

# LAMB COUNTY LEADER

VOLUME XXVIII

LITTLEFIELD, LAMB COUNTY, TEXAS, THURSDAY, AUGUST 30, 1951

NO. 53

**OF 100 YEARS—**  
Mrs. W. Bennett of Littlefield, whose rare skill in crocheting has been developing an unusually long record for her one-hundredth birthday recently. Friends of the chipper old lady came from as far away as her native Mississippi for the occasion. —AP Photo

## HILLS PASSION PLAY WILL BE MOUNTED AT LUBBOCK SEPT. 21-26

Producers for years striving to produce hit plays have hit a play that is a hit, but the Hills Passion Play, which appears at the high school auditorium, Lubbock, Sept. 21-26, through September 26, in its 79th year of presentation. The play mounted in Lubbock by

## Awarded Master Of Education Degree

Don Hayes, band director of Littlefield Schools, received his Master of Education Degree at the Tech College Exercises Friday night.

Accompanying Mr. Hayes to Lubbock and to the exercises were Mrs. Hayes and daughter, Carolyn.

## Malcolm Stokes Returns from Korea

HA/SC Malcolm Stokes of the U.S. Navy returned to his base at Newport R.I., Sunday after spending a week with his parents, Mr. and Mrs. J. M. Stokes, and other relatives here. Malcolm was on a ten day leave.

He has recently returned from spending six months in Korea.

Stokes, who is a Hospital Apprentice, was taken to Amarillo by his parents, from which point he went by plane to Providence, R.I. and from that point back to Newport, seventeen miles distant.

Orders in such typical American cities as Seattle, Dallas, Fort Worth, Washington, Baltimore and Chicago.

This great drama carrying tons of scenery and electrical effects is one of the largest stage productions in the world today. The 22 principal roles enacted in the play are, of course, highlighted by the sincere portrayal given by Josef Meier as the Christus.

John Rosenfield, drama critic of the Dallas Morning News says, "Josef Meier's performance shows the perfection of years of training. His forceful gestures and kingly stride are often as effective as his resonant speech."

Other outstanding roles are carried by Clare Hume Meier as Mary, the Mother; Fred Hagen as Judas and Charles Arganbright as Pontius Pilate.

Advance seat sale opens Friday, Sept. 7th at Hilton Hotel Lobby, telephone 3-7390.

Evenings and Sunday matinee, \$1.20, \$1.80, \$2.40, \$3.00, \$3.60 (reserved). All prices include tax.

Student and adult matinees; students 60c, adults \$1.80 (not reserved). Evenings 8:15 p.m. Sunday matinee 2:15 p.m. Student matinees 2:15 p.m.

## Health Officer Says Children Should Be Examined Before Entering School

"Children are not really ready to enter school until they have had a complete physical examination," Dr. Geo. W. Cox, State Health Officer reminds parents. "All boys and girls enrolling in the kindergarten or first grade classes of Texas schools should be taken to their physicians, or to a public health clinic, for an immediate physical check-up if they have not had such an examination in recent months."

"It is important to act as promptly as possible. This is recommended in order to allow time for medical treatments or corrections that may be necessary before school opens. No youngster should be permitted to begin a school career with less than the best possible physical equipment."

"As most parents know, vaccination against smallpox is necessary. Those who received this immunization in infancy should be vaccinated again in order to assure a high degree of immunity and those who have never received this protection should be vaccinated without delay."

"Diphtheria immunization is also an important safeguard for all boys and girls about to enter school. Those who have never been immunized against this disease should receive toxoid shots now. Children who were inoculated against diphtheria when they were babies should now have a 'booster dose' in order to maintain their immunity at a sufficiently high level."

"Other immunizations that the individual physician may recommend are also desirable as further health protection. Whooping cough, typhoid fever and tetanus are among the diseases against which the doctor may advise safeguards."

## Band Practice Set For Tonight

Uniforms were issued Monday to the members of the Littlefield High School Band, and preparations for opening of school are underway, according to Don Hayes,

## Emmanuel Lutheran Church to Sponsor "Light A Mighty Army" Sunday, Sept. 2

Humorous, heart-touching, true-to-life, yet Christ-exalting is "LIKE A MIGHTY ARMY," the main feature of the movie night scheduled for Sunday, September 2, 8:00 p.m. in the local high school auditorium. Sponsored by Emmanuel Lutheran's Walther League society, the pictures will provide Christian growth and joy for those present.

"LIKE A MIGHTY ARMY" is the story of a congregation that goes to sleep after the building program has been cared for and all

quotas have been met. All are asleep except Eddie Collins, a young layman of the congregation, who says, "If we believe in Christ, we should do something about it."

Also scheduled for this high school auditorium presentation is "Washington, Shrine of American Patriotism"—a picture of Washington, D. C., its historic and patriotic landmarks. No admission charge, but a free-will offering will be received.

You are welcome!

# Crime And It's Origin

Shocking disclosures of organized crime and power of the underworld this year have led to popular demand for better law enforcement and purging its ranks of any corruption that tolerates lawlessness.

It is fitting now that the side of the law enforcement in this vital problem has been presented by the National Association of County and Prosecuting Attorneys. Its statement at a recent convention voiced "deep concern over evidence of a breakdown in the moral and spiritual life of our citizenry." The prosecutor, it was explained, can not enforce the laws unless the people abhor crime. Popular apathy is an unsurmountable barrier to law enforcement.

There is considerably more to public support of law enforcement than service on juries, being witnesses in court and election of high-caliber men to office. Every unlawful activity in a community is dependent upon its patrons, often respectable citizens, and could not flourish but for the tolerance and

tacit support of the citizenship. Power of the underworld is commensurate to its wealth. Fearless law enforcement can mean political death for the enforcer.

We hold no brief for organized crime, law enforcement and corruption which eat away the moral fiber of a nation, but we believe the sources of these social cancers should be recognized. The power of the people is supreme in a democracy but is atrophied when not used.

The strength of democracy rests upon the integrity and worth of the individual, which can not be delegated to government. The effort to shift the citizen's responsibility to government is only means for evading one's own guilt. Law-abiding people, if in the majority, could make a community law-abiding. The people themselves must have definite moral convictions and the courage not only to assert them but to apply them to their own lives. —Star-Telegram.

# How You Can Make America Strong

Let's stop talking about this crisis, and do something. All the words in the world aren't going to make us strong enough to defend ourselves from attack. Work will.

Plain, unadorned, dull, routine work. We are the people who have got to provide the things needed to protect our freedom. Not neces-

sarily working in a defense plant, either. Some of us will be making defense materials, but most of us must remain at our jobs.

And we must work hard at those jobs. We don't have to wait for a go-ahead from the government.

We can start today. Work harder, work better, produce more. The

more we put out the more we produce. Multiply that a few million times, and America has more goods more products, more wealth, to foot our freedom bill. It's going to be a big bill. American brains and brains can pay it. Let's get going.

# Health Talks

Prepared by the State Medical Association of Texas

Calories seem much easier to understand when they are explained by any means other than what they are, units of heat. So suppose you consider calories as pennies, ten calories to a penny, and take up the subject of a 1500-calorie diet as it would look in dollars and cents.

You can budget this \$1.50 diet just like you do your business or household finances.

Everyday you are given \$1.50 to

spend on food and just to make it a little easier you are given an extra ten per cent, 15 cents, in case you absolutely can't stretch that allowance to cover your needs; that 15 cents will be disregarded in the original reckoning, however, but you have that to fall back on occasionally.

Before you start figuring how you're going to spend your salary or household allowance you always have to take out first the money

for such necessities as rent, utilities and groceries. You have to do the same thing with your diet budget. Since you must observe the rules of good nutrition, even on a diet, you first take out of your \$1.50, the allotments for milk and milk products, bread, and food fats. Milk will cost you 33 cents of your budget money, bread will run 20 cents, and fats will be 17 cents. So before you start figuring you've already spent 70 cents. But you've taken care of three of the seven basic items.

The other 80 cents, divided among the other four of the seven basic foods, will have to be distributed for best purposes as 18 cents for fruits, 10 cents for potatoes, and 5 cents for vegetables, leaving 47 cents for meats. Meats run awfully high in a calorie budget, even as they do in a money budget, so that really isn't as much meat as it seems; it includes eggs, too.

Then you start figuring a little closer on each item to see what you can get for your money.

Bread is pretty easy to figure out. You get three slices a day which should be eaten one at each meal. That takes for granted that you are eating three meals a day because if you don't this type diet won't work, anyway; it is based upon no skipping of breakfast. To provide the bulk and proper nutrition of the diet, the bread quota is usually broken down into two thin slices of enriched white bread and one thin slice of whole wheat.

Bread and butter on a reducing diet may seem foreign to anything you've ever heard of before but their inclusion is considered necessary to maintain good health even while taking off a few pounds at a time.

Butter or margarine fortified with vitamin A is allowed on the diet, encouraged on the diet, in fact for five teaspoonsful. Two teaspoons of French dressing may be substituted for one teaspoon of butter and one teaspoon of mayonnaise or salad dressing is also considered the equal of one teaspoon of butter.

Then on the subject of milk, you are allotted one pint of fresh whole milk a day. That includes milk you may use in coffee or in cooking, milk for all purposes.

There are also substitutes for milk which may be included in the diet regularly or occasionally in place of the pint of whole fresh milk. Since milk is supposed to be 33 cents of your calorie budget, you could take your pick of the other items, up to 33 cents, in place of a pint of milk.

The values of other milk products are about as follows:

Two tablespoons cream for coffee, 11 cents; two and a half tablespoons cottage cheese, 5 cents; one inch cube Cheddar type cheese plain or grated, 8 cents; cultured butter-

# Price Specialist To Be Here Sept. 4

Office of Price Stabilization Specialist Sam R. Blake will be prepared to answer questions regarding the pricing of toys and Christmas decorations—amendment 8 to Ceiling Price Regulation 7—when he conducts his clinic in Littlefield next Tuesday morning, Sept. 4.

Through the joint sponsorship of the Lubbock District OPS office and the local Chamber of Commerce, Retail Merchants Association, he will maintain offices while here in the Chamber of Commerce.

The OPS specialist will be able to provide answers for all types of businesses concerning compliance with the federal pricing regulations. Merchants are invited to take advantage of his presence in the town to bring their operations into full compliance with the newly-amended Defense Production Act's stabilization program.

# Information For Veterans

Questions and Answers Q—During my service in the Navy, I received two service-connected disabilities — one during peacetime and the other during World War II. Now that I have been discharged, could I get two separate disability compensation checks from VA, one for each disability?

A—No. Only one compensation award may be paid to an individual veteran, regardless of the number of disabilities he may have incurred. However, if VA approves your claim for disability compensation, payment for your combined disabilities will be made at wartime rates, despite the fact that one of the disabilities occurred during peacetime service.

—Does a veteran with a dishonorable discharge have the right to file a claim for a VA benefit?

A—It is always the privilege of any veteran to file a claim with VA. But in order to establish eligibility for VA benefits he must prove he was insane at the time he committed the act for which he was dishonorably discharged.

Q—Are the widower and children of a woman veteran entitled to pension at her death?

A—Under present laws, the widower is not entitled. But surviving children may be entitled if eligibility requirements are met.

Q—I signed a statement before my discharge that my disability existed before I entered service. Will this render me ineligible for disability compensation?

A—No. One provision of the GI Bill nullifies any such statements made at the time of discharge. Decision as to whether your disability was incurred in or aggravated by your service will be made by VA. Compensation may be awarded for service-aggravated disabilities which existed prior to service.

# Name Members To M'Murry Faculty

Three department heads, an administrator and a women's physical education director complete the list of new members to the McMurry College faculty for 1951-52.

John Roy Hilliard, former biology professor at Trinity University, has been named head of the McMurry Biology Department, while James McCollough who just completed his graduate work at the University of Oklahoma, has been appointed chairman of the Art Department.

Dr. Andrew C. Rockover, who has been teaching at Lambetham College in Jackson, Tennessee the past year and who was with the Polish government in exile during World War II has been named successor to Dean of Women Jennie

milk or skim milk, each 9 cents for a half-pint; small glass of fresh whole milk, (4 ounces), 8 cents; or the big baby of the milk family plain ice cream, 21 cents.

You can see from such a table as that, if you don't drink milk normally then there are many different ways you can substitute for it and still get the amount of milk products which is considered essential to good health. For instance you could use cream in your two ups of coffee and eat a half cup (measuring cup of ice cream and use up your calorie cents that are allotted to milk products; two tablespoons of cream are 11 cents and a half cup of ice cream is 21 cents.

So there is plenty of variety and good food available on a sensible diet. When diet guarantee to take pounds off faster than your doctor considers safe, they exclude these foods which are considered, medically, vital to good health. A good diet which will reduce the weight sensibly over a period of time is not really so drastic a change as it is simply a new awareness of the amounts of food which you eat.

For summer leaves, chicory, also known as endive, is more available than lettuce, which usually runs to seed in midsummer. Endive may be had with curly leaves, or broad leaves. Many like the curly leaves best for summer, and broad leaves (escarolle) for fall, as they endure frost and become sweeter after the first comes. Sow both types in drills, thin out to six or eight inches.

Leaf crops grown in a similar manner, and much esteemed in bowl salads, include corn salad, which is very hardy and can be harvested late in the fall; and up- land garden cress, which gives a pungent flavor to the salad.

In the fall lettuce may be grown again; and the Chinese cabbage leaves are delicious. Chinese cabbage may be grown in the spring, with rich soil and an early start. But in midsummer, it always runs to seed. A late crop has no such tendency, and heads are easily produced in the fall, from plants started in late June.

All leaf crops demand rich soil. They must grow fast without check, otherwise the leaves are tough and have a bitter flavor. Plant food should be applied to the soil in which they grow at the rate of 4 pounds to 100 square feet.

# SPORTS

Texas national guard unit now in encampment. They are due to re- port a day late, Sept. 2.

Assistant coaches are expected to report to head mentor Warren Woodson August 27 and immedi- ately begin mapping out plans for the 1951 slate, which will see the Cowboys play 11 games.

There will be nearly 75 candi- dates on hand for the opening workouts and Woodson has sent word to his boys to be in good conditions for the sessions. Wood- son figures that the Cowboys' 1951 card is the toughest in the history of the school, including the 1942 slate when the Pokes met two Southwest Conference eleveners, Baylor and SMU. "So we will have to settle down to serious business in a hurry," Woodson says, with the first game slated with College of the Pacific, Sept. 2.

Minus John (Model T) Ford, quarterback star, and 18 other 1950 lettermen, Cowboy fans are expect- ing no miracles this year.

"The spirit of the squad in past spring drills was excellent and we expect it to be the same this fall," Woodson says. They are a fine group of men who will try to give a good account of themselves.

On the bright side of the picture is the fact that 19 lettermen are returning to the Forty Acres. "But 19 lettermen returning does not mean as much as it has in the past, for many of them are special- ists," Woodson points out.

Of the 19 letter winners return- ing 13 are linemen and six are backs. Linemen returning are: Gene Offield, Bill Cagle, Kenneth Watson, ends; Clinton (Cush) Holder, Jerry Cooper, Travis Kel- ley and Beau Champagne, tackles; Wade Musgrove, Bill Golman, Pat Tone, and Weldon Boggus, guards; Roy Carter, and Maurice Wagues- pack, centers.

Backs returning are: Bob Hart, Bill Davis, Mitchel Malouf, Harold Taylor, Dunny Goode, and Chic Tiger. Squadmen returning from 1950 are quarterback Jim Riddle and Bob Balch, Burl Troutman, Richard Ham, and Sherry Nall, all linemen. The Cowboy mentors are also expecting help from ten mem- bers of last year's freshman But- ton team—Chester Lyssy, D. C. Andrews, Jerry Alen, Ed Crow, Wayne Adams, and Joe Martin. Linemen, and Riley Cross, Harry Tipps, Frank Gage, and Joel Combs backs.

The world's finest model plane craftsmen will demonstrate the results of their ingenuity in Detroit during Plymouth Motor Corporation's Fifth International Model Plane Contest, August 22-27. Here is the smallest flying machine in the world—smaller than your hand and aerodynamically sound! In the background is the largest scale model plane built by Jim Pappas of 619 Pine Street, Indianapolis.

## IRYAAS OF THE IPTAYS IS CLEMSON'S HOWARD; MATERIAL HIS WORRY

AP Newsfeatures SANANTONIO, Tex.—Star of the Texas coaching school was a big, bald-headed fellow named Frank Howard.

Howard, who piloted Clemson to an unbeaten season and victory in the Orange Bowl, was one of the instructors at the school.

Frank gives the impression of an unschooled hillbilly.

"One of the alomnye calls and says there's a 210-pounder who can run 100 yards in 10 seconds, and I oughtta get on him quick, I did. I went to a farm home and saw a boy in the yadh who ain't no bigger'n yo fist—must not weighed over 130 pounds. I asked him if he knew the boy I was lookin' foah and he says, 'I'm him.' Well, naow, I ain't gonna get roped into takin' this little squirt. So I just saps: 'I'm takin' magazine subscriptions. You wanta subscribe?' That got me out of it."

Somebody asked him if he plan-

ned to stay at Clemson. "They won't fiah me," he replied, "because I'm going to always win. That's they way to stay as coach —win."

Howard says he has a lot of re- cruiting troubles. "Ouah jawgraphy gets us down," he declares. "Weah hemmed in by Tennessee on one side, Jawgia and Jawgia Tech on anotheh, Duke and Nawth Carolina on anotheh." Somebody said that was three sides, how about the other. "Ocean," replied Howard. "Sometimes it looks like all weah gonna get is salt water."

Howard says he is the Exalted Iryaas of the IPTAY at Clemson. The IPTAY is an organiza- tion of Clemson athletic boosters; the initials stand for I Pay Ten Dollars A Year. Members of the IPTAY contribute to the athletic fund, which Howard administers with sole authority. The purpose is to get suitable football material.

## WYROSTEK HITS SINGLES, FORGETS HOMERS; HAS .323 AVERAGE

AP Newsfeatures CINCINNATI—Johnny Wyrostek of the Cincinnati Reds has accept- ed the fact that hitting the ball is just as important as slugging the spheroid. It has made the right fielder a .300 hitter.

Wyrostek, 32-year-old resident of East St. Louis, Ill., has been kick- ing around the major leagues since 1942. Other players long have con- tended that he had all the makings of a star.

He was on the way last year when a broken ankle knocked him out of the lineup for a long stretch. He was hitting better than .300 when hurt and wound up with a respectable .285 average.

This season it's a different story. The quiet and workmanlike Wyro- stek slipped under the .300 mark for about a month in May and June but he's been above that coveted figure ever since. And he was a member of this year's National League team in the All-Star game.

Here is how he explains it:

"I finally convinced myself that I'm not a power hitter and have simply been concentrating on hit- ting the ball solidly with no thought of busting it out of the park. I just pick a pitch I like and hit it where it's pitched.

"That's a big satisfaction in hitting a home run, greater than any single or double ever could be. The temptation to swing for distance is hard to over come.

"But I finally icked it and I'm a better hitter. I haven't changed my stance or anything like that. I'm going for the base hit all the time now."

Frost is in the records. Wyrostek hit 17 homers in 1948. Through Cincinnati's first 112 games the fancy fielding outfielder had club- bed only two home runs and three triples. But he had sprayed 135 singles and doubles, driven in 55 runs and was batting .323.

His new attitude also proves that left-handed hitters—at least some of them—can hit left-handed pitch- ers. Wyrostek is hitting better against southpaws than against right handers.

Before joining the Reds in 1948, Wyrostek had seen major league service with the Pirates and Phil- lies. His .285 of 1950 was his best mark.

He had a great year in the American Association, however. That was in 1944 when he hit .358 for the Columbus Red Birds.

In addition to his consistent hit- ting, Wyrostek is a manager's deli- light. He has remained in right field—against all kinds of pitch- ing.

Wyrostek has played every posi- tion in the outfield and also a stint at first base for the Reds.

Thyme, a popular seasoning to- day, was used by ancient Greeks as incense for their temples.

## WILDCATS FALL SCHEDULE

The following schedule for the Wildcats fall season has been announced by Coach Jay Fikes.

**HOUSE JOINT RESOLUTION NO. 2**

PROPOSING AN AMENDMENT to Section 49-b, Article III, Constitution of Texas, so that the total amount of bonds or obligations that may be issued by the Veterans' Land Board is increased to One Hundred Million Dollars (\$100,000,000); providing for the issuance of said bonds and certain conditions relating thereto and the use of the Veterans' Land Fund; providing for an election and the issuance of a proclamation therefor.

**BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:**

SECTION 1. That Section 49-b, Article III, Constitution of Texas, be amended so that the same will hereafter read as follows:

"SECTION 49-b. There is hereby created a Board to be known as the Veterans' Land Board, which shall be composed of the Governor, the Attorney General, and the Commissioner of the General Land Office. The Veterans' Land Board may issue not to exceed One Hundred Million Dollars (\$100,000,000) in bonds or obligations of the State of Texas for the purpose of creating a fund to be known as the Veterans' Land Fund. Such bonds shall be executed by said Board as an obligation of the State of Texas, in such form, denominations, and upon the terms as are now prescribed by Senate Bill No. 29, Chapter 318 of the Acts of the Fifty-first Legislature (provided, that when the limitation of Twenty-five Million Dollars (\$25,000,000) is used in said Senate Bill No. 29, the same shall hereafter be construed as One Hundred Million Dollars (\$100,000,000), or as said Act may be hereafter amended, or by laws that the Legislature may hereafter enact; provided, however, that said bonds shall bear a rate of interest not to exceed three per cent (3%) per annum, and that the same shall be sold for not less than par value and accrued interest.

"IN THE SALE of any such bonds, a preferential right of purchase shall be given to the administrators of the various Teacher retirement funds, the Permanent University Funds, and the Permanent School Funds; such bonds to be issued as needed, in the opinion of the Veterans' Land Board.

"THE VETERANS' LAND FUND shall be used by the Board for the sole purpose of purchasing lands suitable for the purpose hereinafter stated, situated in this State: (a) owned by the United States, or any governmental agency thereof; (b) owned by the Texas Prison System, or any other governmental agency of the State of Texas; or (c) owned by any person, firm, or corporation.

"ALL LANDS thus purchased shall be acquired at the lowest price obtainable, to be paid for in cash, and shall be a part of the Veterans' Land Fund.

"THE LANDS of the Veterans' Land Fund shall be sold by the State to Texas Veterans of the present war or wars, commonly known as World War II, and to Texas Veterans of service in the armed forces of the United States of America subsequent to 1945 as may be included within this program by legislative act, in such quantities, and on such terms, and at such prices and rates of interest and under such rules and regulations as are now provided by law, or as may hereafter be provided by law.

"ALL MONEYS received and which have not been used for repurchase of land as provided herein by the Veterans' Land Board from the sale of lands and for interest on deferred payments, shall be credited to the Veterans' Land Fund for use in purchasing additional lands to be sold to Texas Veterans of World War II, and to Texas Veterans of service in the

armed forces of the United States of America subsequent to 1945, as may be included within this program by legislative act, in like manner as provided for the sale of lands purchased with the proceeds from the sales of the bonds, provided for herein, for a period ending December 1, 1959; provided, however, that so much of such moneys as may be necessary during the period ending December 1, 1959, to pay principal of and interest on the bonds heretofore issued and on bonds hereafter issued by the Veterans' Land Board shall be set aside for that purpose. After December 1, 1959, all moneys received by the Veterans' Land Board from the sale of the lands and interest on deferred payments, or so much thereof as may be necessary, shall be set aside for the retirement of said bonds and to pay interest thereon and any of such moneys not so needed shall not later than the maturity date of the last maturing bond or bonds be deposited to the credit of the General Revenue Fund to be appropriated to such purposes as may be prescribed by law. All bonds issued hereunder shall, after approval by the Attorney General of Texas, registration by the Comptroller of the State of Texas, and delivery to the purchasers, be incontestable and shall constitute obligations of the State under the Constitution of Texas. Of the total One Hundred Million Dollars (\$100,000,000) of bonds herein authorized, the sum of Twenty-five Million Dollars (\$25,000,000) has heretofore been issued; said bonds are hereby in all respects validated and declared to be obligations of the State of Texas. This amendment shall become effective upon its adoption.

SEC. 2 The foregoing Constitutional Amendment shall be submitted to a vote of the qualified electors of this State at an election to be held throughout the State on the second Tuesday in November, 1951, at which election all voters favoring the proposed Amendment shall write or have printed on their ballots the following words:

FOR THE AMENDMENT to Section 49-b, Constitution of Texas, for increasing Veterans' Land Fund for the purchase of lands in Texas to be sold to Texas Veterans of World War II, and to Texas Veterans of service in the armed forces of the United States of America subsequent to 1945."

THOSE OPPOSING said proposed Amendment shall write or have printed on their ballots the following words:

"AGAINST THE AMENDMENT to Section 49-b, Constitution of Texas, for increasing Veterans' Land Fund for the purchase of lands in Texas to be sold to Texas Veterans of World War II, and to Texas Veterans of service in the armed forces of the United States of America subsequent to 1945."

IF IT APPEARS from the returns of said election that a majority of the votes cast were in favor of said Amendment, the same shall become a part of the State Constitution and be effective from the date of the determination of such result and the Governor's proclamation thereof.

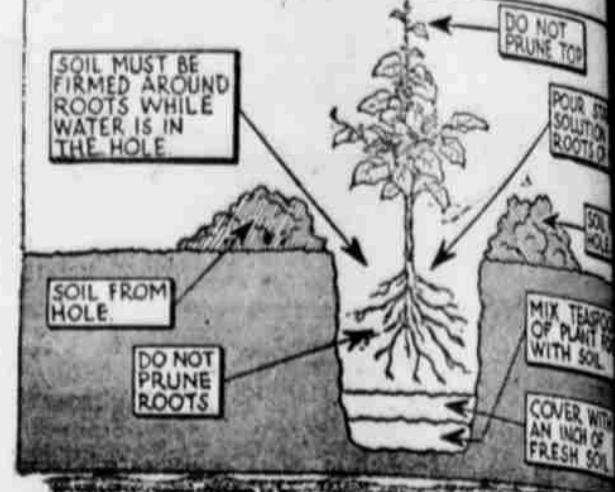

SEC. 3 The Governor of the State of Texas shall issue the necessary proclamation for said election, and shall have the same published as required by the Constitution and laws of this State. Pub. August 9, 16, 23, 30.

**INFLATIONARY DOWRIES**

**KHARTOUM, Sudan (AP)—**The official Sudan Monthly Record reports that the high price demanded as a bridal dowry is causing serious difficulties in remote Equatorial province, just north of the African equator. The record says two tribal councils recently discussed "the high tendency to hire temporary bride price with the temporarily rather than buy for permanence."

**Use The Classified**

**Plants Grow Faster When Moved This Scientific Way**

**Latest Transplanting Methods Approved by Experiment**

When the danger of frost is over, garden plants which have been started under protection can be moved to the garden. By using methods which have been developed by research, amateurs willing to take care can start plants growing in their new homes with a minimum of shock, without wilting, and without losses.

In the diagram above, the best methods of procedure as recommended by research scientists are illustrated. Transplanting is horticultural surgery, and so every step in this technique has been carefully tested. To prepare for transplanting the plants should be fed with liquid plant food a week before the operation. The day before, a starter solution should be prepared, by hanging a cloth bag containing chemical plant food in a bucket of water and letting it soak overnight. Use 4 ounces of a 4-1-4 mixture or similar to each gallon of water.

Make a hole for the plant large and deep enough to hold its roots without crowding. Mix with soil at the bottom a teaspoonful of plant food, and cover this with soil. Set the plant in place, then pour into the hole, over the plant roots, 1/2 pint of starter solution. While the solution is in the hole, the loose soil and firm a plant. The solution supplies nutrients but prevents about the roots, making contact between soil and making it easy for the roots to grow very much.

Roots of plants should be pruned, as shown by the diagram. In removing pots, flats or seed beds, be taken to avoid breaking system. Replacement of must take place before can grow very much.

Tops of plants should be pruned, as shown by the diagram. Pruning a "factory" which is a new plant material upon which growth depends is likely to take more than necessary. Dead dead tissue does not wholly dead leaves are off.

Shading is good for plants are succulent, and air are dry and hot. But good plants should be set successfully especially if water or attention is used or if between soil and roots otherwise.

**Harvest of Top Quality**

**If You Cannot Use All the Beans You Harvest, Put Them Up!**

The beans which grandmother called "string beans," now known as "snap beans," because the strings long ago disappeared, are excelled by few other vegetables in the food they produce, for the area occupied. One of the first triumphs of plant breeders in this country was the production of the "stringless" bean; and improvement has continued with remarkable results.

Several new varieties of high merit are now available, of top table quality combined with record yield. They bear round pods, exceptionally long, and filled with nutritious "meaty" tissue if they are picked before the seeds form. They give a large yield because they live longer, being resistant to the plant diseases which shorten the lives of older varieties.

Just keep them picked off so no seeds can form, and you will enjoy beans of such flavor and tenderness as none except home gardeners can experience.

Never sow beans until all danger of frost is over. They are extremely sensitive to cold air and cold soil. Greatest improvement in quality has been made in bush beans, as distinguished from pole beans, though many find the latter excel-

**BY LOUIS RICHARDS**

# SPRINGLAKE NEWS

Mrs. Mabel Loftis spent several days with her brother Haskell Hooten, and his family in Colorado.

Mr. and Mrs. Ernest Goforth attended the wrestling match in Amarillo, Thursday.

Mr. and Mrs. J. B. James and family are vacationing in Yellowstone National Park.

Mr. and Mrs. Duck Packard spent several days visiting points of interest in Missouri, Arkansas and Oklahoma.

Mr. and Mrs. J. T. Gibson and Charlotte enjoyed a visit from Mrs. Gibson's sister-in-law, Mrs. Drummond Bartlett and daughter of Waco.

Mr. and Mrs. J. T. Dent, Stockton, California are visiting their sons, L. H. Dent, Springlake, and Judge O. F. Dent, Littlefield.

The W. W. Bearden family is vacationing in Colorado this week.

Mrs. Blake returned to her home in Oklahoma City after a two weeks visit with her mother, Mrs. Banks, and other relatives.

Mr. and Mrs. Ralph Rudd visited with Mrs. Rudd's sister in Clovis, New Mexico, Saturday night.

Postmaster W. C. White and Mrs. W. C. White, Springlake, left Tuesday for a 10-day vacation in Kansas and Missouri.

The Orlean Bibby's and daughter, and an uncle from Commerce are vacationing in Colorado.

Mr. and Mrs. G. W. Simmons left Thursday for a visit with G. W.'s sister and family, Mr. and Mrs. Ben Slay and daughters in Kerens, Texas. They were accompanied by Miss Willie Belle Slay who had been visiting relatives here for the past two weeks. They returned home Sunday.

**DALLAS VISITORS**  
Mrs. and Mrs. C. B. Harrison of Dallas spent Saturday night visiting with Mr. and T. T. Harrison, while enroute to their home after a month's trip to California.

## Winnsboro To Have Clear Water

WINNSBORO, Tex. (AP)—Within a few weeks housewives will find just plain water when they turn on their faucets. No red water.

For a year, the reddish tinge of the water here has angered housewives. Now a new well is being sunk in the northeast part of Winnsboro. Mayor Malvin Cain sized up a sample from a test well at the side and declared:

"The analysis of the sample shows only one tenth of one part (of red) in a million parts. I don't believe anyone will 'see red' when a faucet is turned on."

**HANDY SHORTY**  
OGDEN, Utah (AP)—One of the sandest men around the huge bombers at Hill Air Force Base is 30-pound Shorty Osborne.

Only 52 inches tall, Stanley Osborne can crawl into tight places in bomber wings and tails to make repairs. He is a mechanic and 25 years old.

**TEXANS IN NETHERLANDS**—The four Air Force Texans shown with Lt. Gen. I. A. Aler (center), chief of the Royal Netherlands Air Force, are aiding in the build-up of a small, but hard-hitting jet air force for the Dutch. This picture was made at Ypsenburg airfield, near The Hague, where Gen. Dwight D. Eisenhower spoke when the first F-84 "Thunderjet" was turned over to the Dutch under the Mutual Defense Assistance Program. Left to right are: Col. Eugene Callahan of San Antonio, chief of the Air Force section of the Military Assistance Advisory Group; Lt. Col. Robert "Tex" Holmes of Silsbee, chief of aircraft maintenance for MAAG; Gen. Aler; Maj. William Van Marter of New Braunfels, chief of technical training for MAAG; and M/Sgt. Samuel "Sambo" Lee of Taylor. —U. S. Air Force Photo via AP Photo.

## "Your Child's Education" to Be Topic At Emmanuel Lutheran Church

With the beginning of another school year, Sunday's emphasis will be "YOUR CHILD'S EDUCATION" at Emmanuel Lutheran Church, 417 West 3rd, in the 11 a.m. hour of worship.

Also beginning Sunday, September 2, Emmanuel Lutheran's time schedule goes back to 11 a.m. for the hour of worship and 10 a.m. for Sunday School and Bible Classes.

### Whiteface Man Pays Top Price For Hog

W. J. Cotton of Whiteface paid the top price for a hog Saturday in the West Texas Duroc Breeders association sale and type conference at the Texas Tech cattle pavilion in Lubbock. He bid \$150 for a bred gilt owned by H. H. Oliver, Abernathy.

Approximately 300 people attended the sale and conference. Kenneth Bozeman, auctioneer reped the block on 24 bred gilts, eight open gilts and four boars.

### Fire Sunday In Lamb Wrecking Yard

Littlefield Fire Department was called Sunday evening about eight o'clock, due to a fire in the offices of the Lamb County Wrecking Yard. The fire was of minor consequence and was extinguished by chemicals.

If a good natured girl rounds up a blind date for one of these lateless Susies, she is not satisfied. Usually, she likes the other girl's boyfriend better than the one she is dating.

If you get a reputation for that sort of piracy, you'll have trouble getting dates at all. Remember that most school girls depend on brothers of class mates for dates, and if you get a reputation for being a date thief, you'll be a pretty lonely lassie.

5. Did you depend on your roommates to do your chores? Sometimes the other tenants will do your share because they can't bear untidiness. Don't think they do your job because they like you, especially.

Make a habit of doing your chores as soon as you crawl out of bed in the morning. It is easy to pick up, make the bed and dust while you are still almost asleep.

6. Did you develop a blasé attitude toward life, because you became acquainted with a cynical clique?

Actually you should stick to your own guns when it comes to making decision which affect your manners or morals. If you've been accustomed to going to church, don't let others persuade you not to go. Young people are likely to think that part of being grown up is avoiding pre-school good habits whether it is church or sending birthday cards.

7. Did you indulge in gossip more often than good wholesome chit-chat?

People get hurt by gossip, especially within the confines of a campus. If you've made a habit of carrying every story you hear, and perhaps embellishing it, make a resolution to imagine yourself in the spot of the person you are maligning, and perhaps you will change your tune.

**VISIT IN WALLACE HOME**  
Mr. and Mrs. Floyd Creager of Tulare, Cal., visited a few days with Mr. and Mrs. H. L. Wallace this week and they all went through the Carlsbad Caverns Thursday. Mrs. Creager is Mr. Wallace's sister.

The largest lamasery in Tibet, housing more than 3,000 monks, is named "The Island of Completely Victorious Joyfulness," in English translation.

## TEEN TALK

By VIVIAN BROWN

### AP Newsfeatures

A new school year offers a wonderful opportunity to wipe the slate clean. All the little bad habits we formed during last school year showed perhaps that we're just weak Anlies under the skin.

The best way to strengthen character is by self-denial, hard work and taking a cheerful attitude toward chores. Think about the easy groove you slipped into last year, and then make a firm resolution to be a tougher character this year. For instance:

1. Did you find that you couldn't resist a date, even if it was for the night before your big examination? And, that you'd rather take the risk of falling than losing the man of the moment?

If that was your weakness, make a firm resolution that school comes first. After all, there always is another man around the corner, but you can't always retrace your steps if you've lost the opportunity to get a good education.

2. Did you get in the habit of letting laundry pile up? Instead of doing your underwear and stockings every night did you let your wash accumulate until you had nothing clean to wear?

It is much easier to wash a few things every night, even if you must keep your eyes open with toothpicks. Once wash accumulates, it might be a long unpleasant chore to do the laundry.

3. Did you keep the family in debt trying to keep up with the Jones girls? Every time Mary or Sally Jones got a new dress or unique accessory, did you write home to complain to Mom that you were being cheated.

Clothes do not make the girl. Even if you show up in a flour sack, you will be popular provided you are a nice person, anyway. It is pretty silly to worry Mom and Pop who have plenty of other bills.

4. Did you get your own dates or did you wait until another girl showed up with a boy, and then try to take him away?

Some girls never can manage to get dates for themselves, and even

## Anton P.T.A. Is Organized

Mrs. W. M. Alexander has been elected president of the newly-organized Anton Parent-Teachers association.

Mrs. M. C. Butler of Lubbock, district P.T.A. president, attended the organizational meeting and gave a talk on P.T.A. work.

Other officers of the new organization are Mrs. Hobart Lewis, vice president; Mrs. Alma Tate, recording secretary; Mrs. Wayne George, treasurer; Mrs. J. B. Perry, parliamentarian, and Mrs. H. M. Christian, corresponding secretary.

Twenty-six persons paid dues and became members of the P.T.A. The first regular meeting will be held at 3:30 pm, Sept. 4 in the high school auditorium.

## ANTON YOUTH IN NAVY HOSPITAL

Donald Jones, 18, son of Mr. and Mrs. Curtis Jones of Anton who is a patient in the U. S. Naval Hospital is improving according to reports.

He has been a patient with rheumatic fever since May 27. He will be there for some time yet it is thought.

He graduated from Anton High School in May 1950.

He left Lubbock April 17, 1951 for San Diego to begin his Navy training. He had been there only four weeks when he became ill.

**WHITHARRAL SCHOOL TO OPEN SEPTEMBER 3**

The Whitharral school will open Monday, Sept. 3, preceded by a faculty meeting at 9:30 a.m. Saturday, Sept. 1, Chester L. Borders, superintendent, announces.

Three vacancies remain to be filled before the faculty is complete. Teachers are needed for third grade, fifth grade and public school music. The itinerant teacher for

Whitharral and Pettit is yet to be chosen.

B. J. Thomson is high school principal and O. T. Ryan is grade school principal.

L. C. (Tot) Lewis, Custodian, has been quite busy this summer—finishing desks and floors and painting woodwork.

The first football game of the season will be played Sept. 7 at Anton.

**Sweet Peppers Rich in Vitamins**

Green Peppers Turn Red or Orange As They Ripen.

A few plants of sweet peppers, set out in the garden after danger of frost is over, will give big returns for the space they occupy. They are among the richest of vegetables in vitamins A and C and can be served raw in salads and cooked in many appetizing ways.

Early varieties can be grown from seed sown outdoors, after the ground warms up, but it is better to start plants indoors or buy them in the market. The plants are very tender, and should not be set outdoors until it is safe for tomatoes.

Space the plants 18 inches apart in the row and give them frequent cultivation. They like a rich, heavy soil, but thrive in lighter soils if given plenty of water. The pepper is one plant which likes a bath now and then; it can be washed off with the hose and will thrive the better for it.

They grow rapidly and once they begin to bear they continue to produce fruit until frost kills the plants in the fall. A dozen plants will usually be sufficient for a family of four. They have a long season during which they are in good condition; the color changes from green to red and the vitamin A content increases with this change. The red peppers are highly decorative, and there are also attractive orange varieties.

The only insect likely to attack peppers is a flea beetle, which can be discouraged by spraying or dusting with nicotine or D.D.T. There are no diseases likely to bother.

Hot peppers are seldom grown in gardens, but if you wish to try them the same general cultural methods will suffice.

**Egg Plant Good and Good Looking**

Pick Eggplant Fruit When the Skin is Shiny.

Though of American origin, egg plant is more popular in Europe and in the orient than in this country. Its nutritive value is high, and there are many tempting ways of cooking it.

Egg plant is closely related to peppers and tomatoes and takes so long to mature that plants are nearly always started indoors and transplanted to the garden. The plants require an even temperature and do not thrive in cold frames. A dozen plants are sufficient for the average family.

The dark purple fruits are highly decorative, and if you plan to enter a basket of vegetables in the harvest show, an egg plant is an absolute must in arranging an attractive display.

D.D.T. has been a boon to egg plant, because it destroys its chief insect enemy, the flea beetle, which eats tiny holes in the leaves.

The fruit may be eaten at any stage of growth, until its skin becomes dull. As long as the skin is shiny, the flesh within is in good condition, but when that stage passes, the fruit should be discarded. There are many tempting ways of cooking this vegetable and several different methods should be used during the season.

Egg plant is widely used in Asia, Japan and the islands of the Pacific; soldiers who served in that area had many opportunities to learn how it is served there.

The plants require rich feeding and should never be set out until all danger of frost is over. Set them 18 inches apart in the row and keep them growing by frequent shallow cultivation.

When fruits begin to set, a side dressing of plant food will make the fruits larger.

**SENATOR KEFAUVER AND PRICE DANIEL**

Senator Estes Kefauver and Texas Attorney General Price Daniel appear together on a program discussing control of organized crime at the recent meeting of the National Association of Attorneys General in Seattle. Kefauver lauded the work of the Texas House Investigating Committee and Attorney General Daniel's conference of county and district attorneys. "As a result of that splendid conference, law enforcement in Texas is much improved and organized gambling largely eliminated," Senator Kefauver said.

**"Largest Possible" Total Of Sales To Be Goal Of Defense Bond Drive**

The "largest possible" total of sales will be the goal of the Defense Bond Drive to be held Sept. 3 through Oct. 27, Nathan Adams of Dallas, state Defense Bond chairman, announced Thursday.

There will be no dollar quotas, Mr. Adams said in a letter to Pat Boone, Defense Bond chairman for Lamb county.

"Instead, Treasury Secretary John W. Snyder has asked us to sell as many Defense Bonds as possible, to back up our armed forces and to help resist the pressure of inflation," Mr. Adams said. He urged the local chairman, however, to set for the county a goal "high enough to be a challenge to you and your committee."

"The people want a part in the nation's defense effort," he said. "Right now the most practical way for them to help is for them to buy U. S. Defense Bonds."

Mr. Adams said that volunteers are being organized in every community of the state to conduct intensive campaigns during the drive, which is the first since outbreak

of the Korean war more than a year ago. Emphasis will be placed on increasing sales through the payroll saving plan, which permits employees to buy bonds by having deductions made from wages or salaries, and the Bond-A-Month Plan, through which bank customers can buy bonds automatically.

**Rev. Rankine Is New Pastor Of Amherst Church**

Rev. John S. Rankine is the new pastor of the First Baptist church in Amherst. He and his wife and three children, one girl Martha Christene, two boys, Stephen and James have moved from New Deal where he was pastor of the Baptist church since the latter part of 1945.

He received a degree from Wayland College at Plainview and Howard Payne College at Brownwood. He also studied at Texas Tech

College at Lubbock, and received his master of theology degree from Southwestern Seminary in Fort Worth.

Rev. Rankine has been in the full time ministry for the past 17 years, with part time before that. He was pastor of the Seagraves Baptist

Church for eight years before entering the service as an Army Chaplain. He was in service for 40 months spending 20 months of that time in the European theater. He was released from the Army around Thanksgiving time of 1945 and moved to New Deal shortly after that.

The Amherst people first sermon delivered by Rev. Rankine as minister of the Baptist Church on Aug. 31, when he will hold a day revival at the church. He is now conducting a revival at the church near Levelland.

*Look, Mom.*  
**It's REALLY Insulated**

Yes, mom, you've no fear that your children will be burned when they accidentally touch the outside of an electric water heater... it's FULLY insulated, top, sides and bottom. You see, an electric water heater needs no air to heat the water 'cause there's no combustion in the heating element. Thus the electric heating elements are completely contained WITHIN the tank. You get your money's worth with an electric water heater fully insulated for safety and economy.

Reddy Kilowatt's special water heating rate makes electric water heating economical, too. For plenty of hot water always, safely, economically, see your electric appliance dealer now.

SEE YOUR Electric APPLIANCE DEALER!

**HADACOL HELPS LEE AND MARILYN SUE**

HADACOL Helps Children with Weak, Run-Down Conditions When Due to Deficiencies of Vitamins B<sub>1</sub>, B<sub>2</sub>, Niacin and Iron

Young Lee Horton and Marilyn Sue Scieszinski live many miles apart, but they both have one thing in common—they both take HADACOL. When Lee was not feeling as good as his father, F. W. Horton, thought he should feel, he gave Lee HADACOL. Lee, who lives at 108 74th Ave., Houston, Texas, took his HADACOL regularly and his father says he now feels real good.

Mrs. J. Scieszinski, Marilyn's mother, who lives at 514 Kruger, Ottumwa, Iowa, sees that her daughter takes her HADACOL each day, too, and Mrs. Scieszinski says Marilyn likes to take her HADACOL. Their stories will show you how you may be helped by HADACOL. If you are suffering a weak, run-down condition and poor appetite if due to a deficiency of Vitamins B<sub>1</sub>, B<sub>2</sub>, Iron and Niacin.

Mr. Horton says about Lee: "Lee was very weak and run-down and just didn't want to eat at all. We heard about HADACOL and decided that was what Lee needed. After he started taking HADACOL his appetite picked up right away. He started gaining weight and eats real well now, and has been feeling real good. HADACOL has been good for Lee and I heartily recommend it to everyone."

Mrs. Scieszinski says about Marilyn Sue: "My daughter, Marilyn Sue, is 5 years old, and for some time had a poor appetite, was generally run-down. Since giving her HADACOL, we have noticed wonderful results. She has a much better appetite, eats everything on the table, and doesn't seem tired like she used to. Incidentally, she likes to take her HADACOL, too."

BOYS AND GIRLS! BIG FREE COMIC BOOK! Just write The LeBlanc Corporation, Lafayette, La., for yours. You'll also receive wonderful news about exciting prizes that Captain HADACOL is offering

## ER WINS DETROIT'S "250" RACE

28-year-old Louisville, Kentucky, race driver, gets flag after driving his 1951 Chrysler New Yorker to victory in 250-mile NASCAR stock car classic. Thompson powered by the new 180-horsepower Chrysler V-8 Firepower safely around the pile-ups which marked the race without raising the hood. His was the only Chrysler entered in the race and so difficult that only 24 of the 58 starters finished.

## Springlake School To Open Sept. 3

The Springlake school will open its doors at 9 o'clock for a half day session on Monday, September 3. The buses will run at the regular scheduled time. Following a general assembly the students will assemble in their assigned rooms for registration. The first grade entries are required to have their birth certificates for enrollment.

Rupert W. Spann will head the Springlake school for the 1951-52 year. Mr. Spann is a graduate of the Oklahoma A.&M. College with a B.S. and Master's degree. He attended school this summer at Oklahoma A.&M. beginning work on his doctor's degree. Mr. Spann has twenty-one years teaching experience with ten years as superintendent.

Floyd Davis from Denton, Texas, was elected principal of the high school for the school year 1951-52. Mr. Davis is a graduate of North Texas State College at Denton, having obtained his bachelor's and master's degrees there in the field of biology. He went to school an additional year at the University of Wisconsin at Madison, Wisconsin.

A school improvement project which affects the entire campus has been in progress this summer. A complete new water system has been installed and a new sewer disposal system will be completed for the entire school system this week.

The grade school building will have a "new look" this year. The younger children should enjoy the vast change which has been made in the old building during the summer.

A modern lighting system has been installed throughout the building and the annex building between the high school and the elementary school. The attractive light fixtures furnish indirect lighting in the classrooms and the halls have more fixtures than previously.

The floors have been sanded in all the rooms, offices and halls. They have been varnished and have a natural finish which is a great contrast to the old oiled floors.

The building has been painted throughout. Various color schemes have been used giving a variety of color among the classrooms. The paint in the hall affords much more light than did the old.

Plans are being made to paint the blackboards green which is now found in many of the schools throughout the country.

Every room will have new furniture. In the first four grades tables and chairs will replace the old type school desks. These are called "airplane" desks with two pupils sitting at each table with book compartments in the center. The portable tables have plastic tops and can be arranged conveniently to meet the various grouping needs of the classroom.

The upper grades will have chair-desks. These desks also have plastic tops and have book compartments under the seats.

New text books have been adopted for the first grade. They are modern books having been published recently.

The following faculty members have been employed for 1951-52 school year:

- Mrs. Clara E. Morgan, first grade.
- Mrs. Johnny Cardinal.
- Mrs. Ruth Spann.
- Mrs. Vada Britt.
- Mrs. Mildred Haley.
- Mr. Harley Winters.

## MOURNING DOVE - WHITE-WINGED DOVE OPEN SEASONS 1951

### MOURNING DOVES

**OPEN SEASON - NORTH ZONE:** Sept. 1 to Oct. 10, both days inclusive. Shooting hours, 12 o'clock noon to sunset.

A band instructor and three teachers are to be employed yet.

## Pretty 21-Year-Old Texas Girl Is Training To Be A Bull Fighter

EL PASO, Texas, Aug. 29 (AP)—A pretty Texas girl, 21-year-old Patricia McCormick, wants to be a lady bullfighter, and she is doing something about it.  
On a recent Sunday, Miss McCormick made her debut in the Plaza de Toros at Juarez, Mexico, just across the Rio Grande from here.  
"Ole, huera!" cried the Mexican bullfight fans. That's roughly equivalent to "nice going, Blondie!"  
Her appearance was the climax of many hours with cape and sword in the hot summer sun. Pat, in Pat's words, "It's the beginning of a career I've been dreaming of for many years... to be a matri-

dora, a lady bullfighter.  
And it looks like a successful career is in store for the shapely young lady. Mexican fans, as hard to please as they come, loved her.  
Pat was not required to kill a bull Sunday. Her work consisted of passing the bull with a cape. She was knocked off her feet twice by a bull which hooked at her legs instead of following the cape. This served only to make her mad instead of frightened. Her trainer, Alejandro del Hierro, made her quit after the second spill because he feared her anger would make her too reckless.  
"Afraid? No," Pat said, "but it sure made me mad getting dumped

twice my first fight."  
At present, Pat is an art major at Texas Western College at El Paso, Texas. The location of the school, directly across the Rio Grande from Juarez, makes it handy for her to include in her passion for the fiesta of the brave bulls.  
Following graduation from Texas Western next year, Pat plans to study the art of bullfighting at a ranch in the interior of Mexico. She hopes to gain enough experience there to enable her to become a full-fledged killer of the brave bulls.  
Commenting on the oddity of an American girl becoming a matadora, Pat said, "I've had the ambition ever since I saw my first bullfight in Mexico City at the age of seven."  
"And," she added, "I'm in dead earnest."

## Telegraph Rates To Be Increased

Telegraph rates are going up, and that 10-worder which so often ended with "love" is going out. In most cases, the exact amount of the rate increases remains to be worked out. But the minimum charge will be for 15 words instead of the present 10.  
The Federal Communications Commission late Saturday disapproved as too high proposed rate schedules filed by the Western Union Telegraph company and designed to yield \$11,800,000 net revenue.

**Agrees To Increase**  
However, the FCC agreed the company needs up to \$9,800,000 more revenue as a result of a July 1 wage increase.

As a result of the FCC action, the company must start all over and draft new schedules. If they meet with FCC approval they will be allowed to go into effect promptly.

While not specifying exact rates in most cases the FCC did authorize Western Union to:

1. Make 15 words instead of 10 the minimum charge for straight telegrams.

**Minimum Charge Hiked**  
2. Increase the minimum money order premium for money orders from 15 to 25 cents. This charge is in addition to telegram charges.

Make 50 words instead of 25 the minimum charge for night letters, with no change in the present 50-word allowance for day letters.

Put into effect a new formula increasing charges for press dispatches. Under it the day press rate will be one-half the telegram rates, and night press one-fourth the telegram rates. Press rates now are one-third and one-sixth, respectively.

The American Newspaper Publishers association objected to the new formula because it would increase press rates proportionately more than telegram service. The commission said however, that it did not regard the formula as "unreasonable."

## Slot Machines in Texas Drop From 9,555 To 127 During Past Year

Slot machines in Texas have dropped from 9,555 to 127 in the past year, and Attorney General Price Daniel predicted this week that the 127 slots will be eliminated before the state's new anti-slot machine law becomes effective on Sept. 7.

Last year Texas, with 9,555 slot machines and gaming devices, led the nation in the number of machines on which the federal tax of \$150 had been paid. This year's payments, which were due by August 1, 1951, showed that taxes were paid on 120 machines in private clubs and seven machines in public places.

Words of praise for Texas law enforcement agencies from the nation's chief crime buster, Senator Estes Kefauver, and reports of more investigations by the House Crime Committee were in the news of Texas' continued war against organized crime during the past week.

Kefauver and Texas Attorney General Price Daniel appeared together on a panel discussion of control of organized crime at the recent meeting of the National Association of Attorneys General in Seattle.

Before the chief attorneys of the 48 states, Kefauver gave a public expression of praise to Daniel, the Texas Legislature, and law enforcement officers for this fight against crime.

Kefauver said that Attorney General Daniel's conference of Texas district and county attorneys should be followed by other states.

Daniel reported that Texas had ended slot machines and open racehorse bookie parlors, the two forms of gambling branded by the Kefauver Committee as the backbone of organized crime.

Open bookmaking shops have been closed by Daniel's injunction suits against telegraph and telephone companies. The drop from 9,555 to 127 slot machine payments shows the effectiveness of the new law passed by the 52nd Legislature.

Meanwhile, Chairman Fred Meredith of the Texas House Investigating Committee was planning new hearings for early fall. Meredith would not designate the places but it was rumored that Dallas and Houston might be on his list. The majority of Galveston gambling was reported still closed with

## Gypsy Smith, Jr., Dies of Heart Attack Friday

Gypsy Smith, Jr., 70 noted retired evangelist, who held one of the most interesting revival meetings ever staged in Littlefield, died of a heart attack while on a fishing trip last Friday.

He was the son of the famous evangelist, the late Gypsy Smith.

The evangelist went into the Gulf of Mexico Friday afternoon on his 60-foot luxury liner, and about an hour later he became ill. When the craft docked at Pass-A-Grille, Florida, doctors could find no sign of life.

Rev. Smith held a joint revival meeting here at the Frist Methodist church in the fall of 1944, when several of the local churches sponsored the joint meeting. He was a forceful and interesting speaker.

## Insurance Men Attend Convention

Four representatives of the local branch of the American National Insurance Company have qualified for a free trip, with all expenses paid, to the State Convention, which will be held at New Orleans, La., August 30, 31 and September 1.

On account of the volume of business they have written Supervisor R. E. Mitchell, and representatives J. C. Smith, J. N. Carden and J. C. Deere are entitled to the trip, and they left Littlefield Tuesday for New Orleans.

## Sudan Santa Fe Agent in Hospital At Taos, N. M.

Raymond Bowman, Sudan Santa Fe agent, who was stricken with a heart attack while vacationing at Red River, New Mexico, has been the local county attorney, Raymond Magee, making nightly raids on those who defied the law.
