

Water Rates Raised Temporarily to Meet Expense

New Fire Truck to Arrive Soon; Garbage Removal Enlarged

As announced by Mayor A. C. Chesher Tuesday, the City of Littlefield was forced to raise water rates \$1 a month for each meter in order to meet the city's increased operating expense.

The city commissioners ordered a new Seagrave fire truck May 1, 1945 at a cost of \$7,750. This step was made necessary because the two fire-fighting units, an International truck bought in 1924, and a Southern truck, bought in 1929, are no longer adequate to give Littlefield the fire protection that is now required, and anticipate possible emergencies, such as a general fire.

The new truck will be delivered at an early date and must be paid for.

Three street signal lights were also deemed essential and ordered, with delivery to be made soon. The garbage disposal service has been ordered made weekly instead of every two weeks in the residence district and daily in the business section.

With the city expanding, in both the residential district as well as in the business area, extensions of the water system and sewers have been found necessary. All of which, the mayor said, placed an added burden on the city's treasury.

Faced with increasing municipal expense and a limited means of raising funds, the city commissioners, with the approval of the advisory (Continued on Back Page)

ELECTRICAL ORDINANCE WILL BE ENFORCED

Annual Red Cross Drive Will Get Underway March 1

Joe Salem Is Named Fund Campaign Head For Lamb County

The annual Red Cross Fund Campaign will get underway March 1, and run throughout the month. The quota, according to Dr. Ira E. Woods, county chairman, will be about one-half the amount it was in 1945.

Dr. Woods announced that Joe Salem of Sudan had been appointed Fund Campaign Chairman for the County for 1946.

Mr. Salem will make a tour over the County and name Committee Chairmen in the various communities and cities in the County, who will organize and select their workers in the drive. In his tour Mr. Salem will call on the various civic clubs and organizations who will sponsor the drive in the various places in the county.

Dr. Woods stated that announcement would be made next week as to Lamb County's quota as well as the amount assigned to Littlefield in the drive.

At a called meeting of the City Commission held Wednesday evening in the office of Griffin & Chesher, it was decided to enforce the City ordinance, passed several years ago, creating the office of inspector of electrical equipment and service, providing for the character of electrical installation and service, and requiring permit to be applied for and taken out before any electrical work could be done, etc.

J. H. Carl, now employed by the Lamb County Electric Cooperative, was named City Electrical inspector.

Under the ordinance the City will require that all buildings not wired by February 11 be inspected; and that the minimum charge for inspection will be \$1.00 on residence, and \$2.00 on business houses, which will be collected by inspector.

On all property started after February 11 the contractor will be required to go to the City Hall and make application for permit.

All electricians are required by the City to register by February 11.

Mayor A. C. Chesher pointed out at the meeting that the City was not making anything in this inspection program, but were enforcing this ordinance as a protection against fire hazard, and that the reason an electrical inspector had not been secured before was that the City was not able to secure one not in the electrical business.

Mr. Chesser also added: "We are required to do this also from an insurance standpoint, and for the protection of the property owners. The City is having it done for the actual cost of inspection."

W. G. Street, secretary, was instructed to have all forms prepared and be ready for enforcement of the ordinance by February 11.

A meeting was also called for all electrical contractors to meet with Mr. Carl at the City Hall Monday evening at 8 o'clock; and Mayor Chesher asked the Leader to state the City Commission would appreciate all contractors being present.

Man Held in Morton Bank Robbery Plans Break From Jail

Plans for an attempted jailbreak by Ollie Oliver Melton, 38, held at Dallas on charges of participation in the Morton bank robbery in Sept., 1945, were uncovered Wednesday of last week by sheriff's deputies, Sheriff Smoot Schmid reported.

Five saws and two razors fashioned into weapons were taken from Melton's cell at the Dallas county jail he said, adding that Melton admitted he planned to make the break before his case came to trial.

Three of the saws were fine jeweler's saws capable of cutting bars of the hardest steel he said. Also sheriff's deputies found file marks on two bars of the door leading from the corridor where the prisoners are allowed during the day, according to Schmid.

FBI records show that Melton escaped from the Oklahoma state penitentiary, McAlester, Okla., Nov. 7, 1936, while serving a 20-year sentence.

Melton, who was arrested in late October at Shawnee, Okla., and Chick Rogers, who was later taken into custody at Oklahoma City, were brought to Dallas by the FBI pending an investigation by the federal grand jury of charges that they took part in the \$16,000 robbery of the Morton bank.

How women and girls may get wanted relief from functional periodic pain

Cardul is a liquid medicine which many women say has brought relief from the cramp-like agony and nervous strain of functional periodic distress. Here's how it may help:

- 1 Taken like a tonic, it should stimulate appetite, aid digestion. It thus helps build resistance for the "time" to come.
- 2 Started 3 days before "your time", it should help relieve pain due to purely functional periodic causes. Try Cardul. If it helps, you'll be glad you did.

Water Rates— (Continued From Page One)

committee and the directors of the Chamber of Commerce, composed of 20 representative citizens, after considerable discussion and serious deliberation, decided to temporarily increase the water rate \$1.00 for each meter, effective January 1.

It was not the intention of the city commissioners, the mayor said, to make the rate increase permanent, but only for a period to raise extra funds to meet the present urgent requirements.

The mayor urges all water users to cooperate with the city in meeting this temporary expense, and extends an invitation to the public to attend any meeting of the city commissioners and observe the manner in which the city's affairs are handled.

A meeting was called at the city hall Wednesday afternoon at 3 o'clock, attended by Chamber of Commerce directors and other business men, numbering about 25, at which Mayor Chesher explained the reasons for raising the water rates, and the meeting unanimously approved the action of the City Commission.

"I have never had any experience as a law enforcement officer. I do not feel that it is necessary for a man to have had long years of experience along this line to make a good sheriff.

"With careful, sound thinking, and the use of some good, common horse

"It is my creed to deal honestly and fairly with everyone regardless of their wealth, social standing, or color.

"I earnestly solicit your vote and support in the forthcoming election. Should you see fit to elect me your sheriff, I promise to conscientiously devote my efforts to the office, co-

operating with both citizens and er officers of the law in Lamb County a better place to live.

Increased Cotton Production

Agricultural leaders, writers and editors throughout the Cotton Belt are emphasizing the need for increased cotton production in 1946 to provide needed and critically scarce protein feed. Some typical editorial comments from recent issues of leading publications are:

Associated Press Article from Washington: "There can be no increase in the domestic supply of protein meals until the new cotton crop is harvested in the fall, said Frank George, Agriculture Department feed specialist. Cottonseed meal is regarded as the best protein feed and if this year's twenty million acre cotton crop goal produces a normal yield, George said the feed situation will improve vastly."

San Antonio Evening News Editorial: "The country's need for cottonseed as a source of food-oil protein feed and other essential products — is critical — By far the most important protein meal produced in this country, in terms of food-value to the pound and also in terms of average production, is cottonseed meal."

Editorial in "The Farmer Stockman": "Oklahoma livestock men are again scrambling for cottonseed cake, or any kind of protein cake they can find. Bluntly, the feed that we need just doesn't exist. It won't exist this time next year, either, unless we grow it. The time has come when we must

consider growing cotton primarily for seed, not letting the statistical heaps of lint cotton frighten us out of the cot-business."

International News Service Article: "Solution of the stock-feed problem in Texas, so far as essential protein feeds are concerned, depends directly upon finding additional markets for cotton through research, Texas State Senator George Moffett declares. He characterized cottonseed products as the only dependable source of protein feed in the Southwest. Offett pointed to the fact that this year's short cotton crop and a feed shortage are going hand in hand."

Dr. Henry G. Bennett, President, Oklahoma A. & M. College, in "Mid-South Cotton News": "When we think of cotton, we are thinking of a miracle combination plant that yields both fiber and food — From its seed, which makes up about 65 per cent of the cotton by weight, comes edible oils and vital animal feeds."

Victor H. Schoffelmayer in "The Dallas News": "At the bottom of the feed shortage, chiefly protein, is the sad decline of cotton acreage—There are no more dependable sources of both protein and carbohydrate feeds than cottonseed and grain sorghums. Both crops can be grown successfully over vast Texas areas in normal years. Indications are that farmers during 1946 will not skimp on the acreage they seed to these basic crops."

Gene Yeager and Vernon Roberts With Levelland Store

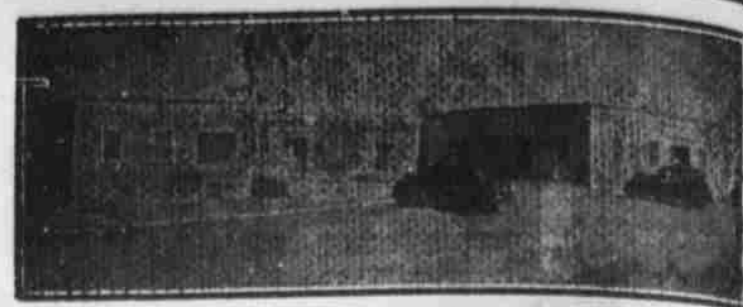

Gene Yeager, recently returned from the service, and also formerly connected with the Littlefield Piggy-Wiggly store, has been named manager of the newly established Piggy-Wiggly at Levelland, which had its formal opening last week end.

Also connected with the new store is Vernon Roberts as assistant manager. Mr. Roberts was also formerly connected with the Littlefield Piggy-Wiggly prior to going into the service. He has recently returned after three years in the service.

The Leader extends best wishes to these young men for their continued success.

SIDELIGHTS FROM WASHINGTON

By CONG. GEO. MAHON

As this is being written we are making the final push to have the barracks and housing at Lubbock Army Airfield actually available to Veterans who wish to enter Texas Tech for the new semester just beginning.

Upon my return to Washington I presented the matter to high officials of the Army urging the elimination of red tape and the quickest possible action.

A suggestion has come to me from a Haskell County citizen that flame throwers which were used in the war be made available to counties to combat Johnson grass, cockleburrs, and sunflowers along country roads and public highways.

A State agency in Mississippi tried out the flame throwers against the underbrush along the lower Mississippi River. The idea was abandoned.

The ordinary portable flame thrower has a capacity of four gallons of fuel. It has a maximum range of 60 feet and exhausts itself in nine seconds.

So the answer to the Johnson grass menace is yet to be found. It is too bad that the deadly ferocity of the flame thrower cannot be released against it.

LAMB COUNTY OIL NEWS

Humble No. 1 Campbell, extreme northeast Hockley county wildcat in northwest quarter of section 116, block A, Thompson survey, and one mile south of the closest production in the Anton field, had progressed under 7,282 feet, in dolomite and was drilling ahead.

This exploration is contracted to 10,000 feet to try to find the Ellenburger, and if that is located to attempt to find oil in that formation.

Humble No. 1 Virginia C. Hart, southeast Lamb county prospector, 1,980 feet from north and 660 feet from east lines of section 119, block A, Thompson survey, one mile east of the initial production in the Anton field, had penetrated below 5,933 feet in lower Permian dolomite, and was drilling ahead with 270 feet of free oil in the hole.

Humble No. 1 Hafstedler, an outpost to production in the Anton field, was drilling past 5,959 feet in dolomite, and had about 2,000 feet of free oil in the hole.

In colonial days tobacco, powder, bullets, grain, fish and furs were at one time or another used for money, and were accepted in payment of taxes.

To Establish Grocery On Highway 51

Work got underway last week on the construction of a 32x40 building on Highway 50, adjoining on the east of the Morris & Son Service Station property, and near the Cottage Courts, by Herbert Pierce, in which

he will establish a grocery and market.

The frame of the building is up. In an interview with Mr. Pierce Saturday, he stated it might be 30 or 60 days before he could get the building completed and be ready for business.

He is supervising the construction himself.

Mr. Pierce worked for two years in government defense work, and for the past three years has been operating a farm five miles west of town, which he sold to Floy Morris, who is operating same.

The grocery building will be of frame and stucco construction.

Spur Man Moves To Littlefield

SPUR, Tex., Jan. 24 — (Special) — Jack Christian, prominent businessman, part-time coach of the Bulldogs during four war years, and civic leader of Spur, moved to Littlefield February 1, where he has purchased the Texas Company wholesale agency. Mr. Christian has been the Texas Co. Consignee and owner of the Texaco Station in Spur for five and one-half years, during which time he has become one of the most outstanding personalities in school, church, civic and business circles.

Spur recently honored Mr. Christian with a farewell dinner attended by one hundred and seventy-five persons, at which time he was presented with several gifts of appreciation for his activities in behalf of the city.

The Spur Chamber of Commerce this week published a letter of gratitude to both Mr. and Mrs. Christian for their splendid civic efforts and accomplishments.

Mr. Christian led the Spur Bulldogs to three district championships during the four years he devoted part of his time to coaching them. He has been lauded as one of the best men "with boys" in coaching circles, and though a busy business man too, was one of the most beloved coaches ever to handle the teams in Spur.

Mr. Christian is an active Baptist worker and was on the Board of Deacons in the First Baptist Church in Spur. He has been most active in Rotary Club work.

Mrs. Christian is a past P. T. A.

president and was president of the 1931 Study Club until her recent resignation. She has been active in church, study club and social circles in Spur.

Judy Christian, 8 years old, has been mascot of the football team and pep squads for several years.

STATIONED AT EL PASO

... TODAY It's Different!

The principles of optometry are ancient, we know. Yet for centuries the specific application of optometric principles, common now to our everyday practice, was most elusive.

Only as scientists labored on the obvious and let the star gazer wonder at the intricate, did the good of optometry pass to everyday usefulness of mankind.

This progress has been most marked in the past few decades. Today vision is even more important and a progressive optometric profession is making it more useful.

Swing of Southwest Farm Markets

Southwest farm markets, the fourth week of January felt the impact of unsettled labor conditions and shortage of railroad cars at a time when demand for most products was at peak levels from both domestic and export buyers. This resulted in a generally strong prices trend except on eggs and vegetables, which are seasonally plentiful, according to USDA's Production and Marketing Administration. The egg market was very weak under increased supplies and only a fair demand until near the close of the period when a better tone became apparent at some of the larger price-setting terminals. This improvement followed announcement of proposed government buying of dried whole eggs and indications of more interest from storage operators. No

change was evident in the Southwest, however, where prices closed at the lowest level of the season. Poultry was steady to firm with offerings moderate to heavy and demand improved as a result of the meat packers' strike. Commercial fruit and vegetable movement from the Southwest is centered mostly in south Texas, where shipments to mid-January this year were about 15 per cent above the volume to the same date in 1945. Heavier movement of carrots and cabbage are largely responsible for this year's increase, which has been accomplished in spite of the limited supply of railroad cars and the interruptions in harvest operations that has resulted from unfavorable weather. Texas shipping point prices the past week were steady to slightly lower under a fair to moderate demand. Light shipments of sweet potatoes from Louisiana held firm at the ceiling. Irish potato prices in the San Luis Valley of Colorado closed weak under slow to fair buying.

Uncertain labor conditions tended to reduce sales of wool, with most interest for deliveries in March and April when orders for products made of previously purchased foreign wools will begin to expire. Most spectacular strength of the week was on cotton, which advanced about \$2.50 a bale before turning slightly lower at the close. The average price of Middling 15-16 inch in the ten designated markets went above 25 cents a pound for the first time since the mid-20's. Spot market activity increased with sales up 190,600 bales mainly of the lower grades in medium staple lengths. Grains continue very strong with quotations nominally at the ceiling under an excellent demand and very tight offerings. The feed supply situation is very acute with a considerable volume of barter and exchange trading of wheat and other grains for millfeeds reported. Scarcity of protein feeds has resulted in some mill shut downs in the Southwest. Peanut offerings also are far below trade needs at ceiling levels, with

mills generally working to fill back orders and practically no farmers' stock available. Livestock markets were crippled by the packing house workers' strike. Light to moderate receipts generally met a good demand from the slaughterers who were still operating and prices the early part of the week were very strong. Toward the close some cattle sold lower, but hogs kept a ceiling trend, and sheep and lamb sales remained too scattered to accurately establish prices. TO MOVE HERE L. W. Jaquess of Earth is building a four room and bath home in the Duggan Addition, construction of which started last week. Present plans are that Mr. and Mrs. L. M. Brandon, who are now living in Sunnydale, will move to this new home. Mrs. Brandon is a daughter of Mr. Jaquess. It is expected the house will be completed in about two weeks.

ENJOY RIDE ON TRAIN

Four and five-year-olds in a kindergarten class taught by Mrs. W. C. (Nibs) Warren of Sudan enjoyed a trip to Littlefield on the Santa Fe railroad recently. Most of the tots had never ridden on a train before, and the trip was undertaken as part of their classroom study on ways of traveling. A hospitable conductor showed the group through the train, even the dining car and kitchen, and gave his visitors special attention, "just like pre-war days," Mrs. Warren said. The little travellers included Donald Ormand, Guy Allen, Frank Foster, Jackie Burkes, Mary Janice Puckett, Jahn Holt and Ellen Warren.

Jim McGuire Buys Auto-Inn at Lubbock

Jim McGuire has purchased the Auto-Inn on the Slaton Highway in Lubbock, and took possession Friday. Mr. McGuire, however, plans to live in Littlefield. He has sold his farm and had an auction sale of his farm machinery and equipment Feb. 4. He has rented a home here, the former Wade residence and will continue flying instructions at Duggan Field. F. B. Pawley of Hule Center bought the McGuire farm, located eight miles south of Littlefield on Highway 51.

Efficient Service.....Always!

The heritage of Washington's courage has cloaked America with a mantle of invincibility, but even he laughed at danger once too often. "Let it go as it came," he joked about a cold he had caught. Fatal complications set in and three days later the Father of his country was dead. Never minimize the danger of a cold however trivial the infection may seem to you. Treat it as a joke and the laugh may be on you. Even a "slight cold" can weaken your resistance against serious diseases such as pneumonia and influenza.

Tax Collectors To Be at Local P. O. Feb. 18-19

In spite of all the changes in the income tax laws, March 15 is still the deadline for filing final income tax returns.

Everyone who had a gross income of \$500 or more in 1945 must file a return. This even includes minor children with \$500 or more gross income. In addition, many wage earners whose salaries were subject to withholding will not owe a tax for the year, but must, nevertheless, file a return in order to obtain a refund of amounts withheld by their employers from their salaries or wages.

In order to give taxpayers of this locality first hand assistance in the preparation of their returns, Deputy Collector Carl P. Shaffer and Samuel E. Gillispie will be at Littlefield Post Office on February 18th and 19th.

The Collector urges every taxpayer to make an effort to bring his tax problems before the Deputy Collectors named above, on the dates shown. The point is stressed that you must bring with you all of your Withholding Receipts, together with complete information as to all 1945 income, expenses and deductions. The Deputy Collectors will need this information before they can give you advice as to how to file your return.

Your cooperation in this matter will be of great service to the taxpayers of your locality, and much appreciated by this office.
