**SCENE OF FATAL WRECK**—The car driven by Luid Wilson, in which he and his wife, Mrs. Ruby McAmis Wilson, were killed Saturday night, ended up in a grain field 1.8 miles north of Spade. Highway patrolmen who investi-

gated said the car traveled about 200 yards after its impact with the header of a combine as the combine was being hauled by a truck.

## Crash Victims' Services Read

Funeral services for Mr. and Mrs. L. E. Wilson, victims of a highway mishap north of Spade Saturday night, were conducted early this week.

Rites for Luid Wilson, 54, were read Wednesday at the Assembly of God Church here, with the pastor, R. C. Dearman, officiating. Burial was in Eastview Memorial Park under direction of Hammans Funeral Home.

Services for Mrs. Ruby McAmis Wilson, 37, were read at the Second Baptist Church at Vernon Tuesday, with the pastor, the Rev. Claude L. Withrow, officiating. Burial was in Eastview Memorial Park under direction of Sullivan Funeral Home.

The Wilsons were killed about 8:15 p. m. Saturday when their car struck the header section of a combine as the combine was being hauled by a truck.

The header section ripped the top off the Wilsons' hardtop convertible, "scalping" them.

Highway patrolmen who investigated said the auto, driven by Wilson, was headed south on Farm Road 168 about 1.8 miles north of Spade.

The combine, being pulled by a truck driven by James Leon Brown, 27, Amarillo, was headed north, according to officers.

The mishap occurred near the top of a hill. Officers said the combine was being pulled up the hill and the Wilson car had just topped the hill.

Officers said the Wilson car traveled about 200 yards down the road and into a grain field after the impact.

Brown, the truck driver, was not injured.

Wilson owned Western Builders Supply in Littlefield and had recently purchased a lumber yard in Las Vegas, N. M. He and the former Mrs. McAmis were married in July.

Wilson was a native of Frazier, Ky., and Mrs. Wilson was born in Vernon.

Wilson's survivors include three daughters, Mrs. Robert Elder, Las Vegas; and Mrs. Joe D. Gier and Mrs. Billy M. Smith, both of Littlefield; two sons, Noel Edd Wilson, Lubbock, and (Continued On Page Seven)

## James Collins Wins Press Grid Contest

A Littlefield man won last week's Littlefield Press Football Contest by picking 12 of 15 games correctly and coming closest on the tiebreaker.

The winner was James F. Collins. He will receive \$5 for his efforts.

Tied for second place in the contest were Jim Baxter of Littlefield and Mildred Hevern of Amberst. Both will receive \$3 checks.

All three of the winners missed the Rice - SMU tie and Darnhart's defeat of Canyon. Most of them in the contest failed on those two.

Collins guessed Littlefield would beat Kermit, 13-6, and the Wildcats came through with a 15-6 victory. That made Collins' entry only two points off on the tiebreaker.

Baxter's guess on the Littlefield - Kermit game was 15-14 eight points off.

Mrs. Hevern's guess on the tiebreaker was 8-7, Littlefield, also eight points off.

Sports fans can enter this week's contest by clipping an entry blank for the contest page in Sunday's County Wide News and depositing it at any of the stores listed on the page.

## Patricia Mitchell Earns State Fair Honor Award

Patricia Mitchell, 16-year-old daughter of Mr. and Mrs. W. E. Mitchell of Spade, Lamb County, has been named State Fair Award of Honor winner.

The State Fair award is designed to give special recognition by the State Fair of Texas to one 4-H club and one 4-H club girl from each Extension District and to one Future Farmer and one Future Homemakers from each vocational area for outstanding achievements.

Patricia has been a 4-H club member eight years and has held the office of president, secretary and reporter in her club. She is now serving as a junior leader.

She is a junior leader in the country recreational program, has attended three District camps and 4-H Round-Up as a delegate. She served as chairman of a discussion group while at Round-Up in 1957 on International Farm Youth Exchange.

She was a member of the "Share the Fun" group this year which placed first in the state.

Patricia has represented her district two years in succession at the State Dress Revue. She served as mistress of ceremonies at the County Achievement Program in 1958 and is now serving on the District 4-H Council.

Among the 4-H Projects Patricia has carried are clothing, canning, food preparation, freezing, gardening yard improvement and livestock. She has made a total of 21 articles and 18 garments; canned 226 pints of food; prepared 251 dishes and 229 fryers; had 100 pints and 229 square feet of garden and placed fourth with her steer in the middleweight class at the livestock show in Dallas in 1958.

Patricia has won numerous places in the Lubbock County Fair on baked and canned goods and also household articles. She takes active part in church and community affairs.

At the State Fair Award dinner and Friendship party, which was held last weekend at the Sheraton - Dallas Hotel, Patricia was presented a medal.

## On Treasure Island Miss Jones Ambassador For Texas In Florida

TREASURE ISLAND, FLA. — Three personable Texas ambassadors are winning hearts on this exotic resort island in the Gulf of Mexico. One of them is Miss June Jones, daughter of Mr. and Mrs. Arthur Jones, 707 Littlefield Road, Littlefield.

Since mid-summer Miss Jones has been teaching third graders at Azalea Elementary School in the nearby mainland city of St. Petersburg, while living on the island with Miss Helen Waller of Tyler and Miss Lillian Davidson from Tyler and Corsicana.

Miss Jones is a graduate of North Texas State College at Denton. She taught three years in Roswell, N.M., before going to Venezuela, where, for two years, she was a teacher in one of the staff schools maintained for children of employees of the Creole Oil Co. At NTSC she majored in art education.

Miss Waller is a guidance counselor at St. Petersburg Junior College and Miss Davidson instructs in physical education at Dixie Hollins High School, also in St. Petersburg.

In one of the island's most respected residential sections the trio occupies an elegantly furnished modern home situated on the shore of Boca Ciega Bay, which separates Treasure Island from the mainland. In complete independence from the mainland they enjoy relaxed sub-tropical living, swimming, fishing and boating. They have use of a neighbor's pram.

Each has her distinct avocation. Miss Jones, an accomplished artist in oil and watercolors, specializes in greeting card design. The originality of her creations has elicited an invitation to submit some of her work to one of the nation's leading publishers. (Continued On Page Seven)

# State Spotlight Turns To Cat-Phillips Clash

## Phillips 8-Point Favorite

By JIMMIE HINE

The Triple-A football spotlight will again be turned on Littlefield Friday night in the state's featured billing, District 1-AAA competition opens tomorrow night as pre-season district co-favorite Phillips moves into Wildcat Stadium.

For the second week in a row, area fans will be given the opportunity of seeing a game that matches two undefeated teams. There are only six AAA teams in the state with perfect records. Kermit was knocked from the undefeated ranks last week by Littlefield.

Coach Joe Means' Blackhaws are rated an eight-point favorite over the local 11. Phillips is currently ranked seventh in the state's Triple-A team, with Littlefield tied for the 10th spot.

Phillips has rolled up a total of 199 points to their six opponents' total of 55. The Blackhaws have wins over Odessa Ector, Plainview, Tulla, Perryton, Canyon, and Vernon.

Littlefield has scored a total of 93 points to their five opponents' 26. The Wildcats will be out to avenge last year's 24 to 12 loss to the Phillips crew.

Phillips has a pair of fleet-footed halfbacks in Tommy Carter and Rusty Price. Carter has scored 68 points to lead area AAA scorers, and Price has tallied 38. The Blackhaws have a potent fullback in "Bull" Bullard.

The forward wall of the Blackhaws has earned a reputation for being stingy on defense and "hog-wild" on offense.

The Phillips line is considered to be one of the best in the state, based primarily on its speed and alertness.

The Blackhaws are not considered a passing team, however, they have not had to resort to passing because of their terrific ground attack which is operated from the regular or basic "T".

Both teams are expected to be in good shape for the contest with the Hawks being in a little better shape since their last encounter was against a mediocre Vernon team and the Wildcats played a stubborn Kermit club.

**ENDS WELDON PACE** and Nathan Hutson hope they'll be able to help the Wildcats bring an end to Phillips' unbeaten string here Friday night when the Wildcats take on the Blackhaws in a District 1-AAA game. The two starting ends have been important cogs in the Cats' 5-0 record so far this year, both offensively and defensively. (STAFF PHOTO)

## Safety Council Recommendations Are Issued In Littlefield Analysis

By LELAND BOYD

How safe is it to drive a car in Littlefield?

How many persons were injured in accidents during the past year?

What is being done about traffic safety in Littlefield?

What should be done about traffic safety?

These questions and statistical facts leading to the answers are presented in the National Safety Council's Annual Inventory of Traffic Safety Activities for 1958, and an analysis of the report for Littlefield has been released.

A summary of the report includes the following statements:

More needs to be done about traffic safety and leadership by responsible officials and outstanding citizens is the crying need. The report proceeds to tell concisely what should be done. Recommendations are made in the realm of accident records, traffic engineering, police traffic supervision, traffic courts, school traffic safety education, and public traffic safety education.

In answer to the second question the report says "Littlefield reported eight non-fatal injury accidents in 1958 with 20 persons injured. Littlefield reported a total of 10 fatal accidents in 1958. This represents a decrease from the average of the three previous years.

"Fatal accidents alone do not give a complete picture of the traffic accident situation in a community," the report said. "It is also necessary to keep complete and accurate records of non-fatal accidents to determine the enforcement, engineering and educational needs."

The report recommends in the field of accident records:

1. That if not already in use the new standard form be used for preparation of annual accident records. (Continued On Page Seven)

## Nightwatchman's Will Leaves Small Fortune

A few months ago a 79-year-old nightwatchman was found dead in his trailer home here.

Mike Burek, a native of Yugoslavia, had become acquainted with few people while living here eight years, and no one knew much about him.

People who saw him around his trailer home probably figured Mike wasn't getting rich off his nightwatchman's pay.

But his will, according to records at the county courthouse, leaves a total of \$47,210.96 to a second cousin in California.

When Mike Burek died here May 12, his name was listed on the death certificate as "Alija Burek." He was also known as "Mike Buek" and "Mike Buick."

The last name is the one used in the inventory and appraisal in Mike's will.

## J. G. Perkins Dies After Heart Attack

Littlefield ginier J. G. (Granville) Perkins, about 53, died Wednesday about noon at Littlefield Hospital after suffering a heart attack.

Funeral services are pending at Hammans Funeral Home.

Perkins was co-owner of Lumsden-Perkins Gin on State Highway 54. He had gone into the business with Ross Lumsden in 1954.

Lumsden said Perkins began feeling ill late Wednesday morning and later drove to Littlefield Hospital. He suffered the heart attack shortly after arriving at the hospital.

Perkins came here in 1944 from Ralls and he farmed and worked as a ginmer for W. O. Hampton until 1954. He was a member of the First Baptist Church.

Survivors include his wife; one son, Lonnie J. Perkins of the home; one daughter, Mrs. Roy McMahon of Farmington, N.M.; four brothers, R. A. of Idalou; Muriel of Ralls; Leonard of Plainview; and Jeff of Littlefield; four sisters, Mrs. Mary Phelps of Oklahoma, Mrs. Frank Allen of Smithville, Mrs. N. A. Pruitt of Ralls and Mrs. Jack Godfrey of Lubbock; and three grandchildren.

## Two Stabbing Incidents Investigated By Officers

County officers investigated separate stabbing incidents at Latin American dances in Littlefield and Earth over the weekend.

Only one man was still hospitalized Wednesday as a result of the incidents. He was Raul Costilla Jr. of Earth, who was hospitalized at Plainview.

A charge of assault with intent to murder was filed against Marcello Sanchez, 17, of Earth in the knifing of Costilla. Sanchez went free on \$1,500 bond Monday after pleading not guilty to the charge.

Sanchez was arrested Saturday night at the Mexican Dance Hall in Earth, where the incident took place.

In Littlefield, one Latin American was jailed on a charge of simple assault, a misdemeanor.

Officers said this man and six others were cut in an incident at a Latin American dance at the Sports Arena Sunday night.

Of the seven who were hurt, only two, Guadalupe Cantu and Thomas Ramirez, were hospitalized. Both were released later.

Officers said a free-for-all developed at the dance, with about 20 Latinos taking part and seven receiving cuts.

In other activity over the weekend, county officers jailed eight drunks and one person for gambling.

A Norman, Okla., man, Marvin Metcalf, was jailed Monday on a charge of removal of mortgaged property. He pleaded not guilty and his bond was set at \$1,500.

## LIPSTICK LOGIC

A gallant lady died in our town last week. The calendar said she was 77, and her frail body was, I guess, but not her heart. It was young and eager. And her mind reached out hungrily for new ideas.

She had been a widow for about 15 years when she died. Not many persons outside of her church even knew her. We didn't know her when she first faced the prospect of solitude for the rest of her life. But at 57, she had found herself. She began taking piano lessons, and after six months gave a recital, just as the other "pupils" did. At 70 she signed up for a writing course. She had things to say, and her education had been sketchy. Along in those years too, she listened to every radio and TV program that came to her attention - about mental health, the Far East, social welfare, and other broad fields of information. She went to lectures, too, if they were free.

Her budget was modest. She lived alone in a small cottage, just two blocks from the church where her life really centered. She read the church literature avidly, and accepted all requests to take part in study programs. She said she learned more about a subject if she had to retell it publicly.

When she got "a little older," and couldn't go so much at night, she joined a golden age group. She enjoyed it some, but said she had "rather talk than play games, and most of them talk only about themselves; not about all the interesting things that happen in the world."

She learned the real secret of happy living - listening, learning, doing - reaching out always for new goals. We salute her courageous spirit!

# I KNOW IT'S TRUE... I READ IT TODAY IN THE LITTLEFIELD NEWSPAPER

This is the picture of a man who's sure he's right, because his facts are recorded in print, in a medium he respects for its care in reporting the facts -- his Littlefield Newspaper.

Most people are convinced, and rightly so, that newspapers are reliable, because they know that newspaper people are trained and experienced in painstaking, impartial treatment of everything that's written and printed. This makes your newspaper as accurate a record of the day's events as is humanly possible to present.

Another thing -- newspapers are a permanent record. Facts in the newspapers don't get twisted and confused because people don't hear them quite right, or because they fade from memory in time. They're put into permanent print, where they can be saved for future reference, and checked for reliability again and again.

Readers have confidence in their newspapers. This is one of the biggest reasons why newspapers produce such consistent results for advertisers.

# Sudan's Collins High Sets First Grid Game

SUDAN - November 7 will be a historical occasion for Collins High School of Sudan. The school's football team, the Panthers, will don their brand-spanking new football suits and play their first game since the school was organized.

The game will be with Memphis and will be played at Hornet Field in Sudan. Coach Fate D. Harris says "on a whole the team looks exceptionally good for beginners. The boys are working hard every day." The coach is asking for full support of his team.

Collins High School is the school for Negro students in Sudan. Enrollment figures show 117 students and five teachers.

The school has several organizations for students that are active including student council, Future Teachers, YWCA, YMCA, and 4-H Club.

The five faculty members are Principi H. H. Collins, for whom the school was named; Harris, coach; Mrs. H. H. Collins, junior high and music teacher, Miss Pearlle Clopton, intermediate grades and Mrs. G. B. Otis, teacher of the primary grades.

Harris is a native of Austin, Texas. He is the coach, science, mathematics and physical education teacher. He holds a B.S. Degree from Samuel Houston College in Austin.

He was coach and P. E. teacher at Columbus and Port Lavaca, Texas. He has five years of teaching experience.

Miss Pearlle Clopton, who teaches the fourth, fifth and sixth grades, is a graduate of Prairie View A&M College. She holds a B.S. Degree in elementary education. This is her first year of teaching. She is from Tyler, Texas.

Mrs. Gay Bertha Otis, teaches the first three grades, and is wife of the Rev. V. Otis, pastor of St. John Baptist Church, Littlefield. She formerly taught in Boley and Snyder, Okla., and joined the staff in September, 1957. Mrs. Otis has 19 years of teaching experience, including two years at Sudan.

Mrs. Collins teaches the seventh and eighth grades and music. She is the wife of the principal. She formerly taught at Daule High School in Cuero, as head of the

music department. Her college work was at Gillston College, Paul Quinn College, and Prairie View College.

Principal Collins teaches business education. He holds B.S. and M. Ed. degrees from Prairie View A&M College and has further study on a Ph. D. degree at the University of Texas and N.Y.U., New York. He has a total of 19 years of administration and teaching in public schools in Texas.

Collins was formerly the principal of Rosenwald High School, Luling, Texas. He is a member of Masonic Lodge, State Principal of American Teachers Association, N.E.A., life member of the Boy Scouts of America and Lay Leader in the Methodist Church. He was the district director of Interscholastic League of Colored School District 11-A in 1952-54 and held this office for two years.

A fairly modern school building was erected and ready for occupancy in September, 1957.

## Quail Hunt To Be Held In Panhandle

AUSTIN - Another quail hunt is scheduled for the Panhandle this year on the Gene Howe Wildlife Management area, according to the Director of Wildlife Restoration, Texas Game and Fish Commission.

Dates for the hunt are Dec. 5, Dec. 19, Jan. 2, and Jan. 16. Applications now are being received for these hunts and permits will be issued after a public drawing to be held at 8 a.m., Nov. 13.

No preference can be given as

to dates. All hunters required to hunt in pairs each day, for hunters. Only persons age or older can be in the drawings for. According to all hunting will be good on year. The quail population and hunting success very good, it drops. Each man whose name will be permitted to and will be entitled to a minimum of one day's hunting. Applications for Game and Fish Commission State Bldg., Austin, to be there by the line.

## Amherst-Sudan Battle Tops Attention On Area Grid Front

Amherst pulled the upset of the week Saturday night by defeating the Meadow Bronchos, 14 to 12, in a non-conference tilt.

### South Plains Hospital-Clinic

AMHERST, TEXAS  
ANNOUNCES THE ASSOCIATION  
OF  
Charles H. Bausman, Jr.,  
M.D.  
IN THE PRACTICE OF  
GENERAL MEDICINE

Amherst pulled the upset of the week Saturday night by defeating the Meadow Bronchos, 14 to 12, in a non-conference tilt. Amherst pulled the upset of the week Saturday night by defeating the Meadow Bronchos, 14 to 12, in a non-conference tilt.

Sudan had an easy time last week in defeating Springlake 22 to 0. The Hornets beat Amherst by 18 points last year and Coach R. L. Brown knows that the Amherst squad figures on avenging that loss. Sudan will be the favorite, but the contest should be a suspenseful one.

**ANTON VS. FARWELL**  
The Farwell Steers move in on the Bulldogs of Anton tomorrow night and the game is rated a toss-up. Anton had an open date last week while the Steers lost a District 3-A opener to Kress, 20 to 18.

Oren McGrew, who has scored 76 points in six games, is expected to be ready and the 175-pound

halfback will be looking for many scoring opportunities. Anton has four wins against two defeats, while the Farwell team has lost two out of seven.

Both teams are expected to be in top shape for the conference encounter.

**BULA VS. THREE WAY**  
District 5-B six man football continues in its round-robin fashion as the Bula Bulldogs entertain Three-Way Friday.

The Bula six had an open date last week and Coach Melvin Howard's small crew is expected to be ready after having recovered from their district loss to Nazareth two weeks ago.

Bula will be favored since the Bulldogs beat Three-Way in a district opener six weeks back.

**OLTON VS. MORTON**  
District 2-AA continues in progress at Olton Friday night, as

the Mustangs entertain the other district leader, the Morton Indians.

Olton opened their district competition last week with an impressive 49 to 8 victory over Muleshoe, while Morton decided the pre-season favorite Abernathy, 8 to 6.

Morton will be in the favorite's role, but Robert Priest is expected to fill the air with passes after his good display of throwing last week. Rande Buchenau and John Wayne Hair are expected to add zip to the Mustang attack.

### SPADE VS. COTTON CENTER

The Spade Longhorns entertain Cotton Center in a District 5-B six man contest tomorrow night. Spade has yet to win a contest this year but the Longhorns are gathering momentum each week and could surprise Cotton Center. Spade lost to Cotton Center in the first round of play in the round robin.

### SPRINGLAKE VS. KRESS

District 3-A leader Kress plays host to the Springlake Wolverines Friday. Kress defeated Farwell 20 to 18 last week as the Wolverines lost a district game to the Sudan Hornets.

Cortez is expected to throw the ball quite often and the Kangaroos have two able runners in Richard Tye and Dalton Freeman to match the offerings of Springlake's Hal Hudson.

Coach Leo Fields, the Kangaroo foreman, has 13 lettermen from last year's squad that have put his team at the top of the district heap. Kress has a record of six wins against one loss. Springlake sports one win and a tie against five losses.

### WHITHARRAL VS. WHITEFACE

Last week's idle Panthers engage the Whiteface Antelopes at Whitharral Friday night in a District 3-B tilt.

Whiteface opened district play with a 16 to 13 win over Ropesville last week. Coach Broderick's Antelopes are expected to contain Whitharral's high-scoring fullback Donny Polk. Polk has scored 76 points in five games. This game should help decide the eventual district champ.

**Wonderful Way to Launch a Decade!**

An exciting new decade is about to begin for America—a decade filled with promise and hope and great expectations.

And wouldn't it be thrilling to ride into the sixties with a new Cadillac car of your own!

For here is a motor car created with an eye to the years ahead—and for the man who hopes to make the most of them.

Cadillac's new styling will set the pace in automotive design for years to come. Majestic and elegant, it has already won the fullest measure of acclaim from motorists everywhere.

Inside, a new era of elegance is evident on every hand—with unusually rich fabrics and leathers...

and appointments executed with the care of a jeweler.

Its performance represents a rewarding departure from the past... so smooth, so quiet, so effortless and level in ride that it must be experienced to be understood and appreciated.

And here, to be sure, is a motor car with a future all its own. Careful design, quality materials and painstaking craftsmanship give it unduplicated dependability and endurance.

So if you're looking forward to the wonderful decade that's just around the corner—think how much more exciting it could be in the company of a 1960 Cadillac.

See and drive it today—and we believe you'll want to make it your own.

**RAILROAD FEATHERBEDDING:**

**\$500,000,000 LOSS TO THE NATION—INCLUDING YOU—EVERY YEAR**

Featherbedding on the railroads — pay for work not done or not needed — is costing the American people the shocking total of more than \$500,000,000 a year.

You pay for it every time you shop, because featherbedding costs are hidden in the price of everything you buy.

Obsolete union work rules, involving the railroad operating employees, are responsible for this gigantic burden. Right now, for instance, these rules require every diesel locomotive to carry a fireman—even though diesels have no fires to stoke, no boilers to tend.

The forthcoming negotiations between the railroads and the unions are urgently important to the whole nation.

In asking the unions to drop these featherbedding rules, all the railroads ask for is a fair day's work for a fair day's pay.

### Shares In America

President Eisenhower was not using a superficial catch-phrase when he referred to the Series E and H bonds as "shares in America." Signing legislation under which he promptly exercised authority to raise interest rates on these bonds, at this point from a maximum of 3.26 per cent to 3.75 per cent, he expressed hope that the improved return will make the bonds a more attractive investment to 40 million individuals now holding them and to many others in a position to save.

In terms of normal small-denominational savings, the new interest rate can stand on its own as a fair return. Sold in large volume through payroll deduction plans, the bonds offer a method for disciplined saving—for a relatively "painless" accumulation of capital that may easily and quickly be transferred into dollars if needed.

It is in the relationship between the savings bond program and the over-all problem of financing the Government that the "shares in America" theme has a broad meaning. More than \$42 billion of these bonds are now outstanding, representing approximately one-seventh of the current public debt of around \$290 billion. The voluntary assumption of this proportion of the public debt through relatively small individual bond purchases not only is an expression of faith in America, as the President said, but is of tremendous help to the Treasury in its debt management. As much, it contributes in substantial measure to the economic strength of the Nation.

### Halloween Boobytrap

Reminder to moms and dads from the National Safety Council:

The highway isn't the only hazardous spot for Halloweeners. The home and its surroundings can be just as big a boobytrap.

That tip from the Council—which feels adults have an obligation to keep the trick-or-treaters safe as they tramp from house to house Saturday night—served as advance warning to parents that the annual observance of All Saints Day (Halloween, to you) is drawing near.

"Most motorists," the Council said, "know you can't count on excited youngsters to play it safe, so they exercise extra caution when driving on Halloween."

"Many homeowners, though, haven't learned their lesson quite so well.

"Homeowners have a moral responsibility to keep youngsters safe at Halloween. Furthermore, in many instances homeowners can be legally responsible if someone is injured on their property."

How can you guard against a tragedy that may mar a child's Halloween? Follow these, and similar, suggestions, the Council recommends:

1. Light your porch if there's any chance of a visit from trick-or-treaters Saturday evening. An excited youngster is ripe for a tumble in the dark.

2. Make sure your yard isn't an obstacle course for children. Cover excavations. Tie strips of white cloth to temporary fences around shrubbery or newly seeded grass.

3. If you have a dog, keep it secured. The strange sights and sounds of youngsters dressed up to look like ghosts and goblins could excite it—with dire results.

"Keep Halloween happy," the Council advised. "Don't let a needless accident spoil some child's fun."

### Whale Of A Job

Of late years, the Soviet government has made something of an effort to improve the living standards of the Russian people by increasing the supply of consumer goods and, in some cases, reducing their prices. Kremlin spokesmen boast of the achievements that have been chalked up so far, and forecast, with seeming confidence, that one day Russia will equal if not surpass the United States in this regard.

Well, about all one has to say to that is that Russia has a whale of a job ahead.

American observers have been touring Russia in considerable numbers. They report that Russian consumer goods, with the exception of certain necessities, are shoddy, unattractive, in short supply, and extremely expensive in the light of Russian incomes. For instance, a Wall Street Journal reporter tells what he found. The average Soviet factory worker earns about \$80 a month. And butter costs \$1.50 a pound, sugar about 75 cents, a cheap cotton dress \$10, a cocktail dress \$60, and a pair of shoes \$30. Thus, that pair of shoes costs him close to two weeks of work.

With all due respect to what the Soviet planners may accomplish in the future, one wonders if the Soviet system has within it the capability to substantially improve the lot of the people. It is a system in which there is absolutely no competition as we understand the word. The Russian retail stores, to take an extremely important example, are state-owned. The state decides what is to be sold, and at what price. If you don't like the goods or the price you're out of luck—there's no other place to go.

Contrast this with American retailing, in which all manner of stores are competing for consumer favor—and, as a matter of sheer necessity, must try to offer more for the money than the store down the street.

AUSTIN, Tex. — Though it has not any Los Angeles-type smog or London "pea soupers," Texas, in 1952 several thousand died during a period of excessive air pollution. But, says the Department, "the problem is already present and growing in areas where no action is being taken."

Industrial smoke, automobile exhaust, incinerators—even small town cotton gins—are among the factors that pollute Texas air. Every citizen can help, says the State Health Department in its approach of Cleaner Air Week, October 25-31, to reminding of the importance of the back yard adds irritating agents they breathe. During one day, says the Department's October bulletin, a person must breathe in the problem, the Bulletin suggests you contact your local health department which will advise you where the air pollution abatement group in your area meets.

**HOW MUCH TIDELANDS?** — Texans now await a decision by the U. S. Supreme Court on how much of its tidelands the state owns. U. S. attorney general claims the state owns a strip only three miles out from the coast. Texas officials say it is three leagues,

or 10 1/2 miles. That Texas owns some tidelands was established by a 1953 act of Congress giving states control of their submerged lands to their "historic boundaries."

Gov. Price Daniel and Texas Atty. Gen. Will Wilson argued before the high court that a historic boundary of three leagues had been established in the days of the Texas Republic and was agreed to by the U.S.

Opposing federal argument is that the U.S. has insisted on a three-mile limit for all countries for many years as a matter of "national policy."

Texas' oil-bearing tidelands, particularly those further out, are believed to worth many millions in revenue for the state public school fund.

**STRAWS IN THE WIND** — Indications keep piling up that a special Legislative session to raise teacher pay and a third-term race by Governor Daniel are strong possibilities.

Letters favoring the teacher pay session are greatly increasing according to the governor's office. A representative of the Texas State Teachers Association said teachers are not "cooling off" in their drive and are not planning to wait until 1961. Several union labor groups have endorsed teacher raises and offered to help in the drive.

A recent State Democratic Executive Committee newsletter notes Daniel's popularity in polls and quoted him as planning "to keep the door open."

Which probably means the governor will keep the political pot in simmering suspense until very near the Feb. 1 filing deadline.

Lower Nueces River Water Supply will be used to complete the \$21,000,000 Wesley Scale Dam. Under the program, the Development Board sells bonds and loans money to local governments to pay part of the cost of water conservation projects. Program is self-liquidating. Board is presently paying 3.56 per cent interest on the bonds and charging 4.06 per cent on loans.

White River Municipal Water District in West Texas is expected to receive the next loan. It is seeking aid for a \$4,000,000 project to supply water to Crosbyton, Post, Ralls and Spur.

**SCHOOL SUPPORT PROBLEM** — Gaining public support for schools will hinge on how well schools adapt to new demands, State Commissioner of Education J. W. Edgar warned school leaders.

Dr. Edgar told the Texas Association of School Boards of new curriculum changes, including beefed-up high school mathematics courses, now being tested in Texas schools.

School board members noted that, despite the hue and cry for better schools, a winning football team still gets more public support than anything else.

**EDUCATION EXPANSION STUDIED** — Whether the University of Houston should be brought into the University of Texas system is under state study.

Texas' Commission on Higher Education ordered staff study of the question directed to it by a resolution passed this year by the Legislature. At present the University of Houston is a private program that receives state aid only for the first two years of its four-year program.

Houston proponents of the plan claim there is an increasing need for making college education available in Houston for that city's ever growing numbers of high school graduates. It is estimated Houston high schools will be graduating 15,000 students a year by 1975.

Commission Director Ralph Green has noted, however, that there is some "public alarm" over the expansion of public education and the shrinking of private education. He said the staff study would be completed by the latter part of 1960.

San Angelo citizens, meanwhile have started activity toward getting San Angelo College admitted into the state's circle of fully supported state institutions. A visit to the institution has been scheduled for Green and Sen. Dorsey Hardeman, in whose district the college is located, for

### Installation Plan May Into Russia's Space

Editor's note: The Sandhills Philosopher on his Johnson grass farm believes he has discovered a fatal error by the Russians, his letter this week indicates.

Dear editor: I've got other things to worry about which I haven't gotten around to worrying about yet, without spending too much time worrying about the Russians, but since everybody else seems to be concerned about them and what they're up to, I think it would be a public service to point out anything we can find that indicates the Russians aren't perfect and a race of supermen.

Well, I have now found a chink in the Russian armor, or a break in their bobwire fence, if you want to put it in modern terms.

According to a small item on an inside page of a newspaper I read last night, sort of one of those items a newspaper fills up with to have something to go on the advertisements, the Russians have now inaugurated installment buying. They can now go into a store and pay 10 per cent down and

As far as I'm concerned, it's one of the most items to come out of the years, and a smart man have put it on the I figure installment slow down the Russian work and the Russian, however by years, and hard things on the other side of the finance company for a payment on a machine.

things Chevrolet has for 1960! Come and see it!

## THAT'S CHEVY!

You can tell already, by the growing number of new Chevrolets you see on the road, that this one's the sizzler for Sixty! It was bound to happen. When you make an effort to find out all the things most people want in a car, then make sure they're all designed into a car most people can afford, you're almost certain to receive a pretty hot reception.

People look over Chevrolet's 16 freshly styled '60 models. They see a choice of 24 engine-drive combinations, including a new Economy Turbo-Fire V8. They drive a Chevy. They like the way the ride has been polished and perfected with

new rubber-cushion body mounts muffling road hum and vibration. They like Chevy's wide seats, its wonderfully easy handling, the whole feeling of cruising along smoothly and comfortably in a car that never tires of travel. They just can't see a good reason for looking any farther.

Matter of fact, it looks like Chevrolet has a corner on quality and fine features in its field. Even costly cars have to look to their laurels—Chevrolet sets a new standard by matching elegance with economy. By offering luxury you've never seen before in Chevrolet's price class. We've got a hunch you'll go for this one. Just try it... and see if we aren't right!

## IT'S THE LAW in Texas

A public service feature of the State Bar of Texas

Changing and revoking wills has involved many an estate in litigation because the proper legal methods were not used.

Take the case of Mr. S. Some time ago he went into his lawyer's office and laid in front of his attorney a will which had been prepared for him a out a year previously. He said that he had made a few changes in it and wanted to know whether his attorney thought the changes were all right.

Mr. S. was attempting to change two items of his will by drawing lines through certain words in these items and interlining, in his own handwriting, the changes he wanted. He was not attempting to revoke his entire will, but merely trying to change these two items.

If Mr. S. were to die with his will in that condition, the probate court would not recognize the changes that he had made, but would probably probate the will as it was originally written.

Mr. S. was surprised to learn this and immediately requested that a new will be prepared.

After the will has been once executed, changes cannot be made legally by crossing out parts of a will and interlining corrections or additions. To change a will, an entirely new will must be written and properly executed—or an addition by way of a codicil must be executed.

Since a will does not take effect until the death of the person making it, the provisions of the will should be reviewed by the maker at least once a year to be sure that changing conditions and circumstances have not been such as to require a modification of the will. It is very easy to postpone doing a thing of this kind, but failure to do so may result in the intentions of the maker of the will being thwarted.

There are many changing circumstances which would be brought to his attention if a person would review his will at least once a year in the light of circumstances at the time.

Such things as deaths among the legatees or devisees named in his will, births, marriages or divorces in the family, accidents or sickness among the close relatives which make it desirable to increase or decrease the amount given them, substantial increase or decrease in the value of the estate of the person making the will, death of all witnesses to the will and many other factors may cause a person to want to execute a new will or add a codicil to his old one.

# Irrigation Continues To Increase In Texas

A survey just completed by the Texas Agricultural Extension service shows a continued increase in irrigated acreage in Texas. The irrigated area in June 1959 was 7,140,443 acres.

Similar surveys in 1957 and 1955 showed an irrigated area of 6,962,234 and 6,208,022 acres, respectively. The data in each survey was compiled from information furnished by county agents from each Texas county, according to Wayne Keese, extension agricultural engineers.

Reports from the counties show that some irrigation is practiced in 239 of the State's 254 counties. An estimated 6,445,155 acres are irrigated by surface methods and 695,288 by sprinkler systems. Irrigation is used on 48,110 farms, the previous two years being 46,708 and 45,914,753 acres, noted Keese.

Cotton is the leading irrigated crop with 2.2 million acres, and grain sorghum is second with just over two million acres. Wheat ranks third with 637,000; Other important irrigated crops are rice, 436,000 acres; vegetables, 375,000; and pastures, 200,000. Corn, forage sorghum, alfalfa, oats and many other crops are produced on irrigated farms.

The increase during the past two years is a more favorable result of an acceptance of irrigation by farmers as a sound emergency practice in production in drought years. Keese added that irrigation not only increases the farmer's production but also demands emphasis on conservation of water and use of one of the natural resources.
