## Sudan Votes Today On Building Civic Center

Sudan property owners today (Thursday) will go to the polling place in the city hall and express their ballots whether they desire erection of a \$35,000 civic building.

The issue had carried earlier, 78 to 46, but it subsequently was found that an irregularity in publication of the election notice had nullified the election's effect. Hence, voters will face the issue a second time.

J. H. Vincent, Sudan mayor, said the building, if bonds are voted, would not cause any change in the tax rate. He said chances of the election's carrying "seem excellent."

M. C. Butler of Lubbock, architect, said the structure as defined by

## Carload Of Used Clothing From Lamb County Is Goal

A car load of used clothing from Lamb county for liberated Europe.

That's what we are working for, states G. M. Shaw, county chairman for the clothing drive.

Mr. Shaw received a message this week to carry on through Monday of next week, May 7. These instructions came yesterday, so if you have not made your contribution, you still have time to take part in this great humanitarian drive.

Sorters over the county are busy this week making the clothing ready for shipment, so great have been the contributions, it will take a full week to make it ready.

Mr. Shaw stated that he wished to thank Fred Gerlach for the use of his car and trailer in moving some 2,000 pounds of clothing from the Red Cross rooms to the lobby of the post office Tuesday night.

On Wednesday morning, the school bus from Spade school arrived at the post office with a huge contribution.

Fieldton community delivered its contribution by Mr. Owens this week.

Anyone else who has clothing to contribute, if they will bring it to these different receiving stations: Sudan, Red Cross room; Amherst, Lee Payne's office; Littlefield, post office; and Olton, Court House; it will be received and made ready for shipment.

The schools of the different outlying communities are not being asked to receive any more contributions, for the time is so limited, and it would not be advisable to ask them to make a special trip with a very small amount.

Mr. Shaw stated that he understood the contributions from Spade, Olton and Sudan have all been outstanding. However, there is no way yet of checking accurately until the bundles have been baled and made ready for shipment.

## Hear From Son—First Word Since Corregidor's Fall

Mr. and Mrs. Andy Starey of Spring Lake were overjoyed to receive a letter Monday from their son, First Lieut. Johnny (J. W.) Starkey, the first word they have received direct from him since the fall of Corregidor.

Just where he has been and is, and what he is doing, is believed to be a military secret.

Starkey was graduated from the Spring Lake High school in 1941, and volunteered for the service. He was in training only three months when he went overseas.

In his letter to his parents he said he was O.K.; asked about everyone at home; said he wished he could be back with his father on the farm; that he wasn't able to tell where he was; and said that he didn't think it would be long before the Jap's Rising Sun would go down. He also asked that his mother send him some pictures of the family.

### Organized For Progress

Extensive interest will center in the program of the Gulf Southwest Industrial and Agricultural Conference.

The conference is a non-profit corporation organized to promote the industrial, agricultural, civic and cultural development of the five Gulf southwest states—Arkansas, Louisiana, New Mexico, Oklahoma and Texas.

This five state region with its wealth of natural resources (many of which are latent) and manpower is potentially an empire within itself. The conference provides a way in which area development may be co-ordinated and area problems may be solved. By co-operative effort and voluntary planning the conference will assist in the advancement of regional solidarity, stimulate and co-ordinate research, collect and disseminate pertinent information, serve as a clearing house for data needed by private business and public agencies, and promote nationally the interests of the entire region.

In order to carry out this program, the conference needs your active participation, your suggestions and your leadership.

A dollar may not go very far, but usually it travels far enough so that it never finds its way back.

A good way to relieve the monotony of your work is to think of ways to improve it.

Men are like steel. When they lose their temper they are worthless.

A man wrapped up in himself makes a small package.

It amazes us to see girls dancing with girls. We didn't think any woman would stand being pushed around by another woman.

Considering the fact that so many inexperienced people marry, it's no wonder there are so many divorces.

We don't have to show the wife who's master in our house. She knows!

The man who tries to do something and fails is better off than the man who tries to do nothing and succeeds.

The treatment of hay fever and asthma by pollen injections or taking them by mouth is a very INDIRECT method and often disappoints the patient and the physician, but the RESEARCH CLINIC is using the DIRECT method fully endorsed by research workers in three universities. Notice has been received from headquarters that the essentials for putting up this preparation may be further restricted, and if you contemplate taking this treatment at home under a physician's directions this season, it would be well to register and start at once so that your case can be included in reporting the Clinic requirements when called for. There's a man that I know, and he lives, dear  
 In a town called Everywhere;  
 You might not think he's a man from his hat  
 Or the clothes he may chance to wear;  
 But under the jacket with many a patch  
 Is a heart more precious than gold—  
 The heart of a man 'neath the coat of a boy,  
 A man who is twelve years old.  
 We never may know what the future will make  
 Of the boys that we carelessly meet,  
 For many a statesman is now at school,  
 And presidents play in the street.  
 The hand that is busy with playthings now  
 The reins of power will hold;  
 So I take off my hat and gladly salute  
 This man who is twelve years old.

### Will Talburt Dies In Tractor Mishap

Wilburn Hurst (Will) Talburt, 63, was killed in a tractor accident at his farm, 5 miles north and 2 miles east of Spade, Monday.

When found by his half brother, John Talburt, about 1 p. m., he was lying under the tractor, tangled in a heavy galvanized barbed wire, with his left leg practically cut off.

He was reported to have been cutting a water ditch, and was apparently driving the tractor parallel with the barbed wire, which formed a sort of fence, and was believed to have been holding the wire up so that he might drive the tractor under it. He is said to have probably lost control of the tractor and got

tangled in the wire, which cut the inside of his thigh badly, and he is said to have died from loss of blood.

His brother, John, notified Sheriff Sam Hutson, and he and Deputy Sheriff Sid Hopping and Justice of the Peace S. J. Farquhar, went to the Talburt farm.

Talburt was born February 23, 1882. He had lived in this territory 19 years, and at the time of his death was carrying on farm operations with his half brother, John Talburt. He was a bachelor during his lifetime.

Funeral services were held at Hart Camp Church Wednesday afternoon, at 3 o'clock, with burial in charge of Hammons Funeral Home, in Center Plains Cemetery, near Hale Center.

## TOWN AND FARM IN WARTIME

### CIVILIANS AT WAR

The Government needs and asks citizens in the 177th week of the war to:

1. Stretch the short meat supply by substituting other protein foods. Use the available meat fairly by using your ration points in full.
2. Fill out and file your "Consumer Declaration" and solid fuel order with your regular coal dealer before May 15 to be assured of receiving a supply before winter.
3. Be sure you know about the paying maternity and infant care to which you are entitled if you are the wife of a serviceman in one of the four lowest pay grades and are expecting a baby. Apply through your doctor or local health department.

**Home-Grown Rabbits Seen As Solution To Meat Shortage Problem**

Demands for food brought about by the war, and shortages of beef, pork, mutton and poultry for civilian consumption has resulted in an increase in the production of domestic rabbits of from 200 to 300 per cent, the Fish and Wildlife Service of the Department of Interior has announced. Rabbit meat is quickly produced—only 90 days are required from the time the doe is mated until the young rabbits are ready for the table. Since the civilian shortage of red meat will be noticed mostly between the present time and late summer, rabbits now ready for breeding will produce summer meat. The householder with a small backyard can keep three or four does and a buck of the medium-weight or heavier breeds and have all the rabbit meat that an average family will use. Any surplus can be sold to neighbors. Rabbit hutches can be constructed of scrap lumber, used poultry wire, crates and similar inexpensive material. Clean table scraps, garden waste, lawn clippings and palatable weeds can supplement their regular rations.

### Increase in Cotton Products Prices Will Not Affect Ordinary Consumer

Wholesalers and retailers of a number of cotton products have been required by OPA, effective April 21, 1945, to share the absorption of increases in producers' prices for these goods. Up to now, wholesalers have been absorbing the entire amount of the increases on all of the affected commodities except bed linens and towels. The items covered include specified types of bed linens, huck and crash towels, terry products, corded napkins, 100 per cent American cotton blankets, blanket robe cloth, diapers, diaper cloth, flannels, print cloth, grey goods and dimity bedspreads. As a result of OPA's action, ordinary

consumers—other than institutional users—will not have to pay higher prices for the cotton products listed OPA said.

### Agricultural Brevities

April 1 farm wage rates average 10 points above the October, 1944, peak, and 33 points, or more than 10 per cent, higher than a year ago. This is 335 per cent of the 1910-1914 average. . . . Prices received by farmers for eggs in 1945 probably will average moderately above last year, when they averaged 33.8 cents per dozen, or 94 per cent of parity. Nearly nine million persons out of the supply remaining available for farm work were working on April 1, as compared with 8,400,000 on January 1. Total farm employment on April 1, was a little more than 1 per cent smaller than at the same time last year. . . . In general, March, 1945, was among the most favorable Marches that early lamb producers have ever experienced, says the Department of Agriculture. However, because of generally abundant feed and high level of lamb prices, movement to market may be no earlier than usual. . . . Although allocation of controlled materials for the production of farm machinery has been cut to 195,000 tons for the second quarter of 1945, as against 256,000 tons in the first quarter, an increase in allotments can be expected after V-E Day, a stepped-up farm machinery program being a 'must' as soon as materials are available.

### Distribution of Domestic Ice Refrigerators To Stay Unrestricted

Beginning July 1, domestic ice refrigerators to meet military and essential civilian requirements may be made by any manufacturer who has received specific written instructions from the War Production Board for the production of a specified number of units in any given quarter, WPB announced. As before, distribution of domestic ice refrigerators is not restricted, and consumers need no permit to purchase them. Authorization for production of 74,000 domestic ice refrigerators in the second quarter of 1945 have already been made public, WPB said, and additional authorization for production of 1,000 refrigerators may shortly be issued. This would bring total second-quarter authorized production to 75,000, in accordance with the WPB program.

### 3,000 Extra Workers Needed For Evaporated Milk Industry

At least 3,000 additional workers for the evaporated milk industry will be needed during the remainder of April and the months of May, June and July, which are the months of highest production, the War Manpower Commission announced. Recruitment of workers will be carried on by local offices of the United States Employment Service. A high estimate of 1945 total evaporated milk production, assuming adequate manpower can be obtained, is 90,000,000 cases, WMC said. Of this estimate, requirements of the Armed Forces are placed at 40,000,000 cases. Lend-lease requirements, 10,000,000 cases, and for civilian consumption, about 40,000,000 cases.

**Sudan Seniors To Present Play Tuesday Night**

The Sudan Senior Class of '45 made a dramatic presentation, "Professor, How Could You," Tuesday night, May 1, at the Sudan High school auditorium. The play, a Senior tradition, is directed by Miss Burma Lybrand, assisted by Charlene Cole and Frances Richardson.

A comedy of three acts centered its theme about a young, bookish Professor Keats, who, needing a wife in order to acquire a Deanship in the university, becomes hilariously entangled with three ardent women from which he is to choose "the one that will give him the least trouble."

Professor Keats, Buzzy Cape; Grandpa, Kenneth Johnson; Grandma, Nell Ruth Hammock; Boggins, Billy J. Luttrell; Vicky Randolph, June Gatewood; John, H. B. Rector; Tootsie Bean, Eva Mae Phipps; Priscilla, Melba Glee Bowman; Valerie, Juanita Maxfield; Butcher Boy, Bill Cardwell; Three Children, Carol Ann and Bill Grupe, Billye Lynn Vereen.

**Hog Prices Not To Be Lowered**

The new support price on hogs of \$13 per hundredweight, Chicago basis, and OPA's pledge current ceiling prices will not be lowered between now and September, 1946, should make heavier fall pig farrowings possible, according to Dan L. Boyd, District Representative, WFA's Office of Supply.

Chicago ceiling price on live butchers now is \$14.75 and \$14 for sows, remaining effective until September 1, 1946, while the support price, recently upped from \$12.50 to \$13, continues through September.

War Food Administrator Marvin Jones calling on the nation's hog producers this week to meet the new wfall pig goal of 37,000,000 head, an increase of 18 per cent over the number farrowed last fall, said producers have an assured market, adding "This, together with prospects for adequate food supplies in major hog producing areas, places hog producers in a very strong position."

Saying that "for some time to come there will be demand for every pound of meat that can be produced," Jones explained "increasing pork production is the quickest way to increase the nation's meat supply."

**Bugs In Your Food?**

Not a pleasant thought, is it? You know how quickly you would act if you discovered insects destroying scarce, rationed food in your pantry! But what about this. . .

296,822,000 pounds of Cottonseed Oil, badly needed for rationed shortening, margarine and other foods, are lost annually because the cotton crop is not properly protected against cotton insects.

864,000,000 pounds of Cottonseed Meal and Cake, needed to produce scarce, rationed meats, are lost annually, on the average, because the cotton crop is not properly protected against insects.

520,000,000 pounds of Cottonseed Hulls, also needed for livestock—Cotton Linters needed for munitions—Fiber Cotton needed for thousands of uses—lost through damage by Cotton Insects—deprive our country of essential products and our cotton growers of millions of dollars in income.

Neither Uncle Sam nor YOU can afford these losses in 1945—More than ever before, it is necessary and profitable to save your Cash, Food and Feed crop from Cotton Insects this season.

Pvt. James Pickett Ray, who is stationed at Harmon General Hos-

pital, Longview, Texas, since arriving in the States from the European area of operations, has been home on a 21 day furlough, and received a 15 day extension Friday last. He suffered a foot wound in France.

Lt. Marshall Formy, former state senator from the 30th district, welcomed Texans to the "Texans in the ETO" club, which has replaced the original "Texans in England" club formed in Cambridge in February, 1944. The club has served as a center for renewal of acquaintances and for gabfests of the Lone Star state. As a more serious purpose, the club is collecting francs to sponsor as many French war orphans as possible. At the first meeting on the continent, held at Paris, \$400 was raised, enough to support and educate one orphan for quite a while. Lt. Formy, only West Texan among the charter members, is from McAdoo, and is a graduate of Texas Tech, where he was editor of the Toreador.

Pvt. Dale Pepper, whose wife and two children, Sharla and Scott, live at 910 Avenue X, is fire chief at an infantry replacement base in Italy. He went overseas last November after receiving basic training at Camp Robinson near Little Rock, Ark. He has been in the Army since March, 1944. Before entering service, he was employed about 10 years by Dr. Pepper Bottling Company in Lubbock. He wrote his wife recently he had spent a day in Pisa and had seen the leaning tower, and "many beautiful things." He described the cathedral near the tower, which contains "long benches with the seats and backs of solid inlay," and in which are many paintings from 200 to 400 years old, painted by famous Italian artists.

Pvt. Pepper was formerly of Littlefield.

### With South Plains Men In The Armed Forces

From a Peninsular Base Headquarters in Italy comes the report that T-4 W. E. Downs of Littlefield is now serving here with the 24th General Hospital, which has made an impressive record during a year and a half overseas. It was for a time the nearest General Hospital to the Italian front lines.

Sgt. W. E. Downs, who is the son of J. H. Downs of Littlefield, Texas, has been in the Army for 34 months and serving overseas for 15 months. Before entering the military service he was a farmer. He was graduated from the Amherst High school in 1938.

The 24th is one of the many units in this vast area, important service and supply organization for Fifth Army and for the ground forces of the U. S. Air Corps and Navy in the Mediterranean Theatre of Operations.

This hospital was organized at Tulane University, New Orleans, Louisiana, and activated at Fort Benning, Georgia, on July 15, 1942. Nearly all of the Medical officers are either graduates of the University or served their internship at the Charity Hospital in New Orleans. This is the second such hospital to have been drawn from Tulane, the first having been organized in September 1917, going overseas shortly thereafter.

AN EIGHTH AIR FORCE FIGHTER STATION, England.—For his performance in combat sorties over German territory, 2nd Lieut. Madison H. Newton, 22-year-old Texan, has been awarded the Air Medal. Lieut. Newton, son of H. B. Newton, Anton, Texas, was cited "for meritorious achievement while serving as a pilot of a fighter airplane in sustained combat operations over

Germany and German occupied countries. The courage, coolness and skill displayed by Lieut. Newton reflects great credit upon himself and the Armed Forces of the United States." He is assigned to the 359th Fighter Group and before going into the Air force, was a pre-medical student at Texas Tech.

Word was received last week by his parents that Tech-Sgt. Jewell Lee (Mutt) Fite had been wounded again, which is the fourth time since July. He was first wounded at St. Lo. He was injured in one leg, July 5, and on July 6 he was wounded twice in the other leg. He remained in the hospital in England until December, then he went to Belgium with General Patton's Third Army and was wounded again in January. He was hit in the right foot this time, and was hospitalized in France. On March 7 he returned to duty, again with Patton's Army. He fought in Germany and helped in capturing the Rhine River, April 8.

His parents, Mr. and Mrs. Marion Fite, do not know just where he is hospitalized this time.

Mrs. Ray Montgomery of Olton was happy to receive a recent letter from her brother, Sgt. Faye E. Ken-

dall, stating that he was well and expecting a furlough in the very near future. Sgt. Kendall is with the 3rd Marine Division on Iwo Jima and is a veteran of Bougainville and Guam. If and when he is granted a furlough, it will be his first since entering the service 39 months ago.

Mrs. Montgomery has just returned from California where she visited her mother and brother, Forrest B. Kendall, GM. 1-C, back from the Pacific on a short furlough, having participated in the naval engagements of the invasion of the Philippines.

Lt. (jg) Ellis Griff Boyles, 24, son of Mr. and Mrs. H. G. Boyles of Sudan, has received the Distinguished Flying Cross and a gold star in lieu of a third Air Medal for his successes as a Naval aviator in the South Pacific. Lieut. Boyles, now stationed "somewhere on the East Coast," has been awarded the Distinguished Flying Cross, the Air Medal with gold star and the Pacific Theatre ribbon with three stars. A graduate of Sudan High school, Lieut. Boyles attended Texas Tech one and one-half years.

Unit Citation**

WITH THE 100TH DIVISION OF SEVENTH ARMY IN GERMANY—The Third Battalion of the 398th Infantry Regiment, the organization which engaged in some of the most bitter fighting on the entire Maginot Line when the 100th Division was attacking Fort Schiesseck and Bitche in France last December, has been awarded the Presidential Unit Citation. Pfc. Shelton D. Oringerdoff, Littlefield, is a member of the above battalion.

The highest honor a unit can receive for combat action came to the Third Battalion after the town of Bitche finally fell to the Century Division in March following a three-month siege.

Bitche has been famous as a fort city for over 200 years and had never before been made to surrender to an attacking army until the 100th finally forced its capitulation.

**Littlefield Boys Place In Judging Contest**

Recently four F.F.A. judging teams from Littlefield entered the various contests at Levelland held for this F.F.A. District. Five schools took part. The outcome of these contests was very pleasing for after finally receiving the results, it was found that all four teams placed.

The Milk team, composed of Joe Peel, Howard Cotter and Clarence Friday won first place.

The Poultry team, Jimmy Emmons, Jimmy Minyard and Tommie Cunningham won 2nd place.

The crops team, Jack Pritchard, Billy Ross, and Melvin Griffin won second place.

The Livestock team, Homer Peel, Bob Solesbee and Gerald Roundtree, won fourth place.

Also in connection with the contest a Junior Rodeo was held. There were four local boys who entered: Mark Strother, Freddie Ziesel, Norbin Taylor and Lewis Fields.

Four teams composed of almost the same boys entered competition against 34 schools at Texas Tech, Lubbock. The Milk team again lead our teams by bringing back third place banner, and so far as our records show this is the first banner from the Tech contest this F.F.A. Chapter has ever won. The milk team had a shift last Saturday and was made up of Joe Peel, Howard Cotter and Jack Attaway.

The Livestock team, made up of a new group altogether, Jack Davis and Jack Dodgen, did themselves proud by after four workouts placing fifth in beef cattle, fifth in dairy cattle, and tied for seventh in the entire contest.

The other teams did not place in the high 10 teams in any section and as yet we do not have their exact placings.

**Former Littlefield Couple Wed April 15**

Mrs. Lotella Jorgenson of Merced, Calif., and Staff-Sgt. Mike Yohner of Littlefield, now stationed at Minter Army Air Field, Bakersfield, Calif., were married Sunday, April 15, in Merced, Calif. For her marriage the bride wore a grey-blue crepe dress with navy accessories. Her corsage was of pink carnations. The bride's only attendant was her sister, Miss Laveta Verner of Merced, who wore a marine blue wool suit. Staff-Sgt. Nelson True of Merced Army Air Field stood with the bridegroom as best man.

The bride has lived in California for the past six years, and for three years has been employed as an Aircraft Inspector at Merced Army Air Field. She will live in Merced and continue with her duties at the field.

The bridegroom returned in December, 1944, from two years of overseas duty in the European Theatre of war. After a furlough spent with family and friends in Littlefield, he was assigned to duty at Minter Army Air Field Bakersfield, Calif. He has returned there.
