according to your ability, get into this campaign now.

Beware of Mr. or Mrs. Know-It-All

Sure, you will find a few people who will tell you that they knew a contest in which someone won a prize by putting up money at the last moment and that this one, to win, will be the same. You will hear all kinds of stories. But now let's get down to facts—the management of this contest just closed a campaign at Pampa, Texas, for the Pampa Daily News. Two cars, a trip to California, and lots of prizes were given. The campaign closed Wednesday night, February 10, and the management will give to any one a new Ford if they will go to Pampa and get any one to say that they won or lost through the putting up of money in the contest or was ever encouraged, asked or otherwise considered as a contestant from a financial basis. There may be quack contest managers, quack doctors, merchants, lawyers, and people of all walks in life, but the management of the Lamb County Leader checked up on the company conducting our campaign from every angle before signing the contract and know that all entrants will be treated the same and all will be satisfied at the close of the contest, April 16. Honesty, fairness to all is assured.

Get in and Win

Make up your mind that the Ford will be your's, then come down and see the campaign manager and get your working outfit and go out and win. You can do it.

and prepare him to serve the people of this section.

His platform is as follows:

"In announcing my candidacy for State Representative for the 120th District, I stand for and believe the following principles will help relieve the burden of the people and develop West Texas:

1. Fewer and more workable laws should be passed by the legislature.

2. The legislature should pass laws which will serve masses instead of a class of people.

3. All consumers should have a fair and equitable rate given them by all public utilities.

4. All state money for public schools should be apportioned upon an attendance record instead of the per capita basis.

5. More economy in our government from county to state and nation which would reduce the tax burden of the people.

If elected, I pledge my best efforts to represent the people of West Texas on all questions."

We Think—

(Continued from Page One)

22 years of age.

We should have written "Miss Fern Hoover," but any time that anybody addresses the young lady as "Miss Hoover," Fern wonders who they are addressing. You see, folks, it is this way: Fern knows most everybody hereabouts and is highly regarded by all. (How is that for fixing it up with Fern for telling our customers her age?)

But here is what we started out to tell the customers:

When Everett Whicker completed checking the poll tax rolls for Lamb county he found that Fern is the only native Lamb county voter out of 4,598 poll taxes paid. The records show that she is 22 years of age, and has resided in Lamb county 22 years.

Fern knew this section of the country when cowboys were about the only inhabitants. She was for some time the only baby south of the Sand Hills and her mother the only woman.

And Fred—well, he divided his time between being top-hand on a ranch, a ranch foreman, and an officer of the law.

HOW YOU WILL FEEL IF YOU DO NOT ENTER THE LAMB COUNTY LEADER CIRCULATION CONTEST:

WHY YOU SHOULD ENTER THE LAMB COUNTY LEADER CIRCULATION CONTEST—

Because there was never a better opportunity presented to earn valuable prizes and a weekly pay check.

Because you, no doubt, can use some money at this time.

Because there are great numbers of people who want to subscribe to the Lamb County Leader, but have not taken the step on account of not having been approached.

Because you will enjoy the work.

Because the campaign is being conducted in a fair and legitimate

manner. It will be the zealous workers who will win the prizes, but every person in the campaign will receive a weekly pay check.

WE THANK YOU—

Large numbers of persons have complimented the Lamb County Leader on conducting a circulation campaign at this time, because of the fact that it will give employment for a number of weeks to many persons.

GREAT!

"Hoover is Praised," reads a headline in a daily newspaper.

That's great! We have heard him cussed plenty.

BOOSTER FOR LITTLEFIELD—

A subscriber of the Lamb County Leader, who resides at Marlow, Oklahoma, read with much interest the information published by the Leader in connection with the Court House election, which will be held on Saturday, March 19, and wrote the following of the county seat. I want you to know I am for Littlefield. While I own two farms nearer Amherst, it is with much interest I have watched Littlefield grow, and you certainly have a wide awake Chamber of Commerce who put things over and I certainly hope Littlefield comes out victorious on the 19th of March. Littlefield is known far and wide for its hospitality to those who happen to come in touch with her citizens. I hear a great many compliments passed on Littlefield and her many civic orders, and it with pleasure I read your paper each week of the happenings of your town and surrounding communities. I even read the ads and compare prices with our merchants and will say you have us beat for bar-

Editor Lamb County Leader:—

"I have just received my Lamb County Leader paper and after looking through it I see where there has been an election called for the moving of the county seat. I want you to know I am for Littlefield. While I own two farms nearer Amherst, it is with much interest I have watched Littlefield grow, and you certainly have a wide awake Chamber of Commerce who put things over and I certainly hope Littlefield comes out victorious on the 19th of March. Littlefield is known far and wide for its hospitality to those who happen to come in touch with her citizens. I hear a great many compliments passed on Littlefield and her many civic orders, and it with pleasure I read your paper each week of the happenings of your town and surrounding communities. I even read the ads and compare prices with our merchants and will say you have us beat for bar-

gains. Hoping you much success, Respectfully, W. E. Hervey.

WE THINK—

That Littlefield and district should be proud of such loyal boosters for this city and territory.

That it is Marlow's gain and Littlefield's loss that Mr. Hervey does not live in our city or in the adjacent territory.

What do you think?
