CWE CHAT WITH EDITOR

By Louis C. Stas

CONGRATULATIONS to Gary Bryant of the Kelton Lions for having been named "Player of the Week" by the *Pampa Daily News*. Gary averaged 25 points in each of two consecutive games.

CONGRATULATIONS to Diedra Dukes of Ft. Elliott for having been named "Player of the Week" by the *Pampa Daily News*.

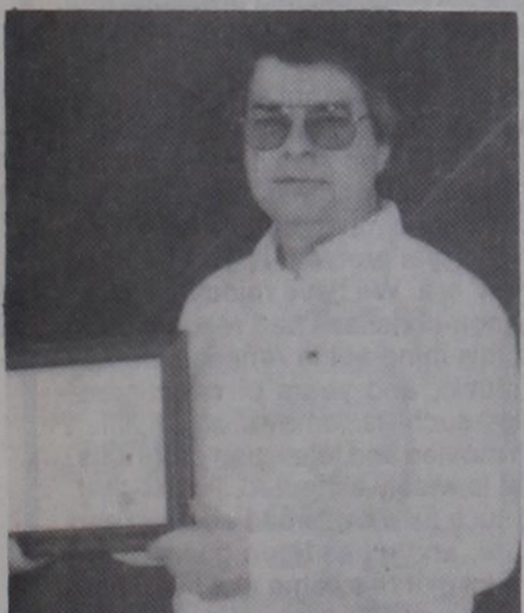

The rain surprised me Tuesday evening. I was aware it was cloudy, did not expect rain. I measured .42 Wednesday morning.

Planting season soon to be here. The local Thriftway is expecting their supply of seed potatoes and Texas Sweet onions.

The annual Chamber of Commerce Banquet will be Mon., Feb. 15, not 'Mom'. I am sure more than Greg Smith noticed this "small" error in the paper last week.

If you haven't gotten your tickets, you may be out of luck. If you are needing a ticket, I would recommend that you call the Chamber office, 826-3408, and put your name down for the number of tickets needed.

We did have fantastic weather over the weekend. I got some yard work done Saturday and even had time for a few games of croquet. It was more fun for Jennifer and I than it was for C. B.

15 YEARS SERVICE: A certificate, lapel pin and letter of congratulations was presented to Louis Stas Tuesday, February 9, for having served as weather observer for Wheeler for the past 15 years. The job includes measuring rain and/or snow and reporting the total moisture at the end of each month.

Ben Trout Observes 101st Birthday

Ben Trout of Kosse, Texas, celebrated his 101st birthday. Ben received many cards from his friends in Wheeler. At his party, a man stopped by that was 85 and was born at the same place in Oklahoma that Ben was born. They had a very good visit and Ben really enjoyed it.

Ola was able to sit in a chair during the celebration. Cake and punch was served to friends and relatives, who helped to celebrate Ben's birthday.

Ben would like to thank all his friends from Wheeler and elsewhere that sent cards.

Jana Velasquez

J. Velasquez Returns From Trip To London

Jana Velasquez, a senior at Wheeler High School, was among a group of cheerleaders from all over the United States selected as a UCA All Star Cheerleader to perform in the Lord Mayor of Westminster's New Year's Day Parade in London, England. The group of over 1000 cheerleaders from the U.S. spent six days in London touring the area and performing in the parade on New Year's Day. Jana won the honor to go to London through try outs at cheerleading camp this past summer.

Jana's group consisting of girls from Texas, New Mexico, Oklahoma, Kansas, Arkansas and Louisiana departed from Dallas on December 26th, arriving in London the morning of the 27th. Upon arrival they checked into the Tower Thistle Hotel where Jana met her two roommates who were from the Dallas area. While in London the cheerleaders were sponsored and escorted by staff members of the Universal Cheerleaders Association.

During the six days in London they toured many London landmarks such as the Houses of Parliament, Big Ben, the Tower of London, St. Paul's Cathedral, and Westminster Abbey. They also toured Windsor Castle, Oxford University and Stratford-Upon-Avon, William Shakespeare's birthplace.

On New Year's Eve they attended The Victoria Palace Theater for a performance of the hit musical "Buddy". Then on New Year's Day they participated in the mile and one half long Lord Mayor of Westminster's New Year's Day Parade down London's Regent Street, ending with performances at Royal Albert Hall.

This trip was a wonderful opportunity for Jana to meet girls from all over the United States and to see and experience London. It was definitely an opportunity of a lifetime and something she will always remember.

State ASCS, SCS Leaders Warn Area Producers Of Stricter Enforcement of Program Compliance

With federal Agriculture department officials under intense pressure from environmental interests, farmers will be facing increased scrutiny to be sure they are complying with the conservation provisions of the 1985 bill.

That was the message delivered in a meeting at Lamesa Friday morning by the top state officials with the USDA's Agricultural Conservation and Stabilization Service and Soil Conservation Service.

Sponsored by the Lamesa Cotton Growers, the meeting filled the Forrest Park Community Center with over 200 farmers and ASCS and SCS employees and committee members from some 22 counties throughout the region. The meeting drew individuals from as far as Sweetwater, Pecos and Matador.

Persons attending were told at the outset that they were going to get an unpopular message from the panel which included Donnie Bowman, director of the state ASCS office; Wess Oneth, SCS state conservationist; Darrell Davis, chief of conservation in the state ASCS office; Pat Henson, SCS assistant state conservationist and Lamesa resident Jerry Harris, chairman of the state ASCS committee.

Henson told the group that the SCS and ASCS must follow federal legislation and rules to the letter and that they simply have no more flexibility to grant farmers leniency in complying with conservation provisions of the farm program.

"We have gone as far as you can go and you needed to be aware of that," Henson warned.

Harris said that environmentalists with the League of Conservation Voters believe the ASCS and SCS personnel will not be doing their job properly unless they find 25-30 percent of the farmers out of compliance.

"Many people would like to judge us by the how many people are ruled out of compliance," said Oneth. "They don't think it is enough."

"If the SCS doesn't get the job done, there's some people waiting in the wings to do the job for us," Henson said of the pressure facing the agency.

All of the speakers advised the farmers to do everything possible not only to be sure they are following their conservation programs exactly but also to be sure all the necessary paperwork showing that compliance is properly filed with the ASCS and SCS.

They strongly urged farmers to check with the agencies before taking any action on their farms that might possibly affect their compliance with conservation programs.

The consequences of failing to meet their conservation plan requirements are severe, the farmers were warned. Failure to be in compliance on even one tract of land will mean the persons responsible will forfeit all government farm program benefits not only on that individual tract but on every piece of land they have in the program.

Bowman and the others repeatedly noted they have no authority to change the rules and can only pass concerns expressed locally on up the chair of command of the officials in Washington.

During an hour-long question and answer session following the initial hour of presentations, most of the discussion focused on the April 1 plow-up date for high-residue crops in this region and on requirements regarding rotation of crops.

A man identified as Don Parrish received a strong round of applause after he presented and read a prepared statement from a group of Yoakum County farmers asking the

officials to grant SCS district conservationists and local committees the flexibility to grant changes in the plow-up date and to allow deep breaking as a conservation practice.

Oneth and Henson noted the conservation requirements are all based strictly on proven research and that research cited by Parrish has not been completed. The federal rules, they said, simply do not allow state officials to give local committees and authority to grant changes except in specific instances.

Explaining the compliance rules during his presentation, Henson said that weather-related variances are allowed on a case-by-case basis.

Henson said that to get that variance—which must be approved at the highest levels—farmers must have met SCS specifications, must have had a conservation practice fail and be losing soil to erosion, must re-apply their conservation practice the following year and be spot-checked by the SCS, and must carry out an emergency tillage as needed.

Henson said the SCS is responsible for determining whether producers are applying and maintaining the conservation practices set out in their required conservation plans.

Each year a certain percentage of all farm tracts—officials were not sure whether it will be three or five percent—will be selected through the ASCS computer in Kansas City to be spot-checked for compliance.

Producers will be notified in advance if their farms are selected for review, Henson said.

On-farm status reviews also must be conducted on any farm in which the SCS receives a complaint on a simple comment indication that farm may be out of compliance.

Noting the reviews will be conducted when the critical conservation practice should be in place to control erosion, Henson said officials will be checking farms in this region during March to determine if crop residue requirements on the surface are being met.

Henson said any farms who have any questions about what their plan requires should contact their SCS office to be sure they understand all aspects of the plan.

Any appeals of SCS decisions which have a serious impact on the farmer or landowner—such as failing to meet the conservation requirements—may be appealed in writing within 15 days of the action.

Appealable items, said Henson, include: designation of land as highly erodible, designation of wetlands, disapproval of a conservation plan, improper use of SCS policy in developing a plan, Conservation Reserve Program (CRP) designation, and SCS determination that the approved conservation plan is not actively being applied.

Here & There

By Laura Guthrie

Before another Wheeler Time's is out, our Chamber of Commerce Banquet will be over, but I hope not forgotten. It is my opinion that the C. of C. is the major power of a community. It is an implement to draw people together; to encourage our own local citizens to solve their own problems and promote our growth. I can remember when I played a small part in the organization. I enjoyed the banquets—a summing up of the year of endeavor. I remember that one year we had Kenneth Wyatt as guest speaker. He is great. I hope a lot of you will attend next week relax for an hour or so, and get an inspiration to carry on the work of the future.

Melinda and I made a trip to Tulia on Monday to see my sister Lena Herring. Lena is ill and is a constant hospital patient. She gets around and visits other patients or may be sometimes will be taken out to lunch. Monday was not a good day for a visit. She had just been to the dentists office and was tired and upset. However I was glad I was there, even though some other time she might have been more relaxed.

We also had a short visit with my sister-in-law, Hazel Wimberly. I'm glad we made that visit. Since Hazel is alone and her only child lives in Houston, she is making plans to move there.

I have been waiting to find Mr. Rush Limbaugh's name mentioned in our area newspapers, before I began my diatribe against him. Last week the letters to the Editor of the Amarillo News Globe carried some praise for "Rush" (I thought "how could they?") This week the trend had changed. On the Opinion page one man is thoroughly disgusted and stated that he is not surprised that KGNC has dropped from the top Amarillo radio station. (They have Rush booked for 3 hrs. per day.) He also said he thinks Senior Citizens are going along with Rush. But I would like for him to know that I am a senior citizen and do not approve of Rush. Actually I think Rush would not approve of Seniors, because he does not approve of anybody but himself.

The Plainview Herald asked their readers what their opinion of Rush Limbaugh is. A few answers were, quote; "Rush Limbaugh is a bigot, sexist, pompous, highly-overated, opinionated, bag of hot air who should be banned from radio and television". "I have watched his TV program twice and was so taken aback by the malice and hate that he portrays that I don't plan to watch it again." "Rush Limbaugh is a sore loser and a bigot. If he really wants to help America he should fast and pray for at least 30 days before blaming his problems on other people."

As for my opinion of Rush Limbaugh: I have never heard a complete 30 min. program. I cannot stand his ranting, raving and mimicking for more than 10 min. I won't describe in words what I think he is. But I could sure use stronger words than others have used. I deplore the man. His tongue is evil and full of poison. A man like he is could destroy our world.

I'll sign off but I'll probably have more to say before the summer is over.

THE WRATH OF GOD

Somebody had a dream the night before the election and believes that God has shown him that America is going to be blessed in the term of this new President. This guy believes that God is going to change Bill Clinton into a different man, and it will turn out to be a great blessing. He believes it was in the will of God for Mr. Clinton to become President. If that is so, it is very interesting that 10,000 homosexuals actively worked for his election and the largest homosexual group in America contributed over \$3 million to his campaign, and the abortionists also heavily worked for his election. In fact, many pervers of various groups supported him in large numbers while the majority of Bible-believing Christians voted against him. He only received 43% of the total vote. That means that 57% voted against him, and the largest voting block who voted for Bush was Bible-believing born-again Christians. Now, because of this fellow's dream, we are supposed to believe that all the ungodly pervers were right and the people that love God the most and wouldn't want to do anything to displease the Lord, all in mass voted against the will of God. That's weird!

Now, to all of you die-hard Democrats, who are reading this article and are already angry with my first paragraph, please settle down for a minute. I didn't say that EVERYBODY who voted for Clinton was a pervert and ungodly. I well know that many people who really love the Lord and are dedicated Christians voted for Mr. Clinton. However, they didn't vote for him for the same reason that the pervers did. The pervers voted for him because they believed he would advance their agenda which he has aggressively pursued so far. Most of the Christians who voted for him did so because they always vote Democrat regardless. They believe Republicans are dangerous for America, and they'd vote Democrat whoever was running and whatever he stood for even though they personally object to the things that he stands for. So, I am not classifying you that are that type with the pervers, but fact are facts, and the man was heavily supported by the most unchristian, ungodly type of people you can imagine.

My point is that somebody's dream or a prophecy that somebody may think he has does not automatically change Biblical principles. It is much more likely that America will incur the wrath of God than it is that we will be blessed by this present Administration and Congress. Bill Clinton is not our problem in America. The problem goes much deeper than that. He is a symptom of the real problem. The real problem is that America as a whole has entered a "post-Christian" era. We have rejected values and Biblical standards that even many non-christians had respect for in years gone by. Contributing factors to this mind-set in America include humanism, television, rock and roll music, and years of rejection of Biblical morals. I am referring to things such as removal of Christian material in schools, perversion through movies and television programs, and downright nasty lyrics in music that is widely accepted. Add to that, liberal policies that have been enacted such as widespread abortion and vulgar art. All these things affect culture, and it has been going in the wrong direction for a long time. I think a lot of it has come to a head now in the current Administration and Congress and Supreme Court.

The Bible says, "the wrath of God is revealed from heaven against all ungodliness and unrighteousness of men, who hold the truth in unrighteousness." (Romans 1:18) The word "hold" in this verse literally means "to hold down". When the Supreme Court says we can't talk about the Bible in schools and can't post the Ten Commandments on the wall anymore, that is an example of holding down the truth. When politicians actively promote abortion and persecute those who oppose it calling them religious zealots and fanatics, that is an example of holding down the truth. When television networks continuously give complimentary coverage and polite interviews with homosexual after homosexual and blast people like Jerry Falwell and Pat Robertson and James Dobson referring to them as the radical right-wing fringe element, that is an example of holding down the truth and promoting wickedness.

According to the Bible, that invokes the wrath of God, not a blessing. I believe in supernatural manifestations of God through prophecies or visions, etc. However, those things cannot be of God if they completely contradict the Word of God. According to the Word of God and considering the trend of the times, we are in for some serious trouble in this country. If you haven't yet given your life to God and placed your trust in Him, you would be wise to do it now. Find a Bible-believing church and make Jesus the Lord of your life. You'd be a fool to neglect it.

What's left out of a feed is important, too

When you buy a protein block—or any other livestock feed supplement—it's good business to know what's in it and what's left out.

MoorMan's® spends a lot of research time and effort determining what to put in every concentrated Mintrate® Block and other protein-vitamin-mineral products.

But we also leave out three kinds of things that can increase your cost of livestock production:

- Unnecessary ingredients
- Inferior ingredients
- Unproven ingredients

Every MoorMan Representative is proud of what's left out of our high-quality products as well as what's put in them.

Let me show you what it can mean to you in livestock performance and total feeding cost.

Bob Puryear of Allison has not been doing well at all since his heart surgery and then a stroke and was in Oklahoma City for some time. He and Virginia went back to Oklahoma City to the doctor Friday. Remember them in your prayers.

We went to Mobeetie after the funeral Thursday to see Wheeler Christian Academy play St. Andrews Christian School of Amarillo. WCA won both games. Some of girls playing were Junita Rose, Heather Dean, Jana Chandler, Mary Hall, Sharissa Mong, Bridget Chandler, Susie Galutia and Anna Marie Griffin. Had a good visit with Laura Nell and Mike Mong and a little great niece from Sweetwater.

Happy Valentines Day! We have decorated the nursing home for Valentines day and the Thursday Review Club will be giving the residents a party. At the party we will draw for Queen and King to be the Sweetheart of the party.

We have a new resident to welcome to the nursing home. Her name is Edna Crow. Edna is from Guymon, Ok. She loves to do all kinds of things to keep her busy. Come on out and meet Edna. She would love to visit with you.

Good to know that little Zachray Sawyer Rodgers' eyes and maybe other organs were donated to help other children see again. So in a way, he will live on, and we know he's safe in the arms of Jesus. Bro Hellsley gave a comforting message and Rita Pearson sang "Jesus Loves Me" so sweetly. Also Rita and Winnie Gilmer sang "I'll Fly Away". Beautiful baby.

TAX DEFERRAL AVAILABLE FOR ELDERLY TAXPAYERS

Texans aged 65 or older can postpone paying delinquent and current property taxes on their homesteads by taking advantage of a tax option called over-65 deferral. The elderly homeowner simply signs a deferral affidavit at the Wheeler County Appraisal District office.

This special form of tax relief can also halt a lawsuit already filed to collect delinquent property taxes on an older Texan's homestead. To stop a delinquent tax suit, the over-65 homeowner files the deferral affidavit with the court in which the suit is pending.

Once a homeowner files an over-65 tax deferral affidavit with the appraisal district, no taxing unit can initiate or pursue a suit for delinquent taxes as long as that person lives in that homestead.

Tax deferral for the elderly only postpones paying delinquent taxes on the homestead; it does not cancel them. During the deferral period, taxes and delinquent interest continues to add up. When the elderly taxpayer no longer owns or lives in the home those accrued amounts become due. Taxing units can then sue to collect all the deferred tax and interest.

While a penalty may not be imposed on the delinquent taxes during the deferral period, the filing of the deferral affidavit will not forgive penalties which were already due. Also, an additional penalty associated with referring the account to a delinquent tax attorney may be charged if taxes remain delinquent more than 90 days after the deferral ends.

Forms for filing a tax deferral affidavit are available for your appraisal district office. The signature on these forms must be witnessed by a notary public. For further information call 826-5900.

Seen that Cowboy/Bufalo Bills game on the tube and wondered What happened. Them Bills should have stayed at home, but they tried. One big joke was when near the last of the game that Cowboy was heading for the goal line with the football in his right hand sort of actin silly and that Buffalo player knocked the ball out of his hand rite there at the goal line. Sometimes we sort of get carried away with some sure cinch and our balloon bust. Sort of embarrassing aint it?

From The Minister's Desk:
In a bookstore, I recently saw a table that had several stacks of books on it. On the table was a sign that said: "Free Book—Help yourself."
After I took a book, I watched with interest the reaction of other people to the offer. Some people simply took as I had. Other people had different responses. For example, a man apparently read the table of contents to see if it was a book that he wanted. A lady did not believe that the book was free and offered to pay for it. Other people were highly skeptical of the offer, suspecting a "gimmick". Still other people totally ignored the offer.
God makes a similar offer to people. He offers salvation to people as a gift which means that it is not earned or deserved. The New Testament says: "—The free gift of God is eternal life in Christ Jesus our Lord." (Romans 6:23) But like those books in the bookstore—God's free gift—must be accepted by faith. Romans 5:1-2 says: "—Having been justified by faith, we have peace with God through our Lord Jesus Christ, through whom also we have obtained our introduction by faith into this grace in which we stand; and we exult in hope of the glory of God."
The conclusion then is obvious!
Salvation is by the grace of God which is accepted by faith.
Since salvation is accepted by faith, it is imperative that faith be properly understood. According to the New Testament, faith is not characterized by mere mental assent or conviction. Rather it is characterized by obedience to the will of God. James 2:18-20 says: "—Someone may well say, You have faith, and I have works; show me your faith without the works, and I will show you my faith by my works. You believe that God is one. You do well; the demons also believe and shudder. But are you willing to recognize you foolish fellow, that faith without works is useless."
What has been your response to God's free gift of salvation? Have you made futile attempts to earn it with religious rituals? Have you been afraid that it contained some "gimmick" that would shackle you to a life of slavery. Or have you simply ignored this gift of salvation?
Consider again this marvelous gift. Then accept it with faith by being obedient to the will of God.

troops have to during combat or even on maneuvers, but I feel that he is opening a can of worms, so to speak, that will backfire on him and our whole military system. There is a difference between an honest mistake or one that has been thought out but this big item he is so demanding that he wants to be passed is Pandemonium, honestly it is and all concerned will suffer.
I thought it was to be a stimulation of our economy and the better education of our children and housing and that sort of stuff that was to be the concern of our new administration. How can this be if the very first things that concern them is homosexual liberation and abortion liberation. We have problems all over the world that effect everyone such as the things in Iraq and the Bosnian horrors and it Samolia. Man, you could name many such conditions that could explode in seconds that would involve the human race. Aren't these things more important than some personal whim?
One time our family lived in a western state and we had elected a new governor and he too started firing this one and that one, changing this rule and that rule and durned if we didn't have us a ball of wax, honest things got to be in quite a mess in short order. Finally some of the older heads got things sort of shut down and turned around before this governor had everything out of control.
There is no one human on this planet that can solve all our problems nor any single one of them by themselves. It is an impossibility and we all know it if we give it any honest thinking and consideration. If you look, you can find a ditch digger that can help you with computer problems and a doctor can find a garbage man that could help him with some of his problems. You can look around your neighborhood and find geniuses who are day laborers and if you doubt it you just ain't

lookin. Many of our best known inventions are done by some of our so called common man.
I think of the time some big investors were looking over some property in the back country. They were in their limousine and well dressed but somehow they had lost directions and had stopped a young boy in his bib overalls and tattered shirt. One of these gents asked the boy how far it was to Denver, the boy didn't know. The gent asked of other towns in Colorado and the boy didn't know and finally this fine dressed gent said "son, you don't know much do you?" The little shaver looked at him and said "no, I don't know much but I shore as heck aint lost."

Some exciting games at Follett Monday night when Ft. Elliott junior high went to play basketball. Good games, but Ft. Elliott girls lost 21-29. By quarters: 2-9, 9-15, 16-25 & 21-29. Amanda Shields 10, April Purcell 3, Reagan meadows 3, Dana Trimble 2, Catrina Wash 2 and Tiffany Gonzales 1. Also playing were Stacie Dukes, Tera Hefley, Cynthia Cloud and Ja'Nae Goad.
Boys game started good. Looked like we might have the game in our pockets, but they kept inching up and making three pointers. Then when Steven May and Donnie Barr fouled off in fourth quarter, it got scary, by quarters: 10-4, 20-15, 27-19 and 36-32. We won! Steven May 18, Donnie Barr 9, Tanner Smith 7 and Sam Wash 2. Also playing: Michael May, Tywood, Billy Umsted, Matt McCurley, Jimmy Bennett and Michael Hilburn. They all and several parents and fans stopped back by the Pizza Hut in Canadian and ate after the game. Their last one this year. Congrats to Coach Smith.

I've always said, "as confused as a kid that dropped his bubble gum in the hen house." Yep, I'm confused. I cant understand how anyone, especially the president, that can make so many decisions in so few days that are so important to the whole US of A and really the whole world.

Pesticide Applicators License Course Offered

Agricultural producers will have an opportunity to get a private Pesticide Applicators License Tuesday, February 23, 1993, in the Wheeler School cafeteria, according to Don King, CEA. The training and testing session is sponsored by the Texas Agricultural Extension Service.

The training session will begin at 6:00 p.m. and will be followed by the test which will be given by Charlie Thomas of the Texas Department of Agriculture. The test should conclude by 10:00 p.m.

A limited supply of study materials for the test are available on a first come, first served basis by contacting the Wheeler County Extension office at 826-5243.

A \$50.00 fee is required for those who pass the test and qualify for the license. The license is good for 5 years.

Those producers who currently hold an applicator license should remember that they must accumulate 15 continuing education units (CEU's) within years from the time their license was issued. Certified applicators (those who got their license prior to January 10, 1989) must have 15 CEU's by December 31, 1994. This training session will not count for CEU's.

COPING WITH TODDLER FOODJAGS

Foodjags begin to occur when preschoolers start to experiment and explore independence. Suddenly, they reject a favorite food or want the same food over and over again. When this happens, it is easy to react by demanding that the child eat other foods. A better approach is to serve small portions of a variety of tasty and healthy foods, including the favored food in an equally small portion. Don't bribe, threaten, force or argue. Wait until you finish the meal to quietly remove what your child has not eaten without a fuss. As you repeat this, your child will come to understand that mealtime is for eating rather than gaining attention for not eating.

The Dale Stevens family met Nikki Scott in Pampa Friday night and bowled and ate Pizza. Brooke and Rhonda went home with Nikki to Canyon and came back Sunday and met Janet in Pampa.

Nice to have Esther Brown and Justin, Joanie and Jessica meet us for supper at Pampa Saturday night. Justin has been a starter on White Deer J.V. team and have had lots of games. Will be running track soon. He is very fast. Kevin and Jennifer Wood and Kolton and Kaleb were coming to spend night. Lee was shearing goats.

There was a very nice baby shower Sunday afternoon for Davis Steven Corse, son of Steve and Sami Corse. Two great grandmas, Georgia Corse and Nettie Walker; two grandmas, Shirley Garrison from Bovina and Aline Corse; and a great aunt, Vera Walker were there. Hostesses were Mary Nell Finsterwald, Gay Purcell, Pat Graham, Sonya Holder-Martin, Barbara Fourier, Verna Fillingim, Kathy Haxton, Angela Forward, Pat Shields, Mary Kay Talant, Mary Burrows, Sue Harrison, Sallie May, Marie Gudgel, Janet Tatyrek. Others there were Carol Gordon, Dorothy Risner, Evelyn Meek, Jan Shelton and Shane, Pam Jones, Zana Corse Jones, Bernice Hefley, Lori Baker, Bonnie Meadows and Reagan, Ja'Nae Goad, Julie Zybach, Gaye Hale, April Purcell, Sara Haxton. Also Davis was the center of attraction. A very beautiful baby with lost of dark hair.

We had a very enjoyable singing Sunday night at Gageby Church with Evelyn Meek in charge. Nice to have Jim Turvaille play piano solos, and he brought his sweet family: wife, Terry, and Alan, Amanda and Andrea. Like old times to have Claudy and Ina Mae Brotherton sing with daughter, Doris Finsterwald playing the piano and Andy and April there. A group sang three songs beautifully: Chuck and Phoebe Hartline, Pat Hudson, Evelyn Meek, Martha Meek, Lois Meadows and Rita Pearson. Readings by Aaron Hartline, Willa Fillingim and Ray Hudson. Harmonica solo by Willis Fillingim. Song by Susie Luttrell and song by Evelyn and Rita. All good. Next time, March 7, Rita Pearson will be in charge.

Some asked for the recipe for Spice bars that I took to the shower and singing. It's really Martha Meek's recipe. Easy to make and freezes well.

Spice Bars: Two cups flour, one cup sugar, 3/4 cup oil, 1/4 cup honey, one teaspoon baking powder, 1 1/2 teaspoons cinnamon, 1/2 teaspoon salt, one two eggs and one cup chopped nuts. Beat all together and spread in 9x13 greased and floured pan. Bake 350 degrees for 15-20 minutes. Don't overcook. Mix and spread on hot cake: 1 cup powdered sugar, one tablespoon water, two tablespoons mayonnaise, two teaspoons vanilla. Cut in bars.
