100,000 EXTRA VOTE OFFER FOR WORKERS IN \$2,000.00 CAMPAIGN

Attractive Offer of Entire Campaign—Subscriptions Count More Votes Between Now and Jan. 25 Than They Will Later. Get Promises Filled This Week.

order to assist each and every date in The Leader's Automobile Prize campaign the manager today announces the biggest best vote gathering opportunity in the entire campaign. This applies on both new and renewal subscriptions and will enable any date or new entrant to forge a leading position in just a few days of intensive solicitation among friends and acquaintances. Subscription vote values will show a decided decline just as soon as the present offer expires, January 25, and now is the time to put your best legs and wield your whip to the automobile. What you accomplish during the next week will probably be the deciding factor in the winning of the big automobile and prizes when February 15th comes around. It is easy to understand that NOW is the time to get prize winning votes in the race for the automobile as there will never be another vote offer equal to this

100,000 EXTRA VOTES FREE
For Every \$20.00 Turned In By 8:00 P. M., January 25th.

For each and every \$20 of subscriptions or that part of turned in by 8 p. m., Saturday, January 25th, 100,000 extra bonus votes will be given. These votes are EXTRA and are in addition to the regular scale as shown on the back of your receipt book. There is no limit to the number of times you can earn the bonus. It comes with every twenty dollars you turn in. It is NOT necessary to turn in the entire twenty dollars at one time; also, more than twenty dollars may be turned in at a time. January 25 the amount will be added, and candidates receive extra votes for each and every twenty dollars in business. This is positively the biggest and best offer. After January 25, at 8 p. m., the votes will be slashed, and never again will they count as much as now.

Everyone Eligible
There isn't a woman in Lamb County but who could turn in at one club between now and expiration of this great offer. Try it. The indications thus far are that this is going to be very successful for the energetic candidates to the automobile and other prizes. We expected that the big offer will be the means of several prospective winners who have been "on the edge" to send in their nominations soon as they are familiar with the offer and see how easily a vote total may be piled up during the next week, likewise it will be an incentive for those already entered to pitch right in and do their best while the offer is effective.

The preliminary work of the campaign is almost completed and almost every one is familiar with the campaign, the advantage of an early start is obvious, so all that remains to do is to get the blank and get it filled in.

The entry blank entitles a voter to 2,000 votes free as a bonus and it is believed that one can easily secure at least one \$20 subscription. Several ladies have been nominated by friends and have not yet started vote gathering. These whose nominations have been sent into the office should get their supplies and start now and get the automobile winning votes before the 100,000 Extra Bonus Vote Offer, announced today is positively the biggest and best vote offer of the campaign and will never be repeated nor duplicated. It is your big chance. Call phone 27 or come to The Leader building and get full information TODAY.

First List Leader's Candidates in Big Circulation Drive

The list below represents those candidates who have entered and made a report as to their progress and includes all votes turned in for publication. Others who entered and have made no report during the week will be listed later, provided they get in touch with the campaign department and state their intention. A glance at the vote totals will show how comparatively easy it would be for a new candidate to gain a lead-

EARLY ENTRIES IN LEADERS BIG CIRCULATION CAMPAIGN

- Littlefield**
- Miss Donny Lou Adams 2,000
 - Miss Alma Busher 2,000
 - Miss Prudence Courtney 2,000
 - Miss Avis Dow, Rt. A 2,000
 - Miss Vilas Emfinger, Rt. A 2,000
 - Miss Lois Farquahr 2,000
 - Mrs. C. H. Grow 2,000
 - Mrs. Sid Hopping 2,000
 - Alfred Raby 2,000
 - Miss Lucille Scheuer, Rt. 1, 2,000
- Pep**
- Miss Ida Jungman 2,000
- Fieldton**
- Mrs. G. W. King 2,000
- The candidates are only credited with the "Entry Blank" which is good for 2,000 votes as a starter. The names of the candidates are listed alphabetically.

TO ENFORCE TRAFFIC LAWS

Violation of state traffic laws and city ordinances of the same character must be stopped, according to local police department.

Parking rules are being violated, motorists are cutting corners on intersection center blocks, and some even run races up Main street to see who can get first to the park.

"Has to be stopped!" says the Law. If not, contributions to the city treasury will be in order.

CITY COLLECTS \$108.70

Law-breaking propensities of Littlefield citizens since the first of January has netted the city treasury the sum of \$108.70.

The principal offenses were drunks and gambling charges, with one charge of vagrancy and one for disturbing the peace.

NOTICE

The Lamb County Leader has discontinued combination rates with all other newspapers and periodicals.

If No One Lets Go They May Get Somewhere — By Albert T. Reid

GARBAGE HEAP CALLS 'MAMMA'—T'WAS DOLL

Workman nearly jumped out of their skins when cries of 'Mamma' issued from a heap of garbage the early part of this week.

Through mistake several wagon loads of garbage had been dumped at the wrong place, and was being removed to its proper destination at the City dumping grounds.

Considerable of the refuse had been loaded into the wagon and one of the workmen had got up to tramp it down, when suddenly from beneath his feet came the faint cries of "Mamma."

The wagon was hurriedly unloaded, and in the middle was found a dismembered doll. Though blameless, it had not lost its voice.

A. L. PORTER FOR PUBLIC WEAIGHER OF PRECINCT FOUR

In this issue of the Leader appears the announcement of A. L. Porter for the office of Public Weigher, Precinct Four.

Mr. Porter is 42 years of age, has been a citizen of Texas for the past 23 years, coming from Hardaman county to Lamb county a bout five years ago. He has had 18 years public business experience, and seven years actual experience as a public cotton weigher before coming to Lamb county.

During his residence in this county Mr. Porter has proven himself a good citizen, always lending his influence for the betterment of the community in general. He states that in so far as he knows his work as a public weigher during his past term of office has been satisfactory, as it has been his sincere desire at all times to render the most efficient service possible.

He states he has made a thorough study of cotton classification and marketing, and has been able to be of much assistance to the farmers in the proper grading and disposing of their staple.

Believing his past service has been entirely acceptable, he asks the favorable consideration of the voters at the coming Democratic primary.

BE CAREFUL OF GARBAGE

City police Ratliff has given out information that many of the citizens are dumping their garbage in the wrong place and are subject to fine for putting same on private property.

The city dumping ground is a little farther on than where the dumping has been going on. Signs mark the way to the proper spot. People are warned to be careful.

LITTLEFIELD POST OFFICE ESTABLISHED IN 1913 SHOWS CONSTANT GROWTH TO 1930 BUSINESS INCREASE LAST YEAR, \$51,161.42

Tabulated postal receipts over a period of 17 years, or since the establishing of a post office, as prepared by Miss Ruth Courtney, local postal clerk, show a difference of \$14,040.73 as between the business done in 1913 and that of 1929. Receipts for 1913 were \$429.10, while those of 1929 were \$14,469.83.

With but two exceptions, postal receipts of the Littlefield office have shown a steady increase each year over the previous one, those were during the years 1919-20. The years 1917-18 show an exceptional increase but that was occasioned by the fact that during that period the Littlefield office was used as a central counting office for many of the other surrounding towns.

The complete figures of receipts from 1913 to 1929, inclusive, are as follows:

1913	429.10
1914	710.23
1915	1,005.26
1916	1,382.50
1917	2,249.94
1918	3,070.35
1919	1,697.44
1920	1,383.91

1921	1,518.87
1922	1,878.90
1923	2,520.27
1924	4,991.75
1925	8,213.61
1926	9,438.93
1927	9,453.27
1928	10,748.16
1929	14,469.83

During this period the money order receipts had a similar increase, some years being greater than the postal receipts.

It will be noted that postal receipts for 1928 amounted to 10,758.25, while for the year 1929 the total was \$14,469.83; an increase of \$3,721.67 over the previous year.

The money order receipts for 1928 totaled \$85,838.72, while for the year 1929 they amounted to \$133,278.72; an increase of \$47,439.75 over the previous year, or a grand total of \$51,161.42 increased business during 1929 over the preceding year.

It is stated by Postmaster J. E. Brannen that much larger quarters than are at present occupied are greatly needed, and must be secured before the rush of business begins again this fall.

LEN IRVIN ASKS RE-ELECTION FOR SHERIFF & COL'ER

J. L. (Len) Irvin, in this issue of the Leader makes announcement of his desire for re-election as Sheriff and Tax Collector of Lamb County.

Mr. Irvin is a native Texan and has lived in Lamb county for the past seven years. He owns a farm near Oilton and has property in Littlefield. Before coming to this county he was deputy sheriff of Eastland county for six years. For several months, following his citizenship in this country, he was City Marshal in Littlefield, later being appointed to fill the unexpired term of Jay Carter, sheriff, at the end of which period he was elected by the people to that office.

In seeking re-election to this important office, Mr. Irvin states that at all times during the past period of his service it has been his constant endeavor to faithfully perform his duties in upholding and enforcing the law, and that he has done it without fear or favor. "Of course," he said, "I have doubtless made some mistakes, I wouldn't be human if I hadn't; but my work has been done in an entirely

TO EXTEND LIGHT SERVICE

H. L. Allen, district manager of the Lubbock district, Texas Utilities Company, was here Friday working with R. E. McCaskill, local manager for the company, on plans to extend service to a number of residents in High School addition.

Plans are being made to connect part of the new subscribers with the line leading west to the Cundiff dairy while those living in the west part of the addition will receive service from a line leading south from the highway line.

conscientious manner, and I have always endeavored to be accomodating and courteous to my fellow citizens who have had business dealings with my office. It is a pleasure for me to state that the records of my office are correctly and neatly kept and that the financial audit of my books has always checked up O. K."

Mr. Irvin takes this opportunity of expressing his appreciation to the citizens who, during his past tenure of office, have assisted him in upholding the law, and states that he feels with his past experience he is now much better qualified to efficiently and satisfactorily serve the citizenry of this county.

COMMERCIAL BODY PLAN MEMBERSHIP DRIVE ON TUESDAY

At the meeting of the Chamber of Commerce held Tuesday noon plans were made for starting a boom drive for increased membership Tuesday 9:00 a. m. of next week.

Dr. C. C. Clements, of the Rotary club, and Ike Griffin, of the Lions club, with power to select as many assistants as they desired, were chosen as captains for the drive. Promptly at nine a. m. next Tuesday the fire siren will blow, the band will play and the big drive will have started. It is the desire of Secretary J. W. Hale that it be made thorough and snappy. Each worker will be given five names, and it should take only a few minutes to complete the work.

During the course of the Tuesday meeting the secretary reviewed his labors and accomplishments during the past three months.

F. G. Sadler, of the Good Roads committee, reported that Commissioner E. J. Foust had agreed to fill a lake north of town. The road from here to Abernathy was discussed, and on motion by J. S. Hilliard the body endorsed a road leading out north of the railroad past the old "Cooper place" and on to the Hale county line. This highway is to be 60 feet wide, and it was stated that land owners along the proposed route might begin moving back their fences at their own convenience.

A telephone line into the Bula community was discussed, and the Secretary was instructed to appoint a committee to handle the matter.

The numbering of houses and marking of streets within the city limits was discussed, Postmaster J. E. Brannen stating that city free mail delivery could be secured as soon as sidewalks had been laid.

The preparation of a booklet giving data regarding Littlefield and surrounding territory for general distribution was discussed, and the need of a farm program was urged by the Secretary.

G. G. Hazel, attorney, who recently located in Littlefield, gave an interesting talk, pledging his fidelity and co-operation to the chamber of commerce activity.

E. S. Rowe urged the need of placing signs upon the principal highways.

TO OBSERVE BIRTHDAY

Geo. Eaton, deputy commissioner for the Boy Scouts, from Lubbock, was in Littlefield, Tuesday, enroute to Sudan, to organize a troop of Boy Scouts at that place.

Mr. Eaton states that from February 8 to 15 special observance will be given the organization, February 8th being the 20th anniversary of its founding.

Program for the Littlefield Scouts will be announced later.

SHOULD PAY POLL TAXES

Citizens of Lamb county should bear in mind that this is election year both in county and state and see that their poll taxes are paid on or before midnight of January 31st.

Indications now are there will be several hotly contested offices this year, and every franchise holder should be prepared to express his opinion at the ballot box.

AGRICULTURE NOTES

By D. A. ADAM
Lamb County Farm Agent

Terracing school was held on the C. D. Nelson farm 2 1-2 miles north of Littlefield, with an attendance of 15 farmers Monday of last week. Three men were trained to use the farm level accurately, and are able to run terrace lines for farmers who want them to do it. These men are C. D. Nelson, W. K. Wright and Mr. Lindsey. County graders and tractors were used to build terraces in their demonstration. A poultry culling demonstration was held by the county agent on the

Clyde Robinson farm Saturday of last week.

Two bull circles are in process of organization in the Anton territory, and most of these bulls that are being placed are coming into Lamb county, states D. A. Adam, County agent, who attended a meeting of the Anton Chamber of Commerce Monday night. It is estimated that Lamb county will get in 30 more pure bred bulls during the ensuing year.

M. R. Bentley, agricultural engineer of the Extension Service, Dad Short of the Federal Land bank, and their crew will be in Lamb county on Monday January 20th, for a terracing school in conjunction with the county agent's school on the J. E. Holland farm, one mile south of

Fieldton. Dinner will be served there, and all men and women interested in this should attend that day. This will be the outstanding terracing school of the entire group.

Following are additional terracing schools that will be held by the county agent: Chappell farm, north Littlefield, Friday, January 17; C. E. Bley farm, west of Olton, Thursday January 23. Other terracing schools that will be held, will be announced through the papers during the weeks to come.

Now is the time to begin treating grain sorghum seed for smut. Demonstrations are being outlined by the county agent, and anyone interested notify him at once. A list of these are to be published at a later date.

Bees on Skunk Menu

Bees are a common article of food in the diet of the American skunk. Bumblebees and yellow jackets are regularly eaten by these animals. In capturing the insects, at which they are very skillful, they apparently pay little attention to the stings.—Pathfinder Magazine

Assertiveness Needed

A burglar should be shot and a rude man knocked down . . . But we "don't like to say anything" to objectionable people, whereas we should glory in it . . . The wellbehaved must assert themselves more. If they would check the present reign of lawlessness. A burglar takes a risk in holding up a man; a good citizen should take a risk in protecting himself.—E. W. Howe's Monthly.

Famous House Has Gone

The descendants of the Grant family still live in the vicinity of the famous John o' Grant's house, in Engleland, but a small green knoll marked with the foundation lines is all that remains of the house built probably in the latter part of the Sixteenth century.

A Great Discovery

When Pasteur discovered, in 1852, that the infection of wounds was caused by malignant bacteria, he performed a service of inestimable value to mankind. Since then medical science has been producing better and better antiseptics, to kill these germs that may enter the smallest cut and give us diseases such as typhoid, tuberculosis and lockjaw. Now, all you have to do to be sure that these dreadful germs will not infect a wound, is to wash that wound, however small, thoroughly with Liquid Borozone, the modern antiseptic. You can get it at your drug store, in a size to fit your pocket and purse, from Stokes-Alexander Drug Company

PASS CLOSET MADE THROUGH REMODELING

Simple Type of Pass Closet.

(Prepared by the United States Department of Agriculture.)

In remodeling a house in Washington, D. C., it was necessary to make two adjacent bedrooms into the dining room and kitchen. Each of these rooms had a clothes closet about thirty inches deep. Instead of doing away with these closets, one was cut through for a passageway between the remodeled rooms, and the door was placed on the dining room side to balance the position of the closet door already there. The closet on this side was successfully converted into a pass closet at relatively small cost. The wall was removed from the upper part on the kitchen side, and shelves were built at convenient intervals to hold dishes. A half door was placed on the kitchen side, and the former door of the closet, on the dining room side, was cut in

half for convenience. The space between the doors and the wall was utilized for a built-in buffet or sideboard. The lower part of the pass closet on the dining room side was used to store the electric toaster, percolator, waffle iron and other articles needed in the dining room but not in the kitchen.

Soiled dishes are passed through the lowest shelf of the upper closet to the kitchen side, where a continuation of the sink drainboard makes a counter for stacking them. The sink is located directly back of the sideboard, so that when the dishes have been washed they are put away without taking any unnecessary steps.

The arrangement described was suggested by a specialist of the bureau of home economics of the United States Department of Agriculture.

LITTLEFIELD TEXAS,

1—President Hoover in a farewell meeting with the American delegates to the naval limitation conference in London. 2—Irwin B. Laughlin, American ambassador to Spain, being carried in a royal coach to the palace in Madrid to present his credentials to King Alfonso. 3 and 4—Crown Prince Humbert of Italy and Princess Marie Jose of Belgium whose marriage in Rome was the outstanding event of the week in Europe.

NEWS REVIEW OF CURRENT EVENTS

American Delegates to the Naval Parley Prepared for Big Reductions.

By EDWARD W. PICKARD

ONE hundred American delegates, experts and advisers sailed Thursday for the naval limitation conference in London without any definite instructions from President Hoover, but with the assurance that he will support any agreement at which they may arrive with the representatives of the other four naval powers.

While no figures have been made public, it is understood in Washington that the American delegation is ready to cut about 200,000 tons from the American navy, to eliminate two of the proposed 10,000 ton cruisers and to agree to a further battleship building holiday, postponing replacements that would begin in 1931 under the Washington treaty. This program would include reducing our submarine strength by 20,000 to 30,000 tons and our destroyer strength by 100,000 to 150,000 tons; provided the other powers made proportionate reductions.

FROM Europe the word was that the conference is to end successfully in three or four weeks and that France will play a dominant role in the proceedings. The French delegates, it was said, would propose a scheme covering six years, to 1936, creating a naval construction holiday for that period. While France still insists on retaining submarines, it is willing to restrict their size, gun power and cruising radius to a degree that would make them strictly defensive.

France intends to renounce its rights to construct capital ships up to 175,000 tons, as allocated to it at Washington, and concentrate its sea power in the auxiliary classes—cruisers, destroyers, and submarines. The French plan will seek to overcome the existing deadlock between the United States and Great Britain over 10,000 ton cruisers carrying eight-inch guns, by allocating the global tonnage of the various powers with categories merely indicated approximately, permitting each power to allot whatever amount of the total it decides necessary for self-defense to that class.

As was stated several weeks ago, however, the French persist in their demand that whatever agreement is reached in London shall be transmitted to the League of Nations' preparatory disarmament commission so that it can be made a part of the league's general plan for the reduction of both land and sea armaments. The French believe that within six years the league's disarmament conference will be held and that all nations will accept its findings.

WHILE on the subject of armaments it may be noted that the house appropriations committee is beginning to realize that the American army needs better fighting machines and more up to date motorized equipment. It reported to the house the War department supply bill carrying appropriations of \$455,000,000, and called attention to the fact that it had divided \$239,855 for experimental work in connection with the development of tanks, armored cars and other weapons and equipment for use with a mechanized force. This had been entirely omitted from the budget as submitted by the President.

No change in the size of the army

is contemplated in the new bill. As at present, army enlisted strength will remain at 118,750. Officer strength will be 12,000. The National Guard will be given an increase, raising the strength to 190,000. Funds for training citizens at the citizens' military training camps are slightly reduced.

The air corps appropriation approved by the house committee amounts to \$35,823,473, a million dollars increase over the present year. This sum will not bring the five year air expansion program up to date.

DEVELOPMENTS of the week in the German reparations conference at The Hague indicated that a settlement of all disputes would soon be reached. The major question was as to a guaranty for France in case the German government should willfully default in execution or should denounce the Young plan. The French delegates submitted a draft of a document covering this point which it was hoped the Germans would accept.

Vladimir Moloff, Bulgarian minister of finance, pleaded for a reduction in the Bulgarian indemnity. "We are not seeking to haggle or bargain," he said, "but a spirit of loyalty to you necessitates stating that Bulgaria is incapable of paying annuities as high as \$3,000,000 over a period of 36 years. We are anxious to discharge the debt honorably, but we simply cannot pay that much."

When asked to name a figure M. Moloff suggested \$2,000,000 per annum.

HUMBERT, prince of Piedmont and heir apparent to the throne of Italy, and Marie Jose, the "snow princess" of Belgium, were made man and wife Wednesday in the Pauline chapel of the Quirinal palace at Rome after three days of elaborate fetes and entertainments. The ceremony was performed by Cardinal Maffi, archbishop of Pisa, and was witnessed by a brilliant assemblage numbering 1,500. The princess, who entered the chapel on the arm of her father, King Albert, wore on her head a high filigree crown in the form of orange blossoms, adorned with diamonds and pearls. Her wedding gown was of white satin, and over it was a mantle of white velvet made especially in the Omo district, with a train seven yards long trimmed with white ermine and held by four male attendants dressed in black, gold braided uniforms. King Victor Emmanuel escorted Queen Elizabeth of Belgium, and Prince Humbert accompanied his mother, Queen Elena. The royal couple, after appearing on a balcony of the palace to receive the plaudits of the vast throngs gathered there, were accorded a private audience by the pope, who blessed them and gave them a special piece of Arras tapestry.

MUCH talk and little action characterized the ruction in congress over prohibition enforcement. The one concrete thing was the request of President Hoover that congress appropriate immediately \$302,000 for 30 new speed boats for the coast guard to use in combating rum-running on the Great Lakes. This request was in a supplementary budget report which pointed out the necessity of getting the boats into action within three months, before the navigation season opens. Each of the boats desired would be 34 to 36 feet in length, would carry a crew of four and presumably would be armed with machine guns.

Senator Walsh of Massachusetts was the first to bring up the prohibition matter in the upper house when sessions were resumed after the holidays. He submitted resolutions of a Boston mass meeting protesting against the "wanton and reckless killing of citizens of Massachusetts by the coast guard." Next day orators, both wet and dry, exploded in both senate and house and the recrimina-

tions and retorts were loud and bitter. On Wednesday Representative Black of New York, a wet, told the house that he had heard there was dissension in the President's crime commission.

PROHIBITION caused what may prove to be the first serious rift between the house of representatives and the White House. Administration leaders in the house sent word to President Hoover that the resolution proposing a joint congressional prohibition committee is not likely to pass. It was passed by the senate three weeks ago and sent to the house rules committee, from which it has never emerged.

Speaker Nicholas Longworth admitted that "the leaders of the house" do not believe such a joint committee should be allowed to usurp the functions of the independent house committee already constituted.

Fifty wet members of the house of both political parties pledged themselves at a caucus to battle to a finish against the forthcoming program of the dries to put bigger and sharper teeth in the prohibition laws.

THOSE radical senators who call themselves Republicans won a decided victory by forcing the appointment of Senator Robert M. La Follette of Wisconsin as a member of the powerful finance committee. Senator Thomas of Idaho, generally "regular," also was named a member, the vacancies filled being those left by the resignations of Edge and Sackett, now ambassadors. The old line Republicans on the committee on committees fought hard to keep La Follette from the place, but Senator Smoot, fearing to have the contest carried to the floor of the senate, voted with the Democrats and radicals for the appointment. The finance committee now includes 11 Republicans and 8 Democrats. If La Follette and Couzens of Michigan join forces with the Democrats, the latter will control the committee. In any event it is no longer bossed by the Eastern Republicans.

IN THE course of regular business the senate continued its work on the tariff measure, dealing especially with woolens and rayon silks. The committee investigating lobbying heard some more witnesses concerning efforts to raise or lower the sugar schedule, and the name of the President was dragged in several times in a way that brought a sharp rebuke for the committee from one witness, H. H. Pike, Jr., a New York sugar broker.

EDWARD BOK, for many years editor of the Ladies' Home Journal and otherwise noted for his philanthropies, died suddenly at his winter home near Lake Wales, Fla. He was sixty-six years old and had retired from work some time ago. Coming from Holland as a child, Mr. Bok by his own efforts won fame and fortune, and then set about returning to the public much of his money in the way of philanthropic gifts.

Another well known American who was claimed by death was Prof. Henry J. Cox, chief of the weather service in Chicago and the oldest weather forecaster in the country in point of service.

GEN. JOHN J. PERSHING does not want to be a senator. Certain of his friends and admirers in Nebraska started a movement to induce him to run against Senator George W. Norris, and broached the subject to him. The general's response was: "I do not desire, nor have I desired at any time to seek public office. While it would be a distinct honor for any man to represent the great state of Nebraska in the United States senate, my decision must be regarded as final."

Gateway of Philadelphia's New Rodin Museum

A view of the gateway to the new magnificent Rodin museum, the gift of the late Jules Mastbaum, motion picture magnate, to the city of Philadelphia, which was formally dedicated the other day. The museum is a reproduction of the famous Musee Rodin in Paris and houses a fine collection of the great French sculptor's works.

Germany Holds Aviation Laurels

Has Two Records; U. S., Britain and France Have One Each.

Paris.—Despite the restrictions imposed by the treaty of Versailles, which were intended to cripple Germany's air activities, Teuton airmen have passed the rest of the world in the race for laurels. The annual report of the International Aeronautic Federation shows that Germany has taken the lead in aerial progress and holds more records than any other nation.

The federation's report reveals that the five major records of the world, for land and sea planes and dirigibles, are held as follows at the end of 1929:

- Speed—Great Britain.
- Altitude—Germany.
- Distance (nonstop)—France.
- Duration without refueling—Germany.
- Duration with refueling—United States.

Germany's recovery is all the more remarkable in that three years ago she did not possess any of the world's records which were at that time divided between France and the United States. Italy has completely disappeared from the list after having held at times the palms for speed and distance.

Coste and Bellonte record. America is fortunate to possess her sole record, for none of the European nations has ever disputed it. They have never attempted the spectacular day and night flying for weeks necessary to better the mark of the St. Louis Robin.

The recent flight of Coste and Bellonte from Paris across the whole of Europe and Asia to Tzitsikar, in Manchuria, wrested from Italy her remaining record. Previously Ferrarin and Del Prete were on the record book as holders of the distance mark with their flight from Italy to Brazil.

Flying Officer R. L. R. Atcherley of Great Britain has become the new speed king of the air in succession to such dashing pilots as America's Al Williams, Italy's Maj. Mario de Bernhardt and Britain's Flying Officer Waghorn.

Atcherley flew as fast as a bullet to win his world's record, attaining 533.8 kilometers, roughly 338 miles an hour, in a seaplane in the Schneider Cup race.

France's Adjutant Bonnet holds the world's speed record for land planes, quite a bit under the mark set by the British sea plane. The Bonnet mark is 448.17 kilometers, approximately 280 miles an hour, established at Istres in December, 1924.

Texas Mark Stands. There is no competition for land planes such as the Schneider cup for

Swerving From Right Cause of Accidents

Boston.—Failure to keep on the right side of the road when the motorist's view is obstructed is the principal cause of automobile accidents, at least in Massachusetts. Out of a total of 3,556 accident cases studied, this factor prevailed in 1,084 instances. Other causes were listed as follows: Speeding, 903; drunken driving, 417; failure to keep right side of road when meeting vehicles, 408; reckless driving, 355; unlicensed driving, 232.

Blacksmith Quits; Finds Gold in Tools

Brooksville, Maine.—When the automobile knocked the blacksmith business to smithereens Everett A. Snowman, who had operated such a shop for years, did not quit. Instead he turned his skill as a manipulator of iron and steel to a different line, with the result that he has built up a business which brings him more dollars each year than the shoeing of horses and repairing of wagons, bugles, sleighs and sleds ever did. Now he is making butcher knives and hunting knives, all hand-forged from steel.

with the navy and scout ships and destroyers will be stationed along the route ready to assist in the event of an emergency. Italo Balbo, air minister, will command the flight in person.

The project will constitute the 1930 cruise of Italy's aerial navy. In 1928 the air forces carried out an extensive flight over the western Mediterranean sea and northern Africa. This year the ships flew over the eastern Mediterranean and Black sea.

Italy to Send Planes in Nonstop N. Y. Hop

Rome.—The Italian government is preparing to send a fleet of ten military hydro-airplanes on a nonstop flight from Italy to New York next March.

Crews of the ten great Savoia-Marchetti ships have been undergoing an intensive training for the transatlantic trip and several of them have undertaken flights for 40 consecutive hours over Lakes Garda and Barcoano.

The air ministry, which is to direct the flight, has arranged for co-opera-

Boys Adopt Rule to Gag Chattering Girls

East Orange, N. J.—Disturbed by the chatter of their coed classmates, East Orange high school boys will put into effect a gag rule for girls during the 40-minute study periods. Girls guilty of communicating by any means whatever during these periods will be haled before a tribunal of boys and fined from one to five hours' extra time in school hours. The boys recently complained the girls chatter prevented them from concentrating.

Electric Cutter for Coast Guard

The Itasca, first of four electric cutters for the coast guard, taking the water at Oakland, Cal., where it was built.

ANGELES BOY Needed Help

Leroy Young, 1110 Georgia St., Los Angeles, is a "regular fellow," active in sports, and at the top of his classes at school.

When we started giving him California Fig Syrup his condition improved quickly. His constipation and biliousness stopped and he has had no more trouble of that kind.

California Fig Syrup has been the trusted standby of mothers for over 50 years. Leading physicians recommend it.

Four million bottles used a year shows how mothers depend on it. Always look for the word "California" on the carton to be sure of getting the genuine.

Superficial Flesh Wounds Try Hanford's Balsam of Myrrh

Curious Stone Formed by Discharge of Lava

Reports from Armenia tell of the discovery of a strange stone which, it is said, can be nailed like a piece of board, sawed with an ordinary saw and painted any color.

The dufa is a light building material, but it is reported to be tough and able to withstand great strains.

Discharges of lava from Mount Ararat originated the deposits of dufa, which are estimated to amount to some 60,000,000 cubic meters.

According to plans announced, the Soviet governments will erect buildings constructed of dufa in many of the principal cities of the union to advertise the stone.

Chosen by Legislators

Two Presidents have been elected by the house of representatives—Thomas Jefferson in 1809 and John Quincy Adams in 1824.

Worth Remembering

Scratches can be removed from patent leather by applying a mixture of olive oil and jet black lusc with a fine brush and repeating several times if necessary.

Made Shoes Last

When a woman recently applied to the authorities of Cardigan, Wales, for a new pair of shoes, she declared that the ones she was wearing had lasted 27 years.

LACE AT HEMLINE ADDS CHARM; CAPES TO FLOURISH THIS SPRING

MORE and more the style picture, especially the evening mode, shows a revival of those alluring "laces and graces" which bespeak the truly feminine.

In employing lace in a trimming way designers are placing emphasis not so much on quantity as quality and effective placement. It may be merely a touch of lace which enhances the gown, but it will be positioned at an outstanding vantage point with flattering results.

Styling the evening gown with a lace-accented hemline is one of the designer's happy achievements this sea-

son. The distinguished looking black velvet gown shown above owes much of its fascination to the flourish of handsome lace which accentuates its extremely long hemline.

There is simply no telling in what guise capes will appear, for designers are taking all sorts of liberty with them. A cape may answer the call of the mode by being merely a half-cape over one shoulder or it may be a novelty effect conjured to have the semblance of a cape.

That the costume pictured to the right is developed in navy blue, may be taken as a significant forecast, for leading couturiers are lauding this color for spring.

TANGIER and CEUTA

A Gate in Tangier.

(Prepared by the National Geographic Society, Washington, D. C.)

MOST of northwestern Africa France has taken for her own. But in this Galle empire stand two enclaves little if any influenced by France: the territory of Tangier, and the Spanish Zone of Morocco.

Tangier, on the Atlantic side of the strait, is in a permanently neutralized and demilitarized zone, administered jointly by representatives of France, Great Britain, Spain and Italy.

The Moroccan crisis of 1911 between France and Germany almost set the World war off three years before its time, and when peace was preserved by the narrow margin, the powers were glad enough to thrust the Tangier question hastily aside.

For many centuries it has occupied a reserved seat on the African side of the Strait of Gibraltar.

For many centuries it has occupied a reserved seat on the African side of the Strait of Gibraltar.

recreation. Patrons sit in groups on the floor, playing with odd-marked cards, or lean against the walls sipping a beverage, smoking their pipes, and sometimes singing to the tune of a native orchestra.

Beggars are most importunate. They beg for alms and often follow a "prospect" until he yields a coin.

An American's description of a Tangier residential district would be "more narrow winding lanes hemmed in by high white walls."

Most travelers agree that a visit to the large market, lying just outside of the city wall, is well worth a trip to Tangier.

Around the edge of the market place letter writers and fortune tellers ply their professions; black, portly Sudanese negroes in tatters dance to the tune of metal cymbals and disks dangling about their bodies.

Tangier's strategic importance lies in the fact that it is at the southern entrance to the Strait of Gibraltar and as a fortified naval base might prove almost as effectual in blocking that exceedingly important passage as the famous rock itself.

Different is Ceuta, on the Mediterranean side of the Strait of Gibraltar, and in the Spanish zone.

Lying behind the southern "Pillar of Hercules," Ceuta has the same natural strategic position as the Gibraltar, opposite the strait.

In these narrow streets the little box-like shops, waist high, give the proper oriental setting to the whole.

Nothing exceeds white in elegance for evening wear. These little frocks are sometimes trimmed with a few brilliants, and sometimes with a delicate tracery of the same material applied with minute stitches.

The back of the skirt of a wine red tweed suit has two four-inch wide panels that hang below the skirt's hem, to carry out the effect of two box plaits above the belt of the coat.

When you resting pearls or other beads that are graduated in size, arrange them on a table in the order they belong and the stringing properly is no chore.

FAMILY DOCTOR LEARNED THIS ABOUT CONSTIPATION

Dr. Caldwell loved people years of practice convinced many were ruining their health by careless selection of laxative.

Today, the prescription he wrote in 1885 is the world's most potent laxative! He prescribed a mixture of herbs and other pure ingredients now known as Dr. Caldwell's Pepsin.

Manville McC. Rossiter, the English mill magnate, said on his return from England: "English business is in a bad way, and it keeps getting worse instead of better; but the English business man is full of guts."

Dr. Caldwell's Pepsin today has had breath, coated tongue, headaches, biliousness and loss of appetite or energy showed bowels of men, women and children were sluggish.

"Please make Father change his smoking tobacco"

MEN go to their graves ignorant of the suffering an over-strong pipe has caused others. But now, we trust, Father will lose no time in discovering Sir Walter Raleigh, whose mild, fragrant blend is as popular with the smoked-at, as it is delightful to the smoker. This blend of choice Burleys has plenty of body and a very special fragrance. Yet it's so mild you can smoke it all day long, with only the sensation of increasing enjoyment.

How to Take Care of Your Pipe

(Film No. 1) Don't switch tobaccos when you break in a new pipe. Suck to the same brand for 30 or more pipefuls. Mixing tobaccos makes a pipe either strong or flat. Send for our free booklet, "How to Take Care of Your Pipe." Dept. 95, The Brown & Williamson Tobacco Corporation, Louisville, Ky.

SIR WALTER RALEIGH
Smoking Tobacco

It's milder

Something Lacking

In parts of Mexico hot springs and cold springs are found side by side. One can see native women boiling clothes in a hot spring, rubbing them on a flat rock and rinsing them in a clear cold spring.

A visitor watched this process for some time, and then said:

"I suppose the natives think old Mother Nature is pretty generous, eh?"

"No, señor," replied his host. "There is much grumbling because the supplies are so scarce."

Ancient Baby Carriage

Augusta, Maine, claims one of the most interesting baby carriages in the state. It is sixty-five years old and only recently was removed from attic treasures. The wooden-ribbed wheels are large, and the seat will accommodate a seven-year-old child. The top, which tilts, has fringed edges.

A Sour Stomach

In the same time it takes a dose of soda to bring a little temporary relief of gas and sour stomach, Phillips Milk of Magnesia has acidity completely checked, and the digestive organs all tranquilized. Once you have tried this form of relief you will cease to worry about your diet and experience a new freedom in eating.

This pleasant preparation is just as good for children, too. Use it whenever coated tongue or fetid breath signals will tell you that every spoonful of Phillips Milk of Magnesia neutralizes many times its volume in acid. Get the genuine, the name Phillips is important. Imitations do not act the same!

PHILLIPS Milk of Magnesia

Ease in 5 Minutes—Comfort in 5 Hours

Stop that COLD ... before it stops you!

COMMON head colds often "settle" in throat and chest where they may become dangerous—rub Musterole on these parts at the first sniffle—it will relieve congestion by stimulating blood circulation.

But don't be satisfied with the noticeable relief you should experience from the first Musterole rub—apply it every hour for five hours and you'll be amazed at the result. Working like the trained hands of a masseur, this famous

blend of oil of mustard, camphor, menthol and other helpful ingredients brings relief naturally. It penetrates and stimulates blood circulation and helps to draw out infection and pain. Used by millions for 20 years. Recommended by many doctors and nurses.

Keep Musterole handy—jars and tubes. All druggists. To Mothers—Musterole is also made in milder form for babies and small children. Ask for Children's Musterole.

Kitten Made Trouble

A hungry kitten caused a turnout of a detail of Philadelphia police when Charles Rosenblum was alarmed by mysterious sounds in his butter and egg store after closing time. With drawn pistols the detachment of police searched the store and found the only intruder a strange cat out for a meal. The police withdrew while the store owner provided his uninvited guest with a saucer of cream.

Keeping Back the Good News

Dora—Can you keep a secret? Norn—Can I? Why, my present boy was engaged to me three weeks before he knew it.—Stray Stories.

A German corporation has formed a company in the Philippine Islands to build houses of steel and copper to replace nipa and wooden houses.

Canadian Carillons

Five modern carillons in Canada include Simcoe of 23 bells, Guelph of 23 bells, Toronto university of 23 bells, Toronto Metropolitan church of 23 bells and Ottawa of 33 bells. This last carillon is the Victory tower in the parliament buildings, which represents Canada's memorial to her 53,000 sons who died in the World war. A carillon comprising 53 bells has been placed in a memorial chamber, from where recitals are given.

The Green-Eyed Monster

The jealous man's disease is so malignant a nature that it converts all it takes into its own nourishment.—Addison.

To have your government to attend to many things for you, you have got to pay heavy taxes.

New life for old leather

Clean, smooth color restored. Scuffs concealed instantly. The lustre of leather revived. 50 wonderful shines—50 cents. Colors for black, brown, tan and white shoes—a neutral polish for others.

BARTON'S DYANSHINE
SHOE POLISH

Prodding Commissioner

Miss Ida Lathiers of New York city has found it necessary to equip herself with an electric lantern which has a red bulb when she dares traffic to catch a Broadway surface car at night, and writes to Grover A. Whalen, police commissioner, to explain the maneuver and to suggest that he devote a single evening to getting on and off street cars.

Natural Gas Consumption

In 1922 725,000,000 cubic feet of natural gas were produced in the United States. The value of this natural gas was \$196,000,000. In 1925 the production had increased to 1,164,000,000 cubic feet, having a value of \$255,000,000. In 1927 the production had increased to 1,445,425,000,000, which was an increase of 132,400,000 cubic feet over 1925.

True success is always original.

"Before My Baby Came"

"Lydia E. Pinkham's Vegetable Compound puts new life into me and makes my work in the store and in the house easier. I took several bottles before my baby came and am always singing its praises to my friends. I recommend it for girls and women of all ages. It makes me feel like life is worth living, my nerves are better and I have gained pep and feel well and strong."—Mrs. A. R. Smith, 808 S. Lansing Street, St. Johns, Michigan.

The World's First Postage Stamp

By ELMO SCOTT WATSON
The recent announcement from London that the world's first postage stamp had been placed on sale in that city attracted unusual attention not only from stamp collectors but from the public in general, because it emphasized the fact that this present-day common convenience, millions of which are used every day, is of comparatively recent adoption. For this stamp, an English one bearing the likeness of Queen Victoria, is still attached to the envelope on which it was used and bears the postmark "Bath, May 2, 1840." This means that the postage stamp in its present form is less than a hundred years old.

The first postage stamps in the United States were put on sale in New York on July 1, 1847. Previous to that time, postage stamps were issued by private companies doing a general express or local delivery service of letters. On January 1, 1842, the City Dispatch Post, otherwise known as Greig's Post, was established in New York city, and it is said that this Post issued the first adhesive stamp used in this country. But the use of these private stamps proved such an annoyance to the government that it was suppressed and in its place the United States City Dispatch Post was established.

In the early days of the United States postal system the receiver of a letter paid for its delivery according to the number of sheets of paper which the letter contained. In 1845 this system was discarded and the weight system was adopted with a lower rate. About the same time came the envelope to give secrecy to letters. Prepayment of postage and the use of gummed stamps were put into use in 1847.

Since the first gummed stamps were issued in 1847, there have been a dozen distinct series of regular postage stamps with additions to each after their issue. Only 16 of our Presidents have been honored by having their portraits appear on our stamps, while 19 other persons prominent in American history have been thus remembered.

Washington and Franklin have been honored in every regular series of stamps from the beginning and Jefferson and Lincoln have seldom been omitted. The other Presidents pictured on various issues are: Madison, Monroe, Jackson, Taylor, Grant, Hayes, Garfield, Cleveland, Harrison, McKinley, Roosevelt, Harding and Wilson. Memorial stamps also have been issued for Lincoln on his one

hundredth birthday anniversary in 1900, for Harding shortly after his death, and for John Ericsson, the inventor, on the occasion of the unveiling of a statue to him in Washington in 1923.

The other men whose portraits have been selected for stamp issues are, besides Franklin, Henry Clay, Daniel Webster, Winfield Scott, Alexander Hamilton, O. H. Perry, Edwin M. Stanton, William T. Sherman, John Marshall, David G. Farragut, Robert R. Livingston, William H. Seward, Nathan Hale, Capt. John Smith, Christopher Columbus and Vasco Balbon.

Only three women have had that distinction. Martha Washington was the first, as was befitting the "First Lady of the Land," and the other two are Queen Isabella of Spain and Pocahontas, the Indian princess.

Most interesting of all the stamps issued by the government, perhaps, are the special series, issued from time to time, known as commemorative stamps. The first of these appeared in 1893 to commemorate Columbus's discovery of America. There were sixteen of these stamps, ranging in denomination from one cent to \$5, each one telling a little of the story: Columbus in Sight of Land, the Landing of Columbus, the Flagship of Columbus, the Fleet of Columbus, Columbus Soliciting the Aid of Isabella, Columbus Welcomed at Barcelona, Columbus Restored to Favor, Columbus Presenting Natives, Columbus Announcing His Discovery, Columbus at La Rabida, Recall of Columbus, Isabella Pledging Her Jewels, Columbus in Chains, Columbus Describing His Third Voyage, Isabella and Columbus, and Columbus alone.

After five years another commemorative series followed, known as Transmississippi-Omaha stamps, issued during the Transmississippi and International exposition. The nine denominations, ranging from one cent to \$2, were titled Marquette on the Mississippi, Farming in the West, Indian Hunting Buffalo, Fremont on Rocky Mountains, Troops Guarding Train, Hardships of Emigration, Western Mining Prospector, Western Cattle in Storm and Mississippi River Bridge.

The Pan-American exposition at Buffalo in 1901 was marked by another series, depicting means of transportation. A lake steamer was shown on the one-cent stamp, a railway train on the two-cent, a steel-arch bridge on the five-cent, ship canal lock on the eight-cent, and an ocean steamship on the ten-cent stamp.

The next special series celebrated the purchase of Louisiana from France. The stamps bore severally the portraits of the men most responsible for accomplishing it—Robert R. Livingston, minister to France at the

time; Thomas Jefferson, President, and James Monroe, special ambassador to France.

The Jamestown series of 1907 followed, depicting the landing of the colonists 300 years before and bearing the likenesses of Capt. John Smith and Pocahontas. The first single commemorative stamp—that is to say one that belonged to no series—was that of 1909 to mark the development of the Alaska-Yukon-Pacific territory, having for its design the portrait of William H. Seward, who as secretary of state negotiated the purchase of Alaska from Russia.

In the same year a two-cent stamp, showing Henry Hudson's Half Moon sailing past the Palisades and Robert Fulton's Clermont under full steam, commemorated not only the discovery of the Hudson river but also the centennial of its first navigation by steam. The 1912-13 series marked the opening of the Panama canal and the discovery of the Pacific ocean. In 1919 a special three-cent stamp was issued to commemorate the successful outcome of the World war. It depicted a figure of Liberty victorious against a background of the flags of the United States, England, France, Italy and Belgium.

In 1920 the Pilgrim Tercentenary was celebrated with three stamps illustrated by the Mayflower, the landing of the Pilgrims and the signing of the Mayflower Compact aboard that historic ship. The coming of the Huguenot-Walloons to America was celebrated in a tercentenary series in 1924 and the arrival of the first immigrants to the United States from Norway in 1835 was also the inspiration for another series, known as the Norse-American series.

During the past five years the one hundred and fiftieth anniversary of many of the stirring deeds of the Revolutionary war has given the impetus to a large number of patriotic issues. The first of these came out in 1925 with the issue of the three Lexington-Concord stamps. Then came the Sesquicentennial stamps with the Bell of Liberty in 1925, closely followed by the White Plains Battle stamp in the same year, the Green Mountain Boys of Vermont and the Burgoyne Surrender in 1927, Washington at Valley Forge, and Molly Pitcher in 1928 and the George Rogers Clark and the General Sullivan stamps in 1929.

During 1930 other events of the Revolution probably will be commemorated and a movement has already been started for a special series to celebrate the tercentenary of the Massachusetts Bay colony founding.

Two special stamps, honoring great Americans, have appeared in the last three years. In 1927 Lindbergh's epic flight across the Atlantic was honored in a special air-mail stamp and during the past year Thomas Edison was honored with a stamp commemorating the fiftieth anniversary of the invention of the incandescent lamp. In connection with the latter two, many persons wondered why portraits of Lindbergh and Edison did not appear on the stamps which bore the message of their fame. The reason was that the law of the land prohibits the use of the portrait of a living American on the postage stamps of our country. (And for a similar reason this article is not illustrated with reproductions of any American stamp. It is "agin the law" to illustrate United States stamps, the same as United States currency or coins.) So the Lindbergh stamp showed his famous plane, the Spirit of St. Louis, and the Edison Light Golden Jubilee stamp showed a picture of the first incandescent light.

Another interesting fact about the Lindbergh stamp is that 15,000,000 of this issue were printed. Virtually all of them have been bought up, giving Uncle Sam a net profit of \$1,900,000, post office officials estimate.

Improved Uniform International Sunday School Lesson

(By REV. P. H. FITZWATER, D.D., Member of Faculty, Moody Bible Institute of Chicago, Editor, Christian Worker, 1916, Western Newspaper Union.)

Lesson for January 26

STANDARDS OF THE KINGDOM

LESSON TEXT—Matthew 5:1-12 (Print vv. 3-9, 17-20, 43-48).
GOLDEN TEXT—Blessed are the pure in heart for they shall see God.
PRIMARY TOPIC—How Jesus Teaches Us to Live.
JUNIOR TOPIC—Jesus' Standard of Life and Service.
INTERMEDIATE AND SENIOR TOPIC—Accepting and Following the Highest Ideals.
YOUNG PEOPLE AND ADULT TOPIC—A Christian According to Christ.

1. The Characteristics of the Subjects of the Kingdom (vv. 1-12). These characteristics are set forth in the nine beatitudes.

1. The consciousness of spiritual poverty (v. 3).
"Poor in spirit" means to come to the end of self in a state of spiritual beggary.

2. A profound grief because of the spiritual insolvency (v. 4).
The mourning here is because of the keen consciousness of guilt before a holy God.

3. A humble submission to God's will (v. 5).
This is the outgrowth of mourning over spiritual insolvency.

4. An intense longing to conform to the laws of the kingdom (v. 6).
The one who has received the righteousness of Christ as a free gift follows after the purity of character which expresses itself in deeds of righteousness.

5. Merciful (v. 7).
The subjects of the kingdom now take on the character of the King. Because of the mercifulness of Christ, His followers will be merciful.

6. Purity of heart (v. 8).
Since the King is absolutely pure, the subjects who enjoy fellowship with Him must have heart purity.

7. Peacemakers (v. 9).
The subjects of His kingdom not only have peace, but follow after that which makes for peace.

8. Suffering for Christ's sake (v. 10).
The world hated Christ, the King; therefore those who reflect His spirit in their lives shall suffer persecution (II Tim. 3:12).

9. Suffer reproach (v. 11).
To have all manner of evil spoken against us for Christ's sake is an occasion for glorying.

II. The Responsibilities of the Subjects of the Kingdom (vv. 13-16).
The world is in utter darkness because of its corruption. The subjects of the kingdom are to live such lives as to purify and enlighten. Their responsibilities are set forth under the figures of salt and light.

1. Ye are the salt of the earth (v. 13).
The properties of salt are (1) Penetrating, (2) Purifying, (3) Preserving. Since salt only preserves and purifies in the measure that it penetrates, so Christians only as they enter into the life of the world can preserve it from decay.

2. Ye are the light of the world (v. 14).
This world is cold and dark. In this darkness the devil has set many pitfalls, and the subjects of the kingdom should so live as to prevent the unwary from stumbling.

III. The Laws of the Kingdom (vv. 20-48).

1. As to deeds of righteousness (v. 20).
The deeds of the subjects of the kingdom must spring from Christlike natures.

2. As to sanctity of life (vv. 21-26).
The duty of the subject of the kingdom is to conserve and sustain his own life and the life of others. Rash anger is heart murder (v. 22).

3. As to organized life (vv. 27-32).
The family is the unit of society. The two awful sins against the family are (1) Adultery, (2) Divorce.

4. As to oaths (vv. 33-37).
Whatever is more than the simple form of affirmation or denial comes of evil.

5. As to behavior toward those who do not recognize the laws of the kingdom (vv. 38-48).

(1) Not revengeful (vv. 39, 40).
Turning the other cheek after being smitten, means, after one insult, permit another without revenge. (2) Willingness to do more than is required (v. 41).
If compelled to go one mile, go two miles with the one thus compelling you. (3) Be charitable (v. 42).
Our hearts should always be open, ready to give to all. (4) Love enemies (vv. 43-48).
Love to them consists in: a. Blessing them that curse us. b. Doing good to them that hate us. c. Praying for those who despitefully use us

Consciousness of Duty
In every heart there is a consciousness of some duty or other required of it; that is the will of God. He that would be saved must get up and do that will—if it be to sweep a room or make an apology, or pay a debt.—George MacDonald.

Entering Heaven's Gates
Heaven's gates are not so highly arched as kings' palaces; they that enter there must get upon their knees.—Daniel Webster.

Needless Pain!
Nowadays, people take Bayer Aspirin for many little aches and pains, and as often as they encounter any pain.
Why not? It is a proven antidote for pain. It works!
And Bayer Aspirin tablets are utterly harmless. You have the medical profession's word for that; they do not depress the heart.
So, don't let a cold "run its course." Don't wait for a headache to "wear off." Or regard neuralgia, neuritis, or even rheumatism as something you must endure. Only a physician can cope with the cause of such pain, but you can always turn to Bayer Aspirin for relief.
Bayer Aspirin is always available, and it always helps. Familiarize yourself with its many uses, and avoid a lot of needless suffering.

BAYER ASPIRIN

Aspirin is the trade mark of Bayer Manufacture of Monacoelektro of Balleysheid

Highways and Horse Sense
An economist makes an impassioned plea for common sense in road building. It would be fine to have common sense all along the line—even to those who drive on the roads that common sense has built.—Los Angeles Times.

The Pastor Says:
The ant-hill cannot see that the mountain is much higher than itself. . . . The hearts of foreign people may be reached by bayonets, but they may also be reached by love.—John Andrew Holmes.

Home Has More Danger Than Savages of Brazil

JOHN J. WHITEHEAD, explorer and lecturer, has just returned from eight months in the jungles of South America, where he was searching for traces of the lost Colonel Fawcett and his son.
Dangerous as he found the jungle, he encountered a worse danger at home. But let him tell it.
"One of the great problems of a trip of this kind is keeping in healthy condition. When we started, some of the members of the party had laxatives with them, but made wise by experience I carried Nujol. All too quickly my stock ran out. Soon I was in bad shape—what with a diet of rice and beans, lacking vitamins and green vegetables.
"When we finally got back to civilization, entertained first in Brazil and later in the United States, I became positively ill. Severe stomach pains and poor elimination made me realize that Nujol would again prove the reliable, trusty keeper of health. Sure enough, with the first bottle the trouble disappeared.
Don't think Nujol is a medicine. It is as tasteless and colorless as clear water. It brings you, however, what your body needs like any other machine—lubrication. Just as a good bath washes our bodies clean, Nujol sweeps away, easily and normally, those internal bodily poisons (we all have them) that make us feel dull and headachy and sick. Nujol cannot hurt you. It is a safe, healthy, no-habit, no-drowsiness, no-constipation drug. Doctors and nurses use it themselves and tell you to use it, if you want to be well.
Take Nujol every night for two weeks and prove to yourself how happy and bright and full of pep you can be, if your body is internally clean. Get a bottle today at any drug store. It costs but a few cents, and makes you feel like a million dollars. Start traveling the health-road to success and happiness—this very day!

When Babies FRET

There are times when a baby is too fretful or feverish to be sung to sleep. There are some pains a mother cannot pat away. But there's no time when any baby can't have the quick comfort of Castoria! A few drops, and your little one is soon at ease—back to sleep almost before you can slip away.
Remember this harmless, pure vegetable preparation when children are ailing. Don't stop its use when Baby has been brought safely through the age of colic, diarrhea, and other infantile ills. Give good old Castoria until your children are in their teens! Whenever coated tongues tell of constipation; whenever there's any sign of sluggishness that needs no stronger medicines to relieve. Castoria is pleasant-tasting; children love to take it. Buy the genuine—with Chas. H. Fletcher's signature on wrapper.

Yiddish Not Hebrew

Yiddish is spoken by a large number of Jews of German or Polish ancestry, and is not the natural language of the Jewish people, who speak modern Hebrew. The Jews who left Germany in the Middle Ages for the Slavic lands of Bohemia, Poland, Galicia and Lithuania spoke, besides Hebrew, the middle high German. In course of time Hebrew and Aramaic and Slavic words became customary, and a certain mod-

ification of the sound of the German words also took place, and by the sixteenth century a world-defined dialect, or language, known as Yiddish had become common. It was not adopted as a literary language until the nineteenth century.

Half Way
A family of small children spent this summer on a farm, their first experience. The country life charmed them especially because of the multitude of new things to learn. Their

mother quite enjoyed the following conversation which she overheard:
"No, it's not a cow. It's a Jersey. The man said so when he was talking to Daddy."
"No, no, Bossie, you're wrong. Daddy told me. It's a halfer. That means, it's half way between a cow and a calf."

Nearly 60,000 Orangemen took part in the West of Scotland celebrations in connection with the anniversary of the battle of the Boyne recently.

ASTE OF TIME FORMS OF
S. W. STRAUS, Pres.
The trend of the time is toward shorter working hours and more leisure time. In the days of our youth there was only a limited amount of recreation. The hours of the day were longer. Conditions of work, however, represent a great improvement because, as a result, people are making use of their leisure time to a good advantage. In the midst of this trend, it should not be forgotten that a man can be neither productive nor happy without work. Our country is more capable of doing more than we have mapped out for ourselves. The great mass of our people, I myself, work for our own good. The observation of the

WASTE OF TIME IS ONE OF THE WORST FORMS OF THRIFTLESSNESS IN WORLD

S. W. STRAUS, President American Society for Thrift

The trend of the time is towards shorter working hours. More and more leisure time is being allowed to types of toilers.

In the days of our grandfathers there was only a limited amount of available time for recreation. The hours of toil were long. Conditions of the present, however, represent a decided improvement because, as a general rule, people are making use of their spare time to a good advantage.

In the midst of this changing order it should not be forgotten that there can be neither progress nor happiness without work. Our spare time should be made use of to make ourselves more capable of doing the work we have mapped out for our lives. Otherwise we shall be going backwards.

The great Mussolini recently said "I, myself, work hard" while to our own Thomas A. Edison was credited the observation that "genius is 10

per cent inspiration and 90 per cent perspiration."

There is no real pleasure greater than that which comes from successful accomplishment. No matter in what line of activity we may find ourselves, we should realize that performing our daily tasks to the best of our ability brings far greater contentment of mind than could possibly come from idleness.

There is no true happiness in an idle life. Waste of time is a form of thriftlessness that is as destructive of rightful pleasure as waste of money or waste of health.

Work alone brings happiness, because work is creative and uplifting.

All the instincts of the human race humanity's progress have found their real fulfillment in work.

Happiness through industrious employment is one of the fundamentals that can be continually counted on. It is a splendid type of true, constructive thrift.

116 ATTENDANCE FATHER AND SON BANQUET FRIDAY

There were 116 Littlefield fathers and boys who sat down to enjoy the father and son banquet given at the First Baptist church Friday night of last week. The gathering was a fine testimony of the interest these fathers have in the future citizenship of America, and the boys and young men present were as fine a lot of coming voters as one could wish for such a gathering.

Prof. F. O. Boles, principal of the Littlefield high school, presided in a very capable manner as toastmaster.

Misses Sue Brannen and Helen Rombach, two of Littlefield's most talented young ladies, gave very enjoyable readings.

W. B. Phipps Jr., a high school student, spoke on the subject "What I Would Like for My Dad to Be," and Hon. E. S. Rowe responded with "What I Would Like for My Boy to Be." Carter Glass gave the 12 points of merit in the Boy Scout code.

Rev. J. F. Grizzle spoke on "The Boy and the Minister," and Rev. R. B. Freeman gave a stirring address on "The Boy of Tomorrow." There were also talks by J. W. Hale and Jess Mitchell.

A delightful menu was served by the ladies of the Methodist church and there was phonograph during the festival period.

Many of those present expressed their great appreciation of the evening and their desire that there should be more of such occasions.

Lion's Club Is To Stage 'Jimmy's Wives' On January 23 and 24

"Jimmy's Wives," a rollicking college comedy, one of the peppiest and best ever written is to be presented next Thursday and Friday nights at the High School Auditorium, January 23 and 24.

The Lions are endeavoring to make this play a community wide affair. They expect to have near 150 of the town's leading men, women, girls, boys, and children in it.

The speaking cast is as follows: Jimmy Jones—College hero, Kenneth Hemphill.

Jerry Miles—College cut-up, Lee Perry.

Slim—Foy Curry.

Sam—

Happy—Leonard Wright.

Mr. Jones, Jimmy's father, Mr. J. H. Johnson.

Mrs. Jones, his mother—Mrs. W. G. Street.

Mr. Whipple—English dramatic instructor, Hugh Sullivan.

Mrs. Whipple—His wife—Suspicious, Mrs. Jimmy Brittain.

O'Donnell—Irah Cop, Alex DeLong

Barbara—a beauty, Fanny Weaver

Louise—Jimmy's sister, another beauty, Mrs. Ike Griffin.

Madame Bardeou—French costumer, Mrs. Fulton.

Mother Brown—Fraternity house mother, Mrs. R. T. Badger.

Kate—College stenographer, Josephine Glenn.

Rastus—a "Culloured" gentleman, J. D. Evins.

Mandy—His sweetie, Mrs. Pat Boone.

The story of the play follows:

Jimmy Jones is so busy patenting a new speed motor that he neglects his classes to the extent of being expelled from school.

His parents are very angry and hurt to think their son has thus wasted his chances at college but they promise to relent if Jimmy will only marry and settle down. They even promise to pay all his bills for a year.

The dramatic coach of the college who is very good at fixing things introduces Jimmy's roommate, Jerry Miles, to the indignant parents as Jimmy's bride and thus saves the day.

Jimmy and his would-be bride remain in college having a hilarious time at his father's expense until one day a colored wash woman comes to collect for the wash and discovers the "blushing bride" is a man in disguise.

She sounds the alarm and calls in the police department but the dramatic Whipple saves the day by introducing wife No. 2, Madame Bardeau, the French costumer.

The parents return to the college to pay Jimmy and his wife a visit and both wives arrive on the scene at the same time. The parents are dumfounded and Mr. Jones hires a detective to search out the truth.

The detective reports Jimmy not married at all and the proud father disinherits him.

Jimmy's motor car plans are completed and he receives a good sum for his invention. The student body strikes because Jim is kicked out, so the faculty re-instates him.

Jimmy's father who after all is only normal relents and forgives Jimmy. Jimmy wins the heart of Barbara Dean, thus introducing his third wife.

The entire plot is comical, and in addition to the main feature many specialty numbers will be provided.

They are as follows:

"The Wedding of the Painted Doll" in which near 100 of the town's tiny tots will take part.

"The Tragedy of Dinah and Wilkins" featuring three principals and a chorus.

"Vagabond Lover," will be featured by eight high school boys.

"Tip Toe Thru The Tulips," will be featured by a chorus of eight high school girls. The names of those taking part in these specialties will be printed later.

Perhaps the most attractive feature of the whole program will be "The C. J. Duggan Follies of 1930." Many charming flappers and notable women of today and bygone days will flit before your eyes. Such famous people as Cleopatra, Helen of Troy, Clara Bow, Florence Nightingale, Sadie Green of New Orleans, Hard Hearted Hannah, Dainty Feet, Orphan Annie, Billie Dove, Girl with Million Dollar Legs, and many others.

The following business men have all ready consented to take part, and there will be many others; C. J. Duggan, Mallory Etter, Dr. M. V. Cobb, Dr. C. C. Clements, J. W. Hale, Dr. S. R. Coen, S. A. Fortenberry.

An Apology

The Lions Club takes this opportunity to make an apology. When the club booked "Jimmy's Wives" they were unaware of the fact that

Rainbow Girls Give an Interesting Program At The Palace Theatre

One of the most enjoyable occasions of the past week was that of the program given Wednesday evening of last week, at the Palace theatre, by the Rainbow girls under the direction of their Mother Advisor, Mrs. J. W. Hopping.

As the curtain was drawn an improvised pot of gold was revealed, in it's center stood Pauline Courtney, who announced the numbers on the program.

A Rainbow review chorus composed of nine girls attractively attired in costumes representing the colors of the rainbow, danced and sang a clever song. The girls were Prudence Courtney, Mary Alice Thornton, Winifred Willis, Dorothy Harrison, Oneta Lowe, Olga Henson, Fern Thornton, Ruth Gray and Mary Nell Keithley.

"Am I Blue" was sung by Estell McNutt and Nina Anderson jiggled to the song. Both girls were dressed to represent darkies, and "Courtin'" was sung to represent a backward country girl while the former represented a boy of like fashion. Both songs were responded to by a hearty applause from the audience.

Helen Rumbach, appropriately attired for her reading, gave "And John Says."

The closing number was a song, "Tip Toe Thru Tulips With Me," sung by Dorothy Hopping who was joined in the chorus by the entire cast.

A total of \$34.00 was realized from the sale of tickets which will be applied on the purchase of robes for the Rainbow girls.

The Methodist church would be holding a meeting at the same time. They are very sorry this conflict came. The director of "Jimmy's Wives," Miss Kate Ransom, and the Lions club are making every effort to plan rehearsals so they will not interfere any more than possible with the services, and it is sincerely hoped the meeting will be all the better for any interference that may be caused.

FIRST BAPTIST W. M. U.

Meeting in the home of Mrs. Lon Humphries in a most inspirational gathering, the ladies of the First Baptist W. M. U., carried out a program from "Royal Service" on the "Foundation Stones" of our union.

After devotional, led by Mrs. J. F. Grizzle, Meadames Jack Brannen, Ike Griffin, Marguerite Collard, F. O. Boles, M. E. Jones, Jess Seale, L. E. Howard, R. E. McCaskill, Joe Grizzle Pryor Hammons, J. E. Barnes, John Woodmoore, Acree Barton, Otto Jones, L. W. Jordan, Theresa Boatwright, from Amherst, and the hostesses.

Everyone present was benefitted by the truths taught in this very interesting lesson.

After a delightful social hour refreshments of shrimp salad, pie and chocolate were served to Meadames Jack Brannen, C. O. Griffin, J. H. Hardberger, J. H. Lucas, F. O. Boles M. E. Jones, Ike Griffin, Marguerite Collard, J. R. Coen, Jess Seale, L. E. Howard, R. E. McCaskill, Joe Grizzle Pryor Hammons, J. E. Barnes, John Woodmoore, Acree Barton, Otto Jones, L. W. Jordan, Theresa Boatwright, from Amherst, and the hostesses.

After this meeting Circle No. 3 met in a short business meeting. Mrs. Pryor Hammons tendered her resignation as Circles chairman, as she is moving to her new home in

Charters are Delivered To Chapter and Council Here by State Officers

George G. White, grand high priest, of Royal Arch Masons, grand W. D. Fowler, most illustrious master of Texas, were here in Littlefield to deliver charters to the Masons, Chapter No. 438 Royal Arch and Littlefield Council No. 356.

The Chapter was set to work by George G. White and the Council was set to work by W. D. Fowler.

Work began at four o'clock Saturday afternoon, at six o'clock, a plate lunch was served by the ladies of the local order of Eastern Star, after which work was resumed in the evening.

Since the organization of the Chapter and Council seven months ago by Grand High Priest Jack Brown, the membership has more than doubled. At the time of the organization J. S. Hilliard was chosen high priest and J. T. Street secretary.

Several visiting Companions from the Lubbock Chapter were present.

Charter members are: J. S. Hilliard, A. R. Hendricks, M. M. Brittain, T. Wade Potter, J. T. Street, R. E. McCaskill, P. H. Boone, H. W. Wiseman, P. D. Harris, E. C. Cundiff, E. S. Rowe, J. W. Hopping, M. W. Etter, F. G. Sadler, J. Spencer Ellis, Ben Lyman, B. L. Cogdill, T. L. Matthews, F. O. Boles, H. C. Thornton, J. M. Pope, Irwin Miller, A. P. Duggan, R. D. Roberts, A. C. Singer, A. H. McGavock, P. W. Walker, C. O. Robbins, Pryor Hammons, H. C. Pumphrey, Homer Hall, J. A. Lilly, W. J. Chesher, R. C. Hopping and T. S. Sales.

another part of town. Mrs. John Woodmoore was elected to fill her place.

Endurance records seem to be the vogue now, and we pause just a moment at the beginning of another new year to remind the citizens of Lamb county that the Leader now has a sustained success endurance record of nearly six years. During these six years it has grown bigger and better each week, has never missed an issue, and has never had a slip, tailspin nor nose dive. Its mental motor never quits running, and every week it serves its large number of subscribers with a newspaper that is both pleasing and profitable.

Prize Speller

Thirteen-year-old Emma Quong, a Chinese girl of Havana, Ill., proved she is a real American by winning second place in a state-wide spelling contest at Springfield.

FIRST BAPTIST CHURCH

Sunday School at 9:45 a. m. Lets remember the hour also the importance of being on time every minute we are late in time taken from the lesson and if we are in after the class report is made we are not counted. BE ON TIME.

Song services, 11:00, Jordan and his choir. If you will join with this great choir in singing these songs of Zion you will be better prepared for the service to follow.

11:30 Sermon, pastor, subject, "Waiting."

6:30 p. m. All branches B. Y. P. U. Mrs. Pat Boone, director.

7:30 Methodist Revival sermon by Rev. R. B. Freeman.

We are happy to announce that we have secured the services of Evangelist J. B. Rowen, for our revival.

He will be with us Sunday morning, Feb. 9, and we are asking that from the very first service that every member of this church will throw themselves into this meeting, surely with the four weeks to prepare we can and will be ready for the meeting.

Go to church next Sunday, if you have no church home in Littlefield we invite you to worship with us.

—JOE F. GRIZZLE, Pastor.

Hare Drops From Sky

A story which reads like one of Baron Munchausen's is published in the Swedish papers of a farmer who, while cutting hay, saw a hare drop from the sky. This actually happened at Bocktraesk, in the Parish of Sorsele. Looking up to see where the hare came from the farmer saw an eagle, which apparently had found its prey too heavy and dropped it.—London Sunday Observer.

\$170,610 WORTH OF BUILDING IS DONE HERE PAST YEAR

There were \$170,610 worth of new building done in Littlefield during the past year, of which amount 56 houses were residences and 20 were business houses of various kind.

Also, the building in the country surrounding this town has been considerable reaching up into several thousands of dollars. Numerous new settlers have come in during the past twelve months, putting up their necessary farm improvements, while many of the older located farmers in this new country had made large improvements in the way of new farm buildings and enlarged homes for family purposes.

Street paving done in the business section of Littlefield the past year totals around \$105,000.00, and \$50,000 in bonds were voted for a modern city hall which it is understood will be erected early this spring. Contractors and lumber dealers say indications for much building and other improvement are good for the coming year.

Just as progress of cities in the past has depended upon railroad and concrete pavements, so will the progress of cities in the future depend largely upon the establishment of airport facilities. It is not too early for Littlefield to get her town name painted upon some prominent roof and to take steps toward getting connected into some trans-continental air line.

About the time the streets of Littlefield get leveled down from one set of improvements they get torn up for another set. This time the West Texas Gas Co., is ripping open the bosom of our municipal terra firma for their service lines of heat and power; but no one is objecting. Every time a shovel of dirt is turned in Littlefield the town takes another step forward.

Clifton Winans has returned to the college after a week's absence on account of illness.

Nearing the End

"Mother Jones," who has figured in every great labor agitation for half a century, is dying on a farm near Hyattsville, Maryland. She will be 100 if she lives until May.

For Public Weigher, Precinct 4:
A. L. PORTER

furnishes the turkey and then carves it, and for his expense and trouble draws the neck or a wing. He is as steady as a hay wagon and as certain as the drip from a loose faucet. If his forehead wrinkles like a last year's apple, it is probably because he is thinking about the recent four cent gasoline tax.

There are lots of good dads in Littlefield, and there are lots of good boys who appreciate their dads. Their commingling around the food board will be worth something to both of them.

It is an old saying, "The people to whom we owe the most never present their bills." The boy owes more to his dad than anyone else on this green earth, but dad never asks him to pay it.

On the other hand, dad should never forget that boys need models, not critics, and that character is caught, not taught.

Scientists now declare man is 1,000,000 years old, and there are a lot of times when some of us feel it.

A HIGHWAY ARGUMENT

When a Littlefield motorist drives over a good road, in preference to a sand or dirt road, he saves two cents a mile in tire and tube wear and consumption of gasoline. Some may dispute it, but the American Road Builders Association offers the figures after a year of experiment with every kind of tire and every type of road.

The report explains that tractive resistance on paved roads is reduced, and that this resistance is what wears tires, the least amount of 'pull' causes the least amount of tire wear. Where a car will go 15 miles on the gallon on a paved surface it has been found that 1.47 gallons are needed to cover the same distance on unpaved roads.

Right here is argument enough for paved roads, though a hundred other arguments just as good can be advanced. If motorists can save two cents a mile on paved roads then how long, considering the number of cars in operation in this state, would it take to pay off the added tax state-wide paving would cost? Not very long. Of course there is the saving in time to be considered, as well as the advantage of getting to markets that could not be reached over poor roads.

But leaving all this out, it seems to us that the mere fact that paved roads save car owners two cents a mile in tire wear and gasoline consumption is enough to warrant them in demanding still better highways than we now have.

And it ought to be sufficient to silence the fellow who is willing to drive along in the same old ruts rather than line up with the good roads boosters.

London is trying out rubber pavements. Maybe they want to make it easier for pedestrians after they've been hit by a machine.

DEAR OLD DAD

The father and son banquet held here the other night gave plenty of opportunity for lurid orators to paint the faults and failings of dad; but after all there is something about him that gets pretty close to our hearts.

Dad is the fellow who furnishes the shingles over the home, who carries out the ashes and brings in the bacon. With his warped and twisted bank account he holds his family safe between poverty and the butcher and baker. On special occasions he

LOOKING AHEAD

Where is the Littlefield resident who doesn't wonder along about this time of year just what the coming twelve months hold in store in the way of new and wonderful inventions?

Right at the outset we read that Thos. A. Edison says he hopes before 1930 is ended to give the world a substitute for rubber, and that it will come through utilizing the golden rod, which grows in great abundance in many states. If we get nothing else but that—the discovery of a substitute for rubber—we will have cause for rejoicing.

Rubber has come to be very necessary part of our daily life, and something we really could not get along without.

It may not be good news to Great Britain, for she has a monopoly on it and has for years had us in her grasp. But it ought to cause rejoicing in this country, and it ought to bring a nation-wide hope that Mr. Edison's scheme works out 100 per cent successfully.

When Mr. Edison gets through experimenting with the goldenrod, we will then thank him to turn his attention to the blue weed.

After all, \$10 an hour isn't expensive for bridge game lessons when we consider what some fellows have paid to learn to play poker.

IT CAN'T BE STOPPED

When Congress took a few days vacation just before Christmas holidays, it cost the taxpayers of the U. S. the neat little sum of \$175,000. This was for the mileage paid members, whether they went home or not. Many, in fact, did not go home, so the appropriation was just that much money in their pockets.

Nine days was too brief for instance, for a member from California to make the trip, so he stayed in Washington City and pocketed his 1,300 mileage allowance.

Whenever Congress closes a session its members are entitled to 20c a mile for transportation to and from their homes. Even if they adjourned for only a day, they still would get the money. It has been done.

All of which should serve to acquaint Littlefield taxpayers with the fact that there are still a number of petty grafts connected with the government, and still a lot of needless squandering of money that can't be stopped because congress is the one that's doing the squandering.

THIS SETTLES IT

We see in a daily paper a brief dispatch from Madrid to the effect that the King of Spain dips his doughnuts, or toast, in his coffee. And we hasten to carry the good news to every Littlefield man whose good wife has threatened to shoot him or divorce him if he didn't quit doing the same thing. If a king is democratic enough to souse his doughnut in a cup of coffee, why can't an ordinary husband of an American queen do the same thing? It looks like a new step toward liberty, and if a member of the royal family does it who knows but it will soon become stylish and we can all dip to our heart's content, even when there is company at the table?

More power to you, King Alfonso. You may have your faults as a ruler, but you certainly know how to get the most enjoyment out of doughnuts and coffee. May your shadows never grow less—and your nerve never weaken when your better-half delivers her curtain lectures on table manners.

They are still experimenting but have yet to find an automobile that can wreck a train and then push it off of the track.

BABIES AND PIGS

The government recently put out two pamphlets that are in great demand. One of them tells how to bring up babies, and the other gives instructions on how to raise pigs.

Up to recently, according to a Washington newspaper, the pig was in greatest demand. But lately calls for the book on baby raising have increased, so it looks as though American families will eventually become as much interested in bringing up children as they are in making fat hogs out of little pigs.

When that time comes there will be little use for prisons, police and poorhouses—institutions that are now necessary largely because too many people devote their time to raising pigs when they should be devoting more of it to raising their children.

LITTLE LEADERS

A snowy Sunday every now and then is a good thing. It saves a lot of gasoline, profanity and accidents.

Now that the holidays are over we suppose there will be quite a falling off in Sunday School attendance around Littlefield.

Between the movie show and the radio the supper dishes lead a wild life in a good many Littlefield homes these days.

It wouldn't surprise us a bit if the time comes when the only place you can see skirts in Littlefield will be in the family album.

Some Littlefield men seem to think there is no finer way for a woman to spend her life than devoting it to keeping a husband well fed and well taken care of.

If you want to try something hard, try to make the average Littlefield boy understand that when a girl says "Yes" to his marriage proposal it only gives her a chance to say "No" the balance of her life.

PAVEMENT PICKUPS

Charey Harless says the man who has to pay Christmas bills knows there's at least one time of year when a woman doesn't spend more time than she does money in the stores.

Phelps Walker is authority for the statement that the chief difference between the stock market and a poker game is that in poker you can see your cards.

"Among other things a man doesn't learn until after the honeymoon is over," asserts John Street "is that he did all his talking during the courtship."

Rev. Chas. Dvorak says, "Perhaps one thing," says J. W. Hale, "it was a hatchet he used and not a hammer. gives the angels any peace of mind until they listen to him."

Give George Washington credit for one thing," says J. W. Hale, "it was a hatchet he used and not a hammer."

Harry Wiseman says he can still remember when a fellow could get a pretty good shotgun for 40,000 tobacco tags.

Coming Home Again

Dr. Jacob Gould Schurman, who has resigned after nearly five years' service as American Ambassador to Berlin. The former president of Cornell University and distinguished author has been in the diplomatic service since 1920.

Jimmy Brit says all these wives folks are talking about now days are not his. He insists he is a Lion, but no Lion was ever a polygamist.

A passer-by remarked Tuesday, "If Hammons Bros. would just put a few benches and a stove or two out here on the sidewalk the entertainment would be ideal."

Now a prominent Littlefield business man wants to know when a fat woman calls him "honey" when a peeling for charity, if that is just grounds for arousing friend wife's jealousy.

COLLEGE NEWS

The work at the college has gone forward in spite of the snow and cold weather. Some of the activities were postponed, but the students have enjoyed sleigh riding, snow balling and kodaking during their leisure hours.

Joy-Makers Program

The following program will be given by the High School Joy-Makers Friday night, Jan. 17.

Answer roll call with a joke.
Reading of the minutes by the secretary.

Song: "Carolina Moon," assembly.
Reading: "A Comic Monologue"—Karrol Kitching.

A Playlet: Virginia Conner, Karrol Kitching, Willie Austin.

Song: Selected, High School Quartet.

Reading: Selected—Thelma Smith.
Dialogue: "Sending a Telegram"—Virginia Conner, Jack Vaughn.

Instrumental Duet: Virginia Conner and Karrol Kitching.

A Dumb Stunt—High School Students.

Critics Report.
Yells and games.

All are invited to attend the program.

Mrs. W. T. Watson of Los Angeles Cal., is visiting her sister, Mrs. Bertie Baker, matron of the dormitory.

Mrs. E. K. Kitching has been ill since Saturday, but is convalescing.

Mr. and Mrs. Johnnie Pollock went to Lubbock, Sunday, concerning matters pertaining to the school.

Miss Connie Finney entertained a number of friends in honor of Miss Stella Strange's birthday, which was January 13. The honoree was presented with a beautiful picture. Refreshments were served to the guests.

Just Like An Ostrich

A medical authority says that a person who tries to cover up skin blemishes and pimples with toilet creams and powders is just as foolish as an ostrich that buries its head in the sand to avoid danger. Skin eruptions are nature's warning that constipation is throwing poisons into your blood stream and weakening your whole constitution. Remove the constipated condition and you will strengthen your system against disease and clear up your disfigured skin. The best way to do this is with a course of Herbine, the vegetable medicine that acts naturally and easily, which you can get at Stokes-Alexander Drug Company.

Over 300 Lamb County Tax Payments Better Women Enrolled, Home School Enrollment Is Increased 232 Pupils Demonstration Clubs

Miss Ruby Mashburn, county home demonstration agent for Lamb county, in presenting her report to the County Commissioners the first meeting this year, shows she has not only been quite active, but obtaining large and definite results.

Beginning her work September 1 last year, she has since that time visited in nearly every community of the county. Eight women's home demonstration clubs have been organized, having 116 active members, and five Girls 4-H clubs have been organized with a total membership of 185.

Work with the women has been principally along lines of nutrition and food preservation, the nutrition work including demonstrations and lectures as to food values on the following: school lunches, fruit cakes, salads and salad dressings, and candy making. Many of the women found that fruit cakes could be cooked in about one-half the usual time by using steam pressure cookers, giving also a considerable saving in both time and fuel.

Food preservation conducted by Miss Mashburn has been largely in the canning of beef and chicken. Three beaves have been canned as demonstrations, in which steak, roast, chilli, meat loaf, stew and soup stock were produced in a value of \$118.40.

All girls are starting their required work in clothing by mastering the fundamental principals of sewing.

November 23 a county council was organized. A year book for 1930 is now in the hands of the printer, and when published, will contain programs for each meeting during this year, the canning budget, protective diet and much other valuable information.

BIBLE CLASS MEETS

The Ladies Bible class of the Church of Christ met Tuesday afternoon of this week with Mrs. J. C. Hilburn.

Despite the inclement weather an atmosphere of warmth and cheer pervaded, and a very pleasant and profitable afternoon spent.

After an interesting lesson on "The Call of Abraham," led by M. S. Kimmel, delightful refreshments were served by the hostesses to Mrs. Hale, Jackson, Bigham, Collins, Gregory, Adams, Stone, Foust and Kimmel.

HOME CLUB MEETING

The Littlefield Women's home demonstration club met with Mrs. V. H. Matthews, Thursday, Jan. 9.

A demonstration of canning turkey was given by Miss Ruby Mashburn, county home demonstration agent.

The club will meet with Mrs. L. L. Massengill Thursday, Jan. 23rd, the subject will be "Reading."

That Littlefield and the surrounding territory is rapidly growing, is evident from the report from the school enrollment, and from the large amount of tax receipts coming into the office of J. S. Hilliard, secretary of the school board.

"School taxes are coming in fine, better than they ever have at this time of the year. Collections are now a least 10 per cent better than they were at this time last year," says Mr. Hilliard in conversation with a Leader representative.

Figures received from the office of Superintendent Harrison are as follows: 1281 pupils were enrolled September 4, 1929, and the present enrollment is 1658. At this time last year an enrollment of 1426 was reported. A gain of 232 pupils over the previous year.

Ninety-seven new pupils have been enrolled since the Christmas holidays, and prospects are that another teacher will have to be added to the Grammar school faculty and also an additional teacher is necessary in the Primary department, due to the fact that classes in those two buildings are more crowded than those of the High school, according to Superintendent Harrison.

R. E. HUSTON

Conducting music in Methodist revival

Methodists Having a Building Campaign in Revival Connection

The Methodist revival which is being conducted here by Rev. R. B. Freeman is progressing nicely, much interest being manifest by the people of Littlefield, and a splendid meeting is anticipated.

All of the day services are being held at the Methodist church while all evening services are being held at the First Baptist church.

R. E. Huston, of Dallas, a splendid choir director is in charge of the

choir. He is also successfully conducting the young people's meetings each evening at seven o'clock, at the Methodist church, preceeding the evening preaching service at 7:30 o'clock.

Sunday evening the First Baptist church building was filled to capacity and Rev. Freeman delivered a fine sermon, using as his subject, "How to Have a Revival," stressing the importance of agitation in making a success of a thing. A good song service was also held under the direction of Mr. Huston, who also sang, "In The Garden," as a solo.

The Methodist people also launched their financial drive Monday morning at nine o'clock for funds with which to build a new church.

"The committees are meeting with much success, and plans are now being drawn for the new building. It is hoped that material can be put on the ground by February 1st, and that actual construction may begin by February 15th," says Rev. Freeman.

The plans call for a modern building throughout when completed, which will be one of the nicest medium priced churches on the South Plains.

The committee has selected a light faced brick trimmed with stone to be used as material for the new edifice.

LIONS CLUB MEET

The Lions club met Friday noon in the basement of the First Baptist church at their regular weekly luncheon, with a large attendance.

Rev. R. B. Freeman made a talk on the Father and Son banquet which was to be held in the evening of that day.

3 Glasses Water

Help Constipation

One glass of water is not enough—take three glasses one hour before breakfast. Much better results are obtained by adding a teaspoon of simple glycerin, saline compound (known as Adlerika) to each glass. Adlerika acts on BOTH upper and lower bowel and removes old waste matter you never thought was in your system. Stops gas and sour stomach in TEN minutes! Relieves constipation in two hours.

PUTTING CIRCULARS IN MAIL BOXES IS FORBIDDEN BY LAW

Putting paper in mail boxes in private residences or on rural routes is forbidden by law, according to a statement by the local postmaster whose attention has recently been called to the matter by rural carriers finding mail boxes much stuffed with sale bills, etc.

Section 773, paragraph of the U. S. P. L. & R., says: "Mail boxes

erected on rural routes are intended exclusively for the reception of matter regularly in the mails, and any mailable matter, such as circulars, sale bills, etc., deposited therein is subject to the rules governing the mails, including proper addressing and the payment of postage at the regular rate."

Condor Exceeds Eagle

UNITED STATES CENSUS TAKERS WILL ASK THE LEADER, YOUR HOME PAPER \$1.50

LAMB CO. CITIZENS ABOUT THEIR FIRST MARRIAGE AND NUMBER OF RADIOS IN CO.

When Littlefield and Lamb county citizens in general meet the United States census taker who will soon be starting the rounds of his job which occurs every 10 years, they are going to be called upon to answer some new questions heretofore never propounded.

The new forms now being printed by the government office in Washington, D. C., when completed and properly filled out, besides the usual general statistical information required, will also contain no less than 26 different important and interesting facts regarding every man, woman and child in the nation.

That the census taking job is a big one is evidenced by the fact that 2,750,000 large blanks or schedules, each of which will accommodate names and facts concerning 100 people, are now being printed.

Four New Questions

Four questions which were asked in 1920 have not been included on the new schedule, while five which were not asked last time have been included. No questions will be asked as to whether the home is mortgaged; naturalized citizens will not be called on to give the year in which they obtained their citizenship; nor will foreign-born persons be asked the native tongue of their father or their mother.

The new questions to be asked are as follows:

What is the value of the home, if owned; or how much is the rent, if rented?

Is there a radio in the home?

Is the person enumerated employed on the day he is canvassed?

Is he a veteran of the U. S. military or naval forces.

If the person is married, how old was he at the time of his first marriage?

The question about the value of the home will make it possible to group the families of the country according to their purchasing power and economic standing. The potential buying public is to be classified for the first time. The information obtained is expected to be particularly valuable to manufacturers and merchants planning to expand into new territory.

The radio question will be asked to find how large the radio audience is in this country. Guesses on this subject are varied most widely, where-

as correct information in this regard is considered very desirable by public and private organizations alike.

The third new question regarding unemployment, has been included for the purpose of finding out who should fill out one of the separate unemployment schedules which have been prepared. Detailed information regarding unemployment is now to be gained for the first time, although a question on this general subject was asked in 1910.

The question regarding veterans was included at the request of the Veteran's Bureau in Washington. The number of veterans of each war or campaign in which United States forces have taken part will be tabulated. In 1910 a question was included concerning veterans of the Civil War, but in 1920 no mention was made of veterans of any kind.

First Marriage

Married persons will be asked to give their age at the time of their first marriage so that statistics may be compiled concerning the marital age of different racial groups and of different sections of the country. This will make possible a study of the effect of economic status, race, and education upon age at marriage.

The other 20 questions on the 1930 schedule deal with the usual census information, involving facts about age, sex, occupation, personal description, citizenship, and relationship to the head of the family.

Although no new question has been included on the subject of home-makers, women who fill this position will be distinguished as such in the family relationship column and will be given special classification. Heretofore the father has been put down as the head of the family and all other persons classed in whatever relationship they held to him, whether that of wife, daughter, uncle, brother, or cousin twice removed. This year women who are home-makers will be placed in a position of dignity comparable to that of head of the family.

All information collected by the census bureau regarding individuals is kept secret for 50 years; so there is no danger of tax collectors or army draft officers prying into the records for purposes of their own. The census records for 1870 have just been thrown open to historians, researchers, students, and genealogists.

SCHOOL CLASS ENTERTAINS

The Home Economics class, of which Mrs. M. M. Brittain is teacher entertained the Women's Study club Friday afternoon at 4:15 o'clock at the High School building with a tea.

The officers of the Study club formed the receiving line, graciously welcoming the guests.

Readings were given by Misses Baird and Gattis.

The ladies were ushered into an adjoining room where tea and a delicious salad course were served.

Throughout the occasion Mrs. Brittain received compliments on the courtesy and attention of the girls. The entertainment was appreciated by the following ladies of the club: Officers, Mesdames F. G. Sadler, B. L. Cogdill, C. O. Stone, Irvin Miller, P. H. Boone, J. H. Arnett, W. G. Street, Sidney Hopping, B. M. Harrison, J. E. Whicker, J. C. Hilbun, and members, Mesdames T. Wade Potter, R. A. Davis, M. Etter, C. H. Harless, R. B. Jones, J. M. Stokes, E. S. Rowe, Reese, Fulton, Misses Dahlia Hemphill and Gladys Wales.

THE STATE OF TEXAS) COUNTY OF LAMB)

WHEREAS, by virtue of a certain Order of Sale issued out of the District Court of Lamb County, Texas, on a judgment rendered in said court on the 26th day of December, 1929, in favor of Arthur P. Duggan and against L. V. Barnes and M. D. Mahaney and being No. 449 on the docket of said court, I did, on the 6th day of January, 1930, at 10 o'clock A. M. levy upon the following described lots, tracts and parcels of land lying and being situated in Lamb County, Texas, as the property of and belonging to the said L. V. Barnes and M. D. Mahaney, to wit:

All that certain lot, tract or parcel of land lying and being situated in Lamb County, Texas, and being Labor No. Nineteen (19), League No. 687, containing 177.1 acres of land.

AND NOTICE IS HEREBY GIVEN, that on the 4th day of February, 1930, the same being the first Tuesday in said month, between the hours of 10 o'clock A. M. and 4 o'clock P. M. on said day, at the courthouse of said county, in Olton, Texas, I will offer for sale and will sell at public auction for cash, all the right, title and interest of the said L. V. Barnes and M. D. Mahaney in and to said property.

Dated at Olton, Texas, this the 6th day of January, 1930.
LEN IRVIN, Sheriff of Lamb County, Texas.
January 9, 16, 23, 1930.

SOCIETY MAKES \$89.00

The Missionary society of the Methodist church met Monday afternoon at the home of Mrs. B. L. Cogdill with Mesdames W. C. Thaxton and G. S. Glenn as joint hostesses.

With Mrs. C. H. Grow, vice-president in the chair, a short business session was held.

Delicious refreshments were served by the hostesses to about 12 members.

A report was made that \$89.00 was realized from the Father and Son banquet which was served by the ladies of the society Friday evening.

HARRIS HANDLES IMPLEMENTS

J. T. Harris, for several years a lumber dealer in Littlefield, and who recently sold his lumber interests to the Foxworth-Galbraith Co., is this week opening a general implement business in the building just east of the Hardberger gin on State highway.

Mr. Harris will handle the John Deere tractors and Avery farm implements, also heavy hardware suitable for farm and builders' use.

THE STATE OF TEXAS) COUNTY OF LAMB)

WHEREAS, by virtue of a certain Order of Sale issued out of the District Court of Lamb County, Texas, on a judgment rendered in said court on the 17th day of December, 1929, in favor of J. T. Harris and against J. G. Sanders and Mrs. Nettie Allen and being No. 450 on the docket of said court, I did, on the 6th day of January, 1930, at 10 o'clock A. M. levy upon the following described lots, tracts and parcels of land lying and being situated in Lamb County, Texas, as the property of and belonging to the said J. G. Sanders and Mrs. Nettie Allen, to-wit:

The North 12 1/2 feet, or the North one half of Lot No. 8, in Block No. 40, in the town of Littlefield, Lamb County, Texas.

AND NOTICE IS HEREBY GIVEN, that on the 4th day of February, 1930, the same being the first Tuesday in said month, between the hours of 10 o'clock A. M. and 4 o'clock P. M. on said day, at the courthouse of said county, in Olton, Texas, I will offer for sale and will sell at public auction for cash, all the right, title and interest of the said J. G. Sanders and Mrs. Nettie Allen in and to said property.

Dated at Olton, Texas, this the 6th day of January, 1930.
LEN IRVIN, Sheriff of Lamb County, Texas.
January 9, 16, 23, 1930.

ALEX DeLONG,

LITTLEFIELD

MANAGER

Advantage In Dress Gars is Disproved Miss R. Mashburn

Records that modern girls' extravagant is not borne out by records kept by 4-H club members. Miss Ruby Mashburn, county home demonstrator, says it costs them only an average of \$12.54 each to clothe themselves each year.

The most recorded was a girl who had to hire her maid because of illness in the

family, while the lowest cost recorded was \$16.70 by a girl who did all her own sewing. These girls are all farm girls, said Miss Mashburn, ranging in age from 12 to 17 years.

Records gathered by home demonstration agents show that the wearing of silk hose all day and every day may please a girl's vanity but is an expensive habit, for it costs more than twice as much as it does to wear cotton hose for ordinary wear and silk ones for only dress occasions. Incidentally, girls of both town and country are coming to wear more of the cotton hose all the time. Compiled statistics indicate that cotton hose cost an average of 60 cents a pair, while the silk variety cost \$1.49 a pair. Where girls use both kinds of hose, as above indicated, the average cost is around \$5.00 per year, and where silk ones are used exclusively the average cost is about \$13.00.

In connection with this work among the 4-H club girls, they also learn the wise selection of material, choice of appropriate colors, finishes and designs. For instance, these girls learn that fast colored prints are better than ginghams for every day purposes, since the prints do not shrink, have a finer finish and launder more easily.

The girls of these clubs in Lamb county are proving very apt pupils, Miss Mashburn states and are getting very definite and profitable information from their club work.

Oil Co. To Broadcast Merits of Mighty West

Bringing to radio listeners of a large section of the United States a new and unique entertainment feature, the Continental Oil Company of Denver, Colorado, will go on the air early in 1930 with a regular weekly program over the National Broadcasting Company network. According to those who have seen the script and rehearsals, the Conoco dramatic productions, built around the outstanding romantic historical events in the development of the Western United States, promise superb entertainment.

The whole of the Western States, the great scenic wonderland in which were enacted so many of the stirring dramas of American history

from which fiction writers have drawn their material for decades, the background for the Conoco programs. They will be dramatized incidents in the historical epic of the West, written as truly in accordance with the historical facts as the historians and research workers can make them. They will include such miniature dramas as the discovery of Pike's Peak by Zebulon M. Pike, the opening of the Cherokee Strip in Oklahoma, which precipitated the wildest race for land ever recorded in history; Custer's Last Stand, in Montana; discovery of the Carlsbad Caverns in New Mexico, and a score of others similar in character, each a chapter in the saga of the winning of the West.

To the millions of Americans who have seen this Western wonderland, or who are planning to see it during future summer motor tours, the Conoco programs will be particularly interesting, because of their direct bearing upon the scenic beauty-spots which have become the shrines of increasing millions of tourists each summer.

Whitharral News

Signs of prosperity are still cropping out around Whitharral. Edd Langford, our road commissioner, has started work on a new house just west of the school house.

In another week Whitharral will be lighted with electric lights. All the dwelling houses in the village limits will have lights.

That isn't all we are going to have. Two new church houses will be built real soon, the Missionary Baptist, and the Church of Christ.

J. K. Larue and family, who are one of the old settlers of Whitharral, have sold out to Hollis Tranwell. Mr. Larue intends to move to South Texas.

We have lots of new comers in

our community, most everybody has gotten moved, for another year. We are losing old neighbors and gaining new ones.

My, we are getting a little tired of the snow and bad weather, but looks like we will have more before it quits.

Mrs. J. R. Wales and two daughters, Misses Gladys and Blanch were visitors in the Chas. Hawk home last Tuesday evening.

Misses Lorene Newsome entertained several of her little friends last Sunday with a birthday dinner, and games were played; had plenty of music. She received several gifts.

Misses Juanita and Evelyn Heffner took dinner last Sunday with Miss Sibyl McClellan and Louise Hawk.

Mrs. Elton Hawk and Mrs. Marvin Booker were in Levelland Saturday evening.

Mrs. Bruce Wrenn visited Mrs. Clarence Kenney Friday evening. Jimmie Haines is driving a new Chevrolet Roadster.

Mr. and Mrs. Travis Haines were shopping in Lubbock last Saturday. Rev. Kirk, the Baptist pastor at Anton, preached for us Sunday evening.

Rev. W. T. Wright will preach for us next Sunday morning and Rev. Roy Kemp of Littlefield will preach Sunday evening. Everybody is invited to attend.

BELIEVES IN ADVERTISING

Wm. J. Chesher, manager of the local Palace theatre, who is a strong believer in advertising, says "there is nothing like keeping up to date."

He has recently installed in the theatre lobby two shadow boxes decorated in rainbow design with multi-color illumination portraying in vivid form coming attractions at that popular movie house.

Pep Paragraphs

Mr. and Mrs. J. F. Albus and family returned from Rhineland last Tuesday.

A. G. Jungman and daughter Ida, were in Littlefield Saturday. Ida has entered the Leader subscription contest and has set to work energetically in soliciting subscriptions.

The snow and the extremely cold weather of last week caused a considerable drop in school attendance.

The snow portends an early season in the ground. It also afforded while it lasted much sport in the way of rabbit hunting for the boys, big and little.

The fourth, fifth and sixth grade children winning honors in spelling for the past month are: John Richard Allison, Alvin Robert Gerik, Valerie Jungman, Felix Silhan, Harold

THE WAY TO WIN MADE EASY!

**100,000
EXTRA
VOTES**

FOR EVERY \$20 WORTH OF SUBSCRIPTIONS TURNED IN BEFORE
8 o'clock p. m. **January 25th**
SATURDAY

THE BIGGEST AND BEST OFFER

THE WINNING OPPORTUNITY

In order to assist each and every energetic candidate to get an early start in the great race for the free automobile and other prizes, the Campaign Manager has decided to present a remarkably liberal offer of extra votes. For each \$20 worth of subscriptions turned in or mailed before 8 p. m., Saturday, January 25th, 100,000 extra votes will be given. These are extra, and in addition to the regular votes each subscription earns, as per schedule on the cover of your receipt books. The extra votes will be issued as soon as the offer closes. At the rates of 100,000 extra for each \$20 turned in. This offer is positively the biggest special vote getting opportunity of the entire campaign. Subscriptions will count more in votes between now and January 25th, than they will later. Try to make this offer place you safely within the winning list. Now is the time to get busy. The campaign is just starting, just beginning, just commencing. Start your first \$20 Club today.

FIRST GRAND PRIZE

Purchased From and Displayed At

HAMMONS BROTHERS

Furniture and Undertaking

There is No Limit To This Great Special Offer

You can get just as many clubs as you like. There is no limit to the number of times you can earn the 100,000 bonus votes. The more subscriptions you turn in, the more extra votes you will earn. Just as soon as you have completed one club start another. The votes you earn on this offer will count heavily when the final tabulation is made by the official judges when they read off the names of the prize winners on Saturday, February 15th. Every \$20 wins the bonus and pro rata number of extra votes will be issued on all portions of a club after the first has been turned in.

FOURTH GRAND PRIZE

\$100 Blue White Diamond Ring

FIFTH GRAND PRIZE

\$75.00 Blue White Diamond Ring

Both purchased from and on display the Jewelry Department of Stokes-Alexander Drug Company.

Turn In Your Subscriptions as Fast as You Get Them

It will not be necessary for you to turn in the entire \$20 all at one time in order to take advantage of this offer. You may turn in any amount at any time and when the offer closes you will receive a Special Voting Ballot, giving the total number of extra votes you have earned, also showing the total amount of money you have turned in. The regular votes will be issued as usual. Don't hold your subscriptions—turn them in as fast as you get them and then the subscribers will receive their papers promptly. ALL SUBSCRIPTIONS TURNED IN THUS FAR COUNT ON THE OFFER.

The Blanks Below Are All You Need to Start Tear Them Out Now!

First Subscription Coupon Good for 10,000 Extra Votes

This coupon accompanied by the entry blank and your first subscription will start you in the race with more than 10,000 extra votes—only one of these coupons will be credited to each candidate.

THE STATE OF TEXAS

**TO THE SHERIFF OR ANY CON-
STABLE OF LAMB COUNTY, TEX-
AS, Greeting:**

You are hereby commanded to
cause to be posted for ten days ex-
clusive of the day of posting, before
the return day hereof, in three of the
most public places in Lamb County,
Texas, one of which shall be at the
court house door, and no two of
which shall be in the same city or
town, and also cause to be published
in a newspaper of general circulation
which has been continuously pub-
lished in Lamb County, Texas, for a pe-
riod of more than one year, for a pe-
riod of ten days, exclusive of the
first day of publication, and before
the return day hereof, copies of the
following notice:

THE STATE OF TEXAS

To All Persons Interested in the
Welfare of the Estate of A. R. Singer
Deceased, W. C. Singer was by the
County Court of Lamb County, Tex-
as, on the 31st day of December, A.
D. 1929, duly appointed Temporary
Administrator of the Estate of the
said A. R. Singer, Deceased, which
appointment will be made permanent
unless the same shall be successfully
contested at the next term of said
court, commencing on the first Mon-
day in February, A. D. 1930, the
same being the 3rd day of February,
A. D. 1930, at the Court House of
said County, in Olton, Texas, at
which time all persons interested in
the welfare of the said estate of the
said A. R. Singer, Deceased, may and
are cited to appear and contest said
appointment if they so desire.

HEREIN FAIL NOT, and have you
before said court on the said first day
of the next term thereof, this writ
with your return thereon, showing
how you have executed the same.

GIVEN UNDER MY HAND and
the seal of said Court, at office in
Olton, Texas, this the 13th day of
January, A. D. 1930.

A. H. McGAVOCK, Clerk of the
County Court, Lamb County, Texas.
(SEAL)

Issued January 13, 1930.

A. H. McGavock, Clerk.

Jan. 15, 23, 1930.

Good-By

An elderly neighbor called on the
family one afternoon for the first time.
Everything went well until she left,
and the family told her good-by and
asked her to come again. Then three
year-old Larry spoke up and said:
"Good-by, good-by forever."

**COMMERCIAL BODY
ACCOMPLISHMENTS
TOLD BY THE SEC.**

By J. W. HALE, Secy.

Nineteen hundred and thirty finds
the Littlefield Chamber of Commerce
facing the biggest program for any
one year in its history. We go out
of 1929 with much unfinished busi-
ness.

All the accomplishments of 1929
are not available, but since October
1, we have put over three major out-
standing propositions, besides a score
of lesser ones.

Our first big problem was laborers
through the Federal agencies and
other Chambers of Commerce, we se-
cured more than 10,000 cotton pick-
ers and other laborers, and handled
more than half that number directly
through the Chamber of Commerce
office. In towns where each farmer
tried to secure his pickers the aver-
age cost per farmer was more than
\$100. At that rate the trade terri-
tory of Littlefield would have been
out \$100,000 going out after labor,
or lost that much in damaged cotton
waiting for them to come. As it was
handled it did not cost anybody one
single penny.

The second major task was gas for
Littlefield. By sending the proper
data to a gas company represented
in both Dallas and Lubbock we got
action, and not only action but gas.

The third greatest need for Little-
field was a cotton seed oil mill. To
meet that we sent out letters to a
dozen oil companies giving data
showing what a wonderful opportu-
nity Littlefield offered a mill. Three
of them responded offering to build
it. One of the three has bought 20
acres to put it on, and will begin
work soon.

In addition many new people and
business firms have come in during
these three months. All told, the
Chamber of Commerce has collected
\$450.00 since the first of October
with which to accomplish these things.
More than \$100 of this was paid on
debts made a year ago. The other
\$350 went to pay for office rent,
phone rent, phone calls, telegrams,
papers, moving office, charity, enter-
taining guests at Club Boys banquet,
buying the winning boy a \$10.00 hat
expenses to a number of meetings, in-
cluding the West Texas Chamber of

Commerce meeting at El Paso. So
your \$100,000 a year secretary charg-
ed off his salary to profit and loss,
and we all start the new year with a
smile.

But in order to accomplish the
things we have planned for 1930, and
pay some debts we have nearly two
years old, it will be necessary to have
more money. So we have planned
Tuesday, 21 of January, to put on a
membership drive. Frankly we do
not believe that any business firm has
the right to move into Littlefield, and
enjoy the cooperation, support and
trade of the citizenship of the town
and give nothing in return toward
supporting the town and building it
and making it a better place in which
to live. Consequently we anticipate
one hundred percent membership.

So Tuesday, Jan. 21, at 9:00
o'clock we will have a band concert
on Main street. Then the fire whistle
will be turned loose, which shall be
a signal to every citizen in Littlefield
who is not a member of the Chamber
of Commerce, that the entire Lions
Club and Rotary Club are being let
out at the same time to see you and
get your membership, and in 30 min-
utes have it all over and Littlefield,
one hundred percent members of the
Chamber of Commerce.

Listen for the band and the
whistle!

Movement Imperative

I find the great thing in this world
is not so much where we stand, as in
what direction we are moving. To
reach the port of heaven, we must sail
sometimes with the wind, and some-
times against it; but we must sail,
and not drift, nor lie at anchor.—
Oliver Wendell Holmes.

Medicine Stains

Silver stained with medicine should
be rubbed with methylated spirit.
Afterwards wash the silver in warm
soapy water and polish with a dry
cloth.

**Just think! This is
going to be our
OWN HOME!**

The couple in the picture above are very
happy. They are looking at the home we have
just completed for them, and feel a glow of pride.

You, too, may own your own home. It's
easier than you think.

Now is a good time to stop paying rent and
get into the ownership class. We furnish every-
thing from plans to paint—the very best of build-
ing material—and all on exceedingly reasonable
terms. Ask us to explain to you.

Mr. and Mrs. Van Clark and children spent Sunday in Lubbock, visiting her parents. They were accompanied upon their return by C. J. Duggan, who spent the weekend there with his family.

LIVE STOCK

DRY BARNS URGED FOR SWINE HERD

More actual loss is caused to farmers during the winter from flu in their hogs than from cholera, according to Iowa State college. Flu not only kills many hogs outright, but it causes an even greater loss in a reduced pig crop where it affects brood sows.

By furnishing the right kind of sleeping quarters approximately nine-tenths of the losses from flu can be prevented. Hogs that sleep in drafty or unventilated buildings, or sleep in dusty, wet or unbedded pens are usually susceptible to flu. From now on through the winter they are liable to contract the sickness.

Hog barns should be cleaned and freshly bedded with clean straw. Hogs can be kept in an open front shed if it has a good roof and a good bed. Such a shed should allow plenty of fresh air but no drafts.

If the entire herd cannot be furnished with good sleeping quarters special attention should be given to the brood sows and gilts that are kept for the spring farrow. Many sows which contract flu will abort. Others will farrow weak and small pigs that are never thrifty.

Hogs should no longer be permitted to sleep out of doors. They should be provided with suitable quarters immediately so that a cold night will not be the forerunner of serious trouble in the herd.

Suffers No Ewe Losses in Past Eight Years

By properly balancing rations there have been no losses in eight years in the ewe flock kept at the Kentucky agricultural experiment station, according to the annual report of the station.

Last year the ewe flock was fed alfalfa hay, with the standard grain ration of oats and bran. This appeared to give better results than the feeding of soy bean hay the previous year. The report says:

"During the breeding season and preceding the lambing period, the station flock of breeding ewes was fed alfalfa hay in addition to the standard grain ration of equal parts by weight of oats and bran. In comparison with the preceding year, when all ewes were fed soy bean hay, it was noted that they cleaned up the alfalfa hay more completely than they did the soy bean hay and that the alfalfa hay was less constipating than soy bean hay.

"For the eighth consecutive year there were no losses in the station flock during pregnancy. This more firmly substantiates the statement made in last year's report that the freedom from loss may probably be attributed to the fact that the ration fed was properly balanced, contained sufficient protein and mineral matter for developing the unborn, and contained no constipating feeds."

Mineral Feed Cost

From \$1.25 to \$1.75 a hundred pounds is enough to pay for minerals to feed hogs, says Dr. W. E. Carroll of the University of Illinois. He recommends two parts ground limestone, two parts steamed bone meal and one part common salt. In case pigs show a tendency to hairlessness or goiter, add one ounce of potassium iodide to each 100 pounds of minerals. The Indiana experiment station got good results from ten parts wood ashes, ten parts of 16 per cent acid phosphate and one part salt.

FIRST CHRISTIAN CHURCH

Our friends, members and others are urged to be at Sunday School Sunday, January 20th, at ten o'clock.

There will be preaching at 11:00 a. m., and 7:30 p. m. Cordial invitation to you to attend.

—JASPER BOGUE, District Evangelist.

Rev. L. H. G. Williams, rector of the Episcopal church, at Lubbock, was here Sunday and officiated at the christening of Raymond Long, infant son of Mr. and Mrs. George Long, which took place at their home in the west part of town.

Miss Vesta Henson, who has been associated with the First State Bank here for the past several months, as year? cmf shrdluu eta etaoinnaat bookkeeper, left Monday for Dallas, where she has accepted a position in the general office of the Postal Telegraph Company, of that city. She will make her home there with her sister, Mrs. Ted Ball.

Basis of Happy Life
The love of home is one of the most sacred of human fabrics, for its weave is made up of every good and beautiful strand that grows out of life's fibers.

Odd Name Explained
The Butter tower of Rouen cathedral built between 1485 and 1507, was constructed from funds received for dispensations for butter during Lent.

Electricity in Lightning
The weather bureau says that the electricity in a single flash of lightning varies greatly. The largest amount of which the bureau has any approximate measurement was the equivalent, roughly, of 100,000 amperes for 0.01 second, or 1,000 amperes for 1 second. Probably the average discharge is of the order of one-fiftieth of this amount.
