4-H Girls Awarded Medals for Outstanding Club Work

Winners of 4-H Club awards for girls for 1950 were announced and medals were presented by Mrs. Xie Collins, Lamb county home demonstration agent, at a program held last Saturday in the Amherst high school auditorium.

Awards to the boys were presented by J. G. Simmons, in his last official act as assistant county agricultural agent before leaving Lamb county for Dallas. A list of the boy winners was published Tuesday.

4-H Girl Winners

The winners of the various awards in the Girls 4-H contests are as follows:

- Achievement: Mildred Gregson, Amherst.
- Canning: Dee Dall Jones, Littlefield.
- Clothing: Jo Ann Nix, Amherst.
- Farm and Home Safety: Dee Dall Jones, Littlefield, and Dorothy Foltyn, Sudan.

ATHLETIC CONSUL
 MONTREAL. (AP)—Argentine consul Augustino Nores Martinez regularly gives boxing lessons to the younger members of the consulate here. Recently he rowed a boat 130 miles from Montreal to Ottawa, taking five days for the trip.

PUNTER PINGEL
 EAST LANSING, Mich. (AP)—Johnny Pingel, Michigan State's ace halfback in 1938, still holds the national collegiate record for most punts in a single season with a total of 99. He also leads in the "most yards punted" department, with a 4,138 yard total.

Divine Healing Service at Foursquare Church

A divine healing service will be held at the Foursquare Church Friday night with Miss Mary Edwards of Los Angeles, Cal., in charge.

Miss Edwards closed a meeting in Lubbock at the Foursquare church recently with 26 conversions, and many healed.

There will be marvelous ministry and praying for the sick. The public are cordially invited.

TALL ROOKIE

MONTREAL. (AP)—Bud MacPherson, rookie defenseman of the Montreal Canadiens, is the tallest player in the National Hockey League. MacPherson, a 23-year-old rearguarder who was brought up from the Cincinnati farm team of the Canadiens, stands six feet, three inches.

REPUBLICAN LEADER DIES—R. B. Creager, 73, Texas Republican leader, died in Brownsville, Tex., Oct. 28. He had dominated the Republican party in Texas for at least 20 years. Creager

became a member of the Republican national committee in 1923. As dean of the committee in years of service, he had presided at its meetings for the past several years. (AP Photo)

NAMED FOR TV STAR

MIAMI. (AP)—J. J. Colando's promising juvenile race horse was named for television's Uncle Miltie—as comic Milton Berle describes himself. Uncle Miltie—the horse, that is—will be raced in Hialeah's Flamingo Stakes this winter in preparation for the Kentucky Derby.

HUNTS AT HOME

SAULT STE. MARIE, Ontario. (AP)—While her son was away on a hunting trip, Mrs. W. T. Scott bagged a partridge in her apartment building. Attracted by her dog, she found the bird on the stairs and it flew up and stunned itself on a window transom. There was no clue as to how it got in.

Cats, Texas On Football 'Spot'

The Southwestern Conference is at it again. Last week Texas knocked off the nation's top-rated SMU eleven in a not too surprising victory while the lowly Baylor Bears upset the Horned Frogs of TCU.

The chant "We Got a Horned Frog, Now We Want a Steer!" resounded in the Baylor dressing room after the TCU game.

Maybe Baylor will get one next Saturday. Stranger things have happened in this unpredictable conference. Texas has not been exceptionally outstanding in its play, despite its pre-season promise, except against Oklahoma and SMU.

On the direct comparison of their play against Oklahoma, A & M might easily emerge the winner over Texas. Then, too, TCU always does the impossible at least once during the football season, usually against either Texas or Southern Methodist.

No one who is familiar with the history of Southwestern Conference play would be a bit surprised to see either Texas or SMU lose at least one and possibly two games each before the season closes.

A speaking of surprises, Littlefield can look closer to home and keep its fingers crossed Friday night when the Wildcats meet Levelland.

Always the toughest game of the season for the Wildcats, Friday's game appears to be no exception to the rule.

While on the basis of comparative scores the Wildcats appear to have an edge, previous performance mean little when such traditional rivals meet.

Regardless of the outcome, it should be a game well worth seeing and all Wildcat followers who can make the trip should be in the Lobo stadium to lend the team all the support they can. It may be needed.

Government Program Dangerous

It is reliably reported that a number of Mr. Truman's economic advisors have told him that there is little need to worry about government spending, deficits, or the size of the national debt. If we are to have military budgets of \$35,000,000,000 a year or more, they can simply be piled on top of non-defense expenditures of a similar amount.

This theory is not a new one. It was given a considerable amount of credence in the days of the Roosevelt administrations by advisors who argued that the national debt was of small importance for the reason that it simply represented money we owed to ourselves. And, basically, that is part of the "spend and spend and spend and tax and tax and tax" school of economic thinking.

There is, however, one little thing wrong with the theory, as history has demonstrated time and time again. It is simply this: the surest way to create inflation, to destroy the value of the dollar, and to destroy with it the true worth of every bank account, every life insurance policy, and every form of investment with the possible exception of real property, is government extravagance.

Senator Byrd has pointed out specific means by

which non-defense spending can be cut by billions without imperiling a single necessary government function. The Hoover Commission surveys produced similar evidence. According to the American Bankers Association, the government could save \$6,000,000,000 a year by the simple expedient of cutting back non-defense expenditures at least to the level of 1948. Yet the Administration and Congress have not shown the slightest interest in cuts of any significance.

Here is "politics as usual" with a vengeance. It is an obvious fact that honest economy in government would shrink the pork barrel to a mere fraction of its present dimensions. And that, the political argument goes, would cost votes. So the country is driven down a road that must lead to inflation, which if not curbed, leads eventually to bankruptcy.

Whether the American people will blindly accept such a fate remains to be seen. The American people will be worse than fools if they do not demand that their government cut its domestic spending and waste, no matter whom it hurts, and protect the dollar. No nation can remain military strong and countenance continuous public extravagance.

BULL LAKE PHILOSOPHER GLAD TO LEARN THE COUNTRY CAN'T KEEP UP WITH ITS MONEY EITHER

EDITOR'S NOTE: The Bull Lake Philosopher on his Johnson grass farm on Bull Lake is drawing an unwarranted comparison this week, but that's probably the least of his worries, if he has any at all.

Dear Editor:

I took a copy of the Amarillo Times away from one of my Jersey steers the other day, and never got around to gettin' any salt for 'em and don't know how long they can go on newspapers as a substitute, looks like it would get pretty monotonous and unsavory after a while, and took it home and after supper read an article by an expert who said the United States has spent 50 billion dollars in the past five years on defense and "no one has yet given us the answer to where the \$50,000,000,000 went."

His solution was to get rid of the present Congress and President and get a set that could give the answer.

I ain't no expert, I work for a livin' whenever I have one, but I'm afraid he's barkin' up the wrong tree, as a new set wouldn't have no better answer than the old one.

From my experience, after the money is spent, there ain't much way of figurin' out where it went and probably wouldn't be no satisfaction in it if you could, at least that's the way I find it with mine. When I look back over the past five years and figure up the amount of money I've taken in, and then try to figure out where it went, I throw up my hands and turn on the radio and get some music. It would take more than a new President and a new Congress to figure out where my money went, although it wouldn't be no trouble at all to establish

the fact it was gone, the same as in the case of the United States.

I never realized Congress was in the same boat as I was, but if it has spent 50 billion dollars and can't remember where it all went, I feel a lot better. Don't know

Two Hockley Wells Are Near Pay Zone

Two projects in the Ropes-Pennsylvania pool of east-central Hockley county are coming into the pay zone of that area.

Honolulu Oil Corporation and Signal Oil & Gas company No. 2 H. C. Hopper, one-quarter mile west stepout to production is coming below 9,304 feet.

This project reportedly has topped the lime reef at approximately 9,272 feet, however a drill-stem test at that depth yielded only 60 feet of mud, slightly oil-cut.

Operators then cored from 9,272 to 9,292 feet, and recovered four and one-half feet of lime with no shows.

The No. 2 Hopper is a west offset to the same operators' No. 1 Hopper, a producer.

Honolulu and Signal's No. 3 Hopper, a north offset to the No. 1 Hopper, was last reported coming out with a core from 9,263-293 feet. On a previous core at 9,240-63 feet, recovery was 23 feet of shale.

Formal Opening of New Studebaker Agency Is Set for Next Thursday

Thursday, Nov. 16, has been set for the formal debut of the new Brown & Miller Motor Co., Littlefield's first Studebaker dealers.

The new motor dealer firm in its newly constructed home at Ninth street and Littlefield Drive will introduce the new 1951 Studebaker models for inspection by visitors at the time of the formal opening.

Guy Brown, a partner in the new firm, said Monday the trim new Studebaker 1951 models, with their many new improvements, would arrive in Littlefield in ample time for the gala opening.

Buff, Green Color Scheme
Brown is widely-known in West Texas motor circles through his previous associations, although the motor car business is a new venture for his partner, Johnnie Miller.

The company's new home, built especially for the firm in accordance with plans designed to afford the utmost efficiency and attractiveness, has a green and buff color motif both for the interior and exterior.

The outer walls of the building, on the Littlefield Drive side, are concrete, painted green. The front and east sides are of buff brick, trimmed in green. Some 6600 square feet of floor space is enclosed within the walls.

Knotty Pine Interior
The office and showroom portion of the interior is finished in natural color knotty pine and in buff-tinted sheetrock, trimmed in green. Flooring is rust and green asphalt tile.

Elmo Jones was general contractor for the new building. The firm's shop will be equipped to perform high class repair work on any type or make of motor vehicle, Mr. Brown said.

Texaco oil and gas products will be carried at the service station in front of the building in the triangle formed by the two streets, he said. The company also will carry a complete line of Firestone tires as well as car parts and accessories.

The two partners joined in a cordial invitation to all residents in the Lamb county area to visit the new building Thursday and see the new 1951 Studebaker line.

Company Will Abandon Deep Lamb County Well

National Associated Petroleum company has abandoned its No. 1 Ewing Haisell, a deep-zone wildcat two and one-half miles southwest of Earth in central-north Lamb county.

Operators stopped a total depth of 8,910 feet, possibly in lower Pennsylvania or upper Mississippian. No signs of production were found in any section drilled.

This failure was 4,166 feet from north and 2,177 feet from west lines of league 237, Dallam county school land survey.

Farwell School Plans For Homecoming

FARWELL. — First annual Homecoming for Farwell Consolidated schools will be observed Friday, Nov. 10. LaMoin Williams, Ex-student Association secretary, announced.

The day's activities get underway at 2 p. m. with the gridiron clash between the Farwell Steers and the Springlake Wolverines. Halftime highlight will be the crowning of the Homecoming queen.

Closing out the day, a barbecue supper will be served in the football stadium. Should bad weather intervene, it will be served in the school cafeteria.

BABY PLAYS WITH SNAKE

RANGOON. (AP) — Seventeen-month-old Kyi Shein romps around with an 18-foot snake. But the little boy's parents aren't worrying. The attachment between child and snake began soon after the boy's birth. The snake, then merely eight feet long, slid from the thatched roof into Myi Shein's cradle.

Hearing On State Water Laws Scheduled for December 11-13

The Texas Water Code Committee, which has spent almost a year, working on a revision of the water laws of this State, will have its Preliminary Report ready for distribution to the public about the middle of November.

Senator Rogers Kelley, Chairman of this Legislative Committee, announced in Edinburg today that the Committee will hold a state-wide public hearing in the Senate Chamber of the Capitol in Austin on December 11, 12, and 13, in order to give all citizens an opportunity to present their views concerning this proposed revision of the water laws.

"The Committee has received recommendations as to the revision from sub-committees appointed to draft the new legislation, but will not take final action thereon until after the public hearing," Senator Kelley stated.

"The Committee feels that the importance of the subject-matter of these reports requires a full public hearing before we make our final recommendations to the Governor and the Legislature," he continued.

"We plan to have about four thousand copies of this Proposed Revision published and distributed throughout the State to newspapers, water users, county judges, mayors, chambers of commerce, and members of the Legislature. In this way, all of our citizens who are concerned with the problem of water control and conservation will have ample opportunity to express themselves and make their wishes known before final action is taken by our Committee," Senator Kelley concluded.

After the public hearing in Austin next December, the Committee will prepare its full final report and submit it to the Governor and to the 52nd Legislature when it convenes in January.

CARD OF THANKS
 We wish to extend our thanks and appreciation to all of the people who were so kind and nice to us during the recent illness and death of our dear husband and father.

We wish to thank the people who sat with and cared for him, all those who sent food, the friends who sent flowers, and the doctors and nurses at the Payne-Shotwell Hospital, who cared for him so faithfully.

We also thank the many friends for their expressions of sympathy. May God bless each and every one of you.

Presents Church With Beautiful Hand Woven Cloths

Two beautiful hand woven embroidered cloths have been presented to the First Baptist Church by Dr. and Mrs. B. L. Nichols, who have been missionaries in China for several years, and who returned to the United States in September last.

These cloths are of rose design, representing Jesus, the Rose of Sharon, and were hand woven by Chinese girls.

The cloths are to be used by the church during communion service, the one to cover the table and other to cover the bread and wine.

These cloths were received by Rev. and Mrs. Lee Hemphill Saturday.

INFORMATION FOR VETERANS

QUESTIONS AND ANSWERS
Q—I plan to obtain a GI loan to buy a house which I will use as a combination physician's office and home. Do the new VA down payment requirements for residential property pertain to me? About two-thirds of the house will be for my office and laboratories.

A—Yes, the down payment restrictions apply in your case. So long as any part of the house is used as living quarters, the regulations apply.

Q—I am a retired officer drawing disability retirement pay from the Army under the Career Compensation Act for loss of a leg incurred in line of duty. Will VA provide me with any prosthetic appliance I happen to need?

A—So long as you draw retirement pay only, you are entitled, only to an artificial leg or braces as needed, but to no other prosthetic appliances. However, if you can qualify for VA's disability compensation (by waiving as much

of your retirement pay as you receive in VA compensation), you may be eligible for any appliance for the disability for which you are receiving VA compensation. And you'd continue to be eligible

Bird in hand that's a Beauty

and a Buy!

Now it can be told. This clean-lined, smart-stepping 1950 version is the most popular Buick ever built.

Ever since early in the present year, a value-wise public has been taking them away from us as fast as—or faster than—the great Buick factories could roll them out. Within recent weeks, production and sales have set an all-time record.

Only Buick has Dynaflo—and with it goes:

HIGHER-COMPRESSION Fireball valve-in-head power in three engines. (New F-263 engine in SUPER models.) • NEW-PATTERN STYLING, with MULTI-GUARD fender, taper-through fenders, "double bubble" taillights • WIDE-ANGLE VISIBILITY, close-up road view both forward and back • TRAFFIC-HANDY SIZE, less over-all length for easier parking and garaging, short turning radius • EXTRA-WIDE SEATS cradled between the axles • SOFT BUICK RIDE, from all-coil springing, Safety-Ride rims, low-pressure tires, ride-steadying torque-tube • WIDE ARRAY OF MODELS with Body by Fisher.

When better automobiles are built BUICK will build them

Count off the distinguished and time-tried features of this winner and you'll know why.

It has a Very Exclusive Motor—Buick's own high-compression Fireball—which gets its driving power from a combustion chamber found in no other car in the world.

It has the bump-smothering softness of coil springs on all four wheels and a torque-tube drive—a comfort combination that no other car provides.

It has Dynaflo Drive*—which ushered in a whole new concept of effortless travel.

It has a brilliant styling which sets it apart from every other car on the road.

And it has prices which say "buy me" to any motorist who's looking for maximum money's worth.

Isn't it sensible, while these great cars are still coming off the line, to check with your Buick dealer about getting one to call your own?

*Standard on ROADMASTER, optional at extra cost on SUPER and SPECIAL models.
