Durwood Howell Elected VFW State Junior Vice - Commander

Is third Highest Office in Veterans State Organization

John Dirickson and Howell Delegates To State Meeting

Durwood Howell, commander of the local Post of the Veterans of Foreign Wars, was elected Junior Vice-Commander of the State organization at the VFW convention held at the Texas Hotel, Fort Worth, Wednesday, Thursday and Friday of last week.

Mr. Howell and John Dirickson were delegates to the session from the local Post. They returned to Littlefield Saturday night.

In being named Junior Vice-Commander, Mr. Howell was elected to the third highest office in the veterans organization in the State of Texas, and this election places him in line for the office of Senior Vice-Commander next year and to later become State Commander.

This high office to which Mr. Howell was named usually goes to men in the larger cities, and in the selection of Mr. Howell, it is not only recognition of his capabilities and service in behalf of returned men and the Veterans of Foreign Wars association, but also is outstanding recognition for Littlefield, the South Plains and the local Post.

Mr. Howell attended the convention virtually a stranger, with the exception of Mr. Dirickson, and Ollie Smith, the delegate from Levelland.

Mr. Howell was in service 45 months, with the navy and overseas two years in the Pacific. He saw action on Tarawa, Kwajalein, Eniwetok, Gilbert Islands, Solomons and New Hebrides. He was serving as chief store keeper when released.

He was awarded the Asiatic-Pacific campaign bar with three bronze stars, North American theatre campaign ribbon, Victory Medal and the Navy Good Conduct ribbon.

Mr. Howell was discharged and arrived home about November 1, 1945. He is now employed as cashier with the West Texas Cotton Oil Company.

The local Post of Veterans of Foreign Wars was organized in December, 1915. This unit now has 150 members with Durwood Howell as commander, W. D. Gilder is serving as vice-commander, Stanley Doss as senior Vice-Commander and Tom McFarland as Adjutant.

Amherst Business Concerns Burglarized Sunday Night

Sheriff Sam Hutson reported a car stolen at Earth Saturday night, and two business concerns and a home at Amherst broken into Sunday night.

The 1941 Chevrolet, two door sedan, belonging to Cleve Hudson's Drug Store, was taken Saturday night from the rear of the store about 9:30 o'clock, and was recovered about 1:30 a. m. Sunday at Farewell, the motor burned up.

Turner's Drug Store, Amherst, was entered Sunday night sometime between closing time, 9:30 o'clock and morning, by breaking the glass in the back door and prying part of the lock off. The cash register was rifled and about \$50.00 in cash taken, also seven inexpensive rings.

Higginbotham-Bartlett Lumber Co. yard office was also broken into, and although drawers were rifled, no money was found. However, some used tools were stolen. Entrance was gained by taking the sash out of an east side window.

These tools, stolen at Higginbotham-Bartlett Lumber Co., were believed to have been used in breaking into the Turner Drug store.

When the J. H. Knox family of Amherst returned from church Sunday night they found the glass broken in the front door of their home, the door opened and the place rifled, but apparently nothing was missing.

Lamb county officers are investigating the various robberies. It is believed that the same party carried out the car theft and the various burglaries.

SIGHT BY SOUND FOR BLINDED VETERANS became a reality when Captain John Paul Moriarty, who lost his eyesight when his artillery liaison airplane was forced down September 9, 1944, behind German lines near Metz, France, returned to work at the Timken Roller Bearing Company in Canton, Ohio. He is shown above operating the new electronic sound gauge developed by Timken engineers, which, by three audible tones, enables him to gauge within one five-millionth inch the diameter of roller bearing components. The middle tone indicates the part being checked is within tolerance. A low tone indicates undersize — a high tone, oversize. The tones issue from a loudspeaker connected to the electronic device and mounted in front of the operator. The company employs 60 other sightless workers on similar jobs.

Gems of Thought HAPPINESS

What happiness is, the Bible alone shows clearly and certainly, and points out the way that leads to the attainment of it.—Coleridge.

Happiness is neither within us only, or without us. It is the union of ourselves with God.—Pascal.

The strength and the happiness of a man consists in finding out the way in which God is going, and going in that way, too.—H. W. Beecher.

When mortal man blends his thoughts of existence with the spiritual and works only as God works, he will no longer grope in the dark and cling to earth because he has not tasted heaven.—Mary Baker Eddy.

Happiness in this world, when it comes, comes incidentally. Make it the object of pursuit, and it leads us a wild-goose chase, and is never attained.—Nathaniel Hawthorne.

As we are now living in an eternity, the time to be happy is today.—Grenville Kleiser.

4-H Club Rifle Practice Will Be Held Saturday

Boys to Meet At Rocky Ford Church Saturday Arrange for Special Allotment of .22 Long Rifle Shells

The Lamb county 4-H boys who attended the district 4-H encampment last summer got a taste of the rifle range and were promised a chance to do some shooting in their own county later. Due to ammunition shortage and other draw-backs the activity had to be postponed until now.

Claude Emmons, assistant county agent has arranged for a special allotment of .22 long rifle ammunition for this 4-H activity and will hold the rifle practice this Saturday, June 29th. This ammunition will be sold to the boys at cost, if they want to buy it, but if they already have their ammunition they can use it instead.

All 4-H Club boys are eligible and urged to attend this shooting planned for Saturday, June 29. They will have to arrange for their own transportation but are urged to get together and several boys come in the same vehicle. The group will meet at Rocky Ford church on the Littlefield-Spring Lake highway north of Littlefield at 10 a. m. Saturday. Emmons will meet the group at the church and take them to the rifle range for the shooting. Be sure and bring a truck.

Softball Officials Meet Tues. Night

At a meeting of the board of directors of the Littlefield softball league Tuesday night, the financial standing of the organization was found to be \$600 in the red.

The collections being taken at games have been good, but not great enough to offset the debt of the league. However, it was reported that many boosters of the sport had stated desires to contribute to the leagues finances and plans were made to have some contributions taken up. Initial costs of the field was around \$800 and expense of operation is about \$10 a night. Collections have been taken three times at the games, netting a total of about \$32.00.

Starting time of double-header play was ruled at 8 p. m. and a game ordinance was set by the board for a team not having their players on hand to start on time. This ruling was made to eliminate such late hour as has been in the past.

Loyalty Grove Enjoy Social

Members of Loyalty Grove of the Supreme Forest Woodmen Circle and Woodmen of the World were joint sponsors of an ice cream social Tuesday night at the American Legion hall.

A very interesting program was given under the direction of W. D. Chapman, district manager of the W.O.W.

The program opened with the singing of "America" with Miss Imogene Humphries at the piano, followed by the pledge of allegiance to the flag. Rev. Hicks, pastor of the Phelps Ave., Church of Christ gave the invocation.

Mr. Chapman introduced the speaker for the evening, Troy Howton, council commander of the local camp, gave a very interesting account of the foundation and building of both lodges. Rev. Hicks explained what fraternalism of both lodges had meant to the members and the community at large.

Mrs. Marjorie Beisel, district manager of the Woodmen Circle, told of the advantages for women and members of their families that the circle had to offer.

Miss Humphries and Miss Joan Taylor sang, "Sue City Sue" and "Lazy Day." A reading "Out Where

Grandma Lives" was given by little Miss Laura Taylor. The local string band furnished the music for the evening.

Interesting talks on Woodcraft were given by Sheriff Sam Huston, Roy Clark and Frank Cummings. Delicious home-made cake and ice cream were served to members and their guests.

The drill team of the Circle will go to Brownfield Friday night for the installation and initiation of candidates to be held there. Mrs. Beisel will have charge of the meeting and will be assisted by the officers of the local Grove.

Mexico Looks Ahead

Among the forward looking laws instituted by Mexico's progressive leaders is the government order that each literate person shall teach at least one illiterate to read and write, says the March of Time film, "Tomorrow's Mexico," showing at the Palace Theatre Sunday and Monday. Books have also been brought within reach of all. Thus a population which a few years ago was nearly 50 per cent illiterate will soon be able to read and write, thanks to the government campaign.

A MAID, A CALF, A BAG

Charmed by the proximity of Maid of Cotton Gwin Barnwell, this new member of the prize Jersey herd at the Shelby County Penal Farm near Memphis, Tenn., remains motionless for the cameraman. Or maybe the cottonseed meal from the feed sack in the background had something to do with it. Incidentally, Maid Gwin's attractive frock is made from the same cotton print cloth as the feed sack.

PROTECTION
Means
PERFECTION

A parachute and a prescription have this in common—each must be made with consummate skill and painstaking attention to the smallest detail to assure the perfection that means life protection. If you were buying a parachute, you wouldn't select the cheapest one. Nor should "price" be the prime consideration when you have a prescription to be filled. Select a pharmacy that enjoys a reputation for professional integrity and skill and then you can be certain that your medicine will be right in every respect—including the price. For the perfection that means protection—bring your prescriptions to Madden & Wright.

Last Rites Held For Drowning Victim

Funeral services for L. A. Corbell Jr., 24, son of Mr. and Mrs. L. A. Corbell, Sr., of Baileyboro, Texas, who was drowned June 8, while fishing in a boat in Devil's Lake, near Del Rio, was held at the Church of Christ, Menard, Texas, with interment in the Menard Cemetery. Menard is the home of the young man's grandfather, C. W. Corbell.

Corbell was with two other men when the tragedy occurred. Their boat was believed to have struck an underwater object of some kind, throwing its occupants into the water. One of the group, although injured, was rescued.

Corbell was given a medical discharge by the Marine Corps in 1942. The last three years he has been manager of the Arrow Supply Co. at Big Lake, Texas.

He leaves a wife and their six weeks old son, Jerry. Besides his parents, wife and child, he is survived by three sisters, LaVerna Jo, Frances and Anita Corbell, all of Baileyboro, and one brother, Kenneth, who is serving in the Navy.

Corbell was born Nov. 13, 1921, at Eden, Texas.

He attended Bula High School.

SIDELIGHTS FROM WASHINGTON

By CONG. GEO. MAHON

This column is being written on Saturday afternoon, June 15th. There is much uncertainty as to just when Congress will recess or adjourn. The best guess seems to be that Congress will recess about July 15th for a period of three months. Such a recess would be very much in order, as Congress has been in session all or a part of practically every month since the war began more than four years ago.

On Thursday of this week I was able to secure passage in the House of my bill involving appropriations and programs for all Government owned corporations—40 in number. Under the bill the Commodity Credit Corporation will have sufficient funds to carry on the support price and loan programs on cotton and wheat and other basic crops. Parity prices fixed by the Department of Agriculture, unfortunately, do not take into consideration all labor costs, but the approval of the Commodity Credit program will prevent the possibility of a collapse in the price of cotton, grain and other important crops for at least a two-year period. This is the most hopeful thing on the horizon for West Texas farmers. But on account of the continued drought, price guarantees for the present do not mean too much.

On Friday, June 21st, we are scheduled to present to the House the bill making appropriations for the Army for the fiscal year beginning July 1st. This will be the biggest bill presented to Congress this year. We are providing funds for pay and equipment for a modern Army and occupation force which will average about 1,250,000 men during the year. The sum recommended will be 7 billion dollars—a huge sum—but

POSSUM FLATS . . . "QUEEN OF THE COMPLIMENTS!"

we have proceeded on the basis that the American people believe in a strong national defense program and are willing to pay whatever may be necessary.

Under the law, all appropriation bills for the regular agencies of the Government must be passed prior to July 1st of each year, and the month of June is always a very busy month in Congress.

During the week we passed by unanimous vote the bill providing terminal leave pay for enlisted men of our armed forces. The bill has now gone to the Senate, where favorable action is expected. The bill is of interest to all enlisted men and their families.

Following the veto by the President of the so-called Case Bill, involving Labor-Industry disputes, a vote was taken in the House on the question of whether the House would override the veto. A two-thirds majority is required to override a Presidential veto. The vote was 255 to 135 on the motion to override, which was 5 votes short of the necessary two-thirds. I voted to override the veto.

In the death of Senator John Bankhead of Alabama, the farmers of America have lost a true and powerful friend. The farmers of the Nation did not always agree with Senator Bankhead, but they never questioned his loyalty to the cause of agriculture. In the post-war years our agricultural producers will be confronted with problems varied and difficult, and we will need the best possible leadership.

Prior to the death of the late Senator, the State of Alabama had kept a Bankhead in Congress for 60 consecutive years.

To Spend Quarter Million Dollars In Improvements

More than a quarter-million dollars worth of construction and building rehabilitation work is to be done at Texas A. & M. College this summer, it has been announced by T. R. Spence, manager of the college construction program.

Expenditures will total \$281,182 in preparing and furnishing 512 additional apartments for married veteran students, installation of sewer and electric lines, three new warehouses, laboratory expansion and additional tennis courts.

Contracts already have been awarded to C. L. Andrews of Bryan for concrete floors for three 40 x 100 foot Quonset huts which will be used as warehouses by the building and college utilities department, for new sidewalks in "Vet Village" near Kyle field, and for 12 new tennis courts. Andrews' \$53,007 contract also calls for extension of "The Grove," outdoor concrete dance pavillion to twice its present size.

Another award of \$13,675 has gone to the Construction Specialties Company of Dallas, for asphalt tile floors in Law, Puryear and Loggett dormitories, in the college hospital basement and in the new management engineering laboratory.

The college plans to spend \$150,000 to prepare the old polo grounds, northeast of the traffic circle on the Sulphur Springs road, for building of 500 veterans' apartments by the Federal Public Housing Administration. The college will install utilities and provide furniture for the units.

A sum of \$24,000 has been earmarked for expanding the mechanical engineering shops by closing in two long ventilating bays, which will increase shop space considerably, and another \$7500 will go to remodel the shop building to provide air-conditioned housing for a gage laboratory which will be operated by the college for the Army Ordnance department.

Texas' Oldest Voter

Senator Allan Shivers, candidate for Lieutenant Governor, of Port Arthur, Jefferson County, Texas, receiving a check for his filing fee from Capt. Roderick Donald Steele, Texas' oldest voter. In presenting the check, Captain Steele, representing the citizens of Port Arthur, expressed the voters' appreciation for his 12 years' faithful service to the district and reminded him that he was the youngest senator to take the oath of office when first elected to the Senate. (Shivers is now dean of the Senate).

Captain Steele for many years has refused to tell his age, but old-timers say that he is now 106. He still works daily as a marine surveyor, climbing over ships to inspect their cargoes.

**T-5 ROBERT WOOD
RETURNS TO STATES**

Mr. and Mrs. Ernest Wood of Rt. 2, Littlefield, received word from their son, T/5 Robert Wood, who has been overseas 18 months, to the effect that he was back in the United States, and was being hospitalized at Brooks Hospital, Fort Sam Houston, San Antonio. He also stated there was not anything seriously wrong with him, and that he would be home in a few days. During the last two months spent overseas Wood was a patient in a hospital taking treat-

ment for stomach ailment. Mr. and Mrs. Wood have had three sons in the service and one, Wm. E. Wood, was killed in action on August 24, 1944.

Robert Wood has been in service two years. He expects to receive a discharge.

Then there was the fellow who asked for a raise because three other companies were after him. He neglected to state that they were the gas, light and water companies.

**Bond Sales Through
June 15 Reported
At \$9,206,266**

With the first peacetime promotion for the sale of Savings Bonds by the U. S. Treasury only nine days old, Texans have invested almost one-fifth of their \$33,000,000 quota in Series E. Bonds. Sales through June 15th were reported at \$6,429,123.75 with a total of \$9,206,266 in all U. S. Savings Bonds at that date.

In encouraging the citizens of Texas to increase their purchases of Savings Bonds during the present promotion, Nathan Adams, Chairman of the Texas Advisory Committee on Savings Bonds, said: "A bad case of inflation would be a national catastrophe, affecting each and every one of us. It would distort every economic value, private and public. Investing in Savings Bonds will go a long way toward averting inflation. We must invest our savings and take as few of our dollars as possible to market until production shall match demand."

"Spending money recklessly, buying scarce goods at inflated prices," Mr. Adams continued, "is like cutting down the tree to get at a few green apples. The thing to do is wait until the apples are ripe before you eat them. Leave the tree to bear fruit in years to come."

The Treasury reports a total of 3.4 billion dollars in Savings Bonds sales during the first five months of this year. Redemptions have amounted to 2.8 billion dollars. Strikes, tax payments, etc., were credited with this large percentage of redemptions but figures for May disclose that the trend is toward a much lesser percentage in redemptions. It is further hoped that the current promotion will accelerate the downward redemption trend, giving renewed impetus to the regular purchase of Savings Bonds.

Plans For Vet Houses

One large room skillfully organized for living, dining and sleeping is the outstanding feature of the plans for a three-room house for veterans, shown above as pictured in the June issue of House Beautiful magazine. This arrangement affords a large house look, avoids mean single rooms. Such a house might be built for approximately \$5,700 in climates where heavy construction is required, or for about \$5,250 in warmer climates.

Ideal Home For Vets

Small house shown above as pictured in the June issue of House Beautiful magazine was designed by a veteran for veterans. Limited to three essential rooms in the beginning, it can be expanded later with a bedroom wing, and garage. It might be built this year for approximately \$5,700 in parts of the country requiring heavy construction, or for about \$5,250 in warm climates.

West Texas Veterans Supervised By Lubbock Office

West Texas veterans and their dependents residing within the 49 counties formerly under the jurisdiction of the Veterans administration Waco regional office should be reminded that they are now supervised by the newly authorized Lubbock regional office, said Robert W. Sisson, Lubbock regional manager.

To facilitate efficient VA operations and to minimize delay for those seeking VA assistance, veterans and their dependents should apply to the contact representatives attached to the Lubbock regional office for all VA services, including vocational rehabilitation and education, compensation and pension, retirement pay, burial expenses, insurance, hospitalization, medical treatment, domiciliary care, guaranty of loans, readjustment allowances and other related benefits. For the convenience of veterans and their dependents, contact offices are located at Lubbock, Big Spring, Odessa, San Angelo, and Abilene. The proposed plan calls for itinerant contact service to be available at each county seat, according to Gerald W. Collinsworth, chief of the contact division.

Transfer of files from the Waco office to the Lubbock office was accomplished by June 5 and full operations are now under way at its temporary quarters at Lubbock Army

Air Field. These case files represent claims of veterans in the territory controlled previously by the Waco office, but continuing as part of the Dallas branch area.

The 49 counties now served by the Lubbock regional office are as follows: Andrews, Bailey, Borden, Cochran, Coke, Concho, Cottle, Crane, Crosby, Dawson, Dickens, Ector, Fisher, Floyd, Foard, Gaines, Garza,

Glasscock, Hale, Hardman, Haskell, Scurry, Sterling, Stonewall, Taylor, Hockley, Howard, Irion, Jones, Kent, King, Knox, Lamb, Loving, Lubbock, Winkler and Yoakum.

Administration?

A. No. Commissions, brokerage, or similar charges may not legally be assessed against a veteran for securing a guaranty of loan. Of course, those fees usually borne by a borrower, such as appraisal, title research, title guaranty, transfer fees, etc., may be charged against the veteran.

Q. May a veteran start training under the GI Bill in a trade and later find that it was ill chosen, and change to some other vocation?

A. Yes.

Q. Can a veteran with a dishonorable discharge receive benefits under the GI Bill?

A. No, but any discharge other than "dishonorable" does not disqualify him.

**Enjoy Picnic On

Mr. & Mrs. Matthews**

The B. T. U. departments of the First Baptist Church enjoyed a picnic supper on the lawn at the home of Mr. and Mrs. Tom Matthews Friday evening.

Plenty of food was spread on the lawn, which included fried chicken, salads, ice cream, etc.

Games were enjoyed, and a splendid time reported by all.

DDT NEWS

By Lem Weaver, Co. Agent
On April 10, Mr. Harry Phelps of Amherst, dipped his 60 sheep, 80 head of hogs and sprayed his barns with a .2% solution of DDT to control flies and ticks.

Mr. Phelps purchased 2 gallons of 25% DDT solution and mixed 12 2/3 gallon of this solution in 160 gallons of water. He dipped his 60 head of sheep to control the sheep ticks. After the sheep were dipped, there was enough of this mixture to dip 80 head of hogs to rid them of hog lice.

The dogs and cats were dipped also to rid them of fleas.

After all this dipping Mr. Phelps still had 100 gallons of the mixture that he used to spray 3 chicken houses, which he did as follows:

1—16 x 20 ft; 1—12x16; 1—8 x 12.

One sheep barn 20 x 64; one cow barn 12 x 20. one hog barn 12 x 30; one negro shack, his back porch and eight cows.

Mr. Phelps reports that you could see flies that were dying on June 8th., as they lit on the screen wire.

The agent was at Mr. Phelps farm on June 15 and found 2 flies in the cow barn and 3 in the sheep barn, then the poultry houses were examined for fleas and none were present. All of the poultry houses were badly infested with Blue Bugs. The agent only found 3 bugs in one house and 2 in another that were alive although scores of dead ones could be found, and no flies were found here.

Mr. Phelps says that no flies could be found on the cows that were sprayed until last week.

This farmer did all this work for only \$7.80 which is a cheap way of ridding flies, fleas, etc in our poultry houses, Dairy barns etc. If only everyone will use DDT.

Mr. Phelps sprayed his cows the second time on June 16th.

"DDT Recommendation Stated"
Texas county Agricultural agents have been advised that for the present, the only treatment recommended by the Texas A. and M. College Extension Service for the control of horn flies, lice and mosquitoes on livestock in wetttable DDT powder.

tions or emulsions. Both forms may be diluted with water for use as a spray or dip.

The decision to recommend only DDT in wetttable powder form for use on livestock was made by a committee of entomologists and animal husbandmen who checked all known sources of information. The group will make further recommendations as research on DDT goes on.

The committee pointed out that DDT in wetttable powder goes into suspension when diluted with water for use as a spray or dip. There was no evidence that it was harmful to animals even if used at strength somewhat greater than that recommended by the manufacturer.

It was further reported that "DDT in oil solution or emulsion form does not remain in suspension but goes into a true solution. When applied to animals in this form it can be ab-

sorbed through the animals skin. If the solution is used as a spray or dip at less than the manufacturer's recommended strength, it may not give effective or lasting control. If it is

used at more than the recommended strength and if the precautions listed by the manufacturer are not exactly followed, it may have toxic results."

MOSTLY STATIC by The Zacharys—

Howdy folks: The papers report
that President Truman has signed
the bill that will provide several mil-
lion new homes.

That is really good news, because
the home provides what every man
desires most. It is the only place
where he can scratch any place that
itches.

The home is the place where part
of the family waits until the rest of
them bring the car back.

There is no place like home—
once in a while.

The best way to be contented with
your lot is to build a house on it.

As one of our customers says,
home economics is going home to

Another good brand of economics

Cotton Prices Remain Near 22 Year High Level

Cattle, eggs, poultry held steady;
cotton prices remained near the 22-
year high; and grain and hogs stood
at ceiling, but on the other hand,
sheep and lambs as well as some vege-
tables were slightly lower last week
at most southwest markets according
to USDA's production and Marketing
Administration.

Cotton prices advanced to new
high ground early last week but lat-
er declined. Demand for spot cot-
ton continued strong. Reported sales
in the 10 spot markets totaled 64-
500 bales this week as compared
with 91,800 bales in the previous
week and 73,300 a year earlier.

Southwest egg prices were stronger
Friday compared to last week's
close. Good demand continued to ab-
sorb liberal supplies. Current re-
ceipts brought 30-1-2 to 31 cents a
dozen, Fort Worth 31 to 32 cents,
Dallas and 32 to 32-1-2 cents, Den-
ver.

Fairly heavy culling brought more
hens to market. Good demand kept
prices about steady. Heavy hens
were quoted 24 cents a pound, Dal-
las; 24 to 25 cents, Fort Worth; 25
to 26 cents, Denver; and 28 to 29
cents, New Orleans. Fryers were
short of demand with prices firm at
ceiling.

Widespread harvesting of south-
west grains failed to par prices away
from ceiling levels last week. Com-
mercial grain and feed supplies re-
mained tight and demand good.

Fewer hogs arrived at southwest
markets last week compared to the
previous week. Top butchers re-
mained at ceiling of \$14.50 per hun-
dred pounds, Wichita \$14.55, Okla-
homa City \$14.65, Fort Worth and
San Antonio, \$14.80, Denver.

Sheep and lambs were 25 to 50
cents a hundred lower at most south-
west markets last week, except at
Fort Worth where all classes were

firm. Medium and good spring lambs
sold at \$12.25 to \$12.50, San An-
tonio, \$12.50 to \$13.50, Fort Worth;
and \$13 to \$14.50, Oklahoma City.
Denver quoted common to good
spring lambs at \$14.50 to \$16.25.
Receipts were too small to test the
Wichita market.

Cattle brought steady prices at
most southwest markets last week
compared to the previous week's
close. However, some lower grades
were slightly down. Houston received
large runs of yearlings with med-
ium grades quoted at \$14 to \$14.50
per hundred pounds. San Antonio
sold medium and good steers and
yearlings at \$14.50 to \$16, while
medium beef steers and yearlings
ranged from \$13.50 to \$15.50, Fort
Worth. Oklahoma City quoted med-
ium and good steers at \$14.50 to
\$16. Denver sold common and good
cows at \$10.75 to \$13.25. Common
and medium cows realized \$9.50 to
\$11.50, Wichita.
Record movement of vegetables

continued to move out of south-
west areas with potato shipments
leading the list. Potato and vege-
table prices were weaker, but some
were stronger.
The Boston wool markets con-
tinued to report a steady volume of
business in domestic wools. Also, the
demand remained strong for
and sorted fine mohair.
