We give S. & H. Green Trading Stamps  
LITTLEFIELD, TEXAS

# We THANK YOU!

Since changing my business to a Spot Cash basis, I find the response of the public to my prices and service good. But to show in the greatest way possible my appreciation of your trade, beginning today, I will give with each purchase the wonderful

## GOLD BOND STAMPS

which are redeemable right in this town for many useful articles.

The increased patronage they will bring me cuts down my overhead so that with their use I can sell at even lower prices than heretofore.

Yours for Best Fresh Groceries, Lowest Prices, Attentive Service and Gold Bond Saving Stamps

## HOUK Grocery & Market

Littlefield, Texas

### Something to Worry About

"To seat or not to seat" Vare of Penn.—Smith of Ill. and Watson of Ind., is a problem which is causing many Senators no little concern just now, even through the issue will not be decided until opening of the next congress in March. History shows its easier to keep them out than kick 'em out.

### \$25,000 Check for Swim Victory

George Young, the 17 year old lad who beat 100 other swimmers to Catalina Island won fame and a fortune. Photo shows Wm. Wesley Jr. presenting Young with his check for the \$25,000 first prize.

### Honor His Memory

Above picture is of Rev. Dr. H. Conwell noted clergyman, educator, lecturer and philanthropist, founder of Grace Baptist Church and Temple University, Philadelphia, Feb. 13th, will be observed Sunday throughout the country in honor of his memory.

### Takes Ban's Place

American League baseball club owners have named Frank J. Navin to take Ban Johnson's place as president of their circuit.

### No Laughing Matter

Lita Grey Chaplin (above) and her famous comedian husband are in marital odds. Suits and counter suits over money and the custody of their two children have taken the smile from Charlie's face. Mr. Chaplin suffered a nervous collapse while in New York.

### JUST LIKE DADDY

The youngest member of the household had heard his father talking about going away on their vacation and about getting his work done in advance. So he spoke to his mother. "Mama, I want to go to bed early tonight." "Why dear?" "If we go on our vacation I gotta get my prayers said a couple weeks ahead."

Dr. Maule Slye, of Chicago advises the abandonment of sentiment in matrimony and putting marriage on a eugenic basis. But this is probably only Slye joke.

Miss Carrie Wolf, of Medford, is an exceptionally accomplished brooder and penwoman, although she lost her right arm in an accident when a child.

We have them in black and cherry patent and rose beige-gingham checked and Persian multi-colored vamps and heels, embossed toes and fancy ties to match—the dream of your lifetime. To see them is to want them, and to want them is to buy them. You simply cannot resist the seducing temptation. And, what pleasure they will bring to the owner—just to know you wear the latest footwear creation of Dame Fashion's decrees. Call and let us show them to you!

**The FAIR STORE**  
Littlefield, Texas

# Cross Country Auto Roads Now Kept Open Through the Winter

General government and the states have made the automobile a year instrument of pleasure and entertainment. Winter comes with its chill and drifting snow the motorist no longer put up his car patiently for spring to bring motoring days. All he needs in the north, is point the car southward. Soon he is to a through-transcontinental route that leads to sunshine and warm weather. The roads have been only adequate but splendid for driving.

It is revealed by a survey completed by the Automobile Club of Southern California in conjunction with its thousands of sources of information from all over the states. The club, in its surveys, has two thoroughly experienced men. The cars went at the rate of 300 miles per day. This meant that the total per day of the cars was 3,000 miles. In a month they had traversed 90,000 miles and had covered every essential bit of road that motorists may use in crossing the United States in the winter time.

On the map shown above, all of the heavier roads are open through the year. Those that are farthest South are less troubled with storms and untoward local conditions than those in the North. In order to facilitate the use of the roads during the winter months by the motorists of the United States the automobile club has instituted an unusual service.

Should any reader of this paper wish to make an automobile journey that touches Southern California over any of these roads, the Club will be glad to extend him every possible help and entirely without charge.

Prospective motor travelers should address the club at its headquarters, Twenty Sixth and Figueroa streets, Los Angeles. If road maps are wanted, state the place of beginning, the destination and the route home and the principal cities that are to be visited going and coming. The Club will then send a full set of detail road maps covering the entire journey. If information about hotels, motor camps, hunting, fishing or other forms of sport are wanted, state this clearly in the request and the information will be sent.

If the visitor wishes, he may tell the club only his place of start and destination and ask the club to route him over the best route. The time that the journey is to be taken should be stated as routes vary in desirability with the several winter months.

Once the visitor arrives in Southern California the Automobile Club will make him a guest member giving all services for six months without charge. On the Pacific Coast the motorist will find paved highway completely covering the Pacific Slope from Canada to Mexico.

## Health and Firm Purpose Create Women's Club Home

ere has dawned for the who visits Los Angeles. Once to go to a hotel. Now she her hotel. For by skill, em- perance a group of Los women alone have put up a lion and a quarter dollar devoted to woman and to alike—including man. more like a giant hospitable a hotel. The women have and a gymnasium at their If they wish to play golf they give them courtesy cards choice among the many fat- Angeles, all grass gold- ing. They woke up almost literally one morning to find that their dream of a hotel was within reach. The growth of the city had surrounded the land with large buildings. Its value leaped skyward. It went so far skyward that the value of the land plus the value of the intended building permitted the women to sell bonds in the sum of three-quarters of a million dollars. With this and other money accumulated they put up a twelve story class A building and adorned it with a delicacy of taste that has made it generally admired.

Mrs. Chester C. Ashley, shown in full face in the picture in the moving spirit of the Hotel. She is chairman of the Building Committee. Mrs. Maude N. Bouldin, shown in profile, is managing director.

The profits of the Figueroa hotel are to be used in the creation of a new building fund. When it is of sufficient size it will be employed in the erection of a new hotel for employed women.

**Owner Is Best Citizen**  
 Having a high percentage of income owners is one of the tests that now challenge the United States. The proportion of families that own homes is both the fountain of sound economic and social and a guarantee that our continue to develop ration- ang conditions demand.

**Zoning Freed of Values**  
 Committees on buildings and plumbing codes and zoning ordinances have been instrumental in revising methods of work in every state. The result has been greater uniformity in design and more economical utilization of materials. The zoning ordinances are helping to safeguard residence districts from wanton intrusion by uses of land which are best grouped apart from homes.

## Community Building

### Matters Determining Desirability of Town

The Kansas municipalities drew up a list of tests as those most pertinent to the question of what a stranger thinking of settling wants to know about a town. These were published in Community Leadership, a paper of the American City Bureau:

**Healthfulness**—How efficient are the milk and sanitary inspection, the health department, and the hospitals? Is the water supply pure, and have I and my family a reasonable chance of keeping well?

**Education**—Are the public schools, libraries, lectures and concerts, newspapers and higher educational facilities up-to-date?

**People**—Do the people indulge in religious, social or industrial prejudices? Do the people support artistic and educational programs? Where are the children, in schools or factories?

**Recreation**—Are there theaters, parks, gymnasiums and museums? Are there active agencies providing good entertainment?

**Living**—Can we live reasonably well in the town. Are there electricity, gas, telephones, good shopping conditions, good hotels and plentiful truck garden products available?

**Accessibility**—Does the town have good roads and good train service?

**Business**—Is there active co-operation between business interests? Can I make good use of my capital?

**Employment**—Can I get a job in that town with fair pay and a good chance for advancement?

**Progressiveness**—Is the town up-to-date in its civic consciousness? Has it adequate police and fire protection? Is it a town with a future?—Nation's Business.

### Excellent Slogan Is "Let the World Know"

Six banks of Tattnall county have just done a fine thing in advertising. They are advertising their respective institutions in the county papers and in other ways to get more business and to keep themselves before the people who may have business to transact, with the financial concerns. But in this recent piece of enterprise the six banks pooled forces—expense, thought, effort and interest—to get out a booklet telling the world about their county. The banks are those in Reidsville, Cobbtown, Collins, and Glenaville, towns in Tattnall. The booklet is giving reliable information about Tattnall county as an agricultural opportunity—setting forth the descriptions of climate and soil, of crops, which have been demonstrated successful, of roads and schools and information concerning conditions generally that prospective settlers demand. The co-operation of the banks of the county in this work is good business—for the county, for the banking companies and for the prospects they will certainly attract to the goodly region of which Tattnall is the center.—Savannah (Ga.) News.

## METHODIST MISSIONARY

The Methodist missionary society gave a social to the members of the church at the home of Mr. and Mrs. W. W. Gillette, Tuesday evening.

As each guest arrived a tape measure was placed around the waist and a penny an inch was charged for admission.

Music and various games were the chief entertainment of the evening. Mrs. Frances Tolbert gave a reading in her usual delightful manner. Miss Vada Walden and Miss Hazel Morris entertained with song selections.

At the close of the evening, refreshments of sandwiches, cake and coffee were served to the following: Mr. and Mrs. A. G. Hemphill, Mr. and Mrs. A. P. Lee, Mr. and Mrs. Starr, Mr. and Mrs. T. Wade Potter, Mr. and Mrs. S. J. Farquhar, Mr. and Mrs. E. G. Courtney, Mr. and Mrs. Star Haile, Mr. and Mrs. Van Clark, Mr. and Mrs. B. L. Cogdill, Mr. and Mrs. E. H. Williams, Mr. and Mrs. W. W. Gillette, Mr. and Mrs. W. H. Gardner, Mrs. E. F. Arna, Mrs. H. P. Madry, Mrs. F. M. Burleson, Mrs. J. R. Cook, Mrs. Frances Tolbert, Miss Hazel Morris, Miss Vada Walden, Miss Vivian Courtney, Miss Dahlia Hemphill, Carl Williams, C. Fletcher and Carl Willingham.

## PRESBYTERIAN AUXILIARY

The Presbyterian auxiliary met Tuesday afternoon with Mrs. C. Chesher, with 13 members responding to roll call.

Mrs. C. A. Dugger, assisted by Mrs. W. G. Street and Mrs. T. T. Garrett, led an interesting lesson on "Our Work Among the Indians."

The study of stewardship was taken up by a circle reading.

At the close of the meeting refreshments were served the following: Mrs. K. F. Albright, Mrs. Basie Baze, Mrs. E. A. Bills, Mrs. C. A. Dugger, Mrs. T. T. Garrett, Mrs. Ray Jones, Mrs. Jess Mitchell, Mrs. G. M. Shaw, Mrs. W. G. Street, Mrs. Bob Smith, Mrs. Robert Steen, Mrs. Harry Wieman, and the hostess.

Mrs. W. O. Stockton will be hostess next week at the home of Mrs. W. G. Street, and Mrs. T. T. Garrett will lead the lesson on "Moslem Women."

The auxiliary will give a social for the church members in the basement of the church, February 22nd, which is Washington's birthday.

Honesty is the best policy, even though it is the most expensive.

No one seems intelligent enough to get up a sensible intelligence test. The several bloc heads in Congress have entered upon their busy season.

When it goes by ship we call it a cargo, when it goes by car we call it a shipment. It's hard to love your neighbor as yourself if he happens to be learning the saxophone.

Published every Thursday afternoon at Littlefield, Texas.  
Subscription: \$1.50 per year; 75 cents for six months.  
Advertising rates given upon application.

No. Entered as second class matter May 24, 1923, at the post office 27 at Littlefield, Texas, under the Act of March 3, 1897.

JESS MITCHELL, Editor and Publisher

National Editorial Association, Texas Press Association

MEMBER  
Subscribers who change their addresses, or fail to get their paper, should immediately notify this office, giving both new and old addresses. Communications of local interest are solicited. They should be briefly written, on only one side of the paper, and must reach this office not later than Wednesday noon of each week. The right of revision or rejection is reserved by the publisher.

Advertising that does not show in its text or typography that it is paid for must be marked as an advertisement. All local advertisements remain in this paper for the time specified or until ordered out. All notices, it matters not by whom nor for what purpose, if the object is to raise money by admission fee or otherwise, is an advertisement and when sent in for publication must be paid for at the regular advertising rate per line for each issue printed.

Obituaries, cards of thanks, and resolutions of respect will also be charged for at the same rate.

Any erroneous reflection upon the character, standing or reputation of any person, firm or corporation which may appear in the columns of the Littlefield Leader will be gladly corrected upon its being brought to the attention of the publisher.

## A THOUGHT FOR THE WEEK

Let not the wise man glory in his wisdom, neither let the mighty man glory in his might, let not the rich man glory in his riches.—Jer. 9:23.

Pride goeth before destruction, and a haughty spirit before a fall.—Bible.

## YEAR ROUND RABBITS

An exchange carries a press dispatch to the effect that a Southern Ohio man cleaned up more than \$4,000 clear in 1926 raising Belgium hares in his back yard. We believe if our farmer friends around Littlefield will read that they will agree that is pretty profitable for less than an acre of land.

At first glance it seems impossible, yet with a big back yard it is possible to keep several hundred head of rabbits. And we do not need to state that with the possible exception of guinea pigs nothing in the animal world multiplies so rapidly.

The Ohio man lives near a big city, and that big city is his market. There is a demand for the rabbits the entire year round, so he can sell them as fast as he can raise them—and a Belgium hare grows to maturity in four or five weeks.

There may be a little tip in this for enterprising citizens who want to get into business for themselves, and who haven't much ground on which to do so. Get hold of a few books on Belgian hare raising and see if you can't work yourself into a good paying business all your own.

Some people marry for money and then profess terrible disappointment because love is not thrown in for good measure.

## LONG DISTANCE TALK

The first great achievement of the year 1927 is a telephone conversation between a New York business man and a man in London, England.

Just 27 years ago Marconi predicted that some day radio waves would carry a message 20 miles, and when radio came he predicted we would be telephoning across the Atlantic.

Now that has come true. It costs \$25 a minute to use the new telephoning, however, so it is not going to mean very much to Littlefield residents. Neither will it take the place of cable lines unless some way can be found for making the conversations secret. Uncle Sam can't use it for official and diplomatic messages because he doesn't want everybody to know what is on his mind.

So, even tho it is a great scientific achievement, it is of little practical value in its present form. It is far from being the achievement of the present day system of radio, and probably never will be.

In the old countries they call all the leisure class "noblemen." Over here we still refer to them as just "hoboes."

## WIVES AND SALARY

We note where a Minnesota man has asked the legal department of his state if there is any law compelling a husband to pay his wife a salary. The legal department says there is not. But we feel sure housewives of Littlefield will unite in agreeing that there ought to be such a law on the statute books of every state.

It seems hardly fair that domestics should get as much as \$50 a month, with board and room while the mistress of the household does as much or more work and gets only her board and clothes. However, it is a subject that permits of a wide range of argu-

ment, and while we feel like defending the women we haven't any more male friends than we need—so we'll take no chances on offending any of them.

If the question comes up in this community just count us out of it. We prefer to remain neutral.

We heard the other day of a town in Virginia that is so dry they have to pin the postage stamps onto the envelopes.

## LITTLE LEADERS

When a Littlefield citizen stops to get even with his enemy he is losing considerable valuable time that could well be used in getting ahead of him.

We recently heard of a Littlefield man who is so absent minded that he got up in the night to get his wife a dose of medicine and drank it himself.

Now and then we run across a Littlefield man who seems to be worrying for fear he won't get his share of the trouble that is always going the rounds.

Another thing that makes the average Littlefield boy mad is that the World War apparently increased the price of everything except soap and castor oil.

The Littlefield citizen must not have very much self respect nor respect for society in general who will unoad a big gob of tobacco amber on the sidewalk.

The Littlefield motorist who buys his tires from a mail order house ought to get his free air and water from the same place. Verily, some folks have plenty of nerve.

Now is a good time for Littlefield citizens to see that the garden rake and lawn mower are in servicable condition. It won't be long until your neighbor will want to borrow them.

Now that the freight differential has been removed, it is hoped that the retail price of gasoline in Littlefield will soon drop in keeping with the lower price that is paid in neighboring towns.

Farmers in the Littlefield vicinity are now busy turning the soil preparatory to spring crops. The farmer of this section who plows early, thus conserving the moisture, is always the farmer ahead at crop gathering time.

With the growth of the dairy industry around Littlefield the establishing of a cheese factory here would be in order. Such an industry would afford a steady market the year round for local dairy products, and at the very top price. We believe that, with little difficulty, such a project could be easily realized here.

With the Yellow House wildcat well reaching the contract depth of 3,500 feet, and the probability of an extension contract for another 1,000 feet, thus affording a more complete test, it is the general feeling among many local citizens that the Littlefield country may yet be the next big oil play of the state.

The fact that some scientist has discovered that a certain cotton by-product may be used for sausage casings may not increase the price of cotton very much around Littlefield, if any; but it will afford the pleasurable relief of having to skin the sausage before eating it, as the new casings are said to be tender and juicy.

The spring-like weather of last week caused the plowing of many garden spots at both town and country homes. There is no reason why practically every householder should not have a garden next summer. Nearly all vegetables do well here, and may

## A New Year Photograph

An excellent new photograph of The President and Mrs. Coolidge taken on the White House steps New Year day. Mrs. Coolidge celebrated her 48th birthday on January 3.

be raised on a large scale, if desired. Indeed, a canning factory in Littlefield would be a valuable asset.

The near escape of a Littlefield school truck filled with children from being run over by a Santa Fe train last week, again emphasizes the need of more careful driving. Indeed, it would not be a bad idea if the local school board would issue orders that all school trucks must come to a full stop, and look and listen before crossing a railroad track.

## Community Building

### Making the Home Town "Just a Little Better"

There are several things a fellow ought to do for the old town.

One step in the process will be to study the other man's town. Learn how he made his success. Use his methods where they will work to advantage. Mix a little brains with observation and improve on the past. Why shouldn't you put the plus on his success?

Then, too, one must line up the resources of the old town. Practically every place has some advantage. That should be capitalized to its full worth. Not in our likeness to other towns but in our differences lie the distinctive agencies that will insure success.

And not least among resources should be the good will of its people. Few towns put forth any real effort to cultivate the interest of their citizens. If people are interested they work for the town, usually for what they can get out of it. Our proposition calls for lining up everybody as a matter of patriotic duty.

The next step is to sell the town to folks outside of it. Don't be afraid to tell your town's advantages. When other towns advertise match the "ad" with one of your own. Even if you don't sell much to other folks the process will add much to your own estimate.

So, boost the old town. It will add dividends and raise the place you live in to one of pride and satisfaction. It's a great game. Try it.—Kansas City Times.

### Carelessness of City Visitors to Country

No longer are spring flowers the chief adornment of our country roads. The hepatica has had to yield place to the pop bottle, the wind flower to the wind-blown fragments of the Sunday supplements, the adder's tongue to the tin can.

Out of our cities pours an increasing horde of people who sally forth at dawn, after the fashion of tent caterpillars, to leave destruction in their wake. Accustomed to a life where the ever-ready "white wing" and the garbage collector function as regularly as the rising and setting of the sun, these city dwellers have little or no conception of the beauty and dignity of clean earth. They break down fences, strip flowering shrubs, and all too frequently lead one to wonder why the word "urbanity" ever came to mean what it is supposed to mean and why "civility" should have been the distinguishing mark of those who dwell in cities.

Our large centers of population sometimes wonder why they are so unpopular in the rural regions. One reason is to be found in the trash littered along our country highways.—Editorial in The Outlook.

## PEOPLE OF NO IMPORTANCE

By DOUGLAS MALLOCH

PEOPLE of no importance, people like you and me,  
People the proud will push aside,  
The fawners fail to see,  
People who bear the burdens, people who write the songs,  
People to whom no heaped-up wealth,  
To whom no crown belongs—  
Once in a while we wonder, once in a while we ask,  
We who toll with the pick and pen, we with the humble task,  
Just why the good Lord made us, why we were born to earth,  
When in the minds of the fawning few,  
Only the great have worth.

Well, I will make you answer, well, I will write a rhyme  
Just for the folks like you and me who never the heights will climb,  
People with saw and shovel, people with sick and pen,  
People who sweep the kitchen floor, the servants of serving-men,  
Yes, I will make you answer, answer not you, but them,  
All who worship the golden calf or kneel to a diadem,  
Yes, I will shout the answer, answer them loud and clear—  
Maybe they scoff at the humble man, but maybe our God will hear:

Here is a house of splendor, here is a castle grand,  
Here is a ship that sails the seas, hurrying land to land,  
Here is the frowning fortress holding the foe at bay,  
Here are the churches fine and fair where even the great must pray,  
Here is the level highway stretching to towns afar,  
Here are the bright and shining rails, here is the speeding car,  
Here are the carving, gilding, high on the marble wall—  
People of no importance builded them, after all.

Painters have painted pictures, poets have written lines,  
Some one has melted iron or brass or labored among the pines,  
People of no importance, people like you and me,  
People the proud will push aside, the fawners fail to see,  
This is, I know, the answer, this is the true reply:  
God made poets and God made men, and this is the reason why—  
People of no importance, yes, even the fool who sings,  
Are the people of most importance in the final scheme of things.  
(© by McClure Newspaper Syndicate.)

Artificial sausage casings made of a cellulose product from cotton seed fibres, resembling artificial silk, but fit to be eaten, have been invented by two American scientists.

Time tables to be issued shortly by Swedish railroads will number the hours from one to 24, eliminating a.m. and p.m.

# BOYS TRAINED SCOUTS IN SO. PLAINS MOVEMENT

Two years ago a movement started on the South Plains of Texas that is doing, and will continue to do more for the training and education of our citizens for the future than any other agency," according to Arthur P. Duggan, chairman of the executive committee of the Scouts in West Texas.

Scouting, said Duggan, and it has already trained 800 boys and made them better citizens, more patriotic and more self-reliant than they would have otherwise.

Approximately 10,000 boys on the South Plains who are being trained—who will be made

better boys, finer in every way, by this training—IF ways and means for giving it to them are provided. Here are some statements to think about, and they are true:

One boy gone wrong costs in dollars and cents—\$8,500.00

To train the above 800 boys the past year has cost—\$5,800.00.

No first class boy scout has ever gone to a reform school or penitentiary.

Scouting is the wonder program of the century for training boys. It does not take the place of the home, the church and the school, but it does supplement the work of each. It provides activities for the 3,000 hours of leisure time the average boy has to fill some way each year.

Scouting is not a military organization, and the three and a half million boys who have been trained by the Boy Scouts of America in the past 17 years attest to the value of the training. It is endorsed by the leading school and church men of the nation and state. It has been tried and not found wanting.

The South Plains Area Council, consisting of citizens from all the counties of this section wants to make scouting available to just as many of these other 10,000 boys as possible.

This is the formal announcement of the extension program through the columns of the Leader, and it is hoped by the executive committee that all citizens throughout this entire section will give it their careful thought and loyal co-operation.

## NOTICE OF STOCKHOLDERS MEETING

The annual meeting of the stockholders of the First National Bank, Littlefield, Texas, has been postponed from Tuesday, January 11th, 1927 to Tuesday, February 15th, 1927.

The meeting will be held in the banking rooms of said bank at 4:00 o'clock, p. m., on the above date, at which time the election of officers and directors for the coming year will be held, as well as the dispatch of any other business that may come before the meeting. 39-4tc

—RALPH DUNBAR, Cashier.

## STIRRING THE CREAM

Stirring fresh cream while cooling will help to remove the bad odors. After the cream is cool, or during the ripening period, stirring is of little value.

# SCHOOL DAYS

## SOMETHING TO THINK ABOUT

By F. A. WALKER

### YOUR MIND

EVERY man and woman should have a budget. There should be a business-like apportionment of what you earn, to your needs and your tastes.

You will have to assign so much to rent. There will have to be an allowance for food and clothing, for the doctor and the dentist, for amusement and pleasure, for necessary travel and for unnecessary extravagances. For all these things will be promptly listed and thoroughly looked after. We shall probably be particularly liberal with those items which mean the least in the sum total of human happiness.

The last thing that will be thought about, and the most scanty allowance will be made for it, will be the development and betterment of our minds.

How much money did you spend last year on worth-while books—books you are keeping to read a second time—books that added to your wisdom or gave you something valuable to think about?

How much time did you spend in filling your mental storehouse with facts useful in daily life and valuable in your daily work?

Did you spend as much for information as you did for gasoline?

If you were to add together all the time you spent gaining knowledge, would it be half the time that you spent dancing?

Do not consider that money is the only thing you spend.

Time is your much greater asset. You can earn more money.

You cannot, with all the wealth of all the universe, in all the ages, buy one minute of time nor bring back for another and a better use, a wasted hour.

Lord Brougham, a man who spent his time wisely and profitably, wrote down this short sentence filled with good advice: "Read something of everything and everything of something."

There is no excuse for any man, woman or child past twelve years spending less than half an hour a day with a good book.

Reading carefully and thoughtfully you will cover not less than 150 words a minute. That is 4,500 words a day. One million six hundred and forty-two thousand words a year. How much wiser do you think you would be if you did that for only one year?

Knowledge is the freest, the most inexpensive thing in the world and we think less of it than of anything else.

Stop making a pet of your stomach. Stop worrying about your clothes. Give up some of the useless things upon which you spend and waste your time and your money.

Make up a budget of your earnings and your hours that shall have in it a liberal allowance for your mind, for your intelligence, for your thinking powers.

What you have inside your head no robber can get, no Ponsi can transfer to his pockets. Not even old age can destroy it and perhaps not even death can take it away from you.

Be generous with your mind. Feed it. Nourish it. Care for it. It is the one part of you that really matters, the one thing upon which you should spend lavishly and continuously.

### Notable Exception

It is often said that the works of art never attain the perfection of the works of nature, but there are exceptions to all rules and we like a mechanical loud speaker better than a human one, if only because we can shut it off when we want to.—Ohio State Journal.

## Mother's Cook Book

If never a sorrow came to us, and never a care we knew; If every hope was realized, and every dream came true; If only joy were found on earth, and no one ever sighed, And never a friend proved false to us, and never a loved one died, And never a burden bore us down soul-sick and weary, too, We'd yearn for tests to prove our worth and tasks for us to do. —Edgar Guest.

### EVERYDAY GOOD THINGS

A NICE way to cook ham, and one not very well known, is: Baked Ham Steak.

Have a slice of ham (one and one-half inches or two is not too thick) from the center of the ham, trim it nicely and place in a baking pan. Sprinkle lightly with mustard and thicken with brown sugar. Around the ham lay six cloves, a bay leaf, one-fourth of a cupful of carrot cut fine, one one-half of a cupful of celery cut into bits. Add one-half cupful of hot water, cover and cook an hour, then uncover and cook until tender. Serve on a hot platter and garnish with small mounds of cooked seasoned peas, carrots, string beans and glazed turnip.

Glazed Turnips. Pare white turnips and cut into balls with a French cutter. Cook them in boiling salted water until tender, then drain. Put two tablespoonfuls of butter in a frying pan and when melted add one tablespoonful of sugar, then the turnip balls and fry them until well browned.

Black Walnut, Cheese Sandwiches. Mix one cream cheese with enough cream to moisten nicely, add one-half cupful of chopped black walnut meats, season with salt, cayenne and a bit of black pepper. Serve on buttered rye bread. Serve with hot cider for a night lunch.

Fried Apples and Onions. Take green apples cut into thin slices, cut onions into slices and cook them for a few minutes before adding the apples. Use butter or bacon fat to fry them. Serve hot as a garnish to pork or sausage.

Chicken Salad Eclair. Have ready fresh eclairs (they may be bought at any bakery). Remove a slice from the top of each and fill with chicken salad. Replace the top, insert a small piece of crisp lettuce in each end allowing them to curl slightly over the top. Sprinkle with paprika and serve with olives, salted nuts and coffee at a bridge party.

Copyright

"Every dilemma has two horns," says Meditative Meg. "The chap who stops at railroad crossings is liable to get humped in the rear by somebody who doesn't."

## TO CURE "WIND-SUCKING"

"Cribbing" and "wind-sucking" are horse vices generally thought to be caused by idleness or association with bad companions. Sometimes a bad stomach will cause it. It's hard

to cure either habit. The best way to cure the offender is to exercise him. Smear bitters on the mangers or stable fittings—muzzle the animal—or draw a strap snugly around the horse's neck at the throatlatch, if you want to break the habit.

## Run your skimmilk through a new De Laval

YOUR old separator may be running all right and you may think it is doing good work—but is it? Here is an easy way to satisfy yourself, without expense.

Ask us to bring out a new De Laval and run your skim-milk through it. The new De Laval skims so clean that it will certainly recover any butter-fat you have been losing. Then you can tell exactly whether you are losing or making money from your separator. Thousands have tried this plan and many found a new De Laval would increase their cream money from \$25 to \$200 a year.

Liberal trade allowances made on old cream separators.

The new De Laval is the crowning achievement of 48 years of separator manufacture and leadership. It has the wonderful "floating" bowl—the greatest separator improvement in 25 years. It is guaranteed to skim cleaner. It also runs easier and lasts longer.

# Grammar School News

**Fourth Grade**  
We are rather disturbed this week on account of the mid-term exams. When they are all over we can settle down and rest 'till finals.

Some of the fourth grade pupils have been having great difficulty in pronouncing the word "hippopotamus." It's good enter tainment to hear some of them try.

John Claude Lowrimore protests against the frequent use of his name in the Wild Cat. He says he will be forced to deal sternly with the guilty parties should it happen again.

Julius Timian—"Miss McDonald, have you appointed the thermometers to pass the water colors this week?"

When ice cream grows on macaroni trees, when the Sahara sands are muddy, when cats and dogs wear overshoes, that's when we like to study.

**Fifth Grade News**  
The fifth grade, with a regular attendance of 106, is progressing nicely under the able management of Mrs. E. S. Rowe, Miss Dahlia Hemphill and Miss Elizabeth Booton.

The following pupils deserve honorable mention for recent improvement in work, and we hope to be able to add other names to the list next week: Sue Brannen, Freddie Bell, Cephas Glover.

Eula Lee Henderson has been absent the past week on account of trouble with her ear.

Buel Murray, Joe Bell, Morris Pierce and Lucile Locke have been on the sick list.

Frances Blalock spent the weekend in Enochs.

John Gibbs has been visiting in Levelland and Whiteface.

Nina Anderson gave a birthday dinner last Sunday. Those present were Thelma Anderson, Barbara Green, Frances Blalock, Olga Henson and Ruth Gray.

Howard Houk has moved to Pampa. We hate to loose him, but wish him success and may he make as many friends there as he has made here.

Saturday night the Grammar grade boys were defeated by the Anton basketball team, by a score of 17-26, but we gave them a hard fight, and are ready to play Amhers Wednesday night.

After reading some of the poetry written by the sixth and seventh grade (pupils), we wonder if there aren't some real writers among us.

The 'Gimlets', a literary society composed of the boys and girls of 7-B, will render an interesting Lincoln program, Friday, February 10th.

**Seventh Grade News**  
Those recently withdrawn from the seventh grade are Recie Nell Poe, who moved to Arch, New Mexico; and Howard Houk, who moved to Pampa.

Roy Willis has returned to school after a few days visit in Abilene.

Jessie Opal Busher, a member of 7-C, has been absent from school some time because of illness.

Pupils from the seventh grade taking part in the joint program in Grammar school auditorium Saturday, were Coez Crow, Kenneth Garrett, Harold Phillips, Lucille Lane, Christine Ogletree, Jma Lee Garrett and Andy Roberts.

**My English Bards**  
Dear little rhymers, these students of mine!  
Such energy, such effort, enthusiasts sublime!  
Don't watch the meter, enjoy the rhyme!  
Drink deep the cup of memory's wine.  
Bring back your schooldays,  
Live over your youth,  
And judge us with leniency,  
Rather than truth.  
—Frances Lee Tolbert, English teacher, Grammar school.

**Vines**  
Oh, Vines that grow so green and tall,  
Through the woods and over all,  
You are so beautiful, Vines,  
I wish that you were mine.

Vines that hang o'er the flowing stream,  
As I sit in my canoe and dream.  
You make me welcome here, I know,  
Oh Vines, I love you so!

—EULA MOORE.  
English, 7-B grade.

**A Friday Program**  
The 7-A grade pupils are preparing the following program for Friday afternoon:

Song—Estella Couch, Pearl and Merle Atkinson, Eufala Jackson and Christine Ogletree.

Continued Story—Harrison Woods.  
Harp Contest—Jack Hague, Alton Casland, Homer Allred, Christine Ogletree.

Reading—Wilma Rather.  
Song—Bethel and Willard Fletcher.

**West Texas**

Out in West Texas, where wild ducks make their home,

Out in West Texas, where the coyotes roam,

Out in West Texas, where the rattlesnakes sing,

Out in West Texas, where the birds take wing.

Out in West Texas, where the jack rabbits hide,

Out in West Texas, where the cowboys ride,

Out in West Texas, where prairie dogs bark,

Out in West Texas, where you hear the song of the lark.

Out in West Texas, where the cotton grows,

Out in West Texas, where the grasshoppers bite your toes,

Out where the buffalo used to roam,  
West Texas is the place to make your home.

—By BLOYCE YEAGER, 6-C, 13 years of age.

**My Old Oklahoma Home**  
I want to go back to my Oklahoma home,

Where I can hunt the 'possums,  
In the corn top blossoms;  
Oh, back to my Oklahoma home!

I want to see the land of trees,  
Where the cows graze all day,  
Where we toss the hay,  
Where we feel the Oklahoma breeze.

I want to go back to the land of my dreams,  
Where the crow hollers all the day,  
Where the boys and girls are at play,

I want to fish in the streams,  
I want to go back to my Oklahoma home,

I want to see the squirrels,  
And the Oklahoma girls,  
I never more want to roam.

—By HOMER ROBERTS, 6-C grade.

**The Old Lost Canyon**  
Down in the old lost canyon,  
Many a mile wide;  
Down in the old lost canyon,  
On its mossy bank I glide.

Down in the old lost canyon,  
Where has wandered many a lover;  
Down in the old lost canyon,  
I roam with my little brother.

—WELBIE BURLESON, 7-C grade.

**School Song**  
Our school has adopted the following song as "Our School Song," composed by one of our seventh grade girls, Jessie Opal Busher.

Our school has felt the glory  
Of the progress of our town.  
We are working as instructed,  
Which will lead us to renown.

We have loved and honored teachers,  
For which we are very proud—  
Our school is marching on.

**CHORUS—**  
Glory, Grammar Grades forever,  
Glory, Grammar Grades forever,  
Glory, Grammar Grades forever,  
Our school is marching on.

On the campus of our building,  
And at other schools around,  
In athletics clean and sportlike,  
Where our girls and boys are found.

We are ever there to boost them,  
And to yell for victory—  
Our school is marching on.

**CARD OF THANKS**

We wish to thank our many friends for the nice contribution and sympathy given in our loss of home by fire.

—Mr. and Mrs. Ike Cravy.

During one week a single firm of exterminators killed 620,000 rats in six cities of England and Scotland.

## BAPTIST MISSIONARY MEET

(Too late for last week)

The Baptist Woman's Missionary society met in the home of Mrs. L. R. Crockett Tuesday afternoon, and after a short business session, Mrs. R. T. Badger, chairman of missions, conducted a very interesting and inspirational program, as follows:

Personal responsibility in helping a revival.—Mrs. T. Y. Casey.

The New Year; its many responsibilities and opportunities.—Mrs. R. E. McCaskill.

The ministry of prayer.—Mrs. Baker.

Open toward Jerusalem, or the influence which cannot be measured or set in motion by the practise of family prayer.—Mrs. Lena Howard.

Pray for one another, or one of the mightiest instrumentalities for the world's advancement is intercessory prayer. Prayer for others.—Mrs. Jno Arnett.

Rise and pray.—Mrs. Stokes.

"Oh give me faith, dear Lord,  
That through the day  
I may go blithely on my way.

Oh give me hope, dear Lord,  
That through the years  
I may keep smiling through my tears.

Oh give me love, dear Lord,  
That through all time  
My life may move in harmony with thine."

Mrs. Otho Key added much to the program with her ministry of song.

The closing number was a special prayer for the missionaries in China.

An enjoyable social hour followed while the hostess, assisted by her daughters, served delicious refreshments to the more than 20 ladies present.

## STUDY BIBLE COURSE

Monday evening the B. Y. P. U., met at the Baptist church for a business meeting. The following officers were elected to complete the organization:

Tommy Killough, vice-president;

Iva Bruce, choirster; Emma Lou Jones, Bible quiz leader; Mrs. R. E. McCaskill, corresponding secretary.

It was decided to take the study course for the Union during the musical institute in about three weeks. It is hoped there will be a class of about 25 to take this course.

Anyone past 17 years of age is invited to attend.

## MRS. CHESHER ENTERTAINS

Mrs. A. C. Chesher entertained at bridge at her home Monday afternoon, with Mrs. Bill Chesher, of Sudan, as joint hostess.

The rooms were decorated through out with cupid and hearts, suggestive of St. Valentine's day.

Mrs. W. A. Rutledge and Mrs. Lyle of Sudan tied for high score, and were both awarded a suitable prize. Mrs. Jimmie Brittain won the 'booby' honors.

At the close of the games, refreshments of date-nut pie, topped with whipped cream, and coffee were served to Mrs. Everett Whicker, Mrs. K. F. Albright, Mrs. Robert Steen, Mrs. Otha Key, Mrs. T. Wade Potter, Miss Bettie Culbertson, Mrs. G. M. Shaw, Mrs. Alvin Hendricks, Mrs. C. E. Ellis, Mrs. Chas. Harless, Mrs. Frances Tolbert, Mrs. Jimmie Brittain, Mrs. W. A. Rutledge, Mrs. Ed Hart and Mrs. Robinson, of Anton, Mrs. Slate and Mrs. Acker of Amherst, Mesdames Foote, Hays, Fuerno, Robertson, Lyle, Patton and Terry, of Sudan.

**CARD OF THANKS**

Please accept our sincere and heart felt thanks for the assistance rendered and for the beautiful floral offerings in our recent bereavement, in the death of our husband and father.

**Plan for City's Future**

The future of any city depends upon the mobilization of a well-rounded set of resources, according to Thomas Randall, sales manager of a leading Detroit company.

"A city is a great deal like an individual," Mr. Randall said. "A man might be very rich and yet lack the other qualities that give poise and, for that reason, fail to be accounted a success. As with an individual, so with a city, each needs a combined set of abilities and resources to reach success. It is only when all of the various details have been carefully mobilized into a completed whole that a city can feel confidence in its future."

## Community Building

### People Are Learning Tree Surgery's Value

Tree surgery is today recognized as the one lasting way to preserve rare trees which are beginning to decay or trees badly damaged by storms, writes R. E. Wheeler, tree surgeon, in Alpha Aids. Tree surgery is like dentistry in many respects. The first attention a tree generally needs is a careful pruning of stubs, all dead and dying branches, and the removal of limbs that interfere with each other seriously. Cuts should be made on the shoulder of limb removed and not square against the main limb or trunk. In removing large limbs two or more cuts should be made to prevent stripping of the bark where final cut is made.

The result of leaving stubs is that decay sets in and then it is necessary to fill a cavity. Every cut made with a saw should be painted with some good disinfectant, such as pine tar, asphaltum paint or heavy lead paint. It is a good plan where large cuts are made to shellac them immediately, then paint over with paint as near color of bark as possible.

When cutting trees back never cut the top out of trees very far back, as this destroys too much leaf surface and forever ruins their beauty. Furthermore, cavities are likely to come where cuts were made, and eventually you have hollow trees, weakened and diseased, a pray to every windstorm.

### Too Little Attention Paid to Advertising

The newspapers of the country have built up the motion-picture industry. The advertising account of the railroads should give consideration to the newspapers when copy is placed because these railroads are dependent and hope to live off the prosperity created and developed by the newspapers of that section.

Cities and communities all along the Pacific coast are showing an increasing interest in the possibilities of community advertising through newspapers. Representative newspaper men from all parts of the coast have discussed plans whereby this service might be extended. The consensus was that this type of advertising had been universally successful. Figures show that definite results were obtained.

Many an advertised commodity outstrips its nonadvertised rivals not alone because it becomes known, but because the advertiser, once his product is identified in the public mind, has a strong motive for maintaining its quality, as well as looking for possible improvements that will constitute additional sales arguments. It has been demonstrated that precisely the same effect has been observed in community improvement in connection with well-planned community advertising campaigns.

### Pleasures of Small Towns

There is more than one privilege and pleasure about living in a small town. One of them is in going in your shirt sleeves; another is in sitting on the shady side of a business house in the summer time and the sunny side in the winter. If you want to speak to a friend three blocks away, you can yell and squall at him and you can carry on a loud, hollering conversation; you can always find a place to park; you can turn around in the middle of the block; you have a lot of friends, and when you are with one of them you can talk about all the balance; you can keep up with everybody else's business except your own, and many, many others, but they are too numerous to mention.—Gaffney (Mass.) Ledger.

### Outlines Work for Clubs

Town and country relations should be made a major project in the program of the Wisconsin-Upper Michigan district of Kiwanis clubs during the coming year.

This department of work should be put into "a real place of prominence," Prof. J. H. Kolb, Madison, chairman of the planning committee, reported. He also recommended that men be appointed to both district and local committees who would put real time and effort into the service, that projects of work be undertaken "of such a character as to challenge the attention, command the respect and secure the support of the entire membership of the clubs," and that sufficient funds be included in both district and local budgets to make such a program a reality.

 Morning worship 11:00 a. m.  
 Junior Endeavor 3:00 p. m.

**Chamber of Commerce Activities**  
 By E. C. GATLIN

At the beginning of the cotton year August 1, 1926, there was on hand from preceding years 5,362,000 bales. The 1926 production was 17,454,000 bales. Total manufacturers supply of cotton for the year 1926-27 was 22,861,000 bales. If the 1927 crop is reduced to 15,000,000 bales we will have as much cotton as we started the year 1926 with, and the price of cotton will be as low as now is, or even lower, if England has a good crop year in India and the Sudan valley.

Now that the price of cotton is so low, and looks as if it will go even lower next year, farmers are looking for some crop to diversify with. The supply of white Spanish peanuts in the United States has never met the demand. Thousands of tons of peanuts annually are imported from China to this country.

Peanuts do not ruin the land as was thought a few years ago. The only objection is that in some cases it causes the soil to blow. To prevent blowing, experts advise that about one-half bushel of rye be sown between the rows before the peanuts are gathered. Rye will also furnish excellent winter pasturage.

The average price of peanuts for the past five years has been about \$1.35 per 30 pound bushel f.o.b. cars. The average yield of 1926 was about 35 bushels to the acre over West Texas. Some yields ran as high as 65 bushels to the acre. It requires very little deductive reasoning to see that peanut growing on the same land and with less labor than cotton is a more profitable crop. Farmers on an average, over West Texas, will get a net return of \$41.50 per acre out of cotton.

At least one farmer in Lamb county can vouch for a good agricultural agent being worth his salary, and by helping this man we would be helping the farmers and business men alike. The man we refer to as realizing the benefits of the county agent is Albert Nuenschwander, manager of the Littlefield electric hatchery. A county agent could devote his time for the next month going over the county selecting flocks which are suitable to select setting eggs from. At the same time he could cull out the non-laying hens for the farmers. We wonder if the non-productive hens that will be kept on the farms in Lamb county this year will not cost the farmers nearly a \$1,000 board bill during 1927? If we had a county agent and he did nothing else, which is ridiculous to assume, for a whole year, but cull the farmer's flocks, he would earn the salary that the county would pay him. A county agent helping Mr. Nuenschwander get the best grade of eggs for his hatchery would help hundreds of farmers get the difference between the price of setting eggs and table eggs. Can a 1,000 farmers and business men of Lamb county stand an additional increase of \$1.00 per year on their taxes? \$1.00 to promote better farming and farm conditions? We ask the question, Can they? The answer is: Can they afford not to!

**FEEDING COTTON SEED**

Three and one-half pounds of cottonseed meal is usually considered the maximum quantity to give a fattening steer in his daily ration. In some sections of the Cotton Belt there are records of feeding 8 or 10 pounds to mature cattle for a period of from 3 to 5 months. No serious results were reported. But three and one-half pounds a day is about correct. At present prices, it might not be a bad idea to lay in all the cottonseed meal one will need for some time.

**CHURCH OF CHRIST**  
 Bible Study every Lord's Day, beginning at ten o'clock. Preaching services upon announcement until regular pastor is secured.

**Church of Christ**  
 Cor. 9th & Park Ave.

**Stomach So Bad Can't Eat Even Fruit**

"For years was badly constipated and troubled with gas after eating. Could not eat fruit and many other things. Adlerika has done me good—can now eat anything." (Signed) W. H. Fletcher. Adlerika removes GAS and often brings astonishing relief to the stomach. Brings out a surprising amount of old waste matter you never thought was in the system. Stops that full, bloated feeling and makes you enjoy eating. Excellent for chronic constipation. Stokes & Alexander Drug Co.

## LOCAL HAPPENINGS

W. G. Street made a business trip to Olton Monday.

Clarence Barnes, of Lubbock, spent Sunday in Littlefield.

P. W. Walker attended a land sale in Olton Tuesday.

Judge E. A. Bills was looking after business in Olton Tuesday.

Mrs. F. M. Burleson made a business trip to Lubbock Monday.

E. A. Logan spent the weekend in Amarillo transacting business.

Wilbur Haven, of Plainview was visiting friends in Littlefield Sunday.

J. V. Rudd and R. J. Robinson were in Amarillo the first of the week on business.

County Attorney T. Wade Potter was in the county seat Tuesday on business.

Mr. and Mrs. J. C. Whicker left Friday for a week's visit in Roswell, New Mexico.

A. P. Duggan and P. W. Walker were transacting business in Leveland Tuesday.

H. D. Burriss and E. C. Logan made a business trip to Plainview last Friday.

Dr. C. C. Clements, accompanied by his brother, Lonnie Clements, spent Sunday in Lubbock.

Mr. and Mrs. Jno. Porcher left Sunday for a week's visit with Mrs. Porcher's parents.

Mrs. W. M. Cheshier and J. R. Robinson, of Sudan, were here Saturday shopping and visiting friends.

W. H. Cox is moving his family to Austin, but expect to continue his work with the Ellwood Farms Co.

Len Irvin, L. W. Wynn and H. D. Burriss made a trip to Muleshoe Sunday in search of stolen merchandise.

Jody Elmo, 13 months old babe of Mr. and Mrs. Otto Jones, is reported very ill with pneumonia this week.

Mr. and Mrs. Pat Boone who spent the past week on their ranch near Elida, New Mexico, returned Sunday.

S. V. Cox, of Columbus has purchased a half section of Spade land, and expects to make Littlefield his future home.

C. J. Dugan, formerly of Littlefield but who for the past few months has been a citizen of Anson, spent Sunday here.

Drayton Lambert, who has been in Carlsbad, New Mexico for the past three months, has returned to Littlefield.

F. M. Burleson, accompanied by T. S. Sales, Mrs. Corie Leache and Miss Maude Cuenod, were Lubbock visitors Sunday.

The Boy Scouts under the direction of C. E. Gatlin, will render a program at the Parent-Teachers meeting Thursday afternoon.

Frank Leache, of Claude, who has been visiting his mother, Mrs. Corrie Leache, for the past week left Sunday for his home in Claude.

Mrs. Jack Porterfield, of Quitaque, who has been visiting her sister, Mrs. C. E. Ellis for the past week, returned to her home last Friday.

Mr. and Mrs. Simon D. Hay and little son, of Sudan, accompanied by Mrs. Hay's sister from Ottawa, Ill., were in Littlefield Sunday.

Mr. and Mrs. J. M. Blessing returned Friday from Fort Worth where they were called to attend the funeral of Mrs. Blessing's father.

Mrs. M. W. Jackson and son, Rector, and daughter, LaPins, of Sudan, spent Sunday in Littlefield, the guest of her sister, Mrs. M. E. Wilf.

It is reported by reliable authorities that Carl Williams and Floyd Hemphill are to be married as soon as they can find a suitable residence.

Wilbur Haven, Plainview; Miss Donia Davis, Miss Evelyn McDonald and Arthur Moller went on a hiking trip to Yellow House canyon Sunday.

L. R. Crockett left the first of the week for Wichita Falls and Fort

Worth, where he will spend several days looking after business interests.

Mr. and Mrs. J. W. Wells and their daughter, Miss Odessa, living six miles north of Littlefield, have returned from Abilene where they have been for the past week.

Renewing subscriptions to the Leader is now a popular activity among citizens of both town and surrounding community, as well as a number from a distance.

Mr. and Mrs. T. W. Barnes, formerly of the Barnes mercantile, but who now reside at Kingsmill, spent the weekend here the guests of Mr. and Mrs. H. D. Burriss.

Garland Lewis, formerly a teacher in the Littlefield high school, but who is now a member of the Lamesa school faculty, spent the weekend here visiting friends.

Mr. and Mrs. W. O. Burford, who have been living on the McFarland farm east of Littlefield, have moved into town now occupying the residence of Mrs. W. P. Parker.

Mr. and Mrs. J. W. Johnson, who have been visiting relatives here and looking after business interests at Harts Camp, returned to their home at Pawhuska, Okla., Monday.

Mr. and Mrs. M. P. Reid, formerly of Littlefield, but who for the past year have made their home near Arlan, have moved to the McFarland farm two miles east of Littlefield.

Rev. and Mrs. W. B. Thorpe this week moved into the residence formerly owned by W. H. Gardner, but which was recently purchased by the Methodist church for a parsonage.

Mr. and Mrs. D. C. Houk left Friday for Clovis, New Mexico, where they will spend a few days visiting friends, before resuming their trip to Pampa, where they will make their future home.

Mr. and Mrs. A. C. Cheshier will leave the latter part of this week for Pampa, where they will make their indefinite future home. Mr. and Mrs. F. K. Allbright will occupy their residence during their absence.

Mr. and Mrs. W. D. T. Story, who have been living on their farm five miles northwest of Littlefield, are this week moving to Talc, Texas. Mr. Story was former superintendent of the Littlefield public schools.

Lara Dee Beck, small daughter of Mr. and Mrs. L. D. Beck, of Pep, fell from the top of a high board fence last Friday and cut her leg on a nail necessitating the taking of 12 stitches by a Littlefield surgeon where she was brought for treatment.

Velma Lee Lowe, small daughter of Mr. and Mrs. R. L. Lowe, who had the misfortune of getting a pair of scissors stuck in her eye a month ago, had the bandage removed last Saturday, and her eyesight is completely restored.

J. E. Holland, of Lubbock county, who recently purchased some Spade land on Blackwater draw, just south of Fieldton, finished building his residence last week and moved his family into it. He is contemplating establishing a Jersey and sheep farm there. One of the first things he did after establishing his new home was to subscribe for his home paper for the year.

The Leader is this week in receipt of a letter from S. R. Little, residing on his farm near Muleshoe. He enclosed money for renewal of his subscription to his "home paper," as he expressed it. Mr. Little lived here for some time previously to moving onto his farm, and has a host of friends and acquaintances in Littlefield. He says that during the past year he has sold \$239 worth of cream and eggs from three cows and 80 hens, besides having all they needed for family use. Skimmed milk valued at \$100 was fed to the hogs. A year ago he started with four gilts; has sold \$174.45 worth of pigs, has now 10 brood sows on his farm and 11 more shoats feeding for the market. Pretty good sideline in the diversification program!

W. M. U. MEET

The Baptist W. M. U., met at the church Tuesday afternoon, 20 members being present.

It being industrial week, each of the ladies brought her needle and thimble, spending the time in sewing for Buchner orphan home.

H. L. Ryan of St Louis went from a jail cell to his wedding, stopping in court to pay a fine of \$100 for being drunk at his bachelor dinner.

### Man's Food Supply for Seventy Years of Life

If a man of seventy years were starving it would probably be of little comfort to him to reflect that he had consumed in the course of his life 33 1/2 tons of solid food and 42 3/4 tons of liquid, or about 1,280 times his own weight in both solids and liquids, but it would be quite true.

Being a man of average appetite and purse, he would have eaten 15 tons of bread, which would have made a single loaf containing 1,200 cubic feet and appearing about as large as the average suburban home, and on this bread he would have spread one ton of butter. If his bacon had been cut in single slices the strip would have been four miles long, and his chops, placed end to end, would have extended two miles. Twenty ordinary-sized bullocks have supplied him with beef, some 18 tons of which he has eaten, along with 5 tons of fish and 10,000 eggs and 350 pounds of cheese. If he had elected to have all his vegetables served at once, they would have come to him on a train of cars, the pod containing all his peas being over three miles long. He has had 9,000 pounds of sugar, 1,500 pounds of salt, 8 pounds of pepper and 100 cans of mustard. Three pints of liquid a day would have amounted to 76,800 pints or 42 3/4 tons.—Washington Star.

### Old English Monarch Man of Modern Ideas

Burglary insurance is no modern institution. It seems to have existed from the time of King Alfred and was probably introduced by this king who, had he lived in these times, would have made a name as a successful business man.

The town of Ripon, England, he gave in 898 into the charge of a council, who appointed a watchman to blow a horn every night at nine o'clock. Between that hour and sunrise the town was quiet and no one was supposed to be abroad. But Ripon was not altogether a law-abiding place and presently the town authorities found it necessary to protect its peaceful citizens against raiders and robbers.

And so a law was passed that any householder wishing so to protect his house from robbery should pay 4 pence a year to the authorities. Then, if his house was entered and his goods stolen or damaged between the blowing of the horn and sunrise, he could claim from the town council, who undertook to compensate him.—Music and Youth.

### Natural Pendulum

A giant pendulum, formed by a strange freak of nature, swings in Yellowstone National park, not far from Old Faithful geyser, according to the official government naturalist in charge of the lecture and nature study work of the United States national park service. It consists of the trunk of a lodge pole pine, suspended by its top between two other trees of the same species and swinging by its base, so that a mere touch will set it to swaying. Apparently the tree fell or was blown over many years ago, its top becoming lodged in the tops of its neighbors, which grew out and surrounded it, supporting it securely. Subsequently several feet of its base rotted away, leaving it suspended in midair. One of the park nature trails has been run near this strange natural grandfather clock, and tourists are permitted to set it swinging.

### Language and Life

The one supremely significant fact in the universe is, in quote Peabody's fine paraphrase, "the transformation of language into life." The belief is one of immense antiquity, though only of recent years susceptible of scientific explanation—the belief in the strange bewildering identity of sound and life. It has been claimed that all the visible creation in its countless forms has been built up sound-wise, upon a system of harmonic vibration—that, in the shell, the fern, the fir-cone, the reptile, the fish, the bird, the same laws prevail that govern the stretched string, with all their harmonic progressions and "associated wave-lengths."

### Explaining Law Term

Barratry is an old term of English law, derived from an Italian word signifying to cheat. Common barratry consists in habitually stirring up or maintaining quarrels or lawsuits, or in continually disturbing the peace by brawls, or in taking or detaining possession of property the right to which is in dispute. Habitually breeding discord between neighbors is also barratry. In marine insurance and in contracts relating to shipping generally, the term barratry means any fraud or knavery or willful wrongdoing on the part of the master of the ship or the crew, by which the interests of the owner are injured.

### Franklin a Good Swimmer

Franklin was a great swimmer. On one occasion he swam for four miles in the Thames, "performing on the way many feats of activity, both upon and under the water." He obtained such a reputation as a water dog that he thought seriously of becoming a teacher of swimming. Even at forty he still swam for two hours at a stretch. He astonished his fellow printers by carrying two forms of type to their one, and, in his old age, he was fond of displaying his strength by lifting heavy books.—Scientific Monthly.

### A BIRTHDAY PARTY

Mr. and Mrs. W. T. Jones entertained with a surprise birthday dinner at their home Monday evening in honor of Mrs. Jones' father, J. T. Bellomy, and Mrs. T. A. Henson, whose birthday happened to fall on the same date.

The table was beautifully decorated with candles and flowers.

After a three course dinner, consisting of salad, chicken a la king, pears topped with cherries and whipped cream and angel food cake, was enjoyed by all present; and a number of gifts were received by the guests of honor, after which the party went to the theatre, where seats were reserved for the following: Mr. and Mrs. J. T. Bellomy, Mr. and Mrs. C. W. Phillips, Mr. and Mrs. Jesse Lilly, Mr. and Mrs. T. A. Henson, and Mr. and Mrs. W. T. Jones.

### YUCCA CLUB MEETING

The Yucca club met last Thursday evening with Mr. and Mrs. J. W. Blalock, and one of the most enjoyable evenings of the season was spent.

At the close of the evening's games an elaborate luncheon was served to

the following:  
Mr. and Mrs. J. H. Lingo  
Mrs. Star Halls, Mr. and Mrs. Clark, Mr. and Mrs. Albin  
Mr. and Mrs. T. S. Salter  
Mrs. H. J. Gibbs, Mrs. C. C. Miss Maude Cuenod, Frank Claude, and the host and
